THURSDAY, MAY 30, 1850.

The Cube Invesion. In another column we have given all the in ration on this subject which we find in the New York papers. The Evening Post appears to think that it was not Losez himself who was agrested at Savannah, but another person connected with the expedition, named GONZALEZ. It seems quite certain that, before the adventurers took to their heels, they had a second engagement with the Spanish troops, and that some of them must have been captured, for it is stated in a letter from Cardenas, that " five of the pirates were then in the stocks;" it is also certain that upwards of a hundred of them were captured on the lata de Mugeres, and that a bark and brig, which

Key West, Onlers have been issued by the United States Government to arrest all persons connected with the expedition as soon as they arrive in the United States, and in New York a man named Toxon, charged by the Spanish Consul with aiding and abetting the pirafical attack on the Island, has been arrested and held to bail to mover the accusation. The Post contains Judge Betts' charge to the Grand Jury on the subject, explanatory of the United States Law. The r contains the Proclamation of the General of Cuba, declaring the whole Island in a state of siege, and the coast in block-ade, ordering every ressel approaching the Island to be stopped and searched, and all such as contain passengers to be turned back, if their papers and registers are regular, but if not, if the papers and registers are counterfeits, or the vessel contains arms and ammunition, the said vessels to be treated as pirates, according to the ordinances of the Royal Armada. He also provings instant exceptions are sometimes of the registers are counterfeits, or the vessel contains arms and ammunition, the said vessels to be pay the expenses. I shall say no more on this subject as present, as it is my intention to publish these documents in order that the public may found to present, as it is my intention to publish these documents in order that the public may no more on this subject as the principal, but a considerable sum besides, to pay the expenses. I shall say no more on this subject as the principal, but a considerable sum besides, to pay the expenses. I shall say no more on this subject as the pay the expenses are the pay the expenses are the pay the expenses as the pay the the Royal Armada. He also promess instant execution, by shooting, to every invader caught, and to every Cuban aiding them in any way, or even refusing to assist the Government in their extinguishment. Knowing the sharp and summary practices in the consequently the most assists and are consequently the most assists and all countries. The only practice in the consequently the most assists and all countries. The only become at our Courts, and outside these pation. Knowing the sharp and summary practice of the Spaniards in these matters, we have no doubt but that every one of the invaders has long ere this been shot like a dog. We think no one will blame the Spanish Government for the agverity, and it is high time that this sort of ing work should be put an end to, for, Member Mr. Howe, and we trust that some of our Mem bers will show the same enterprising spirit, and introduce a fill into the present Session of our Legislature of the if persisted in and encouraged, it will surely end in bringing on war between England the United States, a thing much to be lamented, for the sake of our common origin; and the civilisation of the

The Buigrants A day or two ago, we called attention to the face that seventy poor creatures, mostly women and children, had been permitted to remain, for upwards of twenty-four hours, on the wharf of this port, exposed to the inclemency of the standard and the possible of the standard and the standard weather, though there are extensive premises exdo not fix odium or fraud on the individuals named. The amodation, which, nigrant Agent declares he has power to use. To day we publish a letter handed to us by the unfortunate, creatures, whose names are signed to it, and whom we found bivouacking, if we may use the term, on the Place d'Armes. They tell their own story, which, if it be true, and they appear quiet, well disposed prople, worthly of credit, is to us most extraordinary. We do not understand, in the first place, why free passages should have been gives to other emi-grants, and not to these; the compelling the poor men to my their own way to Montreal, has de-prived them of the few shillings which they had retained wherewith to buy food; nor can we understand why, with acres of sheds at the dispose Agent, he is not allowed to use them. est and most corrupt intrigues to maintain it position, has always neglected the managemen of the Emigration Department. They do not appear to care what becomes of the unhappy creatures whose poverty has driven them from the Old World to seek shelter in the New. We have no fault to find with Mr. Conlan, the Emigrant Agent, on the score of his kindness and humanity, but he has not the energy and activity manny, one so laborious and responsible an of-fice. The Government thought proper to remove the late Emigrant Agent at this port, for some ranson best known to themselves, but we will e to say, that had he been still in charge, he evils of which we now complain would not the evils of which we now complain would not have existed. As a respectable frishman of the city remarked to us d day or two since, the Min-stry were very glad to use the votes and shil-leishe of his countrymen to heat the Tories, but that the Tory Ministry had always paid proper aftention to the poor emigrants. We should like to have some expansation of all this, if the "or-gains" will vouchenge any revelation on the subject.

The Buptists and the Bible-Weather and Business, &c.

No XXIX.]

New York, May 25, 1850.

Cuba-Congress-Galphin-have been the three great topics of the week. In them every body has an interest, more and leas; and consequently all are trying to be posted up, regarding their progress and prospects of success. The landing of the Cuban Expedition has excited considerable sensation. Speculation in busy, conjecturing the probable issue of affairs in this new phase of American Republicanam. Not contented with a "piece" of Mexico, with California and her gold, New Mexico and her people, and sundry other advantages secured by Brother Jonathan in his recent descent on unoffending Mexico, his estellites are now greedy for the green late of Cuba, and apparently are determined to have it. As predicted, we have wound up the week with important news from General Lorez and his marauding land, and great he the rejoicings thereat, on the part of divers enthusiastic supporters of the Expedition in our city; Yen will have already received intolligence of the movements of the party—so that I need not take room here to recapitulate. The landing at Carleman was accomplished by only a few handed men, who cannot be considered as fair samples of the remaining thousands who are said to be engaged in the foray. The panic seems to have spread to Ha' ana with lightning calently, the seems to have spread to Ha' ana with lightning calently, the seems to have spread to the ana with lightning calently, the seems to have spread to the ana with lightning calently, the seems to have spread to the ana with lightning calently, the seems to have spread to the ana with lightning calently, the seems to have spread to the seems to have spread to the seems to have spread to the seems to officer capter? ly just in all its parts,—and another by Mr. Burt of South Carolina, which is agreed to by the majority, in eposition or the Claim. The House has taken no farther, action. The investigation has engendered a slight mistuat of the present Secretary of War, G.v. Ca. wrond, who, it will be remembered, was retained as the legal adviser of the "profits " in the concern. Rumors have got absend of the intended resignation of Mr. Crawford, and this may have added fuel to the universal excitement regarding this Galphin business. We probably shall not hear anything more definite until the matter is acted upon by Congress. The establishment or rejection of the opposing principles involved in the different Reports of the Committee of the House, will fix upon the present Congress, peculiar and distinctive aspect, from which we may judge its future action.

Congress continues its discussions, with the old result. Nothing of moment is passed. The Senate has debated the questions of Minta in New York and California, the Omnibus Bill, the Cuban Expedition, and has reagged in sundry petry difficulties. The House is inclined to consider an addition nacessary to the Frentier Army; has accepted the Report of a Committee adverse to giving the Representatives of New Mexico and Descret their seats in that body; and has grouned, cackled and threatened on the various questions of the day. So it goes. Both Houses meet, talk and adjourn to dinner—and the next morning resume a similar course. There is no unity of action in either, and the sole interest which attackes to Congressional doings in any shape, is the expression of sectional feeling and prejudices in the debates of members. These are worth looking at

manify—than which there eximps be a ground islatey. The sensate polaryoned action, and all-purned till Monday. Discussed from the sensative proposed action, and all-purned till Monday. lars, in sums ranging from \$125.000 to \$1000, for the erection of the appropriate buildings! This magnificent offer is to be submitted for the acceptance of the People at the next General Election. Population is increasing repidly in all parts of the country; the sear-coast is filing, up with contriercial towns; the people are getting industrious; prices have began to tall—and who, after this, can deny that California is a great country, and the American Nation a great People! Now if we had but the Spportunity to unite you, our Canadian neighbors and brethren, to an equal participation with us in the advantages which are every year growing upon us, we should have little else to wish for. Agitate! was O'Consent.'s cry in the times of Repeal in Ire-'Connecta's cry in the times of Repeal in Ire-

nd. Let us also agitate and sever give up; tili ncessions at least are gained, and all oppressive actinents removed forever. concessions at least are gates, and an opposed enactments removed forever.

Our city has been the center of much agitation, for some time past, on account of the proposed Bevisson and alteration of the Bible by the more zealous among the members of the Baptat Denomination. This project, first undertaken by a few enthusiastic individuals, has been prosecuted with great earnestness by Dr. Spencar H. Conz. a patriarch in the Baptist fold, and for many years a distinguished preacher in this city. The samual meeting of the denomination was held here on Wednesday and Thursday last, and called together an unusually large sisemblage from all parts of the Union. The result of the two day's deliberation has been the total defeat of the New Versionist party, and the resignation of Dr. Come as tion has been the total defeat of the New versionist party, and the resignation of Dr. Come as President of the American and Foreign Bible Society. The Bible thus survives another attempt to foist doctrines and creeds upon it.

The weather has been stormy for the greater part of the week. Grey clouds veiling the face of the sun, have served to cast a shade of gloom over business operations and there is little change.

of the sun, have served to cast a shade of gloon over business operations, and there is little change to notice in this respect. The Spring business will soon be over, and samples for the Fall trade are beginning to be brought in by the Liverpool steamers, and her Freight Market is steady, with some inquiry for Exchanges.

P.S.—Just as I am closing, a despatch has reached as ansouncing the flight of the Cuban invaders. The intelligence will be forwarded to you almost at the moment I am writing, by the telegraph; so that I need not refer to particulars. If this last statement should prove, true, (in authenticity is somewhat doubted in certain quarters,) it will be a consolation to many apprehensive minds hereabouts. We may at least hope it its true, and the purposes of that Expedition frustrated.

REDUCED RATES OF PREMIUM... HALL CREDIT RATES OF PREMIUM.

CREDIT RATES OF PREMIUM.

THE greet and decided success which has attended this Institution has instuced the Directors to REDUCE the RATES originally required in British North America to the ordinary European Rates. The result of such Reduction is to enable parties to avant themselves of the important benefits of Life Assurance at much lower Rates of Premium than those of any other Assurance Complany transacting business in Canada. The Directors have also resolved to extend to British North America the advantages afforded by the HALF CREDIT RATES of PREMIUM which have been so highly approved and are so generally adopted by Policy Holders in the United Kingdom. The most liberal conditions are likewise offered to the Assured in the limits to which they may proceed by sea or land, to other parts of North America without affecting their interest in their respective Policies. n their respective Policies.
