**200,000 MEN GO
BACK TO WORK**
Coal Operators and Miners
Delighted with
Basis of Settlement.

TOLEDO, April 17.—The 200,000 idle
miners in the central competitive dis-
trict will go to work next Monday.
An amicable agreement between the
miners and operators was reached to-
day by members of the scale committee
and this agreement was later ratified
by the joint meeting of the miners and
operators.
Both sides are satisfied with the re-
sults of the convention and the con-
ference adjourned with the best of feel-
ing between the two parties to the
controversy.
Terms of Agreement.
The terms of the agreement provide
for a general resumption of work thro-
out the district next Monday. The
adoption of the old rate of 90 cents a
ton for mining coal; a referendum
vote to be taken by districts, and a
return of the committee to receive the
call of the committee to receive the
agreement held for two years; a uni-
form screen of one and one-fourth
inches; an eight-hour day; the settling
of all local differences as to prices
and conditions to the districts for set-
tlement; an invitation to Illinois opera-
tors to join in the next inter-state
convention, and that the next joint in-
ter-state conference be held in Toledo in
February, 1910.
Both Sides Delighted.
Miners and operators are delighted
with the outcome of the conference and
declare there is now a more harmoni-
ous feeling between miners and opera-
tors than has existed in years.

BULLS ON RAMPAGE.
Injure Score of People on Streets of
Mexico City.

MEXICO CITY, April 17.—A sensation
was created this evening when 15
bulls of the Nonopolis fighting breed,
which were intended for next Sunday's
corrida in the Condesa ring, escaped
from the Central Railroad yards and
stampeded through the principal streets
of the capital, causing severe injuries to
over a score of persons, including an
aged woman, killing a mule, which was
drawing a cart, going a cab horse and
creating a general commotion.
Furious vaqueros, the bulls headed
down the Puente de Alvarado toward
the Alameda, one of the principal
avenues of the capital, where hundreds
of persons were buying holiday toys
at a booth. Two of the bulls were las-
sed and thrown to the ground in front
of the Church of San Juan de Dios.
The traditional "bull in a china shop"
could not possibly have accomplished
more damage than one great brute,
when he plunged thru a booth filled
with articles of china, which were to
be burned next Saturday.
Two plate glass windows in the Calle
de la Independencia were smashed by
another bull, which a few minutes later
met with disaster beneath the wheels
of a street car of the San Angel line.
It was 11 o'clock when the last of
the bulls that escaped, was finally cor-
ralled by the vaqueros in the Alameda.

HARDEN'S LAWYER THREATENS
Will Be Exposed if Prince Takes Libel
Action.

BERLIN, April 17.—Max Bernstein,
Herr Harden's advocate, who yesterday
published the announcement that up
to date Prince Philipp zu Eulenburg had
not taken any proceedings against him,
was today served with notice to ap-
pear in due course to answer charges
of libel which the prince decided to
bring against him.
Herr Bernstein has publicly an-
nounced that he will shield himself
behind the plea of professional immu-
nity, but will meet the charges as an
ordinary individual. If the fiery Ba-
varian lawyer sticks to his word and
speaks with his immense resourcefulness
and oratorical power, it is more
than likely that another highly sensa-
tional case is within view.

AUSTRALIAN MOUNTS
Are Being Purchased for Philippine
Service.

MANILA, April 17.—Major William
Brown of the Third Cavalry has returned
from Australia with 108 Australian
remounts for the cavalry, making a
total of 528 for the army bought in six
months. This is an experiment to prove
whether it will be possible to stop
bringing American horses here. The
Australians are smaller, supposedly
hardier and better suited to the tropics
than those now in use throughout
the islands.
These animals give good service, but
they need a year to prove that they
will be permanently valuable.
They are mostly bought in Queensland,
as the cavalry prefer start fresh with
them. The average price is \$125 in
Queensland, Victoria and New South
Wales, much less than the American
prices.

King Aide Blarritz Poor.
—BLARITZ, April 17. It became
known today that King Edward, who
left here yesterday after a stay of sev-
eral weeks, made a parting gift of
2000 francs (\$400) to be distributed
among the poor of the city.
Another Offer Day.
J. H. Plummer, president of the Don-
nition Iron & Steel Co., and James
Rees, president of the Dominion Coal
Company, observed today Friday by
not holding any conference in relation
to the projected settlement between the
two companies.

778 PER FOOT
Breaks Ocean Record
By Minute.

NEW YORK, April 17.—By a
remarkably close margin of 1
minute, the big Cunard liner
Mauretania established a new
record across the ocean over the
long route in the voyage which
ended here to-day. Her time for
the passage was 4 days 23 hours
and 59 minutes. The fastest
previous trip—exactly five days
—was made by the Mauretania's
sister ship, the giant Lusitania.
The Mauretania's average speed
over the 2889 mile course was
24.08 knots.

**M. B. MORRISON, M.L.A.,
SHERIFF OF HASTINGS**

**Member for West Hastings Since
1898 Receives Appointment—
Long Municipal Career.**
Announcement was made yesterday
of the appointment of M. B. Morri-
son as sheriff of the County of Hast-
ings, in succession to the late Sheriff
Hope.
Mr. Morrison is a front bench Con-
servative member of the legislature,
to which he was elected to represent
West Hastings in 1898, 1902 and 1905.
He was born in 1848, and has resided
in Trenton for 35 years, where he has
been a member of the county council
for ten years and was mayor in 1888-
89-90-91-92-93. In 1886 he went to the
front as a member of Co. 4, 16th Bat-
talion.
The appointment vacates the seat,
but as three months may elapse be-
fore the issue of a writ it is safe to
assume that the election will take
place at the general polling in June.

CHAS. MARCH IS DEAD
Well-known Labor Man

**Vice-President of Painters' Brother-
hood Passes Away in Montreal—
Lived Life in Toronto.**
Labor men throughout the country will
be sorry to hear of the death of Chas.
March, second general vice-president
of the Brotherhood of Painters and
Decorators of America, which took
place yesterday in Montreal.
Mr. March, who had been a life-long
resident of Toronto, for the past year
had spent a considerable portion of his
time in traveling in the interests of the
Brotherhood. It was a business trip
that took him to Montreal, and he was
then to go west as far as Vancouver.
He fell ill during the trip, the strain
being upon him. His wife and son were
able to reach him before the end came.
Mr. March was born in Toronto about
37 years ago and as a boy became ap-
prenticed to M. O'Connor, who had be-
come his own career under Mr. March's
father, Charles March continued in Mr.
O'Connor's employ until recently, or
about forty years in all, during which
time two brothers, also employed by
Mr. O'Connor, were also one of the found-
ers of the technical school. Some years
ago he contested West Toronto for the
legislature.
Last summer Mr. March was criti-
cally ill at Lafayette, Ind. The remains
will reach Toronto this morning, and
interment will take place on Monday.

FIREMEN FORM CHAIN
Swing Man to Safety

**Daring Rescue in New York by
Two Blue Shirts on Their
"Day Off."**
NEW YORK, April 17.—Two firemen
who were taking a day off made a
daring rescue on the top floor of a
burning building at 725 Third-avenue
to-day by forming a human chain from
the coping of an adjoining house and
swinging to safety George Deitz, who
had been caught by the fire in the hall-
way of the building. Deitz's father and
mother, who had climbed onto the
near fire escape, were taken to safety
by firemen on an adjoining building.
Deitz woke from a sound sleep and
saw the fire in the hall next door, but
the fire department did not have ladders
long enough to reach him. Flames had
cut off the fire escape.
Firemen Dugan and Sythes were off
duty, but were near the place when
the alarm was sounded. They climbed
feet to the fire window, but the fire
department did not have ladders long
enough to reach him. Flames had cut
off the fire escape.

ALLANS SECURE CONTRACT.
Will Carry Mails Between Canada
and France.

MONTREAL, April 17.—(Special.)
H. and A. Allan have secured the new
mail contract between Canada and
France, the subsidy paid to that com-
pany to be \$100,000.
There will be five ships and the con-
tract specifies that there will be 18
round trips, and this can be increased
to 36 if the trade warrants.
There is also a proviso making the
freight rates higher than those be-
tween the United States and France.
WILL CALL AT HALIFAX.
BREMEN, April 17.—The North Ger-
man Lloyd's has decided to have some
of the slower steamers in its New York
service touch at Halifax. This change
will be put into operation the middle of
next month.

BOSTON, April 17.—The state police
began a preliminary investigation to-
day of the cause leading to the fire in
Chelsea last Sunday and of the reports
that there was considerable incendiarism
in various parts of the city during
the progress of the fire. Deputy Chief
Neal rode about the city and on Tues-
day will hear witnesses at the state
house. The tenth body recovered from
the ruins was uncovered in a cellar
near the corner of the city street and
Boadway about noon to-day. Like sev-
eral of the others it was burned beyond
recognition and was sent to the morgue
for post-mortem examination.
The police fear that further search
in the hundreds of cellars will disclose
other bodies, as the list of persons mis-
sing is still largely unaccounted for,
however, varying, ranging from 30 to 70.
Many persons who could not be found
early in the week have turned up, but
at least 40 are still unaccounted for.
Up to to-day there has been no system-
atic search of the cellars of the burned
houses. It is expected that as soon as
the streets have been cleared, the au-
thorities will make an effort to
search the cellars systematically.

A "CORNER" IN LIMBURGER.
Wisconsin Bank Cashier Stole \$30,000
and Lost It.

MADISON, Wis., April 17.—It was his
attempt to corner the Limburger cheese
market that led Edward C. Story, cash-
ier of the Citizens National Bank of
Belleville, near here, to embezzle \$30,-
000 of the bank's funds. The cashier
was led to believe that there are mil-
lions in Limburger; believing it the
central market in the state for that
brand of cheese.
The temptation to speculate was too
strong for Story, who nibbled at the
bait, first "borrowed" the bank's money
five years ago, lost it, and has kept on
borrowing until the bank's funds are
nearly exhausted. A rat (or thought it
was), then discovered his thefts.
When accused of the embezzlement
Story took poison and is critically ill.
His salary was only \$900 a year; his
household expenses were more than
that sum. He is married and has one
daughter, a graduate of the Chicago
Art Institute.
The bank's directors have made good
Story's default and the institution
will resume business. The directors
are informed, it is said, that Story's
agents in Milwaukee, where great
quantities of Limburger are consumed,
deceived him and sold far under the
price he fixed.

STUDHOLME APPROVED.
Independent Labor Party Executive
Compliment M. L. A.

Allan Studholme's policy and action
were approved for the independence he
exhibited in the legislature by the ex-
ecutive of the Independent Labor party
yesterday.
The executive met in the Labor Tem-
ple yesterday. President Rollo of Ham-
ilton, Treasurer Chisum of Windsor,
Secretary James of Toronto, W. B.
Smith of Guelph, F. J. Cooky of King-
ston and John W. Bruce of Toronto
were in attendance. Reports were read
from the different branches, showing
a steady growth in the movement. It
was decided to appeal to the organiza-
tions for funds to assist in the coming
campaign. It was also decided to have
the platform of the party printed and
distributed. The executive approved of
the policy of branches in placing can-
didates in the field, and promised moral
and financial support. Books were
audited and showed a balance on the
right side. It was decided that the per
capita be paid quarterly.

**A NEW LEAGUE
TO REFORM
POLITICS**

**Will Project Moral and
Social Issues Into Every
Election Contest
—Has Ambitious Aims.**

A new movement is on in politics.
It has been launched quietly, but
has grown greatly in a few weeks.
The Citizens' League is the father
of this new movement, which shows
itself in the social and political clubs
of this league. An official of the
clubs tells The World that they are
political and not temperance organiza-
tions. His story of the aims and ob-
jects of the clubs follows.
The clubs now being organized in
this city are political, and not as some
suppose, temperance organizations.
They have entered the political arena
to unite and organize the moral forces
of every electoral district, and when
that is accomplished, they will pro-
ject moral and social issues into every
election contest. They recognize that
the moral forces of this country have
been and are at the present moment
a mere company of earnest, undisci-
plined and unorganized (political) men,
seeking legislation on many lines, and
yet, unable to enforce their demands.
They further recognize that the will
of the people will be crystallized into
law just as soon as the people will
at the ballot box that it shall be.
The Basis of the League.
Readers will be able to get a clear
idea of the aim, plan of campaign and
methods of this new political move-
ment, from the following circular,
which has been issued by the execu-
tive.
"Whereas many of the evils and
wrecks that exist in this land are en-
trenched in politics and protected by
law.
"And whereas there is but one me-
dium by which legislation of any kind
can be secured (and what is of equal
importance, enforced), and that by
electing men to power, who are in
sympathy with the legislation; there-
fore, the political clubs of the Citizens'
League have been called into exist-
ence and organized for the sole pur-
pose of following and fighting those
evils, where they now find them, in
the field of politics. This they pro-
pose to do by making social and moral
reform issues in provincial and
federal elections.
The club will not make these ques-
tions issues in any electoral district
that has not been thoroughly organized,
and in which they have less than one
thousand members. In the coming
campaign for social and moral reform
the club's battletory will be, 'No com-
promises.'
"In so far as the liquor traffic is
concerned, the club's lowest standard
will be: The largest measure of pro-
hibition that it is possible to enact
and enforce.
"In provincial matters the club will

TIPLIS, April 17.—The Russian
troops which recently invaded Pers-
ian territory in the vicinity of Be-
leusvar for the purpose of punishing
Kurdish raiders of the Russian garri-
son at the frontier post, Beleusvar, April
13, acted with a promptitude calculat-
ed to overawe the tribes of the first
class near Beleusvar.
The fight which ensued assumed the
proportions of a pitched battle. The
Russians were greatly outnumbered,
but they pressed the battle with en-
raged valor and routed the Persians, inflic-
ing a loss of 34 men killed and 50
wounded. The remainder of the
tribesmen broke and fled.
Village Destroyed.
The Russians lost one officer and
seven soldiers were wounded. The
cannonade set fire to the Village of
Beleusvar, the destruction of which
was completed by the Cossacks after
a ruthless house to house search for
the Russian arms stolen during the
raid of April 13.
Pressing their advantage, the Rus-
sians bombarded the neighboring vil-
lages of Kodzabelu and Serah and
intended to send a much larger force
to the Aras River hinders the concentra-
tion of reinforcements from Baku and
other points north.

Attempt to Burn Down Building in

LONDON, April 17.—(Special.)—A
desperate attempt was made to-night to
set fire to the frame fruit store, and
dwelling, 53 Richmond-street, occupied
at the time of his death recently by
Toney Barons.
The fire was blazing up nicely when
discovered by some members of the
Travelers' Club, across the street. The
fire was extinguished, when it was dis-
covered that quantities of paper, satur-
ated with kerosene, had been placed
about the building and a number of
wooden buildings are in the vicinity,
and the result might have been disas-
trous.

Great Racing at Dufferin William C. Wins Class A

Pansy, Billie B. and Major W. Are the Other Winners— Good Time Made and a Record Crowd

One of the best matinee ever held on the Dufferin track was held Good Friday, when a very large holiday crowd were present, and they were well repaid, for the quality of the racing was of the Grand Circuit order, every heat being a chance to a finish. Yesterday was fought out as a finish. Yesterday was a grandly opening of the racing season for harness horses, and so many members of the club having matinee horses, in order to give as many as possible a chance to race as possible, the club decided to put on four races, which required seventeen heats before the winners were returned.

Class A brought together four very fast horses, and the time made, considering the state of the track, was wonderfully good. Prairie Oyster was the good thing, and tipped off as a sure winner. He won through the stretch at a terrific clip and finished first, with Prairie Oyster second, Gipsy Girl third and Mamie Abbott fourth.

Class B was another splendid race, but that good mare Pansy, owned by R. J. Patterson and driven by W. Robinson, seemed to have just too much speed for the rest of them, winning in three straight heats, the time being 1:13, 1:12, 1:12. Pansy did not seem to be as good as he has been, but is possibly short of work. His race is coming nicely, and in a short time will be making them all step aside to beat him. Fred Lamb drove his maiden race, with that good matinee mare owned by F. Russell (Irish), and driven by James McDowell. Johnnie Riley looked to be the winner in this race, winning the first and second heats quite handily, but he also seems short of work. His race would no doubt have made a different result.

Class D was won by Major W., owned by F. Rogers and driven by W. Capner. In the first heat he seemed to win it easily, and it did not look as if there was much danger for him, but in the second heat a new one, Tuxedo, recently bought by Mr. Scott, made him step quite a bit faster in order to get the horses in shape. The Uxbridge Association are sparing neither expense nor trouble to give the D. C. C. one of the best days they ever had, and no doubt the majority of the club members will avail themselves of the opportunity of spending a pleasant day in the country, and seeing some extra good racing. The location of the Uxbridge track is an ideal spot, overlooking a nice river, and a beautiful park in the centre of the half-mile ring, and it is understood the 48th Highlanders' Band will furnish the music for the day. The summary:

Class A—W. C. (r.g.): Jas. McDowell (owner) 4 4 1 1 1 Prairie Oyster, chs.: A. Wales (W. Dryden) 1 1 2 2 2

His Mount Was Favorite, But It Fell—Alauda Wins Union Stakes—Results.

NEW YORK, April 17.—Alauda, heavily played second choice at 2 to 1, easily won the Union Stakes, a selling event at seven furlongs, at Aqueduct to-day. E. Dugan had the mount on the winner and he rode a good race. Waverest on the strength of some fast trials, was made an odds-on favorite at 7 to 5, with Cymal, the only other starter, quoted at 5 to 1. Alauda went to the front soon after the start and led into the stretch turn, where Cymal showed in front. Alauda came again and won by two lengths. Cymal was second.

Steeplechase Jockey Harry Stone, who was ruled out last year for a bad ride, was to-day granted a license and had his first mount on Gus Straus in the second race. He was made favorite, but he fell three jumps from the finish. Stone escaped a bad fall.

THIRD RACE—Two-year-olds, selling, four and one-half furlongs: 1. Madras, 102 (Musgrave), 9 to 5, 5 to 3 and 1 to 4. 2. Guy Fisher, 86 (Fairbrother), 20 to 1, 7 to 1 and 2 to 1. 3. Sight, 106 (McDaniel), 7 to 2, 6 to 5 and 3 to 2. 4. Primrose League, Chipmunk, Desolate, Reprisal and Belle of the Tribe also ran.

FOURTH RACE, atephechase, four-year-olds and upwards, selling, about two miles: 1. Jim McGill, 130 (M. Henderson), 6 to 5, 1 to 2 and out. 2. Dr. Hollenarth, 138 (Owens), 12 to 1, 8 to 5 and out. 3. Gus Straus, 142 (Stone), 9 to 10, 1 to 2 and out.

Meeting of 34th Officers.

Lieut.-Col. A. G. Henderson and officers of the 34th regiment held their annual meeting in the Iroquois Hotel last night. The attendance was large and the officers were most enthusiastic over the prospects of visiting Quebec. The regiment could turn out full strength if required and the officers will have to stiffen their upper lips to refuse half the applicants. Friendship comes when duty begins, and the 34th expects to give a good account of itself.

DOWN S ANNOUS TO BE EVANGELIST

Thinks the Experience He's Been Thru Should Fit Him for the Role.

DETROIT, April 17.—Percy Bowin, the youth who was recently found guilty of the murder of Mrs. Cornelia Welch, announces from the seclusion of the dear old vine-clad home of his boyhood in Woodville, Ont., that he is confident that he might shine as a star performer in the pulpit.

His aspirations, as well as his attitude toward those who participated in the tragic drama in which he played the star role while in Detroit, are best presented in the letter written by Bowin to a friend in this city.

The letter, with punctuation and spelling precisely as written, in part, follows: "We reached our home Woodville Ont safely. I believe our whole town were at the station, but mother and I got ed quietly into a house and went directly to our home.

"No one knows what I felt like when I once more entered my dear home where I had the good of bringing up the good father and mother, who when I left home to go about for myself, expect I would live the rest of my life as a Christian boy, and abide by the early training which I had when with my parents.

"Blames 'Wicked Woman.' "I can't account for my wrong doings only that I was in a deplorable condition, fell into the hands of the wicked woman who had influenced over me. I know I did wrong to associate with them, I am sorry, very sorry to think I disgraced my poor mother and father, brother and myself by so doing. "I said while in jail that if they gave me another chance, I would show the public I was not as black as they printed me.

"After the kind jury men handed in the verdict, Judge Phalen said, they were giving me a chance to do better than I had done before, I gladly say, the Hon. Judge Phalen is mistaken, I am through doing wrong I have a desire for higher things, I don't want to ever again do anything displeasing, I want to live so that Judge Phalen, my worthy, worthy mother, my dear kind jury men can always say, that it is not always wise to judge men to be hasty, and that it is the worthwhile to give men more than one chance in life.

Would Be a Minister.

"You ask me in regard to my future plans, I hope to go to a theological seminary by fall. God has been good to me and I know if I do my part, I feel I shall be successful by fitting myself to carry out such a vocation. It has been my desire all my life time. These are the reasons that my mother wants me to do and what she is praying daily for. I am sure after my own experience I can take a course in such a school, and then what it means to do right."

AN EASTER GIFT BOX.

Air Tight Cansisters With a Cedar Lining for Fine Cigars. Tobacco "humidors" have been generally adopted for the keeping of fine cigars in the home or at the office, but a less expensive and less cumbersome device for touring or traveling has been developed by an inventor, and is being carried by a cigar box of tin, with a cedar lining, is practically a humidifier, for these are made to be air-tight. The new boxes were given by the preservation of the delightful aroma of the famous "Cabanos." These cigars are made from a leaf grown in a certain district in Cuba, and are noted for its delicacy and mildness.

G. W. Muller has imported a splendid line of four different sizes and values in these air-tight boxes. On motor trips, or on sea voyages, where one meets with great changes in both humidity and temperature, the condition of the "Cabanos" remains unchanged. The new box will be a great advantage, and the fact that the cigars are Cabanos will help it towards a smart popularity.

Revival of Logging Industry.

LONDON, April 17.—(C.A.P. Cable.)—The Times holds out favorable hopes for the British Columbia logging trade, but says if the boom of the last few years is not to be repeated, the whole record of the slump makes a less creditable episode than the well-grounded confidence and self-restraint displayed by his subject in the future. Certainly the convention are to be congratulated on their good day's work. The C.L.A. are in good financial standing to-day, having something like \$1200 on hand.

FIRED BARRIS BECAUSE THEY WANTED REVENGE

Hearing of Charges Against Dreamers Adduces Some Sensational Evidence.

MEDICINE HAT, Alta., April 17.—The preliminary hearing which is being given members of the sect known as the "Dreamers," on a charge of burning the home of John Lehr, St. Josephsburg district, forty miles south of here, promises to be tedious and drawn out for a considerable length of time.

It was necessary to get the prisoners to give evidence when in the witness box against Frederick Neuman today, their memories being defective on certain points until the prosecution finally cornered them.

The first witness in the afternoon was Christina Lehr, wife of John Lehr, whose house was destroyed by fire. Her evidence corroborated that of her husband in the telling of the narrow escape the family had from death, all having to leave the house thru a window. She stated in addition that the prisoner had told her during the winter that if the devil set fire to the place stupid people would lay the blame to the "Dreamers."

Sensational Evidence. Mrs. Schneider, a neighbor, gave evidence of a sensational nature concerning the treatment of the prisoner. She had been a member of the congregation. She stated that the sect believed in destroying all who were not members of their church and executing their dreams, providing they were not found out by the government. At the meetings they discussed the best means for the destruction of their enemies. She told a tale concerning an offence against the law committed by the prisoner which thrilled all.

The order of the prisoner, Neuman had purchased goods at an auction sale, for which he gave a note for \$66. To pay on this note he had asked Mrs. Meyers, who had the note for it, and she had would pay it immediately. Meyers produced the note, and Neuman went to the bank and had it cashed. He had paid \$120 to settle. Neuman went to god, Jacob Merkall, who told him he should take revenge on the "Dreamers," and that he would help him. It was decided that when Meyers and his wife were away the family and the kind jury men should be destroyed. Neuman was to do it. He afterwards burned Meyers' barns and cattle, using coal oil.

Tried to Fire House. He could get no material to start a fire at the house, and besides, he was afraid to go too close, as a light was burning in the window. There was some snow on the ground, and he had to be careful in hiding his tracks by keeping the snow. The "Dreamers" always carried fire arms about their person. Albert Neuman, son of the prisoner, was then called to the witness box. He stated that he had talked to young Neuman, who had not been converted and did not dream, who he attended the meetings. He was excluded when dreamers were being invited. Karl Otto, another prisoner, stated that the previous witness was excluded from any part of the meetings.

HIS CHEQUES DISHONORED.

Drawn on Bank of Life—Young Man Fails to Pay a Bill.

MONTREAL, April 17.—(Special.)—W. S. Hartley, a young Scotchman and a member of the "Dreamers" sect, was found dead this evening in the Westmount Park with a bullet wound in his head, and the revolver excluded when dreamers were being invited.

He left a letter for a friend in which the writer stated that all his cheques drawn on the Bank of Life had been dishonored, hence his desire and determination to quit. He was thirty seven years of age, was unmarried and had few friends.

C.L.A. Convention Gossip.

The contest between Jack Kearns and Don Bailey for the presidency will go down in the annals of the C.L.A. as one of the fairest fights ever contested for that office. Both candidates were in the best of health, and were to come in after a certain hour, and were content to fight it out with the seventy-eight clubs in the arena.

The sudden death took place here of Mrs. Amos Abbott of Montreal, a former resident of Brockville, who on a visit to relatives. She was attacked with pneumonia, and in less than 24 hours passed away. The deceased was 83 years old. She was first married to the late Arthur Perry, one of the founders of the Brockville Gas Works, and the first chief of a volunteer fire brigade here half a century ago. She leaves no family.

NEW YORK BANKING BILLS.

Series of Measures Recommended Pass Legislature.

ALBANY, N. Y., April 17.—In a long session, lasting until 7:30 to-night, and accelerated by no less than four emergency messages from the governor, the senate to-day passed nine banking reform bills, and put the final touches upon the comprehensive series of measures recommended by Superintendent Clark Williams of the state banking department.

With the exception of the bill to prohibit department stores from doing a banking business, the legislature now passed all of the 21 measures included in the program of Superintendent Williams. The bill is practically dead, and is the only one of the 21 to fall by the wayside.

The nine banking bills passed to-day are these: Giving the superintendent of banks supervision of insolvent banks and providing that their liquidation shall be conducted by his deputies.

Requiring branch offices of trust companies to have \$100,000 capital in addition to that of the parent institution.

Requiring present branch offices of state banks to have \$25,000 capital and future branches \$100,000 capital in addition to that of the parent bank.

Increasing to 15 per cent. in Manhattan and five per cent. up-state the reserve requirements for trust companies. Also, providing the same for state banks.

Requiring trustees of savings banks to file an oath of office.

Requiring officers of banking institutions to report on a monthly basis to the committee of directors all loans made during the month.

Placing restrictions upon the loans and business methods of banking institutions.

Requiring the public posting in the bank or department of details of the transactions of the department.

AGED WOMAN ASPHYXIATED. Chief Coroner Dr. A. Johnston has decided not to hold an inquest on the death of Mrs. Mary Gallagher, who was asphyxiated at her home, 88 Brunswick-avenue, early Wednesday morning.

Mrs. Gallagher, who was a widow, lived with her son, John Gallagher, a mailer. On Friday, about 2 a.m., to a work he observed a strong odor of gas, and investigation showed that a gas jet was turned partly on in Mrs. Gallagher's room. He called Dr. J. W. Smuck, but medical aid was too late. Mrs. Gallagher, who was 82 years of age, was troubled with bronchitis and hastened her death, as it had been heard coughing only half an hour before the discovery of her condition was made.

BARGAIN IN UPRIGHT PIANO. Worth nearly double the money, can be said of a good upright piano slightly used, that the old firm of Heintzman & Co., Limited, 115-117 West King-street, Toronto, offer as a bargain this week. This is house-cleaning time with the firm, and they are offering sensational bargains in square and upright pianos and organs.

CHAS. M. HENDERSON & CO.'S SALES. Attention is called to the list of coming auction sales under the management of Messrs. Charles M. Henderson & Co., the popular auctioneers. Parties requiring their services would do well to give early notice to secure dates.

COOK'S COTTON KNOT COMPOUND. The great Uterine Tonic, and only safe official Monthly Menstrual Regulator, which women can depend on, sold in three degrees of strength—No. 1, 2, 3. Personal

Miss Ruby Harkness, Hamilton, who will sing at Miss Harkness' recital on Tuesday evening next, will be the guest of Mrs. W. Hamilton of Beauty-avenue, during her stay in the city.

A very quiet wedding was solemnized at the home of Mr. and Mrs. C. Anderson, when Miss Edith E. Anderson of Toronto was married to Mr. Charles M. Hannah, formerly of Orillia. The bride looked charming in a suit of brown. Miss Florence Mould acted as bridesmaid, while Mr. Ernest W. Kay was groomsmen. Mr. and Mrs. C. Hannah will spend their honeymoon in and around Orillia, and then return to Toronto.

Eleanor Glyn, the novelist author of "Three Weeks" arrived at New York yesterday on the steamer Mauretania.

Sir Robert Walker of Sand Hutton, Yorkshire, is stopping at the King Edward. Sir Robert succeeded to his title of baronet in 1904. He is a youth of 18, and is traveling in the company of Herbert T. Stewart, Wimbledon, and Herris Daniels, Elbert. The baronetcy was created in 1867, and he is a fourth in succession.

Dr. W. C. Gilday, who left last September to take up a special course in London, England, has passed his conjoint examination and received the degrees of M.R.C.S. and L.R.C.P. His many friends will be pleased to hear of his success.

Many prominent ladies are working hard for the success of the Argonaut Rowing Club's annual regatta in Massey Hall next Thursday night and there is a jolly competition for the gold bracelet which goes to the lady who shows the best results. The affair is under the distinguished patronage of His Excellency the Governor-General, and the proceeds are to swell the funds of the Canadian Olympic committee.

PRINCE MARRIED PLEBEIAN.

Bride is Daughter of a Bohemian Doctor.

BERLIN: Prince Victor von Isenbourg-Birstein to-day married the daughter of a local doctor near Schloss, Schlickerwerth, Bohemia. The wedding took place at Nurnburg, Bavaria.

The Grand Duke of Hesse, in whose territory Birstein is situated, tried to help matters by giving the newly married princess, whose name was Anna Rohrer, the title of Freifrau von Bonbrunn. Nevertheless the prince's family refuses to receive his wife.

The prince is a brother of the reigning head of the house and is 36 years of age. He has long been in love with his wife, whom he knew as a child. He ranks as a captain in the Prussian army, but is a clever engineer and has acquired an influential position in an automobile factory. His elder brother, Prince Karl, married 13 years ago Hermina Emma Lewis of New Orleans, who is his mother. Prince Victor is first cousin of Signora Toselli, the divorced wife of the present King of Saxony.

BARCELONA PLEASED.

Sentence of Death Passed on "Reds" Was Cheered.

MADRID, April 16.—The sole topic of conversation and comment in the press in Madrid and Barcelona to-day is the judgment of the Barcelona anarchist trial. Besides Juan Rull, his mother, Maria Queralt, and his brother, Hermenegildo, who have been sentenced to death, his father has been sentenced to seventeen years' penal servitude.

During the proceedings in court only light charges were made against Rull and his mother and brother, but incidents out of court during the last few days, some people having recognized Rull's mother as the woman who placed the bomb, had influence on the verdict.

Barcelona welcomed the verdict, and when early this morning crowds massed in front of the newspaper offices and read the judgment applause burst forth.

It is believed that the death sentence will be commuted to penal servitude, but the moral effect of bringing anarchism in its own stronghold where, at short intervals, none would dare condemn them and bomb throwers were acquitted, will, it is believed, be very great. Defenders of law and order generally welcome the verdict with satisfaction, especially as it comes just at the moment when Spain is preparing a law to stamp out anarchism.

HEALTH FOR THE BABY.

A mother who has once used Baby's Own Tablets for her children will always use them for the minor ailments that come to all little ones. The tablets are the best medicine in the world for the cure of indigestion, constipation, diarrhoea, teething troubles and breaking up colds. And the mother has the assurance of a government analyst that this medicine contains no poisonous opiate or narcotic. Mrs. Wm. F. Gay, St. Eleanor's, P.E.I., says: "I have used Baby's Own Tablets with the best of results, and know of nothing to equal them for the cure of stomach and bowel troubles. I do not feel safe unless I have a box of Baby's Own Tablets in the house." Sold by medicine dealers or by mail at 25c a box from the Dr. Williams Medicine Company, Brockville, Ont.

GOULDS HAVE PARTED.

NEW YORK, April 17.—Frank Jay Gould and his wife, who was Helen Margaret Kelly, have separated and it was reported yesterday that Mrs. Gould had brought an action looking toward a legal parting, papers having been served on Wednesday.

Stranded Steamer Floated. NEW YORK, April 17.—With the aid of three wrecking tugs and a lifting tackle, the Scandinavian-American Line steamer United States was floated to-night from the mud bank near West-tank light, where she grounded yesterday after a collision with the steamer Monterey, while departing for sea. The United States was brought into quarantine after being floated, and will be towed to her dock later.

CHelsea CONFLAGRATION HAD THRILLING SCENES

Ambulance Ignites While Hurrying With Patient—Rescuing of Helpless Citizens.

Chelsea has a population of 40,000. The section which was burned is mostly inhabited by Jews, who have built up in the western part of the city probably the largest rag shop district in the world. Most of the buildings from West Third-street, where the fire began, to the waterfront facing East Boston, are of wood. In this district there have been numerous destructive fires during the last few years, and the cause of the conflagration have proved to be of incendiary origin.

Chelsea, according to the last census, had nearly four hundred manufacturing establishments, and until the rag shop industry attained its present growth the city had some of the finest residences in any of the places surrounding Boston. With the building up of the rag industry many of the older families moved from Chelsea, and their fine homes were converted into tenements, many of which were in the path of Sunday's fire.

The brick blocks on Everett-avenue, which were destroyed, were a dozen years ago the homes of some of Boston's wealthiest merchants. Chelsea lies northeast of Boston and is reached from that city via the Boston and Maine Railroad, by ferry and by trolleys thru East Boston and Charlestown.

Chelsea was originally Winnisimmet, and was occupied and was settled in 1738, and was organized as a town in 1793. An effort was made a dozen years ago to make Chelsea a part of Boston, but the plan failed because of the opposition of Chelsea citizens.

There were numerous deeds of heroism. Crazy, weak women, leading heedless flight to the fire, were less fortunate neighbors. On this hill had gathered a number of men and women, and when the fire broke out they ran thru the streets breaking in doors and ordering the frightened women into the streets.

Heaving against the door, a man smashed his way into the house. Threats even could not move them. The women explained that a little boy, sick with diphtheria, was unwell, and they were trying to get him to realize his danger. Wrapping his overcoat about the child to protect him from the sheets or blazing embers in the street, this man marshaled the family in front of him and raced down the street.

A passing automobile was held up with threats of violence, the little patient bundled in, and safety was assured for three or four moments. Mayor Beck, together with Senator Alfred S. Hall of Revere, put in hard work along Suffolk-street, rousing the residents and getting them to move their belongings.

Mayor Beck lives at the extreme west end of the street and early in the day it did not look as if the fire could work down that way at all. At 4 o'clock the mayor's new house was in flames and in ten minutes it was a pile of ashes.

As a last resort when water failed, firemen resorted to dynamite and blew up houses in the path of the firefront.

BANISH PIMPLES AND ERUPTIONS

Everyone Needs a Tonic in Spring to Purify and Build Up the Blood.

If you want new health and strength in spring you must build up your blood with a tonic medicine. Indoor life during the long winter months is responsible for the depressed condition and feeling of constant tiredness which affects so many people every spring. This condition means that the blood is impure and watery. That is what causes pimples and unsightly eruptions in women. These have twinges of neuritis, or the sharp, stabbing pains of neuralgia. Poor appetite, frequent headaches and a desire to avoid exertion are also due to the impure blood. Dr. Williams' Pink Pills. Every dose of this medicine helps to make new, rich, red blood, which drives out impurities, stimulates every organ, strengthens every nerve and gives a feeling of new health and new energy to weak, tired-out, ailing men and women. Here is proof that Dr. Williams' Pink Pills did the trick. I was a sickly, nervous, and miserable that I could hardly walk or stand at all. My appetite was poor; I did not sleep well, and dreaded work. My blood was impure, and I was covered with pimples and small boils to break nearly all over me. These would itch and pain and caused me much trouble. I tried several medicines but without the least benefit, when one day a friend asked me why I did not try Dr. Williams' Pink Pills. He spoke so highly of this medicine that I decided to take his advice and give the pills a trial. I got a half-dozen boxes, and the result was that by the time they were finished I felt like an altogether different man. They purified my blood, built up my nervous system, and I have not had a pimple on my face since that day since. For this reason I can highly recommend Dr. Williams' Pink Pills as a medicine dealer or purveyor. Sold by all medicine dealers or by mail at 50c a box or six boxes for \$2.50 from the Dr. Williams Medicine Company, Brockville, Ont.

but this only provided kindling for flames that leaped a block length. Around every policeman or fire chief head was a badge of authority, and gathered weeping women. In all the confusion of terrified flight nobody could see for dogs, and these lost creatures ran thru the smoky streets howling.

One aged man moved his furniture. The fire was at least three blocks away when he started to move his furniture. His neighbors stood on their doorsteps and laughed at him. Two hours later he had his furniture, while those who laughed were sitting in vacant lots, sad-eyed and desolate.

While racing to the relief hospital with a woman and child, the ambulance was cut off by the flames on Broadway. After covering the horses' heads with blankets, the driver made a dash thru the flames, and in doing so, however, the horse was so severely burned that it was incapable of further service.

The flames caught the coverings of the woman patient and threatened to destroy the ambulance. Dash and their time, however, succeeded in smothering the flames about the patient with blankets.

Both he and the driver were severely burned, and their time, however, succeeded in smothering the flames about the patient with blankets.

Owners of automobiles who raced their machines to Chelsea to see the conflagration were stopped by the firemen an dpolice to carry injured persons to medical aid.

So great was the heat that trolley cars had to be abandoned in the streets and many of them were burned.

Engines of the largest of the large fighting the flames that followed the explosion of the East Boston tank. This is the largest of the large fighting the flames that followed the explosion of the East Boston tank.

LUMBERMEN'S SLAVES.

Saloons Said to Be Used as Labor Bureaus.

Rev. Alfred Fitzpatrick, superintendent of education in the lumbering camps, addressing a meeting of the Central W. C. T. U., declared that lumbermen built to saloonkeepers to secure men for the camps.

"The saloon labor bureau is a regular system of slavery," and its results are brought about as follows, he said: "When the young lumberman gets in to town with his hundred dollar-pay cheque, eager for a good time, he is child for three or four moments. A glass from a 'knockout' bottle by the man behind the bar, and when he wakes late the next day finds in helpless rage that not only is his money all gone, but that he is considerably in the saloon-keeper's debt. The latter thus obtains a hold upon him, almost of both body and soul, and is able to sell his labor at will."

GEORGE LOVE GAVE LIFE TO SAVE PASSENGERS

Stood at Post of Duty and Prevented Train Topping Over Precipice—An Imposing Funeral.

"Greater love hath no man."

Palm Sunday; the glorious sun shone forth. In all its splendor, and as if to pay a radiant tribute to a hero's worth Whom God ordained that his life should save.

Down as a sacrifice; while others sat Safe in the coaches of the train behind. Love paid the price; nor was it paid in vain. He died a hero and he won immortal fame. —W. S.

KENORA, April 16.—(Special).—The most impressive funeral that Kenora has witnessed took place last Sunday, when the remains of the unfortunate engineer, George Love, who lost his life through the accident to No. 97, Macmillan, on Thursday last, were laid at their last resting place before a huge assemblage of people.

The procession was over a mile long, and included, besides the mourners, the heads of the various C. P. R. departments, officials from Winnipeg and Port Arthur, as well as pretty nearly all the members of the Independent Order of Oddfellows of the three towns to which the deceased belonged. Those who journeyed from Winnipeg were Mr. Cross, assistant vice-president; Messrs. A. West, T. McKinnon, Harvey, G. Daly, C. Hebb, T. Campbell, Fox, Williams, Messrs. T. Ward, Wallis and D. Snider, Superintendent J. J. Scully, H. Ferguson (B. and B. master), Fattison, La Prairie, Kennedy were also present.

The wreaths filled two cars. Rev. Nixon read the funeral services, which were added to Grand Master James' solemn words.

How Wreck Occurred. The real circumstances of the accident have not yet been made known, but we are now able to give the facts as stated by the fireman of 97, A. Sanders. He was firing up when the double brakes were applied by Engineer Love, as well as the "sand" being dropped, and he then knew something was wrong. Hastily leaving the firing and backing up, he asked the latter what was the matter, when he replied that an obstruction was looming ahead.

The fireman instantly peered out and saw a huge boulder, whereupon Love told him to jump, which he did. A few seconds after the engine struck the obstacle, Love commenced to bump. Sanders thought that Love would have followed him, but it now transpires that instead he was endeavoring to reverse, in order to bring the train to a standstill. But the engine rode the rails and careened over on its side, and this appears to have caused the engine to tip and pin poor Love down in the cab, breaking both legs. The steam from a broken pipe did the rest and took the life of a brave fellow away.

He Saved the Train. At the point where the engine fell Love stepped away from a 25-foot drop into the lake and hid it not been for the presence of mind and immediate action in using the brakes and sand on the main line, the train would have proceeded on its way.

Love leaves a widow and one child of 5 years to mourn his loss. He was one of the most experienced, respected and every body.

Singular to relate, both his father and grandfather had lost their lives in railway accidents.

THE CALL OF SPRING

Something Concerning the Famous Mendelssohn Spring Song.

The rare charm of Mendelssohn's spring song lies in the melody, tho' of course, the accompaniment is so arranged, like the frame of a picture, to intensify the effect of the melody. Only a great virtuoso can play the accompaniment perfectly, because of the difficulty an amateur finds in bringing out the melody with a smooth touch. It is distinguished by the requirements of the accompaniment. Either the tones will be too jerky or they will become buried in the accompaniment. But it is possible for persons of musical taste to hear the spring song as they would like to hear it even tho' their technical equipment is not equal to the task of playing it. There is in the Angulus piano-player a device called the Melodiant, which will bring out definitely and clearly the melody of the spring song or of any other similar composition. Moreover it is possible for the person operating the Angulus to phrase the music in accordance with his idea of expression. In short the Angulus is a complete piano technique upon results of the musical taste of the player has been secured by Messrs. Gourlay, Winter & Leeming for installation as an interior part of the well-known Gourlay Piano. Every musician knows the high standard of this firm and the splendid character of the Angulus. When it is combined with the Angulus the combination is one that will appeal to all lovers of musical art. There are scoffers who imagine that no artistic result can be secured from a mechanical piano-player. These persons are particularly invited to call at the Yonge-street warerooms of the firm and judge for themselves.

To Determine the Value of Coal. Prior to the establishment of the fuel-testing plant at St. Louis, in 1904, relations between the coal fields of the United States, and especially of the far west, were difficult to obtain. In great part coal has heretofore been purchased on a "trust" basis, and the reputation of the mine or district from which it was mined, and if it did not prove satisfactory, there was no standard for settlement or justification for annulling the contract. All other mining products, such as gold, silver, copper, etc., are purchased mainly on

their values as shown by chemical analysis, and the number of coal purchases thus being made is constantly on the increase. The coal purchases of the United States government each year amount to over six million dollars, and these are now entirely made upon specifications gotten out by the United States geological survey based upon results at the testing plant, and after consultation with prominent coal men throughout the United States and a national advisory board on fuels and structural materials appointed by President Roosevelt. If the coal fur-

"Gambler of the West." The Gambler of the West, which will be the offering at the Majestic next week, is what its name implies, a sensational melodrama of the erstwhile wild and woolly frontier. Its time is when miners and cowboys lived the rough life beyond the limits of effective government and Indians were still making periodical excursions on the war path. Its story deals with the adventures of a young girl who goes into the country from the east to search for a lost brother of tender age, who was taken from her father and mother by the Indians some years before. They have both since died and her only other relative is a half-brother, who has preceded her under promise to make the search, but has instead become a renegade and spent the money which she furnished him in gambling. He convinces her with Red Mike Clancy, a despicable character known as Forsythe, to make her marry the latter, and she is saved only by the daring protection which Lucky Jack Gordon, who, altho a gambler, possesses noble traits of character, affords her. Her lost brother is finally discovered in the person of a precocious little Indian known as Little Great Bear.

A superior vaudeville bill is announced, including "The Great Chick," bicyclist extraordinary, Halley and McKinnon, black face comedians; the Bates trio, refined musical artists; Miss Gertrude Fiske, programmed as "The Little Nightingale," and Jerry D. A Battery—Not A Belt No Charging—No Acids or Vinegar DR. LORENZ'S Body Battery is as far superior to the "Vinegar Belts" as sunlight is to tallow candles. It is an entirely new invention—different from any other device ever perfected for the cure of disease by electricity.

The strongest of "electric belts" cannot generate electricity enough to move the needle of a volt meter or flicker an electric light. The special attraction will be George Abel's English players in "Three of a Kind," one of the liveliest farces presented in many a day. This company of clever players has been playing in this country for nearly two seasons, but this is their first appearance in Toronto. A case of mistaken identity forms the reasonable excuse for the play.

Dr. Lorenz's Electric Body Battery is shown above connected to a Volt Meter (an instrument for measuring the strength of electric currents) and to an Incandescent Lamp. As will be noted, Dr. Lorenz's Body Battery shows very high in voltage and lights the lamp brilliantly. This display is arranged in our offices so that all callers may see the power of these perfect instruments. The special feature of Dr. Lorenz's Body Battery, which will be appreciated by those now being treated by electricity, is that no charging is required. Each cell is a battery in itself and generates electricity. The current can be reversed without removing the battery from the body and changed in power by means of a regulator. Sold on easy monthly payments if desired. Electricity is the only health-giving electric cure where drugs fail. It takes the best apparatus to get the best results. Write for booklets which fully describe and illustrate Dr. Lorenz's Body Battery—a marvellous discovery and an entirely new way to fight disease. "Victor" Electric Body Appliance Mfg. What the Theatres Offer

A new star in the theatrical firmament will be presented for consideration by Charles Frohman at the Princess Theatre for three nights beginning Monday. The new stellar light is Miss Marie Doro, whom Mr. Frohman has elevated to a ranking position because of her splendid work as Clarice, in William Gillette's play of that name. The play selected for Miss Doro's introduction is a four-act comedy by W. J. Locke, an Englishman of letters. It is a dramatization of Locke's book of that name, and the stage version was arranged by the author. The comedy is one of character, manners and sentiment with exceptionally original characters. The story has to do with the varied and peculiar experiences of this same Carliotta—experiences that result in her transition from a simple and guileless soul to a woman with a heart and soul. Carliotta is of English parentage, but has been reared in a Turkish harem, where her mother had, after the death of her English husband, Carliotta escapes from the harem and travels to England with the young chap who commits suicide, leaving the Syrian wail to work out her own salvation. By chance she wanders into the abode of Sir Marcus Ordeyne, an English barrister, recluse and bookworm, who has put behind him all femininity. In the goodness of his heart he adopts this wonderful wail, much to the horror of his distinguished friends and relatives. Subsequent events have to do with Sir Marcus' heroic efforts to make Carliotta an English maid of manners and refinement. The process is not without its pitfalls. The cold fastidious Englishman, while also learning—learning the beauty of life, Carliotta has shown him the light, and the knowledge comes to him swift and sure when the girl, in the privacy of his house by a scheming adventurer, whom Sir Marcus had called friend.

Montgomery and Stone, who made such an impression in Toronto in "The Wizard of Oz," have found an even more popular vehicle for their talents and they will probably play to the greatest business ever done in Toronto. The play is produced by Charles Dillingham and the original cast, the made it a success in New York will be brought here. The engagement is for a week and the seat sale opens Thursday. "Red Feather" at the Grand. On the island of Romandia, the geographical location of which is somewhere between the equator and the moon, there is a principality dominated by a picturesque free lance styled Red Feather, who successfully eludes his pursuers on each and every occasion, after relieving the travellers on the highways and byways of this unique principality in which he dwells of their valuables. The foregoing foundation has been used as the nucleus of a comic opera at the Grand.

The denouement has to do with Carliotta's realization of the fact that she is child no longer, but a woman with a soul. And in the end she does the most natural thing in the world, she returns to her only refuge, Sir Marcus Ordeyne. C. Aubrey Smith, whose Marcus Ordeyne is a masterpiece of characterization; Beatrice Forbes-Robertson, whose acting is quietly effective, and Forrest Robinson, whose Hamid Effendi is a delightfully seen, is a most impressive figure in the performance, are members of the excellent company.

It would take a book to mention all the soloists, some of whom have delighted and amazed of whom have disappointed the American concert-going public. But any article, however short, which serves to introduce a series of splendid and appropriate vocal selections, all of which have a tendency to bear out the continuity of the plot of Messrs. De Koven, Klein and Cook's charming oratorio, of comic opera, "Red Feather." Through the two acts of "Red Feather" this picturesque character and his associates care in to finish a comic opera which he has already commenced. On the day of the wedding the mother-in-law begins to show her authority in the most law objects, and mother-in-law leaves the house, taking Diana with her. A divorce follows. Two years later, Doubledot marries Jo, the daughter of Benjamin Buttercorn, a retired merchant. Buttercorn leaves on a trip. At a fashionable watering place he meets Mrs. Sherramy and Diana and after a brief courtship marries the latter. After a short tour he brings wife and mother-in-law to the home in the Doublodots, without apprising them of his marriage. One can imagine the surprise of Doubledot when he is introduced to his first wife, Mrs. Buttercorn and realizes that she is now his mother-in-law. The same day Mrs. Sherramy, still wanting to be a "boss," has a row with Buttercorn and leaves, again taking her daughter with her, much to the delight of Doubledot and his wife.

Volta, the man in kilts and an electric marvel, is the head-liner at Shea's Theatre this week. He is a man who is impervious to the most powerful electric current, even that of the death chair in Auburn prison. It is a story alleged that in a recent private test he withstood a current of 6000 volts, several scientists of note being present to witness the test. He gives a most astonishing exhibition. The special attraction will be George Abel's English players in "Three of a Kind," one of the liveliest farces presented in many a day. This company of clever players has been playing in this country for nearly two seasons, but this is their first appearance in Toronto. A case of mistaken identity forms the reasonable excuse for the play.

Waterbury Brothers & Tenny are great favorites, they have not been seen here in some time. This is the very best of the musical acts, and the comedy is always good. Ray Cox is just returning to vaudeville after some seasons of great success in the musical comedy field and the well-known "Dixie Girl" is making a great hit. She has a merry monolog and a number of new and original songs that she sings in a way that is all her own. Julius Tannen is another visitor who is always welcome. His monolog, all his own and he, too, has a number of his own in delivering it. When the Meredith Sisters sing a song, the town hums and swears with them. No one heard of Hiawatha until they sang it. These dainty girls come with three entire sets of scenery and three changes of elaborate costumes, which they make in lightning time. The Four Rianos have an acrobatic sketch that is entirely new and original. "In Africa" is the name given the offering and more surprising feats than are offered by the three men and one woman in the act cannot be imagined. Prince Kokin in feats of juggling and the kinestograph shows the big bill with a full line of new pictures.

"The Red Mill Coming." The greatest event of the theatrical season in Toronto will undoubtedly be the production of "The Red Mill," which comes to the Princess on April 27, with a record of success not equalled in the annals of the stage.

Three Little Maids. The English musical comedy, which the Toronto Grand Opera Company is presenting as its fourth annual production at the Royal Alexandra Theatre on May 7, 8 and 9, is a very fine play with musical trimmings which was the musical triumph of London and New York several years ago. The company will number fifty performers and the production will be at any of the newspaper offices or from any member of the Press Club.

Amateurs in "Our Boys." The comedy production of the English comedy, "Our Boys," which has been so popular at the Alexandra Theatre will be given by the St. Philip's branch of the Anglican Young People's Association in Broadway Hall on Tuesday evening. The cast will be: Sir Geoffrey Champneys, a country squire, G. A. Blaber; Talbot Champneys, his son, ... Perkyn Middlewick, a retired butler, ... Charles Middlewick, his son, ... W. K. Collin Campbell; Kempster, Sir Geoffrey's man, ... Poddles, Middlewick's butler, ... Violet Melrose, an heiress, ... Miss Nina Mott; Mary Melrose, her poor cousin; Miss Elsie Macdonald; Charles Champneys, Sir Geoffrey's sister, ... Miss S. Maxwell; Belinda, a lodging-house slave, ... Miss Gertrude Bourne.

Mrs. Fiske Coming. "Rosmersholm," Mrs. Fiske's new offering for this season, which she and the Manhattan company will present at the Royal Alexandra Theatre the week of April 27, is like nearly all of the plays of Ibsen, universal in its truth to human nature. While the scene is laid in Norway, there is nothing peculiar to Scandinavia in its story. Ibsen is almost alone among modern playwrights in creating, not stage puppets, but real figures, to whom the actor gives life and whose every action is the logical outcome of their nature and environment. The regular advance sale will not be opened until Wednesday morning, but seats can be ordered now by mail.

Invited to Chicago. A practical testimony as to the genuine impression created by the Toronto Chorus upon the "Chicago violators" to this city during the Mendelssohn Choir cycle in February last came to hand this week in the form of an official letter to the secretary of the chorus in which a formal invitation is extended by the Chicago Orchestral Association to the Toronto choristers to give a series of three concerts in Chicago in February next. A number of prominent citizens of Chicago have undertaken to act as guarantors for the proposed concert, so that the choir would be insured against financial loss were the costly trip undertaken. Similar invitations have recently been received from New York, where there exists a warm desire on the part of music patrons of the metropolis for a cycle of such concerts as the choir gives annually in Toronto. The final consideration of these propositions will soon be taken up by the executive of the choir.

Al. Reeves at Gaiety. Next week, commencing Monday, at the Gaiety, will see one of the grandest musical productions on the road in Al Reeves' famous "Big Beauty Show." Mr. Reeves has spared no expense in making this the banner organization of his life, carefully selecting a number of high-class vaudeville acts, clever comedians, beautiful women, gorgeous scenery, magnificent wardrobe and an elaborate display of electrical effects, headed by the world's famous comedian, song writer and burlesque producer, Andy Lewis, assisted by beautiful Maude Elliott and a clever company of legitimate actors in a one-act screaming farce, "Won at the Wire." The "Eight English Bright Lights" were imported to this country for a season of 40 weeks with Al Reeves' advanced burlesque and special feature, "The Savoy Quartet," directed by the Keith-Prosper circuit. Edward Morris is late star with Rice's "Evangeline"; the beautiful and talented soprano soloist, Miss Blanche Martin, known as the Lillian Russell of burlesque, and

twice, and each of the three native singers will be heard twice. Caruso will sing three times, and is understood to be generous with encores. His first number will be the beautiful "Celeste Aida," his second "Salve Di-metra" from "Faust," and the third the clown's impassioned appeal in "Fagiolacci." In the last Caruso shows a power that has been given to no other singer in present recollection—that of compelling tears. In the concluding number of this musical feast all the singers will be assembled for the "Rigoletto" quartet. The sale of seats begins next Thursday morning for the \$5 and \$4 seats, and on Friday for the \$3 to \$1.50 tickets.

Burning cribwork on the west bank of the Don River, south of Queen-street, brought out the firemen yesterday. The blaze was quickly and easily subdued without appreciable damage.

The Caruso Concert. The Caruso concert, May 4, at the Massey Hall, will be a most important event, and even a sensational one. Caruso will sing only in cities where he has never been heard before, and where, in all likelihood, he will never be heard again. Another season will probably find him involved with operatic engagements which will take all his time up to his annual visit to London. The Metropolitan singers will make an unusually short tour this year—three weeks and a half. Caruso will sing for the last time in opera in Pittsburgh, April 29. His concert follows, the first one in Columbus, May 1. Singing three times a week and visiting eight cities, his tour will come to an end in Montreal May 18, and he will sail for England two days later. Every possible inducement was offered to get him to sing a few times in Paris, but he was dead to all propositions. Caruso likes to make money while his voice lasts, but he is determined to make the most of it for more years at that. He is now 37 and far from passing his prime. Jean de Reszke, great artist as he was, never had so much success in his career as Caruso, and sang tenor roles until he was well past fifty. Altho Caruso absorbs all attention in the concert, the other artists on the program deserve and will receive due attention. Henri G. Scott, the basso, is already booked for next season at the Metropolitan Opera House. His reputation has been made in concert work solely. Miss Gullia Allen, soprano, and Miss Margaret Keyes, contralto, have not had their training on the operatic stage, but in concerts, and in some of the crack choirs.

Master Kotlarsky, the violinist (a slip of a boy), is said to have the most brilliant future. He will play

Caruso will sing only in cities where he has never been heard before, and where, in all likelihood, he will never be heard again. Another season will probably find him involved with operatic engagements which will take all his time up to his annual visit to London. The Metropolitan singers will make an unusually short tour this year—three weeks and a half. Caruso will sing for the last time in opera in Pittsburgh, April 29. His concert follows, the first one in Columbus, May 1. Singing three times a week and visiting eight cities, his tour will come to an end in Montreal May 18, and he will sail for England two days later. Every possible inducement was offered to get him to sing a few times in Paris, but he was dead to all propositions. Caruso likes to make money while his voice lasts, but he is determined to make the most of it for more years at that. He is now 37 and far from passing his prime. Jean de Reszke, great artist as he was, never had so much success in his career as Caruso, and sang tenor roles until he was well past fifty. Altho Caruso absorbs all attention in the concert, the other artists on the program deserve and will receive due attention. Henri G. Scott, the basso, is already booked for next season at the Metropolitan Opera House. His reputation has been made in concert work solely. Miss Gullia Allen, soprano, and Miss Margaret Keyes, contralto, have not had their training on the operatic stage, but in concerts, and in some of the crack choirs.

Amateurs in "Our Boys." The comedy production of the English comedy, "Our Boys," which has been so popular at the Alexandra Theatre will be given by the St. Philip's branch of the Anglican Young People's Association in Broadway Hall on Tuesday evening. The cast will be: Sir Geoffrey Champneys, a country squire, G. A. Blaber; Talbot Champneys, his son, ... Perkyn Middlewick, a retired butler, ... Charles Middlewick, his son, ... W. K. Collin Campbell; Kempster, Sir Geoffrey's man, ... Poddles, Middlewick's butler, ... Violet Melrose, an heiress, ... Miss Nina Mott; Mary Melrose, her poor cousin; Miss Elsie Macdonald; Charles Champneys, Sir Geoffrey's sister, ... Miss S. Maxwell; Belinda, a lodging-house slave, ... Miss Gertrude Bourne.

"SPRING FEVER" The need of a spring medicine seems to be universal. This is due to the fact that during the winter the blood becomes impure on account of the hearty food eaten. This causes that tired, weary, all-gone, don't-care-to-work feeling which is so prevalent at this time of year. BURDOCK BLOOD BITTERS That Tired Feeling. Uses it Every Spring. "SPRING MEDICINE"

"MOZART'S GRAVE"—BY ALFRED AUSTIN.

Alfred Austin, poet laureate of England, has written the following poem on "Mozart's Grave" for the New York Independent, which is about to appear. The poem has not appeared in England, and its publication in The New York Herald yesterday was its first publication in America:

Where lies Mozart? Tradition shows A likely spot; so much, no more; No words of his own time disclose Where crossed he to the Further Shore. The later ages, roused to shame, On tardy tomb have carved his name. Whose scrolls, begrimed by age and dust, None care to stoop and scan for whom, Are all remaining to express Their monumental nothingness. Mitre, and coronet, and crown Gaze into space that heed them not, Unmeaning pomp of dead renown, Medley of monarchs long forgot, Who from the nation's ghastly strife Won immortality—for life. Once on Nile's bank an artist raised A temple at the King's command, And on it name august emblazed, But when a flood submerged the land The name was washed away, and lo! The artist's was inscribed below. Thus vanish ostentatious lives; But thru all time, beloved Mozart, Your magic memory survives, Part of the universal heart. In joy a sympathetic strain, In sorrow soother of our pain.

The Story of the Crucifixion.

The doors of Trinity Church, East King-street, had to be closed against the numbers that sought admission to the Good Friday service last night. The church was packed as far as the law allowed, and crowds were turned away. The views of our Lord's Passion were of the very best, and were taken from the great pictures in the galleries of Europe. The only explanation given was from Scripture, which brought the events of the evening of the Savior's ministry vividly and in order before the congregation. Appropriate singing by a large choir interspersed the pictures. The service was in charge of the rector, the Rev. Canon Dixon, and the offerings were for the London society for promoting Christianity among the Jews.

CHESTER, Pa., April 17.—Three troops of state police and 200 private detectives arrived here today to deal with the street car strike.

FOUR MEN DROWNED WHEN SCOW TURNS OVER

Scow Used as Ferry After Grand Trunk Bridge Had Been Swept Away.

HARDISTY, B.C., April 17.—(Special.)—A temporary bridge at the G. T. R. crossing, Battle River, was swept away by ice going out. A scow used to ferry the men to and from work made two trips safely the evening of the sixteenth, leaving the third trip with a load of six. Three others jumped with the result that the scow was swamped in mid-stream. Three swam ashore. Two regained the scow, rescuing the third. The other three were drowned.

NOT SETTLED YET.

Breach Exists Still in Winnipeg Situation.

WINNIPEG, April 17.—The expectations that the existing differences between the street railway men and the company would be settled yesterday, came to naught at the meeting of the directors and a special representative committee of the employees. The matter now stands as it was before. Another meeting will be held in a day or two, when it is expected a settlement will be arrived at. The issue between the respective parties are not of exceptionally great moment as compared with those that were contested on the occasion of the arrangement of the last schedule.

Operators' Flat Refusal.

SPRINGFIELD, Ill., April 17.—In a joint conference of the scale committee of Illinois coal mine operators and miners to-day the operators refused absolutely to consent to the payment of shot-firers employed in the mines.

Games in Vancouver.

VANCOUVER, B.C., April 17.—Sporting events to-day resulted as follows: Five and a half mile road race for Association football players—Won by Baylis, Victoria. Time 24 minutes 52 seconds. Ashley, Vancouver, second. Stacey, Vancouver, third.

Pros. to Wrestle in Mutual St.

Eugene Hurtubee, captain of the Petersboro Rugby team, O.R.F.U. champion last season, for several years champion amateur heavyweight wrestler of Canada who has decided to enter the professional wrestling ranks, will make his debut Wednesday night at the Mutual-street rink, Toronto, where he will meet Frank Kennedy, the German heavyweight wrestler, who has been wrestling all-corners around Toronto. Hurtubee saw him in a couple of bouts and is confident that he can beat him, in spite of his roughhouse work. Hurtubee can rough it with any of them. He will wrestle him the best two in three falls for a \$150 purse.

Broke Roller Skating Record.

CHICAGO, April 17.—All previous records for the mile on roller skates were broken last night, when William Robinson, American amateur champion, did the distance in 24, which is three seconds faster than Ollie Moore's professional record of 27.

The Race in which Robinson set a new mark was in the final heat of a handicap affair, in which he started from scratch. Robinson passed the entire field before five of the eight laps had been rolled off.

NINE-HOUR DAY REMAINED BY THE MINERS' UNION
 Cobalt Mine Owners Are Favorable - Good Strikes at Little Nipissing and Queen.

COBALT, April 17.—(From the Man on the Spot).—Recent discoveries at the Little Nipissing makes this the best looking of the Cobalt holdings today. While Little Nipissing is still a non-shopper in so far as the actual loading of the ore on the car and its transit to the smelter goes, as a matter of fact the company has two cars of ore ready for shipment and several cars of rich ore in sight.

The Deloro or the Copper Cliff smelter will get the ore within the next two or three weeks, so that Little Nipissing will be the next new shipper and it will be a constant shipper.

The new vein was found on the shore of Peterson Lake the other day, which is rich in silver. It runs parallel to the one already being worked and is only three feet distant. Both these veins are really Nipissing veins, which run from the Nipissing into Peterson Lake and are being worked by Little Nipissing by reason of the lease the company has of ten acres of Peterson Lake. This lease will prove profitable for the Peterson Lake Co., as the lessee pays that company a royalty of 25 per cent.

The new vein is exceedingly rich in native silver and the wall rock on both sides of the vein is heavily impregnated with native silver.

In the drift at the 75-ft. level, Supt. Bryce at the Silver Queen found an enormously rich blind vein this week. The silver values compare with anything found on the Queen to date.

The local union will probably call out all the union men on Saturday who are working at Cobalt mines and in force. No attempt will be made to prevent union men and non-union men working together. Cobalt mine-owners will give a nine-hour shift under local pressure, but whether this will be a permanent concession of a local branch of the Western Federation is a question. The camp as a strip believes more are entitled to this. Supposing the strike of last summer was indistinctly handled by the local union, what has that to do with giving a nine-hour shift now? The camp is rich enough and comfortable as it is, are big enough to do the fair thing by the men. If they are approached in the right way, the local union has learned a lesson and will profit by it.

Summer Hotels, Highlands of Ontario
 The Grand Trunk Railway System announces that arrangements have been completed for two handsome additions to the chain of hotels throughout the Highlands of Ontario.

The Wawa Hotel on Lake of Simcoe, one of the finest summer hotels in the northern resorts of Canada, is nearing completion, and work is being done on the new Highland Inn, situated overlooking Cache Lake, at Algonquin Park station. The Highland Inn will be of the cottage type, cosy and comfortable in its appointments, all modern conveniences, modern thrills in the dining and living rooms, spacious piazzas, and most charming outlook over lake, mountain and virgin forests; in fact, all the comforts of civilization are transported into this virgin wilderness.

Double daily mail service, telegraph and express facilities at this point with excellent train service will make this hotel unique and attractive for its situation so remote from the turmoil of the cities, but yet with all the necessary facilities for convenience within the outside world. The Highland Inn is situated about 1500 feet above sea level, giving it by far the highest elevation of any summer hotel in Eastern Canada. A good boat livery and corps of guides, spacious piazzas, and tourists who desire to make extended trips through the waterways of the Park will be outfitted and provided for in every respect without rendering it necessary to bring any baggage excepting wearing apparel, according to length of sojourn. These new hotels will provide every comfort and facility for the enjoyment of guests, and the scope of accommodation will be so reasonable that it will deter anyone of moderate means from patronizing them. In addition to this, they will cater to tourist trade from Great Britain, where the Grand Trunk is obtaining trips of parties and individuals for a lump sum of expense, including hotels, from the time tourists leave home until they return. Such trips need not occupy more than the average holiday, say one week, and will embrace the ocean trip, an opportunity of becoming acquainted with Canadians and Canadian affairs, and the entire summer holiday in Switzerland or other European resorts.

FRONTENAC CHEESE BOARD.
 Prospects of Dull Building Season at Kingston.
 KINGSTON, April 17.—(Special.)—Frontenac Cheese Board held its inaugural meeting to-day. Wm. Fawcett, Wolfe Island, was elected president. One hundred and sixty-five boxes of cheese boarded. Bidding opened at 11c and closed at 11 1/2c; no sales. Outlook for cheese in this district most encouraging.

Architects predict a poor outlook for building. None of the city architects have anything new in city construction, but all have work outside.

CRUELTY TO CATTLE.
 Eight Railways Face Fines Aggregating \$31,000 for Violation of Law.
 CHICAGO, April 17.—Sixty-two violations against eight railroads, charging violation of the 28-hour law providing for the protection of cattle, sheep and hogs transported in cattle cars, were filed to-day in the United States district court by District Attorney Smith.

In the cases filed to-day, fines aggregating \$31,000 are possible, and the district attorney asserts it was his intention of the government to demand a maximum penalty in every case.

BODY OF AN UNKNOWN
 Found on the Railway Track Near Dunville.
 DUNVILLE, April 17.—The body of an unknown man was found on the railway track about a mile east of Dunville station by the section men last evening. There was nothing on the body to lead to identification, and no money or valuables were in the clothing.

The body was that of a strong, well-nurtured man about 40 years of age, 5 feet 8 inches in height, and about 150 lbs. in weight. The hands to note show hard work; the clothing and beard were clean, but the clothing is cheap; the dark hair is close-cropped, coat buttoned up to the chin and pants of blue-grey with stripes give the appearance of a prison garb.

There are no marks on the body, and the cause of death is unknown. J. A. Schofield, undertaker here, has embalmed the remains, awaiting identification.

 Proper Freight Marking.
 W. R. MacInnes, freight traffic manager of the C.P.R., has issued a circular to shippers pointing out the necessity of fully marking all freight, especially for both lake and rail shipment, plainly showing the name or initials of the consignee and the destination in full, with all old marks effaced. The name or trade mark of shippers should also be shown.

FRENCH TROOPS ATTACKED.
 Berbers and Arabs Failed in Their Surprise.

COLOMB BECHAR, Algeria, April 17.—A French column posted on Talaiza Hill, which commands the Plain of Tamiel, was attacked fiercely at daylight yesterday by a number of Berbers, who, with the nomad Arabs, have been concentrating for some weeks past on the western frontier of Algeria.

Altho surprised, the French force rallied and fought desperately and succeeded finally, not only in beating off their adversaries, but in pursuing them for a distance of six miles. So hot was the pursuit that the Arabs abandoned their dead and wounded. Several green flags of the Prophet also fell into the hands of the French.

Twenty-eight of the French troops, including an officer, were killed, and 100, including ten officers, wounded. The losses were the greatest in the foreign legion. The Berber losses were much heavier, 125 dead bodies being found by the French troops. The French pursuit was stopped by darkness.

Easter sermons will be preached, and Easter music rendered at Elm-street Methodist Church to-morrow. Rev. T. E. Barley will preach at 11 a.m. Subject: "The Tomb of Jesus." Rev. W. A. Mitchell, B.A., will preach at 7 p.m. Subject: "Christ Reigns."

Parkdale Lodge, A.O.U.W., will hold their annual excursion to Kingston and Belleville on July 4.

LOOK
 A Few Plain Facts About Cobalt Stocks

For over a month we have been advising our friends and clients to purchase the better class of Cobalt stocks, and we now advise their purchase more than ever. Not so much for a quick turn, but those who buy now and will hold for a time will receive dividends at the rate of from 10 per cent. to 33 1/3 per cent. per annum on the money invested. Do you want more than that? And besides this, they will be able to dispose of their stock at an advance of from 50 per cent. to 150 per cent.

We know for a fact that insiders and those managing some of the properties are buying everything they can get, and are very much afraid that they will not get all they want before the big advance comes, for they know it is coming, and there is nothing that can prevent it. We would like all of our friends and clients to participate in the large profits which are sure to come, by taking on all the shares they can carry.

We solicit your correspondence. Orders executed in Toronto or on the New York curb, and prompt service guaranteed.

JUNCTION ENTHUSIASTS SAW GOOD LACROSSE

Holiday Was Quietly Spent in Suburbs—Snow Cleaning Comes High in Townships.

WEST TORONTO, April 17.—The holiday passed off quietly in West Toronto. The fine weather was taken advantage of by crowds of pedestrians, but apart from this all around was calm and peaceful, true emblem of the day.

There was a beautiful service at St. John's Church to-night, and it was a particularly appropriate one for the occasion. Rev. Beverley Smith preached an impressive sermon, which was essentially a plea for the higher life—the Christian life.

MIMICO. Special Services Were Held in Many Mimico Churches.

MIMICO, April 17.—Present conditions in contrast with the Good Friday of 1907 tell the story of hard times. Today as a holiday has not so much in it this year for Mimico as in the past years, when labor was plentiful, wages good and life a joy.

The electric railway management increased the service to-day to facilitate the handling of the holiday pleasure-seekers. The saving public, especially the G.T.R., is much behind.

Special service of song and story, in keeping with the day, will be held in all the churches of Mimico. In the Anglican Church special communion service at 9 o'clock in the morning will be followed by the church's Easter services at 11 a.m. and 7 p.m.

At the Methodist Church this morning at 11 o'clock there was a special service for the children and young people, with an Easter service in the evening.

The Presbyterians, as announced last Sabbath, will be back again in their church at the corner of Mimico-avenue and Church-street.

Mr. Murray of the Railway Y.M.C.A., Toronto, will officiate at the meeting at 2.30 p.m. at the Y.M.C.A. here and at 3.30 p.m. will speak at the men's meeting, Sixth-street, while it is probable he will also conduct the evening service for the Methodist people at New Toronto at 7 p.m.

The Women's Institute held their meeting yesterday at the home of Mrs. Barium, in which a large number of people and a most profitable gathering. Mrs. MacCarthy was unavoidably absent. She had been allotted the subject of "house plants." Mrs. Royal, in her own experience and study, gave a very helpful and practical talk on "kitchen gardening and flowers." The buying of seeds, its planting, the care-taking and likely results were discussed with different vegetables as an example.

Mrs. Rush, who was present, also gave many items of interest on the subject.

Traffic along the Lake Shore-road is again possible for teams at the recent washout west of Mimico Creek. The filling in, ready for the facing of roads, will likely be completed this week. This work being well done, nothing being used which the water can easily wash away. Brush formed on the road, which was used in the brick bats, small stones and slag blocks at the rolling mill at Sunny-side, no sand or clay being used. Mr. Hicks, who is in charge of the work, claims for it a permanent job, because all material used is heavier than the water.

MARKHAM. Amounts Paid for Snow Shoveling Make a Record.

MARKHAM, April 17.—Accounts presented at the regular monthly meeting of the Markham Township Council totaled nearly \$900 for snow shoveling during the past winter. When it is considered that only about one-half of the road divisions have as yet sent in their statements, it will be seen that the taxpayers will have an added rate that will no doubt make itself felt next fall. The total amount will not fall far short of \$1,000.

The venture of the East York Clydesdale Association in the purchase of a horse, which was a few days ago sold to John Thomas for \$500. The public and high schools closed last night, and will not re-open until Monday, April 17.

The Central Missionary Society of the Methodist Church in Markham will meet in the schoolroom of the church on Wednesday evening.

The Central Baseball League opens in Markham on May 30 with the Stouffville playing the locals.

NORTH TORONTO. Suburban Cars Carried Big Crowds Even for Holiday.

NORTH TORONTO, April 17.—The holiday travel over the Metropolitan line was a heavy one to-day, especially on the Newmarket cars.

Real estate dealers are busy to-day with the offering of vacant lots to prospective purchasers. Some properties changed hands.

Two church services were held in St. Monica's church to-day. Appropriate music was sung and commencing the day. In connection with the morning service "The Seven Words from the Cross" was sung and at the evening service "The Song of the Cross" was sung.

Church services were also held at St. Zion Baptist Church on Broadway-avenue at 3 p.m., and consisted of a sermon, stations and adoration of the Cross.

An interesting lecture was given in Zion Baptist Church by Dr. O. White this evening under the auspices of the

Young People's Society. The topic of the lecture was "The Tower of London" and the speaker exhibited numerous models and diagram instruments of torture as used in the days gone by in this old penal institution.
