Her greatest wish is to become a stenographer. She understands and speaks English well, but not fluently to help her of her desire.

With your help Mr. Benson would you kindly beg the Indian Department to furnish the childs further education.

Hoping to hear a favorable answer.

I am Sir

The Department answered her, if she would attend the School for two more years they would consider the matter.

This she has fulfilled faithfully. you will kindly see among my reports she has been a regular pupil for six years.

She is well versed in all the branches of her class as a Forth Reader.

The girl is now sixteen years of age. naturally the mother wishes to keep her home. She is an exceedingly a clever girl.

Sir:-

Referring to you letter No 281 710, dated 19 ultimo, I beg to inform you that on the 2nd instant, I have visited the Caughnawaga Bush School where Miss Frances Philipps is one of the pulils. I have made inquiries as to the educational standing of this girl, and I find that she has received a little more than an elementary education, I was told by Mrs A. Beauvais, the teacher, that her request in behalf of Frances Philipps has been misundrestood at your Department, instead of a course in stenography Mrs Beauvais desires that Frances be sent in an English speaking Convent, for instance, Aylmer Convent, Aylmer East, Ont.; I have noticed that this girl aged 16 years old, ought to have a better education, Frances Philipps is a clever young girl, I therefore ask your Department that she be permitted to enter Aylmer Convent, Ont., with a grant of $8.00 per month for her tuition and maintenance.

Sir:-

I beg to inform you that an Indian girl of the Caughnawaga Reserve is very desirous to receive a better education, and she is asking your Department to help her in this connection. Her name is Louisa Regis, she is 23 years old, she is the eldest daughter of Lawrence Regis of the village of Caughnawaga, she has already received three years in the Convent St Laurent, near Montreal, this mean to say that she is quite advanced, bur she desires to receive her Pedagogical Diploma at the Normal School Notre-Dame, on Sherbrooks street, Montreal; Mis Regis, if a Diploma is awarded to her, intends to teach in the Caughnawaga Reserve, Her father and mother are living, the father is working as laborer at Lachine, he cannot afford to pay for Louisa's education. Miss Regis sems to be ambitious of a better education, and I would recommend to your Department her admission into the Normal School N. D. , with a grant of $8.00 per month for her board and tuition.

Enclosed herein is a letter that I have received from Miss Regis.

Res. # 14

Owing to the commendable showing at the recent public and special examinations by the following boys, names and ages, Angus Williams 13, Joe Beauvais 16, Bertie Canadien 17, ~~Louis Williams 13~~, Mike Delisle 14, pupils of the Caughnawaga Boys' School, senior grade. *

2nd Division, Michel Jacobs 12, John Morris 11, Joe Delisle 12, .Considering the indigent circumstances of the parents of whom, it is deemed very expedient that the Department be asked to aid these boys to continue their studies at a higher institute, suggesting St.Laurent College Que.for the senior grade, and St.Patricks College for the 2nd grade, at which place their board and tuition could be had for an annual outlay of $152.00 per capita, for the senior grades.

Approve
J.M.Brosseau

The work of these boys is very creditable, in fact a revelation to see which statement the attestation of your Agent, and mayor who presided at the said examinations will vouch. Wherefore it is hereby proposed by Mr.Morris, seconded by J.M.Jocks, that the above named deserving pupils be aided, and the Dep't be asked to make provision for the further education of the above named children

MEMORANDUM.

Mr. Scott,-

In July, last, the Caughnawaga Indian Council submitted a resolution asking that, owing to the commendable showing made at the recent public and special examinations made by the following boys,- Angus Williams, 13, Joe Beauvais, 16, Bertie Canadien, 17, Louis Williams, 13, and Mike Delisle, 14, they be allowed to continue their studies at a higher institution and suggesting that they be sent to the St. Laurent College, near Montreal. Mike Delisle, son of the teacher, has since died. I should think that the two Williams boys, Angus and Louis, who are only 13, would be too young to take advantage of a business training.

It is also recommended that provision be made for Michel Jacobs, 12, John Morris 11 and Joe Delisle, 12, at the St. Patrick's Orphanage here. Joe Delisle, I may inform you, is a son of Mr. Peter Delisle, the senior teacher of the Boys' School on the Caughnawaga Reserve, I do not think that he should be an object of charity.

College is given at $152.00 and the course in the Commercial Department covers five years. I am informed that these boys would be able to enter the fourth year and unless they do so I would not be in favour of sending them there. If you prepared to grant the request of the Caughnawaga Council and allow scholarships to a limited number of deserving pupils it strikes me that there should be a more satisfactory test of their attainments than the result of the examinations referred to, which were conducted by Mr. Peter Delisle, the senior teacher of the Boys' School, and I would suggest that Joe Beauvais and Bertie Canadien should be required to pass an examination at St. Laurent College which would satisfy the Principal of that school that they were sufficiently advanced to enter the fourth year and, if they were successful there, the Department would be in a position to say whether it would grant them the privilege of attending this college for two years.

About the pupils who were recommended to be sent to St. Patrick's Home further information should be obtained as their circumstances, as only destitute and neglected children should be sent there.

Sir,-

In further reference to the resolution of the Caughnawaga Band asking that provision be made for the higher education of some boys who were successful at the summer examination I beg to say that the Department will be prepared to pay the fees at St. Laurent College for the two older boys, Joe Beauvais and Bertie Canadien, provided they can pass anexamination at St. Laurent College which would satisfy the Principal of that institution that they were sufficiently advanced to enter in the fourth year. If they wish to avail themselves of this offer a request should be made to the Principal to test their abilities and the result of the examination should be submitted to the Department, when, if satisfactory, these boys may be sent to the college.

With regard to other three boys mentioned in the resolution one is dead and the other two, Angus and Louis Williams, are considered too young to be sent to the St. Laurent College at present.

With regard to the request that provision should be made for certain boys also named in the resolution at St. Patrick's Orphanage here I beg to say that there are no

Sir,-

Referring to that portion of official letter of October 1st, 1914, in which you were informed that the Department would be prepared to pay the fees at St.Laurent College for Joe Beauvais and Bertie Canadien, provided they can pass examination at St.Laurent College, which would satisfy the Principal of that institution that they were sufficiently advanced to enter in the fourth year, I beg to say that the Department is in receipt of a letter from Mr.P.J. Sir:-

I beg to say that the Department has received from Mr. Brosseau, Indian Agent at St. Constant, a voucher covering the board and tuition of Ignace Beauvais and Albert Canadien at the St. Laurent College for the year 1915-16. I may say that payment of the voucher in question will not be made until the end of June when the school closes. A report is required by the Department from you every quarter showing the progress made by the boys in their studies. Seemingly no reports of this nature have been received, although they were asked for through Mr. Brosseau, at the time the boys were entered as pupils at the School. The Department requires an assurance as to the class work done by the boys before making payment for their tuition.

Your obedient servant,

J. B. McLean

MEMORANDUM

Mr. McLean -

Mr. F. McD. Jacobs, Caughnawaga, was in my office after lunch today, and brought to my attention the case of Joseph Monick, 14 years of age, who has been attending St. Laurent College during the past two years. His father was electrocuted at Chekobee Falls, Mass., some two weeks ago. He has borne the expense of the boy's education, but the widowed mother is not in a position to do so now, and yet she is most anxious that Joseph should continue his studies at the College.

We have helped to educate a number of boys at this college; the cost is, I understand, about $150.00 per year, and it appears to me that this is a case in which we might very well come to the relief of the mother. I would suggest that the Agent be written to for a report.

MEMORANDUM,-

Mr McLean.

With reference to the application of Joseph Menick for assistance to attend St. Laurent College, I beg to say that, at the present time, the Department is paying the tuition of two Indian boys, who are attending this institution. The cost of their tuition to the Department is $152.00 for each one. These two boys will, likely, leave this school, this year, as this is the last year, for which the Department has promised a grant. If it was decided to pay the tuition of Joseph Menick, it is likely that it would cost more than $152.00, a year as it is understood that the parents of the boys above mentioned are paying a part of their tuition.

Before any definite action is taken, it would be advisable to have a report from the agent, and, also, a report from the Principal of St. Laurent, stating his progress at the school, and the length of time it would take him to complete his course.

Sir,-

The Department is receipt of an application for assistance to enable Joseph Menick, to continue his studies at St. Laurent College.

You will be good to furnish a full report with regard to this application. You should, also, obtain from the Principal of St. Laurent College a report on the progress that Menick is making at the College. You should request the Principal to state how long it will take him to complete his course and what the cost of his tuition would be , each year.

Kindly give this matter your immediate attention.

Mr. J. M. Brosseau,

Dear Sir,

In reply to your letter of the 13 th inst. I beg to say that James Monick of Caughnawaga was a student in our Preparatory Class for two years. The enclosed report will give you his standing. Judging by the progress he has already made, I think he will require five years to finish our graduating Class in the Commercial Course. With serious application he might do so in four years.

The rates for him would be $160 a year instead of $180, the ordinary charge - This comprises board, linen, bedding and laundry - The extra charges will be $5 for Doctor's fee, Gymnasium and library for the year. The school books &c are also extra -

2d Fourteen milk cows, eighteen other heads of horned cattle and all the farming stock actually belonging to the said donors.
3d All the farming implements actually belonging to the said donors.

Such as the said parcel of land and movable effects are now to be found with all and every the members and appurtenances thereunto belonging of which the said donee declares to have a perfect knowledge and therewith he is satisfied;

To be by the said donee his heirs and assigns held and enjoyed in full property from this day; to take possession thereof immediately.

The hereby transfered parcel of land was belonging to the said donors as holding it under and by virtue of a long lease granted by the Indian Chiefs of the Wigis.

The present thereon gift and transfer is thus made in payment and acknowledgement of the long and immense services rendered in the past to the said donors by the said donee and further under the following clauses and conditions which the said donee expressly promises to execute and fulfil, to wit:

First. To well and truly pay or cause to be well and truly paid whenever demanded and required all the lawful debts contracted before the execution hereof by the said donors or either of them.

Secondly. During the remainder of the said donors' lifetime never to sell, mortgage or alienate either in part or in whole the hereby transfered parcel of land without having previously obtained from the said donors or the survivor of them their or his or her written consent to that effect.

Thirdly.

Thirdly. To provide the donees the survivor of them with a horse harnessed to a suitable vehicle for every season whenever requested to go to church, or elsewhere except while needed for farm work.

Fourthly. During the remainder of the said donors' lifetime, to support, maintain and keep them up in his house and with his family, on the hereby transposed premises, in a proper, decent and sufficient way and manner, by constantly providing them with all the necessaries of life, such as meat, drink, clothing, washing, fuel, light, and all other necessaries of life whatsoever, as well in health as in sickness, and to cause them to be decently buried at their death.

Fifthly. Should the said donors, at any time hereafter, be displeased or dissatisfied to live any longer with the said donee and be supported, such as hereinabove set forth, for any cause or reason whatsoever, the said donee shall be expressly bound, upon three months notice only served upon him, the said donee, by the said two donors, if they be both living, or by the survivor of them, should one of said donors be then deceased, to well and truly pay or cause to be well and truly paid, in lieu and instead of all the other obligations hereinabove stipulated in behalf of the said donors, unto the said donors, while they may be both alive, the sum of two hundred dollars, money, in quarterly instalments, the first whereof to become due and be payable at the expiration of three months from the date of said notice, thereafter to continue every three months during the time both donors may be living, but from the time of one of said donors' death, one hundred dollars, said money, only, to be paid to the survivor of said donors, during the remainder of said survivor's lifetime, in quarterly instalments as aforesaid.

Sixthly.

Sixthly. To support, maintain and keep up in his house and with his family, on the hereby leased premises, while they or each of them may remain single, or unmarried, his four sisters hereinafter named, to wit: Elizabeth McInnes, Mary McInnes, Catharine Margaret McInnes and Sarah Jane McInnes; to provide them or each of them while they live with him, with all the necessaries of life, under the obligation, upon each of his said sisters, of working for him, the said Jones, according to her strength, ability and capacity, while they live with him, the said Jones, and to well and truly pay or cause to be well and truly paid to each of his said hereinbefore named sisters, immediately after her marriage, the sum of one hundred dollars, money, without any interest thereon until really due and payable.

For security of the faithful fulfilment of all the above charges, clauses and conditions, the hereby transferred parcel of land is and shall remain especially affected and hypothecated by privilege of bailleur de fonds.

Under and by virtue of these presents, the said transferors have transferred, and set over, unto the said transferee, accepting thereof, all rights of property and other rights whatsoever which they have or may have in or upon what has been hereby transferred.

And in consideration of these presents, the said Jeannet Miller, under her said husband's authorization, did and doth hereby renounce, as well for herself, as for and in the name of the children born and to be born of her present marriage, all dower, rights or hypothec of dower and other matrimonial rights and claims which she and her said children have or may have, demand or pretend in or upon the hereby transferred parcel of land.

Sir,

I have the honor to report having received an inquiry from Mr F.E.Titus, Barrister, Gore Bay, on behalf of the Widow of Samuel Blackburn whose name stands on the books of this Office as owner of Lot 14, Con. 6, Howland.

Samuel Blackburn died intestate, leaving the widow and several small children, the youngest of whom is now 14 years of age. The widow has married again.

What Mr Titus wishes to know is if the widow pays out for the Lot and obtaind letters of administration will a Patent issue to her for the Lot as administrator, or must it issue to her and the children jointly.

I would most respectfully ask for instructions as to what answer to make to Mr Titus.

Ottawa, 21st February, 1905.

The Deputy Supt. General:-

In the original survey of the Township of Keppel, the line between Concessions 17 and 18, Lots 16 to 20 inclusive was run across Mountain Lake on the ice. Each lot was given a width of twenty chains, exclusive of the road allowance between Lots 15 and 16, and Lots 20 and 21.

A road allowance one chain wide was also left around Mountain Lake, but the latter road allowance in no way affected the width of the lots.

A blue print of part of the township is attached herewith.

Dear Mr. Telford,

Having reference to your enquiry and letter from Mr. Daw of the 15th instant, herewith returned, regarding the width of the frontage of certain lots in the Township of Keppel, I beg leave to say that in the original survey of the Township the lines between Concessions 17 and 18, Lots 16 to 30 inclusive, was run across Mountain Lake on the ice. Each lot was given a width of twenty chains exclusive of the road allowance, between lots 15 and 16 and lots 20 and 21. A road allowance one chain wide was also left around Mountain Lake, but the latter road allowance in no way affected the width of the lots.

I herewith enclose you blue print of part of the Township showing the survey.

Trusting this will be satisfactory,

Dear Sir:

Re Easterly 10 Acres of Lot 23, Con. 13, Keppel

I, William John Adams, of the Township of Keppel, in the County of Grey, Farmer, Hereby offer the sum of $10.00 cash for the above described portion of this Lot. I own the remaining portion of the Lot, and the whole Lot has always been occupied by me, but I would like to complete title to whole Lot. The land is of little value, without timber, and rocky and very stony.

Dear Sir Re Easterly 10 acres Lot 23 Con 13, Keppel

As you are aware from conversations with me I have sold Lot 23 Con. 13, Keppel to Robert Jennings and I fully expected to have the matter closed and the money paid to me, but I have met with a disappointment in closing the deal through the advice given by Mr R. J Patterson, Owen Sound, to Mr Jennings the Purchaser not to pay the money until the the Patent is issued to one for the above 10 acres. Now I only bought the 10 acres on the 14th June inst and the Agent at Wiarton will only send in the requisition for the Patent on the 1st July, so that the Department can not issue the Patent until after that date. There may then be considerable delay for it may not be reached for some time in the ordinary course of preparing Patents in the Department. I am told however that if you make a special request on my behalf that the Officials there will issue the Patent at once. I therefore respectfully ask you to go to the Department of Indian Affairs and urge them to issue the Patent immediately on receipt of the Requisition from the Agent at Wiarton oblige Yours

Mr.Miller,M.P.,called at the Department to-day regarding application to purchase Lots 19 Range B,28 Con 16,22 Con 17 and 29 and 30 Con 18,all in the Township of Carnarvon,and stated that he understood that the Timber Licensees had cut the timber thereon and would have no objection to the absolute disposition of the Lots.

As in case of consent by the Licensees,there would appear to be no objection to sale in the usual way,under Section 6,I think that possibly Mr.Miller might be informed that upon filing consent of the Timber Licensees to thedisposition of these Lots under Section 6 of the Land Regulations,the Department would be prepared to take the necessary action for examination and valuation thereof,as provided by said Section.

LAND BRANCH SEP 23 1905

Sir,

Referring to Official letter of date 23rd February last with reference to certain Lots in the Township of Carnarvon among which was included Lot 19, Range B. Carnarvon.

I have the honor to report that shortly after receiving your letter above quoted Mr R. J. Kay of Providence Bay applied for the above mentioned lot under conditions of settlement. I told him I could not sell him the Lot owing to instructions received from the Department.

Mr Kay again called at this Office several days ago and repeated his application but as I had not received any word from the Department as to its wishes in regard to this and the other Lots reserved I was unable to comply with his request and sell him the Lot. He then told me that he had already gone on the Lot and had cleared and fenced about five acres. I informed him that he had no right whatever to go on the land without first purchasing it to which his reply was that he thought that if he improved the land he surely would be allowed the first chance to purchase. He also stated that if the Department would sell him the Lot it was his intention to build a house at once on the Lot. I have not any reason to doubt but what his intentions are bona fide and if there are no objections to his application by the Department, I would most respect

OTTAWA, 23rd September, 1905-

Sir-

I beg to acknowledge the receipt of your letter of the 11th Instant, No 110-12, regarding certain Lots in Carnarvon, including Lot 19, Range B, applied for by MR. R. J. Kay, of Providence Bay, and in reply to say that there would not appear to be any objection to the sale of these Lots under settlement conditions.

An enquiry was made in February last by Mr. Daniel McDougall, of Mulock P.O., Ontario, as to Lots 19 Range B, 28 Con 16, 22 Con 17, 29 Con 18 and 30 Con 18, who appeared desirous of purchasing under Section 6, which application the Department was unable to favourable entertain.

It might possibly be well, therefore, before making disposition of any of these Lots to other applicants, for you to ascertain from Mr. McDougall whether he is desirous of purchasing subject to settlement conditions.

Your obedient servant

Who doth and doth hereby grant, bargain, sell, transfer, make over and confirm, with warranty against all troubles, mortgages and all other incumbrances whatsoever, save and except however as regards the portion of the piece of land hereinafter described which formerly belonged to the late Robert Millar, which said portion the said Alexander James Fraser sells with warranty only against his own acts and deeds, and the acts and deeds of Jane Nancy Fraser his sister, widow of the late Daniel Mc. Donald and Miss Jane Mc. Donald, her daughter, unto Mr. William J. Fraser (son of John Fraser) of the Township of Dundee, in the said District, farmer, hereto present and accepting purchaser, for himself, his heirs and assigns, to wit:-

A piece or parcel of land being part of lot Number Sixty one, in the fourth range of the Township of Godmanchester, in the said District, containing (said piece of land) one hundred and fifty acres, more or less, in superficies, and being bounded on the North by the lands of Arthur Moore, said Donald Mc. Master, on the east by the lands of Michael Dannon, on the South by the lands of Alexander Cameron and one Napier and on the West by the lands of Angus Mc. Master, with all appurtenances thereon or thereunto belonging with also a right of way, through the lands of Michael Dannon, from the above described piece

piece of land to the public road, as the said right of way belonged to the late Daniel McDonald and to the said vendor, and as the same was aquired.

To have and to hold the said piece or parcel of land and premises hereinbefore granted, bargained and sold, or intended so to be, with their and every of their appurtenances, as well as the said right of way to and from the public road, as above mentioned, unto the said William Fraser, his heirs and asigns, for ever; the said Vendor consenting that the said purchaser be and remain seized thereof, as of right, and to enter upon and take possession thereof on first of May next.

The said purchaser shall conform himself to the Letters Patent from the Government, so far as they may concern the piece of land and premises hereby sold.

The present bargain and sale is thus made for and in consideration of the price or sum of Two thousand three hundred Dollars, currency, out of which sum the said Vendor doth hereby acknowledge to have received from the said purchaser this day, before the execution hereof, Six hundred Dollars, currency and he gives and grants a discharge for so much to the said purchaser. And as regards the balance of the said purchase price, to wit: the sum of Seventeen hundred Dollars, currency, the said purchaser doth hereby bind and oblige himself, his heirs and asigns, to pay the same to the said Vendor, or order, as follows, to wit: Two hundred Dollars, on first April, one thousand eight hundred and seventy three; Two hundred Dollars, on first April, one thousand eight hundred and seventy four; Two hundred Dollars, one thousand eight hundred and seventy five, and Eleven hundred Dollars, currency, on the first April, one thousand eight

J.S.

For Security of said balance of purchase price, payable as aforesaid, the said piece of land and premises hereby sold shall remain hypothecated as of right.

The said Vendor declares that the piece of land hereby sold is hypothecated in favor of Dame Nancy Fraser, widow of the late Daniel McDonald, and Miss Jane McDonald, - the parties from whom he acquired said piece of land by deed executed, this day before the undersigned Notary, to the extent of Six hundred and two Dollars, currency, and interest, as mentioned in said deed, - And it is hereby agreed and well understood by and between the said parties, that the said purchaser shall not have the right to delay the payment of the three first instalments, on account of said Mortgage; but should, at the expiration of four years from the first April next, the said Sum and interest or any part thereof still remain due, or should the said piece of land be otherwise as it is guaranteed by the said Vendor, then and in such case it is well understood that the said purchaser shall have the right to retain the said last instalment of Eleven hundred Dollars until such time as the said Mortgage, or other incumbrances, are duly discharged.

And at the making and passing of these presents personally appeared and intervened Mr. Donald S. Fraser, of the aforesaid Township of Hunter, farmer;

In the name of God, Amen. I, Daniel Macdonald, farmer, of the Township of Godmanchester, in the County of Huntingdon, District of Montreal, Canada East, being assured of the great uncertainty of human life, and now possessing the necessary soundness of mind, do hereby make this my last Will and Testament, (revoking all other) in manner as follows - That is to say -

First. I commend my soul into the hands of my most Merciful Father, through the Lord Jesus Christ; and my body to be decently interred, and all funeral expences duly discharged.

Second. I bequeath to my dear and loving wife Nancy McDonald, or Frazer, the full and entire profits, possession, and control of the house and farm, on which I now reside, during her natural life, she remaining in a state of widowhood - otherwise, if she enters again into the marriage state, the said house and farm shall be claimed and possessed by my two sons William and James according to the division which I have already determined upon, and which will be indicated hereafter, in this my last Will and Testament.

Third - I leave and bequeath to my beloved Son William, to be entered upon at the decease of his mother or in the event of her marriage, on the day thereof, that part of the West half of Lot Number Eleven, in the Tenth Range of the Township of Godmanchester, to have and to hold for his own special use and benefit; but inasmuch as my beloved daughters Isabella, Jane and Margaret must be provided for, I make this bequest of land to my beloved Son William subject to the payment of One Hundred and Sixty dollars, current money of this province, to be added to an equal sum to be realized from my beloved Son James, and to which I have made my bequest of land to him also subject - which united sums of Three Hundred and twenty dollars, it is my wish and desire, shall be divided equally among my before mentioned daughters.

(now in my possession, and containing seventy five acres, more or less -)

Fourth, I leave and bequeath to my beloved son James, to be entered upon at the period of his mothers death, or, in the event of her marriage, on the day thereof, the east half of Lot Number Sixty One, in the South range of Lowmanchester, to have and to hold for his own special use and benefit, subject however to the payment of One Hundred and Sixty dollars, which with the One Hundred and Sixty dollars to be realized from my beloved Son William, I leave and bequeath to my beloved daughters, Isabella, Jane and Margaret, to be divided equally among them, for their own special use and benefit.

That part of D. McD. now in my possession and containing twenty five acres, more or less

And it is my desire that my beloved Sons William and James will use all diligence to settle the claims which their sisters have upon them, through this my last will and testament, in the course of the Five years ensuing from the period, at which they enter on possession of their respective properties.

And I desire it to be understood by my dear and beloved children, that it is the dying wish of their affectionate father, that they all live together in peace and unity, each striving to promote the good of the family, and that they shall shew all dutiful love and affection and obedience towards their mother, and endeavour as far as lyeth in them to promote her comfort.

I will and empower the following persons to see and carry out these my last and solemn instructions as sole trustees and only executors without fee or remuneration - that is to say, Mr. Malcolm Cameron, Elder of the Scotch Church, Lowmanchester, Donald McDonald Sutherland, Lowmanchester and the Reverend Alexander Wallace, Minister of the Scotch Church - Huntingdon -

In witness whereof I have hereunto set my hand and seal, and published and declared this as my last will and Testament this Nineteenth day of April, in the year of our Lord One Thousand eight hundred and fifty seven; and I desire ym that are present to witness that I do so.

Signed, sealed, and delivered by the said Testator, as and for his last will and Testament, in our presence, who in his presence, at his request, and in the presence of each other, have subscribed our names as witnesses hereunto.

14 " 2 " 20 fourteen acres, two roods and twenty
perches, in superficies, more or less,
as follows viz:

1° Said lot No 3 on said 6th range was
first leased, together with other lands now form-
ing part of the township of Godmanchester,
by the British Indian Chiefs of St Regis
to one John Carmichael, by lease executed the
3rd November 1821, filed herewith as ex-
hibit A

2° Said lot No 3, on said 6th range was then
transferred to one James Millar, by deed exe-
cuted before Notaries, dated the 29th May
1830 filed herewith as exhibit B

3° Said lot No 3, on said 6th range was then con-
veyed by said James Millar to one William
Mc Donald by deed of Sale executed before Mtre
Lighthall Notary, dated 5th of April 1841, filed
herewith as exhibit C

4° Said lot No 3 on said 6th range was then
sold by said William Mc Donald & wife to
Daniel Mc Donald their son by deed of Sale exe-
cuted before witnesses, dated 18th March 1847

Sir,

I beg to inform you that an application has been received from the Department of Justice on behalf of William J.Fraser for a Patent for Lot 3, Range 6,Dundee,and the report made by the late I.I. Crevier,states that this lot was first leased, together with other lands now forming part of a Township of Godmanchester by the British Chiefs of St.Regis to one John Carmichael by lease executed the 3rd November 1821,but upon reference to this document and to the lease book in the Department, the lot in question cannot be identified. You will, therefore, be good enough to state under what Lease number and in connection with what other lands,if such is the case, it is entered.

I might add that as no receipt for rent paid has been furnished with the application for Patent,it will be necessary for you to obtain the same from Mr.Fraser and forward it with your reply to the Department for consideration.

The Lot on each side of the dividing line is owned by Donald J. Fraser.

Mr. Donald J. Fraser states that befor the line was established he paid the taxes in the Town of Godmanchester and since the year 1888 he has paid the taxes to the Municipality of Dundee as shown in the book of reference.

He wished me to ask the Department owing to the circumstances to consider the matter in regard to the Indian rent Also if the rent is exacted how much he will have to pay.

The Lands in the 6. Range were taxed at the rate 4 cents pr acre and the rent on this lot would be about 59 cents a year.

Sir,

In relation to your letter of the 24th ultimo No. 280 000. in regard to application recived from the Department of Justice in behalf of William J. Fraser for a Patent for Lot 3, Range 6, Dundee, and the report Made by the late I. I. Lorevier.

I may state that no trace of this Lot nor Lease number can be found in the grant Books.

Lot 3, Range 6, Dundee in the Official plan and Book of reference Donald J. Fraser 14 Acres 2 roods and 20 perches.

William J. Fraser a Brother of Donald J. Fraser died about 25 years ago who at the time of his death owned this Lot in question.

Donald J. Fraser States that it was a mistake in making out apptication that his name should appear instead of William J. Fraser. I Know that Donald J. Fraser is the the right owner.

The dividing line between the Township of Dundee and the Township Godmanchester was laid out in the year 1888 by Mr. John Sullivan P. L. S Leaving a narrow Strip running to a point in the Township of Dundee and the balance of the Lot in the Township of Godmanchester.

Dear Sir

Donald J Fraser of Dundee was in to-day about his patent for Lot No 36 Range Dundee. He had a copy of a letter written by Jno to agent Long at St Regis in which Jno stated that in Aug last Crevier had sent in an app from Wm J. Fraser for a patent for this lot Wm J. is dead some 25 years. His representatives sold this lot after his death to David Elan & Elan sold to Donald J Fraser. The deed to Elan from Elan to Donald J were given to Crevier when he was preparing application. Crevier being dead it is not easy to find out anything about it Would you please send me a list of documents filed by Crevier in this matter with general information as to whether or not this app. is complete. I think there were quite a number of claims in Creviers hands uncompleted. What does Jno's app intend to about future claims? Who will take Creviers place.

Dear Sir:

I am obliged to you for the copy you send me of the Annual Report of the Department of Indian Affairs which, as usual, is brim full of information with respect to its particular subject, and I wish to commend very much the plan which has been recently introduced of giving the public views of some of the principal Indian schools in our great West. While this is an excellent plan, will you be good enough to pardon me if I suggest that something, in fact a good deal, might be done by your department ethnologically, if you would present us from time time with portraits of typical Indians representing the various tribes among whom we have agents. I beg to assure you that from a scientific point of view this would be regarded with great favor in other parts of the world as well as within our own. To make this most valuable in the way I have indicated, it will be necessary for the photographer to follow a few simple rules. I shall be very much pleased if you can see your way to accepting this suggestion, and if so, I shall be glad to let you know, unless you can ascertain otherwise, what is required on the part of the photographer in so far as this suggestion is concerned. You have no doubt seen the style in which Government Reports of this kind are supplied to the public by the

The Deputy Minister.

With reference to Mr. Boyle's suggestions in regard to publishing in the annual report portraits of typical Indians representing the various Indian tribes in Canada, I beg to remark that, while of course such illustrations would be very attractive to persons interested in ethnology, they would hardly serve the purpose for which the report is illustrated, namely, to give ocular demonstration of the civilization and advancement of the Indians. Before attempting to publish views of all industrial and boarding schools, the Department had been in the habit of publishing a variety of Indian scenes all more or less with the object last referred to; and now that nearly all the schools have been shown, I think we cannot do better than revert to our former practice.

Sir,-

I have to acknowledge the receipt of your letter of the 25th ult. suggesting that it would be well for the Department to publish in its annual report portraits of typical Indians representing the various tribes.

In reply I beg to say that, while portraits of prominent Indians have frequently appeared in the annual report, it is not considered that such illustrations are the most suitable. The main object in illustrating the report is to demonstrate to the eye the actual state of civilization and advancement attained by the Indians. Consequently views showing the various occupations engaged in by the Indians, their farms, property, etc., seem to serve the purpose of the Department a great deal better than mere portraits of individuals, no matter how interesting the latter might be from an ethnological point of view.

The publication of views of Indian schools exclusively was a feature of the last two reports only, and hereafter general views will probably be published as in the past.

New Guinea: Sorcery. With Plate D. Seligmann.

Note on a Skull prepared for purposes of Sorcery, from the Mekeo District, British New Guinea. *By C. G. Seligmann, M.B.* **27**

The accompanying plate represents a skull decked for purposes of sorcery. It was collected by the Daniels Ethnographical Expedition and had originally come from the Mekeo District of British New Guinea. The precise circumstances attending its preparation are unknown, but it was seized in the Mekeo District and sent to Port Moresby, some sixty miles distant, as evidence of the pernicious and deadly sorcery practised in Mekeo. The skull is that of a young adult, probably a female; it must have lain exposed in the jungle for some time previous to its use as a charm, since the roots of various plants can still be seen intertwined in the different *fossæ*, and occupying the interior of the cranium.

As shown in the plate, it is fixed between two split cane uprights, connected by two cross-pieces. Above the last-named is a slender framework of cane hoops, covered with reddened *Broussonetia* bast. In this is supported the skull, resting on the occipital bone, so that the base is presented vertically to the observer.

In this aspect it is taken to resemble a face, the nose being represented by a straight piece of cane attached to the framework, and similarly covered with reddened bast. From the lower extremity of the latter projects a cane loop, through which is thrust a wooden skewer, representing a shell nose-pin. Below this again, also suspended from the framework supporting the skull, is an ornament made of two boars' tusks, fastened root to root by a string lashing. This corresponds to the fighting ornament, called at Port Moresby *musikaka*, which is held in the teeth during a battle. The eyes of this face are formed by the zygomatic *fossæ*, and two thin cane loops on either side represent the ears. A strip of cane is lashed by either end to the two zygomatic arches, and forms an arch over the maxillary portion of the face, the extremities extending back almost as far as the auditory *meatus*. To this arch is attached a dense fringe of human hair and white feathers; tufts of the former are fastened at intervals to the framework supporting the skull, and cover the whole of the frontal and a portion of the parietal bones. Between the skull and the framework at the back, and not shown in the photograph, is thrust a bunch of white cockatoo feathers.

A number of charms are fastened here and there to the pieces of cane which support the skull; most of these consist of bunches of herbs, but there are also a fragment of dead coral, the mandible of a fish, and a water-worn pebble of veined quartz.

As to the purpose of the charm, the natives asserted that it was used to procure the death of an enemy, though they could not explain the method of procedure to compass the desired result. Quartz pebbles, such as that attached to this charm, are themselves considered of deadly potency, and Chalmers has described how in his time one particular quartz crystal was notorious throughout the Waima villages for its death-dealing powers. (*Pioneering in New Guinea*, pp. 311, foll.)

A coconut spathe bag, containing a number of elongated water-worn pebbles, and some fragments of grass charms, was found with the skull. It was asserted by the natives that these stones had some obscure connection with the snake, but I have reasons to believe that they themselves had no strong convictions on this point, at any rate, in the matter of these particular stones. Baiame and the Bell-bird. *A Note on Australian Religion. By N. W. Thomas, M.A.* **28**

Among the many problems suggested by the works of Spencer and Gillen, and particularly by the *Northern Tribes*, is that of the relation between the anthropomorphic

myths and mounds of the Eastern tribes and the animal myths and mounds of the Central tribes. Each group was or is in the habit of preparing for the initiation ceremonies a piece of ground on which the sacred beings were depicted, together with scenes from their mythical history, by mounds of earth. Among the tribes of the south-east the custom is recorded by Eyre,* and earlier still some important facts were recorded of the ceremonies of the Wellington district by Henderson.† He relates that "Piame," who is said to have caused a flood long ago, and is expected to cause another in the future,‡ was represented by a recumbent figure, and that the eyrie of the eagle-hawk, under which guise they figured the evil spirit Mudjegong,§ was also represented. The story was that Piame had many children, but all save two were destroyed by the eagle-hawk.

Among the Urabunna the Wilyaru ceremony commemorates the victory of the bell-bird, *Oreoica cristata*‖ (the name is also given to *Myzantha melanophrys*), over the eagle-hawk, who was formerly a cannibal and destroyed many of mankind. Although the two myths are not identical they are, it is clear, closely connected, and the question arises, is Baiame a sublimated bell-bird, or is the bell-bird a decayed Baiame?

These myths of combats between eagle-hawk and crow or other animals are common all over the south and east of the continent,¶ and on the whole it seems probable that the Baiame element is secondary. Has Baiame, then, developed out of one of these combative crows, or has he replaced one? So far as we can judge, the relation between Punjdel and the eagle-hawk seems to be close, and it is difficult in his case to suppose that the myth has been transformed, because, unlike the Baiame myth quoted above, the animal adversary has not put on human form. The question is not one that can be readily solved, and I will not attempt to solve it here.

It may be noted that the evidence of Henderson, who wrote in 1829 or 1830, completely throws light on Dr. Tylor's theory** that Baiame was a creation of the missionaries between 1830 and 1840. Here we see him figuring as a great magician, indeed, rather than a "high god," in the initiation rites of tribes absolutely untouched at the time, so far as I know, by missionary influence.

In 1837 Macarthur writes,†† that they have a general idea of a creator, himself uncreated, and dance in February and March in honour of Baiame.

An ounce of positive being more valuable than a ton of negative evidence, we might allow the testimony of these two witnesses to outweigh the numerous early denials of the existence of an aboriginal god. But they do not by any means stand alone.

In addition to Henderson and Macarthur we have the reports of the first missionaries. The Wellington Mission was opened early in October, 1832,‡‡ some six months after the missionaries reached New South Wales. A year or so after their arrival at Wellington they record§§ that the blacks had two or three names for the devil but none for God; their expectation of a flood in the future is also recorded.‖‖ Baiame is said to live over the water¶¶ and to have made them all, but this was denied earlier*** ; and they see him in dreams and pray to him (?). The Rev. R. Taylor reports in 1839††† that they believe in three gods—one of whom made all things, another is his son, and the third tells them when to corroboree, appoints their ceremonies, and teaches them their sacred songs. There seems, however, to be some confusion here.

In a MS. vocabulary of the Wirradhuri language as spoken in the Wellington district of New South Wales, Archdeacon Günther makes some remarks on the subject

of Baiame.* The book is dated 1839 and contains some 2,500 words; it must, therefore, have taken some considerable time to collect. Archdeacon Günther had had, therefore, opportunities for learning details of the belief in Baiame and was probably the source of Hale's information. Of Baiame he writes:—

"There is no doubt in my mind that the name Baiamai refers to the Supreme Being, and the ideas entertained by some of the more thoughtful aborigines concerning Him are a remnant of original traditions prevalent among the ancients about the Deity. Baiamai was described to me by one of the most intelligent and thoughtful of the aborigines in the following terms, to give his own simple expressions in English thus:—

"(1.) He lives a great way off from this earth towards sunrising.

"(2.) He has always been sitting down (or living) there, long, long time ago. He never dies.

"(3.) He can do what he likes: when he wants or says anything, it must be done; if he wants to eat bread or fish, they must come to him.

"(4.) He is very good, he hurts nobody; he likes the blacks who are good.

"There is also an idea entertained by the more thoughtful that good natives will go to Baiamai when they die.† Nor must I omit to mention that there has been from time to time, *i.e.*, every three or four years, a curious ceremony performed among the blacks, several tribes being assembled, which appeared to be a remnant of some religious rites. A song was sent for the occasion by Baiamai or his son, which was sung by those assembled: a solemn procession took place, certain mysterious figures painted on pieces of bark of men and other objects were displayed at the time.

"To obtain all the particulars of this ceremony was impossible, as it was to be kept a secret among the aborigines. My informant, as far as he ventured to tell me anything about it, charged me not to mention it to anybody.

"I would further add that the idea of a future state is not quite extinct among them, although some of them speak like infidels and will hear of no hereafter . . ."

He thinks the idea of transmigration is of white origin.‡

Eyre§ mentions (1845) the belief in Biam on the Murrumbidgee and Biam-baitchy on the Murray. He is said to be like a black but deformed; his deformity results from his sitting cross-legged in his canoe.

The only other reference before the time of Ridley‖ occurs in a report (1852) of the Moravian Missions at Lake Boga ¶ "Sometimes instead of answering they showed "us figures cut out of bark which they called *natta*,** possibly a kind of idol or picture "of the devil . . . The good spirit they call pei a mei." On a later page†† we read, "They have some idea of a higher being . . . Peiamei, they say, lives up "above and their magicians taught them that he had created all things; they have to "placate him by dances . . . They name him also Mahmam-mu-rok, which seems "to mean 'father of all' (*mahmuk* = father)." This is probably the same name as that given by Howitt for the Wotjoballuk in the form Mami-ngorak.‡‡

Dr. Howitt reproduces§§ without comment a statement of Manning's that missionaries did not until many years after 1834 land at Sydney on their way to Moreton Bay and never came to the southern districts (of N. S. Wales?) at any time. This

is entirely erroneous.* Missionaries from the Pacific were at Port Jackson for a short time forty years earlier (1798–1801), and Marsden remained and established his mission at Paramatta in 1815. Threlkeld worked at Newcastle in 1825–6 and at Lake Macquarie in 1826-7, and again from, I believe, 1832 till 1841. There was a native institution at Sydney from 1828 till 1841, at least; the Wellington Mission lasted from 1832 till 1843; the German mission at Moreton Bay was established in 1836. The Moravians went to Australia, I believe, in 1838, and there was certainly a Wesleyan mission at Merri Creek, near Melbourne, for some years, from 1836 onwards. Possibly there were others who have escaped my notice.

Mr. Manning's assertion† is thus utterly wide of the mark. It does not, however, follow that the beliefs of the wild natives were markedly or even at all affected by the work of these missionaries. On the other hand, it seems certain that if Mr. Manning did not himself distort the beliefs of the natives with whom he came in contact in 1844–5, he must have taken his facts from those who had been under Christian influence. From the uncritical character of Mr. Manning's statements we may infer that the former is more probable. However this may be, it is evident that Dr. Tylor's theory of the missionary origin of Baiame between 1830 and 1840 is entirely untenable, and very strong evidence would be necessary to establish even a *primâ facie* case for a non-native origin of a being, who, in the earliest reports, bears such obviously native characteristics, and is in no way contaminated by Christian elements.

The mention of Mudjegong as a being who is present at the *bora* suggests that he is in reality not an evil spirit, but the counterpart of Daramulun. Dr. Howitt has even maintained the same view of Koin. It would, however, take me too far to discuss this here.

One point may, perhaps, be mentioned in conclusion. Good or evil beings—Bunjil, Mudjegong, Mullion, &c.—either bear the name of the evil hawk or are closely associated with it; one of the names of the phratries in the tribes in question is frequently the same as one of these names. It may be no more than a coincidence, but the name of the Urabunna ceremony is Wilyaru, and *welu* or *wilyaru* is the name of a bird—the curlew—from Port Lincoln to some distance north of the Arunta. The Nauo tell a story‡ of how a man who nearly destroyed them was turned into a *welu*. Can we infer from this that the bell-bird in the Urabunna myths is the curlew of other tribes, or that they have substituted the bell-bird for the curlew? Whether this is so or not, it is interesting to note that *welu* and cognate forms seem to be the root of the phratry name of several eight-clan tribes§; the Waagai, Walpari, and Warramunga have Uluuru; the Bingongnia, Wiliuku‖; the Umbaia, Gnanji, and Tjingilli, the more remote form Illitchi or Willitchi. But this is no more than a conjecture. N. W. THOMAS.

Further Note on the Progress of the Cook-Daniels Expedition to New Guinea. *By C. G. Seligmann, M.B.* **29**

The latter part of our stay in New Guinea was devoted to the south-eastern extremity of the Possession, some of its many islands, and the Trobriand group. The natives of the Trobriands, as well as of their "outliers," the far less visited Marshall Bennett group, are totemic, their system presenting the essential features described in my previous letter. As noted by Sir William McGregor, a well-defined system of chief-ship exists in both these groups, but it appeared to Daniels and myself that the authority

of even the big chief of a district was not, and never had been, as great as Sir William thought it. The Marshall Bennett islands are a group of atolls which have been raised some 300 to 600 feet. At Kwaiawata a portion of the densely vegetated seaward cliff face is so steep that ladders (for their own use be it noted) have been constructed by the natives who live in hamlets, each consisting primarily of a portion of a clan, in the central lagoon depression of the island. Here are situated their wonderfully fruitful gardens sheltered alike from the fury of the monsoon and the spindrift from the sea. The folk of these islands were not, and never had been, cannibals, thus differing from the majority of the natives of this district of New Guinea. In this they resemble the inhabitants of Murua, the Woodlarks, with whom they are probably ethnically identical. Both at Murua, Gawa (one of the Marshall Bennetts), and the Trobriands the large built-up canoes are made, which are alike the trading boats and troopships of the archipelagoes of the south-eastern extremity.

While at Murua a visit was paid to Suloga, near which is situated the quarry whence was obtained the stone for the adzes which were traded along the S.E. coast at least as far west as Port Moresby. The inhabitants of the two Suloga villages, whose monopoly the quarry formerly was, have been almost entirely exterminated by one of those mysterious epidemics of which one is constantly hearing in New Guinea. But the beach, on which lived the few survivors, bore evidence of their former importance and activity. For some 400 yards from below low-water mark to the edge of the jungle the sandy beach became stoney, a layer some 4 to 6 inches thick of chips covering the whole area. We later found thinner but more extensive deposits of chips on the hillside on the way to the quarry, and picked up a number of unfinished implements, some of the roughest type and none polished. At the quarry itself we found one of the spherical pebbles with which the stone was worked, and we subsequently traded another. At Wagawaga in Milne Bay, although the usual totemic system obtained, there was a grouping of the clans into two exogamous groups. These groups regulated the extremely ceremonial cannibalism of these people, the corpse being cut up in certain of the stone circles called gahana, which were used for no other purpose. Each clan had such a cannibal gahana, as well as the gahana used as a squatting and deliberating place by the older men of the tribe, but no member of the intermarrying clans might enter each other's cannibal gahana, or partake of the cannibal feast, which might, however, be freely shared with the men of the clans into which a given clan might not marry. Hjalmar Stolpe. Born April 23rd, 1841; died January 27th, 1905. **30**
By C. H. Read, F.S.A.

The scientific world is the poorer by the death of Hjalmar Stolpe, the Director of the Ethnographical Museum in Stockholm, who passed away in January of the present year at the age of sixy-four. By his death the Institute loses an Honorary Fellow. His work, both in the field of archæology and in that of ethnography, is of great interest, and there can be no doubt of its permanent value. He was born on the 23rd of April 1841, and was engaged at a fairly early age in antiquarian and ethnological studies, as an assistant in the Swedish Historical Museum. During his employment there he superintended the exploration of the graves in the island of Björkö, where discoveries of considerable importance were made and are described in Stolpe's report. He afterwards became a teacher of archæology in the University of Lund. About the year 1880 he came to London in connection with ethnological studies, and I saw a great deal of him at that time. I did not then know the precise purpose of his studies, nor did I learn until a curious circumstance happened in the year 1891. The London Missionary Society had just transferred their magnificent Pacific collection to

the British Museum, and I was anxious to bring the fact to the public notice. I took the method of dealing with certain types of ornament in the Tahitian and neighbouring islands, and in a few weeks had elaborated a development scheme which I laid before the Institute.* The curious point was that on the very day I was to read this paper I received from Stolpe a far more ample treatment of the same series, but arriving at almost identical results. It appeared in Swedish, but was translated into English by Mrs. Colley March. It was odd that though Stolpe had been working at his theory for ten years or more, he had never spoken of it to me, so that I had unwittingly taken up the identical series. Much later he paid attention to the ornamental motives of the American aborigines, and published his results under the title, *Studier i Amerikansk Ornamentik*—a mine of valuable information and suggestion. His voyage round the world in the *Vanadis* in 1883–85 was of immense value to him in such studies, and led probably to his gradually relinquishing archæology for ethnology, and later to his appointment as Director of the Ethnographical Museum when it was separated from Zoology. He was a most genial man with varied and pleasing gifts, not the least of these being a most beautiful voice, and he often begged to be allowed to substitute a song for a speech at the cheerful banquets which add to the charm of scientific congresses. With such a magnificent frame one would have expected him to exceed the normal span of life. Would that he had!

The Religion of the Fans. *By Andrew Lang.* **31**

In the *Revue de l'Histoire des Religions*, September–October, 1904, M. E. Allégret gives an account of the religious ideas of the Fans. It tends to confirm my own ideas about early religion. M. Allégret has for fifteen years been studying. He began, as inquirers usually do, by asking questions—the wrong method. Then he learned the language, listened, observed, and waited. What he observed was a subdued fetishism—no "idols," no fetish-house, few fetishes hung up at the entrances to villages, no priestly caste, nor wizards by profession. There were tabus, and the ordinary maleficent "sympathetic magic"—burning a man's hair, or clippings of his nails, on purpose to injure him. Second sight exists, and the belief in maleficent ghosts. Prayers and a piece of banana, or a few drops of water, are offered to great trees, rocks, and so forth, and the usual personal fetishes are worn "for luck."

A hideous magical rite, a supper with a corpse, confers invisibility. I do not remember this as practised elsewhere. Ancestors receive prayer and feasts of fish or fowls.

This is the conspicuous aspect of the cult. M. Allégret knew of no other belief till an old chief, pointing to the sunset, asked, "Did not God (*Nzame*) depart that way?" M. Allégret was silent, and the chief continued to ask questions about a god behind the sun. Then M. Allégret in turn asked what he meant, and found that his answers were corroborated by everyone, and by the traditions which are repeated in the evenings. There is a creator, *Nzame*, who dwells in the sky; the idea is dying out, and is most vigorous in the interior. He used to be thought black; since they met Europeans they incline to think him white. There is no cult, only ejaculations in moments of danger: "A Tare Nzame!" "Oh, Father God!" When Nzame is mentioned the name is usually followed by a phrase, *Nzam eng' a ne Mebeghe, Mebeghe Menkwa, Sukama, Mbongwe.*

Of this phrase mythical explanations were given. *Nzame* is the son of *Mebeghe* who is dead, or the son of Mebeghe's wife, Sukame. Others said that all the names were names—"honour-giving names"—of Nzame. M. Allégret says that, in fact, the names are roots no longer used with the same suffixes: *Kwa*, in Menkwa, means "to

* *Journ. Anthr. Inst.*, XXI., p. 139.

judge," *Kusya*, in *Sukama*, is king (*Kam*, to arrange), *Mbongwe* is "Father of Life," but the etymology of traditional names does not often yield trustworthy evidence. The Fans, however, are satisfied with these etymologies. The name Nzame, Nyambi, Assyame, Anyam, &c., is found among all the Bantu peoples whom M. Allégret has observed. The myth is that the being so named once dwelt among them on earth, and left them for the sky because of some offences. Of old he gave them axes and bows. In the same way the Kaitish tribe, reported on by Messrs. Spencer and Gillen, believe in Atnatu, a black self-created being in the sky. He expelled his sons, for disobedience, to earth. "Along with them he let down everything that the black fellow has, spears, boomerangs, tomahawks, clubs, . . . and thus he made the Alcheringa in the Kaitish tribe" (*Northern Tribes of Central Australia*, pp. 498, 499). Mr. Howitt gives many examples of similar "All Fathers."

As among the Kaitish, "their religious ideas have almost no influence on the "ordinary life of the Fans." Nzame is a fading idea, overcome by fetishism and ancestor worship, and, among the Kaitish, the belief in his fatherhood will probably be superseded by the existent belief—that of the Arunta and other tribes—in evolution and re-incarnation. Among the Dieri, Mr. Siebert only found traces, either faint or concealed, of Arawotja, who went about making watercourses, and now lives in the sky.* The Dieri, however, unlike the tribes with belief in re-incarnation, hold that they will go to the sky.†

Everywhere, I think, we find traces of the All Father belief yielding, among the Kaitish, to the Alcheringa and evolutionary hypotheses: among the Fans, to ancestor worship, and apparently extinct among the Arunta and other northern tribes. But only long residence and mastery of the languages can enable inquirers to ascertain the truth.

Canada: Indians. Boyle.

Canadian Indians in 1904. *By David Boyle, Superintendent of the Toronto Museum; Local Correspondent of the Anthropological Institute.* **32**

As may readily be supposed by all who do not take it for granted that our aborigines throughout the Dominion are of "one nation and kindred and people and tongue," and that they are similarly circumstanced, the condition of the Indian varies exceedingly. Those who live near the mouth of the Mackenzie, those of the prairies, and those of the old provinces, differ nearly as much in many respects as do the inhabitants of Italy from the Scandinavians, or as the Orcadians from the Majorcans.

The Report of the Department of Indian Affairs for the year ending June 30th, 1904, is an illustrated volume of more than 600 pages, and contains, as usual, a multitude of facts and figures digested and undigested relating to the state of the "Agencies" in different portions of the Dominion.

From the summary of this information made by Mr. Frank Pedley, Deputy Superintendent of Indian Affairs to the Hon. Clifford Sifton, the Superintendent-General at Ottawa, we learn that in all the provinces, except Ontario, there has been "substantial progress," although in no case has there been "but small perceptible advance towards "the acquisition of the higher spirit of citizenship," although "the standard of "civilisation already reached has been fully maintained."

No doubt the authorities are anxious to put the best face on matters by means of the euphemism in the last quotation, but perhaps it should rather read that the spirit of the Indians is now effectually broken, although everything reasonable is being done to maintain the people in something like comfort.

It is reassuring to be informed that "in the younger provinces, among the bands in "process of civilisation where progress is naturally more noticeable, there has not been

" wanting growth in all the directions which make for independence," and that in the North-west Territories a " stage has been reached at which the able-bodied in the mixed " farming districts have become practically self-supporting."

Many bands, it must be remembered, yet lead as nomadic an existence as the extension of settlements permit, living mainly, if not altogether, on the results of hunting and fishing. When these fail, it is only in the extreme north beyond immediate Government assistance that real suffering ensues.

Nearer to " the front " great care is taken to prevent unscrupulous traders from selling intoxicants on the reserves, although, notwithstanding so much vigilance, we learn from some of the agency reports that the Indian and the whiskey too often come together.

In proof of the contention that the Indians hold their own in the matter of population the following tables of vital statistics are supplied :—

The Deputy Superintendent further on refers to the common belief " that the Indian is a dying race," a belief he calls in question. At most, it is to be feared that the Indians just hold their own in point of number, but it cannot be doubted that miscegenation as well as disease is slowly doing its work. As is pointed out in the report, there is assuredly a tendency on the part of some bands to disappear, and it is admitted " that there is " prevalent among the Indians a scrofulous condition which predisposes them to mesenteric

" consumption, and still more to phthisis and other pulmonary, bronchial, and catarrhal " affections," and reference is made to the " first effect of civilization " connected with the change from comparatively open wigwams and teepees to little, overcrowded, dark, and ill- " ventilated houses . . . aggravated by unclean habits and promiscuous expectora- " tion." These reasons are certainly good as far as they go, but there is surely some more subtle, deep-lying cause than is here assigned for the decrease or the stagnation in number. It would almost seem as if, not seldom, the very proximity and occasional contact of the white man had something to do with this, just as we know respecting the maleficent effects produced by the appearance of strangers among insular populations, *e.g.*, in St. Kilda, and, as Darwin has pointed out was the case in some Patagonian islands and mainland districts, to say nothing of what occurs among certain breeds of sheep in the south of England.

The most excessive death rate occurred in British Columbia, and is attributed to the crowding together of the people at potlaches, and probably, too, at other ceremonial gatherings, but this is just what they have always done. In some districts small-pox seldom quite disappears, but its effects seem to be less fatal than formerly. Other diseases mentioned are whooping-cough, measles, and scarlet fever.

As farmers, our Indians are not great successes. The jump from the nomad to the fixed life was too sudden and too wide. It might have proved advantageous had it been possible to make the Indian first a rancher—a stock raiser—but it is easier to suggest this than to devise a way of making the experiment.

The accompanying table, which might be far worse, will serve to give a good idea of our dusky brothers' standing as agriculturists and stock-raisers :—

	Population.	Acres.	Horned Stock.	Horses.
Ontario	21,191	18,006	6,558	3,632

Here and there on the Six Nation and Mississauga Reserves excellent results may be seen, quite equal, indeed, to the best of those achieved by adjoining white settlers. On these reserves, also, are held very creditable agricultural exhibitions, in which fully as much interest is shown as the average fair in any part of Ontario.

In the other provinces less interest is exhibited in farming. The Quebec Indians take to lumbering and some minor industries, while in the north-west more attention is paid to live stock than in any other part of the Dominion. It is mentioned that the Piegans, a band which not long ago refused to take cattle on any consideration, have recently built eleven miles of wire fence as an enclosure for herds.

The farm produce of last year amounted in Ontario to the value of 330,986 dollars ; in Quebec, 115,410 ; in British Columbia, 295,000 ; and in Manitoba and the North-west Territories to 339,676 dollars.

Indian fishing and hunting results give us for the Dominion a total of more than $1,000,000, while from other industries a sum exceeding $600,000 was earned.

Very few Indians live in our cities and larger towns, and it is even seldom that we find them in villages among white people. They prefer living in communities of their

own, and in winter, when not engaged in hunting or in the lumber camps, they make lacrosse sticks, axe and fork handles, whip handles, and split black ash for baskets, while the women knit, do bead work, make fancy baskets, and knick-knacks of various kinds in birch bark ornamented by dyed porcupine quills.

Considerable attention is paid by the Government to the education of the children, but few of them even go beyond the rudiments.

Not many of the old people are fond of education, and in too many cases the teachers employed are not of the kind to induce children to attend school. DAVID BOYLE.

Uganda. **Cunningham.**

Uganda and its Peoples. By J. F. Cunningham, F.R.G.S., F.Z.S. (Secretary to the Uganda Administration). London: Hutchinson, 1905. Pp. xxix + 370. 26 × 18 cm. Price 24*s*. **33**

Undoubtedly the first impression derived from turning over the leaves of this remarkable book is delight in the beautiful photographic pictures which adorn almost every page. Messrs. Hutchinson have of late brought out a number of works dealing with Africa and Asia remarkable for their illustrations derived from "unfaked" photographs; but we question whether any one of them is superior in this respect to the book of which Mr. Cunningham has been both author and illustrator. From its pictures alone the book has great educational value. It illustrates in the main the races of the western part of the Uganda Protectorate, but it gives also a number of pictures of remarkable beasts, birds, and reptiles, and some charming bits of Uganda scenery. We would especially single out for remark the following illustrations:—"Sese Canoes," p. 81; "A Temple of the Domestic God," p. 102. (This illustrates a remarkable incident, a woman making an offering of wild flowers to the shrine of the village ancestral spirit. It is rare that the Negro in his life takes any notice of the glory in colour of his wild flowers); "Baganda Ferrymen," p. 176; "An Ant-Eater (*Manis*)," p. 184; "The Demon Crocodile," p. 188; "The Incense Tree," p. 198; "A Water-Lily Creek, Entebbe," p. 207; "The *Mwesi*, or Blacksmith," p. 211; "The Flute-player," p. 213; "A Sudanese Market Girl," p. 223; "A Devil Hut," p. 265; "Mziba Making Fire," p. 294; "Burial of Mtatembwa," p. 297.

A great deal of accurate information is given in this work on the folklore and customs of the indigenous races of the Uganda Protectorate. The former method of burial of the Unyoro kings is described as follows:—

"A circular pit was dug, not more than 5 feet in diameter, and about 12 feet deep. The king's bodyguard seized the first nine Unyoro men they met and threw them alive into the pit. Then the dead body of the king was rolled in bark-cloth, and the skin of a cow, newly killed, wrapped round it and sewn. This bundle was then lowered in the midst of the nine men in the pit. No clay was filled in, but another cow-skin was stretched tight across the opening and pegged down all round. A covering of grass was then neatly laid over the skin, and the multitude who were present at the funeral set to work at once to build a temple over the grave. A headman was appointed as watcher, and very many of the personal servants of the deceased were appointed to live in the temple and their descendants after them. It was the duty of the surrounding country to see that they were supplied with food.

"Oh, the horrors of that pit! I defy the imagination to picture anything more ghastly. The old Roman laws contained some horrors, but nothing so intensely revolting. Constantine (A.D. 318) enacted that if a father slew his son he should suffer the death of a parricide; that is, to be tied up in a sack with a viper, a cock, and an ape, and be thrown into water and drowned. But this was practically an instantaneous death, and

besides, it must be remembered that it was a punishment for an atrocious crime; whereas in that Unyoro pit the victims must have lived for at least two or three days, and probably devoured the king's body first and each other afterwards."

Mr. Cunningham gives several interesting Unyoro traditions relating the arrival in these negro countries of the great lakes of a now deified civilizer from the north. This fabled white man is sometimes called *Wamala*, and one tradition asserts that he arrived in a canoe from Lake Kioga. He was of either Egyptian or Gala race. Wamala in the folklore of kindred people becomes *Kintu*, and is also known under several other designations which are given in my book on Uganda. Among other interesting examples of folklore is one on the origin of the rainbow. There is also an amusing title on p. 41 entitled "Curing a Swindler."

A good deal more interesting information is given about the people of the province of Buddu that can be found in any previous work dealing with Uganda.

The following is an amusing story from Uganda folklore given in the exact words in which it was described by a native of Uganda called Timoteo. (Timoteo has become a printer, and this fact, together with the excellent English of the story, shows the rapid advance of education in Uganda.)

THE IRON MAN.

In the old days the King asked Walukaga, the head of the blacksmiths, to make an iron man—a man with blood, real, to talk and walk and have sense.

"Here is the material," said the King, and he threw a number of bars at the blacksmith.

"I supply the material," said the King.

Walukaga went away, taking the bars with him, and he told every one the difficult task: and asked their advice. All shook their heads, no one knew how it could be done.

"Why not give it up?" asked one.

"I cannot, because I have not yet tried: and to go to the King and say I give it up before I have tried would be impertinent."

"Very good, go on thinking it out," they said.

From that time for many days Walukaga spent his time thinking it out and asking advice, but without result.

One day he met a madman who had been sleeping in the fields, homeless; and when the matter was explained to him he said, "Does the King supply the material?"

"Yes, he supplies all but the workmanship."

"Has he supplied the charcoal and water?"

"Not yet."

"Go back and tell him you want special charcoal and special water to work a man in iron. Wood charcoal and lake water are good for making hoes and knives, but to make a man it is different. Tell him you want one hundred loads of the carbon of burnt human hair, and ten pots of tears to sprinkle the charcoal."

The blacksmith returned to the King and told him, and the King issued an order to have every rib of hair in Uganda shaven off or pulled out, and every eye was to weep a quarter of a glass of tears.

There was a great shaving season in Uganda, the big and the little, the young and the old, the boy and the girl, the man and the woman—every one who had a hair on his head or a hair on his face cut it off or pulled it out; and when all was brought together and burnt there was not even one load of charcoal.

The King was not to be easily defeated, so he ordered another shave, and the result was even less than before.

And the tears would not fill a thimble.

The King saw it was not to be done, so he called the blacksmith and said he could not supply the amount of charcoal or tears, and the contract was withdrawn.

The blacksmith said on his way home, "Wokubiro omulalu mu kyama nga ayogera obulungi gwolabye:" or, "A madman often says a good thing. Even a fool may assist you sometimes." TIMOTEO, printer.

Fiji. **Fison.**

Tales of Old Fiji. By Lorimer Fison. London: Alexander Moring, Ltd., 1904. Pp. 45+175. 26×16 cm. Price 7*s.* 6*d.* **34**

If Mr. Fison's tales of Old Fiji were designed only as a peg on which to hang an introductory study of phases of Fijian life which have long passed away, their publication is amply justified, for, to say the truth, the introduction will strike many readers as being worth all the tales put together. With one exception the stories cannot be said to be concerned with the real Fijians, but with the people of the Lau sub-group, who, long before the Tongan conquest under Ma'afu, were so crossed with Polynesian blood that their mythology and folklore had ceased to be Fijian. These islanders have been so little studied that their history, as told by themselves, ought to have a scientific value, but Dr. Fison appears to have aimed at presenting them in a literary rather than a scientific form. Probably with Taliai-tubou—the titular Tui Nayau—as his original no other form was possible, for that lively old gentleman was famous for his works of imagination, and "a thing was always bigger when it came out of his mouth than when it went in at his ears." His tales, therefore, are specimens of Fijian literature, of which half may be tradition, and the remainder lively fiction. The tale of how the chiefs of Lakemba came to take their title from Nayau is tradition unadorned; in the adventures of Matandua we have old Taliai-tubou's imagination in its full richness, so that one wonders how so bald and abridged a version of the familiar tale of Ndengei and his Awakener could have proceeded from the same lips. The fable of "How the mosquitos came to Oneata" is, perhaps, the most interesting in the collection for the light it throws on the Fijian sense of humour—the one touch of human kinship in these tales, for in Fijian stories we may search in vain for pathos, for the sorrow of parting, for the sense of beauty in nature, for quiet and unobtrusive heroism. Heroic adventure of gods and men: battle, murder, and sudden death are the themes of Fijian romance.

SAMOAN GIRL DRESSED FOR THE CLUB DANCE.

In the introduction there is a very valuable study of words now obsolete and quite unknown to the younger generation of natives. The words themselves give more details about the customs of cannibalism, strangling of widows, punishments, and ceremonial burial of the living, than are to be found in the pages of Williams and Waterhouse. Lengthy as it is if regarded as an introduction to stories which contain little of any of these customs except cannibalism, it is tantalisingly short, for *Kamilaroi and Kurnai* gave the author no opportunity for imparting his rich store of knowledge about the Fijians. We are, however, surprised to notice that Dr. Fison is beguiled by the fancied similarity between the Fijian *vuaka* and the Spanish *puerco* into thinking that the pig was introduced into the Pacific by the Spaniards, being apparently ignorant that both Mendaña and Quiros found the islands swarming with a native breed of pigs. It is indeed doubtful whether *vuaka* is not an introduced Polynesian word, and that the original Fijian names were not *vore* or *nggo*. *Toa*, for which he suggests a derivation from the Polynesian word for brave, is far more probably onomatopœic in origin, like the Tongan *Moa*, as anyone would guess, who has heard a Fijian calling his fowls at feeding time in exact imitation of the cries of the farmyard.

The book is copiously illustrated with modern photographs and is beautifully printed.

Art. **Allen.**

Celtic Art in Pagan and Christian Times. By J. Romilly Allen, F.S.A. ("The Antiquaries' Books.") London: Methuen, 1904. Pp. xviii + 315. 44 plates and many illustrations in the text. 22 × 14 cm. Price 7*s.* 6*d.* **35**

This is an exceedingly interesting and useful book, the fruit of many years' work on the subject with which it deals. The illustrations are well chosen and almost always well executed, and the lists of localities will be of great service to the increasing number of persons desiring to study archæological objects practically, and not merely in the pages of books. As the title infers, the book is divided into two portions, relating respectively to art during Pagan and Christian times. The former period is treated with great fulness, and recent views as to the foreign derivation of various forms—such as the spiral—frequently met with in Celtic ornament are adequately laid before the reader. But it is in the portion dealing with Christian times that perhaps the most novel and interesting passages of the book occur. These contain the views of the author concerning the derivation of the interlacing knotwork which was so much used by scribes and sculptors, and of which such magnificent examples are to be seen in the Book of Kells. This knotwork he derives from plaitwork, and shows very ingeniously that all the various forms can be explained by the existence of *breaks*, to use his term, in what would otherwise have been a continuous piece of plaitwork. These views are illustrated by a very complete series of illustrations showing the effect of breaks in different parts of the interlacement and the knots which result from diverse interruptions in the pattern. Who first devised this method of breaking up a plait is quite unknown, but

from the examination of architectural remains the author concludes that the transition from plaitwork to knotwork took place between the Lombard conquest of Italy under Alboin, in A.D. 563, and the extinction of the Lombard monarchy by Charlemagne, in A.D. 774; possibly during the reigns of Luitprand (A.D. 712-731) and Rachis (A.D. 744), for the name of the former king is mentioned in the inscriptions on the baptistery at Cividale and the ciborium of San Giorgio at Valpolicella, and the latter on the altar at Cividale, and in the objects just mentioned he discovers the earliest examples of the change from plaitwork to knotwork. It is, of course, impossible here to give any fuller explanation of the author's views on this question than what has been said above, but the reader who will take the pains to go through the pages dealing with this subject in Mr. Allen's book, and to work out his ideas with a sheet of paper and a pencil, cannot but be much impressed with the ingenuity of the idea and the completeness with which it has been worked out.

One or two small points still remain for criticism. I cannot see why a pseudo-Gothic adornment on a pre-Christian work of art should be described as a "blasphemous" anticipation of Christian art by the Pagan Celt (p. 151). This seems an almost wilful misuse of an adjective.

Then (p. 164) the account of the presence of three British (bishops)—this word has apparently been accidentally omitted—at the Council of Arles in 314 is described as a "vague and unsatisfactory" statement of the "mythical period." It is quite true that one would like to know more about the three bishops in question, and that the site of one of their sees (Caerleon) is, as Mr. Haverfield has very properly pointed out, somewhat doubtful; but there can be no reasonable doubt that three British bishops, and probably of the names which have come down to us, were really present at a council, of the holding of which there can be no question.

Again (p. 229), I am by no means sure that the doing away of the break in the ring in brooches, such as the well-known Tara example, "must have entirely defeated the "original purpose the brooch was intended to serve." It seems quite easy to understand how it may have been employed for a legitimate—as opposed to a ceremonial—purpose, though not exactly as the penannular examples were used. But these are small points, and if I have mentioned them it is merely to accentuate the interest which I have felt in reading this book. I am sure that those interested in the derivation of design will read its pages with great attention and great advantage.

Madagascar. **Van Gennep.**

Tabou et Totémisme à Madagascar. Étude descriptive et théorique par Arnold van Gennep. Bibliothèque de l'École des Hautes Études, Vol. XVII. Paris: Leroux, 1904. Pp. 363. 25 × 17 cm. **36**

If the most urgent duty of anthropologists is to collect material, before the advance of civilisation has adulterated the pure native product, and to hand it down to posterity for science to make of it what it can, it is no less true that the work of analysis must go hand in hand with that of collection in order to show what voids remain to be filled up. The monograph is urgently needed from another point of view also: the enormous piling up of anthropological material, to which, in the absence of complete bibliographies there is no trustworthy guide, render it hopeless for the authors of synthetic works, like the *Golden Bough*, to attempt a complete survey of the various fields whose harvest they would fain reap. M. van Gennep is, therefore, doubly a benefactor when he gives us a careful study of a field hitherto all but unknown.

The first problem in order of logical sequence, if not of time, which every enquirer has to tackle is that of terminology, and it will be well to begin our notice of the book with this theme. The word "tabu" is nearly as hard worked as was the term "totem"

a few years ago; it is doubtless a short and convenient expression, but it is open to question how much is really gained by lumping everything under one head.

Tabu is a Polynesian word, and no harm would result from limiting its application to this area; if we permit it to be used of custom in other parts of the world, we must at any rate make sure that they are analogous. Tabu designates a prohibition to which religious sanctions are attached, and it should not be applied to other kinds of prohibition. It would even be advantageous to limit its use to cases in which the punishment for violation is, so to speak, automatic, the direct result of the discharge of *Mana*.

I cannot, therefore, approve M. van Gennep's extension of the term to cover conjugal fidelity (p. 169). There is no mediate and no immediate religious penalty for adultery; the woman may have to undergo an ordeal, but this is hardly a justification for cataloguing the duty of fidelity as a tabu. Still less can I say with him that the attitude of society towards a leper (p. 56) or other person with a contagious disease is the observation of a tabu.

Again, M. van Gennep's use of sociological terminology leaves something to be desired. We read on p. 136 that both the Antaimorona tribe and each of its component clans is endogamous. It is either meaningless to say the tribe is endogamous or endogamy needs to be defined. Without reading his preceding explanation it is difficult to attach any meaning to the remark on p. 164 that the Sakalava are exogamous with traces of endogamy. All that this means is that there are certain grades of consanguinity within which a man does not usually marry. Exogamy is a term used with reference to totemic and similar restrictions, and only confusion can arise by applying it to restrictions based on terms of relationship. Still greater confusion arises from M. van Gennep's use of the term endogamy to mean freedom to marry inside the kinship group (pp. 164, 309, n. 1) and obligation to do so (pp. 136, 164, 309). I may mention among the terms of which further definition is needed—family (usually=village group, p. 190, but is distinguished from it, p. 212), tribe (p. 220, *cf.* p. 215, where it is made clear that portions only of the tribe are meant).

The term sexual tabu is used as a heading for a chapter in which sexual tabus proper—those which bear on sexual relations—are discussed, and in addition, what may be termed uni-sexual tabus, those imposed on the pregnant woman or the expectant father. Social (p. 26) seems to be used in a double sense: a social tabu is declared to be one which is observed by all, and one the penalties for the violation of which fall on all. Re-incarnation hardly seems a right word to apply (p. 303) to the sojourn of the soul of a dead man in a tree or even in an animal.

These are, of course, points of detail, and diminish but slightly the value of M. van Gennep's monograph. I have, however, insisted on them because, in the first place, nothing is more fatal than indefinite terminology, and, in the second place, it is due to the indefiniteness of our authorities that M. van Gennep finds himself unable to decide between two different theories of the origin of the Malagasy animal superstitions, which occupy so large a part of his space. It was, therefore, specially desirable to make clear to investigators on the spot what facts are wanted and what terms they should use.

It is impossible to deal with a tithe of the interesting points that call for notice: I must therefore limit my remarks to the last, theoretical, chapter. On the whole, in the absence of more definite information, especially on the social organisation, suspense of judgment seems the only possible attitude. It is highly important that there is no native name for the sacred animal, but it is more important to know whether there is any term for the kin which respect it though they do not bear its name (p. 306). Initiation ceremonies (p. 310) have not necessarily much to do with totemism, though the people may be, as in the case of the natives of Australia, almost without exception totemic; I cannot, therefore, attach much importance to this, nor yet to the absence of indication that the animal is the protector of the kin. The endogamy (properly so-

called) of the Malagasy, is certainly a strong *primâ facie* ground for supposing that totemism has nothing to do with the case; we need, however, further information as to rules of descent. In this connection may be mentioned the reports of Vaughan Stevens as to the endogamy of the Sakai (*Z. f. E.*, XXVI., 160) which have, however, never been confirmed.

M. van Gennep offers some criticism of a note of mine in *Folklore*, a mere *obiter dictum*, which I should myself never have dignified by the name of a hypothesis. The criticism would no doubt be justified, had I of set purpose deliberately propounded a series of statements as to Malagasy animal cults. All I did was to state that the Betsileo *seem to be emerging* (M. van Gennep's translation is considerably less guarded) from a state of totemism. Inasmuch as I made this statement in the course of an argument to prove that neither the Bantu in South Africa nor the Betsileo lend support to Mr. Hartland's theory of the transition from totemism to ancestor worship, and as I therefore was mainly concerned to urge that their animal cults are *not* now totemism, I cannot admit the truth of M. van Gennep's charge that I began where I should have ended. It was no part of my object to prove that either Betsileo or Bantu are totemists. I consequently left the question undiscussed.

One or two minor points may be noted. On pp. 36, 161 we have a mention of brother-sister incest in Ceylon. This is, I think, a misconception due to the mis-translation of a term of relationship, which in one language means sister, in another, cousin. Ne . . . pas seems to have been omitted on p. 172, lines 15, 16. Is there any example of a man as a life index (p. 99)? The hunt of the victim (p. 252) may probably be explained as a mode of evading responsibility; the victim which allows itself to be caught is a willing sacrifice. Examples of the hunt are numerous in Europe.

M. van Gennep has done an excellent piece of work and deserves well of his fellow men, not only for the book itself but for its very complete index. It would have been well, however, to give a bibliography of the authors cited; the tiresome citation of full titles on every page would have been avoided; it would have been easier to see how far important documents have been overlooked; and the need of a lengthy search for the reference (*cf.* the reference to Vœltzkow, p. 110, n. 2) would have been avoided in some cases. Moreover, a bibliography based on M. van Gennep's extensive researches cannot but be in itself a contribution to science.

Egypt. **Budge.**

Cook's Handbook for Egypt and the Sudan. By E. A. Wallis Budge, M.A., Litt.D., &c., &c. London: Thomas Cook and Son, 1905. Pp. 773 and index. Nine maps, 130 illustrations. 17 × 11 cm. Price 10*s.* 6*d.* **37**

A really satisfactory handbook of Egypt was wanted, and Dr. Wallis Budge has compiled an exceedingly clear and comprehensive work for Messrs. Cook and Son, the well-known tourist agents. The volume is admirably adapted to its purpose, and really replaces the old handbook from the same hands, including in addition, "The Nile: Notes for Travellers."

The whole has been revised and re-written. The four parts into which the volume has been divided deal with—first, a connected outline of the history of Egypt, religion, learning, hieroglyphics, &c.; the other three consist of a description of the principal places in the Delta and Nile Valley, the Peninsula of Sinai, and a brief sketch of the Nile Valley from Khartoum to the Great Lakes is appended. The whole is well up to date, and care has been taken to incorporate the recent results of archæological research. Hieroglyphic type has been used where needful with great advantage, and the list of Egyptian gods and kings with their cartouches will be most useful, not only to the tourist, but to those who collect scarabs at home. The maps and plans are also very satisfactory.

Dear Sir:

With this I am sending you a marked copy of the last issue of "Man", in which you will find a review of your Report for 1903. The appearance of this notice is much belated and may I express the hope that seeing the character of the publication in which the article appears you will more readily appreciate my motive in asking you to supply a few portrait specimens in the Dominion reports?

The publication "Man" is a subordinate journal to that of the Anthropological Journal of the same Society, but I mention this merely to show you how much interest is taken by scientific men in everything that relates to the life history of aborigines. In some issues of these publications beautiful illustrations are given of the natives in different countries. May I again beg of you to give a little consideration as to the propriety and desirability of having say a dozen or a score of our noble red men given annually in future reports.

Yours respectfully,

David Boyle.

Ottawa, 8th May, 1905.

Sir,-

I have to acknowledge the receipt of your letter of the 1st instant with further reference to the subject of publishing the portraits of prominent Indians in the annual report of this Department.

In reply I beg to say that the Department does not see any reason for changing the opinion expressed in its letter of the 4th ultimo. As stated in that letter portraits of prominent Indians have frequently been published in the annual report, but the reason was that some years the Department had on hand only a very limited number of suitable illustrations -- rather too few to publish alone -- and some portraits were added to make a fair number. This course may again be followed in the future, but the Department does not see sufficient reason for making a change in the nature of its illustrations when those at present published best serve the purpose of the report.

Your obedient servant,

F. Pedley

Dear Sir:-

We wish to publish in the next issue of our magazine an article describing the conditions of the Indians of Canada and which has been pretty largely based upon your excellent departmental report. We need a few photographs and are taking the liberty of asking you if you could be good enough to supply us with some. We would like photographs showing a couple of the industrial schools situated in Western Canada, also two or three giving typical scenes of Indian life, such as Indians at work in the field, etc. May we trouble you to send such photographs if you can do so without any great inconvenience. We would like to get our photographs as soon as possible so as to have the cuts made in good time.

We remain,

Yours respectfully,

LETTER No 416-12

SIR,—

In connection with the desire ofk the Dept' to obtain photographs of Indian life and scenes for the annual report, I have the honor to forward herewith 4 such presented to me for the purpose by Billy ~~and~~ August an Indian of the Ahoussaht band who took the photos himself. August is a smart self educated man but a rascal. The photo forwarded by me in connection with my letter of 14th. April No. 314-12. of Indians in a sort of fancy dress might also possibly be suitable for insertion.

Rev. Sir:-

The Department is desirous of obtaining suitable photographs of its new school buildings for reproduction in the next Annual Report, and in this connection I beg to say photographs of the Oromocto and Woodstock buildings are required. These should be forwarded to the Department not later than the middle of February and need not necessarily be larger than 2½ by 3½ inches, although preferably of greater dimensions than this.

It is not the wish of the Department to incur any large expense in this matter, as it is thought such work can be successfully done by someone residing near these schools that has a kodak or camera. Of course the Department will repay the cost of the film or plate and of the printing, but it is not deemed necessary to engage a profensional photographer to secure a print.

The print should be made on either solio or glossy velox paper and need not be mounted. The Department would like to hear from you in the meantime as to the probability of your being able to have someone supply such a photograph as that required.

Sir:-

The Department is desirous of obtaining photographs of its new school buildings for reproduction in the next Annual Report. It therefore wishes you to endeavour to obtain suitable prints of the new buildings at~~XXXXX XXXXXXXXX~~, Bella Coola and Kit-Katla. Such photographs need not necessarily by from negatives larger than 2¼x3¼ inches, although preferably of larger dimensions, and they should be forwarded to the Department not later than the middle of February.

It is not the wish of the Department to incur any large expense in this matter, as it is thought such work can probably be done satisfactorily by someone residing near the schools. The cost of the film or plate used and the expense of developing and printing would of course be paid, but it is not thought necessary to engage a professional photographer.

The print should be well printed out on either solio or glossy velox and need not be mounted. You should advise the Department in the meantime as to the probability of your being able to obtain what is required.

Sir:-

The Department is desirous of obtaining suitable photographs of the Port Essington and Kincolith schools for reproduction in the next Annual Report. You enclosed with a letter of the 13th ultimo a print of the former of these, which unfortunately was disfigured in the mails. A similar print of this school, printed a little more darkly on either solio or glossy velox paper, will answer the purpose, and similarly one of the Kincolith building.

It is not the wish of the Department to incur any large expense in this matter, as it is thought that such work can be satisfactorily done by someone resident near the schools. The cost of the film or plate used and for developing and printing will, of course, be paid, but it is not thought necessary to engage a professional photographer. A negative 2½x3½ will answer, although preferably it should be of greater dimensions.

This should be forwarded to the Department not later than the middle of February, and I have to ask you to be good enough to advise the Department of the probability of your being able to secure these two prints in the meantime.

Sir:-

The Department purposes reproducing photographs of its several new school buildings in its next Annual Report, and in this connection a print of the former church building recently purchased from the Methodist church for school purposes is required.

In a letter received from you dated October 26th last, No.275/0, enclosing a letter from the Rev. Dr. J.C.Spences, you also enclosed a photographic print of this building, and I have to say that one similar to this, but printed on either solio or glossy velox paper will answer requirements. A cut cannot be successfully made from the print now in hand.

If you can, therefore, obtain a duplicate print from the Rev. Dr. Spencer off the same negative but on a glossy paper, this will do. If unable to obtain such, probably someone residing near the building who may have a Kodak or camera can obtain a satisfactory negative. It is not the wish of the Department to incur any large expense in the matter, but the cost of the film or plate and of developping and printing will be, of course, paid.

This photograph should be forwarded the Department not later than the middle of February, and you are requested to advise the Department in the meantime as to the probability of your being able to obtain a suitable print for the purpose required.

It is proposed by the Department to reproduce in its next annual report photographs of the new school buildings, and in this connection a photographic print of each of the Pelican schools, the view in each case to show the new fresh-air dormitories attached to each building.

It is not the wish of the Department to incur any large expense in obtaining these prints, as it is thought that such work can be satisfactorily done by someone residing near the schools who has a Kodak or camera. After several attempts I have managed to produce the photos of the school which I am sending under separate cover,

Owing to so many trees around it was difficult to get the proper size but hope these will do,

As the boat is expected today or tomorrow I will have no time to make another attempt, as they are now much behind the date you stated,

Dear Sir,-

I should like to obtain some interesting photographs for publication in the annual report of the Department. You will, no doubt, understand that the purpose in publishing illustrations would not be merely to embellish the report, but rather that they might afford objective proof of the progress of the Indians. Probably it would be best to get views of Indians engaged in some of the various occupations by which they make a living; and in the case of those that engage in agriculture, farm buildings, growing crops, &c., as well as work in the field, would form good subjects.

I shall be glad, therefore, if you will endeavour to secure a few good photographs for the purpose indicated. It is not expected that these could be obtained in time for publication in the next annual report, as this is now in course of printing; but they could be kept until next year.

It would be well to bear in mind that, if possible, photographs should not be larger than 8 x 5 inches,

Dear Mr.Scott

At last the photographs are finished and am sending them under separate cover;also the bill for same.

In your letter you asked for others on the same line but before getting any printed,thought it best to submit to you the charatter of the picture and perhaps you could then say better which you would prefer.Below is list of some very good subjects.

No.195. Making a Brave" (taken inside a Sun Dance Lodge- good
" 105 " " " " good
" 365 Old wife - Typical of an old squaw
" 313 Skin lodges
" 136 The noble Red man - Buck Indian in costume
" 260 Tom Tom drummers
" 106 Cree Indian in costume
"A164 Sarcee Woman old
"A163 Kitsipima Otakeman
"A169 Indians outside lodge
"A146 Two squaws on horseback

There are also quite a number of photos takenamongst the Indians of the North which are good.In fact there is a very fine collection of Indian pictures and it is hard to pick out the best.

Sincerely yours,

R.N. Wallace

Dear Mr. Race -

I have to thank you for the seven photographs which reached me in good order. I shall be pleased to have another set of these seven, as well as two sets of the other eleven numbers and titles of which you quote in your letter.

I did not receive the bill for the first seven. You may, therefore, send me the complete account when you forward me the other photographs, making thirty-six in all.

Thanking you very much for the trouble you have taken in this matter.

Dear Mr. Scott:-

Under separate cover, Mr. Waddy, the Agent here, is sending you an enlargement of a snap shot taken by myself at the time of my visit to Nelson House Reserve with Treaty Party, and which we considered so interesting that we hoped it might find a place among the many Indian curios in your office.

Mr Waddy has enclosed a rough diagram that will explain this picture. However that you may understand it more fully I am sending you this special letter of explanation.

Baby Donkey age, 2 years. her mother,
Sarah Donkey, age 30, her grand-mother
Ina Spence, age 45. Her Great-grand-father,
John Donkey, age 70. Her Great-great-grand moth.

Dear Mr. Lynch,-

I am inclosing three films which have been given me on account of their subjects, that is the Indian carvings on the face of the rock. The inscriptions are situated on the Milk River, in Southern Alberta. I would take it as a favour if you would make some prints of these, as I should like to send them to the Anthropological Division.

Dear Mr. Barbeau,-

A short time ago Mr. D. M. Scott, of Toronto, forwarded to me the films of some pictures which he thought might be interesting to this Department. I have had prints made and am forwarding them to you; there are three. Mr. Scott states that, according to local legend, one of the enlarged photographs will show the Indian record of the fight at which Custer was killed; the other a view of the cliff, a small part of which forms the subject of the detailed photograph. This is at Writing-onstone on the Milk River, Southern Alberta., the location of which he places in the N.½ of S.35-T.1-R.13 or the S.½ of S.2-T.2-R.13, West of the 4th.

You will recall that in May, last, I sent you a couple of prints of photographs taken by Mr. O. M. Scott, of Toronto, in Alberta, and which he thought might be interesting to this Department. In your reply of June 1 you stated that when you visited the Stony Indians at Morley you would try to ascertain from some of the old men whether they knew the meaning of the symbols. Will you kindly let me know whether you obtained any information regarding them?

Dear Sir,-

When I was at the Prince of Wales Hotel, Waterton Lakes, Alta., I had the opportunity of looking at a set of portrait photographs of Indians of the Blood Reserve, Alta., made by Mr. T. J. Hileman, of Kalispell, Mont. I have looked at some thousands of photographs of Indians, but I never saw any to compare with these. Mr. Hileman thought that if I made the request you would probably comply and let me have prints of these photographs. I would take it as a great favour if you would extend to me this courtesy. If possible, I should like them the same size as Mr. Hileman's prints. I will leave that to your generosity. It may not be necessary to say that I do not wish to reproduce these photographs nor to use them in any way except as additions to my official collection.

IN YOUR REPLY REFER TO

Duncan C. Scott, Esq.,
Deputy Superintendent General,
Department of Indian Affairs,
Ottawa, Ontario.

Dear Mr. Scott:

I am attaching to this letter, twenty-three different photographs of Blood, Blackfoot and Stoney Indians. It was only recently I learned of the existence of these photographs and after considerable difficulty, we managed to secure them. To my mind they constitute a rather remarkable record of a period that is rapidly disappearing in the history of the Indian race and I know that you will be much interested in the set. If they are of value to you, I would like you to accept the enclosed set for your own personal use with the compliments of the Canadian National Railways.

It is our intention to distribute some of these photographs where we think they will be valued and I would like to secure as full information as I can to attach to the photographs. I have attached to each of these prints all the information that is available to us, and from your own store of knowledge and of that contained in your department, I would appreciate it very much if you would gather as much information as you possibly can on the figures and on the costumes depicted in these photographs and let me have it. I am sure that the descriptions of many of the costumes shown can be elaborated upon. If you would copy the serial number, which you will find on the back of each of the photographs and then let me have as full a description as possible on each of these photographs, I would be much indebted to you.

If you would care for a set of photographs in a dull finish suitable for framing for your office, I shall be very glad to furnish them.

Dear Mr. Thompson,

I am much indebted to you for your letter of the 19th. April (No. 642) with accompanying photographs. Some of them are familiar and I have copies of them. Were they not taken by H. Pollard of Calgary? They are indeed a remarkable record. If you would care to send me another set in dull finish I should, of course, be very glad to have them. I would be interested in getting for you all the possible information but to do that it would be necessary for me to send the photographs to our agents for the different reserves. That might cause a little delay, but if the delay would not inconvenience you I should be very glad to take that action immediately.

I thought you might be interested in an enlargement of a photograph I made of the Fraser Valley just above Lytton. I am sending it under separate cover.

I am having a complete set made up in dull finish for you and these will go forward to you as soon as they are complete.

The photographs were not taken by Mr. Pollard but by some other man who lived in the West and who, since our purchase of the negatives, has, I believe, moved to Australia.

It was good of you to send us a photograph of the Fraser Valley, above Lytton, and I will be much interested in seeing it when it arrives.

In reply to your letter of the 29th.ultimo, enclosing photographs of Indians, I beg to inform you that neither of the two belong to the Stony tribe.

The Indian shown as Chief Full Moon is Water Chief, ex-chief of the Blackfeet at Gleichen.

The squaw with the travois I do not know but from the outfit I judge she is a Blackfoot as well.

Blackfoot Indian - #24629 William Water Chief son of the late "Yellow Horse" who was Head Chief of the Blackfoot Band of Indians until his death in 1921. Water Chief is wearing a Buckskin coat decorated with various designs in coloured beads and fringed with ermine skins down each sleeve. The beading which he wears hanging on his chest is made by collecting the small bones of animals, such as the rabbit, and cutting them in small slices about one quarter of an inch thick, dying them various colours and stringing them on raw hide.

#24620 This picture depicts a Blackfoot Squaw (Mrs. Duck Chief) wife of the Head Chief of the Blackfoot Band in old time travelling regalia. The pony which the woman is riding has attached to it a Travois which is made from two long selected poles which cross at the pony's withers and lashed with raw hide and in rear a platform is made by lashing two sticks about two feet apart and filling in the space in the rectangle so made with plaited raw hide. It was the custom to carry the spare blankets and smaller children on these travois. The horse in rear is the pack pony on which was carried the remainder of the Indians' personal belongings. In this instance the pony is decorated with heavily beaded horse clothing, the bridle being made of horse hair dyed various gaudy colours and plaited and Eagle feathers are attached to the lines. The pack sack over the animal's back is made of buckskin beautifully worked with beads and fringed. The woman is wearing an Eagle feather head dress and a heavy blanket decorated with beads; the bag at her side is made of buckskin and completely covered with beads and in which is carried her personal belongings.

COPY

November 26,1926.

Dear Mr. Cameron:-

Dr. Duncan Campbell Scott has written Dr. Pierce enclosing a newspaper clipping, reproducing the frontispiece in your TRAIL OF BIG BEAR. He says:

"By the way I noticed the enclosed portrait. Was this used as a portrait of Big Bear in "The War Trail of Big Bear" by Cameron? It is not a portrait of Big Bear, but of a Stony Indian of the Morley Reserve. Just for the moment I cannot be certain of his name, but I could easily find out."

You may care to look into this in view of a prospective second edition.

Sincerely yours,

(Sgd.)

Secretary to Dr. Pierce

. . . . .

December 14,1926.

Dear Mr. Cameron:-

I have just received your letter and am shocked to learn that you have written to Dr. Scott in the terms of yours of December 4, a copy of which I have also received from you. Dr. Scott is, as you will probably learn, Deputy Superintendent-General of Indian Affairs. He is also a scholar and a gentleman. He simply raised the question in a casual way, as he had a right to do, regarding the authenticity of the picture. There was no harm done and I thought if an error had been made you might with to know of it before a second edition was brought out. Stranger things have happened than for the right title to get under the wrong picture. I feel that Dr. Scott did you a kindness in bringing this to your attention and am glad to know that no error has been made.

Dear Sir:

I should appreciate it if you would be good enough to let me know the name of the Stony Indian whose portrait you allege I have used as that of Big Bear in my book recently published, "The War Trail of Big Bear;" information which you say you can easily obtain. In view of the seriousness of this imputation, I think the sooner this is obtained the better.

If you really wish to know whose portrait this is, I would refer you to Hon. Colin Inkster, for fifty years sheriff at Winnipeg, whom I have no doubt will enlighten you promptly and whose word I imagine will not be questioned; also to Big Bear's only surviving son, Mistatim Awasis (or Joe Pimmee, as he is now known) and to Poundmaker's son, Sakamataynee. If the evidence of these men is not sufficiently convincing, you could get further corroboration from William and Angus McKay, post office address Prince Albert, old Hudson's Bay Company ex-officers, both of whom knew Big Bear well. These men all have "The War Trail of Big Bear" and I am certain will respond immediately to any request from you for information. I am sending a copy of this letter to Sheriff Inkster, with a copy of the book, in case he has not yet seen it. I shall be interested to read his comment on your charge that I have attempted to foist upon an unsuspecting public a picture of Hector Crawler or some other Morleyville Stony for a portrait of Big Bear. I am also sending a copy to an old and intimate friend who is one of the best-known barristers in the West.

As you have taken the trouble to make this charge to Dr. Pierce, it would not surprise me to learn that you had repeated it to others. Altogether, I consider it a contemptible piece of business, for you must have been aware that, knowing Big Bear as I did, I could not have been mistaken in his portrait and therefore must deliberately have attempted to gull the public.

The picture which I used was taken at Stony Mountain in 1885 or '86 when the old chief was a prisoner there and the owner was kind enough to loan it to me so that I might have a copy made for insertion in my book, as it was the best photograph of Big Bear that I was able to locate.

Yours truly,

W. B. Cameron

P.S.

The statement to which I refer and which Dr. Pierce quoted as coming from you reads:

"By the way I noticed the inclosed portrait. Was this used as a portrait of Big Bear in 'The War Trail of Big Bear' by Cameron? It is not a portrait of Big Bear, but of a Stony Indian of the Morley Reserve. Just for the moment I cannot be certain of his name, but I can easily find out."

The inclosure, I understand, was a newspaper clipping carrying a reproduction of the frontispiece in the book. I have not seen this and would like to, or to know in what paper it appeared.

Would you ascertain from some of the older Indians who is the original of the inclosed portrait.

The photograph itself must have been taken before the year 1893. Kindly endorse the name on the back and sign it, and return it to me as soon as possible.

Dear Inspector Bunn,-

I am going to ask you as a favour to look into a question for me which is of interest and in this connection I would be glad if you would call on my old friend W. J. McLean and submit the matter to him. A book was lately published, of which I have a copy, called "The War Trail of Big Bear," by William Bleasdell Cameron. The frontispiece of this book: a portrait of an Indian, supposed to be Big Bear, attracted my attention, I do not think that the designation is correct. I mentioned the matter in a letter to the publisher and he sent on my remark to the author, who wrote me an abusive letter about it, stating that he was positive it was a picture of Big Bear, as he said, "taken at Stony Mountain '85 or '86, when the old Chief was a prisoner there". I would have paid no more attention to the matter if it had not been for his remarks, which were rude, to say the least. I began to look up other portraits of Big Bear and find that none of them agree with his frontispiece. I have been long familiar with this Indian face, as in the frontispiece, his picture was one of those included in a panel that was sent to the World's Fair at Chicago in 1892-3. The firm of Steele & Wing, Photographers, Winnipeg, were paid for a selection of Indian photographs, and the photograph that I have is stamped: F. Steele, 474 Main Street, Winnipeg. I have always thought it was a Stony Indian, but our Agent there informs me that it is not a Stony, as no Stony at that time had his hair cut. I am sending you other pictures, said to be Big Bear, which I have obtained from the Dominion Archives : -

No. I is taken by Duffin & Co., Winnipeg, said to have been taken in 1885; this portrait, with a slight rearrangement of the feathers and the hair, was published as Big Bear in the History of the Northwest Rebellion of 1885, by C. P. Mulvaney, M.A.

No. 2 was published in Robert Shields "My Travels," Toronto, 1909.

The portrait in the newspaper clipping was handed me by Mr. Paget, and this was given to him by his father-in-law, Mr. W. J. McLean.

If it would not put you to too much trouble, would you try to find out who this frontispiece is a portrait of? Show all the pictures to Mr. McLean and ask him for his opinion.

In my office I have a pastel portrait drawn by Edmund Morris, which bears no resemblance whatever to the frontispiece. It was taken from a photograph.

I hope you will find Mr. McLean well, and that you will give him my very kindest regards and wishes for a Happy New Year. I send you and Mrs. Bunn the same, my Very Best Wishes for the New Year.

Re Big Bear

Dear Mr. Bunn:-

In reference to our conversation last night as to the indentity of the only and original Big Bear a chief of the Plain Crees.

As the cut that appears in Mr. Cameron's book "The War Trail of Big Bear," came from me, I want to put myself on record as to the genuiness of the photograph of Big Bear that is in Mr. Cameron's book, and the original of which is still in my possession.

I had taken a prisoner to Manitoba Penitentiary the same day in which Big Bear was released from said Penitentiary. I drove to the station on the same 'bus with him, and when we got on the trail I spoke to him in Cree, and asked him if he were Big Bear. He jumped around and said: "You startled me, I didn't think you could speak Cree." He didn't say he was Big Bear neither did he deny he was Big Bear, and from subsequent conversation during our journey to Winnipeg, I never had the least doubt that he was the same man of the same name that was sent to the Penitentiary in 1885. There were quite a number of prisoners that were brought down together, and were lodged in the Provincial gaol over night for safe keeping. The following day they were taken to the Penitentiary..

I never knew Big Bear before he was incarcerated in the Manitoba Penitentiary, excepting that I saw him among others in the Provincial Gaol. But I have not the slightest doubt that the photograph I gave Mr. Cameron, and which appears in his book, was the photograph of the Big Bear that was brought from the West, and spent a term in the Manitoba Penitentiary. If he is not the genuine Big Bear, the only explanation is that the wrong man must have been sent to the Penitentiary.

You may make whatever use of this letter that you think proper.

Note by J.R.Bunn.
It seems to me that this letter does not clear up the matter of the identity of"Big Bear" fully. The letter was given to me voluntarily. The Sheriff was very kind and anxious to help if he could.

Yours truly,

Colin Inkster

Ref. No.

Lake Winnipeg Inspectorate
Inspector's Office

Winnipeg, 18th January, 1927.

Duncan C.Scott, Esq.-
Deputy Supt. General,
Department of Indian Affairs,
Ottawa, Ont.-

Dear Mr. Scott:-

I have your letter of the 30th December last,also the enclosures therewith,all being with reference to Chief "Big Bear" ,one of the chiefs of the Plain Crees who resided adjacent to Fort Pitt,a post of the Hudson's Bay Company,situated on the north bank of the North branch of the Saskatchewan river,and approximately 60 miles west and 50 miles north of old Battleford. This Indian Chief "Big Bear" became notorious as a leader of his people and who were implicated in the killings at Frog Lake and Fort Pitt during the troubles of 1885 in the North-west.

As desired by you,in this reference,I called on your old friend Mr. W. J. McLean,I found the old gentleman enjoying good health. After a few ontroductory remarks,I intimated to him that I had some very interesting matter that I would like to consult him about and to get his opinion. I then handed him your letter, this he read over very carefully,he read it slowly and studiously. I then handed him the several photographs and the newspaper cuttings,he went over these very carefully,then he read the letter as he studied the photographs, I remained silent,after a few minutes he picked up the "frontispiece" picture and scanned it ,then he remarked " In this dress and with the cut hair I do not " see anything that reminds me of "Big Bear",I made no comment I mentally noted his action and his remark. He looked at # 1 and # 2,but he did not clearly remember either of these. He then examined the paper clippings,he recognized the picture at the top, he compared it with a picture of "Big Bear" on page 136 I think in a book by Major-General S.B.Steele,"Forty years in Canada", and he was quite clear about this picture and said that this was "Big Bear". I noticed that,while Mr. McLean enjoys very good health,XXXX his memory is becoming impaired,and he remarked to me about this. We talked a little longer and then our meeting closed.

In my talk with Mr. McLean, I feel that I was able to get all the information he could impart. He was very much interested, because he wished to assist you, he spoke in a clear manner, but he complained, more than once, that his memory did not now serve him as well as it used to. However I think he is very clear about that part of his life wherein "Big Bear" figured so tragically.

I then called on my friend the Hon. Sheriff Colin Inkster, he is a real westerner and one who is well posted on matters western in a very general way, first from a personal desire to know intelligently and in a reliable way his native west; and second, in proper keeping with his official position, to be well informed from that view-point. His official life extends well over 50 years, during this long period he has run into much interesting historical experience relating to the west, and he has retained a wonderfully clear recollection of his experiences, so that an interview with him is naturally both instructive and authentic in fact. Early in our conversation, about "Big Bear", he intimated that Mr. W.B.Cameron had secured from him the picture that was the original of the "frontispiece" cut given in the book "The War Trail of Big Bear", writer W.B.Cameron. The Sheriff showed me this original picture, it is the exact counterpart of the picture you have enclosed with your letter and marked "frontis-piece &c.", this fact tells where Mr. Cameron got the picture. The Sheriff states that this is a picture of an Indian who was placed in the Penetientiary at Stoney Mountain in 1885, called by the name of "Big Bear", and which was taken in prison garb with his hair cut. In this connection I am enclosing a letter that I received from the Sheriff, this was written the day after our talk at his home, and is intended to convey the Sheriff's conclusions after he had pondered over our talk, during our talk the Sheriff seemed to feel to think that was some basis for doubt, however after consideration he decided to conclude along the lines he indicates in his letter, with an "if" or two that shows some doubt still exists. The Sheriff's direct inquiry, made in the Cree language, "Are you the one called "Big Bear", and the equivocal reply of the Indian addressed, see Sheriff's letter enclosed, clouds the situation with doubt I think.

I have several clues that I will consult, his Grace Archbishop Matheson was Chaplain at Stony Mountain when "Big Bear" was there, The Penetentiary Surgeon lives in the city, and some others who may be able to shed some light. I thought I better let you know what I had done and intended to do. I will retain the photographs and the newspaper clippings a while longer and report further when I return these to you.

Your obedient servant,

I delivered your kind message to Mr. McLean and thanks for a similar message to Mrs. Bunn and myself.

Dear Mr. Bunn,-

Re Big Bear.

Your letter of the 18th January to hand. Sheriff Inkster's letter is additional evidence that the frontispiece is not a portrait of Big Bear. The evidence which he gives is all on the negative side. He does not say where he obtained this portrait. By the way, there is no evidence that Big Bear's hair was cut when he went into the penitentiary. They did not cut Poundmaker's hair; why should they have clipped Big Bear's locks? Can you find out who took over the stock of negatives owned by the photographer F. Steele, 474 Main Street, Winnipeg. If you can do so, they could likely trace in their books who this was a portrait of. Photographers are particular about keeping track of their subjects.

Dear Mr. Scott. I am sending you a few snap shots which I hope may find interesting. I will look through my files and will get some prints taken off others any that I may think you would care to have. I am not an expert photographer and my main trouble has been in that I have not adjusted my view finder properly and the result has been a crooked looking picture.

We have had a lot of bad weather since you were here and threshing operations are later than usual. The push work has been fine and good progress has been made but it will require ten days or two weeks to enable them to finish threshing at many points in this District.

With best regards to Mrs Scott & yourself,

Dear Mr. Murison,

I am much indebted to you for sending me the photographs which I have looked through and find very interesting. I am sorry to see that the Frog Lake Cemetery is not well looked after. I wonder if it would be possible to get anyone in that locality to see that the grass is cut. I suppose it is not the duty of our Department to look after it. The erection of a cairn seems to say "well that job is finished now", but really perpetual care of the graves is a greater evidence of thoughtful interest.

I hope you have been well since we met in Edmonton. My trip continued to be interesting and useful and I feel very much better of it.

RECEIVED

Dear Mr Scott. I am enclosing a few snap shots which I took when on my recent inspection trip to the Northern Agencies and which I trust you will find interesting. I have notes on the back of each what they are.

With reference to the close up of the new R.C. School at Onion Lake. I took this to show the construction of the fire escapes. You will note that the iron stairways are very steep and I think that they would be dangerous in the event of a rush to get from the school.

I kept in mind your remarks re the condition of the Frog Lake graves and arrangements have been made with our day School Teacher to see that it is kept in good shape. I have had very excellent health during the past winter and have enjoyed my work in consequence.

With kindest personal regards to Mrs Scott & yourself

Yours very respectfully
W. Morrison

Resolution, N.W.T.
November the 23ed 1928

To The Assistant Deputy and ~ecretary,
Department of Indian Affairs,
Ottawa,

Sir,-

I have the pleasure of sending you, enclosed a few of the rare pictures taken during the past summer, which may have some interest, showing a few Indian types of some bands. I do wish they would appeal to you and be an inducement for a visit of our agency, next summer. The transport from Smith and return could be arranged to your convenience, so as not to take too much of your time.

I have the honour to be,
Sir,
Your obedient servant.

December 28th. 1928.

Dear Dr. Bourget,

I have to thank you for your letter of November 23rd. enclosing some pictures of the Indians under your charge. These photographs are most interesting and give a very clear conception of the Indian types in your agency and also of the agency buildings and the surrounding country. I have always been interested in these Indians and have had a great desire to acquire first-hand knowledge of the conditions pertaining to the administration of our work in the far north. Our agencies are scattered over such a wide territory, and usually on the occasions of my visits to Western Canada the time at my disposal has been so fully occupied, that I have so far been unable to visit the agencies in the North West Territories. I hope, however, to have that pleasure before very long.

I trust that you all spent a happy holiday season and that there has been no return of the Flu epidemic among your Indians. There has been a great deal of sickness in the city for the past few weeks, mostly mild cases of influenza, although in some instances there have been fatalities. We have had mild weather during the month of December with very little snow and some rain. In fact in Ottawa this Christmas was almost a green one, the city streets being completely clear of snow.

We have been very busy lately preparing the estimates for the coming fiscal year, and soon we shall be getting ready for the opening of Parliament.

Wishing you and Mrs. Bourget a very Happy and Prosperous New Year, I am,

Yours sincerely,

C. Bourget, Esq., M.D.,
Indian Agent,

August the 16th 1929

Sir,-

I take the pleasure of sendin a few snap shots taken specially during our haying season, show ing the splendid hay prairie located on Slave river, in which the hay is cut for the agency.The supply is quite large and a hundred tons of good hay can be cut at that camp, about 35 miles from Resolution.Only few photos were taken of the Indians scenes during treaty, being too busy at the time.

Dear. Sir

I am enclosing a letter from. an Old Indian on the Bird Tail Reserve. I have met him several times and though 85 years of age is mentally as bright as a much younger man might be. he is full of stories of bygone days. He wants a Photo of Gen. Morris who he says was a good friend - if you have a spare Photo small enough to mail in a letter in the Dept will you kindly let me have it. I will mail it to Mr. Penn with a small donation. which is probably one of his reasons for. writing me.

Memo. Dr.McGill: Ottawa, Nov.19th.1935. 193

With reference to the creation of a Departmental photographic library, I have secured from the salvage officer of the Department of Marine, through Mr.Parker, at no expense to the Department, two small Roneo Dex filing cases, which can be locked, and which will be suitable for filing negatives and photographs in envelopes, with a capacity of 1000.

As a nucleus for this library I have selected 77 negatives which illustrate Indian life, customs, administration etc. a list of which is attached hereunder and would suggest that one print of each be ordered, at a cost of approx.10 cents each.

I shall also require 1000 envelopes of special size, 6 ins. X 5 ins. in which to store the negative and print in the filing case.

If you approve I can arrange to deliver the negatives for printing and select a suitable envelope for filing.

Purchased by Collector

—Photograph of Painting by Robert Fort.

THE above portrait of Chief David, the 109-year-old head of the Saanich Indians, is one of eight or ten paintings of Vancouver Island Indians done by Mrs. S. Maclure, of Victoria, to fill an order for a London collector, A. Bossom, M.P.

Mr. Bossom, who is an architect, became interested in the North American Indians some years ago, when he was practising his profession in New York City; and through Lieut. G. T. Emmons, one of the leading authorities on the British Columbia West Coast Indians, he has purchased a number of totems and other interesting examples of the native art. Mrs. Maclure's paintings are chiefly portraits of Vancouver Island Indians, whom she has been able to sketch in their natural setting, but the venerable Chief David consented to sit for her.

It is understood that Mr. Bossom has given many of the things in his Indian collection to the British Museum, but these Indian portraits, which leave for England this week, are for his own private collection in London.

Dr. H.W.McGill.

Reference is made to your Requisition S-105, October 21st last, regarding certain copying and enlargements done by the Photographic Stores,Ltd., for your branch.

A comparison of the cost charged by the firm and the schedule laid down by the R.C.A.F., reveals that it would be more economical to take advantage of the Government organization. In other branches of the department it is the practice to have as much as possible of the photographic work undertaken by the R.C.A.F. Orders for such work should be submitted in the usual way to this office.

The accounts enclosed with your requisition are now being placed in line for payment, but in future it is expected that your officers will follow the suggested procedure.

Mr. Minister,

The "Revue Apostolique", a monthly periodical of the Oblate Missionaries, published in Lyon, France, takes the liberty of enquiring if it would not be possible to supply them with a certain number of photographs of Indians and Eskimos.

Every number of this periodical usually contains many articles on the Mackenzie, the Yukon, Hudson's Bay, Alberta, etc, signed very often by our Apostolic Vicars. We intend to publish, next August, a special number on the Blackfeet Indians.

You will certainly understand our desire to present to our French and foreign readers excellent photographs giving a satisfactory and exact idea of landscapes and types. The photographs supplied by our missionaries are, most of the time, of inferior quality.

Trusting you will grant our request--which after all concerns Canadian propaganda in France--and in the hope that you will supply us with these photographs on favourable terms, I beg to remain, Sir,

Yours very truly,

(Sgd) ? ?

Dear Sir:-

I desire to acknowledge receipt of your letter of June 17th.asking to be supplied with photographs of Indians and Eskimo for reproduction in "Revue Apostolique",and in reply to state that although we have a number of negatives in the Departmental photographic library illustrative of Indian life,manners and customs,yet without more definite information it is difficult to know what photographs would be suitable for your purpose.

I may say that two years ago the Department supplied 27 photographs to Rev.L.R.Lafleur of Chambly,Que,for reproduction in "L'Apostolat"which is a periodical published in Canada,somewhat similar to "Revue Apostolique".

I would therefore suggest that you communicate with Father Lafleur,who would doubtless be in a position to indicate what photographs would be of value to your publication.

Mr. D. Leo Dolan,
Canadian Travel Bureau,
Ottawa, Ontario.

Dear Sir.-

It is three weeks already that I received your letter and some few days ago the parcel, containing several pictures was delivered.

Since Thursday night I am here for a fine holliday in my sisters place. She is the widow from Angus Montour, the late Iroquois chief American Horse. You may have heard about their marriage, 31 years ago.-- She made his acquaintance in the Hague, Holland, and married him in London, and, although they were so different in race and upbringing, and culture, she "never regretted, and has been very happy. He was a fine man and an example for the younger Indians. He was the real stuff!"

Now that I am here, I started an article concerning those Iroquois-Indians. I finished already an article about Quebec, the town and will write an other one, telling my impressions of the festivities from the Congres. But it is such a pity I cant get pictures I should like. Except some fotos taken by the C.P.R.--from a small group of Indians, they have nothing interesting--not even from that Indian Saint, an Iroquois maiden, Kateri Tekakwita; or from the Shrine.--Then there is a memorial-monument from the war 1914-1918.

You have already been so obliging, that I hardly hazard to express my desire. But--if there is a possibility to let me have them,--oh! how happy I should be!--It would make my article so much more particular interesting.

As soon as I am back in my country, I send you the newspapers and magazines containing the articles with the reproduction of the photographs you send to me.

With the expression of my most kindly and respectfull regards,

Yours very truly,

McGill Museum Gets Unique Indian Photos

A collection of photographs showing the costumes and habits of Western Canadian Indians before the coming of white settlers to the prairies has been acquired by the ethnological museum of McGill University.

According to E. L. Judah, the curator of the museum, the photographs "are absolutely unique, and of paramount importance to anyone wishing to study the habits of the western Indians before they were absolutely ruined by the white man." The collection deals in the main with the Blackfoot, Sarcee and Cree tribes of the plains and the Indians of Vancouver Isiand.

The photographs were taken in 1887 by E. C. May and W. Hanson Boorne of Calgary. Copies are now being made at McGill — the original negatives have been lost — to send to various ethnological museums both in Canada and abroad. Of particular interest to students is a picture showing the famous sun dance; it is believed to be the only unposed photograph of the dance to have been taken.

Regina, June 5, 1939.

Dear Sir:

When last in Ottawa, I discussed with the Department the matter of the Inspector being supplied with a camera.

I find, in travelling around the Reserves, certain conditions which can be best described by a photo. I also find the Indians very much interested in what is being done on other Reserves in the way of Community Farms, Community Gardens, Homemakers' Clubs, Boys' Clubs, etc., and by showing them pictures of the work that is being done in other places, it makes them much more receptive and anxious to carry on the same work on their own Reserve. For instance, the attached picture of a Boys' Club, James Smith's Reserve, showing the work done by the boys on that Reserve in the way of making furniture for themselves, has been the means of starting similar clubs on two other Reserve, and we hope to extend this work all over the Province.

I would like a camera with a good lens. The size of the picture is not so important, as we can get them enlarged if necessary.

I would greatly appreciate being supplied with this camera if funds are at all available.

Yours truly,

Your file No. 282462-2

Dear Sir,

I must apologize for the long delay of this reply. I was taking a necessary rest at the coast, and it was then only when I returned to my residence at Fort Smith that I saw your letter of October 31st.

I regret that my instructions regarding the negatives of pictures of indian and eskimo life which the Department loaned to me in May were not folbwed. This would have precluded the delay in returning same. Actually being on my pastoral visit towards the missions of the artic coast, I do not see my way to do much; but as soon as I am back at Edmonton, I intend to see into this matter. Kindly pardon me for this inconvenience.

Wishing you the compliments of the season, I remain,

Yours sincerely,

Dr. H. W. McGill,
Director, Indian Affairs Branch,
Department of Mines & Resources.

Attached for your information and for whatever action you may care to take is a copy of a letter from Mr. Robert Watson, Laguna Beach, California, in which he asks for photographs to illustrate a book dealing with the Western Arctic which he is now writing.

We propose to furnish Mr. Watson with a selection of photographs of Eskimos, their dogs, sleds, kayaks and igloos and it was thought that you might wish to meet his request in reference to photographs dealing with Indians.

A copy of Mr. Watson's letter has been referred to the Commissioner of the R.C.M. Police.

Dear Sir,

It is many years since I have written your Department, but Canada and Canadian history are still very much in my mind and my work.

I used to know Mr. O. S. Finnie very well, and perhaps I am still addressing him. I also met other members of the Branch on various occasions upon which I visited Ottawa. You may remember me as editor of 'The Beaver' (Hudson's Bay Coy) for many years, also as a writer on Fur Trade history.

I am writing a book just now relating to the Western Arctic, Canada's Indians and the R.C.M. Police, and am very desirous of obtaining some good photographs, duly captioned, which I could have permission to reproduce, with due acknowledgment.

What I need chiefly is individual photos of Eskimos, also group photos showing them in their various activities, with dogs, sleds, in kayaks, whale boats, et cetera, igloos.

Some photos of the various Indian tribes, individual or groups, characteristic and in costume, tepees, Indian picture writing, et cetera;

Also photos of the R.C.M. Police, individual, showing summer and winter costumes, on parade, in patrols, with dogs and sleds, et cetera. I am hoping to have a book that will be really worth while, also some serialized work for British publication in an important journal.

Anything you can do for me will be greatly appreciated.

At the moment, I am 'Special Exploitation Consultant' on Cecil B. DeMille's technicolor epic, 'North West Mounted' now being filmed here.

Regards to all who remember me at the Dept. of Interior.

Sincerely,

'sgd' Robert Watson

Dear Sir:-

With reference to your letter of April 1st.addressed to the Director of the Department of the Interior,and particularly to that portion of it that refers to Indians,I regret to advise that at the present time we have no photographs which are characteristic of Indian tribes in costume,nor of Indian picture writing.

Some negatives which were loaned by this Branch nearly a year ago,(copies from which may have been interesting) have not yet been returned.

Dear Sir:-

In reply to your letter of May 1st. enclosing 11 negatives which you state were loaned to you by Archbishop Breynat, I wish to advise that these are not the negatives which this Department loaned to Archbishop nearly a year ago.

On May 17th.1939 the Archbishop visited the Department and borrowed twenty seven negatives illustrative of Northern Indians and Eskimo but the eleven negatives which you have sent appear to deal with Eskimo life at Aklavik and are certainly not the negatives which were loaned by this Department.

Please rectify this mistake as soon as possible, and in the meantime your eleven negatives are being returned to you, under separate cover.

The National Museum can supply probably a dozen pictures of Western Indian chiefs in ceremonial dress. The cost is based on the size of the pictures, the rate being ½-cent per square inch. A dozen pictures of varied sizes would probably cost not more than a dollar.

To secure them your correspondent should write to the Director of the National Museum of Canada.

THESE ARE YOUR INDIANS

He was proud of his bear claw.

Chief Fish-Wolf-Ofe

By MILDRED VALLEY THORNTON

Specially Written for The Calgary Herald

One morning when I was attending the Calgary Stampede, a very old Indian, Joseph Sitting Top from the Morley Reserve, came hobbling in to the Mounted Police headquarters.

He had lost a horse over a week before and had perfect faith in the ability of the "Mounties" to go and corral the brute at a moment's notice.

It was suggested that I paint him as he was well over 80 and had at one time driven dog sleds between Calgary and Edmonton for the Hudson's Bay Company.

I wasn't enamored of his beauty, but because of his historic background thought he might be an interesting subject. He consented to pose for me, so we went off together, and I managed to [illegible] him to a secluded part of the encampment where I fondly hoped to work in peace.

While I was getting my materials ready a couple of old squaws who were seated on the ground nearby engaged Joseph in conversation, which of course I could not understand. I soon sensed, however, that they were asking him how much he was getting out of the transaction. When he told them a dollar an hour, a wicked look came over their faces, and they burst into a whole volley of invective, which they poured into his willing ears.

Presently this took effect and he informed me that they thought I ought to pay him five dollars an hour. I replied that I couldn't possibly do so, and sat consumed with curiosity awaiting further developments.

Meanwhile the temperature in my immediate vicinity was going up with an absolutely dizzy momentum. The air was getting blue and very noisy, and my enthusiasm was rapidly oozing away in direct ratio to the ominous portent of the barometer.

Perhaps they misunderstood my [illegible]nce for consent, or even for [illegible]ness, because they decided to [illegible] their claims still further.

This time Joseph announced that his price had soared to eight dollars.

It didn't take me long to decide that he was a very ugly old man and I wasn't keen about doing him anyway, so I picked up my things and abruptly walked off, leaving them gaping after me in open-mouthed astonishment.

◆ ◆ ◆

When I went into the R.C.M.P. cabin the corporal looked up in surprise. "You haven't painted him already, have you?" he asked. "No," I replied, "his price was too high. He wanted eight dollars for the job."

It was a treat to watch the corporal's face. "Eight dollars!" he sputtered with his eyes fairly popping out from under his broad-brimmed hat. "Eight dollars? Why, I wouldn't give that much for his whole blankety blank carcass."

Meanwhile it appears that a Calgary reporter had strolled into the cabin just as Joseph and I were walking off to do the portrait, and all unknown to me the Calgary paper published next day a full account of the Vancouver artist who had painted old Joseph Sitting Top, one of the most picturesque characters on the fair grounds.

Taking the episode as all in the day's work, I cheerfully looked around for more amiable prospects which I was sure would be forthcoming.

◆ ◆ ◆

At th[illegible] edge of the encampment I discovered several fine luxurious cars which had not been there the night before. They were owned by American Indians who had driven up from Montana to see the big show.

No brow-beaten, crestfallen, de-

feated race were these folk. They had money, plenty of it. They were [illegible]

Occasionally I heard a soft throaty chuckle. Presently he grunted and then laughed outright. I laughed, too, in good fellowship, and then he pointed to a loose board in the fence where inquisitive boys and girls were gaining free admission to the grounds.

"While I sit here, seven boys and four girls come through," he said, then added, with more grunts and chuckles, "It's all right. Got no money, no pay; it's all right."

I agreed with him, so we shared the dark secret together, while he continued to chortle from time to time as fresh newcomers swelled the day's attendance to record proportions.

When I asked him his Indian name he held out his hand for my pencil, then slowly and laboriously, but very legibly wrote, "Chief Fish-Wolf-Ofe" on the back of my canvas. I inquired his tribe. "Blackfoot from Montana," he

Dear Mr. MacInnes:

I want to thank you so much for your kindness to me during my rush day in Ottawa yesterday. And to make one more request:

I found when I arrived back that the piece I am doing will need some illustration. I remember several of the department offices were coloured with faces of heap big Indian braves. Could you gather together any available pictures of Indians, singly or in groups, and send them to me collect? A picture of one of the Indian schools, showing the children would be interesting or anything that illustrates occupational projects or sports or health. I am reminding myself that you too are an editor, and am sure you will have a pretty clear idea of the suitable thing. We would be using about three, and we thought if you had a good closeup of an Indian, that would make a good cover. Naturally I would take great care of the material and send them back as soon as possible. Since we want to go to press on this, I would appreciate any attention you could give this to speed it up.

Quite apart from learning about Indians, I found yesterday a wonderful day - thank you again.

Very Sincerely,

Elizabeth Gairdner

Dear Miss Gairdner: Thank you for your letter of July 7.

Under separate cover I am sending you some pictures which I hope may be of use. I may explain that we do not keep a library of Indian pictures in the Branch and have very little to select from.

The two pictures, one of the Kamloops Indian School and the other of the group of the Indian school children, are the only recent school pictures suitable for reproduction.

The photographs by Paul Provencher of three old Indian women are I think particularly good and are recent. If they are used please give a credit line to Paul Provencher. We have no other individual pictures of Indians suitable for reproduction here, but I am trying to get you some from some other sources, and if available, will forward in a few days time.

I might mention that the Toronto Star published an article on Indians in their edition of March 17,1943, which contained a lot of illustrations. I do not know where they got them, but possibly they would make them available to you. I do not suppose that there will be time for you to let me see a proof of your article, but I would appreciate one if possible as the article, in part at least, is to be based on information given from this office.

Will you please return the pictures to me in due course.

Yours sincerely,

Gentlemen:

This letter is sent to you in the interest of Dr. Esperanza Estape of Campeche, Mexico.. Dr. Estape is a woman doctor who specializes in anthropolgical research and, therefore, is very interested in the Indians of North America..

She has requested that I obtain for her pictures, preferably camera photos, of the various races of Indians in North America, as she wants a collection of them.. If you should have them I would like a picture of an Indian or group of Indians representing at least each main tribe or even the main tribe in your province.. By camera photos, I presume she means postal card kodak pictures..

I am willing to pay for the pictures as I am sure they will be rather difficult to find.. Yet that is why I am writing to YOU, the Bureau of travel and Information, for them..

Thanking you in advance for your cooperation in this undertaking,
I am,

Dear Sir:-

At the request of Mr. R. A. Gibson, Director of the Lands, Parks and Forests Branch, of this Department, I am sending you herewith a print showing the ceremonial dance of the Kutcha Indians in the northeastern part of the Yukon Territory.

This picture was supplied by the National Museum of Canada, and I understand that it is from a book by Richardson, a member of the Arctic Expedition, written about 1851. I trust that it will be of use to you.

I may add that in so far as I am aware this is the only picture of such a dance available.

EX'D. A

Dear Mr. McGill:

I am returning under separate cover the photograph of the ceremonial dance of the Kutchi Indians which you so kindly loaned to us in connection with Mr. MacDonald's book. The engraving is very fine indeed but unfortunately its topic would bring it into the later section of the book where photographs are used exclusively and both Mr. MacDonald and I feel that it would look a bit odd in this position.

Again many thanks for your courtesy.

Yours sincerely,

J. W. Cowler

Indian Chief to See Portrait Given School

Chief Khahtsahlano, after whom Kitsilano High School and the Kitsilano district is named, will be present at a special dedication of his portrait, to the school, October 27.

The portrait, painted by Charles Scott, director of the Vancouver School of Art, will be unveiled by the chief's wife.

Mr. Scott donated his painting to Kitsilano High School, whose students are raising its purchase price in order to augment the Indian Spitfire Fund.

The project was started by the Canadian Authors' Association, Vancouver and Mainland Branch.

EDUCATION BURIES TOMAHAWK

Residential and administrative buildings of the Kamloops Indian School, the largest in Canada.

By MILDRED VALLEY THORNTON

"SEE that patch of green down the road? That was the old battleground of the Thompson Indians. We often find arrowheads there; big ones and little ones, too."

A group of alert, bright-eyed Indian boys at the Lytton school were giving me this information much as white children would talk about the latest movie. It was a story that their parents had often heard in detail, but to their grandparents it was a poignant and burning memory of a long-passed youth.

Nearby were the fine modern buildings of the school with every facility for the education of Indian children. Around us the imperturbable mountains climbed up to an azure sky. They alone were changeless, and they looked down upon the world at their feet which was in a constant state of flux.

Grain fields and orchards, heavy with fruitage, grew in the soil that had been enriched with Indian blood.

Over the old warpaths, mild-eyed sheep were quietly grazing, and herds of sleek, contented cattle roamed over the wide acres that had once echoed to the sound of the war cry.

In an incredibly short period of time the tomahawk has been exchanged for the ploughshare, the spinning wheel and the notebook.

Famous for its musical talent, Mission Indian Residential School has a fine boys' band.

BELOW—A far cry from this aged Indian on the Alberni Reserve, who still makes dugout canoes, to the progressive busy program which confronts his grandchildren in the near-by residential school.

In an incredibly short period of time the tomahawk has been exchanged for the ploughshare, the spinning wheel and the notebook.

● THROUGHOUT BRITISH Columbia this situation could be duplicated many times over. To visit one of these schools and to observe the machinery at work would be a revelation to many white people.

Each school is in a sense a self-sustaining community embracing all the varied forms of work and activity found in any well ordered, progressive centre.

Indian Residential Schools are financed and conducted by the government in conjunction with the various churches. Some of the finest schools on the continent have been built for this purpose. Educational requirements are the same as in white schools, but white children would howl in agony if they were kept as busy as children at Indian schools. It would be good for the souls of many of them if they were.

Yes, Indian schools are busy places, but the days are full of interest, and there is certainly no monotony. The mornings only are devoted to class work—learning English, spelling, arithmetic, social studies, etc. The rest of the day is given over to manual training, farm work, and similar pursuits for the boys; and to mending, domestic science, laundry, infirmary, and sewing for the girls.

● SOME OF the schools raise their own sheep. These provide not only fresh meat for the pupils, but also a steady supply of wool which the girls wash, card, spin and knit into the famous Indian sweaters. At Kamloops, for instance, 150 boys are wearing sweaters made for them by the 150 girls of that school.

This is the largest Indian school in the Dominion and it is conducted on the most modern and progressive lines. Children here can put on one of the best juvenile entertainments I have ever seen. They give huge pageants at Christmas and Easter in their big auditorium which attracts people from all over the surrounding country.

The mere feeding of several hundred people at these schools is a problem in itself. All summer long, while the children are away, thousands of quarts of fruit and vegetables are canned for winter use. Tons of potatoes are grown, as well as feed and hay for the stock.

All schools have their own herds of cattle. At Kamloops and Mission these are fully registered Holsteins, and at Kuper Island they have an exceptionally fine herd of Jersey cattle. Visit this school for a time and you are guaranteed to lose your waistline.

Not only do the herds supply an abundance of milk, cream, and butter for daily use, but here boys gain practical knowledge under expert guidance in the care and handling of stock. They take great pride in their animals which often carry off first prizes at local fairs. Milking machines, modern refrigeration, cream separators and grading machines are in common use.

● THE EXCEPTION is found up the west coast of Vancouver Island at rock-bound Kakawis where all supplies have to be taken in by boat. With no ground available for farming purposes, special attention is given to boat building, and here the boys work on real boats which go down the ways into active service on the Pacific Ocean as soon as they are completed.

Exquisite beadwork and basketry are done by all the girls at west coast schools. It is incredible what even seven-and-eight-year-olds can do in this craft.

And you ought to hear the children at Kakawis sing "O, Canada." The moment the note is struck, every single one, boys and girls, come in with full, rich, clear tones. They all know the words, and they all sing as though they meant it.

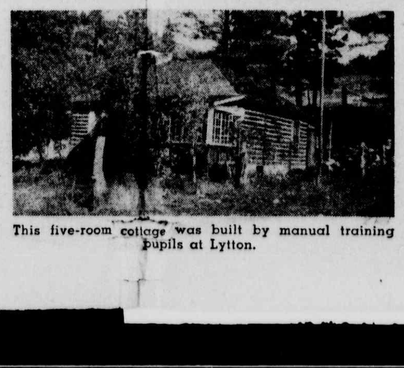

Some people are always complaining about this song. There is nothing wrong with "O' Canada"—but there's plenty wrong with the way we sing it. We should go to the Indians and learn how.

It must not be imagined that it is all work and no play at Indian schools. Provision is made for a certain amount of recreation. At Mission and Kamloops, time has been given to pro-rec activities to which the boys respond with unusual gusto. Both these schools have fine brass bands. At Sechelt they have a lusty fife and drum band, and rhythm bands are popular everywhere. Nearly all schools have large auditoriums where the children stage concerts of music, singing, pageantry, and dancing.

● INDIAN CHILDREN have an innate sense of rhythm and all of them love music. The children at Mission have won more prizes for singing at Musical Festivals than any other school in B.C. They far outstrip average white children in this field.

Many of the schools have apparatus for picture shows, and selected films are shown at regular intervals.

Ample provision is made to safeguard health of the children and schools have splendid infirmaries with a qualified nurse in charge where they receive the best of care in case of illness. Cod liver oil

For children who come from undesirable surroundings at home, and for those living in isolated areas, the residential school provides a haven where they are housed, clothed, fed and educated at Government expense. In many cases, too, children who have been orphaned or made homeless are taken into the schools where they receive the best of care until they can support themselves.

● THE SCHOOLS have done heroic work in an effort to bring Indian children up to white standards. What is vitally needed now is a follow-up program for the boys and girls as they leave school or wish to take up higher education. Some of them have the ability to go into the professions and should have the opportunity to do so.

In order that the carry-over from school to home may be more direct and effective the Government is gradually extending its program for day schools. Many fine day schools are now in operation. Two of the best are at Penticton and Duncan, V.I.

The school at Duncan is one of the most modern and best equipped schools of its kind on the continent. It boasts a fine manual training shop with a full-time instructor in charge. It has all facilities for carding, and spinning wool, and of course this is the reserve from which the famous Cowichan sweaters come. Several Singer sewing machines, a piano and domestic science equipment are also provided. A school bus makes two trips of 24 miles daily to bring children to and from school.

There is also a fine non-denominational school on this reserve known at the Koksitah school. The standard of attainment here is very high, and many of the pupils have gone on into high school and other forms of special training.

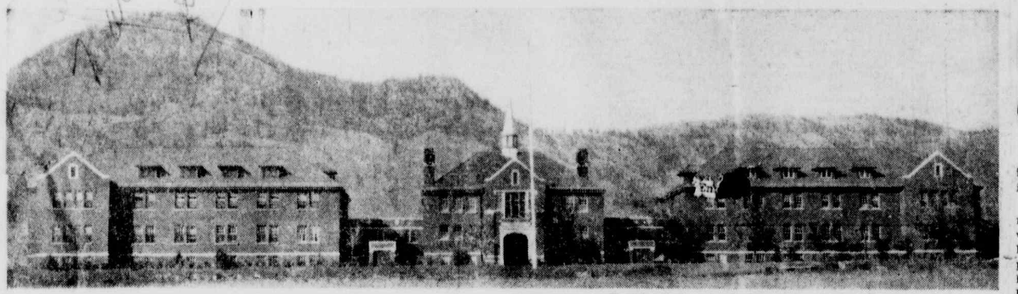

● INDIAN CHILDREN are, I believe, the best behaved in the world. Never think of them for a moment, however, as inarticulate or you deceive yourself. They are only dumb before the arrogant, the curious, and the skeptical, but they will respond with warmth, affection and generosity when they know your sincerity of purpose. You need never try to dissemble your true feelings before them, for they know intuitively the exact nature of one's attitude towards them.

They are responding in a heartening manner to all that is being done for them by the government of Canada. In a couple of generations, progress has been phenomenal. Spotless washings flapping on the lines behind Indian houses; clean, well-cared-for homes; properly cooked food, capable, confident, well-dressed young people all across the country testify to the efficiency and success of the Indian Educational system in this Province.

NOTE: The new school at Alberni has a beautiful setting on the Alberni canal with the forest crowding around it. The colored photo received, however, was not suitable for reproduction in black and white.

Smart young moderns at the Songhees Day School near Victoria. Note evidence of White blood in many of the children, an influence which is bound to be more pronounced as inter-marriage with White people increases.

Gentlemen:

We are now working on a new textbook in economic geography - one unit of which will deal with the occupations of hunting and fishing. It is our aim to show the modern equivalent of historic activity by using primitive Eskimos and Indians as examples of peoples who make excellent use of a meager environment.

We are very anxious to secure action pictures showing the most primitive Eskimos and Indians engaged in some kind of work. For that matter, we would welcome any materials - pictorial or factual - that concern themselves with the occupations of primitive peoples.

Do you suppose you can help us in this respect? Whatever assistance you may be able to give us will be greatly appreciated. We shall anxiously await your reply.

Sincerely yours,

Dear Mr. Slovacek:-

This will acknowledge receipt of your communication of January 9 regarding your desire of obtaining occupational pictures of Indians and Eskimos.

I regret very much to say that we have no supply of Indian pictures on hand.

I am, however, endeavouring to obtain some for you and will advise you later.

Dear Mr. McLean:

I am enclosing a copy of a letter received from Rand McNally & Company of Chicago asking for occupational pictures of Indians and Eskimos.

We are receiving many inquiries of this kind.

As I think I mentioned to you before, we do not maintain any service of this kind and do not have any supply of Indian pictures on hand.

I wonder if you might have anything in your Film Production Division to meet the present requirement.

It seems to me that this whole subject of Indian and Eskimo pictures suggest an interesting field for Canadian pictorial publicity.

On several occasions in the past Mr. Grierson got in touch with me with a view to arranging for documentary Indian pictures. On one occasion,at his request, I arranged a trip for Mrs. Bolton through the facilities of our field service in Northern British Columbia and she took some first rate motion pictures of the Indians there which she ran off for me on her return, but somehow or other they got lost in the shuffle.

I think this line has great possibilities,both in motion and still pictures.

Yours truly,

Attached letter from Mr. Charles Heavrin, Jr., of 505 8th St., Struthers, Ohio, will be self-explanatory.

May we be advised, please, if the Indian Affairs Branch has any objection to Mr. Heavrin and his friend photographing the Indians in the neighborhood of the N.W. Highway System, and obtaining such additional information as Mr. Heavrin has outlined in his letter?

For your information, the Directorate of Public Relations (Army) is required to pass upon all requests for permits to travel the Alaska Highway in which photography and other publicity might be involved.

This Directorate has no objection to a permit being granted Mr. Heavrin, provided the Indian Affairs Branch has none.

Dear Sir:

In correspondence with the commander of the R.C.M. Police, he suggested that I communicate with you in regard to a permit to travel the Alaska highway, presenting information on the object of the trip and a description of the vehicle and equipment.

A friend and I plan to drive to Watson Lake this coming June in preparation for a trek north to photograph and obtain information on any Indian bands, in regard to their habits, customs, language, etc., and will be purely ethnological.

We would drive a 1941 Chevrolet, and carry about two hundred pounds of baggage, clothes and equipment, including a .22 and .30 calibre rifle, two folding cameras, and food.

We have planned to return in July of this year.

If it is essential for the permit, the car is two-tone green, with State of Ohio license tags K 761 C. The body serial number is 6AH01 22204, and the engine serial AA 389023.

Your sanction of a permit will be greatly appreciated.

Yours very truly,

/s/ Charles Heavrin

Dear Mr. MacInnes:

Mr. McLean has passed on to me your letter of January 14th enclosing an enquiry as to photographs of Indian and Eskimo life from Rand McNally & Company.

Your letter raises a number of interesting points concerning our coverage, in the national interest, of Indian and Eskimo life and I should be very happy to discuss the matter with you at your convenience.

In the meantime, I have asked our Associate Photo Editor, Miss Dorothy Hall, to select from our stills files all the available material on Indian and Eskimo life, and I would suggest that you might care to come to our Photo Services section at 225 Sparks Street early in the week and look over the material with us to see whether you feel it might suit your purpose. In addition to coverage on the Indians of the Skeena River made immediately prior to the war, we have some quite recent photographically first-rate coverage on the life of the Eskimos at Baker Lake, N.W.T. and some coverage of Eskimo life done this summer on the last cruise of the "Nascopie".

Selection made for approval DHR

Memorandum for Mr. MacInnes:

Re: National Film Board Photographs
of Canadian Indians

During this morning's chat with Mr. McInnes, Co-ordinator of Graphics, National Film Board, the following two points of special interest were discussed:

1) I questioned Mr. McInness on the point mentioned in your letter of January 14 to Mr. Ross McLean:

> "On one occasion, at his (Mr. John Grierson's) request I arranged a trip for Mrs. Bolton through the facilities of our field service in Northern British Columbia and she took some first rate motion pictures of the Indians there which she ran off for me on her return, but somehow or other they got lost in the shuffle."

Mr. McInnes believes it should be possible to trace the pictures you have in mind and has made a note to see what can be done to have the pictures found and considered for future use

2) In the letter of January 13, from the Director of Public Relations (Army), permission is sought regarding the passage of Charles Heavrin, Jr and a friend through the Alaska Highway region, during which expedition Mr. Heavrin proposes taking photographs of "Indian bands" and to collect information regarding "their habits, customs, language, etc."

It occurred to me to ask Mr. McInnes whether Government departments ever made a practice of endeavouring to get such parties to present the Government with copies of any pictorial material gathered, if not also with a general written impression of their findings. Mr. McInness immediately explained that the Film Board tried to make it a fairly general practice to endeavour to induce such "explorers" to donate copies of photographs taken to their own department -- particularly if they felt able to offer any special courtesy services in exchange.

Such a suggestion may point the way for Indian Affairs Branch to try to get a friendly understanding worked out whereby this Branch could fall heir to a set of pictures taken during the proposed expedition. Credit could, of course, be allowed

ndian Affairs. (RG 10, Volume 3090, File 282,462-Pt. 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES

for any reproductions which may be agreed upon for publication on occasion.

If feasible, such a plan would seem to suggest a way for acquiring a set of contemporary photographs at little cost to the Department and, at the same time, take advantage of a chance to secure photographs of a type which the Department itself might never get around to taking, at least under quite the same circumstances and with the same approach and viewpoint.

As for any "courtesy service in exchange" it may be that even a letter or two of introduction to such Indian agents and officers as might be expected to be encountered during the expedition would prove more than sufficient, as such notes of introduction mean much towards facilitating the travels of expeditions of the nature under discussion.

NOTE: 1/25/47 The remainder of the selection of photographs made the other day have just reached this office and are attached for review.

While the greater part of photographs in the Film Board Library at present depict cultural or "tourist attraction" interests of Indians, a few suggesting such industrial interests as: logging, fishing, ranching and trapping were available and have been included in the attached selection

Dear Mr. Slovacek,

With further reference to your inquiry of January 9 for pictorial and factual material concerning present day Indian life in Canada, we have been able to secure the enclosed -- few photographs which contain self-explanatory notations on their reverse sides.

Copies of the following four -- publications are also enclosed:

1) Annual Report of Indian Affairs Branch for fiscal year ending March 31, 1945
2) Census of Indians in Canada
3) "The Indians Speak to Canada"
4) "History of Indian Administration in Canada"

As this Branch is concerned only with the affairs of our Indian population, we have referred a copy of your letter to us to the Director, Lands, Parks and Forests Branch in order that you might receive information concerning Canadian Eskimo life.

Dear Sir,

-8- With further reference to your letter of December 21 inquiring for photographs which might be suitable for illustrating the article on the "Indians of the Saguenay" which you are preparing for your Staff Magazine, I write at this time to enclose several pictures of Montagnais Tribe Indians.

These photographs have been secured from the personal collection of the General Supervisor, Fur Developments, of this Branch, who is pleased to make them available for your review. It is regretted that the negatives are not now available. When the pictures have served your purpose, it would be appreciated if they may be returned to this Branch.

You may be further interested to know that a number of special photographs were taken by Mr. and Mrs. J. A. Denault, commercial photographers, 304 Wilbrod Street, Ottawa. Mr. and Mrs. Denault recently travelled among the Montagnais Indians, taking pictures and writing stories about them. Their latest work on the subject has come out in book form entitled "Mon Sauvage."

I have telephoned Mr. Denault to mention your interest in securing Montagnais Indian pictures, and he assures me he would be pleased to be of service should you desire to communicate with him directly.

Re: File 282464-1 (Sec'y) DR
Attention: T. R. L. MacInnes

Dear Mr. MacInnes:

Your package of materials and letter arrived this morning, and we are more than pleased with the contents. I have discussed both literature and pictorial matter with our editors, and the things you have so kindly sent to us will be of very great help.

I wonder if you would object very greatly to our keeping the photographs on hand for a few months. You see, while the unit we are now working on deals with the occupations of hunting and fishing (and some of the photographs suit our purposes ideally!), a unit in the future will deal with manufacturing. Included in the pictures you sent are scenes of Indians engaged in handicraft work - scenes that may fit our needs exactly. For that reason, we should like to have your permission to hold these pictures longer than originally anticipated.

I am sorry that we created needless work for you in that you sent a copy of our letter to the Lands, Parks, and Forests Branch. We had sent a similar letter to that branch regarding Eskimos, and have received a very satisfactory response.

"Thank you" seems inadequate in expressing our deep appreciation of the time and trouble you have taken in responding to our letter. We have always found Canadian departments extremely cooperative and resourceful. But inadequate as it may be, we can voice our sincere appreciation only by repeating

Thank You!

THIS INDENTURE made in Triplicate this ninth day of January, A.D. 1906.

BETWEEN:-

HIS MAJESTY, represented by the Honorable the Commissioner of Crown Lands for the Province of Ontario, (hereinafter called the "GOVERNMENT"),

OF THE FIRST PART,

-and-

EDWARD WELLINGTON BACKUS, of the City of Minneapolis, in the State of Minnesota, Lumberman, and those associated with him, (hereinafter called the "PURCHASERS"),

OF THE SECOND PART.

WHEREAS the Rainy River in the District of Rainy River forms the International boundary between the Province of Ontario, in the Dominion of Canada, and the State of Minnesota, one of the United States of America, which said River in the neighborhood of the Town of Fort Frances forms a valuable and extensive water power;

AND WHEREAS the Municipal Council of the Town of Fort Frances and the Municipal Council of the Township of McIrvine and the residents of the said Town and Township have at various times petitioned the Government to develop or procure the development of the said water power, so that the same might be utilized for municipal purposes and for manufacturing and milling in the said Municipalities, thereby assisting in the development of the said Municipalities and of the surrounding District;

AND WHEREAS application has been made by the Purchasers for a grant in fee of such lands adjacent to the said River, and of such lands covered by the said River, and of such privileges as are necessary to enable the Purchasers to develop the said water power and to render the same available for municipal, manufacturing and milling purposes;

AND WHEREAS the said water power can be more advantageously developed, and more power produced, by works embracing the entire width of the River

and dealing with it as a whole, than by an indenpendent development on the Canadian side of the International Boundary, and it is therefore in the public interest to adopt such plan of development;

AND WHEREAS the Purchasers are the owners in fee simple of the lands and water power on the Minnesota side of the International Boundary opposite the said Town of Fort Frances, and are desirous of obtaining from the Government of the Province of Ontario a grant in fee of the lands and power on the Canadian side of the International Boundary, for the purpose of developing the water power to the full capacity of the stream from side to side at high water mark, and of utilizing such storage facilities as may be available for maintaining the River at such high water mark, thereby rendering available a large amount of power on the Canadian side of the River for municipal purposes and for the operation of pulp or paper mills, flour and grist mills and other manufacturing establishments;

AND WHEREAS it is necessary in order to carry out such a scheme of development that the Purchasers should be permitted to construct a storage dam at the outlet of Lake Namakan, at or near Kettle Falls, on the International Boundary, and to set apart sufficient lands for the construction and maintenance of the said dam, and that they should also, if necessary, be in a position to create storage reservoirs on Upper and Lower Manitou Island Lake and Big Turtle Lake under conditions satisfactory to the Government by the construction of the necessary dams for that purpose, with the view of maintaining a more regular and uniform flow of water over the Falls at Fort Frances, by reinforcing the waters of Rainy Lake;

AND WHEREAS the construction of the said dams and the maintenance of the waters of Rainy Lake at a higher level during the low water period will be of greater advantage to navigation;

AND WHEREAS it is expedient and desirable in the interests of the Town of Fort Frances, of the said Township of McIrvine and of the public generally, that the said water power be speedily developed to its full capacity and that an Agreement be entered into to that end, upon the terms and subject to the conditions and stipulations herein contained;

AND WHEREAS the Purchasers propose to form a Joint Stock Company under the provisions of The Ontario Companies' Act, for the purpose of acquiring the said lands and water power and of taking over and acquiring this Agreement and all the benefits and advantages appertaining thereto, and of assuming the obligations hereby incurred by the Purchasers, and of carrying on the development and operation of the said water power'

NOW THIS INDENTURE WITNESSETH and it is hereby agreed by and between the Purchasers and the Government as follows; that is to say:-

I. THE GOVERNMENT agrees to sell and the Purchasers agree to buy the following lands and lands covered by water, being ALL AND SINGULAR those certain parcels or tracts of lands and premises situate, lying and being in the Town of Fort Frances and adjacent thereto, and being composed of the lands and lands covered by the waters of the Rainy River shown and set out in the plan and description hereunto attached, bearing the signature of the Commissioner of Crown Lands for Ontario, which said plan and descriptions are hereby made part of this Agreement, the lands in question being colored red on the said plan, together with the lands or lands covered by water heretofore conveyed by the Town of Fort Frances to His Majesty The King, for the purposes of this Agreement, together with all water powers and privileges, and all rights, easements and appurtenances thereto belonging or appertaining, for and in consideration of the sum of Five Thousand Dollars ($5,000) of lawful money of Canada, payable in cash on the execution and delivery of this Agreement, and in further consideration of the covenants and requirements hereinafter contained and of the special agreement to supply power or electrical energy to the Town of Fort Frances and the Township of McIrvine, as hereinafter set out, to such extent as the said Town or Township may require;

2. THE PURCHASERS covenant and agree to construct a dam, conduit or such other works on or near the said River at Fort Frances, in accordance with the plans hereto attached, sufficient to develop power to the full capacity of said River, (including any increased capacity of said River by reason of the construction of storage dams or works), according to the plans hereto attached, approved of by the Lieutenant-Governor in Council, and which are hereby made

a part of this Contract, such dam to be built of solid masonry or concrete, and to be of such character and of such dimensions as will make the same amply strong and safe for the purposes intended, and such works will be of such design as will fully provide for sufficient waste weirs to obviate danger in time of floods or freshets. The dams, head gates, waste weirs and works in connection therewith or incidental thereto shall not be proceeded with unless and until the plans, drawings and specifications for the same shall have been submitted to and approved of by the Lieutenant-Governor in Council, which said plans, drawings and specifications shall show the precise site and location of the said work: PROVIDED, HOWEVER, that notwithstanding anything hereinbefore contained, and notwithstanding the approval of the plan hereto attached, the waters of the Rainy Lake shall not at any time be raised to a higher level than may be authorized by the Government, and the height of water to be maintained in the said Lake and the use of non-use of the Flash Boards as shown on said plans shall at all times be subject to such control and direction by the Government as in the opinion of the Government may be necessary to ensure safety and protection of property.

3. ALL Power Houses and buildings, machinery and appliances necessary for developing the total power capable of development on the Canadian side of the said River, in accordance with said plans, shall be erected as fast as required for use and maintained on the Canadian side of the International Boundary, provided that the plans and location of such power houses shall be subject to the approval of the Lieutenant-Governor in Council;

4. THE PURCHASERS covenant and agree to commence the said dam and other works forthwith after the approval of the plans, drawings and specifications by the Lieutenant-Governor in Council, and to fully complete the said dam and works in accordance with said plans, drawings and specifications, by the First day of January, 1907, and to develop and render available for the use on the Canadian side of the River, by the said date, the total amount of horse power to be capable of development, in accordance with said plans, at the said point (including increase in such power by reason of the construction and maintenance of storage dams or works) as provided in paragraph Two hereof. AND the Purchasers further covenant and agree to expend upon such works the sum of Fifty Thousand Dollars ($50,000.00) within nine months from the date hereof. PROVIDED

that if the Purchasers fail to erect the said dam and works and to render the said amount of power available on the Canadian side by the First day of January, 1907, or to expend upon the said works the sum of Fifty Thousand Dollars ($50,000.00) within the nine months from the date hereof, as above provided, then this Agreement shall be null and void, and all the moneys paid by the Purchasers shall be forfeited;

5. THE PURCHASERS covenant and agree that they will from and after the said First day of January, 1907, deliver power to the said Town of Fort Frances and to the Township of McIrvine, by the method A B or C hereinafter described, at the election of such Municipalities or either of them for municipal purposes and for public utilities, but not for commercial purposes, which said power shall be kept constantly in operation and available twenty-four hours each day (save/and except such time as may be necessary to replace machinary or for repairs), and the Corporation shall have the right to elect to take the power or any portion of it (A) by cable or belt or other means of conveying the same direct from the power house of the Purchasers; (b) by waves of electrical energy delivered on the wires of the said Corporation at the said power house; or (c) by electrical energy delivered to the premises of the Corporations, or to such other premises as the Corporations may specify, the same to be delivered within three miles from the power house of the Purchasers. The Corporations shall be entitled to take such portion or portions of the said power as the Corporations may desire by any of the methods of delivery above mentioned, and for such purpose the Purchasers shall instal all water wheels, electrical and other machinery, shafting, motors, connections and appliances, with other attachments necessary to deliver the said power as required by either or all of the methods above mentioned, excepting that the Corporation or the public users may be required to furnish the electrical motors for propelling the machinery on or within their own premises, and the said power shall be supplied to the said Municipal Corporations for the purposes aforesaid at a specially favorable rate, which shall not in any event exceed Twelve Dollars ($12.00) per Horse Power per annum, where the same is taken under method A, or Fourteen Dollars ($14.00) per Horse Power per annum, where the same is taken under method B. In the event of the said Corporations requiring the said power or any portion thereof

to be delivered under method C, the Purchasers may charge, in addition to the rate fixed for delivery by method B, such sum as may be mutually agreed upon, or determined, as herein provided, to cover the extra expense only necessarily incurred in such distribution. In the event of the said Corporations taking such power, or any portion thereof, at the power house of the Purchasers, the said Corporations shall have the right of entering upon the lands and premises of the Purchasers for the purpose of erecting all necessary connections, belts, cables, poles or wires, or other means of conveying or carrying said power, and for the purpose of repairing, maintaining or operating same from time to time, and for all other purposes necessary to satisfactorily procure the delivery of such power, and for such purposes to enter the Purchasers' power house and premises as occasion may require, and no extra charge for rent shall be payable by the said Municipalities for the use and occupancy of the lands and premises of the Purchasers required for all poles or other structures, or works of the Municipalities for the transmission and distribution of the said power. PROVIDED that the Purchasers shall not be required to deliver power to the said Municipalities in less quantities than Fifty Horse Power at any one time, or by any one of the above mentioned methods. PROVIDED FURTHER, and it is specially agreed, that should the Corporations at any time deem the prices demanded by the Purchasers excessive, or more than sufficient to allow the Purchasers a fair profit, and in the event of the Corporations or either of them being unable to agree with the Purchasers as to such prices, or as to any other matter arising in respect of the carrying out of these presents, the same may be referred to the Lieutenant-Governor in Council, who may settle and determine the same, and his findings shall be final and binding upon the parties in the same manner and to the same extent as if it were included in and a part of this Agreement. PROVIDED, however, that such prices and conditions as may be determined or agreed upon from time to time shall remain in force for at least five years before being subject to readjustment. PROVIDED, also, that the Corporations shall in all cases give the Purchasers three months' notice in writing of the amounts of power required and of the method of delivery by which it is desired the same shall be delivered.

application therefor, any power or energy reserved for use on the Canadian side of Rainy River and not already in use, at such prices and on such conditions as may be agreed upon between the parties, or in case of disagreement, at such prices and on such conditions as may be fixed by the Lieutenant-Governor in Council, and the Purchasers shall provide and maintain all such generators and transmitters, machinery and appliances as may be requisite for the delivery of such power or energy by any of the methods A, B or C referred to in paragraph Five hereof, and shall afford to parties buying, or renting power or energy from them all reasonable and necessary access to their buildings, lands and premises for the purpose of erecting and maintaining wires, cables, or other means of carrying or conveying such power or energy, and shall erect such poles, wires and other appliances as may be necessary for the distribution of power by the method C, provided that the Purchasers shall not be obliged to erect new appliances, or to extend their appliances, for the purposes of delivering power by the method C to any party declining to accept and pay for at least one hundred horse power, or declining to furnish, if required, reasonable security for the payment of the purchase price or rent for such horse power for such period as may be necessary to recoup the Purchasers' outlay in providing such appliances, the method of distribution of such power and the appliances to be used to be subject to the approval of the Lieutenant-Governor in Council, and the streets, squares, lanes or other public places along or across which such power is to be carried, to be subject to the approval of the Municipal Council of the Town of Fort Frances, or of the Township of McIrvine, as the case may be. PROVIDED that parties requiring power from the Purchasers shall give them three months' notice in writing of the amount of power required and of the method of delivery by which it is desired the same shall be delivered;

7. IT IS FURTHER AGREED by and between the parties hereto that the fixing of the maximum price herein provided for delivery of power to the said Municipalities or Fort Frances and McIrvine forms a part of the consideration for this Agreement, and for the transfer of said lands, power and privileges, and that the same shall not be used to the prejudice of the Purchasers in any reference to the Lieutenant-Governor in Council to establish the price at which power s shall be sold to other consumers, but the Lieutenant-Governor in Council shall

be at liberty to fix said prices at such figures as to him may seem just and proper;

8. IT IS FURTHER COVENANT AND AGREED that they will at all times retain and reserve for use on the Canadian side of the International Boundary line Four Thousand Horse Power and will render the same permanently available for use on the Canadian side: PROVIDED FURTHER that when and so soon as the said Four Thousand Horse Power so reserved shall be leased or in permanent use, the Purchasers will lease to any person, firm or company on the Canadian side of the said boundary line any further power which may be required on the Canadian side and which may be unleased or not in permanent use;

9. THE PURCHASERS FURTHER COVENANT AND AGREE that in leasing, selling or otherwise parting with such power, or any portion thereof, they will provide by contract therefor that such power so leased, sold or parted with, or any part thereof, shall not be farmed out or sold or leased at any greater price or remuneration actually paid therefor to the Purchasers, and the Purchasers shall not sell or otherwise dispose of the said power in any way that would deprive the public of the benefit of the prices to be fixed or determined as herein provided:

10. THE PURCHASERS FURTHER COVENANT AND AGREE that in no case shall leases or users of power or energy on the Canadian side of the International Boundary line be charged higher rates or be subject to more onerous conditions than users or lessees of like amount of power on the Minnesota side;

11. THE PURCHASERS COVENANT AND AGREE that they will keep their work constantly in operation, so as to render power leased or sold by them available to the purchasers or lessees for twenty-four hours each day (save and except such time as may be necessary to replace machinery and for repairs);

12. THE PURCHASERS shall have the right to construct a storage dam at or near Kettle Falls at the outlet of Lake Namakan and also at the outlet of Lower Manitou Lake and of Big Turtle Lake, subject to such regulations and conditions as may be imposed by the Lieutenant-Governor in Council, and may raise the water of the said Lakes to a point not higher than the high water mark, as ascertained by an officer appointed by the Government, and maintain them at such point, and the Government agrees to leave to the said Purchasers in perpetuity at a rental of One Dollar per annum such an area of land as may

be found necessary at or near the said Kettle Falls, for the purpose of constructing the said storage dam and other necessary works or structures in connection therewith. PROVIDED that if it should be made to appear to the satisfaction of the Lieutenant-Governor in Council that there is a bona fide and substantial demand for power in the neighborhood of said Kettle Falls, which might be supplied therefrom, the Purchasers, upon being required so to do by the Lieutenant-Governor in Council, shall, by works constructed and water wheels and other necessary machinery and appliances installed on the Canadian side of the International Boundary line, develop the water power at the said Falls to the full extent to which the same may be developed on the Canadian side of the International Boundary line, as determined by the Government Engineer to be appointed for such purpose, or to such smaller extent as may be directed, and within such time as may be specified by the Lieutenant-Governor in Council. The height of water to be maintained in the said Lakes shall at all times be subject to the control of the Lieutenant-Governor in Council. PROVIDED FURTHER that if the Purchasers shall at any time develop a water power at Kettle Falls, the total amount of power so developed on the Canadian side shall be retained for use on the Canadian side and shall not at any time be diverted or used elsewhere, and all the terms and conditions herein contained, with reference to power at Fort Frances, shall apply to the said power at Kettle Falls, save and except the conditions as to supplying power to the Town of Fort Frances and the Township of McIrvine, provided that the rights of the Purchasers as to the storage of waters in the upper and lower Manitou Lake and Big Turtle Lake, shall not include any rights in or to the water powers at or near the respective outlets thereof or at or near the site or sites of any dam or dams constructed by the Purchasers, but the Government shall be free to deal with such water powers as occasion may require, reserving to the Purchasers the right of storing the waters of the said lakes, subject to such conditions and regulations as to the Government may seem necessary and proper. PROVIDED, however, that if the Purchasers are of opinion that there is not a bona fide and substantial demand for power in the neighborhood of the said Kettle Falls, they may decline to develop the water power, in accordance with the provisions of this Section, and on their so declining, the Lieute-

nant-Governor in Council shall have the power to determine all their right, title and interest in, to and out of the said Kettle Falls or the lands adjacent thereto, and all their rights and privileges thereto herein set forth, and may lease the said power at Kettle Falls to any other person or company or dispose of it as may seem best, and that the default of the Purchasers under this Section shall not operate as a forfeiture of any of their rights, privileges or franchise granted under the other clauses of this Agreement;

I3. IT IS FURTHER COVENANTED AND AGREED that any matters of dispute not herein especially provided for, between the Purchasers and the said Municipalities of Fort Frances and McIrvine, or between the Purchasers and Lessees or Purchasers from them of water power, shall be subject to the determination and direction of the Lieutenant-Governor in Council;

I4. IT IS FURTHER UNDERSTOOD AND AGREED that this Agreement and the sale to the Purchasers is made subject, not only to the terms hereinbefore specified, but subject also th the following terms and conditions;

(a) All the rights of the Dominion of Canada or the Province of Ontario as to navigation on the said River or Rivers and the said Lakes, and to the improvement thereof by the construction of a lock or canal, or locks or canals, or otherwise, are reserved and excepted, and the Government of the Dominion of Canada or of the Province of Ontario shall have full power to enter upon the said land and premises and to construct, maintain or repair any canal, lock, dam or other work or works necessary or desirable for the maintenance and improvement of navigation upon the waters affected thereby, without let or hindrance, and without compensation;

(b) The right of timber owners and others is reserved to float logs and timber down the said river or rivers and Lakes, for which purpose slides or other necessary works according to the plans approved by the Government are to be constructed by the Purchasers;

(c) The Purchasers shall construct proper fishways if required by the proper authorities;

I5. THE PURCHASERS covenant with the Government that they will not at any time or any place deposit, empty, run or turn into, or permit to be placed, deposited, emptied, run or turned into the said River or Rivers or the said Lakes, any sawdust, chemicals, refuse or matter of any kind which may have the

effect of polluting the said waters, or of destroying, harming or driving away the fish therein;

16. THE GOVERNMENT agrees that as soon as the said dam at Fort Frances is completed and in readiness for water wheels for one-half of the total quantity of power available for use on the Canadian side of the River, as hereinbefore provided, a Patent from the Crown shall issue to the Purchasers of the said lands and of the said power, subject to the forfeiture on breach of any of the conditions herein contained;

17. IT IS DISTINCTLY UNDERSTOOD AND AGREED that the lands, rights and privileges mentioned in this Agreement are confined solely to lands, rights and privileges the property of the Crown in Ontario under the control and administration of the Government of Ontario, and that no permission is given hereby to the Purchasers to overflow, or cause to be overflowed any lands not the property of the Crown in Ontario and not under the control and administration of the said Government, and if damage is done by the erection of any dam or the construction of any works under this Agreement, no recourse shall be had against the Government in respect thereof;

18. The Joint Stock Company to be incorporated by the Purchasers shall be composed of such persons and shall have such an amount of capital stock and such proportion paid up as shall be satisfactory to the Government. It shall assume all liabilities and engagements which are assumed and entered into herein by the Purchasers, and the Government shall accept its personal liability instead of that of the Purchasers in all respects, except the Agreement to expend the first Fifty Thousand Dollars ($50,000) as hereinbefore set out, and except as aforesaid, the Purchasers' liability shall cease and determine when such liabilities and engagements have been assumed by such Joint Stock Company. It is understood and agreed that the Purchasers shall give to Canadian lines of railways and steam boats the preference in the carriage of all goods and articles produced by them on the Canadian side of the said International Boundary line, at such rates not higher than those charged by other lines or steamboats from or between the same point or points;

19. IT IS FURTHER UNDERSTOOD AND AGREED that nothing herein contained shall affect the rights of the inhabitants of the Town of Fort Frances, or the Township of McIrvine, or of the public, to free access to the shore and

waters of the Rainy River or Rainy Lake and the use of the said waters for municipal and domestic purposes, and that the Purchasers shall not interfere with any street or streets now open, or that may hereafter be opened to the said River, nor with any wharves, docks or other structures now erected, or hereafter to be erected, for purposes of navigation, but excepting, however, from the operation of this clause the construction of such buildings and works as are authorized under the terms hereof;

30. IT IS FURTHER UNDERSTOOD AND AGREED that failure on the part of the Purchasers to carry out or comply with any of the conditions herein contained, or any order or direction of the Government or the Lieutenant-Governor in Council made hereunto, after due notice given and after a reasonable time has been given within which the Purchasers may comply with the conditions in respect of which such default has been made, shall cause a forfeiture of the lands, rights and privileges in this Agreement mentioned, but the Government may, at its option, require the payment of a penalty not exceeding One Hundred Dollars ($100.00) per diem while the default has continued;

31. THIS AGREEMENT shall be binding not only upon the parties hereto, but upon their heirs, executors, administrators, successors and assigns.

IN WITNESS WHEREOF the Commissioner of Crown Lands has hereunto set his hand and seal, and the parties of the Second Part have hereunto set their hands and seals.

Extract from a Report of the Committee of the Honourable the Privy Council, approved by the Governor General on 19th. September, 1905.

"""""""""""""""""""

On a Report dated 11th. August, 1905, from the Minister of Public Works stating that in January 1905, Mr. Edward Wellington Backus, of Minneapolis, made an application for himself and those associated with him under Chapter 92 of the Revised Statutes of Canada, for the right to construct a power dam across the Rainy River from a point in the town plot of Alberta, now the Town of Fort Francis, to a point, in the City of Minnesota, U.S. opposite the said Town of Fort Francis.

The Minister further states that with this application were also transmitted to the Department of Public Works, plans showing the nature of the work to be performed, one being a sketch showing the location, and the other showing details of the mode of construction of the work.

The Minister further states that on the 19th. January, 1905, the said E.W.Backus made with the Government of the Province of Ontario a certain agreement whereby the applicants obtained from the Government.....

Government of the said Province a grant in fee of lands and power on the Canadian side of the International boundary for the purpose of developing the water power there and utilizing storage facilities with a view of creating a large amount of power for the operation of mills and other manufacturing establishments, the consideration of such acquisition being stated in the agreement at $5,000.00, the agreement in question containing several conditions as regards the character and dimensions of the works; the raising and maintaining of the waters of Rainy Lake; the use or non-use of flash-boards; the construction of power-houses; the expenditure of $50,000.00,on the works within nine months from the date of the agreement; the delivery of power to the Town of Fort Francis after the 1st January, 1907, for municipal purposes and for public utilities; the operation and delivery of said power; the rate at which it shall be furnished; the intervention of the Lieutenant Governor in Council concerning the price of the power or energy to be created, and several other agreements of different kinds always bearing upon the delivery and price of the energy to be manufactured out of the works approved by the agreement.

otherwise, the Government of the Dominion or the Province of Ontario to have the power to enter upon the premises and maintain and repair such canals, locks, dams and other works for the improvement of navigation without compensation. It is also agreed that no sawdust, chemical or other refuse of any kind shall be placed or deposited in the river, &c.

That the application so made by Mr. E.W.Backus, on behalf of the Ontario and Minnesota Power Company, was referred to the Chief Engineer of the Department of Public Works for report and that the officer in question stated that in so far as the construction of the dam is concerned it would in no way interfere with navigation above or below the falls of Fort Francis, but would in fact be an improvement; that the dangerous rapids two miles above Fort Francis would be flooded, thereby improving materially the navigation; that the freshet waters stored in Rainy Lake could be let out during the season of low water, thereby also considerably imporving the navigation of the river between Fort Francis and Lake of the Woods; and that the only objection that could be raised to the proposed elevation of the dam is provided for by a proposed revetment wall to be constructed by the Company and also by a clause in the Act of incorporation of the Company, which makes all damages to lands caused by their works a charge to be borne by them. Engineer quotes the opinion of the Chief Engineer of the United States Army who says that the height of the dam appears to him unobjectionable provided that the said dam is operated so as not to reduce the flow of Rainy Lake during the low water season.

That in addition to this report obtained from the Engineer of the Department of Public Works the matter was referred to the Department of Justice and that it reported that in so far as the Dominion Government was interested in the proposed works it had to consider them in so far as they affected the navigation and in so far as they affected the fishing and also in so far as they could affect an unfinished canal and lock at the place where the dam is to be erected.

That at the Session of Parliament just closed the Ontario and Minnesota Power Company have obtained an Act by which that Company is authorized to cobstruct and operate a water power now existing at Fort Francis and build all necessary works for that purpose provided no work so authorized shall be commenced until plans thereof shall have been submitted to and approved by the Governor in Council. The Act in question contains several clauses referring to the production of power or electrical energy, the delivery thereof, the construction of power houses, &c.,the settlement of the price for power by the Board of Railway Commissioners; a clause is also inserted to prevent the diversion of that energy

The Minister recommends, in view of the above application of the Ontario and Minnesota Power Company, of this agreement with the Government of the Province of Ontario, a copy of which is hereto annexed, of the Act passed by the Parliament at its last session, and of the reports made by the Chief Engineer of the Department of Public Works, and the report of the Department of Justice that authority be given to approve of the plans submitted by the said Company subject to the following conditions,viz:-

Sir,-

I have the honor to transmit a report received from Mr. H. A. Gray relative to the application of Mr. Edward Wellington Backus, of the City of Minneapolis, U.S.A., on behalf of the Ontario & Minnesota Power Co., for permission to build a dam across the Rainy River at the head of the falls at Fort Frances. Mr. Gray states in substance:

That as far as the construction of the dam is concerned, it will in no way interfere with navigation above or below the falls at Fort Frances and that in fact navigation would be improved.

That the dangerous rapids situated at the outlet of Rainy Lake where it empties into the Rainy River, two miles above Fort Frances, would be flooded thereby materially improving navigation at this point.

That the freshet waters stored in Rainy Lake could be let out during the season of low water into Rainy River thereby also considerably improving the navigation in the river between Fort Frances and Lake of the Woods.

In these opinions of Mr? Gray I have the honor to state that I fully concur, as I am quite satisfied that the building of the proposed dam would be of material benefit to boat owners both on Rainy Lake and in the Rainy River.

The only objection to the scheme appears to be that the water when brought up to the elevation 502, which is that of the crest of the dam, would encroach upon the shore of the river in front of Fort Frances. This is, however, provided for in clause 4 of the act of incorporation of the Company, which is to the effect, that "The valuation

"valuation and payment of the compensation for, or damages "to lands arising out of such acquisition or the construction, "maintenance or operation of the works and undertaking of the "company" shall be borne by the company.

It appears that the company propose to build a spur line from the railway across the river. If this is done it will of course be necessary that a swing bridge be built over the site at present excavated of the lock which it was at one time intended to build at this point.

Mr. Gray calls attention to the fact that the company had agreed to give the Canadian side of the river its share of the power ~~xxxxxxxx~~ to be installed, viz:- 50% of the 8,000 horse power then intended to be developed. But by increasing the height of the dam, the company expects to increase this horse power to 20,000 out of which they would only give the Canadian side 4,000. This is, however, a question which does not rest with me to decide, although it would, at first sight, be thought only fair and reasonable that equal power be installed in both halves of the river.

File No. 277,100 is herewith enclosed.

I have the honor to be,

Sir,

Your obedient servant,

DEPARTMENT OF PUBLIC WORKS, CANADA,

Office of the Engineer-in-Charge,

Toronto, 28th April, 1905.

No.2928.
Subj.: Surveys & Examinations.
(Rainy River, Ont.)
Ref.No. 274,689.

Sir,

I beg respectfully to acknowledge receipt of your letter No.1316, dated 25th ultimo, in which you inform me "that the Department is in receipt "of an application from Mr.Alexander Smith, Barrister of Ottawa, on behalf "of Mr.Edward Wellington Backus, of the City of Minneapolis, U.S.A., and his "associates, the Ontario and Minnesota Power Co., for permission to build "a dam across the Rainy River at the head of the falls at Fort Frances" and as "this is a question which requires careful consideration and a thorough "examination of the locality before any final decision can be arrived at by "the Department" you, therefore, instruct me to make the necessary examination myself, and submit a report as to whether or not the application can be granted, and state that it is desirable that my visit should be made not later than the first or second week in April next.

In obedience to your instructions I proceeded to Fort Frances by appointment on the 8th ult., making a thorough and careful examination, and on my return prepared the enclosed plan showing what is proposed to be done by Mr.Edward Wellington Backus, et al, and have to report as follows:-

So far as the construction of the dam is concerned, it will not in any way interfere with the navigation of the water above or below the Falls at Fort Frances,- if anything it would improve both as there would still be the same amount of water in the River, but it could be regulated by the stop gates to maintain a more even height above and below the dam.

On the river between Fort Frances and the mouth, it is subject to extreme fluctuations. In the rainy season there is more water than is actually needed, and during the few months that such results hold out, the lake steamer "Keenora" which plies between Fort Frances and Rat Portage, is able to run. When the flood ceases, she and all other deep draught vessels,

can only come to the foot of the Sault, or to the town of Rainy River.

In a lesser degree the same effect obtains above the Falls on Rainy Lake, which is full of Islands with rocky passages between them in places on the main channels. This would be greatly improved by the storage of flood water in the Rainy Lake and its even distribution throughout the season into Rainy River.

The advantage to Rainy River would be even greater than this. The Lake is surrounded by rocky shores and studded with rocky Islands, very similar to the formation of the Georgian Bay on the Muskoka and Parry Sound coast. To fully enjoy these Islands, the dangerous rapids that are situated at the outlet of Rainy Lake, where it empties into the river, two miles above Fort Frances, should be drowned out. This the dam will effect. To the south there is a large inland population of Central Minnesota and Wisconsin, for which Rainy Lake, as soon as there is railway connection to International Falls and Fort Frances, will be the summer camping grounds. Railway connection will follow the development of the power and the creation of its industries. Taking all together, I can see nothing but good to navigation, and to the material prospects of the town, as likely to arise out of the building of the dam.

The only objection that I could learn is from the fact that if water is brought up by the dam to an elevation of 502 (height of B.M.is 500) the water will encroach upon the shore of the river in front of the town of Fort Frances. This, however, is provided for by a proposed Revetment wall to be constructed by the Company, as shown on my plan herewith, and also by the Act incorporating the Company which states in clause "4" that "the "valuation and payment of the compensation for, or damages to lands arising "out of such acquisition or the construction, maintenance or operation of "the works and undertaking of the Company" shall be borne by the Company.

The Company propose constructing a spur from the Railway to cross the river. If this is done provision should be made for a swing bridge, for in the event of the canal and lock ever being completed, this would be necessary.

I may state that the Chief of Engineers of the Corps of Engineers, United States Army, in a letter dated Washington, 28th February 1905, reports that "the height of the dam appears to him unobjectionable, provided that

"the dam is operated so as not to reduce the flow of Rainy Lake River during "low water season".

The above report covers, I think, all the several points that have to be considered by this Department. I may mention, however, that several gentlemen in the Town Council of Fort Frances, called upon me and stated that they were informed the Company did not intend to give the Canadian side of the River, its share of the power to be installed, viz., 50%. The agreement was 4,000 horsepower out of 8,000, but by increasing the height of the dam, the Company expects to augment this to 20,000 H.P., out of which they would only give 4,000 H.P. Whether this is a matter for consideration I cannot decide, especially as I am not assured of the facts.

I enclose herewith a clipping from the Fort Frances "Times" re action taken by the Town Council with respect to compensation for injury to property of private owners by water encroachment.

Yours obediently,

Dear Sir;-

On behalf of Edward Wellington Backus, of the City of Minneapolis, in the State of Minnesota, U.S.A. lumberman, and those associated with him, I hereby make application under Chapter 92 of the Revised Statutes of Canada, for the right to construct a power dam across the Rainy River, from a point in the Town plot of Alberton, now the Town of Fort Frances, in the Township of MacIrvin in the district of Rainy River, Province of Ontario, to a point in the State of Minnesota, opposite the said Town of Fort Frances.

Herewith I am sending you maps descriptive of the location of said dam, the location of certain works to be constructed by Mr. Backus and others, and also other information as is requisite to furnish the Department in such applications.

In addition to this I am forwarding to you copy of an agreement entered into by the said Edward Wellington Backus hereinbefore mentioned, and Hon. Alexander Grant MacKay, Commissioner of Crown Lands for the Province of Ontario. This agreement is an evidence of the bona fides of Mr. Backus and his associates, and also shows that the Government of the Province of Ontario which has control over the lands situated along the River in the Town of Fort Frances is fully convinced that the Company is well worthy to undertake the construction of the works mentioned ad the development of the power imposed.

As this is a vast undertaking, Mr. Backus and his friends have taken much pains at great expense to show the advantage of the construction of such works, and the length of time it has taken the Provincial authorities owing to the changes in the Government to finally attest to the agreements and plans through their proper officials, has caused much delay.

The plans herewith submitted, are so submitted at the suggestion of your Chief Engineer. I am showing to him the original plan certified to and approved by the Chief Government Engineer at Toronto, and a more minute plan certified and approved by the Hon. W.A. Charlton, Minister of Public Works, in the Provincial Government of Ontario. Both these plans were too minute for the purposes of this application, and I herewith submit plans in less detail. I am however, showing him both the certified plans again so as to further assure him of our bona fides.

Might I ask that you bring these plans to the attention of your Engineer and the Minister at once, so that Mr. Backus and his associates may undertake to carry out this great work with all due speed.

Yours very truly,
(SGD) Alex Smith,
Solicitor at Ottawa for E.W.Backus.

Dear Sir:

In response to your request for a valuation on the damage to Pither's Point Park by the recent floosing and on the assumption that the permanent level will be about 497 Bench Mark, I submit the following reply based on the value of this point for Park purposes. I cannot segregate values of Land worn away, damage to land flooded, portion separated by high water, or destruction of trees as it is the cumulative effect of all these which in my opinion has resulted in destroying to a very large extent the natural beauty aspect of this park for all time, as the fixed height of the water level in future years will forever prevent the growth of trees to replace those destroyed, many of which were of fifty to seventy five year growth. The portion which is affected by the new water level is the most valuable part of the Park as it will be a total loss to the Park as a whole, I place the depreciation at $12,000 for the approximate six acres.

Yours Truly,

RE ONTARIO & MINNESOTA POWER CO.

Dear Sir:-

On the 19th September, 1905, an Order-in-Council was passed approving of certain plans of the Ontario & Minnesota Power Company Limited, in connection with the construction of a power dam across the Rainy River at Port Frances.

The undertaking was proceeded with and a large amount of work has been done, and it has now been found advisable to make certain changes in the proposed works.

We beg to send you herewith a blue print showing the amended plan of construction, together with large scale blue prints of the proposed earth embankment which is to be substituted for the crib dyke originally authorized, also of the proposed log sluice.

The changes embraced are the following:

1. The power house has been made wider for the purpose of using larger units, thereby developing a greater amount of power. The power house is now adapted for the use of 9 units of 1000 kilowatts capacity each, or a total of 9000 kilowatts, whereas the original plan contemplated

units of 500 kilowatts each or 7000 kilowatts in all. The revised plans therefore increase the capacity by 2000 kilowatts.

2. Six flood gates at the head of the Canadian Canal are provided instead of one as originally planned, the object being to insure greater safety in handling the flood waters and for convenience in operation. The number of waste gates in the northerly wing of the dam has been made ten instead of eight as originally planned.

3. The log sluice has been moved from the apex of the dam to near the south west corner of the power house to facilitate the handling of the logs running down the river, and the apex of the dam has been curved.

4. An earthen embankment with rip-rap has been substituted in place of crib dyke along Front Street for the purpose of protecting the low places in the river bank on the Canadian side above the dam. This is for the purpose of securing railway trackage along the river front for the purpose of loading and unloading logs, pulpwood and other material.

We also beg to hand you a copy of a letter addressed by Mr. J. T. Fanning, consulting engineer, dealing with the proposed changes, the original of which is in our possession.

We also send you a certified copy of an Order-in-Council passed on the 27th of January last by the

Dear Sir:-

Pursuant to verbal instructions from the Deputy Minister I visited the power installation at Fort Frances, Ont.-International Falls, Minn., during May 18th., 20th., last, in order to further report with regard to existing conditions there. I was accompanied by Mr. John Murphy, Hydro-Electrical Engineer of the Depaartment of Railways & Canals, and Mr. A.B. Lambe, Electrical Engineer of the Department of Inland Revenue.

Mr. Murphy has reported individually to the Deputy Minister of the Department of Public Works, Mr. Hunter, and Mr. Lambe to the Department of Inland Revenue.

As objection was taken to some parts of my report to you, under date of May 3rd., particularly that part re export of power, a word in that regard may not be amiss here.

At my first visit I was shown over the entire plant by the Company's Engineers, Messrs.Jaeger & Keating, who were detailed for that purpose by the Management.

The hydraulic HP capacity under the prevailing head of 28 ft' of each unit, on both sides of the river, together with the use to which such power was put was detailed to me and is as shown in my report of May 3 rd; moreover it is substantially what the installation was designed for or else it would not have been put in.

E.D.Lafleur, Esq.,

Under normal flow and a head of 28 ft., the conditions as shown in the previous report are correct except that the export of electrical energy would probably be confined within the limits of license.

INSTALLATION:-

From a review of the plant, correspondence with H.Morgen Smith Co., Manufacturers of the wheels, and detail drawings of the different installations the following Table A was compiled to more readily illustrate the main features of the development (See next page.)

The HP's given are actual, being taken after consideration of 100 HP per unit loss due to increase size of turban shafting on the American installation and a loss of 8% due to increased size of turbing shaft and form of flume on the Canadian installation, Canadian grinders being installed but not yet in operation.

The river during May 18th.-20th was not discharging sufficient water to develop the full capacity of the different units capable of operation in the two power houses.

A discharge of 7496 c.f.s, under the prevailing head of 26 ft., would have been required to do so and would yield 16716 HP; 10769 in the American and 5947 in the Canadian.

As it was, the American power house ran 4 units at full opening equivalent to 3184 c.f.s. and 7579 HP and the Canadian power house 4 units at 0.8 opening equivalent to 2176 c.f.s. and say 4757 HP or a total of 5360 c.f.s. and 12336 HP. From measurements of flow made by the hydraulic staff of this Department, the river was discharging 5875 c.f.s. on May 19th; this appears to agree reasonably closely with the above computation, considering amount of water lost through leakage or used in the mill for other purposes than develop-

ing power, which cannot readily be determined.

The amount of hydraulic power developed in the Canadian Power House, at this time was as above, say 4757 HP; 565 or 11¾% of which was being used in Canada, 115 by the municipality of Fort Frances and 450 by a railway contracting firm some 5 miles from the Power House.

Referring again to the above table it will be noted that taking the condition of total equipment and full capacity under, say 26 ft. head there will be developed in all 24150 HP, 5947 of which will be the only portion developed capable of delivery for use in Canada, outside of that used by the Company for its own interests, or little more than ¼; this proportion prevails at different heads under full flow.

The 5947 HP is the total power derived from the wheels driving the 4 electrical units; under 28 ft. head and full flow their development is approximately 7000.

There is nO hydro-electrical development on the American side.

The remaining development in the Canadian Power House, 7437 HP, under same conditions of head and flow, or about 1/3 of the whole development will be when completed, as stated in previous report, for the purpose of driving pulp wood grinding machines for the manufacturing of mechanical pulp to supply the paper mill on the Minnesota side for the manufacturing of paper. There is no paper mill on the Canadian side and no apparent market for the ground wood pulp.

The paper mill on the American side is owned and operated by the same Company, does not grind at the present time, sufficient mechanical pulp to meet its demands and has to purchase the same elsewhere.

E.D.Lafleur, Esq.,

It is for this reason that the 5 remaining units on the Canadian side are being fitted to drive pulp wood grinding machines; I am given to understand that their putput will, together with those on the American side, meet the demands of the mill.

With these 5 remaining units in the Canadian Power House fitted to drive pulp wood grinding machines, it is evident that they will not be able to deliver power for other purposes without very radical change of design.

Hydro electric power is the only kind that can be economically delivered from the Canadian Power House to the Canadian side in the vicinity of Fort Frances for industrial purposes.

On account of the location of the Power House, being outside the old excavation for proposed canal, the delivery of mechanical power for industrial purposes would be awkward, expensive and surely would not be considered; moreover industrial sites are not within what might be called mechanical reach of the Power House.

With the power equipment complete, as designed on both sides of the river, there will be, under the condition of 26 ft. head and full flow, 24150 HP developed of which 5947 HP, about ¼, would be available for use in Canada for other than the Company's interests, but to be so used the paper mill on the American side would be obliged to generate power elsewhere to drive the entire part of its electrical equipment now supplied by the Canadian Power House.

It may be noted that the mill is driven almost entirely by electric power.

The foregoing may apply to sections 2 & 3 of

the Companies' Act, Chapter 139, assented to 20th. July 1905.

If a water power development is to be gauged by its output during the period of extreme low flow and head then the Fort Frances International Falls power is indeed over-developed, but I think we may safely look a little further.

That the rainfall during the past year has been so small does not mean that it is going to continue to be so.

Previous records in North Minnesota and Kenora, Ont. would show 27" to be about the minimum; last year's record, however was exceptional, being about 10".

With judicious conservation by storage over the Rainy Lake watershed and proper shore protection, there appears to be no reason why the mean daily discharge at the power section should fall below 11000 c.f.s. which would be equivalent to about 25000 HP. The following table of mean discharge per month and per year, during the years 1907-8-9, at a section in the river below the dam and taken from the report of the State Drainage Commission of Minnesota would go to illustrate this. (See table B next page.)

It will be seen that the yearly means of 1907-8 were above 11000 c.f.s. and considerable storage possible during those years probably enough to bring the discrepancy in discharge of 1909 up to the requirements. I merely mention this to show that the development under the condition of 26 ft. head and full flow, referred to above, is, with some conservation by storage, a very reasonable possibility.

J.T. Fanning in 1905 J.H.Wallace in 1906 and the J.G.White Co. in 1908 Engineers reporting to the Company on the development, estimated the continuous HP at 34741,

30800 & 33000 respectively; as a matter of fact the H.P. during 1907-8-9 computed from the discharge means tabled above and a head of 30 ft., that used by the above mentioned Engineers and for wheels of 80% efficiency was 34800, 30700 and 20370 respectively.

Keeping this in view it would appear that if one half the developed power were to be available for use in Canada by bother than the Minnesota & Ontario Company's interests on the American side that a change would be required in the present design.

It may be here stated that the Company has not complied with the main provision of the Ontario & Minnesota Power Co's Act 4-5 Edward VII, Chapter 139-1905 inasmuch as the plans of their works as constructed have never been approved by the Governor General in Council.

The original plans were submitted in the regular way and approved by the Governor General in Council, Sept. 19, 1905.

The general plan No.13001 copies attached, of these original plans showed 14 units in each power house, the log sluice in the apex of the main dam and waste gates in the main dam on each side of the apex; a single water gate closing the head of the old proposed canal and also a section of water protection dyke to be placed along the Canadian shore above the canal to prevent damage when the water should be raised above the dam; Blue Prints of original plan No.13001 is on file 1632. These plans eventually did not meet with the approval of the Company and they had others prepared of design more suitable to the conditions and that would develop more power.

In these new plans, two copies of which accompany this report, the general design was changed throughout, also the location of spillways, distribution and size of power units, etc.

The location of the dam and power houses of the new plans being on the original site previously approved by Order in Council.

It appears that the Company then proceeded with construction on these new plans and upon the works nearing completion applied in the usual manner to this Department for approval thereof by the Governor General in Council; the application being made by Messrs. Blake, Lash & Cassils, Council for the Company on Feb. 1st., 1909,

These new plans have been approved by the Lieutenant Governor of Ontario in Council Jan. 27th., 1909.

Approval of the new plans by the Department was refused, on account of irregularity; the Company not conforming to the Ontario & Minnesota Power Co's Act (Chapter 139) and the Navigable Waters Act, which require plans to be submitted for approval before construction (See letters from the Deputy Minister of Public Works to Messrs. Blake, Lash & Cassils, May 27th. & June 9th. 1909.

With regard to the export of electrical energy from the Ontario to the Minnesota side, I would refer you to the Report of Mr. John Murphy.E.E. to the Deputy Minister, under date of June 1st. 1911 where that condition is dealt with in full detail.

Sir:-

Your letter of the 27th ult., has been transferred by the Honorable the Minister of Public Works to this Department for attention. You enclose in your communication a copy of Agreement between the Government and Mr. E.W.Backus dated 17th February, 1904, regarding the water power on the Rainy River at Fort Frances. The original of this Agreement is, of course, on file here.

You state that the Agreement of 9th January, 1905, was obtained clandestinely, and is now and has always been repudiated by the town of Fort Frances, as it does not set forth the true bargain with respect to the water power development. As to this the difficulty is that we have to accept the facts as they are. The Agreement of February, 1904, was entered into between the then Commissioner of Crown Lands, Honorable Mr. Davis, as representing the Government, of the one part, and Mr. E.W.Backus of the other. The Agreement was undoubtedly a good Agreement, and more in the public interest than the one which superseded it in January, 1905. The latter Agreement, however, was made between the then Commissioner of Crown Lands, Honorable Mr. Mackay, and Mr. Backus, in effect the same parties as before. In so far as the legal situation is concerned, though the latter Agreement is less favorable than the former, it is not easy to see how it can be declared invalid. The "repudiation" of the Agreement of 1905 by the town of Fort Frances is ineffective, since the town is not a party to the contract.

The Legislature of the Province, in the exercise of its authority, however, has by 6 Edward VII, Chapter 132, modified the termsof the contract of January, 1905, and has provided that so far as the diversion of power from the Canadian to the American side is concerned there shall at all times be not less of such power available for use on the Canadian side than is available on the American side, and by this provision the Legislature has very largely removed the objectionable features of the 1905 Agreement.

You are no doubt familiar with the action of the Dominion Parliament, in undertaking to deal with the water power situation in Fort Frances, and in taking, or attempting to take the matter out of the control of the Government of Ontario. A divided jurisdiction is always a source of trouble but I hope that so far as this Department or Government is concerned, whatever action may be taken at any time it will be in the interest of Fort Frances and of Ontario.

Yours very truly,

Sir:- Re Minnesota & Ontario Power Company.

On behalf of the Town of Fort Frances, I beg to call your attention to the fact that the only agreement on file in your Department between the above Company and the Ontario Crown Lands Department is that of 1905. This agreement is now and has always been repudiated by the Town of Fort Frances, as having been obtained clandestinely, and as not setting forth the true bargain with respect to the water power development.

I beg to enclose copy of the agreement of 1904, which sets forth correctly the original bargain, and which should be on file in your Department. You will note that Fort Frances made certain concessions therein to Mr. Backus, and upon the strength of this bargain , he has obtained this privilege.

The Assistant Commissioner of Crown Lands,

Toronto, Ont.

Dear Sir,

I have not kept much in touch with the matter of the Fort Frances Waterpower lately, but I understand that an application is now being strongly pressed for permission to raise the water level so certain lands will be flooded. I am the owner of lots 151, 152, 153, and 154 in the Town Plot of Alberton. These will be below water level if the application is granted. I am not now protesting in any way against the granting of the application on general principles, but I do protest against it being granted without the applicants making any offer to buy my land or pay damages. I think they should do this first, and if I refuse to take a reasonable price, then it is time for them to ask for practical rights of expropriation. In this view I would ask if the matter comes up, to notify Messrs Macdonell and Roland my Toronto Agents, who will appear to look after my personal interests.

My dear Mr. Gibson;-

Yours of the 1st inst., enclosing copy of a letter from Mr. Walker, Town Clerk of Fort Frances, duly received.

It is not possible for us to construct the dyke until we have our railroad bridge finished. The bridge is now under construction and will be ready for train service early next spring. We will have to use the steam shovel in buildi ng this dyke.

However, the fact is that since building our dam the water has never been above 496 bench mark, and that only for a short time about two years ago. Our ultimate height is planned for 500 as you know. During the last two years the water has rarely been above the 493 bench mark. Before the dam was constructed at all the water was much higher than that point. Up to date there is really no cause for complaint on account of the height that we have raised the river. However, I am anxious to construct the dyke as soon as possible, so as to be able to hold water at a high level.

Very truly Yours

4-5 EDWARD VII.

CHAP. 139.

An Act respecting the Ontario and Minnesota Power Company (Limited).

[*Assented to 20th July*, 1905.]

Preamble.

WHEREAS the Ontario and Minnesota Power Company, Limited, has by its petition represented that it was incorporated by letters patent under the great seal of the Province of Ontario dated the thirteenth day of January, one thousand nine hundred and five, under "The Ontario Companies Act," being chapter 191 of the Revised Statutes of Ontario, 1897; and whereas the said company has prayed that it be enacted as hereinafter set forth, and it is expedient to grant the prayer of the said petition: Therefore His Majesty, by and with the advice and consent of the Senate and House of Commons of Canada, enacts as follows:—

R.S.O., c. 191.

Power to develop water power on Rainy river.

1. The Company may construct, develop, acquire, own, use and operate the water power now or hereafter existing on the Rainy river at or near the town of Fort Frances, in the district of Rainy river, in the province of Ontario, and construct, develop, operate and maintain works, canals, raceways, water-courses, dams, piers, booms, dykes, sluices, conduits and buildings, in connection with the said power, including any increase of the said power on Rainy river by storage or other works on waters tributary to Rainy lake which the Company now has or may hereafter have power to construct: Provided that no work authorized by this section shall be commenced until the plans thereof have first been submitted to and approved of by the Governor in Council.

Approval of plans.

Supply of power in Canada.

2. The Company shall from the said water power, including any increase thereof from time to time, provide power or electrical energy for use on the Canadian side of the international boundary line concurrently as it provides power or electrical energy for use in the United States, so that from time to time, except as herein provided, there shall not be less of the said power or electrical energy available for use on the Canadian

side of the international boundary line than on the American side; and, subject to the provisions of this Act, such power or electrical energy shall be delivered on the Canadian side as and when demanded.

Plant for power in Canada.

3. The power house, generators, transmitters, machinery, appliances and connections necessary for the delivery by the Company of such power or electrical energy for use on the Canadian side of the international boundary line shall be on the Canadian side thereof.

Settlement of disputes.

4. In case of any dispute as to the price for power or electrical energy in use or to be provided for use upon the Canadian side of the said international boundary line, or the methods of distribution thereof, or the time within which or the conditions upon which the same shall be furnished for use, such dispute shall, notwithstanding the provisions of section 13 of *The Railway Act*, 1903, be settled by the Board of Railway Commissioners for Canada on the application of any user or applicant for power, or of the Company, or of the town of Fort Frances.

Diversion to United States of power intended for Canada.

5. No part of the power or electrical energy to be provided under this Act for use upon the Canadian side of the said boundary line shall be diverted to or used in the United States without the order of the said Board of Railway Commissioners made on an application of which two weeks' notice in writing shall have been served upon the mayor and clerk of the town of Fort Frances, or, in the absence of either one of them, upon a member of the town council in his stead.

Board of Railway Commissioners may authorize diversion.

6. The said Board of Railway Commissioners shall have full jurisdiction to inquire into and hear and determine any application of the Company for leave to make such diversion, and if, and so often as, it appears to the said Board on such an application that there is not a reasonable prospect of the utilization within a reasonable time of power or electrical energy unemployed, though actually available for use, on the Canadian side of the international boundary line, the Board shall make an order permitting the diversion of the whole or part of such unemployed power or electrical energy, and may impose such terms and conditions, including the fixing of the time during which such diversion may continue, as the Board may deem expedient.

Further powers of Board.

7. The Board may order and require the Company or any person to do forthwith, or within or at any specified time, and in any manner prescribed by the Board, so far as is not inconsistent with this Act, any act, matter or thing which such company or person is or may be required to do under this Act, and may forbid the doing or continuing of any act, matter or

thing which is contrary to this Act; and shall have full jurisdiction to hear and determine all matters whether of law or of fact, and shall, as respects the attendance and examination of witnesses, the production and inspection of documents, the enforcement of its orders, the entry on and inspection of property, and other matters necessary or proper for the due exercise of its jurisdiction under this Act, or otherwise for carrying this Act into effect, have all such powers, rights and privileges as are vested in a superior court.

Procedure.

8. The practice and procedure under this Act on applications to the Board shall be as nearly as possible that followed on applications thereto under *The Railway Act*, 1903, and otherwise shall be subject to the direction and control of the Board.

Excerpt from District Engineer's files - Report made to Chief Engineer.

Ottawa, Oct. 1st., 1912.

General Memoranda with Regard to Power Development at Fort Frances, Ont., - International Falls, MIN.

The point of development is about 2½ miles below the outlet of Rainy Lake, where the natural drop of about 30 feet in the River occurs.

The development has been made by two Companies; the Ontario and Minnesota Power Company and the Minnesota and Ontario Power Company.

The former was incorporated in Ontario on January 13th., 1905. The latter is an American incorporated company, holding its charter, I understand, from the State of Maine, and controls the former.

Original application for construction of works for the development of power, etc., was made to the Federal Department of Public Works, January 18th., 1905, by Mr. Alec Smith of Ottawa, Solicitor for Mr. E. W. Backus of Minneapolis.

An Order-in-Council was granted the Ontario and Minnesota Company, January 31st., 1905, to construct preliminary works, coffer dams, etc., while the main plans for the development were being prepared and that would be submitted later for approval by Order-in-Council.

This preliminary work was then started.

An Act respecting the Ontario and Minnesota Power Company, being Chapter 139; 4-5 Edward VII, was assented to, July 20th., 1905, attached.

On September 19th., 1905, original plans were submitted in the regular way and approved by Order-in-Council.

The general plans #13001 of these original plans, showed 14 units in each power house, the log sluice in the apex of the main dam and waste gates in the main dam on each side of the apex; a single water gate closing the head of the old proposed canal, also a section of water protection dyke to be placed along the Canadian shore above the canal, to prevent damage when the water should be raised above the dam; blue print of original plan #13001 is on file #1632. These plans eventually did not meet with the approval of the Company and they had others prepared of design more suitable to the conditions and that would develop more power.

In these new plans the general design was changed throughout also the location of spillways, distribution and size of power units, etc., with nine units on the Ontario and six on the Minnesota side.

The location of the dam and power houses of the new plans being on the original site previously approved by above Order-in-Council.

It appears that the Company then proceeded with construction on these new plans and upon the works nearing completion applied in the usual manner to the Public Works Department for approval thereof by the Governor in Council; the application being made by Messrs. Blake, Lash and Cassils, Counsel for the Company on February 1st., 1909.

These new plans were previously approved by the Lieutenant Governor of Ontario in Council, January 27th., 1909.

Approval of the new plans by the Department was refused on account of irregularity; the Company not conforming to the Ontario and Minnesota Power Company's Act. (Chapter 139)

With regard to the old partially completed canal.- Permission to use this as a waste way and to construct gates there was granted by the Honourable Mr. Hyman, Dec. 8th., 1905.

The original plans of these as approved by the Honourable Mr. Hyman, was entirely changed, new ones prepared and the works built on the new plans which have never been approved by Federal Order-in-Council.

Sir:-

With reference to the letter from Mr. J. W. Baine, Esq., K.C., of the 9th ultimo enclosed with yours of the 14th ultimo I beg to enclose herewith:-

1. A copy of the Order in Council dated 11th August, 1905, relating to the construction of the dam, etc., by the Ontario and Minnesota Power Company.

2. A copy of the Order in Council dated 11th February, 1918, relating to the construction of a dyke along the river above the dam at Fort Frances. It is noted, however, that the dam does not extend to the Indian Reserve.

3. A copy of the lease issued to the town of Fort Frances for a portion of the Agency Indian reserve in which is situated Pithers Point, dated 18th May, 1910.

4. We have been unable to obtain a copy of the report of the report of the International Waterways Commission as it is out of print.

5. The $6,000 paid by the Ontario and Minnesota Power Company was in full for all damages to that portion of the Indian reserve at the West end of Rainy Lake shown on the blueprint plan enclosed herewith, between the letters A and B, which includes a share of the cost of the construction of the breakwater shown on the plan and the opening up of the new road also shown on the plan, in lieu of the road allowance which has been practically washed away by the high water of the lake. No payments have been made nor any agreement entered into regarding damages to lands North of the point A or South of the point B.

6. The correspondence, if any, regarding further Indian claims situated North of those for which the sum of $2960 is demanded as compensation is on the files in your possession. The Indian Agent, Mr. J.P.Wright, might be requested to state the extra amount that should be demanded for the said claims.

7. The strip of land sold to the Canadian Northern Railway Company for right of way across the southern end of the Agency Indian Reserve contains 3.30 acres. It was valued at $750 per acre and the sum of $2475 has been duly paid by the Company.

Replies will be given in a separate letter to questions relating to whether the town of Fort Frances may be joined as a party plaintiff, regarding the reversionary interest of the town of Fort Frances and regarding an interview with the Indian Agent, Mr. J.P.Wright.

Memo,-

For P.White Esq.,K.C.,

The reservation of two chains in width along the shores of the Indian Reserves at the west end of Rainy Lake mentioned in the "Minute of Decision" of Commissioner Dawson,did not detach this strip from the Indian Reserves. It simply gave the right to the Crown to grant booming and the other privileges mentioned when required without a surrender from the Indians as provided in the Indian Act, and it did not deprive them of the use of the said strip or of any compensation for their improvements or for loss or damage to their reserves when required for the said other purposes.

The said reserves were confirmed by the Province as shown on the plan furnished which plan shows that the said strip is a part of the reserves. This may be especially observed by noting that the boundary lines of the Reserves are in every case drawn down to the water's edge. (I have sent for a certified copy of the plan furnished the Province; from memory I may say that the two chain strip is not shewn thereon.)

No reference whatever was made to the Province of any reservation of the said two chains. The Dominion could not have accepted confirmation of these reserves with the proviso that the said two chains along the water front was the property of the Province as this would have been a bad breach of faith with the Indians as they had been rightfully in continuous ownership and occupation of the said strip. If the Indians had been informed that they did not own the land in their Reserves up to the water's edge there would have been a rebellion.

Their improvements always begin at the water's

edge: it is absurd to suppose that there was any intention that they should leave a wide strip of wood land between their houses and the water.

Mr.Pither,who was one of the Commissioners who was appointed to allot these Indian Reserves,built his house on Pither's Point,within the limit of the said strip. He would have been guilty of an act of great folly if he knew or had supposed that the land was not a part of the Reserve.

Sir,-

In reply to your letter of 29th June,I have to say that this Government has no jurisdiction over lands in the Indian Reserve,and I would therefore suggest with regard to the road in question across the Indian Reserve,in the township of McIrvine,that you correspond with the Superintendent General of Indian Affairs at Ottawa. I might add that the plan of the township furnished by the Dominion Government shows a road in continuation of Rainy River Road, through said Reserve and if this fact is pointed out to the Indian Department,I presume it will be recognized as part of Rainy River Road.

Ottawa, 4th December 1900

Sir,-

In reply to your letter of the 10th October last, and enclosures regarding the construction by the Municipality of McIrvine, of a public road across the Indian Reserve at the West end of Rainy Lake, I beg to inform you that the consent of the Department is herewith given for the construction of the said road.

This reserve, in common with all the Indian Reserves in the District, has not been confirmed by the Ontario Government. Pending such confirmation, the Department is not taking any action towards the conveyance or dedication of any portion of an Indian Reserve situated in the District, for any purpose. The consent above mentioned, therefore does not imply any conveyance or dedication of the Right of Way for the road.

From Division as the Agency Reserve No. 1

For your information, a copy of the Plan of the Indian Reserves at the West end of Rainy Lake, is enclosed herewith. The proposed road will pass through Reserve No.41. This being a General or Agency Reserve, the consent of the Indians is not required. Should, however, the road be projected into I.R.16A, or I.R.18B, it would be well to obtain the consent of the Indians, although it is not absolutely necessary to consult the Indians as to the construction of a public road through an Indian Reserve.

The conditions under which the above consent is given, are that the Municipality shall pay for all actual damages, if any, to the Reserve, and especially for any Indian improvements that may be affected by the construction of the road. The Indians are also to have a fair share of employment in the work.

A Plan of Survey of the road will be required as soon as it can be conveniently made.

March 19th, 1915

Dear Mr. White,

Treaty No. 3 Reserves.

I have your letters of the 16th and 17th March with reference to the above subject. I was pleased to get a copy of the Bill; I have made one or two suggestions, and am sending you a draft herewith.

The date of the agreement between the Governments was the 16th April, 1894, not 1884; I presume this is a mere typographical error. I would suggest adding, in Clause 2, the words, "except " those islands that specifically designated on " said plans as being parts of the respective reserves " or are included within the boundary lines of the " reserves." All that I wish to make clear is that we shall get the islands which are shown on the plans as part of the reserves, and which are included in the total acreage. Then I have rewritten Clause 3. As you had worded it, it might be taken that 20,672 was the total acreage of the reserves, but it is really the excess acreage, and I have made that plain. I notice that in Clause 4 the per centage is not filled in; I trust that you will make it 50% as I suggested. I hope you will be able to concur in these alterations.

As for the payment of $20,672.00, I expect that we will be able to send you the money in due course. I have put it in the Supplementary Estimates, and I see no reason why it should not be passed without question.

I remain,
Very truly, yours

Sir,-

Referring to the letter of Messrs. Bicknell, McDonnell and Gordon of the 14th instant, enclosed with your letter of the 19th instant, I beg to reply to the points mentioned therein as follows,-

The reference, not numbered, relating to the fact that the reserves at the foot of Rainy Lake had not been clearly shown on some plans in general use; this refers to a general map which was exhibited in this Department on which was not clearly shown the reserves in question. Mr. Aubrey White, the then Assistant Commissioner, Crown Lands Department, Toronto, who acknowledged the letter of 25th Feb. 1888, referred to the fact that the map issued by the Department of the Interior showed these reserves. It is to be noted that all the maps that were subsequently issued by the Province have never failed to indicate thereon the reserves in question.

(1) Positively no full description of the reserves has ever been made, and the so called description referred to in the trial at Fort Frances, is the Minute of Decision of the Reserve Commissioner, Mr. S.J. Dawson. Mr. Dawson was a federal officer. His powers extended to the setting apart of Indian reserves only, he had no power to set apart a strip of land for the use of the public as indicated in his Minute of Decision.

(2) The surveyor, Mr. E.C. Caddy, D.L.S., who made the surveys of the reserves in question at the West end of Rainy Lake, refers in his field notes to the two chains allowance along the shore as an allowance for landing purposes and has indicated this allowance on his original plan.

(3) The following occurs in Mr. Forneri's report of the survey of the McIrvine Township, adjacent to the Agency reserve No. 1 in question. " I ran out a road line in a North-easterly direction and a short distance back from the river to the Hudson's Bay reserve, leaving this road all one chain wide and to the North of the line and also from the Government reserve following the bank of the river to the Pither reserve. (The Agency reserve No. 1 was frequently referred to as the Pither reserve, as the Indian Agent, Mr. Pither resided thereon). There is no reference in Mr. Forneri's field notes of this road which he states was limited by the boundary of the Indian reserve.

A faint red line is drawn on Mr. Forneri's original plan parallel to the shores of Rainy Lake but the colouring is distinctly shown to the water's edge, thus indicating that all the land to the water's edge pertained to the Indian reserve.

(4) The Deputy Superintendent General, Mr. D.C. Scott, drew

the attention of the Deputy Minister of Lands, Mr. Aubrey White, in letter of the 19th March 1915, a copy of which is enclosed, to the fact that Clause 3 of the Bill as passed by the Ontario Government should be re-written as he has indicated, showing clearly that the 20,672 acres is in excess of the acreage required to be set apart as Indian reserves for Indians under the terms of Treaty No.3 and accordingly the Dominion Government agreed to pay $1.00 per acre for this excess.

It cannot be shown that with the area of Pither's Point being computed down to the water line, the total area would be the one settled on, as the difference would be too small in such a large area of land consisting of a large number of Indian reserves scattered throughout the district. It is however to be noted in the copy of the report of the surveyor, Mr. E.C. Caddy (which was sent together with other documents to your Agent as requested and of which you were informed by letter of the 4th ultimo) that in the case of the reserves at the West end of Rainy Lake, the area of the strip of two chains along the lake was not included in the area of the reserve as he indicated them.

(5) When permission was given to the Province of Ontario to open a road known as the colonization road across the northerly end of Pither's Point, the road or trail in use by the public which crosses the point South of the said colonization road was closed as far as the general public was concerned. This was a legitimate action of the Department, as no action had ever been taken to establish the road or trail as a public highway.

I beg to enclose herewith the correspondence numbered 5 in connection with this matter. The portion of the said colonization road located along the lake front was practically all washed away on account of the waters of the lake having been raised. As this action continued, it was found advisable to change the location of the road to the West limit of the reserve. This is illustrated by reference to the plan of the reserve as it now exists attached to the said correspondence.

(6) The two chains allowance for landing is shown on the plans of the surveys of the reserves at the West end of Rainy Lake made by the surveyor above mentioned, Mr. E.C. Caddy, D.L.S. These reserves are in one block and are known as the Agency reserve No.1, reserve 16-A, reserve 18-B, reserve 16-D, and reserve 18-C. There are two other Indian reserves, No.26 and No.23, bordering on the lake, no width for landing allowance is shown on any of the plans of these reserves.

I have to draw especial attention to the fact that no transfer was made to the Province of Ontario of a strip of land two chains wide referred to as being for landing purposes, on the contrary it is definitely and purposely shown on the plan furnished the Province that all the land down to the water's edge was included in the Indian reserves.

For your information I beg to enclose a copy of a memorandum dated the 9th instant made by Mr. Bray for Mr. P. White, K.C., the Counsel acting for the Department and forwarded to him at Fort Frances. Also a copy of a telegram dated

the 15th instant. You will note that a certified copy of the plan furnished the Province of Ontario has been forwarded to Mr.White. This plan shows,as above stated, positively that the Indian reserves in question extend down to the water's edge and the position of the Department is that the two chains strip always formed a part of the reserves,has been in continuous possession and has been administered by this Department. Especial care was taken at the time of the confirmation of the reserves by Ontario to show on the plan that the two chains strip formed a part of the reserve. No descriptions whatever were furnished the Province; plans only govern.

re- (2) A copy of Mr.Caddy's field notes of the survey of the Agency reserve No.1 is enclosed. It is to be noted that in some of the previous correspondence this reserve has been referred to as No.41.

Ottawa, 28th October 1920.

Dear Mr. Symmes,-

Referring to requests of yesterday I have to say,-

(1) With regard to the allotment of Indian reserves in Treaty No.3 by the Commissioners, Messrs. S.J. Dawson and Robert Pither and the report of their proceedings signed by Mr. Dawson on the part of himself and Mr. Pither, I enclose herewith a certified copy of O.C. dated 8th July 1874, appointing these gentlemen Commissioners for the purpose and this is the authority under which they acted.

You will note there is no authority to the Commissioners to make any reservation of two chains along the shores of any Indian reserve.

(2) I cannot answer No.2. I can only state the fact that when any piece of land being a part of an Indian reserve has been used with or without the consent of the Superintendent General for the purposes of a school, church, cemetery or road and if the said piece of land has not been regularly surrendered by the Indians for that purpose, when it ceases to be used for the purposes of a school, church etc., it reverts to the reserve.

In the case of certain streets and lanes in the town of Sarnia, situated in a surrendered part of an Indian reserve, which were closed by the Municipality, the Indian interest was disposed of for a valuable consideration to the persons in whose favour the said streets and lanes were closed.

(3) The correspondence regarding the plans sent to the Provincial Government of Ontario is supposed to be on two files which were in the possession of Mr. W.D. Hogg, K.C., who was Counsel for the Dominion in the case relating to the

final boundaries of the Province. These files do not appear to have been returned to the Department. Mr.Hogg moved his office some years ago and says that the two files are probably in one of a number of boxes in his cellar and that he will have a search made for them immediately. If found and if the correspondence regarding the plans is on them,I will immediately send you copies of all correspondence pertinent to the point you desire.

(4) With regard to Sections 2 and 4 of the Act to confirm the title of the Government of Canada to certain lands and Indian lands,Chap.12,5 George V,I have to say that there is absolutely no correspondence in this Department,nor record of any action having been taken by the Province in connection with Water Powers as provided in the said sections.

(5) Enclosed herewith is the copy you request of the Proclamation of King George.

I cannot see that I can do anything further in connection with this case than what I have already pointed out but I shall be very pleased indeed to look further into the matter in any direction in which you may considerable desirable.

In the Order-in-Council dated 19th September, 1905, approving of the plans of the Company, there is a recital that the Department of Marine & Fisheries have sent to the Department of Public Works a plan of the fishway which they think should be erected by the Company in connection with their works, the said fishway to be built subject to the inspection and approval of an officer of the Department of Marine and Fisheries.

Would you bring with you to Fort Frances the above mentioned plan? Would you also ascertain so that you can give evidence as to whether or not the fishway at present in the dam is in accordance with the plan of the Department of Marine and Fisheries, and whether it was built subject to their inspection and approval.

Toronto, Ont. July 11th, 1905.

Edward E. Prince, Esq.,
Dominion Commissioner of Fisheries,
O t t a w a, Ont.

Dear Sir:-

Acting on your instructions of 28th of June, I visited Fort Frances and examined the dam now being constructed across the Rainy River, with a view of locating the proper place for a fishway therein. I herewith enclose you a rough pencil sketch of the proposed dam and the place (coloured in red) selected by me as the most suitable location for the fishway. As you will notice it is on the westerly end of the old government canal where the breakwater extends 60 feet beyond the Canadian Power House, this giving ample protection for the fish slide. The reasons for my selecting this location are as follows:-

1.- At the point "B" on the old plan sent by you to me, it would be impossible to construct a fishway on account of the rocks and at the point "A" the entrance would be almost directly in the way of logs running through the log sluice, and also would be exposed to the float ice coming over the dam, and would be, to my mind, a very unsatsifactory and costly place in which to locate it and very hard to keep in place when built.

2.-The place I have selected is fully protected from logs and float ice and can be constructed with an elevation of less than 1 foot in 5, which will make it very satisfactory in this respect, and at the wharf, shown on the plan near where the lower end of the fishway will be placed, is the best fishing in the river, thus showing that the fish come to this point in numbers.

3.- It can be securely retained in its place by being firmly attached to the retaining wall and side of canal. The fish contained in the Rainy riverand Rainy Lake above the dam are goldeye, pike, pickerel whitefish and sturegon, and the same are found in just about the same nunmbers below the dam. From the most careful inquiry I learned that there are about the same numbers of the same variety of fish above as below the dam. I am thoroughly satisfied that the place selected is one that will give the best results and if properly constructed will give satisfaction to the department.

The height from head to tail water under ordinary conditions will be about 27 feet, and I propose to have the top of the fishway placed two feet below low water mark, thus making a fall of about 22 feet in 120, which will make it a good practical fishway.

I

I met Inspector Duncan at Port Arthur on my return. He had gone over the ground carefully a few days previous to my visit and he fully concurred in the location selected by me.

I enclose you specifications and working plans for said fishway, which will enable construction to be made without trouble or extra expense.

All of which is respectfully submitted,

Your obedient servant,

SGD. O.B.Sheppard

SPECIFICATIONS FOR FISHWAY IN DAM ON RAINY RIVER AT FORT FRANCES

Fishway to be six feet wide and three feet deep (inside measurement) constructed as follows:-

SIDES — Each side to be of four pieces of white pine, oak or elm timber each 9" X 9", securely bolted together; if timbers are not long enough to run full length; then joints are to be broken.

BOTTOM — Bottom to be of sound three inch white pine, oak or elm plank, tongued and grooved, running crosswise and securely spiked to the bottom of the sides.

TOP — The top to be of same material as bottom two inches thick, laid crosswise and securely spiked to the top of side pieces, both top and bottom to run to outer edge of side pieces.

LADDER — On the inside of the box and four feet apart on each side, three inch hardwood planks twelve inches wide are to be placed at angle shown in plan to be securely fastered to bottom and side and secured by bolts running through ice log on top.

ICE LOG — On the upper side of top planks equal distance from sides, a piece of 8" X 8" timber (oak or elm) is to be securely bolted; the bolts fastending this timber, (which is intended as a protection against ice, and also for strength) are to run through timber, top, pieces inside of box and bottom of slide, thus securely fastening all together.

LIGHT — For the purpose of light, auger holes are to be bored through the top of the fishway at two feet apart on each side of the ice log.

HOW TO PUT IN DAM

The fisway to be let into top of dam so the top of ice log to be two feet below low water. The whole to be securely fastened and supported so as to form a solid and firm structure.

ELEVATION

The elevation or slope of fishway must not be more than one foot in five. The lower end of fishway to be so placed that it will all be covered with water when the water is at its lowest, enabling the fish to reach it without obstruction.

Gentlemen:-

Rex vs Ontario and Minnesota

I acknowledge receipt of your letter of the 19th inst. in this matter and the Notice of Trial which you have given me is quite sufficient.

I understand that your Mr. Bain and Mr. Tilley are arranging for a Reference in this case simply to assess damages at Fort Frances and will proceed with the Trial, which is largely a matter of interpretation of agreements and statutes as to the rights of the parties, at a later date, at Toronto or Ottawa.

Kindly let me know if this is your view of the matter.

Memorandum

Law Clerk,-

Referring to the request from the Department of Justice of the 14th instant, I beg to hand you herewith a blue print plan (No.258) entitled "Plan of Indian and Half-breed reserves at Rainy Lake," on which are shown reserves No.1, Agency reserve; No.16-A Rainy Lake; 16-D Rainy Lake; 18-B Rainy Lake and 18-C Rainy Lake. These reserves are noted on page 19 of the Schedule of Indian reserves in the Dominion.

A large number of Indian reserves in the neighbourhood of the Lake of the Woods were laid out under instructions from the Dominion Covernment in the land then known as the disputed territory. Subsequently this territory was decided to be part of the Province of Ontario. The said Indian reserves were transferred to the Government of Canada by the Act of the Province, Chap.12, V George 5th, 8th April 1916. The reserves indicated on the plan herewith are included in those referred to in the said Act.

The reserves immediately aff
in the present claim against the Minnesota and Ont
Power Co., are Res.No.1, Res.No.16-A & 18-B.

IN YOUR REPLY REFER TO
No. 5410
ALSO
TO DATE OF THIS LETTER

IIth September 1918

Sir,—

Rex vs.Ontario & Minnesota Power Co.

I beg to submit herewith the information I have obtained, regarding the claims the Indian Department have against this Company.

The losses claimed for the following Indians, members of the Coucheching Bandon Reserve No.18.B.are viz:

	Alexander Bruyere	$328.00
	Mrs Maria Sanderson	25.00
	Joseph Jourdain	25.00
	Abidonaquot	72.50
	Esquibeness	75.00
	Alexa Mainville	513.00
	Alfred Bruyere	500.00
	Gabriel Bruyere	915.00
	Louis Jourdain, Reserve 16,D.	195.00
Plan C.	Paul Jourdain Do.	255.00
" "	Damage to road	250.00
	TOTAL	$3153.50

Details of the above are given in exhibit A and shown on plans B & C.

Plan marked D, shows the land eroded along the shore of Rainy Lake, being 3.3 acres, this I estimate the value, to be $2250.00, valuing the first acre from the east end at $1200.00 per acre, the next acre at $750.00 and the remaining portion at $300.00, This plan also shows the land that will be covered by water

water when it is raised to the 497 Banch Mark,which is 5.32 acres,this I value at $I000.00 per acre,making $5320.00

Exhibit marked E,showes the number and description of trees killed and damaged,during the high water of I9I6,they number 629 and I value them at $I0.00 each on an average, this amounts to $6290.00

Plan marked F,shows the land on which the trees were killed and damaged,which covers an area of 7.25 acres,being nearly 2 acres more than the land that will be covered by the water when raised to the 497 B?M?,and the value of the remaining land south of the Can.Nor.Railway,being greatly depreciated in value,I estimate the scenic value at $2500.00.

This makes the total estimated damages as follows,viz:

Individual Indians	$3I53.50
Pithers Point Park	$I6.360.00

As requested by you I had several prominent gentlemen give me their estimate of these damages,and enclose herewith their replys.

C.J.Hollands,Police Magistrate,valuation,	$25.000.00
Robt Moore, M.D.	I3.790.00
H.Williams, Mayor of Fort Frances,	I2.000.00
D.J.Gillon O.L.S.	I5.5I0.00

Perhaps Mr.Gillons estimate is more correct than mine for that portion on the south side of the Railway,but I think I am nearer correct,with regard to the estimated value on the north side of the Railway.

Exhibit marked G.is the Surveyor's description of the land washed away and the land flooded,as asked for by you.

I sent you the By-law passed by the Municipality of Fort Frances to release to the Crown these parts of Pithers Point Park which have been washed away and flooded with water at Bench Mark 497 and now enclose herewith the Deed of same,as requested.

I also enclose Mr.Murry's opinion as requested regarding the time limit.

I wish you would send the plans enclosed to the Dept.

Walter J.Keating,

Fort Frances, Ont.,
Sept.14th, 1906.

The Deputy Superintendent General
of Indian Affairs,
Ottawa.

Dear Sir,

The Rat Portage Lumber Company Ld is applying to the Crown Lands Department of Ontario for a water Lot for booming grounds for logs in Sand Bay Rainy Lake opposite the lands owned by your Department lying northwards from Pithers Point - the residence of your Agent here - The Booming ground in question will not reach in to the shore and there will be a channel of at least 200 feet between the westerly boundary of the piling ground and the highwater line of the shore left clear. As the Indian Department is however the owner of the land nearest adjoining the water Lot applied for I would be pleased to obtain their approval and consent to the Ontario Crown Lands Department leasing or patenting the suggested water lot to the Company - The object for which the Companyneed the privilege is this - On Rainy River, some 50 miles down from Rainy Lake, there is a large sorting boom that receives and sorts the logs of the various companies operating in this District - At times it is so full of logs that the letting loose any raft at Pithers Point would lead to trouble by the time it reached the sorting boom, and the Company wants to get a safe mooring ground for any such raft until the boom could safely take care of the logs. For this purpose the Company proposes surrounding a water lot of about 20 acres with piles for temporarily protecting any raft, awaiting time for loosing the logs down River safely.

Your obedient servant,
W.J.Keating,

The fyle No.of the application in the Crown Lands Department is 32189-06.

John Person -

30 years has lived here. For the first 20 year no crosion to speak of - Four years ago the washing away began. Fifty to sixty feet has washed away since then. Hop water has caused the washing away and the hop water has been caused by the construction of the dam.

Built a house 6 yrs ago. 12 feet about from the edge of the water - moved it from year ago back about 20 feet - Pulled this house down this spring because the water had eroded up to this house.

GOVERNME... ASKED TO ALLOW BACKUS A... BROOKS' CONTENTION.

5/11/05

The public meeting called by Mayor Keating for Friday evening last at 8 o'clock took on unexpected significance when Mr. Keating announced on taking the chair that complications in connection with the waterpower development de...nding immediate solution might b... ...uenced by an expression of opinion from those present. He had been advised the day before by the town's solicitors at Toronto that negotiations over the plans awaiting the mutual approval of the Backus-Brooks company and the Ontario government had reached a critical stage over the question of the height to which the company should be authorized to build the dam, Mr. Backus claiming that in order to properly develop the power the dam must be raised to the 500 bench mark, while the government refused to allow it to be built higher than 497. The government understood that a strong sentiment against granting the company what was asked existed in Fort Frances and it was very important that the ratepayers of the town should advise the government of their wishes. Personally, the mayor thought the government should be advised to grant the concession, provided adequate security were furnished that just compensation would be paid by the company for any damages ensuing from flooding of low points along the river, and that the town should be protected by a dyke. The future of Fort Frances was bound up in the waterpower. He asked those most interested financially in the town to state their views. Mr. Backus stated that he could not finance the proposition unless allowed to build to the 500 mark. All questions had now been settled except this one. He wanted the meeting to vote on it and direct the council what to say to the government.

Messrs. Watson, Williams, Jalbert, Hollands, Reeves, Carter and others favored ...ting the concession. Mr. Osborne was rather afraid Backus and Brooks might have designs on Pither's Point.

Upon motion, a committee composed of H. Williams, George Sleeman, C. J. Hollands, J. A. Osborne and W. B. Cameron was named by the mayor to revise the draft of resolutions prepared for transmission to Toronto.

The following is a copy of the resolutions as revised:

By request of the ratepayers at a public meeting held in the Orange Hall on Friday evening, Dec. 30th, 1904, to take up certain matters of importance affecting the development of the waterpower, a special meeting of the council was held in the clerk's office at the adjourn...ent of the public meeting at 11 p. m. ... the same evening. Present, Mayor Keating, Councillors Marsh, Watson and Young.

Moved by Councillors Watson and Marsh that:

Whereas E. W. Backus has for some time represented to the government that two modifications would have to be made in the agreement between himself and the Crown, or he would be unable to finance the development of the waterpower and would be compelled to abandon the project; and whereas an equitable solution of one of such modifications has been arrived at and there now remains only the other which is that the 500 bench mark ... stead of 497 should be named as the full height of the dam, including flashboards:

And whereas in a letter on this subject addressed to the mayor of Fort Frances by Mr. Backus dated Oct. 29, 1904, the following statements are made by him:

(1) "We have been willing to assume all of the damages in raising the water to the 500 B. M. We have also expressed a willingness to have our plans show our proper protection of Front Street by the construction of a dyke.

(2) "I have always maintained the position that the contract wou... to be modified somewhat, and ... you right now with all the ... that language can express that I ... get your government to do two things, viz: to allow us first to raise the water to the 500 B. M. and, second," (this second modification is no longer in dispute), "after the above two modifications have been made, then within thirty days I will promise you that contractors will be on the ground and continue at work until the entire power is developed:"

Be it therefore resolved that the town of Fort Frances considers the development of the waterpow... the matter of first importance as ... st any other and desires its imm... proceeding with, and is willin... ...es hereby advocate the 500 ... ...rt to due provision against ... the town as suggested by Mr. Back... in his letter and to due provision for ...mpensation for all damages sustai... by private owners, as also offered ... Backus, and subject also to co... and due security being given ... ackus that the pledge of promp... ...mencement of and continuous proc...ding with the work of development to completion will be faithfully adhered to;

First, that the phrase "work of development" shall be construed as meaning actual work on the site of the dam or falls and that lumbering operations carried on at a distance shall not be considered work of development.

Second, that the phrase "prompt commencement of the said work" ... be construed as meaning within sixty days of the passing of this resolution and that in case of dispute between the parties as to the amount of compensation for injury to property the same shall be referred to arbitration:

Third, that all monies awarded as compensation for injury to property of private owners shall be paid within sixty days of the award being made;

Fourth, that copies of this resolution duly certified under the hands of the mayor and clerk and the seal of the orporation be forwarded by first mail to the Honorable the Commissioner of Public Works for Ontario and to whoever the council of Fort Frances delegates to represent the town at the council meeting of the government in Toronto on Tuesday next;

Fifth, that the town council be respectfully requested to confirm this resolution of the citizens and by resolution or memorial to his honor the Lieutenant Governor-in-council to convey the same as the corporate act of the town.

The resolution carried, and Messrs. Barwick, Aylesworth, Wright and Moss were, on motion of Councillors Watson and Marsh, instructed to represent the town at a meeting of the council of ministers on Tuesday last.

The resolutions as amended were carried by a vote in the meeting of 48 ...ndment by H. J. F. Sissons ...vote be postponed until Monday ...e municipal elections, being dated.

A pleasing feature of the meeting was the tender to the mayor of a vote of thanks for his services to the town, which was enthusiastically carried.

Most of the candidates for mayor and council spoke briefly and the meeting broke up about 11 o'clock.

In the Hands of the Japs!

General Stoessel, commander of the fortress of Port Arthur, surrendered on Sunday last to the Japanese forces under General Nogi, after a siege of eight months. The articles of capitulation have been signed.

Suddenly a star bre[ak]s from its fastenings and begins [to] speed through space. On and on [it] comes like a meteor. With frightful speed it heads toward this planet, ready to plunge into it, as the human foot might crush an insect, an ocean liner might run down a fishing smack or a large express engine crash into a hand car. The terror stricken astrologers see it flying toward the earth. Suddenly it stops and seems to be watching something that is happening in the little village of Bethlehem. The angel who [stood] at the

[In order] to satisfy a jealous fear, Herod ordered all the little boys in the region of Bethlehem to be slain by his soldiers. Think of a ruler having such power as that and being able to use it as he would. But the slaughter of those baby boys was only a small part of Herod's infamies. Herod's whole reign can be tracked with bloodshed. Herod brutally slew his wife's brother Joseph and her mother and his wife. He slew every one who dared to lift a voice against him in his kingdom. Then in order that his death might be a time of national mourning we learn from Josephus that he gave orders for the chief men of the Hebrew nation to be gathered in the hippodrome and to be there slain on the night of his own death. If the people, as he knew, would not be[wail] his death he took measures to [secure] their sorrow for another cause. He would not have the night of his death a period of joy and rejoicing. Such a man was the ruler of Judaea in that day. Ah, yes, there never was a darker or a more hopeless time in Jewish history than when Jesus was born. Thus we find the Hebrew people longingly—oh, so longingly—looking for a Messiah at this time.

My brother, as Christ came to Jerusalem at the darkest time of Hebrew history, can he not come to you this Christmas Day, even though it may be in the dark days of your life? Is it dark for some of you? Is your life sad with sin, sad with sorrow, sad with bitter disappointment? Do you need a Saviour now? "The whole thought and idea of all that is told about Christmas day," wrote Dean Stanley, "suggests the consoling, cheering thought that, however gloomy our lot, however distressed our portion, the Almighty God has not forsaken us." Even in the darkest hours of our lives Christ will come to us as he came to Bethlehem in the darkest hours of Hebrew history. Are we going to reject Christ as Pilate and the Jews rejected him?

Having accepted the glad tidings of great joy that Jesus came to save, shall not you and I on this glorious Christmas Sabbath Day start forth to announce, as did the angelic messenger, that Christ has come to save all who will believe on him and be saved? C[an] every man hear this good news and [not] want to spread it abroad? [Do] we fully realize that through [Him] we shall live and yet not wa[nt] to go forth to herald the tidings [that] Christ has come to save our neigh[bors] as well as ourselves?

The ci[vilized] world has grown larger than [it] was on that first Christmas [the] geographical map has un[dergone] many changes. Great explorin[g] have discovered new continent[s] the farthermost lands have bee[n] found to be inhabited. During the life of the ancient wise men and the shepherds there were comparatively few of the inhabitants of the world who heard of Christ's name. Millions of the inhabitants of the world to-day have never heard of Christ's name. A large part of the remainder is entirely indifferent to the teachings of the gospel. Therefore to the Christians Christmas Day ought to be the most opportune of all days for proclaiming the Saviour's mission. Every home, every street corner, every family gathering, should be a place where the deeper, holier purposes of Christ's life are to be explained by those who have felt the love and the mercy and the tenderness and the hope that have come to the believing hearts that have gathered about the manger.

So may this Christmas Day find the love which binds man's heart to man as well as man's heart to God. May God save us all not only on account of the love Christ bears us, but also on account of the saving Christian love we bear our fellow men. On this glorious Christmas Sabbath morning can we not feel the good tidings of great joy means that Christ has saved us? And then, with wondrous love for our fellow men, cannot we, like the twain in the Brahman legend, be so concerned for the welfare of others that we are ready even to die that they may be saved, ready at the risk of health and life to carry the good news of salvation to those who have never heard it or in the home land to devote our means, our time and our labor to the task of proclaiming the glad tidings of great joy which have come to all people?

May this be the happiest and gladdest Christmas of our lives. May it be the time when we see anew the face of Jesus and tell of his love, his redeeming love, wherever we may go. I wish you one and all a "Merry, merry Christmas."

---

ord;" in chapter iii, 32, 33, it is "tes[ti]mony." The important point is th[at] the one to whom testimony is borne "the Son of God," "the word ma[de] flesh," the only revealer of the F[a]ther.

The Lord had said to Moses, "I wi[ll] raise them up a prophet from amon[g] their brethren like unto thee, and wi[ll] put my words in His mouth" (Deu[t.] xviii, 18). He also said in Mal. iv, [5] "Behold, I will send you Elijah th[e] prophet before the coming of the grea[t] and dreadful day of the Lord." The Jews, not seeming to recognize th[e] prophet like unto Moses as the Mes[-] siah, inquire of John if he [was] Christ or Elijah or that prophet. He does not attempt by his superior knowledge to teach them nor to correct their misapprehension, but meekly insists that he is the voice of one crying in the wilderness, "Make straight the way of the Lord" (Isa. xl, 3). Our Lord Jesus testified of him that he was the one spoken of in Mal. iii, 1, "Behold, I send My messenger before thy face, which shall prepare thy way before thee." See Matt. xi, 10. He was only a messenger, the voice of another. The message was not his own, but that of the one who sent him. Unless it is so with the Lord's messengers today they run in vain and speak in vain.

When the messengers from the Pharisees asked him for his authority to baptize he again referred them to Him who sent him, saying, "The[re] standeth one among you whom ye [know] not whose shoe's latchet I am not [worthy] to unloose" (verse 27). To take of[f] one's shoe meant that the place trodden upon or the matter in hand was not that of the person whose shoe was removed, but of a superior having power and wisdom to control, guide and accomplish the business in hand. See carefully Ex. iii, 5; Josh. i, 3; v, 15; Isa. lviii, 13. John was authorized only to deliver his message, to do the work appointed him and point people to the one of whom he was the herald. The Lord Jesus Christ is the only one able or worthy to accomplish that which the Father sent Him to do (Rev. v, 1-7). The next day after the Pharisees had sent to him, John, seeing Jesus, cried, "Behold the Lamb of God which taketh away the sin of the world" (verse 29).

The great questions are: How can sin be put away? How can sins be forgiven? How can a sinner be justified before God? For until this great barrier is removed there can be no fellowship between sinful man and a holy God. We are living in days when from so called orthodox pulpits the doctrine of man's total depravity is scoffed at, and consequently a Saviour to die in the sinner's stead, suffering for our sins, is to such people wholly unnecessary. But the word of God, which is forever settled in heaven (Ps. cxix, 89), plainly teaches man's utter sinfulness and the necessity of a sinless man to die in the sinner's stead (Rom. iii and v and all Scripture). He whom John points out is the Lamb of God, without blemish and without spot, whose precious blood alone can [take] away sin (I Pet. i, 19).

That He should be made manifest to Israel, John bare witness of Him (verse 31), but Israel would not have Him. They despised and rejected and killed Him and compelled Him to say to them, "Behold, your house is left unto you desolate, for I say unto you ye shall not see Me henceforth till ye shall say, Blessed is He that cometh in the name of the Lord" (Matt. xxiii, 38, 39). That time will come—it even now draweth nigh—and they shall say as they see Him coming in glory: "So this is our God. We have waited for Him and He will save us" (Isa. xxv, 9). Meanwhile all who truly receive Him, trusting only in His precious blood to save them, and thus become children of God (verse 12), are commissioned to be His witnesses, in the power of the Holy Spirit, to the ends of the [earth], that His elect church, His body, may be gathered out of all nations and the time of His kingdom come (Acts i, 8; xv, 14, 18).

No one need lack the power to be His witness, for He who redeems us by His blood is the same who baptizeth with the Holy Ghost (verse 33), and our Father in heaven, who gave Him for us, will, with Him also, freely give us all things (Rom. viii, 32; Luke xi, 13). Let it therefore be our wholehearted desire to manifest His life in these mortal bodies (II Cor. iv, 10, 11) and thus proclaim to others that to us He is indeed the Son of God.

The Agent was instructed in letter of the 2Ist March to notify the owner that he would be given one month in which to make a payment on these Lots,failing which the Sale was liable to cancellation.

Agent Sims now reports in letter of the 26th Ultimo,that he notified the owner accordingly, but no payment had been made,and he recommends that the Sale be cancelled.

In view of the above,I would also recommend cancellation of the Sale.

Sale 2380-

Department of Indian Affairs,
Ottawa, 12th May, 1905-

WHEREAS Lots 1 & 2, Con. 12, Howland, were sold on the 7th October, 1878, to Thomas Wilkin, in whose name they stand, subject to the conditions of actual occupation, the performance of certain settlement duties, and the payment of equal annual instalments,

AND WHEREAS it has been represented and established to my satisfaction that the conditions under which the said Sale was made have been violated,

NOW THEREFORE by and in virtue of the powers and duties vested in the Superintendent General of Indian Affairs by the Indian Act, chap. 43, Sec. 46, Revised Statutes of Canada, I hereby CANCEL the said Sale, and resume the said land.

Dear Dr. Scott,-

W. L. Trotter of Sheguiandah, Ontario, has written me several times regarding the water lot adjoining Lot 2 of Concession 12, Township of Howland. He states that the Manitoulin Quartsite Company had secured this Lot from the Government with the understanding that it could only be held while they were operating. Since then operations have discontinued, and the lease of the property is now null and void.

I believe Mr. Trotter owns this property and he is anxious to secure the water lot. It would appear to me that this Lot belongs to the Ontario Government but Mr. Trotter seems to be of the opinion that it is owned by the Federal Government. I will be glad to know the exact position.

Thanking you.

Yours very truly,

Jeremiah Bowman

Mr. Bowman called at the Department and was verbally advised of the standing of the lot

Sir,-

I beg to acknowledge receipt of your letter of the 1st instant, with reference to certain lots in the Township of Howland, and advise that Lot 2, Con. 2, was patented on February 4, 1899, to Esther Jane Orr, of the Township of Sheguiandah.

Lots 1 and 2, Con. 12, were patented to William L. Trotter, Sheguiandah Township, in October, 1907.

In view of the number of years which have elapsed since the Department disposed of these lots we, naturally, have no information as to leases which may subsequently have issued covering the land under consideration.

Your obedient servant,

Sir,

I have to acknowledge the receipt of your letter of the 22nd Instant,enclosing an Affidavit by Wm. Ashley and Benjamin Hallett,as to the non-fulfilment of the conditions of Sale of Lot 27,Con.5,Bidwell, and in reply have to inform you that you should notify the owner of this Lot that he will be given one month in which to make a payment thereon,failing which the Sale is liable to cancellation.

At the expiration of the time given, you will be good enough to report again to the Department stating what action has been taken, whether the owner has any other improved land in the District,and whether you would then recommend cancellation of the Sale.

Sale 240I-

Ottawa,I0th May,I905-

To the Deputy Minister,

Lot 27,Con.5,Bidwell,was sold on the 9th October,I878,to John Riordan,but now stands by Tax Deed in the name of Wm.Cannard.

I00 Acres @ 50¢ per Acre -----$50.00

Paid date of Sale ----------$20.00

Balance Principal due --------$30.00

and Interest &c.

Regular Notices were sent for Oct.I888,89, 90,9I,93 & 94.

On the 22nd March last Agent Sims forwarded an Affidavit by Wm.Ashley and Benjamin Hallett stating that this Lot was unoccupied and unimproved, that it never had been occupied by any person,and that it was not fit for cultivation,nor for lumbering purposes of any kind.

The Agent was instructed in letter of the 30th March to notify the owner he would be given one month in which to make a payment on the Lot, failing which the Sale was liable to cancellation.

Agent Sims now replies in letter of the 4th Instant, stating that he notifed the owner as instructed,but no payment has been made,and he recommends cancellation of the Sale.

In view of the above,I would also recommend that it be cancelled.

had been sadly neglected. As the case needed urgent treatment I did not delay until the customary order for admission was issued by the Indian Dept - so I am now writing to repair my neglect. The child is now much improved, and probably will be able to return to its foster parents on the 29th.
The Hospital rates in the childrens ward come to $3. a week.

I must ask that the Dept. will assume responsibility.

Dear Sir,

Dr. Wilson of the Cottage Hospital Springhill writes me that he admitted to the Hospital the seven months old baby of late Mrs. Christmas who was fatally burnt to death. I knew nothing of this case until I got Dr Wilson's letter which I am enclosing to you. The Indian chief tells me he is trying to find a home for the child and says it was very fortunate that the Hospital authorities took the child for he dont think it would have lived long in the state it was in. I have written to Bear River to see if I can get someone to take the child. I wrote Dr Wilson stating that I would refer this case to you and find out if the Department would pay the Hospital bill. This case appeals to me as most deserving of help.

Yours truly

Sales 2962 & 2963- MEMORANDUM.

Ottawa,8th June,I905-

To the Deputy Minister,

Lots 27 & 28,Con.I7,Carnarvon,were sold on 4th June,I880,to John Lyon.

200 Acres @ 50¢ per Acre -----$I00.00

Paid at date of Sale ---------$ 40.00

Balance Principal due --------$ 60.00

and Interest &c.

Regular notices were sent for June,I889, 90,9I,93 94 & 95.

On the 25th March last Agent Sims forwarded an Affidavit by D.A.Patterson & John Gordon,stating that there were no improvements on these Lots,no clearance of land,nor erection of any building.

The Agent was accordingly advised in letter of the 3Ist March that the owner of these Lots should be notified that he would be given one month in which to make payments thereon,failing which the Sales were liable to cancellation.

Agent Sims now reports in letter of the 3rd Instant,having notified the owner accordingly, but no payments have been made,and he does not own any improved land in the District.

The Agent recommends cancellation of the SAles,and in view of the above,I would also recommend that they be cancelled.

Lots 27, 28, 29. Concession 1st, Carnarvon.

I find ~~also~~ sufficient cedar on these Lots to make five hundred railway ties of a second quality. The timber is small and dead. There is no other timber of any value on any of these Lots.

These lots are sandy and gravelly in places and the balance rocky there is not any land on them fit for cultivation. I value the timber @ 4¢ per tie = 20.00
and the land at 15¢ per acre which is all I consider it is worth.
300 acres @ 15¢ = 45.00
Total value of Land & Timber 65.00

Sirs

On Sept 2. 1905 I bought a lot 30 on 4 on Labrador as a homestead and cut off about three acres of underbrush and a short time after sold my claim to Isaac Johnson of Gose Bay and handed him over that a transfer of the lot is not legal. The transfer was drawn up by Robert Thorburn of Gose Bay and of course I thought the land agent was responsible for what he did and if the transfer is not legal must I fulfill my agreement with the Department and pay him back his money. If so I am willing to do this I did not know that the Department held me for the lot till lemon prayer

Ottawa, 13th May, 1907-

Sir,

In reply to your letter of the 22nd Ultimo, No. 486/3/2, submitting an application on behalf of Mr. J.A. Smith, for the purchase under Section 6 of Lot 23, Con. 4, & 23, 24 & 25, Con. I, Burpee, I have to inform you that, in view of the proposed examination of all the unsold lands in Manitoulin Island, the Department is not disposed to consider this application. In this connection I might point out that you were instructed in letter of 27th Ultimo, to sell Lot 23, Con. 4, Burpee to Wm. Wright, along with other Lots, at the rate of 20¢ per Acre, under Section 6.

Sir

I beg leave to report that I have been waited upon by the chief and one of the Councillors of the Thessalon Band of Indians to enquire if it is possible to have their reserve divided up into 40 acre lots so that each head of a family could be located for a lot.

They also wish to know what claim if any, those Indians who do not reside on the reserve would have on these lot so subdivided. There are a number of families living on St Josephs Island about 30 miles away

Some of the men are now away on what they call the drive and they want to have a big meeting when those men get home and they want to notify those parties when they are at the meeting what position they occupy in the Band with regard to the land.

Department of Indian Affairs,

ADDRESS REPLY TO
Inspector of Indian Agencies
OTTAWA

Ottawa, 13th April, 1905.

Memorandum:

~~Sir,~~ I see that a subdivision of the Thassalon Reserve is contemplated and that the band makes certain enquiries as to the rights of non-resident individuals.

I wish to clearly express the opinion that this band should clearly understand that the reserve is the property of all members equally. I am strongly opposed to any subdivision of any more reserves in my inspectorate being made until a proper policy of land allotment and location is decided upon, because if made location tickets may be sought, as it is evidently the intention of the Thessalon Band to seek them, and if issued the chaotic state of Indian interest in land existing, and daily being made worse elsewhere, will arise. I think, and believe that I have expressed the opinion, that no individual should ever be permitted to acquire more land than he would be entitled to were he becoming enfranchised unless he buys or otherwise acquires the band or common right in the excess he wants. The course we have pursued and are pursuing, it seems to me, cannot be defended by reason, and is in its effect

effects upon many, if not most, Indians distinctly opposed to all that sound reasoning and many years experience has shown to be wise and right.

When Parliament gave the Superintendent General a regulating power over allotments and locations it was, I take it, in order that he might exercise that power to protect the common or general right of the individuals of whom bands are composed in order that no individual might suffer from the mistaken or unjust action of band councils and agents, and I cannot conceive that there can be any justification for the approval of wrongful allotments or locations, and the consequences thereof, upon the score that such approval rest upon the representations of band councils and agents.

I therefore, as said, am opposed to spending money in the subdivision of the Thessalon or any other reserve in my inspectorate, until a proper plan of distributing land on reserves has been determined upon. As I look upon it I fear we might properly be held responsible for not having viewed this matter rightly long ago.

Memo.

Department of Indian Affairs,
Ottawa, 3rd October, 1905.

The Deputy Supt. General,-

With reference to Mr. Macrae's memorandum, hereunder, I have to say that I am not aware of any case having been brought to the attention of the Department in which it is shown that lands have been improperly located to individual Indians.

The records in the Department show, and my personal experience is to the effect, that the mischief, if any, consists principally in not having the reserves subdivided into lots, and these lots properly located to individual Indians, before the lands have been indiscriminately squatted on and taken possession of by the Indians. I, therefore, beg to recommend, as the Thessalon band have abundant funds, that the Agent be instructed to have the request of the Chief considered by the Indian council. The Council can then pass the usual resolution requesting that the required survey be made.

Mr. Indian Agent Hagan raises, in his letter of the 5th April last, the question as to what right those Indians who have moved away, and do not reside on the reserve, have to the land in the said reserve. This question, I think, is answered by reference to the Indian Act, which provides that lands in a reserve may be located to individual Indians by the band, or Council of the band, with the approval of the Superintendent General. If Indians leave their reserve, and take no action to obtain locations, it would appear to be evident that they do not value the privilege or require the land. Section 39 of the Indian Act also provides that only Indians who habitually reside on

or near and are interested in a reserve can take action to dispose of the same.

With reference to Mr. Hagan's letter of the 5th April last, I beg to draw your attention to the fact that I took action on it by sending it to the Accountant on the 10th of the same month. It is now returned to me with a memorandum from Mr. Macrae. The memorandum is not addressed to anyone, and it does not appear that you have seen it. I beg to submit whether Mr. Macrae should not be requested to withdraw this memorandum, as it animadverts very strongly, and apparently very unjustly, on the administration of this Department, and in any case, I think, questions bearing on supposed mal-administration should be discussed with you, and not placed of record on the files.

Sir,-

With reference to your letter of the 5th April last, I beg to inform you that the Department has approved of the proposal to subdivide the Thessalon Indian reserve into Forty Acre lots. It is, however, considered desirable that the Indian council should pass a resolution requesting that the survey be made. Kindly have this done, and forward the resolution to the Department. The survey will then be made during the coming season.

Dear Sirs:-

We have been informed that Senator George T. Baird has made application for LOT #5 and also several other lots along side of this mentioned one. Now Gentleman, Mr Baird does not require these lots , only for speculation. We have a party already in there cutting lumber, on Lot #5 and Mr Baird has told him, that if he cuts any more, and also what he has already cut will be liable for seizure. Our License covers that ground to April 30th 1908. and we do not think it would be justice to us , if the Department sold these lots after we had placed our parties for the season to lumber.

Because the M. B. Land Co. took away all of Mr Bairds gound , that is no reason why he should be allowed to get these lots, to fill part of the vacancy. You can rest assured that he is getting them only for future speculation. If any person is entitled to these Lpts it is the Writer , - Having guarded this part of the Reserve and thus saved the lumber for a revenue to be derived therefrom, and placed to the CREDIT of Tobique Band. The Tobique Band is against the sale of these lots being made , just now, and blame us for not making a PROTEST in each case. Hoping this will have the desired effect against sale.

We remain

Yours Respectfully

SIR:

I beg to inform you that on the Receipt of above letter, I wrote Mr. Baird that I was instructed to Sell to the Applicants Lots No. 5 21 & 22 in Block B. Tobique Reserve N.B. at the Rate of $1.00 per acre Cash. Without any conditions to Settlement. And the Timber free of dues. That on the 26th ult. I Received from George G. Baird a Cheque on the Bank of Montreal for $295.00 in payment for said Lots of Land. Which was deposited in the Bank of Montreal in Fredericton to your Cr. the same day. I then on the 26th ult Mailed Official Receipts acknowledging the Sales to the Misses. Baird & Prepared My Returns and Mailed Same to the to the Department on the 2nd instant. With the aforesaid $295.00. Regarding the Cutting of Lumber by the Licensee, it is My Opinion that Notwithstanding the Affidavits Subscribed. if there is any Merchantable Timber on any of those Lots, he has a right to it. But I further Contend, that he has No right to Cut and remove Timber Such as is not Specified in his License. Namely Beech, Rock Maple. or any other Timber below in Size to that is provided for in the Timber Regulations. The Hon Commissioner Craig that Made those declarations, is a Justice of the Peace. is upright in his dealings, and Knows. every foot of Indian Lands below the Tobique River.

I have to acknowledge the receipt of your letter of the 5th inst. requesting me to submit a report on the contents of an enclosed copy of a Communication received from Wm. A. J. Beveridge & Son - relative to the purchase of Lots 5. 21. & 22. Tobique Reserve N.B. With reference to the Statement in Wm. Beveridges letter that these Lands or Lots were purchased for Speculative purposes. I dont believe it. as Mr. Baird Since his first application Some two years ago frequently Complained to me that by withholding this Sale we deprived him of a Chance to get his yearly firewood and that he Wanted the Lot. for no other purpose. Regarding Douglas Baird He is a Married Man. and I am Satisfied he purchased Lot. 21. for no other purpose. than to procure Winter's firewood. — Withers. D. Baird is a Son of the Senators. for what use he Wants Lot. No 22. I can not. Say as he is yet a Single Man. Regarding the Statement that the Tobique Band is opposed to this Sale. I pay no heed to this Argument as they have Nothing to Say in the Matter Providing the Agent is impartial to all Men in the discharge of his duties. Having given you a correct Statement in my letter of the 5th inst. as to the Sale of these Lots. and the passing of Receipts &c. in Connection therewith. I contend that there was Nothing irregular or deceptive in the transaction. If there is a feeling between these Men it must not interfere with Indian Affairs.

Dear Sir

In obedience to your order of the 23rd Dec. I proceeded to Block B. Tobique Indian Reserve and made the necessary inspection. Besides the inspection required by your note I was requested by Mr Henry Lewis to make an inspection of Lot No 6, with a view to his purchase of the same.

As you will readily see, it would be impossible, to make an intelligent inspection of Nos 5 & 6, without knowing where the lots are, I ran the line dividing the two lots, as I had previously run the lower line of No 5 & the upper line of No 6. I found that Mr Beveridge claiming under his license, has cut on No 5, 125 pcs. hemlock & 20 pcs. spruce in all 145 pcs which would average 100 ft B.M. each. making a total of 14.500 ft B.M. and is still cutting. I could not find that any cutting has been made on 21 or 22, altho' parties are working in the immediate neighborhood.

I made as thorough an examination of the whole tract as possible in the limited time, and would estimate that on No 5. 1000 M. F.B.M. could be taken in spruce, hemlock & fir of good merchantable size & quality. Besides this there is a considerable quantity of good hardwood suitable for milling purposes, and a large quantity well adapted for fuel. No 6. is similarly situated and Equally well timbered, and I have no hesitation in putting the estimate for mature wood at about the same amount.

With the exception of a small tract near the Gulch road, the lots are covered by a good original growth, undamaged by fire, which has been the source of so much

Indian Affairs. (RG 10, Volume 3091, File 283,755)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

damage to a considerable part of this Reserve.

Both lots are very hilly, in many places precipitous, which makes the tract unfit for agricultural purposes, but for wood any difficulty of access is more than compensated for by the proximity to a profitable market.

In the case of No 6. I would estimate its selling value at not less than $2.50, on the basis of 100 M. F.B.M. merchantable timber @ $2.50 per M., which rate is but 25 cts in advance of the rate charged for stumpage by the N.B. Ry Co. at points where transportation costs more by 50 or 75 c than it does from these lands.

As to Nos 21 & 22, I would estimate them at about the same value as these is no doubt that the tract will average a cut of 1000 ft. B.M. per acre.

In making this Estimate of value we are merely considering the current value of the mature wood, the capital value left will much more than counterbalance the fire risk involved; which is the principal bar to value as property.

Enclosed please find sketch in which I have tried to make clear the situation.

I would like you especially to lay this sketch before the Dept. as it brings out discrepancies in the old survey which have to be accounted for, in the proposed division of R.R. Lots 20 & 24. There is an excess of about 100 acres, which will, I presume, be distributed among the different lots, but may at the same time render a revision of the descriptions in the patents to be issued necessary. This discrepancy arises from the fact, that in the original plan, many of the lines laid down, had never been actually run, and were hypothetical, and when the lines come to be surveyed, possible Errors in the original measurements

Indian Affairs. (RG 10, Volume 3091, File 283,755)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

are Exposed which was previously undiscovered,

Had I surveyed the whole of the lots fronting on the South side of the Gulch road at one time, the Error in the base line could have been discovered at once and the excess distributed throughout the tract, but as I was obliged to survey one lot at a time, and could not discover that any line bounding this tier had ever been previously run, the Error was not discovered until I came to close in the line at the rear of Nos 5 & 6.

If the policy of the Dept is to sell these Lands, I cannot recommend too strongly that they be sold as applied for, at public auction. I, of course do not know why the Lands are being sold, but there is no doubt as to the object of the purchasers, as they are being bought & obtained for speculative purposes, and the general concensus of opinion which would be Expressed in a competitive sale, would more nearly approach their present value than even the most skilled opinion as to the present value of the merchantable product

Dr Sir

I regret having been unable to answer your note of the 14th at an earlier date owing to my absence from home.

As you are aware the side lines of the lots mentioned viz 5. 21. 22 / 13 have never been run and in order to find what cutting has been done on these lots, and to make a fair Estimate of the standing lumber, it would be necessary to complete the Survey of the lots, is it your intention to have me complete the Survey and then make the necessary estimates. and if so will the expenses be paid by the applts or by the Dept- in any event I will look after the matter as soon as possible, we will say as soon as possible after Xmas as that date occurs next week

MEMORANDUM.

D.X.H. Ottawa, January 16, 1908.

To the Deputy Minister-

I beg to report that in November last, Mr. Agent Farrell submitted applications made by Senator Baird for the purchase of Lots Nos 5, 21 and 22 in Block B., Tobique--No. 5 for himself, No. 21 for Douglas Baird, and No. 22 for Arthur Herbert Baird, and affidavits were submitted by Mr. Columbus Craig, showing that there was no merchantable lumber on the lots in question, and that they were unfit for farming or cultivation.

In view of this evidence, Mr. Agent Farrell was instructed on the 20th of November last to make sales of the lots to the applicants at the rate of $1.00 per acre, cash, without any conditions as to settlement and the timber free of dues. Sales were accordingly made by the Local Agent on the 26th of November, 1907, and duly returned to the Department in his return for that month.

On the 2nd of December, 1907, Messrs. A. J. Beveridge & Co., who are the timber licensees covering the lots in question, reported that Mr. Baird did not require these lots except for speculation; that they had a party already cutting lumber on Lot 5, and protested against the same, stating that the Tobique Band was opposed to the sales of these lots being made, and blamed them for not making a protest in each case.

Mr.

Indian Affairs. (RG 10, Volume 3091, File 283,755)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Mr. Agent Farrell was wired on the 4th of December last not to make sale of lots, and he was written on the 5th of December for a full report in the matter. Mr. Farrell was again written on the 11th of December, and advised that, in view of the uncertainty as to there being merchantable timber on these lots covered by license, he should have an examination made at once so as to determine whether the licensees were operating on any of them, and if so, to what extent and what timber covered by the license still remained on the lots.

On the 31st of December a protest was received from the Indians against the sale of Lot No. 5. Mr. Agent Farrell has had the required examination and valuation made of the lots in question, and under cover of his communication of the 6th instant has forwarded a report by Mr. Surveyor Hoyt, of Andover, N. B., which gives the following information. First, as regards Lot 5- "I find that "Mr. Beveridge claiming under his license has cut on "No. 5 125 pieces of hemlock and 20 pieces of spruce, "in all, 145 pieces, which would average 100 feet B.M., "making a total of 14,500 feet B.M.. and is still cutting. "I could not find that any cutting has been done on 21 "or 22, although parties are working in the immediate "neighborhood. I made a thorough examination of the "whole tract as possible in the limited time, and would "estimate that on No. 5, 100,000 feet B.M. could be "taken in spruce, hemlock and fir of good merchantable "size and quality. Besides this, there is a considerable "quantity of good hardwood suitable for milling pur- "poses, and a large quantity well adapted for fuel."

Mr.

Indian Affairs. (RG 10, Volume 3091, File 283,755)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Mr. Hoyt also reported that as to Nos. 21 and 22 he would estimate their value at not less than $250.00, which, on the basis of 100,000 feet B.M., merchantable timber, at $2.50 per M., which rate is but 25 cents in advance of the rate charged for stumpage.

Mr. Hoyt favours the disposition of these lands by public auction, if it is the policy of the Department to sell them and states that there is no doubt as to the object of the purchasers, as they are being bought and retained for speculative purposes, and the concensus of opinion which would be expressed in a competitive sale would more nearly approach their present value than even the most skilled opinion as to the value of the merchantable product.

In view of the reports received, showing large quantities of timber on these lots, I would beg to recommend that the sales made by the Agent under instructions be disallowed, and the moneys paid returned.

Sir,—

Joseph Perley, Indian, on the Indian Point wishes to make application to purchase Lot No 5 Block B of the Tobique Indian Reserve for which he is willing to pay $1.50 per acre. He explains that he wants a chance to keep his team employed in the winter time, and if he could purchase this lot he could have work in getting the lumber and cordwood that is on it. He agrees to employ only indian labour. He further states that he can borrow the money to pay for it and his application is approved by the band. It is very desirable to keep them to work during the winter, and I think they should be encouraged to undertake work on their own account and I would ask that his application reave consideration. I can see one objection, when he got the land he might sell it to some white man. It might be better to allow him to operate this lot this winter, under tariff rates, he to employ only Indian labour ~~both men and teams~~ Also allow him to cut cordwood.—

Sir,-

In reply to your letter of the 7th inst., reporting the application of Joseph Perley to purchase Lot 5, Block B, Tobique Reserve, I beg to inform you that the Department is not disposed to sell this lot at present.

It appears he wants it for the timber thereon and in this connection I have to refer you to the letter sent to you under date of 28th November, File 52,812, authorizing you to issue permits to Indians on south side of the Tobique River.

You may act on same in reference to Perley's application.

Replying to your letter of Dec 12th and further reference to your letter of Nov 26th File 52,812 I wish to say that the Indians can not do anything at cutting burned hard wood as it is not saleable being too much decayed. I can see that in a short time there will be a good many Indians out of work. Up to the present they have been engaged in making moccasins and snow-shoes but the demand for these things is about done. and very soon those chopping in the woods will be home. It is very desirable that they should be employed. and I would ask you to consider the advisability of allowing me to let them cut hemlock and fir and spruce. on Lots No 1. 2. 5 Block B south side of the Tobique River. under tariff rates. They may not be able to do much but I would like them to have the opportunity to try what they could do

Re.No. 283755. Lot No. 5 Block B Tobique.

Dear Sir:

I have yours of 16 Inst. concerning this lot and have to thank you for information it contained.

I am instructed by Hugh Johnson that he applied for this lot some years ago and was instructed by your then local agent, George Baxter that he might go on the lot and improve it. Acting on this permission and considering his application regularly made and accepted, Mr. Johnson went on the lot and made certain improvements including erection of small house etc. When your present agent here, Mr. S. Waite took office Mr. Johnson went to him and was told that he might continue his residence and improvements. I cannot understand how the Perth Water Company could get a patent of this lot without any notice whatever from your department to Mr. Johnston and without paying for improvments made by former applicant.

Will you kindly advise me under whose application and under what representation the patent was issued to the Perth Water Company, and oblige,

Yours truly,

G. Baxter

Sir,-

I beg to acknowledge the receipt of your letter of the 21st instant, in regard to sale of lot 5, block B, Tobique, and in reply to say that the sale to the Perth Water Commissioners was made under an application for this lot which was filed in the Department on the 8th of November, 1905.

On the 21st of January, 1911, Mr. Agent Baxter advised the Department of Mr. Johnson's application for this lot, but no authority was given him or his successors to allow Johnson to take possession of or make improvements on the property.

I may say that there is nothing of record in the Department showing that at the time the sale was made to the Perth Water Commissioners, Mr. Johnson had made improvements on the lot, and it is thought that possibly it might be well for Mr. Johnson to confer with the Water Commissioners in the matter.

Sale 2836- MEMORANDUM.

Ottawa,6th June,I905-

To the Deputy Minister,

Lot 9,Con.4,CAmpbell,was sold on the 20th September,I879,to Alex.McColman.

47 Acres @ 50¢ per Acre ------$23.50

Paid at date of Sale ---------$ 9.40

Balance Principal due --------$I4.I0

and Interest &c.

Regular Notices were sent for Sept.I889, 90,9I,93 & 94.

On the 8th April last Agent Sims forwarded a Statutory Declaration by Mark Alex.Clarke stating that this Lot was unimproved and unoccupied.

The Agent was accordingly instructed in letter of the 22nd April to notify the owner that he would be given one month in which to make a payment on the property,failing which it was liable to be cancelled.

Agent Sims now reports in letter of the Ist Instant having notified the owner as instructed, but no further payment has been made,and the Agent believes he has no improved land in the District. He recommends cancellation of the Sale,and in view of the above,I woils also recommend that it be cancelled.

Sir,

I enclose herewith cheques Nos 3938 to 3948(both numbers inclusive) in payment of the accounts of the Chippewas of Sarnia for March quarter last. except the account of James Wright & Sons.

There was an error in the addition of Dr Henderson's account for February, and also an error in the cross addition of Dr Totten's account for the same amount, consequently the respective amounts payable to them are $263.20 and $209.17.

Sir-

In reply to the portion of your communication of the 6th Instant, dealing with the Resolution of Tyendinaga Band, granting one-half acre on the South West corner of Lot 24, Con A, to the Orange Society for a building site for the Orange Hall, I have to ask you to be good enough to report by whom this hall is to be constructed and whether it is to remain the property of the local Lodge, and if so is such Lodge compesed entirely of members of the Tyendinaga Band, and also whether you would recommend approval of the Resolution in question.

Kindly also advise whether the Lot in question is Band land, if not the name of the Indian owner thereof and whether he has given his consent to the erection of the Hall.

Belleville June 22nd 1905.

Sir;—

In compliance with your request, in Letter dated 25th May 1905 No 284840, respecting a piece of ground for an Orange Lodge I have now to say:

The application for a half acre site was made by some of the leading orangemen of the Mohawk Band; and they propose to erect the building and expect it to remain the property of the Local Lodge.

The said Lodge, I am informed, is composed wholly of members of the Tyendinaga Indian Band, except the present Missionary, the Rev. McCreggan, who is a member.

The half acre asked for is upon the South West Corner of that part of Lot No 24 Con. A.—North of the York road, and is Band property; heretofore held for the use of the agent, but now occupied by the "Bay of Quinte Mohawk Agricultural Association"

I respectfully recommend the approval of the resolution; but, from enquiries made, I think the orangemen of that Lodge at present have no money to build with.

In re Lot 109 Block B Tobique Reserve for which David Watson has made application I know the lot well having travelled and cruised over it several times, and I am a disinterested party. There is no spruce timber on said lot, except a few small poles. it is chiefly hardwood not heavy as the timber has been cut off. it is very high ground and rough and uneven very rocky and ledgy front and considerably burnt on the front, about twenty rods or more burnt from the road back I do not consider it fit for agricultural purposes. I do not consider that it is worth more than One Dollar per acre.

I, Wm. B. Hoyt, a Deputy Surveyor in the Province of New Brunswick, do Solemnly declare that I have inspected the lot on the Indian Reserve in the Parish of Esquimalt, adjoining Westerly the lot applied for and occupied by E. Wallace Ruke, being Lot No. 9 Block B - I.R.

That I find on the front of the tract is very precipitous & rocky and generally denuded of timber by fire. This would comprise ten of fifteen acres, back of this is a considerable tract that has been burnt by an old fire but is becoming rapidly re-afforested. This portion is without a very high present value but with good prospects, & the rest of this is a good growth of hardwood land well suited for cutting fuel, some of it being a growth that would probably cut twenty five cords per acre. There is a very inconsiderable amount of merchantable timber, excepting this fuel growth.

Owing to the precipitous front the lot is somewhat difficult of access, which somewhat lessens its value.

The lot would be of no practical value for Agricultural purposes owing to adverse surface conditions.

Taking into consideration the general values obtained for lands in this neighborhood I would estimate the average value of the whole lot at one dollar per acre.

And I make this declaration under the Canada Evidence Act, conscientiously believing the same to be true, and with the knowledge that it has the same force & effect as if made under oath

Declared before me.

Sir,

In reply to your letter of the 28th Ultimo, enclosing a Declaration by Deputy Surveyor W.B. Hoyt, shewing that Lot 9, Block B. Tobique Reserve, is of no practical value for agricultural purposes, that there is no merchantable timber thereon, and that he estimates the land at an average rate of $1.00 per Acre, I have to inform you that you may sell this Lot to Dr. R.W.L. Earle, for $1.00 per Acre, the land without conditions as to settlement, and the timber free of dues.,

Ottawa, 31st January, 1908-

Sir,

Referring to your Land Return for December last, which includes a Sale of Lot 9, Block B. Tobique Reserve, to Dr. R W.L. Earle, I have to inform you that, upon examining further the Declaration by Deputy Surveyor W.B. Hoyt, which accompanied your letter of 28th November last, and in view of the recent difficulties with the Licensee in connection with applications for other Lots, under Section 6 of the Regulations, the Department is not disposed to confirm this Sale without further evidence as to the Timber. You will, therefore, be good enough to furnish the Department with a Declaration shewing the approximate quantity, kinds and value of Timber on this Lot.

Sir :-

In a recent letter from Dr. A. S. McCaig he mentions that forty members of the Garden River Band of Indians had left a short time ago for England to form part of the Indian village at Earlscourt, London.

No report has been received from you on this subject and the Department desires to know the circumstances under which the Indians referred to have gone to England.

The rule of the Department has been to discourage the Indians as much as possible from leaving their reserves for exhibition purposes, as the ultimate results to those who have done so in the past have been far from satisfactory.

Sir

I have the honor to acknowledge the receipt of your letter of 19th inst in which reference is made to a letter from Dr A.S. McCaig reporting that forty members of the Garden River Band of Indians had left for England" &c

In reply I beg to say that I am not aware of any such number of Indians of that Band having left the Reserve. I understand however that some five or six members of this band are away in England with a Mr Gordon a former musical director of the Hiawatha Company who have been exhibiting and producing their play at Kensington print during the last three or four years.

I was not aware that the Department objected to the Indians taking part in exhibitions of the Class referred to In my report for 1902 I referred to the matter of the Hiawatha Company and exhibitions in some of the Great cities of the United States but no notice appeared to be taken of this matter.

As to their leaving the reserve they frequently have to do so for a good part of the year to obtain a living and I do not think that their mingling with the outside world will be any more detrimental to them than mingling

as they do with the outside element found nearer home.

Was there Reserve situated in a more isolated position where they could not reach a border town like Sault Ste Marie much. It might be different but the acquire here all the vices that they possibly could if in more distant cities

Besides the five or six members of the Garden River Band, two of the Batchewana Band have gone with the Company as well as a number of non-treaty Indians

Dear Sir

During the recent Earl's Court Exhibition there was a family of American Indians, at the Indian Village there, named Wigwas, in whom I have been

specially interested. They attended our church on Sunday sometimes. The other day their Manager, who had recently returned from Holland where they have been performing, called on me & said this family of Wigwas had had their house at Garden River broken into & their property robbed, & asked if I could do anything for them.

They are to return home probably on Feb. 13th by the Canadian Pacific Line, & are at present still in Holland.

I write now to ask if you would be good enough to let me know

(1) If the report that this family of Wigwas has been robbed, is a true one, & if so, to what extent have they suffered.

(2) if I should agree to help

B. 45.

Sir,-

I have the honour to inform you that representations were recently made to me by a Mr. F. R. Burton, in regard to certain Canadian Indians who have been giving entertainments under his direction on the Continent. Mr. Burton alleged that his business has failed disastrously and that he was without resources enabling him to care for the Indians or to return them to their homes.

I enquired into the matter very closely and procured evidence that the Indians in question were, in regard to six of them, members of the Iroquois tribe, born in Canada and residing in the Caughnawaga Indian Reserve near Montreal; while the three remaining men, one of whom has a wife and five children were Indians of Canadian origin from the Garden River Reservation. Corroboration of the bona fides of the Indians was also furnished by a cablegram from Mr. Pedley, the Superintendent General of Indian Affairs, which reached me on the 12th instant and read as follows:-

"John Wigwas, Tom Shawano, Tom Shingwauk are Garden "River Indians -- Angus Monteor, Michael Monteor, Angus Jacobs, "Frank Deepsky, Mrs. Cecilia White, Annie White, Caughnawaga "Indians."

Mr. Burton was required to make a sworn declaration that he is absolutely without the means of enabling these Indians to return to their homes in Canada; and they have also been required to make sworn declarations - the effect of which was duly explained to them - that they were without the means

of helping themselves.

In these circumstances, and as nothing but harm could result if the Indians were thrown on their own resources in London, there has been no other course than for me to arrange for their return to the Dominion. This I have effected through the Canadian Pacific Railway Company, at quite a special rate of £3.0.0. per adult from Liverpool to St. John, N.B., and the party sailed by the steamer "Lake Champlain" on the 13th instant. The names of the Indians are as follows:-

From the Garden River Reservation, Ontario.	(John Wigwaus, wife & 5 children)Tom Shawano (Tom Shingwauk
From the Caughnawaga Reservation, Quebec.	(Angus Monteor)Michael Monteor (Angus Jacobs)Frank Deepsky (Mrs. White, and Annie White.

The expense incurred, including railfare from London to Liverpool, amounts to £45.16.3., and as this will practically exhaust the funds placed at my disposal by your Department for the relief of distressed Canadians, I shall be glad if it is possible for the case to be regarded as a special one and for some adjustment to be effected which will permit of that amount being replaced to my credit for the purposes of any cases that may arise in the ordinary way between now and the close of the financial year.

Mr. Burton states that he is getting employment in London, and promises to repay the cost of these passages by instalments, as and when he is in a position to do so. In the meantine, the only security which it was possible to obtain has been taken from him,i.e., a Promissory Note with a stamped covering letter.

I shall be obliged if you will kindly have some arrangement made for the Indians to be taken in hand on their arrival at St. John, in order that they may reach their reserves without further trouble.

It occurs to me to add that it seems very desirable that some steps should be taken to prevent Indians being taken out of Canada for purposes of profit, unless sufficient guarantees are provided for their return at the expense of the parties exploiting them - otherwise there may be a recurrence of the recent trouble with which we have just had to deal.

Sir,-

I beg to return herewith the letter of the 15th February which was addressed to your Department by the High Commissioner for Canada in the matter of the expense incurred in defraying the transport from London to Canada of certain Indians who apparently left this country under the care of a Mr. Burton.

It is observed that the High Commissioner states that he defrayed the expense of transport from the funds placed at his disposal for the relief of distressed Canadians. As this is a fund administered by your Department it would appear to be a matter to be dealt with by you.

My Lord,-

With reference to your Lordship's letter of the 15th ultimo, addressed to the Honourable the Minister of the Interior, regarding the expenditure (£45.16.3) which you incurred in arranging for the transport from London to Canada, of certain Indians belonging respectively to the Garden River and Caughnawaga Bands, I have the honour to say that it is observed that your Lordship took from Mr. Burton (who apparently was responsible for the Indians leaving this country) security, in the form of a promissory note, for the repayment of the amount above mentioned.

In order to bring the Indians from St. John, N.B. (the point of their arrival in this country) to their respective reserves this Department has been obliged to pay out $131.85. I have therefore the honour to request that your Lordship will kindly cause this amount to be added to the claim against Mr. Burton as $131.85 should, if possible, also be collected from him.

I have the honour to be,

I have the honor to refer to your Telegram of above date relating loss or theft of property belonging to Jno. Mignaw while absent in England.

It appears that Chas Mignaw, who is a member of the Garden River Band, left the Reserve in May 1905, he left his house in charge of another Indian, one Frank Pequetabinini another Indian of the Band, having his bedding and household effects and a lot of clothing put away in the upper story.

The man left in charge remained there for several months and then left leaving another Indian in charge of the place

Some Circumstances led Constable Maguire to think that goods were being taken from the house and strong suspicion pointed to a woman named Marguerite Dawes as the party who took the goods and a search warrant was issued by me to search the house this woman occupied, when certain articles claimed by the Secretary Department of Indian Affairs Ottawa

Sir,

I am in receipt of your letter of the 13th instant, reporting in regard to the present circumstances of the Indian John Wigwas and his family, consequent upon certain articles being stolen from their house on the Garden River Reserve during their absence in England and on the Continent, and stating that they have applied to you for assistance in the way of the necessaries of life; and in reply I have to inform you that if the Council of the Garden River Band passes a resolution signifying their desire that assistance be afforded this family from Band funds the Department will deal with the matter and advise you.

In this connection I may say that the sum of $107.10 was paid by the Department for the railway fare of J. Wigwas (and family) Tom Shawanoe and Tom Singwauk from St John N.B. to the Garden River. In addition to that amount the Department paid $3.00 for a cablegram in connection with the articles stolen from Wigwas' house. The total amount is to be deducted by you from these persons' shares of interest and Robinson Treaty money as the same fall due, until the whole amount has been repaid. The money when retained from the Indians should be forwarded to the Department, with an explanation, and a note should be placed in the pay-list.

The matter was brought to the attention of the Minister and he is of the opinion that if you have some vote out of

Sir,

With reference to your letter of the 28th ultimo, in regard to the Indians belonging to the Garden River and Caughnawaga Bands, who were recently assisted to return from London to Canada, I am directed by the High Commissioner to inform you that the expenditure incurred by this Department in the matter, viz: £42.3.9., was paid by official cheque drawn on the amount placed to the High Commissioner's credit by the Department of the Interior for the relief of distressed Canadians; and vouchers, in duplicate, supporting the payment, were sent to the Department with the usual statement for the month of March last.

In these circumstances, I am therefore to suggest that perhaps the better way of adjusting the matter would be for the Department to renew the High Commissioner's credit at the Bank of Montreal for the purposes in question, to the extent of the expenditure that has been incurred.

I am to explain that the amount in question was reduced from £45.16.3., as specified in the letter to the Minister of the Interior dated 15th February last, to £42.3.9., owing to the fact that Angus Monteur, one of the Indians, did not sail with the rest of the party and his fare was not paid.

I am also to add that Mr.Burton called here yesterday, and stated that he had been advised by Mr. Hardyman of the Anglican School, Garden River, that the cost of the transportation of the Indians belonging to that Reserve from St.John to Garden River, was being deducted

from their pay. Mr. Burton was unable to understand thisaction, as, in accordance with your letter of the 9th March, he has given a formal undertaking to repay all the expenses in the matter, and, as advised you by the High Commissioner's letter dated 18th ulto., an acknowledgment of his liability, together with his Promissory Note for the sum of $131.85, in respect of the cost of conveying the Indians from St.John, N.B., to their respective Reserves in Canada, is held in this Office. Mr. Burton stated that he had no doubt whatever that when required to do so he would be in a position to meet his obligations, and in the meantime he cannot understand the reason for stopping the expenses from the pay of the Indians, who, as has been shown in the correspondence, were in no way responsible for their position.

With reference to your Secretary's letter of the 15th instant, I have the honour to state that the matter of the expense involved in connection with the return to their reservations in this country of certain Indians who were stranded in London has been adjusted with the Department of the Interior.

With reference to the concluding portion of the communication referred to, I beg to state that when Mr. Burton, who was responsible for the Indians making the trip to Europe, pays the amount of the Promissory Note which he has given, and which is held in your office, the Department will pay to the Indians interested the amount of interest money now withheld from them.

It is absolutely necessary that the Department should hold this interest money for the present, in order to protect the Band funds, and also as a warning to Indians generally who may wish to go travelling, and who have not money with which to defray their expenses.

Dear Mr. Griffith,

Yours of 16th came at a time when I was under such pressure of work that all correspondence had to be postponed, and this is the first opportunity I have had for replying.

The letter of June 12th to which you refer was in answer to a question from me, for which reason I felt that it did not require an immediate acknowledgment. I am not in a position to begin payment of the Notes, but I am more confident at this moment than I have been for some time recently that I shall be able to do so before much longer. This is necessarily vague. My present occupation is not of a nature to make definite promises possible. Since the Indians left London I have barely supported my family by newspaper work and have put every extra hour that I could endure into the production of literary matter. Now comes the process of marketing it. I may succeed quickly and the matter may drag somewhat, but you may be sure I shall not cease my efforts until my obligations with regard to the Indians are liquidated.

Very truly yours,

Sir,

With reference to my letter of the 26th July last, and previous correspondence, regarding the return to Canada of certain Indians belonging to the Garden River and Caughnawaga Bands, I am directed to inform you that, so far, Mr.Burton has not met any part of his obligation in regard to this matter.

Mr. Burton called at this Office to-day and notified that he was leaving for New York, and he promised to communicate with you when in a position to pay the amounts which have been advanced. In these circumstances, therefore, I am to transmit to you, herewith, the two Promissory Notes given by Mr.Burton, dated 12th February 1906 and 17th April 1906, for the sums of £45.16.3. and £27.1.10. respectively. With regard to the former amount, however, I am to explain that the actual amount paid to the Steamship Company was £42.3.9., a reduction having been brought about by the fact of one of the Indians not sailing, so that Mr.Burton is only liable for the reduced amount.

I am also to forward two stamped acknowledgments made by Mr.Burton, of his indebtedness for the sums in question.

I am to add that it was gathered from Mr.Burton's remarks, that he still seems to think that he has a grievance against the Government, inasmuch as he states your Department is continuing to withhold from the Indians money due to them, and at the same time

Dear Sir,-

I have the honour to acknowledge receipt of your letter of the 23rd ultimo, enclosing two promissory notes, etc. which were given by Mr. Burton in connection with the payment by this Department of the transport expenses of certain Indians belonging to the Garden River and Caughnawaga Bands who had to be brought from London to this country, and returned to their reserves. I observe that you state that Mr. Burton was, at the time your letter was written, about to leave for New York, and that he promised to communicate with this Department when he is in a position to pay the amounts which have been advanced.

Yours very truly,

Dear Sir . —

With reference to Trip to England of a party of Indians in 1906- 1906- Owing to the failure of the enterprise the Indians were stranded in London. I had to pay the cable sent by Lord Strathcona, to the Department at Ottawa, besides my Fare & of my family, 5 full fares, from St- John to Garden River. My Treaty money & Interest-Money were kept back each payment, until the Department were repaid; the cable despatch should have been borne equally by

the other members who were in the party not solely by me; then when the final payment was taken, some 2 or 3 dollars were taken over & above the amount of the fares & the cable despatch.
Mr Nichols says he has written more than once, & cannot get any reply, & he said he would write again & gave me permission to write direct to you.
I would feel much obliged to you if you will look into this for me, as I need the money badly.

ALL MESSAGES TAKEN BY THIS COMPANY ARE SUBJECT TO THE FOLLOWING TERMS

It is agreed between the sender of the following message and this Company that the said Company shall not be liable for damages arising from failure to transmit or deliver, or for any error in the transmission or delivery of an unrepeated telegram, whether happening from negligence of its servants or otherwise, or for delays from interruptions in the working of its lines, for errors in cypher or obscure messages or for errors from illegible writing, beyond the amount received for sending same. To guard against errors the Company will repeat back any telegram for an extra payment of one-half the regular rate, and in that case it shall not be liable for damages beyond fifty times the amount received for sending and repeating.

Correctness in the transmission of messages can be insured by contract in writing, stating agreed amount of risk, and payment of premium thereon, at the following rates, in addition to the usual charge for repeated messages, viz:—One per cent. for any distance not exceeding 1,000 miles and two per cent. for any greater distance.

This Company shall not be liable for the act or omission of any other Company, but will endeavor to forward the telegram by any other Telegraph Company necessary to reaching its destination, but only as the agent of the sender, and without liability therefor. This Company shall not be responsible for messages until the same are presented and accepted at one of its transmitting offices: if a message is sent to such office by one of the Company's messengers, he acts for that purpose as the sender's agent: if by telephone, the person receiving the message acts therein as Agent of the sender, being authorized to assent to these conditions for the sender. This Company shall not be liable in any case for damages unless the same be claimed in writing, within sixty days after receipt of telegram for transmission. No employee of the Company shall vary the foregoing.

Dear Sir:-

Please find attached a letter from the Company's Office at New York, which encloses an account for $534,70 for the transportation of 15 Indians from Paris to Montreal, these Indians having been abandoned at Paris by their employers, and were returned with Indians of the United States at the request of the American Consul-General. We will be obliged if you will look into this matter, and authorize a cheque to be made in our favor in settlement of transportation, etc., given for the return of these Indians.

Dear Sirs:-

CANADIAN INDIANS RETURNED TO CAUGHNAWAGA RESERVATION.

Referring to our previous letters on this subject, as you will recall these Indians came out together with a party of U. S. Indians for the Pine Ridge Reservation, both being engaged in a show in Paris which got stranded. Mr. Martin at the request of the American Consul-General took a draft from the representative, Mr. Akoun, drawn on the Bureau of Indian Affairs at Washington for the full amount but that was naturally repudiated by the Authorities here from the fact that it covered the passage of the Canadian Indians. A delay therefore ensued in order to get the Paris Office to give us separate accounts. We have now got the matter adjusted and enclose you a statement which we will thank you to take up either with the Reservation or through the Superintendent at Ottawa. Included in this amount, you will see, is the cost of the immigrant fares from New York to Montreal via Norwich Line thence rail by Central Vermont and Grand Trunk and also includes a few lunches furnished them at Ellis Island to last them through the journey.

Yours faithfully,

Sir,-

I beg to inform you that this Department is in receipt of an account rendered at $534.70 covering the cost of the transportation of fifteen Indians of the Caughnawaga Reserve from Paris to Montreal, via New York. It appears that the Indians were employed by a showman, who took them to Paris and there abandoned them. They were returned under arrangements made by the American Consul-General to New York, with certain American Indians who apparently were also stranded in Paris. The account above referred to covers the cost of the transportation, not only from Paris to New York, but also from New York to Montreal.

The Department desires to learn from you at an early date of the names of the fifteen Indians mentioned and also whether they possess any property. This information is necessary as the Department has under consideration the question of the payment of the account referred to and desires to ascertain whether it will be guaranteed against loss in the event of the payment of the account.

MEMORANDUM.

Isbon Igreen, 22 years of age, called here to-day - December 23rd, 1911. He stated in a peculiar dialect of French that he was an [redacted]-Canadian-Indian (? half-breed) born at Chicoutimi, near Montreal; that his occupation was that of a hunter in the woods of northern Quebec, but that he left the Dominion two years ago in the service of a Canadian family (Joseph Maradis) of wealth and independence, spending all his time travelling. He stated that they went to Cuba, New York, Philadelphia, San Francisco and Chicago. Thence to France where he arrived in January 1911. Says that he left his employer through no fault of his own and of his own accord. Found place with Monsieur Andony, a travelling manufacturer's agent, with whom he worked for three months; also in a hospital at Havre as cook's help. He carries a certificate declaring that he bravely risked his life in saving a drowning man in the Bassin du Roi, Port of Havre, on the 26th August 1911. After leaving M. Maradis he was three months without work.

Left France November 22nd for England with "a friend" (a Frenchman) who he says robbed him of most of his belongings. The little money remaining was spent in food and lodging and at last he was driven by sheer want to present himself at the High Commissioner's Office for assistance. Expressed most urgent wish to work his passage back to Canada.

Sir,

I beg to refer to the telegraphic correspondence that has taken place between your Department and this Office relative to one, Isbon Igreen, an alleged Canadian Indian, and to quote the cablegrams as follows:-

My message dated December 22nd 1911:-

"Isbon Igreen, age 22, alleged nomad Canadian Indian stranded here. Father Igreen Eelanee, living Chicoutimi. Wire funds repatriation if bona fide".

Your reply dated January 3rd 1912:-

"Cannot identify Isbon Igreen as Indian".

The man under notice was in due course made acquainted with your inability to trace his Canadian domicile, but he left here earnestly protesting that he was a Canadian. Nothing, however, was heard of him until yesterday, when he again presented himself here, and begged that some further investigation might be made on his behalf.

In view of the fact of the man's continued insistence, and that there has been no variation from his original story, I think it well, now, to furnish you with full particulars of his case; and they are appended in the form of a memorandum herewith.

As Igreen is in very sore straits here - without work - or any likelihood of obtaining employment, the High Commissioner

will be glad if some further enquiry can be made, and to receive your permission to repatriate Igreen if he really is a Canadian Indian. In view of his youth, and his statement that his short life has been spent as a hunter in the woods, it is very conceivable that much difficulty might be experienced in tracing his antecedents; especially having regard to his statement that the only relation he has is his father. Probably, however, this man Igreen Eelanee may yet be found.

MEMORANDUM:-
Mr. Pedley.

With reference to the letter from Mr. Griffith of February 8th I have to report that I think any further inquiry as to the identity of this Indian would be fruitless. I have attempted to trace the Joseph Maradis or Paradis, with whom the Indian says he was travelling. I can obtain no very definite information, but I think the man may be Joseph Paradis, a relative of the late Judge Paradis of St. Jean.

I would hope that the Canadian Office has sufficient evidence that the youth is a bona fide Canadian and will repatriate him, but I do not see how we can assist to that end by stating that he is an Indian.

Sir,-

In reply to your letter of February 8th, with reference ~~with reference~~ to the person called Isbon Igreen who states that he is a Canadian Indian, I have to inform you that I think any further inquiry as to the identity of this person would be fruitless. An attempt has been made to trace Joseph Maradis or Paradis with whom Isbon Igreen says he was travelling. No very definite information has been obtained, but it is possible that the man may be Joseph Paradis who is known to be a Canadian.

Although Kaniwaki is organized into a school municipality, it was done in a legal manner in 1853 by an order of the Governor General under which authority was the organization of school municipalities before Confederation. The circumstances are not the same to-day. Indian reserves are exclusively under the control of the Federal Govt., which alone has the right to regulate the education of Indian children there. There is a law to the effect that schools on reserves are subject to the regulations that may be passed by the chief or chiefs of a band after ratification by the Governor General in Council.

to submit to the regulations adopted by the chiefs of the band, but I believe that the lands of white the reserve in the possession of white men cannot be taxed for the support of schools held for the whites, as the school law of Quebec cannot be put in force on these reserves, and that therefore the Quebec Govt. cannot form school municipalities there.

Perhaps it might be easy for you to obtain an amendment to the Federal law so as to permit of the forming of a school municipality on a reserve for the whites that are in possession of lots and who reside there with their families. Until the law shall be amended, I beg you not to insist on the forming of a school municipality that the Provincial Government in Council cannot legally order.

Mr. Brabazon, M. P.,

Ottawa, Ont.

Dear Sir :-

I am trying to organize here a school municipality and lately I have received from the Superintendant of public Instruction, Quebec, the following lines in answer to a letter I had written to him:

(Translation from the French by Mr. Ross.)

"Although Maniwaki is organized into a school municipality, "it was done in a legal manner in 1853 by an order of the "Governor General under which authority was the organization "of school municipalities before Confederation. The cir- "cumstances are not the same to-day. Indian reserves are "exclusively under the control of the Federal Govt., which "alone has the right to regulate the education of Indian "children there. There is a law to the effect that schools " on reserves are subject to the regulations that may be "passed by the chief or chiefs of a band after ratification "by the Governor General in Council.

" It does not state that the whites settled on a "reserve are bound to submit to the regulations adopted by "the chiefs of the band, but I believe that the lands of "the reserve in the possession of white men cannot be taxed "for the support of schools held for the whites, as the "school law of Quebec cannot be put in force on these re- "serves, and that therefore the Quebec Govt. cannot form "school municipalities there.

" Perhaps it might be easy for you to obtain an "amendment to the Federal law so as to permit of the form- "ing of a school municipality on a reserve for the whites "that are in possession of lots and who reside there with "their families. " the Lieut. Governor in Council cannot legally order. "
(end of French.)

According to that opinion of the Superintendant white people who have settled on Indian reserves and bought land could not organize in school municipality and are condemned to bring up their children in ognorance. There must be some misunderstandings somewhere. Would you, please, enquire at the Department of Indian Affairs about it and if the law was such as supposed by the Superintendant of public instruction of Quebec would you, please, ask the federal gouvernement to amend the law so that school municipality could be established on Indian reserves for the benefit of white people residing on these reserves and that lands surrendered to the white people and bought by them could be taxed for the support of schools. I do not see any difficulty in having the law amended in this manner as it affects only lands bought from the reserves and that it will not change at all the condition of Indians who could not be taxed for the support of schools.

I would like that this question should be settled as soon as possible as we intend organizing this summer to have our school in operation in the fall.

Hoping that you will give us all the help you are able of, I remain,

Yours most sincerely,

A. Laniel, Ptre., O.M.I.,

The Deputy Superintendent General:-

With reference to the communication from Rev. Father Laniel of North Temiscamingue, addressed to Mr Brabazon, M.P. regarding the request of the white settlers on the Indian reserve there to organize a school municipality, I beg to say that the white settlers appear to be without any school facilities, but their power to establish a school section is a question which should, I think, be dealt with by the Provincial authorities, and in this connection I beg to refer you to the opinion of Mr Justice Sedgwick on fyle 88,886,* given by him when Deputy Minister of Justice in reply to an enquiry from this Department as to whether white people holding land on the reserve or lots in the town plot of Maniwaki, in the County of Ottawa, could form a municipal organization under the provisions of the municipal code of Quebec. Mr Sedgwick gave it as his opinion that he could see no reason why the territory should not be created a municipality. The mere fact that the lands were once Indian lands would not, he thinks, prevent the municipal code of Quebec from applying to their case.

The settlers on the North Temiscamingue reserve have taken up lands which were surrendered for sale and these lands are exempt from taxation until the terms of sale have been complied with, but

there is no reason why taxes should not be levied for municipal and school purposes, On Locaben assessment It would appear from Chap.22,of 51 Victoria amending the Indian Act,that conveyance of land sold for taxes may be recognized by the Department and patent issued to the grantee named in such deed or conveyance. From this it would appear that the Department acknowledged the right of purchasers of Indian lands to form municipal organizations and tax themselves for their support.

The case in point is one which I think should be submitted to the Department of Justice for their opinion before a definite decision can be given to Mr Brabazon on the points raised by Father Laniel.

Sir:-

I have the honour to acknowledge receipt of your letter of the 20th inst. -- 152,209 -- with respect tp the white settlers on the surrendefed portion of the Indian reserve ~~there~~ of Lorette Jeune Lorette to organize a School Municipality.

Father Lenier and the Superintendent of Public Instruction of Quebec appear to be under the impression that these surrendered lands still form part of the reserve, which of course is not the case. There is no doubt I think that this territory may be constituted, or included in, a School Municipality under the Education Act of the Province, Chapter 28 of the Statutes of 1899.

Dear Mr. Pedley:-

One of the parties connected with our Hydrographic Survey is engaged upon a survey of lake St. Francis. In connection with the charting of this waterway it is necessary for us to make a survey of a portion of the Indian reserve at St. Regis.

Nothing we do there will mean any permanent occupation of the land, nor entitle us to any claim in future. The work to be done is purely and simply in the interests of navigation.

I will be deeply obliged if you will instruct your agent there that Mr. Bickerdike and his party are to have access to the reserve, and request him to inform the Indians that no injury is to be done their exclusive property.

Sir,

I Enclose herewith a Resolution of Council of today voting and requesting that $20.00 (Twenty dollars) be sent for the purpose stated in the Resolution, $10.00 Ten dollars of which was spent on the 24th of May celebration and it is proposed to spend the other $10.00 on the 1st of July. The Indian Council over looked voting it at the meeting preceding the 24th so they borrowed it and want the other $10.00 on the first of July. It is thought better to have Some Games and recreation at times instead of taking the young people for a days sport on these days.

All of which is respectfully submitted.

Sir,-

In reference to your letter of the 1st instant, I beg to state that there is no lot No. 48, in the 17th Concession, E. B. R., in the Township of Lindsay.

In the original plan, the concession line between the 16th and 17th Concessions ends at the south side of Wingfield Basin, and the division line between Lots 47 and 48, concession 16, ends at the west side.

The points which would, by the production of these lines, form Lot 48, Concession 17, are thrown into the adjoining lots; the point east of the basin is part of Lot 47, Concession 17, and the one north is part of Lot 48, Concession 16.

Dear Sir:-

Will you kindly advise us in whose name lot 10. Con. 7 east of the Bury Road, Eastnor, stands, and whether anything remains to be done before the issue of the patent. The arrears due the Department appear to have been paid by the Canada Permanent Loan and Savings Company in 1883, at which time Charles W. Davidson was the owner of the land subject to the issue of the patent. The property now belongs to Edward T. Dufton who is selling it to George Mackie, but the patent never appears to have been issued. Kindly advise us fully, and oblige,

LAND BRANCH
JUL 3 1905

Sir,

I have the honor to report that Mr Victor H. McLenon has made application to purchase Lot 23, Con.6, Carnarvon under conditions of settlement.

I beg also to report that Mr George Vanhorn applied for this Lot some time ago and wished to purchase the same under Section 6 of the Land Regulations as he informed me it was unfit for settlement but that he wanted it for grazing.

Mr McLenon also states that not more than 25 acres of the Lot is suitable for farming purposes.

As this Lot is covered by timber License No 101 and as the greater part of it is unfit for farming purposes I do not think it would be wise to dispose of the Lot to Mr V. H. McLenon as in all probability it is timber and not land that he is after.

I would most respectfully ask for instructions as to the disposal of these applications.

Dear Sir:

Would you be good enough to advise me whether Lot No. 23 concession 6 of the townsship of Carnarvon, Manitoulin Island is for sale. I am imformed that this lot with several other has been under timber liscence to the Michaels Bay Lumber Co., and the the liscence has been surrendered. If it is for sale, would you be good enough to advise me the terms.

The Deputy Minister,-

In regard to letter of the 17th instant, from Mr. Nicholson, M.P., as to lot 23, Con. 6, Carnarvon, I beg to say that this lot, which is open for sale, contains 100 acres, and is valued at 25 cents per acre. The lot is reported on as having 20 acres fit for agriculture; balance unfit, unoccupied, unimproved and no merchantable timber. The timber license covering this and other lots in Carnarvon was terminated some time ago, so that the Department would be in a position to sell the lot at the upset price of 25 cents per acre, cash, under section 6 of the Land Regulations.

Sir,-

I have your inquiry of the 19th instant with reference to a certain portion of the township of Thompson and advise that the N. 1/2 of Section 13, the N. E. 1/4 of Section 14 and the S. W. 1/4 of Section 13 were purchased by Andrew McEwen, of Thessalon, in September, 1901, and subsequently assigned to Messrs. Shepherd and Wallace in whose name they now stand.

On the 15th of September, 1920, Messrs. Shepherd and Wallace assigned the Gore Lot in the N. E. 1/4 of Section 14, being the southern portion of the said quarter section, containing 30 acres more or less, to John Inkster of the Township of Thompson.

Our records do not show that Mr. William Rowe of Blind River has had any connection with the N. W. 1/4 of Section 13.

I John E. Smith of the Town of Little Current in the District of Manitoulin, Forest Bailiff, make oath and say. That acting in accordance with instructions received from D. L. D. Sims, Indian Agent at Manitowaning I have examined the undermentioned Lot and report thereon as follows,

Lot 18. Concession 9, Shequiandah,

The above mentioned Lot is all flat rock with very little soil to cover it.

There is not any timber on the Lot, as it has all been burned over and nothing of any value left.

The Lot might be used for pasture in wet seasons. It is entirely unfit for farming purposes.

I consider 20¢ per acre to be all it is worth.

Ont.

Dear Sir,

I have your letter of 24th and owing to absence from City I have been unable to write you sooner. With regard to the matter mentioned I feel quite sure that it would be useless to apply to the Militia Department for any assistance. Had the two men died while undergoing Military Training in Camp the expense of burial would have been borne by the Militia Department, as it would of any other soldier who died while undergoing training, but the Militiaman when not under pay and not under military orders occupies no different status from that of any other citizen.

If you consult with Col. Ellis of your City, I think you will find that he will bear me out in this.

I exceedingly regret that I am powerless in the matter, otherwise I would be only too glad to go to any amount of trouble to assist Cottrell. The two men, Leo. Cottrell and Geo. David were unusually good men and good soldiers.

Yours truly,

James Colerick

Sir

Frank Cotterell of the Sarnia Indian Reserve, an Indian, desires me to apply to your Department for aid to enable him to pay for the funeral expenses of his son Louis Cotterell and his adopted or rather his stepson George Daniel both of whom were privates in the Reserve Company of Volunteers of the 27 Bat. Lambton Militia and both of whom died from pneumonia on the same day 9th June last on the Reserve.

On 22nd May last Daniel was taken ill with that disease and on the next day Cotterell was out drilling with his Company. Rain was falling during the drill and he became wet and in consequence he was taken ill and died as above stated.

Daniel would have been out also drilling but for his illness and the Company had the drill preparatory to going into Camp with the Battalion.

amounts to $45. of which Sum Jour Department, it appears, paid $20 leaving a balance due of $25 which Frank Cottrell is unable to pay. He is a very "poor" Indian and having lost his two helpers in the family and not being a good or efficient farmer or worker he has no way of paying the debt. He says he applied to Mr English the local Indian Agent but was told he could not aid him and on his behalf I applied to Capt Colerick whose reply of 1st inst I also enclose, from which it appears the Militia Department cannot assist him for the reason stated therein.

I hope Jour Department will, on consideration of his case, make provision for aiding Cottrell to pay the amount still due

Sir,-

I am in receipt of your letter of the 2nd ultimo with enclosures and in reply I beg to say in regard to that your recommendation that the Department take into consideration the question of payment of the balance of Messrs. Phippen & Simpson's account for the burial of the two young Indians Louis Coterell and George David that this firm rendered their account to the Department for the funeral furnishings supplied for the said Indians at $20.00. The account was paid at the amount rendered. The Department, therefore, sees no reason why Messrs. Phippen & Simpson should reclaim the balance of $25.00 from Frank Coterell or from the Department.

Dear Sir:

Mr. George E. Taylor of Wiarton writes me with reference to the West half of Lot 7 Concession 17 Keppel, on which Lot David Mole is locatee. Mr. Taylor represents to me that this lot is very stony and not fit for cultivation and he thinks that the Government charges against the lands should be remitted and Mr. Mole given a free title.

I may say that I know the locality quite well and the representations made by Mr. Taylor as to the lands being very stony indeed are correct. Mr. Taylor is an elderly gentleman, a very reputable citizen, and I shall be glad indeed if you will make such representations to the Indian Lands Department as may lead to a very substantial reduction of whatever charges there are against the lands.

Respectfully yours,

A. G. Mac Kay

My Dear Friend:-

I have received two letters, one from George E. Taylor, another from A. G. MacKay, which I enclose, asking that the amount due against the west half of Lot 7, Concession 17, Keppel, owned by David Mole, be remitted. A great deal of Keppel is exceedingly stony and the poor inhabitants have a terrible struggle to make ends meet, and from what I can learn this is a case in which the Government would do well to act in a benevolent spirit towards the old gentleman, Mr. Mole. Kindly let me know if something cannot be done towards the cancellation or at least a liberal reduction on the amount still due the Indian Land office. I shall be obliged if you will return Mr. George E. Taylor's letter after perusal.

DEPARTMENT OF INDIAN AFFAIRS CANADA

EDUCATION, TREATY 9.

The undersigned had opportunity during the Treaty 9 expedition to consider fully the educational needs of the new district, and beg to report and make recommendations as follows:-

At the present time the grants made to education are as follows:- Church of England, 8 schools, $1,600.00; Roman Catholic Church, 1 school, $300.00. The whole field of missionary work is occupied by these two denominations. The Church of England has a larger establishment and has probably two-thirds of the Indians as adherents, the Roman Catholic Church having the remaining one-third of those who come under the influence of christianity. There are a considerable number who are pagans but the influence of the mission is gradually being extended to them.

Although the Church of England has received $1,200.00 per annum for some time for the support of day schools, not a great deal has been accomplished. The only place where we saw a day school in operation was at Moose Factory where in a samll building with insufficient equipment a day school is being conducted in which the Indians of the mission are very much interested. At Fort George there is also a day school but this point we did not visit as it is in the Province of Quebec and outside our purview. The great difficulty to be met with in the operation of a day school is that there is no resident Indian population at any of the Posts. The Indians are all hunters, they come

during the month of June
in with their winter's catch of furs and leave for the woods again not much later than the first week in July. Day schools cannot, therefore, be of any practical utility as a means of education unless at Albany and Moose Factory where there is a small resident population of half-breeds some of whom are classed as Indians. We came to the conclusion, therefore, that so far as the practical needs of education are concerned a grant of $1,200.00 to the Church of England, from the character of Indian life in the country, cannot be productive of any very great results. We are of the opinion that any benefits which arise from Indian education must come from adequate boarding schools situated in favorable localities and our recommendations must lie along this line.

The Indians of the district do not require an advanced education on ordinary subjects. They require an elimentary training and instruction in cleanly modes of life both in the preparation of food and personal surroundings, as well as the most important hygienic rules.

All the assistance the Roman Catholic Church has received for education is a grant of $300.00, nominally for the salary of the day school teacher but which really goes to meet the expenses of the boarding school at Albany. This boarding school for which aid has already been asked by Reverend Father Fafard, its founder, is a commodious building, part of a small group of buildings which constitute the settlement at Fort Albany. It lies north of the Hudson's Bay Company's buildings which divide the lands of the Roman Catholic Church from those of the Church of England both of which hold under lease from the Company.

The

The building is commodious, well suited to the purpose for which it was erected and provides a comfortable home for 25 Indian children, 6 aged and infirm Indians, and hospital accommodation of four beds. All this expenditure has been undertaken and the work carried on without any financial assistance from the Department. It is the first and only boarding school existing in this large district.

As it will be necessary to deal justly with both denominations, we have decided to make our recommendation as a whole, no part of which we think ought to be considered by itself, that the whole scheme should carry in the interest of the Indians. The recommendation is made with due consideration for economy and is by no means an extravagant one for the inception of the work considering the large number of Indians to be served and their great need.

ROMAN CATHOLIC BOARDING SCHOOL.

For the boarding school at Albany, 25 pupils at $60.00 per capita, $1,500.00.

Grant for the current fiscal year for which there is no special appropriation, 15 pupils at $60.00, $900.00.

An immediate supply of school material. The details of this grant can be settled with the Schools Branch and could be sent in through Revillon Freres in the spring.

A grant of $1.00 per diem for each Indian inmate of the hospital, the grant not to exceed $500.00.

A grant of 25¢ per diem for the keep of old and infirm Indians to the number of 5.

CHURCH OF ENGLAND.

When we were at Moose Factory we were able to make a thorough inspection of Bishop's Court, the residence formerly occupied by the Bishop of Moosenee. It is the intention of the present incumbent of the See to reside at Chapleau and he is desirous of turning this residence into a boarding school for Indians. In conversation with him and so far as we can see from his correspondence he does not intend to ask the Government to make him any allowance for this building and we beg to certify that it is very suitable for educational purposes and with some alterations can be an almost perfect structure for the purpose. Accompanying this report is a photograph of the building.

To assist in the erection of a new day school building at Moose Factory, $500.00.

To assist in altering the Bishop's house at Moose Factory to make it suitable for a boarding school and to provide equipment, $1,500.00.

To provide for 25 pupils at $60.00 per capita at Moose Factory, $1,500.00

It is understood in making these grants to the Church of England that the present grant of $1,600.00 shall cease except where any portion of it is actually used in the maintenance of a day school, and where this is the case the amount granted shall be $300.00 per annum instead of $200.00

Dear McScott

While at Moose R. you very kindly asked me to let you know what would be a fair estimate of the initial cost of outfitting the Boarding School at Moose Factory. I beg herewith to enclose a list of the necessary equipment without stating prices as you will be better able than myself to estimate the cost. I am not able to state what the freight would be per 100 lbs but probably not more than $2.00 by Ships from England. The Opposition Co: would I think be prepared to ship from Montreal if you think it preferable to make the purchase in Canada.

I trust that you will also be able to see Boarding Schools for Albany & H. Hope where there is great need of them. The School at H. Hope would serve for Cranberry & Martins Falls. So I would need to be on a large scale than the one at Albany. The latter would serve for English River & the north of the Bay. I propose to also see

is my power during my visit to Eastern Canada & England to find good, strong, qualified men as heads of all these Centres where Schools are established and I also hope to be able to find the necessary funds for their salaries - and I have every confidence in the Women's Auxiliary providing us with Matrons. So that if the Dept'l can see their way to make us building grants to supply us with the first equipment we can set to work with the $60 - pr. capita afterwards. It is not my intention to try & draw as much money out of the Dept'l as possible but to try & show them how economically such an institution can be carried on when once we have had a good start -

As soon as we are able to ascertain what the Dept'l are able to do. I shall be thankful to know. as I would like to come it is necessary to send in a good Carpenter or two next Spring to prepare the building material. A full year would be occupied in getting & preparing the material in a Country like this -

two years. I venture to say without boasting that in seven years time, the Dept will see a very practical change in the Indians of Moosonee

To me it has been a most providential coincidence that I should have had such strong views about these Schools from the very first - that the Government should decide to treat with the Indians at the important crisis.

I am writing this at the Long Portage, while waiting for the baggage - as I know that it will be a great rush when once I reach civilization. Jim will kindly endorse the indelible pencil as I did not bring ink along.

We are getting on splendid only a little over five days in covering the first 150 miles. Hope you are doing equally well. My men returned from Moose with a good Canoe on Monday at 2. p.m.

Now dear Mr Scott in closing let me thank you once more for all your kindness. It was a great pleasure & privilege to me you all. I enjoyed it very much. Trust you will have good news of Mr Scott.

Hon: Sir

I beg to lay before you the urgent need of Indian Boarding Schools in the Diocese of Moosonee, at the following Centres, where your Commissioners have been able to make a most practical & successful treaty with the Indians namely:

Moose Fort; South of St. James Bay;
Fort Hope; & Fort Albany on the West Coast. The Centre of a large inland District; with an Indian Population of about 1400.

A fourth District which is even more urgent than the former, is Chapleau. with its five out Stations, where the Indian children are brought into Contact with the worst Evils of a

pioneer civilization. ~~289703~~ 291202

At Moose Fort we have already opened one of these Schools which we have been able to do by my placing the former Episcopal Residence at the disposal of the Diocese, having myself decided to make Chapleau my headquarters, + where I shall have to build a See House at the cost of $2000.

Your Commissioners will be able to testify to the great need of these Schools.

We do not propose to give the Indian Children, in these districts, more than a very Elementary Education - more domestic than book learning.

Our aim would be to train them for their future Vocations. Such an outlay now, as we suggest, I venture to say, would save thousands of dollars later on.

If the Department will make us a grant of $2000 for each of these Centres with the exception of Moose Fort, where I should not ask more than $1000, for the See House, which cost $3000.

This would enable us to erect the necessary Buildings. after which the $60 per Capita would suffice for support.

I hope during my stay in England to raise sufficient funds to pay the Salaries of four Principals for these Schools, besides funds to augment your Grants, should you be pleased to make them.

This seems as little as the Department could do in Consideration for the great readiness + goodwill with which the Indians gave up their claim to the Country. If the Department will make these grants, I venture to say, that in five or Six years, they will see a great change which will more than justify the outlay.

I understand that the question of Indian is to be thoroughly discussed in Conference with the various religious bodies working amongst the Indians. When the result of this Conference is known, I shall be grateful to

My fifteen years experience in Athabasca, as Principal & Supt. of the Protestant Boarding School at Lesser Slave Lake will enable me to build & support such Schools as proposed on the most Economic Lines, & to the best interests of the Indians.

One very important need exists apart from Schools, & that is, the presence of a Doctor on the Bay. The Commissioners will report on this.

Kindly oblige.

Dear Mr Oliver

I am sending you a rough draft of what I propose to do in Moosonee, if the Department will kindly assist us. I was very sorry to find that you were away on my visit to Ottawa the other day.

I venture to think that you will conclude that my appeal is a reasonable one, and the object a worthy one. The Indians in Moosonee are the best & most moral & honest. ~~Indians~~ I have seen, but they are, generally speaking, very daily & much in need of domestic training.

Shall be most grateful for any assistance you can give me - and shall hope to meet you next Summer

so for this, & have the responsibility of collecting the funds both for building & support.

As I stated before, we do not propose to give the Indian Children but a very elementary Education - their training should be more domestic, as they need for health's sake to be taught habits of cleanliness. They are absolutely ignorant of the barest sanitary laws. I quite agree with the Dept. that the Indian Children in the past have suffered from too much indoor confinement. I also hold that the Boarding Schools are much preferable to Industrial Schools. and are all that is necessary for the Education of the first two generations of Indians.

At Moose Fort, they are without the necessary School material. Will the Dept. supply this? if so the Hudson Bay Company

MEMORANDUM:

For the Superintendent General of
Indian Affairs.

I have read the letter from the Bishop of Moosonee of the 8th. ultimo. The matter of Indian schools in the Diocese of Moosonee, or rather within the limits of Treaty No. 9, has already received some attention from the Department. After the return of the Treaty No. 9 Commissioners they made a report upon education within the district, but as it was decided not to burden the main estimates with any new items, the question of appropriation was held over for the supplementary estimates.

The Commissioners recommend the recognition of a Roman Catholic Boarding School at Albany, and a Church of England Boarding School at Moose Factory with a pupilage of twenty-five each at $60.00 per capita.

The Roman Catholic School at Albany is already established in permanent quarters and the Church of England School at Moose Factory has been opened in Bishopscourt, the former residence of the Bishop of Moosonee. In addition to these grants the Commissioners recommend a grant for the current fiscal year of fifteen pupils each at these two schools: five hundred dollars for a new Church of England Day School at Moose Factory where there is a flourishing school now established but without proper accomodation, and fifteen hundred dollars to make alterations and provide equipment in the Bishopscourt building at Moose Factory.

These additional grants to the Church of England are balanced by the recognition of the Roman Catholic Indian hospital and infirmary at Albany. I am of opinion that we will not fully meet our responsibilities with reference to Treaty No. 9 unless we make some such provision as has been recommended by the Commissioners. The needs of the Indians at these two points have, so far, been met by missionary effort: but now that we

have

have an obligation under treaty for education, we should assist to the extent set forth which appears to me moderate.

I observe in the Bishop's letter that he has collected sufficient funds to erect buildings, and he places first on the list the establishment of a boarding school at Chapleau. Chapleau is on the line of the C.P.R. and the Bishop has established his head-quarters there instead of at Moose Factory. Chapleau would, no doubt, be a favorable point for the establishment of a Church of England school on the line of railway, and the application is worthy of attention. A number of Indians have congregated there belonging to different bands and it has been represented that they are without guidance and are, for the most part, leading dissolute lives.

It is the intention of the Treaty No. 9 Commissioners to visit this point this summer and they will investigate the needs of the Indians there. In the meantime I think we should give favorable consideration to the recommendations made in their previous report, which, as I have before stated, seem to me moderate.

Right Rev. Sir,-

Referring to official letter of October 19, last, on the subject of Indian schools in your diocese, I have the honour to inform Your Lordship that provision has been made in the supplementary estimates for the current year for the sum of $1,500 to make alterations and provide equipment in the Bishop Court building at Moose Factory, as well as a provision for $60 per capita for each of 35 pupils at the boarding school established there, in addition to which $500 is provided for a new Church of England day school at Moose Factory.

The work of repairs to the Bishop Court building and the construction of the day school building should be proceeded with as soon as possible, as this vote lapses on March 31, 1907.

Properly certified accounts in detail for this expenditure should be furnished by Your Lordship, when payment will be made. The boarding school grant will be available on receipt of the usual quarterly returns.

Dear Sir

I am the curate here and have a large number of Indians to teach and preach to during the Summer, I try to teach the children as much as possible, but I think that more could be done for them, I can only teach them a short time each day, but if I had the means I could get a teacher for them as they want one so much, I would be very glad if you could give me a grant for the Indian school here. The average number of scholars is 30 during the Summer, and 12 during the winter. Hoping to get an answer from you at your first chance

My dear Sir

The English Day school here which is held twice daily during the winter months & once during the summer months consists at present of over forty-five scholars, thirty of these being boarders at the Church of England Boarding School.

For the last 12 months I have practically been without any school supplies, all that I have at the present time consist of about a dozen slates, mostly broken, & a few pieces of slate pencil.

You can imagine how difficult my work has been, & is, to train the children under such conditions, & trust my application for school supplies as per enclosed list will meet with your approval, & that ere long I shall be furnished with the articles contained therein.

Believe me, Sir,

Yours very truly

MEMO:

Acting Deputy Supt.General.

The Rt. Rev. Geo. Holmes, Bishop of Moosonee, has forwarded to the Department statement of accounts showing expenditure to the extent of $1916.38 at the Moose Factory Boarding School. $1500 of this amount is for improvements and equipment upon a new school, and this amount is provided by the Department. The balance - $416.38 - represents provisions for maintenance, (and unless as a matter of grace) the Department ~~is~~ need not ~~responsible for~~ pay this item. The per capita grant is provided only from the 1st July, 1906. The question whether anything should be allowed the school for maintenance expenses up to that date might be further considered.

The Bishop presents the Department with an estimate of articles required for the new day school building for which we provide $500.00. His Lordship should furnish more detailed accounts for the expenditure of $1500.00, and I propose preparing a letter to him upon this subject, but there is no reason why we should withhold payment of this amount, as owing to the remoteness of Moose Factory, it would be a serious matter if we were to withhold this payment until more extended accounts could be received. I would, therefore, recommend that cheque be issued for the equipment grant and for the grant for day school.

Dear Sir

In Submitting to you the Annual Reports of Hospital, Boarding School and Day School in Connection with this Mission. I have two Requests to make -

I - The $500 which Bishop Holmes tells me has been granted for a new Day School is inadequate for our purposes - we have even now 60 children attending School Regularly and in the Summer when all the Indians are here I expect over 100 Children to attend. I should like to put up a two story building of which the upper Room could be used for an Assembly Hall for the Indians at Treaty time and other occasions - Do you think the Department could increase the grant to $1.000 this would enable me to make ample provision for our growing work --

II - We need a Doctor Here very Badly.
Dr Milne of the Hudson Bay Co happens to be with us at present and is very kind. It is he who made out the list of Simples required for the Hospital. But he will leave next Spring and as none is the centre of all the 93 ay where Sick People are sent. I think that a Doctor would find Ample Scope for activity.
Besides if he combined the duties of Indian Agent and magistrate with his Medical work his Salary Superintendence would be doubled and I think the Expense to the Department would be less than the present System of Yearly payments. We ought to have a Magistrate here to Enforce the Liquor Law. The Hudson Bay Company and Bishop Holmes would I think Second my Suggestion. I beg you to give the matter your consideration. ELOQUENT VOICE FROM FAR NORTH

Archdeacon Rennison Tells of Missionary Work on Shore of Hudson Bay.

Although he has labored in the diocese of Moosonee in the far north for over ten years, Ven. Archdeacon Rennison has not lost the gift of eloquence and during the whole of his discourse yesterday evening at Holy Trinity church, he held his congregation spellbound.

Taking as his text the words, "Am I my brother's keeper?" the preacher traced the indifference of the ages down to the present time and showed how man was coming more and more to realize his responsibility toward his brother. "As men and women study missions," he said, "they are inevitably attracted by the murmuring sound of the myriads of the east, but we often forget the poor, benighted Indian—the unalluring, unattractive owner, as he was once, of this country, who lies helpless ,suppliant, voiceless at our very door.

"I have had the honor to labor for more than ten years in the diocese of Moosonee on the shores of Hudson bay. To the north is a great inland sea and this is inhabited along the shores by Indians and a few white traders, representative of the Hudson's Bay company and by the missionaries of the Church of England. There is one Roman Catholic mission to be found in the whole diocese. We are a secluded people in that country. Our mail is obtained from Canada four times a year. Twice in the summer the canoe leaves Moose Factory and wends its way up the river to the railroad, and twice in winter the Indians leave on snowshoes to walk the distance. I left on Feb. 1, for instance, with an Indian, and walked 300 miles before we came to the first settlement where the new G. T. P. railway is being built. We can obtain no necessities of life from Canada at all. Transit by canoe would be absolutely prohibitive in cost, and so we have to order everything over a year before in order that it may come in the annual ship from England. The cathedral of the diocese is at Moose Factory, which has a population of about 500 people. Of these, 25 may be white people. There are no houses in the country except the houses built by the missionaries. The Indian prefers to dwell in his nomadic fashion.

Not Very Much Building.

"Perhaps on account of the great floods it is well there is no great building done. I remember on one occasion some members of the mission staff at Albany had to betake themselves to the woods and on a primitive stage erected between two of the trees, they passed a not unpleasant existence for two or three days, coming down in a canoe every day to see if the mission house was still in the same place. In fact, it is not unusual for a traveller when going on a journey, to chain his cabin to the nearest tree in order to be sure that it is there when he comes back.

"Our busy time begins in the spring, when the Indians come from all parts of the country and camp on the bank of the river just outside the church. The first thing an Indian family does is to come into the church to offer thanks to Almighty God for its preservation throughout the winter. During the summer time we have two services a day; at 8 o'clock in the morning and 6 o'clock in the evening. There is no difficulty in persuading an Indian to go to church in that country. The missionary is much more likely to tire of preaching than they of listening.

Simplified Spelling.

"We have schools for our Indians, too. Every Indian over ten years of age is able to read and write. Last year I heard something about a form of simplified spelling. We have a simplified spelling of our own in the north and have had it for forty years. In fact, it is the only way we can get along, some of the Indian words being fifteen syllables in length. Being a synthetic language, we write it by a sort of shorthand; fourteen groups turned in four different ways expressing every sign in the language, so that they all read their bible and they have a wonderful knowledge of the new testament. I do not by any means wish to insinuate that these Indians are angels, but they are living in a state of innocence. Temptation has not yet reached them, but," continued the archdeacon impressively, "I know by what I have seen in other places that the time of their trial is only drawing near. It is when civilization comes that they will have to stand the test for the first time.

"Our Indians are as yet by no means perfect. He can with difficulty be trained to earn his living in a regular way. He prefers to trust each day to God for the blessings that may come that day. Their social customs are, of course, very different. As the hunter who provides the food of the family, the Indian is free from all minor cares and everything in the nature of domestic work and drudgery is reserved for the ladies of the family. It is very difficult to impress upon the Indian the ethics of the white man in this respect.

"Just now we have a doctor at Moose Factory, the assistant commissioner of the Hudson's Bay company, and he kindly helps us gratuitously, but it is remarkable that throughout the whole country, although we have never had medical aid for ten years, how wonderfully we can get along without it. An Indian as long as he receives medicine which looks miraculous enough and tastes strong enough never fails to get rid of any minor complaint.

Originally the Indian was a worshipper of demons. He believed in the propitiation of demons and it is very hard to persuade an Indian that sickness comes sometimes from a natural cause. Very often, an Indian with no particular reason for it, says he is going to die, and if he is determined upon it, he will die.

Only a Few Thousand Left.

"I want to enlist your sympathy for these poor children of the wilderness," continued the preacher. "This vast country from the Pacific to the Atlantic was once their undisputed possession, and as I stand in this magnificent church to-night where the Indian once held his camping ground on land of his own, I think of the few thousands that are left of this picturesque people, and see them passing rapidly as they are over across the 'Great Divide.'

"Their lands are being inhabited by white men; the game from the country is being depleted, and unless an Indian can take to himself wings, what shall he do to preserve his life? Physiologists tell us that in ancient times, long before the dawn of human life, whales were quadrupeds and walked upon dry ground, but that owing to the terrific struggle for existence with other monsters fierces than themselves, they were driven at last into the water and found refuge and security in the ocean. And unless the Indian by a process of evolution can evolve to himself fins and pass into the ocean, I do not know where he can rest, and even there he might not be safe if it should happen that he should grow a hide that might be useful or valuable for commerce.

"Christian Canada owes something to this poor Indian and when we think of the great destiny that God has before this country ,let us remember that to whom much has been given, of them will much be expected." Closing with a quotation from the "Parable," by James Russell Lowell, the archdeacon said: "Let us beware that from under the heavy foundation stones of our national prosperity there does not ascend to the listening ears of the Lord God of Sabbaoth the despairing cry of the poor disenchanted Indian, for I believe, my friends, that God will deal with this country as this country does with the Indian."

RAILWAY PROMOTIONS

Newly Appointed Officials Will Formally Assume Duties.

Leading officials of the Canadian Pacific railway will to-day assume new duties in accordance with circulars issued some time ago from the office of the second vice-president.

G. J. Bury, assistant general manager, becomes the general manager of western lines. The work done by Mr. Bury during the past year has been that of general manager, and this fact is now recognized in his official title.

Frank W. Peters, assistant freight traffic manager, assumes his new title of assistant to the second vice-president, and W. B. Lanigan ceases to be general freight agent of the central and western divisions, and assumes the duties formerly discharged by Mr. Peters.

The name of W. M. Kirkpatrick, of Toronto, is mentioned as a possible successor to W. B. Lanigan, as the general freight agent in Winnipeg. It has been known for some time that the appointment of Mr. Kirkpatrick was being considered in Montreal, and it was believed that the announcement would be made on Saturday. No decision was arrived at, however, in Montreal, and it is now uncertain what action may be taken.

The chief reason of the failure of the appointment of Mr. Kirkpatrick to go through, is said to be the reluctance of that official of the company to leave the city of Toronto, where he holds the position of general freight agent in charge of through traffic. He is a son of Sir George Kirkpatrick, former lieutenant-governor of Ontario.

Mr. Peters, on being asked regarding the appointment of Mr. Kirkpatrick, stated that no action had yet been taken in the case, but that it was possible that the appointment might be made to-day.

W. H. Robertson, of the city, assistant general freight agent under appointment to Vancouver, is in Montreal. In consequence of the transfers which are being made at the present time, it is thought that Mr. Robertson's appointment to Vancouver may be cancelled, and that he may be located at one of the important centres for freight traffic on the Canadian Pacific in the east.

INDIANS AT HUDSON BAY

They Will Require Assistance This Year, as Meat Is Scarce.

The Indians of Hudson bay will require special assistance from the Dominion government this winter, according to the statements made by Rev. Archdeacon Renison, of Moose Factory, who arrived in the city yesterday. Rabbits have been scarce during the winter, deer have been equally scarce and the catch of fur has been the smallest for many years. Much suffering has already occurred among the natives and the possibilities of death from starvation are said to be not very remote.

Archdeacon Renison has been at Moose Factory for the past ten years. He is originally from the province of Ontario and was educated for mission work at the university of Toronto and at Wycliffe college. He has now become archdeacon of the diocese, working under Bishop Holmes of Chapleau, the bishop of the diocese of Moosonee. At Moose Factory there is a resident population of about five hundred people. Of these about fifty are white, the balance being Cree Indians. The Church of England maintains a large boarding school at Moose Factory and have in all about a dozen churches about the bay. The archdeacon reached the city by walking from the Factory to the main line of the Canadian Pacific, which was struck some distance west of North Bay. No dogs were used on the trip and Archdeacon Renison was accompanied only by an Indian boy. Their food was drawn by themselves on a toboggan and they slept out each night during the trip. Twelve days were spent on the journey to the line of rail, but as the weather was much milder than usual no great inconvenience was experienced. Archdeacon Renison will spend a month in the city on vacation and at the expiration of that time will return north by the same route. He will preach to-morrow morning in All Saints' church

ANGLICAN HYMNAL

Archdeacon Fortin Speaks of Progress Made in Its Preparation.

Ven. Archdeacon Fortin, who has just returned from the east, where he has been attending a session of the new hymnal committee as representative of the northwest, gave some very interesting information in regard to the new hymnal in his sermon yesterday morning.

He said, in part: "I am now able to state that the book will be ready the beginning of next year. I had hoped that it would be ready for Christmas, but the meeting of the Pan-Anglican congress this summer will cause delay. In view, however, of the magnitude of the work and of the immense benefit it will be to the church, we may well wait patiently for it for a few more months. The meeting just closed was perhaps the most important of our series. A great mass of suggestions which reached us from all parts of the Dominion—from Vancouver to Prince Edward Island—received minute and sympathetic consideration. All along the committee has realized that they were working for the people, and that individual preferences must be sunk for the general good. We shall have 800 hymns—a large number, but not too large considering the inclusive character of the book.

"We have greatly enlarged the section of children's hymns in order to do away with the necessity of having a special hymn book for Sunday schools. There is also a section for the best known and most popular carols. In future we may have a carol service without the trouble of printing the carols especially for the occasion. There is also a section for hymns suitable for personal use. This meets a felt want. In the new hymn book, I am happy to say, that you will still feel at home, for it contains no less than 896 hymns with which we are familiar, as users of the hymnal companion.

"We have also taken care to provide for those hardy sons of toil who build our railways and exploit our mines. It was felt that for very many years to come there will be large camps on the outskirts of civilization, where occasional services will be held by travelling missionaries. For these men the simple words of the parochial mission hymns set to catchy, stirring tunes, are especially suitable.

"There are many other excellencies in the book, which has been characterized by many as the greatest work the church of the Dominion has ever undertaken."

The dead march in Saul was played at the conclusion of the service, out of respect to the memory of Judge Killam.

Memorandum,

Accountant & Schools.

When Archdeacon Renison was here the other day he brought to the attention of the Department the following matters,-

Moose Factory,- Request that the per capita grant be extended from 25 to 50 children.

They desire to amalgamate the Albany and Moose Factory Schools at Moose Factory.

An additional $500.00 is requested towards building (day school) at Moose Factory.

Archdeacon Renison suggests that he be charged with the oversight of advances made by the Hudson Bay Co. or any one else to destitute Indians.

Very Reverend Sir,-

With reference to the matters referred to by you on your visit to the Department about the middle of the month I beg to say that the Department is not at present prepared to make provision for an increased number of pupils at the Moose Factory Boarding School.

There will be no objection raised, however, to Indian children from Albany being placed in the Moose Factory school when there are vacancies. The Department contributes the sum of $300 a year towards the salary of a teacher at Albany Mission, which will be continued as heretofore.

Regarding your application for an additional grant of $500 towards the erection of ~~xxx~~ the day school building at Moose Factory, the Department will be prepared to consider the same upon receipt of detailed vouchers showing the total expenditure on this building.

Your other recommendation that you be charged with the oversight of advances made by the Hudson's Bay Company to indigent Indians or by anyone else will be dealt with in another communication.

I have the honour to be,

Very Reverend Sir,

Your obedient Servant,

J.D. McLEAN

LAND REGISTRY OFFICE OCT 6 1905

DEPARTMENT OF OCT 5 1905

Dear Sir.

I wish to make Application for the purchase of Water lots in front of my Land - namely - Lots 1 and 2 Concession 14 Township of Campbell. Manitoulin District.

This property is located on the North Shore of Providence Bay - The lots extend to the Waters edge as shown on the map of this Township - are broken Lots - No. 1 Contains 76 acres. And No 2 - 69 acres -

My purpose is to extend my property Southward from the Shore line as shown on the map of the Township - Southward into the water, a short distance along the whole of my frontage on the Bay - The Shore here is a Sand Beach and the water is quite shallow - I may need to purchase anywhere from 5 to 10 Chains in width along the whole of my Shore frontage, so that I may have access to the deeper water -

In your reply please state lowest price per acre - also send Copy of Map of this Township - & State mode of procedure you me to follow in making this purchase &c. & oblige

Yours very truly Jos. Pim.

Re Application
for water Lots

DEPARTMENT OF INDIAN AFFAIRS
OCT 16 1905

Dear Sir -

In replying to your favor, I beg to say that while in Toronto recently, I called at the "Crown Lands Dept." - "Surveys Branch" in reference to the "Water Lot in front of my Land Lots 1 and 2 (Broken) Con. 14 Campbell, containing in all 145 acres - and I was informed that as the land was "Indian Lands" I should apply to Ottawa and now upon writing to Ottawa I am directed to apply to the "Crown Lands Dept." at Toronto - I need scarcely say that I am at a loss to know in whose jurisdiction the matter lies -

I presume however that you can inform me if I am right in understanding that my land comes to the water line - On reference to a map of this Township it is shown to front on the Bay - that is, there is no "Reservation" for a Road between my land and the waters of the Bay, and my understanding is that there is no Reservation of any kind whatever - And that I have a waterfront on the Bay - I have owned this land for about 20 years and have always understood that my land comes to the waters edge - Kindly let me know if this is so -

In your letter you refer to a "decision in the Fisheries Case" - I do not know how or why that should affect me or my right to reclaim a "water lot" in front of my own land - I have no connection whatever with any Fishing Company or with anyone else (do I want it) now, for fishing purposes - The water here is very shallow and I may want to extend my stone line by filling out to deeper water - and also to build a wharf or dock, & warehouse for shipping purposes - And if your Dept. has jurisdiction in the matter I would like to buy at least a few acres as a "water lot" for purposes mentioned, at the S.E. end of Lot No 1, Con. 14. to start with, & I may wish to reclaim more later on for same purposes - Can I do this? -

Kindly favor me with an early reply and oblige

Yours [redacted]

OTTAWA, 19th October, 1905-

Sir-

In reply to your letter of the 13th Instant I beg to say that the Fisheries Case, referred to in letter addressed you on the 7th Instant, was an action between the Attorney Generals of the different Provinces and the Attorney General for the Dominion regarding the property, rights and legislative jurisdiction of the Dominion of Canada and the Provinces respectively in relation to Rivers, Lakes, Harbours, Fisheries and other cognate subjects.

The decision of the Privy Council in this case is to the effect that water lots adjoining Indian lands or Indian Reserves do not belong to the Crown for the Indians and are not at the disposal of this Department unless they are situate in unnavigable waters, in which case the Crown has the rights which any other riparian owner in the like circumstances would have.

Certified Copy of a Report of the Committee of the Privy
PRIVY COUNCIL Council, approved by His Royal Highness the Governor
CANADA General on the I4th, November, I9I4.

---0---

The Committee of the Privy Council have had before them a Report, dated 6th November, I9I4, from the Acting Superinten-dent General of Indian Affairs, Stating, -with reference to Order in Council of 6th. October, I9I4, authorizing an exchange of land at the Fort William Indian Reserve between the De-partments of Militia & Defence and Indian Affairs, -that in the ninth and tenth lines of the description of the land conveyed to the Department of Militia and Defence errors have occured by the use of the term south limit instead of the term north limit.

The Minister, therefore, recommends that the following corrected description be authorized for the descrpition con-tained in the said Order In Council of the land conveyed th the Department of Militia and Defence.

" Commencing at the point where the Easterly limit of Young Street produced intersects the Southerly limit of the road allowance along the Southerly boundary of the Grand Trunk Pacific Property : thence South 0 5½" West 3,553 feet: Thence south 67 I3½" West 406.3 feet; thence South 26 0" West 434.8 feet; thence West 679.8 feet to the easterly limit of t the Dowler Mining Location; thence North I,364.8 Feet along the

Sir,-

In reply to your letter of the 7th instant, I have to say that the sale of land expropriated by the Grand Trunk Pacific Railway Company in the Fort William Indian Reserve has not yet been completed, and to inform you that you may allow the Company to make any surveys they may desire, but you are not to allow any act of construction whatever to be proceeded with on the said land until you have received instructions from this Department to the effect that the said Company may proceed with their work on the said lands.

S.B.

You will be hereafter advised with regard to the price which the Railway Company will have to pay for the land. It is understood that Mr. Bray has already informed each individual Indian of the sum or approximate sum which he will receive for his improvements.

Sir;-

In continuation of my letter to you, dated 20th October, 1905, on the subject of the acquisition of a certain area of Indian Reserve land at West Fort William, as a site for a rifle range, and your reply thereto (No. 254410, dated 3rd November, 1905), I have the honour to acquaint you that further correspondence on this same question has lately been received in this Department and that the Minister in Militia Council desires me to enquire whether the land now referred to and shown on the two tracings attached is the same as that stated by you to have been acquired by the Grand Trunk Pacific Railway in your letter above referred to.

In is thought that in the previous correspondence in this connection which passed between our Departments there may have beem some misapprehension as to the exact location of the land in question, but that it would appear now to have been sufficiently ~~cleared~~ clearly indicated by the two sketches enclosed. These sketches show the land as extending southwards from the Grand Trunk Pacific line to Mount McKay and about 1050 feet westwards from James Street, Fort William, or from a line continued southwards in

Ottawa, 18th August, 1906.

Sir,-

In reply to your letter of the 7th instant, No. 18-111-1, and with reference to your letter of the 20th October last, I have to say that the land to which you refer, and shown on the sketches accompanying your first letter above mentioned, lies to the south of the land in the Fort William Indian reserve, Ont., which was sold to the Grand Trunk Pacific Railway Company.

The said land has not been surrendered by the Indians for sale, and is consequently not in the market.

If your Department will submit a sketch, or plan of survey, showing definitely the tract of land required, and its extent, the question of surrender will be submitted to the Indians, and the valuation of the land will be obtained in the event of their deciding to surrender.

Enclosed herewith is a blue print copy of a rough plan showing a tract of land in the Fort William Indian reserve that the Department of Militia & Defence desires to acquire for Military purposes.

Please call a council of the band, and submit the question of surrendering this tract of land, in order that it may be sold to the said Department. In the event of their deciding to surrender, kindly reduce the promise to writing, and have ½ half a dozen signatures of the leading men attached thereto.

Please inspect the said piece of land and give me your opinion as to what should be the price that should be demanded for it, in the event of its sale. Also report on any other matters that may occur to you in connection with this land (crossings, reservations of any kind.)

Sir,

With reference to your letter of the 7th instant (No. 290 850), in regard to the question of the acquisition by this Department of a portion of the Indian Reserve at Fort William for rifle range purposes, I regret to say that the three hundred ~~feet~~ strip which the Indians are willing to lease would be insufficient for the requirements of this Department. If a wider area cannot be obtained, it will be necessary to look for another site.

As lands can be expropriated for military purposes, would you be so kind as to let me know if there could be any question of obtaining the land required, even if the Indians are unwilling to dispose of it, i.e. by giving them land elsewhere, or full compensation for what is taken.

In reply to your communication of the 31st ultimo, in regard to the question of acquisition by your Department of a portion of the Indian Reserve at Fort William for a rifle range, I beg to say that the Local Agent of the Department at Port Arthur advises that the Fort William Band of Indians at a Council meeting held on the 27th ultimo, after considerable discussion, expressed themselves as willing to lease a tract of land, 300 feet wide, not 1500, as desired, but the length required, as per the plan forwarded under cover of your letter of the 12th of October last, at the rate of $200 per annum.

In reply to your communication of the 5th instant, in regard to land on the Fort William Reserve desired by the Militia Department as a Rifle Range, I beg to say that the Deputy Minister of Militia advises that if a lease for a period of not less than ten years could be obtained, the Department might consider the question of entering into it, as a lease for a shorter period would hardly be satisfactory as it would cost such a large sum to construct a rifle range.

In further reference to your communication of the 31st ultimo, No. 18-111-1, as to purchase of a portion of the Indian Reserve at Fort William, I beg to say that the Local Indian Agent reports that he has tried to get a decision from the Indians regarding the surrendering of one hundred acres on the Reserve to be used for a rifle range, but they appear to be very much against giving up the particular piece in question, as the land is nearly all good agricultural land and heavily timbered, where they calculate to get their fire-wood. Some are opposed on account of danger of accident, and others think it is a scheme to get the land away from them.

The Local Agent asks if it would be satisfactory provided the Indians would agree to lease at a yearly sum for, say five or ten years, and if so, what rental your Department would be prepared to pay.

Dear Mr. Pedley,

We have been in correspondence with your Department respecting a site for a rifle range at Fort William, the location being part of the Indian Reserve.

Your letter of March 1st (No. 290,850) indicates that a piece of land 1,000 yards long and 300 yards wide could be leased for five years, at a rental of $600.00 per annum.

Some of our officers at Fort William have reported that the Indians would sell this land, if they, themselves, could get the purchase price, estimated at $10,000.00. If not, then they would only lease it, as in that way they would get the rental.

We would rather purchase the land for $10,000.00 than lease it under the conditions stated. In fact, it is our policy to purchase rather than to lease sites for our rifle ranges.

I do not know if your Department has any option in the matter of allowing the proceeds for Indian lands being given to the Indians, or if they must go to the Department.

Dear Mr. Pedley,

I duly received your letter of March 20 (F. 290 850), in which you inform me that under the 89th section of the Indian Act, Chapter 81, Revised Statutes of Canada, 1906, the Indians can be paid a sum not exceeding 50% of the proceeds of any land, which may be agreed to at the time of surrender.

Since the receipt of your letter I have been in communication with Major Wayland, who has been negotiating with the Fort William Indians, with a view to our obtaining possession of part of their Reserve for Rifle Range purposes, and I am now in receipt of a letter from him, stating that the Indians have agreed to sell this Department 100 acres of land for $10,000.; $5,000. to be paid to the Band when the transfer of the land is made, and the other $5,000. to go to the credit of the Band with the Indian Department.

Will you be so kind as to let me know if this Department can proceed,with a view to acquiring the 100 acres of land in question?

Of course, before that amount can be paid, it will be necessary to have the land valued in the usual way.

With regard to valuation of 100 acres, a part of the Indian Reserve opposite the proposed Grand Trunk bridge, I would consider that the price of $100 per acre would be quite fair and reasonable between both parties, the Indian Department and the Militia Department. Regarding 100 acres on the Indian Reserve opposite Lot number Seven Fort William, we believe that $100.00 per acre is a very good price for this land, having regard for its location and its condition. We believe this price is as fair as could possibly be arrived at by the parties interested.

Sir,—

Referring to your letter of April 23rd

No. 290 850

In reply to your letter of above number and date regarding the price of the 100 acres the Fort William band has agreed to sell to the Militia Department the matter had been fairly gone into before the council had been held with the Indians and the $100 per acre is a fair price to both parties.
I attach herewith the opinions of Messrs Young & Lillie E S Rutledge (Ex Mayor), and Ray, Street & Co all prominent and reliable real estate firms of Fort William

Sir,-

The Department of Militia and Defense has been asked to have the tract of 100 acres in the Fort William Reserve surveyed which the Indians are to be asked to surrender to be sold to the said Department, and that the surveyor should consult with you before commencing the work. Kindly assist him in any manner that you can. Please arrange all details with regard to the location of the land and especially decide upon the location of one or more necessary road allowances across the tract. One road only across one end may be all that is necessary. As this will probably be a main road it will be well to make it one hundred feet wide.

Minister

File 290850

Ottawa, May 7, 1907.

Dear Col. Fiset,-

With reference to your letters of the 26, and 18, ultimo I have now to inform you that the Indians of Fort William Band have agreed to sell 100 acres in their reserve, according to a plan which appears to have been exhibited to them by Major E. F. Wayland and Lieutenant Dow for the sum of $10.000. and on condition that the half of this sum ($5,000.) be paid them at the time of their signing the surrender.

Enquiry has been made and it appears the said sum is a fair payment for the land; the Department is therefore willing to ask the Indians for the necessary surrender and on the condition mentioned.

We, however, require a correct description for insertion in the surrender and to accompany the Order in Council to be subsequently obtained, transferring the land to your Department. We have not a copy of the plan above referred to and have no other data with which to prepare the necessary description. I would suggest that your Department should have a survey, plan and description made by an authorized surveyor for the Province of Ontario; copies of the plan and description may then be forwarded to this Department when the surrender will at once be prepared and forwarded for execution by the Indians.

Your Department should arrange to place at the disposal of this Department the sum above mentioned ($5,000.) to be paid to the Indians at the time of taking the

surrender.

With reference to the proposed survey I shall be obliged if you will instruct the surveyor you engage to consult with Mr. Neil McDougall, Indian Agent, Port Arthur, before making this survey and especially to arrange when one or more necessary road allowances are to be provided for across, or across one end of, the tract of land in question. Kindly also instruct the surveyor to mark the boundaries of the land with substantial posts and mounds.

Yours faithfully,

EXTRACT FROM A REPORT OF THE COMMITTEE OF THE PRIVY COUNCIL, APPROVED BY THE GOVERNOR GENERAL ON THE 9TH MAY, 1907.

Sale 36

On a Memorandum dated 2nd May, 1907, from the Acting Minister of Militia and Defence, submitting that a Rifle Range is urgently required for the troops belonging to Port Arthur and Fort William, and that the only site available is part of the Indian Reserve adjacent to the last named City where there is a site not only in every way suitable for a Rifle Range, but also for a Barracks for a unit of the Permanent Force, which will, it is expected be stationed at Fort William in the course of a few years.

The Minister states that the Department of Militia and Defence has, with the approval of the Department of Indian Affairs, approached the Indians, with a view to acquiring by purchase, 100 acres of their reserve which the Indians haveagreed to sell, provided 50% of the proceeds be paid to them, and the sum remaining be placed at their credit with the Indian Department.

This distribution of the proceeds the Department of Indian Affairs is empowered to make under Section 89 of the Indian Act, Chapter 81, Revised Statutes of Canada, 1906.

The Minister, therefore, recommends, that he be empowered to enter into negotiations with the Department of Indian Affairs and the Band of Indians who own the Reserve for the acquisition, by purchase,

O.H

Dear Mr. Pedley,

I duly received your letter of the 7th instant, respecting the acquisition of part of the Indian Reserve, at Fort William, by this Department, and have sent instructions to Fort William to have it surveyed and marked, in accordance with your request.

I enclose, for your information, a copy of the Order-in-Council which my Minister has obtained, authorizing him to negotiate for the acquisition of this 100 acres. If we were purchasing land from individuals, this is the only Order-in-Council which would be necessary, but it has occurred to me, since receiving your letter under acknowledgment, that, perhaps, another Order-in-Council will be necessary, and that it might have been well if I had consulted you before asking the Acting Minister to sign his submission of May 2.

We are ready to complete the purchase of this property just so soon as you are in a position to convey it over.

Dear Col Fiset,-

I beg to enclose herewith a copy of a blue print forwarded to this Department by Mr. N. McDougall, Indian Agent, Port Arthur Ont., showing a tract of land containing 100 acres as surveyed by Mr. D.J.Gillion, O.L.S., for transfer to your Department.

It is presumed that this survey is made at the instance of your Department. If the block of land as surveyed is satisfactory to your Department, I shall be obliged if you will immediately advise me and have the sum of $5000 transferred to this Department in part payment. The said sum together with authority to take the necessary surrender from the Indians will then be sent to the Indian Agent at Port Arthur.

I have to add that the Agent has made an especial request that the money (and the blank forms of surrender) be in his hands at the date of the regular Indian annuity payment, that is the 5th or 6th proximo. Prompt attention should therefore be taken.

Dear Mr. Pedley,

I wrote you on April 9, enclosing a cheque for $5,000.00, being that part of the purchase money of the part of the Indian Reserve, at Fort William, which we are acquiring, which goes to the Indians.

Word has just been received from Fort William that the Indians have not yet been paid the money, and that they are, daily, inquiring of Major Wayland when they will be settled with.

I only write to ask that there may be no unnecessary delay in completing the transfer of the land.

Dear Sir:-

I enclose you herewith Receiver General Receipt for Five thousand dollars for a deposit made with this Bank on September 13th. The Requisition was filled in as being deposited by the Militia Department on account of Indian Funds, but we mailed this receipt to them and they returned it to us saying that it must belong to your Department. We therefore enclose the receipt to you.

Yours faithfully,

A Macnaughton

Sir,

With reference to the distribution made by you in August last of moneys derived from the sale of Fort William Reserve land to the Department of Militia and Defence, I have to request that you will furnish information as follows:-

No 22 on pay list . You should give authority(quoting fyle number and date) for this transfer.

No 91 Why were two boys and one girl left off the pay-list?

No 183 . Was this man's wife paid under any other band? If paid with another band kindly give the number under which payment was made, also state name of band.

Owing to an error in your statement of distribution you refunded 35¢ in excess of the amount to be refunded. This sum is being returned to you. You were sent $5,000.00 to distribute. You paid out $4984.35, which left $15.65 to be refunded, not $16.00, the amount which you returned.

Sir,-

With reference to your letter of the 25th June last, 1907, I have the honour to inform you that there is a question as to what is the actual tract of land which was transferred from the Indian Reserve to this Department for Rifle Range purposes.

As encroachments are reported to have occurred in the range property by mining operations on the face of Mount McKay, it is very desirous that this Department should be in possession of the proper extent of land handed over by your Department.

Enclosed are three copies of plans; the first being as referred to in the above mentioned letter, and the second on file in this office being made by the same surveyor, later; while the third is furnished by the District Officer and shows the mining locations referred to above.

Will you kindly inform me which plan correctly indicated the area transferred, and also state if the North slope of the Mountain is Indian Reserve.

Sir,

I have the honour to inform you that in 1907 your Department conveyed to this Department 100 acres of land near Fort William for Rifle Range purposes.

2. It was the intention of this Department at the time, to obtain sufficient land to include the top of the hill in rear of where it was proposed to place the targets.

3. It was only recently ascertained that the surveyor who laid out the Range did not do this and therefore it is found our property only extends to the foot of the hill.

4. The attached plan shows in red lines the Rifle Range property, in yellow the land yet required.

5. It has been further ascertained that a lease of mining or quarrying rights has been given by your Department to Mr.Dowler, for 40 acres outlined in black on attached plan.

6. As this 40 acres is in rear of the Rifle Range and in the Danger Area, will you kindly inform me if the Rights of the above firm can be cancelled at any time or if there is any penalty involved.

Sir,-

I beg to acknowledge the receipt of your letter of the 1st instant No. H-Q-18-111-1 in regard to additional land required for rifle range purposes on the Fort William Reserve and in reply to say that the 40 acres referred to in your letter were granted to W. H. Hamilton, James Gowanlock and W. A. Dowler some short time ago subject to certain conditions regarding establishment of a plant for the manufacture of brick. Failure to comply with which would possibly warrant the Department in annulling the grant.

The land outside of that granted to Messrs. Hamilton, Gowanlock and Dowler has not been surrendered by the Indians to be disposed of for their benefit and therefore the Department is not in a position to sell same.

Sir,-

I have the honour to acknowledge your letter of the 15th instant, No.290,850, concerning the additional land required for rifle range purposes at Fort William and to request that I may be informed as to the conditions that govern the grant to Messrs. Hamilton, Gowanlock and Dowler, and the earliest date at which it would be possible for your Department, to take steps, towards annulling this grant.

FRANCH BRANCH
MAR 7 1912

The attached blue print shows in yellow the area necessary to provide for safety with the present size of the range and the area shown in yellow datted lines is required to provide for future extensions.

It is pointed out that this additional land required comprises the face of the hill to its crest and is of practically no use to anyone.

It is furthermore pointed out that when this site was obtained, it was understood that the face of the hill to its crest was included in the Rifle Range.property and it was subsequently ascertained that this was not the case. The front of the hill is of vital importance to the safety of this range and it is urged that every endeavour be made to have it transferred to this Department,.

If Messrs.Hamilton,Gowanlock and Dowler are allowed to carry on brick manufacture on the 40 acre claim referred to, it will act as a further obstacle in the way of safeguarding this range and may require its being closed and rendered useless.

Sir,-

I beg to inform you that in the Grant issued to Messrs. W. H. Hamilton, James Gowanlock and W. A. Dowler for the James Gowanlock, W. H. Hamilton and W. A. Dowler Mining Locations on the Fort William Reserve, there was contained the following proviso:-

"Provided always and this Patent is issued subject "to and in consideration of the grantees, their heirs, "executors, administrators and assigns faithfully perform- "ing the following conditions and obligations, namely:-

"1. That they will establish by the thirty-first "day of December, one thousand nine hundred and twelve, "acomplete plant for the manufacture of brick having a "capacity of producing five million bricks annually, "and to begin the actual manufacture of brick by the said "date; and to commence the establishment of such plant "not later than the first day of June, 1911;

"2. That they will manufacture one million bricks "during the year 1913, and manufacture the said number "of bricks or other products of equal value in whole or "in part annually for a period of eight years thereafter;

"3. That with respect to labour and the employment

Sir,—

I am in receipt of yours of 7th inst. No.290850 with reference to the Grant for Mining Locations on the Fort Willian Reserve to Messrs, James Gowanlock, W.H.Hamilton and W.A.Dowler. I beg to state that no improvements have been made on these Locations beyond certain clearing of timber and underbrush from one of the locations. The work was stopped last Summer by the Gowanlock Syndicate pending a decision on their application for the right of way for a spur track consisting of 19.36 acres into the three locations and across the Fort William Reserve lands. This matter was referred to the late Acting Agent in a Departmental letter dated June 16th.1911, No.177-293-1.

This letter was replied to by the Acting Agent by telegram and letter on June 19th. and since that time no further action has been taken by the Gowanlock Syndicate towards any further improvements on the said locations.

2. May I point out further that, if the location of the area granted to Mr. Dowler is correct as shown on the plans which accompanied my letter of the 1st and 28th February, last, it might be possible, if your Department agreed, to move Mr. Dowler's claim slightly to the west to clear our danger area. This would appear a simple matter as it is understood that no attempt has yet been made by Mr. Dowler to open up any operations there.

3. May I also point out that this Department only requires the hill or mountain side which is practically perpendicular, at that point, and a width of what is shown on the plan attached.

4. If your Department and Mr. Dowler would consent to the suggestion in para.2 and if we may extend our present boundary to the top of the hill within the area shown in yellow on attached plan, you will confer a very great favour upon this Department

Memorandum,-

Mr. Rogers.

Rifle Range and Mining Locators,
Fort William Reserve:

In October, 1905, the Department of Militia and Defence signified its desire to acquire a portion of the Fort William Indian reserve along the river front to be used as a rifle range and other military purposes.

Negotiations were opened with the Indians to ascertain whether they were willing to grant a surrender of the tract required, and, on the 5th of August, 1907, a surrender was duly executed by them for 105.81 acres of land in the Fort William reserve to be sold to the Militia Department for the sum of $10,000.00, to be used as a rifle range. By Order in Council of 31st August, 1907, this land was vested in the Militia Department on payment of this amount.

A survey of the tract was made under instructions from the Militia Department by D. G. Gillon, Ontario Land Surveyor, and a plan and description were filed in the Department as well as in that of the Militia Department.

By letter of 13th of October, 1911, the Militia Department stated that encroachments were reported to have occurred on the range property by mining operations on the face of Mount McKay, and asked to be furnished with plans showing the area transferred for militia purposes. This request was at once complied with, and, on the 1st of February, last, the Deputy Minister of Militia informed the Department that it had been the intention of that Department to obtain sufficient land to include the top of the hill in rear of where it was proposed to place the targets; but that it was only recently ascertained that the surveyor who laid out the range did not do this, and that, therefore, it was found that the property acquired only extends to the foot of the hill. It had also been ascertained that a lease of mining or quarrying rights had been given by this Department for 40 acres in rear of the Rifle Range and in the danger area. It was therefore asked whether the rights of the firm mentioned could be cancelled at any time or any penalty was involved, also whether the additional land required by the Militia Department, including the top of the hill, was available.

In reply the Militia Department was informed that the 40 acres referred to were granted to W. H. Hamilton, James Gowanlock and W. A. Dowler, subject to certain conditions regarding establishment of a plant for

the manufacture of brick, and further that the land outside of that grant had not been surrendered by the Indians to be disposed of for their benefit, and that, therefore, the Department was not in a position to sell same.

Several letters have since been received from the Militia Department, setting forth the importance of having the front of the hill included in the Rifle Range property. To do this it is urged that the grant to Messrs. Hamilton, Gowanlock and W. A. Dowler be cancelled, as, if that firm is allowed to carry on brick manufacture on the 40 acres granted to them, it will act as a further obstacle in the way of safeguarding the range and may require its being closed and rendered useless.

Regarding the grant issued to Messrs. Hamilton, Gowanlock and W. A. Dowler, it may be said that, under its terms it is provided that the grantees would establish by the 31st December, 1912, a complete plant for the manufacture of brick having a capacity of producing five million bricks annually, and to begin the actual manufacture of brick by the said date, and to commence the establishment of such plant not later than the 1st day of June, 1911. That they will manufacture one million bricks during the year 1913, and manufacture the said number of bricks or other products of equal value in whole or in part annually for a period of eight years thereafter.

That with respect to labour and the employment of labour in connection with the proposedd work on sakd lands, that the Indians of the Fort William band would be granted a preference for employment.

That they will not sell any building stone from the said land without the consent and permission of the resident Indians of the Fort William band.

The Indian Agent was asked by letter of the 7th March last, to ascertain and report what action has been taken by the patentees in the establishment of the brick plant as required by the conditions of the Grant, to which a rpply was received reporting that no improvements had been made on the locations beyond certain clearing of timber and underbrush from one of the locations. The work, the Agent stated, was stopped by the Gowanlock Syndicate pending a decision on their application for the right of way for a spur track consisting of 19.36 acres into the three locations and across the Fort William Reserve lands.

The application for land for this spur line has been before the Department for nearly a year past. In connection therewith, Mr. Dowler was informed by letter of the 9th instant that at present it is not possible to make any grant of additional land in the

Fort William reserve. In reply that gentleman sets forth the necessity for this right of way and switch to enable them to comply with the terms of the agreement. He states that the failure to go on with the work has been due to the Syndicate being unable to secure access to the site of their plant by means of the road which they desire permission to build.

It may be said that an opinion has been received from the Deputy Minister of Justice that notwithstanding that no express grant of a right of way was made when the mining locations were acquired by Messrs. Hamilton, Gowanlock and Bowler, as the locations are inaccessible except by passing over other portions of the reserve, a way is of necessity implied, and in his opinion no further surrender by the Indians is required.

The Gowanlock Syndicate are now pressing to have this access provided and in accordance with the opinion of the Department of Justice it would appear right and proper to grant it.

With reference to the applications for a rifle range and mining locations on the Fort William Indian Reserve, it is desired that the papers be referred to the Department of Justice for opinion on the points, (1) as to the present standing of the patentees of these mining locations, having in view the conditions imposed in the patent and their claim for a right of way to these locations. Ottawa, Nov., 8th 1912.

Sir,

Mining localities within the Fort William Indian Reserve were surrendered by the indians to His Majesty and patented to Messrs. Hamilton Gowanlock & Dowler of Fort William for the purpose of the manufacture of brick and similar products for which patent was granted subject to certain conditions with respect to the establishment of a plant and the manufacture of a specified number of bricks within a specified time. These locatees afterwards applied for additional land including a right of way to the locations. Your Department by letter dated the 4th Nov., 1911 advised that a way of necessity would be implied in the grant of the locations and that no further surrender by the Indians would be required.

A settlement as to the right of way has been delayed apparently on account of the fact that the application for this right of way was included with an application for additional land which the Department was not disposed to grant. On account of this delay the locatees have been unable to establish their plant and commence operations within the time agreed upon.

A portion of this reserve adjacent to the locations above referred to was surrendered by the indians and transferred to the Department of Militia and Defence for a rifle range, and that Department would like to acquire a portion of said locations as being essential to the proper use of the rifle range, and a question has arisen as to whether a portion of these locations

can be acquired.

Would you kindly advise as to whether, in your opinion the locatees have forfeited their rights in the said locations on account of their failure of fulilling the conditions set forth in their grant and also as to whether the Department of Militia and Defence could acquire such land for military purposes without reference to the Indians or locatees.

Sir:-

I have the honour to acknowledge receipt of your letter of the 5th ulto.in which you ask to be advised as to whether the locatees Messrs.Hamilton,Gowanlock & Dowler of Fort William,who have obtained a grant of certain lands for the purpose of manufacturing bricks and similar products have forfeited their rights on account of their failure to carry out the conditions set forth in their grant, and also as to whether the Department of Militia & Defence could acquire such land for military purposes without reference to the Indians or locatees.

In reply I beg to state, that the mere nonfulfilment of the conditions set forth in the patent does not render the grant liable to be forfeited by the Crown as the grant does not provide for such forfeiture in the case of the breach of any of the conditions therein set forth.

The agreement of the 19th November 1910,furnished by the grantees for the due performance of the conditions provides a penalty for a breach of any such conditions, and this is the remedy that may be resorted to if they fail to carry out the terms of the grant; the lands of course may be expropriated if they are required for military purposes, but the grantees would be entitled to compensation not only for the lands but for the works placed thereon as well.

With reference to your letter of the 11th instant, No. 290850, regarding the Fort William Rifle Range, I have the honour to inquire if it would be possible to get Messrs. It may be that these gentlemen would agree to the re-siting of their claim on the area outlined in blue on the attached plan, possibly for a small compensation, and thus make it possible for this Department to complete the danger area required as shown outlined in yellow.

Would it be possible for your Department to take up this matter with Messrs. Hamilton, Gowanlock, and Dowler, and inform me of the result of negotiations.

OTTAWA, January 27th, 1913.

Fort William Rifle Range.

Sir,

With further reference to my letter of the 14th instant, regarding additional land required for the Fort William Rifle Range, I have the honour to inform you that the question of moving the Dowler Mining location, (shown in green on plan which accompanied my letter of the 14th instant,) was taken up with the Mount McKay Pressed Brick Company, and in reply this Company states that it is absolutely impossible to shift this location in any way.

Under these circumstances, it is extremely imperative for this Department to secure the land shown outlined in yellow, on plan with my letter of the 14th instant.

Will you kindly take this question up with the Indian owners and inform me of the terms on which a surrender of the above area can be obtained.

I have the honour to be,

Sir,

Sir,

With reference to your letter of the 17th ultimo, No. H.Q. 18-111-1., relating to the proposed Fort William Rifle Range, Ontario, I beg to inform you that Mr. J.F. Smellie, (Messrs. Lewis & Semllie, Barristers, Etc.) has verbally stated that the Honourable the Minister of Militia and Defence has decided that an officer of your Department shall be sent to examine and report particularly on the matter of the limits of the lands required for the Rifle Range and until his report is received no further action will be taken in connection with obtaining the land desired by the Department in the said reserve.

S.B.

In view of the above no action will be taken towards obtaining a surrender from the Indians of the land applied for in the said reserve by your Department until we have received a further communication from you on the subject.

Rifle Range,
Fort William, Ont.

With reference to your letter of the 28th ultimo, and 17th instant regarding land required to complete the Rifle Range at Fort William, I have the honour to inform you that an Officer from this Department visited this site, and from his report, it appears that the demand of the Mount McKay Pressed Brick Co. can be met, in regard to land required on the Eastern boundary of the Rifle Range. Instead of the area asked for in my letter of the 14th ultimo, I would now make application on behalf of this Department, for the area outlined in yellow on attached plan. This will allow the Brick Co. to install the system of transportation they propose, and afford a new site for the Rifle Range.

As the Militia property, shown outlined in blue, cannot be utilized for the Rifle Range, on account of the position of the Dowler Claim, it is thought that this might possibly be exchanged with the Indian Band for the area outlined in yellow. As a great part of the land required from the Indians comprises the rocky face of Mount McKay, it is considered that these two areas would be of about equal value.

Will you kindly take up this question of an

Ottawa, Feb. 27, 1913.

Sir,

Enclosed herewith is a blue print plan showing outlined in yellow a tract of land in the Fort William Indian Reserve required by the Department of Militia and Defence. Kindly interview the Indian Council and any individual Indians who may have claims on the tract, and arrive at a reasonable valuation of the land. Please note that this land being taken under proper authority will not require to surrendered by the Indians but will be transferred to the said Department by an Order in Council.

The said Department proposes instead of purchasing the said tract coloured yellow to give in exchange for it the three cornered piece outlined in blue on the plan herewith. The portion outlined in yellow contains approximately forty-four acres whereas the portion outlined in blue contains only 27 acres; it is,however, stated that they are approximately the same value. Please look into this matter carefully.

It would appear to be desirable to effect the exchange and if the portion outlined in yellow is more valuable the demand will be made for the extra sum that it may be worth.

I am in receipt of your letter of 27th ulto No.290,850 with reference to a tract of land outlined in yellow on a blue-print enclosed therewith. I have discussed this matter with the Indian Council and other Indians of Fort William reserve, and they are not disposed to consent to an exchange of property with the Department of Militia and Defense, as suggested.

The Indians do not object to a sale, at a reasonable price, of the forty four acres required by the Department of Militia but state that the twenty ~~seven~~ acres which it is proposed to exchange with them are not of any value to them.

Sir;-

With reference to the matter of land required by the department of militia for a rifle range at the Fort William Indian reserve and for which you have asked me see a valuation, I beg to offer the following valuation.

The land is contingent to very valuable industrial sites and is touched by the street car line. It is dry land and requires very little clearing. I should say that it is a more desireable piece of land than that lately asked for by the Gowanlock Syndicate. I have no hesitation in placing a present valuation on the land of $1200, twelve hundred dollars per acre.

A plan of the city of Fort William is attached hereto. I would call your attention to the surrounding features of the land in question.

Ottawa, July 15, 1913.

Sir,

With reference to letter to you of the 10th ultimo and preceding correspondence (please see your letter of the 4th ultimo, No. H.Q.18-111-1,) I beg to inform you that the Indians of the Fort William Indian Reserve are decidedly averse to making an exchange of land as requested in your letter of Feb. 20, last, but have stated that they would be willing to sell the portion of land required by your Department at a reasonable valuation. This Department instructed one of its inspectors to visit the reserve and after examination to place a fair value on the land required. The said inspector has reported to the effect that he has no hesitation in placing a valuation of $1200.00 per acre on the tract of land required as it is contiguous to valuable industrial sites, is touched by the street car line and it is also dry land and will require very little clearing.

In view of the fact that the Indians will not agree to an exchange I have to request you to be good enough to state whether your Department is willing to purchase the land at the rate mentioned. In that event kindly have the tract desired, surveyed and the sum due therefor transmitted to this Department together with a copy of the plan. On the receipt of the said plan

Sir,-

With reference to your letter of the 15th instant, No. 290850, regarding additional land for the Rifle Range at Fort William, Ont., I have the honour to inform you that considering the very high estimate that is placed on this land it would appear that this Department will be obliged to restrict its purchase to the face of the mountain, as shown in yellow lines on attached plan, which can have very little commercial value.

Will you kindly ask your inspector to place a value on the face of this mountain, and to inquire if the Indian Owners would be willing to exchange this portion for a part of the Rifle Range site that is not now required.

Dear Sir:

I am sorry that I have not been able to valuate property in accordance with your letter of the 28th, of January until the present time, and I have gone over the ground fully in the last day or two..I might say that most of the 32 acres outlined in yellow pencil in the little map enclosed is solid rock trap rock and large gravel, entirely unfit for farming or building, therefore I place the valuation simply at $50.00 per acre.

If the property had run a little more to the north or north-east, the valuation would have been much more; However as above stated, I consider $50.00 per acre a fair valuation for the above mentioned property.

32 acres at $50.00 per acre is $1600.00, expense $3.00, valuation fee $15.00.

Enclosed you will find blue print, returned as per your request.

To the Deputy Minister-

In regard to valuation submitted by Mr. Alf.,Cooper of 32 acres of land on the Fort William reserve, applied for by the Department of Militia & Defence, I beg to say that the valuation of $50.00 per acre appears to be low, but possibly as it is situate on the side of a mountain, it may be considered sufficient, but I think the expenses of valuation should be added, making in all, say $1625.

Sir,

With reference to your letter of the 18th instant, I beg to inform you that it is proposed to cancel the Order in Council conveying the land in the Fort William Indian Reserve now held by your Department and to have a new Order in Council issued for the tract of land shown on the blue print plan enclosed herewith. Please note that this includes the tract to be transferred to your Department in exchange for the triangle at the Westerly end.

It is therefore desired that your Department should have a survey made of the entire tract to be well marked and posted on the ground and to have a plan made of which a copy should be sent to this Department together with a deecription to be inserted in the Order in Council. It is hoped this will meet your approval; further action in the matter will be held in abeyance until the plan and description above referred to have been received.

OTTAWA, March 31, 1914.

Sir,-

With reference to the letter of your Assistant Deputy and Secretary, No. 290850 of the 24th instant, regarding the land which it is proposed to transfer to this Department, in exchange for a portion of the Rifle Range site at Fort William, Ontario, I have the honour to inform you that the Officer Commanding at Winnipeg has been instructed to have this survey made, and as soon as plan and description of the property is received, copy of the same will be promptly forwarded to you.

As it is essential to this Department to have possession of the land which it is proposed to transfer, in order that Rifle practice may be continued on the present range, it is hoped that this area may now be reserved for this purpose, and that this land should not come under the control of any private interests.

The undersigned has the honour to state that under authority of an Order in Council of 31st August, 1907, the following described parcel of land forming a part of the Fort William Indian reserve, in the district of Thunder Bay, in the Province of Ontario, was sold by the Department of Indian Affairs to the Department of Militia & Defence for use as a rifle range:--

"Commencing where the easterly limit "of the road allowance which is the production souther- "ly of Young Street intersects the southerly limit of "the Grand Trunk Pacific property thence south 31 chains, "thence west 12 2/10 chains, thence south 11 5/10 chains "more or less, thence west 33 7/10 chains, thence north "6 3/10 chains to the southerly limit of the Grand Trunk "Pacific Railway property, thence north-easterly follow- "ing the said southerly limit to point of commencement, "comprising an area of 105.81 acres, including a road al- "lowance of 5.81 acres dedicated for the purpose of a "public highway, leaving a net area of one hundred acres "transferred to the Department of Militia and Defence, as "shown on a plan of record in the Department of Indian "Affairs."

Owing to the location of a portion of the said parcel of land being unsatisfactorily situated for the purpose of a rifle range, the Department of Militia and Defence has requested that an exchange be made for a more suitable location, and as there is no objection thereto, the undersigned would recommend that authority be given for the exchange of the area above described for the following described parcel:-

"COMMENCING at the point where the Easterly limit of Young street produced intersects the Southerly limit of the road allowance along the Southerly boundary of the Grand Trunk Pacific property; thence South 0° 5½" West 3553 feet: thence South 67° 13½" West 406.3 feet; thence South 26° 0" West 434.8 feet; thence West 679.8 feet to the Easterly limit of the Dowler Mining Location; thence North 1364.8 feet along the said limit to the South limit thereof; thence West along the said South limit 790.5 feet; thence North 1172.7 feet to the Southerly limit of the above mentioned road allowance along the Southerly limit of the lands granted to the Grand Trunk Pacific Railway Company; thence North 47° 29" East following the Southerly limit of the said road allowance 1948.3 feet; thence North 64° 48" East again following the Southerly limit of the said road allowance 653.5 feet to the point of commencement, containing 130.65 acres be the same more or less."

The area of the piece of land sold to the Militia Department in 1907, was 100 acres for which that Department paid $10,000, being at the rate of $100.00 per acre.

The piece now required by that Department contains 130.65 acres.

The exchange has been requested by the Department of Militia & Defence owing to the fact that a triangular piece of land consisting of about 17 acres on the western side of the parcel obtained under authority of O.C. 31st August, 1907, is not required for the purpose of the rifle range, whereas the face of a hill on the south containing about 30 acres, should form part of the range as it is situated behind the targets.

As shown on the rough sketch hereunder, the main portion of the parcel of land required by the Militia Department in 1907 will not be affected by the exchange, but it is thought better to cancel the former description and embody the whole area as now required in a new description.

As the 17 acres which the Militia Department will give up were sold to that Department at the rate of [redacted] $100.00 per acre = $1700 and the 30 acres to be taken by that Department in exchange, have been valued by a competent valuator recently

recently employed by this Department at only $50.00 per acre = $1500.00, the money value is in favour of the Indians and the exchange suits both Departments.

Section 46 of the Indian Act as amended by Section 1, of Chap. 14, 1-2 Geo. V, provides for the taking of land in a reserve for public utilities with the consent of the Governor General in Council.

Sir: Re: Lease No. 326
Fort William Indian Reserve

I beg to report I interviewed the Hon. Mr. N. M. Paterson(Senator) regarding renewal of the above noted Lease, which expired on May 1st, 1940.

Senator Paterson advises that he is willing to renew the lease for a further period of five years under the same terms and conditions.

In conclusion, Senator Paterson informed me that he would agree to renew this lease only under the condition that the Chalet road be kept in a good state of repair, This is the subject of a separate letter under today's date.

The Superintendent,

Department of Indian Affairs,

532782

Sir:-

The City of Fort William has been negotiating with the Fort William Band of Indians through their local Indian agent, Mr. W. R. Brown, for the right to use for quarrying purposes a pile of broken, flat rock, which lies just South of the rifle range property here. On November 6th satisfactory arrangements were made between the Indians and the City, it being agreed that the City would pay the Band of Indians twenty-five cents (25¢) per cord for all rock used by them, and that in lieu thereof the Indians would grant the City the right to enter upon this site, and erect a temporary stone crushing plant and use all the rock they required. Upon further investigation, it was learned that on or about May, 1915, a plan was prepared by Mr. E. R. Bingham, O. L. S., showing proposed amendment to the boundaries of the rifle range.

Now, if this was approved and passed by order-in-council the site of the broken stone required by the City would belong to the Militia Department and not to the Indians. The City is, therefore, very anxious to know, at your very earliest convenience, whether the rifle range boundaries have been amended to conform with this plan prepared by Mr. Bingham of the above mentioned date.

I will be glad if you will let me have a reply at your very earliest convenience.

Yours truly,

R. J. Manion.

To
The Six Nations Council.
Hon Chiefs:—

I beg to submit to you the Annual report of the Park Commissioners, as follows:—

I beg to state that while there is a vast room for improvement, we have been enabled to produce flowers in the Council House grounds from May to October.

We have now in propagation for early spring planting a choice variety of flowers and hope to please the eye of all those of our people who love the beauties of nature from an artistic point of view.

The work of improvement must necessarily be gradual, for even the soil must be fully prepared and properly constituted before it is ready to receive the seed or roots or bulbs, for the successful growth of beautiful flowers, and shrubs.

We contemplate during the coming season to make two more flower beds in front of the front entrance and also on the sward on the sides of the entrance, we also intend to make an artistic bed, or two on the right and eventually to make a centre bed of the bed now in existance.

We must complain that the owners of cattle and other animals have allowed them to run at large in the village and to transgress within the precincts of the Council House grounds, this in

very exasperating to us, and in the future we will be compelled to impound these animals, if the owners neglect to look after them.

I am sorry to report that the greater part of our allowance has been expended in labor the hired help which after much trouble and persuasion, we were enabled to obtain cost us 15¢ per hour and the team work for drawing mould and sand was costly.

We would beg to submit that the caretaker, may do all the teaming of gravel and mould and manure but he should have an increase in his salary or he refuses to do so owing to his farming operations J.H. he cannot do this than some one else should be appointed, to attend to the flower beds and the evergreens.

During the last summer, we have had tilled and hoed the evergreens, and we are gratified to be able to say that those in the Council House grounds are thriving remarkably well, Those in the National School grounds, owing to poor and unprepared soil, are not so good but are coming on well under the circumstances.

All of the accounts having been passed by you in Council, it is not necessary to give a rehash of the matter, more than to say, that we have still 57 cents unexpended,

We are Sirs

Your obedient Servants

Dear Mr. Scott.

We understand now that this great war is over, and that our boys from this reserve, Volunteered to take part in the defence of the empire, and as they will soon be returning home, I take the liberty of asking you for your influence with the minister of militia in procuring an a memorial of some kind, I would suggest one of the big guns captured from the enemy, be Granted to the boys as a memorial for their service, or something of that nature. This memorial could be put up in our council house park, and could be seen by the future generations. I wrote to the minister of militia on this subject, and he has very kindly replied, to my request, stating that my application was put on file.

Trusting you may be so good as to use your influence with the department of militia on our behalf.

Dear General Fiset -

I received a communication from Cap't J. S. Johnson, H. Co., 37th Regiment, Ohsweken, Ont., who is a Six Nation Indian, in which he advises me that these Indians have made application to your Department for one of the guns captured from the enemy to be placed in their public park on the reserve at Ohsweken, as a memorial to their young men who have enlisted.

As you may be aware the Six Nation Indians enlisted in fairly large numbers. I have a record of some 200 enlistments before the passing of the regulations which exempted Indians from active combatant service. This I think you will consider a good showing from the band, the total population of which, including men, women and children, is 4,794.

I know that the Six Nation Indians will highly prize such a memento, and I have pleasure in recommending their request to your favourable consideration.

Major General Sir Eugene Fiset, C.M.G.,
Deputy Minister of Militia & Defence,
Ottawa.

At the same time I would like to draw your attention to another Indian band in the province of Ontario, the Chippewas of Nawash, whose reserve is at Cape Croker, in the northern part of the county of Bruce. The total population, including men, women and children, is 385; out of this number 58 enlisted voluntarily before there was any provision made for the exemption of Indians. This I am given to understand included every physically fit man on the reserve, a really wonderful record, and I would desire to see a like tangible recognition made of their patriotism. I doubt if there is any community in Canada, either Indian or White, which can show such a record.

I shall be pleased to hear from you at your convenience.

Yours very truly,

Deputy Superintendent General.

The Deputy Minister,-

In regard to letter from Agent Lewis of the 13th instant, submitting an application from William Bickley Snow, of Sandfield, to purchase lots 22, 23 and 24, Con. 1, township of Sandfield, and Bert Alexander Snow and Chester William Snow, of Sandfield, to purchase lots 25, 26, 27 and 28, Con. 1, Sandfield, I beg to say that these lands are all open for sale.

Mr. Russell, who examined the lands in this township some little time ago, reported all these lots as unfit for settlement, unoccupied and unimproved, with no merchantable timber thereon, and valued the lands at 20 cents an acre.

As the Agent reports that he has no other applications for the lots, and as the land is required by applicants for grazing purposes, I would beg to recommend sales to the applicants at the upset price of 20 cents per acre cash.

Enclosed please find Resolations passed by the Temiscamingue Band, in favor of selling some small portions of the reserve to several parties, this land will not be made use of as a town site for several years to come, but will be used for agricultural purposes chiefly, unless the growth of the place exceeds my expectations I enclose two copies of agreements, the others were not given to me.

I approve of the sales, and would approve of the surrender of the remaining portion of the reserve, I believe it to be in the interest, not only of the place, but in the end, of the members ## themselves, the greater portion of them are Scotch halfbreeds and should never been acknowledged as members of the Temiscamingue Band, I believe the Temiscamingue Indian Reserve will soon be a thing of the past, the members of the band are talking of taking measures at their next council meeting to become enfranchised This land should be worth $2.00 per acre

Mr Burrage handed me to day a letter stating that the evaluation of Land Bought from John Simpson Jr was $30.00 per acre. This is certainly high specially if I compare it with the value the Dept made to R. H. Klotz of the most valuable land along side of the Lenox claims for $10.00 per acre down in Bourbonnais Bought This Year agricultural land here for .30 ¢ an acre. I did not Buy it in view of speculation it is for farming purpose. I am Willing to pay the high Price of $9.00 an acre or $247.50 for the 27½ acres and I expect this would be very Reasonable -

Hoping that you will grant me that Reduction I Remain Yours -

To the Hon. Deputy Commissary
of Indian affairs.

Dear Sir.

I beg leave to submit a demand of Mr. J. P. Ranger, general merchant, at North Timiskaming Que. relatively to the acquisition from M. John Simpson of the lots Nos 21 and p. 22. on the Indian Reserve; he paid M. Simpson the sum of $1000.00 for his improvements and the Department asks $3.00 per acre for the title on the land (21½ acres); he represents that the piece of land is lying at some distance from the village, that he bought it for farming purposes and not with the view ~~to~~ divide it in town lots - For those Considerations would it be possible to reduce that evaluation: Mr Ranger represents that $1.00 per acre would be a fair price; the favor would be gratefully appreciated if you can see some way to grant him some reduction.

I have the honor to be
Yours truly

Ottawa, December 18, 1906.

To the Deputy Minister-

Included in surrender by the Temiscamingue Band of Indians, on the 13th of January, 1906, is a small portion of the S. ½ of Lot 21, between the north limit of the south half of the lot and the road allowance, containing 2.20 acres, for which an agreement for sale between the Indian Locatee, Angus McBride, and Mr. Thomas Murray has been submitted, dated the 2nd of December, 1905, by which Mr. McBride transfers all his interest in this property to Mr. Murray for the sum of $100.00, the receipt of which amount he acknowledges, and this agreement is witnessed by Adam Burwash, the Indian Agent.

The Department places a price of $3.00 per acre upon the land, independent of improvements, and Mr. Agent Burwash was instructed, in letter of the 27th of March last, to make a sale.

Mr. Murray has paid into the Department the sum of $6.60, being the price placed on the land, and as the Indian locatee has acknowledged payment for his improvements, I would beg to recommend sale of the property to Mr. Murray and issue of Patent to him, in the usual way.

N D BRANCH. FEB 14 1907

Ottawa, February 12, 1907.

To the Deputy Minister-

Mr. Agent Burwash, who was recently at the Department, returned Letters Patent issued to Mr. Thomas Murray for a portion of Lot 21, River Quinze Front, Temiscamingue Reserve, pointing out that the Department had misinterpreted the description of the land given in agreement for sale, taking the westerly half to be the northerly half of the lot. In view of this and of error accordingly in the description in the patent, I would beg to submit correct description, which shows that the land Mr. Murray acquired contains 5.25 acres, instead of, as stated in Patent, 2.20 acres, the purchase price being $3.00 per acre. I would beg to recommend cancellation of patent, and that Mr.Burwash be advised of the facts and requested to collect from Mr. Murray the difference in the price, namely, the sum of $9.15, being for 3.05 acres at $3.00 per acre.

Sir,-

I beg to inform you that, in accordance with representations made by you when recently at the Department, it has been decided to cancel Letters Patent issued to Mr. Murray for a portion of Lot 21, River Quinze Front, owing to the fact that the same contains a wrong description. Taking the North half of the lot, being the portion adjoining Lot No. 22, the acreage of the portion which Mr. Murray will acquire will be 5.25 acres, instead of, as stated in Patent, 2.30 acres, and, as the upset price is $3.00 an acre, it will be necessary for you to collect from Mr. Murray and transmit to the Department the sum of $9.15, when correct Letters Patent will be issued.

See letter of 28th Mar 1907 re Agent- 35 File 254012

Kindly advise Mr. Procul Ranger that the Department will issue Patent for land acquired by him as soon as the plan and surveyor's description have been received of the other portion of Lot 21, sold to Mr. Benjamin McKenzie, as it is necessary to have the location of the lock-up which is situated on lot 21, properly identified before issue of patent.

Dear Sir

It appears that the Department is issuing
this Patent to me for the Parcel of land that I purchased
& was by Chas McBride for Mary Perrin of Lot 21
Grantham was not properly described. and as Mr
Burwash informs me that when he was in Ottawa
that he learned at the Department that this matter
would be rectified and another Patent with the
proper description could be executed. But as I
sold the land to Mr Alphonse Dupuis and as he
paid me for it in full. I hereby authorize you to
issue the Patent in his name

Dept of Indian Affairs Ottawa

I have been informed by the Indian agent here Mr Renaud that your Dept is not in favor of the sale of my land to Mr J.P. Ranger — As I am in a very bad shape just now, I beg to ask you to listen to my Reasons — which I am sure you will find valuable —

Four years ago I bought a piece of Land from A. McBride and built a house on it since that time I have run short of funds and have moved on my other lot No 5 Con 1 I have lots of properties but have no funds to work them I need a house to clear some Land and I cannot advance my farm without having a little money — the sale of that tract of Land to Mr Ranger for $300 would put me in position to work my farm and still I would hold the lot No 5 Range 1 and lot part of
Twenty four in front which is as much as I can work the Land is in favor of the sale and I am sure that is a good deal for me and I see no reason why your Dept should object to the sale I hope that you will again consider my position and grant me permission of making said sale

c.c. 9035-7 (Est.3)

Estate of John Simpson (Sr)
33 Temiskaming Band
Lot 7, Block X

April 24, 1961.

We acknowledge your letter dated April 13, 1961, informing us that Lot No. 7, Block X was sold to Thomas Murray after the year 1905, was again resold many years later to Elie Marcoux, the present owner being Aristide Marcoux, this lot being presently registered at the registration office at Ville-Marie, Quebec.

The problem in the land assets of this Estate arose concerning the surrender Lot No. 7, Block X (containing 28 acres) as to whether or not the sale thereof to Thomas Murray was completed as to payment of the purchase price $280.00 and as there was and is no document of transfer to the purchaser Thomas Murray from the Dept. The Agreement of Sale dated October 14th, 1905 between John Simpson, No. 33, and Thomas Murray indicates that the purchase price would be paid on delivery of the document of transfer. A letter dated April 26, 1906 from Rev. A. Laniel as Executor of the Estate of the late John Simpson indicates that Thomas Murray "has settled", with Josephine and Isadore, daughter and son of the late John Simpson (Sr) and authorizes the Department to give Thomas Murray the Deed for 28 acres of land.

The Will of the late John Simpson (Sr) dated January 20, 1906, only refers to a devise of one-fifth (1/5) of an acre "that Mr. Thomas Murray was to deed to me as agreed upon with him", "and the balance of my money that may be in my Estate to my daughter Josephine". This will made in 1906 would indicate that the late John Simpson (Sr) had disposed of all his property except the lot on which his house stood.

PUBLIC ARCHIVES

There is no record of any reconveyance of 1/5 of an acre from Thomas Murray to John Simpson (Sr), but according to the letter dated April 26, 1906 from Rev. A. Laniel as Executor of the Estate of John Simpson (Sr), Thomas Murray had settled with the late John Simpson (Sr) heirs.

As to completion of the Agreement of Sale dated October 14, 1905 by payment of the purchase price, a letter dated November 29th, 1941 from J. Caza, Indian Agent, stated clearly that Lot 7, Block X was sold to Thomas Murray about the year 1905 "and was occupied by whites ever since. Mr. J.P. Ranger who was the mayor of this place at that time remembers that he cashed the cheque received by John Simpson (Sr) in payment of his land".

There now only remains the matter of the document conveying Lot No. 7, Block X the surrendered lands.

The Estate of John Simpson (Sr) No. 33 Temiskaming Band was cleared November 17th, 1959 on Estate file no. 9035-7 which is also the estate file of the late Alexis Simpson, father of the late John Simpson (Sr). This will confirm the closing of the Estate of John Simpson (Sr) on estate file 35/37-2-2-33, being separated from the Estate of Alexis Simpson because of the problems, now solved, involving Lot 7, Block X and evidence of completion of the sale thereof.

Joseph Périllard,

Défendeur,

Le demandeur déclare:-

1o..QU'IL est un citoyen honorable et respectable d'Oka, dans la paroisse de l'Annonciation dit district, ou il a toujours joui a cet endroit et ailleurs de l'estime et de la considération de ses concitoyens....

2o..QUE depuis plusieurs années il a été élu et il agit comme un des chefs de la tribu des Iroquois au dit lieu d'Oka, qu'il représente actuellement en cette qualité..

3o..QUE le défendeur dans le but de lui faire du tort dans ses affaires et autrement, de le discréditer aupres de ses concitoyens, de l'humilier et de le blesser dans ses sentiments, son caractere et ~~xxxxxxxxx xxxxxx~~ sa reputation, dans le cours du mois d'aout dernier (1905) a malicieusement et faussement, fait un rapport par écrit au département des affaires concernant les Indiens en la Cité d'Ottawa, Province d'Ontario, que le dit demandeur n'avait pas été légitimement élu ou choisi comme délégué pour faire la visite de Doncaster, située dans le comté de Terrebonne, la propriété des Indiens Iroquois d'Oka, et d'autres localités , dans la Puissance du Canada, mais que cependant, a ce titre faux de délégué choisi, il avait fait une collection, sous de fausses représentations de la somme de $ 50.00, pour défrayer les dépenses de telle visite, de laquelle somme il refusait de rendre compte; en conséquence le dit département des affaires Indiennes a Ottawa par son Secretaire, monsieur McLean, somma par écrit, daté de la dite Cité d'Ottawa, le 25 Aout dernier, le dit demandeur, d'avoir a rendre compte de cette somme de $ 50.00 au dit département ainsi que d'une autre somme de $ 17.00 que le dit département lui avait remis, pour faire la visite de la dite réserve Doncaster...

3o...QU'A cause de ce rapport faux et malicieux, fait dans le seul but de nuire, et faire du tort a la réputation et au caractere du dit demandeur, ce dernier a été forcé de se rendre en la dite Cité d'Ottawa, pour rendre compte de sa conduite au département, ce qu'il a fait les 26 et 27 du mois d'Aout dernier, et a cet effet il a été obligé de dépenser inutilement par la seule faute du dit defendeur, la somme de dix piastres, a part la perte de son temps et les ennuis que pareil faux rapport lui ont causés...

4o..QU'EN outre le dit défendeur, dans le seul but de nuire a la réputation du dit demandeur de le blesser dans ses sentiments et de l'exposer au mépris de la tribu des Iroquois, dont il est un des Chefs, légitimes, a faussement et malicieusement répandu et publié, dans le cours du mois d'Aout dernier, a Oka susdit

, dans les localités environnantes, que le dit demandeur intriguait, pour vendre a son profit , partie de la dite réserve Doncaster. ...

5o..QUE lorqque le dit défendeur a ~~fait~~ fait le dit faux rapport au dit département, et qu'il a publié et répandu les faits susrelatés, il a agi par pure malice, dans le seul but de nuire au demandeur et lui faire du tort, car il savait qu'il mentait a la verité, connaissant parfaitement que le demandeur avait été unanimement et légitimement choisi comme un des chefs de la tribu des Iroquois, au dit lieu d'Oka, et comme tel élu délégué, pour faire la visite de la dite reserve Doncaster, visite qu'il a réellement faite les 13 et 14 Aout dernier, en compagnie d'autres Chefs Iroquois, et nommément avec Napoléon Commandant, chef de la réserve Ripon, et cela avec seulement l'aide recu du département d'Ottawa...

6o...QUE vu les faits ci-haut relatés le dit demandeur a souffert dans ses biens, son honneur sa réputation, son caractere et ses sentiments a un montant considerable, que le dit demandeur veut bien réduire sous forme de dommages a la minime somme de $ 99.((qu'il a droit de réclamer du dit défendeur, et qu'il lui réclame par les présentes comme lui étant légitimement due, laquelle somme le dit défendeur se refuse de lui payer quoique requis.

7o...QUE le dixneuvieme jour d'octobre dernier, le dit demandeur par le ministere du soussigné, son procureur et avocat, a fait signifier au dit défendeur, vu sa qualité d'agent des Indiens a Oka, nommé comme tel par le Gouvernement de la Puisaance du Canada, a Oka, représenté par le dit département, un avis spécial de son intention de le poursuivre devant cette Cour en re~~xxxxxxxxxxxx~~ couvrement de la dite somme de $ 99.99 comme conséquence des faits ci-haut relatés.

POURQUOI le demandeur conclut a ce que le dit défendeur soit condamné a lui payer la dite somme de $ 99.99 et les dépens des presentes....

Circuit Court

Ignace Corinthe,
Plaintiff,

vs.

Joseph Perillard,
Defendant.

The plaintiff declares :-

1st. THAT he is an honourable and respectable citizen of Oka, in the Parish of l'Annonciation, said district, where he has always enjoyed at this place and elsewhere the esteem and consideration of his fellowcitizens....

2nd. THAT for several years he has been elected and has acted as one of the chiefs of the Iroquois Tribe at the said Oka, which he now represents in this position..

3rd. THAT the defendant in order to do him injury in his business and otherwise, to discredit him amongst his fellowcitizens, to humiliate and lower him in their regard his character and his reputation, in the course of the month of August last (1905) maliciously and falsely reported by writing to the Department of Affairs in charge of the Indians in the City of Ottawa, Province of Ontario, that the said Plaintiff had not been legitimately elected or chosen as delegate to visit Doncaster, situated in the County of Terrebonne, the property of the Iroquois Indians of Oka, and other places, in the Dominion of Canada, but that therefore, under the false pretence of being the delegate chosen he made a collection, under false representations, of the sum of $50.00 to defray the expenses of such visit, of which sum he refuses to give an account; therefore the said Department of Indian Affairs at Ottawa by its Secretary, Mr. McLean, demanded in writing, dated the said City of Ottawa, the 25th August last, the said Plaintiff to render an account of this sum of $50.00 to the said

Department

Department as well as of another sum of $17.00 which the said Department had remitted him to visit the said Doncaster Reserve...

3rd. THAT on account of this false and malicious report made with the sole object of blackening and injuring the reputation and the character of the said Plaintiff, the latter was obliged to go to the said City of Ottawa to render an account of his conduct to the Department, which he did the 26th and 27th of the month of August last, and to this end he was obliged to make useless expenditure solely through the fault of the said Defendant of the sum of ten dollars, besides the loss of his time and the trouble which the said false report caused him...

4th. THAT furthermore the said Defendant, with the sole object of injuring the reputation of the said Plaintiff, to lower him in their regard and expose him to the contempt of the Iroquois Tribe, of which he is one of the legitimate Chiefs, falsely and maliciously spread and published, in the course of the month of August last, at Oka aforesaid, in the neighbouring localities, that the said Plaintiff was intriguing, to sell for his own profit, part of the said Doncaster Reserve. ....

5th. THAT when the said Defendant made the said false report to the said Department and that he published and spread the above related facts, he acted through pure malice, with the sole object of injuring the Plaintiff and doing him wrong, because he knew that he was lying, knowing perfectly well that the Plaintiff had been unanimously and legitimately chosen as a chief of the Iroquois Tribe, at the said place of Oka, and as such elected delegate to visit the said Doncaster Reserve, which visit he made the 13th and 14th August last, in company with other Iroquois Chiefs, namely and appointed with Napoleon Commandant, Chief of the

the Ripon Reserve, and this only with the assistance received from the Department at Ottawa...

6th. THAT in view of the facts above-mentioned the said Plaintiff has suffered in his ~~goods~~ property, his honour, his reputation, his character and his sentiments to a considerable amount, which the said Defendant should indemnify him for in the form of damages at least for the sum of $99.((which he has the right to claim from the said Defendant, and which he claims by these presents as being legally due him, which sum the said Defendant refused to pay him when requested.

7th. THAT the nineteenth day of October last the said Plaintiff by the ministryof the undersigned, his lawyer and advocate, sent to the said Defendant, in his position as Indian Agent at Oka, appointed as such by the Government of the Dominion of Canada, at Oka, represented by the said Department, a special notice of his intention to prosecute him before this Court to recover the said sum of $99.00 on account of the facts above-mentioned.

THEREFORE the Plaintiff concludes that the said Defendant be condemned to pay him the said sum of $99.99 and the costs of these presents....

ADDRESS REPLY TO

Ottawa, 29th., Nov. 1905

Sir,

In connection with the complaint of agent Perillard against Coriente and Constable Oke in the matter of destruction of a warrant and intimidation of himself as agent, I beg to say that I inquired on Monday 27th. instant, Mr. Etheir, Mr. Perillard, Mr. Coriente and nephew, Mathew Coriente being present.

The Intimidation complained of and the act of destroying the warrant must I think be overlooked. I gave Coriente plainly to understand what his position is, and that he must in future keep his place, and if he does not, and acts again as he did in this matter that any possible punishment that we can inflict will be inflicted upon him. Mr. Perillard appears to be quite willing to drop the matter, and I think that this will be the better course to pursue, because if we charge Oke & others with destroying the warrant, there is little reason to doubt that four witnesses would claim that Perillard told them they might do so. Mr. Perillard admits that he did tell them they could burn the warrant, not in a spirit of assent to the burning, but

to express his opinion that as there were four Indians there, it was obvious that they could burn it if they wanted to. This was what he meant to convey, but of course the Indians will assert that it was not what they understood.

An effort was made to settle the dispute between Mr. Perillard and Coriente. I am afraid it will not be very successful, because in Coriente is a spirit of hate and unreason, which no reason of mine can overcome. Mr. Perillard showed a very good disposition.

Coriente is at present suing Mr. Perillard for $99.99 for defamation of character, but it may be possible to get him to drop this case. I have entered into communication with his counsel in order to show the latter that Mr. perillard only reported to his superiors what was reported to him by two Indians, by way of complaint. It is possible that the matter may be ended harmoniously yet.

Some Minor complaints were looked into and disposed of.

Copies of the Summons and complaint Coriente case against Perillard inclosed herewith.

Sir :-

Will you please ask the Department for me Peter Oke, Head Chief, that I would like to know what Ignace Corinthe went to ~~xxxxxxx~~ Ottawa for sometime ago with a man named Comandant, Chief of Gibson. I heard it said that they were at Doncaster some days ago and that no one of the band had authorized them, because it was I who was appointed. Then I would like to know from the Department what it is going to do he travels from one place to the other and without ever giving us an account. We had the sum of seventeen dollars balance of money collected from the band which was in a pocketbook which he had in hand and there remains nothing now, and he did not tell us where that money went, and again some days ago there were collectors who collected for him. That is what I wish to know.

Complaint of Paul Nelson, an Iroquois Indian :-

Against Ignace Corinthe, Chief. I have to complain that we had last month in a box at the latter's house the sum of from sixteen to seventeen dollars and Ignace Corinthe has spent it all travelling from one place to another, saying that he worked for our interests and he never gave any account of what he did. Again some days ago I collected for him , I gathered up one dollar. There were three of us who collected, but I do not know what the others collected, but,nevertheless, our coffer is empty and that is all that we know of his work since he has been Chief there were over fifty dollars that were placed in his hands of which nothing has ever been known. I ask you as Agent to notify the Department of this.

Sir,

In my letter of the 29th., instant I informed you that Coriente of Oka was suing agent Perillard for $99.99 for defamation of character, and inclosed copies of Summons and Complaint. The defamation consisted of a statement made by Mr. Perillard to this Department that Coriente had improperly collected money for purposes named or had failed to account. Mr. Coriente now submits copies of complaint of Paul Nelson and Peter Oke to show that he only forwarded to the Department complaints that had been officially made to him in his capacity of Indian agent. I am directed to enclose, herewith, file 291,964 of this Department, from which it will be seen that Coriente, an Indian of Oka, is suing Mr. Joseph Perillard, our Indian Agent at that place for the sum of $99.99 for defamation of character, the defamation consisting of a statement made by the Agent to the Department that Coriente had improperly collected money for the purpose of visiting the Doncaster Reserve and had failed to account for the same, Agent Perillard, on the other hand, contending that he only communicated to the Department what was reported to him by the Indians, by way of complaint.

The Department has been asked to defend the Agent in this case; and I should like to be advised whether, under the circumstances, it is obliged to do so.

Sir,-

I have just received a letter from my lawyer, A. A. C. Ethier, in my suit with Chief Ignace Cointhe. He tells me that the trial is set for the 24th inst.; also that you ask the sum of $5.00 for your travelling expenses to come to the trial, and the same amount for H. Giroux, Dominion constable.

For my part I desire to see both of you at the trial. So if you come, please ask the Dept. to supply you both with $5.00 for your travelling expenses, to be deducted from my salary due on the 31st inst.

I have also asked my lawyer, Mr. Ethier, to say a word about this to the Dept..

Yours, &c.,

The adjourned case of Ignace Corinthé (Councillor of Oka) against Agent Pillard having been called for 10 a. m. Saturday, 24th inst., and Judge Taschereau having requested to defer it until the afternoon, I had to go to the Scholastique by the 6.00 p.m. train on Friday.

The evidence of seven or eight witnesses was heard; for the prosecution, Ignace Corinthé, Chief Peter Oka, Paul Nelson (and Atenitè, mother Indian); for the defence, Agent Pillard, his son and daughter, myself and an Indian, whose name I didn't get. Peter Oka and Paul Nelson denied that they made the complaints against Corinthé reported

in writing to the Dept. by Agent Périllard, purporting to be signed by them with a cross. The examination of Peter Ok and Paul Nelson, however, seemed to create strong suspicion of a conspiracy against the Agent and that they weren't speaking the truth.

The Judge dismissed the case, all costs to be paid by Corinthé. It appears, however, that Corinthé is a pauper and cannot pay the costs, the result being that as the matter stands Agent Périllard will have to pay the fees, costs of his own lawyer and witnesses, amounting to something like $50.00.

Sir -

I beg to inform the Dept. that I won the suit brought against me by Chief Corinthe. The Indians showed that day what they are: they make a play-thing of the oath; and this is what the Hon. Judge Taschereau recommended me to do in future. Not to receive any complaint from the Indians, unless it is sworn to and made before a witness. He says these people are dangerous: that precautions should be taken in every respect.

I beg to inform you also that on Saturday evening, 24th inst. the Indians obtained liquor and were shouting in the village part of the night, howling like wild beasts.

MAY 23 1906

Dear Sir,-

With reference to the suit of R. Ignace Corinthe, vs. Joseph Perillard, I beg to tell you that Mr. H. C. Ross of your Department has been taxed by the Court at Ste. Scholalastique for appearing as witness in January and March last to the sum of $18. The action taken by Corinthe has been dis-missed with costs and amounts to $65.05, including Mr. Ross's tax.

Under the circumstances I always understood that the Department is bound to defend their Officers when they are attacked before the Courts in their capacity as such officers which is the case in the present instance, and I hope that your Department will, even the Department of Justice stated contrary at first instance that you will call their attention again and have the same proved and the bill ordered to be paid It does not seem right that your agent being paid $200.00 a year should be bound and responsible for all defamations put

Mr. Paget,-

This letter has reference to the action recently brought by Ignace Corinthe, an Oka Indian, against Agent Joseph Perillard for defamation of character.

The Judge dismissed the case with costs, amounting to $65.05. Corinthe, however, is a poor man and cannot pay the costs, which will, therefore, have to be paid by Agent Perillard.

The question arises whether the Department, as a matter of expediency, will pay the costs thus incurred by its Agent in defending himself in this suit, for which, apparently, there was no ground whatever, although it is under no legal obligation to do so.

Mr. Ross tells me that, after the trial, the Judge expressed to him the opinion that the Department ought to pay the costs for its Agent; and Mr. Ross also says that, should Mr. Perillard be forced to personally pay the costs, his influence with the Indians will be ruined. Their object would virtually be attained if they could see him forced to pay what, to him, would be very heavy costs, while they who brought the charge which they could in no way substantiate would be put to no expense whatever.

Memorandum:-

Deputy Superintendent General.

The contention of Mr Ethier that the Department should refund to Agent Perillard the amount of the expenses of the action brought against him by the Indian Ignace Corinthe appears reasonable. Mr Perillard in his position as Agent had to defend himself ,and the judgment shows that he was unjustly accused by Corinthe. The latter would have to pay the costs if he was in a position to do so,but as he is not it appears that the Agent must pay all the costs which amount to $65.05. I would therefore recommend that Agent Perillard be informed that if he has paid the account he should forward it to the Department,and the question of refunding the amount to him will be considered.If he has not paid the account he might forward it to the Department ,and payment will be considered. The expenditure would it is thought be a proper charge against Management Fund,or might be charged against the Vote for Legal Expenses.

Ottawa 9th June, 1906.

Sir,

I beg to inform you that recently an Indian -Ignace Corinthe- brought action against Mr J. Perillard, Indian Agent, at Oka, P.Q. , for defamation of character. The suit was the result of action taken by the Agent in the performance of his official duties. The matter was brought into Court, and the Judge dismissed the case with costs amounting to $65.05. Corinthe is too poor to pay the costs, the necessity of doing so has therefore devolved upon Mr Perillard. The latter has asked the Department to make payment for him. This the Department feels disposed to do, as there is no doubt that Mr Perillard was acting in the interests of the Department. Moreover it is felt that if the Agent is obliged to pay these costs his influence with the Indians will virtually be ruined, and the object of the suit would in this way be attained. I may state in this connection that the Judge expressed the opinion (after the trial) to an officer of this Department that the Department ought to pay the costs for the Agent.

In view of the foregoing I enclose herewith the account. I shall be glad to have an expression of your opinion in the matter, and if you see your way to do so I shall be also be glad if you will have the account taxed for payment.

Ste. Scholastique, 30th. October, I907.

Sir:- D.X.H

On the I3th October Joseph Perillard agent of the Indians at Oka arrested himself a young Indian named Joseph Jonson in the streets of Oka for drunkenness. The young Indian had drinken liquor furnished to him by the son of your agent Joseph Perillard.

Johnson was brought by Perillard before him and he condemned Johnson to a fine of $I0.00 and costs or a month in jail. Johnson being unable to pay was brought by Perillard himself to jail here at Ste Scholastique.

I presented a petition for habeas corpus and Johnson was liberated by Judge Robidoux of our Superior Court.

I consider that your agent Joseph Perillard is unjustly and illegally doing his duty.

In the present instance he should, in the same time have his son Adelbert arrested for having giving liquor to an Indian and secondly, he should not have sit in the case.

The costs of the petition for habeas corpus amount to $2I.50. Joseph Perillard should be dismissed of his functions as agent of the Oka Indians.

Proceedings will be taken to have Perillard pay the costs paid by Johnson for the habeas corpus.

Please will you,see to notify your agent Joseph Perillard.

I Joseph Addison of the Township of Robinson District of Manitoulin Forest Bailiff, do solemnly declare that I have examined Lot 28 Concession 4 Township of Robinson and that the Land and Timber thereon I value as follows:—

I That the Land is no good for farming purposes principally flat rock and shallow loam worth 10 Cts per acre 100 acres $10.00

II That I found dry cedar timber which will make 300 cedar ties at 6 Cts. $18.00

III That there is no other timber on said Lot of any commercial value.

And I make this solemn declaration conscientiously believing the same to be true and knowing that it is of the same force and effect as if made under oath and by virtue of the Canada Evidence Act A.D. 1903.

Ottawa, September 21st, 1935.

Sir:-

I am replying on this file to the last paragraph of your letter of the 14th instant referring to Lot 28, Concession 4, in the Township of Robinson, which you recommend to be sold at twenty-five (25¢) cents an acre under settlement conditions.

I note that in November 1905 Mr. Donald Bailie made application to purchase this lot under Section Six of the Land Regulations. He was replied to and informed that the lot could not be sold under Section Six, and that a Forest Bailiff might examine and report on the lot, the cost of such examination to be deposited with then Agent Mr. Robert Thorburn in the usual way. On the 30th of December Mr. Thorburn forwarded a sworn declaration by Forest Bailiff Joseph Addison, who declared the land was worth ten (10¢) cents an acre, and that he found dry cedar timber worth eighteen ($18.00) dollars on the lot, and that the lot was unfit for settlement.

The Department approved of carrying out a sale to Mr. Bailie for the valuation of twenty-eight ($28.00) dollars, but it appears no action was taken in the matter.

Sir,

I have to call your attention to Sales Nos. 6 & 8, covering resepctively Lot 29, Broken Front, Thurlow, and the S.W. I3 Acres of Lot 30, Broken Front Thurlow, and have to inform you that although the former Lot stands on the Books of the Department in the name of Joseph Canniff, being sold to him on the I2th April, I85I, and the latter part Lot is in the name of Mrs. Almira J. Campbell, being sold to her on the 9th December, I863, no payments thereon appear to have been made on either Sale, other than the First Instalment.

I have therefore, to ask you to be good enough to report to the Department stating who is in occupation of each Lot, under what title they hold the same, and what improvements, if any, have been made thereon, also any information in connection with this matter that you may be able to obtain.

In answer to your favor of 7th Decr. 1905 - No 292 120. I beg to say that I have looked over the Broken Front in front of Lot No 29 in the 1st Con. Thurlow and I find that Nelson Lingham is in possession of the same. and has been continuously since 1863.

Sheriff Moodie some years before Lingham bought sold Lot No 29 in 1st Con. Thurlow and the broken-front in front hereof 317 acres to Joseph Cainiff and Nelson Lingham has an unbroken paper title for the same from Joseph Cainiff - McLingham supposed he held this broken Front in fee simple - There is a good 1½ story stone & brick dwelling house about 24 x 40; and two frame barns, one say 30 x 60' and the other 30 x 40'. The line fences on both east and west sides run to the Bay - There is quite a large marsh on this broken front and the balance of it is shallow land with but few trees.

Ottawa, 9th June, I906-

Sir,

In reply to your letters of the 25th April last, reporting on the position of Broken Front in front of Lot 29, Con. I, Thurlow, also the I3 Acres on the South end of the W. ½ Broken Front in front of Lot 30, Con. I, Thurlow, I have to inform you that the first named property containing II7 Acres, stands on the Books of the Department in the name of Joseph Canniff, as follows:-

II7 Acs. sold I2 April, I85I --------$690.30
Paid at date of Sale ----------$230.I0
Balance Principal due ----------$460.20

and Interest thereon @ 6 % from I2th April, I85I, the date of Sale, until paid.

As you state that Mr. Canniff sold the Lot, and Nelson Lingham, has an unbroken paper title to the property from Joseph Canniff, you will advise Mr. Lingham that it will be necessary to pay the balance of Principal and Interest against the property, and furnish the Assignments shewing complete chain of title from Joseph Canniff

The Minister of Ihdian Affairs,

Ottawa, Ont.

Dear Sir,-

Mr. Aylsworth, the Indian Agent here, wrote Mr. Nelson Lingham some months ago in reference to their being a balance owing to the Crown still upon the Broken Front of Lot number 29 in Thurlow, in the County of Hastings. Mr. Lingham thought that it must be a mistake that Mr. Aylesworth had written him for payment of a balance on that land, as he and his predecesssors in title had been in possession of the property for about 100 years without any claim of any kind whatever being made as far as he knew upon the property. He has owned it for about 50 years himself and he was surprised to learn that this had been Indian land, as it is generally supposed about here that the Indian reservation did not extend West beyond Tyendinaga Township. Is it the fact that this was Indian Land at the time of the Sale of the property to Mr. Lingham's predecessors in title? Mr. Aylesworth claimed a balance on the land of $460.20 and a great number of year's interest. This Broken Front Land is nearly all flat, shallow, rock land and it would not be worth any such amount as the balance of principal and interest that Mr. Aylesworth claimed. Would you be willing to accept the principal with interest for say the last 6 years, which would be the amount, I think, that would be properly recoverable. Mr. Lingham when he bought ~~the~~ he supposed that he was getting an absolute title and paid the regular value for the property at the time, and those parties, of course, are dead years ago and they have no Estate that Mr. Lingham can come back on to help him out in connection with what has to be paid.

Different parties have loaned money on the property supposing the

Sir,-

I beg to acknowledge the receipt of your communication of the 25th instant, in regard to arrears due on the broken front of Lot No. 29 in the township of Thurlow, and in reply to say that this property, which contains 117 acres, was sold on the 12th of April 1851, to Mr. Joseph Caniff, and still stands on the books of the Department in his name. The purchase price was $690.30, of which there was paid at date of sale $230.10, leaving a balance of principal due of $460.20, and interest thereon at 6% from 12th of April, 1851, the date of sale, until paid.

I inclose for your information copy of surrender by the Indians, covering the land in question, along with other lots in the township of Thurlow, which lands were disposed of for the benefit of the Indians in compliance with the terms of surrender.

As the property in question has been in use and occupation, rent free, for a number of years, it is considered that the balance of principal and interest against the property should be received by the Department, and it is not disposed to make any recommendation for remission thereof, which, under the Act could only be done with the consent of His Excellency in Council.

Dear Sirs,-

I am in receipt of your favor of the 30th ult. No. 292120. As the property referred to namely Lot Number 29 in the Broken Front Concession of the Township of Thurlow, is I understand, nearly all flat rock with very little soil covering, it is not of great value and the amount that you mention with nearly 60 years interest is a much larger sum, I believe, than what it is worth. I understand that the Department has had re-valuations made of land in similar instances to this, and my client would be pleased if the Department would make a re-valuation and be willing to accept a reasonable amount in settlement.

Sir,-

In reply to your letter of the 4th instant, with further reference to arrears of purchase money and interest against certain lands in the broken front of the township of Thurlow, I have to inform you that the lands against thich these arrears stand are entered in the books of the Department as Lot 29 and the S. W. 13 acres of the W. ½ of Lot 30, in the broken front of that township. I may say that the description of lots 30 and 31 given in your letter, as covered by patent from this Department, is not correct. Upon reference to the records in the Secretary of State Department it is found that the patent to which you refer hs having issued for lots 30 and 31 to Daniel Young on the 13th of August, 1856, was dated 13th of June, 1856 and registered 12th of August, 1856. The description of the lands covered by this patent is as follows:- "The west half lot 31 in "the broken front of the township of Thurlow, commencing "at the water's edge of the Bay of Quinte in the limit "between lots 30 and 31, thence north 16 west 45 chains, "more or less, to an allowance for road in rear of said "concession, thence north 74 east 10 chains 25 links to "the limit between the east and west halves of said lot, "thence south 16 east to the aforesaid water's edge of "the Bay of Quinte, thence westerly following same to "the

I have, therefore, to ask that you will with as little delay as possible look carefully into this matter and report as to who is in occupation of each portion of land, what improvements, if any, have been made thereon, what in your judgment is the value [redacted] per acre of each portion separate from the value of the improvements, and under what authority the occupants claim to hold the property.

SIR.

In reply to your letter of May 3rd 1917 Re the 13 acres of the south west part of lot 30 Broken Front and lot 29 Broken Front in the Township of Thurlow I beg to say that I visited the above mentioned Lands on the 8th day of May and found as follows.

The 13 acres of the south west part of Lot 30 is owned by Harry Greatrix and has been in the family for years, the land is flat rock with a few scruby oaks on it and only fit for sheep pasture, I would say that it was worth about $ 3.00 per acre.

With referance to lot 29 their is about 30 acres of tillable land very shallow and the ballance 87 acres is flat rock and marsh.

Improvements. Their is an old brick house and two frame barns on this lot all in poor condition.

This lot is owned by the Late Nelson Lingham Estate of Belleville who has had it for the fifty years or longer Would value it at $ 4.00 per acre. The fences on the above lots are worth a good deal more than the land .

Memo. to Mr. Orr,-

With regard to lot 29 and the S. W. 13 acres of lot 30 in the broken front of the township of Thurlow, referred to in Mr. Agent Campbell's letters of the 16th May last and 28th ultimo, these sales stand as follows:-

Sale 6

Lot 29 is in the name of Joseph Canniff,

117 acres (sold 12th April, ~~1913~~ 1851)
@ $5.90 per acre - - - - - - - - - - - - - $690.30

Paid at date of sale - - - - - - - - - - - - 230.10

Balance of principal due - - - - - - - - - - $460.20

and interest thereon at 6% from date of sale.

Sale 8

The S. W. 13 acres in lot 30 is in the name of Mrs. Almira Jane Campbell,

13 acres (sold 9th December, 1863)
@ $6.00 per acre - - - - - - - - - - - - - $ 78.00

Paid at date of sale - - - - - - - - - - - - 26.00

Balance of principal due - - - - - - - - - - $52.00

and interest thereon at 6% from date of sale.

Mr. Agent Campbell's valuation is as follows:-

13 acres at $3.00 per acre - - - - - - - $39.00

117 acres at $4.00 " " - - - - - - - 468.00

It would, however, appear only fair that the owner of the 13 acres should, in case of cancellation of the old sale and re-sale of the land, at least pay a sum equal to the balance of purchase money against the

the property, namely, $52.00. This would be at the rate of $4.00 per acre, the same as lot 29 is valued.

It will be seen that lot 29 was originally sold at $5.90 per acre, while the 13 acres in farm lot 30 were sold at $6.00 per acre.

Sir,-

I have to acknowledge the receipt of your letter of the 1st instant, in regard to lots 29 and 30, broken front in the township of Thurlow.

As to lot No. 30, I am inclosing a tracing of the plan showing the different portions of this lot which have been disposed of. Under sale 1, which was made on the 26th of May, 1837, the northwesterly 15 acres of the West half of the lot was sold to William Boylan, for £15, which appears to have been paid. The northeasterly 25 acres of the west half of lot was sold at the same time to Theodore Gregorie for £25, but only the first instalment of £6:5 appears to have been paid. The southwest 13 acres was covered by sale 8, which, as you are aware, has been cancelled. There appears to be a portion of the lot unsold situate between the southwest 13 acres and the east 47 acres, which has been sold and patented.

You will be good enough to look fully into this matter and advise whether there are any improvements on the northwest 13 acres, or the northeasterly 25 acres, and whether any one is in occupation of the portion of the lot which appears not to have been sold, and whether you would recommend the sale of the whole lot less the 47 acres which has been patented, to Mr. Harry Greatrix, and at what price.

(Sept 30th) The name of William Boylan does not appear on the Registar on the above lot

I would recomend that the west half of Lot 30. Broken Front be sold to Harry Greatrex. to windup. I think if Harry Greatrex would give $150.00 cash and the Dept give him a Crown Lease for a speedy Settlement, as the record of this lot does not seem clear.

Ottawa, October 29, 1917

Memo. to the Deputy Minister,-

A short time ago an old sale of the S. W. 13 acres of the W. ½ of lot 30, broken front, Thurlow township, was cancelled, and the Department decided in view of representations made as to claim to the lot, to sell the same to Mr. Harry Greatrix, who, the Agent reported, was entitled to purchase. The Agent reported that Mr. Harry Greatrix was desirous of securing the W. ½ of lot 30, broken front, and the Agent was asked to report as to whether there were any improvements on the W. ½.
He now reports that the W. ½ of the lot, which contains about 53 acres, has no buildings thereon except an old ice-house and fences, and that it is only used for pasture, and he recommends a price formerly submitted for the whole west half, of $150.

In 1837 a sale of the northwest 15 acres of this lot was made to Mr. William Boylan, and the north-easterly 25 acres to Mr. Theodore Gregoire, but these sales were never carried out, and I would recommend that they should be formally cancelled.

I would, therefore, beg to recommend after cancellation of old sales that the local Agent be authorized to carry out a sale to Mr. Harry Greatrix of the W. ½ of this lot, containing 53 acres, at the upset price of $150, cash.

3. My father leased the said premises from Nelson Lingham of the City of Belleville in or about the year 1876 and paid rent therefor to the said Nelson Lingham and after the death of my father I personally paid rent to the said Nelson Lingham, from whom I leased the said property.

4. My said father ~~and later, I myself, after my father's death~~ paid taxes on the said property to the Tax Collector for the Township of Thurlow. For at least fifty-three years I have resided on the said property or in the Township of Thurlow and have known the said property intimately during that said period and I never heard of the said Nelson Lingham who died about fifteen years ago nor his son, Walter Lingham who has owned the said property since the death of his father making any acknowledgement that the Crown or anyone else had any interest in the said lands and premises as owner, and for the said fifty-three years to the best of my knowledge, information and belief it has been the general impression shared in by allthe neighbours who reside near the said premises that the said Nelson Lingham and after his death his son, Walter Lingham have been the sole owners of the said property.

5. I verily believe that if the said Nelson Lingham or his son, Walter Lingham had at any time acknowledged the ownership to have been in the Crown or anyone else that I would have been advised of the same owing to my intimate knowledge of the said lands and my personal acquaintance with the said Nelson Lingham and the said Walter Lingham.

AND I make this solemn Declaration conscientiously believing it to be true, and knowing that it is of the same force and effect as if made under oath and by virtue of the Canada Evidence Act.

Do Solemnly Declare, that

1. I am seventy-one years of age and over and since in or about the year 1861 have resided on the farm adjacent to lot 29 in the First Concession of the Township of Thurlow which lies immediately northerly of lot 29 in the Broken Front Concession of the Township of Thurlow and I have since 1861 intimately known the last mentioned lot.

2. From the said date until the death of Nelson Lingham I personally knew the said Nelson Lingham who was in possession either personally or by his tenants of the said lands and premises until his death and since his death his son, Walter Lingham haspersonally or by his tenants been in possession of the said lands and premises.

3. To the best of my knowledge, information and belief the said Nelson Lingham until his death and after his death his son, Walter Lingham leased the said premises from time to time and collected the rents therefrom.

4. It has always been understood by those residing adjacent to the said lands and premises that the said Nelson Lingham owned the said property outright and I never heard of him making any acknowledgement ofany title in any other person or persons or in the Crown and I verily believe that had the said Nelson Lingham been a tenant of the Crown or made any acknowledgement to the Crown I should have known of the same.

The Secretary, Department of Indian Affairs,
Ottawa, Ont.

Dear Sir,- Attention Mr. Caldwell

You will possibly recall that when the writer was in Ottawa on February 25th last he took up with you the question of obtaining a patent to lot 29 in the Broken Front Concession of the Township of Thurlow. At that time on looking up the title he found that an offer had been made to issue the patent to Nelson Lingham upon payment of $468.00 being at the rate of $4.00 per acre. You will remember that I represented Mr. Walter T. Lingham the son of Nelson Lingham and who became entitled to the property under the will of his father. You will remember also that I pointed out that there has been adverse possession as against the Crown for well over fifty years and I suggested to you that declarations establishing this fact could be procured. You then stated that while no decision could be given at that time that any declarations that I might forward would be considered by the Department and that possibly if the evidence were sufficiently strong some compromise price might be arranged.

I have therefore had completed and enclose herewith declarations by the following parties:- James Bunnett, George Greatrix, William H. Grills, Thomas Vivian and Richard E. Vivian.

It is submitted that this evidence should be sufficient to show that technically the property has vested in my client. Will you kindly consider the matter and advise me as to whether the Crown will consider granting the patent gratis or in the alternative whether they will accept a compromise figure of say $2.00 per acre.

Yours truly,

Ottawa, August 8th, 1929.

Sirs,-

I am acknowledging receipt of your letter of the 18th ultimo and accompanying papers, with reference to Lot 29 in the Broken Front Concession of the Township of Thurlow and advise that the Department is prepared to carry out a sale in favour of your client, Mr. Walter T. Lingham, but is not prepared to accept his valuation of $2.00 an acre. In 1917 the question of disposing of Lots 29 and 30 was receiving consideration and it was decided to have a fair valuation then placed on the lots and our Local Agent, Mr. G. M. Campbell, reported that he valued Lot 29 at $4.00 an acre. In order to bring the matter to a speedy conclusion, we might compromise on a valuation of $3.00 an acre, making a total purchase price of $351.00 instead of $468.00.

Sir,-

I have the honour to acknowledge receipt of your letter of 17th instant, in which you submit for opinion certain questions as to the effect of passing the qualifying examination prescribed by the Civil Service Act.

Your first question is whether the qualifying examination will qualify for appointment to the position of a junior second class clerkship in the first or inside division of the Civil Service.

With regard to this question, I beg to state that under the new Statute, Chap. 16 of the Revised Statutes, 1906, Sec. 18, the passing of the qualifying examination does not qualify for such an appointment. It qualifies in the inside service for the following appointments or employments only, viz., those of third class clerks and temporary clerks or writers.

The Minister considers, however, with regard to those who passed the examination before the Revised Statutes came into force, the Act of last Session respecting the Revised Statutes, 1906, is open to the construction that existing qualifications are saved, and, therefore, that such persons are still eligible for appointment to the junior second class and as well also to the second class.

I may state that the question with regard to the effect of passing the qualifying examination was carefully considered by the commissioners for the revision of the statutes who came to the conclusion that although perhaps the letter of the statutes as they stood authorised the appointment to either the third, the junior second

316283

second or the second class, yet the apparent intention, having regard to the history of the legislation and the circumstances, was that this examination should qualify only for the lowest class, and consequently effect is given to that view in the revision. Nevertheless it was not intended to interfere with existing qualifications, and the view of this department is that these are saved by the Act respecting the Revised Statutes, which will be found printed at page ix of the statutes as published.

If as a matter of policy the Government wish to extend the qualifications for the future so as to apply to junior second class appointments or second class appointments, it will be an easy matter to provide for that expressly in the amendments which presumably will be introduced upon the report of the Civil Service Commission. As the matter stands, however, the Statute Revision Commissioners were of opinion that the evidence of intention pointed the other way.

I have the honour to be,

Sir,

Your obedient servant,

re E. 1/2 Lot 13, Con. 2, E.B.R. Albemarle. Bruce Co.

I have instructions to make application for grants of the above, and 15 or 16 other lots in the same township, all of which have been paid for. These lots are called bush lots, rocky and un-fit for cultivation. The timber seems to have been removed leaving only trees fit for fuel, of little value.

Will the Department issue the grants upon the applicants filing with their application, declarations proving these facts.?

An early reply will oblige.

Dear Sir:-

A transfer has been filed to one Henry White of the East-half of lot 13 Concession two E. B. R. Albemarle County of Bruce. We wish to inform you that this transfer has been made in what seems to us an improper way. The lot stood in the name of George S. Parr who Mortgaged it to our clients The British Canadian Loan and Investment Company and out of their advance they paid the balance of the purchase money for the lot. The mortgage became in arrear and after being offered for sale was sold to one Moo re who has been making payments thereon to the Company, but who still owes a considerable balance. Moore transferred his Contract to White. We proposed to make a conveyance to White under power of sale in our mortgage which would have given him a good title, but you will see that in order to carry out that sale it would be necessary that the patents remain in the name of Parr who made the mortgage to the Company.
Mr. Ed. Stonehouse of Wiarton acting for these parties, thought to take a short cut, by obtaining a transfer from Parr to White thus cutting out the ~~thump in his~~ Company's mortgage altogether. We pointed out to Mr. Stonehouse the result of this being done as he was acting at the same time for our Company, and were not aware that he had followed this course until to-day. We wish you to place this on file so that no patents can be issued to White and if nec-

Gentlemen:-

I beg to acknowledge the receipt of your communication of the 10th instant, regarding the east one half of lot 13, Concession 2, E.B.R. Albemarle, and in reply to say that this half lot stands on the books of the Department in the name of Henry White, under a regular transfer from George S. Parr, the original purchaser. The land has been paid in full and in case Henry White makes application for Patent and files usual evidence of compliance with conditions of sale as regards occupation and improvement, the Department would be unable to withold the Patent unless a Lis Pendens issued out of a court of competent jurisdiction is filed in the Department.

I may say that, a mortgage being a conditional assignment, cannot be accepted or registered under the provisions of Section 43, Chap. 43, Revised Statutes of Canada, being the Indian Act.

My dear Pedley,

Several months ago I wrote you about getting the Deed for Lot 8, Con. 2, Tekhummah, for one William Hunter. The price that was put on it was $50, but from what I can gather about the lot it was not worth nearly this amount. Mr. Hunter would be willing to pay $20 for it or possibly $30 for the sake of getting the firewood. I wish you would write the agent to have another valuation of it made. This will not cost much and I think you will find that the Lot is not worth the price that is put on it now. Kindly let me know if you will have this done.

I have your communication of the 11th Instant, dealing with valuation of Lot 8, Con 2, Tehkummah, which, you state, has been applied for by one William Hunter, and in reply would beg to say that this Lot was patented on the 13th January 1880 to Mr. John Dawson.

I am unable to find any application for a Lot in Tehkummah, by Mr. William Hunter, and if you will be good enough to say whether you do not refer to some other Lot in this Township, and if so, giving the number thereof, I shall have the matter looked into.

In reply to your letter of the 16th. ulto. re application of William Hunter for Lot 8, Con. 2, Tekhummah, I find he made a mistake in giving me the number he did. It should have been Lot 28, Con. 2 Tekhummah, for which he offers $20. There was some correspondence about this a year or more ago when I think you put a price of $30 or $40 on it but I would like Hunter to get this Lot and think probably he is offering about all it is worth.

Sir,

I have the honor to report that Mr William Hunter applies to have Lot 28, Con. 2, Tehkummah examined under Sec. 6 of the Land Regulations.

Mr Hunter informs me that on examining the Lot he finds that it is for the greter part totally unfit for settlement but that he would like to have it examined at his expense by a Forest Bailiff and sold under Sec. 6 of the Regulations giving him credit on account of the purchase price for the $15. paid at the time he located the lot.

The above mentioned Lot was sold to Mr Hunter on the 12th February 1904 under sale No 4018 and he paid at time of sale $15.00 as a first instalment.

I am receipt of a letter from Mr R Gault the Agent of Messrs Playfair & White in whose timber limits this lot is located stating that the lot is of no value to the Company for timber purposes and that they have no objection to its being sold under Sec.6.

I would most respectfully recommend that authority be given to have the lot examined by a Forest Bailiff and if his sworn report bears out the contention of Mr Hunter, that the sale be cancelled and a new sale enterd to Hunter under Sec. 6, giving him credit for the $15, already paid.

Ottawa, February 5, 1908.

To the Deputy Minister-

On the 19th of February, 1907, Mr. Agent Sims submitted an application by Mr. William Hunter, to be allowed to acquire Lot 28, Con. 2, Tehkummah, under Sec. 6 of the Regulations.

This lot was sold to Mr. Hunter on the 12th of February, 1904, on the usual conditions as to settlement, and he paid at time of sale the sum of $15.
Mr. Agent Sims reported that he was in receipt of a letter from Mr. Gault, the agent of the timber licensees, stating that the lot was of no value to the company for timber purposes, and they had no objection to its being sold under section 6.

In view of the above, Mr. Agent Sims was instructed to have the lot examined and valued by Mr. Inspector Fraser in the usual way.

The Agent now submits, sworn return that the lot is unfit for farming purposes, and places a value thereon, including the timber, of $96.00, and the agent recommends sale to the applicant at this sum, less the amount already paid on the lot.

I would beg, therefore, to recommend that a sale under sec. 6 be made accordingly, and that upon the agent collecting and transmitting the sum of $81.00, the old sale be cancelled and a re-sale entered under sec. $ 6.

With Cheques.

Sir,

I beg to acknowledge the receipt of ~~the~~ public accounts incurred on behalf of the Chippewas and Pottawatimies of Walpole Island; and in reply I enclose herewith cheques Nos 2509 to 2514 and 2515 to 2521 in settlement of the same.

The account for $5.30 (Chippewas of Walpole Island) in your own favour is returned herewith. It should be supported by receipts. You should forward a separate account from the Toronto Globe for the advertising which you had done, and you should attach to the account from the Globe a clipping of the advertisement in question . This is necessary in order that the account may be sent (in the usual way) to the King's Printer for taxation.

The account in favour of Messrs Stonehouse Bros (Chippewas and Pottawatimies of Walpole Island) for supplies furnished for a "bee" should be rendered in detail. All accounts from merchants should be attached to voucher forms , instead of being copied on the forms. By following these instructions you will avoid unnecessary writing.

With reference to J. S. Saint & Co's account (Pottawatimi of Walpole Island), I beg to say that the two charges therein of $9.50 each for a coffin for the burial of a child are considered very high. I may remind you that the funds at credit of this band are very small, and economy should be observed. The Indians should dig the graves without making a charge.

You obedient servant.

Ottawa, 16th January, 1906.

Sir,-

The question of providing some relief for Indians in the Province of Ontario affected with tuberculosis has for some time been engaging the attention of this Department. While it might be possible to provide upon the larger Reserves or in some central locality a sanitarium exclusively for the use of Indians and to maintain such institution under the direct control of the Department, it would appear to be preferable to make use of facilities already in existence for the treatment of white patients and merely to assume responsibility for the financial part of the undertaking. In this way the Department would have the advantage of expert knowledge and the experience gained in conducting institutions of this character. You are aware that the Department has occasionally applied for accommodation for Indians at Gravenhurst Sanitarium and in several cases the Indians have been admitted and good results have followed. It occurred to me that it might be possible to make some arrangement with the Sanitarium Association to provide a ward exclusively for the use of Indians for the erection and maintenance of which this Department might become responsible. If you are at all interested in this suggestion, would it be too much trouble to make an estimate of the cost of the erection and equipment of a ward to accommodate say twenty Indian patients. I would also like

to know whether the cost of maintaining a ward exclusively for Indians would be any greater than the present charges for the maintenance of white patients. The prevalence of tuberculosis amongst the Indians generally is very marked and ~~I desire if possible~~ it is desired to take some steps to meet the needs of the case.

Dear Sir;-

I have your esteemed favor of the 10th inst making enquiry regarding the care of Indians in the Province of Ontario afflicted with tuberculosis.

I am glad to know that the several patients we have had from time to time, at our institutions, have shown the benefit of Sanitarium treatment in Muskoka.

I will place your letter before a meeting of the executive to be held at an early date. In the meantime, could you say when you speak of accommodation for 20 Indian patients, whether there would be 20 in residence at one time, or what would likely be the maximum number at one time. There would be no difficulty, with our many acres in Muskoka, in providing the necessary accommodation, and giving the benefit of our medical staff, nurses, and general equipment.

Very truly yours,

I reply to your letter of the 11th instant, in the matter of the proposal that an arrangement be come to between the National Sanitarium Association and the Department whereby a ward may be provided at the Gravenhurst Sanitarium for the exclusive use of Indians, I beg to say that while it is difficult to state exactly what number of Indians would be in residence as patients at one time the Department would endeavour to keep the number up to twenty, but would not exceed that number.

The result of the deliberations of the Executive will be awaited with great interest.

Mr. Frank Pedley,
Deputy Supt. General,
of Indian Affairs,
Parliament Bldgs.,
Ottawa, Can.

Dear Sir;-

Referring to your esteemed favor # 293200, and correspondence that has since grown out of this. Your letter was placed before a meeting of the executive committee of the National Sanitarium Association yesterday afternoon. A very unanimous desire was expressed by the committee to co-operate with the Government in the effort to provide the needed accommodation and treatment for Indians in the Province of Ontario affected with tuberculosis.

With the large expanse of ground owned by the Association in Muskoka, and with the complete equipment for the treatment of tuberculosis the committee would not anticipate any serious difficulty in caring ror say twenty Indian patients, and placing at their disposal the expert skill of our institution.

Referring to your first question, as to the " cost of the erection and equipment of a ward to accommodate say twenty Indian patients". I need hardly point out, and take it that your letter means this, that a separate building would need to be erected. There would need to be two distinct wards for male and female patients, with the necessary lavatory, kitchen, and dining room accommodation. Then there is the necessity of having several smaller wards, to which patients who might be taken acutely ill could be removed. These we term infirmary wards.

You will doubtless appreciate the importance of these suggestions when I say that the fear of infection from tuberculosis that takes hold of many people has been one of the difficulties we have had to contend with right along in our work in Muskoka. Two years ago we were compelled to expend over $5000.00 in the erection and equipment of a special laundry, from the fact that the local laundries, and those in the city refused our work. We have thought it best to give you particulars of the proposed building, as it seems to us necessary, before preparing any plans or estimates of cost.

Touching your second question as to whether " the cost of maintaining a ward exclusively for Indian patients would be any greater than the present charges for the maintenance of white patients." It is the opinion of our Trustees that there would be no difference in this respect.

I am authorized by the executive to say that we shall be glad to go into this matter quite fully with the Indian Department without any delay on our part. It has been suggested that probably you could make it convenient to come to Toronto, and in company with representatives from the Trustee Board visit Gravenhurst, and go over the whole situation

right on the spot. I shall be pleased to receive word from you that this suggestion will meet with your approval; or we would gladly get a closer connection with the proposition in any other way that will suggest itself to you as best.

Dear Mr. Pedley;-

Our architect, Mr. Edmund Burke, of Burke & Horwood, is going to Muskoka to-day, to look into some building matters there for us, and I have asked him to go over the ground and make suggestions regarding the proposed pavilion or special building for Indians. This is on the line of the suggestion from your Mr. Scott, from whom I had a call a fortnight ago. I would be glad to hear from you if the matter is taking any definite shape, if so I could ask Mr. Burke to prepare sketch of proposed pavilion.

Sir:

The Department has been considering the financial side of the Sanitorium question which accounts for the delay in replying to your letter of the 26th. ultimo.

The difficulty is in providing funds for maintenance. The Department understands that it will cost $8.23 a week for each patient. It would be useful at the present stage for the project to have a rough sketch and an approximate estimate of cost for the proposed pavilion. It is supposed that your architect's charges will be moderate.

Referring to your letter # 293200. As I understand it you desire that our architect should prepare a rough sketch and approximate estimate of the cost of the proposed pavilion for Indian patients at the Muskoka Free Hospital for Consumptives . I feel sure that the architect's charge will be moderate. I am writing him on that point.

Re the cost of maintenance. I trust that I have made myself clear, as our Trustees are quite desirous of helping in this work as far as it is in their power. The charge for maintenance will be simply the actual [redacted] cost of same.

Dear Mr. Pedley ;-

Referring again to yours of the 20th inst. # 293200. Our architect says that his charges for plans, specifications, and superintendence of the proposed Indian Pavilion would be 5% of the cost. To prepare sketch only the charge would be 1%. This would be included in the 5% if the work went on. Would you kindly say if I shall instruct the architect to prepare sketch.

Dear Mr Pedley:-

I am sending you by mail to-day under separate cover, blue prints of the proposed Indian Pavilion, at the Free Hospital for Consumptives, Gravenhurst. These have just come into my hands from the architects, Burke & Horwood. Mr. Burke writes me as follows in regard to the plans:-

"The plans are based on a very good arrangement which we saw published, consisting of a main building containing the lavatory and dressing accommodation, sitting room and staff quarters, and several bed rooms for patients on the second floor. Sleeping pavilions are suggested as one-story wings. Dining room and kitchen accommodation is provided in a wing as shown. We think we have obtained the maximum of accommodation at the minimum of expense, considering all the requirements of an institution of this kind. We estimate the cost, including architects' fees and contingencies at $16,500.00. "

We shall be glad to answer any further questions in regard

Memorandum:

The Deputy Superintendent General.

I beg to report that I have examined the plan of proposed Indian sanitarium for the treatment of tuberculosis at Gravenhurst, Ontario.

The plan appears to have been carefully thought out and should meet the necessary requirements.

It is presumed that the accommodation and equipment are similar to the other sanitarium buildings there, although it would appear that the room provide for staff, stores and domestic requirements is much greater than that provided for the exclusive use of patients.

The sanitary appliances appear to be ample and complete; there being four bathrooms and lavatories for male and female patients and two bathrooms for staff besides sinks, etc., for the nurses, and a full equipment for kitchen and pantry use.

Provision is made for sleeping and bed accommodation for sixteen patients on ground floor in pavillion wings and five in bedroom on first floor making in all accommodation for twenty-one patients.

The sleeping pavillions are so situated as to procure as much fresh air and sunshine as possible; and are undoubtedly, in the daytime, sun-baths.

The dining room will afford complete accommodation for all patients.

The building appear to be frame covered with shingles and shingle roofs. The foundation under main and kitchen buildings is of stone, brick or cement and extension pavillion wings, porches, etc., on brick or cement piers.

The heating system is not outlined on the plan but will probably be a low, steam pressure, heating plant.

The cost of the building complete so far as I can ascertain from the plans without specifications will be about 12,600.

Equipment 3,140.

Architect's fees 5% cost of buildings and equipment .800.

Travelling expenses, architect .200

Total - - - - - - - - - $ 16.740.

It is quite probable that in completing the building and equipment that an additional two thousand five hundred dollars will be found necessary, making a ($ 2,500.) total of $19,240

---

20 patients at $8.23 per week 8,559.20

Or an annual cost of $428. for each patient under treatment.

Appropriation necessary, in my opinion, for building, equiping and maintaining Institution for first year will be twenty-eight thousand dollars.

Dear Sir:-

I notice from reports in daily papers that consumption continues to make serious inroads among our Indian population. What is the thought of the Department regarding the proposition to have a pavilion erected at the Muskoka Free Hospital for Consumptives, especially for the care of perhaps twenty or more Indians suffering from this disease? Of course, you remember we went into this matter at some length now nearly a year ago, and our Architect, at your request, submitted plans. It may be that you are thinking of building in the early spring, and as we are also making some extensions to our regular plant, I would be glad to hear from you, so that the whole could be planned together.

Lack of funds specially provided makes it impossible for us to do anything toward erecting an Indian ward at Gravenhurst. The initial capital expenditure and the annual support of each patient is so heavy that we would require an appropriation of about $20,000.00 for the building and about $9000.00 for the maintenance of 20 patients. We have only a small grant of $5000.00 to assist in suppressing tuberculosis amongst Indians. We might try to get the money next year

My dear Sir:-

Several years ago I had communication from you asking the cost of erecting a building for the care of say twenty Indians afflicted with Tuberculosis. As you are aware, we have been caring for such Indian patients as have been sent us from different sections of the Province; your Department paying the cost of maintenance. We have received some of these patients from the several Indian Schools throughout the country and have also had adult Indians as patients.

It would seem an opportune time to again bring the subject before you for further consideration. We are just now completing a new building to accomodate 100 children; we have an Institution at Weston (near Toronto) for the care of advanced cases and we have an Institution at Muskoka for the care of patients in the early stages of the disease.

We are now considering the taking over of several new buildings that have been placed at our disposal.

In view of the facilities for handling these patients, it has occurred to me that your Department might see fit to initiate a movement for

Mr. H. A. She has no home, and her only support is her mother, who works at small wages. The people with whom the girl has been staying refuse to keep her any longer, being afraid of the possibility of infection in their own family. She has now been ill for about two years. The lungs are pretty well invaded by the disease and the possibility of recovering is doubtful. I write to find out if there is any possibility of the Indian Department getting her into the Sanatorium. I may add that she speaks English well."

Ottawa, December 17th, 1912.

Sir:-

Referring to your letter of the 27th November. Parliament has placed at the disposal of this Department limited funds for the purpose of preventing the spread of tuberculosis; so far as this monetary provision will allow the Department will be glad to make use of your hospital as in the past. With this end in view our Medical Officers in Ontario will be communicated with.

It is hoped that many of the Indians on the Reserves who are now receiving no attention may consent to receive hospital treatment. The difficulty which is always experienced is to get the afflicted person to leave home and enter a hospital. It is hoped that this disinclination may be overcome.

The prompt admission of prospective patients would no doubt be advisable, as when once the resolution to enter the hospital is taken should be acted upon with the greatest despatch. If the Department could be reasonably assured that there would be vacancies for any Indian patients up to a certain number, the admission of the patients would be expedited. I presume that the lowest charge for these patients would be $1.00 per diem; the Department paying the cost of transportation both ways. I would be glad to hear from you further in regard to this matter.

The clipping which you enclosed with reference to Emily Gray, an Indian of the Chapleau Agency, has been noted. The Department was in communication with the

My dear Sir:-

Replying to yours - #293,200- dated December 17th.

I note your suggestion that the Indians on reserves may consent to receive Hospital treatment.

I assume that with a view of ridding the Province of a contagious disease like Tuberculosis, there should be the same compulsory notification and provision made as is now made for cases of Tuberculosis among the Whites. | You are doubtless aware that the law has recently been changed in this particular and that all needy patients who are afflicted with Tuberculosis where proper supervision is not exercised must be provided for by the Municipality by removing them to a Sanitarium or Hospital. | It is not left with the afflicted person to choose the option of whether they go or stay, and it would seem that no other method can be adopted if the disease is to be effectually stamped out.

We are now making arrangements for a large extension of our work, and would like to know how many patients you would like to care for. The rate of $1.00 per day does not cover cost of maintenance. The cost, as you are aware, has been gradually increasing until now it is at least $9.50 per week. We do not receive any aid from the Ontario Government for Indian patients-

At present we receive from the Municipality of Toronto $4.90 per week, together with $3.00 from the Government. We expect after the beginning of the year the Municipality will increase the per diem allowance to the Sanitarium, the same as they have to the Hospitals of Toronto which is $7.00 per week or $1.00 per day. The per diem allowance, therefore, for Indian patients should be from the Federal Government not less than $1.25 per day.

Sir,

In looking again over your letter of the 19th ultimo, it is observed that you state as follows;- "You are doubtless aware that the law has recently been "changed in this particular and that all needy patients "who are afflicted with Tuberculosis where proper super- "vision is not exercised must be provided for by the "Municipality by removing them to a Sanitarium or Hospital" In this connection the Public Health Act and the Hospital Charities Act, Statutes of Ontario 9th George Fifth, Chapters 58 and 85, respectively, have been referred to. Sections 52, 56 and 61 of the former and section 19 of the latter Act in particular seem to be in point but it appears to the Department that it is in the discretion of the Municipal Health Officer as to whether he would send a patient to a hospital or sanitarium or not. It is just possible, however, that some other Act deals with this matter or that something in these Acts has been overlooked by the Department, and if so it would be obliged if you would point out the chapter and sections you had in mind when writing.

REGULATIONS FOR THE CONTROL OF COMMUNICABLE DISEASES.

NOTE.—Containers for samples of sputum, culture tubes for diptheria swabs, and slides for blood samples may be procured free by physicians from their local M.O.H. These will be examined free of charge and prompt report made by the Laboratory of the Provincial Board of Health, Toronto, or by the branches at Kingston and London.

REGULATION 1.—The Medical Officer of Health of every municipality where a patient is suffering from scarlet fever, measles, diphtheria, leprosy, smallpox, cholera, bubonic plague, epidemic anterior polio-myelitis, or epidemic cerebro-spinal meningitis, *shall* forbid, by notice posted upon the entrance to premises in plain view of the public, any person except the attending physician, health officer, clergyman, nurse, sanitary inspector or, in case of death, the undertaker, from going to or leaving such premises without his permission, or the carrying off, or causing to be carried off, any material or article whereby such disease may be conveyed, until after the disease has abated and the premises, dwelling, clothing and other contents have been rendered free from danger by means of such disinfection and cleansing as the Provincial Board of Health may direct, and he shall prescribe the precautions to be taken.

A quarantine card must give the name of the disease and in every way conform to Rule 31 of Schedule B of the Public Health Act, as follows:

"The Medical Officer of Health, within six hours after he has received notice of the existence in any house of any communicable disease in respect of which it is his duty to do so, shall affix, or cause to be affixed, near the entrance of such house a card at least nine inches wide and twelve inches long, stating that such disease exists in the house, and stating the penalty for removal of such card without the permission of the Medical Officer of Health, and no person shall remove such card without his permission."

REGULATION 2.—The Medical Officer of Health may name upon such card the period of quarantine required.

REGULATION 3.—Sections 49, 50, 57, 58, 60, 62, 64, 66, 67 and 71, and Rule 31 of Schedule B, of the Public Health Act, shall apply to the following communicable diseases, viz.: Smallpox, scarlet fever, diphtheria, chickenpox, whooping cough, measles, typhoid fever, cholera, bubonic plague, leprosy, epidemic anterior polio-myelitis and epidemic cerebro-spinal meningitis; except that, while all of these diseases are required to be kept isolated from the public, whooping cough, chickenpox and typhoid fever need not be placarded.

REGULATION 4.—In cases of diphtheria, scarlet fever, measles, cholera, bubonic plague, epidemic anterior polio-myelitis, or epidemic cerebro-spinal meningitis, the Medical Officer of Health may, if he is satisfied of the effectual isolation of the patient, permit those who do not have the direct care of the patient or patients to leave the premises in order to attend to their regular duties, except when such individuals are employed or in any way engaged in the handling or preparing of articles for food or clothing, or are associated with children away from the quarantined house.

Teachers or children in the quarantined house who are in attendance at school, college, university, or other institution of learning, must be excluded therefrom while their home is under quarantine. The patient or patients and those having charge of them must be under rigid quarantine as directed in Regulation 1.

REGULATION 5.—The Medical Officer of Health shall be satisfied that the cleansing and disinfection of any house, building, car, vessel or vehicle, or any part thereof and of any articles therein likely to retain infection, are satisfactorily carried out before the quarantine is removed

REGULATION 6.—When furniture, bedding, clothing, carpets or other articles that have been exposed to infection through contact with infected persons or articles cannot be disinfected, they may be destroyed by order of the local Board of Health or Medical Officer of Health, and the Board may make recompense therefor.

REGULATION 7.—No person shall let for hire, cause or permit any one to occupy apartments previously occupied by a person ill with smallpox, scarlet fever, diphtheria, measles, cholera, bubonic plague, epidemic anterior polio-myelitis, epidemic cerebro-spinal meningitis, whooping cough, chickenpox, typhoid fever, glanders, erysipelas, tuberculosis, mumps, leprosy, anthrax or rabies until such apartments shall have been disinfected under the supervision of the Medical Officer of Health or official acting under his instructions, in accordance with the requirements of the Provincial Board of Health.

REGULATION 8.—Whenever the order or direction of the Medical Officer of Health, requiring the disinfection of articles, premises or apartments, is not complied with, the Medical Officer of Health shall forthwith cause to be placed upon the door of the apartments or premises a placard in word and form as follows:

REGULATION 11.—The Medical Officer of Health, having knowledge of or having reason to suspect the existence of scarlet fever, shall investigate, if necessary, and shall at once place under quarantine all persons found to be suffering from, or suspected of suffering from, scarlet fever, and those having the care of or coming in contact with such persons, except such as mentioned in Section 1 of the Regulations for the Control of Communicable Diseases.

The period of quarantine for scarlet fever shall not be less than SIX (6) WEEKS, and may be longer. Quarantine must not be raised until the Medical Officer of Health has satisfied himself that there is no further danger of infection from the patient. The quarantine must not be raised, unless the infected patient be removed or die, until six weeks or more, as the case may be, after the appearance of the last case in such family or household.

REGULATION 12.—The apartments occupied by a scarlet fever patient shall be deemed infected, and when vacated by death or removal of the patient shall, together with the contents, be thoroughly disinfected under the supervision of the Medical Officer of Health. All persons having occupied such apartments during the quarantine period must have their clothing disinfected and take disinfecting baths before being released from quarantine. All disinfection prescribed in the Regulations shall be part of the control of the disease.

REGULATION 13.—No milk container shall be returned to any dairy or milk vendor from a house where scarlet fever exists.

REGULATION 14.—No milk, butter or other dairy product shall be sold or given to any party or delivered to any creamery or butter factory from a house where scarlet fever exists.

REGULATION 15.—Every physician shall report forthwith in writing to the Secretary of the local Board of Health the death of any scarlet fever patient under his care within twelve (12) hours thereafter.

REGULATION 16.—The Secretary of the local Board of Health must report at least weekly to the Secretary of the Provincial Board of Health all cases of scarlet fever occurring within his municipality.

DIPHTHERIA.

REGULATION 17.—A suspicious case of diphtheria must be quarantined until the diagnosis is confirmed or disproved. An undoubted clinical case of diphtheria must be quarantined even if the laboratory examinations give negative findings.

REGULATION 18.—The quarantine of diphtheria in public institutions where the population *is resident* shall be governed by both clinical and laboratory examinations. Immediately after the appearance of diphtheria in an institution the Medical Officer of Health

shall notify the Secretary of the Provincial Board of Health, who shall supply facilities for taking cultures, if necessary, from all residents of the institution. All individuals, whether sick or well, who are found in the institution harbouring diphtheria bacilli shall be quarantined until a negative report is made upon nose and throat cultures. They shall then be properly cleansed and disinfected and placed in other detention quarters until two later and successive negative reports on double examinations of nose and throat are made, whereupon they may be released after proper disinfection.

REGULATION 19.—The apartments occupied by a diphtheria patient shall be deemed infected and when vacated by death or removal of the patient shall, together with their contents, be thoroughly disinfected in the manner prescribed in the instructions *re* disinfection as issued by the Provincial Board of Health. All persons having occupied such apartments during the quarantine period must have their clothing disinfected and take disinfecting baths before being released from quarantine. All disinfection prescribed in the Regulations shall be part of the control of the disease.

REGULATION 20.—No milk container shall be returned to any dairy or milk vendor from a house where diphtheria exists.

REGULATION 21.—No milk, butter or other dairy product shall be sold or given to any party or delivered at any creamery or butter factory from a house where diphtheria exists.

REGULATION 22.—Every physician shall report forthwith in writing to the Secretary of the local Board of Health the death of any diphtheria patient under his care.

REGULATION 23.—The Secretary of the local Board of Health must report at least weekly to the Secretary of the Provincial Board of Health all cases of diphtheria occurring within his jurisdiction.

REGULATION 24.—So-called membranous croup shall be classed, quarantined and cared for as diphtheria.

MEASLES.

REGULATION 25.—Persons suffering from measles must not be allowed to leave the premises until after the expiration of the period of quarantine as set forth in the Regulations of the Provincial Board of Health.

WHOOPING COUGH.

REGULATION 26.—Persons suffering from whooping cough must not be allowed to leave the premises until after the expiration of the period of quarantine as set forth in the Regulations of the Provincial Board of Health.

CHICKENPOX.

REGULATION 27.—Persons suffering from chickenpox must not be allowed to leave the premises until the expiration of the period of quarantine as set forth in the Regulations of the Provincial Board of Health, and not then unless desquamation is fully completed.

TYPHOID FEVER.

REGULATION 28.—A physician in attendance upon a case of enteric (typhoid) fever, or suspected enteric fever, shall report the same within twelve (12) hours to the Secretary of the local Board of Health, who shall in turn report at least weekly to the Secretary of the Provincial Board of Health all cases so reported to him upon blanks furnished for that purpose.

REGULATION 29.—The Secretary of the Provincial Board of Health shall keep careful and accurate record of all reported cases of typhoid fever. The same shall not be for publication, but may be used by the said Board in the discharge of its duties.

REGULATION 30.—No person affected with typhoid fever or in charge of a typhoid patient shall so dispose of the excreta or other infectious bodily secretion or excretion so as to infect or cause offence or danger to any person or persons, and all fæcal discharges shall be placed in a vessel containing an equal quantity of 1-in-500 solution of bichloride of mercury for at least one hour before being finally disposed of.

REGULATION 31.—It shall be the duty of those having charge of a typhoid fever patient or patients to see that the excreta and other infectious bodily secretions or excretions from such patient or patients are properly disinfected.

REGULATION 32.—The apartments occupied by a typhoid fever patient shall be deemed infected, and when vacated by death or removal of the patient shall, together with their contents, be thoroughly dis-

infected under the supervision of the Medical Officer of Health. All disinfection prescribed in this rule shall be part of the control of the disease.

REGULATION 33.—The Medical Officer of Health in cities, towns and villages shall keep in his office a map of the municipality and shall mark thereon the lot, street or other place where the case of typhoid fever or suspected typhoid fever occurred, and shall also make a further distinguishing mark where the death of a patient is reported to him.

RABIES.

REGULATION 34.—When an animal suspected of having rabies has bitten a human being, the fact should be immediately reported to the Medical Officer of Health, who shall secure, or cause to be secured, such animal alive and without injury if possible. The animal shall at once be safely chained up and confined in a safe and comfortable place and a report, giving full particulars concerning the action taken, sent to the Secretary of the Provincial Board of Health. This report shall include the name of the locality in which the biting occurred (city, town, village or township), the date of biting, the name, residence and address of the owner of the animal, the full name of the person bitten, together with place of residence, and the names, addresses and residences of all owners of animals which have been bitten by the animal in question, together with a list and description of the animals bitten and the disposition made of the same

Such supposedly rabid animal must be kept under careful observation by the local Officer of Health for at least ten days.

REGULATION 35.—When such suspected animal is killed, care must be taken not to injure the brain or spinal cord. The head and several inches of the neck of the animal must be cut off and sent to the Laboratory of the Provincial Board of Health.

REGULATION 36.—All persons bitten by an animal suspected of having rabies should at once communicate with the Secretary of the Provincial Board of Health and be advised as to the necessity of receiving the Pasteur treatment.

Note.—At present, Pasteur treatment is supplied at cost ($20.00) by the Provincial Board of Health at No. 5 Queen's Park, Toronto.

SMALLPOX REGULATIONS.

REGULATION 1.—Where smallpox is present in any municipality in Ontario, the local Board of Health of the municipality shall at once appoint one or more sanitary policemen for the purpose of assisting to arrest the spread of the disease.

If the Medical Officer of Health or the Provincial Board requires the appointment of any specified number of sanitary policemen, then such number shall be appointed by the local Board. In case the local Board neglects or refuses to make the required appointment, the Provincial Board may appoint as many sanitary policemen for such municipality as it deems necessary.

REGULATION 2.—Any default on the part of the authorities of any municipality in taking immediate and effective action in carrying out the Public Health Act, the Vaccination Act, the Regulations of the Provincial Board of Health, or any health by-law in force in the municipality, shall be at once reported by the Medical Officer of Health to the Secretary of the Provincial Board, in order that the said Board may take such measures as it deems necessary for placing the said municipality in a position to effectively combat the disease.

REGULATION 3.—If any person coming from abroad or residing in any municipality within Ontario is infected, or has recently been infected with or exposed to smallpox, the Medical Officer of Health or local Board shall make effective provision for the public safety by removing such person to a separate house, or by otherwise isolating him, and by providing medical attendance, medicine, nurses and other assistance and necessaries for him.

REGULATION 4.—The Medical Officer of Health shall take proper measures for the disinfection or, if necessary, the destruction of all clothing which may have been exposed to the contagion, and for the disinfection and purification of every premises which may have been exposed to the contagion.

REGULATION 5.—The Medical Officer of Health shall have power to place in another building or tent, which shall be provided by the local Board, all persons who may have been exposed to the contagion, and in such case shall supply them with all necessaries until the period of incubation of the disease shall have elapsed, and no such person shall go or be permitted to go abroad until he has given satisfactory proof of successful vaccination within the preceding seven years or shall

have obtained a medical certificate of insusceptibility to the vaccine disease, nor until the clothing or effects worn or carried by or with him have been properly disinfected, if the same have been exposed to contagion.

REGULATION 6.—When any vessel coming from an infected locality enters any port in Ontario, the Medical Officer of Health having jurisdiction in the port shall make a strict inspection of the vessel and examination of the passengers, officers and crew, luggage, clothing, bedding, freight or other effects before any person, luggage, freight, or other thing is landed or allowed to be landed from it, and where any infected or exposed person is found on board, he shall be dealt with in the manner directed in the preceding Regulation numbered five, and no luggage, freight or other thing shall be landed from the vessel until they have been thoroughly disinfected.

REGULATION 7.—With a view of preventing, by means of a systematic inspection of passengers, baggage and cars, the introduction of infected persons, things and conveyances into the Province, the Provincial Board may, if an epidemic of smallpox exists in any other locality, appoint medical inspectors who shall perform such duties as may be assigned to them by the Board, and may board all trains entering this Province from such other locality and all boats bearing passengers from such other locality to Ontario ports, and any other train or boat suspected of having infected persons, luggage, freight or other effects on board. Every such inspector may take in respect of such persons, luggage, freight or effects any sanitary precaution authorized by the Public Health Act or by any Regulations issued by the Board.

The inspector may require any person travelling on any such train or boat either to produce for examination by the inspector a medical certificate of such person having been vaccinated within the preceding seven years or of being insusceptible to the vaccine disease, or to exhibit to such inspector the marks on his person of successful vaccination, such as to satisfy the inspector that the same has been performed within seven years. In default thereof, the inspector is empowered to vaccinate such person either before he is permitted to leave the train or boat, or immediately thereafter, at his discretion.

Each person so travelling shall answer truthfully all reasonable questions which an inspector shall, in the performance of his duty, ask such person with reference to the places where such person has been and his stay there during the twenty-one days next preceding such inquiry being made; and in case such person refuses or omits

so to do, the inspector shall be justified in presuming that such person has within such time been exposed to infection and in acting accordingly.

REGULATION 8.—The Medical Officer of Health and all other sanitary officers shall, whenever required by the medical inspectors appointed by the Provincial Board, aid such inspectors in providing for and compelling the removal of suspected or infected persons from trains or boats, and for isolating and vaccinating such persons, and for supplying them with medical aid; and the expenses attendant upon the discharge of such duties shall be borne by the Provincial Board in all cases where the persons for which they are performed are unable to pay therefor, and are not residents of the municipality in which they are taken care of, or as otherwise provided for by the Sanitary Regulations in Unorganized Territories.

REGULATION 9.—In every municipality where smallpox exists, or in which the Provincial or local Board of Health has notified the Council that in its opinion there is danger of its breaking out owing to the facility of communication with infected localities, the Council of the municipality shall order the vaccination and re-vaccination of all persons resident in the municipality who have not been vaccinated within seven years, and that such vaccination or re-vaccination shall be carried out in so far as the same may be applicable in the same manner as the vaccination of children, except that a person of fourteen years of age or over but under the age of twenty-one years, who is not in the custody or under the control of his father, mother, or of any other person, and every person of twenty-one years or over, shall present himself for vaccination by the medical practitioner, or by some other legally qualified medical practitioner, and the medical practitioner shall adopt the same measures to secure the vaccination or re-vaccination of every such person, as he is required to take with regard to children.

REGULATION 10.—A proclamation issued by the head of the municipality and published in posters and in at least one newspaper published within the municipality, or, if there is no such newspaper, in at least one newspaper published in the county or district in which such municipality is situate, warning the public that this section is in force, shall be sufficient evidence to justify the conviction of any person who has failed to comply with the law within a period of seven days from the publication of the proclamation.

REGULATION 11.—Every member of a municipal council which neglects or refuses to make the order required by Regulation 9 or to make proper provision for carrying the same into effect, shall incur a penalty not exceeding $25, unless he proves that he did everything in his power to secure the making of the order or the making of proper provision for carrying any such order into effect, and causes his protest against such refusal or neglect to be recorded in the proceedings of the Council.

REGULATION 12.—If the head of a municipality neglects or refuses to issue and publish the proclamation required by Regulation 10, he shall incur a penalty not exceeding $25.

REGULATION 13.—Every person who wilfully neglects or refuses to obey the order of the Council shall incur a penalty not exceeding $25.

REGULATION 14.—Where it is deemed necessary by the Medical Health Officer of any municipality, owing to the presence or threatened presence of smallpox, he may, with the approval of the local Board of Health, require certificates of successful vaccination or of insusceptibility on re-vaccination within seven years of all pupils or students of a public, separate, continuation or high school or collegiate institute and of a college or university, or of any other public or private institution of learning within the municipality, to be presented to the proper authorities of the institution, and no pupil or student refusing to produce such certificate on demand shall be admitted to further attendance in the institution until the certificate is furnished.

REGULATION 15.—Any principal, teacher, superintendent or officer of any such institution who commits or is party or privy to any contravention of Regulation 14 shall incur a penalty not exceeding $20.

REGULATION 16.—The medical inspectors to whom is assigned the duty of inspecting trains and boats coming from outside the Province upon which smallpox exists, or is suspected to exist, shall be governed by the following rules:

(1) They shall examine all persons thereon, note whence they have come, their destination and whether there is any reason to suspect their being infected with smallpox.

(2) The effects of persons regarding whom there is suspicion should be dealt with as directed by the Public Health Act.

(3) If an inspector believes that any such person is infected or that his clothing or other effects contain infection, the inspector shall detain such person, his clothing and effects as aforesaid, at some convenient point *en route* until the period of incubation is over and the clothing and other effects shall be at once disinfected.

(4) If a medical inspector only suspects that any person on board, or the effects of any such person have been exposed to infection, the inspector shall notify the Medical Officer of Health of the municipality to which the person is going, to meet the train or boat and to keep said person thereafter under observation.

(5) In either of the cases mentioned in the two next preceding rules, unless the person believed to be conveying or suspected of conveying contagion shows satisfactory proof of vaccination within seven years or of insusceptibility to the vaccine disease, he shall forthwith be vaccinated; and, if necessary, shall be detained by the Medical Officer of Health until vaccinated by him or some other proper person.

REGULATION 17.—The action to be taken in the event of a case of smallpox being discovered is, shortly, as follows:

(*a*) Detention and isolation of persons affected.
(*b*) Fumigation of car or boat.
(*c*) Vaccination of all persons who have been exposed to the contagion.
(*d*) Detention of any such person who refuses to be vaccinated.
(*e*) Notification of Medical Officers of Health at places of destination.

REGULATION 18.—IN ALL CASES, MEDICAL OFFICERS OF HEALTH AND OTHER SANITARY OFFICERS ARE REQUIRED TO USE EXTREME CARE, TACT AND JUDGMENT IN DEALING WITH THE PUBLIC, SO THAT HAVING REGARD FOR THE PUBLIC SAFETY, PERSONS TRAVELLING ARE NOT UNNECESSARILY DETAINED.

SPECIAL NOTICE TO EMPLOYERS OF LABOUR IN THE UNORGANIZED DISTRICTS OF ONTARIO.

Attention is directed to the following requirements of the Regulations:

1. Notify the Provincial Board of Health forthwith of each camp or works you are now operating and send notice annually hereafter.

2. A physician must be engaged to supervise the sanitary conditions of each camp and works. He must inspect monthly and report in writing to the Provincial Board of Health.

3. Every employer of labour, other than lumber men, must contract with a physician for the medical and surgical care of employees, the maximum amount that can be legally deducted from an employee's wage for such service being one dollar per month without rebate or deduction.

4. Employers of labour in lumber camps must particularly note that they have the option of employing a physician, as provided by Regulation 3.

Those lumber men who do not contract incur certain personal responsibilities regarding the medical care of employees taken ill while in their employ or who may develop an illness, origin of which is traceable to the time of their employment.

5. Every employer shall transmit copy of contract to the Provincial Board of Health.

6. The owner, manager, agent or foreman of each camp or works is responsible for the enforcement of these Regulations and the provisions of the Public Health Act as regards quarantining and isolating of employees.

7. Every employer who neglects to enforce the Public Health Act in each camp or works is subject to penalties.

8. The Provincial Board of Health must be notified at once of each case of communicable disease.

9. Each employee, when requested, shall show a certificate of successful vaccination or re-vaccination.

10. Each camp or works is required to have hospital accommodation for employees, and in addition each camp or works must have separate isolation hospital accommodation for communicable diseases.

11. The Regulations 11 to 18, inclusive, relate to the construction and sanitary conditions of buildings, lavatories and closets; they require the providing of a laundry house, bath-house and kitchen, and require the collection and proper disposal of garbage.

12. Penalties for non-compliance with these Regulations are those contained in Section 109 of the Public Health Act.

THE FOLLOWING SECTIONS OF THE PUBLIC HEALTH ACT REFER TO UNORGANIZED TERRITORIES.

116.—Sections 117 to 123 shall apply only to territory without municipal organization.

117.—(1) The Provincial Board of Health may, with the approval of the Lieutenant-Governor in Council, make regulations:

(*a*) Respecting any industry and the conditions under which the same may be carried on, for the purpose of preventing nuisances and the outbreak or spread of disease;

(*b*) For the cleansing, regulating and inspection of lumbering camps and of mining camps and railway construction works and of other places where labour is employed;

(*c*) For providing for the inspection of houses and premises;

(*d*) For providing for the employment of duly qualified medical practitioners by employers of labour in lumbering camps and in mining camps and on railway construction works and other works where labour is employed, and for the erection of permanent or temporary hospitals for the accommodation of persons so employed.

(2) The regulations may be general in their application or may be made applicable specially to any particular locality or industry.

(3) The expenses of carrying out the regulations shall be paid to the person entitled thereto by the persons, firms or corporations whose duty it may be to carry out such regulations, and the amount so to be paid shall be apportioned by the Minister among them as he may deem proper, and every amount so apportioned shall be deemed to be a debt due from the person, firm or corporation, and may be recovered by the person entitled thereto by action in any court of competent jurisdiction. 1 Edward VII. c. 34, ss. 1-3.

(4) If default is made in complying with any of the regulations, the Board may direct that what is omitted to be done shall be done at the expense of the person, firm or corporation in default, and if the default is the failure to employ a duly qualified medical practitioner, as provided by clause (*d*) of subsection (1), the employing person, firm or corporation shall be liable to pay the reasonable expenses incurred by any employee for medical attendance and medicines, and for his maintenance during his illness.

REGULATIONS FOR THE SANITARY CONTROL OF LUMBER, MINING AND OTHER CAMPS, SAW MILLS AND OTHER INDUSTRIES SITUATED IN THE UNORGANIZED DISTRICTS.

Employers to notify Provincial Board of establishment of each camp forthwith and annually.

1. Every employer of labour on any work in any lumbering, mining, construction or other camp, saw mill and other industry situate in any portion of the unorganized districts without municipal organization, shall, upon the establishment of each and every camp and work, forthwith notify the Provincial Board of Health of the establishment of the same, and annually thereafter upon a date fixed by the said Board, giving particulars as may be required by the said Board.

All employers to contract with physicians for supervision of camps and monthly inspection of same.

2. Every employer of labour on any such work shall contract with a duly qualified physician for the sanitary supervision of camps, dwellings, or works, and such physician shall inspect the same at least once a month or oftener if in the opinion of the Chief Officer of Health the health conditions of the Province require it, and shall forthwith report in writing to the Provincial Board; the first report, however, to be accompanied by a sketch or plan of each camp, showing the location of the various buildings, with distance apart, location of water supply, slopes of ground with drainage, and such other information as may be required by the Provincial Board.

Employers (except lumbermen) to contract with physicians for medical and surgical care of employees; they may deduct from wages a sum not exceeding $1.00 per month.

3. Every employer of labour on any work other than a lumber camp shall contract with one or more *duly qualified physicians* for the medical and surgical care of his employees; and may deduct from the pay due any employee a sum not exceeding $1.00 per month, which shall be paid to the physician or physicians so contracted *without rebate or deduction*, and every such *physician* shall supply medical attendance and medicine to the employees.

Lumbermen have option of employing physicians, but in lieu thereof assume certain responsibilities.

4. Every employer of labour in a lumber camp may contract with one or more duly qualified physicians in the manner hereinbefore provided, and in that case may proceed in the manner authorized by the said regulations, and every physician so contracted with shall possess the powers and perform the duties set out in the next preceding regulation, but every such employer who does not contract for the medical attendance of his employees shall be responsible for the medical care and maintenance of each and every employee taken ill while in his employ, and shall incur a like responsibility for each and every case of sickness which develops in an employee after quitting his service or after being discharged from his employ when, in the opinion of the Provincial Board, the origin of such sickness is traceable to the period of such employment, or to an accident to an employee occurring while in such employ, when the sick or injured person is not able to pay or does not pay for the same—the apportionment and adjustment of the payment of expenses so incurred to be determined according to section 117, subsection 3, chap. 58, 2 George V.

Copy of contract to be forwarded to Provincial Board, which for reasons may require changes in manner herein set forth.

5. Employers of labour on all works in the unorganized districts without municipal organization shall transmit, at the time of the making of the contract, a copy of the same to the Secretary of the Provincial Board of Health, and notice of any subsequent change made in their physicians, or of changes in the contracts between the two contracting parties. Should it appear to the Provincial Board, owing to the distance of the residence of the physician employed from the camps of the company, that the best interests of the employees are not likely to be served, it shall be competent for the said Provincial Board, with the approval of the Minister, to require any employer of labour in such district to contract with some physician residing at or near the works of the company. Should it further at any time appear, owing to the distance of the physician from the camps, or to neglect, or other cause on the part of the company or physician employed, that an employee has been put to expense to secure the medical assistance for sickness or accident other than of employer's physician, the employer and physician shall be held responsible for the payment of a reasonable fee for medical services,

the amount to be paid in such instances to be determined in case of dispute by the Minister of the Department, under section 117, subsection 3, chap. 58, 2 George V.

Owner, Manager, etc., responsible for carrying out of Regulations and Health Act.

6. The owner, manager, agent or foreman of any lumbering camp, mining camp, saw mill, smelting works or other industry, or of any railway construction camp located in any portion of the unorganized districts without municipal organization, shall in connection with every such industry or works be responsible for the execution and enforcement of any regulation herein contained, or of any clause of the Public Health Act governing in any case or circumstance.

The same measures taken by local health authorities to be adopted by employers, agents, etc., in the case of communicable diseases.

7. Every measure required to be taken by a local Board of Health or any Medical Officer of Health, sanitary inspector or other health officer under the Public Health Act, or any regulation made thereunder in any organized municipality, must at once be taken by the employer and his employees or agents, or the physician employed by the same, whenever any suspected communicable disease referred to in the said Public Health Act or Regulations, breaks out in any camp, works or dwelling to which these regulations apply, and the said employer, manager, foreman, agent or physician employed shall be subject to the same penalties as any of the aforesaid health officers.

Provincial Board to be notified forthwith of each and every case of a communicable disease.

8. Should any suspected communicable disease, as defined under the Public Health Act, break out in any camp, works or dwelling, the employer or his employee or agent in charge of any camp, work or dwelling, shall immediately send notice to the physician employed, who shall at once notify the Secretary of the Provincial Board of the outbreak. In all respects the employer, his employee or agent in charge of any camp, works or dwelling, shall be held to be in the same position as regards the occurrence of communicable disease therein as a householder, and shall conform to sections 53, 54 and 60, and such other sections of the Public Health Act and Regulations as may relate to the duties of the householder.

Employees in camps to furnish certificate of vaccination upon request of Provincial officer.

9. Every employee in any lumbering camp, mining camp or other industry on which men are employed shall, when requested by the secretary or officer of the Provincial Board of Health, furnish the foreman or other person in charge of the same with a certificate of successful vaccination or re-vaccination within the immediate preceding seven years, and the secretary or officer of the said Board shall forthwith quarantine any such camps or works until such certificate has been furnished by each and every employee in the said camp, works or industry.

Two classes of hospitals must be provided by all employers.

10. In connection with every camp, works or dwelling coming under these regulations, there shall be constructed a building, or in lieu thereof, a double-walled tent or tents shall be kept on hand with floor or floors and with facilities for heating and ventilation, for the reception of any employee who may become sick. Such building or tent to be approved by the inspector or other officer of the Provincial Board of Health. Should any communicable disease, such as small-pox, chickenpox diphtheria, scarlet fever, typhoid fever, measles, German measles, glanders, cholera, erysipelas, tuberculosis, mumps, anthrax, bubonic plague, rabies, polio-myelitis, cerebro-spinal meningitis and whooping cough, as defined by the Public Health Act, break out, a separate and distinct isolation hospital, building or tent, provided by the owner, shall be located by the physician in charge of the patient in a position satisfactory to the inspector or officer of the Provincial Board of Health.

Site of camp, buildings, etc., to be approved by inspector.

11. The location of the buildings of any camp or works shall be made with a due regard to its healthfulness, and any new camp or works located without the previous approval of the inspector or officer of the Provincial Board must, if the site is found to be undrained, unhealthy, or wanting in any adequate or wholesome water supply, be moved to a proper location; and any old camp, works or dwelling, if proved unsanitary or unhealthy shall be made satisfactory to the aforesaid inspector or officer.

No camp shall be erected nearer than 100 feet to any lake, stream or other water.

All bunks must be constructed parallel with the wall of the building to prevent overcrowding.

The lower tier of bunks shall be raised at least one foot from the floor, and the floor shall extend completely to the wall.

Provisions as to air space, lighting, etc.

12. Any house, tent or dwelling occupied by the employees engaged in any industry in any territory without municipal organization shall contain 600 cubic feet of air space for every occupant thereof, and shall further be provided with sufficient means of ventilation. The floor of every dwelling shall be constructed of boards or planks, or other material equally suitable for the purpose, raised on supports at least one foot from the ground, and so made that it shall be tight. Every such dwelling, other than a temporary tent, not exceeding ten by fifteen feet, shall be supplied with adequate lighting, and in all wooden or iron structures the windows must be constructed that they can be opened when necessary.

Method of ventilation to be approved.

13. The method of ventilation of every dwelling in which a stove or furnace is used, shall be such as will satisfy the inspector or officer of the Provincial Board. The temperature of the room should be maintained at from 60 degrees to 65 degrees Fahr., and a shallow pan supplied with water shall be kept on the stove to supply air moisture.

Wash-house, laundry and bath.

14. Every camp or the works of any industry coming under these regulations shall be equipped with a separate building to be used as a wash-house or laundry, and attached thereto a room, or, if preferred, a separate building or tent equipped with a stove and tubs for bath purposes in a manner satisfactory to the inspector or officer of the Provincial Board.

Separate kitchen with dining-room to be provided.

15. Every camp or works shall be supplied with a building or tent properly constructed and set apart as a kitchen or cook-house, and having a dining-room or eating-room in connection therewith, with proper conveniences for the cleanliness and comfort of the employees, and must be satisfactory to the inspector or officer of the Provincial Board.

Refuse to be collected and removed in buckets.

16. Proper buckets shall always be kept on hand into which all refuse, whether liquid or solid, can be placed; and the refuse must regularly be removed to a safe distance from the kitchen, and be so deposited as not to create a nuisance or contaminate the drinking water. A properly constructed drainage system satisfactory to the aforesaid inspector or officer may be utilized in lieu of slop buckets.

Latrines or earth closets to be kept clean.

17. Latrines, earth and other closets located to the satisfaction of the physician employed, and to the inspector or officer of the Provincial Board, shall be constructed at every camp or works, and must be located and maintained in a sanitary condition satisfactory to the medical officer of the works and to the aforesaid inspector or officer.

Stables to be not less than 125 feet distant from kitchen, etc.

18. The stables in connection with any works or camp must be so located as not to contaminate the water supply, or drain to any water; they must not be less than 125 feet distant from any dwelling or kitchen. In large camps this distance may be increased if thought necessary by the aforesaid inspector or officer.

In mines of 100 feet in depth, portable privies are required.

19. In mines of a depth of 100 feet or over, or with drifts of 300 feet or over, portable closets satisfactory to the Provincial Board for the use of the employees are required.

Printed copies of Regulations to be forwarded by Board and kept on file in office.

20. Printed copies of these regulations shall be furnished every employer of labour upon notifying the Secretary of the Provincial Board, as required under section 1 of these Regulations, and a copy shall be kept on file in the office of each clerk of the works for the use of the employees if so desired.

Board may enforce regulations at expense of employer.

21. Should the Provincial Board, on complaint or otherwise, find that any of these regulations are not complied with, the Board or its inspector shall, when necessary, take steps to enforce these regulations;

and the expense of such inspection shall be paid by the employer or his agent responsible for the violation of the regulations, as provided under section 117, subsection 3, of the Public Health Act.

Penalties same as under Section 84 of the Public Health Act.

22. The penalties contained in Section 84 of the Public Health Act against illegal carrying on of any industry mentioned therein, shall apply to the violation of any regulation herein made with regard to the proper location, construction and equipment of the camps, works or dwellings under these regulations.

INFORMATION REQUIRED TO BE FURNISHED ANNUALLY TO THE PROVINCIAL BOARD OF HEALTH BY PROPRIETORS OF LUMBER CAMPS AND OTHER CAMPS IN UNORGANIZED DISTRICTS.

1. List of camps and location of each.
2. Name of foreman in each.
3. Means of access to each camp.
4. Average number of men in each camp.
5. Name and residence of physicians contracted with and whether located in camp or not.
6. Date of contract and its duration.
7. Whether contract is under Clause 2 only, or 2 and 3, under the powers of the Regulations, and if under the latter, state amount deducted from each man's pay monthly for physician's fee.
8. Is a permanent hospital provided in camp, or tent.
9. Hospital tickets sold to employees in the camps are not recognized by this Board in lieu of the requirements of the Regulations.
10. The above information must be furnished immediately on the establishment of every camp.
11. A copy of the medical contract, properly dated and signed by both parties, must be furnished this Board at the time of the making, and also a notification of any change in physicians or terms of contract.

REGULATIONS FOR THE CONTROL OF TUBERCULOSIS.

1. Whenever any legally qualified medical practitioner knows that any person whom he is called upon to visit is infected with tuberculosis, he shall within twelve hours give notice thereof in the prescribed form to the Medical Officer of Health of the municipality in which such diseased person is.

2. This section shall apply to the medical superintendent or person in charge of any general or other hospital in which there is known to him to be a patient suffering from tuberculosis.

3. The Medical Officer of Health shall enter in a book to be kept for that purpose, in the prescribed form, the particulars contained in the notice, and shall further make a weekly report of all the cases so reported to him to the Secretary of the Provincial Board of Health.

4. The Medical Officer of Health in cities, towns and villages shall keep in his office a map of the municipality and shall mark thereon the lot, street or other place where the case of tuberculosis or suspected tuberculosis occurred and shall also make a further distinguishing mark where the death of a patient is reported to him.

5. Immediately on receipt of a notice, the Secretary of the Provincial Board of Health shall, upon request of the Medical Officer of Health, mail to the address of the patient such instructions for the care and prevention of the disease as may from time to time be authorized by the Provincial Board.

6. The Local Board of Health or Medical Officer of Health shall maintain whatever supervision they may deem necessary over the case and, if in their opinion the health of others dwelling in the same house or in personal contact with the patient is threatened, they shall order the removal of the patient to a hospital or sanatorium.

7. Every such patient shall remain in such hospital or sanatorium until in the opinion of the Medical Officer of Health he may safely be allowed to return to his former place of abode.

8. In case of an indigent patient whose removal has been so ordered, the expense of such removal and the cost of maintenance of such patient shall be paid by the municipality where the patient

has had his usual place of abode, and if the patient has no permanent place of residence, or his usual place of abode cannot be ascertained, then the cost of his removal and maintenance shall be paid by the municipality whose Medical Officer of Health or Local Board of Health has ordered such removal.

9. In the case of unorganized districts these Regulations shall be enforced and carried out under and by order of the Provincial Board, and the cost of removal and maintenance shall be paid out of the money appropriated therefor by the Legislature.

10. In the case of death, removal or recovery of a person suffering from tuberculosis, it shall be the duty of the Medical Officer of Health to provide that the residence of such patient shall be thoroughly and efficiently disinfected and renovated at the cost of the owner before any person is allowed to occupy such residence.

11. The Medical Officer of Health may, when he deems necessary, require that any premises occupied by a person suffering from tuberculosis shall be cleansed and disinfected to his satisfaction at the expense of the municipality.

12. All information furnished to the Medical Officer of Health or Local Board of Health and the entries made by the Medical Officer of Health, and all subsequent reports furnished with respect to any cases or suspected cases of tuberculosis shall, so far as possible, be treated confidentially, and all persons having official knowledge of the case shall not divulge or permit to be divulged any of the particulars to any person except as authorized by the Regulations.

13. The person affected with tuberculosis, or those in charge of him, shall on removal or change of residence at once report such change of residence to the Medical Officer of Health of the municipality in which such change occurs, and in case such person shall remove from one municipality to another municipality, he shall at once give notice thereof to the Medical Officer of Health of each municipality.

14. Upon the recovery of any person from tuberculosis, the attending physician shall report the fact to the Medical Officer of Health, who shall make record thereof and such person shall thereupon be relieved of further liability under the Regulations.

QUOTATION FROM THE PUBLIC HEALTH ACT.

Respecting the Sanitary Precautions to be taken in Health Resorts, Summer Resorts, and upon Boats or other Vessels plying upon the Waters of Ontario, and for preventing the Pollution of such Waters by the deposit therein of sewage, excreta, manure, vegetable or animal matter or filth:

SECTION **91**.—(1) No garbage, excreta, manure, vegetable or animal matter or filth shall be discharged into or be deposited in any of the lakes, rivers, streams or other waters in Ontario or on the shores or banks thereof.

(2) The owners and officers of boats and other vessels plying upon any such lake, river, stream or other water shall so dispose of the garbage, excreta, manure, vegetable or animal matter or filth upon such boats or vessels as not to create a nuisance or enter or pollute such lake, river, stream or other water.

(3) Residents of a health resort or summer resort shall so dispose of garbage, excreta, manure, vegetable or animal matter or filth as not to create a nuisance or permit of its gaining entrance to or polluting any such lake, river, stream or other water.

(4) An person who contravenes any of the provisions of this section shall incur a penalty not exceeding $100. (*See* 6 Edw. VII. c. 19, s. 32.)

REGULATIONS OF THE PROVINCIAL BOARD OF HEALTH RESPECTING SEWAGE DISPOSAL IN SUMMER RESORTS.

REGULATION 1. No raw sewage is allowed to enter the lakes, streams or other waters of the Province.

REGULATION 2. The sewage of hotels and boarding houses is laid down at three (3) cubic feet, or twenty (20) gallons, per head. In private houses one-half this quantity will be the average amount.

REGULATION 3. One of the following methods may be used:

(1) DRY EARTH CLOSETS remote from the water, if carefully attended to. Use dry earth, wood or coal ashes.

(2) SUB-SURFACE IRRIGATION—

(a) In first-class soil, that is, pure sand or porous sandy loam, use 40 tile per head, with one flushing in 24 hours.

(*b*) If the irrigation area is 150 feet or more from the water, the number of tile may be reduced to 20 with two flushings in 24 hours

(*c*) Any variation of (a) and (b) will depend upon the nature of the soil and the distance from the water to be protected. These questions will be determined by the Provincial Board.

(3) CHLORINATION. Where the soil is unsuitable for sub-surface irrigation the sewage may be treated by:

(*a*) An approved type of sedimentation tank. The effluent from this is to be treated by the use of 15 parts per million of available chlorine, with a rest of three hours maximum flow (one sixth of the total flow).

(*b*) In cases where sprinkling filters are used in addition to the sedimentation tank, the quantity of chlorine which may be used shall be determined by the Board according to the efficiency of the filter.

REGULATION 4. Every plan of sewage disposal shall, before its establishment, be approved by the Provincial Board of Health.

REGULATIONS FOR THE CONTROL OF INSPECTION OF MEAT.

1. Where a municipality has established a public slaughter house or abattoir and appointed one or more inspectors in accordance with the Public Health Act, such municipality may pass by-laws requiring that no carcass or meat shall be offered for sale or sold therein unless such carcass or meat has been inspected and stamped with the official stamp of the inspector or of a Dominion or Provincial Inspector.

in respect to

BURIALS AND TRANSPORTATION OF THE DEAD.

1. The body of any one who has died of smallpox, scarlet fever, measles, diphtheria, croup, bubonic plague, cholera, epidemic cerebro-spinal meningitis or epidemic anterior polio-myelitis, shall be interred forthwith except as hereinafter provided, and in no case shall exposure of the body be allowed or a public funeral held.

2. The body of any one who has died of smallpox, scarlet fever, measles, diphtheria, croup, bubonic plague, cholera, epidemic cerebro-spinal meningitis or epidemic anterior polio-myelitis, shall in no case be transported by railway, boat or other public conveyance unless such body has first been completely wrapped in a sheet wrung out 1-in-500 bichloride of mercury and enclosed in an hermetically sealed coffin to the satisfaction of the Medical Officer of Health, whose certificate to this effect shall appear upon the outside of the coffin. The coffin must not subsequently be opened.

3. The body of any one who has died of any of the aforesaid diseases shall not be disinterred for any reason except by the order of the Attorney-General, unless for purposes of transportation or re-interment within Ontario, in which case the precautions named in Regulation 2, must be complied with under the supervision and with the consent of the Medical Officer of Health.

4. The body of any one who has died of any other than a communicable disease may be transported or disinterred for interment or re-interment under the certificate of the Medical Officer of Health.

REGULATIONS

Respecting the matter of Providing Pure Drinking Water in Public Places.

The following regulations are made under paragraph 14 of Section 13 of the Public Health Act (amended 1911).

REGULATION 1. Hotels, restaurants, railway trains and depots, boats and all other public places which provide a supply of drinking water for the use of the public shall at all times be required to provide that such drinking water shall be pure and wholesome.

REGULATION 2. Any contravention of the foregoing Regulation shall be subject to the penalties provided by the Public Health Act in respect thereto.

MEMORANDUM -

Mr. Pedley:-

Mr. Williams has drafted an amendment to the Indian Act, specifically to Section 92 of the Act adding the Clause E, a copy of which draft I send herewith. The amendment follows pretty closely the enactments and regulations ~~laid down~~ by the Province of Ontario, and while they are rather detailed I do not think they could be safely condensed. I would strongly recommend that we endeavour to have this amendment passed at an early date. It would give us control of the situation so far as communicable diseases are concerned, and would be of special use in fighting tuberculosis. Our present understanding with the Province of Ontario, for example, with the assistance of a Statutory amendment, such as the one under discussion, would enable us to care for nearly all, if not all, tuberculous cases in the Province of Ontario, which would require attention.

Sir,-

As you are familiar with requirements connected with tuberculosis hospitals, and possibly may be in possession of plans for the construction of such buildings, the Department desires to consult with you in the matter. In explanation I may say the Department has under consideration the question of the construction of buildings on Indian Reserves which will afford accommodation for the treatment of tubercular Indians, as it is difficult, in many cases, to get Indians affected with tuberculosis to leave their homes and seek treatment in sanitaria. It is thought their reluctance to avail themselves of treatment will be removed if hospitals are provided on reserves, in which all the patients will be Indians.

With regard to construction, I may say, it is considered that requirements will be met by the erection of a unit (permitting of addition thereto later on if needed) which will provide for the accommodation of fifty patients. If you have a plan of such a building, the Department will be glad to receive a copy of it, or if you can make any suggestions which will be helpful to the Department's architect in the preparation of the plan of such a building, the same will be gratefully received. I may also say that if you have any remarks to make on the subject of the equipment of a building such as referred to they will be appreciated.

Dear Sir:-

Your letter to Mr. Geo. A. Reid, Secretary-Treasurer, National Sanitarium Association, No. 293,200 of the 28th. March has been referred to me for reply. I beg to advise that you will require the following to be provided in the hospital suggested. Wards, either two of twenty beds each or four of ten beds each with ten single rooms. The single rooms are for very sick cases, of which there are likely to be about twenty percent. For each ten beds there should be a nurses' utility room and also a bath, separate of course, a toilet for each ten beds and wash basin for each five, a slop sink for each ten. There should be a diet kitchen conveniently situated for each twenty-five patients who are required to have their meals served in bed. If a considerable number of patients are able to be up sufficiently to go to their meals, a dining room should be provided. In any case there should be a room where the dishes are washed. You will require a kitchen which should have adjacent to it one or more pantries, a scullery, a store room and some provision for cold storage. There should also be a laundry, a ~~surgical~~ sewing room and a morgue. There should be an examination room for the physician as well as a special treatment room. It may also be desirable to have a recreation room for the

patients.

Provision should be made for sleeping rooms, dining room and a recreation room for the Staff and Nurses and there should also be sleeping rooms and dining room for employees. This in a general way gives an outline of the minimum requirements in an institution to care for fifty patients. As to the general equipment of each of these rooms that is a matter that could be well left to the Superintendent who naturally is the one in the best position to decide on such matters since he or she is the one who is to get the work accomplished.

If there is any other way in which I can be of assistance to your architect or your Department I shall be glad to be so advised.

Believe me,

Dear Mr. McLean,- Re - Your Query #293200.

Replying to yours as above, I enclose you herewith letter from our Physician-in-Chief, Dr. W. J. Dobbie, which explains itself.

Our Queen Mary Hospital for Consumptive Children at Weston, is a building similar to that described by the Doctor and would, I feel sure, make a most satisfactory Hospital for your purpose, providing you wish to erect so substantial a building.

I am sending you a copy of our last Annual Report, on page 25 of which, you will note cuts of this Building. Messrs. Denison & Stephenson, Confederation Life Building, this City, were the Architects, and I am asking them to forward you a rough sketch of the floor plans.

If I can be of any further service to you, please command me.

REPORT OF THE SECRETARY AND TREASURER

To The Board of Trustees:—

Gentlemen,

I have the honor to present the following report for year ending 31st of March, 1918.

The continuance of our Hospital Work in these War Days is becoming a serious problem indeed. For not only are we obliged to carry on in the face of ever-advancing prices for food and other materials, with a growing shortage of nursing help and labor, but we must provide for an additional number of patients.

Looking back to the beginning of the war, four years ago, we find our daily average number of Patients in residence was then 485; to-day it is 688. Our Annual expenditure for maintenance at that date was $275,000, to-day it is $510,000, and a conservative estimate of this year's requirements necessitates the provision of $585,000 to meet our needs.

The per capita cost of maintenance, in our Free Hospitals at Muskoka and Weston, has jumped from an average of $10.50 per week to $14.52 per week, and, though legislation has given us some small measure of relief, by way of increased grants from municipalities, a greater burden of responsibility is being thrust upon the Trustees; for while we have received some $55,000 from our Appeals and from the sale of Xmas Seals, etc., the fact remains that for the year under review, our expenditure for maintenance exceeded our income by over $52,000. The generosity of the people of this Province must be further quickened, else we must drop behind.

Our doors are open to patients from every part of Ontario, not locally served by similar institutions. During the year we have cared for

RÉSUMÉ OF REPORT OF THE PHYSICIAN-IN-CHIEF

Buildings Our activities in-so-far as the erection of new buildings is concerned, have been entirely prevented through the effect of the war. The advanced price of material and the condition of the labor market, have made it almost impossible to get even the necessary repairs done. Under the circumstances we have endeavoured, as best we could, to keep our buildings in fair repair.

Grounds We have been fortunate in retaining the services of a competent gardener, a former patient, through whose interest and efforts our grounds have been kept in most presentable shape.

Heating and Ventilation The proper heating of buildings used for outdoor living, in a climate such as ours, is a task at best and one that is greatly augmented by the scarcity of coal. Owing to the untiring efforts of our Purchasing Agent, we were fortunate enough to secure a supply sufficient for our needs.

Water Supply and Sewage Disposal With the exception of a temporary freeze up in our spring water course, we have had no difficulty, either with the quality or quantity of supply. We finished a new dual sand filter tank, which has answered its purpose admirably and our filter bed was overhauled, the tiles being thoroughly cleaned and re-laid.

Farm Industries During the year, we have disposed of pigs to the value of $6,500; 115 pigs valued at $3,150 being still in stock at the end of March. An additional building has been authorized the work on which will be done at an early date, which will give us a total accommodation for over 200 pigs.

From our farm, we have received potatoes and other vegetables to the value of some $2,800, while from our hennery we have received 35,000 eggs.

Medical Report We have been able to meet the requirements of our patients, under war conditions, being fortunate in having the required staff of physicians, but have, at times, required more nurses.

Although generally recognized lines of treatment have been followed, such as general sanatorium régime, auto-inoculation through patient

labor, serum therapy, including tuberculin and vaccines, we have also been treating an increasing number of patients with high frequency electrical current, X-ray, heliotherapy, Finsen Light and artificial pneumothorax.

Special Treatments We have at present thirty-four patients on tuberculin therapy, forty being treated by autogenous vaccines and one hundred with stock vaccines. Three hundred and seventy-three X-ray plates have been made, while four hundred and eighty fluoroscopic examinations have been made at the two Institutions. Ninety-six patients are being treated with high frequency electrical current, while eighty are undergoing treatment by Finsen Light. Thirteen hundred sputum examinations have been made during the year, and fourteen hundred urinalyses.

We have in residence some eighty soldiers, many of whom have been overseas. These patients are receiving Vocational Training. The courses taught are:—Poultry raising, commercial, music, arts and crafts, fancy work, needle work, and French. These classes serve a double purpose, that of helping to occupy the patient's mind while taking the "cure," and, incidentally, fitting him to take a position in some suitable business when he leaves the Hospital.

I am pleased to advise that in the last report of the Vocational Officer for Ontario, the Muskoka Free Hospital shows the highest average attendance of any Hospital in Ontario, the work there being 100% efficient.

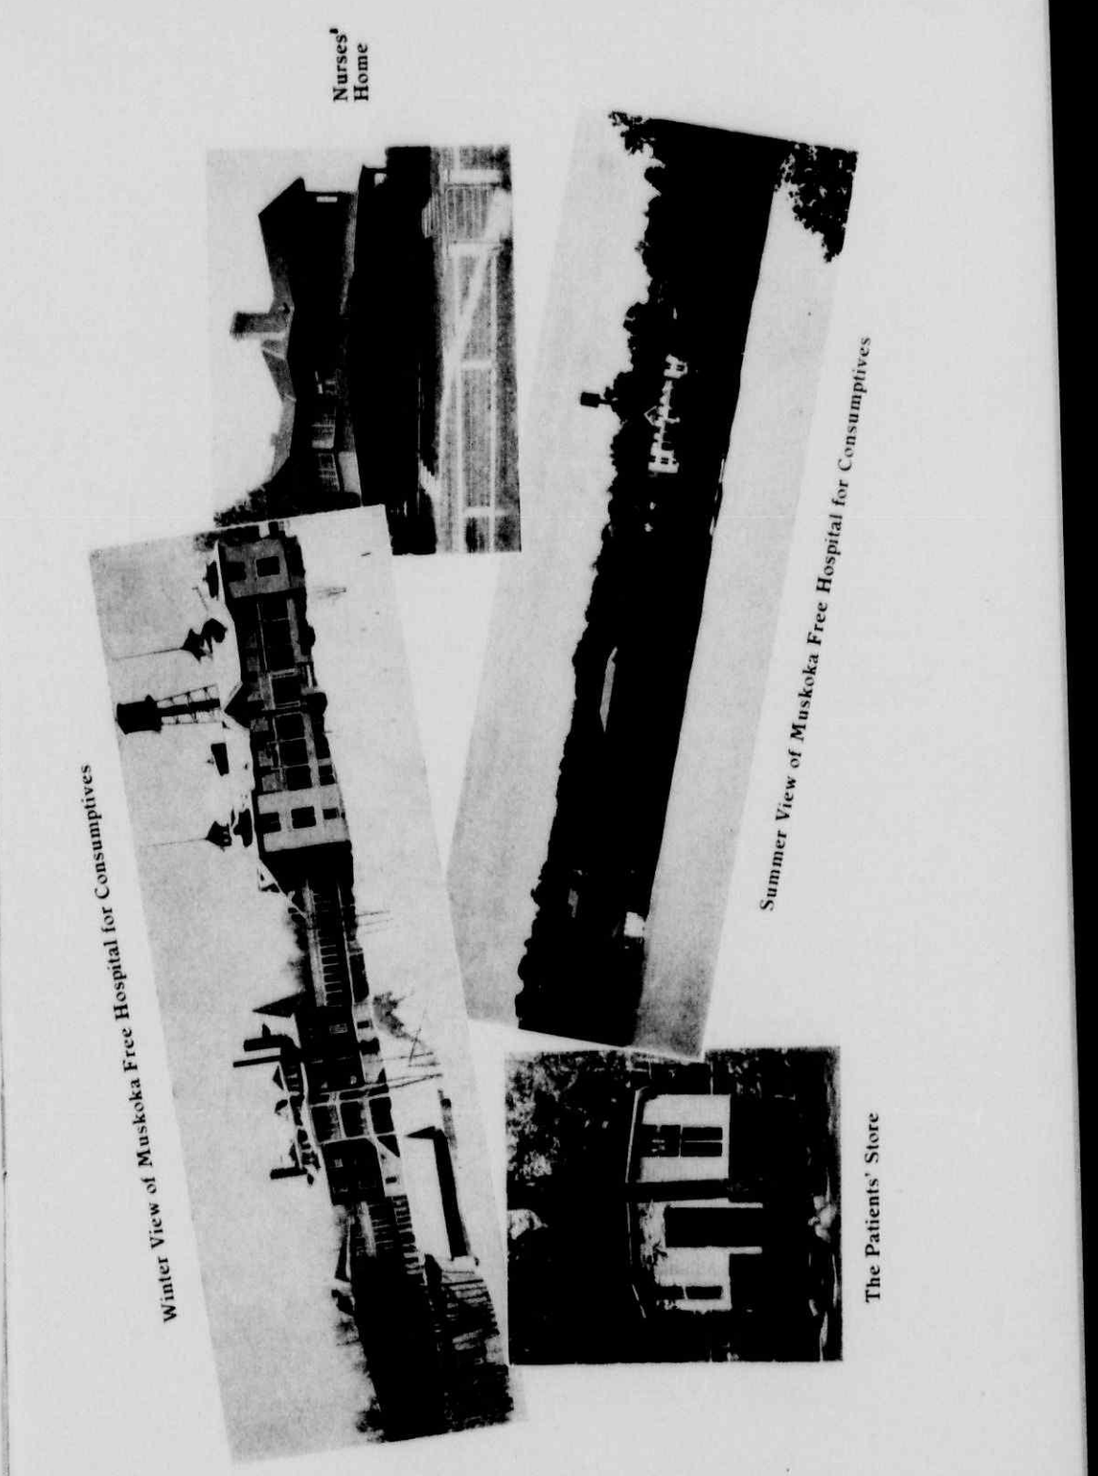

Entertainment During the winter months two moving picture entertainments per week have been held, the films for same (five reels per night) being supplied free of charge, by the Universal Film Company of Toronto. A ten-piece string orchestra, made up of patient musicians, supplied music during these evenings.

Several concerts have also been given in our Assembly Hall, two of which were made possible through patient talent.

During the summer, the kindness of Mr. William Thomson has again been enjoyed through the use of his comfortable launch, "Idler II."

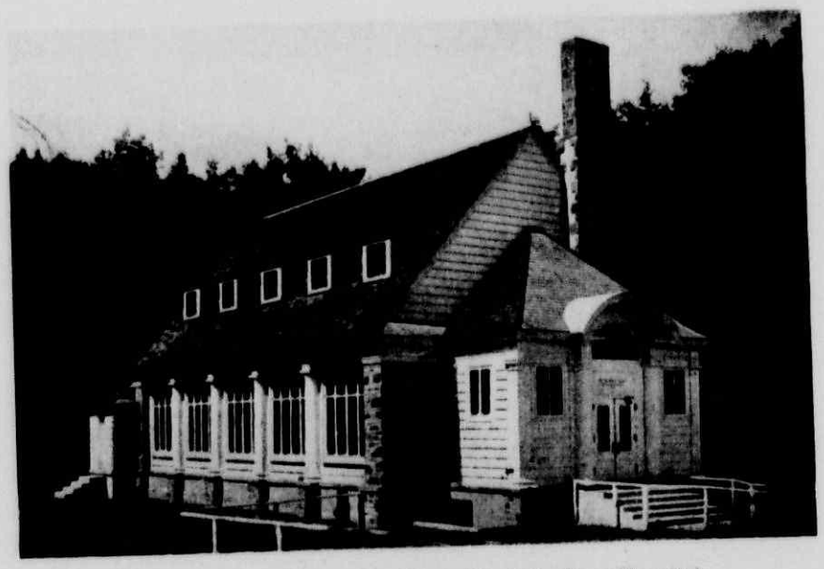

A tennis lawn has been made for the use of the staff and employees.

I wish to take this opportunity of expressing my appreciation for services rendered to our patients by the Ministers of Gravenhurst, as well as the members of your Board for their kindly interest and support during a rather trying year.

MUSKOKA COTTAGE SANATORIUM

REPORT OF THE PHYSICIAN-IN-CHIEF

To The Board of Trustees, National Sanitarium Association:—

Gentlemen:

It Affords me pleasure to submit herewith a report of the Muskoka Cottage Sanatorium for its twentieth-and-a-half year, ending March 31st, 1918.

While war conditions have, either directly or indirectly, affected our efforts, we have endeavoured to meet the institutional needs of the general public, as well as the individual requirements of those seeking treatment in this place.

Buildings With the exception of the needed repairs, which have at times been accomplished with difficulty, owing to the labor conditions, no building activities have been indulged in or additional equipment added.

Grounds Our grounds are in splendid condition. A tennis court has been provided for the use of our medical staff and nurses.

Heating and Ventilation As at the Muskoka Free Hospital, we have found difficulty in properly heating buildings used for out-door living, especially last winter with its extreme cold and general shortage of coal. Our water and sewage systems are adequate in every respect.

Medical Report We have been caring for a number of militia officers, in addition to the usual number of civilian patients.

Great demands have been made upon the time of the physicians and nurses in the development of new measures of treatment. Among these might be mentioned, heliotherapy and artificial pneumothorax.

We have now ten patients following ultra-violet therapy, while pneumothorax has been attempted in one hundred and fifty-three cases up to date.

Remarks We have been the recipients of a magnificent gift, in the form of a motor boat, through the generosity of Mr. Miller of Beaumaris.

RÉSUMÉ OF REPORT OF PURCHASING AGENT

Notwithstanding the increased cost of most articles used in our institutions, we have been fortunate in our purchases this year.

Our contracts for milk, bread and bacon have been exceptionally good and the careful watching of market conditions has enabled us to purchase canned salmon, prunes, paper cuspidors, cheese-cloth, etc., at most favorable prices; on this latter article alone, we made a saving of $800, while a further $250 was saved on an order for 2,500 lbs. of tea, placed just prior to the levying of the Government Excise Duty of 10c per pound.

While the buying end takes up a lot of my time, I find that it pays to devote a couple of hours daily in the Kitchen Department. We are watching the waste carefully these days, sorting and weighing every ounce of refuse that comes from the table—in this way, our Chef is kept posted.

The serving of food portions has also had our careful attention. This is an item very closely watched in hotels, but to which, however, Institutions have not paid so much attention. It is most important from a monetary point of view and we find our patients heartily co-operating with us, for they know that we are willing to serve a second portion of any article of food, if required. The gospel of the clean plate is taking hold.

KING EDWARD SANATORIUM FOR CONSUMPTIVES

AND

QUEEN MARY HOSPITAL FOR CONSUMPTIVE CHILDREN

REPORT OF PHYSICIAN-IN-CHIEF

TO THE BOARD OF TRUSTEES:—

GENTLEMEN:

I have the honor to submit herewith the Annual Report of the Toronto Free Hospital for Consumptives, (including the King Edward Sanatorium for Consumptives,) for its thirteenth year, ending 31st March, 1918, as well as that of the Queen Mary Hospital for Consumptive Children for its fifth year.

Accommodation The available accommodation is 386 beds, distributed as follows:—278 for adults, 108 for children.

Grounds During the past year considerable has been done towards the permanent improvement of the grounds. A large number of shrubs were set out at different points and these have added much to the general natural attractiveness.

Waterworks Considerable progress has been made during the year in completing arrangements whereby our mains will be connected with the city water supply. The mains have already been laid as far as the intersection of Buttonwood Avenue and Weston Road. The pipe is distributed along the former thoroughfare, and work will be completed as soon as the frost is out of the ground. Thus one of our most serious problems seems to be nearing solution in a satisfactory manner.

Farm Industries These have been continued during the past year. About twelve acres more or less of land have been kept under cultivation for the growing of vegetables of various kinds. Good results have been obtained from the operation of this garden, a partial supply of vegetables for the institution having been provided for several months of the year. A small portion of this garden has been operated entirely by a number of the patients.

The hennery has a capacity of 1,000 birds. During the year we obtained 76,259 eggs, and have also been able to have a number of fowl for table use. The piggery has been in operation also throughout the year,

and has been a source of revenue to the institution, in addition to being a convenience for the disposal of waste from the dining rooms and kitchens.

Employment of Patients For the last nine years we have made a practice of giving a certain amount of work to patients who are in fit condition to have a reasonable amount of exercise daily. During the past year, owing to the scarcity of other workers, we have been compelled to use patient labor to as great an extent as possible, and, while it is not an economical method, it has materially assisted us in the solution of a very difficult problem under existing conditions.

We have at the present time on our staff 36 men and women who are working regularly.

In addition, a number of other patients have given considerable assistance throughout the year.

Occupation for Children THE KINDERGARTEN—During the past year one of the patients has undertaken the work of the kindergarten class. She is doing a work of great value in training these small children.

Day School The Day School also continues to be of great advantage to the children.

Manual Training We also have had the services of one or two of our male patients, who have sufficiently recovered to undertake the supervision of the boys when they are not engaged in school work. A class of Manual Training and Nature Study has been established. These classes are very popular with the boys, and afford a means whereby a closer watch can be kept over their habits, language, etc. We have already quite an interesting exhibit of work done by the boys and girls. This work is of the greatest interest and importance. We are seriously handicapped by lack of proper equipment, and a suitable place in which to carry on the work. A competent teacher, with the necessary building and proper appliances are much to be desired, and urgently required if we are to do much for these children who have already been seriously deprived of the ordinary equipment for the struggle of life.

Food Conservation and Other War Time Economies While the regulations of the present Food Control Board do not apply to hospitals, it has been our practice to have them observed. We are anxious that the spirit of these regulations should be followed here as elsewhere, and to as great an extent as is consistent with the nature of our work, not only have the restrictions prescribed by regulation been observed, but others which we have thought to be advisable

from the standpoint of institutional economy have also been put into operation. Among other economies the following are being practised:

Bone and fat, which previously was otherwise disposed of, is now being utilized as follows:

(a) Bone is used for fuel after the fat has been extracted.

(b) Fat is being classified. The suitable grade taking the place entirely of butter and Oleo. in cooking. The balance is made into soap.

To as great an extent as possible potatoes, cereals of various kinds and whole wheat flour are substituted for bread and white flour.

Root vegetables and beans are being utilized for the making of soup without meat stock.

Brown sugar is being used to as large an extent as possible. We find it difficult to secure it at times and have to take the white. This, however, is not a serious matter, as there is only a difference of 20c per 100 wt. and white sugar is more economical from the standpoint of quantities required for the same result.

Soda bicarbonate is being used in the preparation of acid fruits, both fresh and evaporated, so as to lessesn the amount of sugar required to make them palatable. Lemon and orange syrup for acidulous drinks for bed patients are being made in the kitchens, thus effecting a saving in both sugar and fruit, the rinds being subsequently used in making candied peel and flavoring extracts.

Medical The medical work of the hospital has been continued along recognized lines, as follows:

(1) Dietetic Hygienic Treatment, the foundation of all institutional treatment of tuberculosis.

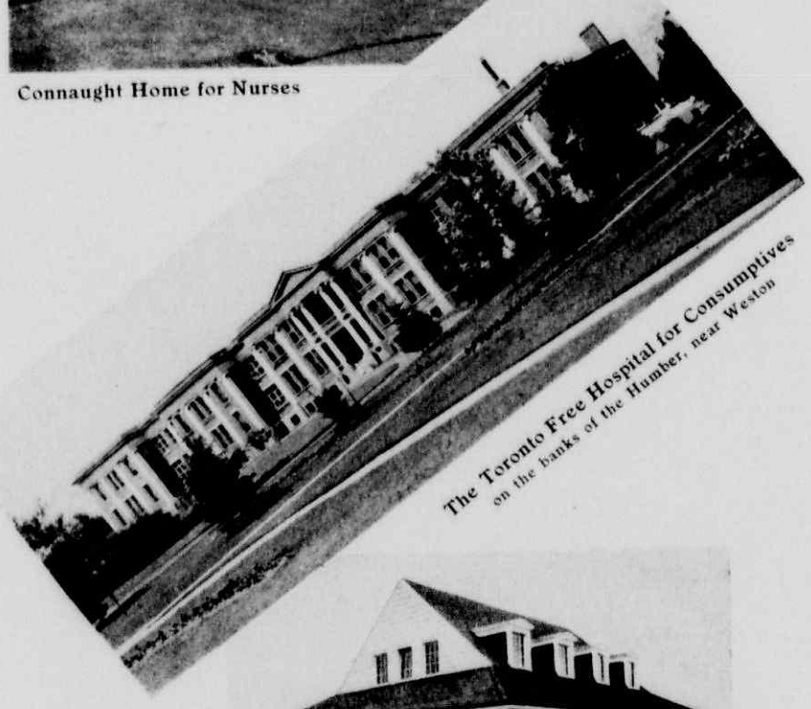

(2) Rest as the main factor until such time as the employment of graduated exercise for the purpose of producing controlled auto-reactions r auto-inoculation is indicated.

(3) The employment of special measures as vaccines, tuberculin, nitrogen compression, high frequency current, heliotherapy and ultra-violet rays, in suitable cases.

Additional equipment is being provided to facilitate the application of all the modern methods. Attention is being paid to the use of heliotherapy, both natural and artificial, particularly in surgical cases, a complete X-ray equipment makes it possible to follow closely the pathological changes presented by the different cases, from time to time.

Statistics

Number of Patients Cared for

In residence April 1st, 1917	309
Admitted during the year	463
Discharged during the year	438
In residence April 1st, 1918	335

Patients who have paid a part of their maintenance	64

Of the 378 patients discharged from the T.F.H.C. during the period from April 1st, 1917, to March 31st, 1918, the following classifications may be made:—

Total Discharges from April 1st, 1917, to March 31st, 1918.

On Admission	Disease quiescent	Improved	Station'y	Failed	Died	Total
Moderately advanced	0	86	35	5	5	131
Far advanced	0	16	36	23	172	247
Totals:	0	102	71	28	177	378

If, however, we deduct from these the patients in residence 30 days or less

On Admission	Improved	Station'y	Failed	Died	Total
Moderately advanced	3	24	0	1	28
Far advanced	1	19	2	48	70
Totals	4	43	2	49	98

There is left a classification as follows:—

On Admission	Improved	Station'y	Failed	Died	Total
Moderately advanced	83	11	5	4	103
Far advanced	15	17	21	124	177
Totals	98	28	26	128	280

So that during the year 35% of cases remaining more than 30 days improved.

Summaries for Thirteen Years

During the 13 years the Hospital has been open, there have been discharged 3,385 patients. Of these the classification is as follows:—

Classed on Discharge

On Admission	A'prently arrested	Disease quiescent	Improved	Station'y	Failed	Died	Total
Moderately advanced	2	42	246	118	17	15	440
Far advanced	3	43	612	506	260	1521	2945

Moderately advanced	8	83	0	1	92
Far advanced	37	259	28	258	582
Totals	45	342	28	259	674

Giving a percentage in this class as follows:—

Improved..... 6.54%
Stationary..... 50.82%
Failed..... 4. 6%
Died..... 38.48%

The cases remaining for consideration are classed as follows:—

In Residence More Than 30 Days

Apparently arrested	5	cases or	0.18%
Disease quiescent	85	" "	3.14%

Stationary	282	" "	10.40%
Failed	249	" "	9.18%
Died	1277	" "	47.10%
	2711		

So that 33.31% of the cases remaining longer than one month were benefitted.

Children

During the year there were discharged from the Queen Mary Hospital 60 children, with the following classification:—

Classification on Discharge

On Admission	A'prently Arrested	Disease quiescent	Improved	Station'y	Failed	Died	Tota

Moderately advanced	1	2	14	0	1	0	18
Far advanced	0	0	6	2	0	8	16
Totals	5	9	34	3	1	8	60

In the five years during which the Hospital has been open 447 cases have been discharged, with a classification as follows:—

Total Discharges of Children

On Admission	A'prently Arrested	Disease quiescent	Improved	Station'y	Failed	Died	Total
Incipient	6	21	39	6	0	3	75

X-ray Equipment The installation of a complete and up-to-date X-ray equipment during the past year is a forward step worthy of note. The advantages of this equipment have been much appreciated, and, with its assistance, the work of the medical department has been both facilitated and improved. Since August, 1917, to 31st March, 1918, plates have been taken in 186 cases, and 146 other cases have been examined by means of the fluoroscope.

Special Methods of Treatment Nitrogen Compression has been used in 40 cases. In all 394 refills were given. In many cases this method was used as a palliative measure only, and for this purpose the results have been such as were desired. In other cases permanent improvement has been secured. While the number of cases which have been considered suitable has not been large, the results have been on the whole very satisfactory.

The High Frequency Electric Current has been used in 35 cases, usually for some complication. The results were not in all cases as marked as might have been desired, but in some both relief and permanent improvements were obtained.

Heliotherapy was administered in 82 cases. In only a few was it possible to use the natural rays of the sun; and in only two cases was there any improvement observed. This is due, of course, to the lack of sufficient altitude in this locality. With artificial heliotherapy, however, very marked improvement has been observed in a number of cases and the work in this connection is being continued.

Tuberculin Test Some observations were made to determine the number of those giving a positive Reaction to Tuberculin.

Results are set forth as follows:—

Dentistry During the past year a dental clinic has been equipped and operated in the hospital by the Department of Health. I feel that excellent work has been done in connection with this Clinic, and great advantage has accrued thereby to many of the patients. In a considerable number of cases of adults and with nearly all the children, work of a more or less permanent nature has been done, while to many others there has been afforded a measure of relief and comfort which would otherwise of necessity have been denied them.

Contagious Diseases We have again been fortunate in the matter of contagious diseases. Two cases of measles, one in a nurse and the other in a little girl, and three cases of typhoid fever, one physician and two nurses, constitute our record in this respect. Considering that we have always a population of about 475 people, of whom

nearly 100 are children, I feel that we have been very fortunate. The large number of visitors to the hospital is a constant source of danger in this respect. To continuous watchfulness and prompt isolation of children having any suspicious symptoms must be attributed what degree of success was obtained in this regard, but, even at that, one cannot but feel that we have been unusually fortunate.

Diphtheria antitoxin in prophylactic doses is given regularly to all the children, and anti-typhoid vaccine has been administered to all the nurses who desired to have it.

Appreciation I am pleased to be able to acknowledge the excellent services rendered by the different officers, and at the same time to express my appreciation of the faithful and efficient services of the nurses, as well as that of many of the employees.

All of which is respectfully submitted.

FREE DISPENSARY
REPORT OF EXAMINER FOR ADMISSION

To the Trustees, National Sanitarium Association, and Toronto Free Hospital for Consumptives.

Gentlemen:

I have the honor to submit herewith my report as Examiner for Admission, for the period extending from 31st March, 1917, to 31st March, 1918.

Number of cases handled	1513	
Muskoka Cottage Sanatorium	75	867
Muskoka Free Hospital for Consumptives	329	
Toronto Free Hospital for Consumptives	463	
Number who did not complete papers	284	
Number otherwise disposed of	362	

It is evident that there are a very considerable number of prospective patients who for various reasons are not brought under treatment. These number altogether 646, and it would seem to indicate that some further work is necessary. In this connection an effort has been made during the past year to learn the reason that so large a number fail to come to the

institutions, and, while the results have been of interest in that they reveal a variety of reasons, they do not in any way point to a remedy. Among the reasons given are the following:—

(1) Advised by some other physician that there is no disease present.
(2) Would not pay, when able to do so.
(3) Going elsewhere.
(4) Could not leave home.

In addition, we found that a number had died, some did not send a reply to our inquiry, some would not give a reason, some changed their address and were lost to us, and some would not apply to the municipality for an order.

Respectfully submitted.

W. J. DOBBIE, *Medical Director.*

THE SAMARITAN CLUB

It is only six years since the Samaritan Club was called into being by the National Sanitarium Association. From the beginning it was a healthy infant with a certain independence of its own, and its growth has been steady and rapid until it now bears the relation to the Association of the elder daughter of the house, who follows her mother's example, and furthers and completes her helpful designs. The Association removes from the home the tuberculous patient who endangers it, and gives to him rest, fresh air, and medical aid; the Samaritan Club interests itself in behalf of his family, giving them material aid, helpful advice, and frequently follows this up with a summer holiday for the tired, over-worked wife, and the under-fed anaemic children. The patient's mind is relieved from anxiety concerning his family, and he is able to make more rapid strides towards recovery, and the family helped and encouraged at the critical moment are able to "carry on," and often become independent of aid. Last winter sixty-four families were thus assisted, and during the summer months Valdai Rest Home has been carrying on its good work. The location of this home at Cheltenham has proved very satisfactory, as the place is very accessible, and fresh vegetables and fruits can be procured in abundance. The problem of visiting in the families of the poor is always a delicate one, and is especially so when they must be educated to look for the first symptoms of the dreaded white plague, and to take the precautions necessary for the safety of all the family. It is hard for them to realize the necessity for the proverbial "ounce of prevention." But Miss Stewart, the visiting nurse, is one women among a thousand. Her tact, wisdom and sympathy are unfailing, and, so long as the Club can provide her with necessary funds, the success of the work is assured. Of course the question of money is always a difficult problem. Last year a number of means were devised to increase the bank account, chief among them being a most successful sale of children's clothing. But these especial efforts mean much work for a few, and it is to be hoped that some permanent way of adding to the income obtained from the very small annual fee can be adopted, so that the work may be carried on without hesitation or fear that the funds may not be ample.

The Club has made a special effort to look after the families of tuberculous soldiers, and any cases of this kind reported to it have been investigated and immediate assistance given when necessary. But all the aims of the Club are patriotic, for what greater help can be given to one's country than to assist in stamping out disease and in helping to establish a

race of healthy children. Now more than ever before, with our vigorous young manhood ravaged by the great war, our hope lies in the children of to-day, and no time, money, or strength can be considered a waste, which is spent in saving them from wasting illness and building them up into healthy men and women.

The Samaritan Club looks forward to a winter of renewed activity, and trusts that the sympathies of many new friends and workers may be enlisted, that it may not be forced to turn a deaf ear to any appeal for help.

WESTON SANITARIUM CLUB

In presenting our annual report for 1917-1918, we are pleased with the progress made by the members of the Club during the year, despite the many demands for patriotic purposes and work to be done for our soldiers at home and abroad.

Seven meetings have been held during the year and all fairly well attended. These meetings have been addressed by prominent speakers, among whom were:—Miss Dickson of the "Queen Mary," at Weston; the late Dr. Gilmour, who gave an interesting account of his life work; Mrs. Dr. Graham of the Presbyterian Social Service Association; Miss Jordan, who described the work of the Halifax Relief Committee; Mr. Yellowless, who gave a most interesting account of his work of Hospital Visiting; Mrs. Dr. Torrington, President of the National Council of Women, who spoke on the work undertaken by the Council in the interest of women and young children; and Miss Wiseman, Field Secretary for the Queen Mary Hospital for Consumptive Children, who enlightened the members on the "Origin of Tuberculosis and the Method of Treating the Disease."

Two visitors from our Club visit the "Queen Mary" each month and report at the meetings. These reports are listened to with great interest by the members.

The September meeting, held in the chapel on the hospital grounds, Weston, took the form of a "Book Shower," and some three dozen books were added to the library of the hospital.

Our June meeting of this year was also held in the chapel and was well attended. This meeting is always of great interest. At the conclusion the members visited the Babies Cottage and the "Queen Mary," and were delighted to note the progress these little ones were making in fighting the dread disease.

We are particularly grateful to the members of our Cutting Out Committee, who have performed their duties so faithfully in preparing the work. These garments are distributed to the members at the close of each meeting, and 280 new garments have been made and sent to the patients. About four hundred yards of flannelette has been sent out to Miss Dickson at the "Queen Mary," to be made into garments by her sewing staff.

The regular Christmas treat for the children of the "Queen Mary" was held as usual.

WESTON SANITARIUM CLUB

In view of the fact that so much work is needed in helping our soldiers, and funds are also required, our purchaser has bought over one thousand yards of material for garments for the children and women of the hospital.

We feel this work is gratifying to all the members of the Club and we aim to do more work for these needy sufferers in the coming year. We also feel our efforts are along the lines of patriotic work and we shall endeavor to save the lives of the little ones, so that they may later on help to take the places of the brave boys who have lost their lives for the preservation of our liberties.

THE ONEIDAS' GIFT TO THE KING.

Sentimental persons will be touched by an incident that is reported from St. Thomas. The squaws of the Oneida Indians got an idea a couple of years ago and began to put it into effect. They set to work making two quilts, the finest they could design, the best their eager fingers could put together. They worked on these two quilts for a whole year, for they were to be devoted to a grand purpose—they were to be a gift from the Oneidas to the great King of England. When at last the work was done the precious quilts were laid before the chief of the Oneidas, Chief Ninham, who undertook to send them with a suitable message to King Edward.

This was done. Then weeks and months slipped away, and no word came from the great King, who had been so loyally served by his people the Oneidas. They waited expectantly to hear of the pleasure they had caused his Majesty and of his admiration for the skill and industry of which the carefully made quilts were the evidence.

A few days ago the chief of the Oneidas was thrilled by the receipt of the long-looked-for letter. He opened it. It was from his Majesty's private secretary. It formally stated that owing to the rules laid down with regard to offerings from individuals the King could not accept the quilts sent, and they were being returned. They came. They are back where they started from, to remind those who made them of a year's lost labor, and, more than that, of the Oneidas' lost illusion.

A rule is a rule and a secretary is a secretary, but in this case he would have been a wise secretary who had laid this special case under the notice of King Edward himself for his own decision. The tact for which his Majesty is noted would probably have been exercised. Nor was this case one that came under the ordinary rules. The Indian tribes of Canada are allies of the King, not subjects. Call this a fiction if you will, but it is one that has had circumspect recognition from the first in all relations between the throne and our aboriginal people. The Oneidas are allied to the throne by treaty. More than that, in this city the people have come from far and near to view the vast collections of presents made to Queen Victoria and King Edward by princes and potentates of India. Why should the gift of the chief of the Oneidas be unable to get past the palisade of secretaries?

Sir -

In reply to your official letter of the 3rd inst and telegram of the 11th inst - I beg to state - that - two Quills were sent - by Chief John Dinham to His Majesty King Edward. The message which accompanied the Quills represented them to be the Gift of the Oneida Band of the Thames. But the Quills were made by Chief Dinham's wife and sent by the Chief without the knowledge or consent of the Band. The matter was never brought before the Band. The Quills were returned by the Kings Private Secretary and are now in the possession of Chief Dinham.

I regret that there has been such delay in giving the desired information. Upon the receipt of your letter of the 3rd inst I wrote to the Secretary of the Band for the facts in the matter. Received no reply from him but he called to state that the Band had sanctioned the action of sending the Quills.

There is no telegraph communication from this Village at present. Received your telegram of the 12th inst on Friday night - by mail. On Saturday I went to the Reserve to get the facts from the Secretary of the Band but failed to find him. I left a message for him to come to this office on Monday morning but through sickness he failed to appear. On Tuesday I went again to the Reserve 14 miles through a raging storm and got the facts as stated above.

Sir :-

Referring to your memorandum of the 28th ult., asking that His Excellency the Governor General may be furnished with information in regard to the gift offered to His Majesty the King by the Oneida Indians; I have the honour to inclose herewith a copy of a communication received from the Indian Agent for the Oneida Reserve relating to this matter. The letter of the Agent also, as you will see, explains the cause of delay in forwarding the information.

It may be said regarding the status of the Oneida Indians that it in no way differs from that of all other Indians in the Dominion.

The letters received by you from Mrs. Margherita McDougald and inclosures in regard to this matter are returned herewith.

Dear Mr. Sladen :-

In reply to yours of the 23rd inst. I have to say that Mrs. McDougald might, if thought proper, be told that from information received it would appear that the quilts forwarded to His Majesty were not the gift, as she appears to suppose, of the Oneida Indians, but of Chief Ninham and were sent by him without the knowledge or consent of the band, also that they were not made by the women of the band but by Chief Ninham's wife.

It might be well also to state to Mrs. McDougald that she has been misinformed as to the status of the Oneida Indians of Delaware. These Indians came over to Canada from the United States in the year 1840 and settled on land purchased for them with money brought by them from the United States. The title to their reserve is in the Crown. No Treaty has ever been made with these Indians.

As to the Indians in general in Canada, it

is not conceded that they are allies and not subjects, - on the contrary certain Indian Bands who have put forth a claim in this regard have been informed that the Government could not sanction or hold as valid the claim made by them to special exemption from the effects of the laws of the land nor to their being recognized as other than subjects of the Crown.

Dear Sir:-

In searching the title of Lot Twelve in the First Concession West of Fairchild's Creek in the Township of Onondaga, we find that there is no Patent registered from the Crown to George Barton of a portion of this Lot.

The first entry on the Abstract Book is No.618, which is an Agreement of Sale of parts of Lots Twelve, Thirteen and Fourteen. The necessary Crown Grants were given for Thirteen and Fourteen, but Lot Twelve is referred to in the following way "Also all that part of Lot Twelve lying East of Muddy Run in the First Concession West of Fairchild's Creek in the Township of Onondaga which now belongs to said George Barton as purchaser from the Crown, be the same more or less".

It would appear from this that George Barton was entitled to a Crown Grant, and we wish you would write the proper authorities and have them forward the same.

INDIAN BRANCH JAN 23 1906

Dear Sirs -

-No. 293570-

The Registrar of this County has handed us your letter to him of Jan. 13th. regarding the issue of a Crown Grant for part of Lot Twelve in the First Concession West of Fairchild's Creek in the Township of Onondaga. Both of the Patents you refer to as having been issued to James Woods and James Thompson are registered, and appear on the Abstract Book, but they do not refer to that portion of Lot Twelve which we have marked on the enclosed sketch in red ink. The first entry on the Abstract Book is Instrument 618, being an Agreement whereby George Barton sold to Alec. Howell part of Lot Thirteen, part of Lot Fourteen, and also that part of Lot Twelve lying East of Muddy Run which now belongs to said George Barton as purchased from the Crown. The above described parcel has been conveyed from time to time till it is now owned by Robert Robertson, and apparently there is no Crown Grant of the small portion of Lot Twelve outlined in red ink. We think this must have been overlooked, and we are anxious to have a Crown Grant if it is possible to get it.

Yours truly,

Department of Indian Affairs,
Ottawa, 27th January, 1906.

The Deputy Supt. General,-

With reference to the letter, hereunder, from Messrs. Brewster, Muirhead & Heyd, of the 20th instant, I beg to state that the grant to James Woods includes all west, in lots Nos. 11 and 12, Concession 1, Onondage, of a peculiar feature called the Mud Run, and the grant to James Thompson is for all west of Fairchild's Creek, in the same two lots. The second grant would appear to include practically all of the two lots. It is, however, evident that the grant to James Thompson includes the small piece of land shown on the sketch accompanying the above mentioned letter. The areas noted in the patents, namely 77.71 acres and 52.84 acres also corroborate this, as together they include the whole area of the two lots.

Sir

A short time ago I learned that Robt. D. Brant a six nation Indian residing upon this Reserve. had purchased from Andrew McGee a member of the Mississaugas of the credit the N.W. 1/4 lot 9 con 1 Tuscarora.

The matter was laid before the Council yesterday and I was requested to report the matter to the Dept.

According to the settlement with the six nations. the consent of the Mississaugas council would first have to be obtained before a six nation could purchase or occupy land within the Reserve.

The Brants were occupying one hundred and fifty acres of land before this settlement was made. and the Band strongly object to them occupying any more as they need all they have for themselves.

Kindly advise me as to what would be the proper course in this matter at an early date - and greatly oblige

MEMORANDUM.

Ottawa, 8th April, 1910.

To the Deputy Minister,

In regard to communication from Mr. Ross M.P. as to claim made by Adam Halfday, on behalf of the heirs of his late Father, for compensation for improvements made about 40 years ago on the N.W. part of Lot 9, Con. I, Tuscarora, I beg to say that this claim came before the Mississagua Council on the 17th November last, when a Resolution was passed deciding not to recognize Halfday's claim, and to take no action in the matter. The Agent reported that he could find nothing in the Books in his Office, which went back to 1863, to shew that any person by this name, ever belonged to the Band.

In a report of inspection of Tuscarora Lots made in 1844, this Lot is reported as vacant, with no improvements thereon.

In view of the above, and of the length of time that has been allowed to elapse, I do not see that the Department can do anything.

To The Councillors of the
Mississauga Band of New Credit,
Hagersville P. O., Ont.

Gentlemen,-

I beg to submit the following for your consideration. That about forty years ago my late father John Halfday and his wife (my late mother) were both members of your Band and occupied the N. W. ¼ of Lot 9 concession 1 Tuscarora.

That my parents being recognized as members of the Band made considerable amount of improvements on the said Lot in the way of clearing and bringing it into a state fit for cultivation and a large quantity of pine lumber was on the place from which my late father intended to build a frame house along side of the log house he and his family then occupied. The land so cleared contained about thirty five acres.

That on account of my mother having predeceased my late father, he made an extended visit to Muncey, Carador Reserve, where he had a brother living who finally succeeded in inducing him to make his permanent home on said Reserve. That my late father had intended that one of his children would some day return to New Credit Reserve and occupy the lot which he had left but never sold.

That I am of opinion that since the lot in question has been disposed of by the Council of the Band the only remedy I have now is to ask the present Council to see into the subject and if possible to arrange it so that the heirs of my father may be allowed some consideration in the way of compensation for the labor the deceased had done or performed on the said land before his removal to Muncey

Your with respect
Adam Halfday.

Humbly sheweth

That Andw McKee King a member of the above band of Indians did sell to Robt Brant also a member of the ~~said~~ Mississauga band of Indians both located in the Township of Tuscarora aforesaid: that parcel or tract of land known as the S.E. ¼ of Lot No 9 in the 1st Con of the said Township of Tuscarora containing 50 acres more or less for the sum of three hundred & twenty five Dollars in trade; being about 500. less than the actual value of the said lot

We ask therefore that the sale & purchase thereof be cancelled & the property revert to the Indian Council of the above band for the following reasons (viz)

1st That the sale was effected by undue influence

2nd That the said Andw McKee King is not competent to transfer his property

3rd That the said sale is a violation of Section 38 Sub Sec 3 Chap 32 of the amended Indian act

4th That the said Robt Brant by becoming possessed of the above 50 acres of land is an excessive holder of Indian lands as some of the younger Indians are of age & others nearly so & all available lands on the reserve will be required for these persons

At a meeting of the Council of the Mississauga Indians held last July it was decided to ask for an investigation of the case but up to the present we have not had any intimation that any thing has been done. We ask therefore that you will give the matter your consideration at your earliest convenience & your humble petitioners as in duty bound will ever pray

DEPARTMENT OF INDIAN AFFAIRS
FEB 20 1911

Sir:-

I have your letter of the 15th, instant No 293 880 and beg to say in reply that I first learned of Robert D. Brant a Six Nation Indian, purchaseing land from Andrew McGee a member of this Band, in Dec. 1905 and reported the matter to the Department in a letter dated 18th, Jan. 1906.

I was informed by Brant's brother to day that the sale took place about ten years ago, when the late Agent Hugh Stewart was in charge of this Agency.

I can find nothing in this office to show that the matter was ever brought before the Council or that the Department was even consulted.

Brant has enjoyed peaceable possession of the property since he first occupied it.

It appears to me that the only thing to be done is to hold an investigation and get all the information possible, and let the Department decide the matter.

Sir:-

Referring to your letter of the 22nd, instant, No 293 880 respecting the purchase of land on this reserve by Robert D. Brant a six nation Indian, from Andrew McGee a member of this Band, I beg to say that I have been discussing the matter with James A. Wood, the Chief Councillor, of the Band and we are agreed that it would be much more satisfactory to have the Inspector here for this case as their is a little hard feeling between the two Bands at present and with his assistance we might arrange an amicable settlement which would be satisfactory to all, it might be well to have Superintendent Smith of Brantford present as ~~xxix~~ also, I understand that the Six Nation Chiefs intend support Brant in this matter, and I have no doubt but what a number of them will be present.

I this arrangement is satisfactory to the Department we would want at least two weeks to prepare the case.

Sir:-

I am encloseing a letter which received this morning from Mr. A.G. Chisholm, Barrister etc., London, regarding a claim by Adam Halfday for impervements claimed to have been made by his father, John Halfday, on this reserve many years ago. I will report as follews.

Adam Halfday has attended two or three meetings of the council of this band and put in a claim for improvements as stated in Mr. Chisholms letter. John Halfdays name does not appear in any records here that I can find, but Jos. Laferm and some other of the old members of this band say they remember when John Halfday did live on the N. ½. of Lot 9 Con. I. Tuscarora, that he erected a small log house and cleared a small peice of land and then left the reserve this must have been about 50 years ago. When Halfday put in his claim to the Council they said they were willing to deal justly by him if we could find anything to shew that he had any claim to this land. I find recorded in the minutes of a location council held May 16th, 1889 the following xxx record, The N.W. ¼. of Lot 9 Con. I. Tiscarora, formerly in possession of widow McGee who has since died and Andrew McGee is now in possession, the council passed a motion approving of Andrew McGees occupancy. Andrew McGee after wards sold the place to Robt. Brant who is still in possession. Unless the Department has somthing to shew that Halfday received something for his improvements I think it would be only fair to ask the council to recommend that he be paid something from band funds and settle the matter, I think 250 would satisfy him.

Dear Mr. Van Loon/

Old Adam Halfday, whom I have known for years, is hard up and needs money, else I think would not press a claim for improvements on the farm his father one time occupied on your reserve, now the McGee homestead, Lot 9, Con. I, Tuscarora.

His father, John Halfday was one of the original members who came from the Credit, and his mother is buried there. The claim is for improvements on 35 acres, cleared by his father, and Halfday, says he thinks it should be worth $100.00. Some of your older members- Jos. Laforme, Wm. Crane, W. C. N. Elliot, D. K. Herkimer, W. H. Sterling, J. A. Wood and John Jackson, will probably remember John Halfday and would I think be glad to have something done for Adam. Would you bring the matter once more before the council and see if they will agree to pay something in settlement? I should be obliged.

It is a long time now since I have had to communicate with you. I trust you are feeling fit. With regards to yourself and old friends, believe me,

Faithfully yours [redacted]

In reply I would say that this claim was investigated about nine years ago, at which time the Mississauga Council decided not to recognize the claim and take no action in the matter. The Department decided that, as there was no record of any improvementsupon the papers in the Department, and as the claim had been allowed to stand so long, it was not in a position to do anything in the matter.

Providence Bay,-

Decm., 1905.

Mr. Daymont.

Dear Sir :- I write you for the first time to see if you will be so kind as to grant me a favour its in regards to the Lot that I bought some years ago Lot Seven on the twelfth Consession of Carnarvon at the time I bought it I undersood it was paid for in full so that I did not hother any more about it until I got a letter from the Deprtment this summer calling for sixty-six dollars of arears and if not paid by the sixtenth of January it will be canseled on me. Now I do not think it right of the Goverment to do so after me paying taxes so long and if they take it from me I will have no place to go to live in as I am getting pretty well up in years and cannot do much work.now. Now Mr. Daymont I ask of you as a great Favour to try and get me the Deed of the Place .....

From yours truly,

John McQueen,

86-I2. Indian Office, Manitowaning,
April 6th, 1929.

Sir:- Sale No.327I

With reference to Lot 7, Con. I2, Township of Carnarvon, which the records of this office show this property to stand in the name of the late John McQueen deceased, I have the honour to report that this Lot is occupied by Mrs. McQueen, widow of the late John McQueen, as it is her only means of support.

As Mr. McQueen died intestate and the widow has had peacable and undisturbed possession of this property since his death I would recommend that the sale be cancelled and I be given authority to re-sell the Lot to her at a nominal price of $10.00.

File No. 293930. Vol 3095

Department of Indian Affairs,
Ottawa, April 11, 1929.

WHEREAS Lot 7, Concession 12, Carnarvon, stands by assignment in the name of John McQueen, who died intestate years ago.

AND WHEREAS the Lot is valued at $50.00 and, as the widow has no means and the expense of proving legal title would be considerable, the Agent recommends cancellation of the lot and redisposition of same to Mrs. John McQueen for the sum of Ten Dollars.

NOW THEREFORE by and in virtue of the powers and duties vested in the Superintendent General of Indian Affairs, by the Indian Act, Chapter 98, Section 64, Revised Statutes of Canada, 1927, I hereby CANCEL the said Sale and resume the said land for further disposition.

21

In the matter of a permit granted to Jasper W. Jones by the Council many years ago to occupy the North half of Lot No. 7, Con. 3 Tus. during his natural life. The Council decided to respect the action of their predecessors who had given this permit to Mr. Jones, but the property will revert to the Six Nations on his demise and should the committee who will be appointed to examine a gravel bed on the property think it worth while to have this bed opened, the Council will open a road way from the side line opposite the pit.

Council respect old decision passed by their predecessors.

I beg to ask whether the plot of land shown on the enclosed tracing is among the lands which are for sale & you will note that it immediately adjoins certain lots which were sold in what was called Neebing township. The tracing is made from a plan of the township in this office.

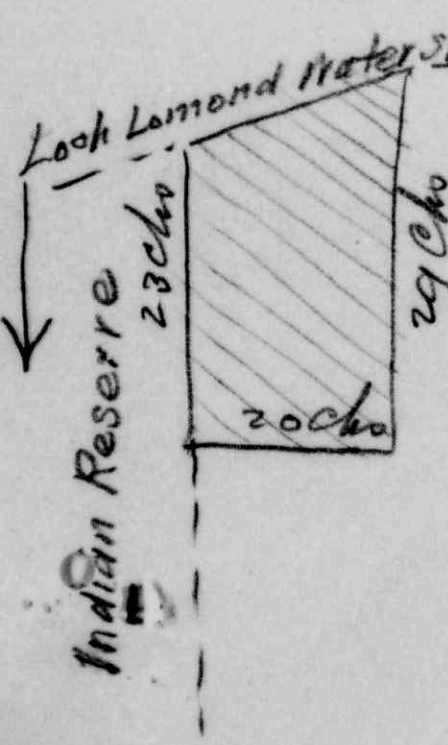

One Peter Stevens an American Indian living in Fort William is desirous of purchasing the parcel referred to. I cannot tell from the plan I have whether the land has been surrendered for sale or not. I might say that so far as I can find out, the parcel referred to has about 35 acres of arable land and considerable Maple on it. I also know that Stevens has funds wherewith to pay for any land he may purchase.

Sir:

I beg to report that W. J. Phillips, a citizen of O'Connor Township, has just applied to purchase Lot No. 15, Concession 4, Neebing Township. He has made an offer of $200.00 cash.

The majority of this property is mountain and there is only a few acres which can be cultivated. Under the circumstances I would recommend the sale of this property.

If the Department do not consider it advisable to sell Mr. Phillips would lease the property.

Sale No 1218.

152--7

Sir,

I have the honor to report that Mr James Hembruff has informed me that he occupies Lot Number 1, Con, 2 in the Township of **Bidwell**, that he has occupied the said Lot for over twelve years and has twenty acres cleared besides buildings erected thereon. He says he bought the Lot from his brother who claims to have bought the Lot from one Coleman.

LAND BRANCH

The sale of this Lot was cancelled by authority of Official letter No 124569 dated Dec 9th 1892 and there does not appear to be any thing to show on the books of this Office that either Coleman or Hembruff owned the Lot.

Mr James Hembruuf now wishes to purchase the property and as he has had the use of the land for twelve years I think he should be asked to pay interest at the usual rate on the price of the Lot for the time he has occupied it, this I consider is only equitable as had he purchased the land at the time he took possession the Department would have had the use of the amount he paid as a first instalment and the balance would have been drawing interest from then till now.

The Hon. the Minister of Lands

Lake St. John.

Dear Sir,—

With reference to a lot that I bought on the Indian reserve five years ago, the first instalment was paid by Mr. L.P. Dilodeau, No. 11 of range 5, Chiatchouan township, of which I was the second purchaser by a deed under private seal, and after this deal was made out and signed by four or five witnesses, I paid all that was due the Govt. to the Agent, who was Mr Donohue, and he told me that he had sent the papers to the Dept. in order that the lot might be put in my name, in fact that I should have the patent in my name; and I have not received any news since that time, and now I wish to know how much I have still to pay in order to obtain the patent, and whether I may have it in my name and whether the deed that I made is sufficient to give me my right as purchaser

Yours faithfully

Ottawa, I7th February, I906-

Sir,

In reply to your letter of the I2th Instant, with regard to Lot II, Range 5, Ouiatchouan, I have to inform you that this Lot was sold on the 23rd September, I899, to L.P. Bilodeau, in whose name it stands, as follows:-

I05 Acres @ 40¢ per Ac.----------	$42.00
Paid date of Sale $8.40	
Paid Ist Feb. I90I $33.I4 (Int $2.65)	$4I.54
Balance Principal due -------	$ .46¢

and Interest thereon @ 6 % from date of sale to date of payment.

I may say that before patent can issue, it will be necessary to pay this balance, and file Statutory proof as to the performance of settlement duties upon the Lot. Payment, however, should be made and these papers filed through the local Agent, Mr. A. Marcoux, of Pointe Bleue, P.Q. who will, if all is correct requisition the Department for the issue of Patent. In order that the Patent may issue in your name, it will also be necessary to file proper Assignments from Mr. Bilodeau to yourself.

D.I.A.

Ottawa, 22nd February, I906-

Sir,

Sale 148

In reply to your letter of the I5th Instant, enclosing receipt No. C. II, 6I7, for payment of $35.79, Ist February, I90I, and signed by W. T. A. Donohue, Indian Agent, on Lot II, Range 5, Ouiatchouan, I have to inform you that this sum was received by the Department along with late Agent Donohue's Land Return for February, I90I. I may say, however, that he incorrectly apportioned this payment, as $33.60 Principal, and $2.I9 Interest, as it should have been $33.I4 Principal, and $2.65 Interest. This correction was made by the Department in the Agent's Land Return at the time, and the Duplicate thereof sent back to the Agent, to be kept of record in his office.

Lot 2 Lom. Wad A.E.K.

The Lot, therefore, stands on the Books of the Department as follows, in your name.

I05 Acs. @ 40¢ per Ac.----------$42.00

Paid date of Sale $8.40.

date of Sale, to date of payment, or a total amount of 65¢, if paid by the Ist Proximo.

I may state that before Patent can issue, it will be necessary to pay this balance, and file the usual Statutory proof as to the performance of settlement duties upon the Lot. The payment should be made and papers filed, through the local Agent, Mr. A. Marcoux, of Pointe Bleue, P.Q. who will, if all is correct, requisition the Department for the issue of Patent.

As the Department has been advised in other correspondence that you are assigning the Lot, I might point out that all Transfers should be also filed in the Department, through the local Agent.

I am returning herewith the receipt, which accompanied your letter, as you request.

Your obedient servant,

J.D. MOLEAN

Secretary-
