Lively Discussion Over Persia's Sinking is Expected in Congress.

WASHINGTON, Jan. 3.-President Wilson started to Washington from Hot Springs, Va., tonight, to take personal charge of the nation's foreign affairs in the new crisis brought about by the sinking of the British steamer Persia, with a loss of at least one Am erican life. The situation is regarded in official circles as being the most serious to confront this government since the submarine operations of the

central powers began. The president probably will lay the facts thus far established before his caoinet tomorrow. The destruction of the Persia, following closely upon the crisis precipitated by the Ancona disaster, may result in the United States determining to settle immediately all the questions involved in the subma-

Evident Aim of Uncle Sam to Absorb South American States.

WASHINGTON, Jan. 3.—Possibility of a combined attack by two foreign powers to break down the new Pan-American doctrine evolved from maintenance by the United States, and acceptance by South and Central American republics of the Monroe doctrine, is one of the fundamental bases for the national defence pians formulated by army and navy strategists. The case is of particular interest to the large body of merchants and residents generally in the northwest district of the city. The express company in question notified the consignee of the arrival of the parcel at their office in Parkdale, and at the same time requesting him to send or call for it, as the address was outside their delivery area, and it would not be delivered free, although the freight had been paid in full by the sender at the other end when the parcel was despatched. was despatched.

Mr. Newman, the consignee, told The World that if an adverse decision is given he will bring the matter to the attention of the Dominion Railway Board, and push the matter to a successful conductivity.

The sympathy and co-operation of ratepayers and other associations in the northwest district is with Mr. Newman in his effort to remedy the long standing grievance of the lack of express deliveries in a congested portion of the City of Toronto.

Private Maurice Watson, a returned soldier and son of Levi P. Watson of Kettleby in North York, was accorded a great ovation on his return yesterday from active service in France, where he was severely wounded at the battle of St. Julien. Private Watson was met at the Aurora G.T.R. station by the 12th York Rangers squadron and bugle band under the command of Lieuts. Bell and McIntosh. The returned soldier was formally welcomed by Mayor Baldwin and escorted by a large concourse of citizens made a tour of the town. The public and high schools were given a short vacation. Later he was driven by J. M. Walton to Kettleby, and on his arrival there at his own home he was met by 50 mounted young men and escorted into the town. Pte. Watson was met by 50 mounted young men and es-corted into the town. Pte. Watson was attached to the staff of the Canadian Bank of Commerce, and the permanently disabled, expects to be able at an early date to resume his duties.

MARKHAM HAS NO

COUNCIL AT ALL NOW Candidates Fail to Qualify and Nominations Must Be Made Again.

A unique situation has developed in the Village of Markham, where less than the required number of candidates have qualified for seats at the council. At the nomination proceedings, R. A. Fleming was elected by acclamation, while two, P. P. Crosby and A. F. Wilson, were the only ones to qualify. Those who were nominated and failed to comply with the statutory requirements were C. F. Todds, T. H. Hassard, James Torrance, James Isaachs, G. W. Wilson, Chas. Beirel, W. Michael, A. W. Mine, Anson Crosby, W. Dark and A. W. Ferrier. Failing an election, the town is without a council until another nomination meeting is called and the required time has elapsed before an election can legally be held.

STORM PLAYED HAVOC ALONG GRAND TRUNK

HAMILTON, Tuesday, Jan. 4.—The police have started a crusade against people, known to be strangers, taking children under 15 years of age into moving picture theatre, and the first case of this kind will be tried before Magistrate Jelfs this morning. Previously only the theatre proprietors were summoned on such breaches of the act, but now those taking children in will be held responsible. No more striking evidence of the force of Saturday night's wind and sleet storm can be found anywhere than out along the main line of the Grand Trunk Railway from Little York to Scarboro Junction. In the three miles between the city limits and the "junction" not a single telegraph pole is left standing, the majority of them being broken off short at the ground and the wires and crossbars thrown in an inextricable heap on ground in the adjoining fields. Repair gangs were at work all day yesterday and thru the night, but the job is a big one and some days will elapse before the conditions are normal. All the county towns to the northeast of the city were last night still out of communication with the southern part.

YORK COUNTY CONTESTS

The Village of Unionville vesterday ex perienced all the throes of a municipal election, the first in three years. Fou aspirants were up for municipal preterment and the vote recorded has not been exceeded in years. The village is considering the inauguration of a waterworks system and while no vote was taken on the project, added interest was given to the election by this fact. The result is:

> PORT CREDIT IN FAVOR.

By a vote of 130 to 15 the Village of Port Credit yesterday approved Sir Adam Beck's scheme for the construction of a hydro radial railway between Toronto and London, the vote being one of the most unanimous yet recorded in favor of the plan. When the result of the vote became known thruout the village there was general rejoicing, as while the scheme was assured of adoption, the size of the majority was an agreeable supprise.

There was a lively time over the election of the village council, George Gordon heading the list of councillors, the reeve having been elected by acclamation at the nomination proceedings a week ago. The council of 1916 will be:

AURORA GOES DRY.

By a vote of 426 to 234 the Town of Aurora yesterday decided in favor of local option. The vote cast was an exceptiorally heavy one, probably the largest ever known in the town. The majority of 192 is regarded by the advocates of local option as fully as large as anticipated, and following the result there was a meeting of the local optionists at the central offices, where the workers were addressed by Rev. Mr. Despard, rector of Trinity Anglican Church, the chairman of the committee on organization.

There was no other demonstration following the result of the vote. According

### **NEGLECT OF SCIENCE** CAUSE OF MISTAKES

Too Many Lawyers in Govern ment for Good of Country, View of Prof. Poulton.

LONDON, Jan. 3.—Neglect science is responsible for England's mistakes, according to Prof. E. B. Poulton of Oxford University. In speaking of "science and the great war," he said:

"Nearly all our failures in the present conflict have been due to the na-CANADIAN TO DESERT tional neglect of science and the excessive predominance in parliament and especially in the government of the spirit that is the most antagonistic to science—the spirit of the advocate." The great danger of the lawyer-poli-

tician in time of crisis, according to the speaker, is that he has been accustomed to live in an atmosphere of compromise, of action based on find-ing a meaning between conflicting inmistakes. As the result, thousands of lives have been sacrificed.

As an instance in point, Professor Poulton spoke of the ignorance of science on the part of the ministry, that had to be driven into declaring fats, oils, and cotton as contraband. One-third of the German ammunition for heavy guns consists of nitro-glycerine, and fats are the only source of

The speaker pronounced it dangerous for a country whose prosperity de-pended on science to be ruled by politicians and civil servants utterly ig-norant of scientific knowledge. Manu-facturers are based on applied science. Great Britain is a manufacturing country.

While Britain has taken a greater lead in the development of science than Germany, science still stands apart in the general educational scheme. In Germany, science is put to every possible use by the government. German success in trench warfare has been entirely due to science. The British Government, on the other hand, long delayed asking for and acepting advice on scientific aspects of from men qualified to speak.

Pleating for the Underskirts Hanging Straight.

OVERSKIRT VERY FULL

lustrates Modish Ideas.

Many of the season's most charming afternoon freeks are clever combinations of satin and chiffon. Pleating is a feature for the underskirt, so that it hangs moderately straight from the hips to the hem, and when this style is made use of, the overskirt is invariably very full in contrast. One delightfully quaint little model in dark brown illustrates a number of very modish features. There is the pleated underskirt of soft dark brown satin, over which is poised a lighter brown chiffen overskirt with a six-inch hem of the satin. At graduating distances from hem to the slightly raised waistine are sewn widths of brown sills oraid to hold the fulness out in crinoline style.

The passing of the Christmas holidays means the immediate resumption of all lines of patriotic work among the women of Toronto. At 559 Sherbourne street, the headquarters of the Women's Patriotic League, packing of Red Cross and other supplies for overseas is again in order. Just before Christmas Eve the herculean task of packing 376 cases was undertaken. If one thinks of the size of the big box, called a case, and all the cases are of uniform size, one is almost overwhelmed in contemplating the labor involved in the ante-Christmas packing.

One would imagine, too, that the voluntary workers at least would feel inclined to rest on their oars because

#### Dr. Cassell's Tablets are the Proved Remedy. Take them for all Kidney & Urinary Troubles.

In these trying complaints Dr. Cassell's Tablets are of proved value. They restore perfect efficiency to the kidneys by nourishing the nerves which control kidney action, and thus enable the system to get rid of uric acid and other impurities which are the cause of Urinary Troubles, Dropsy, and Rheumatism.

Dr. Chas. Forshaw, D.Sc., F.C.S., etc., the well-known scientist, says: "I have thoroughly tested Dr. Cassell's Tablets, and can conscientiously recommend them as an eminently safe and effective remedy for all forms of nerve and bodily weakness. My knowledge of Dr. Cassell's Tablets leads me to the opinion that the ingredients form a remarkably potent medicine, quite safe for young and old in cases of nervous prostration, debility, anæmia, loss of flesh, malnutrition, children's weakness, spinal and nerve paralysis, and many forms of stomach and kidney troubles."

Dr. Cassell's Tablets raise the vital standard of the entire system, and thus promote kidney health and general health when other means fail.

Dr. Cassell's Tablets are Nutritive. Restorative, Alterative, and Anti-Spasmodic, and of great Therapeutic value in all derangements of the Nerve and Functional Systems in old or young. They are the recognised home remedy for Nervous Breakdown, Nerve and Spinal Paralysis, Infantile Paralysis, Rickets, St. Vitus' Dance, Anæmia, Sleeplessness, Kidney Disease, Dyspepsia, Stomach Catarrh, Brain Fag, Headache, Palpitation, Wasting Diseases, Vital Exhaustion, Loss of Flesh, and Premature Decay. And was it any wonder that he should have been unprofessionally disconcerted—amazed—astounded—stunned, when, chancing to look at a passing automobile, he saw resting on the door thereof, a delicate, well-groomed hand—the hand of a lady, marked definitely, indisputably, with this same uneven, blotchy Red Circle—the inherited birthmark of a long line of criminals? ### "THE GIRL WHO SMILES" CARTOON COMEDIANS HAVE MANY FRIENDS IS RARE MUSICAL TREAT

Melodious Comedy at Royal Mutt and Jeff Entertain a Large Audience at the Grand Opera Alexandra Contains Many House Last Night. Charming Numbers.

SETTING IS EXQUISITE

Splendid Cast, Witty Lines and Funny Situations Distinguish New Piece.

Music with more distinction than usual was immediately in evidence in the overture to "The Girl ho Smiles," at the Royal Alexandra last night, and the orchestration and the melodies were of a highly attractive character. The music is by the French composers, Paul Herve and Jean Briquet, and many of the numbers were of the quality that lingers in mem-The "Temptation Waltz," the charming berceuse; the duets, "Dance Me Good-bye," "Teach Me to Smile," and others, received hearty encores.

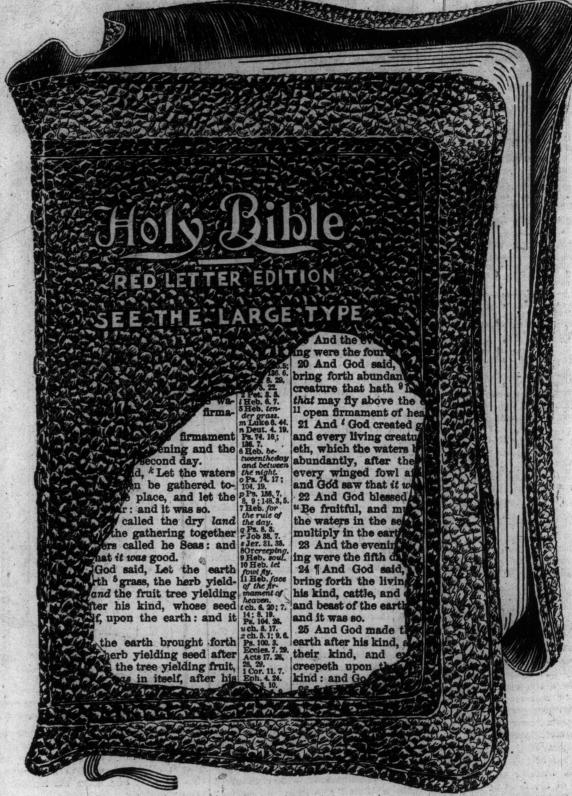

The story of the piece is more tangible than musical comedy is supposed to have, and the fun revolves around the person of the millionaire father of Marie and Anatole, a grumpy old cynic, who is disappointed in his son, and insists that his daughter shall marry for money. The son (Paul Decker) is a spendthrift, and the daughter runs away to the Latin Kuartier, where she visits the studio of Francois Deschanelle, an impecunious artis-

per cartoon comedians, presented their latest fun show, "In College." The merriment was continuous and even the elders were forced into fits of laughter by the comic antics, ludicrous situations and humorous dialog of the long and short of it in comedy. Judging from the manner in which the large audience greeted this latest edition of Bud Fisher's creation these irrepressible cartoon characters are still as popular as ever with Toronto theatregoers. It was all new last night—story, music, scenery, costumes and fun—and everyone enjoyed it. The production is not confined to the accepted version of musical comedy, a slice of extravaganza and all that is good in refined travesty. The inevitable bunch of pretty chorus girls are there with beautiful costumes and new bewitching song or a dance to each new dress. The principals are introduced into college as athletes with an expert knowledge of the game of football. Their reception in the educational institution is amusing in the extreme and the various complications that arise owing to their lack of knowledge of what is required of them form the foundation of the plot—if such it ca nbe called—and result in roars of laughter. Both principals closely resemble the pictured characters and their actions are identical with what cartoon readers expect of them.

"Mutt and Jeff in College" provides cois Deschanelle, an impedantous tic genius.

The exquisite setting of the first and third acts at the entrance to the chateau with its fine gates and luxurious foliage provided a charming background for the play, and the studio, with its view over the roofs of Paris by night, was equally attractive. The old milliomaire, Paul Fabre, a part taken by William Danforth, who is a local favorite, was very amusing, and the close of the last act was a novelty in musical comedy. He is full of epigrams and synicisms, and there was much humor in his relations with the chef Alphonse (Nace Bonville, who organized a servants' unjon in the millionaire's household, and called a strike whenever the old gentleman got crusty. This amusing and ingenious situation mabes the fun in the third act. The dancing is exceedingly good and is not overdone. Pauline (Marie Fanchonetti) with the chef has two clever numbers. Dottie King as Fleurette in the second act has a dance of a semi-ballet character with much pirouetting of a difficult kind. Grace Leigh as Clarisse Lunlere, a real Bohemian, nearly approaches the "altogether" in her dance, and she sings well. Natalie Alt, who has been here before, sang very well and was a capable Marie, while George Baldwin as Francois contributed the baritone solos in fine style. The concerted singing was delightful, a sextet in the first act and the berceuse, sing a capella when encored in the last act, most artistic. There is a large company, and the prettiest chorus that has been around this season. The exquisite setting of the first and

Jenkins and Covert gave a short humorous playlet, entitled "Just Married." Mahoney Bros. and Daisy provided a fascinating surprise for the audience. After an amusing little turn and two songs, Daisy made her appearance, a tiny spaniel, who waltzed and danced to the music in perfect time. Lockhart and Leddy did some clever acrobatical turns with a table, several chairs and a newspaper. Bob Hall, with his rapid and clever extempore songs, captivated the audience, and carried people's attention in every corner. Another good film show of the "Wellcorner. Every corner was packed and many were turned away. "Ashes" is a tragi-comedy piece with plenty of scope in its one act for Mrs. Langtry's clever acting. The wonderful dress which Mrs. Langtry is wearing in this act was designed by the famous Parisian gown makers. Collet Soeurs. Lionel Atwill and Leopold Stark appear in Mrs. Langtry's support. Bert Baker leads the funmaking brigade, and as a straight man in the

first act hands out some real funny sayings. His Irish songs and female pear in Mrs. Langtry's support.

Frank and Addie Brighton have a clever turn in which most novel picimpersonations in the last act are well worthy of special comment. Leo Hoyt assists Baker in funmaking, and the trouble caused by Babe La Tour, tures are created from rags. Henry Rudolf, billed as a vagrant tenor, sings melodies tunefully. The Watson Sisters, Kitty and Fanny, are evidently Baker and himself turns out comedy of the real side-splitting line. Lucille ters, Kitty and Fanny, are evidently great favorites, judging by the applause which greeted them, and their clever turn received well deserved encores. Kramer and Morton, two black-faced comedians, offered plenty of fun in new jokes, songs and dances. A screaming farce, involving what looked like a Ford car, and entitled "They Auto Know Better," was well played by Thomas Dugan and Babette Raymond. Almost everyone loves horses and dogs, and the clever exhibition of these well-trained animals, presented by the Howards, provided a unique and interesting spectacle. The two MoIntyres, Rose and H. McIntyres, Hose and H. G., are clever shots with rifle and pistol; they per-formed some hair-raising feats which delighted the audience. The Rineto-graph finished an absorbing program. For the first half of the current week at the Strand Theatre the management have secured "The Plunderer," a thrilling drama of the gold mines of Alaska. This photo-play is a Fox production, with William Farnum in the leading role. The scenes depicting the strike of the miners, the blowing up of the dam which supplies the power to the mines, and a handto-hand fight in which Mr. Farnum, as Bill Matthews, beats off 20 men, are truly realistic.

The bill also includes a good comedy and a Pathe News film. GIRLS FROM THE FOLLIES

Manager Dan Pearce of the Star Theatre has started the New Year right, by booking a burlesque so pleasing as the performance given by the Girls from the Follies, which opened a week's engagement at the Temperance Street Theatre yesterday aftornoon. Harry Steppe, one of the best-known Hebrew comedians on the No. 2 wheel, is seen at his best in the two-act farce "Cohen on the Bast Side." Steppe's Yiddish parodies and the "katsozki" dance are very funny. Virginia Wilson has a very pleasing voice and won many curtain calls from the capacity audience that attended both shows yesterday. In the second act several well-known stars of stageland are imitated by different members of the company. There are about twenty-five attractive-looking girls in the chorus, who appear in lavish costume. Manager Dan Pearce of the Star By mistake, we published in the last issue of The Sunday World the program of the York Theatre, which had been sent in too late for the issue of Dec. 26. Some of them come in so battered from wind and wave that they have to

lay up for repairs. So scarce is ocean bottom at Hali. fax and St. John that the Intercolothese ports. Local railway men are in- ment. clined to discount the report of vacant space in the government elevators. They say the roads and the shippers alike are anxious to find space anywhere in order to relieve the situation.

At the head offices of the Canadian said, in reply to the suggestion that blockades that all the roads had plenty of cars to transport all the wheat of. fered for carriage to points where the same could be discharged, but that there were not enough cars in the country to meet the demands of business and at the same time supply all the cars that could be utilized for storing grain on sidings.

One result of the temporary situa tion created by the blockade is to minimize the effect of the recent allrail rate on wheat, of ten cents a bushel from Winnipeg to Quebec. There is not enough elevator space at Quebec to justify shipping to that point until the grain can be forwarded from there with reasonable expedition to ocean ports. Of course, grain will not be hauled from Quebec to Halifax by either the Intercolonial or the Canadian Pacific unless and until there is ocean space available.

The only remedy that can be suggested is that the British Government requisition a number of vessels bring Canadian wheat from Canadian turies all property of any consequence space is available the wheat will commence to move to tidewater, and the from the line of succession. Now, howcongestion at the head of navigation and the interior points of the west will be relieved.

The dam is at the head of navigation. If the elevators at Port Arthur and Fort William could discharge their contents by trains to the sea, the grain from Interior elevators would flow smoothly down to the head of the lakes. That would in turn provide storage space for the wheat being hauled in by the farmers to the local elevators. As it is, the jam or blockade affects the smallest country station elevator and the farmer may be compelled to turn around and drive home without unloading his wheat.

### Reorganization, the Fire Hall

Issue. Next to the hydro radial bylaw the most important issue in Saturday's election was the reorganization of the fire department. It is of the utmost public interest to note how the whole question was juggled with by vari-

ctions of the city council, with The Toronto World ous sections of the city council, with the result of getting as far away as possible from this original issue. Reorganization was not an idle deon. It was arrived at after a judi-

cial investigation, and the policy ever since has been to keep the issue in cold storage until people forgot all about what began it. This policy was maintained all last year. Vote after vote evaded the real issue, and by the end of the year the matter had been nanipulated until the real issue of eorganization had been changed into one of promotion. With this have been mixed up several personal contentions and the idea of reorganization has been allowed to drop into the back-

TOKIO, Jan. 3.—Announcement is made by The Jiji Shimpo that a squadron of Japanese warships will sail for the Suez Canal. presumably to protect Japanese shipping. It is said the armored cruisers Kasuga, Tokiwa, and Chitose have been assigned for this sample.

Tokiwa, and Chitose have been assigned for this service.

The owner of the Japanese freighter Kenkoku Maru has been advised that the vessel was sunk by a German submarine in the Mediterranean on December 29. The members of the crew were landed at Cannes. France. The Kenkoku Maru was under charter by a foreigner. She was loaded with hemp at Manila and sailed for Italy and England.

Two Were Sunk.

The report of the decision of the Japanese Government to send a squadron to the Suez Canal follows the sinking of the two Japanese steamships in the Mediterranean. The passenger liner Yasaka Maru was torpedoed off Port Said on December 21. The Kenkoku Maru was a steamer of 2109 tons. She sailed from Manila November 6. Those on board both ships were rescued.

The Japanese Mail Steamship Co., which controls the bulk of the Japanese shipping, has abandoned the Suez route.

WILL PROTEST SEIZURE OF AMERICAN MAILS

U.S. Adheres to System of Balancing One Note Against Another.

WASHINGTON, Jan. 3.—It is learned that the state department is seriously considering the effect of British seizures of American mails on steamships, and intends to make representations to the British Government in these cases. It has not been determined whether the representations will take the form of an enquiry or a protest.

will take the form of an enquiry or a protest.

Unofficial information has reached Washington that the British Government is endeavoring to recover Belgian securities which Germany confiscated and is sending to this country to be impothecated. While details concerning these securities, their extent or character could not be obtained, the statement that such securities were being mailed from Germany, and that the British Government was enceavoring to recover them by intercepting the mails, was obtained from an authoritative source.

MAY PROVIDE KAISER

Reports That His Illness is Serious Still Circulate Busily.

PARIS, Jan. 3—Press despatches from Switzerland and Italy continue to affirm that the illness of Emperor William is serious. It is stated that he was operated on last Wednesday successfully, but the nature of the operation is not specified.

It is stated that the emperor is suffering from a deep-seated affection of which the cutaneous eruption is but an incidental symptom, and that the malady is complicated by the reappearance of his old throat trouble, which has extended to the mouth. It is even asserted that it will be necessary to provide him with an artificial palate made of silver.

QUICK ENDING OF WAR THOUGHT NOT FAR OFF

New York Thinks Temporizing of President Wilson Due to That Belief.

**ALLIES GROW STRONGER** 

Reports of Kaiser's Illness Also Connected With Rumors of German Collapse.

NEW YORK, Jan. 3.—It is believed in certain wed-posted quarters here that some kind of quick ending of the war may be in sight; that, for instance President Wilson continues to exer-cise the most unusual patience toward the repeated insolence of Austria and nany, knowing that something Germany, knowing that something is bound to give way any day; that the torpedoing of ships in the Mediterranean is part of a Teutonic play for a fall. The same persons say that the offer of the Canadian Government to raise another quarter of a million of men is more or less inspire by knowledge of an approaching the kaiser. The report of the illness the kaiser, even of a severe ope on on him, is also connected up with this alleged condition of affairs. But no one here could be got to take the responsibility of openly endorsing these conjecty of openly endorsing these conjectures. Many of the advices that come

to New York by letter and cable are to the effect that the position of the ai-lies improves day by day. The public opinion of the United States, in the press, still more in con-States, in the press, still more in conversation, continues to go against the lack of quick and defiant action in the president and the government at Washington. Col. Roosevelt seems to be the centre on which this opinion hastile to Mr. Wilson converges. If there is not a burst-up in Germany, then one is due in Washington.

### FRENCH VICE-CONSUL AT SOFIA IS ARRESTED

Measure in Retaliation for Arrest of Bulgar Consul at Saloniki.

LONDON, Jan. 3.—According to a Berlin despatch the Bulgarian Government has arrested the French vice-consul at Sofia, in retaliation for the arrest of the Bulgarian consul at Saloniki.

An Athens despatch to The Daily Mail says that the consuls recently arrested at Saloniki will be liberated shortly, either at Piraeus or Marseilles, with safe conducts.

Reuter's Athens correspondent says that the Norwegian consul at Saloniki was arrested at the time the Austrian German, Bulgarian and Turkish consuls were taken into custody on the order of the French commander, Gen. Sarrail.

The arrest of the Norwegian official is said to have resulted from the discovery at the Austrian and German consulates of documents implicating him in connection with espionage. The Greek Government, the message says, has protested against his detention, as well as against the arrest of Greeks suspected of espionage.

#### HIGHER SCHOOL FEES ARE NOW IN EFFECT

Classes Resume Today Following Christmas Vacation.

Pupils of Teronto's public schools to the number of 75,000 will return to their studies today after the Christmas holidays. The resolution recently passed by the trustees, that pupils residing outside the city must pay \$3 per month for their tuition, will go into effect and all principals have been notified to collect these fees, unless there is an arrangement between the school board and the township in which the pupils reside.

THIS YEAR'S ELECTION COST MORE THAN LAST

Eleven New Subdivisions Involve Two Thousand Dollars Expense.

With 11 more sub-divisions to account for, this year's election cost the city about \$2000 more than the one of a year ago, the total cost being approximately \$28,000. This amount covers the cost of revising voters' lists, printing, renting of polling places and payment of polling booth officers. With 142,000 voters on the lists only about 40,000 votes were registered.

BUILDING PERMITS TOOK HEAVY DROP LAST YEAR

City Architect's Figures Are Fourteen Million Less.

GREAT FAIR AT LYONS

Some idea of the building trade in Toronto may be gleaned from the figure out by the city architect, showing a decrease in the value of building permits issued in 1915 as compared with 1914 of \$14,042,399. The figures, however, do not include the new Union Station, which would make the decrease \$3,500,000 less.

### CHANGES ON BATTERY TEAM IN SENIOR GAME

McKenzie at Centre Tonight and a New Goaler-Hockey

The 40th Battery team will make some changes for their senior game with T.R. & A.A. at the Arena tonight. Lieut. Conn Smythe is under the weather with a had dose of grippe, and will be unable to play. McKenzie will be centre and McDonald will be available for left wing. Jupp and Lavigne will be the other forwards. Janes, late of Peterboro, will be in goal; McNab, from Orillia, will be Gooch's partner on the defence. It is the Battery's first home gate, and all the artillery men at Exhibition camp will be out. T.R. & A.A. are also making some changes in their team. Beulah Davidson will referee.

The O.H.A. sub-committee, which met yesterday morning, refused a certificate to G.-R. Porter to play with the Wiarton Ciub. Porter was working in Berlin after the first of August and did not quelify with Wiarton under the residence rule. If he enlists in the Bruce Battalion he can qualify with Wiarton. He has already made application for admission.

has already made application for admission.

Howard Merriam of Markdale has enlisted with the 14th Battalion, but desires to play with his home town. He was stranted permission.

It was decided that Roy Harmon was eligible to play with Collingwood.

A communication was received from A. E. Sixemith of Pittsburg asking if he dropped the reinstated professional players from his Winter Garden team and imported no players and played none but amateurs satisfactory to the O.H.A., would his team be allowed to play with O.H.A. teams. If these conditions are complied with immediately the application will be granted.

The following Peterboro cases were decided. The players applied for a reconsideration of their cases: Jerry Coughlin was in Peterboro in April. He played in Haileybury in 1914, at Ingersoli in 1913, and in Peterboro in 1912. He is new in Peterboro, and is declared eligible.

in 1912, 13 and 14, now in Peterboro, was declared ineligible to play for Peterboro, as were W. J. Tobin, at Halleybury in 1914, North Bay 1913, Ottawa in 1912, and L. Baillie in Cobalt in 1912, North Bay 1913 and 1914.

lie Gould, the ex-Midland player, has been in Brantford several years, swell of his Brantford intermes this year. He says he has a team will win a few games this year, hing Brantford teams have not done by. He does not think much of anglors.

Learrentian Chapter, Daughters of the Emire, of Ottawa, has issued a statement calling a tention to the "disgrace of pa rontzing professional hockey games in those such as these." It declares that high saluries are being paid to able-bodded approvide should be at the front and that the public's money might be devoted to much more useful purposes.

All clubs in the Beaches Hockey Leigne are reminded that they are allowed to sign up fifteen players for each team, providing they are signed up and sent to the league secretary in time.

All clubs in the junior, juvenile and midget series must send in each player's certificate, accompanied by a birth certificate from the parliament buildings or a buptism record, or failing to secure one of these an affidavit taken out by the parents before a justice of the peare will be accepted. These affidavit forms will be supplied by the league secretary, and any new club that has not secured same is requested to notify the league secretary at once.

Clubs are requested to send in their certificates as soon as possible, so there will be no last-minute delay before a game.

game.
Also, the league secretary would like to receive a few more applications from referees to act in this league.

Ottawas' alibi for the defeat by Canadiens was that three men were practically out of commission. Had Art Ross, the backbone of the Ottawa team, been in uniform there might have been a different story to cable. He was unable to leave his bed. Angus Duford climbed into a sait and went on in the second period, but he lcoked wobbly on his skates and was immediately returned to the bench. Godor. Meeking reported a victim of lagrippe: He was only on for a minute.

Ottawa Citizen: Vezina played a fair game in the Canadien nets, the he had little to do, and Den Corbeau was the pick of the defence, on which Prodgers and McNamara were also good. They and McNamara were also good. They used their bedies more effectively that Merrill and Shore, and they did not hesitafe to apply the hickory when they went after their men. Their defence is such a Titanicike combination that it will cause a heap of trouble to opposing lines this season. Both Lalonde and Pitre indicated a return to form. Pitre had wonderful speed and the foxy Lalonde, with Arbour to understudy for him whenever he feit tired, appeared the brains of the Canadien attack. Laviolette was better than usual at left wing, and Fournier. Arbour and Berlanquette were also effective. Skinner Poulin, the former Victor's forward, got into action for a tew minutes only. He, like other newcomers in the N.H.A., was obviously out of his minutes only. He, like other newcomers in the N.H.A., was obviously out of his class. Of course, George Kennedy's trump card was his strong string of substitutes, which enabled him to rest up Lalonde. Laviolette and Pitre in such a way that they were far fresher than Ottawa in the second and third periods.

Eric Reese, who is playing on the de-nce of the Hamilton Juniors, is a bro-ter of Leo Reese of the intermediates.

of Saturday night's game at Hamilton, was quite serious, it being feared that his jaw is dislocated. He bumped into a member of his own team.

Ottawa's three straight defeats in the N.H.A. will likely result in another raid on the Ottawa amateur clubs.

Babe Burkart made an appearance on the ice at the Arena last night after two years' absence. Babe was out with T.R. & A.A., and only took light work.

National Commission in Session

at Cincinnati-Discuss

Treaty of Peace.

CINCINNATI, Jan. 3.—The committee appointed at the recent meeting of the baseball peace conferees here to settle the dispute between the Federal and International Leagues will meet here next Wednesday at noon. This decision was reached at a meeting of the members of the National Commission here today.

The committee is composed of President James A. Gilmore of the 'Federal League, President Edward Barrows of the International League, a representative of the Baltimore Federal League Club, a representative of the Buffalo Federal League Club, and the members of the National Baseball Commission.

At the meeting here today various matters that have to do with the readjustment of baseball affairs to conform with the recent treaty of peace were discussed informally and other than the announcement that the date and place of the committee meeting had been fixed, no news of a definite character came from the meeting room.

It is known semi-officially, however, that the waiver question, insofar as it concerns the Federal League players, was taken up, thoroly gone into, and then laid over to be decided finally by the joint committee on Wednesday. Other matters will be decided at this meeting. What the matters are was not allowed to be divulged, but one man high in baseball circles said:

"It is natural that there are a number of details that are bound to conflict when peace is declared between the two bodies. None of these details is of importance other than they must be attended to. The two big questions to come up, of course, will be that of the dispute of the Federal and National Leagues and the waiver question. Insofar as the former is concerned, I can say very little, but in regard to the waiver question I believe this will be decided quickly after the situation is explained to all of those concerned."

Another meeting of the National Commission will be held tomorrow, and it is probable that the officers for the year Another meeting of the National Com-mission will be held tomorrow, and it is probable that the officers for the year will be chosen at that time.

#### President Gilmore Tells of Contracts And the Guarantees

NEW YORK, Jan. 3.—Harry Sinclair, owner of the Newark Federal League franchise, will not guarantee all Federal League contracts, nor will he dispose of all the Federal League players, said President James A. Gilmore of the Federal League, tonight.

"There has been an erroneous opinion ever since the peace meetings that Mr. Sinclair will guarantee the salaries of all Federal League players, and it seems time for me to deny it. I have received many letters from Federal League players asking if it were so that Sinclair had guaranteed their salaries, and I replied it was not so. The only contracts Mr.

guaranteed their salaries, and I replied it was not so. The only contracts Mr. Sinclair guarantees are those of the Newark Club.

"There also is a wrong impression that Sinclair will dispose of all the players of the Federal League. He will dispose of the players of Newark, Kansas City and Buffalo Clubs, as well as Kauff, Magee and Anderson of the Brooklyn Club. However, Sinclair has not agreed to guarantee the contracts of players belonging to the defunct Kansas City and Buffalo Clubs. Such contracts revert to the league."

Gilmore said that Chairman Herrmann Chimore said that Chairman Herrmann

Gilmore said that Chairman Herrmann of the National Commission had suggested a meeting of the peace commissioners in Cincinnati on Wednesday, but the date was not convenient to the Federal League men, and he has suggested to the National Commission the continuance of the peace negotiations in New York on Jan.

When questioned as to the report that Sinclair will buy the New York Glants. Gilmore said: "It is no secret that Mr. Sinclair has been negotiating for the purchase, of the Giants for some time." T.B.C. TWO-MAN LEAGUE.

The Great Semi-Annual Sale of Men's Collars at 5c

Perhaps the biggest and most interesting feature in this Semi-Annual Sale of Collars is that the assortment includes collars of the very latest designs. There may be a slight flaw, even poor stamping of brand, that makes them "seconds," but it's only the maker who's dissatisfied. The imperfections are scarcely noticeable, and will not interfere with wear or appearance. It's an opportunity to economically stock up a supply of collars for months and perhaps a year to come.

An almost unlimited quantity will be offered at this remarkably low price, and, to make choosing quick and easy, they are sorted out, according to styles and sizes.

Whatever your preference is in style, you'll find them all here—stand-up, turndowns, wing and cut-aways, low lying down and straight bands in every weardown and straight bands in every wear-able shape and in any desirable height, mostly all made of 4-ply linen. They are from such noted makers as "W. G. R.," "Tooke," "Cluet and Peabody," together with several discontinued lines from our

#### Veteran John Chandler Still Active Cricketer

The history of John Chandler is the story of cricket in Toronto the last fifty years. Mr. Chandler was best known as president and captain of the old East Toronto Club, that played over the Don thirty years ago, and, notwithstanding his 76 years, John is today an active player, and stands umpire at many important matches. Today is the anniversary of his golden wedding, Mrs. Chandler, like her life-partner, being also hale and hearty. The veiteran, like in cricket, is still actively connected with business, his office being at No. 15 Manchester building. The Chandlers' home is at 59 Winchester street. The family consists of two daughters and one son, all married, and seven grand-children.

sage of Jack Munro of the Princess Pats, recently sent to his friends in Canada recently sent to his friends in Canada and the States. It will be thirteen years since Jack broke into the puglistic limelight by staying four rounds with Jim Jeffries at Butte. He afterwards knocked out Peter Maher and other good men, but was put to sleep in a second bout with Jeff. Jack was born in Pennsylvania, but made a fortune in the Cobalt mines, and went to the front soon after the outbreak of the war. Altho considerably mangled, Jack is game and cheerful, and a credit to the boxing game.

#### DROP IN CAR STOCKS FEATURE AT MONTREAL

Net Loss Over Seven Points Trade Otherwise Without

- Interest.

MONTREAL, Jan. 3.—Except for pronounced weakness in Canadian Car securities, and a brisk market at rising prices for the shares of the new Laurentide Power Co., the first trading of the new year on the Montreal Stock Exchange was devoid of fea-ture. New York's steadiness in the face of the new complications in the submarine controversy reassured the market without stimulating it. Car common was offered down steadily from the opening and met lit-tle or no support. The first board lot transaction was marked at 83 1-2, a fall of 2 1-2, and 81 was touched before noon. In the afternoon broken lots sold as low as 77, and last sale went out at 78 1-4, leaving a net loss of 7 1-4 points as the change on transactions in slightly less than 500 shares. The preferred broke 3 1-2 to 101 on sales of 50 shares.

#### INITIAL DIVIDEND PAID ON DOMINION FOUNDRIES

Announcement is made that the Dominion Steel Foundries' directors met on Friday last and authorized an 8 per cent. dividend on the common stock, payable Jan. 1 to stockholders of record Dec. 30. The receipt of the of record Dec. 30. The receipt of the dividend cheques was the first intimation the shareholders got of the development. This is the first common stock dividend that the company has ever paid. Last October it paid up 14 per cent. arrears of cumulative dividends on its preferred stock.

Dominion Steel Foundries stock (common), came into prominence on the Toronto market last August, when it opened at 22 and rose to 30 in the lest faw days of the month; in Septential Commons of the Common of the Comm last few days of the month; in September it went to 35, October to 45, November to 92, and last month to 130, reacting later to 115.

Mexican Petroleum Feature With Advance of Over Six Points.

NEW YORK, Jan. 3.—On the stock exchange the new year began with some misgivings, in consequence of the sinking of the British liner Persia, and the further activity of the Teutolic naval forces. Opening prices were i to over 4 points lower, but these losses were largely regained, only to fall back again. Before midday another rally effaced most declines and thereafter the record, for the most part. was one of irregular advances. Oil shares, more particularly Mexican Perfoleum, which led last weeks buoyant rise, were once more declines a maximum gain of 6 5-3 at 129 5-8. This represents an advance of almost 22 points over its final quotation of a week ago. California Petroleum, which according to rumor, is to merge with Mexican, also was strong.

U. S. Steel was forced into second place by reason of the extraordinary settivity of the oil group, but was fairly steady after the first hour of undertainty, recovering from the low price of 87 1-8 to 89, and closing at 129 to 181 1-2 to 111 5-8.

MONTREAL, Jan. 3.—The receipts of live stock at the Montreal Stock Yards for the year ended Dec. 31, 1915, were 73,913 cattle, 31,30 sheep and lambs, 120,972 hogs and 38,940 calves, while the receipts for the week ended Jan. 1 were 1200 cattle, 1500 sheep and lambs, 2700 hogs and 400 calves.

The year opened up rather quiet for cattle, and, as the supply was fair, and easier feeling developed in the market, which resulted in a decline of 25c per 100 pounds, but even at this reduction the demand from packers and butchers was somewhat limited. A weak feeling has developed in the market for sheep and lambs, and prices for the former since this day week have scored a decline of 25c to 50c per 100 pounds, and the latter 35c to 50c.

Calves are firm, owing to the small calves are firm, owing to the small

25c to 50c per 100 pounds, and the latter of 35c to 50c.

Calves are firm, owing to the small offerings, and sales of milk-fed stock were made at 8½c to 9c per pound, and grass-fed at 4½c to 6c. A stronger feeling prevailed in the market for hogs, and prices advanced 15c to 25c per 100 fbs. Selected lots sold at \$10.15 to \$10.25. sows at \$8.15 to \$8.25; and stags at \$5.07½ to \$5.12½ per 100 lbs., weighed off cars.

To Holders of First Mortgage Bonds of Western Canada Power Company, Limited

The Western Canada Power Company has announced that it is unable to meet the coupons on its first mortgage bonds maturing on January 1, 1916, and suggests that two years' coupons be exchanged for preferred

This proposal should be rejected. The three-year notes of Western Canada Public Utilities, Limited, which are secured by a majority of the ordinary shares and all of the \$4,000,000 of second mortgage bonds of Western Canada Power Company, Limited, are in default as to the interest payable on September 1st last, and mature as to principal on March 1st, 1916.

A protective committee has been formed by holders of notes of Western Canada Public Utilities, Limited, for the purpose of enective co-operation in the protection of their interests. The undersigned, owning and representing a large amount of the first mortgage bonds, have formed a committee for the protection of the interests of the holders thereof, with power, in the event of default of the Company, to enforce the rights of the bondholders, and, if advisable, to formulate a plan for the reorganization of the Company, or to consider any reorganization plan affecting the rights of the bondholders which may be submitted to the committee. To the end that the fullest co-operation of the bondholders may be secured, the undersigned committee requests the holders of the first mortgage bonds to deposit their bonds, with coupons maturing on and after January 1st, 1916, with their bonds, with coupons maturing on and after January 1st, 1916, with their bonds, with coupons maturing on and after January 1st, 1916, with The Montreal Trust Company, 142 Notre Dame St. W., Montreal, or with The Equitable Trust of London, Limited, 3 Lombard St., London, E.C., as depositaries, who will issue their certificates of deposit therefor, under the agreement of deposit dated 30th December, 1915, under which this commit-

tee has been formed. The Committee has arranged with the Royal Securities Corporation, Limited, to make advances and to co-operate with the Committee, and the Committee will advance to bondholders who may deposit under this agreement the amount of the unpaid instalment of interest if defaulted on January 1st, 1916, but it should be clearly understood that such advance constitutes a loan, secured by the bonds and coupons deposited. The offer to advance interest on deposited bonds is intended merely for convenience of depositors, who should realize that the acceptance of such advance is optional with them. Depositors who do not care to accept will be at no disadvantage, since any reorganization terms must apply equitably to all depositors under the agreement. Copies of the agreement of deposit may be obtained from the depositaries, and from Royal Securices Corporation, Limited, 164 St. James Street, Montreal. The agreement provides that depositing bondholders may withdraw in case any plan of reorganization recommended by the Committee be not approved by them, and limits the contribution to the expenses of such reorganization of the bondholders who withdraw to 1 per cent. of the face amount of their bonds.

Application will be made in due course to list the certificates of deposit the Montreal Stock Exchange.

To Holders of First Mortgage Bonds of Western Canada Power Company, Limited

As all of the \$5,000,000 of first mortgage bonds of the Western Canada Power Company were placed by us with investors in Canada and in Great Britain, we have given serious consideration to the announcement of the Company that it will be unable to meet its January interest; and its proposal that the bondholders exchange two years' interest coupons for pre-

This proposal should be rejected. An issue of notes of Western Canada Public Utilities, Limited, secured by second mortgage bonds and stock of Western Canada Power Company, Limited, is in default as to interest, and

will be in default as to principal on March 1st next. The trust deed securing the first mortgage bonds provides that the mortgage securities is not enforceable until a default in payment of interest shall be continued for a period of six months,

Consequently the first mortgage bondholders may have to wait until July 1st for payment of the interest due January 1st, should the Company 6 61 not see fit to make payment at an earlier date. In our opinion not only 6 11 not see fit to make payment at an earlier date. In our opinion not only 6 71 are the monthly earnings of the Company now sufficient to pay the interest 6 76 on the \$5,000,000 first mortgage bonds, but with the installation of addi-on the \$5,000,000 first mortgage bonds, but with the installation of addi-6 26 tional machinery already ordered and partly paid for will be sufficient to the other common stockholders of the Company. The noteholders and the ordinary shareholders should mutually arrange a plan of reorganization which will finance the enterprise on a business basis. Such reorganization ization which will inhance the enterprise on a business basis. Such reorganization is most desirable. It can be carried out without being allowed in any manner to prejudice the interests of the first mortgage bondholders. We are prepared to finance it if necessary. In view of these circumstances a Protective Committee has been formed to safeguard the interests of the bondholders. We recommend that the holders of the bonds co-operate. with this Committee, and deposit their bonds with one of the two deposit-aries, viz., Montreal Trust Company or Equitable Trust of London, Limaries, viz., Montreal Trust Company of Equitable Trust of London, Limited. For the convenience of bondholders it has been arranged that the Committee will advance to the bondholders who may deposit under the agreement of deposit dated December 30th, 1915, the amount of the coupon

naturing January 1st, 1916. Montreal, December 31st, 1915. Royal Securities Corporation, Limited Canadian bondholders should forward their bonds to the Montreal Trust Company, Montreal, Toronto or Halifax, as promptly as possible.
