MANAGER

U. B. CHURCH HAS GOOD YEAR

Membership Increases and Finances Strong Proving Earnest Workers

The annual business meeting of the United Baptist church was held in the vestry of the church on Friday evening. There was a full attendance of the male members of the congregation.

The financial report showed that the church had taken in from all sources \$8,509.01, the Sunday school receipts, \$401.84, and the W. M. A. receipts, \$122.20. After paying all bills incurred and adding \$1,000 to capital account. During the year electric light fixtures were put into the church building at a cost of more than \$300.

The membership at the beginning of the year was 223. There were additions as follows: by baptism seven, letter nine, expenses three, making an addition of 19. There were some losses, however, two by letter and four by death, so that the present membership is 225, a net gain of 13.

The church officers for the ensuing year are: Deacons—S. M. Boyer, L. E. McFarland, Frank Hagerman, William Sippelle, W. D. Keith, Treasurer—W. D. Keith, Fin. Sec., F. A. Alton; Clerk, R. W. Cameron; Chorister, E. C. Morgan; Sunday School Sup., O. R. Rideout.

As a part of the Sunday School the Barabas and Philistines, and the Star Bible Class of women, form a very important part. The story of their origin and growth and their extensive mission work would be very interesting.

The church paid, against its own running expenses and surplus, \$375 to the denominational fund which goes to the support of other and weaker churches.

After the business session there were refreshments and a social hour greatly enjoyed by all members of the church, young and old.

Children's Day exercises in this church on Sunday were of a very interesting character. There was the usual prayer service in the morning, followed by a sermon appropriate to the occasion. Sunday school followed immediately after the service. In the evening there was a concert in which practically every child in the congregation had a part.

HON. MR. CARVELL AND THE BUDGET

Ottawa, June 7.—Hon. Frank B. Carvell, in reply to a report that he purposed criticizing the budget proposals, gave out the following statement:

"I am not going to criticize the budget, but to support it. The union government was formed for the period of the war and demobilization, and no man in it has to surrender any principles whatever. While of course, I shall support this budget, I reserve full liberty to express any views I have regarding the future fiscal policy to be adopted when demobilization is completed and the purposes for which the government was formed are consummated."

Tariff Changes

The tariff changes proposed in the budget brought down in Parliament will not materially affect the high cost of living, which is the principal cause of the feeling of uneasiness throughout Canada at the present time. Some concessions are made in the western fur trade but we believe they will fall considerably short of satisfying them.

The war tax of 7½ per cent on imports comes off, but the tariff still gives a liberal measure of protection to the infant industries of the country. Those who looked for a substantial reduction in the taxes on foodstuffs will be disappointed in the new tariff.

Pte. Roy Shaw

Mrs. A. J. Shaw, Waterville, has received the following letter in regard to her son Roy who paid the supreme sacrifice in August 28, last.

Pte. Shaw enlisted in September 1915 when but a lad of 16. He trained in D. Co. 104th Batts. in Woodstock and sailed for overseas in June 1916.

In November he went to France being transferred to the 5th C.M.R., doing duty as a Despatch Rider. Pte. Shaw saw much active service, taking part in the battles of Vimy Ridge, Passchendaele and came through safely until last August in the severe fighting around Cambrai, and Arras he was killed by high explosives.

OBSERVE THE TRAFFIC RULES

And Hartland Bridge Will Carry You Safely Over

There was considerable excitement about town on Saturday afternoon and Sunday when it was discovered that the main supporting chord of another span of the river bridge had given way, and was in a really dangerous condition. Superintendent Campbell claims that the bridge was damaged by the operations of river drivers, who hitched tackle to the bridge and used heavy teams for the purpose of pulling the jams off the pier. The driving corporation authorities admitted that this use of the bridge has damaged it more from year to year than all ordinary traffic. Contractor Scott of the driving corporation refused on Saturday to hold up his operations, and defied the government officials. Early Monday morning, however, Sheriff Foster with men enough to put up quite a scrap, appeared on the scene, and requested Mr. Scott to withhold further operations on the bridge. Besides being armed with warrants for Scott's arrest, the Sheriff had full power to use any means necessary to protect the bridge from being damaged by drivers or others.

During the week repairs have been put upon the bridge that will strengthen it so that it will probably last the summer out, if the public will carefully observe the rules concerning traffic over it.

CARLETONCO HOSPITAL

Most Useful Institution Needs Further Help

The manager of The Observer has returned from Carleton County Fisher Memorial Hospital, where he was treated for neurasthenia. During his convalescent days there he took occasion to scrutinize the methods and the general manner in which the hospital and its administration were being carried on. The hospital is a public institution and the editor's survey was for the purpose of determining if Carleton county was getting as much, or more, or less, than it is paying for. It was found that a very large majority of the cases came from the county so that in proportion to the keeping up of the hospital the county is paying very little per patient. Practically every patient who comes from the county is able to pay but very frequently they make a claim for free treatment because the county puts up the full sum of \$1500 per year. One charity case from the county last year cost the hospital \$700.

The Observer would point out to its readers that the county grant is indeed very small as compared to the whole cost of maintaining the hospital; that it is only by the bequest of Mr. Fisher that those unable to pay be treated free. It is a most erroneous idea that the county contribution entitles any person to free treatment. Those able to pay, and those who are not able to pay get exactly the same treatment as those who are.

Every public institution and official is open to criticism and it is only by criticism that it is properly coming to them. The Hospital is no immune. The experience of The Observer man showed that the staff was entirely efficient; the matron a most capable executive and the staff under her patient and painstaking. Never was heard any patient to speak in any other than words of praise.

The bequest of the late L. P. Fisher is about used up and there is urgent need for funds from other sources to carry on the work of this most excellent institution. The number of patients is constantly increasing and many improvements are required at once. Outside the bequest of Mr. Fisher, which established the hospital in its most delightful location, and one other small bequest, there has little other in the way of endowment. Various rooms have been fitted up by private individuals, and much of the equipment was secured by the efforts of outside enterprise, but many more things are needed. Chief among these is a laundry where the washing for the hospital could be done at much less cost than at present. It may be stated here that the county grant is just sufficient to cover the laundry bill.

HOW MRS. BOYD AVOIDED AN OPERATION

Canton, Ohio.—"I suffered from a female trouble which caused me much suffering, and two doctors decided that I would have to go through an operation before I could get well. My mother, who had been helped by Lydia E. Pinkham's Vegetable Compound, advised me to try it before submitting to an operation. It relieved me from my trouble so I can do my house work without any difficulty. I advise any woman who is afflicted with female troubles to give Lydia E. Pinkham's Vegetable Compound a trial and it will do as much for them."—Mrs. MARY BOYD, 1441 5th St., N. E., Canton, Ohio.

Sometimes there are serious conditions where a hospital operation is the only alternative, but on the other hand many women have been cured by this famous vegetable compound. Lydia E. Pinkham's Vegetable Compound, after doctors have said that an operation was necessary—every woman who wants to avoid an operation should give it a fair trial before submitting to such a trying ordeal.

If complications exist, write to Lydia E. Pinkham Medicine Co., Lynn, Mass., for advice. The result of many years' experience is at your service.

RICH, RED BLOOD MEANS HEALTH

Weak, Pale People Require a Blood-making Medicine

It took centuries for medical science to discover that the blood is the life. Now it is known that if the blood were always abundant, rich and pure, very few people would ever be ill. It was not until the end of the 19th century that an instrument was invented for measuring the red part of the blood. These doctors could tell just how anemic a patient had become, and with medicine to make new blood the patient soon got well.

All the blood in the body is nourished and kept rich and red by the food taken daily, but when for any reason, a person is run down and cannot make sufficient blood from the food to keep the body in health, then a blood-making medicine is required. The simplest and very best of blood-makers suitable for home use by anyone, is Dr. Williams' Pink Pills. When a course of these pills is taken their good effect is soon shown in an improved appetite, stronger nerves, a sound digestion and an ability to master your work and enjoy leisure hours. For women here is a prompt relief of or prevention of ailments which make life a burden. Mrs. Thos. Kaake, Trenton, Ont., tells how she obtained new health and strength through the use of Dr. Williams' Pink Pills. She says: "The weakness came on me so gradually that at first it was hardly noticeable. But after a time it got so that I could not go up stairs without stopping to rest. Every particle of color left my hands and face, and the least exertion would tire me and leave my heart palpitating violently. I consulted a doctor who told me the trouble was anemia, and prescribed a tonic. I took this medicine for some time, but it did not seem to help me a bit. Then I read of a cure in a similar case through Dr. Williams' Pink Pills and decided to try them. The result was these pills made me feel like a new woman. I have gained all my former health and strength, and feel that I owe my present condition entirely to Dr. Williams' Pink Pills."

You can get these pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

LAIBACH.

Historic City Has Been a Victim of Geography.

Appointment of an Inter-Allied commission to investigate recent incidents between Italians and Jugoslavs in Laibach calls attention to that historic city.

Desolated at various times by Hun, Turk and Magyar, for it lies in the natural pathway of conquests, and devastated by an earthquake in 1895, Laibach has for centuries been a victim of its geographical position. Situated more than 200 miles southwest of Vienna, on the bank of the Ljubach river, the city is in the midst of a valley which offered a gateway for military operations either from the Italian or Balkan peninsulas to the territory of what until recently was Western Austria-Hungary and Southern Germany.

In the early nineteenth century Laibach attained the crest of its importance as capital of Illyria, that variable region colonized by Greeks, ruled by Romans, immortalized by Shakespeare in "Twelfth Night," and restored to a political entity as the result of Napoleon's Italian operations.

Nearly a century ago, in 1821, it entertained the Congress of Laibach when the only two constitutional governments of that day, Great Britain and France, made Europe safe for embry democracy by declining to join Prussia, Russia and Austria in helping restore King Ferdinand to his Neapolitan throne from which he had been removed by a revolution. That congress was attended by Count Nesselrode, who helped scramble Poland in three national frying pans, and had a premature vision of a league of nations, which he called a "universal union." But his name-to-day is associated chiefly with a pudding, seemingly an earlier token of fame, which was supplanted by the 10-cent cigar.

In entering the new kingdom of the Serbs, Croats and Slovenes, Laibach came into its own. The city has been the centre of the Slovenian Diet. Under Austria-Hungary Laibach found itself politically oppressed by the Magyars, from whom it had suffered physically in 900.

The Chateau of Tivoli, one of Laibach's show places, was the residence of Marshal Radetzky, military Clemenceau of Austria, who emerged from retirement when 70 years old to train an army. When he was 83 he personally manoeuvred his forces in the Italian wars through a series of masterly retreats to await reinforcements with which he launched an aggressive campaign that culminated in the celebrated victory of Novara.

Most of the city's monuments commemorate Slovenes. Memorialized in bronze are Von Valvasor, historian, Vodnik, the Slovene Chaucer, and Preseren, whose verse is considered better than that of his predecessor.

Under the dual empire Laibach had a population not larger than Augusta, Ga., and was the capital of the Duchy of Carniola. From the hill which dominates the old town on the right bank of the river the Steiner Alps are visible to the north. On this hill is the castle of former governors of the province.

Laibach's industry before the war consisted mainly of the manufacture of bricks, oil, pottery, cloths, paper and fire hose.

How to Purify the Blood

INTESTINAL PARALYSIS

"Fruit-a-lives" Quickly Relieved This Chronic Trouble

589 CASBARI STREET, MONTREAL. "In my opinion, no other medicine is so curative for Constipation and Indigestion as 'Fruit-a-lives'."

I was a sufferer from these complaints for five years, and my sedentary occupation, Music, brought about a kind of Intestinal Paralysis; with nasty Headaches, belching gas, drowsiness after eating, and pain in the back.

I was induced to try 'Fruit-a-lives' and now for six months I have been entirely well". A. ROSENBERG. 50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-lives Limited, Ottawa.

German Thrift.

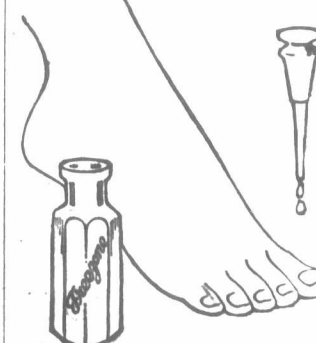

A British officer just returned from the newly liberated portions of France and Belgium, tell a curious tale regarding the flags with which the people celebrated their redemption, says the Edinburgh Scotsman. There were flags everywhere, thousands of them—Union Jacks, Stars and Stripes, Japanese, Belgian, French and Italian. The officer, struck on the variety and number of the emblems, remarked to a native that the people seemed to have been well prepared for the victorious return of the Allies and their own soldiers, and asked where the flags had been hidden. "Hidden?" replied the Frenchman, "they were not hidden. We bought them from the Germans!" Here, indeed, was a curious manifestation of German psychology, or perhaps trading instinct. Did the Germans anticipate their own retreat, and come prepared to equip the French and Belgians with the means of celebration? It would appear that they did so, and were willing to utilize the occasion for earning an honest penny—the only honest money they had earned for many a day.

PILES

Do not suffer another day with itching, bleeding, or painful Piles. No surgical operation required. Dr. Chase's Ointment will relieve you at once and as certainly cure you. LIFT OFF CORNS!

Apply few drops then lift sore, touchy corns off with fingers

Doesn't hurt a bit! Drop a little Freezone on an aching corn, instantly that corn stops hurting, then you lift it right out. Yes, magic! A tiny bottle of Freezone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation. Freezone is the sensational discovery of a Cincinnati genius. It is wonderful.

Scientifically prepared. Pleasing flavor.

HARTLAND, N. B., JUNE 12, 1919

MURRAY AND FOSTER

Small-bore politicians from St. John who take delight in sneering at the premier of New Brunswick, because of the fact that he was twice defeated at the polls before accepting office as premier, might do well to examine the record of the leader of the Nova Scotia government. Were they to do this, they would find that the gentleman who has given the sister province such brilliant service as leader of the government, was defeated at the polls in five different contests prior to 1896, and, like Premier Foster, never held a seat in the popular branch of the legislature until after he took over the premiership. The set-backs experienced in the early part of his career have not in the least interfered with his work as an administrator. Premier Foster is one of the youngest premiers that New Brunswick ever had, and as the people of this province know how to appreciate a good thing, it is quite within the range of possibility that he may at least equal the splendid record of the premier of Nova Scotia both in length of service and efficient administration.

Record Price For Hay

During the past few weeks and altogether new record has been reached for hay. The top notch being \$35 loose. During the last few days it has declined somewhat.

During the past few weeks also, the price of potatoes went to \$4 and shippers bought very heavily while the farmers profited by the high price the shippers were caught with the expensive goods on their hands. A local firm has 25 carloads while a New York firm has 700 carloads with absolutely no market.

Sand Dunes.

One of the most interesting and remarkable of the many regions for the observation of sand dunes lies between Bordeaux and Bayonne, in Gascony. The sea here throws every year upon the beach, along a line of 100 miles in length, some 5,000,000 cubic yards of sand. The prevailing westerly winds continue picking up the surface particles from the westward slope, where they are again deposited, and the entire ridge by this means alone moves gradually inward. In the course of years there has thus been formed a complex system of dunes, all approximately parallel with coast and with one another and of all altitudes up to 250 feet. These are marching steadily inward at a rate of from three to six feet a year, whole villages having sometimes been torn down to prevent burial and rebuilt at a distance.

Stopping the Trial.

"Gentlemen," said the sheriff, putting his head into the jury room, "if there is no chance of your agreeing immediately on a verdict, the judge will step out to lunch."
"Tell his honor he may go to lunch," said the foreman.
"I was about to add," continued the sheriff, "that the circus comes into town at two o'clock and it's twenty minutes to two now."
"H'm!" said the foreman, "tell the judge to hold on half a minute."

Tonight—Thursday—at the Star Theatre will be shown an interesting play "The Judge and the Girl," and on Saturday night the leading feature will be "Betty and the Buccaneers." Something over \$1200 was required, and up to yesterday only \$125 remained to be raised. The money was practically forthcoming from the members of their own congregation without outside solicitation. This is a creditable accomplishment for a congregation no larger than that of this church in Hartland.

YOU want to sell Your FARM!

I want to help you!

I have made a careful study of the problem of bringing the man who wants to buy into communication with the man who wants to sell, and the results attained are a guarantee of the success of my system of operation. During the eight years of my experience in the Real Estate business nearly two hundred farms have been sold through my agency, representing values aggregating over Half a Million Dollars. I have at present thirty-two applications for farms in Carleton County for the Spring 1913. If you want to sell your farm at a fair value, communicate with me at once.

FOUND ROADS

EXCELLENT

C. K. Palmer and a party of friends made an automobile trip to Carleton County and report having found the roads in splendid condition for so early in the season. They left home at 9.30 o'clock and proceeded to Woodstock by the western side of the river arriving there at noon. They then proceeded by way of Jacksonville to Waterville and thence to Victoria Corner, returning to Woodstock by the river road. On leaving Woodstock they took the eastern side of the river to the Pokok bridge which they crossed and continued their journey by the western side. The trip consumed thirteen hours and the distance travelled was 150 miles. Mr. Palmer says he never saw better roads at this season of the year. "I am satisfied" said Mr. Palmer in speaking of his trip "that Hon. Mr. Veniot is making an honest effort to give the people of the province good roads."

Card of Thanks

Mrs. John N. Perry and family wish to thank their relatives, friends and neighbors, and pastor, church, and choir for all their services rendered during the seven months' illness and death of our beloved husband and father, and for their numerous and beautiful floral offerings. We also express our deep gratitude to Rev. M. H. Manuel (Presbyterian) for his assistance at the funeral services, and for his kindly ministrations not only during our recent bereavement but during these later years when sickness has been in our home. We would further extend our sincere thanks to the Independent Order of Oddfellows and the Municipality of the County for their attendance at funeral, and for the beautiful and costly floral wreaths contributed by each.

Nothing Can Compare With It

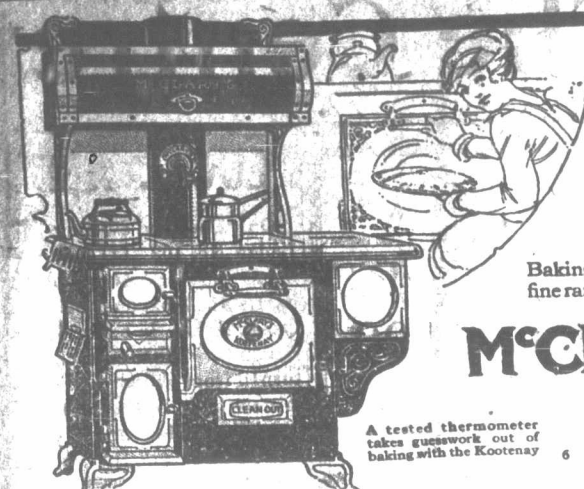

Mr. Fred Adams, New Rose, N.B., writes: "I have tried many medicines for coughs and colds but never found anything to compare to Dr. Chase's Syrup of Linseed and Turpentine. We have had the greatest satisfaction with this medicine for it never fails to relieve a cough and loosen it up."

Black as Dirt About the Eyes

Liver Was All Upset and There Was Pain Under the Shoulder-blade — Two Interesting Letters.

So many people suffer from derangements of the liver that we feel sure these two reports, just recently received, will prove interesting reading and valuable information to many readers of this paper.

Mrs. F. L. Harris, Kestley P.O., Sask., writes: "I was suffering from liver trouble—had a heavy pain under the shoulder blade all the time, and was nearly as black as dirt around the eyes, so I concluded to try some of Dr. Chase's Kidney-Liver Pills. I did so, and before I had taken one 25c box the pain had left me and I commenced to gain in flesh, and by the time I had taken two boxes I was completely cured and felt like a new person. My trouble was caused by heavy work, out-of-doors, and, of course, heavy eating and constipation. I would advise anyone suffering from kidney or liver trouble to give Dr. Chase's Pills a trial."

Mrs. Charles Terry, Tweed, Ont., writes: "Before I was married I was troubled with enlargement of the liver. My liver became so enlarged that you could detect the swellings on either side, and it was only with difficulty that I could get my clothes on. A friend advised me to try Dr. Chase's Kidney-Liver Pills and take them. I commenced this treatment, and used nine boxes, which cured me at that time. Then, about two or three years afterward I was troubled again with the swelling, but only on my right side. I secured some more Kidney-Liver Pills, and took them, which finally cured me. I have not been troubled in this way since. I can cheerfully recommend Dr. Chase's Kidney-Liver Pills to anyone having kidney or liver trouble."

"We have also found Dr. Chase's Linseed and Turpentine excellent for coughs and colds. In fact, any of Dr. Chase's medicines which we have used have been good."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25c a box, 5 for \$1.00, at all dealers or Remondsen Bates & Co., Limited, Toronto.

COPENHAGEN CHEWING TOBACCO

Copenhagen is used differently
from ordinary chewing tobacco.
Take a small pinch, for a short
time, put it between the lower lip
and gum, in the center.
Afterwards you can increase the
size of the pinch to suit the
strength of the chew you desire.
Copenhagen is strong, because
the tobacco of which it is made is
cut into fine grains, which makes it
smoke its strength thoroughly and
quickly.
Hence, a little "pinch" goes a
long way, showing that Copenhagen
is not only an economy tobacco,
but also one of the finest
quality, being made of the best,
old, rich, high-flavored tobacco.

home to their wives and sweet-

Opera House in honor of Donald
Simonds, a brother recently re-
turned from overseas. The com-
mittee had decorated the room
for the occasion and gave a very
patriotic setting to the festive
board. Following the King followed
by the National anthem,—"to
Our guest" proposed by G. E.
Wilson and responded to by
Donald Simonds, to the Ladies
proposed by Joseph Anderson
and responded to by Fred Cronk-

One of the oldest residents of
the county passed peacefully

ripe age of 91 years. Mr. Burr
moved to this place from Jack-

engaged in lumbering and incident-
ally ran the Exchange Hotel
here for a number of years. He
leaves to mourn four sons, Shep-
herd, with whom he made his
home, Maurice and Judeen of
Bridgewater, and Ashael of Seal-
tie, Wash., and four daughters,
Mrs. Jane Alexander, Mrs. Alice
Vandine, Mrs. C. R. Cliff and Mrs.
B. B. Estabrooks all of Centreville.
