CANADIAN AFFAIRS. (FROM OUR OWN CORRESPONDENT.)

TORONTO, July 5, 1850.

Nothing of much importance came before the Bouse last night.

In enswer to an inquiry of Mr. LaTerriere, Mr. Hincks stated, that it is the intention of the Government to include in the Estimates a certain sum to provide for the establishment of a School of Navigation at Queber.

In answer to an inquiry of Mr. Prince, Mr. Price stated, that the papers, vouchers, and other written documents belonging to the late Mr. J. M. Murchison, late of the City of Toronto, said to have been placed by him in the Secretary's Office, on the 18th January, 1841, could not be found, nor any record of them.

In answer to an inquiry of Mr. Laurin, Mr. Drummond said, it was not the intention of the Ministry to bring forward, during this Session, any measure for Indemnifying Jurors in Criminal cases, so far as to pay their expenses during the time they are obliged to attend Court, nor their travelling expenses.

The Convention of Editors is yet in Session.

Very little has been done yet except agreeing to some Postal affairs as they affect a newpagers.

The North American of this morning has the following on the Retrenchment Committee:

following on the Retrenchment Committee:

Last Wednesday Mr. Hinch mustered his forces; and as the Committee was about to report is the Home, he compelled them to reverse their previous decision, by recommending the subject to the emissionation of the But's a Government; thus apsetting Respossible Government by taking from us the management of our local affirst. The salaries of the Judges were pinced, £1000 for the Chiefs, and £730 for the Painas Judges; Mr. Himels and his pleited men has eventored them all back to the old

By the last advices from Vancouver's Island the Hudson's Bay Company have been informed of

New Brunswick.—Three to five hundred able-bodied men are wanted at St. Andrew's, N.B., to work on the raitroad. Their wages will be 4s. cash per day, payable monthly.

There are no less than twelve candidates for the nonor of representing the town of St. Andrews in the New Brunswick Parliament.

The St, John New Brunswicker says, we are glad to learn that the crops throughout the country are look ng well. The grass is excellent.

The Halifax Nova Scotian says that from every

plenty of rain and irequent flashes of vivid lightining; it soon passed over, however, but was quickly
succeeded by another and another. About 11
o'clock a gust of wind accompanied the storm,
which we regret to learn has done serious damage
at Point Levy, having blow: down no less than 20
houses in the neighb urbood of the monument,
smashing furniture, &c, but singularly and most
providentially, scarcely injuring a single living
creature. An old woman, it is said, was carried
by the wind many yards in her bed, and, though
taken up insensible, had recrived a parently no
injury whatever.—Quebec Chronicle.

We at first regarded the reported falling of Ta-le Rock as fabulous, and so it was in part; but the true version we find in the following letter to

the Buffalo Express:

CLIFTON HOUSE, NINGARA FALLS,
June 29th—9 P. M.

About half past one o'clock this afternoon, the
large mass of rock known as Table Rock, gave
way and went tumbling into the river below.—
The mass carried away was about six rods in
width and twelve in length, and fortunately no Sumcient number of accessible Members.

The question now comes,—the Committee having so stallified itself, will the House of Assembly support the Government? It will—for it is contained as they have done the shading, tyrannical policy of the Government, thereby deceiving and betraying their constituents. The Globe has fold us that Mr. Lafontaine is the dictator of Cansda—is the Ministry, in fact—and the majority of the Ministry, in fact—and the majority of the Ministry, in fact—and the majority of the Members are his very hamble and obsequious servants. Mr. Lafontaine opposed to Retrenchment, particularly in the matter of the Government of the matter of the Government of the matter of the matter of the Government of the matter of the formal of the matter of the matter of the formal of the matter of the matter of the formal of the

Everything is parched up, and there is a great scarcity of water. There has been no rain r more than a year .- New York paper.

GRIEF .- Deeply were we affected on reading the other day of a young lady, who being told that her lover was suddenly killed, exclaimed, "Oh! that splendid gold watch of his-give me that—give me something to remember him by!"

CONNUBIAL COMPLIMENTS.—An elderly lady, telling her age, remarked that she was born on the 21st of April. Her husband, who was present, observed, "I always though you were born on the first of April." "People might well judge so," responded the matron, "from the choice I made of a husband."

THE Staunch-Built Steam Propeller THE Staunch-Built Steam Propeller EARL CATHCART, now plying between Detroit and Montreal and about 350 Toos Burthen, will leave DETROIT in OCTUBER, and QUEBEC in NOVEMBER, 1850, for CALIFORNIA, in charge of an experienced Captain.

The Proprietors will furnish \$10,000; part to be expended in making such alterations and improvements as are necessary, and in purchasing

be expended in making such alterations and improvements as are necessary, and in purchasing Provisions and Fuel for the voyage, and the remainder to be left on board in cush, or used in purchasing extra Provisions, if so determined at a general meeting of the Ticket Holders, to be held soon after the Tickets are subscribed for.

64 Tickets for Sale at \$500 each. A Ticket entitles the holder to a 64th part of the Vessel, as well as a Cabin Passage to California, with such quantity of Freight as may be determined on by themselves, at the meeting, which is estimated at about Two Tons each, the Vessel to be given up to Ticket Holders after leaving Quebec.

Reasons for adopting this method of proceeding to California in preference to all others: California in preference to all others:

1st. The certainty of a short and pleasant voyage, insured by starting in November, owing to deriving the benefits of the St. Lawrence Gulfstream, the Trade Winds, and Mid-Summer. (December or January.) whilst passing through the Straits of Magellan and the Pacific Ocean, always calm at that season of the year;
29d. Of reaching California at the commencement of the fire and profitable season, and of having a home on arrival there; the Vessel affords such;

profit to her owners, as the following extract wheelew.

Profits of the Pacific Steamers.—A correspondent of the New York Sun says, that the Steaments of the New York Sun says, that the Steaments of the New York Sun says, that the Steaments of the New York Sun says, that the Steaments of the New York Sun says, that the Steaments of the York Sun says, at \$300 each, and \$50 Steament Passengers at \$150 each, thus realizing \$165,000.

The expenses do not exceed \$55,700, so that the profits of the voyage, on Passengers alone, is \$108,300.—Add to this the Freight, say \$8,000, and the total profit amounts to \$117,300.

Tickets may be secured on early application to either

MINERAL WATERS

POINT DU JOUR, PARISH OF L'ASSOMPTION THESE truly valuable WATERS are distinguished for the large quantity of Bromine and Iodine they contain, and are acknowledged superior to all other Medicinal Waters. They are the most agreeable refreshment of the description that have yet appeared. They can be used cold to the greatest degree in the most oppressive heat of Summer, and that without altering or affecting injuriously the health of the person using them: of Summer, and that without altering or affecting injuriously the health of the person using them; upon the contrary, they are found to improve and strengthen. The large number of cures effected by the use of the above Waters, enable us to recommend them to the public as an excellent remedy in a very great number of cases. The names of a few only of the persons of celebrity, which have given their written recommendation of who have given their written recommendation of the Waters, are here given. These, however

RIVIERE DES PRAIRIES, March 1, 1850.

SIR.—Since you are desirous to assection the effect which the Waters of the Point du Jour Syrings have produced on myself, I must inform you, that I have used them medicinally at their Source, and have found them highly salubricus. I was at the time so affected by the consequences of a several disease of the Ligestive Organs that my Physician judged it right to suspend for a time all active remedies, even for the repression of Dyspepsia and an absolute Retention of the Biowels, under both of which I was suffering severely. He prescribed for my relief the Mineral Waters, and I made use of these of the Point du Jour, as being the nearest. I was at the time so weak, that it was with difficulty I kept my feet. However, at the expansion of three weeks, I was reatored by using the Waters. These Waters are of a gaseous nature, containing a large quantity of salite particles, and agree-able in the taste—taken in a large dose they are strongly arxive, but their purgative properties are unsittended with gripings,—those even who have been using them have not been weakened or eiervated in their constitution in consequence; upon the contrary, by using them they find their appetite increased, and their digestion rendered more regular. After a dose of 3 or 4 four glasses, I found that they had the effect of increasing the urinary.

Cessfully in the same discusty recommended,
Waters are so judiciously recommended,
Yours, respectfully,
