Disposed of.

At yesterday afternoon's meeting of the governors of Toronto University the tangle in which the matter of the German professors was left was partially smoothed out. Mr. Tapper, of the department of German, solved the difficulty which existed in his case by resigning. Prof. Mueller stated that he had arranged with Prof. Swedelius of McMaster University to assume his work for the university in addition to his lectures at McMaster. Prof Muel-ler will pay Prof. Swedelius for this work. As to Dr. Benginger, of the department of orientals, a settlement has not yet been reached. President Fal-coner stated that an effort would be made to have an exchange effected with one of the American universities, but the attitude of the government toward allowing him to leave the country will have to be learned before such a move is made.

Loath to Talk. Several of the members of the board were questioned by The World before any information about the deeting could be secured. None were filling to give details. Sir Edmund Valker stated that "the old subject Walker stated that "the old subject was not brought up and wasn't even ntioned at the meeting." He said it they had "just had a little fun, nd that nothing besides the regular

He will not be under salary but will make private arrangements with Prof. Muel-With the president's sanction the two professors will exchange work until the difficulty passes over. Mc-Master University has consented to the arrangement.
President Falconer stated that

nothing definite had yet been arrived at with reference to Dr. Benzinger. here was hope, he admitted, of effecting an exchange with one of the rican universities. Those present at yesterday's meet-Ing were: Sir Edmund Walker. Z. A. Lash, Sir William Meredith, Daniel Miller. Judge Snider, D. B. McDonald, Dr. J. A. Macdonald, Hon H. J. Kelly. W. McMaster Board Met. At the meeting of the McMaster Iniversity board of governors last night permission was given to Prof. wedelius to take certain classes, at cronto University, following out a private arrangement between him and Prof. Mueller of Toronto Univery. Chairman D. E. Thomson of the Master board told The World that Prof. Swedelius was the professor of French at McMaster, but that he was competent linguist and was able to tive instruction in German, Italian and Spanish as well.

The lectures which he will give at Toronto University will amount to six hours a week.

German Submarines Tried To Enter Harbor of Dover

Under Cover of Darkness and in Heavy Rainstorm Half a Dozen Host le Ships Made an Attack But Were Driven Of and Some Were Sunk.

Sity Help President Out of His Dilemma

LONDON, Dec. 11, 12.32 a.m.—Half a dozen German submarines made an attempt at 6.30 o'clock Thursday morning to enter the admiralty harbor, according to a Dover despatch to the Exchange Telegraph Co., and for half an hour the batteries kept up a furious fusillade, firing at least 200 shots. It is reported that two or three of the submarines were sunk, but no confirmation of this can be obtained.

The attempt was made under cover of early morning darkness and during a heavy rainstorm. The first alarm, says the despatch, was given by the firing of a naval gun, and soon all the batteries were in action.

The admiralty, to whom this despatch was submitted, said that it had not received confirmation of the reported attack.

NURNBERG THIRD-CLASS CRUISER.

The Nurnberg was a third-class cruiser of 3396 tons displacement, 54 1-4 feet in length, 43 1-2 feet beam, and a draught of 15 3-4 feet. Built and completed at Kiel in 1908, she had engines of 13,200 h.p., and her twin screws propelled her at the rate of 23 1-2 knots, or about 25 miles an hour. Her armament consisted of ten 4.1 inch guns, eight 2.1 inch quick firers and four machine guns, together with a couple of submerged torpedo tubes. She had a coal capacity of 850 tons and a complement of 295 men.

There is not the slightest doubt here but that Vice-Admiral Sturded the British commander, has with him first-class ships, battle cruisers a least. These vessels have the weight of gun and also the speed sufficien to overwhelm the light German cruisers either in a stand-up engagement of in a running fight. It is believed that he has no less than a division of these vessels, together with the lighter cruisers, which have been for some time in the Atlantic.

It was expected here that the Dresden and Leipzig would try to make a run for the nearest port, Buenos Ayres or Montevideo. Only darkness, it was believed, enabled them to escape their pursuers on the day of the

first engagement. REASONS FOR RETICENCE.

The withholding of the names of the British ships engaged is perfectly understood here. It is explained that the British admiralty desires to prevent the Germans from learning which important ships have been withdrawn from the battle fleet in the North Sea. It is also desired by the British that the two remaining German cruisers at large remain in ignorance of the strength of the enemy in their vicinity.

The sending of an overwhelming force against the German cruiser squadron is commended as precisely the move required of Great Britain. The only mistake, it is declared, was in not sending it earlier, and thus revise Creddock from disaster off Chile. REASONS FOR RETICENCE.

INSURE MINIMUM LOSS. It is pointed out that the advantage of having, as have the British, an overwhelming preponderance of ships, is to use them on such terms that they will never be compelled to face the enemy on equal terms, thus insuring the minimum of loss to the British.

MAKE PRISONERS CLEAR NORTH ONTARIO LAND

Provincial Government is Establishing Experimental Farm in the Clay Belt.

As the result of negotiations between the federal and Ontario governments, a large experimental farm will be established at a point on the National Transcontinental Railway in morthern Ontario. The exact location is not yet decided upon, but this morning a representative from the agriculture department at Ottawa will discuss the matter with J. F. Whitson, provincial commissioner for New Onprovincial commissioner for New Ontario. It is believed that the location will be in the neighborhood of Hearst. Premier Hearst stated last evening that the establishment of this farm ing.

had been urged upon the federal authorities as part of a development and settlement project for the lands tributary to the railway. The federal government has at the present time a large number of prisoners of war and arrangements are being made to set these at work on the new farm, clearing up the land for cultivation in the spring. Some will go from Kingston next week, and others from Port Arthur and other points later on.

BANQUET LT.-COL. ALLAN SOME CRITICISM OF Lieut.-Col. J. A. W. Allan, mayor of Lieut.-Col. J. A. W. Allan, mayor of Newmarket, who will leave for the front with the second contingent, was tendered a banquet by the citizens of Newmarket in the King George Hotel Wednesday evening. About a hundred guests were present, including Mrs. J. A. W. Ailan and Cameron Allan, J. A. M. Armstrong, M.P. for North York; Major Wayling and Mrs. Wayling of Toronto; Col. Wayling and Mrs. Wayling of Toronto; Col. Wayling and Mrs. Wayling of Toronto; Col. Wayling of Sharon, and Major Nicholls.

Interesting speeches were made in proposing and responding to the various toasts by J. A. M. Armstrong, M.P.; J. M. Walton of Aurora, W. C. Widdifield, Rev. T. G. McGonigle, Rev. Father Wedlock, Rev. H. F. Thomas, J. D. McKay and others:

Premier Massey Replied That Brit-ish Admiralty Directed All Operations.

Canadian Press Despatch.

SYDNEY, N.S.W., Dec. 10.—Some discussion has taken place both here and in New Zealand, regarding the escape of the Scharnhorst and the Gneialton of Aurora, W. C. Widdifield, senau in the early stages of the War. It has been suggested that activities were diverted from attempts to capture these and other German vessels in the Pacific, with a yiew to seizing Samoa and other German possessions, which could have been captured at any time.

Premier Massey of New Zealand, and Defence Minister Allen both say, which is of course a fact, that the whole operations were under the con-trol of the admiralty. They add that, while not wishing to depreciate the value of the services of the Austra-lian navy, the New Zealand Govern-ment did not attempt to expedite in any way the seizure of Apia.

PUBLIC LIBRARY SENDS

BOOKS TO SOLDIERS AT EX. The public library has been early on the ground to help the soldiers to pass the hours. Already there have been sent four cases to the barracks and the Exhibition Grounds, one case to the guard at the waterworks, one case to the German prisoners and some special books of a "mechanical nature" for the better educated of the prisoners. Still more are being collected, but the usual autumn shipment to Dr. Grenfell of Labrador somewhat de-

pleted the stock on hand.

For some time the public library has been assisting Dr. Grenfell by supplying books for the sailors of the Labrador coast. These are loaned in lots of about 20 to each vessel and exchanged on the home voyage.

He is survived by a wife and two children.

BROCKVILLE, Ont.; Dec. 10.—Pte. Charles McGregor, of the infantry of the second Canadian contingent, mobilized at Kingston, came to Brockville without leave of absence for the purpose of being married. He secured a marriage license and the ring and everything was in readiness for the ceremony when the Kingston military authorities telegraphed the local police to place McGregor under arrest. This they did a few hours before McGregor expected to be wedded. He was taken back to Kingston under a military escort. The wedding has been postponed indefinitely.

Only One Per Cent. of the Men Have Been Ill

The auditorium of the Humberside Collegiate was well filled last night at the lecture on "The Case For Great Britain" by R. Hodder Williams, B.A. (Oxon). The address was eloquent and instructive and the facts leading up to England's participation in the war were clearly set torth by the speaker. The lecture was given under the auspices of the Runnymode Travel Club and the proceeds reaused fremvoluntary contribution will be devoted to the purchase of material for patriotics. Tonight's meeting of the Ward Seven Ratepayers' Association should prove an extremely interesting and timely one for west end citizens. Civic markets have long been agitated for in West Toronto and the feeling for them is, in these times, stronger than ever. Free discussion will be welcomed and a large mass of information on the subject has been secured by the secretary, who will place it before the ratepayers tonight. It is felt that an ideal spot for a market, not meessarily a pretentious structure, but merely a temporary shelter, is to be found in West Toronto near the termind of no less than seven radial lines and two rallways.

Canadian Laundries for the Unemployed

Cities must create work—snow shovelling, anything to provide relief for the unemployed in the winter. Toronto will do it again this year; and yet, right at hand there is work for more than four thousand unemployed men and women-clean work in clean Canadian Laundries, at fair living wages and fair hours. All the white laundries need is more business -then, more employes to do the increased work will become a NECESSITY.

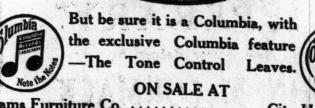

Chinamen are the only obstacle. They are privileged people. They pay \$500 head-tax and enter into the laundry business in Canada under conditions that make competition impossible, making profits that repay this head-tax in a few months.

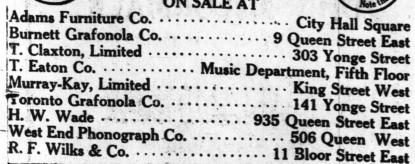

Chinese prices are less than Canadian prices, and will continue to be so while Chinese are exempt from factory laws, and work their employes (and themselves) day and night, but anyone who has tried both kinds will tell you the service of Canadian laundries is much superior.

Without employment the Canadian suffers in his own country. Give the Chinaman's good living to white people and the Chinaman won't suffer—he will go elsewhere. See that YOUR next parcel goes to a CANADIAN Laundry.

At Osgoode Hall yesterday the Mile Candy Company were awarded \$4557.4 damages for loss of a shipment of 220,000 pounds of sugar from Browns, Litd. The sillo Company purchased the candy business of Browns, Limited, at 460-2 Wilton avenue, Toronto, which company had on Jan. 28, made a contract with the Dominion Sugar Co. for the purchase of 390,000 of sugar at \$3.95 per cwt. At the authoreak of war sugar advanced considerably in price, and Browns claimed that the contract with the Dominion Sugar Company was not included in the agreement to purchase. The price and scarcity of sugar had such a serious effect on their former candy business that Browns, Ltd. tosumed possession from the Milo Co., and the plaintiffs suffered, it is alleged, considerable loss in consequence.

RIDAY MORNING, DECEMBER 11.

Settle the Viaduct Contract Now. It is only necessary for the aldermen to read over the report of the oner of works for them to see quite clearly the impossibility of any man with business sense or an idea of his responsibility to the citizens, put in for the construction of the Bloor street viaduct. The more the tation did. He would at least have report is studied the less intelligible it is that they should have been seriously offered to the city. After all that has been said, not to speak of crete in the abstract, this is a surprising showing, but it fully justifies the stand taken by the commissioner from the beginning of his handling of

conditions, but not one of the five who tendered for concrete plans has had the confidence in his work to offer a guarantee of its stability. This ought to be sufficient. But the destructive criticisms to which the engineers have subjected the plans place them altogether outside consideration.

contractor would "do his best to comply with the conditions," submits a single drawing, the information furnished with which is utterly inadeto make stress calculations Another makes no reference to the highly important item of the disposal of fill. The piers on this plan would rest upon the shale, while the walls would rest upon clay, which would be bound to produce fracture. A lengthy analysis of this design ends with the statement that it does not fulfil the requirements of the Ontario

Railway Board. Another similar design appears to be based on the assumption that solid rock could be got as a foundation by going twenty feet deeper than other Don Valley foundations. There is no rock for 200 feet down, and, as the commissioner remarks of the tenderer, Board. In the event of the collapse of a single span, the whole structure would fall to pieces and the city would

To throw the matter over into the new year and the hands of a new council will only cause unnecessary delay, and a probable reopening of the subject, which has been threshed out ad nauseam. This would mean another long period in which the council would have its attention taken up with a question which has been fully considered by the present council, and which the aldermen are

quite prepared to settle at once. Any obstructionists who may desire further delay can only be the agents of interested outsiders, who are not considering what is best for the citizens as a whole, and least of all the east enders. It will be something at least to the credit of this year's council if they put the work in hand and provide as soon as possible the labor it will afford to the unemployed.

The Case for Britain.

While the British peoples are firmly convinced that they are at war in a just and righteous cause, it must not be forgotten that the enemy is as insidious in argument as ue is formidare in the field. His agents are busily occupied in all neutral countries striving to influence public opinion in favor of the German side of the case. Hithertouthey have failed in that effort, but they are none the less perstent, particularly in the United States, the one great western power not directly involved in the conflict Their activity clearly reveals the anxiety of the German Government to an ticipate the verdict of history by that of the leading neutral nations. It would be a pity if Mr. Hearst had to spend several years in office discover this fact too late.

He would do well to get in touch with public sentiment in this movement, and as far as possible live dow the prejudice which the governmen has quite unnecessarily created against itself among active women politicians.

In the last result, British opinion may well prove to be the de-ciding factor in this great struggle. Given steadfast and unwavering forti-tude on the part of the whole British people, we believe the victory will be ours. But, come what may, there must be no weakening, no wavering, no patched-up truce that would expose our children to a revival of the Ger-man menace, probably in circum-

But whilst this educational work has been carried on strenuously in certain parts of the country, there are other districts where little or nothing has been done. The extension of the work to every district of the United Kingom is important and urgent, and the central committee was therefore brought into being by means of volun-tary effort to assist, unify, and supple-ment the work of all organizations la-

boring for this end. Equally important is the task of laying before neutral countries a clea statement of the British case; for the moral weight of neutral opinion will exert an ever-increasing influence on the issues of the conflict. Germany with that thoroness which characterizes all her undertakings, is making strenuous efforts to influence the opinion of the world in her favor. It is imperative that immediate steps should be taken to present the full evidence on which our case rests in or-

THE DUTY OF CANADA.

The cheapness of materials at this time assures a saving in the cost of public works which should wholly offset the higher interest rates that must now be paid for borrowed money. I is believed that first-class municipa securities can be floated either in New York or at home. Tomorrow's meeting of council should result in the early award of contracts for a steel viaduct across the Don from the eastern end of Bloor street. Necessary public school buildings and enlargements and other public works should be got under way immediately.—Toronto News.

But, come what may, there must be no weakening, no wavering, no patched-up truce that would expose our children to a revival of the German menace, probably in circumstances far more terrible for the empire than those which face us today.

In view of its vital and fundamental importance, it is plam that this great driving-power of public opinion must not be left to shift and vary as temperament and the changing fortunes of war may dictate. Board of Education Makes Important Suggestion to Controllers

MAYOR HAS A SCHEME

Thinks Province Should Look After Unfortunates Instead of City.

A delegation from the board of education waited on the board of control yesterday and laid down an extensive scheme, which if worked out would cost nearly half a million, for the municipal care of mentally defectives. The board approved of the principle and will send it on to council at its next meeting. Dr. Comboy, speaking for the members of the board of education, said that in the view of the department it would be necessary to purchase a few hundred acres of farm property and erect thereon buildings

department it would be necessary to purchase a few hundred acres of farm property and erect thereon buildings for the defectives, the farm to be made practically self-supporting.

"We are not asking for the money as yet," said the doctor, "but feel the question of such importance that we must get a start and therefore ask the board to approve the principle before going any further into the scheme.

The mayor thought it a matter for the provincial government and declared that as long as the municipality undertook to provide for provincial expenditures the government awould let it go ahead.

A Hint to Hearst.

The Visduct Question.

But a single issue will be before the council at its special meeting today, and that is the question of whether the Bloor street viaduct shall be built of steel or concrete. The report of the works commissioner to the board of control recommends the accepting of the tender of Quinlan & Robertson of Monireal, for steel construction. Were Left in Winnipeg,

Say Police. On the request of a private citizen in Winnipeg, Mayer Kelner and Mary Cohen, of 10 Armory street, were arrested by Detectives Newton and Mc-Connell last night on charges of vag-rancy. It is alleged by the police that Kelner, leaving a wife and six children in Winnipeg came to Toronto, bringing Mary Cohen with him.

Mary Cohen was at one time a familiar figure on Toronto's downtown streets. She sat about the corners of

the main therefare playing a hand or-gan, the proceeds of which helped to support Kelner and his family in Winnipeg. It was stated by the police last night that Mary Cohen represented that she was a cripple. She wore dark glasses, it is said, in an endeavor to make benevolent people think she was blind. When she was asked in the de-tective office to remove the glasses she protested. Her eyes were all right, cording to the detectives. Kelner, with Mary Cohen and his wife and family left New York City, where they are said to have lived by

the same hand-organ method, and went to Winnipeg. When arrested by Detective Newton Mary Cohen had been sitting at the corner of Church and Queen streets, and during a few minutes she had collected forty-five cents. When she was searched a bag was found tied around her waist which contained \$9.11, part of which amount was made up of 136 one-cent pieces. Kelner is an Austrian and Cohen is a Russian.

LANDLADY COMPLAINED. Acting Detective Young arrested Joseph Morgan, no home, last night on a charge of false pretences. It is alleged that he secured board and lodgings from Mrs. Crooks, 558 College street, thru false representation.

Thomas Langton, K.C., son of John Langton, M.P., of the Township of Fenelon, who was for some time vice-chancellor of Toronto University and auditor-general for Canada, died yesterday at his home in this city He was born in Fenelon, where his father had taken up land in the early 40's. He was educated at U. C. College and Toronto University, graduating B.A. in 1869 (honors in classics) and M.A. in 1871. He was called to the bar in 1874 and created Q.C. in 1890.

From 1875 to 1878 he was on the commission for the first revision of the statutes, and afterwards entered the firm of Mowat, Maclennan, Downey & Langton, of which he was the head at the time of his death. He was the author of "Holmested & Langton," the well-known book of practice. He was formerly a lieutenant in the Queens Own Rifles. He made himself a master of many studies and held a high place as a botanist and photographer. He married in 1882 Laura, second daughter of Sir Oliver Mowat.

Delignings and farm by the president, G.
C. Creelman. Among those entertained were: Hon. Jas. Duff. Robert Miller, John Bright. Col. Cowan. Frederick Richardson, Wm. Grant, of Regina. Sask. John Gardhouse. C. F. Balley, and W. Bert Roadhouse. These men were also present at the lectures given in the afternoon on "The Opportunities for Live Stock Raising in Ontario."

Ontario Leads in Live Stock.

Hon. Jas. Duff was in the chair and spoke a few words stating that Ontario must be looked up to as the foremost stock-raising province in the country. Robert Miller spoke at some length on the effect of the war in Europe on the horse industry, and also of some of the reasons why business in this direction has fallen off in the last few months. "We expected a great demand for horses from the British war office, as well as to equip the Canadian contingents, but we found that in some mysterious way more horses coming into Toronto than were bred in Canada. It seemed to be quite impossible to find out who was importing them, so the result was that the British Government said, "If we must buy United States horses, let us go to the fountain head," and so they went across the border, there purchasing a more uniform breed of animals than we in Ontario can produce in large numbers, for from \$15 to \$40 less per head than the Ontario farmers were willing to sell for."

An inspiring address was delivered by John Gardhouse of Weston on the outlook for beef cattle, in which he warned the breeder against lowering the standard of his stock by using immature animals for breeding purposes.

W. F. Stephens of Quebec read & paber on dairy conditions, pertaining to the complexitles produced by the regulations and exactions imposed on the dairyman by municipal and provincial legislative bodies.

Dairy Products Must Be Pure.

by municipal and provincial legislative bodies.

Dairy Products Must Be Pure.

The dairyman is the producer of necessary food products; the public is more and more insistent in its demands that these be pure, wholesome and choice. The farmer who aims to produce such products will receive a fair recompense for any extra labor involved.

In referring to the war conditions, Mr. Stephens said: "The war has already destroyed the dairy business of Belgium, and it is reported that in Paris the restaurants can not get milk and cream to supply their tables. If this is true now we may imagine the serious condition that will prevail before the war is over. Who knows but that these countries and even Great Britain, the country that has supplied the world with foundation herds for years, will want dairy cattle to replenish their supplies? If so, Canada can and must do her share in supplying stock from her many choice farms. It is certain that our dairy cattle will be wanted in Europe when the war is over."

CHRISTMAS DINNERS FOR CANADIAN SOLDIERS

Government to Give Special Feed to Forty Thousand Men on Active Service in Country. By a Staff Reporter.

OTTAWA, Dec. 10.—The government has decided to provide a Christmas dinner for every man on active service in Canada. This will include the men of the second contingent and also those who are being recruited for future contingents and reinforcements. There are now over 30,000 men on active service, besides the 8000 on guard duty, so that the government will have at least 40,000 Christmas dinners to provide.

HOCKEY SITUATION NICELY MUDDLED

T. R. & A. A. Now Decide to Play Senior—Pros Have First Workout-Gossip.

The hockey situation gets more muidled every day. With St. Michaels declaring themselves in semor hockey again it has started the hockey clubs into the grandest switching act that has been staged for many a day. An amalgamation of two of the local clubs was announced Wednesday night, the amalgamation was declared void on Thursday morning, and in the afternoon a team that had dropped out of the senior series paid their O.H.A. fees and declared themselves in again. A fine muddle, and on top of this again the players flopped over, back, and over again, all in the space of a few hours.

T.R.C. and T.R. & A.A. were supposed to have got together and agreed upon one big club that would lineup a senior team of the pick of the two clubs. Several T.R. & A.A. players said "nothing doing," and immediately got busy and decided to enter a senior team themselves. A wild scramble for the players resulted, and it ended up last night with Heffernan. Gordon and Harry Meeking and Stevenson turning out as T.R. & A.A. and declaring that they will have a team. Jack Gooch was approached, but declared himself solid for the Argonauts, and there he will stay. Just where it will end is hard to see.

While all this was going on the other

will stay. Just where it will end is hard to see.

While all this was going on the other clubs stood pat, and St. Michaels trotted out four of last year's team for their initial workout. Moody of last year's Varsity senior O.H.A. team was out with the Saints, and several new men will be out within the course of a few days. Dug Addison is out of town, but will be back in time to play for the Irish. Jimmy Dissette, Jerry Laflamme, Dutchy Richardson and Jack McCamus were the players of last year's good team to turn out last night.

The pros have no trouble in their ranks and Jack Marshall had his Torontos out for their first work in the morning. They showed exceptionally good work for the first time out and he will have a good team again. Harry Holmes and Claude Wilson, the two goalers, were very much on the job. The defence is the same as last year, Marshall and Harry Cameron. Carpenter, a good looking boy from Port Arthur, will be a handy man to have around if anything happens to Marshall or Cameron. Andy Kyle, the local boy, was going like a house on fire yesterday morning. He would be a valuable addition to any club. Foyston, Walker and Cully Wilson displayed a lot of pepper. Landrault, from Pembroke, and Malone, from Three Rivers, are two new forwards that want a job. Jack Marks of the Quebec team worked with the blue shirts.

LADDIE CASSELS **IS VARSITY CAPTAIN**

Popular Player Elected by Teammates to Lead Next Season's Squad.

"Hurrah for Laddie Cassels" cried the members of the rugby team of Toronto University when they held their annual meeting to elect the captain for the next year. The election was a simple affair and was soon over, but it was exciting while it lasted. The team trooped into University College immediately after their physiogs had been snapped, and were all attention while the nominations for captain were in order. It was distinctly remembered that Bobbie Sinclair got to his feet and moved that "Laddie" be elected as the captain, but after that all was confusion. The boys' hands were cold, so they thumped on the floor, on the desks and on anything which was within reach. No one remembers who seconded the motion, so the popular conception is that everybody seconded it. Cassels managed to get to his feet and stammered out something about it being a great surprise to him, but the words were not distinctly heard in the general uppoar, and in the clapping which started after the players' hands got warmer. He did promise to do all in his power to keep the team to its present high state of efficiency.

It was evident all season that Cassels would be the choice, as he is one of the most popular players on the team, and will make an excellent captain Charile Gage's "swan song" was short and to the point.

BENEFIT HOCKEY GAME.

BENEFIT HOCKEY GAME.

OTTAWA, Dec. 10.—Edmond Lemay, world's champion speed skater, made his first appearance with the Ottawa hockey squad at tonight's pracice. Lemay showed all kinds of speed and a fair knowledge of stick handling. The Ottawa Club intends to carry Lemay for a while and if he shows signs of improvement he will likely be given a berth on the regular forward line.

Eddie Gerard was the fourth member of the Ottawa squad to sign up. Duford and Darragh have failed to come to terms with he Ottawa Club, and Darragh says that he is thru with the game for good. Fried Lake will likely be purchased from the Ontarios to fill out the defence.

The N.H.A. benefit game announced to take place in Toronto on Dec. 19 between a picked team of Ottawa and Ontario players against the champion Toronto may be switched to Ottawa with the regular Ottawa team playing a team composed of Ottawa players who are playing on other N.H.A. teams. The Ottawa executive is taking the matter up with President Emmett Quinn.

It is d flicult to estimate the value which the stock yards are to the city of Trionto, but as an industrial proposition they are perhaps as valuable from the amount of urnover as any other in the city.

Toronto's First Markst.

It has been a ong way from the first markst es ablished in Toronto for the buying and selling of live stock to the present up-to-date enterprise of the Union Stock Yards in West Toronto. The first record of an actual market in the city, then known as the Town of York, was in October, 1893, when by a proclamation of the then ileutenant-governor Peter Hunter, four and a half acres were set aside near what is now he St. Lawrence Market, as a safe for trading in live stock, as well as general market paragral market paragral market purpose for which it was established but in the year 1823 it was found necessary to increase the area, particularly for the accommodation of the growing importance of the live stock industry. A building was erected for ordinary-market purposes, and lands now occupied by the Toronto Street Railway as a store yard and just east of the St. Lawrence Market, were secured for an actual so ik yard, this being the real beginning in the city of an actual market for live stock transactions.

In 1856, the year following the entrance of the Northern Railway into Toronto, the first carload of cattle arrived at this centre from outside. These cattle were brought in on an arrived at this centre from outside. These cattle were brought in on an arrived at this centre from outside. At the opening of the Union Stock Yards, J. D. Allen was president, Andrew Dodds, secretary-treasurer, and W. W. Hodgson was given the position as general manager of the new Union Stock Yards. The location of the Union Stock Yards is considered to be ideal from many standpoints and is excellently situated in relation to the railways. In 1903 about the quarter of the sheds were destroyed at these yards by fire, and again in 1908 a comfagration destroyed a large part of the buildings. In this year the present manager, J. H. Ashcraft, took charge, and under his administration more than ordinary success has been achieved.

Estate Notices

EXECUTORS' NOTICE.—IN THE MAT-ter of the Estate of Harry Charles Hawker, Late of the City of Toronto, in the County of York, Grocer, Deceas-ed.

NOTICE is hereby given pursuant to the Statutes in that behalf that all persons having claims against the estate of he said deceased who died on or about the 17th day of July, 1914, are required to send a atements of the same together with particulars of the securities, if any, held by them, to Mrs. Annie H. Maycock, 114 Cumberland street, Toronto, C. Thomas J. Madden, 33 North street, Toronto, Executors of the said estate, on or before the 21st day of December, 1914. And further take notice that the said executors will, after the said date, proceed to distribute the assets of the said estate, having regard only to the claims of which they shall then have notice.

Dated at Toronto this 27th day of November, 1914.

URQUHART, URQUHART & PAGE, Solicitors for the Executors.

IN THE MATTER OF THE TRUSTS, Under the Deed of Trust Between Esther Ellenson, as Grantor, and Arthur Freeman Lobb, as Trustec.

Notice is hereby given that under an order of the Supreme Court of Ontario The Trusts and Guarantee Company, Limited, have been substituted for Arthur Freeman Lobb as trustees under a certain deed of trust, dated the 26th day of August, 1913, whereby Esther Ellenson of Toronto, spinster, conveyed certain lands to Arthur Freeman Lobb, upon the trusts named therein, including a frust to pay the creditors of the said Esther Ellenson will be held at the office of The Trusts and Guarantee Company, 45 King street west, Toronto, on Tuesday, the 22nd day of December, 1914, at the hour of 2 o'clock in the afternoon, to receive a statement of affairs, to appoint inspectors, if thought necessary, and for the purposes of the trust generally.

Lienholders and creditors are requested to file their claims, duly verified, with the undersigned before the day of the meeting.

lectice is hereby given that the council of the Corporation of the City of Toronto proposes on the 28th day of December, 1914, or as soon thereafter as it may deem advisable, to pass a Bylaw to repeal Bylaw No. 5761, as amended by Bylaw No. 5875, so far as the same applies to certain lands taken thereby for the widening of St. Clair Avenue, and which are not now required for that purpose.

The proposed Bylaw and plan showing the land to be affected, may be seen at my office in the City Hall.

The Council will hear in person, or by his counsel, solicitor or agent, any person who claims that his land will be prejudicially affected by the said Bylaw, and who applies to be heard.

Canadian Press Despatch.

NEW YORK, Dec. 10.—Continued broadening of the demand for high-grade securities was the conspicuous feature of the general financial situation today, both on the stock exchange and among bankers who rechange and among bankers who re-ported a large number of "over-counter" sales. There were signs of foreign liquidation, presumably for-Germany, but this was taken without strain.

Both bonds and stocks of speculative quality moved irregularly, but the scope of the trading, as well as its extent. was below that of recent active days. In the stock list submitted by the exchange the weakest feature was New York Central, which reflected yesterday's dividend announcement.

Large Cotton Grop. Large Cotton Crop.
Routine news included the Novem-

ber tonnage statement of the U.S. Steel Corporation, which was more favorable than most forecasts and the government cotton report, which es-timated the 1914-15 yield at almost 16,000,000 without linters. Should this promise be fulfilled the crop will be the largest in the history of the country, exceeding the last five-year average by almost 4000 bales. Cotton options broke precipitately on publica-

Bankers were again in conference with representatives of European governments planning the placing of additional credits in this market, but no details concerning these projects were obtainable. Some of the prominent railway and industrial corporations also were said to have new financing London Cheerful.

For the first time in several days reichsmarks failed to show increasing strength, a fact which was associated with the recent defeat of the German leet in the South Atlantic. More likely, however, it was due to a temheerful and the Bank of England statements showed improvement over

WINNIPEG, Dec. 10.—Wheat opened unchanged for May and July and ½c down for December. Oats were ½c higher for December. Oats were ½c higher for December and unchanged for May. Flax was ½c lower for May and unchanged for December.

Trading was active in options at first, but later rumors of the death of Kalser William caused a slump.

Prices regalned previous figures on receipt of a denial of this story. Wheat closed ½c to ½c lower, oats ½c to ¾c lower and flax ½c to ½c up.

Cash demand was quiet, only a few scattered orders being taken to fill up space. Offerings were light. Cash oats, barley and flax are at a standstill.

Inspections Wednesday 316 cars, as against 1711 last year, and in sight 275.

ST. LAWRENCE MARKET.

There was only a very light market on the St. Lawrence yesterday, the storm being partly responsible, as the roads were very slippery.

Hill, had seven dozen new-laid eggs, which he was offering at the reasonable price of 65c per dozen.

A. Privett, Fairbank, had a load of vegetables, carrots and parsnips at 15c per 6-quart basket; cabbage at 5c and 3 for 10c, and turnips from 5c up, according to quantity. cording to quantity.

E. Lee, McDonald avenue, Mimico, an E. Lee, McDonald avenue, Mimico, an enterprising youngs.er, had a load of Chr. mas trees at 30c if delivered, and 25c taken.

A. Barnes, Pacific avenue, again had two cattle, selling them at 8c, 9c, 11c and 12c per lb.

E. Braun, Fairbank, had a load of spy apples, selling at \$1 per box for 35c per l-quart basket.

R. E. Perkins, Victoria Square, had 35 bags of potatoes, which he offered at 65c per bag; four or five dozen new-laid eggs at 60c per dozen; eight chickens at 16c per lb., and two ducks at 16c per lb. On approaching the southwest corner of the lower market, you could readily believe you were near the woods (if you relied on your sense of smell), as there was such a sweet woodsy aroma from the many Christmas trees brought from Sundridge by John Bamford and which as sening at 25c to \$2.

In the lower section poultry was selling as follows: Chickens, 15c to 18c; fowl 14c to 18c; geese, 14c to 18c; ducks at 16c to 20c, and turkeys at 20c to 22c.
