EAT LESS AND TAKE SALTS FOR KIDNEYS

Take a glass of Salts before breakfast if your back hurts or bladder bothers you.

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish, the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take 4 teaspoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot irritate; makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.

Both Sides Claim Victory

Continued from page one.

votes still in doubt, 266 being required for an election. These states were counted for Wilson:

Alabama, Arizona, Arkansas, Colorado, Florida, Georgia, Kentucky, Louisiana, Maryland, Mississippi, Missouri, Montana, Nebraska, Nevada, North Carolina, North Dakota, Ohio, Oklahoma, South Carolina, Tennessee, Texas, Utah and Virginia—total 232.

For Hughes these were claimed: Connecticut, Delaware, Illinois, Iowa, Michigan, Minnesota, New York, Pennsylvania, Rhode Island, South Dakota, Vermont, Wisconsin and Wyoming.

These states were doubtful: California, Idaho, Indiana, Kansas, Minnesota, New Hampshire, New Mexico, Oregon, Washington, and West Virginia—total 81.

From the doubtful states the returns were coming in slowly and there were indications that the full result would not be known before noon.

The chairmen of the Republican and Democratic committees both claimed victory for their respective candidates.

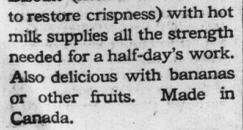

The Republicans seemed to have the best prospects in Indiana, Minnesota, Oregon and West Virginia. In the other states listed as doubtful, except California, the Democrats appear to be leading.

At this hour the Republicans had not overcome the Democratic majority in the house of representatives nor in the senate. With about 100 congressional districts still to be heard from the Republicans had made a net gain of eight members in the house, but late returns from New York indicated that two of these might be reversed.

With a net gain of eight it would leave the House with a Democratic majority of seven. In the Senate the Democrats showed losses from New York, New Jersey and Maryland. The indications were they would lose the two senators from Indiana, one from West Virginia and possibly one each in Ohio, Montana and Arizona. The Democrats, however, gained three senators from Rhode Island, Delaware and Utah. Conceding all the probable Republican gains would give a net Republican gain of seven in this Senate and leave the Democratic majority at two.

ing from the Hughes list and doubtless three electoral votes in the doubtful column with Wilson leading.

Wilson Confident.
Long Branch, N. J., Nov. 8.—An exhausted, but confident group of men including Secretary Tumulty watched the sun rise over the Atlantic Ocean this morning as they waited for more complete returns from yesterday's election. They had been up all night in the executive offices at Ashbury Park, N.J., with their hopes slowly rising as more complete returns from western states came in.

President Wilson, who retired last night, was up shortly before eight o'clock this morning and was immediately notified of the shift in his favor, which had taken place in the returns received during the night. He expressed pleasure, but reserved judgment.

While Secretary Tumulty and other members of the president's official family believed at seven-thirty this morning that the President had been re-elected, they issued no statements and preferred to await more definite information.

Meanwhile encouraging messages came from leaders in several of the doubtful states. The President had no definite plans for to-day, and planned to remain almost constantly at Shady Lawn read returns.

New York, Nov. 8.—New York State gave Hughes a plurality of 100,000 or more, and re-elected Governor Whitman by an even larger vote. All the rest of the Republican state ticket won by large pluralities, including the candidate for United States Senator. Returns from all but 232 out of a total 5,807 election districts give Hughes 336,424; Wilson 735,288, a Republican plurality of 101,136. Governor Whitman's plurality over his Democratic opponent, Samuel Seabury, with 523 districts missing, is 132,223. The totals are:

Whitman, 773,906; Seabury 641,673. William N. Calder of Brooklyn, Republican, candidate for United States Senator polled 683,353 votes against 608,732 for his opponent, William F. McCombs, former chairman of the Democratic national committee. In this vote thus far tabulated 1,093 districts are missing.

This city complete gave Wilson a plurality of 40,069, but the great Hughes' vote up-state swamped this lead. The president ran ahead of his ticket both in and out of New York City. Mr. Seabury's plurality here was 21,462, while in the vote for United States senator, the city went Republican by 24,949 (172 districts missing).

The New York delegation in the next national house of representatives as indicated by present returns will be:

Republicans 25; Democrats 17, with one district, the twelfth still in doubt. In eight districts, however, the vote is close and later returns may change the final result. In the present House, New York has 24 Republicans, 18 Democrats and one Socialist, Meyer London. In the twelfth there is a close contest between Mr. London and Leon Sanders, his Democratic opponent.

The state legislature remains Republican by increased majorities. The new state senate will stand:

Republicans 37; Democrats 14, a Republican gain of 3. Assembly—Republicans 100; Democrats 48; Socialists 1; doubtful 1. The last assembly stood: Republicans 97; Democrats 51; Progressive 1; Socialist 1.

Republican candidates for mayor were elected in Lockport, Cortland, North Tonawanda, and Rensselaer. The Democrats elected their majority candidates in Hudson, Norwich and Ogdensburg.

News Notes

Kitchener city solicitor will report as to whether the practice of certain firms in advising customers to continue to use the name of Berlin until the next election can be stopped.

Gordon, 19-year-old son of John T. Graham, of Parkhill, was accidentally shot and killed by J. Hawley when his companion's gun was discharged while they were out hunting recently. He had intended to enlist to-day.

Kitchener Council appointed a special committee to co-operate with the Daughters of the Empire to provide entertainment for the 122nd Muskoka Battalion now at Galt, who will march to Kitchener next Tuesday, and return on the following day.

The trial of John McIntyre, of Glencoe, formerly a rural mail carrier, charged with manslaughter in connection with the death of his daughter, Mary Irene, is on at London. It is alleged he failed to get medical attention for her.

THE HAT ALL IMPORTANT

The best dressed woman I know came into my yard the other morning with a hat-box. "Want to see my new hat?" she asked.

Was there ever a woman who didn't want to see a new hat? The other feminine members of the family, scenting excitement, flocked about us. The Best Dressed Woman carefully untied the tape and produced the hat. It was a beauty—tiny, smart, graceful, and of an odd color and unusual material. A single, stunning little ornament was the only trimming.

But He Would Be Much Mistaken. It was the kind of thing a man would expect to cost two or three dollars because it was so simple. The Best Dressed Woman put the hat on. Immediately it became more charming.

When we had raved for several minutes, someone said: "I thought you told us the war had affected your husband's business?"

The Best Dressed Woman laughed. "It has," she said, "and since you ask me point blank, I paid twenty dollars for the hat."

We opened our eyes in astonishment. Twenty dollars for a hat may spell poverty in some circles, but it doesn't in ours.

Instead of a New Suit. "My dear, this hat takes the place of a suit," she explained. "I was due for a suit this year, but I had to have a hat and shoes and some other things. At first I was going to try and scrimp and get them all in, and then I decided that I'd go without a new suit and put it into the hat and shoes. I studied it out and I've come to the conclusion that they are the things that count the most. You see, I wanted to see before you see anything else and remember it longer. It's a frame for her face. If a woman has a well-tailored, conservative suit and she makes a much better all-round impression than a woman in an expensive, up-to-the-minute suit. If her hat is commonplace and her feet are unattractively shod."

She Was Still "The Best Dressed Woman!" "Wait," finished the Best Dressed Woman, "until you see my shoes."

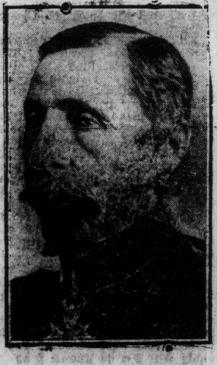

I saw her yesterday on the trolley. Her last year's suit was pressed and freshened. She wore the hat and the shoes, and she deserved her title. Perhaps some of the women who cannot find money for a fresh outfit this season will find her clothes philosophy interesting.

THE DEFEATED

Since all the campaign flags are furling, the last spellbinders bleated, the saddest thing in this old world is one who is defeated. Until the last he hoped to win; now drearily he hikes it, and wears a weird and wintry grin, and would pretend he likes it. "I did my best while in the game," he says, his eyes brimming "there are no more spots on my frame, since in the soup I'm swimming." Will he get back to honest toil, to wise and sane endeavor? No!

One campaign's enough to "spoil a patriot forever. The lust for office in his blood he never quit his mind, although he means a nasty thud whenever he goes gunning. To save the dear old spangled flag, and serve the darling people, all through his years he'll chew the rag on forums, stump and steeple. For weeks and months our weary ears to piffle have been treated; now for the winners we have cheers, and grins for the defeated.

About License Inspectors

The following letter has been sent by Mayor Bowlby:

Beaverton, Ontario, Nov. 7, 1916. Dear Sir: I am in receipt of your letter of the 6th inst. relative to the Ontario License Inspectors, and my view of the necessity for the continued existence of such officers in this Province. You also state correctly the attitude of the Ontario Premier in reply to my observations. To me it seems absurd, and an anachronism to keep license inspectors in office with no licenses to inspect. Under the Ontario Temperance Act, Cap. 50, Sec. 2, "Inspectors shall mean and include a Provincial Inspector and a Local Inspector appointed under this Act." You will observe by this that the Provincial Government retain the power to keep and have license inspectors with or without the necessity for any such officials. This Government seems disposed to hang on to all the patronage it possesses. It has the power to add to the Provincial Police and if more were necessary, the Government could add to its number. My dear friend, you should take nothing for granted that all others would be dismissed and their salaries saved to the Province. In so far as the Ontario Government is concerned, you surely cannot be serious in thinking it will cut off its license inspectors.

I have the honor to be, Yours very truly, J. W. BOWLBY, Mayor.

Wednesday, Nov. 8th, 1916.

THE SITUATION.

General Foch continues to smash forward to the south of the Somme River. Yesterday his troops took German positions on a front of two and a half miles, captured three villages and over five hundred prisoners. The captured territory is towards a railway, along which Hun supplies are sent. If the movement is successfully continued, as there is every reason to anticipate, the results will be of the utmost importance. On the British front, there is trifling change. Since the French and British assumed the offensive, 1,449 German officers have been captured, and 71,532 men, together with 173 field guns, 130 heavy guns, 981 machine guns and 215 trench mortars.

The Roumanians are reported to have again scored heavily in the Buzen Valley, where they advanced in the face of stubborn opposition. In addition, on the Transylvania front, the Roumanians also scored and took several trenches. The Italians hold all the ground they recently gained, and effectively repulsed an Austrian surprise attack.

MAYOR BOWBY ONCE MORE

Not content with posing as the great nizam of Brantford affairs Mayor Bowby, has apparently decided to add the bossing of the Ontario Government as a side line. He was in Toronto recently as one of a deputation appearing before the Ontario Government with regard to municipalities securing all of police court fines, and during the course of a newspaper report of the proceedings the following occurred: "In answer to J. W. Bowby, who advocated the dismissal of all license inspectors, as being unnecessary, the Premier said they would be retained and the Government would enforce the temperance law to the letter."

What the Mayor asked was of course silly to the last degree and it must have caused a broad smile to illumine the countenances of the other delegates.

Take the City and County of Brant as an example. There are eight "standard licenses" in Brantford, four in Paris, one in St. George, one in Scotland and one in Burford. Under the act they have a right to sell drinks of a very low alcohol per centage and every sane man will agree that such premises should be under proper and continual inspection. That is as much due to those in the business for their own protection as it is to the general public.

Not content with the prompt and common sense answer of the Premier, Mayor Bowby has commenced to write letters on the subject. One is given elsewhere in this issue and is published simply to show the extent to which he is going.

Having cheekily assumed upon his own ipse dixit that license inspectors are no longer necessary, Mr. Bowby makes the gratuitous statement that the Government is simply retaining such inspectors for patronage purposes.

While the Mayor is taking so much interest in licenses he might explain why it was that he had the City pay \$200 of a \$300 fine imposed upon a foreigner convicted on a liquor charge.

PRESIDENTIAL ELECTION.

At this writing the Presidential contest would seem to be in doubt.

Last night The Courier returns over its special leased wire, indicated the election of Hughes and the bulletins outside this office conveyed that message. New York papers, Democratic as well as Republican figured that Woodrow was beaten and all of the morning papers here and in the States carried the same story. The decision was no doubt based very largely on New York, Wilson having carried the city by a much smaller plurality than expected, whereas Hughes made a sweep of matters up state. Early this morning, the news from the Western States commenced to tell you a quarter pound, which is sufficient for demonstration of how the trend towards Wilson was white washed.

It is twenty-six years since there and day out,

has been such hesitancy over the outcome of a fight for the White House. On that occasion Cleveland was declared, over night, to be "licked," whereas the complete returns next day returned him as the victor. Whatever the outcome, Wilson has certainly made a notable run. It should be remembered that last time the Republican vote was split, Roosevelt running as a "Progressive" or in the language of the street, "Bull Moose." The outcome was: Wilson 6,297,099 Roosevelt 4,124,959 Taft 3,486,399 Wilson was thus 1,314,259 behind. He combined Roosevelt Taft vote and with those forces combined this time is showing, win or lose, cannot be regarded as otherwise than remarkable.

SAYS HOT WATER WASHES POISONS FROM THE LIVER

Everyone should drink hot water with phosphate in it, before breakfast.

To feel as fine as the proverbial fiddle, we must keep the liver washed clean, almost every morning, to clogging with indigestible material, sour bile and poisonous toxins, says a noted physician.

If you get headaches, it's your liver. If you catch cold easily, it's your liver. If you wake up with a bad taste, furred tongue, nasty breath or stomach becomes rancid, it's your liver. Sallow skin, muddy complexion, watery eyes all denote liver uncleanness. Your liver is the most important, also the most abused and neglected organ of the body. Few know its function or how to release the dammed-up body waste, bile and toxins. Most folks resort to violent cathartics, which is a dangerous, salivating chemical which can only be used occasionally because it accumulates in the tissues, also attacks the bones.

Every man and woman, sick or well, should drink each morning before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it, to wash from the liver and bowels the previous day's indigestible material, the poisons, sour bile and toxins; thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Limestone phosphate does not restrict the diet like cathartics, because it can not salivate, for it is harmless and you can eat anything afterwards. It is inexpensive and almost tasteless, and any pharmacist will sell you a quarter pound, which is sufficient for demonstration of how hot water and limestone phosphate cleans, stimulates and freshens the liver, keeping you feeling fit day in and day out.

BRITISH MAIL
The next closing of British mail at the local post office takes place to-morrow afternoon at 1 p. m.

LICENSE ISSUED
A standard hotel license has been issued to Mr. George Howell of St. George.

WOUNDED.
The name of Pte. Lewis Clegg of Parke, appeared as wounded in the official casualty list this morning.

SUDDEN DEATH
A telegram received in the city to-day from New York announces the sudden death in that city of Mr. George Goodson, an old Brantford boy. Deceased who was 97 years of age was born in this city a son of the late Mr. and Mrs. G. H. Goodson. He left Brantford many years ago and had achieved fame as an inventor. One of his devices was a machine to set type. A wife and one daughter are left to mourn his great loss and Mrs. Browning of 41 Palm-erston Ave. is a sister.

THANKS FOR SUPPORT
The Women's Patriotic League heartily thank the different heads of the various divisions, the young ladies who assisted, the ladies of the city church organizations and all who co-operated so willingly to make Saturday—the day for the British Red Cross such a success.

SEWING TO BE DONE
Large quantity of material cut out for garments, ready to sew, at the Women's Patriotic League rooms, Y.M.C.A. Women may come any time between the hours of nine in the morning to twelve, and two to five in the afternoon. Workers may come in groups or classes if they so desire. Plenty of machines on hand. The need of the Red Cross is urgent. We feel we have only to mention this to have a ready response.

BUILDING PERMITS.
Two permits were issued at the office of the city engineer this morning. One was to Mr. John Newham for the erection of a brick dwelling at 86 Eagle Avenue, to cost \$4,500. The other was granted to Mr. Hamilton Gould for the construction of a frame garage at 239 Darling street, the estimated cost to be \$50.

IN CHATHAM.
Mr. W. P. Cocksbutt, M.P., speaks in Trinity Church, Chatham on Sunday afternoon next, on "The present crisis and the church's opportunity." The Mayor will preside.

SALARY COMMITTEE.
A meeting of the salary committee of the city council, composed of the Standing and Finance committees, was held at the City Hall last evening to consider the matter of increasing the salaries of some of the city officials. The question was most thoroughly discussed but nothing definite decided upon.

ACCEPTED
Lieut. Morton Paterson has returned from Ottawa where he successfully underwent the tests for admission as an aviation candidate. He expects to leave for England shortly.

ROAD INSPECTION
The members of the Township council are out to-day on their final inspection of the roads for this year. If any repairs are urgently required the same will be proceeded with as soon as possible.

IMPROVEMENTS NEEDED
Sanitary Inspector Wm. Glover stated this morning that the merchants in the habit of throwing refuse on the steep slope along Wharf street would have to discontinue that practice in the future because of increased traffic owing to the extension of the Brantford and Hamilton Radial. He also stated that there was trouble at present with some residents of the city who allowed their garbage and other refuse to accumulate and then expected the carriers to take it all away in one trip. This was contrary to the contract which the city had entered into with these men and as the terms called for such articles to be left out for each week for collection this would have to be observed.

FOREIGNERS WERE ROBBED

Two Local Men Beaten Up By Four Wandering Russians.

MONEY STOLEN
Thieves Are Apprehended And Under Arrest At London.

Detective Chapman and County Constable Taylor left this morning for London, there to take in charge four Russians wanted here upon a charge of highway robbery with violence, committed last evening, some little distance from the city.

The men, it is stated, who have been in the city for some days past, had been fraternizing with two members of the local foreign colony, with whom they boarded. The latter, employed at the Blue Works, received their pay last evening, and were induced by their friends to take a motor ride out the Hamilton road, where they were set upon near Langford and badly beaten up, being left in a state of unconsciousness upon the roadside, stripped of their money and valuables. One of the men lost \$54.

The local police were immediately notified of the affair, and descriptions of the four thugs were wired to several cities, in the hope of apprehending them. This morning word came from London that four men answering the descriptions sent, were being detained by the authorities there, upon receipt of which information, Detective Chapman and Constable

Battalion Visited By Officer From Headquarters and Inspected.

An officer from headquarters, probably Capt. Conover was expected in the city to-day to conduct an inspection of the 215th Battalion in bayonet fighting and physical drill. The battalion will be paraded on the Gore opposite the armouries at 2 o'clock for this purpose. The route march which was to have been held to-day has been cancelled on account of the inspection. In the orders posted to-day it was announced that the N.C.O.'s and men in some units were in the habit of wearing clothes other than those issued by the quartermaster, and that the officer commanding must have the practice stopped. This has reference to the riding breeches etc. adopted by some of the men without authority.

A meeting will be held in the recreation room at the barracks to-night to organize the soccer team of the battalion and to elect officers. In this connection, it has also been decided to play the return game with the 122nd battalion in Galt on the week following the game in this city.

Lt. Col. Morris is in Toronto to-day attending the conference of the commanding officers of this military district to consider the recruiting question. The conclusion arrived at by the meeting will be conveyed by General Officer Commanding, Logie to Sir Sam Hughes in Ottawa, tomorrow. A conference similar to that being held in Toronto to-day is in progress in all the military districts and the results arrived at in each section will be considered by the Minister of Militia to-morrow at the capital.

Taylor were at once despatched, to identify and take charge of the men. The men robbed, although cut and bruised considerably, as well as having been rendered temporarily unconscious through the rough handling they received, were this morning reported as having sustained no serious injuries.

KINDLY NOTIFY COURIER

It is the rule of the Militia department that relatives are first notified of casualties at the front before the official list is issued from Ottawa.

Readers of The Courier will kindly call at the office, or phone when such telegrams are received, so that the information may be known to their friends.

Meeting of Library Board

The regular meeting of the Public Library Board was held in the board room last evening with Rev. C.A. Woodside presiding. The other members present were Messrs J. E. Quinlan, Col. Howard, E. J. Carlin, P. W. Ryerson and T. Hendry.

The first item considered was the reading of the accounts amounting in all to \$472.52, which were passed and ordered to be paid.

The book and newspaper committee submitted a report advising that the contract for newspapers, magazines and periodicals be awarded to Steadman Bros. for the year 1917.

A very interesting report of the proceedings at the recent meeting of the Library Institute at Tavistock, to which Miss Carlin, of the local staff, was a delegate, was brought in by her, for which the board extended their thanks.

Miss Middlemiss, who has lately returned from attending the Library School in Toronto, wrote the board, thanking them for their kindness and thoughtfulness in sending her to take this course. She stated that the work, although very hard, had equipped her to discharge her duties more competently and efficiently in the future. The course had undoubtedly been of great benefit to her.

Two Soldiers are Welcomed Home

Brantford last evening welcomed home from the front two more of her loyal sons, in the persons of Corp. D. J. Durand, of the 4th Battalion, and Pte. Wm. Farrington of the 125th, who arrived in the city on the G. T. R. train at 7.32, being met at the station by a deputation from the Soldiers' Aid Commission consisting of Aid. Dowling, Mr. J. H. Spence and others, accompanied by the band of the 215th battalion. The usual welcome home was extended the returned men, together with the assurance of whatever aid might lie within the power of the Commission.

Corp. Durand was one of the first men to leave the city upon the declaration of war, enlisting in the 32nd battery in August of 1914. He is a married man, residing at 84 Strathcona Ave., and previous to his enlistment was employed as a millwright at the American Radiator Company. Prior to the war, he had seen seven years service in the East Kent Volunteers. He was wounded in April of 1915, at the battle of Ypres.

Pte. Wm. Farrington, discharged from the 125th battalion because of physical unfitness, is a married man residing at Oakwood Park, in West Brantford.

Musicale For Soldiers' Aid

The "Victoria Musical held last evening at the residence of Mr. J. W. Watkins, 135 Sydenham street, was a pronounced success. The house was crowded to the doors, and a neat sum was realized for the benefit of the soldiers on active service from the Terrace Hill District. The affair was under the auspices of the three Hill churches, and the committee of ladies having charge were unsparing in their efforts to see that those present enjoyed themselves. After a varied programme on the Victoria, refreshments were served.

A drawing for a hand painted cup and saucer donated by one of the ladies, was a feature of the evening, and netted over three dollars, to help swell the receipts. Refreshments had been provided so freely that a number of guests were left to be auctioned by Mr. E. W. P. Jones, who made an efficient auctioneer. Mr. Jones and the Rev. Mr. Sotley divided the duties of chairman.

At the close of the evening a hearty vote of thanks was moved, seconded and carried to Mr. Watkins, Mrs. Watkins and Miss Watkins for their kindness in thus opening their home, and for the pleasant evening spent by all. To this Mr. Watkins replied, expressing the pleasure which he and his family experienced in being able to help in such a worthy object.

Social and Personal

Mr. W. L. Hughes is a business visitor in Toronto to-day.

Mr. and Mrs. G. H. Tanton of 126 West street, together with Mrs. E. and Miss L. Tanton of 54 Duke street, motored to Buffalo last Tuesday and arrived home yesterday.

Mrs. D. Edmonds of Mt. Pleasant, and Mrs. C. Yates of Hatchley spent part of Saturday with Mrs. S. Radford. Mrs. Yates spent the week-end with other relatives.

LIFE UNDERWRITERS
The regular monthly meeting held Monday afternoon was one of the best attended in the history of the Association. Applications for eight new members were received.

After disposing of the business of the day, a discussion on the "Part Time Agent" was introduced and taken part in by the members, resulting in the matter being laid over until the next meeting.

It is the desire of President Schmidt to make the meetings so interesting that no member can afford to be absent from them.

The Life Insurance men are realizing the importance of belonging to this organization, and it is expected that within a very short time all men engaged in the business will become members, and thus become better qualified to serve the public.

OTHER ITEMS Meeting of Women's Christian Temperance Union There.

From Our Own Correspondent Paris, Nov. 7.—There passed away at Paris Station, Sunday morning a well-known and highly esteemed citizen in the person of Mr. Geo. Brown, in the 81st year of his age. Deceased who had been ill health for some time had been confined to his bed about three weeks, death being due to a general breaking up of the system. The late Mr. Brown was born in Simcoe township and came with his parents to the farming section around Paris when only a boy, some twelve years ago, retiring from active service and locating at Paris Station where he has since resided. In 1880 he was united in marriage to Miss Susan Kiddel, who with four sons, George, Henry, and William of South Dumfries, and Wallace of Toronto, and three daughters, Miss Kate of South Dumfries, and Miss Elita and Maud at home, is left to mourn the loss of a faithful and devoted husband. One sister, Mrs. Hearne of Burford also survives. Deceased was a member of the Methodist Church and a political staunch Conservative. The funeral took place this afternoon at Paris Cemetery, Rev. J. H. Wells conducting the services at the house and grave, the pall bearers being the four sons of the deceased and two nephews, Mr. Thos. Heilker of Paris and Mr. William Heilker of Brantford.

W. C. T. U. The regular meeting of the W. C. T. U. was held yesterday afternoon in the Y. M. C. A. instead of Friday of last week owing to the Provincial W. C. T. AT ONCE! STOPS STOMACH MISERY AND INDIGESTION

"Pape's Diapepsin" Makes Sick, Sour, Gassy Stomachs Feel Fine.

Do some foods you eat hit back—taste good but work badly; ferment into stubborn lumps and cause a sick, sour, gassy stomach? Now Mr. or Mrs. Diapepsin, jot this down: Pape's Diapepsin digests everything, leaving nothing to sour or upset you. There never was anything so safely quick, so certainly effective. No difference how badly your stomach is disordered you will get happy relief in five minutes, but what pleases you most is that it strengthens and regulates your stomach so you can eat your favorite foods without fear.

Most remedies give you relief sometimes—they are slow but not sure. "Pape's Diapepsin" is quick, positive, and puts your stomach in a healthy condition so the misery won't come back.

You feel different as soon as "Pape's Diapepsin" comes in contact with the stomach—distress just vanishes—your stomach gets sweet, no gases, no belching, no eructations of undigested food, your head clears and you feel fine.

Go now, make the best investment you ever made by getting a large fifty-cent case of "Pape's Diapepsin" from any drug store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia or any stomach disorder.

CHILDREN HATE PILLS, CALOMEL, AND CASTOR OIL

Look back at your childhood days. Remember the "doss" mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them. With our children, it's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well-founded. Their tender little "insides" are injured by them.

An Important Meeting of the Hospital Board

The Minimum Fee to Outside Patients After This Will Be \$1 Per Day—The Cost of County Patients Brought Up—Application of Simcoe Doctor to Join the House Staff Regretfully Declined.

An important meeting of the Hospital Board took place yesterday afternoon. Present: C. H. Waterous, (President), Mayor Bowly, Warden Harris, A. K. Bunnell, R. Sanderson, Dr. Secord, J. Sanderson, H. Symons, G. Kippax, G. Watt, F. D. Reville.

Rate Raised to Outside Patients. Considerable discussion took place with regard to the increased cost of running the institution, owing to the tremendous advance in medical supplies (more than double in most instances) provisions, coal, etc. It was unanimously decided not to increase the rate to patients from the City and County, but from this date to make the minimum rate to all outsiders \$1 instead of 70 cents per day as heretofore.

Request of a Simcoe Doctor Dr. Toll of Simcoe wrote, asking the board to add his name to the medical staff of the hospital so that he could bring his patients to the local institution. The matter was thoroughly considered, as Dr. Toll is a man who stands high in his profession and the general opinion was expressed that he would personally be very welcome. However, it was felt as the hospital at times is taxed to accommodate its own County and City patients, that the request could not be granted. The decision was reached with reluctance. On the putting of a motion to the above effect, Mayor Bowly voted nay and all the others yea.

The Pay from County Patients The matter was mentioned with regard to County patients in about double the receipts from same. It was the general feeling that it would only be necessary to put the whole matter before the County authorities in order to reach an amicable settlement.

OUR DAILY PATTERN SERVICE

Valuable Suggestions for the Handy Homemaker—Order Any Pattern Through the Courier.

LADY'S NINE GORE SKIRT. By Anabel Worthington.

A splendid model in a skirt for practical or dressy wear, according to the material used in making. It is cut in nine gores, so arranged as to give panel front, adding to its grace of line. The closing is at the back, where five backward turning pleats are made in each half.

The vogue for pleated skirts is quite marked this season, the majority being pleated at the sides to give the panel front, as in the garment in the illustration. The pleated skirt is necessarily wider than the tailored garment, often measuring four yards around the bottom in medium size; the one pictured is 3 1/2 yards wide in belt size 24.

Due to a craving for individuality there is a wide variance for skirt lengths, but the tendency is for an addition of about one inch, the conservative model falling to about five inches from the floor.

Among the favored materials may be mentioned mohair, English check, serge, satin and all wool poplin. You can readily copy this model to look just as you see it in the picture.

The skirt pattern No. 7976 is cut in sizes 24 to 32 waist measure. To make in size 24 will require 3 1/2 yards 36 inch material; if with up and down; 5 1/2 yard without.

To obtain the pattern send 10 cents to the office of this publication.

SISTERS THREE

"Because, because— Oh, Gaston, I'm afraid of her! What she has done once she might do again. You will give notice to the police, as you said, will you not?"

"I shall. It would not be right to pass it over. They will probably bind her over to keep the peace, if she can find sureties. Then we shall move them away from that cave and from our immediate neighborhood. Oh, don't be frightened, little sweet-heart! I'm not going to fall a prey to Morwenna yet!"

Slowly they walked along the high downland to the evening glow about them. Keeper kept beside them, whining now and then just to remind them that he wanted a little sympathy, but moving without much pain or trouble.

"Gaston dear, do you remember how we first met? Oh, how furious you were looking! And how perfectly wild I felt!"

"The laughter mingled happily together as Gaston remarked—

"The right of way! Oh, that old, everlasting feud! Well, I got a lesson that day, didn't I Gipsy? The first dressing-down and henpecking from my little wife! I wonder how many more I am destined to have before the end of the chapter?"

"A great many, you had, rude boy! And even that time you were only half quenched. You put a nasty, tricky catch fastening on the lower gate after that."

"I cry 'Peccavi!' But you know it is not there now!"

"I have missed it these last few weeks, I admit. I thought it had got out of order and had gone to be repaired."

"I don't believe you thought anything of the kind."

"Well, if I didn't, the others did."

"So you began to know a little better what the bear would be likely to do?"

Her laughter came in little happy gusts. They walked hand in hand like children, as lovers have ever done.

"Gipsy, when did you begin to think that the old bear was not quite such a brute as he seemed?"

"Daring when did it first dawn on you that the little virago of the plantation—"

Laughter punctuated her speech. The next moment his arms were round her.

"Gipsy, I believe it was love at first sight with both of us!"

"Gaston, so do I!"

"Then let us come and tell my mother," he said; and hand in hand they went.

Chapter XXXVI, and Last.

Mrs. Lebreton looked at Audrey Vere, and both smiled, and in that smile there were many subtle meanings more or less clear to each.

"So they have done it!" said Mrs. Lebreton.

"Yes, my willful little sister, who wants a strong husband to love her and to curb her at one and the same time!"

"My strong-willed boy, with a loving heart, who badly wants a wife to find her way through the hard shell in which it is encased!"

"Oh, I wonder if they will suit each other? I wonder if it will turn out well!"

"My dear, I think you need not fear, for they love one another in very heart-whole fashion. I am very happy about my boy. I hope you are equally so about Gipsy."

Audrey looked straight out of the window, a little glint in her eyes; but she was smiling bravely.

"Yes, I am quite happy about Gipsy, and only just a little sorry for myself. We have grown up so close together, and of course when a lover—a husband—arrives a sister has to take quite a back seat! It is perfectly right. I should hate for it to be otherwise."

"My love, I understand; and it makes it a little harder that you love them, as it were, both at once!"

"Yes, it must be a double wedding, and soon! We all are agreed about that. Your son Gaston and Jim Killstare were here last evening, and they are determined not to wait long. Why should they? they say. And we have no answer, except that Gipsy and Allard are both rather young."

"My dear, where means are not lacking and there is deep love on both sides, I think that early marriages are likely to be happy ones. Gaston said something about October to me."

"Yes, before the summer is quite gone. I wonder what uncle Richard

ALLIES MAKE BIG GAINS IN VERDUN SECTOR

would have thought had he known that soon only one of us would be left? Surely 'Gipsy' is not so much rather like a dream, does it not?"

"Now, Audrey, your words bring me to the point of my visit. May I speak to you frankly? May I ask you a few questions? And will you answer them with the same frankness yourself?"

"I can promise that!" replied the girl.

"Then tell me, love, will it not be rather difficult for you to live on here alone? I must not inquire too closely as to your financial position and arrangements."

"Indeed I do not mind telling you. Soon you will be Gipsy's mother-in-law, and that will bring us very near. The girls wanted to leave me everything, but I will not have that. They must each have their third of the money. Each of them will have about two hundred a year—rather more. I shall have the same and the house and little farm. And I know that Mrs. Gosling and I can manage and have a happy time."

"My love, will you take me in as a paying guest—a permanent lodger and housemate, or whatever else you like to call it? For you know I am going to lose my home."

"Surely not, Madame! Oh, surely not!"

"I mean that I intend to make a change. Oh, there will be a room or two for me at Gaston's Keep. I shall suffer that, and I shall be a frequent visitor, but I shall not make my home there. Young married people are far better left alone to shake down into married life together. Every one knows it, and if Gaston and Gipsy make a fuss I wish to tell them that my plans are arranged. I should not be a trouble to you, Audrey, in the sense of being always on hand. I have been much tied of late years to this corner of the world—first by my husband's duties and health, then by my boy, whom I could not leave alone. But I have often wanted to move more freely, to pick up dropped links, to see old places and revive old associations. What I want is to share with you the cost of maintaining this pleasant house on the Craeg, so near to Gaston's Keep, so closely in touch with my past life. I want to have companionship with some young spirit, but to exercise no rule or authority. The house is yours, I only come as your guest, conform to your rules and your hours, and do not intrude too much upon your life."

"Oh, Mrs. Lebreton, you have rather taken my breath away! But I think that your plan is delightful. I confess I have dreaded the loneliness a little. I should get used to it, and Mrs. Gosling, our dear old nurse, friend and supporter, has been through every crisis. But a time will come when I shall have to spare her to Gipsy and Allard. In certain eventualities she could never be kept away—I would not keep her. And of course the dearest of dear old servants is not quite—quite—"

"Then you will think it over, Audrey? I came at once, for I know you will be making your plans. Although the idea is not new to you, I have been counting it over for some time now. We both knew what was likely to come; we have both wished it, and that custom wish has drawn us together in friendship. I believe you like me, Audrey?"

Audrey rose, and bent her head till her lips touched Madame's forehead.

"I do more than like—I love you! Thank you my child! Then, if that is so, let us have our own little love-story and tidy together. I often think that there is a great deal of true romance and beauty in the loving friendship between woman and woman. I do not take your answer to-day. If you should decide that the plan will not work I shall not be in the least bit annoyed; in fact your frankness will refresh me and cement our friendship. Those who speak out boldly like to be answered boldly in turn."

WHEN YOU WAKE UP DRINK GLASS OF HOT WATER

Wash the poisons and toxins from system before putting more food into stomach.

Says inside-bathing makes anyone look and feel clean, sweet and refreshed.

Wash yourself on the inside before breakfast like you do on the outside. This is vastly more important because the skin pores do not absorb impurities into the blood, causing illness. While the bowel pores do, for every ounce of food and drink taken into the stomach, nearly an ounce of waste material must be carried out of the body. If this waste material is not eliminated day by day it quickly ferments and generates poisons, gases and toxins which are absorbed or "sucked" into the blood stream, through lymph ducts which should suck only nourishment to sustain the body.

A splendid health measure is to drink, before breakfast each day, a glass of real hot water with a teaspoonful of limestone phosphate in it, which is a harmless way to wash these poisons, gases and toxins from the stomach, liver, kidneys and bowels; thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

A quarter pound of limestone phosphate is sufficient to make anyone an enthusiast on inside-bathing. Men and women who are accustomed to wake up with a dull aching head or have furred tongue, bad taste, nasty breath, sallow complexion, others who have bilious attacks, acid stomach or constipation are assured of pronounced improvement in both health and appearance shortly.

Britain Has Solved The Rubber Riddle

Rubbers and Overshoes Are Cheap as Ever Today, While Other Necessities, Particularly Shoes, Have Nearly Doubled In Price.

Rubber has been one of the most insistent and intensely interesting problems of the twentieth century—and its solution is proving of vital importance to the Empire in this great war.

Until 1910 the world depended for its crude rubber on the forests of South and Central America and Africa. The supply increased slowly, if at all, while consumption, since the advent of the motor car, has grown enormously. From an average of \$1.00 a pound in 1908, the price jumped to \$3.00 in 1910. Manufacturers of rubber kept pace—no doubt you remember what rubbers cost for a year or two—and the situation looked alarming.

The search for synthetic rubber was redoubled in vigor. German chemists had been working on it, and the world seemed to expect them to come through with some ingenious process for manufacturing rubber from its known ingredients, on a commercial scale and at a low cost. But the world still waits—and so does the Kaiser, judging from his indignation over Britain's refusal to let him import rubber by registered mail.

Relief from a rubber famine came instead from the far-sighted development policy of Britain's Empire builders, who for years, in spite of general ridicule, had been encouraging the growth of plantation rubber on a large scale in Ceylon, Sumatra, Java and the Malay States. Money was advanced to planters to carry them through the seven-year period before the trees started to produce, and hundreds of thousands of acres were planted.

By 1910, when the pinch came, British plantations produced 8,200 tons—11% of the world's output. The next year saw 14,000 tons of plantation rubber—nearly 20%. In 1912 it had grown to 29%—in 1913 to 44%—in 1914 to 59%—last year to 68%—or 107,867 tons. This year's production is estimated at 150,000 tons, or 75% of the world's supply.

With three-quarters of the rubber production thus controlled by Great Britain, and the seas in the grip of her mighty fleet, the Allies are assured of an abundant supply for war purposes, while the Teutons' troubles from lack of it are growing daily more serious.

Having a practical monopoly of the supply, and the power to impose such prices as she chose, Great Britain has made it, except to her enemies, a benevolent monopoly, and has set the price of crude rubber lower than it was before the war.

To Canadians this is doubly important, because the climate makes rubbers and overshoes a necessity. Now, when shoe prices are soaring, while rubbers are as cheap as ever, it is clearly economy to protect expensive shoes to the limit by systematically wearing rubbers at every sign of bad weather. Even with heavy soled shoes this pays, for shoes so protected will wear far longer, saving the cost of the rubbers several times over. Besides the big money saving, there is the valuable protection to health. Wet feet and colds go hand in hand, with a ghastly train of ills—easily avoided by wearing rubbers.

Then there is the patriotic side. Vast quantities of leather are absolutely necessary for the army, and the scarcity is growing. Every pair of shoes we save helps to ease the situation, and so serves the Empire to which we owe this welcome cheapness of rubbers.

Save your Shoes and Serve the Empire!

Music and Drama

THE GRAND—Before a fair-sized audience in the Grand Opera House last evening the May A. Bell Marks Company presented the powerful drama of present day life which in the past few seasons has enjoyed perhaps the greatest popularity of any of its kind in Canada and America. "Within the Law," in the role of Mary Turner, the girl who in revenge for being unjustly sent to prison becomes the leader of a gang of enterprising criminals who remain always "within the law." Miss May A. Bell Marks appeared perhaps to better advantage than ever before in her long record of achievements in this city. The supporting cast was strong and exceptionally well balanced, every role being thoroughly and carefully interpreted and presented.

DRINK HOT WATER BEFORE BREAKFAST

Says you really feel clean, sweet and fresh inside, and are seldom ill.

If you are accustomed to wake up with a coated tongue, foul breath or a dull, dizzy headache; or, if your meals sour and turn into gas and acids, you have a real surprise awaiting you.

To-morrow morning, immediately up on rising, drink a glass of hot water with a teaspoonful of limestone phosphate in it. This is intended to first neutralize and then wash out your stomach, liver, kidneys and thirty feet of intestines all the indigestible waste, poisons, sour bile and toxins, thus cleansing, sweetening and purifying the entire alimentary canal.

Those subject to sick headaches, backache, bilious attacks, constipation or any form of stomach trouble, are urged to get a quarter pound of limestone phosphate from the drug store and begin enjoying this morning-inside-bath. It is said that men and women who try this become enthusiastic and keep it up daily. It is a splendid health measure for it is more important to keep clean and pure on the inside than on the outside, because the skin pores do not absorb impurities into the blood, causing disease, while the bowel pores do.

The principle of bathing inside is not new, as millions of people practice it just as hot water and soap cleanse, purify and freshen the skin, so hot water and a teaspoonful of limestone phosphate act on the stomach, liver, kidneys and bowels. Limestone phosphate is an inexpensive white powder and almost tasteless.
