FOURTEEN PAGES—FRIDAY MORNING OCTOBER 28 1910—FOURTEEN PAGES

IMMIGRATION PROBLEMS BECOME A BIG FEATURE OF WORK OF THE Y.M.C.A.

International Conference of Workers Recommend Special Attention to Work on Board Ship and to Preparation of Literature.

SAMPLES OF RESULTS ACHIEVED IN THE U.S.

One thousand brainy, aggressive and vigorous men arrived in Toronto yesterday, and 500 more are expected to-day in connection with the 37th International Young Men's Christian Association of North America, which opens in Massey Hall this morning.

Preliminary sessions were held yesterday with three crowded departmental meetings and an evening banquet. At the King Edward Hotel, the Immigration-Industrial section held the boards, while the state and provincial secretaries of North America held a session in St. James' Cathedral Parish House, and the national secretaries of Maine lines in the cathedral itself. The athletic instruction department met at Sunnyside last evening.

John Turnbull, chairman of the entertainment committee, has made arrangements for 1700 in the hotels and apartment houses, and he announces that indications point to all accommodation being taken.

A rather significant statement was made by James Simpson, the labor representative on the royal commission on technical education, speaking at the 10th dinner last evening. From his ex-

4TH WARD CONS. SMOKE AND LISTEN TO ORATORY

Hon. G. E. Foster Has "Come Back"—A. C. Boyce's Broad-side at the Nobe.

Reciprocity was the dominant note in the speeches at the Fourth Ward Conservative Association's annual smoker, in Broadway Hall last evening, with 700 present. There was a large representation of the federal and provincial parliamentarians, including A. C. Boyce, M.P., West Algona; Hon. George E. Foster; Hon. J. J. Foy, attorney-general; A. E. Donovan, M.L.A.; A. Brockville; Edmund Bristol, M.P.; A. Claude Macdonell, M.P.; W. K. McNaught, M.L.A.; John Shaw, M.L.A.; also Mayor Geary and Dr. W. Beattie Nesbitt.

Dealing with the naval question, Mr. Bryce referred to the arrival of "the second-hand battleship" Niobe, and satirized the letters "M.C.C.S." "What does this majestic's Canadian Ship mean?" he asked. "We believe that we serve the cause, and that all our forces, on land and sea, are at the service of King George V. We believe that we fight for him and for his empire, for his empire's prestige, for his empire's greatness and for his empire's rights, and we do not see when it comes to home fighting questions, that it shall be ruled upon by 14 or 14 men at Ottawa, whether it is a question which his majesty's Canadian ship shall butter about."

Speaking on the fiscal issue, Mr. Boyce declared that Canada wanted no trade agreement with the United States; that the lines of trade should be developed east and west, not north and south.

"I have come back I am happy to say, much improved in health," said Mr. George E. Foster, in response to an enthusiastic acclaim by the crowd. "I am glad to be with you, glad that you are with us and glad to take up my work again. I received a warrant from the people in 1904, and that warrant was current in the realm. In 1908 that warrant was renewed. You renewed the warrant and that warrant still runs in the realm. At any man attempt to read me out, or lay me out, or kick me out, I will have a friendly, but at the same time a pretty firm interview with him."

"These were received with cheers. In a speech marked by its lofty tone rather than party rancor, Mr. Foster declared at the outset that such issues as the fisheries case before The Hague tribunal were better left outside the arena of party politics, but pointed out that the verdict of that tribunal was to confirm the contention of British diplomats over a period of 130 years, and said that the award was the most word for word in line with the contention of the Canadian Government prior to 1896.

W. K. McNaught, M.L.A., said that nothing could be hoped for from the forthcoming reciprocity negotiations. John Shaw, M.L.A., thought that no harm could be done by discussing reciprocity, but warned that the United States demands would only work out to the disadvantage of Canada.

Mayor Geary declared that the representatives of Toronto in the federal parliament were indefatigable in the city's service.

Hon. J. J. Foy, Mr. Bristol and Mr. Macdonell were the other speakers.

CHARLES R. TOWSON, of New York, secretary Industrial Department, International Y. M. C. A., devoting his time to developing an association work among industrial workers in America. Under his leadership, the world's committee of Y. M. C. A. in Geneva, Switzerland, has placed secretaries at several European ports of embarkation.

Reference on the Toronto Board of Education, he said, and as an investigating commissioner for the government of the Canadian schools were away behind those of the United States in equipment for turning out students provided for the responsibilities of the present day. The co-operation was fitting of the Y. M. C. A. of Toronto in the promotion of technical education, was commendable, and he was glad to learn that this principle underlay the whole Y. M. C. A. movement. The efficient workman must possess a strong moral character, and the Y. M. C. A. was to be the agency for moulding that character.

A World Factor.

John R. Mott of New York, speaking on "A World Organization Meeting a World Need," said the Y. M. C. A. was pre-eminently fitted to have a large and increasing influence in great questions of the world over. He had visited 44 — and had observed this possibility in each of them. It was interdenominational, too, in an even stronger sense than those were. It was gathering many thousands of Roman Catholics, Greek, Armenian, Syrian and other churches in unity in the sociological enterprise. The association was fitted to have charge of the great questions because in half a century it had evolved agencies, methods and schemes towards dealing with the Christian and the Christian spirit and the absolute dependence on Christ. Strategy in small numbers and forces did great works and this work called for the highest strategy. A work like this could not be done by any one nation. It needed a line-up of all nations; needed a unity of all the real disciples of Christ.

Dr. G. W. Tupper of Boston referred to the uplifting forces of the trades' unions or of the industrial world. The most tremendous thought of the modern day was that in every department of life this thought was behind all the uplifting tendencies of the world.

Industrial Support.

Chas. R. Towson, New York, spoke on "The Association in the Industries of North America." He cited many instances of large corporations who had welcomed the association for the influence it had on employees and had contributed almost fabulous sums toward the movement.

"When the greatest corporation in the world—the United States Steel Corporation—is behind the movement, it strikes me with significance. It is necessary that the Kingdom is coming." Lumber, mining and steel companies, and cotton milling concerns were displaying a remarkable willingness to pay secretaries' salaries, erect

OTTAWA'S GROWTH

Population Now 86,106 and Assessment \$63,347,970.

OTTAWA, Oct. 27.—The annual report of the assessment commissioner, issued to-day, shows an increase in the assessment of \$9,286,822, and in the population of 2748. The total assessment of the city is announced as \$63,347,970, as compared with \$54,061,948 last year. The population is 86,106, as compared with 83,360. Owing to the large advance in the assessment, it is practically certain that a reduction in the tax rate will be made next year.

BIGGEST FIRE IN VICTORIA'S HISTORY

Capital of British Columbia Has Great Conflagration, Which Destroys an Entire Block and Causes Losses Which May Run Into Millions.

VICTORIA, B.C., Oct. 27.—(Special.)—Victoria was last night visited by the greatest conflagration in its history, which destroyed an entire block and at one time seemed to threaten an entire section of the city. The loss is variously estimated, being as high as \$1,500,000 according to some estimates. How the fire started is a mystery. It began in the departmental store of David Spencer, Ltd., about 11 p.m. The two night watchmen as usual at 10.30, but saw nothing wrong. They then went to the top floor to have their supper, but presently smelled smoke and saw smoke and flames along the east wall of the first and second storeys. Some people going by on the streets turned in the alarm. So rapid was the spread of the fire that when the firemen arrived a few minutes later, the establishment was already a mass of flames.

Put Up Splendid Fight.

A splendid fight was made by the brigade, which was assisted by a large number of volunteers from among the citizens who had gathered. A call for help was also sent to the Work Point barracks, and the gunners and engineers at once responded. Some of them were called off to assist in keeping back the crowds, while others assisted the firemen. Others also were posted along the neighboring roofs, where they did good work in putting out the sparks, which had fallen everywhere in great volume.

The new high pressure water plant was also called into use for the first time and proved of very great assistance. At times it looked as if a large portion of the city was confined within ultimately the fire was confined within a square in which it started. By 3 o'clock this morning the flames were under control, but the immense number of people which had assembled stood around until daybreak.

From the David Spencer store the blaze spread across to Five Sisters block, an office building, which was also in flames. The fire was also in the next to catch, then the store was also in flames, and also buildings across the streets were also in flames. The fire spread across the streets and the firemen were unable to get into the street. The fire spread across the streets and the firemen were unable to get into the street.

Sparks Fired Vessels.

The cloud of sparks and fire in the harbor, and small vessels in the harbor, but these were extinguished without difficulty.

No deaths occurred in the fire, but Mrs. Samuel Spence, wife of the proprietor of the Bismarck Hotel, after collapsing from the excitement, was carried to a hospital, where she is recovering. She was hurt by a nail, which fell through his boot, and he will be lame for some time.

Among the losses to be recorded are a large number of legal documents, which belong to the City of Victoria, which were in the office of Mason & Mann, formerly city solicitors. The plans of the new isolation hospital, and the new court house in Vancouver were also destroyed. These were in the office of Thomas Hooper, architect, in the fire swept block.

Foreigner Gives Himself Up for Shooting His Enemy.

WINNIPEG, Oct. 27.—(Special.)—Up in the wild country between Lake Winnipeg and Lake Manitoba, 100 miles north of Winnipeg, two men, with overwhelming hatred of each other, met in the bush last Monday. Both carried shotguns, and each was on the lookout for the other.

Conrad Kuzko leveled his gun with greatest speed, and instantly killed Alex. Barke. Kuzko walked all that night and all day Tuesday, arriving at Toulon, 50 miles distant, on Wednesday morning. He told the people what had occurred, and stated that he was going to Winnipeg to give himself up. He arrived here last night. He pleads self-defence.

It is alleged that Kuzko was incited with the dead man's wife during the latter's absence this summer.

CROWN WITNESS CONFESSED PERJURY.

MORDEN, Man., Oct. 27.—(Special.)—John Reichart, charged with the murder of Alex. Phillips, who was beaten over the head at the Queen's Hotel at Plum Coulee, on April 11 last, was found guilty to-day.

The chief crown witness confessed that he had perjured himself before the coroner's jury.

To Play "The Fighter."

The Centre and South Toronto Conservative Club will present the political play "The Fighter" at Massey Hall on Dec. 3.

THE FISHERMAN AND THE GENIE

The spirit which he himself released now threatens to destroy him.

AVIATORS FLEW TAIL FOREMOST IN BIG GALE

It Was a Seventy Mile Wind and Their Engines Were Only Good For Thirty-five Miles.

NEW YORK, Oct. 27.—Such are the caprices of October weather that Ralph Johnstone and Arch Hoxsey of the Wright team of aviators went up for altitude at Belmont Park to-day, and brought down the record of the day for distance.

Both were driven miles off the course. Word came from Hoxsey first that he had landed safely at Brentwood, L.I., about 25 miles distant. Johnstone still resolute that he would not come down before that fellow Hoxsey, was carried 55 miles to Middle Island Village, L.I. Both telephoned in that they hoped to fly back to the course to-morrow. Neither of them could be got on the telephone again after they had reported to Wilbur Wright, but he said:

"Incidents? There weren't any. It was just one straight forward progress backward. When they got up a thousand feet or more they struck a wind blowing about 25 miles an hour faster than they could travel. I estimate that it must have been between 65 and 70 miles an hour. So they just drifted. That's all there was to it, but I guess it's the first time in the history of navigation that anybody ever made a flight tail foremost."

WALKS 50 MILES TO SURRENDER

Foreigner Gives Himself Up for Shooting His Enemy.

WINNIPEG, Oct. 27.—(Special.)—Up in the wild country between Lake Winnipeg and Lake Manitoba, 100 miles north of Winnipeg, two men, with overwhelming hatred of each other, met in the bush last Monday. Both carried shotguns, and each was on the lookout for the other.

Conrad Kuzko leveled his gun with greatest speed, and instantly killed Alex. Barke. Kuzko walked all that night and all day Tuesday, arriving at Toulon, 50 miles distant, on Wednesday morning. He told the people what had occurred, and stated that he was going to Winnipeg to give himself up. He arrived here last night. He pleads self-defence.

It is alleged that Kuzko was incited with the dead man's wife during the latter's absence this summer.

CROWN WITNESS CONFESSED PERJURY.

MORDEN, Man., Oct. 27.—(Special.)—John Reichart, charged with the murder of Alex. Phillips, who was beaten over the head at the Queen's Hotel at Plum Coulee, on April 11 last, was found guilty to-day.

The chief crown witness confessed that he had perjured himself before the coroner's jury.

To Play "The Fighter."

The Centre and South Toronto Conservative Club will present the political play "The Fighter" at Massey Hall on Dec. 3.

MISSING BALLOONISTS HAVE ARRIVED AT QUEBEC

QUEBEC, Oct. 27.—The missing balloonists of the America II arrived in Quebec to-night at 6.30, and were welcomed by Mr. Spindler, who was sent here by the St. Louis Aero Club for that purpose, and Gilbert White, the American consul in Quebec. They were immediately driven to the Chateau Frontenac, where they were the guests of Mr. Wilfrid. They leave Quebec at 11.30 to-night for New York.

Both men look well, and show no trace of the thrilling experiences which they have been thru.

Bid for Next Race.

ST. LOUIS, Oct. 27.—Elected by Alan R. Hawley and August Drummond, the international balloon race, the Aero Club of St. Louis governors decided to-day to bid for the next race.

Lewis Spindler, now in Canada, was advised to organize, if possible, an expedition to rescue the balloon America II.

Rubber gas bags were victorious over the cambric in the race. The America II, Dusseldorf II, and Germania, the leading prize winners, were made of rubber.

TORONTO MAN IN TROUBLE.

(Canadian Associated Press Cable.)

LONDON, Oct. 27.—Jacob Harris, alias Smelle, a native of Toronto, was charged at the value of \$550, the property of E. C. Caesar of Holborn Viaduct. Harris was recently convicted at Birmingham. He was remanded in order to allow him to secure legal aid.

REVOLUTION AT ATHENS?

BERLIN, Oct. 27.—There is a persistent rumor in financial circles to-day, that a revolution has broken out at Athens. Telegraphic enquiries sent to the Greek capital this afternoon have elicited no response.

CONSTABLE NOT TO BLAME.

DELHI, Oct. 27.—The inquest into the death of J. H. Ryder, the aged man who died from injuries due to a fall down the court house stairs while a crowd was being ejected from the court room, resulted in a verdict of accidental death.

Raised the Dividend.

MONTRÉAL, Oct. 27.—(Special.)—To-day the directors of the Richelleu and Ontario Navigation Co. declared a quarterly dividend of 1 1/2 per cent. The dividend has thus been raised from 5 to 6 per cent annual basis.

PERRAULT AND GILBERT CANDIDATES FOR HOUSE

Liberal and Nationalist Nominated in Drummond and Arthabaska Yesterday.

DRUMMONDVILLE, Que., Oct. 27.—(Special.)—J. E. Perrault, Liberal, and Arthur Gilbert, Nationalist, were nominated to-day to represent this county in the house of commons, the seat being vacated by the nomination of Louis Lavergne, who resigned. The attendance was large. Hon. L. P. Brodeur was prevented from being present owing to the death of his mother, Mrs. Maurin, of Pittsburg, Mass.

The candidates spoke briefly. Mr. Perrault endorsing the navy policy of the government in its entirety, while Mr. Gilbert said he was a Liberal, but refused to support the navy. Messrs. Monk, Henri Bourassa and Armand Beauriant declared that Drummond and Arthabaska made one mistake when they defeated Sir Wilfrid Laurier, and would never do so again.

The meeting was evenly divided that the government candidate will be elected by a large majority.

PILOTS' LICENSE FOR AVIATORS.

PARIS, Oct. 27.—The sixth annual conference of the International Aeronautic Federation was opened to-day. The conference voted to suppress the international calendar and allow each country to arrange its own meetings.

The conference also adopted the principle of a universal pilot's license, covering aeroplanes and spherical and dirigible balloons, good in all countries.

TO ABOLISH THE "THIRD DEGREE."

The United States Senate at its last session adopted a measure providing for the appointment of a committee whose duty it should be to conduct an investigation of the so-called "third degree" system as it is employed by police officials in their examination of those suspected of crime. The committee was instructed to report with recommendations looking toward the abolishment of the system. This action was particularly gratifying to Charles Klein, the playwright, whose observation of the workings of the same system prompted him to write "The Third Degree," a forcefully conceived drama, which has served as a particularly severe arraignment of this modern method of inquisition.

False Brandy Labels.

OTTAWA, Oct. 27.—What is claimed to be an extensive fraud practised upon hotelkeepers and brandy consumers in Ottawa and eastern Ontario, was unearthed to-day by the local police.

False labels were placed upon bottles containing a cheap kind of brandy. Search was made at the local lithographic company, and three plates of reproductions of the original brandy labels were seized.

Continued on Page 8, Column 2.

ROYAL LINE NOW TORONTO'S

Ocean Steamships Transferred to the Local Register.

A unique event in Canadian maritime history occurred yesterday, when the Canadian Northern steamship Royal George, sailed from Montreal for Bristol with the Canadian ensign flying from the poop. This was significant of the fact that the Royal George had been transferred from the British register at London to the Canadian register at the port of Toronto. The lettering over the stern now reads "Royal George, Toronto." The Royal Edward will also be similarly transferred to the Canadian register as soon as the necessary papers are forthcoming. These documents are now on their way to Canada.

This move has been made at the instance of William Mackenzie, president of the Canadian Northern, and in pursuance of the policy of that organization centered around Toronto. When the transfer has been completed, the Toronto register will show an additional tonnage of 25,000.

The event is said to be prophetic, and forecasts the day when oceanic traffic will be landed on docks at Toronto without any change of bottoms.

NEWS OF C.M.A. ON TECHNICAL TRAINING

Decline of Old Apprentice System Makes Present Expert Labor Situation the More Acute — Variety of Witnesses Appear Before Royal Commission.

A comprehensive and exhaustive report was yesterday presented to the Technical Education Commission by George A. Howell, chairman of the special committee on technical education of the Canadian Manufacturers' Association. This report is based on investigations conducted by the committee in 1908, when the appointment of a royal commission appeared doubtful, and the association determined to investigate the subject itself, being prepared, if necessary, to go to the length of establishing a school of its own, for which purpose a subscription of \$6000 was voted, and the funds, but staying the question," said Mr. Howell. "The committee has been handicapped by the dearth of authoritative information on the subject; technical education is still in its infancy in Canada. Not only is there a great lack of information regarding it, but our educationists are not agreed as to how far it should be incorporated in our present school systems."

The report proper began by stating that the widespread desire of manufacturers for technical education is chiefly due to the decline of the old apprentice system. Owing to the opportunities offered to all classes thru the rapid development of Canada, the number of journeymen who desire their trades is higher than in any other country. Every year large numbers of employes in the factories of eastern Canada desert their occupation to go west and become farmers, or make their living in some other way.

Even were the apprentice system in working order, it is doubtful whether it would meet the needs of commercial and industrial education. The number of journeymen who desire their trades is higher than in any other country. Every year large numbers of employes in the factories of eastern Canada desert their occupation to go west and become farmers, or make their living in some other way.

The report proper began by stating that the widespread desire of manufacturers for technical education is chiefly due to the decline of the old apprentice system. FOR THANKSGIVING

When the weather turns like this there is always a great call for furs and we are fortunate in being able to offer you something that is positively exclusive. We have spent the whole summer and all fall making ready for this season now here. We are not overburdened with a plate-glass-mental, so that you will find what we have to offer more moderately priced.

Our furs must stand alone in quality, for we have been fifty years in the fur business and buy largely for cash in the European markets. Our cash discounts are turned over to our customers.

Visitors in town for Thanksgiving Day should make it a point to visit our showrooms. Write for catalogue if you cannot call.

LADIES' FURS

Ladies' Fur-lined Coats in many splendid designs with Alaska Sable collar and lapels and lined with Hamster, \$250.00.

Same style of coat, made from imported broadcloth and with three-quarter lining of mink or muskrat, \$250.00.

Peruvian Lamb Coats—The Peruvian Lamb used in our coats was selected in Liepzig by our Mr. Dineen. It is the best imported. Twenty-six inches long in best glossy coat, of medium small cut, splendidly finished and in various designs, \$125.00.

Other fine Peruvian Lamb Coats, according to length, up to \$200.00.

Alaska Sable Coats, in all designs and in all lengths, made from the best of Alaska Sable, and in many designs, from \$250.00 to \$350.00.

Mink and Sable Small Neckwear—Peruvian Lamb Ties and Stoles; chinchilla, squirrel, fox and beaver.

MEN'S FURS

Men's Fur-lined Coats of the best of beaver cloth, lined with muskrat and with wide outer collars and lapels or with Peruvian Lamb of the same. Splendid value, \$200.00.

Men's Fur-lined Coats right up to \$300.00, and down in the scale to \$60.00. Everyone guaranteed to be worth fifty per cent. more than we ask.

All descriptions of Men's Caps and Coats in different furs. All guaranteed to be the best to be obtained anywhere in Canada.

Write for our Fur Catalogue of the latest designs in vogue in Paris and New York. STORE OPEN SATURDAY NIGHT.

DINEEN, 140 Yonge St., Toronto

ALL IS IN READINESS FOR Y.M.C.A. GATHERING

First Sessions to Be Held To-day in Massey Hall—Some of the Topics.

The 37th international convention of Young Men's Christian Associations of North America will open to-day in Massey Hall, with from 1500 to 2000 delegates. Between 5 and 8 p.m. Lt. Gen. Gibson, Premier Whitney and Mayor Geary, will welcome the delegates at the city hall.

At all the sessions of the convention the galleries will be open to the public, but voting delegates, as distinguished from corresponding delegates, only will be admitted to the ground floor during the business sessions.

Among the questions to be dealt with at the convention three are formally set forth:

First, the resolutions presented by the Pacific coast presidents and general secretaries, providing that any 19 per cent. of the associations shall have the right to file a referendum petition at any time within 90 days after an international convention. The argument

JOHN TURNBULL, Chairman of Y. M. C. A. Reception Committee.

for this is that at the convention many of the associations are unable to have proper representation and, therefore, are not participating in making the laws which govern the institution's activities.

Second, a further discussion of the "evangelical test" proviso, which restricts active management and control of the Y.M.C.A. work to members of Protestant churches.

Third, plans for the advancement of the "men and religion" forward movement, a campaign which is to be set in motion in September, 1911, and continue thru May, 1912. During that time it is hoped to bring to Christ and the other 100,000 men and boys, to double the enrollment of the Bible classes, and to add a conclusive testimony to the essential reality of Christian unity.

A program of to-day's sessions appears elsewhere. An outline of the succeeding days' proceedings is as follows:

11 a.m.—Addresses, followed by discussion.

2 p.m.—Reports of commissions appointed by Washington convention (to be followed by discussion).

3 p.m.—International athletic meet and gymnastic exhibition, Armories.

—Sunday—

9:15 a.m.—Devotional service.

10:30 a.m.—Men's mass meeting, addressed by F. E. Smith on "A Fatal Mistake."

7:30 p.m.—Platform addresses.

9:15 a.m.—Business session, including report of committee on international committee's report, consideration of any resolutions, and miscellaneous business.

2 p.m.—Addresses followed by discussion.

7:30 p.m.—Platform addresses.

The convention will adjourn with the Monday night session. The closing address of that session will be made by John R. Mott, upon the theme: "Some Great Unfinished Tasks Before the North American Association."

"Adele Ritchie, Hal Merritt, Johnny Stanley & Ruby Norton, Quinlan and Richards, Hallett Brothers, Hathaway, Kelly and Mack, the Kinestograph, Mr. Julius Steger.

Among the "side" meetings so far arranged are:

Luncheon of railroad secretaries to-morrow to confer regarding transportation difficulties now existing in various parts of the country.

Dinner on Saturday evening at 6 o'clock of the Alumni Association of the International Y.M.C.A. Training School, Springfield, and the Institute and Training School of Y.M.C.A., Chicago.

A county work dinner at 6 o'clock this evening, with addresses by Dr. J. W. Robertson and others.

Dinner of religious work directors to-morrow at 5:30.

Dinner at 6 p.m. to-morrow for those interested in training for association vocations.

"Silver Bay" breakfast on Monday at 8 a.m.

A DISTINGUISHED GRADUATE

T. Kennard Thomson Has Done Great Things Since Leaving S. P. S.

The address given by T. Kennard Thomson, C.E. of New York City, to the Toronto branch of the Canadian Society of Civil Engineers, on the subject of the construction of steel buildings, was most interesting. The lecture was made more impressive with an excellent collection of views and drawings made by Mr. Thomson himself. He is probably the most noted engineer in America on foundations, and is among the earliest graduates of the local School of Science, graduated in '88.

He outlined the various methods for

Among Mr. Thomson's great achievements is his connection as one of the chief engineers in the erection of the great Singer Building of New York City.

HAMILTON HAPPENINGS

ARRESTED IN HAMILTON

Charged With Cattle Stealing Near Edmonton.

HAMILTON, Oct. 27.—(Special.)—David Gaudier was to-night arrested by Detective Gaudier and acting Detective Gaudier, on a charge of cattle stealing near Edmonton. An officer of the northwest mounted police is now and will take Gaudier back with him. The annual exhibition of the Hamilton Camera Club was opened this afternoon. The following took place and the following were the prizes: Best group, Mrs. J. J. Overhol, silver trophy for best all round collection of prints; B. J. Overhol, second trophy; A. J. Woodley, Best members class; W. E. Hill, Best prize; Mrs. J. A. Souter, Best prize; engagements; J. A. Howard, Best prize; novice class; Jessie B. Dixon, Best prize; non-members; W. B. Urner, second prize.

The judges were A. M. Cunningham and J. S. Gordon.

Court of revision dealt with ward two appeals to-day and allowed \$300, as against \$36,000 last year. To-morrow court will deal with ward three appeals.

Magistrate Jelfs issued a summons to-day against George Copley of the firm of Copley, Moves and Bandler, wholesale clothing manufacturers, charging him with assisting Russian Jews to enter the country contrary to the provisions of the Alien Labor Act. Samuel Landers, international organizer of the Garment Workers' Union, claims to have a letter in his possession written by Mr. Copley to a Russian Jew, and for which he alleges Mr. Copley offered the Jew \$100. Two Russian Jews and a Jewess were deported to New York this morning.

Col. Hendrie and Cataract Power. The Hamilton Times (L.H.), which has no admiration for the Ontario Government's hydro-electric power scheme, features a story to the effect that the Hamilton Bridge Co., of which Hon. Col. Hendrie, a member of the government, is president, has recently installed additional motors to handle 60-cycle power furnished by the Cataract Power Co. The article said in part:

The Times heard a rumor this morning that the Bridge Company was not only renewing its old contract, but arranging to handle a larger amount of Cataract power, both at the works in

at the west end, and the new auxiliary plant which is to be built in the east end, where the company recently acquired a large site.

From enquiries made among Cataract officials, and a conversation over the phone with Col. Hendrie himself, The Times has every reason to believe that the report is correct. In fact, Col. Hendrie practically admitted himself that his company had no intention of using hydro power, but intended to continue dealing with the Cataract.

"Do you intend using hydro power there when it is ready?" asked The Times.

"That just depends," replied the Colonel. "I don't look after these details; wait a minute and I will enquire. There was another reporter's pause, while enquiries were made at the other end of the line and then the Colonel said: "We are going on with the Cataract, as far as our people grow."

The hydro transmission system was formally opened by Premier Whitney at Berlin recently, the other two power commissioners were present and took a prominent part in the ceremonies. Col. Hendrie was up north duck shooting."

Hotel Harranan, corner Barton and Catharine-streets, Hamilton, conveniently situated and easily reached from all parts of the city. Erected in 1906. Modern and strictly first-class American plan. Rates \$1.50 to \$2 per day. The Harranan, proprietor. Phone 1465.

The representative of Authors & Cox of Toronto, makers of articles of limbo, electrical appliances and supporters will be in our city at Room 52, Hotel Cecil, to-morrow.

GRENADIERS ON PARADE

Presentation of Prizes to the Crack Riflemen.

The Royal Grenadiers paraded 655 strong under Lt.-Col. A. E. Gooderham at the Armories last night. After performing some evolutions, the regiment was formed up and those who won prizes at the Ontario Rifle Association and the Dominion Rifle Association meets were presented with them.

Brig.-Gen. W. H. Cotton gave a short address to the team who distinguished themselves at Ottawa, praising them for their excellent work. The ladies who took part in presenting the prizes were Mrs. A. E. Gooderham, Mrs. W. H. Cotton, Mrs. J. Bruce, Mrs. E. E. King, and Mrs. J. H. Porter.

Mrs. Victoria Gooderham presented Mrs. Cotton with a beautiful bouquet of orchids. After the presentation there was a reception and dance.

The regiment will parade Saturday night at 8 p.m. in drill order, and proceed to the station and train for Etobicoke, where they will spend Sunday. Monday morning the sham battle commences. No bayonets will be carried by the men, eliminating the possibility of bayonet charges. All regimental parades for the autumn season will cease from the 21st inst.

The Queen's Own Rifles will leave Toronto for the tactical manoeuvres Monday at 9 a.m., the 48th Highlanders at 8.45 and the mounted detachments at 8.15 a.m.

JURY DISAGREE AGAIN

Second Trial of Houle Brothers for Murder Ends in Failure.

VALLEYFIELD, Que., Oct. 27.—(Special.)—After being out all night, the jury hearing the trial of the Houle Brothers, accused of the murder of D. Pelletier, came into court this morning and announced that they had failed to agree. This is the second trial. The jury was discharged at 12.30. The prisoners will not be admitted to bail, but will be sent up for a third trial.

Judge Mercier, who yesterday afternoon charged strongly against the two brothers, censured the jury very strongly this morning.

"The day that parliament abolishes the death penalty for murder will be a regrettable day. There will be open license for murder and pillage of the worst kind," he declared.

THEY ACTUALLY DO THE WORK

Food Eaten is Worthless Unless Digestible—Some Stomachs Must Have Help.

Food taken into the stomach, which, from the nature of the food or the condition of the stomach, is not digested, is worse than no food at all. This is a true statement as far as it goes and a great many dyspeptics go only this far with their reasoning. They argue with themselves that because their stomachs do not do the work given them, they must be given less work; in other words, they must be starved. It would be just as sensible for a business man who is unable to do all his own work to close his business to his own capacity as it is for a man to starve himself to relieve his stomach. The sensible business man employs help and goes forward with his business. Likewise the sensible dyspeptic will employ help for his stomach and give his body proper nourishment.

Stuart's Dyspepsia Tablets actually do the work assigned to them. They relieve weak and overburdened stomachs of a great portion of digestive action. Their component parts are identical with those of the digestive fluids and secretions of the stomach, and they simply take up the grind and carry on the work just the same as a good, strong, healthy stomach would do.

On this account Stuart's Dyspepsia Tablets are perfectly natural in their action and effects. They do not cause any unnatural or violent disturbance in the stomach or bowels. They themselves digest the food and supply the system with all the nourishment contained in what is eaten and carry out Nature's plans for the sustenance and maintenance of the body.

How much more sensible is this method than that employed by many sufferers from weak stomachs. By this means the body and brain get all the good, nutritious food they need and the man is properly nourished and equipped to carry on his work and perform his duties. He could not possibly be in proper working condition by starving himself or employing some new-fangled, insufficient food that does not contain enough nutriment for a year-old baby. A strong man doing strong work must be properly fed and this applies to the brain as well as the body.

Stuart's Dyspepsia Tablets, by relieving the stomach of its work, enable it to recuperate and regain its normal health and strength. Nature repairs the worn and wasted tissues just as they are and knits the bone of a broken limb, which is of course not used during the process of repair.

Stuart's Dyspepsia Tablets are for sale by all druggists at 50 cents a box and they are the only article that a druggist does not try to sell something in the place that's "just as good." Their unequalled merit and success and the universal demand for them has placed them within the reach of everyone.

T. Kennard Thomson Has Done Great Things Since Leaving S. P. S.

The address given by T. Kennard Thomson, C.E. of New York City, to the Toronto branch of the Canadian Society of Civil Engineers, on the subject of the construction of steel buildings, was most interesting. The lecture was made more impressive with an excellent collection of views and drawings made by Mr. Thomson himself. He is probably the most noted engineer in America on foundations, and is among the earliest graduates of the local School of Science, graduated in '88.

He outlined the various methods for

Ribbons for the Holiday

Saturday will be a great "Hat Bow Day" at the ribbon counter. A complete hat trimming for the holiday will cost but 1.50. All the newest knots are shown in the collection of handsome bows and rosettes. The "Coronation," the "Derby" and the "Chrysanthemum" are among the prettiest of the new styles, all being made up in correct autumn shades; navy, alic, royal, cardinal, wine, red, rose, amber, brown, pumpkin, copper, myrtle, moss, reseda, tilleul, grey, taupe and amethyst are some of the tones. The bows contain 6 yards of elegant duchess satin or pure taffeta ribbon, 5 and 6 inches wide, and are ready for use; complete, with band for around crown. Each 1.50

Fancy Ribbons 39c
 Besides a full range of colors in all our lines of beautiful millinery and fancy ribbons we are making a special display of Dresden, stripes and Paisley designs, in silk and satin finishes, showing beautiful combinations of colors. These are excellent ribbons for bows, sashes, etc. Widths 6 and 7 inches. We tie them free of charge. Per yard 39
 Avoid the afternoon crowd if possible; come early in the morning, to be sure of the best service and prompt delivery of your orders.

THIRD RACE—Six furlongs: 1. Star Charter, 112 (Burns), 2. Sir Dawn, 106 (Austin), 3. Exempt, 107 (Kennedy).

FOURTH RACE—Six furlongs: 1. Merrick, win \$6.70, place \$3, show \$2.10; Theodore Cook, place \$5.20, show \$2.30; Melisande, show \$2.60.

FIFTH RACE—Mile and 70 yards: 1. Carlton C., 103 (Rice), 2. Huck, 109 (Davenport), 3. Jeff Bernstein, 106 (Warren).

SIXTH RACE—1 1/4 miles, selling: 1. Firling, 106 (Rice), 2. Mammie Aigo, 109 (Warren), 3. Orphan Lad, Amyl Omron.

SEVENTH RACE—El Oro, Ozer, Tomista. FIRST RACE—Red Lass, Big Osage, Sugar Lump.

SECOND RACE—Romple, Billiken, Bright Maiden. THIRD RACE—Alfred the Great, Billy Bommer, Tommy McCall.

FOURTH RACE—John Reardon, Dr. Holzberg, Milton B. FIFTH RACE—Starport, Fair Louise, Toplad.

SIXTH RACE—Camel, Falcada, The Peer. Guelph's Cross-Country Run and Road Race Association of this city to-night held the final meeting before their big annual athletic meet on the holiday.

The total value of the prizes this year is nine hundred dollars. For the first prize of the 1 1/2 mile open run they are giving a big \$5 grandstand clock, and the prizes for the 10 mile cross country, 10 mile walk and 5 mile run are in keeping. Secretary George Savage has received a record-breaking number of entries from Toronto, including 17 runners from the West End Y.M.C.A. alone.

The British United have thirteen men in the city boxing tournament and hope to win at least three finals. Garrett Athletic Club. Garrett's Athletic Club will hold their annual field day on Vermont Square Monday at 9 a.m.

Events: Dashes, 100 yards, 220 yards, 440 yards, 1 mile, hop, step and jump, standing broad jump, running broad jump, pole vault, Garrett play Wychwood football at 10:30 a.m.

British United Notes. The British United football team play Broadview on the Broadview Boy's Institute grounds at 2:30 p.m. on Saturday. All players who are signed are requested to meet at the corner of King and Broadview at 2 p.m. On Nov. 5 the British United are running a grand concert at Massey Hall, at which Miss Jessie Alexander, and Miss Eddie Pigott and other well-known artists will appear.

On Nov. 5 there will be an old boys' reunion at the club rooms, 406 King W. All past and present members of the B. U. A. C. are cordially invited to attend and some boxing and wrestling bouts will be put on for their entertainment.

TORONTO CRIBbage LEAGUE

Schedule of Games Will Be Drawn for Winter—The Officers.

A meeting of representatives of clubs interested in cribbage was held on Wednesday evening at 530 Dundas-street. It was decided that a league be formed and a schedule of games be drawn up for winter months. Each club to pay an entrance fee of \$5, which will be devoted to purchasing prizes and defraying necessary expenses.

The following were appointed officers for the season: President, A. Paris, I.C.C.; vice-president, G. Garrett, M.C.C.C.; secretary-treasurer, E. H. Price, Station Sergeants C.C.; executive committee, S. Sparks, M.C.C.C.; J. Purdy, Station Sergeants C.C.; J. Mathewson, I.C.C.; W. Brewer, 10th R.G.C.C.

A meeting of this committee will be held in sergeants' mess rooms, Royal Grenadiers, 77 West Queen-street, Wednesday, Nov. 2, at 9 p.m. Clubs wishing to join the league are requested to send a representative to this meeting, as it is hoped to start the season's games at an early date.

Communications should be addressed to Sergt-Major E. H. Price, secretary, Stanley Barracks, Toronto.

Suing the C. N. R.

WINNIPEG, Oct. 27.—(Special)—Two suits have been filed and hundreds are pending in Regina Falls against the Canadian Northern Railway for damages caused by the recent forest fires.

SALE AT MAHER'S EXCHANGE

Prices Range Somewhat Lower Than Three Weeks Ago—Business Fair. The attendance at Maher's Horse Exchange yesterday was good, and a fairly representative lot of horses were sold. The prices are somewhat lower than they were the last three weeks. Quite a number of city work horses were sold at prices ranging from \$50 to \$125. Mr. McCabe of Cobalt bought a nice blocky pair of bay mares, good flat clean bone, splendid feet nicely put together, in fact a real good pair. They would weigh around 2700. The price paid was \$400.

Mr. Skerrow bought for the Consumers' Gas Co. a grand bay gelding weighing about 1600 lbs. He had action almost like a hackney, and was a splendid mover and looked able to draw anything put behind him. This fellow brought \$245. The Dominion Express Co. bought a cross matched pair, a brown and grey gelding for \$400.

J. C. Bayliss got a nice bay mare, heavy, for \$230. A good bay gelding, 7 years old, good useful horse, was sold to L. Worthy for \$125.00. R. H. Scott bought a black pony that looked well worth the money for \$90. Also a brown gelding for \$75. A Speers got a good kind of bay gelding for \$125.00, and Croser Couler paid \$150.00 for a 6-year-old brown gelding. Mr. Wilson paid \$125.00 for a good useful bay mare, 6 years old. Mr. Walsh, a bay gelding, \$125. Mr. Highland, bay gelding for \$125.00. The management were pleased with the sale. On account of Monday next being a holiday (Thanksgiving Day), Mr. Maher will not hold the usual Monday sale, but will try to make Thursday's sale a banner one. There were several extra good pairs of heavy horses offered, but the reserve price was not reached.

SHERRBROOKE, Oct. 27.—A gas tank in the basement of the convent at Richmond exploded, and the mother superior, two nuns and the janitor were quite seriously burned about their faces and heads.

TO EXPROPRIATE SITE FOR NEW FIRE STATION

To Be Located on Greenwood Avenue—Residents of North Yonge-street Want Park.

TODAY AT THE CITY HALL. 10 a.m. and 2.30 p.m.—Court of revision. 11 a.m.—Board of control. 3 p.m.—Works committee. 4 p.m.—Property committee; board of education.

The civic property committee yesterday decided to expropriate a place of property at Greenwood-avenue and Chatham-street, as a site for a fire station. The lot is owned by James Richardson of 486 Greenwood-avenue, who refuses to sell. It has a frontage of 100 feet and depth of 200, and the assessment department values it at \$25 a foot.

R. J. Hunter, lessee of privileges in the cattle market, wrote asking for a rebate of \$5500.00 from the city. He has the rights for selling feed and meat chop to the cattle and sheep men, but since the buyers have refused to buy animals that have been fed anything but hay and water while at the market, Hunter's business has suffered. The matter was referred to the property commissioner.

The commissioner was asked to report on the question of placing the portrait of ex-Ald. McMillin, ex-mayor of East Toronto, in the city hall. The committee voted to grant the city's consent to an assignment of lease of property on Jarvis-street from Charles F. Chisholm to the Chisholm Milling Co.

Ald. Spence thought that brass railings should be placed on the banisters and railings surrounding the elevator wells in the city hall. They are not high enough for safety, he said. It was referred to the commissioner.

Park Employees Want Increase. A communication was read at the meeting of the parks committee from the secretary of the Toronto Civic Parks Union asking that the wages of park employees be increased 25 cents per day, and that they be paid for time lost on account of bad weather. Commissioners Wilson will report.

The exhibition authorities asked that the streets on the exhibition grounds be permanently paved, as rain turned the mud into mud puddles. Manager Orr said that had they had good roads they would have made \$20,000 more last exhibition. The matter goes to the board of control.

The university governors are favorable to the improving of University-avenue, provided that Wm. Mackenzie gives his consent to keep the avenue free from car lines. Mr. Mackenzie will deal with the matter when he returns from the west.

A complaint of the Women's Christian Temperance Union, that there were more drunks at the last exhibition than at any previous one, was thought to be exaggerated. Dr. Orr and the police will be asked to report.

James S. Fullerton and others petitioned for a park north of the intersection of Yonge-street and Lawton-avenue. Commissioner Wilson and Commissioner Forman will be asked to report.

The park commissioner reported against retaining the tax sale lands on both sides of Sparkhill-avenue, for park purposes, on the east side of the intersection of Riverdale park. Ald. Hilton favored making the place a park, as he was afraid a "shack town" might be built there if the land was sold.

A court of revision reported the assessment on the Grand Trunk Station at the foot of Yonge-street, which is being used as a fruit market, from \$15,000 to \$12,000. The building at 38 College-street, owned by Arthur Ardagh, was reduced from \$4000 to \$2000. Property at 25-27 Church-street owned by Frank Dyer, which was assessed at \$100 per foot, was increased to \$225 per foot.

The assessment has been struck from the house occupied by Rev. Chancellor Burwash at 115 West Bloor-street, which was assessed at \$10,000. The property is owned by Victoria University and is exempt. The appeal for exemption of Haverall College was allowed. They were assessed at \$105,925 on the building and \$28,481 for the privilege of doing business. The assessment department will appeal. A number of other assessments were reduced to last year's value.

Engineer's Report. The report of City Engineer Rust will be laid before the works department to-day. Two locations were considered for the location of the proposed viaduct to join Parliament-street with the proposed Bloor-street viaduct. One from the head of Parliament-street to Castle Frank crescent would cost \$175,000, and the other, from the head of Parliament-street and in line with that street produced, would cost \$142,000. Both estimates are exclusive of street railway tracks or land damages.

As it will be some time before power can be secured for the station for lifting sewage at Sunnyside-avenue, the commissioner asks that he be given permission to allow the sewage to run into the lake for the time being.

A fence six feet high to be built around the reservoir, at a cost of \$10,000, is recommended.

The electrical department wishes to erect a sub-station at the blind end of Pacific-avenue. It is improbable that the street will be opened thru, so the engineer recommends the building.

In the Board of Control. No more experts will be engaged by the city to report on the city water or

to endeavor to find the best place to locate the intake, so the board of control decided yesterday. Dairy farmers will be instructed by a veterinary graduate of the Guelph Agricultural College in the best way of keeping the milk for the city pure. The medical health department has engaged the man, Dr. Hastings' idea is to co-operate with the farmers, and get them to study their business and conduct it on systematic lines. An estimate was presented showing that the sea wall extension, together with a 12-foot walk running easterly from the exhibition grounds, would cost \$25,000. The board thought it too high.

Views of C.M.A. on Technical Training

Continued From Page 1. In connection with the advanced schools' courses should be established in which two divisions of the pupils alternate in shop and school work; a matter in which co-operation may be expected from local manufacturers in some industries. In reply to a question, Mr. Howell said that, in his own opinion, the apprentice system should be improved and supplemented, and not abolished when the technical schools are established.

Views of Engineers. Dean J. Galbraith, of the faculty of applied sciences, presented a report resulting from discussions at two meetings of the Engineers' Club, and representing the views of engineers, architects, chemists and educators. This report states that the chief defect, under present conditions, lay in the difficulty of conveying ideas to the operatives without danger of misapprehension. Closer work should be attained as the more the mutual knowledge, the better the work was bound to be. The young man should be taught his trade by skilled workmen, and instructed in the elementary science underlying his work by teachers who were conversant with actual practice.

A great obstacle lay in the fact that the workman began his work on entering the shop, while the scientific man did not really start until after graduation, thus making the one much farther advanced than the other in his life task, when both reached the same age. The rapid changes in our industries also added greatly to the difficulties of training, the time was offset to some extent by the permanency of the underlying principles.

It was recommended that the government study the geographical distribution of the various trades, so that each school could be properly classified and work for a definite object.

Unanimity as to Benefits. A number of witnesses, each expert in a different branch of technical work from the employer's standpoint, were examined. These were: City Engineer Rust, C. R. Young, bridge construction engineer; Inspector of Schools Jas. L. Hughes, Thomas Roden, silver and glass manufacturer; Thomas Moffatt, stove manufacturer; John M. Lawlor, manufacturer of underwear, woollens, etc.; John M. Sparrow of the Imperial Paint and Varnish Co.; Wm. Robertson, confectioner; Wm. Melrose, silver plate manufacturer; and Herbert Bailey, superintendent of the local works of the National Cash Register Co.

They were practically unanimous in affirming that a comprehensive system of government-maintained technical schools could not be otherwise than of the greatest benefit to both employer and employed; to the employer, in that superior work could be obtained when the mechanic had even a superficial knowledge of the principles underlying the operations he went thru; to the employee, in that advanced technical training would be obtained when the mechanic had even a superficial knowledge of the principles underlying the operations he went thru; to the employer, in that advanced technical training would be obtained when the mechanic had even a superficial knowledge of the principles underlying the operations he went thru; to the employee, in that advanced technical training would be obtained when the mechanic had even a superficial knowledge of the principles underlying the operations he went thru.

Work of Technical School. The evening session opened with the examination of Robt. M. Eldon, principal of the technical high school, Wm. J. Wilson, head of the chemistry department; W. S. Kirkland of the industrial arts department; J. W. Bain of the department of physics and shop work; and Miss Maggie Davidson of the domestic science department. These witnesses outlined the methods used in their various courses at the school.

It was stated that teachers in the night classes were mostly teachers employed in other schools in the daytime, and that none were actually mechanics or mechanics of practical experience. Good was undoubtedly derived from the courses in the school; for example, men who joined the courses as journeymen, were able to branch out, after graduation, as contractors on their own account.

Work of Women. Miss Mary Lean, president of the Business Women's Club; Jeannette Grant, a milliner; Sarah Hunter, a dressmaker and designer; Elizabeth Williams, a bookbinder; Bessie McTamney, maker of ladies' neckwear; Maud McLaren and Gwen Nichol, illustrators and advertising designers, gave some interesting evidence regarding training for the various occupations open to young girls and women.

Miss McLaren pointed out the lamentable fact that owing to the scarcity of art schools, there were practically no first-class illustrators in Canada; our people are obliged to go to the United States for their instruction, and finding their work more appreciated there, they remain in the other country. In consequence, nearly

SEA SERPENT OF THE AIR

Mysterious Airship Outbreak Prevailed in Many Parts of Canada.

A despatch received yesterday from Swift Current, Sask., says: "A flying machine carrying red and green lights on the rear end and a powerful searchlight passed over here shortly after one o'clock this morning, travelling about six hundred feet high. People of Irvine, Alberta, saw it at 4.35 going west. But this is not all. St. Hyacinthe, Que., saw the mysterious air craft, flying westward, on Sunday, and Fort William takes up the wondrous tale on by two train crews some distance apart, while Mrs. Grenfell, wife of the noted deep sea missionary, writes that an airship was seen over St. Anthony's, in far northern Labrador, a week ago. Prince Rupert, B.C., has not been heard from yet, but hopes are still entertained. Drummondville, Que., was too much up in the air over nominations yesterday to notice other aerial phenomena. "There is no doubt about it," said a prominent official of the Dominion Alliance last night, when asked for his opinion. "We must banish the bars."

SOCIETY NOTES

Mrs. H. C. and the Misses Tomlin will receive on Thursday, November 3, and not again until the New Year. A quiet wedding took place at the home of Mrs. J. Morgan, 9 Montebello street, on Wednesday, when her eldest daughter, Lillie May, was united in marriage by Rev. James Grant, of Claremont, to Charles E. Wagg, of Toronto, second son of Mr. and Mrs. Wagg of Claremont. To the wedding, the bride, gowned in cream serge and carrying a shower bouquet of white chrysanthemums, entered on the arm of her cousin, C. G. Found. Miss Gertrude Morgan, sister of the bride, and D. Wagg, brother of the groom, attended. St. Basil's Tennis Club dance was held in the Metropolitan Assembly Rooms, 70 copies attending. The guests were received by Mrs. Geo. F. Madden, Mrs. J. J. Seitz and Mrs. Armand N. Heintzman. Miss Gertrude Morgan, St. Catharines; Mrs. Nanno Hughes, Toronto; and Mrs. Douglas Young of Kingston, are in Montreal to attend the meeting of the Imperial Order of the Daughters of the Empire, to consider the gathering called to meet in England next summer by Lady Jersey.

THE CREDIT SYSTEM

And How It is Successfully Applied to Retail Trade.

Altho the credit system has occasionally been abused, there can be no doubt that within proper limits it is not only permissible but may be of very great convenience and advantage. In a country with a high standard of living, such as Canada has, there is a natural and healthy ambition to be well and neatly dressed. So general is this practice that in no respect do visitors compare Toronto more favorably with old world cities than in the smart appearance of the people. Whatever class they belong. Well cut and well fitting clothes it is therefore the commendable desire of every one to possess. But it is not always convenient for those dependent on a limited salary to pay down all the money required for seasonable dress. Here the credit system comes in beneficially and particularly one of its chief exponents in Toronto, D. Morrison, the well-known ladies' and gentlemen's tailor and outfitter of 373 West Queen-street. Mr. Morrison has long made a specialty of the credit trade, and it has succeeded beyond his anticipations. Each year he opens thousands of new accounts, and this he is again doing. For Thanksgiving he offers an exceptionally favorable opportunity to dress smartly on credit terms within the reach of everyone. His stock is high class and thoroughly up-to-date, and his custom tailoring cannot be excelled. Read his display advertisement on another page and call and inspect his stock while his offer remains open. No one has yet regretted opening an account with him.

NO WORLD'S FAIR

To Celebrate 300th Anniversary of Founding of Manhattan. NEW YORK, Oct. 27.—The proposal made some months ago that New York City hold a world's fair in 1913 to celebrate the 300th anniversary of the founding of Manhattan Island, was rejected, on the ground of expediency, at a meeting to-day of the committee of 100 appointed by Mayor Gaynor to look into the matter. It was argued that there would be lack of time to perfect such an immense project, and that the transit facilities were inadequate to meet the demands. CALLS CRIPPEN A LIAR. MONTREAL, Oct. 27.—There are four quartermasters on the C. P. R. steamer Montrose, from which the murderer Crispin was taken prisoner, and they have all sent a signed statement to Captain Knudsen to say that Crispin is a liar when he states that he had entered into a conspiracy with a quartermaster to connive at his escape.

"CANADIANS FOR CANADA"

MONTREAL, Oct. 27.—(Special.)—Mayor Hopewell of Ottawa does not believe in the cry of "Canada for the Canadians," that gentleman stating today, while addressing the board of trade and chamber of commerce, in the interest of the Georgian Bay canal, that "Canada is none too big and it should be 'Canadians for Canada,' instead of 'Canada for Canadians.'"

WORK FOR G.T.R. STRIKERS.

MONTREAL, Oct. 27.—(Special.)—Another effort is being made to find work for those of the Grand Trunk strikers who have not yet been taken back, and the statement is made that ten per cent. of the men are still unemployed. This matter was the subject of an interview to-day between Hon. Mackenzie King and General Manager Hays, and it is understood that the Grand Trunk officials will endeavor to find the required work.

TORONTO SUFFRAGE ASS'N NOW IN NEW QUARTERS

Mrs. Hammond Bullock, President of Quebec Suffrage Association, Gives a Splendid Address.

The Toronto Suffrage Association held their first open meeting at the Women's Suffrage Headquarters...

Yonge-street, yesterday evening, with an attendance that was most gratifying...

The president, Mrs. Margaret Gordon, spoke of the importance of having a woman's suffrage...

As manufacturers, and thru our agencies and our traveling staff, we are proud to be a part of the trade conditions in our office.

"We have been preparing to invade the United States markets this season. At present we are working quietly on this project, and will have some public announcement to make shortly.

The Pine Beach Citizen

VOL. 1.—No. 9. PINE BEACH, OCT. 28, 1910. Price—5 minutes' attention.

There's Room for the Children in Pine Beach

"The jury cannot let this opportunity pass without impressing upon the minds of parents and guardians of the city the grave necessity of keeping children of tender years from playing in the roadway."

Pine Beach is a home spot that gives every opportunity for the children to indulge in safe and healthy recreation.

There are some very desirable lots available in Pine Beach that may be secured at prices ranging from \$8.00 to \$35.00 per foot.

Easy Terms Prevail.

GORHAM FOUND GUILTY OF HIS MOTHER'S DEATH

Jury Added Strong Recommendation to Mercy—Sentence Was Deferred.

PETERBORO, Oct. 27.—(Special.)—"We consider liquor was the cause of his act," said the foreman of the jury, in returning a verdict of guilty, with a strong recommendation to mercy, in the case of James Gorham, the 20-year-old boy, who killed his mother with a revolver bullet that was meant for P. C. Meharry, an officer who was trying to arrest him.

Chancellor Boyd agreed, with the jury in their finding, and said he would communicate with the proper authorities, with a view to dealing with the recommendation for mercy. Sentence was deferred.

Gorham seemed pleased with the verdict. At the resumption of the hearing this morning Sister Mary St. Davis was another Roman Catholic school teacher called to give evidence of Gorham's early career.

"Is he mentally defective?" asked Mr. O'Connell. "Yes, he is. I decided that from the first day I saw him."

John Gorham, the accused's eldest brother, said his brother did not seem to know when he was doing right or wrong. He often frothed at the mouth when in a passion.

Gordon Kellar testified to seeing the prisoner on the morning of the day of the murder cutting wood with two other men. They had a dozen bottles of ale with them. Late in the afternoon he saw him staggering and coming out of the house with a revolver.

Dr. St. Charles, connected with asylum work at Mimico and Orillia, testified to examining the prisoner on October 20, and he considered that the prisoner was suffering from epileptic insanity.

"He didn't know who the King of England was. He could name various countries, but it was impossible for him to tell their location. He even didn't know where the United States was."

Dr. Bruce Smith said that he examined the prisoner three times and found that he could give a fairly good intelligent history of himself. In his opinion he never showed signs of insanity that he was an epileptic lunatic.

ESTATE NOTICES

NOTICE TO CREDITORS—IN THE Matter of the Estate of Joseph J. Wilkie of the City of Toronto, in the County of York, Shoe Repairer, Deceased.

NOTICE is hereby given pursuant to Sec. 28 of Chap. 129, R.S.O. 1897, that all persons having claims or demands against the estate of the said Joseph J. Wilkie, deceased, who died on or about the eighth day of August, 1910, are required to send by post, prepaid, or deliver to the undersigned, Administrator, The Trusts and Guarantees Company, Limited, Toronto, or to the undersigned, G. M. Gardner, its Solicitor, on or before the 20th day of November, 1910, their claim and particulars and addresses with full particulars in writing of their claims, and statement of securities if any held by them duly verified by statutory declaration.

And take notice that after the said 20th day of November, 1910, the said Administrator is proceeding to distribute the assets of the said deceased among the parties entitled thereto, having regard only to the claims of which it then has notice, and the said administrator will not be liable for said assets, or any part thereof, to any person or persons of whose claims notice shall not have been received by it or its said solicitor at the time of such distribution.

Dated 27th October, 1910. THE TRUSTS AND GUARANTEE CO., LIMITED.

NOTICE OF CANADIAN NORTH WEST LAND REGULATIONS.

ANY person who is the sole head of a family, or any man over 18 years of age, may acquire a quarter section of suitable Dominion land in Manitoba, Saskatchewan or Alberta, by applying to the Department of the Interior, Ottawa, or to the Dominion Lands Agency or Sub-Agency for the district in which the land is located, at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of an existing homestead.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within five miles of his homestead on a farm of at least 160 acres, or on a smaller farm occupied by him or by his father, mother, son, daughter, brother or sister. In certain districts a homesteader is permitted to acquire a quarter section alongside his homestead. Price \$20.00 per acre. Duties.—Must reside upon the land for a period of six months in each of six years from date of homestead entry including the time required for homestead patent and cultivation of fifty acres extra, who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead. Duties.—Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$200.00.

W. W. CORY, Deputy of the Minister of the Interior.

REFUSED TO RESCUE

Italian Vessel Declined to Take Off Crew of Sinking Schooner.

LONDON, Oct. 27.—The crew of the Maine schooner, Florence Leland, Captain George L. Holden and four men, who were picked up by the British steamer Commodore after their craft had been disabled in a storm, arrived at Liverpool to-day. The captain told of a ten days' battle with the elements in mid-Atlantic, before they were rescued by the Commodore. The men said that after the deck of the schooner was awash, they spoke a passing Italian vessel, which, however, ignored their appeal to be taken off.

Wounded in a Quarrel.

GODERICH, Oct. 27.—George Fraser, an Englishman, who was employed by the Canadian Stewart Company here, is in a critical condition as the result of a quarrel with a fellow-workman, Angus McLennan, of Port Albert. McLennan struck Fraser on the head with a crowbar, cracking his skull.

Killed by Train.

NORWOOD, Oct. 27.—John R. Cuthbertson, a former Norwegian boy, was run over by an Illinois terminal train at Wood River, and died shortly afterwards in St. Joseph's Hospital, where he was taken for treatment.

Appointed Lady Superintendent.

GALT, Oct. 27.—Miss Agnes H. Reid of Kingston was to-day appointed lady superintendent of the Galt Public Hospital from among 21 applicants. She is a graduate of Kingston and has been night superintendent at Wilmington, Del. Hospital, and lady superintendent of St. Luke's Hospital, Philadelphia.

TREASURER'S SALE OF LANDS IN ARREARS FOR TAXES

Township of Scarborough, in the County of York, Province of Ontario, To Wit:

By virtue of a warrant issued by the Reeve, under the seal of the Corporation of the Township of Scarborough, to me directed, bearing date the eighth day of August, 1910, commanding me to levy upon and sell the lands mentioned in the following list for arrears of taxes and costs due thereon, I hereby give notice that unless such arrears of taxes and costs are sooner paid, I shall proceed to sell by public auction the said lands, or as much thereof as may be necessary for the payment of the said taxes and costs.

A.C. Jennings & Co.

TENDERS FOR SUPPLIES, 1911.

THE UNDERSIGNED will receive tenders up to noon on Friday, 11th November, 1910, for supplies of butchers' meat, flour, oatmeal, potatoes, etc., for the following institutions: At the Hospitals for the Insane in Brockville, Cobourg, Hamilton, Kingston, London, Mimico, Orillia, Penetanguishene, Toronto and Toronto, nor for the Central Prison or Mercer Reformatory, Toronto, and the Hospital for Epileptics at Woodstock.

Exceptions.—Tenders are not required for the supply of meat to the Hospitals in Brockville, Hamilton, Kingston, London, Mimico and Toronto, nor for the Central Prison or Mercer Reformatory, Toronto.

A marked cheque for five per cent. of the estimated amount of the contract, payable to the order of the Provincial Secretary, must be furnished by each tenderer as a guarantee of his bona fides. Two sufficient sureties will be required for the due fulfilment of each contract, and should any tender be withdrawn before the contract is awarded, or should the tenderer fail to furnish security, the amount of the deposit will be forfeited.

Specifications and forms of tenders may be had on application to the Department of the Provincial Secretary, Toronto, or to the Bursars of the respective institutions. The lowest or any tender not necessarily accepted.

Newspapers inserting this advertisement without written authority from the Department will not be paid for it.

W. J. HANNA, Provincial Secretary, Parliament Buildings, Toronto, October 11th, 1910. 55

Cobalt—Mining Markets Experience Dull—Cobalt Routine of Quiet Trading

Speculation is Less Animated and Market Continues Soft

Wetflauer the Only Strong Point Among Cobalts—Other Issues Governed by Related Profit-Taking and Selling.

World Office Thursday Evening, Oct. 27. Cobalt stocks on the local exchange were generally quiet during the day, this being the market day, and resulting in some instances, in lower prices.

The general tone to the market was soft, and as the day wore on, depressions were made in prices of most of the active issues. These tendencies were accentuated as the day advanced, and the closing quotations were generally lower than the opening figures for the session.

In the cheaper stocks Right of Way topped a full two points at 33.00. The demand for this stock has been increasing since it was introduced by the Government.

Wetflauer was the only security to display any real strength. These shares were in very limited supply, and under a good demand registered a net advance of 5 cents at 45.00.

The market during the last few days has been dominated by a species of dormant speculation, and until a more pronounced interest develops, it is thought that a more active movement will be witnessed after the week-end and holiday, however, and a more pronounced demand will be looked for next week.

Wetflauer's strength was due to the fact that it was the only security to display any real strength. These shares were in very limited supply, and under a good demand registered a net advance of 5 cents at 45.00.

Table with columns: Standard Stock and Mining Exchange, Buy, Sell. Lists various stocks like Amalgamated, Beaver Consolidated, etc.

NEARLY THIRTY-THREE MILLIONS FOR RAILWAYS

Annual Report of Deputy Minister Campbell—Three Millions For Canals.

OTTAWA, Oct. 27.—The annual report of the railways and canal department was issued today. It contains the first report of the new deputy minister, A. W. Campbell.

The total railway expenditure amounted to \$23,562,684.48, of which \$2,292,114.33 was charged to capital, and \$21,270,570.15 to revenue.

The expenditure on the Intercolonial Railway amounted to \$2,042,476.78, namely: on capital account, \$1,278,400.00, and on revenue account, \$764,076.78.

The total government expenditure on railways prior to and since confederation amounts to \$1,187,000,000.

Sold Liquor to Proscribed Person. P. J. O'Neill and Frank Aedon, two Niagara bootleggers, were before Magistrate Cameron this afternoon.

HE MAY BE INSANE

Probable Line of Defence of the "Black Hand" Youth.

James Edward McCauley, a large raw boned youth of 23 years, was arraigned in police court yesterday upon a charge of demanding money by menace from J. C. Eaton by means of a "black hand" letter.

It is alleged also that he recently rented a transit and tripod from Consolidated Optical Company, and later pawned them for \$12; also that he procured another similar set of instruments a week ago.

The \$200 which was secreted as directed in McCauley's letter and later thrown away by him when arrested, was found by J. L. Birney, of Beattie-street, and yesterday returned to the police.

Laymen's Anniversary. The third anniversary of the Laymen's Missionary Movement is to be celebrated at St. James' Cathedral, Parish House on Tuesday afternoon and evening of next week.

Settlement of Queensland. At a largely attended meeting of the Women's Canadian Club in Conservatory of Music Hall yesterday afternoon, Mrs. David McConnell, Brisbane, Australia, gave an interesting talk on conditions in the island commonwealth.

Dispute Over a Patent. DETROIT, Oct. 27.—David A. Gordon, member of the Dominion Parliament from Kent County, Ont., has commenced suit here against Frank and Marion Maguire of Zanesville, Ohio, for \$250,000 of the sale of a license, covering a patent on three glass manufacturing machines invented by Frank O'Neill.

WILL REPARATION BE MADE?

If Not, Case Against Government on Indian Lands Will Proceed.

OTTAWA, Oct. 27.—(Special.)—The announcement from Winnipeg that Rev. John MacDougal is at Selkirk conferring with the St. Peter's Reserve Indians on behalf of the Dominion Government in regard to the sale of their lands, which caused such a sensation in parliament last session, when George Brantley, M.P., told the story, is considered here as forecasting action by the government.

Some time ago it was stated that unless reparation was made to these Indians the case would be taken into the courts. The initial steps toward this have now been taken, but procedure will be stayed if any indication is shown that justice will be done to these wards of the government.

As it has been the pioneer railway of Canada (being chartered in 1828), the Grand Trunk has also been the pioneer in many other respects—such as the erection of immense deep-draft elevators at its seaport and lakeport terminals, the establishment of trunk-carrying ferries across the rivers and great lakes; of welfare work, designed to interest and benefit its thousands of employees—such as life and accident insurance, superannuation and pension funds; the establishment of a library and reading room; the first and leading institution of this character being the literary and scientific institute at its great locomotive and car repair shops at Point St. Charles, Montreal.

Likewise, the Grand Trunk was the pioneer in the establishment of Railroad Young Men's Christian Association at various points along its line, commencing with the association at East Toronto, in 1886, and which, under the present management, has grown to 13 associations, now located at the following terminals: Chicago (Eldon), Chicago (Dearborn Station), Durand, Mich.; Bridgeburg, Ont.; Island Pond, Vt.; Mimico, Ont.; Niagara Falls, Ont.; Point St. Charles, Montreal; St. Stafford, Ont.; Alandale, Ont.; and Portland, Me. This has involved an expenditure on capital account for buildings and grounds of \$82,258, to Sept. 30, 1910. The grand trunk is at present contributing \$100 per annum toward the upkeep and operation of these various associations.

There is now a total membership of over 2500 of the employees of the Grand Trunk, although the association buildings at the various terminals are also used frequently by many of the employees who are not active members. The company now has under contemplation the establishment of three of its large terminal points, viz., Turcot (in the western portion of Montreal), Belleville and North Bay. The association at Montreal is the largest—having a building worth over \$25,000 and with membership at the present of 520. It has had the hearty support of the ministers of the various denominations located in that part of the city—the Rev. Father O'Meara of the Roman Catholic Church and encouragement of the work at various times.

The Grand Trunk has been largely instrumental in assisting in the establishment of summer camps for city associations—such as the large summer camp at Lake Couchiching (86 miles north of Toronto), which is like resort that will develop until it is like camp at Silver Bay, Lake George, N. Y. The camp on Lake Couchiching was first established on land owned by the Grand Trunk for a nominal lease to the association for a nominal consideration. It is still occupied annually for the boys' department under the auspices of the Toronto association.

A Young Burglar. Earl Chilton, 19 years, 110 Ligon-street, was arrested yesterday while waiting of the Central Prison with waiting for another man, who had been serving a term under the name of Chilton, and was due for release. Detectives Jarvis and Turner took the premises of George Humphrey, hardware merchant, 284 West Queen-street, and the Canadian West Queen-street, and the Canadian Sportsman, in York-street, which was remanded till Nov. 1. He has already served a term for six house entries in the east end.
