The annual meeting of the East Lambton Agricultural Society was held in the Fire Hall on Wednesday afternoon.

The President, Mr. John Farrell presided. The director's report, which follows was submitted and adopted:—

GENTLEMEN:— The 33rd and final report of the East Lambton Agricultural Society is respectfully submitted.

The past year was marked by a forward movement all along the line, placing the East Lambton Fair in the front ranks of the fairs of Western Ontario. The Exhibition Hall was re-

ontario. The Exhibition Hall was re-painted, Electric Lights installed, Judge's Stand erected, and, together with the New Grand Stand we are now as well equipped as any place of similar size in the Province. New Features that proved a success were the Display made by the business men, and the Entertainment on the first night of the Fair. The interest and enthusiasm manifested augurs well for future success, and under the new regulations important changes will have to be considered and made. J. FARRELL, F. KENWARD,

Four Senators are Appointed.

Ottawa, Jan. 14 — Four Senate vacancies were filled Saturday by the Government. Hon. Geo. W. Ross, Toronto, and Mr. Robert Beith, Bownanville, were called to the Upper House from Ontario, and Hon. John Costigan. M. P., and Mr. Daniel Gilmour from New Brunswick. The latter was an unsuccessful candidate against Mr. Ganong in Charlotte County at the last general election. There still remain two vacancies from Nova Scotia, but indications point to the selection of Hon. Mr. Comeau, Minster with portfolio in the Murray Cabinet, for one of the positions.

Hon. G. W. Ross is in his 66th year. For 34 years he has represented West Middlesex in the Ontario House. From 1883 to 1899 he held the office of Minster of Education, and then became Premier. Since the defeat of his Government in 1905 he has been leader of the Opposition.

WATFORD WOODMEN. Installation and Supper.

Robert Carroll, Brooke.

At the regular meeting of Watford Camp No. 23, Woodmen of the World, held on Tuesday evening the officers for 1907 were duly installed, when adjournment was made to the Taylor House, where a sumptuous supper was served under the experienced and capable super-vision of the hostess. After doing justice to the bountiful supply of appetizing viands, J. D. Brown took the chair and after a few introducing remarks called upon a few of the brethren for short adupon a few of the brethren for short ad-dresses. Past C. C., S. W. Louks, spoke on the benefits of the order, showing the progress and prosperity of Woodcraft. Dr. Hicks responded on behalf of the hostess, and W. E. Fitzgerald made an eloquent reply to our educational system. Bros. W. T. Fuller, R. Lucas, W. Morris and T. Higgins made a few remarks and Chief Shaw expressed the pleasure he felt at being present with his appetite. The singing of the National Anthem brought a very pleasant and entertaining evening to a

Educational Maxims.

We have a right to demand the best effort from those who should to best able to make that effort.

The college man acquires by virtue of his education not special privileges but special duties. Every man who has been able to get better mental training than his fellows should feel an always increasing burden of responsi-bil y for his actions, and should be ever ready to do more than even his full duty by his state.

It is an un-American to deride and attack the man of means because he is well to-do, or the man of letters because he has a trained mind, as it would be to attack a poorer brother who has had no chance to win the

wealth of learning.

A bad man of ability is worse than a bad man of no ability.

In the long run the only kind of of help that really avails is the hel which teaches a man to help him

Every man of power by the fact of that power is capable of doing damage to his neighbors; but we cannot afford to discourage the development of such men merely because it is possible they may use their power to wrong ends. If we did so we should leave our history a blank, for we should have no great statesmen, soldiers, or merchants, no great men of arts, of letters, or of science.

That weak, tired condition will soon change by the use of Miller's Compound Iron Pills; 50 doses for 25 cents. T. B. Taylor & Sons.

Quiets the Cough

This is one reason why Ayer's Cherry Pectoral is so valuable in consumption. It stops the wear and tear of useless coughing. But it does more -it controls the inflammation, quiets the fever, soothes, heals. Ask your doctor about this.

Pat's Predicament.

(Exchange.)

An Irishman was recently travelling in a tran accompanied by a minister, when two very stout ladies entered the compartment. They placed themselves one on each side of Pat, who was, of course, much crushed. The minister, on seeing him so placed, said: "Are you sure you are comfortable, Pat?"

To this quantity.

To this question Pat quickly replied : "Sare, your honor, I haven't much room to grumble."

Cleanliness In Dairying.

Ottawa, Jan. 10.—At the Eastern Dairy; men's convention to-day G. A. Putman, superinteadent of dairying, urged the importance of efforts which would induce the producer to exercise the greatest possible care in dairying. An authority had declared that the infant raised upon the average [milk delivered in the city stood only one chance out of fifteen for life, compared with the infant raised in the natural way.

You cannot be happy while you have cros. Then do not delay in getting a bottle of Holloway's Corn Cure. It rem ves all kinds of corns without pain. Failure with it is ur known.

Box Cars Threatened.

Regins, Sask., Jan. 11.—The stock of food in Hanley on the Prince Albert branch of the Canadian Northern will soon be exhausted unless shipments can be got in, and so serious is the fuel famine that farmers, so serious is the fuel famine that farmers, according to report, are tearing down their barns for firewood. A merchant from there who reached here to ask tor government reliet, says people in Hanley threaten to burn the box cars on the sidings.

Love Lozenges Poison.

Madoc, Ont. Jan. 11.—A young tellow, Marmora Haggerty by name, who lives 30 miles north of here, near Gilmour, was gaisoned by eating "conversation" lozenges. Three Madoc doctorawere called in attendance, and by their combined efforts he succeeded in recovering from the effects of the poison. It is time, however, that the government inquired a little more clearly into the manufacture of this cheap confectionery. Ca es of pois n from this cause are becoming so common as to give cause for alarm.

Help your children to grow strong and robust by counteracting anything that causes ill-health. One great cause of dis-case in children is worms. Remove them with Mother Graves' Worm Exterminator.

Yankees Loyal to Canada.

Winnipeg, Man., Jan. 11.—Members of different American associations are resenting the expressions in British papers about American immigrantion being a menace to British supremacy in the west. They point to the fact that while there are German-Canadian, Icelandic-Canadian, and Galician Canadian political clubs in the west demaning recognition for their candidates, there is not one single American political club, and the only organization among the Americans is a sporadic social organization in a few localities which celebrate the Fourth of July. Americans are claiming recognition July. Americans are claiming re as liberals and conservatives only.

Big Detroit Blaze.

Detroit Jan. 8.—A general alarm was turned in to-night for a fire at the Michigan Stove Works, one of the largest manufacturring establishments in the city. At 9 p.m. President Geo. H. Barbour estimated the loss at \$500,000; insurance \$380,000. Several firemen and half a dozen spectators were injured. The fire was under control at 9 o'block.

Majority Favors Local Option.

Toronto, Ont., Jan. 11.—The efforts of the local optionists seem at last to be bear ing fruit if the vote at the recent elections on that issue are any indication. The supporters of this measure anticipated victory in at least 50 per cent of the municipalities voting. The more sanguine ones were even more confident. The result, however, cannot but be estisfactory to the temperance workers, while in many cases the vote offers a grain of comfort to the opponents of the measure.

One hundred and elever municipalities in Ontario voted on local option, and of the number already heard from probably 40 per cent. have indicated the measure. In many other cases a majority was given but this proved ineffective, owing to the three-fifths vote required under the provision of the new act.

Heart Strength

Heart Strength, or Heart Weakness, means Nerve Strength, or Nerve Weakness—nothing more. Postively, not one weak heart in a hundred is, in itself, actually diseased. It is almost always a hidden tiny little nerve that really is all at fault. This obscure nerve—the Cardiac, or Heart Nerve—simply needs, and must have, more power, more stability, more controlling, more governing strength. Without that the Heart must continue to fail, and the stomach and kidneys also have these same controlling nerves.

This clearly explains why, as a medicine, Dr. Shoop's Restorative has in the past done so mpch for weak and alling Hearts. Dr. Shoop's Restorative the cause of all this painful, papitating, surfocating heart distress. Dr. Shoop's Restorative—this popular prescription—is alone directed to these weak and wasting nerve centers. It builds: it strengthens; it offers real, genuine heart help.

If you would have strong Hearts, strong digestion, strengthen these nerves—re-establish them as needed, with

This Young Child Died From Old Age.

Chicago, Jan. 10.—A despatch from Minneapolis says:
"James Anderson, who died here yesterday, aged 11 years and 2 months, was, in the opinion of physicians, at least 60 years old, so far as the condition of his vital organs determine the age of a man. When six years old his hair began to turn grey, his eyesight beginning to fail, and he walked with the deliberate care of a person who is advanced in years. Ar a young child he was exceptionally bright, but his mental faculties were gradually failing for the last two years, so he was little better than a person in his dotage during the last tew months."

Your friends may notice a slight thickness of speech or that your memory is decidedly failing.
These symptoms may grow, worse very quickly if they are not treated by Ferrozone. You must build up the nervous system. This can be accomplished in no other way as thoroughly and permanently as by the use of Ferrozone.

This remarkable remedy, which has cured tens of thousands of Canadian people, increases enormously the digestive power, stimulates the formation of blood, the rich red kind that puts new life into the nerves. The first result of these changes is increased strength.
Natural circulation quickly follows, and that fullness in the head, so disturbing and alarming, too, quickly passes away.
These changes are wrought fin a natural way, for the reason that Ferrozone treats the causes that excite these troubles.

HELP FOR FARMERS.

There Are Wen to Be Had Now at

Immigration Bureau.

If the farmers of Ontario want help, now is the time for them to send in applications to the Ontario Bureau of Immigration. Since last fall the number of applications on hand have gradually diminished, and this morning there were but 25 left, only one of which was for an experienced man.

The Immigration Bureau have the 1907 applications ready to be filled out by those desirous of help.

That all the farmers have not the help they require was evinced the other day, when the Union Station office was overrun with those living in the vicinity of Toronto. They had read in a Toronto paper that 650 immigrants had arrived in town, and were on hand next day to take their choice. When they found they had been hoax ed—as only about 25 came in—they were in anything but in a genial mood.

Wedneeday morning 30 English and Irish immigrants arrived over the Grand Trunk from Portland. Most of them have taken up the last few applications for farm help left with the immigration office.—Toronto Stat.

Health Depends on Good Blood.

Everyone who uses Ferrozone has good color and great vitality. Reason for this is Ferrozone's power to create nourishing blood, "I was broken dow, had no strength and could'nt eat" writes Mrs. Chas. Benny of Cloyne, Ont. "My nerves were irritable, I was thin blooded and continual Ity unhappy. It tried Exercise. It gave ly unhappy. I tried Ferrozone. It gave me new energy, force, vim. It brought me strength—made me well." Greatest tonic and re builder ever known is Ferrozone. Sold everywhere in 50c boxes.

Editor Draws A Moral.

A Spring Prairie farmer lost a fine pig last week in a peculiar manner. One of his boys had gone to a lot where the hogs run, carrying a half gallon molasses bucket in his hand. This he put down on the ground to do something else, when the pig came along, poked his nose into the bucket, pushing his head in so far that the bucket be came tight and fitted so close all around that the pig was smothered to death. While the loss to Bill is about \$15, it also teaches the moral to keep your nose out of teaches the moral to keep your nose out of other people's business —East Troy News.

HARRIS & CO. PROPRIETORS

WATFORD, JAN. 18, 1907.

GOLDEN WEDDING.

Tuesday, January 8th, was a day of gladsome joy at the home of Mr. and Mrs. Archibald Hay, of Chandler, Mich. Here, surrounded by brotners and sisters, children and grandchildren, was celebrated an event that comes but once to the home of any, and few there be to whom is vouchsaled that once. It was their golden wedding, the fiftieth anniversary of the day when Archie, a sturdy, young Scotch Canadian, led to the altar as his blushing bride, Miss Elizabeth Thomas, It was noticed by those present at the celebration that though Mrs. Hay had passed through fifty summers of wedded life, her cheeks still wore the bloom of health and the blush of modesty.

Archibald Hay was born at Lanark, Ont., July 15, 1827. He moved to Warwick, Ont., with his parents, in 1835. Here he was married January 8, 1857.

Mrs. Hay was born in Warwick, January 28, 1837. Here she spent her childhood and here she grew up a healthy, happy, care-free, pure-minded young woman. In her early maidenhood was begun a romance which led to her being happily married at the age of 19.

Mr. and Mrs. Hay, concluding that it

happily married at the age of 19.

Mr. and Mrs. Hay, concluding that it meant a life-long struggle to bring up a large family and to secure a home in a country where land was so dear, gathered together their few belongings and together with their family of little children. came to Huron county in 1878. The same year Mr. Hay settled his family in a little log house on two acres of clear-ing on a 160 acre farm in Chandler township. here Mr. and Mrs. Hay live today with one son and one daughter in one of the most modern brick farm houses in

the country, on one of the choicest farms in the state, fitted with up-to-date machinery and stocked with thoroughbreds, from chickens to cattle.

After an elaborate dinner, Rev. Rob. Hay, of Watford, Ont., delivered a very interesting address, in which he reviewed many of the intellectual, social and world changes that have occurred during the changes that have occurred during the last half century.

A. W. Hay, of Bad Axe, then read the following address:

"TO MR. AND MRS. ARCHIBALD HAY:
DEAR PARENTS—Your descendants and friends are gathered in your pleasant home on this fittleth anniversary of your marriage to express to you their kind congratulations and wish that you may both see many returns of this day. We congratulate you on the fact that you have been spared by a kind Providence to see this day; that your children are all living so near you that you can frequently see them, and that they have all been able to be present in your home on this glad day. "We gratefully recognize the kind hand of our Heavenly Father that has been over you for good these many many years, bestowing countless mercies, not the least of these the fact that, by His grace you have been able to walk these many years in the fear and love of Christ.
"As a small token of esteem and love permit us to pre-snit to you this purse of Sold, "May you be spared to reap in your old."

May you be spared to reap in your old the reward of an industrious and vir-

the se's darkening eventide may you see with increasing brightness the respirated City of Gold, the Christian's Eternal Home." Master Fred Watterworth presented the

yell filled purse of gold.

Jokes and stories, music and recitations, eminiscences and congratulatory speeches aused the balance of the day to pass on

caused the balance of the day to pass on golden wings.

Eight children have been born to Mr. and Mrs. Hay. Two died in infancy. The remaining six are Mrs. Jane F. Hume, Wattord, Ont.; Mrs. Lavenia E. Manning, Elkton; Mrs. Emma Waterworth, Chandler; A. W. Hay, Bad Axe, and James and Charlotte A., living with their parents.

Mr. and Mrs. Hay are loved and respected by a large circle of friends and

spected by a large circle of friends aud acquaintances, who join their congrat-ulations with those of the family.—Elk-ton, Mich., Advance.

District Master's Address.

To the officers and members of the District Lodge of Warwick:

The officers and members of the trict Lodge of Warwick:

BRETHREN — A year has passed away since last we met in District Lodge and a kind Providence has given us the privilege to meet once more in session. COULDN't USE HAND FOR A

Zam-Buk Then Applied and Gave Instant Relief.

Instant Belief.

An accident in a Toronto home the other day might have had very serious consequences had it not been for Zam-Buk. Miss Martha Green, of o Claremont St., in taking a pan of boiling fat from the oven spilt it over her right hand. "The boiling fat ran into the palm of my hand," she says," and over all my fingers. You may well imagine the agony I have suffered in consequence I was almost wild with the pain. The trand became swollen, and large blisters formed all over the palm and along the fingers. For over a month I was unable to use the hand at all. I tried several kinds of salves and liniments, but the wound seemed apparently no better. It was altogether too severe for these preparations to heal. About this time I was advised to try Zam-Buk. I stopped using all other preparations and applied Zam-Buk instead. The very first application soothed my hand and seemed to draw out the fire and inflammation; and as I kept on using Zsm-Buk the blisters gradually dried up and disappeared. In a very short time the scald was healed completely."

This is but one instance of the uses

This is but one instance of the uses to which Zam-Buk can be so advantageously applied. It is equally effective for burns, cuts, bruises, abrasions, sprains and stiffness. It also cures eccezema, ulcers, sores, blood poison, ring worm, scalp s res, chronic wounds, acne blackheads, pimples, cold sores, chapped nands, and all skin diseases and injuries. Rubbed well on to the chest, in cases of cold, it relieves the aching and tightness, and applied as an embrocation it cures rheumarelieves the actining and ugntness, and applied as an embrocation it cures rheumatism, sciatica, neuralgia, etc. All druggists sell Zam-Buk at 50c a box, or it may be obtained from the Zam-Buk Co., Toronto, upon receipt of price. TORONTO.

Toronto, Jan. 15.—Trade was very good and prices firm at the western cattle market. There was, however, a falling off in the quality of the run of about 20 per cent. Total receipts were 70 cars, containing 1,200 cattle, 900 sheep and lambs, 750 hogs and 59 calves. Lamba-were up and hogs advanced 25c.

Butcher trade is steady. Exporters were more active than last week and early brought 5c for good quality. Several fancy loads brought \$5.20.

DAILY FADING AWAY. The Story of a Woman Made Weil by Dr. Williams' Pink Pills.

Bad blood means bad health. That is Bad blood means bad health. That is why Dr. Williams' Pink Pllis mean good health. They actually make new, rich blood which strengthens every nerve and every organ in the body. This is why people who use Dr. Williams' Pink Pills feel bright, active and strong. Mrs. Arthur Hannigan, Marshville, Ont., is a witness to these statements. Mrs. Hannigan says:—"For nearly three years I suffered from anaemia (bloodlessness) and during that time consulted and took medicine from anaemia (bloodlessness) and during that time consulted and took medicine from several doctors, without beneficial results. My complexion was of a waxy appearance, my lips and gums seemed bloodless. I suffered from headaches, dizziness and palpitation of the heart. My appetite was so poor that I did not care whether I ate or not and grew so weak, and was so much reduced in flesh that my friends thought I was in consumption. As I said I have doctored without benefit, until the last doctor whom I consulted. until the last doctor whom I consulted, advised me to try Dr. Williams' Pink Pills. I followed his advice, and less than Pills. I followed his advice, and less than a dozen boxes have made me the well woman I am to-day. All the symptoms of my trouble have vanished and I enjoy the very best of health. I know there are hundreds of women who are drifting into the same condition I was, and to all such I would strongly urge the immediate use of Dr. Williams' Pink Pills."

Dr. Williams' Pink Pills do not act upon the bowels: they do not tinker with mere symptoms; they go right to the root of the trouble in the blood. That is why they cure common allments like rheu-

of the trouble in the blood. That is why they cure common ailments like rheumatism, neuralgia, kidney trouble, headaches and backaches, St. Vitus dance, and the special ailments that afflict so many women and growing girls. Sold by, all medicine dealers or by mail at 50c a box or six boxes for \$2.50 from The Dr. Williams Medicine Co., Brockville, Out

DISEASE MADE BONES SNAP LIKE **GLASS**

Frank L. Wellington has died at his home in Trinity Avenue, New York, the victim of a disease which caused his bones to snap like glass. One day while holding a strap in a street car his arm snapped off. A short time later a leg bone snapped. According to his physician this terrible condition was brought about by taking medicine which contained a certain mineral poison.

Again and again has it been demonstrated that mineral medicines are harmful. It is because Bileans, while so effective tor all liver and digestive disorders, yet contain no trace of any

harmful. It is because Bileans, while so effective for all liver and digestive disorders, yet contain no trace of any mineral, but are, on the contrary, purely herbal, that they have won the praise of medical men, trained nurses and scientists all the world over. Bleans differ from pretty nearly every other liver medicine in containing no mercury, and from pretty nearly every other stomach medicine in being free from bismuth. They are also free from alcohol. They are compounded from the finest known menchaal herbs and roots, and are thus the best family medicine that can be obtained. They operate gently on the bowels, curing constipation and piles. They correct acidity of the stomach, stimulate the digestion, tone up the liver, and correct the secretion of bile. Their general action is at the same time corrective and tonic—correcting faulty secretion, toning up weak and debilitated organs. They thus cure anaemia, green sickness, female ailments and irregularities, blood impurities, rheumatism, etc. For nausea, headache, gas. pain in the chest and between the shouless the area slee very effective. Their matism, etc. For nausea, headache, gas.
pain in the chest and between the shoulders they are also very effective. Their
operation is mild, yet effective. In curing constipation they do not cause afterconstipation, nor do they ever cause griping. Mothers will find them beneficial
in the many little allments to which
children are subject. All druggists sell
Bileans at fifty cents a box, or they may
be obtained post free from the Bilean
Co., Toronto, on receipt of price. For
\$2.50 a parcel of six boxes will be mailed.
This is the most economical form for
family use.

Fashions in New York.

Although the new modes are generally stablished, and the majority of women are lanning and preparing their Spring wardsbes, the Winter weather keeps in mind are garments more suited to its demands, the dressy gown required for receptions, inners, dances, and the theater, and the ers, dances, and the theaser, and one and wraps which accompany them, are iving much attention just now. There is iderable latitude allowed in the lines of gowns and coats; there is also a wide of oul r and deversity in fashionable

rincess and Empire lines continue in the favor, and one sees delightfully lainal combinations of them. Peculiares of figure and, in certain instances, resonal prejudice, bar the way to a neral adoption of the loosely flowing moire modes. This accounts for the othat the gown with the round, fitted that and normal belt line has lost none of vogae. It is altogether too graceful and coming to be passed by, and it figures in any of the smartest gowns — Helen Berkey, Loyd in the February Delineator.

Winnipeg, Man., Jan. 9.—Hudson Bay sinceers and Frenchmen who have been in the Northwest for 50 years assert they have never experienced a winter like the save never experienced a winter like the present. The snow is out of all proportions of the years, and the cost to the city corrorations and even small householders formous. The roofs of the big flat buildings require cleaning every morning. A feature of the weather last night was the feature of the train service is more crippled high, and the train service is more crippled than at any time in the history of the C. P. R. The bottle of FERROL I secured from you, I have found to do great good. May little the secured him. I know it to be an excellent remedy for a bad cold and for building a person up after sickness. I might say that it was prominent doctor friend of mine in the city, who used it for his son, and spoke to me of it. I have since recommended to a great many of my friends to try.

Yours truly,

J. B. TINNING.

her—smile and be agreeable.

Among this class the symptoms of female diseases are early manifest by weak and aching backs, pain in the lower limbs and lower part of the stomach. In consequence of frequent wetting of the feet, periods become painful and irregular, and frequently there are faint and dizzy spells, with loss of appetite, until life is a burden. All of these symptoms point to a derangement of the female organism which can be easily and promptly cured by Lydia E. Pinkham's Vegetable Compound.

Dear Mrs. Pinkham :-Dear Mrs. Pinkham:—

'Overwork and iong hours at the office, stogether with a neglected cold, brought on a very serious female trouble until finally I was unable to go to work. I then thought of a friend who had taken Lydia E. Pinkham: a Vegetable Compound when her health was in the same condition that mine was and straightway sent out for a bottle. I finished that and took two more before I really began to improve but after that my recovery was very rapid and I was soon well and able to go back to work again. I certainly think your medicine for sick women worthy of praise and am indeed glad to endorse it."

It is to such girls that Mrs. Pinkham holds out a helping hand and extends a cordial invitation to correspond with her. She is daughter-in-law of Lydia R. Pinkham and for twenty-five years has been advising sick women free of charge. Her long record of success in treating woman's ills makes her letters of sixty of mindly value to avery allies. of untold value to every ailing

Out of the Question

Great Britain has entered into an alliance with Japan, Great Britain has vowed eternal friendship with the United States, Japan and the United States may fight. Then what will Great Britain do, and what will Can-

This is a difficult and awful problem, but more difficult and awful on paper than in reality. First, it is not at all likely that Japan and the Unit-ed States will fight. Second, treaty or no treaty, Great Britain will not fight the United States for the sake of Japan, and if any Japanese statesman has such a motion in his head he will be wise to have it extracted, even though the operation be painful.

If so insane an idea were to be entertained by any British Government which is motally impossible, a protest from Canada would be in order. In Canada we see that Great Britain sacrifices our interests to please the United States. We are told that we must submit to this because a war with the United States would be a terrible calamity, and that Canada would suffer more than all. Admit the force of this reasoning, and you have a powerful argument against Canada being lugged into a war with the United States not for her own sake but for the sake of Japan. Imagine a war raging all along the frontiers of Canada, from the Atlantic to the Pacific, because Japan and the United States had some trouble in Honolulu. The place for those who would entertain such a proposal with favor seems to be in an institution where they take care of gentlemen who have a mania for setting houses on fire.—Star.

A Prayer.

(S. E. Kiser, in Chicago Record-Herald.)

Let others ask for greatness and for

wealth,
Let others pray for glory and for health;
I do not ask that they may fall
Who try to crowd me to the wall,
I do not kneel, O Lord, to beg of Thee
That shame may come to them that scoff
at me. at me.

II.

II.
I do not ask with upturned pious eyes
For what should be another's lawful prize
But give me courage, Lord, to treat
My rival fairly when we meet,
And ist me win no comfort and no rest
As long as I have failed to do my best.

She Was Wild With Pain.

From Willow Creek, Ont, Miss E. Diegel writes: "A few years ago I was drenched with rain and got lumbago; it was like a steel rod pieroing my back. I also had earache and was just wild with pain. I applied batting soaked with Nerviline to my ear and rubbed on Nerviline for the lumbago. That rubbing relieved and in a few hours I was well. No other liniment could do this." It's the penetrating power of Nerviline that makes it superior to all other liniments. Nothing beats it, 25c. at all dealers.

Register all Fires.

Toronto, Jan. 9—A deputation from the Mutual Fire Underwriters' Associa-tion waited upon Hon. Mr. Foy and other members of the Government this other members of the Government this morning and asked that it be made compulsory to register all fires, the record to be made with the Government.

Barely Lived Through It.

A terrible experience had Elw. J. O Con-nor of Sault Ste. Marie. "From boyhood" nor of Sault Ste. Marie. "From boyhood" he writes, "I have been a constant sufferer from asthma and catarrh. My nose and throat was always stopped up and I had droppings in the throat. When attacks came on I thought I couldn't live through the night. I would sit up gasp for breath and endure great distress. Catarrhozone made me entirely well." No stronger proof is required. Asthma is curable, so is oatarrh. Use "Catarrhozone" and your recovery is guaranteed. Two sizes, 25c. and \$1.00, at all dealers.

The Lengthening Days.

As the cold begins to strengthen the days begin to lengthen. That is the more hopeful, though not the usual way of describing this season of the year. The worst is over, for the worst is the gloom, not the cold; and now the almanac records each day a gain of a few minutes in sunshine. In the January thaw winter is taking a rest, and gathering strength for a fresh at tack. In February there will be an advance all along the line, and horse, foot, and artillery will be hurled at

the foe together.

Still, there is an element of despair in that last grand charge, like that of Napoleon on the British squares at Waterloo. The strength of the army is spent, and Blucher is coming. The days have been gradually growing longer, and sometimes, even in blust ering February the breath and promise of spring are borne on the wings of

a passing breeze. Not many poets have sung the praises of February, yet it is a month that deserves a tribute from some poet who loves war and action, and the strenuous life. Then everything is in extremes, and the battle of Nature's forces is at its height. The sunshine is brilliant, the streams are gripped bard by the frost, the snowstorms are blizzards. Some invalids and some infirm people find the February air too strong, and must take shelter among the non-combatants, but for others it is a healthy month, when the dust is held down by the snow and the germs are frozen.

A Natural Laundry.

Near Ashcroft, in British Columbia, are number of small lakes, whose shores and ottoms are covered with a crust containing borax and sods in such quantities and pro-portions that when cut into blocks and bandled in the same manner as ice, and it is estimated that one of the lakes contains 20,000 tons of this material.

To Know is to Prevent.—It the miners who work in cold water most of the day would rub their feet and legs with Dr. Thomas' Eelectric Oil they would escape muscular rheumatism and render their nether limbs proof against the ill effects of exposure to the cold. Those setting out for mining regions would do well to provide themselves with a supply before starting.

Don't continue taking the paper until you are pressed for payment and then "swell up" and say you "never subscribed for it." South American Rheumatic Cure

Why, its very nature makes it the most natural and easy cure that human intuition and diligence have discovered. Its wonderful power is in its simplicity; its effectiveness is in its going right to the seat of the trouble, dispelling the causes that "bode evil," give pain, stiffen joints, distort limbs, twist muscles, and when it reaches vital spots, ofttimes cause death. South American Rheumatic Cure is as harmless of times cause death. South American American American as milk. One of its marvels is the rapidity with which it effects a cure and the testimony of the thousands who have "thrown away their and the testimony of the thousands who have "thrown away their crutches" and climbed from the valley of suffering to the mountain top of health would fill a book.

Don't be incredulous. Encouragement comes with the first dose no matter of how long standing.
