Russians Make Great Advance into Hungary

Austria Also Decides to Confiscate All Stocks of Grain

HUGE RUSSIAN FORCE MOVES INTO HUNGARY

Austrian Empire's Fate Will Be Decided on Great Plains.

ENEMY'S PLANS FAILED

Elaborate Protective Measures Not Proof Against Russian Strategy.

Special Direct Copyrighted Cable to The Toronto World.
PETROGRAD, Jan. 29.—Armies of great numerical strength are now moving at both ends of the eastern theatre of war without the Russians having to withdraw any forces from Central Poland. The entire elaborate scheme for the protection of Hungary and disturbance of the Russian campaign against Transylvania, seems finally overturned by disclosures that the new Russian army from Galicia has penetrated several days' march into Hungary westward of the Dukla pass. This force is now in full fighting strength turned upon the left flank of parallel columns of the huge Austrian army disposed northward towards the eastern Carpathians. With astonishingly short delay the Russians have forced the Austro-German titans to a general retreat.

ROUMANIA READY FOR OPENING WAR

Allied Diplomacy Triumphant in Stirring Up National Aspirations of People.

GERMAN PLANS FAILED

Army Officers Drink to Day for Recovering Transylvania From Hungary.

By Martin H. Donohue, special correspondent of The Toronto Chronicle and The Toronto World.
Special Direct Copyrighted Cable to The Toronto World.
BUCHAREST, Rumania, Jan. 29.—Rumania having set her hand to the plow, is not going to turn back, but she is steadily and quietly preparing to make an effective entrance into the already somewhat overcrowded stage of the world's greatest war. In the public mind the cause of the entente is now a united front with that of a greater Rumania and German aid is spent vainly here in an attempt to spread the gospel of Count Von Bernhardi that "might is right." Even if there had never been a Transylvania, or no Austrian enemy to the Rumanian national aspirations, it is questionable if Rumania in the present titanic struggle would have been anything else but a confirmed German ally. Rumanians who in culture, love of liberty, and fervent patriotism are the French of the near east, a few miles would seize important strategic railways and compel Joffre to fall back perhaps behind the Seine. The allied command may be trusted, has made dispositions to cover this contingency. It is considered improbable that the German attacks elsewhere on the line are directed to induce a weakening of the allied forces in the Argonne forest. In Transylvania the German plan of footing in the Grand Dune. Possession of this will enable them to work forward along the shore under cover of the fire of warships and proceed gradually with a flanking movement against the Germans in Belgium.

REVOLUTION SIMMERS AT CONSTANTINOPLE

Enver Pasha Blamed for Coming Ruin of Country—Executions Become Frequent.

Special Direct Copyrighted Cable to The Toronto World.
LONDON, Jan. 29.—H. F. Baldwin, special correspondent at Saloniki writes that reports received there are to be credited all Constantinople is "one simmering revolution."
"The Turkish officers realize," he writes, "that unless Enver Pasha, former minister of war and leader of young Turk party, is deposed from his control of affairs, Turkey's ruin is inevitable and certain."
"Executions are frequent. Turkey's declaration of war was the signal for mob looting and wrecked Totakalli's Cafe, a Russian establishment which was much frequented by war correspondents during the Balkan campaign, was served similarly."
"The mob, inflamed with Totakalli's wines and amazingly garbed in clothes stolen from the stores totally wrecked a large German establishment at Galata bridge for sale."
"The Turkish authorities of Constantinople are greatly perturbed, owing to the fact that a wireless plant is known to be in operation at some place in the vicinity of Constantinople or Adrianople and they are unable to find it."

By a Staff Reporter.
OTTAWA, Jan. 29.—Probably owing to the business depression and the difficulty of making money in other ways, there have been many applications of late for placer gold mining rights along the North Saskatchewan River, in the Edmonton district. As the sands are known to contain gold in sufficient quantity to make the operation profitable, the government is issuing 100-foot licenses for one dollar, but requires practically continuous operation to prevent cancellation of license.

The labor market statistics for December, Herr Havenstein said, were more favorable than ever before for that month, and the January reports continued to be satisfactory.

ENTHUSIASM OF SAILORS IN SEA FIGHT INTENSE

"That's for Child Killers," Shouted British Crews as They Loaded Guns.

Special Direct Copyrighted Cable to The Toronto World.
LONDON, Jan. 29.—A naval chaplain who was present at the North Sea battle, in a letter to a relative, says: "The public would have loved to have heard the cries of the men as they loaded the guns. 'That's for child killers,' 'that's for child killers,' 'that's for child killers,' then 'Tipperary' and the enthusiasm was intense."
Representative Hobson reviewed the situation in Europe referring to criticisms of America's conduct by both sides in the present war and to "arbitrary treatment of American ships" and declared that the situation closely paralleled the conditions which led to the war with France in 1890 and to that with England in 1812.
"Napoleon's resentment which led to the war with France in 1890," he said, "was not as intense as the growing resentment of Germany today at the great source of supply of war materials her enemy allies are finding in America. Great Britain's attitude toward our purchase of ships of Germany is nothing short of menacing."

Allies' Purchases Easily Offset Loss of Austro-German Commerce.

Special to The Toronto World.
WASHINGTON, Jan. 29.—British diplomats in Washington express great satisfaction at the showing of American export increases made public today by the department of commerce covering the commercial activities of the United States in the foreign field for December, 1914. It is accepted as off-setting in large measure the allegations contained in the American note of Dec. 28, 1914, in which the charge was made that the activities of the British naval authorities in searching and detaining ships bearing American cargoes had been detrimental to American commerce, and indirectly to American industry.

The department's report discloses the fact that there was a great upward heave of the stream of commerce from American shores. The total value of American exports for December, 1914, exceeded by \$1,000,000 the exports for the same month of 1913. Also the value of exports covering the commercial activities of the United States in the foreign field for December, 1914, is accepted as off-setting in large measure the allegations contained in the American note of Dec. 28, 1914, in which the charge was made that the activities of the British naval authorities in searching and detaining ships bearing American cargoes had been detrimental to American commerce, and indirectly to American industry.

EASY TO DARKEN YOUR GRAY HAIR

You Can Bring Back Color and Lustre With Sage Tea and Sulphur.

When you darken your hair with Sage Tea and Sulphur, no one can tell because it's done so naturally and evenly. Preparing this mixture, though, at home is messy and troublesome. For 50 cents you can buy any drug store the ready-to-use tonic called "Weyth's Sage and Sulphur Compound." You just dampen a sponge of soft brush with it, and stroke this through your hair, taking one small strand at a time. By morning all gray hair disappears, and, after another application or two, your hair becomes beautifully darkened, glossy and luxuriant. You will also discover dandruff is gone and hair becomes falling out.

PROF. MULVENEY'S BOARD OF WORKS WONDERFUL DISCOVERY APPROVES OF PLAN

Paving of Track Allowances on Ossington, Dufferin and Lappin. FINANCES ARE GOOD Harbor Board Had Balance and Have Arranged Further.

The committee on works yesterday approved Commissioner Harris' recommendation for the paving of the following streets: Ossington, from Bloor to Hallam; Dufferin, from Hallam to Lappin; and Lappin, from Dufferin to Lansdowne. This work is in connection with Toronto Street Railway extensions and will cost \$196,700.

Work has been commenced on the water-main system for North Toronto by day labor, according to instructions given to Commissioner Harris in connection with relief work. The contractors are now asking that the work be given out by contract, claiming that as many men will be given employment as of the city does the work, and it will keep their equipment busy. Tenders will be called for certain sections to be decided on by the commissioner.

Commissioner Harris has reported against the laying of tracks on Springmount and Oakwood avenues and Dovercourt road instead of on Lansdowne avenue, which was the original intention. In his recommendation he says that the route is longer, more inconvenient and more expensive to operate.

Will Leave Some Snow. A deprivation of prominent business men, including Col. James Mason, waited on the committee on works yesterday afternoon, asking that more snow be left on the downtown streets, especially at the intersections. Commissioner Harris will see that enough snow is left on the streets to facilitate traffic.

Harbor Board Finances. The estimates of the harbor board call for the expenditure of \$2,000,000 this year. The commission is in good shape financially. They had \$500,000 of a balance at the beginning of the year, and have raised \$1,000,000 as well. Single tax representatives appeared before the board of control yesterday to put themselves on record as being against the proposal to exempt small houses.

License Payment Due. The final payment on hotel licenses is due on Monday next: 109 hotels and 60 shops bring in yearly \$254,490, of which the city gets half. The payments are made quarterly. A spur of the Canadian Northern Railway for the purpose of facilitating the work on the Don section of the viaduct has been approved by the city committee. The viaduct, the large English banking house, has offered to take care of all Toronto's financial needs during the year.

LUMBER COMPANY WINS ACTION AGAINST BANK

Judge Coatsworth Says Necessary Vigilance to Prevent Fraud Was Not Used.

Judgment for the full amount claimed in the suit of the Lake Rousseau Lumber Company against the Canadian Bank of Commerce for \$395.50, the amount of a cheque alleged to have been wrongfully paid to the bank by the plaintiff's manager at Beauport, was given by Judge Coatsworth yesterday. The defendant claimed that Gillis was given cheque signed in blank by his employer, which were paid when properly filed in and counterbalanced by him, and that the ordinary course of business was followed in the transaction. "Gillis was dealing with his employers' funds and there was enough of a suspicious habit about this cheque, made payable to the defendant, to have put them on their guard. The defendant failed to exercise the necessary vigilance to prevent a fraud."

MACKENZIE KING HOTLY ATTACKED Former Minister of Labor Accused of Hostility to Workers.

DESCRIBED AS "ALIEN" Mine Workers' Official Read Letter in Support of Charge.

Canadian Press Despatch. NEW YORK, Jan. 28.—The police and the purpose of the Rockefeller Foundation and the recent utterances of the witness stand of John D. Rockefeller, Jr. were vigorously assailed today by John R. Lawson, a member of the board of the United Mine Workers of America for the district which includes Colorado.

A Bitter Attack. Referring to the Rockefeller investigation into industrial unrest and the employment of Mr. W. L. Mackenzie King, Mr. Lawson said that the industrial problem is a law that prescribes a jail sentence for the worker who dares to lay down his tools.

Here Mr. Lawson quoted what purported to be a copy of a letter written by Mr. King, August 15, 1914, to John D. Rockefeller, Jr., in which Mr. King said: "It will not be long before the inevitable effect of the European war are certain to make themselves felt, and once this becomes apparent the unions will have to revise their policy. Looking at the ultimate, rather than the immediate effect, there will be a large amount of unemployment as a consequence of the war in certain industries it is my belief that the laborer who desires to find here it seems to me that a world-wide normal conditions in Colorado."

CLOSING

The last opportunity to obtain Larned's History of the World, in five volumes. The supply of these books allotted to the World is almost exhausted, and those of our readers who would be possessed of this wonderful set would do well to take advantage of the opportunity now, as it is altogether improbable that another opportunity will present itself.

Toronto World, Toronto, Ont. Peterborough, Dec. 23, 1914.

Dear Sir: Some time ago Principal H. R. H. Kenner asked me to look over Dr. Larned's "History of the World." Having done so, I beg leave to report as follows:

He who would attempt to compress the story of 7000 years into one quarter that number of pages, is indeed a brave man. Yet this is what Dr. Larned has succeeded in doing in his "History of the World." This is no "omnium gatherum," but a real history. For, by his comprehensive treatment of the "Great Events," by his sense of proportion, he has escaped the encyclopaedic character of other attempts at world history.

Two characteristics of Dr. Larned's work will appeal to the scholar—the analytical outline which indicates, more plainly than anything else, that the author possesses a clear historical perspective, and the illustrations, which are, without exception, the most representative and best selected historical gallery that I have seen.

Though a scholarly work, its appeal is not essentially or chiefly to the scholar, but to the body of general readers (a rapidly increasing number), who have neither time nor training for exhaustive historical study, yet who wish to be familiar with great world movements of both past and present. To such, the common sense of philosophy, rational treatment and clear, easy style of Dr. Larned's "History of the World" should be strongly appealing.

L. J. PETTIT, History Master, Peterborough Collegiate Institute.

RIVERDALE COLLEGIATE INSTITUTE, Toronto, Nov. 2, 1914.

The World: Dear Sir: The report of the teachers of English and history in Riverdale Collegiate Institute is as follows: We find that Larned's History of the World is a most useful survey of the main facts and movements of history, concise enough to be of great value to the busy student, and yet sufficiently comprehensive to give all the information needed. It ought to be of great value to the ordinary reader in search of clear, up-to-date material.

Yours truly, W. M. C. MITCHELL, Principal, COLLINGWOOD COLLEGIATE INSTITUTE, Collingwood, Nov. 5th, 1914.

The Toronto World, Toronto, Ont. Dear Sir: I am in receipt of your letter of Nov. 2nd, re Larned's History, which also came to hand this week. On behalf of the Collegiate, I thank you for the volumes and the map enclosed.

I have glanced thru the book, and from my brief observation, I have pleasure in noting the very wide scope of effect in the way of history.

Yours truly, W. J. FEASBY, INGERBOLL COLLEGIATE INSTITUTE, Ingersoll, Ont., Jan. 19, 1915.

The Toronto World, Toronto, Ont. Gentlemen: I wish to acknowledge, with thanks, the receipt of a set of Larned's History of the World in five volumes for the school library. Larned is an historian of repute, and his larger work, "History for Ready Reference," is a well-known contribution to historical literature.

The author himself calls his "History of the World" a survey of history, and these words well describe its scope. It is a work which gives the busy man, the general reader and the student a survey of the world's history. It is not burdened with details, and it is written in such a pleasing style that the reader's interest does not flag.

The print is clear, the binding is attractive, and the portraits and illustrations are numerous and good.

Yours very truly, J. C. SMITH, Principal, OAKWOOD COLLEGIATE INSTITUTE, TORONTO, R. A. GRAY, B.A., Principal.

Toronto, Dec. 16th, 1914. This work is just what it claims to be, "A survey of history from the earliest known records thru all stages of civilization in all important countries down to the present time." It is a survey; it is not profound or exhaustive. It is evidently the work of a man that knows the average busy man, the man who has no time for a profound or exhaustive knowledge of history has set himself "to sift out almost everything that does not contribute importantly to a clear disclosure of the main movements in events." He groups these movements into six great epochs. In the first epoch, he deals chiefly with the Hebrews, the Egyptians, the Persians and the Greeks. The sixth epoch deals with the last one hundred years and brings the record down to the assassination of Francis Ferdinand of Austria, June 28, 1914.

There is a very full index which makes the work valuable for reference purposes. With its help, one can satisfy his curiosity about the early history of China, the people of Peru, the rise and fall of Turkey. The books are well written, readable books, and possess undoubted value for every person who has a thirst for a knowledge of history.

E. HANNA, For one week longer the opportunity is open. After Saturday, February 6th, it will have passed. See the triple coupon in another column of this paper, and read how you can obtain this magnificent History Set in five volumes, recounting the story of the world for the past seventy centuries. Seven thousand years of progress intelligently described by that master word artist, Jos. W. Larned.

The triple coupon will also entitle you to obtain "Heart Throbs," a collection of verse and prose dear to every Canadian, in two volumes. Distribution of this unique set will cease on Saturday, February 6th. Do not delay until the last day, as we cannot undertake to supply either Larned's History of the World or Heart Throbs when the present limited supply is exhausted. The distribution will positively cease on Saturday, February 6th, or sooner, if the supply is exhausted.

Many thousand World readers have availed themselves of the opportunity to obtain these books. Do not be one of those who apply too late. Clip the coupon today from page three and send or bring it in at once to

The World Office, 40 Richmond Street West, Toronto Or 15 Main Street East, Hamilton

Two beautiful volumes, richly bound in seal grain limp binding, superb cardinal covers, stamped in gold. Red edges, round corners; an edition de luxe for this paper's readers.
