There is considerable talk abroad in the city over a case brought before the police court this morning by a Mrs. Boyleau, who appealed to the public magistrate for an order compelling the managers of the Protestant orphans' home to restore to her a child committed to the asylum three years ago and now refused to her. An affidavit was presented stating that the child was not now in the asylum. The magistrate said that owing to this affidavit he could not grant the order, which he would otherwise do, as no institution had the right to withhold the custody of a child from its mother when demanded. The directors refuse to say where the child has been placed.

Popularity at home is not always the best test of merit, but we point proudly to the fact that no other medicine has won for itself such universal approbation in its own city, state, and country, and among all people, as

Aver's Sarsaparilla.

The following letter from one of our best-known Massachusetts Druggists should be of interest to every sufferer:

RHEUMATISM. "Eight years ago I had an attack of vere that I could not move from the bed, or dress, without help. I tried several remedies without much if any relief, until I took AYER'S SARSAPARILLA, by the use of two bottles of which I was completely cured. Have sold large quantities of your SARSAPARILLA, and it still retains its wonderful popularity. The many notable cures it has effected in this vicinity convince me that it is the best blood medicine ever offered to the public.

BRIGHT'S DISEASE OF THE KIDNEYS.

The above symptoms are not developed in any order, but appear, disappear and reappear until the disease gradually gets a firm grasp on the constitution, the kidney-poisoned blood breaks down the nervous system, and finally pneumonia, diarrhos, bloodi-seness, beart disease, apoplexy, paralysis or convulsions ensue, and then death is inevitable. This fearful disease is not a rare one—it is an every day disorder, and claims more victims than any other complaint.

It must be treated in time or it will gain the mastery. Don't neglect it. Warner's AFE tare has cured the sands of cases of the worst type, and it will cure you if you will use it promptly and as directed. Remember the Bon Marche

As we have before taken occasion to remark, the minister of inland revenue deserves well of the country for taking measures through the operation of which the public can now obtain from the dealers genuine old whisky, bottled in bond, and with the year of its make guaranteed by the government stamp. In the course of an exhaustive debate on the subject, which took place in the British commons a few years ago, it was conclusively shown, by refarence to the highest authorities, that the fusel oil found in new whisky is so much changed or eliminated by age as to become harmless, whereas in its fresh state it is really poisonous to a degree. Scientific men know for a certainty that the ill effects so freely attributed to alcohol are really caused for the most part by fusel oil, a very different substance, and having very different properties.
