PARIS IS THREATENED

With an Outbreak Against the Civil Power Over the Dreyfus Affair—Leading Champions of the Exiled Captain—To Be Massacred—Irritation in Russia at Great Britain Over the Fashoda Settlement—Cable News.

The scarcity of cable news this morning may be accounted for by the overburdening of the wires by politicians in the United States. Two or three interesting items have come through, however, the most important of which is that an organized plot has been discovered in Paris to foment a riot in case the Court of Cassation succeeds in having a new trial of the Dreyfus case. The report is said to come from reliable sources that an attempt will be made to overthrow the civil power and assassinate the leading friends of Dreyfus.

Another interesting item is the report from St. Petersburg that there is great irritation there over the settlement of the Fashoda affair. The leading papers clamor against England being allowed to control Egypt, and say that the Egyptian question must be solved by a conference of all the powers.

Khalifa Abdullah, the Dervish leader, is hard pressed by Egyptians and his capture is imminent.

UNHAPPY PARIS.

A Revolution Threatened Against the Civil Power—Assassination in the Air.

London, Nov. 7.—The Daily Chronicle says this morning: "We have received information from a reliable source of a well-organized plot in Paris in the event of the enquiry before the Court of Cassation, proving favorable to Dreyfus, to foment a riotous outbreak in the republic capital, to attempt to overthrow the civil power and to assassinate the leading champions of Dreyfus."

"These reports are confirmed by interviews had with M. Trarieux, former Minister of Justice, and M. De Pressensac, former signatory of the Temps, as well as others. The police have warned those friends of Dreyfus to change their residences temporarily or at least to carry revolvers."

IRRITATED AT ENGLAND.

Russian Journals Say Her Settlement of Fashoda Affair Will Arouse the Powers.

St. Petersburg, Nov. 7.—The St. Petersburg newspapers show great irritation at England over the settlement of the Fashoda affair, and agree in the declaration that her conduct will arouse the powers interested in the Suez Canal to open discussion of the best means of preventing the final establishment of England in Egypt.

The Novosti says that, since the Egyptian question is purely of an international character, it must be solved by a congress of the powers, which can proclaim the neutrality of Egypt under the protectorate of all the powers.

Khalifa in a Tight Place.

Cairo, Nov. 7.—Khalifa Abdullah, the defeated Dervish leader, is hard pressed on the frontier of Kordofan, southwest of Khartoum, by natives friendly to the Anglo-Egyptian expedition, and it is believed that his capture is imminent.

Germana Royalty at Damascus.

Damascus, Nov. 7.—Emperor William and Empress Victoria Augusta arrived here this evening from Beyrut, after an interesting journey over the Lebanon mountains.

The city was illuminated and gaily decorated in honor of their arrival, and they had an enthusiastic reception from the populace.

Their Majesties are the guests of the Military Governor.

To Return the Philippines.

London, Nov. 7.—The Daily Mail this morning urges the American people to pronounce boldly in favor of returning the Philippines, "otherwise there will be a scramble for coaling stations that will endanger the peace of the world."

Spain Must Accept.

London, Nov. 8.—The Standard says editorially this morning: "We can see no alternative. Spain must accept as inevitable the loss of the Philippines. No doubt the United States will assume an heavy and serious responsibility, but it acquires value for the future that the public men of America appreciate and are ready to meet it. England will watch the experiment with every wish for a favorable issue."

The Daily News wonders whether trouble is brewing in the Philippines, arising from German opposition to annexation.

Paris Bourse Weak.

Paris, Nov. 7.—Prices on the Bourse today were weak throughout the day, owing to the continued mobilization of the British forces. Spanish funds improved. This was due to more favorable rates of exchange.

Significant Inquiry.

St. John's, Nfld., Nov. 7.—The British Government telegraphed the Colonial Ministry, asking the number, tonnage and capacity of steamers available at this port to convey coal from Sydney for the use of British warships. The cruisers Cordelia and Pelican will be held at Sydney to capture St. Pierre and protect St. John's in the event of war being declared. The cruisers are also instructed to break the French cable between St. Pierre and Brest, France.

THE HOOLEY CASE.

The Bankrupt Promoter Brings Lord Chavchill Into His List—A Week's Adjournment.

London, Nov. 7.—The examination of Ernest Terah Hooley, the company promoter, in bankruptcy proceedings, was resumed today. The court was crowded with people, including many of the public and a number of persons were unable to obtain admittance.

During the day Hooley made a number of curious statements, one being that he gave Lord Chavchill £25,000 to induce the latter to sell an estate to a Mr. Ducros. But he could not explain why he gave the

money, and later he could not remember what a cheque for £5000 was for. When shown a pencil note on the counter foil, reading: "For introducing Lord D.," the bankrupt said that it meant Lord Deerbust. He could not, however, remember the circumstances.

Later Hooley said the gold communion plate, which is presented to St. Paul's Cathedral, cost £1500, and he added that he gave £30,000 to charity last year, and that his living expenses were from £10,000 to £12,000 yearly. The examination was then concluded, and the case was adjourned for a week.

GOD IS OUT OF IT.

Henceforth the Motto, "God Protects France," to Be Stricken From French Coins.

Paris, Nov. 7.—The Gaulois announces that henceforth the motto "God Protects France" will be stricken from French coins. The paper remarks sarcastically that it is a good thing, since foreigners might be led to believe from seeing the inscription that Frenchmen still have faith in Providence.

It suggests that the Government adopt the motto: "Schwartz-Koppen Protects the Republic."

GERMAN ATTACKS ON U. S.

Irritation of the Press Will Not Influence the Philippine Attitude.

London, Nov. 7.—The Vienna correspondent of The Times, commenting upon the irritation of the German press over the attitude of the United States toward the Philippine question, says:

"It has little importance, and is only likely to excite the animosity and defiance of the Americans, and tend to confirm them in their determination to keep the Philippines. The Fremdenblatt, in a temperate article, that gives the German newspapers an example of impartiality, recognizes that it is purely a question for the Americans to decide for themselves."

The Berlin correspondent of The Times, after giving extracts from another long and violent article in The Kölnische Zeitung, writing that the fate of the Philippines cannot be a matter of indifference to Germany, expresses the opinion that such remarks will only stiffen the attitude of the United States.

The Berlin correspondent of The Standard writes:

"The semi-official papers have received a hint to stop their attacks upon America. I have seen a number of newspapers, and Germany will do her reserve so soon as other powers seek a share in the spoil of the Philippines."

Bible Worth Over \$14,500.

London, Nov. 7.—A Mazarin Bible was sold at the sale of the books of Sotheby, Wilkinson & Hodge today for £2950. The book had previously been sold for £300, but some slight defects were discovered in it.

The Greek Cabinet Resigns.

Athens, Nov. 7.—The Cabinet has resigned in favor of resigning. The exceptional circumstances under which they assumed office have ceased to exist.

U. S. Guard at Pekin.

Pekin, Nov. 7.—The force detailed to guard the United States Legation arrived today.

Ontario Division Sons of Temperance Hold First Meeting of the Season.

Ontario Division, No. 28, Sons of Temperance, held their first meeting in their new hall in the W.C.T.U. headquarters last night. There was a large attendance of members and those interested in the work. A very pleasant evening was spent. The W.M. has now completed 40 years of existence, and is doing splendid work for the cause of temperance.

The Journeymen Horsehoes, No. 49, at an open meeting last night initiated three new members, which the balance of the evening was devoted to songs and speeches. The members of this union have asked their employers for higher wages and shorter hours, but as yet they have received no satisfaction, and unless their wish is complied with a formal demand will be made.

Court Concord, C.O.F., had a particularly good attendance at their last night's meeting. Candidates were initiated, and the preliminary arrangements for a concert to be held in the near future also discussed.

McLeod, No. 82, L.O.L., spent a social evening after the regular meeting in Orange Hall last night. Speeches were made by Thomas Crawford, M.L.A., John Hewitt, C.M., E. Hazels, D.M., Centre Toronto; William Fitzgerald, D.M., East Toronto; Harry Lovelock, D.C.M., Toronto; Bro. Lester, W.M., Belmont; Bro. Patton, presiding W.M.; Bro. Moody, D. of C.; Bro. Lukman, Sec. Eastern District; Bro. Shepley, W.M., and Dr. F. H. H. H.

A meeting of those interested in the establishment of coffee houses in the city was held in St. James schoolhouse last night. Nothing definite was done owing to the absence of nearly all the committee who were appointed at the previous meeting to look into the affair. A list of places where coffee houses would do well was submitted to the chairman, Bishop Sullivan, but no unexplained reasons the locations were not made.

There was a successful opening of the Temperance Branch of the Lend-Hand Mission at the corner of Parliament and Spruce-streets last night. The evening was spent in songs and speeches and a most enjoyable time was spent.

The Victoria Minstrels held a concert in St. George's Hall last night in aid of the choir fund of St. Luke's Church. A large audience was present, and the affair was a great success.

TO-DAY'S U. S. ELECTIONS.

Today's electoral battle in the United States is almost as important in a party sense as a Presidential election. Contests will take place in forty-two of the forty-five States of the Union, and the men elected will be Governors and State officers. Of course the greatest interest centres in New York State, and the fact that Mr. Croker, known as the "Tammany Boss," has found it necessary to boom Mr. Van Wyck on frequent occasions all right up to the last minute, is an indication that the old Tiger expects a hot fight.

New York State has gone Democratic almost invariably in State matters for the past 25 years or more, and is always looked upon as a sure thing for Tammany, the great ring which is said to control New York City.

The Republicans have put up a strong fight, relying no doubt on the popularity which goes to Theodore Roosevelt because of his war record, and it is just possible that enough votes may be changed to the ranks of the worshippers to elect the late commander of the "Rough Riders."

The fact of the issue will come up in Missouri and some of the Western States, and politicians may get a pointer from the result of today as to the probability of making the silver question the issue in the next Presidential election.

The betting in New York City underwent a wonderful change last evening, and the odds of 10 to 8 on Van Wyck, which had prevailed for several days, began to wobble early in the morning under a pressure of Republican money, until by noon even money offered by Col. Roosevelt's supporters almost won the election for the Republican candidate, and 10 to 8, and in some instances 2 to 1, is offered on his chances to win. A good amount of this money found takers, but there seemed to be a surplus of Republican money on the market, and much of it went unaccounted for.

The first attack on the Democratic odds began in Wall-street in the morning, and the bets, aggregating \$50,000, were made in an hour's time, most of it being at sight odds on Van Wyck or even money.

When, however, the Republican roll made its appearance at the Hoffman House and the Fifth-avenue Hotel, the Democratic bettors demanded odds, which were cheerfully given. About noon C. H. Dewitt went into Wall-street with \$20,000, which he offered at 5 to 10 on Van Wyck. Some of the bets were made by the names of the bettors were not made public.

One bet of \$5000 to \$4500 in favor of Roosevelt is said to have been made in Wall-street, and Washington Seligman laid \$500 to \$450 on Roosevelt and offered several thousands at odds of 10 to 8 on the Republican candidate.

Bel & Company, who have been placing a number of bets in favor of the Democratic candidate, today laid all the money they had left, about \$7000, getting 8 to 10 for some of it. Among the bets they made were \$2500 against \$300, and \$4500 against \$2000. They claim they could have placed \$3000 more had they had it.

LORD HERSHELL'S BELIEF.

Is That the Car is Really Desirous of Peace.

Indianapolis, Ind., Nov. 7.—The Right Hon. Lord Farrer Herschel, chairman of the Joint International Commission, is in the city, a guest of Senator Fairbanks.

He was asked, if, in his opinion, the era of good feeling between England and this country had arrived and as to the depth of that feeling.

"Whatever is felt here," was the reply, "is quite reciprocated on the other side. I think, perhaps, you people of States are more demonstrative than we. The only thing that has held our people back from great demonstration of this sentiment is the fear that the matter is being pushed rather than allowed to develop of itself."

He was asked if he thought the strained relations between England and Russia would result in war?

"I do not consider that conditions are dangerous. My personal belief is that the Car is really desirous of peace."

LOUGHRIN IS OUT, TOO

It Took But a Short Time to Convince the Court at North Bay That Whiskey Had a Powerful Influence in Electing the Liberal Member for Nipissing—Seat Voided and Costs Allowed.

North Bay, Ont., Nov. 7.—The Nipissing election trial opened here to-day before Justices Osler and Macleannan. The petition was filed by William Hewitt of Mattawa, and contained 140 charges against Mr. John Loughrin, the sitting member. Mr. W. D. McPherson of Toronto and Mr. J. M. McNamara of North Bay were counsel for Mr. Hewitt and G. Ross and W. Lount, C. C. of Toronto, looked after the interests of the respondent.

The returning officer, H. C. Varin, was the first witness, and said the official majority, as declared by him on March 11 last, was 61, but the result in two polls was not included, as the deputy returning officers had made no returns. In one poll Mr. Lamarche, the Conservative candidate, had obtained a majority of 59, and in another Mr. Loughrin, the Liberal candidate, had a majority of 7. Their Lordships then declared that the official majority was 29.

Charges 27 and 28 were then taken up on behalf of the petitioner. Alexander Scopes of Mattawan Township testified that Murphy's house in Mattawan before he had six drinks of liquor at W. N. voted.

Murphy, in his evidence, admitted he had given him one drink, but had used up 2 1/4 pint flasks in treating electors during the day. He got these from B. J. Gilligan, the Crown Lands Agent in Mattawa, the day before the election, to be used in corrupting electors. He admitted he was an active agent of Mr. Loughrin.

Sam J. McMeekin of Cameron found a valise in his house on election morning containing about 20 flasks, and it was all consumed by electors that day in Mr. Loughrin's behalf. B. J. Gilligan, Crown Land Agent, spent between \$200 and \$300 during the election. He provided the liquor that went to Murphy; also that which went to McMeekin's, and paid \$4. Payette of Mattawa \$2 for driving voters to the polls on election day.

Counsel on behalf of respondent admitted corrupt practices and consented to the election being voided, and paid \$1000 costs. W. N. Murphy, B. J. Gilligan and Sam McMeekin will be reprimanded by Their Lordships for having been guilty of "corrupt practices."

Which Disease Overtook a Supposed Murderer in the Woods and Brought Life to a Close—Story of a Horrible Crime Which Comes From the Far West.

Victoria, B. C., Nov. 7.—A brutal murder was discovered at Saanich this morning and there is every reason to believe that the murderer was the man hitherto unidentified, whose remains were found in the woods near Esquimalt several days ago, and now said to be those of one William Hammond, formerly of the navy. His victim was Henry Enoch Smith, son of Henry Smith, who keeps a grocery store at the corner of Government and John-streets. The young man went out to Saanich on Oct. 20, the day following his 26th birthday, and he had not been heard from. So this morning his father went out to visit at his cabin at Saanich. On finding the place locked up the father burst open the cabin door, found the body tightly wedged under the bunk. The bed clothes in a heap on the floor showed that they were hurriedly torn away by the murderer just before he swung the ax, which almost severed young Smith's head. The gold watch hanging upon the nail told the undisturbed contents of the cabin told that the murderer must have sprung upon his victim as he slept. The ranch upon which the murder was done formerly belonged to Hammond, who was indebted to Smith, and a short time ago an arrangement was made whereby, in consideration of the liquidation of the debt and the payment of a certain sum to Hammond, the ranch reverted to Smith. Hammond, who was formerly a blue jacket, attached to one of the vessels of Esquimalt, was allowed to live in the cabin. He was an illiterate man and could neither read nor write.

CHINA AND RUSSIA.

A. R. Colquhoun, in North American Review: China is a step possession. Russia is comparatively poor, her civilization is primitive; she has not reached her full stature, and she is content in her own power to dominate and appropriate the resources of her gigantic but inorganic neighbor. Given the juxtaposition of two such human agglomerations, might it not be said that nature herself was working for their fusion? The temptation to intermarriage is, in fact, irresistible. As the barbarians looked down on degenerate Rome, so do the modern Goths regard with wistful eyes and wailing mouth the defenseless shepherds of the Chinese. China lies like a vast terrestrial depression with a body of water put up alongside it; and therein lies the essence of the Far Eastern question.

HOW LONG FAREWELL

Their Excellencies Opened the New City Hall Auspiciously.

Many Deputations Wait Upon the Vice-Regal Party—Functions All Day Long—A Public Reception in the Parliament Buildings—A Night at the Princesses—They Leave To-Day.

"The king is dead, long live the king," will soon be said with respect to the Governor-General of Canada, Toronto, and, individually and collectively, but none honor in a hundred ways more or less splendid to the departing Lord and Lady Aberdeen, but it remained for the city representative to call it all with a grand finale yesterday afternoon. The ever-shining new City Hall was the fitting scene of the farewell chapter. The occasion was doubly historic in that it signified alike Toronto's regretful farewell to the representative of the Empire and the advent of a mammoth civic building. A big city had been long in labor, but her at last, in the person of the new City Hall, she had a fitting monument to her progress.

The Lennox Pile. The new municipal pile, under the direction of Chaperone Lennox, was opened yesterday amidst the Vice-Regal honors. The new pile of the building was revealed by a stunning standard of the royal rampart, sharp-tipped like an old Scotland, and an honor conferred, for His Excellency Lord Aberdeen made the first public speech within its walls, and the pile was honored by the status of the speaker. A dense crowd swayed in front of the as yet unfinished buildings, crowded up the entrance, overflowed the halls and corridors, and formed a black crowd above on the next flight. They patiently waited for the Vice-Regal party to arrive. On the marble stairs palms and other plants were placed, toning the bare appearance of the as yet unfinished pile.

At 2:30 the Vice-Regal party arrived, and making way through a lane in the crowd, descended the landing. His Excellency Lord Aberdeen, the Governor-General, Capt. Wyatt, A.D.C., the Countess of Aberdeen, Lord and Lady Aberdeen, the Mayor and the members of the Reception Committee. His Excellency led the party to the main landing, where the Countess and Lady Marjorie Gordon and Mrs. Shaw were escorted to the Victoria Hall. His Excellency wore a close-fitting frock coat, an orthodox sword, blue and white dotted waistcoat.

It was a Wondrous Scene. Arriving at the main landing, their Excellencies, with Lady Marjorie Gordon and Mrs. Shaw, were escorted to the Victoria Hall. His Excellency wore a close-fitting frock coat, an orthodox sword, blue and white dotted waistcoat.

These Were Not the Noble Guests. Honored by stations on the main landing of the Victoria Hall were: Council Members, Messrs. J. Enoch Thompson, Gen. Sandham, Dr. Thorburn and Messrs. James Henderson, ex-Mayor Warring Kenney, J. Chester, George Mussen, William Douglas, Thomas Mason (who claims the distinction of having been present at the opening of the old City Hall), Capt. W. F. McLaughlin, Gen. Gordon, Mr. E. H. Graham, Hanlin, Burns, Hubbard, Crane, Sheppard, Scott, Saunders, McMorris, Lamb, Davies, Leslie, Franklin, Capt. Wyatt and Capt. Denison, as aides-de-camp, were stationed near the Vice-Regal chair. City Clerk Blevins and City Treasurer Conroy acted in a somewhat parallel capacity on behalf of the city.

Permanent Cure of Boils.

B. B. B. Cured Mrs. Harrison Henley, of Musquodoboit, N.S., in 1895, and the Boils have never come back.

"Anyone who has ever suffered from boils, knows how sick and miserable they make you feel. When you think you're about cured of one, another seems ready to take its place and prolong your wretchedness. Boils are simply the outcropping of impure blood. When the blood is purified, cleansed and vitalized by Burdock Blood Bitters, the boils quickly disappear, never to return—the cure is permanent—your misery is at an end, and your health and strength come back again.

Such were the results in the case of Mrs. Henley, of Musquodoboit, N.S., who recently wrote the following letter:

"In the spring of 1895 I was continually troubled with boils, one coming after another for about six months. Some as large as a hen's egg. My blood was in a very bad condition and I was very miserable all summer. In September I got a bottle of B. B. B. and began taking it, I felt better after I took one bottle. I kept on taking the Bitters until I had taken five bottles and can say I have been well ever since and have never had a boil on my face. I can safely say from my own experience that B. B. B. is the very best medicine in existence for any blood disorder."

New York Alarmed:

Nine-tenths of the cases of consumption come from the expectations of persons afflicted with the disease. The authorities of New York City fully realize the danger.

Washington, Nov. 7.—The big Capitol building was the scene of wreck and desolation to-day, following the explosion and fire which wrought such serious havoc last night. The engines and firemen had gone, and in their places a small army of workmen were carrying off the debris of brick and mortar, charred woodwork soaked and half-burned official papers and documents which had been swept in confusion in the basement and sub-basement, under the quarters occupied by the United States Supreme Court. Examination of the court room showed that the damage was confined to disordered walls and ceilings and soaked carpets. No substantial damage had been done. The bench occupied by the justices was uninjured, and even the briefs and papers left by one of the justices under paper weights remained undisturbed. But here smoke and water had left this chamber, which has long been regarded as a model of classic beauty in sorry condition. The windows and wall panels of the old colonial windows flanking the bench are in ruins. The frescoed ceilings, which recently had been done over and repainted, and the woodwork of the court room, were blackened by the personal effects of the justices, robes, etc., were found to be uninjured. The main loss of the court was in the marshal's office and in the law library, where valuable old records are kept. The extent of this last loss is not yet exactly determined. Sergeant-at-Arms Birch of the Senate, who was busy during the morning making temporary provision for the sessions of the court.

Decorations of the Pavilion. One hears much comment around town on the beautiful decorations of the Pavilion on Saturday, when the farewell banquet was tendered by the Governor-General and the Countess of Aberdeen. The work was done by the Robert Simpson Co., who are giving special attention to interior and home decorations. This is an important development of the curtain and drapery section of the business. There can be no doubting the talent shown if one will remember the general plan of the Pavilion work and the beautiful effects created. We understand that other surprises in the way of officers and men for the Toronto people. The Simpson Company have a staff of very skillful artists, who give special attention to this end of the business.

Starved Himself to Death. Philadelphia, Nov. 7.—An investigation by Charles Chipperon, the British, conducted into the death of Gabor Dodar, a Buddhist sailor on board the British steamship Arara, who died at Lowell, on Oct. 29, shortly after his arrival in the breakwater, develops the fact that he died of starvation. His mode of death, the investigation shows, was of his own choosing, and that he had acted on his own suggestions from his countrymen, who convinced him that the time had come for him to offer himself up as a sacrifice to his faith.

Cruising Around the World. San Francisco, Cal., Nov. 7.—The Italian protected cruiser Etna has arrived here from Acapulco. Thanks for Civic Hospitality. Then he conveyed the thanks of Lady Aberdeen as well as himself for the hospitality of the civic authorities as represented by the committee. "We have been well treated," he laughed, "but you will allow we have made good use of our opportunities. [Laughter.] We have been well treated. The Mayor then turned to the distinguished citizens, including Hon. William Mulock, Sir Frank Smith and Hon. Senator Cox, but in vain. He would not enjoy it at the hands of the citizens as a whole. [Applause.] Concluding, he observed that he would long remember the courtesy of the last night, and as well as the two months which he had spent here as a Torontonian before. "I hope," he said, "with a keen wish, that you will not be positively our last visit." He concluded by a flattering reference to the police, who, he avowed, had sometimes been of service to some of his social surroundings. [Laughter.]

Lady Aberdeen Kisses Miss Shaw. The scene was fittingly climaxed by the presentation by Miss Shaw of a beautiful bouquet of roses to Her Excellency Lady Aberdeen. Her Ladyship bestowed a hearty kiss on the donor in return. The Mayor then turned to a proposal for three cheers for the two respective representatives of royalty, which were then chanted about the building by the proudly affable architect, who finally called a temporary halt in the new Council Chamber. There Lord Aberdeen took occasion to bestow a tribute on Mr. Lennox for his "great skill, talent, I must almost say genius," all of which was gratefully received.

They Touched Their Garments' Hem. His Worship then gave vent to a little pleasurable about the carpets where-with it was proposed to the Vice-Regal ladies, stepped forward, and the Mayor introduced them. A descent was made, by stairways, to the main municipal court, by elevators. Here the ladies stood aside while the architect explained the mysteries of the massive interlocking steam and electric light, cool, ventilate, steam and electric light, the building. Rising again through the main corridor and past the improved hoist, the party passed through the main municipal court, by elevators. His lawyers have little hope that the insanity plea will work, but there is no other.

FIVE PERSONS WERE DROWNED

By the Capsizing of a Small Boat From Pelee Island, Ont., Nov. 7.—Last night a small boat containing five persons left for Pelee Island. The boat belonged to Mr. Robinson of the island. By some means the boat was upset and all are supposed to have been drowned, as the boat had drifted ashore at noon today at Point Pelee with only the dead body of Charles Barnes attached to it. The following are the names of those in the boat, and who no doubt are drowned: Hugh Hooper and his two sisters, aged 13, 14 and 15; Kingsville; Fred White and Charles Barnes of Pelee Island.

WINNIPEG NEWS NOTES.

Liberal Association to Meet a Week From Monday—Heavy Fall of Snow.

Winnipeg, Nov. 7.—A week from tonight the Winnipeg Liberal Association meets. There have been rumors that an attempt would be made to offset the effects of the last meeting. This is improbable. Mr. Martin, the president, is supported by the rank and file in his outspoken conviction that the C.P.R. has too much to say with certain members of the Laurier Cabinet. Mr. Martin's supporters are not in the least alarmed. Mr. Sifton's friends circulated a report that the Minister was coming up to attend the meeting, but it is hardly likely Mr. Sifton will come.
