DEAR MR. EDITOR,-In addition to the public meetings, held to consider the various aspects of the Tu-kish Question, and the voluminous correspondence in the newspapers, a conference has been held consisting of upwards of 1000 delegates, and the list of names disclose an immense array of talent, rank and influence. Men who are famous and foremost in all departments came out boldly in opposition to any attempt or proposal to support by the might of our arms, the present Government of Turkey. The conference was not avowedly political, but it was in direct antagonism to some of the in-discreet and fiery utterances of Lord Beaconsfield, and doubtless expressed the views of the great Liberal party of the day. The papers which represent the Government, and others which support Turkey through all her crimes and misdemeanors, were in great wrath at the decisions of the Conference. It was the extreme of rashness and the reverse of every thing patriotic to assemble and discuss questions of high imperial policy at the present crisis, and on the very eve of the assembly of the European Council at Constantinople. Much more of this loud talk was indusged in, but it is quite evident silent. The locale of his residence has, in formerly the Episcopal missionary at Bat-

LABRADOR MISSION, 1876. BY REV. GEO. PAYNE.

Having during the past summer been again appointed by the N.F. L. Conference, as missionary on Labrador coast, I here present a report of my labors on that important mission.

Through the generosity of M. D. Knight-Esq., whose kindness both last year and this, I shall never forget; I obtained a free passage to Imbrador coast. We left St. John's on Tuesday, July 4th, but on account of head winds did not reach Labrador until the following Tuesday. My mission this summer commenced at Henley Harbor, which place I did not reach ast year. There I found severas methodists and a few Episcopalians, most of whom visit the place only for the summer months, but some few families remain there all the year round.

REPORT

OF THE GENERAL SABBATH SCHOOL BOARD OF THE METHODIST CHURCH OF CANADA FOR THE YEAR END -ING OCTOBER 1st, 1876.

From a careful survey of our entire field of operations, it may be safely affirmed that our ministers and membership never manifested more lively interest in Sabbath-school work than at present. The public meetings held at the annual Conferences were largely attended, and the addresses delivered marked by much ardor, and were well calculated to forward our work. On many districts, especially in the Western Conferences, conventions and institutes have been held, some of which were amongst the most interesting services of the church during the year. These have greatly benefitted the teachers and officers of our schools. The statistical returns have been more promptly and regularly made than in preceding years, and the records of our Sabbath school work, appear more fully in the minutes of the annual Conferences, than heretofore.

RETURNS.

The statistical table, published in the WESLEYAN in September last, shows increase during the year in the following particulars, viz.: schools 10; teachers, 506; scholars, 2,602; conversions, 1,888; scholars meeting in class, 3,244; schools using uniform lessons, 175; having regular meetings for the study | ly to begin the examination of a large of the lessons, 107; and of those kept open during the whole year, 192. These figures are calculated to awaken gratitude to God, for his blessing on our work. Still we are deeply impressed with the fact that much more ought to be done, than has yet been accomplished; for while we have 2,971 preaching the several Sabbath schools, hereafter appointments in the Dominion, we to remain as we now are, free from have only 1,585 schools, leaving 1,386 debt. congregations without any church schools. Again, we find that, of the 1585 schools, only 845 are maintained uring the whole year, leaving 740 schools closed during the winter; this however is better than the year before by twenty-five cent.

RECEIPTS AND EXPENDITURES.

The total receipts for Sunday school work since the General Conference, to the first of October last, is \$788.52, and the expenditures to that dates \$584.12. In the Banner of Sept. 1875, a detailed statement is given of the expenditures to that date amounting to \$305.45. Since then there have been paid for books -to Nelson & Philips, \$35.98; American Tract Society, \$14.55; Carter & Brothers, \$33.97-(all of which ning of our work. have been furnished to the committee at half price for examination)-duties and freight on the same \$8.70. Secretary's expenses in visiting committees of annual Conferences, and making arrangements for procuring from publishing houses suitable books for our litra-

schedules, books, letters, and constitutions, and other petty expenses, as per blotter, \$42.22. Treasurer's expenses \$.41. Total \$278.67, or a grand total since the General Conference of \$584.12. Outstanding accounts for expenses of the Board meeting about \$50. Schedules and books at Book Room, Toronto, about \$100.00, (which will be given in detail in our next report;) and grants of books, etc., etc., to poor schools in Newfoundland, Anticosti, Hepworth, and Blairton, \$83.00, will more than equal the balance in the Treasurer's hands on the 1st of Oct. LIBBARY COMMITTEE'S WORK.

We regret to say that our work of examining library books has not proceeded as rapidly during the year as we had hoped. First, because the Secretary has not been able to give as much timeto the work as it required, he having to attend to his regular duties, in connection with his pastoral work, and when we bear in mind that, after the committee have selected the books, every volume has to be mailed, with a blank certificate, to some minister, to be read, entered in the alphabetical register in such a manner that each book may be properly accounted for, and when the cortificates are returned, they are similiarly registered for future reference; next, the reports on the books are considered by the committee and their approval or disapproval expressed or recorded; finally, alphabetical lists are prepared, of the approved books, with the publisher's names and prices, for publication, and if rejected books for the use of the committee and our Book Rooms only. It will be seen that a great amount of labor is required to keep the work moving at all satisfactorily, and without which the whole business would soon be thrown into hopeless confusion. Second, it bas been observed that in the Eastern Conferences there was little sympathy with us in this work. But after visiting some points in the New Brunswick and Nova Scotia Conferences, and conversing with many of our leading Sabbath school ruen, both ministers and laymen, our Secretary discovered that the brethren in these Conferences only needed evidence to show that a proper basis of operations had been adopted, and they would then enter heartily into the work with us. The Book Steward at Halifax expressed great sympathy with our object and promised hearty co-operatiou, on condition that he be put in such a position by the committee, as will enable him readily to procure the books recommended. Circulars are now prepared and will be forwarded to the brethren in the East requesting their assistance in reading and reporting on books yet to be examined. We are now receiving our books direct from the best publishing houses in Canada and the United States, and hope shortnumber of English books.

Third, another and perhaps the most serious hinderance to this work has hitherto been the want of funds. Up to last June all our operations were conducted on the credit system. We hope by the liberality of our friends in

Circulars were forwarded to a large number of ministers during the past year, asking them to send the titles of any good books they might have read in the ordinary course of their work, which they considered suitable for our Sabbath school libraries. Three hundred books were in this way reported, of which only about one hundred were in stock at our Book Room, but samples of the remainder will be procured, and if, after examination they are found suitable, they will be placed on sale. The committee have now 500 volumes ready to be sent out to be read and reported on. These will make in all 876 volumes which have passed through the hands of the committee sir.ce the begin-

OF BIBLE TRUTH."

The Rev. Henry Pope, jr., has just pubished a volume of sermons entitled Draughts from the Fountain of Life. being Expositions of Bible Truth for every Sabbath in the year, with an Introduction by the Rev. James R. Narraway." The book has been printed by Messrs. J. & A. McMillan, who have got it up very nicely. The work will be completed in two volumes, that now issued containing 25 of the 52 sermons which are to be included in these volumes. The sermons are plain, evangelical, practical. Though Mr. Pope is doubtless an ardent Methodist, attached to the minute peculiarities of his own church, the sermons here published might have been preached in any evangelical pulpit. This is, no doubt, the fact in regard to most sermons, despite all the difficulties which the denominations feel in forming incorporating unions, lessening the number of the sects and presenting a more united front to infidelity and other forms of error. The staple of the discourses is the Gospel, in its nature its applications and its effects. The sermons are, therefore, of an eminently practical character, and whether it be a merit or a defect, there is not one controversial sermon in the volume. Most, if not the whole, of these discourses were preached in the Centenary Church in this city, having been since revised by the author during a period of enforced retirement, through ill health, from more active work, and they constitute a favorable illustration of the character of the Methodist Pulpit, though of course all congregations are not equally favored. The titles of a few of the sermons will give our readers a good idea of their practical character. They include such topics as the following :- " Great Mercy for Great Sinners," "The Repentance of a Sinner, the Joy of Angels," "Preaching Christ," "The Interesting Inquirer," "The Conversion of Zaccheus." "The Love of Christ, the Strongest Motive of Missionary Exertion," "Christ's Fidelity," etc., etc. The discourses are not so much "sermons for the times," taking a coloring from current events, as versions of the Old, Old Story," of the Gospel, and this, after all, is the kind of preaching that secures the highest morality, while, on the and short comings of the times cannot | man has gone mad." Wishing, however, doubt that Mr. Pope's discourses will be much sought after, as expositions of Bible truth and as souvenirs of a devoted pastor. We hope that the state of the author's health will warrant and enable him to get the second volume through the press as soon as possible, and that the

It has sometimes been said that the Lecture system has been played out, and that is useless to try any longer to make the institution popular. Since the Removal of the Rev. W. Morley Punshon, LL.D., from our midst we have no resident orator who can draw a crowd by the payment of an admittance fee. There is, however, a gentlemen among us who has been creating quite a sensation in some of our cities. His name is Rev. Alexander Clarke, from Australia. He belongs, we believe to the Baptist denomination, and his health having failed-so it is said-he has adopted the lecture system to recuperate. Not having had the privilege of hearing the gentleman I can only speak from the testimony of others. One thing is certain, he fills the largest houses that can be secured. Some of the topics on which he has lectured are "The Tower of London," "Charles Dickens," "W. Makepeace Thackerary." All classes. from the Lieutenant-governor downward, are enchanted by the magic spell of his eloquence. He is equally famous as a preacher. Last Sabbath night he occupied the pulpit in the Metropolitan Church, one of the largest in the Dominion, and a reporter published in the morning papers of Monday that thousands went away without getting near the door. This is certainly something marvelous !-Toronto Ccr. Nashville Advocate.

DR. SUMMERS AND PROFESSOR HUXLEY.

When Proofessor Huxley was on a visit to his niece, in Nashville, he visited the Vanderbilt University, where he was cordially received, and where this incident occured, illustrating the " warfare of science and religion." He was inspecting the different depart-

ments, and on passing from the School of Science to the School of theology he remarked to the Rev. Dr. Summers ----ligion on one side and other. Do you keep a patrol bo

"Come n," said the Doctor, "and see where we beat out theology. and where we should be glad to have the opportunity of beating a little into

"Ah, Sir," said the Professor, " if I were here I should give you the novel theology, if not so sound."

" I have no doubt of its being sound."

replied the Doctor. Finally, the peculiar construction of

the seats in the theological apartment suddenly seemed to strike the English apostle of evolution, and he immediately evolved this from his inner consciousness: "You seem to have a twist in the desk appendages to the seats, I see, Doctor."

"Yes: but it is not so bad as the twist which you put into the occupants. and which we are trying to work out." "I hope we keep you employed,"

said Professor Huxley, and the laugh. ing admission that they did was taken as a truce.—Hurper's Magazine...

THE DOOR.

The Chevalier Gerard de Kampis was a

rich and a very proud man. Soon after the completion of his magificent castle, he wished to have a housewarming, and accordingly all his great neighbors were invited to a grand feast At the conclusion of the sumptuous repast his guests made speech after speech, in which the host was lauded to the skies and told that he was the most fortunate man alive. As the chevalier loved flattery we can imagine how proud and delighted

One among the guests, however, said nothing for a time. When each man made his speech, he uttered the following singular observation upon the happiness

of the host.

"Sir knight," he said, "in order that your felicity should be complete, you require but one thing, but that is a very important item."

"And what thing is it?" demanded the knight, opening wide his eyes.

"One of your doors must be walled up,"

replied the guest. At this strange rejoinder, several of

the guests began to laugh, and Gerard wholly be dispensed with. We have no | to have the clue of the enigma, he continued, "But which door do you mean?" he demanded.

"I mean that through which you will one day be carried to your grave," replied the other.

These words struck both guests and host, and made the latter reflect most seriously. The proud man remembered the vanity of all things earthly, and from thenceforward no longer thought only of the perishable treasures he had once so gloried in. He was completly altered only made use of his riches for good works, thus laying up for himself an eternal in-

PET THE OLDER ONES.

It sometimes occurs to us that the babies get more than their share of petting. Not that anybody can help it. The dear little dimpled things, with their sweet ways and their helpless dependence, and the charm of some new revelation every day, invite our caresses, and our whole store of complimentary adjectives. Darling and treasure, and the common stock of nouns of endearment and approbation, come easily to our lips when we talk to the little ones.

How often we drop these pretty forms of speech as they grow older. They leave the cunning age behind, and graduate into the awkward one. Girls and boys alike pass through a period when they are shy, sensitive, morbid, and self-concious, yet withal arrogant, conceited, and opinionated. With what matchless confidence sixteen aud eighteen adopt and parade notions on subjects which have puzzled prophets and sages! Then their fathers and mothers too often feel impatient and disappointed. They do not remember that this queer husk will fall away, and from it emerge a flower by-and-by.

So gradually and insensibly do mothers loose the habit of caressing their older children, the latter would often look very much surprised at a kiss bestowed out of the regular way. The habit of a morning and evening salute is kept in families where it is merely mechanical and perfunctory. Yet that is better than no kiss at all. The magnetism of mother-love. shown to the boy or girl, however unamiable their transitory mood may be, is

strong enough to save them from unhappiness, or from the attacks of tation. Do not slight so strong Even though you feel diffident in taking ap what should never have been laid aside, begin again, and pet your big sons and daughters.—Selected.

HAPPY DAY.

BY REV. C. BABCOCK Absent from the body I, Shall be present with the Lord: Raised to mansions in the sky By the merit of his blood. I shall see Immanuel's face-Share the riches of his grace.

Patriarchs and prophets there, All arrayed in robes of white; Crowns of life and glory wear, 'Mid the first-born sons of light: Join their songs in holy lay, Happy day! O, happy day!

Hail! all hail! celestial throng. Trophies of redeeming grace; Sweeping harps of wond rous song To the great Messiah's praise; Near the throne on Zion's height, 'Mid the flowery plains of light.

Thence the Lord in flaming fire, Shall with Majesty descend With his bright angelic choir, While ten thousand saints attend; Slumbering millions far and near, Then his trumpet voice shall hear.

Seas and graves shall yield their dead' All receive their final doom ; Saints ascend with Christ their head. An immortal youth to bloom: Vie with angels in their lay, Happy day! O, happy day! Nov. 21, 1876.

OBITUARY.

MRS. MARTHA WARREN, N. F.

Martha, the beloved wife of William Warren, of Channel, N. F., and sister of John Evans, J. P., departed this life, Sept. 1st, at 9 p. m. Peacefully she passed through the valley, resting on the promises of Christ whom she had long loved and served. At 8 o'clock in the morning of the above date, she was in great pain : and it was apparent to all that her end was near. She remarked that " all was well," and that she "was on the road to heaven." At one p. m., she opened her eyes, which had been closed for four hours, and asked for a drink; and after recognising all present, she closed them again, and remained in that state until 9.30 when, while loved and loving ones were kneeling around her bed in silent brayer, her spirit passed away to the restland of the spirits of the just.

During the last five years of her life she

was a great sufferer. Sometimes disease

shook the clay tenement so violently, that its standing so long was a marvel to many. Doubtless, her patient and cheerful disposition did much towards rendering the medical skill brought to bear on her case effectual in prolonging her days; and at the same time manifested the power of religion to sustain and comfort the heart in the most trying circumstances of life. There was no fear of death before her. Frequently has the writer heard her say that she was willing to live or willing to die as the Lord saw fit. His will was her will in the matter. Her love for the public means of grace was genuine and most exemplary. Whenever it was possible for her to resort to the house of God, her seat was not vacant. Even when inclement weather, and her weak state of health would have justified her absence, she would submit to all but carried there, that she might hear the word and share in the hallowed exercises of prayer and praise. While free from sectarian bigotry and narrow exclusiveness, she was firmly and ardently attached to the principles and polity of Methodism. The class meeting was particularly dear unto her. Nothing but sheer inability to get there would keep her from it. While speaking of the divine support and comfort she received in her affliction, her heart would be manifest in her eyes; and her voice trembling with emotion would declare her gratitude and the preciousness of Christ. She was ever ready to promote, according to her ability, the interest of the Methodist Society at Channel, feeling concerned in all that related to the welfare of Zion. In this matter it may be truly said of her, "she hath done what she could." In providing a home for the ministers, she sacrificed much personal comfort. The writer having spent two years beneath her roof can testify that her self-denial in this respect was great. Nevertheless she gloried in it. Not forgetting the declaration of the Lord, "Iuasmuch as ye have done it unto one of the least of these my brethren ye have done unto me."

Our sister has left a husband, daughter, step-daughter, mother, three brothers, two sisters, and many friends to mourn their loss.

Yet e'en the greatest griefs May be reliefs, Could he but take them right. and in their ways. Happy is he whose heart, Hath found the art To turn his double pains to double praise. Green's Horbor.

B. C. 925. Lesson III. OMBI AND AHAB: or, Growth of Sin. Jan. 21. 1 Kings 16, 23-34.

EXPLANATORY.

THIRTY AND FIRST YEAR. Reckoning from Tibni's death, [compare verse 15.] when he began to reign alone. Twelve years. Dating from Zimri's death. [See verse 29.] He reigned four years with Tibni, and eight years alone. Six years. The first half of his reign. Tirzah. Originally a Canaanitish royal city; exact site not known, perhaps the modern Telluzah, a place in the mountains north of Nablus, (Shechem,) about nine miles distant. The kings Baasha, Ela, and Ziniri lived at Tirzah, and Jeroboam seems to have had a palace there.

SAMARIA. Shemer-two talents. See Special Exegetical Notes. On the hill. Samaria was situated on an oblong bill, having steep sides rising from a remarkable basin, and a long flat top. Possessing abandant springs of water, it was admirably adapted for defense, and, therefore, continued to be a royal city until the end of the kingdom.

WROUGHT EVIL. An expression used to describe the character of all the kings of Israel after Jeroboam. Did worse. The "statutes of Omri" are spoken of .in Micah [6. 16] as kept in his time. That he enacted laws for idolatrous worship, and laid the foundation for the worse idolatry under Ahab, is highly probable.

position to the Jehovah worship from sel. fish fear, fostering image worship, observing a self-appointed feast day instead of the day divinely appointed for that purpose, supporting the false priests not of the line of Levi, and leading the people into sin His sin. The calf worship.To provoke to anger. The expression here used is employed in the Bible only in reference to the sin of idolatry, and has reference to the second commandment, "the Lord thy God is a jealous God," another form of the same word. [See Deut. 32, 21] Vanities. Nothingness, that is, worship of things which are nothing in themselves. "They that observe lying vanities forsake their own

REST OF THE ACTS. This record is only concerned with the apostasy of Israel. and those acts which led to it or helped it on. It appears from chap 20, 34, that there war between Israel and Syria of Damascus during the reign of Omri, and that the Syrian king not only captured several cities. but obtained the right to make for himself streets in Samaria. His might. Valor-brave deeds. Probably shown in this war, as well as in the contests with Tibni......Books of the Chronicles. Doubtless one of the original works from which the books of Kings was compiled, but not now extant.

mercy." Jonah 2, 6.

SLEPT WITH HIS FATHERS. A formula for death used throughout the books of Kings, and less regularly in Chronicles. A somewhat similar expression is found in Gen. 15, 15, and in Judges 2, 10 Buried in Samaria. It was the custom to bury kings in their capital city. So David and his descendents were buried in Jerusalem, (chap. 2, 10; 2 Kings 12, 20,) though no other interment was permitted within the walls.

Asa. Rehoboam's grandson. Thirty and eighth year. Asa's long reign contrasts with the short reigns of the wicked kings of Iscael. Twenty and two years, reckoning in the full years of his accession and of his death. Compare chap. 15, 10, with 22, 51.

EVIL. The great sin of Ahab, that by which he exceeded all his predecessors, was his introduction of the very gross and positive idolatry of the Canaanites, and its establishment as the religion of

the State. A LIGHT THING. Sin is never " a light thing." It is rebellion against a God of holines, power and grace. It brought Christ from heaven. Look at Gethsemane and Calvary. Can sin be "a light thing?" Jezebel. The most sinful, as she was the most powerful, woman of Old Testament times. A heathen, base, cruel intriguing, heartless. Her name "became a by-word for false doctrine, idolatry and harlotry in after ages of the church." Zidonians. And king also, in all probability, of Tyre. Baal. A woman's influence for good or for evil is immense. Ahab's bad heart clave unto a bad companion, and the heart became all the weaker and more wicked. Worshipped. Forgetting and defying the God of Israel. But sin goes from bad to worse, and from worse to worse,

BUILT IN SAMARIA. Permanency insured to this new and infamous idolatry by the erection of a house of Baal in the executed at this Office.

very capital of the nation. A large, capacious building. A monument to Jezebel's power and Ahab's shame.

GROVE. Shaded, silent, solemn, dark retreats for heathen mysteries, and for the unhallowed and forbidden sins which pertained to idolatrous worship. Anger. God really hates sin.

Build Jerico. Against God's express command; under influence of a popular disregasd to God's law and threated penalties; in imitation of the recklessness and boldness of Ahab. Bethelite. All the sacred memories of Jacob's God that clustered about Bethel. Here, too, Abraham built his altar. Word of the Lord, which is unalterably and eternally true.

CAPT. BOYTON'S SWIM OF EIGHT HUN-DRED MILES.-Intelligence has been received that Captain Boyton has accomp lished the feat of swimming down the Po, from Turin to Ferrara, a distance of 800 miles. On reaching the latter place he is stated to have been received with great enthusiasm by the foreign as well as Italin residents. In November he swan from Turin to Castel Nuovo in his life-saving dress, 260 miles, in 83 hours, but was obliged to leave the water, feeling that a fever, caused by the malarious atmospheue of the river and his exertions, was coming upon him. He was laid up for several days at Castel Nuovo. On starting again from that place, however, he completed the journey down the Po to Ferrara, 280 miles, in 96 hours, without a single break. This he states to be the last, as it has been longest, of his feats.

THE GREAT SHOSHONEES REME. DY AND PILLS.

The success that these medicines have met with since their introduction to the public some years ago, proves plainly to the most skeptical that they are medicines that perform what they are advertised to. The virtues of tuese medicines have been well-tested, and have withstood t heir trial in a most satisfactory manner. For diseases of the Blood, Liver, Lungs, &c., they are unsurpassed. We have testi-monials of wonderful cures of these diseases, and of many others. If any one is afflicted, let him try a bottle of the Remedy and a box of Pills. No injurious effects will follow their use to the most delicate person, as they are purely vegetable; there being no mineral matter in them. The cost is small, while the advantage derived from their use will doubly repay you for your expense and trouble. The medicines are widely known throughout the Dominion, and are for sale by the principal med.cine dealers. Try them, and be convinced that these medicines are no humbug. No one who has tried the Shoshoness Pills has every pronounced an unfavourable opinion of them, no family where they have been used will be without them. Full information may be had on all particulars touching the use, and the experienc of those who have used them, by securing the Treatise or the Circular from any druggist in the Dominion, Free. To CALEB GATES & Co., Middleton, N. S.—Dear Sirs,—For the benefit of all concerned I make the following statement: About three years ago I was seized with a severe pain in my arm, which lasted several days, and then settled in my wrist, leaving my arm entirely useless for at least six months. During this time I was under the doc tor's treatment, but all to no purpose, And strange as it may appear I dreamed that your agent in Wallace had medicine in his store that would cure my arm. I asked my husband to go and see, he went, and brought home but one bottle of Gate's Life Man Bitters. No. 2, and one of Gate's Acadian Liniment with immediate results, two bottles of each made a perfect cure. During my trouble with my arm, my general health was much impaired, appetite gone, and notwithstanding all the prejudice against patent medicines, I must not only praise it, but also recommend it to an afflicted public, for I consider it providential that I found such medicines.

WANTED-A NEW REFORM FOR AN OLD VICE.

The temperance organization ha partly spent its strength. Most of The headway made to-day against in-Semperance, in the use of alcoholic stimulants. is made by agencies and examples outside of the lodge-room. From the temperance ranks came originally a good, firm, intelligent sentiment; but those who carry chiefly the force of that sentiment against the indulgences of the masses, are not now members of any temperance organiza-Con, excepting as the churches and family may be called such. A mighty work the temperance reform has achieved; and if it have succeeded to the extent of infusing its own life and purpose into the outside Christian world, it may be content to let them continue the great work in their own way and place. Now that an opening is presented for a new reform movement, however, it is seasonable to ivnite attention to another, and what seems to us, an awful evil,—an evil growing And it is now evidently the intention shamefully prevalent; coming so prominently into fashiou everywhere that | may remain in politics. Within the past few months several instances have come to our notice of surgical operations performed for the removal of tobacco-cancer. We can recall many familiar faces which have been more or less deformed by the surgeon's knife, as a result of tobacco poisoning, bringing on fleshy growths about the mouth and lips, and yielding only to desperate remedies at the close of their deadly development. Churches have recently been summoned to prayer for the preservation of Christian's lives, andangered by an indulgence of years in this habit of smoking a poisonous weed, from pipes rendered filthy and fatal by tobacco-juice. Our young men -and children-are following in the footsteps of their fathers, submitting first to pay the penalty of disgust and sickness, necessary to acquire a fondness for tobacco, then yielding the colour from their cheeks, the firmness from their nerves, and the sweetness from their breath forever after. Christian bodies which sigh under the poverty that leaves their missionary treasuries in debt, their ministers miserably paid, their parsonages and churches encumbered, are wasting, squand. ering, millions of dollars in a vice which they know to be forbidden of God and injurious to mankind. Much of the righteous inaignation which has been expended over the Chisess opium traffic, might well be spared for our own plausible, costly, demoralizing tobacco business.

It is about time society were waking up to look at this sin. Christians especially have need to pray for grave that they may be able to examine patiently a vice so very plausible and potent-to look at it squarely, instead of taking refuge in arguments which seem to justify or extenuate the offence.

That ministers of the Gospel use tobacco is no defence of this sin. Certificates are to be sustained by force of example, courage.

WESLEYAN, appeal to the best by all means. no example, however elevated, can justify a doubtful act or custom.

> This habit is most difficult to Conquer. Of course it is; and that accounts for its prevalence. If men could shake it off in a day, thousands would be emancipated with every protest from longsuffering wives and sisters. But it is not a noble defence for any descendent of the Briton who has conquered on a thousand battle-fields, that a thing cannot be done because it is difficult. Can Christians use this plea? What is religion for, if not to overcome through the blood of the Lamb!

We could urge incentives but that tobacco-users have ten at hand for every one we could write at this moment. Cleanliness, economy, example, health; the approval of God, and good men, and self; consideration for the comfort of others; peace of mind-on this subject, at least—all demand a free and final resolve for abstinence from to-

The fate of this article need not be difficult of prophecy. It will be "set up" under the stimulus of tobaccoproofed, printed, addressed, carried to the Post Office, assorted for the mails, delivered at its destination, by men using the weed, and finally discussed amid clouds of tobacco-smoke. It has an ordeal through which to pass, quite equal to that which leaves upon Her Majesty's coin and notes of the bank which reach us after a little circulation. a colour and an adour that indicate the peculiar atmosphere which men breathe in this world. Give us a reform!

We have had occasion recently to sav, more than once, that men with any regard for their reputation, cannot now well enter political life in Nova Scotia. The public have so far permitted a low, personal mode of warfare in some of the daily papers that it has come to this:-He who would give himself to his country must first resign his selfrespect. A paragraph appeared in a city paper a few days ago which seems to have awakened such universal indignation that we at length see some little prospect of public sentiment righting itself. A prominent member of the Methodist Church, who has been honoured with appointments to important offices, was chosen President of the Evangelical Alliance, and in that capacity attached his name to the annual circular of the society. This was made a text for one of the most cowardly and vulgar attacks presented to public eyes for many a The offence is the more intolerable coming as it does from a paper which has been assuming as many airs of importance and dignity as if it really were controlled by exalted principles

APPRECIATION. This is the season for renewals-and comments. An instalment of both reaches us regularly every day. With thankfulness we write that scarcely a censorious word has been written thus far, though we are conscious our work has not been without mistakes and short-comings. Mr. Pope's first book, anticipated by us in frequent references, and noticed at length by the Telegraph, in an article we copy this week, has been laid on our table. We hope to have an extended review soon from an able pen.

Friend H. A. Harvie, of Charlottetown, has anew issued his Almanac for P. E. Island,—a very neat, comprehensive and useful repertory of Island and general information.

A. T. Stewart's relatives in Ireland are suing to have his will case reopened, and a mass of affidavits and evidences has been ented, of an imposing character, by his first cousins. The plaintiff's attorney declares the case a strong me. The real fight is between the lawful heirs of Stewart and Judge Hilton. As far as Mrs. Stewart is concerned there is no disposition on the part of any one to molest her.-New York Despatch.

Just that! Not the living widow, but the over confident executor of the deceased millionaire, is the object of attack. This amazing fortune, which men spoke of by the largest financial figures, and which executors found a most imposing burden to handle, is to pass into the law courts, and perhaps there be dissipated more rapidly than it was made. How much good it might have done! and how wisely Mr. Stewart himself might have disposed of it beyond a peradventure. Strange that minds can grasp the doctrine of a providence in the making of money while they do not see the obligation under God for saving this money to providential ends! Stewart's fortune would have made thousands glad with good homes, who are new in poverty, or saved many souls from sin, had he given a few years of his closing life to the righteous disposal of it. It may now go off-much of it at least-in beating back clamorous Irish relations. or regaling them with Irish whiskey, We hope there are no relations in Scotland; the trouble would be precipitated.

A Lunenburg correspondent writes to a city paper that "a magnificent watch-night service was held in the Episcopal church of that town, commencing at 11 and ending 12 o'clock." The Church was decorated handsomely. There was a most enjoyable service and a good sermon.

At three minutes before midnight the Rector invited all present to join him in silent prayer. At midnight the Rector's right hand was raised, and the bell uctered six solemn tolling notes. A slight interval succeeded, and now the clear-toned bell gave forth a joyful peal, accompanied by the hymn-the choir and congregation singing—" There is a Happy Land, far, far away," which finished, the people retired in perfect order.

Now it is adopted, and in a few instances made the occasion of dreth year, has been changed from a a little extra display. Welcome, brethren, to this new experience: but do not overdo it. Simplicity adds to the soderful transformation. It will now be lemnity with intell gent, devout minds.

Immediately following the above came a second letter to the same paper, letic language:

Man, in this age of progression in pur-suit of wealth, honor, and fame, is seemingly a creature of impulse. Goaded on in his mad impetuosity by bright hopes and high aspirations, he surmounts with almost superhaman effort every obstacle that obstru : ts his path. But is not the closing of the year a fitting time to arrest him in his pursuit and call a halt.

And then proceeding to describe the watch-night service in the Episcopul Church :-

The sighing of the wind without as moaned around the little Gothic edifice eemed chanting the funeral sirge of the lost opportunities, and every tick of the clock which broke the awful stillness within seemed a knell of departed hopes. The striking of twelve proclaimed that "76 was no more, when an appropriate hymn was sung on the ushering in of the new year.

Evidently all this is something new to many, though so old and familiar to us that we have ceased to send special information to the papers, each locality breathing, nevertheless, a holier and purer atmosphere as a result of John Wesley's solemn plan introducing a universal watch-night. There is something beautiful in the thought of an universal Church waiting for the New Year. May we all so await Christ at his coming!

A working man's idea of mission work among the poor is this, and certainly has the merit of being scriptural, practical and poseible:-While lying in bed, where many a noble scheme has been cogitated (John Wesley on "Early Rising" to the contrary, notwithstanding) "this poor man cried and the Lord heard him." Meditating upon the godlessness surrounding him among the working classes, he thought of a remedy. His plan he brought to us for publication, and is herewith recommended to all concerned.

"I know from sad experience that hundreds of my neighbours never go to a place of worship. As live the parents, so grow up the children. If once they could be brought under the influence of prayer, its ovel and subduing effects them to reflection. If, farther, they could be brought to a place of worship, their condition, spiritually and bodily, would begin to mend. How is this to be brought about? The City Missionary cannot do it alone. Ministers do not see their condition, and if they did, are not in a position to bring about the necessary reform. Let but six Christians from each Church go out, on the Sabbath, to the poor, church-neglecting districts, and enquiring at every door, go in for prayer wherever admission is permitted. Let these six change in turn with other six, keeping up the visitation, and great good will follow," If that be not a real " Home Mission" Scheme, we do not know what is.

School have rather an advantage over Sabbath School children generally. In addition to the summer's pic-nic they have also each winter a Sabbath School tea. This winter's was held last Thursday evnning, and was first class in every respect. Over 300 pairs of young eyes, beaming with excited joy, looked down upon tables groaning under not only the articles which compose an ordinary Sabbath School tea, but oranges, candies, nuts, everything, indeed, that enters into the child's idea of enjoyment. With such surroundings Capt. Prichard must have understood the Frequericton Superintendent's feelings under similar circumstances, "the happiest man in the Dominion." May his genial presence and aid be long spared to the church in all her departments of work. It is worthy of note that the gathering dispersed at 9 o'clock, thus setting a good Methodist example for young folks parties gener-

The noon meetings of the Week of Prayer in Association's Hall, St. John, and the evening meetings in different churches, are this year well attended, and pervaded by a very gracious influence. Truly when thus Christian hearts give throb for throb in the common love of and life in the Divine Saviour, we can, with overflowing hearts, subscribe to this creed, -" I believe in the communion of saints."

The missionary campaign begins next Sunday, the 14th inst., when Missionary sermons will be preached in the churches below-mentioned. The anniversary meetings will be held in the different churches as follows :-

Germain St., Monday; Exmouth St., Tuesday: Portland, Wednesday; Fairville, Thursday; Carleton, Friday.

Much pleasure is anticipated from the presence, at this anniversary, of Rev. Dr. Reid of New York, widely known as successor of the loved and lamented Dr. Eddy in the Secretariat of the Missionary Society, and in every respect an eminent minister of the M E. Church of the United States. He is experted to preach next Sabbath, in the morning at Exmouth, in the evening at Germain St., and take a leading part in the meetings of the week. SORROWFUL YET CONFIDENT.

ATHOL, December 29, 1876.

The hand of the Lord has been laid very heavily upon us at Athol, but we do feel that our refuge is close under the shelter of the uplifted arm of our Heavenly Father. Oh, may we have faith and grace sufficient to cling so closely that the shadow of His Almighty presence may ever rest upon ux!

On Sabbath, Oct 15th, diphtheria made its appearance here. We were preparing for our anniversary and Sabbath School Concert, which was to take place on the next Sabbath, Oct. 22nd. But oh, what a change has this disease made in our little village. Many who were to sing on that day now sing the songs of the Redeemer in Heaven. Our Sabbath School, which made an everage of 65 this year, is now broken up, our class meetings and prayer meetings closed, and the panic is so universal that very few even come up to the house of the Lord at the regular Sabbath day s rvice. And we, in the bitterness of our anguish, would cry, " Turn us again, oh, Lord God of hosts, cause thy face to shine, and we shall be saved."

Twenty children from our midst have succumbed to this dire disease, and no language can picture the anguish of our hearts or the desolation in our homes. The last child laid away, to await that glorious re-union, which by faith we can anticipate, was Freddie A. D. Elderkin, youngest son of eptha and Nancy Elderkin, aged nine years and five months. Little Freddie was a boy of bright promise and most unflinching integrity. Among his boy playmates he was a great favourite, for his bright, cheerful disposition shed its light wherever he went, but he positively refused to play with a boy who would use bad language or swear. he associated. Nothing could prevent him from doing what he believed to be right, and during the last three years he has never once been absent from the Sabbath School when it was in session. For fifteen days Freddie battled with the disease, taking all the medicine prescribed by the doctors, but nature at last gave way, and on Tuesday, the 12th inst., " he was not, for God had taken hi a."

A few minutes before the close I said, -" Freddie, how are you now?" "Not much better," was his reply; which was characteristic of the manly boy who had borne his sufferings without a complaint. To a dear and absent sister he sent this message,-" Tell her to come to me in heaven:" but in Freddie's case no farewell was said, the messenger came so peacefully and so quietly that the flower was plucked, and we saw not the approaches of the hand of Death. But amidst our sorrows we have bright gleams of joy. Many of our children, and especially our Sabbath School children, died rejoicing in God; although their difficulty of breathing was very great yet their minds in most cases seemed as

clear, or even more so, than in health. One boy, only 13 years of age, and whose opportunities in this world were but few, received so much of God's grace and light during his sickness, that he used to call his unconverted father and mother, and all his careless friends, around him, and pray with them, and tell them of the love of Jesus. He had no desire to recover, he feared that the world's influence might blind his richer joys. The other saw the angel throng so bright and glorious that he believed all in the room must see it too. Thus you see we have light amidst our darkness and joy amidst our sorro ws.

Now that a parsorage has been purchased by the circuit, the trustees have lately issued subscription papers—the donations to which are payable at certain specified periods, with the view of liquidating the debt at the earliest possible time. In this matter also the ladies are rendering no unimportant aid. With the strong leverage of sewing circle and tea meeting proceeds, they reduced the burden by a hundred dollars, and a tea meeting for the same purpose held a few days since netted \$45. Several weeks have now passed since the inmates of the parsonage were visited in a very pleasant manner by several parishioners, whose kindly words, and equally agreeable deeds at once warmed the beart and lightened care.

We deeply regret our inability to record any special work of grace in our midst Still our humble belief is that the seed of life has, in some cases, fallen into prepared soil. The fruit thereof we strive to look for constantly. All our members are not, alas, deeply alive to God, and with them we labour, commingling love patience, and prayer. Our class meetings at Caledonia are often very precious sea. sons. If not already in its full experience, several are pressing in pursuit for the "perfect love that casteth out fear."

DIPHTHERIA.

MR. EDITOR,—Every week, and nearly every day, we read of new sorrows and repeated bereavements by this dreadful scourge, diphtheria, and we ask, in the name of hum inity, and for the sake of our suffering, dying children, can nothing be done to stay the progress of this dire disease, the horrors of which no human

language can portray? I would, in the agony of a mother's neart, torn and bleeding by recent bereavements, call upon the most learned and skillful in the medical profession. to devise some plan whereby a more general and thorough knowledge of this disease may be arrived at. Could not a medical association be held for this especial purpose; so organized that advice from its oldest and most learned physicians could be easily obtained by the younger members of the society? Would not consultation develop facts with regard to this disease not yet fully made known? If this disease is as contagious as some would have us believe, the world should know it and it should be treated as such danger ous epidemics are. If it is not thus conagious, but only developed by colds and other circumstances, then let it be known. for in many cases both parents and children, especially in country places, suffer from want of assistance and attention

after they are attacked with this malady. Since the 15th of October, 20 children have been taken out of this little settlement. The disease shewed itself in three different families nearly at the same time. and we can in no way account for its development. We have watched its progress as carefully as we could, but it has been so strange that we cannot even make

up our own minds. It has made its appearance in several families quite distant from the others, and who have had no connection with the sick in any way; while the parents in some cases have worked with the sick and dying day and night through the whole two months of our affliction, and yet their families of young children have not taken it. In other cases it would seem to be carried in clothes or communicated by a circumstance so obscure and so slight as to be truly startling. We think it only right that something certain should be arrived at by the medical faculty and by them made known to the world. One doctor tells us it is like small pox, spreading from germs. Another contradicts this statement, while all kinds of treatments are prescribed. Meanwhile our children are being gathered to the silent grave on every hand, and in numbers perfectly appalling. This disease is no longer in its infancy, its ravages among the children of our land have broken many hearts and whitened many heads, and we pray that some philanthropic noble hearted medical man, or men, may devise some plan for a more extensive and thorough knowledge of its character and its treat-

"A little child shall lead them." These words have been singing themselves into my heart all through the live-long day; sometimes sweetly, and in a low, minor kev: again, in grand triumphal song-"A little child shall lead them."

Visions have come with the notes, for women are ever dreamers-some more, some less, but none quite free from the sweet floating life which we call dream. land—so to-day my apathy has landed me upon that quiet shore-quiet now because my paesion of suffering has been lulled to sleep in the arms of love.

darling! My little one, with her childish graces and merry laughter! My own ewe lamb of bewitching, coaxing ways and tiny petulances; my sunbeam, who eased my passionate, aching heart! I sit here alone to-day, and hear the world. afar off in its din, speaking my name as a household word, with tenderness and affection; yet I yearn over my heart that was once so empty, so hungry!

Yes, "hungry!" See! What is fame to a woman? A crown of thorns to pierce her bleeding brow. What is love? An amulet which she can wear about her beart as a shield against the bitterness of life, and the intoxicating, bewildering sweetness of the entrance to its restingplace which we call death-albeit God calleth it by a better name, for His beloved only "fall on sleep."

"A little child shall lead them." Be quiet, heart! Where? Into the green pastures, starred with ever-living asphodels: into the garden where groweth the Tree of Life; where purls the rippling of the waters which wash their golden sands near the great white throne of the Father -the glad river which shimmers in the light of a land of greetings instead of partings. Ah! there is the sting of this life-the partings!

My baby, what would I give for one kiss from your rose-bud mouth; one " nice mammie" from your little warbling voice! Oh, my birdie, when the angels sang you to sleep in their arms did they know a mother's heart was left empty of her child?

Such an emptiness! One too great for tears. Too dark for aught but passionate outcries, or a wringing of cold hands in sorrow; while the heart still empty and void, beats on, and will not cease from its strife of grief and pain.

Gay, giddy, thoughtless and young. I married early. My girlhood had not blossomed into womanhood, ere I knew the joys of a wife and mother. Oh, twofold glory, the truest, fairest crown of Heaven's own bestowal! Even after the lapse of all these dreary years I cannot write fully of the time when my heart first awoke at the touch of love. It was as if I had been slumbering in some sweet enchanted bower where the realities of life had never planted a foot, until I answered to the magic touch, and the sleep fled beyond recall. Do I regret the awakening? That question I would fain vade, for with my love, I have also won sorrow's crown of sorrow," the remembrance of happier things!

Ah me! I found my love too great for my life, so I made it an idol, exalted, then worshipped hourly at its shrine—a shrine of my own erecting. Idolatry of the basest sort, for I never once owned the hand which had held the gift for my ac-

ceptance. Then its object was withdrawn, while in the bitterness of my heart I cursed God as women can curse even while they keep lip-silence. My unspoken moan was " God has robbed me."

Sweet Heaven, as if He had done ought but claim His own!

Darkness followed. Insensibility drew her veil over so pitiful a scene; then a grew calmer. Only, at times, a vague unrest would steal over me, while I murmured, with quickening breath, " If God should rob me again!"

The years passed, and I grew confident. Again I learnt to laugh; my tears grew fewer, my smiles more abundant, for the innocent baby prattle was like the trilling of an Æolian harp, so sweet, so dear, so

Only for a little while, though. My fairy's wings are growing in a land where there can be no climbing higher, and therefore no bereavement used as an incentive to make our tired souls climb and strain after the summit which towere so high above our weary eyes.

One sweet June day, my baby sitting in the strawberry bed-with two sunburnt little fists rubbing out two sleepy eyes, and making delicious cooing music to the soft humming of the bees-I watching her as we women all watch things that we love-my heart sang a "Magnificat" of its own, but not unto the Lord. Did I not love Him a little in return for His gift? I do not know. I am inclined to the thought that my actions were pure because I was so quietly happy; and whatever philosophers may say respecting trials bringing purity and peace, only, in my weak humanity, knew that it was so easy to be good when I had no sorrow but a fulled one, and no cause for

My boys are at op ce my comfort and my care. I want baem to see again my head upon your heart, tears would come to ease the aching of my own. Shall I be welcome 9"

As if such a question needed to be asked! Was she not the only woman whose hand had touched my grief with healing fingers? Memory flew back. I saw the manly yet rugged face of her husband, as he preached in the dear old kirk those truths which afterward smoothed his own dying bed, so I wrote-

"Come, come, and come quickly." Four months before I had received the news of her husband's death, and had mourned for the ambassador of Christ who had died amidst the populace of a large city, his eyes growing dim and tender with joy at the sight of the green fields stretching far away in the distance, where no inhabitant can say, "I am

My friend had been reading some of those noble, womanly, yet enthusiastic outbursts of Mrs. Browning's. Well do I remember the tenderness with which she dwelt upon the lines-

Do you know the stillness of a darkened house where the children are not! Do you comprehend the aching when no voice comes to ease the mourner's pain; if so, pity their mother, for I spoke no word of sympathy: my heart was bound up in that of my child, and she-was dying.

I refused to believe it at first, calling the doctor a madman, then grew cold as a stone while I resumed my watch at the child's couch. After weeks of anxiety and expense, a piece of cloth answering the description was stopped at Manchester awaiting the owner and proof. Away to Manchester went Walsh, as fast as the express train could carry him. There he found many rolls of cloth which had been stolen. They were very much alike. He selected one which he felt satisfied was his. But how could he prove it? In doubt and perplexity. he called on his neighbor Stetson.

"Friend Stetson," said he. "I have found a piece of cloth which I am sure is the one which was stolen fron me. But how to prove it, is the queston. Can you tell me how?

"You don't want it unless it is really yours?"

"Certainly not."

"And you want proof that is plain, simple and such as will satisfy yourself and everybody?" " Precisely so."

"Well, then, take Bible proof."

Away he went, and sure enoughevery hook came to its little hole, and the cloth was proved to be his. The tenter-hooks were the very best evidence that could be had.

Some days after this Walsh met his friend again.

" I say, Stetson," said he, " what did you mean, the other day, by calling the tenter hooks "Bible proof?" I am sure if I had as good evidence for the Bible as I had for my cloth, I never should doubt it again."

"You have the same, only better, for the Bible."

" How so ?"

HYMN FOR HEAVEN

"And they sung a new song." Rev. 5: 9. One of the ministers of Leicester England, in relating some pleasing incidents in connection with his pastoral work, gives the following :

On visiting one of the courts of the town, I was requested by one of the poor people to call on an old woman years, and who lived in the neighborhood. On reaching the cottage, and finding no response to my knocking at the door, I walked in, and went to the foot of the stairs, when I soon heard a top there lay an aged but cheerful invalid. I told her that I had been requested to call, and that I was a minister of the gospel. She replied, " Well. then, you are just the visitor I want. and you are come at the right time." lay upon the bed, said, "Now, I have been searching for a long time to see if I can find a hymn that will do to sing in heaven, and I cannot. THE WIDOW VAN COTT AS A PREACHER.

The widow Van Cott gave a descriptive and pantomimic illustration of Moody and Sankey's hymn, "Ninety and Nine." in the West Thirtieth street Methodist meeting house last evening. She looked. over the preacher's desk at an imaginary flock of sheep, and personating a shep-"Take your cloth to the tender- herd and pointing with her finger, began missing. Where is it?" The widow looked here and there behind her, in front pressed and her manner betokened the ntmost anxiety. Suddenly she assumed a listening attitude, and said: "I hear the bleating of a sheep far of on the mountain side. It is the last one out of the fold, in the cold and stormy weather. I must go and get it before it perishes with hunger and cold." Then Mrs. Van Cott took a few quick steps as though going after the lost sheep. She stopped and made believe lift the imaginary sheep. Throwing the animal over her shoulder. she marched back across the platform rejoicing that the lost had been found. She said, "So the Lord rejoices over one sinner saved." Curiosity was again excited by the lady preacher putting her hand in her proket and withdrawing it with some imaginary silver coins in her palm. She counted them. There were only nine, when there should have been ten. Then in patomime she feigned holding a lighted candle and searching on the floor for the lost coin. She mimicked a woman sweeping with a broom. At last the missing piece was found, and the widow's face was radiant with joy. Mrs Van Cott made the same application to this story that she did to the "Ninety

FNGINEER'S STORY OF A BANK NOTE.

BY MRS. ANNIE A. PRESTON.

"When the first day of March came, I went as I had been instructed, to head quarters, for my orders only to find that the 'old man' had forgotten all about me, and had promoted a fireman to the identical situation that had been promised to me. I shouldn't like to say in mother's presence that I was mad, for she would repeat that little verse about letting the 'angry passions rise,' but I did feel a righteous indigstarting on a trip, on the line of the Union Pacific, with a party on a hunting expedition, and couldn't be troubled with my small affairs; would pay no heed to the matter of expense I had been subjected to while waiting for his orders; wouldn't give me a pass to Chicago, nor lend me a dollar, although I asked him for that more to bother him than for any other reason, he was so disagreeable. Happily there are but few such railroad officials.

"Well, I went back to my hotel as down-hearted and homesick a boy as you could care to see. It was eight o'clock Monday morning. I paid my paused a moment in his story. bill, and had five cents left. I had not been to breakfast, and hadn't much appetite; so, taking my travelling bag, I from Madison to La Crosse." left for the station: On my way there I bought two apples with my five cents, and put them in my pocket with a queer consciousness that they were all that stood between me and starvation.

"I felt pretty blue I can tell you. I wasn't brought up to beg, and there would look very much like begging.

"On and on we went, all day and all night. You may well believe that I thought of this old New England town and the little cottage at home, its pantry, and mother and the girls, and of httle Tommy here-how full &is stomach probably was of bread and milk.

"As it grew toward morning, I said with prayful unction, and with a pervading sense of the real meaning of the words, 'Give us this day our daily bread;' for I hadn't had a mouthful to eat, excepting those apples, since Sunday night."

John paused a moment to recover his self into a comfortable voice, which he had, somehow, lost just here. Aunt Mary took of her glasses and wiped them on the corner of her black silk apron, while little Tom left his place at the table, and roftly coming round, leaned on his brother's shoulder. John went on :-

"We drew up in the Chicago depot in the gray March morning, and I picked up my carpet-bag and stumbled ont of the car, faint and heavy-hearted, not acquainted with a soul in the city, and without any definite aim, or any idea of what was to become of me.

"I happened to glance down on the depot platform as I jumped from the car steps, my eye falling upon what I supposed to be a wad of refuse paper. I impulsively stroped and picked it up, and, going along under a gass jet that was still left burning in the early morning, I soon found that the muddy little ball, which many feet had stepped apon, was a green back! There was no use in looking for any owner in that rushing, crowding mass of people, and somehow I felt as if the money had come straight from heaven in answer to my prayer. I had never had a doubt since, and never shall have again, that God cares momentarily for even the

smallest of His creatures. " I shut my hand tight upon the bank note, and made a rush for the

perious manner, I ordered the waiter to bring me ham and eggs, brown bread and coffee.

" After the waiter brought the meal there was one truly thankful heart in that restaurant that morning.

"I hadn't looked at the note long enough to ascertain its denomination until I walked up to the check-counter to pay for my breakfast, when carelessly taking it from my fob pocket where I had tucked it, and smoothing it out, I found it to be a twenty-dollar greenback, as true as I sit here! Wasn't I nation, and gave that man a piece of rich?" and John brushed the tears my mind. But it didn't make the least from his eyes with the rest of us. and impression upon him. He was about | choked up, and swallowed two or three times before he proceeded.

> "As I went out upon the street again with my carpet-bag still in my hand, I met some men whom I took to be railroad hands, entering the eatinghouse, talking quite loudly about an engineer whose name caught my ear, it being familiar to me.

> " ' A good-hearted but reckless sort of chap,' said one, 'who takes pride in getting the officers of the road into his cab when the train is behind time, and scaring them with his fast running.'

"Where is Jim Mathews now?" I asked, stepping up to the man as he

"The only time that I ever lost anysteaming toward Chicago by the way thing, when travelling," said Mrs. Hutchings, "was a year ago last spring when I came home from Chicago. I started east on the early morning train, and just before I stepped from the dewasn't much of a show to borrow, and, pot platform, where we had been standunder the circumstances, borrowing ing a moment hurridly exchanging our final messages to our friends, to my car. my brother William banded me a bank

"'I don't want it.' I said. 'I have money enough for my journey, and that is as much as I care to have about me."

"But he insisted that I might need it; so I took the note and tucked it in my glove, as I supposed, between the glove and my hand, as I have a trick doing with my change when I am shopping. I frequently come home with my glove so stuffed out with scrip that my hand looks deformed.

" I didn't think of the note again until the train was miles away, when, having finished reading the morning paper, and being about to setal

Although he reteld that part of his story relating to the finding of the bank note to Mrs. Hatchings, she would not take his money.

They finally compremised by agreeing that the money should be given to a needy goung man in the neighborhood, who was an invalid.

"I will make it twenty-five," said John, as he handed the roll of bills over to father to be given next morning to poor, patient Chester Shelden.

And so our pleasant party for that evening broke up, all of us, even down to little Tom and Mamie, being greatly impressed by this touching incident. which brought the truth freshly home nearest eating-house, where, very bur- to all our hearts. Ayer's Sarsaparilla

For Scrofula, and all scrofulous diseases, Erysipelas, Rose, or St. Anthony's Fire, Eruptions and Eruptive diseases of the skin, Ulcerations of the Liver, Stomach, Kidneys, Lungs, Pimples, Pustules, Boils, Blotches, Tumors, Tetter, Salt Rheum, Scald Head, Ringworm, Ulcers,

Sores, Rheumatism, Neuralgia, Pain in the Bones, Side and Head, Female Weakness, Sterility, Leucorrhoea, arising from internal ulceration, and Uterine disease, Syphilitic and Mercurial diseases, Dropsy, Dyspepsia, Emaciation, General Debility, and for Purifying the

This Sarsaparilla is a combination of vegetable alteratives — Stillingia, Mandrake, Yellow Dock - with the Iodides of Potassium and Iron, and is the most efficacious medicine yet knewn the diseases it is intended to cure. Its ingredients are so skilfully com-

bined, that the full alterative effect of each is assured, and while it is so mild as to be harmless even to children, it is still so effectual as to purge out from the system those impurities and corruptions which develop into loathsome disease.

The reputation it enjoys is derived from its cures, and the confidence which prominent physicians all over the country repose in it, prove their experience of its usefulness.

Certificates attesting its virtues have accumulated, and are constantly being received, and as many of these cases are publicly known, they furnish convincing evidence of the superiority of this Sarsaparilla over every other alterative medicine. So generally is its superiority to any other medicine known, that we need do no more than to assure the blic that the best qualities it has ever essessed are strictly maintained.

There are but few preparations of medi cine which have withstood the impartiajudgment of the people for any great length of time. One of these is Th. OMAS' ECLECTRIC OIL, purely a prepration of six of the best Oils that are known, each one possessing virtues of its own. Scie.1tific physicians know that medicines may be formed of several ingredients in certain fixed proportions of greater power, and producing effects which could never result from the use of any one of them, or in different combinations. Thus in the preparation of this Oil a chemical change takes place, forming a compound which could not by any possibility be made from any other combination or proportions of the same ingredients, or any other ingredients, and entirely different from anything ever before made, one which produces the most astonishing results, and having a wider range of application than any medicine ever before discovered. It contains no alcohol or any other volatile liquids, consequently loses nothing by eva-poration. Wherever applied you get the is a sufficient recommendation for benefit of every drop; whereas with other preparations nearly all the alcohol is lost in that way, and you get only the small quantity of Oils which they may contain.

AYER'S AMERICAN ALMANAC is now ready for delivery by the druggists, and we are free to say hat we have read this welcome visitor with satisaction and profit. It contains an astonishing, tamount of information which is useful to everybody fand shows how to treat nearly all the diseases fro which people suffer. It invariably recommends the best remedies to be employed, irrespective of Ayer's
Family Medicines, and furnishes, indeed, the best
medical advice by which a great majority of airments can be treated successfully. The anecdotes, Digby, and daughter of George & Susan Hardnick of the former place.
