200 SHIPS TIED UP IN NEW YORK HARBOR

Strike Which Affects Atlantic and Gulf Coasts is Spreading to Various Lines.

New York, July 11.—More than 200 coastwise vessels were reported tied up in New York harbor tonight as a result of the strike of marine firemen, water tenders and others who walked out yesterday in an attempt to enforce demands for a wage increase of \$15 a month.

During the day the walkout spread to vessels of the United Fruit Company, and the crew of the Turrialba struck as work of loading the steamer was under way. The crew of another United Fruit steamer threatened to join the strikers tonight if a settlement was not reached.

Some of the smaller transatlantic freight lines are also affected and the Seamen's Union claims to have received word from England that American vessels reaching British ports with non-union crews will not be unloaded.

A statement issued late today by the union leaders gave a history of negotiations which have been going on for a month between the officers of the American Steamship Association and representatives of the men. The association offered a 10 per cent. increase in wages and this was rejected. The statement adds that nothing further could be accomplished "because of the attitude of the men employed by representatives," and accordingly a strike was ordered.

Position of Owners. The position of the shipowners was stated by H. H. Raymond, president of the American Shipowners' Association and of the Clyde and Mallory lines. Mr. Raymond declared that the policy of a closed shop was un-American, and that the shipowners would not discuss it. He claimed that only 40 per cent. of the men employed by the coastwise lines were members of unions, and that closed shops would mean discharge of thousands of men who had been employed for years by the shipping firms.

Mr. Raymond said that a committee had been appointed by the Shipowners' Association to confer with the strikers and was ready to take up the questions of wages and working conditions, but would not consider the closed shop. Officials of the International Seamen's Union, with which the strikers' organizations are affiliated, estimated that 40,000 men are directly affected and that they would be joined by the stevedores, cooks, stewards, engineers and mates. Should the claims of the union men be made good, 40,000 men will walk out, paralyzing coastwise shipping.

Growing Sentiment Among British Against Trial of Ex-Kaiser in London

London, July 11.—Predictions that the project to bring the former German emperor to trial in England will be abandoned are growing in view of the almost unanimous opposition of the newspapers of all parties. Virtually all the newspapers, with the exception of the Northcliffe press, are denouncing the plan.

The Northcliffe papers have taken no stand in the matter but print many letters from prominent persons opposing the trial. The influential weekly reviews all oppose or deride the project of bringing the former emperor from Holland to London.

Water Runciman, former member of the cabinet, writes: "Feeling in this country is justifiably bitter against the Kaiser. Indeed it is so bitter that the public might take the law into their own hands and lynch him." The Saturday Review says: "It is a mistake of taste, a want of tact. London is the last place in the world that ought to have been chosen; first, because the English are the chief enemies of the Germans, according to the Germans; secondly, because London is the court of William of Hohenzollern's first cousin and the home of his illustrious grandmother; thirdly, because William has often been our guest; King George and the emperor must in their younger days have lived in some intimacy."

After declaring labor had succeeded in having the properly qualified men in Winnipeg abolished, he said, "But labor is not yet represented in the Dominion house."

He declared that Fred Dixon was the only true labor man in the house, "and one reason why labor should be at Ottawa is because the federal authorities control the military and the courts. Labor is not going to get what it wants until it in some way gets control of the military and the courts."

Question of Trial.—In dealing with what he considered a maladministration of justice, he cited the amendments to the immigration act, whereby any one of the Winnipeg strikers born out of Canada may be refused trial by jury, and may be brought before a committee of the immigration department and without counsel, without a hearing, without even being there himself, may be ordered to be deported.

"You, who were born in England, Scotland or the United States," he exclaimed, "you have absolutely ceased the right to trial by jury. They may go into your homes by night, as they did into the homes of those men in Winnipeg, but you have no right to a trial."

### SISTER BASIL CASE AGAIN BEFORE COURTS

Special to The Toronto World.—King on, July 11.—The Sister Basil case is again before the courts. It will be remembered that the case of Sister Basil against Archbishop Spratt, et al, heard some time ago before the court of appeal at Toronto, gave a verdict in favor of the archbishop. Proceedings were taken to seize the personal belongings to satisfy the judgment against the archbishop, similar to the case of the Holy Family, Dr. Phelan, A. B. Cunningham, counsel for Sister Basil, has now taken out an order for the examination of the archbishop, who is to appear in person. The salary of the archbishop is \$6000.

### BUTT OF MATCH CLUE TO ROBBERY

#### Unimportant Detail Enabled Detective to Accuse Elevator Man.

Little articles of unimportance have often proved the clue to the unmasking of a crime. In a case which occurred recently in New York city, a discarded butt of a match proved to aid in the solution of a robbery.

A resident of the city reported to the police that his apartment had been broken into and his cash and jewelry stolen. He reported the matter to the police and they proceeded to investigate. A search of the apartment revealed a discarded butt of a match. The detective followed the trail of the match and discovered the identity of the burglar.

### HARD BISCUITS MAKE "CUTLETS" FOR ARMY

The Germans have found a new method of treating British army biscuits, otherwise known to the troops as "fairly cakes." The Cologne Y.M.C.A. Bulletin quotes the following from a German paper on the Rhine:

"English biscuit Cutlets.—Soak the biscuit overnight, cut it up into small pieces and mix with it parley, salt, pepper, butter, finely-sliced onion or leek and some cold water. Fashion into cutlet form and bake. Excellent with spinach and sauerkraut."

#### SCHOOL IN WEST VITAL NECESSITY

#### Deputation of Ratepayers to Demand Better Accommodation for Children.

A well-attended meeting of the Danforth Ratepayers' Association was held on the lawn of W. C. Curtis residence, Wellington avenue, recently when many questions of live interest affecting the district were discussed.

School accommodation for the children in the western section of S. S. St. was discussed at length. W. M. Oxy pointed out that the larger proportion of pupils attending Secord school, reside in the Danforth district, and that instead of adding an additional wing to that building as is at present contemplated, it would be preferable to build a school on the western part of the school section.

J. Moore, T. L. Hutchinson, W. Curtis, and other endorsed Mr. Oxy's suggestion and it was decided that a strong deputation consisting of the executive committee and residents of the Danforth Park district, will appear before the school trustees at their meeting on Wednesday next to urge their claims for the necessary school accommodation.

#### Electric Light Delays.

The delay in the installation of the electric light by the Hydro commission in the Danforth Park district was next discussed. T. L. Hutchinson pointed out that no effort has yet been made by the Hydro authorities to put into effect the intentions of the by-law passed some time ago, and no work has been started up to the present.

In conjunction with the Woodbine Heights' Association a joint deputation will appear before the York township council at their next meeting to request them to bring pressure to bear upon the Hydro electric commission in this regard.

#### WESTLAKE AVE. REPAIRED.

For the best collection of vegetables in York county, Reeve Miller will present a handsome berry set to the winner in the coming fall fair in September. He has also donated a sum of money to the poultry section of the fair.

According to Comrade Tom Abram of G.W.V.A. there are many agents around endeavoring to mislead returned soldiers in their efforts to secure land on which to build new homes. Abram, who is a member of the York township housing commission, gave this information at a meeting of the Danforth branch of the G.W.V.A. last night, and further said one agent brought in over one hundred applications for sale which were refused by the commission, who have endeavored to make it clear that returned soldiers must make personal application if they wish to secure the land.

#### TODMORDEN CHURCH WELCOMES VETERANS

The 1700 or 1800 men thus concerned will return to work on Monday morning, the vote being 73 per cent in favor of accepting the amended offer of the company.

### FATHER TIME

When we reach the age of 40 or 45, Father Time steps in and makes a change in our sight. About that age, there is noticeable more or less difficulty in discerning objects equally well close at hand or at a distance. When this condition appears, it is nature's warning that the delicate muscles of your eyes need to be fitted with exactly the glasses you require. Our many years of experience are at your service.

### CANADIAN PACKERS SHOULD STUDY EAST

Replying to an enquiry from the Canadian trade commission at Ottawa, regarding possibilities of trade in Canadian fish in Japan, A. E. Bryan, trade commissioner at Yokohama, says: "Wholesale grocery travellers from other countries come out once a year or so to show the various brands; they bring their supplies with them and quote right on the spot. So far as the writer is aware, there has never been any Canadian wholesale grocer or traveller come to Japan for this purpose. Today, when I was in one of the stores an American traveller had about half a dozen large trunks open, and was displaying as well as taking orders for the various lines which he carried. Every thing looked attractive and he did some good business. This should be done by Canadians. Fish packers should combine for export and should send a traveller out once a year who would carry their goods, as well as procure a general line of Canadian groceries. Nothing can be done here without samples and prices (i.e. Vancouver or preferably C.I.F. Yokohama). Canadian packers should come out and study the market not only here but in China, Korea and other eastern countries."

# MC'DONAY "STARTING DAY" FOR SALESMANSHIP CLUB MEMBERS

### Many Members Have Not as Yet Made an Active Start--Everyone is Requested to Report Monday, and Make Next List of Standings Show More Speed.

The list of standings as published today shows quite a number of new entries, many of whom have already made an active start. It also shows that quite a number of those who had 5000 credits in the last list have failed to work, and will now be looked upon as active contenders for the 5000 home, the four automobiles and other prizes offered by the World.

Every member whose name is entered in the list should endeavor to secure at least one or two subscriptions, so that they will be classed among the active members, who are those who have moved away from the 5000 class.

Monday has been set aside as "Starting Day," and every member of the club has been earnestly requested to make a report on Monday, with at least one subscription and more if possible. Monday will be the end of the first real week of the campaign, for the first list of entries was published last Tuesday morning.

While around 350 have so far entered the campaign, only a small percentage of these have as yet turned in any subscriptions, and it is possible that some are working, and have not as yet made a report, while many others very likely have not as yet done anything. If every member will co-operate in making Monday a real "Starting Day," the next list of standings will be much more interesting. As soon as a member moves away from the 5000 mark, it is much easier to get subscriptions, for his friends see that he is really working.

The World has started without further delay, for it means much to everyone to make a showing between now and July 30, during which time the member gets in extra credit. This offer allows 50,000 extra credits on every six new 6-month subscriptions, their equivalent in longer or shorter term subscriptions. This is the most important period of the campaign. Those who make a showing now will have no difficulty in keeping up with the pace toward the finish, but those who wait until later will find they are working under a big disadvantage.

Once more we ask every member to help make Monday, a real "Starting Day." If every member does his or her part, what a big day it will be. There is still room for more entries, and everyone who has been reading the announcements of the Salesmanship Club from day to day, is invited to become a member. The prizes are rich. The plan is fair and square to all concerned, and anyone who does not take advantage of this big opportunity, so far no one member has made an unusual showing, and it is better to enter now than to wait until later. All that is necessary is to send in your name and address. Full instructions will be given by return mail.

OTHER PEOPLE'S OPINIONS

The World will gladly bring before you the opinions of other people, dealing with current topics. As space is limited they must not be longer than 250 words and written on one side of the paper only.

York County and Veterans.

Editor World: I wish to draw your attention to a part of the report of the Earlscourt Branch, G. W. V. A. in your issue of Saturday, July 7. This report contains the following: "According to statements made by some of the veterans, Mount Dennis, Weston and Silverthorn branches of the G. W. V. A. had been well taken care of by York Township."

On making inquiries to the secretary of Earlscourt branch, I am informed that the statement made was quite correct. As an example, the Earlscourt branch had not taken care of these particular branches. No doubt the misstatement was due to a typographical error, but it would be better to state that Earlscourt, Silverthorn and Weston branches of the G. W. V. A. have not only not given, but refused assistance to returned soldiers in York Township.

BENJ. SCHLESINGER TALKS TO MERRICK

President of Garment Workers' Union Means to Abolish Piece-Work.

EMPLOYERS ADAMANT

Some Have Accepted Demands; Others Slow to Respond.

"I say to Mr. J. G. Merrick and I say to the employers that if he or any other manufacturer or manufacturer's agent in Toronto believes that the system of piece-work should be maintained, he may rest assured that the system of piece-work has died and is buried for ever."

Benjamin Schlesinger, president of the International Union of Ladies' Garment Workers, in the course of a stirring address delivered before the members of the union at a mass meeting held yesterday afternoon at the National Theatre, Dundas street.

It is because of the "plus service" quality of 3450 Insulators that Champions has the ability to resist, to such a marked degree, sudden temperature changes, vibration and explosive shock in the heaviest motor or engine.

You can readily realize why dependable, efficient Champions are regular factory equipment in Ford, Overland, Studebaker, Maxwell and over two hundred other makes of gasoline motors and engines in Canada and the United States.

This indorsement of the world's greatest engine makers is your safest guide in purchasing spark plugs.

"Champion" on the insulator means a better spark plug for your motor or engine, regardless of its name or use.

Every Champion is guaranteed to give "Absolute satisfaction to the user or full repair or replacement will be made."

"Yes or No? Another Week. That theatregoers appreciate and enjoy comedy drama as much in the summer months as they do in the cooler period of the regular season is proven by the way in which 'Yes or No,' this week's comedy drama offering of Edward H. Robbins and his Plavers at the Royal Alexandra Theatre has been received.

"A Very Good Young Man." The comedy of experience which Edward H. Robbins and his Plavers were to present last week at the Royal Alexandra Theatre, has, because of the popularity gained by "Yes or No," been set back for one week. This comedy therefore will be offered to the theatre box office. The matinee will be on Wednesday and Saturday.

"Mickey" Remains at the Grand. Nothing offered Toronto theatregoers has attracted so much attention and created so much comment as the engagement of "Mickey," the sensational photodrama, which completes a six weeks' run this evening and which will enter upon its seventh week, with a matinee, on Monday. The engagement clearly establishes the fact that Toronto is a big city, and that the majority of the people are theatre-goers who appreciate a good offering.

"At Lewy's Next Week. A real, red-blooded story of ranch life in Arizona and New Mexico, abounding in thrilling situations and suspenseful moments is William S. Hart's newest picture, "Square Deal Sanders." to be shown next week at Lewy's Theatre and Winter Garden.

NORTH WILL HOLD MASS MEETING

Question of Secession From City to Be Discussed on Thursday.

At a meeting of the North Toronto executive on Thursday night, it was decided to hold a general mass meeting of the ratepayers of the district on Tuesday next, when the question of secession from the city will be discussed and a campaign for this purpose inaugurated.

It was the opinion of the meeting that the ratepayers of North Toronto were suffering from an apparent misinterpretation of a clause in the D.S.O. agreement and that every settlement of transportation problems of the district had been blocked by the Hydro-Commission on its interpretation of the clause.

It is stated that in the first half of this year Toronto had only three deaths from typhoid fever, and two of these were known to have been people who were infected outside of the city. This has not before been equaled in Toronto. The number of cases, 18, is also lower than any before. As regards infant mortality, the number of deaths registered under one year of age was only 70, the smallest number recorded in June of any year for which records are available. The city medical health officer's report for June gives deaths from all causes, as 297, compared with 425 for the same month a year ago.

Then I tried another doctor, but with no better results. One day I went home to my mother, telling her how miserable I felt, and that the doctor's medicine had not done me any good. Mother asked me why I did not try Dr. Williams' Pink Pills, and as I was glad to try anything that might help me I got three boxes when I went back home. By the time the second box was used there was no doubt they were helping me, and I got three more boxes. Now when I hear people talk about feeling weak or miserable I always recommend Dr. Williams' Pink Pills and tell them why I did for me, and in similar cases I shall continue to recommend them."

### THREATENING POWER OF PACKING HOUSES

Report by U. S. Commission Shows They Are Acquiring Control of Foodstuffs.

#### FINANCIAL POWER

Have Acquired Affiliation Thru Stock Ownership Representation in Banks.

Washington, July 11.—An approaching packer domination of all important foodstuffs in the United States and an international control of meat products with foreign companies seem certain unless fundamental action is taken to prevent it, the federal trade commission declared today in part one of its report to President Wilson on the "extent and growth of power of the five packers in meat and other industries."

"A fair consideration of the course the five packers have followed and the position they have already reached," said the report, "must lead to the conclusion that the freedom of the market of the country's food industries and of the by-product industries linked therewith. The meat packer control of other foodstuffs will not require long in developing."

Declaring "the history of the packers' growth is interwoven with illegal combinations, rebates and with undisclosed control of corporations," the report urged the importance of full publicity of corporate ownership for all industries.

Alleging that the "big five" packers—Swift & Co., Armour & Co., Wilson & Co., Morris & Co. and the Cudahy Co.—jointly or separately, wield controlling interests in 574 companies, minority interest in 95 others and a determined interest in 93—a total of 762 companies—and that they produce or deal in some 775 commodities, largely food products, the report gives this picture of growing packer invasion into related and unrelated industries:

**Growing Packer Invasion.**  
"In addition to meat foods, they produce or deal in such diverse commodities as fresh tomatoes and beans, leathers and tanned skins, breakfast foods, curled hair, soap and washing powder. Their branch distribution of meat and poultry, but take on the character of wholesale grocery stores, dealers in various kinds of produce and jobbers to special lines of trade."

"They have interests large enough to be a dominating influence in most of the services connected with the production and distribution of animal foods and their by-products, and are reaching out for control, not only of substitutes for animal food but of the integration of their business has led them. They are factors in cattle loan companies, making the necessary stock; are interested in railways and private car lines transporting live stock and manufactured animal products; in most of the important stock yards companies, the public market for the bulk of food animals, and in live stock trade papers, on which growers and feeders rely for market news."

**Interested in Banks.**  
"They are interested in banks from which their competitors packing houses borrow money; in companies supplying machinery, ice, salt, materials, boxes, etc., to themselves and their competitors; they are principal dealers on the provision exchanges where future prices in standard cured animal products are determined; they or their subsidiary companies deal in hides, also, fertilizer, material and other crude animal by-products; purchase from other packers these crude by-products, and, through their own manufacturing plants, produce a further stage than most of their competitors."

"They are important factors in the leather industry, in salmagundine and hard substitutes in cotton-seed oil, in fertilizers, in soap, in glue, etc."

"Their vast distribution system, with the advantages arising from the control of private cars, cold-storage, and a network of branch houses, has enabled them to extend their activities on a large scale into poultry, eggs, cheese, butter, breakfast foods, canned vegetables, soda fountain supplies and other lines."

"In England, France, Italy, Holland and other European countries, large meat distributing companies have been organized by the packers to sell the meats from their plants in the United States, Argentine, Uruguay, Paraguay, Brazil and Australia."

**The Financial Power.**  
"As to financial power, the report said in part: 'The packer has drawn to a marked degree upon the banks of the country for liquid funds. To assure himself loans ample to his purposes, the big packer has secured affiliation thru stock-ownership representation on directorates and in other ways, with numerous banks and trust companies.'"

"The reason why the packers are seeking control of the substitutes for meat—the foods that compete with meat—are obvious. If the prices of substitutes for meats are once brought under packer control, the consumer will have little to gain in turning to them for relief from excessive meat prices."

"Judged conservatively by trade estimates the big five handle at least half of the poultry, eggs and cheese in the main channels of interstate commerce."

"Recently the big packers began dealing in various staple groceries and vegetables, such as rice, potatoes, beans and coffee and increased their sales at such a rate that in certain lines they have become factors of great moment."

**Activities in South America.**  
"Referring to the packers' activities in South America, the report said that from establishment of a single plant in Argentina in 1907 by Swift and Company, the American packers, Swift, Armour, Morris and Wilson, had developed by 1917 until for that year they exported 57.4 per cent of all exports of frozen and chilled beef from Argentina and Uruguay. 'It is significant of their power and the rapidity of their action,' said the report,

### FOUGHT INDIAN FIGHT AGAINST BOLSHEVIKI

American Company, Surprised Near Vladivostok, Rallied in a Log Cabin.

Romanovka, Siberia, July 11.—It was at this little village, 50 miles northeast of Vladivostok, that at dawn on June 25 a force of 200 Bolsheviki attacked an American camp in which were 74 men of Company A, 31st Infantry, killing 19 and wounding 27 others, two of whom died of their wounds.

The men of Company A who were guarding the railway from Vladivostok occupied a row of tents pitched near the railroad. The Bolsheviki crept up and hid in the dense underbrush, fence corners and woodpiles near the camp. At 5 o'clock they fired a volley which killed many of the sleeping Americans. Others who had been awakened by the first discharge staggered outside and were shot down as they left the tents.

Of those who escaped the first volley unscathed, some pulled on only light garments or two, clasped on their steel helmets and organized a centre of resistance in a log cabin, firing at the invaders from the puffs of smoke from the bushes.

Then for three hours the Americans fought as in an Indian battle of the yards company, relief finally coming to them when 17 men rolled in on a train after an American volunteer had run from the besieged cabin to the nearest camp, five miles distant.

The Bolsheviki, thinking large reinforcements were arriving, then withdrew toward the hills, dragging their wounded and some of their dead with them, but leaving behind eight of their number who had been killed.

**Forest Fires in Alberta Now Practically Controlled**

Calgary, July 11.—Forest fires west of here are now practically under control, according to Attorney-General Boyle, who made a trip to the fire area yesterday afternoon. Settlers and rangers have made a hard fight and the battle is not yet over, but the fires are now pretty well confined.

"That in 1910, three years after their entrance into River Plate (Argentina), they had secured control of over 40 per cent of the trade; that in 1915 they had substantially 65 per cent; and that their weighted average control during the eight years from 1910 to 1917 was 55 per cent. In this period they exported nearly 22,000,000 quarters of the beef from these two South American countries, which represents well over five million head of cattle."

The American packers control, or are associated with, 17 meat companies or holding companies in South America, according to the reports to the commission.

### FORDS IN COMPLETE CONTROL OF COMPANY

Mayor Couzens of Detroit Only Other Shareholder Under Reorganization Plan.

Detroit, July 11.—Re-organization of the Ford Motor Company is being completed, whereby Edsel B. Ford, 23-year-old president of the company, becomes, with the exception of one other stockholder, the sole partner with his father, Henry Ford, in the corporation. This announcement was made here today by Frank L. Klingensmith, vice-president and general manager of the company.

Mr. Klingensmith announced that the purchase had been arranged of all the minority stock excepting a block held by James Couzens, millionaire mayor of Detroit, and former vice-president of the company. Mr. Klingensmith and other officials of the company refused to divulge the amount involved in the purchase. It was estimated in financial circles, however, that it would total close to \$100,000,000.

Up to the present Henry Ford has held 53 per cent of the Ford Motor stock. The minority stock bought included that of John F. and Horace E. Dodge, heads of the Dodge Motor Company.

Today's announcement comes as a complete surprise in motor and financial circles, and has caused some weeks that another large automobile corporation was seeking the minority holdings.

**No New Company.**  
Mount Clemens, Mich., July 11.—Edsel Ford, president of the Ford Motor Company, stated that the re-organization purchase means that there will be no new automobile company formed, as had been planned by the Ford family and announced in California last March.

Wages, he said, would be increased from time to time, but he declined to confirm the report concerning a certain Ford employee, that a \$7 minimum would be put in effect soon.

He also declined to state the price paid for the minority stock. The Ford family now hold 59 per cent.

**Re-elect Miss A. M. Brown President of King's Daughters**

St. John, N.B., July 11.—The Dominion convention of the King's Daughters this afternoon re-elected Miss A. M. Brown of Toronto, president, and Miss L. Thorne of Fredericton, secretary. Mrs. J. E. Austin of Toronto was elected treasurer.

**Prince, During Canadian Tour, Not to Speak at Luncheons**

### THREE ALLIED WARSHIPS ARE ORDERED TO FIUME

ENERGETIC CAMPAIGN OF WORK ON ATLAS

Twenty Men Developing Rich Veins That Give High Values.

The exploratory work undertaken some time ago on the various properties of the Atlas Gold Mines at West Shining Tree was highly satisfactory...

Fifteen veins were uncovered. Four of them were carefully sampled and proved very rich...

The Evelyn gave \$80.65 per ton on a mill run of 1,500 pounds...

Results such as these naturally raised high expectations as to the success of the property...

Development operations which began during the present year are succeeding far beyond expectations...

This is due in part to the richness of the veins and in part to their relation to each other...

In fact, the vein system on this rich property lend themselves to rapid and comparatively inexpensive methods of development...

The Evelyn is the master vein of the system and nearly all the others intersect it at some angle...

A shaft followed by a drift on the Evelyn will give access to practically all the other veins on the same level...

Two of these rich veins can be seen on the face of the cliff on the west shore of Wasapika Lake...

A drift is going in from the lake level on the larger vein. As the cliff is about 60 feet above the water...

The full equivalent of a shaft 90 feet deep supplemented by a drift on the vein at the same level...

In other words, the cost of shaft sinking at this point is supplemented by the "backs" for 90 feet are available for stopping...

Twenty men are now employed on the Atlas under the able direction of Charles L. Hirschman, M.E., B.S.

The company is incorporated under the Ontario Companies Act. It owns or controls under option agreement 475 acres, 340 of which are in the Wasapika section of the camp...

The remaining 135 acres adjoin the Holding Mine. The entire acreage was secured after the exploring operations already mentioned...

Before the start of the work on the Atlas and to be ready for a full contract has been let for a large contract for diamond drilling...

The plan is now on the way to the property and the government agent, J. F. Whitson, is putting the finishing touches on the road so as to admit the movement of boilers and heavy machinery...

Because of its large acreage, numerous veins, rich ore samples, working capital and efficient and vigorous management, the Atlas is one of the leading properties of West Shining Tree...

It goes without saying that the Atlas on high grade ore is very great. Until the railway reaches the camp, the company must face mining and treatment costs of \$5.00 to \$6.00 per ton...

In fact, the Atlas could have worked at a large profit even during the war had it been then adequately developed and equipped with a modern reduction plant.

PRICE OF SILVER

London, July 11.—Bar silver, 53 1/2 per ounce, an advance of 1/4.

New York, July 11.—Bar silver, 106 1/2, an advance of 3/4.

Settlers of Kedgwick, N. B., Sued for Starting Forest Fires

Fredericton, N.B., July 11.—Twenty settlers of Kedgwick, the lumbering village on the International Railway in the midst of New Brunswick's greater area, are being proceeded against by the department of lands under the act respecting forest fires as a result of the recent forest fire which did upwards of \$150,000 of damage in that district...

The papers have been sworn out before Magistrate F. P. Matthews, before whom the twenty old defendants will appear at Campbellton, July 15. Some of the charges are of lighting fires without a permit, while others are charged with allowing fires to burn on their lands without making any attempt to put them out.
