WAR MATTERS DISCUSSED

BRITISH PARLIAMENT

Mr. George Wyndham, Parliamentary Secretary of the War Office, Speaks of Home Defences.

Compulsory Service Not Considered Because It is Unnecessary—

Artillery to be Rearmed and Cavalry Force to be Expanded—The Navy Considered to be All Right.

London, Feb. 12.—The House of Commons was crowded to-day, in anticipation of the statement of Mr. George Wyndham, Parliamentary Secretary of the War Office, in regard to army measures. Mr. Wyndham said the country would soon have over half a million men.

Mr. Wyndham rose, amidst cheers, when the House went into committee on supply, and said that he did not propose to deal with the question of the prosecution of the war, but would proceed immediately to the statement of the existing conditions, and outline military measures necessary for placing home defences on a satisfactory footing.

No Compulsion Necessary. The Government had not even considered the question of compulsory service, which was entirely unnecessary, in view of the activity of recruiting for the auxiliary forces. Since the war 10,000 recruits had been added to the existing conditions, and improved facilities were offered, he anticipated that the voluntary auxiliary forces, if their efficiency was increased, would easily suffice for possible defence and to sustain the regulars and other positions. They might even be qualified for undertaking more onerous duties. The Government proposed to put the pay of the militia on the same scale as the regulars, and embody the whole militia.

Artillery to be Rearmed. During the spring and summer the volunteer artillery would be rearmed, and a higher capitalization grant would be given the volunteers, covering the demand for higher efficiency. A mounted infantry volunteer corps would be formed, and the Yeomanry would be treated on the same broad principles. The artillery, army service corps and engineers necessary for two additional army corps would be raised forthwith, namely 36 field batteries and seven horse batteries. The speaker also said it had been decided to raise 12 additional infantry battalions.

The Cavalry Force. Continuing, Mr. Wyndham said the existing cavalry force would also be expanded by seven regiments, and that commissions would be offered to militia officers, to the cadets (greatly exceeding) and to the universities. At present there were 100,000 regulars in the country, and the increase was anticipated to be 30,000. There were now 328,000 men in the auxiliary forces, and it was estimated that the increase would be 250,000 men. Altogether the country would soon have at least 517,000, and Mr. Wyndham anticipated that the number would be nearer 600,000 than half a million.

The Navy is All Right. During his remarks, Mr. Wyndham referred to the Government's confidence in the power and splendid efficiency of the fleet, saying it had never been greater or more

TEN PAGES—TUESDAY MORNING FEBRUARY 13 1900—TEN PAGES

OLD ROBERTS NOW READY TO MAKE HIS FIRST MOVEMENT

IT IS SAID THAT HE PROPOSES TURNING THE LEFT OF THE MAGERSFONTEIN LINES NEAR JACOBSDAL, ENTERING THE FREE STATE.

THIS MOVEMENT WILL COMPEL GEN. CRONJE TO RAISE THE SIEGE OF KIMBERLEY, THE BRITISH THUS MAKING THEIR FIRST STEP TOWARD BLOEMFONTEIN—GEN. COLVILLE TO COMMAND THE NINTH DIVISION.

London, Feb. 12.—(4.15 a.m.)—Lord Roberts has gathered 35,000 men, with whom, according to the best military opinion in London, he proposes turning the left of the Magersfontein lines near Jacobsdal, entering the Free State, compelling Gen. Cronje to raise the siege of Kimberley, and thus making his first step toward Bloemfontein. Colville to Command 9th Division.

Yesterday Lord Roberts announced the appointment of Gen. Sir Henry Colville, hitherto commander of the 9th division, to the command of the 9th division, which is being formed, and will consist, probably, to a great extent of colonial troops. Gen. Colville will be succeeded by Gen. Reginald Pole-Carew.

Correspondents Will Have a Show. Lord Roberts tells the correspondents when he gets down to business they shall have ample opportunity to send news. His chief press censor yesterday issued new rules, and in future all written communications are to go unchecked. Only telegrams will be censored. For the next few days little news is likely to get thru, but later there will be more freedom. Thus says the censor, and the last clause may be interpreted to mean that something is about to happen.

Kimberley in Sore Straits. Kimberley, 20 miles away from the Modder River position, is in sore straits. Details of the December death rate show that in a population of 14,000 whites and 10,000 blacks the mortality was 60 whites and 138 blacks per thousand. The infantile death rate was 617 per thousand among the whites and 912 per thousand among the blacks. Enteric fever was prevalent.

The frightful state of things in December cannot have improved much, if at all, since, and the fighting power of the garrison must have been greatly diminished. Bombardment has increased. Meanwhile the Boer lines have advanced, and the Boers have increased, and there is imminent danger of the town falling. It is believed to differ close to the War Office that Lord Roberts will be at once.

Trenches Used as Dwellings. Scouts have approached within a thousand yards of the Boer entrenchments at Magersfontein. They have found these as dwelling places. Naval gunners are constantly watching the enemy's lines with strong glasses, and they declare that there is an appreciable diminution in the Boer forces.

Boers Advancing thru Zolund. In Natal, the Boer commandos south of the Tugela occupy Bold's Farm and several miles west of Chieveley. Two thousand Boers, with three guns, are advancing thru Zolund towards Natal.

More Troops for the War. The War Office is making preparations to continue the stream of troops for South Africa. Four large steamers have been chartered.

Japan Aids England. Japan agrees to let the Armstrongs transfer to England four naval quick-firers that were built for her, consenting to wait for the completion of the same until the hostilities in South Africa are over.

Much Ammunition. Two thousand men are constantly employed at Woolwich Arsenal, and all the gun and ammunition factories are working.

What is Germany Up to? London, Feb. 12.—The Hong Kong correspondent of The Daily Mail says: "The German gunboat Itis has been engaged for five days taking soundings in the harbor of Manila. The proceeding has excited much comment."

Cook's Turkish Baths—204 King W. The Thaw That Tells at Dinereen. The thaw in the weather is met by a corresponding thaw in the prices for choice fur garments in Dinereen. The melting effect of the holiday sun on a snow bank is exemplified in the selling effect of lowered prices on the embankment of heavy furs at Dinereen. The second week of Dinereen's clearing sale starts briskly, with reduced prices for ladies' fur capes, collarettes, and quite an assortment of fashionable huts, scarfs and ruffs.

British Are Buying Torpedoes. London, Feb. 12.—Great Britain, according to the Berlin correspondent of The Daily Mail, is placing large orders for torpedoes for the Admiralty. The orders are ostensibly being executed by the Italian firm, the Ansaldo, of Genoa.

Benches Warrants Sent Out For the Arrest of Several People Who Have Ignored the Police Magistrate. Bench warrants were issued by Magistrate Denison yesterday for the arrest of Minnie O'Brien, charged with stealing a cape from Mary Hughes; Edward McBride, charged with an indecent offence; and Albert Hogan, charged with stealing a dollar from Richard Watson. The O'Brien woman was located last night by P.C. Mackie and locked up. Minnie claimed she notified Staff Inspector Archibald by telephone of her inability to attend court this illness.

ENOUGH TO WEAR HALOS SINCE HUTTON RESIGNED

But Among All Other Persons There is Universal Regret at the General Leaving Canada.

Everyone Admits That He is the Best Commander-in-Chief of Canada's Forces That Has Ever Been Sent Out— Farewell Dinners.

Ottawa, Feb. 12.—(Special).—The members of the Government wear halos these days since they have had a chance to accept Major-Gen. Hutton's resignation; but among all other persons there is expressed universal regret at his leaving. Everyone admits that he is the best Commander-in-Chief of Canada's forces that has ever been sent to us. Backed by experience in Australia, where he brought the colonial forces up to a high mark of efficiency, and recognized as a soldier proven true on many a field of battle, he has conscientiously and assiduously striven to improve the Canadian militia, and to fit this country in time of need to be a source of strength to the Empire.

Force Has Made Strides. Every militiaman knows that the force has made rapid strides under his direction, and the system, as outlined in his report of last year, was heralded as a new order of things. Hence the widespread regret at his retirement. As some one has said, he is a genuine soldier who has actually recognized that his position was to improve the Canadian militia.

Kept Out of Politics. He did not care a snap for politics, but held one aim always true before him. He has religiously striven to improve the militia. He had no private ends to serve. He is a worthy man, with an income of \$30,000 a year, and would gladly have remained here, but that was made impossible, and he saw the best way out of the difficulties was to resign.

Canada Will Be Loser. It is maintained that when all the facts come out it will be found that Canada is a greater loser by Major-Gen. Hutton's withdrawal and this country will have had work to get as competent a man to fill his place. The treatment meted out to him by the Government will be taken as an offence to other Imperial officers who might wish to take over the command.

Farewell in Social Circles. Socially, Major-Gen. Hutton is greatly admired in Ottawa, as is evidenced by the fact that he will be tendered a dinner tomorrow night by the members of the Rideau Club, and a military banquet on Wednesday night by local officers and prominent men.

The Soldier Stands Out. The major-general was seen by The World last night, and asked if he had any statement to make regarding his thoroughgoing. The soldier in the man came out. He said that he was not a free citizen until he had left the country, and, in any event, he could not make a statement against a Government that had employed him. There the matter rests, but there is a ben on.

HON. EDWARD BLAKE RESIGNS

His Position as Chancellor of the University of Toronto and Gives His Reasons.

HE CANNOT RETAIN THE OFFICE AND IT BECOMES HIS DUTY TO PLACE IT IN THE HANDS OF HIS FELLOW GRADUATES.

Mr. James Brebner, registrar of Toronto University, has just received the following letter from Hon. Edward Blake, M.P., resigning the position as Chancellor of the University, which has been handed to The World for publication:

House of Commons, Feb. 2, 1900. Sir,—Before the last election I had determined that, having regard to my continued absence from the country, my name ought not to be mentioned for re-election to the high office of Chancellor of the University of Toronto.

Owing to a misunderstanding of which I prefer to take the blame, this decision was not carried out; and I was honored by a renewal of my official confidence, which has for these many years been generously accorded and gratefully received.

For some time I hoped that it might be possible to retain an office of which I am proud. But I am now satisfied that the interests of the University at this stage of its development require an efficient working chancellor on the scene of action, and it becomes my imperative duty at once to place the office in the hands of my fellow-graduates.

I wish to return them my deep and heartfelt thanks for the opportunity they have given me, however briefly, to serve the University; and I would assure them that time and space, though they have been forced upon me, have not prevented me from never ceasing to love and zeal for the University, which binds us in its fellowship together.

May God of His mercy grant that she be well and wisely guided to prosperity and issues. I beg to resign the office of Chancellor of the University of Toronto; and beg you to place this resignation in the proper hands forthwith.

Yours faithfully, Edward Blake. James Brebner, Esq., Registrar, University of Toronto.

A Cold Dip Promised. Meteorological Office, Toronto, Feb. 12.—(8 p.m.)—An important low area has developed over the Lower Mississippi Valley, and is moving quickly towards the Lakes region, where rain is falling. The high pressure over the west and Northwest Territories is not as pronounced as might be expected, and, although the temperature is fairly low, it is doubtful whether any very decided cold wave will follow the storm.

Minimum and maximum temperatures: Victoria, 32-40; Kamloops, 20-36; Calgary, 2-10; Prince Albert, 24 below; 12 below; Qu'Appelle, 20 below; 18 below; Winnipeg, 14 below; 9 below; Fort Arthur, 6-28; Parry Sound, 28-42; Quebec, 22-30; Halifax, 20-40.

Probabilities. Lower Lakes—Rain at first; then strong westerly winds, and turning colder at night. Georgian Bay—Rain, turning to snow; strong northwest winds, and colder at night. Ottawa Valley and Upper St. Lawrence—Mild, with rain or sleet; turning colder at night. Lower St. Lawrence and Gulf—Strong winds and gales; sleet or rain. Maritime—Increasing east and southeast winds; rain before evening; strong Lake Superior—Turning colder, with strong northwesterly winds. Manitoba—Fine and very cold.

There is something new every day in the Oak Hall Club's advertisement at the next page. You may see the news if you don't read the Oak Hall ad.

STEAMSHIP MOVEMENTS. Feb. 12. At. From Penland... Liverpool... Philadelphia... Teutonic... Liverpool... New York

THE OFFICIAL STATEMENT. Montreal, Feb. 12.—(C.P.R. Report).—At the meeting of directors of the Canadian Pacific Railway Company, held on Feb. 11, a half-yearly dividend of two per cent. on the preference stock was declared. A dividend of three per cent. was also declared on the ordinary stock, making, with the dividend already paid, five per cent. for the past year.

The results of the year were: Gross earnings, \$29,230,028; net earnings, \$12,220,165; income from other sources, \$1,150,108; total net income, \$13,370,273. Loss amount applied against ocean steamships the dividend less fixed charges, five per cent. interest on loan bonds, \$5,498,887.

THE RESULTS OF THE YEAR. After payment of all dividends declared the surplus for the year carried forward is \$2,207,847.

CHRONIC BELLY IS THE STATE AT OTTAWA

Government is Not in Shape to Go On With Business of the Country.

MR. TARTE BACKS WATER

Minister Squares Himself With the Missionary Committee of Methodist Church.

WE HAVE NO NATIONAL COLOR

But a Color Will Soon Be Selected for the Long Service Medals.

Ottawa, Feb. 12.—(Special).—The early adjournment of the House to-day is taken as a sign that the Government is in a chronic state of delay and entirely unprepared to go on with the business of the country. There was a good attendance of members, but there was very little for them to do. The estimates are said to be in the printers' hands, but they have not yet been reviewed by the Cabinet. It is suggested that if some of the estimates were brought down, the greater part of private members' days could be utilized in passing them in sections. But all awaits the unopposed Government.

Regret was expressed among the members at the resignation of Major-General Hutton, who has been looked to as a wonder for the Canadian militia.

Mr. Platt has not yet brought in his bill relating to prohibition for the Provinces, but it is conceded that he has a sick child on his hands.

THE DAY IN THE COMMONS.

Private Members Spent Some Time in Pumping the Ministers.

Ottawa, Feb. 12.—(Special).—Sir Charles Tupper led the Opposition and Sir Wilfrid Laurier the Government, with Mr. Tarte at his back. The day was a day of questions.

Foreign Immigration. The recent foreign immigration into Canada's population was made important by a question from Mr. Davin, and Mr. Sifton, in answering it, said that since January, 1897, 7420 Donkobergs, and 16,787 Galicians have settled in the Northwest. The Donkobergs cost \$7.47 and the Galicians \$4.77 a head.

Telegraph to Dawson. The cost of constructing the Government telegraph line between Bennett and the Yukon was \$146,938, at a cost of \$223 a mile. This was given by Mr. Tarte for Mr. Clarke's information.

A New Commission. The sudden demise of Judge Senkler will necessitate the appointment of a new chairman of the Royal Commission on the Shipping and Transportation of Grain.

Trade Treaties. Mr. Blair stated that the Government had made no proposal for the establishment of a commercial treaty of reciprocity between Newfoundland and Canada, but proposals to establish free trade between Canada and Britain were engaging the attention of the Government.

The Pacific Cable Scheme. The Pacific cable formed subject matter for two questions. It was stated that considerable disappointment in Parliamentary circles existed over the report that the Imperial Government had no objection to the Western Australian Government making an arrangement with the Eastern Extension Company, thus looking to the killing of the Pacific cable scheme. Sir Wilfrid Laurier said the Government was making enquiries into this matter.

White Ranges. Mr. Borden gave information about rifle ranges, and declared their establishment in several cases would depend upon suitable locations being obtained. During 1899 over \$75,000 had been expended in these districts.

The Death of Gunner Wallace. The true facts bearing upon the death of the late Gunner Wallace of Toronto at Kingston will be revealed when Col. Couton gets the report of the commission that sat upon the deceased.

Supplies for Contingent. The blankets that members of the Canadian contingent are using in South Africa were not specially bought, but were, as Mr. Borden said to-day, issued from the supplies in store. Seven hundred revolvers were purchased, at a cost of from \$13.50 to \$14.50.

Tarte Takes It Back. Mr. Tarte arose to explain that, the

NOT VERY ELEGANT Worked Like a Cow's Cud. A gentleman in Northampton, Mass., who requests that his name be kept from print, had a curious experience with coffee drinking. He states that when he was accustomed to the use of coffee, he would, after each meal, feel up, and more or less come down with it. A part of it would run back down his throat, and, as he says, imitating in a way the manner of a cow chewing a cud. He deprecates the elegant illustration, but knows of no other way to explain the condition.

He says, further, that he was puzzled for a very long time to account for a salivary complexion and a heavy, dull, miserable feeling after the meal, and no medicines or treatment would remove the difficulty. "A friend warned me that coffee was the cause of my trouble, and I could not bring myself to believe this, until after a time I made the experiment of leaving off coffee altogether and took up Postum Food Coffee.

"To my surprise, the ill all quickly stole away, and I am now healthy and in fine condition. I know what I am talking about when I say that with some people coffee causes headache, dizziness, and some other disgusting and disagreeable features. It also induces, with a general itching and breaking down of the nervous system, if persisted in. I know also that the evil will disappear when coffee is given up and Postum Cereal Food Coffee is used in its place."

The name of this gentleman will be furnished by the Great Central Tea Co., Ltd., Battle Creek, Mich., upon application.

was a personal matter, yet any difficulty between him and the Missionary Committee of the Methodist Church had been explained away. Facts had been brought to his notice that showed he had unwittingly done a wrong in saying on March 28, 1899: "Everybody who lives in the Province of Quebec knows that nearly all those who live on that island (Anticosti) are professional wreckers, people who deceive the captain of the ship in order that the vessel might be wrecked, that they might steal everything that is on board."

Exports to Australia. Mr. Blair gave some interesting information when he said that during the season of 1898-99 the exports from Canada to Australia were \$1,408,244, of which amount \$389,802 was in agricultural implements. He declared the fact that a rebate of 30 per cent. had been given to manufacturers of agricultural implements in the iron and steel used in making implements exported to Australia.

St. Thomas' Parade Ground. Inhabitants of St. Thomas, Ont., are made aware that the Government has not purchased the parade ground, owned by J. H. Wilson, M.D., and that the rent of their present drill shed is \$100 a year. The House rose at 5.30.

C. P. B. Land Grants. Did you ever see the amount of land originally voted by Parliament to the C.P.B. as a subsidy was 25,000,000 acres. This was afterwards reduced to 12,500,000 acres to the main line, and 2,083,680 acres to the branch line. The committee has indicated its location of about 17,000,000 acres. These facts were given by Mr. Sifton in answer to a question by Mr. Davin.

Davin is Satisfied. N. F. Davin's patriotic soul is appeased. Garon, formerly linked with Louis Riel, is not recognized by the Government.

Why Perry Stays at Home. The orator from the west also wanted to know why Perry stayed at home. He was accepted as a member of the Canadian contingent. Sir Wilfrid said "Because he is too valuable an officer, they will find food for thought for many other valiant men left at home."

Canada Has No National Color. Canada has no national color. This is the true fact. In answer to Mr. Clarke, who by the time of long service decorations and medals arrive from London a color will have been selected. The conditions under which the decorations and medals are to be issued have been prepared, and will at once be forwarded to the War Office.

Easy for the U. S. Steamers. Certain arrangements were entered into in 1884 by the Canadian Parliament, hence there are no arrangements in Canada, as United States steamers carrying passengers to and from any port in the Province of Ontario shall be subject to the same inspection, tonnage dues, and also from steamboat regulations.

Motions Passed. Scene two of the sitting was 30 notices of motion. The result in brief is as follows: All orders in connection with the Montreal, Ottawa & Georgian Bay Canal project, and orders in council respecting laws of the Pacific Coast, Canada v. United States, were passed.

County Judges in B. C. Sir Hilbert Tupper raised the question of the best method of County Court Judges in British Columbia. They were paid \$2400, plus \$400 given by the Province. It was suggested that the county judges in Ontario be paid the same as those in British Columbia.

Script for Indians. The question of giving script to the Indians of the Northwest was brought up by Mr. Davin, and for some time Mr. Sifton and Mr. Davin talked Indian. When it was all done, progress was noted, but it was found wanting.

Clayton-Bulver Treaty. In answer to Sir Charles Tupper, Sir Wilfrid Laurier said that he had made public the negotiations concerning the Clayton-Bulver treaty (the action of the United States Senate is not required). Sir Wilfrid moved the adjournment, and the House rose at 5.30.

MORE MINES CLOSED DOWN Dominion Copper Company Properties Have Let Out a Number of Employees

Instructions from the East Were to Follow the Lead of the Kootenay Owners, Which Has Been Done.

Greenwood, B.C., Feb. 12.—(Special).—Today the Dominion Copper Company suspended work on their properties in Greenwood Camp, and let out 35 employees. This is the first company to follow the action of the Slocan and Rossland mine owners on account of the eight-hour law.

Frank Robins, the engineer in charge, in reply to your correspondent's inquiry by telephone, said: "I got instructions from the east to follow the lead of the Kootenay mines on account of the eight-hour law, and have consequently closed down all work. I cannot say when we will reopen, but it depends upon circumstances."

It is not believed here that the other big mining companies will follow suit. Inquiry of the Phoenix management, of the Old Ironsides and Knob Hill, in the same camp, and other Graves properties, elicited the reply that they had no objection to the eight-hour law, and that their properties was not thought of.

Miss Manager Frederick Keffer of the Mother Lode, Deadwood Camp, also said that he did not expect to receive any instructions to discontinue.

No word has yet been received from the Montreal office of the British Columbia mine in Summit Camp as to what that company will do, but it is feared by many that the mine will be closed down. Such properties as the Buckhorn, War Eagle and Goldens, all under the same local manager, and owned by eastern townships capital, will not suspend operations.

M'KINNEY NOT AFFECTED. No Men Laid Off in That British Columbia Camp Up to Date.

Camp McKinney, B.C., Feb. 12.—(Special).—The close-down on account of the labor troubles have not yet extended to this camp, and as yet no men are thrown out of employment.

The inquiry of the 8-hour law, however, is manifested on all sides. Since it went into force in June last, properties under development have had 20 per cent. less work done on them for the money expended.

Bodies, the miners themselves are worse off morally and financially on account of the enforcement of the measure.

SPEAKING BY SUNLIGHT.

The Way the Beleaguered Towns of Ladysmith and Kimberley Communicate With the Outside World During the Boer War.

Most of the news which has come from Ladysmith and Kimberley lately has been transmitted from the beleaguered towns to Gen. Buller on the Tugela, or to Gen. Methuen on the Modder River, by means of either the heliograph or flashlight.

Eight hundred years ago North Africa had a system of wireless telegraphy by which places a hundred miles apart could exchange messages in a few seconds. In Algeria buildings were erected on prominent sites over the land, with adjustable mirrors on the roofs. The sun's rays falling on these mirrors were flashed in the sky, and were visible at great distances. It was easy to arrange a plan by which the flashes of different length should mean various letters, and so make it possible to exchange conversations.

In the Crimean War. Then the world went to sleep, and it was not till the time of the Crimean war that the possibility of talking by sun-flash began to attract attention. The Russians used

wire of your field telegraph line; he cannot intercept the flash of your mirrors.

Used in the War of 1850. Many years before this, in the Transvaal War of 1850, one of the beleaguered British garrisons tried by every possible means to open up communication with other British forces many miles off. Runners were intercepted, messages never got thru. The Boer vigilance closed all ordinary means of sending news.

At last a bright idea struck one of our officers. There was no heliograph with our troops, but the officers got a shaving mirror, and used an ordinary cloth cap as a shade. He put the mirror at an angle to reach where he thought the British rebel column might be, and started flashing in the sky by quick covering and exposing the mirror with his cloth cap. At first came no response.

The work was continued, the signal word being flashed around all likely places. Then there came a flash back from the far distance, sent from scores of miles away: "All well. Relief coming quickly."

What the Heliograph is. Briefly, the heliograph is a circular ad-

SENDING MESSAGES BY HELIOGRAPH.

Just a mirror or mirrors, usually mounted on a tripod stand, and with a sighting apparatus attached. The mirror is adjusted until the shadow of the sighting rod (the rod which stands out in front of the glass) falls exactly on an unaltered spot in the centre of the glass. The unsighted distant point of the sighting rod, and the mirror intercepts the reflection, and a long message is reflected in the same line of sight.

There is also a rear-sight arrangement by which the mirror can be moved to the right or left, without disturbing the sighting rod, so as to follow the apparent motion of the sun. A shutter is so placed that the Morse alphabet is by means of the heliograph. The flash is made by depressing the key, which moves the mirror, and so permits the flash of the light to be reflected. A short depression reflects a short flash, and a long depression a longer flash. This enables the Morse alphabet to be used. The ordinary dot and dash system of the telegraphic instrument.

The distance which these sun flashes will travel is hardly limited. The record was made by Captain W. A. Glassford of the U.S. Army Signal Corps, who in some

minutes. This will show the immense number of messages that can be passed between Ladysmith and Kimberley. If our heliograph intercepts the reflection, as they had their newspaper delivered regularly by breakfast each morning.

When it is required to send a message to the other hand, the operator stands with the sun behind him, a duplicate mirror has to be used, so that the sun's rays are caught on one glass and sent back on the other. This involves careful adjustment, and is somewhat complicated than when the sun is in front.

A variety of the heliograph is the heliostation. In this the signalling is done by a mirror which is kept constantly in the direction of the distant terminus by means of a clockwork mechanism. These stations are made long or short, as they are meant for dots and dashes, and by their length the message is read.

No other method of day signalling can go so far as the heliograph. A two-foot bottle, filled with sea water, and a thin three-inch flag sign with the naked eye, or double that distance with a telescope.

The Boer women in camp for their husbands and relations who had been killed in the battle of the Modder River, in the horrors of illness or mourning in any form.

Boer Losses Heavy. "They are the Boer loss has been heavy, almost entirely owing to the effect of shells, in the trenches. The power of these shells, which were so terrible, was that they had been knocked down, and the explosion 200 yards away. The following Boer loss was reported: 12 Boer deserters came in. They too, complained of lack of food and ill health, and said that the Boers were short of both food and forage. All these points to the fact that the long waiting here, in the trenches, was a most serious hardship, now that the heavy rains are beginning, and the supply of rations to a constantly moving force must be exceedingly difficult.

BRITISH SYMPATHIZERS. Citizens of British Origin in Jamestown, N.Y., Send Upwards of \$2000 for Relief of Soldiers.

Jamestown, N.Y., Feb. 12.—The British-American citizens of this city have sent upwards of two hundred dollars to the Mayor of Bradford, England, for the relief of the families of English soldiers in that vicinity. Nearly all of the subscribers came from the city of Bradford. The subscriptions were nearly all in small amounts, but ten dollars, and several were said to be in the last dollar possessed by the giver, and would be the last till the next pay day in the military service, to show the heartiness of those employed.

BOERS SAY, "ME FIRST!" How the Captors Drank a British Captive's Water—Cruelly in Every Move.

London, Jan. 30.—(By Letter).—The Daily News correspondent at Cape Town, reviewing the campaign up to Jan. 8, says: "I would like to mention an incident showing the wanton cruelty of our captors. On leaving our camp at Gras Pan, I took the precaution of taking my water bag with me, and after I had covered some little dis-

periments in Western America succeeded in opening up and maintaining communication by the heliograph between Mount Ellen, Utah, and Mount Uncolmagher, Colorado—a hundred and eighty-three miles apart. He used an eight-inch mirror.

The size of the mirror the farther it is possible to flash. The ordinary English service pattern is 5 in. in diameter. It is claimed that in Algeria messages have been sent 170 miles, but this is hardly verified. Our Indian forces have maintained communication for long distances. In one well-known instance, in the West Expedition, communication was kept up with a 5-in. mirror a distance of 70 miles.

It is only in very clear, sunny country that these distances can be covered. In England it would probably be impossible to send a message more than 20 miles, save under unusual conditions. The climate makes the heliograph comparatively useless there.

A Regular System. A regular system of training has for some time been established for the British army in the Signalling School at Aldershot. This school had for some time, strange as it seems to civilians, to suffer from the jealousy of other arms. Engineer officers, in particular, regarded the trained signallers of infantry regiments as incompetent encroachments on their telegraphic communications. But the heliograph has lived down this, and today it and the telegraph work in harmony.

In the Signalling School a soldier is trained for 60 days, attending five lessons a day, one hour each day, one of the lessons being given after dark. Before considered proficient, men must be able to send to and receive from a distance of 12 words a message sent at the rate of 12 words a minute.

The weights for the Montgomery Handicap will appear before 9 o'clock on Feb. 13 (next Thursday), and horsemen who have entries in the race are anxiously awaiting the announcement of the horses assigned the different candidates. Of the 88 nominations to this event, 15 are now at Montagu Park, and are all in good condition. Algol, Lieber Karl, Tenby, and Jock, are the favorites.

George C. Bennett was awarded the betting privileges on a private bill that is believed to have been in excess of \$40,000. The Jockey Club's contract with the bookmaker stipulates that all reputable bookmakers be invited to draw in at the regular price of \$100 per day.

The weights for the Montgomery Handicap will appear before 9 o'clock on Feb. 13 (next Thursday), and horsemen who have entries in the race are anxiously awaiting the announcement of the horses assigned the different candidates. Of the 88 nominations to this event, 15 are now at Montagu Park, and are all in good condition. Algol, Lieber Karl, Tenby, and Jock, are the favorites.

Wallenstein's Greatland, ch. 4, by Blue Eyes, dam Missive, which the shrewd breeder secured when he went east last year, promises to be little short of a stake horse. Greatland is a full brother to Grandland, Belle P., Roslyn and Miss Roseland.

Senator J. S. O'Brien's Duke of Haden and Bonnaville look to be in prime condition as far as wintering is concerned, and will be well informed on a matter which his horse's trainer, Jack Burns, is confident will win their share of purses and stakes.

George Walker, who trains for J. W. Schorr & Son, says his Montgomery Handicap candidates, Lieber Karl, Stremmer, Sam Phillips and Greenock, are doing as well as he can expect, while the work he is doing of the other hand, however, is better than he can expect. Forror, Moore, Trilo, Lackman, Carpon, Lauprate, Duke of Middleburg, The Monk, Greenock, Alpen, Cleora, Handpress, Belle of Memphis, The Singard, Florizor and Jolly Roger are at New Orleans. Plant is being trained by Louis J. Simonian, the Prize and Golden Link at Nashville, while St. W. Duke, Sea Lion, Meadowthorpe and Tinneraker are racing on the coast, but will soon be shipped east. The Montgomery Handicap will be run on Feb. 15, and will probably be a greater value this year.

Col. W. L. Simonian's stable has arrived from Lexington, and A. M. Orpen's stable will leave Toronto on Feb. 15. The week-end is expected from New Orleans this week.

Applications for Relief May Be Sent to the Proper Committee. Ottawa, Feb. 12.—The Relief Committee of the Canadian Patriotic Fund Association desire to make it generally known that they are prepared to consider all applications made to them for relief, in cases of distress arising out of the participation of the Canadian contingents in the war in South Africa. These applications may be made to the secretary, postage free, either by the individuals themselves requiring assistance or by their friends.

In cases which are properly recommended and believed to be in urgent need of assistance, the committee are empowered to forward at once such a measure of relief to a limited extent—as may appear to be necessary, but in all cases the applicant will be required to fill up a form containing a certified statement of the case, and certified by responsible persons.

This statement will then be fully considered by the committee, and such a measure of relief decided upon as may appear to be just and equitable and within the limits of the fund.

The forms which are prepared for use in this connection are similar to those now used for exactly the same purposes by the Royal Commission of the Patriotic Fund in England.

CITIZENS OF BRITISH ORIGIN IN JAMESTOWN, N.Y., SEND UPWARDS OF \$2000 FOR RELIEF OF SOLDIERS.

Jamestown, N.Y., Feb. 12.—The British-American citizens of this city have sent upwards of two hundred dollars to the Mayor of Bradford, England, for the relief of the families of English soldiers in that vicinity. THE LINCOLN ANNIVERSARY

Senator Depew Was the Principal Orator at the Republican Banquet in New York.

HE REVIEWED THE PAST CENTURY

And Found That Only Washington and Bonaparte Had Let Their Mark in History.

New York, Feb. 12.—Senator Channey M. Depew, who presided over and delivered the principal address at the fourteenth annual Lincoln dinner of the Republican Club, held at Delmonico's to-night, the dinner was attended by over 300 members of the club and their guests.

Senator Depew, Before introducing the first speaker, addressed the gathering in part as follows: "It is an interesting question as to what one century and enter upon another to speculate as to who will survive the nineteenth century, the representative of what has been done during these hundred years. The only one century in advance of the eighteenth, yet of all the worthies who fill the mind and eye of the generations of that period, only two are universally and commonly recognized of all men, George Washington and Napoleon Bonaparte. When the twentieth shall have been lost, the story of the nineteenth is recalled, I doubt if the representative of all men, George Washington and Napoleon Bonaparte. When the twentieth shall have been lost, the story of the nineteenth is recalled, I doubt if the representative of all men, George Washington and Napoleon Bonaparte. When the twentieth shall have been lost, the story of the nineteenth is recalled, I doubt if the representative of all men, George Washington and Napoleon Bonaparte.

Washington and Lincoln. "While Washington stands as representing the conservative forces which create a modern representative government and the power of the people, Abraham Lincoln will stand as the representative of this modern advance in emancipation and reconstruction of the Union. It is our mission to try to build parties and create issues upon our country. Lincoln stands as the representative of all classes, it can be seen in our country.

Chronic Constipation.

Mr. George Lillis, Kilbride, Ont., tells how Laxa-Liver Pills cured him after suffering three years.

Chronic Constipation.

People suffering from Constipation usually find that pills and purgatives tend eventually to weaken the bowels and make them worse.

Chronic Constipation.

Not so, however, with Laxa-Liver Pills. Instead of having to increase the dose from time to time you actually have to lessen it.

Chronic Constipation.

Let me cure the experience of Mr. George Lillis, Kilbride, Ont., who says: "I was much troubled with Constipation for three years, and nothing seemed to do me any good."

Chronic Constipation.

On the advice of a friend I started taking Laxa-Liver Pills. As a result I am cured and never feel any more the need of Laxa-Liver Pills to anyone suffering with it."

"SUPREMACY" in sales

UNCLE SAM'S FINANCIAL BILL

The Final Week's Discussion of the Measure Begun in the Senate Yesterday.

Washington, Feb. 12.—The final week's discussion of the pending financial bill was begun in the Senate to-day.

The speakers were two Republicans, Mr. Elkins (W. Va.) and Mr. Wolcott (Col.), and one Populist, Mr. Butler (N.C.).

MR. BUTLER WANTS PAPER MONEY.

House at Washington Passed an Important Bill Regarding Transit in Bond.

Washington, Feb. 12.—The final week's discussion of the pending financial bill was begun in the Senate to-day.

The speakers were two Republicans, Mr. Elkins (W. Va.) and Mr. Wolcott (Col.), and one Populist, Mr. Butler (N.C.).

An important bill was passed by the House to-day, which makes universally applicable the law that forbids the export of goods in bond thru certain ports in the United States.

Under its provisions any goods in bond can be shipped thru any of the United States ports.

It is principally designed to give the transportation companies of the United States a share of the trans-continental trade to the Orient.

The bill also repeals the law of March 1, 1886, prohibiting the shipment of goods in bond to the Mexican free zone.

The latter provision was fought by Mr. Stephen D. Duggan, who was a well-known Toronto lady, left here in December last in search of health.

She died on March 1, 1886, and her daughter, Mrs. Andrew Todd, Toronto, Mrs. Mesurier, Niagara Falls, Mrs. Byron, wife of the secretary to Admiral Sir Frederick Bedford, H.M.S. Crescent, are daughters of the late Mrs. Todd.

Word was received in the city last night of the death of Hamilton, Ontario, of Francis Lottin, widow of the late Andrew Todd, Toronto, who was a well-known Toronto lady, left here in December last in search of health.

She died on March 1, 1886, and her daughter, Mrs. Andrew Todd, Toronto, Mrs. Mesurier, Niagara Falls, Mrs. Byron, wife of the secretary to Admiral Sir Frederick Bedford, H.M.S. Crescent, are daughters of the late Mrs. Todd.

Word was received in the city last night of the death of Hamilton, Ontario, of Francis Lottin, widow of the late Andrew Todd, Toronto, who was a well-known Toronto lady, left here in December last in search of health.

She died on March 1, 1886, and her daughter, Mrs. Andrew Todd, Toronto, Mrs. Mesurier, Niagara Falls, Mrs. Byron, wife of the secretary to Admiral Sir Frederick Bedford, H.M.S. Crescent, are daughters of the late Mrs. Todd.

T. EATON CO. LIMITED

A Handsome Saving on Clothing.

The saving on these Suits and Overcoats for Wednesday will average nearly Three Dollars apiece. Isn't that a handsome bit to keep in your pocket when making such seasonal purchases? One hundred and nine buyers may participate in this saving on Wednesday morning:

- 30 Only Men's Suits**, four-buttoned, single-breasted sacque, all-wool Canadian tweed, strong Italian cloth lining, good trimmings, well made, sizes 36 to 44, regular price \$6.50, Wednesday... **3.50**
- 39 Only Men's Pea Jackets, or Reefers**, made from imported Oxford grey montagnac cloth, high storm collars, tab for throat, check tweed linings, sizes 34 to 44, selling to-day at \$7.50, Wednesday... **4.49**
- 40 Only Boys' Overcoats**, all-wool brown tweed, with detachable capes, also double-breasted tweed, with storm collars, strong, heavy linings, regular price \$4.50, sizes 21 to 27 inch chest, Wednesday... **1.69**

Men's Two Dollar Boots for \$1.25.

We are experts enough to know a good Boot when we see it and to appreciate a good Shoe bargain when we run across one. This line of Men's Boots is worth your while. We have sold Boots at \$2.00 a pair not a bit better than these at \$1.25.

- The Leather is black buff.
- The Style is laced and whole foxed.
- The Soles are heavy with good extension edges.
- The Sizes are 6 to 10.

A good boot, a neat boot, a sensible boot. You can see them on Wednesday. You can come in the morning, at noon, or any time during the day—we'll be ready for you. You'll not have reason to find fault with the price if you decide to buy.

Three Big Extras for Wednesday.

These are worthy of special emphasis, and, deserving it, shall get it in this way:

- DRESS GOODS—Our 75c to \$1.25 Goods for 40c a yard.**
300 yards Dress Stuffs, being several broken lines in Home-spun Suitings, English Covent Cloths, Silk and Wool Tweeds, Poplins and other fabrics that were sold at 75c, 85c, \$1.00 and \$1.25 a yard, Wednesday to clear at... **.40**
- WOMEN'S BOOTS—Our \$1.25 Kid Boot for 90c.**
480 pairs Women's Dongola Kid (goatskin) Buttoned Boots, McKay sewn, high cut, neat shape and durable quality, warranted to give good wear, sizes 2 1/2 to 5 1/2, our regular price \$1.25 a pair, Wednesday to sell at... **.90**
- CURTAIN POLES—The 30c to 35c Kinds for 19c.**
1000 Curtain Poles, size 1 1/2 in. by 5 ft. and 7 ft., in oak, mahogany and walnut finish, with fancy brass ends, complete with rings, pins and brackets, made to sell at 30c to 35c each, Wednesday our price... **.19**

Groceries for Wednesday.

- 1200 tins Horse Shoe brand Salmon at 10c a tin (not more than four tins to one customer).
- Finest Marmalade Oranges at 20c a dozen.
- California Navel Oranges, regular 35c a dozen, for 30c.
- Choicest Messina Lemons at 9c a dozen.

Hats and Caps.

- Two clearance lots at quick good-bye prices for Wednesday:
- Men's English and American Fur Felt Stiff and Soft Hats, balance of lines nearly sold, including Russian and calf leather sweats, pure silk bands and binding, colors black and brown, regular price \$1.50 to \$2.50, for... **.75**
- Men's and Youths' Navy Blue or Black Beaver Cloth Caps, Quebec shape, also plain and fancy plush, frieze and tweed American 8-4 crown slaps, with or without slip band and good heavy satoon lining, regular price 25c and 35c, for... **.15**

Collars at the trouble has Five Cents.

- been to get enough of these collars to supply the demand this exceptional price created. A new lot of 160 dozen will be ready on Wednesday morning. They are the equal of collars we have been selling at 13c and 18c apiece.
- Men's and Boys' Collars, stand-up, with turn points and turn down, all round shape, also 4-ply linen collars, turn down shape, with long and medium point, sizes 12 to 17 1/2, Wednesday to sell at... **.50**

Crystal Glassware.

- This beats anything we've offered for some time in Glassware, and you know how easily we lead the market with low prices in Glassware. Whatever you do don't skip these on Wednesday:
- 750 Clear Crystal Glass Tea Sets, comprising sugar bowl and cover, butter dish and cover, creamer and spoon holder, neat shape, with pretty border of butterflies and leaf-shaped feet, this set for... **.25**
- Round Fruit Bowls, 8-inch size, neat cut glass pattern, each for... **.15**

THAT WEST ELGIN ENQUIRY

Has Not Yet Been Able to Discover How the Tell-Tale Ballots Were Lost to View.

THERE IS NO PERSON TO DEFEND

This is the Basis on Which It Starts Out, Lawyer McPherson is Informed.

Cold feet attacked the Royal Commission of Enquiry into the West Elgin mix-up.

When the judges forming the commission assembled for the third session at the Parliament Buildings yesterday afternoon.

The cause of the clammy pedal extremities was Lawyer W. D. McPherson, who made an appearance and modestly asked that he be allowed to appear as counsel before the commission.

Mr. McPherson is a barrister identified with the Conservative party, but, of course, that did not in any way affect his qualification to take a part in the examination of witnesses in this Commission of Enquiry.

ANTI-TRUST CONFERENCE.

Government Ownership of All Railway and Express Lines—No Special Privileges.

Chicago, Feb. 12.—At the close of the first day's proceedings of the Anti-Trust Conference, called by Senator Aldrich, the delegates were met with the speech of which a dozen were delivered.

The Resolutions Committee was busy this afternoon, and then while the main body of the delegates were in the hall, a set of resolutions was formulated by the committee.

The resolutions were: Government ownership of all telegraph and railway lines; the abolition of the Interstate Commerce Commission; placing on the free list of all trust goods; and direct legislation by petition.

The discussion in committee was carried on by the delegates, and the resolutions were adopted by a vote of 100 to 10.

OF INTEREST TO ESTATE AGENTS.

The Divisional Court decides *Morson v. Burnside* in favor of the Agent-to-Day's List. The Divisional Court handed out judgment yesterday in the appeal in *Morson v. Burnside*. The court reverses Judge Morgan's decision, and orders judgment entered for the plaintiff for \$137.50 and interest and costs. This is an interesting case to real estate agents, as it decides what constitutes an agent's authority to act and in what circumstances a principal is bound to receive commission. The facts are as follows: The plaintiff, A. E. Morson, was, by the knowledge of the defendant, J. T. M. Burnside, a land agent, and knowing that the defendant had been willing to sell the house and lot at Bellevue-avenue, for \$500, he telephoned to the defendant in the afternoon of Monday, February 13, 1900, and told him that he was willing to sell it at that price, telling him that he, the plaintiff, could find a purchaser at that price, to which Mr. Burnside replied that the price was still \$500, whereupon the plaintiff advised the defendant in his books, advertised the property for sale, which resulted in his bringing Charles E. Moore to the defendant and introducing him as an intending purchaser. Moore took a lease of the property with right of purchase, which he subsequently exercised. The court, on appeal, holds that the plaintiff was not an agent, and that the defendant was not bound to pay him the commission.

Must Rebuild the Fence. Mr. Justice MacMahon handed out judgment yesterday in the action of *Morris et al. v. Gotlib*, tried by him at Hamilton, without a jury. This was an action brought by the trustees of the First Methodist Church of Hamilton against Harris Gotlib and his wife, who had trespassed on the northeast corner of Main and Wellington streets by the judgment, Gotlib is ordered to replace the fence, which he had removed, and to pay the costs of the action.

That Hart Estate. The Trust and Guarantee Company were given judgment yesterday by Justice Patonbridge and Street in their action against George Hart of Pieton. Mr. Hart administered his father's estate to the extent of \$20,000, when the company was appointed to take charge. It sued for the recovery of the above sum, but the judge decided in Hart's favor. Now the plaintiffs gain their point, after appeal to the Divisional Court.

Kelly v. Davidson Mfr. Co. Mr. Justice MacMahon heard the argument of counsel in the matter of the evidence put in the action of *C. Kelly Davidson Mfr. Co. v. Davidson*. The case was tried at the Assizes last week. Judgment reserved.

To-Day's List.

Peremptory list of appeals to be heard by the Divisional Court on Monday, Feb. 13, 1900: *Longway, Fraser v. Fraser*; *Mitchell v. Seymour*; *Whitman v. Sanders*; *McCormick & Dunwick*.

MISS EMILY ST. GEORGE MARRIES

Has become Mrs. E. H. Fuller - A Wedding at St. Catharines. St. Catharines, Feb. 12.—Miss Emily St. George, youngest daughter of Thomas B. George of this city, and Mr. T. H. Fuller of the Bank of Toronto, Montreal, eldest son of the late Charles Fuller of Toronto, were married here on Saturday afternoon at St. George's Church. The bridegroom was Miss Baxter of Cayuga and Miss King of St. Catharines. The bridesmaids, Cole and Robertson were lower girls. Mr. H. N. Bates, brother of the bride, acted as groomsmen. Messrs. Chafferson and Wood of the Bank of Toronto and Mr. B. Burson, St. Catharines, were ushers. Mr. and Mrs. Fuller will make Montreal their home after returning from their wedding tour.

Grand Tour of Mexico.

On Feb. 14, 1900, the Wahash Railroad Company will run a special excursion train and select party of fifty people for a 30-day tour through old Mexico. This will be by far the grandest and most comprehensive tour ever run by any railroad in America. This excursion is a grand opportunity to visit this ancient land of the Montezumas. Every point of interest will be visited. The train will be the finest ever seen in this country, consisting of dining car, sleepers, observation and baggage cars, and a special car for this trip. The route will be over ten different roads, covering seven thousand miles of travel. Full particulars of this wonderful trip from J. A. Richardson, District Passenger Agent, northeast corner King and Yonge streets, Toronto.

\$10—Washington and Return—\$10.

By Lehigh Valley Railroad. Wednesday, Feb. 15, the Lehigh Valley will run a special excursion from Suspension Bridge to Washington, tickets only \$10 for the round trip, good for return until March 3, and good for stop off at Philadelphia and Baltimore. Trains leave Suspension Bridge, 7:30 and 9 p.m. For tickets and full particulars call on Robert S. Lewis, Passenger Agent, 33 Yonge-street, Board Trade Building, Toronto.

Compound Meetings Mean Secret Sessions, Followed by Open Sessions, and Ratepayers See Only the Outside—St. Lawrence Market Improvements Are Discussed in This Manner.

The World newspaper or by the Mayor of Toronto. The Mayor: We had better recommend the appropriation. The Controller Spence: I am on record against this appropriation. I would not give the architect one cent of money beyond what the Council authorized, and these bills, being beyond the \$2500, have not passed the Council. The Controller Sheppard said he was under a misapprehension, and if the bills had not passed the Council he would not vote for the appropriation.

The Mayor then referred to the committee on Property. But before the discussion closed, Controller Sheppard took a crack at his boarder, the Council, and had approval of the famous ad. Controller Sheppard said that some of the bills did not contain one particle of truth, and he did not, but Aid, Sheppard did.

On resuming at 2 o'clock, the Mayor said: I might make a little announcement in reference to the deliberations of the Council. We had a meeting with the Solicitor, and the Controller, and they discussed the matter. We agreed to have a conference on this matter. We agreed to have a conference on this matter. We agreed to have a conference on this matter.

The public meeting called for Wednesday will merely register the arrangement come to at this "conference," if arrangement be possible, which is not certain. Controller Sheppard was asked yesterday whether his intelligence furnished a private meeting with the "interested parties" in this work. "No," he replied; "emphatically, no."

BOARD OF CONTROL

Held Three Distinct Meetings Yesterday Over the St. Lawrence Market Piers. The Board of Control held three sessions yesterday. The first was at 11 o'clock, on the call of the secretary, regularly and in writing. The second was a private consultation with the legal department. The third was a public meeting, which adjourned for a private conference to-day.

On starting in at the opening adjourned the Mayor said: "I find it necessary again, as usual, to refer to the newspapers. Controller Spence: The poor newspapers! The Mayor: We have again transgressed the views of the World newspaper—the editor of the World.

Controller Spence: Is that the official organ of the corporation? The Mayor: The statements are utterly untrue. There was no public business done on Saturday and never will any public business done at secret sessions of the Board of Control as long as I am at it. But sometimes it is necessary to consult our solicitor and other parties to learn their views and not have a lot of stuff in the newspapers about it; to arrive at a better understanding of the matter, and to have all votes or public business, as long as I preside at this board, will be done in public.

Controller Spence: That is the view of all of us as to public business. A Lamenting That. The Mayor: As to this matter of the market, I thought we should have this meeting in private. I think we ought to consult our solicitor. A great many questions may arise, and have arisen, and I don't think we ought to do anything in private. I do think we ought to have a consultation. If the editor of the World will consent, I think we ought to have it.

Controller Sheppard: I would like for my part to have an interview with the legal department from a legal standpoint. I want to know exactly where we stand. It is a matter which should be taken care of, as it is not to get carried in a matter that we would regret afterwards.

Controller Spence: I understood we were to meet here to-day. The Mayor: I thought there was any idea that it would have been necessary to consult the City Solicitor. I would have suggested that we consult him in the meantime, and come here to-day with all the information. The Mayor: We had no time to consult him in the meantime. Let us meet the City Solicitor now and go with this business. This meeting was called for the purpose.

Controller Spence: Are you satisfied about our legal position? Controller Spence: I am not going to express a legal opinion. But I have read all these papers over carefully, and they seem to me to make delay essential. I am aware of postponing it, but if we take it up this afternoon I have no objection. Controller Sheppard: I would like to see the Mayor. He is always been too late here.

Controller Sheppard: We had a meeting of the Board of Control on conference on Saturday, but we ought to deal with this question as a body. It was then decided to consult the City Solicitor and his meet at 2 o'clock in the afternoon. An Agreeable Break. The separate school estimates were presented, showing a decrease, which struck the board as an agreeable break in the trail of increasing estimates. A letter was read from the City Solicitor asking that the Treasurer receive an appropriation of \$500 to make up the difference between the sum of \$2500 passed in Council for carpets and mats and \$5740 expended by the architect. Controller Spence: Mr. Mayor, I am not in favor of giving one cent more to this architect or for work on any account under him. Until we get him out first, we should have a stop to this extravagance. The Mayor did not see what the board could do but pay the money. Controller Spence: This is simply entertaining the property for enlarging and enlarging expenditure. Let us get rid of him first. Controller Sheppard reminded his conferees that the matter had been authorized by Council. The Mayor also made a sally at the expense of Spence as an opposition censor to the World newspaper. Controller Spence: I am not responsible for any interpretations of what I say by

A SENSATIONAL PANT STORY

BY P. JAMIESON.

CHAP. XIV.

Some people can't look on the bright side of life without straining their eyes. Their wisdom could smell a rat, even in heaven. But what can we expect? "Ignorance is bliss" is at the present salary rate of teachers. However, the magistrate isn't the only man who has the courage of his convictions.

This Pant Festival is a howling success, not after the manner of a baby show, but in the lesson it has taught many tailor-made men that a bargain in high-grade tailoring is worth heading. Scotch Tweed pants—the tailor charges 4.00 for—made to your order for

2.75

That's the burden of this story. It means all it says. There's no trick in it. It's a bold move to cover a dull season and gain your lifelong tailoring trade.

Has the story convinced you? If so—come to-day.

(Continued in Wednesday's Issue.)
