LINE UP FOR PROTECTION TO ENCOURAGE ORE PRODUCER IRON BOUNTY DEBATE

**Test Resolution Introduced by
Comtee Finds Support on Both
Sides of House—Duty on Coal
Discussed From Geographical
View Point—Some Interesting
Arguments.**

Ottawa, May 21.—(Special).—A resolution, introduced by James Comtee (Rainy River), declaring in favor of restricting the bounty to Canadian iron and steel, made from Canadian ore; favoring a bounty to the producer of the ore as well as to the maker of the finished product; and declaring that coal for cooking should be admitted free of duty, precipitated a debate on the tariff, in which speakers on both sides of the house got under the banner of protection. Old-time Conservatives rubbed their eyes as Liberals, from the minister of customs down, one after another, boasted that the Liberal government had increased the bounties founded in 1894.

No one questioned the principle of protection. The differences in debate were prompted by questions of geography. The Nova Scotia members naturally opposed free coal, but were anxious for the iron ores from Newfoundland. A British Columbia member insisted upon the duty on coal, but was in favor of using foreign ores and opposed the present use of Canadian ore at all.

The members from Ontario naturally inclined to free coal and protected iron. W. F. Maclean (South York), while a strong protectionist, favored a flexible tariff on coal that would enable those parts of the country beyond Nova Scotia and British Columbia to obtain their coal without duty from their only available market. It is expected that the minister of finance will touch upon the resolution in bringing down the budget tomorrow.

Bounty for Producer.
Mr. Comtee pleaded for a thorough protective system. At present we were dependent on foreign ores. He favored a bounty of 50 cents a ton upon iron ore, 15 to date all the bounty had gone to the smelter; nothing to the producer. He favored a bounty of 35 per cent upon iron ore, which would be like made from Canadian ore. He would, however, still give a bounty of 15 per cent upon iron and iron goods made in Canada, even the iron from foreign ore. Canada could never be a self-reliant nation unless she could furnish her own iron from the basis of national industry. A high in iron, Canada was deficient in coal, especially Ontario. He favored admitting coal free of duty, at least all coal used in manufacturing. No country had ever built up the iron and steel industry except through government monopoly as protection. He cited England, Sweden, the United States and the United States. He commended the American policy. When their public works, including railways, were to be built, there was always a stipulation for domestic iron and steel. Mr. Johnson (Cape Breton) cordially supported the resolution if it could be extended to ores from British Columbia. He commended the legislation of the present government, but it had been based on a sliding scale. The present bounty was only 70 cents per ton. For some years, at least, the bounty should be no less. Nova Scotia smelters were dependent for ores from Newfoundland. The bounty should include iron and steel made from Newfoundland ore. He opposed admitting coal free of duty. Coke was now admitted free; that was sufficient.

CATTLE EMBARGO STAYS TILL IT'S THOUGHT OVER

**Earl Carrington Makes Positive
Announcement—Credits Canada
With Chivalrous Views.**

(Canadian Associated Press Cable.)
London, May 21.—Earl Carrington, replying to the Henage resolution in the house of lords, said the government didn't intend to bring any bill altering the embargo on Canadian cattle this session. Further there was no possibility of the private members' bill proceeding farther. Recognizing the magnitude of the interests involved, the government thought it best to allow public opinion to form itself.

He paid tribute to the chivalrous manner in which Canada had dealt with the matter, which was to her as important as to ourselves. Whatever the decision should be the country has assurance that even if received with disappointment it would be also received with loyalty and without resentment.

The Henage resolution, he declared, was injurious to agricultural interests. The future policy of the government would be matter of doubt, he said. Canada had not really suffered under the restrictions as shown by the amount of value of her cattle exports. There was no stigma placed on Canadian cattle by existing legislation. On the other hand there was no shortage of home cattle.

By Temporary Transfers of Property, Helped to Defeat Public Ownership Campaign.

Denver, Col., May 21.—Henry L. Dougherty, president of the Denver Gas & Electric Co., appeared in District Judge Johnson's court today, and refused to testify as to what he knew regarding alleged worthless tax receipts used in the franchise election of last week. He even refused to be sworn. Judge Johnson ordered Dougherty committed to jail. Soon after a temporary order was issued by the supreme court, restraining Judge Johnson from proceeding further, and Dougherty was released.

RIEL'S BRAINY AILY DEAD END COMES SUDDENLY AT BATOCHÉ

**Gabriel Dumont, Rebel Leader,
Dies Suddenly on Same Day as
Riel's Mother—How General
Middleton Spoke of Him.**

Rosthern, Sask., May 21.—(Special).—Gabriel Dumont, the man who furnished the skill to conduct the Riel rebellion, died suddenly near Batoché Saturday morning. Death was not expected, and Dumont had not been illing previously. He was about 75 years old, but quite robust.

Dumont figured in the rebellion as Riel's lieutenant. In reality he conducted the campaign which thrilled all Canada. Afterwards he escaped to Montana, Riel being captured and hanged. Dumont was granted amnesty and returned to Batoché, where he settled on a river lot, Gabriel's Crossing being named after him on the North Saskatchewan River, due east of Rosthern. He lived quietly, the Indians and half-breeds worshipping him.

A most peculiar coincidence in connection with the death of Dumont is the death of Riel's mother at St. Vital on the same day that her son's confederate passed away at Batoché.

The death of Dumont removes one of the central figures of the Canadian Northwest Rebellion of 1885. To him Major-General Middleton attributed the despatching of the bullet that went thru the general's hat at Fish Creek, where Dumont commanded the rebels and was killed in a crafty scheme to capture the general and hold him as a hostage. Dumont was active at Batoché.

The importance attached to Gabriel Dumont by Sir Frederick Middleton is shown in a report from the general to the war department, May 13, 1885, as a postscript to the report of the Fish Creek engagement.

"I find from papers captured at Batoché yesterday that the number of rebels at Fish Creek was 280, under Gabriel Dumont; that they had intended to march on to Regina or to the west, and then destroy us, taking me prisoner and holding me as a hostage to assist them in making terms with the government at Ottawa. Their scheme was defeated by my having my scouts go far in advance, which obliged them to fire on them and thus dispersed their ranks."

Brought Riel to Canada.
Major Boulton in his book tells of Riel, then in banishment in Montana, who was sought by the half-breeds of Saskatchewan. Gabriel Dumont was one of four who went to Montana to persuade him to come to Saskatchewan. Riel accompanied Dumont on his return to Canada. Dumont presided, sitting on a syrup keg, when at a session of Riel's provisional government in March, 1885, he was elected chief. Dumont and his companion, Dumars, and his companion, Dumars, fled to the States. In a week they were arrested south of the boundary and 350 miles away from the scene of the engagements. They were released by the American authorities, no application having been made for their retention.

Inventor Edison, by Auto, Speeding on to Cobalt

**Remarkable Journey Said to

Wizard's Desire to Perfect
Storage Battery Invention—
Carries Laboratory with Him.**

New York, May 21.—The American says: Marvelous discoveries of cobalt, the mineral which forms the key of Edison's new storage battery, which promises to revolutionize the application of electricity to automobiles and other commercial enterprises, has sent Thomas A. Edison hurrying to the mines, which have been discovered through his efforts, with two big automobiles carrying a portable laboratory and all the apparatus necessary to demonstrate the extent of the find.

Mr. Edison's representatives, who have been prospecting secretly for months, have secured options on a large tract in the supposed cobalt district, and are moving actively for improved fire protection.

ASSAULTED BY A NEGRO RESCUED BY TRAIN HANDS

**"Down South" Affair is Reported
From New Brunswick—A
Lynching Was Threatened.**

St. John, N.B., May 21.—(Special).—With blood flowing from deep scratches in her face and arms and her dress torn almost to shreds, Mrs. Annie Bettie, of this city, was rescued from the tracks by I. C. R. train hands at Passages, N. B., after having been assaulted by a negro, named George Hector, shortly before noon today.

Mrs. Bettie, who had been visiting in Passages, which is about 25 miles away, was waiting at a lonely siding for the arrival of the Quebec express, when the negro appeared and threw her to the ground.

Screeching and struggling she attempted to bribe him to desist, but he stopped only long enough to get her money and assaulted her again. Shortly afterwards the train appeared round the curve and the engineer, seeing the struggling woman, brought the train to a standstill and the hands rushed to her rescue, but her assailant escaped to the woods.

FOREST FIRES AT COBALT.

Cobalt, May 21.—(Special).—Forest fires are raging in many sections, but no apprehension is felt at Cobalt, as the wind blows steadily in the direction of Lake Temiskaming.

At Halleyburg great precautions are being taken back of Lawlor Town. The woods are burning, but no houses have been touched yet—in the ravine back of Cobalt three small houses have been destroyed by fire today and the power house at the Nipissing mine caught fire and burned.

A subscription was taken up by Dr. Hunter among Cobalt citizens, and soon aggregated in the hundreds of dollars. Men will be employed to go out and burn down several clearings so that the town may have a first rate chance if conditions should become dangerous. At present there is no danger. The Bank of Commerce headed the list with \$25.

AMENDMENT TO EXPORT BILL RENDS IT USELESS SAYS MR. WHITNEY

**Provincial Government Asks Mr.
Fitzpatrick to Allow Bill to
Stand Over Until Summer
Conferences Are Held.**

Premier Whitney has addressed the following letter to Hon. Mr. Fitzpatrick, minister of justice, at Ottawa, in reference to the bill introduced by Mr. Fitzpatrick "to regulate the exportation of electric power and certain liquids and gases":

Toronto, May 17, 1906.
My Dear Sir,—I have your letter of the 11th instant, enclosing copies of the amendment to the bill to regulate the exportation of electric power, etc., and of the proposed amendments thereto.

It occurs to me that the bill, with the amendments thereto, may possibly result in consequences more serious than perhaps have been anticipated. Recognizing the right of the Dominion parliament to impose licenses, or stop exportation by any general bill, the proposed amendment would leave the Ontario Power Company without any restriction, and would, therefore, render the bill useless. This is the view which is taken by the provincial government, after giving the matter careful consideration.

Then, having reference to section 4 of the bill, it is suggested that this should be amended by inserting after the word "shall" in the fourth line, the following words, "where such power of exportation exists by lawful authority," or some words of like effect.

Unless this is done, it might be claimed that the language used overrides the limitations imposed on some of the companies under provincial statutes, or agreements.

Then, having reference to the bill passed at the last session of the provincial parliament, it is suggested to provide for the transmission of electrical power to municipalities.

afternoon. While playing in the
yard with matches she set fire to her
clothing. The grandmother wrapped a
blanket around her, but the child
was terribly burned about the head
and side.

Dandelion Was Second and The Picket Third—Opening Day at Gravesend.

New York, May 21.—Coming thru a flying field with a splendid burst of speed, Tokalon, owned by J. W. Fuller and ridden by Bedell, almost a novice in the saddle, won the Brooklyn Handicap at Gravesend to-day. She covered the mile and a quarter in 2:05 3/5, within one-fifth of a second of the record for the race, and in the gamiest of drives, under whip and spur, nosed out the stout-hearted Dandelion in the last eighth of the race by two years ago carried his colors to victory in the same stake and the mighty Irish Lad and Hermis, an inveterate carrier of the laurels of the classic only a year ago.

Between the first and the last was as evenly a balanced field of thirty, with Dandelion being the favorite in a great event. Tokalon was at 25 to 1, while Dandelion was favored by a big play at 4 to 1, and Merry Lark, who was carried to the front by the late J. W. Fuller, was at 3 to 1. Half a dozen others were backed for thousands, and Tokalon herself, the her price varied little, was not by any means disregarded.

Roseben, the Johnson sprinter, was a factor in the race, for he took the lead in the first half and carried the others at a terrific clip the full mile, with Dandelion ever at his side. When Roseben's bit was shot the Hamburg colt, game as it mightly sire, but lacking that brilliant turn of speed, came up on the inner rail, and it seemed as tho the race was his. Then Tokalon, with swinging stride that made Tammany great of racers in his day, broke thru the line in front and pushed her nose against the leader's withers. Full half a furlong their heads rose and fell together, and inch by inch the little mare drew up and closed the space between them. A bound or two from the wire she showed in front, and they crossed the wire like a team driven to the last breath.

The Brooklyn never saw a finer day. Fair skies and a tremendous crowd favored the Brooklyn Jockey Club in the running of the classic made famous almost 20 years ago when Dry Monopole, Bluewing and Hidalgo flashed past the judges in first race of the stakes, muzzles apart. Had the Picket been closer up to-day's Brooklyn would have been a duplication of that never-to-be-forgotten battle.

The course was picturesque as usual with the gay plumage of women who filled the stands; the lawn was crowded, and the club house lined with those of the classic made famous almost 20 years ago when Dry Monopole, Bluewing and Hidalgo flashed past the judges in first race of the stakes, muzzles apart. Had the Picket been closer up to-day's Brooklyn would have been a duplication of that never-to-be-forgotten battle.

The first two curtain raisers were satisfactory to those who had placed their money, for the favorites won. The third event was the Expectation for 2-year-olds, and in it were entered Demund, the \$46,000 colt purchased by Paul J. Rainey, week two ago, and W. H. Daniel, whose selling price to E. S. Burke was \$35,000. Both in previous races had spreadeagled their fields, and they were backed to-day for fortune by their respective supporters, Demund at 3 to 5. They raced each other to the ground, and as they swung wide on the turn into the stretch, James R. Cozz's white animal, carried by Superman, a maiden, came thru on the inner rail. Superman outfooted Demund home and took the stakes, with Daniel's horse in second place. There were 30,000 persons within the gates of Gravesend when the sizzling trumpet sounded for the Brooklyn, but so general a play has been made the hardy voice or hand was raised to cheer the racers as they paraded. No great horse of class was there such as has brought the crowd to their feet in years gone by, for tho the Picket and Delhi, previous winners, pranced past the stand, it was thought that age and the glory of the past would have dimmed their ambitions, and so it proved with Delhi, who, tho the core, went out in front and led by his respective support.

But the Picket furnished ample proof of his worth, for he ran with a field that was bunched for a mile, and when the opening came he flew, and speed and was coming fast at the end.

The field got away with little delay, and passing the stand the first quarter Delhi and Roseben were leading. Roseben soon took command. Dave Johnson, his owner, who stood to win some \$20,000 from the stakes, looked up and eyed the winner and watched the great sprinter carry the others along the back stretch with only Dandelion near him.

Killing and Delandell and the pride of the Johnston stable, for the former was on the outer rail. Proper, Oxford, Merry Lark and Hermis, who were in the middle of the field, while Tokalon and Go-Between were right behind them.

So they ran to the mile, when O'Neill dropped back, but the stretch is quickly covered, and the Oxford fell out; Delhi was hopelessly lost; Proper galloped to the quarters of the crowd, suddenly found his speed and, straightened out, pulled along on the outside; the Picket opened the way for Tokalon and Delhi, who carried a splendid victory by a splendid ride. STILL GROTESQUE.

Hunt the whistle is a very funny game, albeit some poor creature is being fooled. A whole groat of amusement is being produced daily at Ottawa at the expense of the Canadian people.

Opposition members of the public accounts committee are hunting for the indubitable germ of graft which, they are convinced, permeates the North Atlantic Trading Company. They believe it is in the keeping of Mr. Preston. But they cannot catch the elusive thing.

PRESTON AND LEOPOLD THICK BUT ONE THING KEPT SECRET

Didn't Know That Man He Recommended Was an Agent for the N.A.T. Co.

Ottawa, May 21.—The examination of W. T. R. Preston, going on before the public accounts committee this morning, established that Preston and the man, Louis Leopold, who had a labor bureau in Charing Cross, were very intimate, and that Preston took steps in 1903 to bring the Allan Line into co-operation with Leopold in sending mechanics to Canada.

Letters from Preston to John Ennis, the Allan agent in Liverpool, had, according to Preston, been obtained by Lord Strathcona's secretary, on the strength of a letter which Preston produced, and in which Strathcona's name was used as authority.

Preston first explained the loss of letters and the location of some of them in Lord Strathcona's office. There was nothing in the letters to create a scandal.

Mr. Barker produced a letter from Preston to W. W. Cory, deputy minister of labor, referring to the situation between the government official and the old country, as bound sooner or later to create a public scandal.

Another statement volunteered by Preston was that he had a letter from Leopold on Friday or Saturday saying that he (Leopold) was the North Atlantic Trading Co's agent in London, carrying on a propaganda on the continent.

Coming back to Sallinger Preston said that his duty was to get from immigrants en route to Canada the addresses of relations on the continent, and that he had done so.

Mr. Barker asked Preston if he had any doubt as to whether or not they were exact copies, and was told: "I would have very serious doubts, considering where they came from."

Mr. Barker asked who the "responsible fellow" referred to was, and Leopold on my mind all the time," said Preston.

Preston did not give names, but said he knew four or five, perhaps more, booking agents, one broker and a man having inquiry offices.

Preston did not know whether the men he had mentioned were members of the syndicate. One he thought was and this man was worth five million marks.

The London Critic: Before leaving Mr. Sargent I must, even at the risk of being misunderstood, ask why he was not commissioned to paint the portraits of the King and Queen for the Canadian houses of parliament?

Mr. Barker asked why Preston did not correct the Dominion government when the statement was made that Preston's and Leopold's offices were not connected.

Why Liberals in Saskatchewan Could Resort to Any Desperate Method Without Fear.

Ottawa, May 21.—(Special.)—W. F. Maclean (South York) asked the government to-day whether there was any law on the statute books providing for the trial of contested provincial election cases in Saskatchewan.

It will be remembered that the Scott government only carried the Province of Saskatchewan last December by a resort to desperate methods, and it is a fair surmise that they knew at the time that they could do what they liked, as none of the seats could be contested.

HOOTING MOB OF STRIKERS FOLLOWS FUNERAL CORTEGE

Shower of Stones Falls From Roof Upon Heads of the Mourners.

New York, May 21.—The east side was aroused yesterday by three riots of striking drivers and sympathizers, who mobbed and stoned funerals. Weddings also were interfered with, and brides and guests had to walk or ride on street cars.

The worst disturbance of the day occurred at the funeral of Samuel Diamond, from his late residence in Avenue C. The undertaker had been able to get only one open coach and a hearse, and he drove the hearse himself. His son drove the carriage, which was occupied by the Diamond family.

Three hundred friends of the Diamonds, finding no carriages, determined to walk. The procession started for the Williamsburg Bridge, followed by a hooting crowd of strikers and their sympathizers.

At Norfolk and Delany streets a shower of stones fell from the roof of one of the tenements upon the heads of the mourners. Several missiles struck the carriage occupied by the relatives. No one was hurt.

When the mourners recovered from their surprise they charged to the tenement roof in the hope of catching the culprits, but they were gone. The attack was so sudden that two policemen acting as escort were unable to make arrests. The police are searching for the stone throwers.

Low Rates to California. To accommodate summer tourists to California the Union Pacific has authorized the very low rate of one fare plus \$2 for the round trip to either San Francisco or Los Angeles.

OVER BALTIC IN AIRSHIP TRIP WITHOUT PARALLEL

Son of Don Carlos of Spain Proposes to Fly From London to Point in Austria.

London, May 21.—More remarkable than any feat of aerial navigation on record is the balloon trip to be made from London this week by Prince Jaime of Bourbon and Baron Josef Von Korwin, a lieutenant in the Austrian army. It now develops that the aeronauts will attempt to cross the Baltic Sea to some point in Austria, covering the distance of approximately 1000 miles.

The expedition will be without parallel, the nearest approach to it being the voyage made by Comte de la Vaulx from Paris to Kien, in Russia, during the Paris exposition. Baron Von Korwin explained that the balloon would be inflated with pure hydrogen, because it has double the carrying power of ordinary gas.

CREMATED IN COTTAGE. C.R.R. Agent at Chatham Meets Death in Flames. Chatham, May 21.—W. H. Harper, 57 years of age, city ticket and telegraph agent of the C.R.R. in this city, was burned to death this morning at his summer home at Erieau, the summer resort on Lake Erie, south of Blenheim.

They were awakened this morning by the blaze from the Harper cottage, which was entirely in flames. Mr. Harper's body was found in the ruins with the limbs burned to a crisp.

AFFRAY ON OIL KING'S ESTATE. One Italian Dead, While Two Others Are Seriously Wounded. New York, May 21.—There was an affray last night between three Italians employed at Boxwood, the country estate of John D. Rockefeller, at Pocantico Hills, and four Italians, said to be agents of a secret society, who have been trying to get the Rockefeller Italians to contribute funds.

Hotel Fire at the Falls. Damage Placed at \$10,500. Niagara Falls, Ont., May 21.—A hot fire occurred at 4 o'clock this morning on Bridge-street, opposite the Grand Trunk station, completely gutting the Grand Central Hotel, a three-story frame structure; loss \$6000; two-story frame building, next to it, loss \$4500.

FERRY CO. WANTS WARD'S? RUMORED AT CITY HALL

Negotiations Said to Be Pending—Mayor Goes to Ottawa—Many Municipal Matters.

With the fact that Wm. Ward has not yet signed his renewal lease for the island property, which there has been so much trouble about, comes a persistent rumor that negotiations are under way for the purchase by the Toronto Ferry Company of the interest held by Mr. Ward, who holds about three acres of city property, which would be in a fine position for development as a pleasure place.

There has long been talk of turning the Ward Point into a rival for Hamilton's at the west, and some leading theatrical men are said to have been behind the proposal, which was delayed while the squabbling was going on over the license for a big new hotel there.

After Exemptions. Assessment Commissioner Forman has been asked by the mayor to prepare a report in reference to the taxation exemptions of the city, some of which might be abolished.

Not So. There was some rumor around the hall to the effect that Controller S. Alfred Jones is a candidate for the new office of commissioner of industries. He unequivocally denies that there is any truth in it.

Needn't Boil Water. Dr. Sheard doesn't think the boiling of water needs to be considered so necessary now as the water has quieted down. Some localities in the city are better than others, as the waterworks is flushing pipes in some places.

These are Solid Reasons Why You Had Better Buy Your Automobile from Us

One Reason is This— The twelve makes of automobiles we sell represent a selective process which has considered every motor car in the world's markets. That process has compared, contrasted and examined thoroughly the relative merits of each maker's automobiles; and it is a process which has been performed with expert judgment and with intimate practical knowledge.

Another Reason is This— Every car we sell, WE sell. Therefore, if ever it is required (as with the finest car it is now and then required) that the maker fulfil his guarantee to the buyer, then your recourse is to us. So that the automobile we sell carries a double guarantee—our own added to that given by the maker.

And Here's A Third Reason— No matter where you travel in Canada, we have a business connection, either a branch headquarters of our own or an agency controlled by us, somewhere near you. That means not only a local source of supply for your motor car needs,—it means that you are never remote from a place directly interested in seeing to it that your car runs satisfactorily and suits you perfectly.

PUBLIC AMUSEMENTS

"Texas"—Grand.

If you want to see a real exposition of life in the southwest, go and see "Texas" at the Grand this week. "Texas" is not a blood curdling tale, such as its title might indicate, but a prettily told story of Texan life, with love and pathos, its desperation and excitement and its homely beauty. Each character is brought out so vividly as to impress upon the mind of a watcher the deeper nature of man and woman. Col. Buck West, his wife and daughter, Texas West, his Texas West, daughter of the ranchman, but his love only develops when an English lady appears. Another character, who does not appear, is that of the English lady's brother, whose life had been saved by Dallam some time before, and a gold mounted revolver, the pride of a ranger's heart, is given as a token of appreciation. With the English lady are her cousins, Lady Frances and Lord Angus Trevor. Their brother's life had been saved from the hands of a Mexican half-breed by Dallam some years ago bringing upon his head the hatred of the revengeful Mexican half-breed, Pasquale. After Dallam's declaration of love to Texas, Lord Angus and

the bluff, hearty and honest frontiersman, and Ernest Allen as Col. Buck West exhibits a naturalness not often met with. Ted Griffin as Pasquale, the half-breed, shows a depth of character for the part, and his interpretation is perfect. The others are just as capable.

"The Middleman"—Princess.

Mr. Willard and his excellent company entered upon the second week of their engagement at the Princess Theatre with a production of "The Middleman." There was a large audience, and it is needless to say that the performance was thoroughly enjoyable. "The Middleman" will be given; and Saturday matinee, "David Garrick," with the one-act playlet, "A Fair of Spectacles" will be presented by Mr. Willard at his first appearance here in this pretty comedy. The engagement will end with "Tom Pinch" on Saturday evening.

Vaudeville—Shea's.

A happily-chosen list of attractions, many of which drew rounds of applause and frequent encores, pleased a crowded house at Shea's Theatre last night. The program this week offers abundance of fun, and some real gems.

Billy Van was in his best vein as a black-faced humorist, and was accorded his old time ovation. Miss Grace Cameron, in character songs, was the favorite of the bill. Miss Cameron displays wonderful versatility. She appears in many roles in her songs, and in picturesque in all her interpretation of the fables of kindergarten days being perfect. Two comedy sketches by Lawrence and Barrington, and by Kennedy and Rooney, add to the gaiety of the program. The latter duo are particularly clever.

The other numbers are also meritorious. The Flying Rathbuns, three trapeze specialists, "flew" spectacularly, and the Musical Avolos wrought miracles with the zylphone. Three sets of kinetograph pictures close the bill.

"The Holy City"—Majestic.

The drama dealing with Scriptural scenes and characters has become a recognized feature of stage presentation, and in the "Holy City," which is played at the Majestic this week, there are those elements which the "Six of the Cross" and later plays patterned after it, have made familiar to the public. The present offering is wholesome and the playwright in selecting for his subject matter the events immediately preceding and following the crucifixion, has chosen a difficult task, there is an absence of the profane touch. The play opens with the arrest and execution of John the Baptist, and in the third fore Pontius Pilate, followed by a pictured representation of the crucifixion, while the fourth and concluding act treats of the subsequent events of Biblical record, the ascent into heaven being the final transformation scene. The "Holy City" is very capably acted and well staged, and should make an appeal outside the ranks of regular theatregoers.

Empire Day Concert.

The board of education has arranged for a grand concert by the pupils of the public schools for Wednesday evening in Massey Hall under the patronage of Lord Grey. There will be a chorus of 600 voices, with a special choir of 100 voices, and some fine soloists and reciters. His excellency will present the shield to the officers of the winning company of the Public School Cadet Battalion. Lieutenant Clark will present the prizes given by the Daughters of the Empire for the best essays written on the British Empire.

Miss Mazie Jackson, well-known Toronto soprano, has returned home after a successful tour of the Pacific coast. The western papers speak in high praise of her singing.

DEAD AND UNKNOWN.

Napanee Police Seek to Identify Man Killed on Railway.

The World has been asked to publish the accompanying portrait of a young man who was fatally injured near Napanee about a fortnight ago, while stealing a ride on a westbound freight train. Papers found in his pockets show that one Fred King had hired at Glasgow

on April 19 to work his way over on the steamer Castella. He was probably a Canadian returning home after a trip across to the old country. His description is: Height, 5 feet 8 inches; weight, probably 165 pounds; dark brown hair and eyebrows; rather poorly dressed, navy blue coat, tweed pants, black cotton shirt with cord running thru it, high laced, heavy boots, black leather socks and red knitted cuff on left arm.

PRESENTATION TO U.C.C.

Alexandra Chapter, D.O.E., Gives a Rifle for Annual Competition.

The Alexandra Chapter of the Daughters of the Empire, thru their agent, Mrs. H. S. Oster, have offered to present annually for competition to Upper Canada College a Ross rifle, and Principal Auden, on behalf of

the college, has accepted the offer, which is much appreciated by the boys and all friends of the college.

The following are the regulations of the competition: The competition will be held in May and June of each year.

Competitors must be British subjects and members of the Upper Canada College Rifles.

The boy who has won the rifle one year may not win the rifle another year.

The first stages of the competition will be shot with the regulation short range cartridge at the range in the college grounds; seven shots each at twenty-five yards, equivalent to 300 yards with the service cartridge.

The last stage of the competition will be shot at the Long Branch ranges, the first eight boys in the competition firing seven shots at 200, 500 and 600 yards.

It's Hard To Be Sick and Be Happy

Perfect Whole Wheat Food is the Key to Good Health.

Malta-Vita has qualities not found in any other food, and these are of importance to you if you want to be well and happy. You know it's hard to be happy unless you are well.

Malta-Vita contains the highest possible degree of nutritious food and demands the least possible digestive effort on the part of the stomach.

To begin with, Malta-Vita is made from the very best white wheat. After this wheat is cleaned and scoured, cooked through and through and maturated in fresh, pure air (there is no other kind of air in the Malta-Vita factory), it is mixed with the finest malt extract that was ever made.

The malted wheat is then rolled into little flakes and baked in intense heat, each flake becoming crisp—the crispest, most nourishing food in the world.

You understand, of course, that the thorough cooking and steaming of the wheat gelatinizes its starch, and the malt extract, a powerful digestive agent, quickly converts this into malt sugar (malt sugar). Malt sugar is great food, and the weakest stomach digests and assimilates it without effort. That is why Malta-Vita is so good for sick folks or folks with weak stomachs.

Malta-Vita melts in the mouth. It's always crisp, refreshing, satisfying. The perfect food for children and grown folks. All grocers, now 10 cents.

For the Sherring Fete.

The Macassa and Modjeska of the Hamilton Steamboat Company's Line will both leave Yonge-street wharf at 5 p.m. to-day to take Sherring and those going to see the demonstration in Hamilton. The Modjeska will make a late trip back, leaving Hamilton at 11 p.m. Sherring, accompanied by the Hamilton city council and mayor, will board the Modjeska at the R. & O. dock and proceed slowly up the bay. The company will have a 50c return rate in-force.

To-morrow a three-trip schedule will be put in force, the steamers Modjeska and Macassa leaving Toronto at 9 a.m., 2 and 5.15 p.m. Six round trips will be made on Victoria Day.

"The Gypsy Queen."

The cantata "Gypsy Queen," given in St. Andrew's Hall last night, in aid of the building fund of the Church of St. Mary Magdalene, was a great success. Donald Sinclair, Ruth Howard and Katie Calhoun had the star parts.

About 60 young people participated and the cantata will be repeated to-night.

UTOPIAN BULLESQUES—STAR.

To an audience that packed the theatre to overflowing, Cunning, the feature act at the Star, last night gave a successful scientific test of his marvelous ability to extricate himself from chains, handcuffs, shackles and straight jackets. The act occupies about half an hour. Handcuffs, two pairs are placed on his hands, shackles on his feet, and a chain around his neck, which is secured by further handcuffs linking head, hands and feet. He then gets into a metal cage and the doors are locked and sealed. The committee used several yards of heavy chain to bind the cage. A canopy is dropped, and in the cage, Cunning beats them just the same. He will visit police headquarters to-day, where he will be locked in a cell and will further demonstrate that he is a wizard at jail breaking.

The Utopians give a clever, sparkling show. The chorus wear handsome costumes. Joe Madden and John W. Jesse, Lotie Blackwood and Beatrice Harlow and Marion and Pearl are in the olio.

KARN CO.'S GREAT WIN.

Congratulatory Messages on Favorable Decision Earned in Courts.

The F. E. Karn Co. were yesterday the recipients of many congratulatory messages from all parts on the success attending their appeal against Wampole & Co., who sought to restrain the Karn Co. from selling certain proprietary medicines under a fixed price. The case was tried before Justice Clute and the result was awaited with interest, as constituting a precedent. The fact that the Karn Co., in the face of powerful opposition, were enabled to substantiate their claim to sell their large and rapidly increasing list of patrons at a reasonable rate is the cause of general congratulation.

During the short time that Mr. Karn has been in business in this city the firm has attained an enviable reputation for courtesy, and unfailing devotion to the wants of their customers, and the fact that they have been able to do this from all restraint with respect to cut rates in proprietary medicines will generally be hailed with pleasure.

35 Per Cent. Die From Indigestion

From insurance records it has been found that about thirty-five per cent of the deaths of policyholders was attributed to diseases of the digestive system.

To persons who have been accustomed to think lightly of indigestion, biliousness and liver derangements this statement will be rather startling, but it cannot be refuted.

To a large extent the liver controls the digestive system by supplying the bile to insure the prompt passage of the food along the intestines, where the difficult part of digestion takes place.

Because of their immediate and direct influence on the liver, Dr. Chase's Kidney-Liver Pills insure a good flow of bile and by so doing positively overcome constipation and intestinal indigestion.

Wind on the stomach, rising of sour taste in the mouth, smothering sensations in the chest, pains about the heart, headaches and dizziness, drowsiness and discomfort after meals and sluggish action of the liver, kidneys and bowels are the symptoms of this serious and dangerous form of indigestion.

Dr. Chase's Kidney-Liver Pills will promptly overcome these symptoms. One pill a dose, 25 cents a box, at all dealers, or Edman, Bates & Co., Toronto.

End of day in ordinary fatiguing shoes

WON'T TIRE YOU

IMPROVEMENT NUMBER FIFTEEN

You can't stand in one position five minutes without tiring. You can't lie long in a plaster jacket without tiring. You can't ride many hours in a train without tiring. And you can't walk any distance or stand any time in hard, stiff, rigid, shapeless, ordinary shoes without tiring. Why? Because anything that confines the muscles and hinders or impedes freedom of muscular action produces fatigue. Want to know how tiring your ordinary shoes are? Well, just pull them off after a strenuous day and note the soothing, relieving, refreshing sensation that creeps over the body.

Foot-rite are built with six ingenious devices to give the feet absolute liberty of muscle action, viz:

With Plumb-Line Level Heel and Sole to keep heel and ball on the precise level Nature intended, which gives foot bottom freedom.

With Unwarpable Soles to insure the feet lying free and flat instead of pinched and curled up.

With Toe-Freedom, Uncollapsible Box Toes to allow the toes barefoot freedom.

With Hurdless Instep Seams and "Won't Blister" Hooks and Eyes to promote freedom in the uppers.

With "Normal-Calf," almost as soft and supple as the calf's live skin, to provide a pliant, yielding, freedom-feeling canopy over the feet.

And with Easy Insoles, formed exactly the same size and shape as the feet which inhabit them, to eliminate pinching, squeezing and binding and give the foot muscles free, unconfined, natural action. These insoles are produced by Foot-rite Foot-Sculptured Lasts.

The Foot-rite retailer in your town will prove the free muscle action feature and consequent "Won't Tire You" improvement of Foot-rites, if you'll call on him. You'll find his name below and his door swinging inward but never outward to find a more welcome store. Anywhere in America, Canada or Great Britain—\$4.00 and \$5.00. Every pair Goodyear Welted.

American Palace Car Co. Contracts

The American Palace Car Company reports that it has arranged with Eugene Zimmerman, president of the Detroit, Toledo & Ironville Railway, and the Ann Arbor Railroad and Steamship Lines, to place the demonstration car, "Columbus," on the Ann Arbor line, June 15, for one month, to make both day and night runs between Toledo and Frankfort, pending the delivery of the cars contracted for operation on this line, now being constructed by the St. Louis Car Co. It is also announced that the first delivery of cars for the Mackenzie & Mann system of railroads in Canada, now under construction by the Barney & Sime, Car Company of Dayton, will be made on Sept. 1, and, further, that the company has under negotiation contracts with railroads operating in China and Japan, which will represent a cash investment of between \$200,000 and \$1,000,000, the cars to be constructed in the United States, under the company's disappearing berth system.

Waldorf stock gossip to the Boston News Bureau and Co. writes: New York, May 21.—It is not to be wondered at that, with the introduction of new factors into the speculative problem, spin-

of the day's stock market and there were no developments worthy of special comment. The dealings were confined wholly to room traders, who were inclined to favor the bear side, with the result that prices changed very little with few exceptions. Comparatively few issues contributed the bulk of the transactions, and a large

proportion of the usually active list was utterly neglected. Pennsylvania continued exceptionally heavy. The presence appearing to come from bear sources. In the specialties, Distillers' securities were prominent, being strong and active on the prospect that the free alcohol bill would reach a vote in the senate. American Locomotive was strong on continued dividends. In the afternoon there was a little flurry in the anthracite coalers, which had been under some pressure in the early dealing, but the advance appeared to be mainly against the short interest, since there was good buying of the high-priced issues. Money continued easy, and discussion of the prospects in this direction developed the belief that relatively easy conditions would prevail right thru the summer. It is generally expected that with the reopening of the San Francisco banks on Wednesday the return flow of currency eastward would attain large volume. The market closed dull, without feature.
