

COUNCIL TO APPLY BRAKES ON ALL FAKIRS IN FUTURE

Decided Last Night to Lock the Barn Door After Horse Got Out—Saturday Night's Affair Subject of Discussion.

Because the watch fakir put a killing upon an assemblage of people on the market Saturday night, the City Council decided last night to lock the barn door after the horse got away. The rate, steps were taken, as far as the license by-law is concerned, to mean matters up a bit so that fakirs could not ingratiate themselves upon unsuspecting Brantford officialdom, and thereby be allowed to roam at large in this neck-of-the-woods. Hereafter, the Mayor and City Clerk only will be required to sign licenses. The Mayor will be the responsible duty of these personages to enquire into the bona fides of the license applicant.

At the opening of the City Council meeting last night Mayor Hartman waxed indignant that something went wrong in an officialdom whereby Mr. Fakir with the watches was allowed on the market Saturday night. Both Market Clerk McAuley and Chief Slemin denied responsibility. Report comes from the City Treasurer's office that the young lady clerk would not have accepted the \$10 fee unless on receipt of an order from some person in authority. At any rate, the Mayor agreed that something had been put over, and put over properly.

Ald. Ryerson—If I am not very much mistaken, the Market Clerk allows people to go on the market for a fee. It was only an hour ago that Chief Slemin informed me that. Anybody with a half-dollar can get on the market.

Ald. Hollinrake—My information is that this fakir got a pedlar's license from the Chief. Then he got an auctioneer's license, probably from the Market Clerk. I have had complaints from Sealand to the effect that it was of no use of their coming to Brantford market, as the best places were taken on a Friday night.

Mayor Hartman—The Market Clerk stated to me Saturday night that he had an order from the Chief to give the fakir room. He charged him a dollar.

Ald. Ryerson—Has the Market Clerk any right to charge a man a dollar, fifty cents or any other sum?

DEATH LIST IS A TERRIBLE ONE

State of California Hits Rock and Sinks With all on Board.

SEATTLE, Wash., Aug. 19.—Fifty-one passengers who sailed from Seattle on the Steamer State of California, last Wednesday night, were rescued for Juneau and Skagway and presumably were on the ship when she struck a rock and sank in Gardner Bay, Alaska, last Sunday morning. Twenty-two passengers were taken on board at Prince Rupert, British Columbia, Wrangell and other points, and these also were on the boat at the time of the disaster, making a total of 76 passengers. Forty-three passengers were rescued and taken to Juneau by the Steamer Peterson, leaving 33 who probably perished. Seven of the crew are making the total dead forty.

These figures of the number of passengers are given by the Pacific Steamship Company. They will be verified by the pursuer, but at all his records. It is possible that some of the fifty-four passengers booked to sail from Seattle changed their minds at the last moment.

Ex-Chief of Thorold Placed Under Arrest

Charged With Embezzling \$5000 From Pension Fund.

PHILADELPHIA, Aug. 19.—Thomas W. MacDonald, a former chief of police of Thorold, Canada, was arrested here last night on a fugitive warrant charging him with embezzling \$5,000 from the police pension fund of that town. He disappeared on March 13, but not until his wife and family came to join him here recently, were the Canadian authorities able to get any clue as to his whereabouts.

Many a man who has been selfish all his life has nothing to show at the end of his career but the ill will of his neighbors.

SOLDIERS SURROUND MEETING HALL ARRESTING ALL THE STRIKE LEADERS BIG COUP IN VANCOUVER STRIKE

NANAIMO, B.C., Aug. 19.—The authorities last night brought off a big coup and the provincial jail is now the home of the leaders in the miners' strike. The number arrested cannot be ascertained exactly, as the arrests were still going on at an early hour this morning, all being made quietly by special constables with the aid of the military. The work started with a couple of arrests in the afternoon on a boat and ended with the wholesale capture of leaders at the meeting the union men held in Athletic Hall. The meeting was held to discuss the proposed agreement with the Jingle Hot Mine, but once the men were inside the soldiers surrounded the building on all sides. Doors were closed and from time to time the soldiers took a batch of four or five in number to the court house across the street. Those identified as being participants in the trouble of last Wednesday were placed under arrest. The others were searched and if found not carrying firearms were allowed to go.

HARRY THAW LOCATED IN THE PROVINCE OF QUEBEC

American Murderer Evidently Decided to Seek Refuge on Canadian Soil—Up to Dominion to Handle Case—Thaw is Under Arrest and Held Pending Decision.

[Canadian Press Despatch] COATICOOK, Que., Aug. 19.—Harry K. Thaw is under arrest here. He will be arraigned at Sherbrooke as a fugitive from justice in the United States. The final disposition of the prisoner, however, rests with the Dominion Government. The slayer of Stanford White was arrested at Hermengild, Bareford, early to-day, an hour after Thaw had driven across from New Hampshire. He admitted his identity, and complacently declared that he could not be extradited as he had committed no crime. He is supposed to have accompanied Thaw in his spectacular flight from the insane asylum at Matteawan, N.Y., last Sunday morning. They were found in his company and are being detained.

They were charged with being under suspicion of having committed an offense in another and friendly nation. These two, one of large build, and the other a small man, at once retained counsel, and refused to disclose their identities. The reward for Thaw's arrest belongs to Sheriff B. H. Kelsey, of Colebrook, N.H., who recognized Thaw on a Maine Central Railroad train last night, and after the fugitive had left the train at Hereford, pursued him to Hermengild-Bareford, where, at the request of the sheriff, a Canadian constable placed the fugitive under arrest.

Hermengild-Bareford is a small village two miles south of this place and Thaw was brought here. Though he had already admitted his identity to Sheriff Kelsey, he at first denied that he was the man, who escaped from Matteawan. Later he freely admitted the facts, of which the police were already convinced. He said, however, that he would fight any effort to extradite him, and retained Attorney J. Shircliffe of this place to look after his interests. Shircliffe had a long conference with his client, before he was to be arraigned at Sherbrooke this afternoon. Hector Verrett, K.C., of Coaticook, is acting for Sheriff Kelsey, who is the actual complainant in the case. Kelsey charged that Thaw was a fugitive from justice, and demanded that he be held for the United States authorities. The police immediately after Thaw's arrival here about six o'clock this morning, sent a message to Superintendent Kich of the Matteawan insane asylum, notifying him of the arrest and giving a description of the prisoner. The superintendent replied, asking that the man be held.

There is some question about the subsequent disposition of Thaw's companions. It was said they had been released, but their counsel refused to confirm or deny this. They appeared to be under surveillance all night, but were not locked up.

COATICOOK, Que., Aug. 19.—Chief of Police John Boudreau of Coaticook, gave out the following statement regarding this morning. "On information furnished us by Sheriff B. W. Kelsey of Colebrook, N.H., I arrested a man supposed to be Harry K. Thaw. The suspect is about 35 years of age, brown complexion. He wears a bluish suit and white derby hat. He was taken into custody at Bareford, five miles from here at 2 o'clock this morning. When arrested he did not say anything except that he was not Harry K. Thaw. He was brought to Coaticook, and will be removed to Sherbrooke, Que., the chief jail of the district, to be held there until further developments in the case. When told he was arrested under suspicion of being Harry K. Thaw, he looked to be nervous, but became cool immediately, and replied he was not the man wanted. He offered to bet ten dollars he wasn't Thaw. The suspect speaks fluent French with a Parisian accent.

Thaw arrived in Bareford in a team from the boundary, where he got out of an automobile.

Americans Took Him COATICOOK, Aug. 19.—Two Americans, believed to be members of the gang which helped Thaw escape from Matteawan, were arrested at St. John, N.B. These two disputes together accounted for a loss of upwards of 30,000 working days.

Prices Decline Slightly. The Department's index number of wholesale prices stood at 135.9 for July as compared with 136.9 for June, and 134.1 in July, 1912. The numbers are percentages of the price level during the decade 1890-1899. The chief advances occurred in grains and fodder, hogs and hog products, flour, oatmeal, wool, cotton and raw silk, with gains in sheep, mutton, lamb, hams, tin, metals, leathers, tobacco and sundries. Hides and tallow were higher, but cattle and beef were somewhat lower. Retail prices were comparatively steady during July. Eggs and hog products advanced, while butter showed a general decline.

And the less a man is abused the more he doesn't amount to.

DEMONSTRATION OF HYDRO LIGHT A demonstration of new bracket street lights under the Hydro-Electric system will be given right away from George to Alfred street on Dunscombe street. The current will be secured from the Western Counties Company for the same. It is proposed to let citizens see and judge for themselves the efficiency of the system.

CHARGED CITY CLERK LEONARD WITH FIGHTING HYDRO ELECTRIC

Ald. McFarland Waxed Warm Last Night When Told That Result of Months' Work Was Useless—A Real Fight.

After an aldermanic career of more or less smooth, untroubled sailing, Ald. Andrew McFarland, chairman of the fire and light committee, showed last night that he was a fighter from Taw when occasion arose. Something which savored pretty much of real Scotch teared a dressing-down which Ald. McFarland saw fit to impose upon Master of Routine Ceremonies City Clerk Leonard.

"If you are not trying to fight the carrying out of the Hydro-Electric ornamental system, what are you trying to do? There's something wrong," thundered Ald. McFarland. Pointing his hand at City Clerk Leonard as if he wanted to reach him, the Hydro-chairman declared: "You've rushed your name into the press in order to invalidate these petitions, raise a kick, and upset the whole work. We've worked for months trying to complete the job of getting sufficient signatures. You've told us to get out and get more signatures; we've done so. When we come back we're told to go and get more. We got the exact number you demanded, and now you say these petitions are not worth the paper they are written on."

It was truly a night of incidents at the City Council, members of which are surely not good hot weather champions. The trouble arose when Ald. McFarland asked if the Hydro-Electric ornamental light, petitions were sufficiently signed. City Clerk Leonard in reply said that the petitions for ornamental lights, so far as originally presented to him, were not worth the paper they were written upon. He had taken the names of all the owners on various streets, Colborne, Dalhousie, Queen, Market and George, within specified areas. If the petitions are recognized as proper petitions, they are sufficiently signed to show two-thirds of owners as having signed.

Ald. Hollinrake—Why does the City Solicitor say the petitions are invalid?

Ald. McFarland—I don't know what the grounds are for saying the petitions are invalid. Why certain statements should be made, even by the City Clerk, that the petitions were not presented.

Will Preserve Naval Policy VANCOUVER, B.C., Aug. 19.—As a banquet tendered by the Conservative Association to Hon. R. Rogers and Hon. J. D. Hazen, both stated the intention of the Government to preserve its naval policy. It would be put through Parliament, and the country would not be consulted until a permanent policy had been arrived at. "We are masters of the situation," declared Hazen, "and we intend to hold that position."

A Real Explosion Near Mexico City Car of Dynamite Injures Over 100 Persons.

MEXICO CITY, Aug. 19.—An explosion on a gondola loaded with dynamite on the tracks of a street car company in a thickly settled portion of Tacubaya, a suburb of the capital, killing or injuring more than 100 persons, chiefly women and children early this morning. Thirty bodies already have been taken from the ruins of the houses. Scores of wounded are lying in the streets.

The disaster is said to have been caused by a car loaded with iron pipe crashing into the dynamite car.

For a radius of 500 feet from the scene of the explosion not a house was left intact and not a vestige of many of the buildings remained. Most of the dwellings were of a dobe construction and those nearest where the car stood were converted into heaps of clay and dust under which it is estimated that scores of victims will be found.

The persons killed belonged for the most part to the laboring class.

FASHION'S WHIMS.

smart fashions of the moment to be initiated early. It is impossible to copy cheaply and in quantity the toilettes created by dress-makers. Only the "fakir" for the country may still buy every one, and dresses such as quiet and very far removed from the creations of this season—which are the result of science, taste.

They might seem to become more for smart toilettes, and it is with big impressions and an ex-impulsive. The manufacturers of the elegant "shot" effects of the latest of taffetas, and the delicious summer costumes, person cloak will be indispensable of those filmy toilettes, so slim dress-makers have designed of varied models to meet this they are all wide and enveloping to slip on and very little in.

When they are made of noire taffetas they are generally left untrimmed, which is striking and these some detail or trimming of the. BLACK LACE CLEVERLY SUBDUES THIS FUTURIST COLORING

A modern Tango frock is this graceful, clinging model of Futurist printed silk with conventional floral patterns on a pale yellow ground. The flowers are in shades of blue, red and mauve and a mauve sash encircles the high waistline. All this gaiety of color is somewhat subdued by the bodice drapery of black shadow lace, over flesh-tinted tulle. Coquettish black satin boots with buttoned tops add extra chic to this dancing frock.

Down by the Sea

The favorite way to reach the attractive beaches of the popular resorts on Long Island Sound, in the vicinity of New London, Conn., is via the Grand Trunk Railway System and the Central Vermont Railway, tourists being given the choice of routes including that magnificent trip through the Thousand Islands and the exciting run through the rapids of the St. Lawrence River to Montreal, which is one of the most delightful of summer trips.

The seashore express for New London leaves Montreal every night at 8.30 with electric lighted buffet sleeping cars and the day train at 8.30 in the morning with parlor and dining cars. The main attractions of Long Island resorts are warm sun, bathing, deep sea fishing, sailing, driving and tramping and a temperate climate, the temperature rarely rising above 75 degrees. A week in this vicinity will do as much good as a sea voyage. For seashore booklet, giving full information, apply to T. J. Nelson, Passenger Agent, G. E. Ry, Brantford.

CAN LAUGH AT LIFE'S MINOR ILLS

Since Dodd's Kidney Pills Cured Her Kidney Disease

New Brunswick Woman Tells How She Was Rescued From Ill Health By The Twin Remedies, Dodd's Kidney Pills and Dodd's Dyspepsia Tablets.

NEGUAC, Alain, P.O., N.B., Aug. 18.—(Special.)—Mrs. Joseph G. Savoy, a well known resident of his place, whose ill health has been a matter of much concern to her friends, is telling of the cure she found for all her troubles in Dodd's Kidney Pills and Dodd's Dyspepsia Tablets.

"My health is fine now," Mrs. Savoy says, in an interview. "The pains are gone from my side and back, and when I go to bed I can sleep. Before I started using Dodd's Kidney Pills and Dodd's Dyspepsia Tablets I could not eat anything heavy such as meat, but now I can eat practically by what I please with no ill-effects."

Mrs. Savoy was in a generally run-down condition and her cure came about by using the natural remedies, Dodd's Kidney Pills cured and invigorated her kidneys, thus purifying her blood and improving the circulation.

Dodd's Dyspepsia Tablets insured proper digestion of her food, thus furnishing the body with the nutrition it required. Women with healthy kidneys and sound digestion can afford to laugh at the minor ills of life.

THE CROP OUTLOOK

A bulletin just issued by the Census and Statistics office at Ottawa, reports that returns from crop-reporting correspondents, show that on the whole the weather during July was favorable for the growth of grain crops.

Taking 100 as representing a full crop, all the field crops of Canada on July 31, excepting only fall wheat (77.75), hay and clover (74.57) and alfalfa (76.35) are reported as having a condition above 80, the range being from 82 beans and corn for husking, to 89 for potatoes and mixed grains.

In the three Northwest provinces spring wheat is reported as 84.60 in Manitoba, 89 in Saskatchewan and 88 in Alberta, the other grain crops being correspondingly high, barley, especially in Saskatchewan and Alberta being 90 per cent or over. Root crops in the Northwest provinces are also particularly good.

The preliminary estimate of the yield per acre of fall wheat is 22.38 bushels, which for the harvested area in Ontario, Manitoba, Saskatchewan, Alberta and British Columbia of 825,800 acres indicates a total yield of 18,482,000 bushels, as compared with 16,396,000 bushels from 781,000 acres in 1912. This yield is 13 per cent above that of last year.

The yield of hay and clover is estimated at 9,395,500 tons from 7,621,600 acres, as compared with 11,189,000 tons from 7,633,600 acres or 1.47 ton per acre in 1912. Alfalfa with an average yield per acre of 1.38 ton, shows an estimated total production of 143,000 tons from 103,259 acres as compared with 210,100 tons from 111,300 acres, or 2.79 tons per acre in 1912.

SOME LAURIER NONSENSE

During his recent Quebec speech Sir Wilfrid Laurier remarked (Globe report): "We ask those who deny that Canada is a nation what is it then they answer that it is not a nation, that it is only a colony."

"Gentlemen, we cannot descend to the level of their small conception. Those who deny Canada's nationhood are extremists of the Conservative party."

It is just about waste time to controvert such rubbish as the above. There is not one Conservative who has ever asserted that the Dominion is not a nation but only a colony.

What they do claim is that it is a nation within an Empire and that the party in question has brought about the result to a very large extent—Confederation, the introduction of the National Policy, the building of the Canadian Pacific Railway for the opening of the West and so on.

As for Laurier's career it has been of a directly reverse nature. He said he would have used his musket against the volunteers had he been on the banks of the Saskatchewan at the time of the first Riel rebellion.

He has always permitted race and religious campaigns in Quebec for his political advantage. He sought by espousing Commercial Union to identify Canada in close subsidiary bonds with our neighbors.

He attempted by Reciprocity to make Canada (as Taft wrote) "an appendage of the United States."

So much for his ideas of Canadian nationality and his personal efforts regarding the same. Canada is to-day a nation within the great British Empire not because of him, but in spite of him.

TAMMANY HALL

A gang of New York reporters were admitted to the presence of Charles F. Murphy, the head of Tammany Hall, and it is reported that he smiled, and smiled "and then he smiled some more, while he had that same reticent manner of the cat who knew what had happened to the canary, but was not saying anything about it.

A score or more of questions were directed at him, but still he smiled and smiled as he replied to each: "Nothing to say."

That is the manner of Tammany chiefs every time. They never talk for publication, and never give their orders direct—that is done through the medium of others.

the police force, in the employ of electric railways and practically everywhere if the organization says the word.

To stand in with Tammany is to get a job in a variety of directions and hence the great power of that body. In addition the rake offs are continuous and numerous and the protection of all forms of vice yields a handsome yearly income.

The head of the organization (as Croker did) usually quits after a few years a multi-millionaire. The fact that this outfit has downed Governor Sulzer as Governor of New York State, is in a sense regarded as more significant than the charges against the man himself.

One citizen has offered \$100,000 to help fight the "Tiger," and it is related that while Sulzer is not receiving heavy sympathy, the eyes of most observers are cast just beyond the governor to the ruthless organization which has assailed him. While Tammany is bent on retiring Sulzer more forces than ever before enlisted, seem bent on the task of retiring Tammany.

That this can be done seems very problematical for its ramifications are deep seated, beyond compare with any other city anywhere.

THE ARREST OF THAW

The fact that Thaw has been arrested in Quebec presents a somewhat complicated situation. At the present time two men are claiming to be the Governors of New York State, and if one acts the other is liable to veto same.

Then as to the matter of extradition. He cannot be deported as a murderer, because a jury has said that he was not responsible at the time, and therefore that a crime was not perpetrated.

If it should be sought to show that he is insane, he and his lawyers would probably deny that, and there would be lengthy litigation.

The most probable plan will be for the Canadian Government to send him back as an undesirable, and that just where Thaw and his advisers made a huge mistake when they decided on the Dominion as a place of refuge.

He would be safer right now in any other of the States, except New York, than he is here.

NOTES AND COMMENTS

Small wonder that fight up, up of recent heat Canada should have a Thaw.

It is said that the hobos who ride under freight cars have decided to petition the railroads to sling hampers there for their greater comfort.

Mrs. Catt, President of the International Suffrage Association, has arrived in New York to start the training of suffragette orators. It won't be any cat and mouse business either.

In the case of Hamilton just now it reads: "The tumult and the shouting dies, Old girls-and boys they all depart, Nothing new to sacrifice, Except an over-burdened heart."

Mrs. Thaw is reported to be "happy, almost girlish in her joy" that the son, whom everyone knows should be kept under restraint, escaped from the authorities. What can beat mother love?

A prominent newspaper man in the Old Land predicts that newspapers there will soon be delivered by dropping from aeroplanes. If they ever reach the size of some of the New York Sunday editions the carnage will be awful.

Anybody who expects to buy a solid gold watch for \$20 must know that somebody or the other has been done somewhere, or else that they are doing the man selling same. When it is found that the latter has done them—well of course that is entirely different.

If it proves to be true, as alleged, that President Huerta has decided that there must be recognition of Mexico, by the United States, or else war, then Uncle Sam has a very nasty problem on hand. No one doubts in the last named event, what would happen to the gentlemen of the sombrero, but it would take a long, and expensive time in life and money to do it.

To Enquirer—The origin of the national emblem of Scotland, the thistle, was this. At the period of Danish invasions into Scotland, on one occasion, contrary to their custom of only fighting in daytime, the Danes made a

CASTORIA

night attack upon a Scottish stronghold. They crept up barefooted in order to make as little noise as possible, when one of them, who stepped on a healthy thistle, gave such a yell as to betray the attack. An alarm was given and the sons of the heather fell upon the enemy with terrible slaughter. The Scottish kings then adopted the thistle as the royal insignia with the motto, "Nemo me impune lacessit!"—"No one wounds me with impunity."

THAW IS LOCATED IN THE PROVINCE OF QUEBEC

(Continued from Page 1) O'Mara refused to say on what he based his opinion, but he was evidently pleased with the situation.

Mother is Anxious NEW YORK, Aug. 19.—Mrs. Mary Copley Thaw quietly left her home in New York this morning and took the 9:45 Pennsylvania train for Cresson, near Pittsburg, where she will await further word from Thaw outside the letter which he said all was well and promised to join her at Cresson.

No Word Yet. OTTAWA, Ont., Aug. 19.—Up to noon neither the Justice Department nor the Immigration Department here had received any official information of the arrest of Harry Thaw at Coaticook. Officials of the Justice Department stated that if the man was Thaw he could not be detained legally as being an escaped inmate of an asylum was not an indictable offence. At the Immigration department this statement was made.

"That he can be deported from Coaticook as an undesirable, provided that he did not have transportation reading to some foreign point via Canada. It is intimated that this would be the action taken. This would mean that Thaw would be sent back over the border to New Hampshire if he did not qualify as a tourist passing through Canada."

Absolute Proof. MONTREAL, Aug. 19.—What is considered as absolute proof that the man under arrest here is Harry K. Thaw, is the fact that he sent a number of telegrams, to it is rumored, the Thaw lawyers and the members of his family. A message, it is stated, was sent to Cresson.

When searched the suspect's pockets were found to be filled with papers addressed to "Harry K. Thaw," thus completely identifying the arrested man as the slayer of Stanford White.

Will Be Deported. OTTAWA, Ont., Aug. 19.—Immigration officials stated this afternoon that Harry K. Thaw will be deported under the clause in the regulations which provides that any person, who within five years of his incarceration in an insane asylum or penitentiary enters Canada, may be sent back as an undesirable.

Passed Line Here. COLERBROOK, N. H., Aug. 19.—Harry Thaw is reported under arrest at Coaticook, Province of Quebec. The man under arrest passed through here on a train last night after crossed the line into Canada. Deputy Sheriff B. H. Kelsey of this town was on the train and claims to have recognized the man and that the latter admitted that he was Thaw.

Kelsey followed the man to Coaticook, where he said he was arrested. According to Kelsey the man he believes is Thaw was inquiring of the county seat and some one directed him to the sheriff. Kelsey saying the latter could tell him.

Kelsey looked at him rather closely which caused the other to remark: "You don't know who I am." "I could make a pretty good guess. You are Thaw," the sheriff replied. The stranger thereupon admitted his identity and added: "But you don't want me; you couldn't harm me, if you wanted to."

The two men then discussed the situation briefly. At this station Kelsey left the train as did one of two men who were accompanying the supposed Thaw.

Later Kelsey obtained the assistance of L. W. Barber and Warner Drew and with an automobile they followed the train. They learned that the stranger and his companion left the train at Riverside, where they were joined by the other man who meanwhile had obtained an automobile and together they crossed the line into Canada, passing through Barefoot to Coaticook.

The prisoner told the sheriff that he took the train "this side of Boston" but would make no other statement as to his movements since Sunday when Thaw escaped from the insane asylum at Matteawan, N. Y. Kelsey says that one of the men with Thaw was a large man and the other considerably smaller.

Provincial Police There. MONTREAL, Aug. 19.—Believing that the Coaticook police authorities have arrested Harry Thaw, the Quebec provincial police department this morning instructed Chief Detective McCackill to proceed at once to Coaticook to assist the local police with the case.

Detective Garrison, acting chief of the provincial department in Montreal, said to-day that as far as they were concerned unless a warrant was produced by the United States authorities in which Thaw was charged with an indictable offence White's slayer could not be held here.

John Hoolihan, head of the local immigration department gives it as his opinion, however, that Thaw can and likely will be deported as an undesirable.

To The Editor

MR ROBERT HENRY EXPLAINS The following letter has been addressed to The Expositor by Mr. Henry:

Goderich, Aug. 16th, 1913. Editor Expositor: Brantford, Some months ago I was informed you had some editorial comments to make about the Brantford Electric Power Co., Limited and the Brantford waterworks. I asked you for clippings from your paper which you were kind enough to send me. I find the controversy was between you and myself. The Expositor on the subject of public ownership of works pertaining to the municipality. This I will not discuss, but as you in a mild way have reflected on my associates and myself, I will, if you will give me space in your column deal with both questions. The Brantford Electric & Power Co., Limited.

The company had thousands and thousands of dollars invested in the business, they had a very extensive plant at the Locks, steam and water power and they had pole lines and wires all over the city, they successfully supplied the city with public lighting—private dwellings, stores, manufacturing establishments, and with a good service. The shareholders were composed of all political parties, but the Mayor and the majority of his aldermen thought they had an opportunity of dealing me a crushing blow as managing director of the company, and add as they thought to their importance and popularity, they submitted a by-law to the ratepayers to give them ways and means to build a "City plant," for the purpose of robbing the shareholders of the existing company of their investments. True, I was the leader of the forces in behalf of the existing company and against the mayor and aldermen. It required no skill on my part, the ratepayers of Brantford, who can be trusted in all matters as between right and wrong, arose in their might, and in every polling booth in Brantford, with the exception of one, gave the by-law a terrible blow, the promoters of that infamous by-law went down to an ignominious and humiliating defeat.

The editor of the Courier did splendid work at that time. It was not a question of public ownership, he was simply defending the citizen from public robbery on the part of men who had a brief lease of power, and did not know how to use it. Brantford Waterworks, 1887, 26 Years Ago.

A long time back you state that "Robert Henry and his Conservative associates" wanted to "take over" the contract for the new water works to an American company, Messrs. Moffatt, Hodgins & Clarke, of Watertown, N.Y. That is quite true, I do not see why you should drag in "politics," the members of the firm and their staff of engineers had no votes municipal, provincial or federal in Canada.

There were two tenders received, one from the American company, the other from the home company. You refer to the waters of D'Arbigny creek as our source of supply. That is not correct. It mattered not to us or to the good people of Brantford, whose servants we were, where the water came from, D'Arbigny Creek, Arrarat or the Sea of Galilee.

As far as purity of the water was concerned, our contract, which was drawn up at the hands of able solicitors and Mr. B. H. Rothwell and his committee. We spent days and hours in guarding the interests of the people. The contract provided for a supply of water ample for the requirements of the city. Provided for a pure water supply subject to the inspection of the Sanitary Board of Health. Provided for the lowest rates procurable by any city in the United States or Canada of like size. Provided for the most modern equipment known to waterworks constructors. Provided for a steel tower on Terrace Hill for the protection of that important part of the city. Provided for duplicate sponges to protect the wells from any impurities, such as used in modern waterworks; think these last two important essentials have not been adopted in your present system.

Both contracts, as you state, pointed to municipal ownership in the future, as they provided for the city

taking over the works under the Ontario Municipal Act, which existed then as now.

As to the home company's tender, very little needs be said. The gentlemen connected with the same were men of the highest standing and respectability, but they knew nothing about the construction of a modern waterworks system, and did not have the requisite knowledge or possess the facilities of the modern American firm.

The editor of the Courier "did not see eye to eye with my associates and myself," but when the "big road roller political machine" came out in the open, and ordered its devotees to absent themselves from their duties in the council and block public business, he denounced such methods; men who are elected to office and shirk their duties by refusing to record their votes, can never be trusted.

In the dying hours of the council of 1887 the political machine prevented a quorum being present, public business was not finished, and we were unable to award the waterworks contract to the American contractors which my associates and myself were strongly in favor of, believing the awarding of the contract to them was in the best interests of Brantford.

In the financial statement of the City of Brantford, which is always well prepared document, the thousands of dollars profit to the credit of the waterworks appears, but where does the money come from representing these profits, the profits are taken out of the pockets of the water users, and no where else. This is not fair to them. The city

ing to record their votes, can never be trusted.

DEATH TRAP IS NOW FIXED UP

Wilson Arch on Hamilton Road Feared by Autoists is Repaired.

The Courier a few days ago pointed out the wretched condition of the approaches to the Wilson Arch on the Hamilton road. Reeve Kendrick ordered the approaches put in proper shape, and yesterday the work was done. Township Clerk Smith said this morning that the approaches have been put in good shape, crushed stone and gravel having been used. Two deep ruts on either side of the arch were the cause of several automobile axles being broken. Probably while the men were toiling in the sun, the following letter from the Motor League was being written:

Brantford, Aug. 18, '13. James A. Smith, Esq., Clerk Brant Township, Court House, City.

Dear Sir,—The Motor League beg to call your attention to the condition of the new bridge which has just been completed on the Hamilton Road.

We have information that one or two axles and several springs have been broken, and that the bridge is in a dangerous condition. The contractors should remedy it or there is apt to be a very serious accident. We do not think the matter has been drawn to your attention if it would have been fixed up, and we have taken the liberty of writing you regarding same.

The fire and light chairman declared this morning that there was absolutely no doubt but that the petitions were legal.

"I'll tell you," he said, "it's pretty tough to work on a project for months the way Aid, Ryerson and I have, and then have it thrown in our teeth that the whole thing is upset. We secured every name we were asked to secure, and put up with more official gibbling and red tape than was necessary. There was bound to be an explosion."

TOLD AID. WARD TO STAY IN HIS OWN BACK YARD

Ald. Spence Declines to Permit Meddling Alderman to Interfere in the Finance Committee's Work—Proper Procedure Advised.

"You're butting into another committee's work, practically placing yourself on the finance committee. Where angels fear to tread, you don't hesitate to rush in. You have been a defender of committee rights all the year, defending the board of works and all its iniquities up hill and down dale, rejecting any suggestion which wasn't first hatched, born and nursed in committee. Now you turn around and want to switch the job which is within the province of the finance committee."

These were the atmospheric conditions in the Council chamber last night, superinduced by a cross fire of words between Ald. Spence and Ald. Ward, the latter having just moved a resolution for an investigation into matters pertaining to the completed work of the assessors this year.

Ald. Ward's resolution was for the appointment of a special committee, which was being discovered in the assessment. The Council had just heard a complaint from an Eagle Place resident and Ald. Ward immediately wanted to start something in the investigation line.

Ald. Spence's prerogative was preceded by an explanation that the finance committee in its special report on assessment matters last spring, had invited property holders at all times to appeal before the committee and make their complaints. In

addition to that, there was a court of revision to adjust matters. The invitation of the committee to hear complaints was still open. The resolution of Ald. Ward however, defender of committee rights, practically meant that the finance committee was not equal to the situation.

It was one of those pretty rows which sometimes make a hot night hotter. It followed a beautiful argument between Ald. McFarland and City Clerk Leonard, and atmospheric conditions were only exceeded by the volubility of talk.

The upshot of the Ward-Spence duel, was a disappointed Ward. Ald Spence having plainly stated that the finance committee would look after things and investigate the complaint made by Mr. Lance Dean, took the short route to the open door and left the chamber. He thereby broke the quorum and council automatically adjourned. Ald. Ward's resolution was left where it was written, to be gathered in to-day by the janitor or janitress.

The original start of the row was when Mr. Dean, 43 Superior street, addressed the council re-assessment matters. He declared cottages were assessed at \$1,200 to \$1,450, while in the East ward houses storey and a half, with all modern conveniences, were assessed at the same figure. He declared it was unfair. He submitted figures to show that increases recent-

ly made were decidedly unfair. The cottage paid the toll or rather the cottager. Workingmen's houses were being increased too rapidly. Mr. Dean claimed that two storey houses owned by Assessor Ludlow himself were only assessed for \$1,250. He showed \$575 raise on two houses in two years, having the tax bills in his hand.

Here Was the Resolution

In connection with the allegations made by Mr. Dean, Ald. Ward later introduced the following resolution:

Moved by Ald. Ward, seconded by Ald. Sutch, That in view of the widespread dissatisfaction attending the recently completed work of the city assessors, in connection with which it is claimed that a large number of the smaller property holders have been unfairly assessed and to an extent disproportionate to the valuation placed upon the properties of the largely and more wealthy rate-payers of the city: Be it resolved, That a special committee, consisting of Ald. Spence, Hollinrake, Pitchee, Quinlan, Sutch, and Ward, be appointed to make a thorough inquiry into the matter and report re. same.

London borrowing a pitcher from the big show to beat out Ottawa! The Canadian League has developed into merely a matter of loosening up for long-priced players.

Fans at the park yesterday were only sympathetic in one direction and that was towards a president upon whom has been inflicted the greatest baseball managerial ever known in the Canadian League. Incidentally the same affliction has been inflicted upon the baseball public.

A despatch to the Globe this morning said: "Manager Wagner was in Detroit looking for players badly needed." The Globe correspondent could have expressed himself just as well by omitting the phrase "badly needed." The score of the game was quite sufficient.

A Comedy Sketch Entitled "Red Sox Walloped Again"

Was Staged For the Benefit of a Few Hundred Fans Behind the Dyke Yesterday Afternoon - Stage Manager Wagner Being Away Scouting for New Talent, Players Run Things Their Own Way.

The baseball game at Agricultural Park yesterday afternoon, was more of a joke or a farce than a ball game, as far as the Brantford team was concerned. It is true that the Red Sox presented a patched up team, with three pitchers in the outfield, but even under the circumstances, there was no excuse for the dumb fielding that was served up by the local trio. The outfield, composed of Clermont, Coose and Mulloy gave the lowest exhibition of fielding seen at the ball park this year, and simply made a laughing stock of the game.

The latter end of the game became such a farce that the 1500 grown-up spectators and the 200 school children forsook the Red Sox and started boosting for Guelph. The game, through no fault of the visitors, was not as entertaining as a Punch and Judy show. Jo Jo Keenan, too, was as slow as molasses in winter time. Louis Cook calculated that he was up against something easy, and by the way, his calculations were correct, and trotted out Behan to do the twirling. Behan had an easy afternoon's work, and at the same time shut the locals out, 9-0, and allowed only one hit. Gero either did not want to pitch or else was too unconcerned or indifferent to try. He allowed the Leafs to fatten their batting averages and pile up 17 hits for 9 runs. Lamond and Rowe were the only ones that showed any interest in the game, or made even an attempt to win. Wagner was away spending the week-end and did not arrive in the city in time, and his place was ably filled by Rowe. The fact still remains that the Red Sox are good losers, as they lose nearly every day. There is one consolation, that they are good for something, even if it is losing. Everything comes to those who wait, even if it is only sorrow, and Brantford is getting her share. The features of the game, outside of Brantford's "amateur production," was the three bagger of Wiltse in the first inning, which assisted by a wild throw by Nelson, was able to make the circuit, and the home run made by Harris in the ninth. Fryer, the Leafs' husky left fielder, had the misfortune of having one of his thumbs split by being struck by a pitched ball when he came up in the last inning. He was given free transportation, and Manager Cook, who took his place, got around to the home plate, and then played left field while the last three Red Sox batters went out, one, two, three.

THE GIANTS GRABBED TWO FROM PITTSBURG

Brooklyn Did the Same With St. Louis Chicago Made Sensational Rally.

NEW YORK, Aug. 19.—The New York champions increased their lead by winning a double header from Pittsburgh yesterday. The scores being 5 to 3 and 5 to 1. In the first game both Demaree and Cannitz yielded ten hits, but the New York pitcher was stronger in the pinches. Cannitz was handicapped by the poor catching of Simon, the Giants stealing seven bases. Tesreau was hit for four runs in the second game, but the Pirates failed to reap the benefit of their opportunities. Collins muffed a fly. BROOKLYN, Aug. 19.—Brooklyn took two games of yesterday's double header with St. Louis by scores of 7 to 1 and 6 to 2. Allen and Rucker were both effective, the former allowing four hits and the latter six. Collins, secured from Newark, played centre for Brooklyn in the second game and ran bases well, although he muffed a fly. Seven double plays featured the two battles.

Lightning Struck the Stand

BOSTON, Aug. 19.—Boston won from Cincinnati yesterday when a heavy rain and electric storm terminated the first game of a scheduled double header in the sixth inning. During the storm, lightning struck the grand stand. Two telegraph operators working in the press stand on the roof, received slight shocks but no other person was hurt.

A Real Rally by the Cubs

PHILADELPHIA, Aug. 19.—For eight innings yesterday's game here was hard fought. Then Chicago developed a ninth inning batting rally, and by making nine consecutive hits scored six runs and won the game from Philadelphia by 10 to 4.

Snake Swallowed Players Golf Ball On The 17 Hole

HUTCHINSON, Kan., Aug. 18.—In match play for the McKinley Golf trophy in the tournament of the Hutchinson Country Club in a game between Fryer Combs and John Schwinn, the latter lost on the 17th hole when a bull-snake swallowed his golf ball. Later the snake was run down and killed, but the "lost ball" was the game for Schwinn, according to the rules. Schwinn was one up on Combs at the seventeenth hole, and his approach shot seemed to leave him certain of winning, when the snake was seen to wriggle across the green and before the players or their caddies could reach him had swallowed the ball and made off into the rocks and grass. Combs won this and the home hole.

Soft Ball

Last night at Recreation Park the Dufferin Softball team defeated the Ham and Nott team 6 to 2. The batteries were: Ham and Nott, Wright and Saunders; Dufferin, Hetherington and Allan. Several rinks from the Pastime Bowling Club will go to Mt. Pleasant Friday night to bowl. Thursday night six rinks from the Dufferin club will bowl with the Pastimes on the latter's green. Never give a promise that you do not fulfil.

TORONTO DEFEATS THE LEAGUE LEADERS 3-2

Johnny Lush Did Some Brilliant Heaving for the Leafs.

That barrel of Newark speed availed nothing yesterday when the present champions beat the prospective pennant winners by 3 to 2. The weather clerk furnished one of those days so much in favor with Johnny Lush—sizzling heat and no wind. Being strictly up to the specifications laid down by the Williamsport side-winder he had no excuses. He did not need any. If he had heeded any they were right at his own door, because the only runs scored by the enemy were the result of a base on balls in the first and second innings and a muffed fly in the fifth. These were entered against Johnny, but when the game was over the balance was strongly in his favor. One of the two bases on balls is credited by Lush with an intentional pass to McCarty in the last inning. Geo. Bell was arrayed against Johnny, but George's right-handed efforts were not to be compared with the Kelley left-hander's flinging.

Canadian League

Rogers' Good Catch Saved the Senators

OTTAWA, Aug. 19.—Ottawa continued their winning streak by defeating Berlin by 5 to 3 yesterday. Until the sixth inning Reifer did not allow a hit. In the ninth with men on second and third, two men gone and two runs needed to tie the score, McAvoy smashed one to deep left. It looked good for a three bagger, but Rogers pulled it down after a hard run and saved his side.

Tracey Weakened in Last Inning PETERBORO, Aug. 19.—After outpitching Heck all through, Tracey weakened in the ninth innings yesterday and London grabbed three runs enough to beat Peterboro by 5 to 4. Hilliard's great fielding featured the game.

The Hams Nosed Out Victory in the Ninth. ST. THOMAS, Aug. 19.—Garlow bested Howick in a pitchers' duel here yesterday, and the Saints' lost the first of the series with the Hams; 4 to 3. While Garlow received the best support, Hamilton won out in the ninth when they secured two runs on four clean singles.

Football

All Star Versus Ireland.

This game will be played at Tutela Park on Wednesday, Aug. 20th, and should prove one of the most interesting games played during the season. It is the first occasion since the formation of the Brantford Football League that an Irish team has had the opportunity to qualify in future international games. The most conspicuous player on the Irish team is Jimmy Morrow who holds the Irish International (amateur) cap and badge. Both teams are requested to dress at King Edward school. Through the courtesy of the Tutela and Cockshutt clubs the players will be supplied with jerseys but should bring the remainder of the uniform with them. The teams will be as follows: Ireland—Irish (Cockshutt), goal; Morrow and Taylor (Scots), backs; Palmer (Y.M.C.A.), Houson (St. A.), J. Scanton (Tigers), half backs; Hutchins (St. A.), Scanton (Tigers), Mac Gill (Scots), C. Uniacke (Cockshutt), Thomas (Tigers), forwards; reserves—R. O'Donnell and J. Riley. All Stars—Stanley (Tutela), goal; Stubbs (Cockshutt), Harbor (Dragoons), backs; Little (Scots), Roberts (Y.M.C.), McLeod (Tutela), half backs; Plant (Cockshutt), Humphreys (Duffs), Keightley (S.O.E.), Mercer (Duffs), and Fisher (Y.M.C.), forwards; reserves: Tigwell (Y.M.C.), Mason (Y.M.C.), Biggs (Duffs), G. Richardson (Cockshutt), Johnson (S.O.E.), Referee, S. Farnsworth.

Notices of births, marriages and deaths, ordered in The Daily Courier, will be inserted in the Weekly Courier free of charge. Charges—Births, marriages, deaths, memorials and cards of thanks, 50 cents for first insertion, and 25 cents for each subsequent insertion.

SENATORS BEAT THE NAPS IN THE NINTH

Detroit Nosed Out Athletics in the Ninth--Yanks Beat St. Louis.

CLEVELAND, Aug. 19.—Washington won the first game of a two-game series with Cleveland which started here yesterday. The game was a close one in the first nine innings, but in the tenth inning a batting rally netted the visitors three runs and the contest. The score was 6 to 3. Pitcher Boehling of Washington, who set an early season's record by winning eleven straight games, broke his losing streak. ST. LOUIS, Aug. 19.—New York gained a lead off Mitchell in the first and fifth innings, the visitors taking the game by 4 to 2. Yesterday's game was Mitchell's first since his trouble with Umpire O'Loughlin in New York last week. President Johnson lifting the pitchers' suspension this morning. CHICAGO, Aug. 19.—Chicago defeated Boston 1 to 0 yesterday in the initial game of the visitors' farewell series here. A daring, double steal in the second inning by Collins and Chase gave the locals the game. Only once did Manager Carrigan's team get a man to third base. DETROIT, Aug. 19.—One man was out in the ninth; two were on bases. Morarity shot a sizzling single into right, and Gainer raced home from second with the run that enabled Detroit to defeat Philadelphia 5 to 4. From the minute it started until its thrilling finale the game was a grueling, desperate struggle.

THE COMING OF THE ROBIN AND THE Brantford Red Bird. I'm proud to own a Brantford.

Summer is known among lovers of the outdoors for two things. It brings the robin, and among the bicyclists, the Brantford Red Bird, a magnificently built bicycle that well deserves the enthusiastic support of its thousands of admirers.

The Red Bird is a light roadster model of the famous Brantford line of wheels which for years have held their reputation for service and pleasure, unsurpassed by any bicycle in the world.

Know the joy and the health of bicycling this year. But be sure you get a "Brantford" Bicycle.

This wheel combines great strength and lightness in an unusual way. It is exceptionally strong, because of its forged joints and method of internal reinforcement.

This neat, compact, and wonderfully strong construction gives the "Brantford" lightness and speed that is truly bird-like. The "Brantford" has been rightly named the "Red Bird."

Let Us Show You a "Brantford" Wheel. F. H. GOTT, BRANTFORD, ONT.

London Goes to Big League To Borrow Clean-Up Pitcher

(London Free Press). President Stevely and several directors of the London Baseball club were guests of the Cleveland American League club on Sunday, when Philadelphia played the Naps. Among the missives of the London club representatives at Cleveland was the securing of another pitcher from the Cleveland team for Manager Deane's pennant hopes and Secretary Barnard, of the Cleveland club, assured President Stevely that by the time London plays in Ottawa on Thursday next a consistent hurler would be sent at Manager Deane's disposal in an effort to win the 1913 championship.

Many Fans go to Ottawa. When London opens its last series in Ottawa on Thursday many fans from London will be on the scene of action, as a party is leaving here this evening for Peterboro, to be there for Booster Day at the Electric City on Wednesday, and will accompany the team to Ottawa that night, returning home after the three game series on Sunday morning. Tecumseh Park Leased. In the face of all the rumors that Tecumseh Park will be cut up into building lots, and that it would be used for factory sites, the London club has again leased the property from W. J. Reid for next season.

PHILOSOPHICAL PHOENIX AND THE WEATHER

"HMF! SOMEBODY'S
THROWN AWAY
THIS PERFECTLY
GOOD CAT!"

THE PROBS

TORONTO, Aug. 19.—The cool
wave mentioned yesterday is now
centred in the Upper Ottawa with in-
creased energy. It has comparatively
broken the heat spell from Ontario,
eastward. Heavy rains are again re-
ported from many portions of the
West.

FORECASTS

Fresh easterly winds, fine and com-
paratively cool, Wednesday. Fair,
not much change in temperature.

TEMPERATURE

Temperature for the last 24 hours:
Highest 87; lowest 54. Same date
last year: Highest 77; lowest 61.

Good Pay for Girl

Miss Duncanson, who works at
the Brandon Shoe Co. and has been
earning \$3.50 a day had her em-
ployers pay for no payment of wages.

PACING CAMEL

With Sells-Floto Circus.
Few people are aware of the fact
that a swift camel can pace faster
than the ordinary race horse. The
Sells-Floto circus people did not even
know that themselves until one of
their men one day last winter hitched
"Asia," the baby camel born to the
circus two years ago, to an ordinary
speeding wagon. It was a compara-
tively easy task to break the little fel-
low to harness and as the circus was
wintering at Overland Park at Den-
ver, he was jogged around the race-
track.

After Illegal Offenders

High County Constable Kerr and
Fishery Inspector Henry Johnson,
were up in the vicinity of Galt recent-
ly on the lookout for members of the
construction camps of the L. E. and
N. Ry. who, it is reported, were
dynamiting the Grand River in order
to catch fish. The offenders evident-
ly got wind that the officers were af-
ter them and ceased business.

Rats have been known to walk a
wire, but it was not known until the
other day that one of Alf Tremaine's
squirrels had taken to tight wire
walking. While walking along Nelson
street, a resident witnessed a squirrel
bravely going along on a cable.

Eleven Mill Tax Rate

PRINCE ALBERT, Sask., Aug.
19.—Following the increased prop-
erty valuation the tax rate which
last year was thirteen mills, was re-
duced at a meeting of the city council
to eleven mills.

THE ESCAPE OF THAW

It is almost as shameful to have a
nude baby as it is to have a nude
body.

Spent a few minutes to find out
whether a thing is worth doing be-
fore you spend hours in doing it.

Body Found

WINNIPEG, Man., Aug. 19.—A
body yesterday found floating in the
Red River, has been identified as
Manley J. Isell, of Howell, Mich.

Just Like Mexico

MEXICO CITY, Aug. 19.—A
heavy detonation shook the city of
Mexico at seven o'clock this morning.
The shock is said to have been due to
an explosion at the government pow-
der factory at Santa Fa, five miles to
the northwest of the capital.

Accidentally Killed

SWIFT CURRENT, Sask., Aug.
19.—Mrs Butler, whose home is in
Toronto, was accidentally killed in a
runaway at Cabri 35 miles northwest
of this city just after arriving at her
destination. Mrs Butler came west to
visit her son who lived on a farm
near Cabri.

POLICE AGAIN BUSY IN COURT TO-DAY

William Kelly Proves That
He Did Not Assault
Boy.

There was a busy session at the
police court this morning. An as-
sault case became quite complicated
and extraordinary developments came
out of it. This case took up the larger
part of the morning. Kelly, the
court open until early in the after-
noon.

The adjourned case of assault
against Wm. Kelly came before the
Magistrate this morning. Kelly was
successful in proving an alibi and
was discharged. The case is a most
extraordinary one as Alton Hirst, the
boy who was assaulted, knows of no
motive for the offense but the marks
in his neck show that he was violent-
ly choked by someone unknown.

Kelly was up against circumstantial
evidence, his wheel having been found
near where the assault occurred. His
discharge however, was an honor-
able one as he proved conclusively
that he could not have committed the
offense.

Street Railway Case

The charge against E. B. Stock-
dale, Harry Cleenhagen and Nor-
man McKenzie for speeding cars and
allowing cars to be driven on the Brant-
ford streets, was again adjourned for
a week.

Mellin and Lipovitch, the Jewish
bakers on Oxford St. were fined \$1.00
and costs for selling bread under
weight. They claimed it was a special
brand of fat bread.

The Health Officer had Thornton's
Ltd. before the court to-day for being
a nuisance to the general public
and especially to the merchants on
Colborne St., owing to offensive od-
ors coming up from their factory on
canal bank. Mr. Hollinrake, who ap-
peared for the defendants, took oc-
casion to remark on the various
aromas arising from the city dump,
from the bad condition of the canal
and also from the Grand River. As
it is a breach of the city by-laws to
carry on this business in the city
limits, the case was adjourned to be
definitely looked into the affair more
fully.

Abraham Cohen, a billed man, was
fined \$10.00 and costs, for procuring
liquor. He was given ten days to
pay the fine.

Jewelry Identified

Detective Sears came up from
Hamilton to-day and identified the
jewelry found on Arthur Elwin, who
was arrested the other day for being
drunk as belonging to Jno. Truman
of the Driving Park Hotel, Hamilton.
The goods were stolen from his hotel
and Elwin will return to Hamilton
with the detective.

IS GIVEN REMAND

Thaw Shut Up Like Clam
When Told By
Counsel.

[Canadian Press Despatch]
COATICOOKE, Que., Aug. 19.—
Thaw appeared before Justice of the
Peace Dupuy this afternoon and was
remanded to Sherbrooke jail. He will
appear before Judge Mulvena, extra-
dition commissioner, there, probably
to-morrow.

One of the men accompanying Thaw
weighs 185 pounds, is five feet ten, and
wears a blue suit and peak cap. He
has blue eyes and a heavy face, re-
sembling a German. He does not ap-
pear to be acquainted with the coun-
try. The other man is of a lighter
build, weighs 145 pounds, height five
feet ten inches, and is wearing a gray
suit, a coarse straw hat, and looks to
be of Irish extraction. He says he
has friends in Toronto.

Thaw was examined by Dr. Tren-
delenburg this afternoon because he
looked flushed and feverish. The doctor
found that Thaw was suffering from
excitement. He asked him to give
him a thumb print impression, but this
Thaw declined to do.

Shut Up Like Clam

Thaw shut up like a clam after he
had seen counsel and nothing was
learned by the police of his flight up
to the time that Sheriff Kelsey re-
cognized him on a Maine Central
Railway train that was taking him
from Northern New Hampshire into
Canada. Had he not made inquiries
of the sheriff regarding the country
through which he was passing he
probably would have been in Quebec
this afternoon and possibly aboard a
steamer sailing for England without
having had his identity suspected.

It is believed that Thaw took the
train that left Portland, Me., at 9:35
yesterday morning substance is given
his theory by the published des-
patches from Portland yesterday
which said that a man thought he
recognized Thaw at the railroad station
upon which Thaw reached Canada.

The fugitive, however, and his
two friends attracted no atten-
tion throughout the long
day's ride. They occupied seats in
the smoking car, and, according to
other travellers, chatted with each
other, but kept by themselves until
six o'clock last night, when Thaw,
inquiring of a stranger the location
of the nearest county seat, was di-
rected to Sheriff Kelsey for an
answer. The question struck the of-
ficer as rather odd and he took a
good look at his questioner. After
a few exchanges Thaw appeared to
become confused under the scrutiny
of the sheriff, and finally asked: "You
don't know me, do you?"

The sheriff, whose suspicions were
already aroused, as he noted the re-
semblance of the stranger to the
medial pictures of Thaw, made a
random shot that, however, hit a
bull's eye.

"Well, I can make a pretty good
guess that you are Harry Thaw?"
"You're right," said the other.

Thaw's friends took no part in the
conversation. Thaw then told of the
plan to reach Quebec from which
place he intended to sail for Europe.

Hold All Persons

ALBANY, N.Y., Aug. 19.—Acting
Governor Ginn sent the following
telegram to-day to District Attorney
Conger of Dutchess county, at Pough-
keepsie: "Make every effort possible
in your part to have detained all per-
sons now in custody in Canada in con-
nection with the escape from Mattea-
wan of Harry K. Thaw, in order that
they may aid the State in thoroughly
investigating this matter and be pun-
ished if guilty of complicity in Thaw's
escape."

He Needs Money

PITTSBURGH, Pa., Aug. 19.—A
telegraphic request was received here
to-day from Harry Thaw, asking that
a large sum of money be sent to him
at Coaticooke, Que., where he was
captured early to-day.
