to what the President is driving at. He said distinctly that his suggestion was merely his personal opinion, that he had not worked out the details, and that, after all, he merely sought to prevent the accumulation of great fortunes when they had become swollen to the point where they became a menace to the welfare of the community. When he spoke of fortunes swollen beyond healthy limits he had no possible idea of restricting the energy of a man who sees fit to acquire a few millions and to transmit them decently and in order to his sons or daughters, or to more distant relatives.

Transmit men in the rural districts would trary figure. On the contrary, I am told, he meant exactly what he said, which was gressive tax on legacies, not for the purpose of confiscation, not for the purpose of filling the treasury of the United States, but for the purpose of compelling men to distribute their estates as widely as possible, so as to prevent the creation.

### THE MYSTERIES OF MAGNETISM &

[From the Washington Post.]

It has long been known that some people exercised an undeniable mysterious influence over others, and it has for some time been a matter of conjecture, perhaps, rather than theory, that there passed between the individuals so related some subtle and impalpable emanation of psychic force which enabled one of the two to exercise more or less contol over the

This force has been known as animal magnetism, hypnotism, and mesmerism, due to the fact that Mesmer brought it prominently into notice in Paris by means of experiments in the last century. His claims were investigated in 1784 by a committee of members of the Faculty of Medicine and the Academy of Sciences, and were largely discredited. He went the length of using in explaining them the analogy of planetary magnetism and evident that the judge was wrong, no of every town around Vesuvius apart be baseless, the whole theory of aniattraction, and as that was found to machinery existed for the application regarded throughout the civilized world Paracelsus, b. 1493, was for a long time mal radiation, known to exist since regarded as overthrown. The results are particularly striking where, with the active force of the healer, are combined the power of suggestion, of the patient's subconscious self.

Amherstburg, April 18. - The town council and the public school board are in a dispute about school taxes. In a number of instances tenants had the residence which they occupied assessed for separate schools, but prior to the collection of the taxes, they removed, and the owner or the new tenant, being a supporter of public schools would have the taxes diverted to the public school fund. The public school board claims that these various amounts

They soon induce healthful, refreshing sleep, not by deadening the nerves, but by restoring them to healthy action and removing all symptoms of heart trouble, which is often the cause of nervousness and

Mrs. Ennis Chambers, Massey Station, Ont., writes: "I was troubled with dizziness, weak spells and fluttering of the heart. I was so bad at times I could not lie down in bed at nights but would have to sit up. I doctored for a whole year and got no relief. **BURDOCK BLOOD BITTERS** DID FOR HIM WHAT FOUR DOCTORS FAILED TO DO

KEEWATIN, ONT., July 28th. 1905. MESSRS. THE T. MILBURN Co., LTD.,

TORONTO, ONT., DEAB SIRS:—I am writing to let you know what Burdock Blood Bitters has done for me. what Burdock Blood Bitters has done for me.

I am a young man, twenty years old, and a
year ago last March I began to feel dull and
sick, and was greatly troubled with boils coming out on my face and neck, mostly on the
latter. I would no sooner get rid of one than
I would have, perhaps, two or three more
appear.

I had four doctors trying to cure me but they had very little success. They would stop them for a month or six weeks and then they would be as bad as ever again.

would be as bad as ever again.

Almost every patent medicine, advertised to cure boils, I could get hold of, I tried, but still without success. At last one day, last spring, someone happened to say; "why not try taking Burdock Blood Bitters for the blood?" I was willing to try anything and immediately sent for a bottle, but at the time was doubtful if it would be of any use. However, I used that bottle and while I was taking it I began to feel better, although I still kept having a few boils but not nearly such bed ones. I did not miss any work, while otherwise, I used to miss, sometimes, a week out of every month. I kept on taking the medicine until I had taken six bottles, and needless to any, I was not sorry I did so when I tell you I have not had a boil appear for the past three months. Everybody was surprised when they heard that Burdock Blood Bitters had done for me what four doctors failed to do. If any sufferers are afflicted with boils, I would strongly advise them to use B.B.B. It makes you feel like a new man. I always keep a bottle in the house, now, as I think it is a medicine that should be in every household.

Yours truly,

Yours truly, HENRY A. SMITH. Rev. T. T. George.
