By H. F. Gadsby

Chicago, Ill., June 15—Colonel Roosevelt will arrive here late this afternoon, but he will save the fireworks until the Roosevelt mass meeting in the auditorium theatre on Monday night, when the people of the United States in general and the delegates to the republican convention in particular will lend him their ears, which nice timing of the psychological moment is just what this writer has been guessing for the last three days.

AS TO THE THIRD TERM

As a matter of fact the third term is not a fear from the people but from the politicians who are jealous because only twenty-five men have been elected to the United States in 130 years. Third term is a reproach seldom heard outside of newspaper offices and party caucuses.

TEDDY TO TAKE FULL CHARGE

Colonel Roosevelt will take charge of his own campaign from the minute of his arrival and Senator Dixon will retire more or less gracefully to the back seat. The American eagle brooks no pale-faced oral substitutes when the real thing comes on the job.

Prime Minister's Wife to The Rescue—More Tory Rant About Reciprocity, Carson This Time

(Canadian Press)

London, June 15—While Premier Asquith was holding an official reception in the India office last night, in honor of the king's birthday, an elegantly attired suffragette, who had been announced as a guest, approached and tried to tear the epaulettes off the premier's official coat.

More Tory Rant

Sir Edward Carson, an anti-home rule demagogue in Albert Hall last night, said there never were worse judges of imperial matters, requiring an imperial instinct of what was likely to happen, than the present government.

CONGRESS NOT ONE OF MUCH INFLUENCE

The Congress of Chambers of Commerce of the Empire, which assembled in London this week does not count for much, practically, despite the fact that Premier As-

quith addressed the congress and King George received the delegates. It is mainly a resolution-passing body with little real influence on actualities than any debating club.

THE TROUBLES OF THE DOCTORS

Meanwhile the doctors are showing remarkable activity in fighting unauthorized or unconventional practitioners. They are conducting a sustained and popular campaign against proprietary medicine and ejecting from their ranks all doctors who, in any way, countenance unqualified healers.

THE MATTER OF CANADIAN LANDS

My recent warning about undesirable Canadian land speculators now offering lots in London has been backed up this week by a formal statement from the Canadian Chamber of Commerce in London informing the English people of the necessity of observing caution in buying Canadian real estate.

LONDON FOLLOWS OUR EXAMPLE

London is becoming more and more Canadianized. The most recent example is the growing popularity of mid-day lunches and debates by business men after the example of the Canadian Clubs.

(Times Special Saturday Cable)

London, June 15—The transport workers' strike is approaching the final collapse. The men's leaders have sought government intervention to arrange terms of peace. They are beaten at every point. Rarely if ever in recent times has there been a strike so grievously mismanaged.

SUFFERED AGONY FROM DYSPEPSIA

"Fruit-a-tives" Makes Wonderful Cure

N. C. STIRLING, ESQ. Glencoe, Ont., Aug. 15th, 1911. "So much has been said and written about 'Fruit-a-tives' that it might seem unnecessary for me to add my experience. But 'Fruit-a-tives' were so beneficial to me when I suffered with distressing dyspepsia, that I feel called upon to inform you of the remarkable and satisfactory results I have had from using them. Dyspepsia and indigestion as everyone knows, can give you more uncomfortable hours and days than most common complaints. "I am glad to be able to say to you that although in the past I suffered excruciating agony with dyspepsia, I am now in perfect health. "Fruit-a-tives" accomplished the desired result and I have to thank them for my very favorable and satisfactory state of health."

LA MARQUISE DE FONTENAY

France and Germany Were Nearly in Trouble Over Monaco — Trooping the Colors in Honor of the King's Birthday

Of all the semi-royal families of Europe there is probably none so little known to the general public as that of Urach, whose chief, Duke William, Count of Wurttemberg, has recently lost his consort, a princess of the reigning family of Bavaria. The houses of Bavaria, Wurttemberg and Monaco, and several other sovereign states, have been placed in mourning by her death.

In fact, France would assuredly have gone to war sooner than permit Germany to acquire possession of Monaco. It was an "ultimatum" to this effect that caused Prince Albert and the Kaiser to abandon their scheme with regard to the altering of the succession, which, of course, led to a reconciliation between the Prince of Monaco and his heir.

The Countess Fabbricotti, who has just made her debut at the Purgola theatre of Florence, under the immediate direction of the composer, Puccini, used to style herself before her marriage to Count Riccardo Fabbricotti, "Miss Rosalva Rosalva Scovel." Her mother, a somewhat homely member of the Roosevelt clan, had created consternation in her family by bestowing her hand and great fortune upon a good-looking professional tenor named Scovel, formerly a familiar figure on the New York operatic stage.

The daughter of this union, now Countess Riccardo Fabbricotti, who has just taken up her father's calling, is not to be confused with the former Countess "Arthur" Fabbricotti, who was at one time so well known in New York, as the "Eggs" of several prominent financial magazines.

Countess "Arthur" was extensively entertained by the Vanderbilts, and by the late Mrs. William Astor, and afterwards lived in England for some time with the American-born Princess Halzfeldt, adopted daughter and heiress of Colias F. Huntington.

The princess and some of Countess "Arthur's" American friends, eventually started her in business in London as a model, with a shop in Mayfair. It was opened with a great flourish of trumpets, but came to grief, as most of such unprofessional enterprises do, and for some time the poor countess was in very straitened circumstances indeed. She is not, as many believed, a full-bred American, but born of an Irish father and an American mother.

Her union to Count Arthur Fabbricotti was not a happy one and, since divorce is unknown in Italy, the count secured letters of naturalization in France, immediately afterwards effecting the severance of his matrimonial ties through the French tribunals.

Thanks to this divorce, Countess "Arthur" was enabled to marry Baron Alottini, who had some time before been shunned by the Italian foreign office because of sensational troubles in which he was involved as Italian charge d'affaires in Paris—troubles that led to a most unseemly falling out with one of his compatriots, who quarrelled with him concerning some financial transaction or other. Alottini had previously spent some years in the Italian diplomatic service at Washington, where he acquired the rather unusual distinction of being "pilled" by the Cheyve Chase Club.

By and by Alottini and his bride established themselves in Rome, where the charming ex-moquette speedily demonstrated that she was still more than capable of the management of everybody, and that she was still more than capable of the management of everybody, and that she was still more than capable of the management of everybody.

The Intellectuality of Finger Tips

A CERTAIN young woman who married a man of great brains and ability was being discussed by some of her acquaintances the other day. "I don't see how he, with all his brains, could have married her!" commented one of those critics, who are always wondering why anyone marries anyone else.

"Why? Isn't she particularly clever?" asked another woman. "My dear," rejoined the critic, "she has no brains at all. Her father would have been glad to send her to the best college in the country, and she was so stupid that she couldn't even get through high school. And she has absolutely no intellectual interests!"

The woman criticised is the mother of two children whom she is bringing up with rare common sense; she is a good housewife, and she is a thoroughly pleasant household presence. One can tell by the way her husband looks at her that he finds infinite pleasure and peace in the home she makes for him.

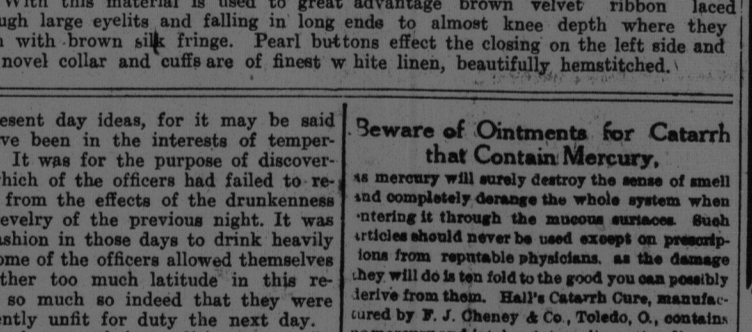

And yet her critic asserts that she has no brains! If the critic is right we certainly need no new definition of brains.

To me, this successful wife and mother is every bit as much a "brainless" woman as the most successful private secretary or woman lawyer. Of course, it is a different part of her brain which is developed, but surely it is just as valuable as just. We might get along without private secretaries or lawyers, but I don't see how we'd manage without mothers, do you?

To be sure, the book part of this woman's brain is undeveloped. But doubtless there are portions of the brain of the popularly called "brainless" woman which are not particularly well developed. Notice some of this species and see how the book part of the brain of the popularly called "brainless" woman which are not particularly well developed. Notice some of this species and see how the book part of the brain of the popularly called "brainless" woman which are not particularly well developed.

The intellectuality of the heart and of the finger tips is just as much needed in this world as any kind of cleverness. Don't make the mistake of undervaluing them.

to present day ideas, for it may be said to have been in the interests of discovery. It was for the purpose of discovering which of the officers had failed to recover from the effects of the drunkenness and revelry of the previous night. It is the fashion in those days to drink heavily and some of the officers allowed themselves altogether too much latitude in this respect, so much so indeed that they were frequently unfit for duty the next day.

In such a case their condition was considered a failure by many, because he could not succeed as a business man. But he is very happy and very skillful as a maker of beautiful pottery, and I call him eminently successful.

The intellectuality of the heart and of the finger tips is just as much needed in this world as any kind of cleverness. Don't make the mistake of undervaluing them.

DOCTORS INDORSE NEWBRO'S HERPICIDE FOR THE HAIR

When a doctor endorses a preparation, it means more than an ordinary testimonial. His opinion is always that of the professional man devoted to the welfare of the people.

Dr. J. J. Boyd, Covington, Tenn., says: "I feel it my duty to write this for the benefit of those suffering from dandruff. In the average case a few applications of Newbro's Herpicide will remove all dandruff. It is advisable to continue its use for several weeks."

The words of J. B. Thompson, M.D., No. 2 Barrow Place, Cor. Hillis street, Boston, Mass., are not less enthusiastic: "I can only speak in praise of Newbro's Herpicide, as I find that it does what it claims to do, and it does it so quickly and so thoroughly that I do not think it is necessary to do all that is claimed. If you are not satisfied your money will be refunded."

Daily Hints For the Cook

SAUSAGES WITH TOMATO SAUCE. Prick the sausages in several places with a fork to keep them from bursting, then place in a deep frying pan, cover with boiling water and cook gently for a full 20 minutes; uncover and draw forward that the water may evaporate. When only the fat remains in the pan turn the pieces frequently that they may be evenly colored. Pour off all but two or three tablespoonfuls of fat, add to what remains in the pan just sufficient sifted flour to be absorbed and stir until pale brown.

Break a pint of strained tomato, stir until thickened, season to taste and draw a little to one side, allowing the sauce to simmer for ten minutes.

STRAWBERRY SHORTCAKE. Sift two cups flour, two teaspoons baking powder and one-half teaspoon salt. Rub in two tablespoons butter and wet with enough sweet milk to make a soft dough. Break off small pieces and pat them with spread butter on top. Take another small piece and pat flat on top of those and cover with butter on top. Bake in quick put dish of butter on top. Bake in quick put dish of butter on top.

CREAM CHEESE AND CHICKEN SANDWICH. Mince breast of chicken and cream cheese with a little minced watercress makes an excellent sandwich. Cut cucumber soon becomes limp and lettuce not only loses its crispness but makes the sandwich tasteless.

USEFUL HINTS FOR HOUSEWIVES

MAKING CURTAINS. Make the net curtains with an inch hem on the bottom and an inch heading. If you finish them on one side and on the bottom with a narrow cotton edge they will keep the shape better, especially when they are cleaned, says Harper's Bazar.

AN ADDED FLAVOR. In preparing pineapple for the table, cut marshmallows into small pieces, and mix them with whipped cream before adding to the pineapple, says Good Housekeeping.

THE BEST GOWN TO KEEP IN A BAG OF THIS kind is one of soft chiffon or crepe, which can be folded small and left to lie in a cramped space. Black or tan gloves are more convenient than white ones, which need cleaning so very frequently.

TO SHRINK GOODS. To shrink wash goods and to keep them from fading, soak from 10 minutes to one half hour in warm (not hot) water, then hang without wringing in the shade to dry, says the Cincinnati Times-Star.

DAINTY CAKES. Delicious cakes are made from sponge cake baked in small gins, putting in a small amount to have the cakes set, says the New Haven Journal-Courier.

ROOM IN KITCHEN. It is an excellent idea, if you are crowded for room in the kitchen, to tack a piece of olecloth around the edges of the kitchen table. You can then screw hooks into the under surface and use the space under the table for cooking utensils, says the Pictorial Review.

LAST TIME TODAY. The Gay Musician which made such a splendid hit at the Opera House this week is to be repeated this afternoon and evening. Theatre goers will be glad of this because it is one of the brightest and cleanest shows seen here this season, and very funny. The stores being closed to night and many people being anxious to see the company again, it is expected the audience this evening will be very large.

WEDDINGS. Miss Eleanor Grace Russell and Arthur Swin, first officer of the government tug Helena, were married at the home of the bride, 164 Waterloo street, on Thursday by Rev. L. A. McLean. They have a great many friends who will wish them every happiness.

The government ticket as constituted is a fairly strong one but not as strong as a judicious selection of candidates for nomination might have made. —St. John Globe.

12 Tumors Removed Without An Operation

Dear Mrs. Currah—I am enjoying better health than I have for eight years, and I think I am entirely cured. I have none of the old symptoms. I am very grateful for my present health, and thank Orange Lily is the greatest treatment for women the world knows. It is used in my case caused 12 tumors or growths of some sort to be expelled. Some were as large as a hen's egg, and others smaller down to the size of a walnut. I am now in my case in your advertisement for it is the solid truth, and I cannot describe all the good it has done for me. Mrs. Louise S. Bolter.

This letter gives an intimation of the positive benefits that always follow the use of Orange Lily. It is an applied treatment and comes organic. It produces results, from including painful periods, falling of womb, irregularities, leucorrhoea, etc. I will send a sample box containing 10 days' treatment absolutely free to any suffering woman who has not tried it if she will send me her address. FORWARD TO VICTORY

Victory awaits the Liberal party in New Brunswick on June 20. The only question is as to the extent of the victory, and that depends upon the vigor with which the campaign is conducted during the few days that remain.

Liberals of St. John, seize your opportunity and make a clean sweep in the city and county. You do not want four or five years more of such government as we have had in the province since 1908.

FOR BETTER ROADS

"In spite of the bad roads." This phrase has become painfully familiar to the reading public. If a large number of people assemble anywhere in New Brunswick they do it "in spite of the bad roads."

Why are the roads bad? For over four years we have had a government in power whose most solemn pledge was that it would give the people good roads. It has had a fine opportunity to carry out its promise; for it had a much larger revenue than any former government, and last year spent \$50,000 in excess of the ordinary income.

What has become of the money? Some of it went in two political campaigns to assist the Conservatives in the federal elections. Far too much of it went into the pockets of partisans who philosophically observed to themselves that the roads could wait.

Do the people of New Brunswick want a continuation of this sort of thing? What is the use of talking about building up the rural communities if the very first consideration of success is to be disregarded? Good roads build up a rural community, bad roads have the opposite effect. This is a truth fully recognized in all countries, and all countries are trying to give the people better roads.

There are many evidences that a free use of liquor by government supporters appears to have marked the proceedings at several places on nomination day.

Mr. Fleming is much better at promising than performing. Let him return to the opposition benches and give place to a premier who will carry out his pledges.

The three days of next week should be devoted by the Liberals to the task of perfecting an organization that will guard the people's interests at the polls.

There are many evidences that a free use of other than legitimate means of securing votes will be made on election day by government partisans. Every Liberal must be on the alert.

The people of the cities and towns of New Brunswick will best serve their own interests by supporting a policy which will build up the rural communities. Mr. Copp and his supporters stand for that policy.

New Brunswick is in revolt against the Fleming government. It is time for a change. One term is quite too long for a pledge-breaking administration. Moreover, the people want a progressive government.

The provincial government is asking for the support of Liberals in this campaign. Liberals, however, will not overlook the fact that if they support the government they will be assisting two Tory governments in their effort to gain a victory over the Liberal party in New Brunswick.

Messrs. Foster, Knowlton, Mahoney and Kierstead are conducting a clean and vigorous campaign. They are meeting with even greater success than they anticipated in their personal canvasses of the electors. Their opponents have the aid of two governments, and a compact organization, but if the Liberals are watchful and alert they can carry their whole ticket with a good majority. Mr. Copp should have six supporters from St. John city and county.

al party in this province, and money which should have been spent for the improvement of public services without regard to politics, was deliberately used in such a manner as it was hoped would improve the chances of the Conservative party in a federal campaign. Mr. Fleming approved of this course. The Liberals on June 20th will have their turn.

PERSONAL FOLLOWERS The following sentences from the manifesto of the opposition ticket in the county of Northumberland were written by a Conservative—

"We will endeavor to have the money that is appropriated for road and bridge purposes spent honestly and fairly, for the benefit of the public at large and not for the few. We believe that public work should be put up to tender, so that every citizen may have an equal chance to compete for it, instead of having it done by a band of personal followers of the chief commissioner. We will not be tame followers of the government of the day, like gentlemen who represented you in the last house, but will be ready at all times to stand up and fight for the rights of the county. The tame follower is no good. He is only a voting machine, and votes as he is hidden."

In Northumberland county it is "a band of personal followers of the chief commissioner." In other counties it is a band of personal followers of other members of the government, or their "voting machines" in the house.

The people have had enough of this system. These pledge-breakers should be thrust aside to give place to Mr. Copp and the tender and contract system for public works. On nomination day in Albert county Mr. Garnswath showed that out of \$20,000 expended in that county \$15,000 was expended in day's work, instead of by public tender and contract. The "band of personal followers" got the pickings.

Mr. Copp stands for a square deal for the people in relation to the affairs of the crown lands.

Messrs. Murray and Jones woke up the wrong passenger when they attacked Dr. Pearson at Hampton on Thursday.

The Tory speakers continue to dodge Mr. Copp's platform. They are afraid to discuss it. Compared with Mr. Fleming's manifesto it is as good to dress.

It is to be regretted that a free use of liquor by government supporters appears to have marked the proceedings at several places on nomination day.

Mr. Fleming is much better at promising than performing. Let him return to the opposition benches and give place to a premier who will carry out his pledges.

The three days of next week should be devoted by the Liberals to the task of perfecting an organization that will guard the people's interests at the polls.

IN LIGHTER VEIN "Why do you always tell people to give up things they most enjoy?" "Because," replied the physician, "I am pretty sure they won't do it, and then, if they don't recover, they can't blame me."

THE BOTTOM DOG. Highblower—My first daughter married a poet, my second an artist, and my third a railway magistrate for woman. Dimpleton—And which couple is the most fortunate? Highblower—Oh, the first two of them. They are supported by the husband of the third.

BENEFIT FOR BOTH. Departing Guest—"I'd gladly give you a tip, waiter, but I find I've only a cab fare left." Waiter (benignly)—"Ah, sir, you don't appreciate the benefit of a good after-dinner walk!"

Old Lady—There is one thing I noticed particularly about that young man who inquired in my parlor for my daughter. He treats every woman as though she were a being from a higher sphere, to be approached only with the utmost delicacy and deference.

Granddaughter (sweet eighteen)—Yes, he's horribly bashful. He was dining at a French restaurant and while he was sipping his black coffee and firing five hundred glances to the minute at a girl in a fluffy pink and white dress, a stranger graciously commanded his overcoat. He had just reached the door when the owner tapped him on the shoulder.

WOULDN'T WORK THAT WAY. A gentleman in the north had in his employ a groom who always wore an air of sadness and dejection. On going around his stable one morning, the gentleman was surprised to find his groom dancing in mid-air at the end of a trace, one end of which was tied to a beam in the roof, and the other end buckled around the man's waist.

"What on earth are you up to now?" queried the master. "I'm a-tryin' to hang meself," said the groom, in a tired-of-life tone. "Then why didn't you tie the trace round your neck?" said the employer, thoroughly tired of the man's foolishness. "I did try it last night, but I couldn't breathe."

TOO LATE FOR HOPE. Words were of no avail. He knew it. His wife, Maria, had arranged everything with cold-blooded care. He crossed the room with elaborate unconcern, and at the door turned for the last time.

"It will seem like the good old bachelor days come," he remarked, trying to speak jauntily, but his voice trembling. "I shall dine at the club. G-good-bye, dear!" Never a word spoke Maria. She merely nodded coldly.

His pleasure spiked. It was the first swim of the season and he boy were splashing and splashing gleefully in the water. One youth only remained on shore, watchfully watching his companions depart themselves.

"I-bow-want to go in!" sobbed the boy. "Then why don't you go?" inquired the stranger. "Cause I'm afraid," came the reply. "I'd get a whipping when I reached home, you see."

"But," pointed out his new-found friend, "aren't all those other boys taking a whipping, too?" The little boy burst into a fresh paroxysm of sobbing.

"Yes," he replied, "but—my father's a professional athlete, and wears spikes in his shoes."

POLITICAL NOTES

OUR NEXT PREMIER. Richibucto Review—A. B. Copp will be our next premier.

THE PEOPLE SEE IT. Fredericton Mail:—The people in St. John and other counties appear to be getting wise to Mr. Pinder's little railway scheme.

GOING FORWARD BACKWARDS. Moncton Transcript:—It is claimed for Mr. Fleming, that he personifies the spirit of progress which is abroad in the province. He appears, however, to make progress like a crab—backwards. Instead of looking forward, his whole attention seems to be focussed on ancient history. And he has a very jaundiced view of the events of ancient history at that.

THE AWFUL ROADS. Sackville Tribune:—The writer went to Rockport the other day and knows what he is talking about when he says that the roads are terribly rough and bad. In fact we met several Tories—there are very few in Rockport—who stated that they never had seen such roads in all their lives.

JUST A SAMPLE. Fredericton Mail:—Under the business like Fleming government A. W. Chapman, lawyer of Dorchester, was paid \$113.98 in 1910 for his services as foreman of a bridge. Under this same economical government Dr. O. E. Morhouse, physician and now a Tory candidate in York, was paid \$66.22 for inspecting the Cardigan bridge. Such great acts of statecraft ought to give the Fleming government a cinch on the labor vote of the country.

THE GAY DECEIVERS. Sackville Tribune:—The Fleming government seems to have two reports of the auditor general for the same year. One is that which appears in the published report and the other is the report issued for campaign purposes, a doctored, garbled report, which seeks to deceive the people. Verily the Fleming government will get its reward on June 20th.

VICTORY FOR MR. COPP. Fredericton Mail:—Although just seven days have elapsed since the legislature was dissolved, nomination day finds the government nominees fighting for their political lives in every constituency in the province. Mr. Copp as leader of the opposition has fully justified the confidence reposed in him by his party. He has succeeded in bringing out a splendid lot of candidates, he has laid down a broad and statesmanlike policy and on June 20th he will lead his party to victory.

THE STANDARD'S GREAT FEAT.

Moncton Transcript:—On picking up the St. John Standard this morning the average busy business man read with a sigh of relief that the provincial elections were apparently all over, and he could now return to business. According to the Standard the last ballot had been cast. All the opposition candidates were defeated, and up in Northumberland county The Standard not elected the four straight Conservatives, but also the three independent Conservatives, or seven candidates returned for only four seats. This is the kind of rubbish the chief Tory organ in the province is publishing.

HOW ABOUT THIS?

Fredericton Mail:—In a card issued to the electors four years ago the Tory candidates of York declared that the highway policy of the then government was a failure and the roads were in a worse condition than they were twenty years ago. Will any honest, independent Conservative say that the roads are any better today than they were four years ago?

REFORM IS NEEDED

Sackville Tribune:—Whether a man be Liberal or Conservative, a supporter of the Fleming government, or in opposition thereto, he feels deep in his heart that things have not been run right under the Fleming regime. He knows in his heart of hearts that reform is needed; that a change would be beneficial; that provincial nominees are not always used to the best advantage. Dr. Lewis, the Albert county candidate, struck a true note Saturday night when he said he was the standard bearer of reform. Everyone knows that there is great need of reform in the provincial government today. The opposition ticket stand for an administration that is honest, clean, businesslike and progressive.

WHY IS THIS THUS?

Moncton Transcript:—Unable to vindicate the record of the government, or justify its lack of constructive policy for the future, Tory organettes are making a wild effort to distract the attention of the people by vicious attacks upon the Liberal ministrations. Slander appears to be the chief stock in trade of the Tories. Prior to the last federal election the Tory organettes in New Brunswick counted that day lost on which they did not make some scurrilous reference to Mr. Pobjoy

THIS IS IMPORTANT

All interested in the Valley railway should read on another page of this issue an article reproduced from the Standard showing how the Fleming government condemned the Grand Falls section of the line as useless and a mere interference with the C. P. R. The government has to change its attitude, outwardly at least, in regard to this matter, but it has not yet provided for the money to build the Grand Falls section. The facts now given are of the deepest significance today, and they clearly refute recent mis-

representations of the attitude of Liberals toward the Valley line. Every resident of the river counties should study the article on this subject in today's Times.

SENATOR KING AND THE HIGHWAYS BILL

The Standard yesterday tried to assist Mr. H. W. Woods in misrepresenting Senator King's Statement at the Gagetown nomination proceedings in regard to the course of Liberal Senators in voting against the Borden government's highways bill. Mr. Woods, who faces defeat in Queens, and whose party is responsible for the present wretched conditions of the New Brunswick roads, is merely trying to escape punishment at the hands of the electors. The amendment for which Senator King and all of the other Liberal senators from the Maritime Provinces voted on March 21 last asked that the following clause be inserted in the bill:

"The sum of money voted in any years to be extended under this act shall be apportioned among and paid to, the several provinces of the Dominion in proportion to the respective populations of such provinces as shown by the next preceding census."

If the Conservatives had accepted that amendment the bill would have gone through, and there was no honest reason for not accepting it. The action of the Liberal senators merely prevented an unscrupulous government from using the appropriation to influence the vote in any one province on the eve of an election.

Electors who read the text of the amendment quoted here will see how foolish is the position occupied by Mr. Woods and the Standard.

The Best Treatment for Itching Scalps and Falling Hair

To allay itching and irritation of the scalp, prevent dry, thin and falling hair, remove cruds, scales and dandruff, and promote the growth and beauty of the hair, the following special treatment is most effective: scrubbing and shampooing. On retiring comb the hair out straight all around, then begin at the side and make a parting, gently rubbing Cuticura ointment into the parting with a bit of soft cotton wool held over the end of the finger. Avoid additional partings about half an inch apart until the whole scalp has been treated, the purpose being to get the Cuticura ointment on the scalp skin rather than on the hair. It is well to place a light covering over the hair to protect the scalp from possible chills. The next morning, shampoo with Cuticura soap and hot water. Shampoo alone may be used as often as agreeable. This special treatment for itching scalp and falling hair is sold everywhere. Write for a free sample of Cuticura soap and ointment, with \$250,000 worth of Cuticura soap and ointment, with \$250,000 worth of Cuticura soap and ointment.

MODEL OF MAN-APE BUILT UP

German Biologist Constructs It of Neanderthal Man Found in 1856

SCIENTISTS DISAGREE

This One Makes His Man With Deep-Set, Blue-Grey Eyes, and Long Ear Lobes—Could Speak and is Five Feet Three Inches High

(Times' Special Correspondence) Berlin, June 15.—Doctor Von Buttel-Reepen, a famous biologist, has constructed a model of the primitive ape-man, which shows the physical characteristics of our earliest human ancestor. The model is constructed on material supplied by the remains of the famous Neanderthal man, of whom Ernst Haeckel says: "Not Napoleon or Julius Caesar was ever so depicted about."

The Neanderthal man was discovered near Düsseldorf in 1856. The "man" was unearthed out of diluvial clay and as he consisted only of a few bones and fragments of skull, nobody has ever agreed about him. The skull and bone-remains showed no resemblance to that of present mankind. Virochow even affirmed that they were those of an old man, and were contorted by disease or by natural malformation. This was later proved wrong by the discovery, in Belgium, France, Moravia and Croatia, of remains of exactly the same extraordinary type. In Croatia were dug up ten skeletons of different ages, all with similar abnormalities.

Since then learned men have quarrelled as to what the Neanderthal man was like. Haeckel attempted to draw a picture but gave up the attempt in despair, declaring that the big gorilla in the Jena clinic was a nearer relative for him. As a rule the American reconstruction by Hyslop Meyer is accepted by European men of science. It shows a creature with high forehead, prominent eyes, a flat nose, and a receding forehead and chin.

Buttel-Reepen has built up a much more complete picture. He starts by taking into account only the bones in existence, but he also allows for the ape-man's environment, the climate, vegetation and fauna of Europe in diluvial time. The "ape-man," as Buttel-Reepen shows him, was not at all like the model of the present man, though the lowest conceivable stage of development. In some respects he agrees with Darwin's theory that the human beard is a relatively late acquisition which developed into an organ of monstrous dimensions, so that the lobe was on a level with the nose. When seen from the side these enormous ears gave the Neanderthal an extraordinary dog-like appearance.

Buttel-Reepen's theory that the human beard is a relatively late acquisition which developed into an organ of monstrous dimensions, so that the lobe was on a level with the nose. When seen from the side these enormous ears gave the Neanderthal an extraordinary dog-like appearance.

This last point is disputed by another recent ape-man reconstructor, Doctor Wolfgang of Leipzig, who says that "probably 100,000 years before he learned the use of bronze, the primitive European speech was at least on a level with that of the Australian blacks, who have mastery over several hundred words."

"It must be held that an ape-man who had considerable intelligence existed long before the use of tools, even the use of loose, unworked stones. It is conceivable that man learned to speak imperfectly before he learned to walk upright. It is a mistake to draw analogies from the existing ape family, as these do not really walk upright, and it is doubtful whether their occasional movements on their hind-legs have anything to do with the evolution of an upright carriage. It is possible that the upright carriage was itself an adaptation to the new social conditions involved by speech. Articulate mankind on all four—the talking ape of the scriptures—is therefore not a fantasy but possibly a scientific fact.

RECENT DEATHS

The Misses Rankine, King street east, yesterday received from their brother in Winnipeg, a telegram conveying news of the death of their brother-in-law, Robert M. Belyea, formerly of St. John. He passed away on Wednesday, and will be buried in Winnipeg today. Mr. Belyea numbered many St. John friends, and was Miss Gertrude Rankine's died less than a year ago.

The numerous friends of George Currie, of Clarence street, will hear with regret the sad news of his death which occurred yesterday at his home, after a brief illness. Mr. Currie was in the sixty-ninth year of his age and until recently was very active. He is survived by two sons, two daughters and one brother. The sons are, William J. and David, of this city; the daughters, Mrs. Elizabeth Miller and Miss Jane Currie, both of New York and the brother is David Currie, of New Orleans.

Yarmouth, June 14—(Special)—John D. Milen died this morning. Mr. Milen held the important position of chief engineer on the lightship Lercher. He had been in ill health for some months and had consulted the best physicians. Mr. Milen was a native of St. John and was sixty-three years of age. He leaves a widow and four children.

ST. STEPHEN MAN WRITES FROM CHINA

Letter From J. H. Crocker, Who is There Engaged in the Work of the Y.M.C.A.

An interesting glimpse into the new conditions in China is given by J. Howard Crocker, formerly of St. Stephen, N. B. in a letter to friends here, which was received this week. Mr. Crocker, who has many friends throughout New Brunswick, left St. Stephen to engage in Y. M. C. A. work and for several years was physical director of the Toronto association. During this period he attained a national reputation as an authority on athletics. Some time ago Mr. Crocker was chosen to fill an important post on the Y. M. C. A. in China and his letter, which follows, gives some idea of the new problems which the awakened China must face and the way the Chinese are meeting them:

Shanghai, April 30—1912—After a great storm at sea, a considerable time elapsed before the water is again calm. So, in China, after the great upheaval, it will take a long time to adjust matters in a kingdom of 400,000,000 of people. On every hand there are signs of unrest; China can never be what she was. A new and mighty nation is being evolved; and in every Chinese whom one meets, the symptoms are clearly seen. Native Shanghai is fighting bitterly every inch of ground; and refusing to allow the foreign powers any further concessions. The young native, who has been so calm and dignified that he apparently would not resent the insults of arrogant foreigners, will today turn with a fire in his eye that bodes ill for those who trespass upon his rights. The coolie in the "ricksha" shafts, who heretofore has taken much abuse, will now take an insolent passenger to the curb, and inform him that he will go no further.

These, and many other sights seen every day, are but "the signs of the times." China is rising to claim her own; and her mighty characteristics of patience, thrift, perseverance, endurance, community love, and family love, will count for much as foundation principles to build upon.

The work of the Y. M. C. A. is being recognized by China's new leaders. At Nanking, the government has provided a splendid building site for the association; and has also granted a large area for a model athletic field.

One of the new movements of the Scientific Lecture Department, organized by Prof. C. H. Robertson to reach the educated classes, and doing a marvellous work, is a branch called "Welfare Work," or "Preventative Medicine," whose object is to popularize Personal and Communal Hygiene, to clean up the dirt, and to prevent disease. The organization of the physical work—both for men and women—will be a great factor in carrying out the departmental schemes. The splendid part of all this departmental work, is the constant note of Evangelism ringing through the message.

We are hopeful of starting a boys' building this year; also a separate building for the national committee offices; and another for the foreign or English-speaking young men. This, added to our present work, will keep us all very busy. A. H. Swan, of Chicago, Training School, comes next September to take charge of the Shanghai work; and we hope that the Shanghai work will be a great success. This will leave me free to re-organize the work for Anglo-Saxons which I disbanded last year. Just now, the Y. M. C. A. is conducting ten gymnasium classes a week, getting the athletic field in shape for the summer. The Chinese public school, and two private Chinese schools, planning recreation for the summer, and lectures, lecturing, entertaining and studying.

The unrest of the nation has continued so long, that we have given up the idea of sending a team to Sweden to represent China; but hope to send a few representative men to catch the inspiration of the Fourth Olympiad.

Every day the opportunity to serve our Master, and to help extend His Kingdom grows on us as we get better acquainted with the people individually. I do not believe that it will be given to us to serve in China many years. The work, as it grows, must more and more, be carried on by the young Chinese. China, who has the traditions and characteristics—the result of centuries of training. His mind grows situations that we foreigners will never understand.

We need your prayers that we may have grace and strength to project ourselves in to every avenue of need.

J. H. C.

THE MASHER MUST GO, SAY MONTREAL POLICE

Effective Dealing There With Nuisance From Which St. John is Not Free

June 6—Twenty-eight arrested; two were under fourteen years of age liberated; ten under twenty years fined \$5 and costs or one month in jail, and sixteen other men fined \$10 and costs or two months.

June 7—Two arrested; \$10 or two months.

June 8—Four arrested; \$10 or two months.

June 10—Two arrested; \$10 or two months.

June 11—Three arrested; \$10 or three months.

June 12—Two arrested; \$10 or three months.

During the last week more than forty men any boys have been arrested for mashing women in the public parks and the street in Montreal. This type of public nuisance appears to be growing bolder and more numerous in their attention. Things have reached a stage where the womanhood of the city cannot venture upon the streets without being followed and insulted by the detestable masher.

Chief Campeau has been cognizant of these conditions for some time, and is determined to end such occurrences. With the arrest of twenty-eight men and boys in Lafontaine Park last Thursday, for annoying women, he started a campaign against the masher which he will continue until Montreal's streets become more orderly. Lafontaine Park is a favorite loitering place for the masher on account of its size. Other arrests are being made daily in different parts of the city. Chief Campeau said that the police will keep up their work all summer in cleaning the parks and streets of these pests.

Nearly every person has noticed these shamelessly-dressed men and youths who stand at street corners ogling passersby. The police receive complaints every day from women who have been insulted by these "aperts." They leer at young girls and in some instances have had the audacity to follow them to their homes. Their actions have frightened timid women from the parks and public thoroughfares.

LOTTIE GILSON IS DEAD

Lottie Gilson, one of the most prominent of oldtime variety actors, died in New York this week. For many years she was one of the greatest favorites that New York ever knew. She was a star from the start. She appeared at nearly all of the larger theatres in New York and travelled extensively. She was known in the musical circles as the "Little Magnet" and was one of the biggest cards that was offered for a number of years. She was a clever singer, a pretty dancer and was always popular. It was she who added much in making the Tony Pastor Theatre in New York famous.

MONTREAL WAS IN, TOO.
Montreal Gazette:—The management of a theatre in St. John, N. B., has requested its patrons to remain seated until the curtain falls and the band begins to play "God Save the King". It is an old fault of Canadian audiences that is being complained of. What ails the theatre-goers? It cannot be a desire to get to the bars before they close, for the fault was noticed when the closing hour was midnight—and later. And the men are not the only offenders.

HONORS FOR NOVA SCOTIA

At the commencement exercise of the Episcopal Theological School of Cambridge, Mass, this week, John Moran-Cochran Wilson of Spring Hill Mines, N. S., a graduate was awarded a degree with the distinction of cum laude. He won the William Otis Smith prize of \$100, given annually by the Rev. Roland C. Smith in memory of his son. It is for excellence in preaching.

REAL ESTATE ACTIVITY

Company Has Men at Work on New Subdivision Near Courtenay Bay.

Every day brings fresh developments in real estate activity in the Courtenay Bay district. The Eastern Canada Real Estate Company, of which James E. Magee is sales manager, have men at work on Fairmount, the new subdivision, lying between Tisdale Place and Courtenay Bay Heights, which will soon be placed on the market. The lots have been staked off, the leveling of the front section all but completed and the breaking of streets will be started, it is expected, some time next week. Important announcements concerning Fairmount will be forthcoming within the next few days.

LIBERALS, ATTENTION!

Hon. J. D. Hazen, minister of marine and fisheries, went to Charlotte County, at the request of Hon. Messrs Grimmer and Clark, and made a speech there in the course of which he gave notice that the Dominion government had suspended the operation of the objectionable clause in the weirmen's license by which fishermen were compelled to give Canadian canneries the preference in selling their fish.

The open intervention of the minister of marine and fisheries shows as plainly as anything possibly could that this campaign is being run on party lines. The attempt to fool Liberals by asserting that there are no party lines in this election must be dropped after Mr. Hazen's appearance in the arena.

KAISER THE REAL FOREIGN SECRETARY

Masterful William Gives His Orders and That is All

WHAT OF THE CHANCELLOR?

As Matter of Fact he is Not an Assistant Minister — Notes of German Life in News Letter for Readers of The Times

(Times Special Correspondence) Berlin, June 17.—People who do not know Berlin, and who refer to Wilhelmstrasse when speaking of the German ministry for foreign affairs generally imagine that the ministry is a magnificent, modern, ten-story high building, where an almighty secretary of state controls and directs German policy. This is a mistake.

sometimes the representative of the Kaiser's Zeitung, and sometimes one foreign correspondent. This was stated about fifteen years ago, and is still the rule. In the meanwhile, Doctor Hamman has found it necessary to extend the business of his bureau, and has now two secretaries, Doctor Hamman and Doctor Betschmann. Both Doctor Hamman and Doctor Betschmann are themselves being criticised for their attitude and language is extremely careful. Their manner is perfect, and they refuse information with the most charming courtesy.

When a correspondent, with due credentials (for nobody is received at the foreign press bureau without credentials), arrives in the office of one of these gentlemen, he is met with: "Please ask me questions. And generally the reply is: "You can deny this, as I, and probably the government, know nothing about this. Pending my inquiries, just content yourself with a denial!"

HOW FLEMMING TRIED TO DODGE BUILDING VALLEY ROAD TO GRAND FALLS

Proof of His Subserviency to the C. P. R. Published in His Own Organ

The Standard, in an Evidently Inspired Article, Declared the Absurdity of Extending Line to Grand Falls, Which Was Already Served by the C. P. R.—Proof Conclusive That Provincial Government Was Forced to Adopt Dr. Pugsley's Plan.

Proof that the Flemming government intended to build the Valley railway only to a point on the American boundary, and not to Grand Falls, is given here, together with proof that the Flemming government has adopted Hon. Mr. Pugsley's plan which it formerly belittled. But nowhere yet is there proof that the Grand Falls section will be built. The bond issue provides only for the road as the government originally planned it—to a point on the American line. Here is the proof:

The St. John Standard during the early part of June, 1911, published a map showing the proposed route of the St. John Valley railway from St. John to the international boundary in the parish of Andover, and thence across the State of Maine to Quebec bridge. In explanation of the map the Standard said: "The accompanying map of the proposed St. John Valley railway, with extensions across the State of Maine to the Province of Quebec, will give readers of the Standard a means of clearly understanding the advantages of such a railway to the people of the St. John Valley and to the city of St. John, its Atlantic terminus. A contract between the provincial government and the Quebec & St. John Railway Company for the construction of a road through this province is ready for signature, providing the dominion government will give assurances that the usual federal subsidy of \$6,400 per mile will be granted. The work of building the road down the valley of the St. John and across the State of Maine will be started as soon as these assurances are forthcoming."

So far Hon. William Pugsley has declined to recommend a subsidy on the ground that the dominion government passed legislation favoring the operation of the Valley Railway after construction to Grand Falls as a part of the Intercolonial system. The advantages which the St. John & Quebec Railway will give to the valley counties and to the city of St. John over the plan proposed by Mr. Pugsley, or any other route, are self-evident from a glance at the map. The route which the LOCAL GOVERNMENT PROPOSES is therefore more than 100 miles shorter than the route which Mr. Pugsley advocates. IT IS ALSO TO BE NOTED THAT THE ROAD IF EXTENDED TO GRAND FALLS WOULD RUN THROUGH A NARROW STRIP OF TERRITORY BETWEEN THE RIVER AND THE INTERNATIONAL BOUNDARY ALREADY SERVED BY THE C. P. R., AND EXCEPT AS A CONNECTING LINK WITH THE TRANSCONTINENTAL WOULD BE VALUELESS.

"Under Part 3 of the act, which EMBODIES CONDITIONS LAID DOWN BY MR. PUGSLEY AND STIPULATES FOR A LINE TO GRAND FALLS, CONNECTING WITH THE TRANSCONTINENTAL AND OPERATED BY THE I. C. R. "Under Part 3 of the act the provincial government had the option of entering into an agreement with a company prepared to give necessary guarantee for the construction of the railway. To fulfill their pledge to the people and avoid delay, as soon as the survey was completed the Hazen government entered into negotiations with A. R. Gould, president of the Quebec & St. John Company. Satisfactory financial arrangements for the construction of the road have been submitted by the company, plans and specifications have been prepared, and a contract for the construction of the railway has been drawn up and approved by both parties.

"THE CONTRACT CALLS FOR THE COMPLETION OF THE ROAD FROM THE INTERNATIONAL BOUNDARY TO WOODSTOCK BY JULY 1, 1912, to Fredericton by July 1, 1913, and to St. John by July 1, 1914. The road will be operated by steam power. "A WORD FROM MR. PUGSLEY THAT THE SUBSIDY ACT REQUIRING THE ROAD TO BE BUILT FROM GRAND FALLS TO ST. JOHN WILL BE ALTERED TO PERMIT OF CONSTRUCTION FROM A POINT ON THE INTERNATIONAL BOUNDARY IN THE PARISH OF ANDOVER, and the contract will be signed and the work awarded without further delay. So far Mr. Pugsley has contented himself with raising groundless objections to the local government's proposals, and has offered no practical counter proposition. "It is time for the people of the St. John Valley to take this question out of politics and insist on the federal government granting the subsidy which cannot in fairness be withheld, and which will enable the road they have so long waited for to be built."

A WARNING

If the provisions of the Election Act are enforced, not only can the government be defeated, but Liberals everywhere be on their guard and ready to secure evidence necessary to convict anyone who attempts by bribery to defeat the will of an aroused electorate. "Advice from various points in the province indicates that the government forces are making the most shameless use of money and political intimidation in their efforts to prevent the fall of the Flemming administration. Liberal committees in every parish and ward should be on their guard against the corruptionists, and should take measures to see that the provisions of the election law are strictly observed. The law against bribery and corruption was recently strengthened materially through the intervention of the Reform League of Westmoreland, and very severe penalties are provided not only for the man who gives or accepts a bribe, but for anyone who, having knowledge of such a transaction refuses to give the necessary evidence concerning it. There are many grave issues at stake in this contest, too grave to permit any thoughtless elector to be influenced by bribery, direct or implied.

FIFTY YEARS ON THE ROAD

Reminiscences of Mr. Robt. Turner, Who Holds Canadian Record as the Oldest Commercial Traveller.

Few men are so generally known throughout Canada as Mr. Robert Turner, who at eighty-two years of age is living retired at 113 Bleecker Street, Toronto. Mr. Turner's sturdy face and genial ways have made him a great favorite, and everywhere he is welcomed as a veteran of the grip. He knew and believed in him, and he had cured the most of them. He refused his advice and remedies to none that consulted him, and many a poor fellow could only pay him by Bleecker Street, Toronto. Mr. Turner's sturdy face and genial ways have made him a great favorite, and everywhere he is welcomed as a veteran of the grip. I drove up to a hotel to find my trunk and his wife, and inquired of the little 8 or 9 year old son where they were. "What's the matter?" "Oh, mother has kidney trouble." "And do you think Dr. Chase can cure her?" "He's bound to cure her or bust in trying," said the boy. Another instance. A man told me his father was being treated for bladder trouble by Dr. Chase, and if he could not cure him nobody else could. I knew of dozens of such cases that he cured. Why Dr. Chase's name was a household word, and hundreds regretted when his business got so large that he had to discontinue his trips. When he issued his first Receipt Book I bought one, and so did nearly everybody else that knew the kind old Dr. Chase, and that Receipt Book was consulted and acted on a great deal other than the family Bible. I could mention many other instances of his wonderful cures, but think the above will convince anyone that Dr. Chase was a great successful medical doctor in his day, and that he was known then by thousands of people. The writer is personally known by thousands of people of the present day from Fort William to Montreal and from Niagara Falls to Cochrane. I have retired from business, now and am the old commercial traveller in the Dominion, having been on the road from May, 1860, to June, 1910, fifty years, and the original manufacturer of "Turner's Tonic Bitters."

Yours truly, Robert Turner. From the many who knew Dr. Chase personally there comes the same report. He was undoubtedly in love with his profession and ready and anxious to relieve all who came to him for help. Kindly in manner and upright in character, Dr. Chase made friends wherever he went, and by his wonderful success as a physician his kind face and long flowing beard! Why almost everybody

POWDER SHIPPED AS SPAGHETTI TO GET BY THE CUSTOMS

Ruse of Turks to Secure Ammunition Was for a Time Successful.

Rome, June 15.—Pierie powder moulded to resemble spaghetti so as to deceive the French customs authorities, who have been instructed to prevent the movement of contraband arms and ammunition on the Tripoli-Tunis frontier, is the latest ruse whereby the Turkish command has succeeded in introducing into Tunis and thence to the Turkish camps in Tripoli and Cyrenaica the raw material for bombs and cartridges.

Powder manufactured into spaghetti, is considered here the limit of human ingenuity. When the discovery was first announced it was not believed, and it was only when the first specimen of spaghetti reached Rome that the general staff got busy and the Italian foreign office hastened to notify the French authorities of its use to which the new spaghetti was destined.

The discovery was purely accidental. The correspondent of the Republican paper *Ragione* was watching the French authorities examining large consignments of macaroni when it occurred to him that it was a little strange that such a world-famous Italian staple should reach the French-African coast via Hamburg. He bought a pound of the spaghetti awaiting delivery and the secret was out.

WHOLESALE CHEATING OF RAILWAYS IS FOUND

Vienna, June 15.—The authorities have made a surprise inspection of the passenger trains running into Lemberg, and arrested no fewer than seventy-six passengers who were traveling either without tickets or with tickets which had already been used. A dozen railway guards were also arrested and will be charged with conspiring with the passengers to defraud the state railways.

The guards declare that they are unable to carry out the regulations about inspecting tickets in the corridor carriages while the trains are under way, as the passengers threaten them with revolvers and knives and then jump out of the train on to the line when it slows down before reaching Lemberg, so that they may not be stopped at the station exit.

TOOK SOME BELIEVING

Gifford Pinchoff, at his brother's home in Park avenue, New York, listened quizzically to a political story that was being submitted to him for verification by a political reporter.

When the reporter finished his narrative, Mr. Pinchoff laughed and said: "I will reply to that as the old Italian peasant replied to the statement that his fellow-countryman loved birds too well to ever eat them.

"Well, I don't mind believing that myself," the old man said, "but there's a good many who wouldn't."

How a Wealthy Baronet's Mother Is Seeking a Wife For Her Son—Earl Grey's Trip to South Africa—Canadians in Europe

(Times' Special Correspondence)

London, June 5.—No one need think for one moment that Mrs. George Keppel means to take a back seat in society now she has returned to it. That is not her "little way" at all, and anyhow, she would soon be brought into the front row by her friends, for to present no one can approach her in brilliance, wit or conversation. Also she has made up her mind that her daughter Violet shall make a good match, and there is no one who "knows the ropes," as well as she does.

Her clever friends and every really clever man and woman in society is her friend—have persuaded her to start a salon. She has given an informal invitation to all these clever folk to drop in on Sundays after lunch for coffee, cigarettes and conversation. Any amount of strategy is being employed by some people to manoeuvre an invitation out of Mrs. Keppel for these "Three Cs," as they are called, for to be included in the party stamps you once as a bright talker and a brainy person in general, but the test is severe, and many there are who fail to pass it.

Merch chatters, gossip and bores are rigidly excluded; it is conversation "all in capitals," as someone remarked the other day that the guests who hear and are expected to contribute.

Lady Naylor-Leyland is a big fish, which she will give at the end of this month at Hyde Park House, is already going to the name of a "party of entertainment."

The fact is, Lady Naylor-Leyland is excessively anxious to get her young son married, and she is doing her best to get round the numerous matrimonial pitfalls that lie around the path of London's young bloods.

She has been an exceedingly devoted mother, and does not want all her care and trouble to be rewarded by a present of a daughter-in-law from the back row of the chorus or anything of the kind.

Sir Edward Naylor-Leyland is so very good-looking and so frightfully rich, wider for his than for others.

Accordingly, all the prettiest, most suitable "buds" will be paraded before his eyes on this eventful night, and Lady Naylor-Leyland is devoutly hoping and rooting for that his young fancy may be caught, and she can take a well earned rest.

A new and hospitably inclined Lady Naylor-Leyland would be a tremendous acquisition to London society. too. Hyde Park House, that magnificent palace looking out over the park, is an ideal spot for entertaining, and she is doing her best to see the death of the last baronet.

BLACK DAYS FOR THEATRE IN LONDON

Death in High Places or Labor Trouble Always to Affect Receipts

AUTUMN ARRANGEMENTS

A Chat About Plays and Theatrical People in the Spot Light in England—Hammerstein at Last Owns Up He is Beaten

(Times' Special Correspondence)

London, June 5.—For many years the Princess Theatre has stood in Oxford Street, a desolate, disreputable, moth-eaten building. Nevertheless, it can boast a career of considerable brilliancy. As a theatre it dates back to 1840, although the theatre it occupies now, built in 1880, was the first used for promenade concerts and subsequently appeared there in Charlotte Chisham's hands. In 1885, "Falio," and immediately after her first appearance, wrote to her mother "All my successes put together since I have been upon the stage would not come near my success in London."

Charles Kean had, at the Princess, his series of Shakespearean seasons when he established and attracted the town by the magnificence of his productions. Wilson Barrett made a fortune there with melodrama and later contrived to lose a good portion of it by yielding to his insatiable desire to play Hamlet. Some six or seven years ago, however, it was bought by F. B. Keith who intended converting it into a "variety house," but the London County Council refused to sanction its opening until the building was entirely reconstructed and thoroughly overhauled. To accomplish this would have entailed an expenditure of a much larger sum than Keith could ever hope to get back during his lifetime, so he was obliged to sell the theatre to the building syndicate and gradually go back to hand Henry Kissam's power play "La Flamme," his opening production at the York Hotel, situated a stone's throw distant, and that operations will at once begin for its conversion into a big modern hotel.

Set Back for Box Office

Business at the theatre has again received a decisive setback, owing to the unusually sultry weather and the recrudescence of strike difficulties. As G. B. McElean said to me the other day, "There never was such a calamity-ridden country as this, theatrically speaking. How managers contrive to avoid the bankruptcy court will always be a mystery to me. If it is not the death of a princeling, it is another labor upheaval that keeps people at home and prevents them from going to any place of entertainment."

McElean's sarcasm on the subject is easily understood, for he happens to have a share with Lee Shubert in "The Five Frankforters" at the Lyric, and the attendance there is anything but satisfactory.

From nearly every quarter comes a similar story; Tre's Shakespearean Festival, for instance, is not showing particularly brilliant results and I could name quite a number of West End theatres in similar cases. Tre, by the way, has been obliged to postpone production of "The Perfect Gentleman," Somerset Maugham's adaptation of "Oliver Twist" with Constance Collier, who will arrive just in time, as Nancy. Obviously if the piece catches on Tre will continue its run until the close of the season.

George Alexander has decided to make a word or two respecting the plot may not be amiss. The heroine is a French lady who has drifted apart from her husband, a rather stern and self-centred official. She gets into the hands of a friend of his, but on the night she has promised to admit him to her room a catastrophe happens. Her husband has borrowed money from a spy who offers to cancel the debt if he will hand over to him the plans of an outlying fortress. The husband, in an access of fury, kills the spy and then the latter up in his chair, puts a pen into his rigid fingers, and when next morning he is discovered by the servants, it is assumed that his death was the result of it.

Strong this, you will acknowledge, and of a kind to offer Alexander and Ethel Irving splendid acting opportunities. The latter up in his chair, puts a pen into his rigid fingers, and when next morning he is discovered by the servants, it is assumed that his death was the result of it.

Mr. J. W. PATRICK, Toronto, has never had a day's illness and is one of the best of his class. He has given the title of "Doorsman" figures first in the programme. I gather that it is not a particularly strenuous piece of work. Davies has never yet shown that he possesses much of the true dramatic gift. His composition, but the piece, Du Maurier assures me, is written in his lightest and happiest vein. There is, it appears, a touch of sympathy in the title intended to imply that the best of women will occasionally wipe their feet upon the

That Corn Will Go for Good

It will be ended forever in 48 hours, if you use a Blue-jay plaster.

The pain ends instantly when you apply it. Then the B & P wax gently loosens the corn. In two days it comes out, root and all.

No soreness, no discomfort. Nothing else known does what Blue-jay does. That's why millions use it. You will never let corns disturb you when you find this one.

Not will you ever pare them. Paring takes off just the top of the corn. And a slip of the blade means infection—sometimes a dangerous one.

The right way—the easy way—is to enclose them completely with this famous Blue-jay plaster. Prove it today.

Palpitation of the Heart

Nervous Prostration, Sleeplessness and Dizzy Spells.

A Long Standing Case Cured By MILBURN'S HEART AND NERVE PILLS.

Many people are kept in a state of morbid fear of death, become weak, worn, and miserable, their nerves becoming unstrung, and they cannot sleep.

To all such sufferers Milburn's Heart and Nerve Pills will give prompt and permanent relief. Mr. Frier Haidstad, Tilly, Ala., writes:—"I take great pleasure in writing you a few lines to tell you what your Heart and Nerve Pills have done for me. I had a long standing case of palpitation of the heart, nervous prostration, sleeplessness and dizzy spells. I bought a box of Milburn's Heart and Nerve Pills, and they did me so much good I continued their use until I had had several boxes, and they restored me to health again. They are a great remedy, and I recommend them to all my friends."

Price 50 cents per box, or 3 boxes for \$1.50, at all druggists, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

SPORT NEWS OF A DAY; HOME AND ABROAD

Baseball
Houlton Won.
The game between the Marathons and Houlton on the Marathons grounds yesterday afternoon was won by the victors who scored four runs to the locals' three. The game was interesting throughout although a chilling wind blew and made the spectators rather unpleasant. Duffy pitched very good ball for the locals and divided honors with Anderson, the opposing pitcher, fairly evenly. Each had six strikeouts and allowed ten hits. Nease, Winter, Pinkerton, Riley and Duffy each had a two bagger. There were about 70 people present. Seybold was umpire.
Woodstock Won.
In Woodstock yesterday the local team defeated Fredericton 2 to 1. Bates and Fredericton and Stinson for Woodstock were the opposing pitchers and it was a great battle. Both teams showed fine form.
Society League.
The Inter-Society league game in St. Peter's grounds last night was a tie. The St. Peter's team, led by the local pitcher, defeated the Fredericton team by a score of three runs to two. The Fredericton team was led by the former while McNulty and Harrington performed for the St. Peter's. Harry Dever was umpire.
West End Juniors.
In a fast and exciting game in Queen Square, Caverton, last evening, the Rovers defeated the Blue-Rock Stars by a score of two to one. The Rovers were led by the winners, Hallie and Mooney; losers, McKenna, Laracy and Coughlan. The Stars will play a team at Ketepec this afternoon. Young will be on the mound for the Ketepec team, and Coughlan for the Stars.
National League.
At New York, Pittsburg, 6; New York, 1.
At Boston—Cincinnati, 7; Boston, 3.

At Brooklyn—St. Louis, 2; Brooklyn, 11.
At Philadelphia—Chicago, 7; Philadelphia, 5.
American League.
At St. Louis—New York, 7; St. Louis, 6.
At Detroit—Philadelphia, 3; Detroit, 4.
At Cleveland—Washington, 13; Cleveland, 8.
International League.
At Toronto—Rochester, 4; Toronto, 1.
At Newark—Providence, 0; Newark, 2.
At Montreal—Buffalo, 0; Montreal, 6.
At Jersey City—Baltimore, 10; Jersey City, 2.
Marathons Strengthened for This Afternoon.
The game of baseball this afternoon between the Marathons and Houlton is to start at 3 o'clock, and it is expected that the largest crowd of the season will attend. Al Sweet will be on the mound for the Greeks and Williams, who played third last season, will be on the difficult corner.
The lineup for this afternoon's contest is as follows: Williams, third; Winter, center; Ganzel, first; Fryer, short; Pinkerton, second; Connolly, right; Riley, left; McGovery, catcher; Sweet, pitcher. Messrs. Duffy and Seybold will handle the game. Houlton will have its strongest lineup.
Diamond Sparkles.
Heinie Zimmerman is the real slugger of all the leagues. He is pounding 400, which gives him an edge on Tris Speaker, Larry Lajoie, "Ty" Cobb, Mike Donlin, Chief Meyers, Jack Daubert and all the other sluggers.
The Washington Senators are riding roughshod through the west up to today. They have won four straight from St. Louis, the tall and lanky, which was not surprising; four straight from the Chicago White Sox, the league leaders, which was surprising; and three from Detroit, which as if Clark Griffith had a real team, and one which will be a dangerous factor.

HOW THE ACTORS AND SCRIBES PLAY THE GAME
Did somebody say baseball? Sesh! Speak not lest ye be judged too rashly. It was supposed to have been baseball. There's quite a difference between supposition and fact, but the way those actor folks of the Gay Musician Company attempted to perform on the Marathons diamond last night was a burlesque on even a pretense of playing the game. It is doubtful if some of those Theopians ever saw the interior of a baseball grounds before last night when the newspaper writers from the local luminaries played tag with them between bases. "Jollied" them into thinking they were playing, and to encourage them to try again let them have some runs, rather than treat them inhumanly as strangers.
But for anyone to give the correct score would be madness, for a Burroughs adding machine should have been placed in position before the battle commenced, if an attempt were to have been made at keeping tally. Whatever the figures were it was twice read a newspaper account of the time that some of the youthful hopefuls busy in marionetting about those canvas sacks would have relegated even Elbridge Eatman to the cabbage spritzer.
But that fellow Short is some sponger! That's the chap who mystified the scribes and the spectators and his fellow artists as well with his peculiarity of play, his mastery of the game as performed in the shape of Noah, but it was said by someone that it was quite possible that he had once or twice read a newspaper account of a modern day field battle, and that might count for his participating in a present time match.
But his style was wonderful. His plays were brilliant, and with a little training in order to familiarize him with the shape of a baseball diamond and a few more things necessary, he might possibly be capable of taking an outfield position in the Apohaqui rhabarbar league. His home run on three strikes after dodging between base and home plate in an effort to elude being tagged, and then fleeing across

Wrestling
Goth Defeats America.
Baltimore, Md., June 15—Frank Gotch, Iowa, champion heavyweight wrestler, defeated Gus Schoenlein, (American), of Baltimore, champion lightweight, in two straight falls, at Oriskany park, last night. Gotch's famous toe hold won him both falls, the first in sixty-two minutes and ten seconds, and the second in thirty-four seconds.
America displayed much cleverness, and wriggled out of several tight places, but it was soon apparent that Gotch's superior weight and strength would gain him the victory, barring an accident.

The Ring
Not Jeffries.
Los Angeles, Cal., June 15—Jack Welch of San Francisco, was selected today to referee the Wolgast-Rivers lightweight championship fight at Vernon on July 4. It was generally believed James J. Jeffries would be selected. Late yesterday he notified Manager McGarry of the club, that he could not act.
Johnson Takes Bet.
Las Vegas, N. M., June 15—Jack Johnson yesterday announced that he would take the bet offered by Jasper (Wyoming) and Colorado men, that "Jim" Flynn would win the bout with him here on July 27. Johnson announced that he would put a certified check for \$10,000 against \$5,000 offered by the Flynn backers.

MORNING NEWS OVER THE WIRES
Mrs. Cecile Leblanc, aged sixty, of Guimond Settlement, Kent County, committed suicide yesterday by cutting her throat with a razor. Melancholia was the cause assigned.
A freight and passenger train collided yesterday near Pigeon Lake, Saskatchewan, and six members of the crews were killed, while a dozen or more passengers were injured.
Four trappers were killed yesterday near Nipigon, Ont., in a head on collision of two freight trains.
Elizabeth, N. J., June 14—Three men met terrible death high in the air today on a high-tension wire of the public service corporation and for more than an hour their smoking bodies remained awfully above the street until removed by firemen.

MORNING LOCALS
Michael Moran was fined \$20 or thirty days in jail yesterday afternoon, in the police court, on a charge of allowing a drunken man on the premises in British street. George Wadman, charged with conducting himself improperly on the west side on Saturday last was further remanded.
Mrs. Hughes, of Carleton, an elderly woman, was painfully hurt last evening when she stepped from the pavement in Princess street near the corner of Charlotte street. She slipped and fell, but fortunately broke no bones.

VESTA VICTORIA WEDS
New York, June 15—Vesta Victoria, a popular English singer, is learned, is again a bride, and is on her way to Bermuda with her husband, Herbert Terry, son of the late Edward Terry. He came to this country some weeks ago and the singer and went to the Hotel Victoria.
Miss Victoria, under her own name, Kate Lawrence, came here about the Caronia on May 18.
She refused to say why she had come to this country, other than that it was on private business, and kept her address here a secret from the vaudeville managers she knows. The marriage was kept a secret.

London May Have Taxi Strike
London, June 15—A taxicab strike is threatened here for today. The drivers are angry at the employers, who, they say, charge exorbitant prices for cabs.
The men complain, too, that the employers take advantage of the award of the board of trade at the last strike to charge the men 22s. 6d. a year for uniforms.

OFFER TO MEN!
Take This Belt for What It is Worth. Wear It Until You Are Cured—Then Pay Me My Price
I believe in a fair deal. If you have a good thing and know it yourself, give others a chance to enjoy it in a way that they can afford. I've got a good thing. I'm proving that every day. I want every weak, puny man, every man with a pain or an ache to get the benefit of my invention.
Some men have doctored a good deal—some have used other ways of applying electricity—without getting cured, and they are chary about paying money now until they know what they are paying for.
If you are that kind of a man, this Belt is yours without a cent of cost to you until you are ready to say to me: "Doctor, you have cured me, tell me your price, and here it is."
That's trusting you a good deal, and it is showing a good deal of confidence in my Belt. But I know that most men are honest, especially when they have been cured of a serious ailment, and very few will impose on me.
As to what my Belt will do, I know that it will cure whenever there is a possible chance, and there is a good chance in nine cases out of ten.
So you can afford to let me try anyway, and I'll take the chance. If you are not sick, don't trifle with me; but if you are, you owe it to yourself and to me, when I make an offer like this, to give me a fair trial.
MR. RICHARD THOMPSON,
U'ington, Ont., says: "Dear Sir—
I am pleased to tell you that after wearing your Belt for two months and a half, it has cured me of Chronic Rheumatism in the ankle, of five years' standing. Rest assured I will not fail to recommend it to any person suffering as I did. It has been a godsend to me."
MR. THOS. JOHNSTON,
No. 233, Deseronto, Ont., says: "It is some five or six years since I got your Belt. I am well satisfied with it. It cured me, and I have not been bothered since, and have not used it since then."
The reason so many men neglect to use my Belt is that they fear it will fall like other things they have tried. Now, the security that I offer to the doubtful man is that he need not pay for my Belt until it does for him what I say it will do. If he will in turn give me reasonable security that he will pay me when cured. Put aside these testimonials. Don't make any difference whether you know that Dr. McLaughlin's Belt cured them or not. Give me reasonable security. I will arrange the Belt and send it to you and you can

According to Wolgast he practically has closed negotiations for not less than six matches, and every one of his prospective opponents is as hardly a lightweight as may be found in a week's search. Here is a ring programme that is mapped out for the champion:
July 4—Ad. Wolgast vs. Joe Rivers, 20 rounds, at Vernon, Cal.
July 15—Ad. Wolgast vs. Jack Britton, ten rounds, at New York city.
July 27—Ad. Wolgast vs. Willie Ritchie, 20 rounds, at Vernon, Cal.
Aug. 17—Ad. Wolgast vs. Harlem Tommy Murphy, 20 rounds, at Vernon, Cal.
Sept. 2—Ad. Wolgast vs. Joe Rivers, 20 rounds, at Vernon, Cal.
Sept. 27—Ad. Wolgast vs. Ray Temple, 10 rounds, at San Francisco, Cal.
Quite a formidable array, eh? Any one of these boys is likely to put a crusher on the champion, but Wolgast expects to get paid proportionately. For instance, if he is to be given \$15,000, cash in hand, and before he steps in the ring, Wolgast is to have 50 per cent of the gross. In the Murphy and Ritchie fights the guarantee will be slightly lower but the percentage privilege will be 60 per cent. A conservative estimate of the financial returns to the champion for the five battles, outside the picture revenues, places the figure at \$70,000. That's a fair profit for two months' work.
Wolgast says that he is satisfied now that the operation for appendicitis has not impaired his physical strength, and that with a little more boxing to regain his weight, and in on her way to Bermuda with her husband, Herbert Terry, son of the late Edward Terry. He came to this country some weeks ago and the singer and went to the Hotel Victoria.
Miss Victoria, under her own name, Kate Lawrence, came here about the Caronia on May 18.
She refused to say why she had come to this country, other than that it was on private business, and kept her address here a secret from the vaudeville managers she knows. The marriage was kept a secret.

the diamond with the catcher and first baseman following him like madmen, was one of the most hair-raising features of the heart-rending performance, and when he landed on first after escaping the poise at his very heels, people again drew their breaths naturally and restfully, for the awful moment of suspense was over—the umpire called him safe.
This is an illustration of the type of game and it is any wonder that the four or five hundred fans, suffragettes, boys and girls and other people who attended were reluctant to leave the grandstand and bleachers when all was finished. It was disconcerting when one of the newspaper men tried to impress upon a spectator that the game had ended, for he did not seem to know, to hear him ask in an incredulous tone "Game, did you say—where have I heard that word before?"
The actors should have won if they'd had any idea of how to play ball, which they didn't. One of the reasons why they should have won is because they had the base umpire on their side, (base in this case is to be interpreted only as referring to the cushion and not as a qualifying adjective concerning the "ump").
For instance, when one of the Theopians became wounded and found it hard to leave first, "umpy" took his place, sprinted about the bases in fine style, and after crossing home plate proudly strutted about to his position at first and resumed his duties as referee. If any of the big league scouts are in the vicinity and are anxious to sign him, it may be spread that his name is Clifford, but as "o's" Henglish, ye know, cricket is more in his line, Dutch Ervine did well behind the pitcher's box as the umpire-in-chief. Following is the list of unfortunate who presented themselves for the fray last evening:
Scribes. Actors.
Ramsay... Catcher... Newman
Hanson... First Base... Kavanagh
Cribbs... Short (by name, not nature)
Haggerty... Second Base... DeLay
Corr... Third Base... McLean
Connor... Short Stop... Torrey
March... Left... McCafferty
Dever... Right... Rupert
During the process of the game two of the women of the visiting company passed the hat amongst the crowd and collected something more than \$18 for the benefit of the local orphanage. The players were thankful to the Marathon management for the use of the grounds, which in spite of the abuse they received, are still there.

Proceedings of Baptist Seventh District Meeting

REV. DR. GATES THERE

Was Speaker Last Evening and Expressed Pleasure at Progress of St. John — The Proceedings Today

The seventh annual meeting of the Seventh District of the United Baptist church was opened yesterday afternoon in Ludlow street Baptist church, W. E. The afternoon session was devoted chiefly to the work of organization, etc., and in the evening a large missionary meeting was held. The convention is well attended, delegates being present from all parts of the western end of St. John county, Charlotte county and the islands. Rev. W. R. Robinson is chairman of the district and D. C. Clark, clerk and treasurer.

Some changes have been made in the programme as published in The Times yesterday. Rev. Dr. G. O. Gates, who was unable to speak on Sunday afternoon, will be able to remain until tomorrow and so give his address last evening. Rev. Doctor DeWolfe, who was to have spoken this evening, will take Doctor Gates' place on the programme tomorrow afternoon and his place this evening will be filled by Rev. Mr. Robinson who will give an address on temperance.

After the opening exercises yesterday afternoon, Rev. H. E. Boyer was appointed convener of the nominating committee. Courtesy to visitors were extended and communications were disposed of. The reading of church letters giving a report of the life and work of each congregation formed an interesting and encouraging feature of the meeting. Throughout the evening the church appears to be in a healthy condition and is making steady progress. During the last year 193 members were added to the church in this district.

The evening session was devoted to foreign missions and was conducted by the ladies of the U. B. W. M. S. The president, Mrs. C. E. Boyles, occupied the chair. The programme was as follows: Bible reading, Mrs. M. E. Colwell; prayer, Rev. Doctor Goucher and Rev. Doctor DeWolfe; address on foreign missions by Rev. B. H. Nobles; solo, Robert Mawhinney; address on mission work in India, by Miss Clark; a returned missionary; selection by the choir; address on the Grand Etienne Mission, Quebec, by Rev. Doctor G. O. Gates.

Doctor Gates, who was formerly pastor of German street Baptist church, has many friends in the city and was warmly received yesterday. In the course of his address he expressed his pleasure in being back again in what he regarded as his home city and commented on the progress which has been made here in recent years.

At the close of the meeting delegates were entertained by the ladies of Ludlow street church in the vestry and a very pleasant hour was spent.

This morning's session opened at 9:30 with a conference meeting led by Rev. Mr. Robinson. At 10:30 the business of the meeting was taken up and the report of the summarizing committee, giving in concise form a report on the whole district as found in the individual reports, was presented by the chairman of the committee, D. C. Clark.

R. M. Hodson, of St. Andrews, chairman of the Laymen's Missionary Committee, was unable to be present but his report was presented to the conference. Doctor Goucher presented the report of the committee on Sunday schools, of which he is chairman.

The annual election of officers and the introduction of new business, with its programme for this afternoon and this evening will be devoted to home missions and education.

On Sunday morning the annual sermon will be delivered by Rev. S. Johnston. In the afternoon a mock Sunday school service conducted by C. A. Laubman will be held. The last meeting of the conference will be held on Sunday evening.

Body Found This Morning in Kennedy's Slip

GATHERING WOOD

Had Been His Custom to do This and Store it in Warehouse of James Robertson Co. for Whom He Was Teamster

Between six and seven o'clock this morning the body of Louis Withers, of Hazen street was found lying in Kennedy's slip in Lower Cove. He had been drowned. About half-past six o'clock some men who were passing the slip on their way to work noticed the body lying in the mud. They telephoned to Central Police Station and Policeman J. H. McCollum went down. He found the body lying face downward in the mud. With the assistance of some men, he removed the body from the slip and took it to the morgue, where it was identified by Captain Nelson A. Withers, a brother.

The young man lived at home with his mother and brothers in Hazen street and was a teamster in the employ of J. P. Robertson & Co., which position he had held for more than a year. He was between thirty and thirty-five years of age, and was considered a very capable man, and one who stood well with all. It had been his custom for some time to go down to the slip in Lower Cove at night and gather drift wood that floated in. He would then haul it to James Robertson & Co.'s warehouse in Sheffield street and store it away.

Last night he left his home early in the evening, dressed in his working clothes, and it is presumed that he went down to Kennedy's slip, and while engaged in catching the logs, became caught and was drowned. This morning the police found a quantity of logs which the unfortunate man had evidently gathered.

Mr. Withers was a very popular young man around the city, and his many friends will bear of the sad accident with regret. At home, he leaves his widowed mother, Mrs. Jane C. Withers and two brothers, George E. Withers, superintendent of letter carriers, and Captain Nelson A. Withers, mate on the government steamer Leeward. Samuel Withers, formerly a partner in the firm of Bustin & Withers here, but now away from home, is a brother. Charles and Obe Withers, also away, are brothers. There is one sister, Mrs. John Irvine. Frederick Withers, George E. Withers, superintendent of letter carriers, who fought in the South African war and gave up his life in the famous battle of Paardeberg, was also a brother. Coroner Berryman viewed the body in the morgue at half-past nine o'clock and gave permission for its removal home. It is likely that an inquest will be held.

CAMP SUSSEX

St. John Signallers Honored — The Army Service Corps

The distinction of providing the sole source of supply of camp signalling instruction subordinates for Sussex falls this year to the local Signalling Section, No. 8, and it is a mark of appreciation of their worth that several of them have been selected for the task, besides being flattered to a complimentary extent. In former years it has been the custom to have one or two members of the local section, to take charge of the signalling arrangements in the art of flag-waving, hallo- graphing, etc., so thoroughly appreciated by the camp commandant when he has appointed them as subordinates, without any assistance from the R. C. R. men.

J. Arthur Lindsay, quarter master sergeant instructor, of No. 8 Corps, whose reputation as a signaller is more than local, has been appointed assistant to the camp signalling officer, Captain Powers, and will have supervision of the instruction work, being aided by three other members of No. 8 section, Sergeant Instructors Nixon, O'Leary and O'Connor. These will report for duty on June 24 while the section will go to camp with the others on June 21.

The Army Service Corps, under Major Massey, are about all prepared and are about to camp, take possession of their quarters and arrange for the arrival of the major portion of the troops a few days later. They have been equipped with new service uniforms this year, which will be a saving to their officers for parade. They are fully up to strength and are to be congratulated upon the fact that their number of qualified non-coms. is greater than ever, so that the standard of efficiency established in previous years may be expected to be easily met and possibly out-done this year. The advance party of the Army Service Corps will encamp a few days before the others.

LOCAL NEWS

BURIAL TOMORROW

The funeral of Mrs. Margaret McLeod is to be held tomorrow afternoon at 2:30 o'clock from her late home, 9 Erin street.

BROKE HIS ARM

While playing last evening in the yard at the rear of his home in Harrison street, little Norman, the two and a half year old child of Murray McCutcheon, sustained a painful fracture of his arm in a fall from a woolsupe. The fall was about eight feet and the little fellow's arm was pinned beneath him where he tumbled. Doctors Roberts and Bishop were called and the child's arm was set this morning.

NOVELTY SHOWER

The friends of Mary McGillivuddy gave her an agreeable surprise last evening by calling upon her at her home in Main street and presenting to her a shower of novelties which she will heartily appreciate after a few days when she is to take part in an event which will require a change of name on her part. She was happily congratulated last evening and nicely entertained, those who formed the party of merry-makers. Refreshments were served and all spent a pleasant evening.

REDEMPTORIST TO BE ORDAINED HERE

The Rev. Joseph McLaughlin, C. S. S. R., will be ordained priest in the Cathedral by His Lordship Bishop Casey on Saturday, July 6. He will be raised to the orders of deacon and sub-deacon in New York by His Lordship Bishop Caspak, auxiliary to His Eminence Cardinal Farley, the week previous. This will be the first time that a member of the Redemptorist order was ordained outside of one of their own churches, the special permission having been obtained when the provincial of the society was in St. John some months ago. Mr. McLaughlin will be assisted by his uncle, Rev. A. J. O'Neil, of Silver Falls, and the Rev. Father Duke, C. S. S. R., rector of St. Peter's parish. He will sing his first mass in St. Peter's church on Sunday, July 7. He is a son of William McLaughlin, baker, in Brussels street, and a nephew of the Rev. A. J. O'Neil.
