## DUCHESS OF CONNAUGHT IS AGAIN TAKEN TO MONTREAL SUFFERS FROM PERITONITIS

Endured Journey From Ottawa Well and Is Resting Fairly Comfortably in Royal Victoria Hospital — Symptoms Are Similar to Those Shown by the Duchess in June Last Year—Ottawa Deeply Regrets Illness and Social Functions Are Abandoned.

MONTREAL, Jan. 8.—(Can. Press.)—The following bulletin was issued at 11.30 tonight:—  
Her Royal Highness the Duchess of Connaught has staid the journey from Ottawa pretty well, and is now resting as comfortably as could be expected.

(Signed) E. S. Worthington, Royal Victoria Hospital.  
Such was the official bulletin issued tonight by Mr. Arthur F. Sladen, C.M.G., private secretary of H.R.H. the Duke of Connaught, a little over an hour after the distinguished patient arrived in the city from Ottawa and was removed to the hospital. There will be no further bulletins issued until between 10 and 11 o'clock tomorrow morning. Mr. Sladen stated that the condition of her royal highness did not warrant a bulletin before that hour, but to be conveniently near the hospital His Royal Highness the Duke of Connaught and the Princess Patricia are the guests of Sir Montagu and Lady Allan at Ravenscrag, immediately adjoining the institution.

While the official bulletin issued late tonight is regarded as somewhat reticent, it is understood that the illness of her royal highness seems more severe than when she was stricken during a visit to Quebec in June last and was brought to Montreal for treatment at the Royal Victoria Hospital where she was a patient for about a month. However, it was said tonight that there was no reason for serious apprehension at present.

**DEEP CONCERN AT OTTAWA.**  
OTTAWA, Jan. 8.—(Can. Press.)—Her Royal Highness the Duchess of Connaught is suffering from another attack of peritonitis, the same illness with which she was stricken last June. She has been transferred from Government House to the Royal Victoria Hospital at Montreal by a special train. The announcement of her illness caused genuine regret throughout the city when made public this afternoon. Since Sunday the Duchess of Connaught has been ill, and Dr. Garraway, the eminent Montreal surgeon, was called the first of the week to Government House. However, it was hoped the sickness would not develop into anything of a serious nature, and for this reason the authorities sought to avoid any unnecessary alarm on the part of the great numbers who inquired about her illness by stating that it was only of a temporary nature. Her condition became less satisfactory this morning, and the physicians decided that it was advisable to re-

## RATES NO LOWER THO REVENUE SOARING

C. P. R.'s Commodity Charges Shown to Be Practically the Same as Those in Force When Revenue Was Less Than One-Fifth of What It Is Now.

OTTAWA, Jan. 8.—(Special.)—The court room used by the railway commission in the western freight case resembles in appearance somewhat the baggage room of an ordinary passenger depot. The railway companies have on hand a corps of lawyers, officials, experts, law students, clerks and messengers, and apparently each lawyer has been provided with a trunk. These trunks are scattered about the court room, filled with statistical data of one kind or another, and necessarily some clerk or messenger is being despatched for some schedule or exhibit. What it all means is hard to say, as the railway lawyers so far have not been heard. Mr. M. K. Cowan, K.C., has the laboring oar for the complainants and occupied all of today's session with the examination of W. R. McInnes, freight traffic manager of the Canadian Pacific Railway Company.

**C. P. R. Claims Reductions.**  
Mr. McInnes was examined, or rather cross-examined, upon exhibit A of the defence put in by the C.P.R. This exhibit is a formidable document, containing forty-two schedules, designed to prove that the Canadian Pacific Railway Company has materially reduced its freight rates in the west. The exhibit set forth what it purported to be the rates effective in 1888 for the shipment of grain, coal, fence poles, stone and many other commodities, and compared the same with the rates now in force.

Based on General Tariff. This presented the statistics showed a considerable reduction in rates. Mr. Cowan, however, proved from the witness that all the rates were based upon the first general tariff of rates established by the company. This was a standard mileage rate and practically a maximum rate. It was shown, however, that as freight commenced to move over the system the Canadian Pacific Railway put into force commodity rates materially lower than the maximum standard rates, and that these commodity rates, established 25 years ago, were about the rates now in force. As Mr. Cowan put it, the company was charging about the same rates today when its annual revenue was \$128,000,000 that it charged when its annual revenue was \$24,000,000.

**Rebates to Shippers.**  
Some curious facts came out in evidence. Thus it appeared that as to some rates there was a rebate to the shipper, a practice clearly illegal.

## FEDERAL DISTRICT WILL BE CREATED

Legislation Making Provision For Ottawa, Hull and Suburbs Is Now Being Drafted.

OTTAWA, Jan. 8.—(Special.)—Legislation paving the way for the creation of Ottawa, Hull and suburbs into a federal district is being drafted at the department of justice, and may be introduced in parliament towards the latter end of the present session. A year ago the citizens of the capital, disgusted with the lack of efficiency shown by the civic authorities in coping with the water and typhoid situation, voted overwhelmingly in favor of a federal district. Some little time later a civic delegation, which also included a number of the most influential citizens of the city, made official representations with regard to the matter to Premier Borden, who expressed himself as favorable to the scheme, and requested that all available information and data bearing upon the question of the creation be supplied the government. This was attended to, and the whole thing was referred to the justice department for the drafting of details. These will have to be approved by the cabinet, and it is likely that the citizens of Ottawa will also be given an opportunity of passing upon them. It is understood that in a great many respects the plan followed has been very similar to that followed by the United States government when it created the district of Columbia at Washington.

## LABOR IN CANADA AGAINST NAVAL POLICY?

J. C. Walters, Representing Trades Congress, Writes Citizen of London, Eng., That Organized Labor in Canada Solidly Opposes Increase in Armaments.

LONDON, Jan. 8.—(C. A. P.)—The Daily Citizen states the parliamentary labor party is giving considerable attention to the Canadian Government's proposed naval contribution, with a view to united action at the proper time. In the same issue appears a letter from J. C. Walters, written on behalf of the executive of the Trades and Labor Congress, in which he asks to dispel the illusion that the offer represents the united sentiment of Canadians. Organized labor in the Dominion is solidly against the spread of jingoism and armaments craze. If Canada's present offer is simply a party move, unfortunately Canadian labor men have not a direct voice in the Dominion Parliament. If they had their answer would be made in no uncertain tones. The letter concludes: "With the ripe experience acquired by the labor group in the British house, not alone in domestic affairs but in the world's politics, would it not be well to give us in Canada the benefit of your experience by advising how we can best co-operate with you in maintaining the world's peace? A more practical way suggests itself to us than to co-operate closely with our working comrades in the mother country."

## ENTRANCE EXAMINATIONS ARE THE DEVIL'S GREATEST AGENCY, SAYS CHIEF INSPECTOR HUGHES

"An Abominable Curse," He Says, in Denouncing Present Examinations Prescribed by the Ontario Department of Education—He Can Do More to Transform Boys' Lives Into Noble Purposes by Training as Cadets Than Any Minister Can Do by Physical Training.

In the course of an animated speech at the annual banquet tendered by the Men's Association of St. Anne's Church, last night, in which the uplift of the boyhood of this city was his main theme, Dr. James L. Hughes, chief inspector of Toronto schools, denounced the present entrance examinations prescribed by the Ontario Department of Education as "the greatest agency of the devil in all Canada." He declared himself opposed to the examination idea from which he said old England has now in her wisdom almost entirely freed herself. The old land, in consequence of its broadening view along such lines has, in his opinion, made more substantial progress in educational matters during the past ten years that it did in the preceding ten centuries.

Dr. Hughes, after paying eloquent tribute to the advanced civilization represented by the entire British Empire, said that people here in Canada, and in Ontario particularly, displayed one of the darkest spots in that civilization. He explained that he referred to some features of the present educational system, and notably the government's requirement of students ambitious to graduate from the elementary to the secondary or high school.

**Patriotic Strain.**  
Returning to the patriotic strain which characterized the remarks of the preceding speakers, Dr. Hughes entered into a defence of the cadet movement with which he is patriotically identified, but concerning which he remarked, parenthetically, some clerical men do not agree with him. "I believe I can transform a boy's life into noble purposes and develop in him a strong character by training him as a cadet, better and more easily than any minister can by theological teaching," he said.

About fifty public school cadets who attend St. Anne's Church were present at the banquet in uniform. They had come in the expectation of forming a guard of honor to Hon. Col. Sam Hughes, who was invited to be present, but was unavoidably detained elsewhere. The brother of the minister of militia, Dr. J. L. Hughes, in his address stated that the elaborate flag decorations that adorned the parish hall and the presence of the boys in their red coats had suggested to him that he would like to present the cadets of the church with a silk flag. He had one of the cadets come to the banquet and display a large silk Union Jack, which Gen. French presented to the cadets of Toronto on his late visit. He promised amid loud cheers that in the very near future St. Anne's cadets would receive a duplicate of the beautiful ensign sent from him.

**Rev. Lawrence E. Skoy, B.A.,** rector of St. Anne's, who occupied the chair, in introducing Sir Edmund Ouler, remarked that he did not speak well, but that he was able, however, to act well.

## WANTS PREFERENCE OPPOSES FOOD TAX

LONDON, Jan. 8.—(C.A.P.)—Sir Joseph Ward, ex-premier of New Zealand, arrived in London last night on a private visit, accompanied by his son and daughter. His views were immediately sought on questions of imperial preference and naval defence. Of the former he said: "I've always been in favor of imperial preference, and believe it would strengthen the bonds between the mother country and the dominions. I've never been in favor of food taxes." On naval defence Sir Joseph said he was absolutely in favor of standing by the British navy instead of having sections navies to defend the overseas dominions. He was delighted to see what had taken place in Canada on that subject, and was sure such action was the strongest and best a great country could take. New Zealand had adopted the same policy as Canada with regard to the navy and provision of ships.

## Harris' Filtration Report Is Ready

Commissioner Harris' report on the intake pipe is now complete, and when interviewed last night as to what it contained therein, he informed "The World" that he is going to seek counsel on the subject before he gives the report any publicity. He would say nothing as to what is wrong with the filtration plant. Mayor Hocken, too, waived all questions aside. "Are there any serious leaks in the plant?" he was asked. "I cannot say anything until I have sought a legal opinion." Other questions proved futile.

## DETROIT FLYER JUMPED TRACKS

While Slowing Up at Hamilton Junction Derailment Occurred—Traffic Tied Up.

The Grand Trunk passenger train from Detroit, known as No. 2 flyer, ran off the track at a "derail" just west of Hamilton Junction, at 8 o'clock last night, and the engine, tender and front passenger baggage car were derailed. The fact that the train was slowing up approaching the diamond, saved it from a serious derailment. The derailment resulted in a tie-up of the Grand Trunk traffic from the west, all trains arriving at the Toronto Union Station from the west last night being from two to three hours late. The Detroit train suffered no serious damage and the passengers arrived here at 10.40 p.m.

## MANY NEW CLAUSES IN HOME RULE BILL

LONDON, Jan. 8.—(C.A.P.)—Thirteen clauses to the home rule bill yesterday, two of which only could be discussed. Haves a Fisher moved an amendment to clause 14, to deprive the Irish legislature of power to interfere with imperial taxation, either by varying or discounting it. Postmaster-General Samuel opposed the proposal, which he said would debar the Irish commons from levying or investing new taxes. He contended there would not be constant interference on the part of that house with the policy of the British chancellor of the exchequer. The amendment was defeated.

## W. F. CLARKE DEAD

Proofreader on Mail and Empire Passed Away From Pneumonia.  
William Firstbrook Clarke, 148 Spruce street, proofreader on The Mail and Empire, passed away yesterday morning after a short illness at St. Michael's Hospital as a result of a cold which developed into pneumonia. Mr. Clarke had been a resident of Toronto for over thirty years, coming here from Birmingham, Eng. when a young man. He was in his sixty-fifth year and was well known in musical circles, he having been for some years a member of Dr. Topping's Chorus and Holy Trinity choir. He leaves a widow, one son and one daughter, Mrs. Frank E. Knowland of this city. The funeral will take place from his late residence on Friday at 4 p.m. to St. James' Cemetery.

## FOSTER TIED TO OTTAWA DUTIES

Minister Unlikely to Attend Imperial Trade Commission Sittings in Australia Next Month.

OTTAWA, Jan. 8.—(Special.)—Hon. George E. Foster is likely to call off his trip to attend the sittings of the imperial trade commission in Australia during the months of February and March. A number of important matters are claiming his attention in the capital. Chief of these is the West Indies trade agreement bill, which has as yet received but its first reading. If the naval bill continues to have precedence over all other legislation when parliament resumes, and the Liberals decide to fight it, considerable time may elapse before Mr. Foster can get his trade agreement ratified.

## TWO YOUTHS GO TO PENITENTIARY

Frank and Albert Thompson Get Four and Three Years For Two Robberies.

Found guilty in the county police court yesterday afternoon on four charges of robbery and theft, Frank Thompson, aged 19, was sentenced to four years in Kingston Penitentiary, and his brother, Albert Thompson, aged 17, to three years in the same institution, by Magistrate Clay. The two boys are westerners, and up till a few months ago lived at a ranch in Saskatchewan. They worked their way to Toronto and at once fell into bad ways. First the youths removed a lamp from a semaphore on the C. P. R. tracks at Leaside Junction. Using this as a dark lantern, they visited a car full of potatoes, where Adalard Loeur, a Frenchman, was feeding a fire to prevent the potatoes from freezing. At the village of Ellesmere they broke into the public school on Dec. 28. After that the Thompson boys entered the postoffice and took two cases of salmon.

Chief Detective Frost, assisted by Constable Harper of the C. P. R., arrested the boys for trespass. Detective Nourse suspected them in the police court of being the pair wanted, and the charges followed. Albert broke down when his mother was mentioned as living in a town not far from Toronto.

# GRAND OPERA WINS MIXED RACE AFTER DROPPING FIRST HEAT

### Creosote Lands the Trot in Straights—Good Racing on the Second Day at Dufferin Park.

There was a fair attendance at the second day's ice meeting of the Dufferin Driving Club—no nearly what there should be for the class of racing put on. There were good fields, and no better racing could be found, every driver using all his skill to get to the front and win the long end of the purse. There were two races carried over from the first day, with seven starters, and the 2:15 race and trot, with ten horses looking for the work.

The first race, the 2:30 trot, was called at 2 p.m. Midnight Oro drew the pole, Lon McDonald in second position, Florence G. third, Oro B. fourth, and Creosote, the decided favorite, fifth. After several scores starter Noble gave them the word to a good start.

**A Sight to See.**  
Before the signal was reached Lon McDonald had the pole, and he kept it from all of them, and it was a sight to see the little trotter race. Creosote was back some distance, but going down the back stretch Nat came along with him by alongside the pony, and won quite handsily, with Lon second and Midnight Oro third.

The second heat was almost a repetition. Lon McDonald made a mistake, and finished fifth, while Midnight Oro finished behind him. Oro B. was a nice second in this heat, and Axel Audubon an easy third. In the final heat Creosote, altho having the pole, broke back and allowed Oro B. to take it. Lon McDonald, who made a break just as they got the word, settled down, but had a lot to make up. He certainly showed some speed, and also class, as he came from behind and all but nipped Creosote at the wire. Lon McDonald got quite a cheer, being quite a pony and doing his work so nicely.

**Grand Opera—Fifth.**  
In the 2:15 pace and trot, what seemed to be almost an impossibility turned out to be a reality. No one would have thought that Grand Opera would make a mistake, but here is where the beauty of racing comes in—the uncertainty. Grand Opera was barred in the books and pools. Daisy-at-Law drew the pole, but The Undertaker had it before the first turn, with Grand Opera on the outside. They raced this way to the three-quarters when Grand Opera made a mistake and Nellie Parker, who had been racing in third position, came along and beat The Undertaker, an old also Sidney Mack. John Mead brought him along with a rush and got second to Nellie Parker.

In the second heat, Billy Hudson took no chances, and had Grand Opera in front when they turned the first bend, and he was never in any trouble through the race, winning the last three heats as he wished.

**Today's Card.**  
There will be some great racing today. There are three well-filled races to be decided. The 2:30 pace has Mr. J. B. Gray's new purchase, Grattan Royal, as one of the starters, besides a number of other very fast ones, and, you know, Grand Opera made a mistake. The 2:15 trot has a good field of trotters, and there might be some changes in that race from previous results. Then the free-for-all, with a splendid entry list, Nettie Ethon, St. Anthony, Clara Paul and others, which make this a very interesting race. Following are the entries:

2:30 pace, purse \$500—Victoria Poem, b.m., F. Scott, Toronto; Grattan Royal, b.h., J. E. Gray, Toronto; Anti-Skid, b.g., E. L. Nicholson, Toronto; Rose Bays, b.m., A. McNeil, Thessalonville; Jubilee Boy, b.g., W. Cranston, Caledon East; Brown Freda, b.m., V. W. Rowntree, Weston; Gold Standard, ch.g., F. Bukhart, Batavia, N.Y.; Star Points, b.g., W. Collins, London; Maggie B., b.m., W. Calvert, Durham; Onwell, b.h., Ovide Colombe, Calgary; Pickett Boy, b.g., R. Peake, Campbellford; Steal Away, b.m., F. W. Toor, Dunnville.  
2:15 trot—Margot Leonard, b.m., J. T. Hutson, Toronto; Bernola, m.g., A. C. Hutson, Toronto; Raprobat, b.h., W. Gilks, Barrie; Roy Brooke, b.h., Jas. Noble, Toronto; Shaup Elaine, b.g., F. J. Ryan, Toronto; Wood Points, b.h., Chas. Law, Dorchester; Silver Tall, ch.m., Ward & Sheppard, Toronto; Monarchial Lady, ch.m., M. Faulkner, Ottawa; Miss Brownlee, b.m., T. H. Brownlee, Ottawa.

Free-for-all—Johnnie Hute, b.g., A. C. McKenzie, Winnipeg; Clara Paul, b.m., J. McLean, Moose Jaw; Bonnie Cope, b.m., Geo. S. McCall, St. Thomas; Hal H., b.h., Geo. S. McCall, St. Thomas; Asa Wilkes, ch.h., W. F. Brownman, Batavia, N.Y.; Nettie Ethon, b.m., R. J. McBride, Toronto; Nellie Parker, b.m., J. P. Goodenote, Springfield, N.Y.; Richard S., ch.g., Ward & Sheppard, Toronto; St. Anthony, ch.g., T. H. Brownlee, Ottawa.

# Mercantile League Schedule Adopted

### Teams Look Well Balanced and a Big Season Is Assured—The League Officers.

The Mercantile Hockey League looks to have a good season ahead. Some of the clubs represented on the ice last year have not entered, but their places have been filled by new teams and the league looks evenly balanced. To keep the clubs up to the mark lines will be imposed on the team deficient in turning up on time and in every other way the O.H.A. rules will be followed out. At the league meeting a few nights ago the following schedule was adopted:

Jan. 11—Warwicks at W. R. Brook, Varsity Rink, 8 to 9 p.m.  
Jan. 12—Howlands at Massey-Harris, Little Vic. Rink, 8 to 9 p.m.  
Jan. 13—Alkenheads at Warwicks, Varsity Rink, 8 to 9 p.m.  
Jan. 14—Alkenheads at Fairbanks, Broadview Rink, 8 to 9 p.m.  
Jan. 15—Howlands at Warwicks, Varsity Rink, 8 to 9 p.m.  
Jan. 16—Fairbanks at Massey-Harris, Little Vic. Rink, 8 to 9 p.m.  
Jan. 17—W. R. Brook at Fairbanks, Broadview Rink, 8 to 9 p.m.  
Jan. 18—Warwicks at Howlands, Varsity Rink, 8 to 9 p.m.  
Jan. 19—Warwicks at Alkenheads, Little Vic. Rink, 8 to 9 p.m.  
Jan. 20—Massey-Harris at W. R. Brook, Varsity Rink, 8 to 9 p.m.  
Jan. 21—Fairbanks at Massey-Harris, Little Vic. Rink, 8 to 9 p.m.

#### THE FEDERAL SQUARE.

The Globe talks of the abandonment of the Federal Square project and declares it to be due to the price of real estate, "because at the present inflated values, the land alone would cost millions of dollars." Does The Globe mean that Toronto real estate is not value for the money for which it sells? For ten years now all the experts of 1899 have been telling us that we are on the eve of a crash, of a collapse of values, of anything and everything that might suggest that Toronto as a city was going to the dogs. These experts fell into the error in 1899, that it was business and buyers that made a city. But it is neither. It takes people to make business and supply buyers and build the city also. And for all the time that the 1899 experts have been prophesying a collapse there have been 30,000 and 40,000 people a year settling in the city. This number is rising to 50,000, and it is those who give real estate its value, and who supply the basis of all the business prosperity of the city.

In the same article, The Globe concludes that "the city is to have a system of underground railways as a means of avoiding congestion in the downtown quarter." But this means still further "inflation," as The Globe calls it, of downtown real estate values. The men who get near a tube station with their property will wear diamonds. It will not be inflation, but solid, actual value. There would be no tubes but for the people. The tubes are for the accommodation of the people. The more accommodation the more people, and the more people the more value. The growth of a metropolitan city once it begins its snowball-like in its rapidity. It absorbs everything and attracts further multitudes who desire to help to roll it along. What, then, is the use of talking about "inflation"? There may be isolated cases of speculation of an imprudent nature, but the banks and the big business interests, which are buying up downtown real estate at current rates, are no parties to inflation.

Then, is it correct to say that the Federal Square scheme has been abandoned? The mayor and board of control should have something to say about this. If the cost of the proposal is high, no steps have been taken to reduce or even to keep it from increasing. In fact, rather the reverse is the case. Unless a plan of this description is handled quietly, options for the property required being obtained before owners and agents are incited to frenzy by the long-delayed prospect of what is to be, and how it is to be, and the increasing cost of it, it is perfectly plain that no reasonable quotations can be had. The need for a commission with fuller and discretionary purchasing powers is obvious. We believe The Globe to be in general agreement with these ideas, and we quite agree with it that the city council should get to work on the Federal Square idea at the earliest possible moment. There is no reason to suppose that the federal government will not co-operate.

#### CITY TAX RATE.

There should be no humbugging over the tax rate this year. The false economies of which Controller Foster is the exponent are of no benefit to the city. To pretend that you can do with two meals when you know you will eat three is a foolish way of estimating one's expenses, and is only equaled by the other pretence that you will have a dollar to pay for them, when you know you will only get 75 cents. It was on this principle that the last two years' budgets have left a deficit of \$300,000, which must be made up this year. If the city needs twenty million, that rate should be struck. An assessor who levies from 50 to 75 per cent of the values of property on the present assessment is not much more than 15 or 16 mills would be on an assessment according to Sir James Whitney's reading of the act. The controllers need have no fear about doing their duty, and especially Controller Foster, who is a wealthy landowner, and, according to the assessment department's practice, not assessed more than 75 per cent of his values, need not object to a rate which does not mean for himself more than 16 mills on the dollar. The poor men, who are assessed 90 to 100 per cent and upward on their real values, will have most to complain about, but

the assessment department will perhaps be able to explain away their grievance.

**ELECTRICITY AT COST PRICE.**  
The surplus announced by the Hydro-Electric Commission would be a considerable affair in the eyes of a horde of hungry shareholders in a private company. The publication of such a report would be followed by an instant demand for an increase in the scale of rates, and on an investment of \$4,000,000, which would be watered up to \$10,000,000 at least, a surplus of \$750,000 would be regarded as narrow. That amount would only allow a 5 per cent, with a little balance for reserve.

But under the hydro scheme the people are not tied for the benefit of shareholders. They got their surpluses delivered to them direct in low rates and good service, rates that are being lowered as time goes on, and service that will constantly be improved. The sum of \$55,000 announced as a surplus by Hon. Adam Beck is merely a testimony that the commission has figured closely in giving power to the consumers at cost. They are not in the business to make a profit, and they are too good in the business to make a loss.

#### A TRUE TEST.

Remarkable is the intelligent interest displayed by the people of the United States in the problem of freight rates. We say freight rates because the passenger rates have been pretty well standardized by the legislation of the various states at two cents per mile. The fairness of the two-cent-a-mile passenger rate has been vindicated by experience, and in this connection it may be noted that the radial railways of the country have practically established a one-cent-per-mile fare without waiting for legislation. Legislation in the United States, however, has been less progressive in the matter of standardizing freight rates. The freight rates, it is true, have been greatly reduced thru the action of the United States Interstate Commerce Commission and of the various state commissions, but the reductions have been accompanied by loud complaints from the railway companies, who are repeatedly appealing to the courts to save them from "confiscation." The popular interest in the question is evidenced by the constant stream of publications dealing with this subject, as a rule written in a way to interest the average reader of the daily newspaper.

Prof. Hammond of the Ohio State University has contributed a pamphlet to the discussion, which attempts nothing more than an outline of the general principles underlying many decisions rendered by the interstate commerce commission. The commission, he says, after trying many other tests, has finally decided that the reasonableness of railway rates must depend upon the cost of the service. At one time it was assumed that the cost of the service was the criterion, but the value of the service to the shipper may often be all that he can possibly afford to pay, and may be quite out of proportion to the cost of the service to the company. True, the companies are allowed to charge a higher rate for carrying freight of great value and are still permitted to make a co-called commodity rate for certain shipments, but this is upon the theory that the extra care and responsibility imposed upon the company where the commodity is of great value, adds to the cost of the service. The cost of the service includes not only the actual cost of operation, but a fair return upon the capital actually invested, and an allowance for a depreciation of plant, but not for betterments. The actual capital invested may claim a return, but no consideration is extended to the holders of watered stock. As Prof. Hammond puts it:

Railway rates as a whole should just cover the costs as a whole, allowing for a normal return for labor of all sorts and for depreciation, but not for betterments. This would not mean that the superior efficiency in railway management was not entitled to reap the rewards of its superiority in the same way it does in ordinary commercial establishments where competition rules. On the other hand, the rule must not be construed to mean that any investment in a railroad, no matter how foolishly or recklessly made, is entitled to exact high rates from persons or industries along the line in order to earn current interest rates or dividends. Railway property is not more sacred than other property, nor are railway interests immune from the consequences of their own acts.

Tested by the foregoing statement, the demand for equality of treatment by western shippers seems unanswerable. And the same principle, if applied to the railways of Canada, would do away with much irrelevant discussion concerning the wealth and capitalization of various railway companies. The man who hires a carriage expects to pay a reasonable price for the service, and neither more nor less because of the financial situation of the man or corporation operating the same. Extortionate rates cannot be justified by watering stock; the cost of the service is the true test. What this cost really is would soon be determined if there were any real competition between railway companies.

**"CORNERS" ARE PUNISHABLE.**  
In a decision rendered on Monday last the supreme court of the United States held that a "corner" in cotton or any other merchantable commodity

constitutes a restraint of commerce among the states and violates the provisions of the Sherman Anti-Trust Act, and further, that those responsible for its manipulation render themselves liable to prosecution. The point arose in connection with the indictment in the New York Federal Court of James Patton and his associates in the cotton "corner" of 1909-10. They were accused of "conspiring to run an alleged cotton corner," and this charge has now been held valid and the case sent back to the lower court for trial. The judgment is understood to provide an effective way to stop gambling speculation in commodities and to punish operators who attempt to run pools and deals for the purpose of artificially raising prices. The New York World points out that this decision comes closer to the consumer than any yet delivered and that backed by a militant administration it can become his Magna Charta.

**CLYDE RECORD IN SHIPBUILDING.**  
Even more impressive than the figures showing the volume of the export and import trade of the United Kingdom and now increased by nearly \$600,000,000 and now aggregating well over \$6,000,000,000, is the fact that the tonnage of vessels launched from the Clyde shipbuilding yards alone during 1912 represents more than 60 per cent of the entire output and tonnage of the United States. The tonnage of the 831 vessels launched totaled 642,214, an increase of 11,000 tons on the figures for 1911 and constituting a world record for a single year. Marine engines constructed also establish a record, the total horsepower being 877,125, an increase of 78,000. The year closed with practically every berth occupied and without any indication of a setback to the remarkable prosperity of the industry.

The shareholders are now objecting to war. "What do you know about that?" Will meddlesome militants please begin?

"The Globe" continues to deplore the fact that Galt is a local option city. Sir James keeps Galt dry, and "The Globe" wants it wet.

**THE BANK OF TORONTO**

The north wind is responsible for the floes, as the ice is coming from the north part of the lake.

Shantz v. Clarkson—R. H. Farmer for plaintiff. Motion by defendant for the order changing venue from Berlin to Toronto. Judgment: The motion is dismissed with costs in the cause. Plaintiff must undertake to go to trial in March, with the usual penalty for default in so doing.

**Toronto Furnace Co. v. Allen—Black** (W. M. Hall) for defendants. Motion by defendants on consent for an order dismissing action without costs and pending certificates of lien and his pendens. Order made.

**McGregor v. Horn—S. W. Burns** for defendant. Motion by defendant on consent of plaintiff's solicitor, without costs. Order made.  
**Fatoux v. Superior Construction Co.**—J. I. Grover for plaintiff. Motion by plaintiff for an order shortening time for appearance. Order made shortening time to ten days.

**St. Clair v. State—W. E. Raney, K.C.** for plaintiff. **McG. Young, K.C.** for defendant. Motion by plaintiff for an order requiring defendant to answer to his cross-examination on his pending motion for security for costs. Reserved.  
**Wilson v. London and Lancashire Insurance Co.**—D. I. Grant for plaintiff. **F. McCarthy** for defendant. Motion by plaintiff for an order for commission to take evidence at New Zealand. Order made.

**MacNair v. MacNair—Dyke** (Beatty, S. & U.) for plaintiff. Motion by plaintiff for an order for the issue of a writ for service out of jurisdiction and for service of same and of statement of claim on defendant in the United States in an alimony action. Order made.

**Adams v. Coyle—J. G. Smith** for plaintiff. **H. E. Davis** for defendant. Motion by plaintiff for judgment under C.R. 603. Defendant having taken an order for security for costs, motion enlarged, to be brought up again on 21st inst. notice.  
**Spitzer Bros. v. Union Bank—E. J. Moss** for plaintiff. **D. W. Saunders, K.C.** for defendant. Motion for an order for production by defendant or for examination for discovery before delivery of particulars of statement of claim. Reserved.

**AA&W T. H. and B. Railway Co.—T. H. Peine** for defendants. No one contra. Motion by defendants for an order for security for costs on ground of plaintiff's residence being in Italy. Order made.

**Single Court.**  
Before Meredith, C. J.  
**Porcupine Hecla Mining Co. v. Waters—H. H. Maw** for plaintiffs. **H. E. Rose, K.C.** for defendant. Motion for an order continuing injunction. Enlarged two weeks pending negotiations for settlement. Injunction continued meanwhile.

**Standard Mutual Fire Insurance Co. v. Hudson Bay Insurance Co.—J. E. Bell** for plaintiff. **Motion by defendant for an order continuing injunction against closing store herein. Motion enlarged until 9th inst. Injunction continued meanwhile.**

**Before Latchford, J.**  
**Birnie v. Cox et al.—E. H. White** for plaintiff. Motion by plaintiff for an order restraining the defendants Cox and the water and light commission-ers of the Town of Collingwood from trespassing on or cutting trees on lot 16 on the west side of St. Mary street in the Town of Collingwood. Judgment: restraining order granted, defendants until 10th inst., with liberty to file further material.

**Trial.**  
**Before Middleton, J.**  
**Strong v. London Machine Tool Co.**—J. W. Bain, K.C., and M. L. Gordon for plaintiff. **M. K. Cowan, K.C.** and **T. Hobson, K.C.** for defendants. Actions by an agent to recover commission upon the sale of the assets of the defendant company to the Canada Machinery Corporation. Judgment: I do not think that either plaintiff's or defendants' contention is sound, and that when defendants accepted plaintiff's services as intermediary in promoting the sale he became entitled to receive a commission. The sale he arranged falling thru the defendants' agreement also came to an end, but I think plaintiff is entitled to something because he set on foot the negotiations which ultimately resulted in the transaction actually carried out. I have difficulty in determining the amount that should be recovered, but bearing everything in mind, I think the sum of \$5000 would be fair. There will be judgment for plaintiff for \$5000 and costs, with leave to plaintiff to amend pleadings as he may be advised.

**Copeland v. Wagstaff—F. H. Hellmuth, K.C.** for plaintiff. **R. H. Greer** for defendant. An action to recover commission for sale of land on Queen street, Toronto. Judgment: I think there was here a contractual relationship, and that MacIver was instrumental in bringing about the sale by Wagstaff to Miller, although he had nothing to do with the actual making of the particular contract by which the land was purchased. There will therefore be judgment for the plaintiff for commission at the ordinary rate of two and one-half per cent—\$1125 and interest—from the date of the writ, May 11, 1912, with costs.

**A HERO**  
Upon the platform of the trolley car, a man stands with his arms across his breast, and gazes upward at some scene afar—the envy and the pride of all the rest. A look of triumph wreathes his manly brow; a crushed-in hat slants skyward on his head; but little cares he for such trifles now. He stands and smiles with a pleased and hushed and red. His right hand cuff flaunts full-length from his sleeve; a button's missing from the cuff; the such stuff are our choicest spirits made—men who can at the crucial moment act; who step into the breach, calm, untroubled, and such our city never yet has lacked. He gave no thought to all the risk he ran to clothes, to temper and to dignity, and thus he showed the hero in the man; he rose to heights unknown to you and me. We too were with him when the crisis came, with all its sudden unexpected jar: aye, you and I had equal chance of fame as we touched shoulders with him on the car. Yet alone of all who were met stood ready as the implement of fate; with eager haste and fearless stern and yet he did his task without a second's waiting. His steady eye with just a fleeting glance took in at once that something must be wrong; with one wild leap he seized the passing chance and held it with a purpose true and strong. We well may envy men of such a kind. "What did he do?" we hear someone enquire. Oh, gentle reader, surely you are blind! He put the trolley-pole back on the wire.

**SIX MORE DEATHS TODAY**  
Consumption the Cause  
Six people die every day in Ontario from tuberculosis—at the rate of one person every four hours—a total of over 2300 deaths every year—equivalent to the wiping out and loss to the community of a good-sized town.  
An appalling loss of life. The dreadful pity is that this continual sacrifice is quite unnecessary. These lives, or most of them, might be saved.  
Pioneer work in the crusade against consumption has been done by the National Sanitarium Association. The hospitals at Muskoka and Weston are today standing evidence of the magnificent achievements of the association.  
One branch of the association work—a free illustrated lecture with one hundred lantern views—was delivered by Mr. J. B. Watson, the field secretary of the association. This lecture will be given on Monday evening, 13th inst., at 8 o'clock in Y.M.C.A. Hall, East Toronto. A collection will be taken at the close.  
The amount of information which Mr. Watson was able to convey to his hearers in a short time was marvelous. His style of delivery was excellent. Those who heard Mr. Watson's lecture were interested, informed and pleased.  
The wonderful lecturer gave most valuable information in a manner most thoroughly interesting.  
"Admirably practical and instructive."  
"A speaker of unusual ability."  
"A most thrilling lecturer."  
Such is the chorus of praise, with-out any note of dissent, which has greeted Mr. Watson's lecture during the past eighteen months.  
Parents especially should know how to protect themselves and their children. Every private individual—man, woman and child—is in danger and should know how to combat it.  
It is not too much to say that this lecture has been the means of saving many lives. It answers questions everybody is anxious to know. It is simplicity itself—a child can understand.  
To attend such a lecture is a privilege. We heartily commend it to our readers.

**RECORD WARSHIP BUILDING**  
Great Stir in British Yards This Year.  
NEW YORK, Jan. 3.—(Can. Press.)—A London cable says: The present year will see a new record in British warship building. The naval dockyard and great shipbuilding firms have already twelve battleships and battle cruisers in hand for the navy, apart from vessels nearly completed. In addition there are six battleships or battle cruisers building in England for foreign powers.  
If ten new British ships are ordered this year, as is expected, there will be twenty-eight armored ships of the largest size building in this country, with a displacement of over 650,000 tons.

TIME MINISTER'S SALARY WENT UP Christian Guardian Wonders Whether Any Rural Methodist Preachers Get Over One Thousand a Year.

In its latest issue The Christian Guardian gives some very interesting figures regarding the average income accruing to the owner of a 100-acre farm in Ontario...

What is the average income of a 100-acre dairy farm in Ontario? Messrs. A. E. Gracy and T. F. Boyes of the Western Ontario Dairy Institution staff have lately been engaged in taking a dairy census of the township of Dorchester in Middlesex County...

With the exception, possibly, of a ton or so of shorts produced for feed. Even these figures do not show farming to be very profitable if we take into account the value of the capital invested, which would amount to \$100 an acre. Of course, there are also other items of income, such as poultry and eggs, horses, beef, fruit and garden produce, which all have a very definite market value. And then, of course, the farmer lives rent free on his own farm, and he has no other expenses...

TORONTO'S ANNUAL TITANIC DISASTER

More Than Nineteen Hundred Preventable Deaths Here Last Year, Says Dr. Hastings.

OPEN WINDOWS GOSPEL Health Officer Hopes to Make Toronto the Ideal Sanitary City of the Continent.

Last year a total Toronto death list of over 1700 cases from communicable and preventable disease is on record, stated Dr. Hastings yesterday afternoon, in an address to the medical health department staff. He described the Titanic horror, with all its appalling details, but of the real cause that a greater loss of life occurs yearly in this city than entailed by that awful marine catastrophe.

One of the most potent influences was to preach the gospel of the open window in every bedroom. It was a great delusion that night air was less healthy than the daily air. In some districts the erroneous idea arose from the fact that the poison-carrying insects were most active at night. Residents of such districts went out of doors with muslin wraps over their mouths to keep out the poisonous air, but left the rest of their faces exposed to the bite of the venomous insects.

SECOND ENGINE TO JUMP TRACKS

Part of C. P. R. Train Derailed Near Don Station and Traffic Was Held Up.

For the second time since the beginning of the year, railway traffic in Toronto over the Canadian Pacific railway has been held up by the derailment of a C. P. R. engine. On Thursday night this was due to a derailment near Bay street, and the traffic into the Union Station from the east was held up for nearly two hours. This record has been exceeded by the derailment of No. 33 passenger train from Ottawa just north of the Don station, 7.35 a.m. yesterday.

AN ARTISTIC CALENDAR

From Mr. Robert Lovell, special representative in Toronto of the North American Life Assurance Co., The World has received a very striking calendar for the year now under way. Mylius Is Debarred From the United States Until More Information Is Obtained.

WASHINGTON, Jan. 8.—(Can. Press).—The appeal for admission to the United States of Edward F. Mylius, threatened with deportation at New York because he was convicted in London of criminally libeling King George, will not be decided by Secretary Nagel of the department of commerce and labor, until he has heard Edward Holton James, editor of The Liberator of Paris, in which the alleged libelous story was published. Mr. James is on the steamer Le Provence, due in New York Jan. 11. He asked Commissioner of Immigration Williams at New York by cable from Paris to delay final disposition of the case until he could present his mouth to keep out the poisonous air, but left the rest of their faces exposed to the bite of the venomous insects.

## THE DAILY HINT FROM PARIS

Lady Gibson will receive at Government House this afternoon from 4.30 to 6 o'clock.

The officers of the Toronto Garrison have sent out cards for the games of the Officers' Indoor Baseball League for the season, beginning on Saturday evening, Jan. 11, in the armouries, at 8 and 8.30 o'clock.

Clara Butt and Kennerley Rumford are giving a concert in Massey Hall this evening, when His Honor the Lieutenant-Governor and a party from Government House will be present.

St. Paul's Church was the scene of a quiet wedding at 4 o'clock yesterday, the marriage being solemnized by Marie Georgina, daughter of Mr. and Mrs. George Eyre, to Mr. Percy Frederick Millman, second son of Mr. and Mrs. William Millman. The ceremony was performed by the rector, Archdeacon Cady. Mr. Palmer presided at the organ. The church was prettily decorated with palms, Madonnas lilies and carnations. The charming dark-eyed bride, who was given away by her father, wore an exceedingly smart traveling suit of petunia shaded chiffon velvet and hat to match with bird of paradise and black and white furs. She carried a bouquet of white roses and a bracelet of diamonds. She was attended by her cousin, Miss Marjorie Murray, who wore a black and white dress and a black and white hat. The bridesmaids wore black and white dresses and black and white hats. The groom wore a black and white suit and a black and white hat. The wedding was a quiet affair, and the guests were few.

The Ways of Mothers

A mother had given up all hope of teaching her little son to be tidy around the house; of putting things where they belonged after using them. Punishment seemed merely to arouse a spirit of stubbornness, and the matter troubled the mother very much.

One evening she read a story of a little boy brought up among soldiers, to whom military discipline was administered even in the most trivial matters. An idea came to the mother that probably this military idea would appeal to her little son. So she told him stories of the discipline as carried out in details of neatness around the "quarters." Gradually she awoke a keen interest in the minor matters of army discipline, and the boy became an ardent "recruit," that is, he took the conception of soldierly standard of duty. So that by suggestion and play the mother accomplished what punishment failed to do.

It is a pity that more mothers do not see the value of this simpler and more effective kind of training. Children love to follow suggestions, especially if the idea seems to originate in themselves, and this method of training is most satisfactory.

There is a "yanking" mother who has a good deal to answer for. Watch her put a toddling youngster on or off a street car. It never seems to occur to this woman to stoop and put her hands under his arms and lift the boy hold on his little hand and swing him down, or "yank" him up.

The silliness of a young child's tendons and muscles is little considered by the "yanking" mother, and if this child gets to be an adult, with a shoulder higher than the other, or a crooked back, or a displaced spinal column, it is this mother who grievously wonders why.

If such a person were pulled up a few steps in the fashion she herself employs to do her errands, she would perhaps she could be brought to realize why.

## FAMOUS CONTRALTO "WIDOW BY PROXY" WILL SING TONIGHT AND "READY MONEY"

Mme. Clara Butt, an Extraordinary Vocalist, Will Give a Concert at Massey Hall.

A TALENTED SOPRANO VICTOR MOORE, SHEA'S Former "Kid Burns" in Cohan Comedy in Vaudeville Two Good Burlesque Bills.

Clara Butt, unquestionably the greatest contralto in the world, sings at Massey Hall tonight, and as she is en route for Australia, this is the only opportunity the people of Toronto will have of hearing her. She has not been heard in this city since she achieved her enormous fame in London, where she has not been since she achieved her enormous fame in London, where she has not been since she achieved her enormous fame in London.

## YOUNG MAN FROZEN RECOVERY DOUBTFUL

BROCKVILLE, Jan. 8.—(Special.)—William Elliott, Grenadier Island, was found badly frozen today by Abel Root of Tar Island, and at latest accounts the young man was still unconscious and in a very precarious condition.

Elliott left Larus's Mills last evening in a skiff to row to his home, about a quarter of a mile distant. In the storm and buffeted by a stiff east wind, he was carried up the river and finally washed ashore near the home of Root, where he was found at daylight, almost dead from exposure. He had lapsed into unconsciousness as a result of his terrible experience. His recovery is doubtful.

## SERGE AND SATIN.

Blue serge and black satin combined in this way have an entirely new effect. The serge is used for the greater part of the costume, with facings and cuffs of the satin.

A fancy copper-colored gold buckle furnished the motif for an artistic color arrangement. The brightest shade in the buckle is matched in velvet, which is used for the vest and a piping around the black enameled leather belt. Copper-colored linen floss was used for the embroidered scallops on the white linen collar.

## Seasonable Recipes

**Split Pea Soup.**—One cupful of split peas, 8 cupfuls cold water, 2 cupfuls of milk, 2 tablespoonfuls of butter, 2 tablespoonfuls flour, 1 small onion, salt, pepper, and a dash of celery salt. Soak the peas in plenty of cold water over night. In the morning pour off the water and add a quart of water with two quarts of cold water, a two-inch cube of salt pork, and the onion sliced. Cook slowly until the peas have become tender. Pick over the peas, wash from the bottom to prevent burning. It will probably require four or five hours to cook them properly. Line the pot with a cloth. Return to the kettle and let them boil again. Beat the butter and flour to a cream, and after thinning it with a little of the boiling soup stir the mixture into the soup. Season with salt and pepper. Add the milk, and when the soup boils up.

## Seasonable Recipes

**Veal and Ham Pie.**—One pound of veal, free from gristle and bone, cut into small pieces about 1 1/2 inches long and 3/4 inch thick; season with pepper and salt, and stew very gently in stock (meat or vegetable stock, or water, will do), with a sliced onion, a bunch of herbs, some celery, or celery leaves, in a muslin bag, two cloves, a little grated lemon peel and four peppercorns for about one hour. Remove the fat and arrange the meat, two sliced hard-boiled eggs, a little parsley, julienne strips of carrot, and a few anchovies and four ounces of parboiled macaroni. Strain some of the stock in which the meat was cooked into the pie and add a little more stock. Line the edge of the pie dish with paste, and cover with paste, trim and ornament. Brush with beaten up yolk of egg and bake for three-quarters of an hour. Just before the pie is ready, remove the centre ornament and pour in the remainder of the strained stock which has been boiled up. Replace and make quite hot.

## National Chorus Seat Sale.

Seats go on sale at Massey Hall on Saturday morning for the Friday night concert given by the National Chorus of Toronto, assisted by the New York Symphony Orchestra, on Monday evening next week. Spencer Jones of New York, representative of Walter Damrosch, who is pleased with the music in which the National Chorus has been playing, stated that Mr. Damrosch was looking forward to the Toronto engagement with much anticipation, and promised that the orchestra could be depended upon to give a first-class performance. The concert was also being awaited with much interest across the Atlantic, and was probably the biggest event of the year. As an instance of the honor in which the concert was looked upon, he said that the Choral Society of Niagara Falls, N.Y., had been invited to come in from their own towns along the border.

After the Report had been read, the President addressed the meeting, as follows: 'GENTLEMEN: Before moving the adoption of the Report, which has just been read, I desire to make a few remarks, extending to some extent upon the topics suggested in the Report...

The Report has never been read, and financial disturbance has been general. Germany has been under financial strain for more than a year past; Italy engaged in a war that has drawn heavily upon her resources...

In the United States there seems to have been an improvement in conditions throughout the year, and a marked increase in development. In Canada the returns from the Department of Trade and Commerce show a very large increase over any previous year...

When it is considered that what has taken place in Toronto is going on throughout the whole Dominion, and especially in the western part of it, it is not to be wondered at that there has been rapid growth, increased expenditure and a corresponding necessity for a large sum of money to provide for the same...

900,000. This money has been obtained by our governments, municipalities, railways, industrial establishments, land and public utilities companies...

In consequence of the unsettled condition of affairs in Europe and the demands made upon loanable capital from every source, there is manifested an unwillingness and an inability to make loans at present...

The advances and bills discounted of this Bank show an increase for the year of over \$4,700,000. These are all made in Canada, and the large increase shows that we have tried to meet the requirements of customers which their expanding trade...

Deposits—I should, perhaps, comment on the fact that the total deposits appearing in the statement show but a moderate increase over last year. At the time of our last Annual Meeting the amount of deposits was \$100,000,000...

Bad and Doubtful Debts.—The usual careful examination of all loans and investments has been made, and full provision has been made for every regard as doubtful. In times like the present, when there is great prosperity, the losses are usually much below the average...

Branch Banks.—The number of our branches has been increased by 16, largely in the Western provinces. The new branches are not in all cases immediately profitable, but in a short time they become so, and they add to the Bank's ability to serve the public...

BIG RAILWAY STRIKE STILL OVERHANGING

Railroads Refuse to Arbitrate Under Erdman Act and a Strike Vote May Be Taken.

NEW YORK, Jan. 8.—(Can. Press.)—To arbitrate or to take a strike vote was the alternative tonight confronting the representatives of 24,000 firemen on 80 eastern railroads.

First, to meet with the firemen's representatives and appoint an arbitration committee of seven.

Second, to follow the precedent set in the case of the Brotherhood of Locomotive Engineers and refer the demands to a tribunal of seven men, each to be appointed by the parties concerned, and the other five to be named by the federal labor commissioner.

SHEEP AND LAMBS ARE IN DEMAND

Trade Good at Union Stock Yards—All Stock Firm—Sheep and Lambs Higher.

The Union Stock Yards reported receipts yesterday of 23 cars, consisting of 845 calves, 93 lambs, 1665 hogs and 389 sheep and lambs.

The market was not surprised with the best of cattle, and the offerings of well-fed steers, advanced over yesterday.

Stocks and Feeders The supply of these was light, and all offered were picked up at ready prices, varying from \$4.75 to \$5.50.

Good calves had a ready market up to \$10 a head, but the range of prices was as low as \$6.

Sheep and Lambs The demand for sheep and lambs was again keen and prices advanced over Tuesday by about another 25c a cwt.

Hogs The demand for hogs was practically unchanged, at \$8.75 for red and spotted, and \$8.50 for black.

PORT WILLIAM, Jan. 8.—(Can. Press.)—Ready with the first breaking of ice in Thunder Bay and Lake Superior to steam out of the harbor to their destinations, sixty vessels are tied up at the elevators in Port William, with 1,000,000 bushels of grain in their holds.

QUIET DAY AT CHICAGO PRICE RANGES NARROW

Wheat Quotations Almost at a Standstill in Absence of Significant News—Corn Lower.

CHICAGO, Jan. 8.—Three-eighths of a cent covered the fluctuations of dull grain markets to-day, closing prices being without material change from yesterday. Provisions were slightly more active, and prices moderately higher.

There being no news of importance affecting the wheat market, that pit was left largely to the whims of professional traders, who played boue et noir with it, moving from bull to bear and from bear to bull with great agility, and almost no purpose. Receipts were curtailed by the cold weather and snow, which, incidentally, was reported to provide a sufficient cover for the fall-sown crop.

The corn story was that of wheat retold. Handlers of the spot article were unexcited, and stagnation resulted. Prices were a shade down at the close, but the undertone was firm.

Provisions were slightly easier. Cash traders hedged a bit, selling May, which, however, went to local traders. Provision firms and active on a small run of hogs and a sharp commission house demand. Receipts at the yards were curtailed by the storm. One thousand tierces of lard and 50,000 pounds of ribs were delivered on January contracts.

European Markets. The Liverpool market closed unchanged to 1/4 down on wheat, and 1/4 to 1/2 lower on corn. Paris wheat closed 1/4 to 1/2 lower.

Primaries. Wheat—Year ago 249,000. Shipments 226,000. Corn—Receipts 1,467,000. Shipments 941,000. Oats—Receipts 905,000. Shipments 384,000.

Broomhall's Cables. Argentina—There is much difficulty being experienced in making contracts for Plate wheat, and thus sales are hindered, as bottoms are scarce and dear.

Brokers' Wires Down. Owing to the storm across the border, communication with Chicago was interrupted on the grain markets were not complete.
