## THREW HIS CHILD TO FRIENDS FROM THE WINDOW

Three Families Made Homeless in Ward V Fire—  
Loss \$2000—Why Firemen Were Late.

Sydney, N. S., Sept. 3.—A fire with sensational features broke out early this morning in a combined business and residential block, opposite the home of Rev. Mr. Greenless, owned by Mrs. Norman MacKenzie. Three families are homeless as a result of the blaze. The head of one family a Polander named Barre, was put to such straits, in getting his family out of the burning building that he threw his young child out of a second story window into the arms of people on the street below, afterwards jumping out himself and being quite badly cut in the act. There were about twenty people in the house, few of whom had anything on but their night clothes when they made their escape. So far advanced was the fire when discovered that very little furniture or clothing could be saved. Rev. Mr. Greenless and others living near by gave the foreigners shelter until their friends looked them up and took them to their homes.

It was fully an hour after the fire, attempt was made to ring in an alarm before the main fire brigade reached the scene. This delay was due to the fact that the bell on the fire station has been disconnected for its removal to the new station. Communication could not be obtained with the fire station until Rev. Mr. Greenless secured it by telephone. The Victoria Road brigade was on hand earlier but it was two hours before the blaze was subdued. The house was thoroughly gutted, the rear portion beyond repair. Mrs. MacKenzie is a heavy loser, as she had only \$700 to offset a loss of \$2,000 or more. It is not known just how the fire originated but it is thought that it first broke out in the pressing room of a tailor named Gaum, who was one of the tenants of the building.

## CLERGYMAN HURT IN FIGHT

Sackville, N. B., Sept. 5.—As the culmination of a church quarrel extending over nearly a year, a clergyman who came to this country from Great Britain to take charge of the parish of Westmorland in the interest of the Anglican church, was injured in a fight on Friday by one of his church warrens in the post office at Mount Whatley, about six miles from Sackville.

The clergyman is said to have had one of his fingers broken or dislocated and one eye blackened. Bishop Richardson, of Fredericton, has been informed of the affair, and is expected to investigate the matter in the course of a few days. The story as it reaches the Telegraph correspondent, is as follows: It seems that trouble arose in the parish soon after the arrival of the clergyman. The parish was divided in its sympathies, and about half the members and adherents withdrew their support and refrained from attending the services. One of the chief bones of contention was in connection with the purchase of a horse by the clergyman from the horseman, a member or adherent of the Church of England in Baie Verte. The animal, according to the clergyman, turned out to be blind of an eye, and consequently he objected most strenuously to paying the full price agreed upon. The seller was equally determined and at length went so far as to explain his clerical gentleman. Things went from bad to worse, and eventually

Bishop Richardson was asked to come and straighten things out. Charges in writing were preferred against the rector, and a court of investigation was held, the result being the vindication of the accused so far as the church was concerned.

But the failure of the insurgents to prove their charges did not end the difficulties of the minister. Various attempts have been made to rid the parish of his services and it is understood that he was willing to go provided that the bishop would secure another parish for his occupation. The culmination of the wretched affair came last Friday, when the minister went to the Mount Whatley post office for his mail. Accounts differ as to what happened after that, but there was some sort of a struggle in which it is said a fork handle was used, and in the course of a row the clergyman is said to have had one of his fingers dislocated or broken, and to have received a black eye.

It is understood that the facts have been communicated to Bishop Richardson and that there will be another investigation.

The clergyman occupied the pulpit yesterday as usual and preached to the usual sized congregation.

As to the merits of the church quarrel, there are varying opinions, but the fight, or assault, or whatever it was at Mount Whatley has caused an immense amount of talk and it is supposed that some decisive action will follow.

## MARITIME PROVINCES SHOULD STAND TOGETHER

Ex-Governor Prince Edward Island Says There Should be Closer Commercial Relations—More Agricultural Schools Needed.

St. John, N. B., Sept. 5.—D. A. Mackinnon, ex-lieutenant governor of Prince Edward Island, is at the Royal. He is here partly on private business and partly to take in the Dominion Exhibition. Speaking of conditions on the island, he said, last night, that this year the farmers had the largest crops of hay and grain in the history of the place. He was impressed with the progress in agriculture there and said that since the year 1900 the products of the soil in grain, hay and roots had more than doubled.

There had also been large increases in the dairy interests and live stock interests generally.

The best kind of politics for the maritime provinces, he thought, was to advocate the establishment in each, of agricultural schools where farmers might be taught by practical men how to cultivate their ground to the best advantage and the best methods of fattening stock. He deprecated the fact that at present most of the beef consumed in the maritime provinces was imported from the west. This was more regrettable because the farmers here, with a little effort, could supply the home market.

ket. But besides agricultural schools, Mr. Mackinnon thought that fishery schools ought to be established where the men who follow that calling could be taught the best ways of securing and marketing fish and also of preserving and curing them.

The time had come when the maritime provinces ought to get closer together. He did not mean in a political sense, as maritime union had been merely an academic question since before confederation. In a commercial sense, however, these provinces ought to pull closer together for self-preservation. He pointed to the millions of dollars which were annually leaving here for life and fire insurance. These concerns did not take such a live interest in this part of the country as they ought. Then again, he pointed out St. John once did a profitable and extensive business with the island. This had been killed through the advent of commercial travellers from the upper provinces. He also pleaded that there ought to be better means of intercommunication between all three of the maritime provinces.

## DRUMMOND PLANT NEARING COMPLETION

The Drummond shipping plant here is rapidly nearing completion. It is expected that it will be finished and a ship arrive for ore about the middle of this month. There are now about seventy men employed on the work. Reid and Archibald have the contract for the timber work, while all the machinery is being supplied by the Brown Machine Co., of Glasgow, N. S.

The building of the railway spur was begun last October, and work on the trestle was started in January.

900,000 feet of timber, mostly southern hard pine, but partly spruce, has been used in building the terminal works. The heavy structure, railway trestle and ore pockets are 518 feet large. The conveyor trestles, to take ore from

the brow of the cliff over the wharf to the vessels, is 135 feet in addition. The ore bin and engine tower are 55 feet above the wharf, and the ore pockets 100 feet. There are 200 pockets, each capable of holding 500 tons—10,000 in all.

The vessels of 4,000 to 7,000 tons that are chartered for this port can be filled with ore in from two to three and one-half hours. Counting on two trains a day of 1,000 tons each, at the start, it will take five days to fill the pockets, which will then be refilled as they are emptied into vessels.

At the mines all the preliminary work has been finished, ore is being raised and cargoes will be brought to Newcastle as soon as terminal work is accomplished.

The chief engineer for the Drummond Co. here is W. F. C. Parsons, and the resident engineer

## BRITISH AVIATOR SWEPT THE BOARDS

Graham-White, Star Performer at Boston Meet—Won Five Events Easily from American Opponents—Englishman Gave Thrilling Exhibition.

Boston, Sept. 6.—Claude Graham-White of England, proved himself to be the ward of all the aviators at the second day of the Harvard-Boston aero meet before 30,000 people at Atlantic today, when he took first place in every one of the five classes which were competed for. Beyond this, White repeatedly drew forth the plaudits of the thousands as in exhibition flights he demonstrated in a thrilling manner, all the hazardous feats of the men of the air, dodging first over the grandstand and down almost upon the heads of the spectators to soar up and swoop down again in

to the automobile section. On one of his flights he took up Miss Mary Campbell, of New York, and after twice circling the course with her in an easy manner, gave her the thrill of her life in a 200 foot slide down the wind co within ten feet of the ground, at which elevation he lightly dropped his Farman onto the turf.

Charles Foster Willard, of Melrose, took up the first newspaper woman to make an ascension in this country, Mrs. Ladd, of Boston, following with another flight in which he took up J. C. Toye, of another Boston newspaper.

## 14,808 PASSED THROUGH TURNSTILES MONDAY

Enlarged Grounds and Buildings so Roomy That Attendance Seemed to be Much Smaller.

St. John, Sept. 6.—With an attendance of nearly 15,000 yesterday, the Dominion Exhibition has started on its record breeding career. Despite the fact that there were many people who took advantage of the holiday to spend labor day in the country, and that counter attractions of baseball games and horse races drew thousands more, the attendance yesterday, the second day of the show, was more than double the same day last exhibition, and 4,000 in excess of the labor day crowd of 1905. All day long the turnstiles kept up a merry clicking, and when the total was made up last night it was a surprise to many that the attendance figures were so great. The enlarged grounds and buildings seemed to absorb the crowds so that they are not as noticeable as in other years.

St. John, Sept. 5.—The Dominion Exhibition is open. What is by far the greatest single attraction ever offered to the people of the maritime provinces was formally opened by Lieut. Gov. Tweedie on Saturday afternoon, in presence of distinguished visitors and of a large assemblage of citizens. All were surprised and delighted with the extent and variety of the features, and the admirable manner in which they have been grouped in the buildings and grounds. In the evening, when the place was illuminated, and the double row of electric lights flashed out along the "great white way" that leads from the I. C. R. depot to the gates, the effect was magical. Such illuminations had never been seen in this city.

For ten days all roads will lead to St. John. Never before has there been a local opportunity to see so much within the confines of the exhibition grounds. All that

nature and art combined can do within the allotted space has been done. All former exhibitions in the maritime provinces are eclipsed.

When the crowds swarm through the turnstiles into the exhibition area, and distribute themselves through the grounds and the various departments of the fair, and the atmosphere that is peculiar to such events envelops them, the ensemble will not lend itself to description, but must be seen to be appreciated.

The features of this exhibition are so varied as to appeal to every taste and temperament. The new buildings afford very much more space. The new grandstand and the improved track in front of it will delight the people. The new cattle barn is not surpassed on the continent. The free outdoor attractions will be of a thrilling character. The agricultural, dairy and live stock display will crowd the allotted space. The machinery in motion will be a most welcome addition to the attractions. The provincial government and "made in St. John" exhibits, the educational exhibits, the art gallery, the women's department, the musical and other leading features have never been equaled here in extent and excellence. The commercial houses have never gone to such pains to make their exhibits attractive. Their are more booths and special structures in the main building than ever before; while the rearrangement of the main entrance conveys at once to the visitor an impression that this fair is not as other fairs. This first impression is confirmed as one after another of the departments is visited, throughout the whole exhibition, including the large number of amusement features that are inseparable from the modern exhibition.

in actual charge is A. A. Tracy, Gould, of Norfolkstone, England, who in about a month, after his services here are no longer required, will go to Algoma, Ont., to superintend similar constructions for the Drummonds there.

D. S. Grimmer, son of the provincial surveyor general, who has been accountant during construction, will remain as shipping superintendent. The permanent force needed to load the ore on the vessels will be only about eight men, besides the superintendent, so perfect are the mechanical contrivances for doing the work.

At the wharf there is 32 feet of water at high tide, and about 28

at average low water. When the Horseshoe, down the river, is properly dredged, vessels of 10,000 tons will be used. There is no prospect of any early construction of a smelting plant on the Miramichi.

Rev. Ronald H. MacPherson of Marble Mountain, Cape Breton, member for the next three years of the Presbyterian General Assembly's committee on Social and Moral Reform, spent Friday in Newcastle and Douglastown the guest of Principal H. H. Stuart. Mr. MacPherson was on his way to Toronto to attend a meeting of his committee.

## SUSPECTED OF JEWELRY THEFT IN NEW BRUNSWICK

Digby, N. S., Sept. 2.—(Special)—Chief of Police Bowles, of Digby, and Chief Dickson, of Newcastle, N. B., arrived here from Weymouth last night with two brothers named Basil and Anthony Vouchour, suspected of robbing a jewelry store in New Brunswick last June. They were working in a pulp mill when arrested. They are in Digby jail.

SALT RHEUM CURED QUICK.—Dr. Agnew's Ointment cures Salt Rheum and all itching or burning skin diseases in a day. One application gives almost instant relief. For itching Blind or Clouding Eyes it stands without a peer. Ointment three to six nights. 35 cents. Sold by A. E. SHAW'S Pharmacy.—T.B.

DON'T BE DECEIVED.—Unscrupulous makers are attempting to steal your money and our reputation by putting an imitation of "The D. & L." Menthol Plaster. Be sure to get the genuine made by Davis & Lawrence Co.

## ELEVEN RESCUED

Manila, Sept. 2.—The steamer Germania today landed eleven survivors of the Norwegian trawler Bertha, which was wrecked off Barras Island on August 28 while on route to Japan. The Bertha was a total loss and the survivors suffered fearful hardships.

STUMBLING WRECK!—Undone, overdone! Discouraged and desolate! Emaciated nerve wrecks! Not one of you is deep down in the mire of disease but the story of such a potent remedy as South American Nerve can reach you and lift you back to good health. It's nature's trusted lieutenant, gentle, but firm and unflinching. It never fails. Sold by A. E. SHAW'S Pharmacy.

Every statement concerning Red Rose Tea is made most carefully. Every claim that has ever been advanced has been fully borne out by the tea itself. You, if you use it, have always found it good tea. So good that no other tea pleases you as well. You may try substitutes but you always return to Red Rose simply because it has the fine quality and full value that pleases and satisfies.

Prices: 30c., 35c., 40c., 50c. and 60c.

### Remedies are Needed

Were we perfect, which we are not, medicines would not often be needed. But since our systems have become weakened, impaired and broken down through indiscretions which have gone on from the early ages, through countless generations, remedies are needed to aid Nature in correcting our inherited and otherwise acquired weaknesses. To reach the seat of stomach weakness and consequent digestive troubles, there is nothing so good as Dr. Pierce's Golden Medical Discovery, a glyceric compound, extracted from native medicinal roots—sold for over forty years with great satisfaction to all users. For Weak Stomach, Biliousness, Liver Complaint, Pain in the Stomach after eating, Heartburn, Bad Breath, Belching of food, Chronic Diarrhea and other Intestinal Derangements, the "Discovery" is a time-proven and most efficient remedy.

The genuine has on its outside wrapper the Signature

*Dr. Pierce's*

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic medicine or worse concoction, not even though the urgent dealer may thereby make a little bigger profit.  
Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules, easy to take as candy.

## The Campbellton Graphic,

H. B. ANSLOW, EDITOR AND MANAGER.

CAMPBELLTON, N. B., SEPTEMBER 9th, 1910.

### CENSUS OF MORTALITY ETC.

The date of the next census for Mortality, Disability and Compensation is 1st June of next year, which is the same as the date for Population. It is a record for one year, and gives the information concerning all persons to whom the schedule relates for the year counting to the hour of midnight of 31st May 1911.

Personal description of every person who has died in the year or suffered disability by accident or sickness and has received compensation therefor is required in the schedule, and for more complete identification reference is made to his family or household in the first schedule.

The name and sex of each person, and whether single, married, widowed, divorced or legally separated, together with the month of birth, the year of birth, the age at last birthday and the country or place of birth are required under personal description. His or her racial or tribal origin, religion and profession, occupation or trade, will also be recorded under the general heading of personal description, whether the reference is to persons who have died within the year or to persons who have been disabled within the year by accident or sickness, and to persons who have sustained loss of time and earnings and to allowance or compensation for loss of life or time.

Under the heading of Mortality records will be entered showing the month of death in the census year, the disease or cause of death as described by the Bertillon nomenclature, the place of death if it occurred away from home, and the name and address of the attending physician.

Disability and Compensation relate to accident or sickness, and under these heads records will be entered of the nature of loss or injury caused by accident in the year, cause of the accident, weeks of disability due to sickness or accident, and loss of salary or other earnings caused by sickness or accident.

Allowance or compensation made to employees is recorded under three heads: 1. The voluntary allowance which may be made to employee by employer for lost time through sickness or accident during the year. 2. Compensation in the year by employer under statute for (1) loss of life by accident, and (2) for injury by accident, which is required in some provinces of the Dominion. 3. Compensation by insurance for (1) loss of life and (2) for sickness or injury.

CAMPBELLTON, N. B.

[The Busy East]  
Published in St. John, N. B.  
(The following editorial appeared in the August numbers.)

July 11th last the prosperous town of Campbellton was entirely destroyed by fire—only seven houses remaining, and those are on the outskirts of the town, so complete was the devastation. The flames started in the cook house of Richard's mill, and with a strong northwest wind blowing had soon enveloped the whole town in less than four hours. All was ruin. The thirty little town, with its many fine buildings, many industries and hundreds of happy homes, was now a smouldering heap of debris. Five thousand people were shelterless—without sufficient clothing to keep them warm. Men, women and children, some sick and weak, some feeble with age—all homeless—so rapidly that the market had the same confidence in the indebtedness as the townspeople, themselves, of course, this indebtedness, especially as the year's taxes had not been collected (as the assessor had only the day prior to the great calamity finished the assessments) will be a drawback to rebuilding. But this matter has been taken up, and a deputation is at present in Ottawa waiting to ask the Federal Government to take over the indebtedness. It seems reasonable that they will meet with a favorable reply. This has been done before by governments, so it is making no precedent, and in this case seems most worthy and a just appropriation from parliament.

Time will not be long until we shall again see Campbellton the busy commercial and distributing centre she was before the fire. Her citizens are not despondent, they are still optimistic, and retain much of that enthusiasm which was fast forcing their town to a foremost place in the Maritime Provinces. Let us assist them in their heroic efforts to overcome such a dire calamity. They, indeed, demand not our sympathy, but our admiration and every help in rebuilding of their town; and especially let us aid the home-builder—the middleman—and the poor, who they sustained the greatest loss and bear the greatest burden. Their crying need is money. Let them have all the financial support possible. They have proven themselves an energetic, progressive people, and well worthy of assistance.

The following facts will give an idea as to the extent of the business done in Campbellton:  
The population of Campbellton is 5,400, and the floating population is 2,700.  
The customs receipts for 1909 were \$30,000.  
The tonnage at the port of Campbellton annually is 150,000 tons. This tonnage has increased 300 per cent. during the last seven years.  
The cut of lumber on the Restigouche river for the year 1910 was about 110,000 superficial feet, and of this quantity nearly 100,000 is manufactured in Campbellton or its immediate vicinity.

The total loss by fire on July 11th last was 7,000,000, and the insurance only amounted to \$1,500,000.  
The revenue derived by the Dominion from Campbellton annually is \$41,950, whilst the Intercolonial Railway receipts amount to \$165,000, or a total of \$206,950.

The following clipping from the Winnipeg "Telegram" aptly puts the situation in a great many cases:  
"Four thousand sufferers camping on the waste of ashes which mark the site of the once prosperous town of Campbellton need help—instant, adequate, and given not as charity, but as sympathy's generous and prompt offer."

Days have passed since Campbellton was all but swept from the earth. What succor has come? By far and away the most substantial aid has come from an American city. Canada has failed in her duty. Montreal? Little. Toronto? Less. Winnipeg? Nothing.  
Rich and prosperous Canadian communities have given freely of passing sympathy. "Too bad." "Hope they quickly recover from their awful blow." Sympathy unexpressed in cold cash—how can it help the helpless?

Canada is discrediting itself by its neglect to immediately and fully meet the needs of the fire-swept Canadian town of Campbellton. Montreal's responsibility is her own; Toronto's responsibility is likewise her own.  
But Winnipeg? What is she doing to help the Campbellton victims in their hour of necessity?  
Campbellton is already raising from her ashes; money will be appropriated for her public buildings. The I. C. R. and International are reconstructing and shall build a large depot, the site of which has not as yet been determined upon; its location depends upon the many changes that will take place in the rebuilding, the streets will probably remain the same, as Campbellton has a very efficient water and sewerage system, which has not been affected by the fire. The Town Fathers are agitating reserving a plot of land in the centre of the town for a park and playground. This was much needed, and we hope will be one of the many improvements to the New Campbellton. The re-constructed Campbellton will have many fine stone and brick blocks; the people will rebuild, and build better; land values have even risen since the fire, showing how the people are desirous of holding their property.

The town carries a debt of \$300,000. This might seem heavy for such a small town, but it was not the result of poor management. It was a result of a snowstorm and how rapidly the town was growing. Their bonds always sold around par, showing that the market had the same confidence in the indebtedness as the townspeople, themselves, of course, this indebtedness, especially as the year's taxes had not been collected (as the assessor had only the day prior to the great calamity finished the assessments) will be a drawback to rebuilding. But this matter has been taken up, and a deputation is at present in Ottawa waiting to ask the Federal Government to take over the indebtedness. It seems reasonable that they will meet with a favorable reply. This has been done before by governments, so it is making no precedent, and in this case seems most worthy and a just appropriation from parliament.

Time will not be long until we shall again see Campbellton the busy commercial and distributing centre she was before the fire. Her citizens are not despondent, they are still optimistic, and retain much of that enthusiasm which was fast forcing their town to a foremost place in the Maritime Provinces. Let us assist them in their heroic efforts to overcome such a dire calamity. They, indeed, demand not our sympathy, but our admiration and every help in rebuilding of their town; and especially let us aid the home-builder—the middleman—and the poor, who they sustained the greatest loss and bear the greatest burden. Their crying need is money. Let them have all the financial support possible. They have proven themselves an energetic, progressive people, and well worthy of assistance.

The following facts will give an idea as to the extent of the business done in Campbellton:

### Your Grocer Knows

EVERY good grocer is willing and anxious to please his customers. Sometimes if he happens to be out of the goods you ask for, he may recommend a different brand rather than keep you waiting. But when it comes to flour, he knows that Ogilvie's

## Royal Household Flour

is one of the things for which there is no substitute. No other flour is "just as good." Ogilvie's "Royal Household" is in a class distinctly by itself. To offer a substitute for "Royal Household" would be like offering oleomargarine to a customer who wanted prime dairy butter. No good grocer would do it. When you tell him you want Ogilvie's Royal Household Flour, he will send that and nothing else.

"Ogilvie's Book for a Cook," with 125 pages of recipes that have been tried and tested, will be sent free if you will send us your address and mention the name of your dealer.

THE OGILVIE FLOUR MILLS CO., LIMITED. - MONTREAL.

### BLACK CAPE.

The crops around here are looking well and the rains of the summer have had very good effect upon them for they never looked better and the prospects for an abundant harvest are very promising.

The hay is much over the average and on new land is extra heavy. The crops are all good except on old ground where hay has been cut for many years. The wet weather has forced along the undergrowth and kept the grass growing. Grain is also looking well. The potato crop will not be so good on account of the bad seed that was planted. The apple crop is also poor.

Rev. Thomas Bennett of the Bible Society gave his annual lecture in the Black Cape church on Friday evening, July 29th.

Dr. B. Sproul, of Campbellton spent Friday and Saturday here and left on Sunday evening for Port Daniel in his automobile.

Another steamer was cleared from the Harbor of New Richmond on Friday evening with a cargo of deal for Liverpool shipped by Montgomery and Sons, the well known lumber merchants.

The Casapedia Manufacturing and Trading Co., have a large steamer in the harbor of New Richmond loading a cargo of lumber.  
Mr. Herbert Dimock of Grand Casapedia and Robert Hardy of New Richmond were ordained on Sunday morning as two additional elders to St. Andrew's Presbyterian church, New Richmond.

Mr. Harry Scott of New Carlisle spent Sunday in Black Cape.  
Rev. George Anderson, who has been spending his vacation in Black Cape, leaves this week for his field of labor in Somerville, Mass.

Miss Lily Campbell has returned to Montreal after spending a short vacation with parents.

Minard's Liniment Relieves Neuralgia.

### MR. L. F. WALLACE GOES TO CAMPBELLTON

Mr. L. F. Wallace, who has been employed in the I. C. R. machine shop for a number of years, has resigned, and intends leaving for Campbellton in a few days where he will start a business of his own. Many friends in Montreal will wish him success.

About thirty members of district lodge No. 52 of I. A. of A. gathered together in their lodge room and made a presentation of a new member to the lodge. The new member is Mr. L. F. Wallace, presented by District Lodge No. 52, I. A. of A. to L. F. Wallace, Seoul, Sept. 2—Foreign labor from outside settlements will not be allowed in Chio Sen (new name for Korea) without a permit. This will affect the Chinese employed in the mines and doubtless will result in reprisals by expulsion of Koreans from Manchuria.

### SYNOPSIS OF CANADIAN NORTH-WEST LAND REGULATIONS.

Any person who is the sole head of a family, or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader's good standing may pre-empt a quarter section alongside his homestead. Price \$3.00 per acre. Duties.—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including the time required to earn homestead patent and cultivate fifty acres extra).

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price \$3.00 per acre. Duties.—Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$300.00.

W. W. Cory,  
Deputy of the Minister of the Interior.

### It May Be Pneumonia

"A hard chill, pain through the chest, difficult breathing. Then fever, with great prostration." If this should be your experience, send for your doctor. You may have pneumonia! If your doctor cannot come at once, give Ayer's Cherry Pectoral. When he comes, tell him exactly what you have done. Then do as he says. No alcohol in this cough medicine. *J.C. Ayer Co., Lowell, Mass.*

Keep the bowels in good condition. One of Ayer's Pills at bedtime will cause an increased flow of bile, and produce a gentle laxative effect the day following.

## LOCAL NEWS.

#### GOING DOWN

The price of Manitoba flour dropped thirty cents on Friday. Flour has a downward tendency as the wheat crop is being harvested.

#### DIED

On Sunday, Sept. 4th, after a short illness of Cholera Infantum, Joseph Alfred the infant son of Mr. and Mrs. Paul Doyle Bay View Hotel, Jacquet River.

#### FIRE AT MISSION POINT

The house with most of the contents and a fine large barn filled with hay, owned by Frank Metallic of Mission Point were destroyed by fire on the night of Thursday, Sept. 1st.

#### BROKE HIS ARM

The sixteen year old son of Mr. Geo. Metzler, who is residing at Bathurst fell and broke his arm last week. Mr. Metzler recently had his leg broken while painting the Bank of New Brunswick here.

#### NEW POST OFFICE

Mr. Whittaker of the Post Office Department St. John, was in town yesterday making arrangements for the erection of a temporary post office, suitable for the cold weather. The office will probably be erected on the Connaught lot, corner of Water and Millie streets. The work on the permanent post office will be commenced shortly and continued all winter.

#### ANNOUNCEMENT

Miss Ulician, who conducted a general millinery store in Campbellton, previous to the fire wishes to announce to her former customers in Campbellton, Charlott, Jacquet River and vicinity that she has accepted a position in St. John for the winter months but will return to Campbellton for the spring season and continue in the millinery business. Any one who wishes Miss Ulician to supply them with their fall and winter hats can communicate with her by addressing her in care of Wilcox Bros. St. John N. B.

#### CATARRH NOT HOPELESS

It has been Cured Scores of Times by  
Father Morrissey's No. 26.

It is customary for many sufferers from catarrh, and even for many doctors, to despair of curing this annoying and dangerous disease. Nevertheless, if correct methods are adopted, there is no reason why catarrh should not yield to treatment within a reasonable time.

The failure to cure is to be attributed to the failure to apply a comprehensive treatment which will not only alleviate and remedy the abnormal local conditions, but also go to the real seat of the trouble.

Father Morrissey, the learned priest-physician, after much study and experience, was successful in devising a combined treatment which has proved to be the solution of the problem. His No. 26 consists of tablets, to be taken three times a day, together with a healing antiseptic

salve for the nostrils.

The tablets tone up and invigorate the system, and assist Nature not only to throw off the disease, but to guard against future attacks. The nasal salve clears out the diseased secretions and heals the delicate membranes.

No. 26 has often cured catarrh of long standing, but it is much wiser to take it in time. Otherwise, catarrh is almost certain to lead to more serious diseases, but often causes disorders of the stomach and bowels. Do not put it off, but take Father Morrissey's Combined Catarrh Treatment now, and prevent serious troubles.

When, by its aid, Nature has not only cured the local disease but also built up the system against future attacks, you will find your general health tremendously improved.

At 50c. for the combined treatment. At your druggist's or from Father Morrissey Medicine Co., Ltd., Chatham, N.B.

#### PASPEBIAC WEST

Paspebiac is enjoying very fine autumn weather just now and the grain is beginning to look like Canada's golden corn fields. The farmers are quite pleased with the look of things this year and expect a bountiful harvest.

We are all pleased to receive our copies of the Graphic and hope it will soon be up to its former place in its fire stricken town where it flourished a few months ago.

It is quite a while since Paspebiac has had as many visitors as this summer has brought. The place seems quite lively.

Mr. and Mrs. Bisson with their son Willie and their daughter Mrs. Quinn of Tacoma, Wash. are visiting Mr. D. Bisson, Sr. They spent about six weeks here among their many friends, also paid a short visit to Bathurst as well as along the coast as far as Gascons. They returned on Monday to their home accompanied by Mr. and Mrs. Newman and family who are going to make their home in Washington. We all wish them a prosperous and safe journey.

Mrs. Geo. Ransom and her little son Victor who had been the guests of Mr. C. E. LeGallais left for their home in Montreal on Aug. 29th.

Misses Hazel LeGallais and Olive Bisson left on Monday 29th for MacDonald College where they intend to spend the winter to "the tune of the hickory-stick."

Misses Evelyn, Irene and Muriel Traverse passed through here en route to St. Anne de Bellevue to enter MacDonald College. Miss Marjory Travers accompanied them as far as New Carlisle only returning to her home on Saturday last.

Mr. F. Mallory spent Saturday and Sunday and part of Labor Day in Port Daniel the guest of Miss Sarah Miller.

Mr. McElymest has been a guest at Scott's Hotel for the last ten days.

Mrs. P. LeGresley has returned to Paspebiac accompanied by her little son Reginald.

Mrs. D. Bisson, Jr., is visiting her home in New Richmond.

Mr. and Mrs. Ed. LeGallais have returned from Montreal where they have been visiting their daughter, Mrs. LeBoutillier.

Rev. E. A. and Mrs. Dunn have gone to Halifax to attend the services in connection with the 200th anniversary of the Church of England in Canada.

Minard's Liniment Cures Burns, etc.

### PROVINCIAL BOARD HEALTH OFFICIALS

Visit Campbellton and Also  
the Shippegan Dogfish  
Factory.

Moncton, Sept. 7.—Dr. E. O. Steeves, of Moncton, chairman of the provincial Board of Health, returned on Tuesday afternoon from a trip of inspection at Campbellton. He also visited and inspected the dogfish factory at Shippegan and the conditions he found there will be reported to the provincial Board of Health. Referring to the conditions at Campbellton, Dr. Steeves said that while they were not perfect he thought they were as good as could be expected under the circumstances. He thought the people of the fire-stricken town were doing wonders. He did not like to express an opinion as to the outlook for the winter, but he believed that with the true Canadian spirit that was being shown they would overcome every obstacle.

Dr. Steeves was accompanied on the trip by Dr. E. Fisher, of Marysville, secretary of the Provincial board.

St. Isadore, P. Q., Aug. 18, 1904

MINARD'S LINIMENT CO., LIMITED.

GENTLEMEN,—I have frequently used MINARD'S LINIMENT and always with the most gratifying results, and I consider it the best all-round Liniment extant.

Yours Truly,

DR. JOS. AUG. SIROIS

#### COFFIN FALLE

A very pretty wedding took place at Rannymede Que., on Tuesday evening the 31st of Aug. when Miss Nellie May Falle was united in the holy bonds of matrimony to Mr. Clarence Ross Coffin. The Rev. A. J. Vibert of River du Loup performed the ceremony. The bride was attired in a beautiful costume of nun's veiling trimmed with lace and wore a bright veil with orange blossoms. Miss Hilda Falle acted as bridesmaid and Mr. Ralph Falle as best man. After the ceremony a bountiful supper was partaken of and bride and groom afterwards left for their new home.

#### BROCHET—AYLETT

A very pretty wedding took place at Rannymede Que., on Tuesday evening the 31st of Aug. when Miss Nellie May Falle was united in the holy bonds of matrimony to Mr. Clarence Ross Coffin. The Rev. A. J. Vibert of River du Loup performed the ceremony. The bride was attired in a beautiful costume of nun's veiling trimmed with lace and wore a bright veil with orange blossoms. Miss Hilda Falle acted as bridesmaid and Mr. Ralph Falle as best man. After the ceremony a bountiful supper was partaken of and bride and groom afterwards left for their new home.

### PERSONAL

Mr. and Mrs. W. A. Mott are visiting St. John friends.

Geo. G. McKenzie, Esq., spent the holiday in Montreal.

Mr. Monte Cantwell of Campbellton spent Labor Day in Newcastle.

Mrs. Thos. Cantwell is the guest of Mrs. John Moor, Duke St. Chatham.

Hon. Mr. Pugsley's private car was attached to the Limited on Friday.

Mrs. Geo. G. McKenzie, spent Tuesday with Mrs. Joseph Davidson, Moncton.

R. M. Hope, Esq., of the Bank of New Brunswick, spent the holiday at St. John.

His Honor Judge McLatchy and F. E. Blackhall went to St. John on Friday.

Mrs. G. G. McKenzie and Mr. Wm. Mott spent Sunday and Monday visiting friends in Newcastle.

Miss Sadie Fawcett, who has been visiting friends in Newcastle and Chatham returned home yesterday.

Miss Annie Corbett, of the Graphic staff, left Newcastle on Saturday for St. John, enroute to Boston, where she will visit friends.

Among the Campbellton citizens who visited St. John this week were F. E. Shephard, W. P. Gray, H. L. Nelson, Geo. Wallace and Wm. Ferguson.

Mrs. McEwan of Miguasha accompanied by her nephew B. Holland Anslow of New York, spent Wednesday in town visiting friends. Mr. Anslow is a son of the late Philip Anslow and is a cousin of The Editor of the Graphic.

Many friends on the North Shore will be pleased to learn that Mr. A. B. Curtis of the N. B. Telephone Co., St. John, but formerly of Campbellton is soon to join the ranks of the benedicts. Mrs. C. Gleason of St. John announces the engagement of her daughter, Miss Mae, to Mr. Curtis.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, constantly failing to cure with local treatment pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

President Snowball at the meeting of the Maritime Board of Trade at Chatham said:

"I would suggest to towns in these provinces the encouragement of small industries, natural to the place, started is possible by local men that know the business, and that will grow naturally, rather than big industries induced by bonuses, grants and exemptions, that often fail and leave the place worse than before. We have people with money who could go into the manufacturing trade that would build up our provinces in population and increase the value of properties they selfishly prefer investing in bonds, stocks, lands in the west and get-rich-quick schemes."

Here is a suggestion for destitute people. Campbellton has a couple of very desirable factory sites which should be utilized.

## SAVED FROM THE KNIFE

### Appendicitis Cured By "Fruit-a-tives"

NEWBURN, ONT., Feb. 12th, 1910.

"Just about a year ago, our daughter Ella, (fourteen years), was taken with terrible pains in the right side. The pain was so severe that we had to carry her to bed. We at once put her under the care of a first-class doctor, who pronounced it a case of Appendicitis and advised an operation."

We took her to a hospital in Kingston where she was again examined by an eminent specialist. He said she had Appendicitis and must be operated on at once if we wanted to save her life. As we had taken her to Kingston to have this done, we were ready, but our daughter was afraid and cried and begged so pitifully, that we postponed it for that day. Luckily for us and for her an uncle came in with some 'Fruit-a-tives' and insisted on Ella taking them. Good results were apparent, almost from the first dose, and the continuous treatment cured her."

"Fruit-a-tives" saved our daughter from the surgeon's knife and to-day she is enjoying the best of health."  
J. W. FOX, (Father).  
LILLIAN FOX, (Mother).  
Words cannot express the gratitude of Mr. and Mrs. Fox. And Miss Ella will always remember "Fruit-a-tives"—the discovery of an eminent physician, and the only medicine in the world made of fruit. 50c. a box, 6 for \$2.50, or trial box, 25c. At dealers, or sent, postpaid, on receipt of price by Fruit-a-tives Limited, Ottawa.

#### AGAIN READY FOR BUSINESS

### THE McLENNAN FOUNDRY & MACHINE WORKS!
