## High School Entrance Exams

The High School Entrance Examinations will be held in Grade VII. Classroom of Harkin's Academy, commencing Monday, June 18th and continuing until Friday noon. J.H. Barnett, principal of Harkin's Academy will be in charge of the examinations. About thirty two pupils from Harkin's Academy, eighteen from St. Mary's Academy and a few from outside schools will write the examinations. Pupils will kindly note that they must bring their own stationery.

## The Month of May Was Normal

Many people have been under the impression that May was a cold month, but the figures show that the average temperature for May when considering that of the past 40 or 50 years, has been normal. The average temperature for May this year was 48 degrees and for May last year 52 degrees. The rainfall in May this year was 2.57 inches, 1.14 inches below the average. The highest temperature was 73 on May 25 and the lowest 33 on May 2. In May

1922, the maximum temperature was 75 on May 29 and the lowest 33 on May 1 and 5. The highest temperature here yesterday was 68. At 9 o'clock (Atlantic Standard time) last night the mercury stood at 66. The wind was from the west.

## MANITOBA WANTS THE GRAND JURY ABOLISHED

Ottawa, May 30—Replying to a question by R.A. Hoey, Progressive Springfield, in the House to-day, Pamler King said the Government intended to bring down legislation conforming with the request of the Manitoba Government to abolish the grand jury system.

## GOVERNOR GENERAL HERE AUGUST 28TH

The following communication has been received by His Worship, Mayor D.S. Creaghan.

Government House,  
Ottawa, May 31, 1923.

Dear Sir,

I am desired by His Excellency, the Governor General to say that he proposes to visit Newcastle on Tuesday, August 28th, arriving at 10 a.m. and remaining for a period of three hours. He will be accompanied by Her Excellency the Lady Byng of Vimy, Miss Walpole, and four members of his staff.

If this is convenient to you, I should be greatly obliged if you would let me know at the same time forwarding a proposed programme for Their Excellencies' visit, and a copy of any address should it be proposed to present one.

I am to add that His Excellency is particularly anxious that no expense should be entailed by the Municipality on account of his visit, and hopes that arrangements will be made so as to enable him to meet as many of your citizens as possible.

In the afternoon it is their Excellencies' wish to visit Chatham, proceeding there in automobiles. Would it be possible for you to arrange for cars to be placed at their disposal for this purpose? They desire to reach Chatham at 3:00 p.m. and leave at 5:00 p.m. and I am communicating with the Mayor to that effect.

Yours Faithfully

P. K. Dodgson, Major,  
Private Secretary

His Worship,

The Mayor of Newcastle N.B.

It is understood that Mayor Creaghan will call a special meeting of the Town Council on Thursday evening, 6th inst. to which it is expected the members of the Board of Trade will also be requested to attend, at which meeting, the Governor General's proposed visit and also the visit of the Canadian National Weekly Newspaper Association on Saturday, June 23, will be considered and arrangements made.

## NEWCASTLE SHOULD ENTERTAIN EDITORS

Some two hundred members of the Canadian National Weekly Newspaper Association, will be in the Maritime Provinces this month. These journalists will be from all parts of the Dominion and their itinerary schedules their special train to arrive in Newcastle at 2:55 o'clock, p.m., Saturday, June 23. Plans for their entertainment are being made at all points where they touch and committees have been appointed to look after the details. The party will only be in Newcastle an hour, but this will be plenty of time to give the visitors a drive about the town and as far as Chatham. Our Town Council and Board of Trade should immediately take steps to make the necessary arrangements for their entertainment while in our midst. We have many attractions to show the visiting editors, who on their return to their homes will tell others through their publications of the many advantages which we possess.

## FAST GAME OF BALL HERE LAST NIGHT

In the first baseball game of the Miramichi League played here last Friday night, the locals took the measure of their Chatham opponents, defeating them by a score of 6-2. The attendance was a large one, the town being practically deserted, and everyone who could was in attendance at the game. The first inning on both sides proved to be a merry-go-round, each team scoring four runs in their initial inning. Veniot, the first man up in this inning made a homer. However, after the first, both teams settled down and put up a good, tight game. The batteries were, Briggs and J. Curry for Chatham, Ryder and McKenzie for Newcastle. It was the best game of the season so far, and the fans were very enthusiastic throughout. Loggieville defeated Douglstown at the former town by a score of 5-2.

On Tuesday evening Newcastle defeated Douglstown at the latter place, shutting them out and making 9 runs. The game was well attended but Douglstown did not play their usual style of ball. On the same evening Loggieville defeated Nelson by a score of 4-1.

Last evening the Farrell field was the centre of attraction for the baseball fans. Newcastle and Nelson met for the first time this season, and as both teams are playing excellent ball, a game out of the ordinary was looked forward to by the enthusiasts. In this they were not disappointed and a large number of spectators were treated to a real good, fast and clean game of ball. Newcastle won the game by a score of 6-2, but the score did not represent the quality of ball put up by both teams. At the end of the third inning both teams were tied 2-2. At the end of the 5th, the score was 3-2 in favor of Newcastle. At this point Umpire William Ashford, who was refereeing balls and strikes behind the home plate was struck by a pitched ball and seriously injured. He was removed from the field and J. Currie of Chatham umpired the balance of the game. In the 5th an objection was raised by Nelson, claiming that a runner at home plate was safe, but Umpire Ashford's decision was final.

In the sixth, Nelson was blanked and when Newcastle came to bat they succeeded in scoring another run making it 4-2. With two out and two men on base, with Ryder at bat, Ward had two strikes on the batter, when Ryder struck to deep centre bringing the two runners home. It looked like a home run for Ryder, who is a fast runner, but fate was not with him and he was retired at home plate with a close decision. This finished the play giving Newcastle the game by a score of 6-2. Both teams wished to play another inning but Umpire Currie very wisely decided that it was too dark for further play and called the game off.

## PROVES EXPENSIVE

Laziness, indifference, personal feelings or whatever the cause may be which prompts a community not to do the right thing always proves expensive in the end.

## DESTRUCTIVE FIRE AT SUSSEX

Fanned by a strong wind, a fire which broke out in Sussex about one o'clock Sunday afternoon in the paint shop of the W.S. Fairweather store destroyed a variety of buildings causing damage variously estimated around two hundred thousand dollars. Among the buildings destroyed were the Imperial Theatre, the Waldorf and Royal Hotels and the Royal Bank.

## Steamer Sailed Differences Settled

The Dutch steamer "Trontenburg," which loaded at Sinclair's sailed on Friday evening. When the steamer was loaded and almost turned turtle at her moorings, and a large part of the deck load had to be removed and reloaded, the crew which was allowed on shore, while this work was being done, refused to go back to the ship, as they feared she was not sea-worthy. The case was heard before Police Magistrate J. L. Lawlor, the result being that all differences between Captain and crew were settled and the sailors returned to their ship and immediately sailed out of port. Several actions brought by the crew against the master for wages were also amicably settled, the men agreeing to return to the boat upon being guaranteed return passage money to New York from the Netherlands. At the hearing the men were represented by J.A. Creaghan and McDade and Barry; A.A. Davidson appeared for the Captain and Robert Murray was present as Lloyd's agent.

## SHALE COMPANY ORGANIZED

The Premier Shale Oil Company Ltd., has been organized. The board of directors are T.H. Stevens, A.A. Nevers, G.C. Richardson, H.B. Durost and H.D. Stevens. Officers elected: H.T. Stevens—President, A.A. Nevers—Vice President, H.B. Durost—Secretary Treas. This company is organized for the purpose of putting into operation one of the large Hartman Re-torts for the extraction of oil from shale. A contract for one of these machines has been signed and the machine will be delivered not later than August. The company has taken out a lease on the block of shale land in Albert County and everything is set for a big development.

## PAINTING C.N.R. DEPOT

C.N.R. painters are busily engaged renovating and painting the C.N.R. depot at Newcastle. The station here has been badly in need of a general cleaning up and the community is delighted to know that at last something is being done to put the depot in a respectable condition. The station house is now being painted outside and when finished will add much to its appearance. We also understand that the building is to be painted inside, and we live in hopes that in the not too far distant future Newcastle will be provided with a new depot, as one is sadly needed.

### PROVINCIAL WAR MEMORIAL TO BE ERECTED

Plans for the erection in Fredericton, as the capital city of New Brunswick, of a provincial war memorial are taking definite form.

It is understood that negotiations have already been carried on which have led to the belief that the provincial government would willingly provide at a nominal rental a site on Queen Street at one of the government properties, near either the Provincial Normal School or the Queen Hotel. It is estimated that the cost of such a building as proposed would be about \$150,000.

Tentative plans include participation by the Red Cross Society, and Daughters of the Empire with the G.W.V.A. in the project in such a manner that any proposed building would be a truly representative memorial of all the war activities of the people of the province, including provision for a hall in which memorial tablets for each of the New Brunswick units that went overseas could be suitably placed.

### Horse Not Yet Out Of Date

In Illinois, an association has been formed which will spend \$250,000 in the next three years, in advertising the economic value of the horse. In Denver, on the other hand, the authorities are considering an ordinance to prohibit the use of horses on the streets. But the horse goes on his way, regardless. He is not doomed, but on the increase, according to figures announced at recent convention of the retail harness makers of Iowa. It was found that there are 25,000,000 horses in the United States, one for every four of the population, and curiously, that the number of horses has increased in the very states where automobiles and tractors have been heaviest. In 1919 there were 29,900 more horses on the farms than in 1917. The farmer is using the automobile and the tractor, but apparently he needs just as many horses as he ever did, if not more.

### Lightning Rods A Great Protection

Warning has been given in an official government document to the owners of premises protected by lightning rods from fire through electric storms, to examine the apparatus for certain kinds of defects which might render it useless when an emergency arises. Lightning rods have proved an almost absolute protection; in cases where they have failed it is usually found

that the failure was due to defects in installation or to deterioration, which would have been discovered and repaired by systematic inspection. The most frequent faults are the broken insulators, or bends in the cable which allow contact with the framework, or corrosion at the point of entry into the earth. The latter, it is pointed out, is a very important thing. The electricity is carried into the ground by means of a cable, but, if the cable corrodes and the ground connection is thereby broken, a fire is very liable to result. The cable should be kept in a sound condition at all times, and be placed deep enough in the ground to always be in damp earth. When building wire fences it is advisable to use ground wires every five rods. Lightning is attracted by wire fencing, and as during a storm animals will congregate near fences, many of them are killed by contact with the wire.

"Little People" Have Sway Over Stream in Ireland.

Waterway in County Fermanagh Avoided by the Dwellers Near it Because of Old Superstition.

Up in County Fermanagh, in the northern part of the Emerald Isle, there is a dark, deep, silent stream, which winds its way some 15 miles or more through a picturesque country. It is called the Sheelee, or the Stream of the Fairies, and there are many tales and legends told concerning it. It rises near the little village of Derrygonnelly, its source being a small lake called Bynahone. Its course lies between the picturesque mountains of Bo and a beautiful level country on its other bank called the Golden plain. The wild sedge grows down to its very waters, and above it the curlew sends out his eerie call in the hush of the evening. But beautiful as the stream may look to visitors, it is shunned by the country folks who live in its vicinity. Tradition says that at one time the little fairy people placed a curse upon it and from that time on death and disaster have come out of its treacherous waters many times. There are few who care to wander along its banks, for in the minds of all who know there always lingers the old saying that has been handed down from sire to son for many years:

Bad shall it be for fish and fishing  
Good shall it be for drowning,  
Always unlucky shall it be to meddle with.

There is a strange peculiarity about the river, and that is that it runs in an apparently uphill course. The legend that accounts for this freak of nature is as follows: One day Saint Faber was fleeing from her enemies along the river bank. In her haste she dropped one of her precious books in the water. Deeply grieved over her loss, she raised her staff over her stream, and instantly the waters turned backwards in their course, and her precious book was restored to her. Time and again various attempts have been made to drain this treacherous stream, which very often overflows its banks and does considerable damage to the farmers in the vicinity. But always, disaster and death have followed those who have meddled with the stream. At the last attempt made such a series of accidents and deaths befell those who undertook the project that it probably will be a long time before the thing is brought up again. Even those who are most injured by the stream's vagaries, the farmers whose lands are so often flooded, will now have nothing to do with the draining of the Sheelee, preferring financial loss rather than incurring the enmity of the Little People.

And so today the Stream of the Fairies pursues its crooked, treacherous course, at places shining like a dazzling silver ribbon in the sunshine, at other parts lying in deep, dark, treacherous pools, waiting for an unwary one whose feet might step beyond the rank sedge that lines its banks. And tradition has it that very often under cover of the night the Little People dance for joy upon its dark, mystic waters, rejoicing in the fact that the stream has kept its faith with them.—Kansas City Star.

**Postal Air Service.**  
More than 10,000,000 letters were carried by the post office air mail service in the third quarter of 1921, Assistant Postmaster General Shaughnessy told the members of the Society of Automotive Engineers at one of its recent meetings on commercial aviation. During that period the air mail carriers covered 891,000 miles, 97 per cent of these scheduled trips were completed on time and all of the regular trips were made without injuries. The cost of operation, which was \$8 per ton mile in 1920, was reduced in 1921 to \$6 per ton mile, and with the improved design of machine now being put in use by the Post Office department, the cost for the coming year is expected to be reduced to \$2.00.

**To Teach Hawaiian Youth.**  
Alarmed at the trend of the youth of Hawaii away from agriculture and other productive pursuits and into non-productive clerical work, the American Legion, department of Hawaii, is initiating a territory-wide movement looking toward the establishment in all schools of industrial, agricultural and manual training. Statistics for the past few years show that a heavy majority of the boys and girls attending the territorial public schools, particularly those of Hawaiian and Oriental blood, are taking up so-called commercial courses, fitting them only for clerical work.

**Literary Tidbits.**  
From a British Book—"She was a good cook, as cooks go—and as cooks go she went."  
One noticeable thing about our fiction characters is that they don't spend much time earning a living.  
No; Roger, "The Triumph of the Egg," though it is a story, does not relate how the egg reached its peculiar eminence.  
From Princess Bibesco's book, "I Have Only Myself to Blame," we call this literary flower: "When he was with her now he stammered. He didn't know that a stammer is the divine eloquence of love."

# POWER

ECONOMICAL—FLEXIBLE—DEPENDABLE

## The Studebaker Light-Six

You'll find in the Studebaker Light-Six, an abundance of power—smooth-flowing, responsive, and economical.

From a slow walking gait, it will accelerate to a racing speed in the space of a few seconds. And always with velvet-like smoothness, for the Light-Six is practically free from vibration.

Exceptional economy is an appealing feature of the Light-Six. Through 27 world-wide tests, it set an average of 26.9 miles to the gallon of gasoline!

Maintenance cost is also low—conclusively proved by Studebaker's limited volume of repair parts sales, which in 1922, averaged only \$13 per car for all Studebaker automobiles in operation.

The Studebaker Light-Six is not an experiment. In the hands of thousands of owners it has proved its remarkable power and complete dependability. It will pay you to see the Light-Six before you buy your next car. It is a product that well upholds Studebaker's 71-year-old reputation for quality and value.

## BLUE SKY LAW EFFECTIVE JUNE 1

The "Blue Sky Legislation" under the terms of the Sale of Securities Act which was passed at the last session of the Legislature for the purpose of protecting investors from the now defunct L.R. Steel Co. Ltd., became law on June 1.

The Act does not apply to stocks and other securities of the Dominion, provinces or the municipalities or to any stocks, bonds or debentures authorized by the Board of Public Utility Commissioners or sold or listed on any stock exchange approved by the Board. Neither does it apply to any sale of stock under contract for such sale entered into prior to the passing of the Act. With these exceptions all persons or companies or agents must first obtain from the Board of Public Utility Commissioners a certificate and a license before selling or attempting to sell stocks, bonds or other securities of any corporation or company.

The act provides that there shall be no publication or distribution of advertisements unless the certificate is obtained from the Board. The proper procedure to obtain permission to sell within the provisions of the Act is to file in the office of the Board, together with such fee as may from time to time be prescribed by order of the Lieutenant Governor-in-Council: (a) a statement showing in full detail the plan upon which the company proposes to transact business; (b) a copy of all contracts, bonds or other instruments which it pro-

poses to make with, or sell to, its subscribers; (c) a statement as to the name and location of the company; (d) an itemized account of its financial condition, the amount of its property and its liabilities; (e) such other information concerning its affairs as the Board may require.

If the company be one not organized under the laws of this province a copy of the laws of the country or province where it has its origin must also be filed.

If the Board is satisfied with the information filed, it will issue a certificate to the effect that the company has complied with the regulations, that detailed information concerning it is on file in the office of the Board and that such company is permitted to do business in New Brunswick. This certificate shall also recite that the Board of Public Utilities in no wise recommends the said securities to the public.

Every certificate shall be granted for a period of one year from its issue and shall show on its face the date of expiry, but may be renewed for a further period not exceeding one year.

Any company or person having obtained this certificate may appoint agents but such agents must receive licenses from the Board to do business in this province.

Every company under this Act shall file with the Board a financial statement annually, which must be accompanied by a filing fee of \$2.50.

If it appears to the Board that the assets of any company under this act are impaired to the extent that they do not equal its liabilities or that it is conducting its business in an unsafe manner, it may cancel such licenses and it shall communicate such facts to the Attorney General who may apply for the appointment of a receiver.

Part 2 of the Act deals with brokers, who, notwithstanding Part 1 of the Act, must first be licensed by the Board before they can carry on the sale of securities in this province. Brokers must file with the Board each week a list of the securities they are offering for sale and three copies of any prospectus of any new issue to be offered for sale and the Board may prohibit the sale of any such security if it deems it advisable to do so.

Part 3 provides for penalties for non-compliance with the terms of the act. Any person who does anything forbidden by the Act on summary conviction before a police magistrate or two justices of the peace, is liable to a fine not exceeding \$500 or 6 months imprisonment in default of payment of such fine. All fees shall be collected by the Board and paid in to the Provincial Secretary-Treasurer for the use of the province.

## BOY KILLED BY PICK FORK

J. Bourgoin, the fifteen year-old son of Prine Bourgoin, of Green River, one of the best-known farmers in Madawaska County, N.B. was killed in a peculiar manner Wednesday last. He and his father were spreading manure in a field near their home and were hurrying to get through before nightfall. They were sitting back to back on a load and when the boy turned around the prong of the pitch fork in his father's hands struck him, one time entered his temple and another pierced his nose.

The lad died in ten minutes. The family is highly respected and great sympathy was extended from many friends.

## SHIPPING BACON IN BALES

The difference between the manner in which Danes and Canadians ship their bacon to the British market is that the Danes ship the sides in bales, whereas the usual Canadian custom is to pack in boxes. Some of the Canadian packing houses however, have adopted the bale method and are finding it satisfactory. A bale contains four sides wrapped in cheesecloth and covered with jute sacking. The Peterboro packing house has adopted this method, shipping about twenty per cent of its bacon in bales. Only such sides as will make leanest Wiltshires, and are as nearly as possible identical with the Danish sides of the first grade, are chosen. The percentage corresponds very closely with the percentage of "selects" that are taken in at Peterboro packing house, indicating that the select bacon hog, as identified on foot, is the type that is actually turning out the higher prices product.

## Of Interest To Masons

Extract from a letter of a Canadian soldier in France.  
To Mrs. R. D. BAMBURCK:  
The Rectory, Yarmouth, N.S.  
Dear Mother:—  
I am keeping well, have good food and well protected from the weather, but have some difficulty keeping uninvited guests from visiting me.  
Have you any patriotic druggists that would give something for a gift overseas—if so do you know something that is good for everything? I do—Old MINARD'S Liniment.  
Your affectionate son,  
Eos.  
Manufactured by the  
Minard's Liniment Co. Ltd.  
Yarmouth, N.S.

## Worth Its Price

"We have cheaper teas, madam, but I think you'll find 'KING COLE' is worth its price." So said a wise grocer recently to a questioning customer. He was there not merely to serve her, but to serve her well. He might please her purse with the cheaper article but her final judgment of his service would be on the quality of the tea supplied. He wanted a satisfied customer.

This was one of the many merchants using "KING COLE TEA" in their own homes, and so he could say with sincerity: "It is worth the price."

"You'll Like the Flavor."

ADVERTISING IS CAPITAL

Twenty years ago one of the best
known names in national advertis-
ing was James Pyle's Pearlline. The
advertising of this product has run
continuously since 1873. In 1904
the appropriation for advertising
was \$500,000, which in those days
was looked upon as a great deal
of money. In 1907 the concern
passed into the hands of an estate
and advertising was stopped, as it
was thought some money could be
saved. Pearlline lost favor rap-
idly and in 1914 tried to come
back. Several hundred dollar-

were spent but to no avail. In
1915 Pearlline was sold to a com-
petitor for just the cost of the ma-
chinery as junk and the stock on
hand as raw material. A merchant
can build up a splendid business
in his town if he will advertise con-
stantly, and it will continue to grow
as long as he advertises.
Advertising is the modern miracle
worker, but it must be done con-
sistently and constantly. You
cannot stop in the middle of the
stream and expect to get across.

Baby's Own Tablets
Of Great Value

Mrs. Hermadis Chagnon, Ste.
Theodosie, Que., writes:—"Baby's
Own Tablets have been of great
value to me in keeping my little
one well and I would not be with-
out them." Thousands of other
mothers say the same thing. They
have learned by actual experience
the value of the Tablets in regulat-
ing the bowels and stomach; ban-
ishing constipation and indigest-
ion; breaking up colds and simple
fevers; and keeping the baby free
from the many simple ailments of
childhood.

The Tablets are sold by
medicine dealers or by mail at 25c a
box from The Dr. Williams' Medi-
cine Co., Brockville, Ont.

That Hilton Belyea, champion
amateur single sculler of Canada,
champion of the maritime provin-
ces, record breaker and champion
of the New England States, will be
well looked after while he is in
England to compete for the Dia-
mond sculls on the world famous

week of July, goes without saying.
When it was announced that Lord
Beaverbrook has most willingly
consented to look after the in-
terests of the champion, who is
now in England. Word was re-
ceived by cable on Friday from the
famous son of New Brunswick, in
answer to a letter sent him by Mr.
G. Heber Vroom of St. John.

WEDDINGS

JOHNSTON—HENDERSON
A quiet but pretty wedding, of
much interest to Newcastle friends
took place May 3rd. at the home of
Mrs. G.H. Henderson, 43 King St.
Truro, N.S., when her only daugh-
ter Muriel, became the bride of
George Henderson Johnston, son of
Mr. and Mrs. Wm. Johnston, of
Rushdell Farm, Chatham Head,
N.B. The marriage was solemnized
by Rev. John Mutch in the pres-
ence of a few friends and rela-
tives. Mr. and Mrs. Johnston
left on the evening train for Wol-
laston, Mass. where they will
make their home.

Mrs. Connor Declares Stom-
ach Trouble Was So Bad She
Could Hardly Eat At All

"If I hadn't gotten Tanlac when
I did I believe I would have had to
go to a hospital," declared Mrs.
Wm. Connor, 226 Hess St., Hamil-
ton, Ont., recently.
"My stomach was so disordered
that everything I ate made me
deathly sick, and caused pains in
the pit of my stomach that nearly
drove me distracted. Often the
agony was so great I couldn't help
crying, and for two or three days
at a time I wouldn't eat a morsel
of food. I was as nervous as a
witch, miserable for the want of
sleep, and often wonder now
how I lasted through it all.
The splendid results my hus-
band got from Tanlac about a year
ago caused me to try it, and the
treatment ended my suffering in a
few weeks time, and gave me a
new lease on health. I don't be-
lieve there's a healthier woman in
Hamilton than I am now, and I
can't praise Tanlac enough."

MIRAMICHI HOSPITAL
A WORTHY INSTITUTION
Dedicated to The Service of the People of the County of Northumberland
THE
Miramichi Hospital
Enlist your hearty co-
operation and support,
join the ranks of the
Knights of the Human
Order!
A New Order of Chivalry
In all ages the human heart has hungered
for Heroes. Every generation has sought some
forehead over which to break its alabaster box,
some feet at which to empty out all its flowers,
its love, its tears. The quality of hero the age
has admired gives the measure of the nation's
Civilization. Centuries ago in the Age of
Chivalry few men loved eloquence, philosophy
or art, but many crowded after the Golden
Chariot of the Conqueror.
In Robert Bruce's time the sentiment had
changed, the ideal Hero was a patriot. He who
wished to be enshrined in human Hearts must
die upon the battlefield.
It is the glory of our age that the modern
Hero stands forth armed with Love and Kindness,
with Service and Sympathy. The new Knight
Errant toils for the betterment of mankind.
A Knight of the Human Order
More than ten years ago Ernest Hutchison
inspired by vision, faith, love and charity, demon-
strated these sentiments by giving to the peo-
ple of the County of Northumberland this mag-
nificent institution—hewn out of the achieve-
ments of a great man—and reared upon a prin-
ciple which is as firmly rooted in its ideals as
the foundation on which it stands.
Those who now carry on this Trust, have
not allowed this faith to lessen; The vision
has grown constantly and the present structure
has become inadequate to accommodate all the
sufferers that are seeking admission.
Will the citizens of the County of North-
umberland allow this beautiful gift, or rather
trust to remain at a standstill, or deteriorate from
its present position? Will they not gather
around the banner of love, kindness and charity
and uphold the principles of the founder of The
Miramichi Hospital, That Worthy Knight of
the Human Order, Ernest Hutchison? A call
shall be sounded, let every citizen of the County
be ready to answer the call.
THE
Miramichi Hospital
An Emphatic Expres-
sion of faith in the
present and future
welfare of the County
of Northumberland.
We can only have the highest happiness by having wide thoughts and much feeling for the
rest of the world, as well as ourselves.

## These Quicker Shaves Mean Younger Faces

Ordinarily, shaving ages the skin—adds years to a man's looks. By giving them a shaving cream soothing to the skin we wiped years from millions of men's faces.

At the same time we cut down shaving time for them.

We spent 18 months—made 130 experiments—perfecting a cream with 5 distinct advantages:

It softens any beard in one minute—without rubbing-in.

Multiples itself 250 times in rich lather. Lather lasts, if necessary, 10 minutes—doesn't dry away.

Strong-walled bubbles hold hairs erect—for easier cutting.

And the after-effect is lotion-like—skin-soothing.

That's why millions of men today use PALMOLIVE SHAVING CREAM. We ask you to try it at our expense. Test for yourself the truth of our claims.

## How Delicate Girls Are Made Strong

### Rich, Red Blood Needed to Keep Up Their Vitality

It should be constantly borne in mind that pale bloodless girls need plenty of nourishment, plenty of sleep and regular out-of-doors exercise. But a lack of appetite and tired aching limbs tend to hinder progress. To save the weak, thin-blooded sufferer, she must have new rich, red blood and nothing meets a case of this kind so well as Dr. Williams' Pink Pills. These pills not only enrich and increase the blood supply, they help the appetite and aid digestion, relieve the weary back and limbs, thus bringing new health and strength and transforming anaemic girls and women into cheerful happy people. Among the thousands of girls who have obtained health through the use of Dr. Williams' Pink Pills is Miss Lyla G. Garneau, Freeman, Ont., who says:—"About two years ago I was in a very nervous and run down condition. I could not eat, did not sleep well and was fast becoming an invalid. I was subject to fainting spells which made it very embarrassing to go in company as I never knew when a fainting spell might come on. After several fruitless treatments I was advised to try Dr. Williams' Pink Pills, and by the time two boxes were used I felt an improvement. I kept on taking them, and am now thankful to say that I owe my present health and happiness to this medicine, which I cheerfully recommend to other run-down girls."

If you are weak or ailing, avail yourself at once of the home treatment which Dr. Williams' Pink Pills so easily afford, and you will be among those who rejoice in regained health. These pills are sold by all dealers in medicine, or may be had by mail at 50c a box by writing the Dr. Williams Medicine Co., Brockville, Ont.

## OBITUARY

### R BOYD KELLEY

The death of Robert Boyd Kelley infant son of Mr. and Mrs. Douglas Kelley of 224 High St., Moncton, N.B., occurred at 8:30 o'clock on Friday, May 18th. The little one, who was only seventeen and a half months old, had been sick only four weeks before he passed away. He will be greatly missed in the home, where he was so loved and tenderly cared for, infantile paralysis making him a great sufferer before he was called away.

Besides the sorrowing father and mother, he is survived by two small sisters, Enid and Phyllis.

The funeral was held Sunday afternoon at 3:30 o'clock from his parents' residence. Rev. J.A. Ramsay, pastor of St. John's Presbyterian Church, conducted the services at the house and grave. The choir of St. John's was present and sang very sympathetically, "Fate In The Arms of Jesus" and "When He Cometh." Interment in Elmwood Cemetery.

The floral tributes were beautiful and are as follows:

- Pillow—"Baby"—Mamma, Daddy and sisters.
- Spray—Grandfather and grandmother Kelley and Uncle Fulton.
- Spray—Aunt Ella, Willie, George and Daisy.
- Basket—Cousins, Windsor and Lloyd Olive and Sterling Kelley.
- Basket—Mr. and Mrs. E. V. Trites.
- Bouquet—Little Dorothy Ayles.

The Women's Catholic League of Canada will hold a Tea, Sale and Dance in the Town Hall, on Thursday June 7th.

## SALES TAX WILL RAISE LUMBER COST

Montreal.—That the new sales tax of 6 per cent. on manufactured lumber, as proposed by the Budget, will mean not only an onerous rate of taxation, greater than the profits of the average wholesaler lumberman, but will entail radical changes in the business and a considerable increase in the cost of building, as well as all other industries using lumber, was the statement made yesterday by members of a delegation from the Montreal Lumber Association on their return to Ottawa where they had sought further light on the interpretation of the sales tax as it applied to them. The result of the interpretation was that, from being at first fairly satisfied with the new taxation, the lumber dealers convinced that it would practically double the taxes on manufactured lumber, and increase the selling price by wholesalers, anywhere from \$1.50 to \$6 per thousand feet. This, it was pointed out by members of the delegation, would mean a serious increase in the cost of building, while it would also deal a shrewd blow to the manufacturers of wooden boxes and packing cases.

Mr. D.H. McLennan, chairman of the Montreal Lumber Association, said the deputation had gone to interview the Minister of finance to seek further interpretation as to how the taxation at the source principle would affect the lumber business, in which much of the finished product of one branch was the raw material for another. After much discussion with the Deputy Minister it appeared that instead of being applied at the source the 6 per cent tax was to be passed along, in a somewhat complex way. Members of the deputation which included Messrs. D. H. McLellan, Arthur H. Campbell, E.H. Lemany, wholesale lumber dealers, who had been joined at Ottawa by a deputation from the Ontario Lumber Association, complained generally that the six per cent sales tax, instead of being applied at the source, was passed along.

"So far as lumber merchants are concerned," it was stated for the deputation, "the whole provisions is a very radical and onerous change. The sales tax of 6 per cent is far too high on lumber. The present sales tax treats lumber properly, in a class by itself and from a beginning at 1 1/2 per cent was worked up to 3 per cent., where it now stands.

This new sales tax will at once double the present impost. The proposed sales tax of 6 per cent is greater than the profits of the ordinary lumber wholesaler on his business. It cannot possibly be absorbed by the trade, nor is it intended that it should be. It will therefore, inevitably mean that as soon as the new sales tax goes into effect there will be an immediate and sharp increase in the price of lumber, amounting to anywhere from \$1.50 to \$6 per thousand, according to the quality and class of

## FIVE HUNDRED POUNDS OF TREE SEED AT FIRST

On the application of the Forest Service to the Honorary Advisory Council of Scientific and Industrial Research of Canada an annual grant of \$5000 for three successive years has been authorized and will be spent in New Brunswick in experiment and investigation of methods of re-seeding burned over and poorly stocked cut over timber land to the more desirable kind of trees.

A board has been formed consisting of two members of the Federal Forestry Branch and two from the Provincial Forest Service with J. T.G. Loggie, Deputy Minister of Lands and Mines as Chairman. At the first meeting of this Board, Dr. J.D. Tothill of the Entomological Laboratory and Prof. B. E. Claridge of the Forest School were elected Associate members of the Board.

Plans were made to go ahead with the collection of some 500 lbs. of tree seed to be sown later in the autumn, and arrangements made for the extraction of tree seed at the seed house which will be built on the U.N.B. forest nursery at Fredericton.

"If we can through experiments formulate successful methods whereby burned over and poorly stocked forest land can be seeded with our more valuable trees at a cost of one-third or even one-half that of planting the experiments will be of inestimable value in Eastern Canada," said Col. Loggie in discussing this work.

## Montreal Honors First Skipper in Port

1. C.P.S.S. Montrose bringing first passengers to Montreal, 1923 Season. 2. Captain Edmund Aikman, Commander of the Bolingbroke.

TWENTY years ago Montreal was but a "mere calling place for ships." It had practically no modern cargo-handling devices or equipment, its wharf sheds were just wooden shacks which were actually taken down in winter to prevent them being blown away, and much of the merchandise was stored in the open air at the mercy of the wind and weather. Now Montreal is the greatest port of Canada and it is the best located. From a mere riverside stopping place for ships, it has stepped into the front rank of ocean ports, and has become equipped with facilities for the accommodation of ships and for the handling and storing of freight that are unrivalled on the continent. Despite the fact that Canada has less than 10,000,000 population and that the United States has more than 110,000,000, Montreal now handles a greater volume of business than any port on the American continent with the solitary exception of New York.

The principal reasons for Montreal's supremacy are the facts that it is nearly one thousand miles inland from the ocean, at the head of deep water navigation with direct access to the Atlantic, and that behind it is

a through route right up to the head of the Lakes at the Twin Cities, a thousand miles further inland. Were it not all year port, Montreal would be the chief one of the continent, but for some months winter closes the beautiful St. Lawrence route, and the vessels fretting at the mouth of the great river must wait until the ice goes out in the spring before they can make their way westward.

About fifty years ago, the Harbor Master originated the idea of presenting a tall silk hat to the captain of the first vessel to arrive in the spring with a transatlantic ship. This custom was observed for about thirty-five years, then, as the top hats lost their popularity, a gold headed cane was presented instead by the Harbor Commission.

This year the cane was presented to Captain Edmund Aikman of the Canadian Pacific S.S. Bolingbroke who had just completed his first voyage in command. The Bolingbroke left London for Montreal on April 9th, calling at Antwerp en route, arriving three hours ahead of her nearest competitor on May 3rd. The liner "Montrose" of the same line, the first passenger vessel to reach the port in 1923, arrived two days after.

CLERGYMAN IS ORDAINED FOR KOUCHIBOUQUAC

The Presbytery of Miramichi held a special meeting in the Presbyterian Church at Kouchibouguac on Tuesday. The members of the Presbytery present included Revs. W. M. Matthews, L. H. McLean, F. W. Thompson, T. Harrison, W. A. MacQuarrie and J. H. A. Anderson. The purpose of the meeting was the ordination to the Christian ministry of Mr. Alexander Sutherland Murray, who in April graduated from Halifax Presbyterian College after a course of study in which he attained high standing both in Arts and Theology. Rev. J. H. A. Anderson, Moderator, presided and in the conduct of public worship was assisted by Rev. F. W. Thompson and W. A. MacQuarrie whose sermon was of a high order. The solemn service of ordination by covenant on the part of the candidate, response by the congregation, prayer and the laying on of the hands of the Presbytery, was an impressive one. The newly ordained minister was suitably addressed by Rev. L. H. MacLean and the people by Rev. T. Harrison. Mr. Murray was appointed an ordained missionary in Kouchibouguac for one year, the congregation, by their large attendance and cordial interest in the service manifesting their appreciation of the fuller ministry in prospect. For the greater part of their history Kouchibouguac has been served except for short intermittent periods by student missionaries and only during the summer months. Mr. Murray is a son of the Manse, his father Rev. Robert Murray being minister in Barneys River, N. S. He has a sister, Dr. Florence Murray, a medical missionary in Korea, and is himself a volunteer for service in the Foreign Field. His brother Mr. A. E. Murray, who was also present at the service, is the catechist at Millbank and adjoining fields for the present summer.

Presbyterians Await Action Of Assembly

Presbyterians all over the Dominion are much interested in the meeting of the General Assembly of the Presbyterian Church in Canada, in Port Arthur, commencing June 6. This Assembly will decide the fate of a movement for church union in Canada which has been slowly progressing to its consummation for the past twenty years, namely, the coming together of the Presbyterian, Methodist and Congregational churches to constitute a United Church of Canada. The Church Unionists point out that every progressive movement whether it be religious, social or national, has had its detractors, and the church union movement in Canada has not been an exception. Organized opposition among the Presbyterians has been in force during the past eight years to the union, this propaganda having been intensified during the past year. The anti unionists have based most of their arguments upon the proposed legislation which they declare is coercive and means the institution of the state church idea. On the other hand, the Union Committee states it is as anxious as anybody that there shall be no coercion against the minority and that the United Church shall be free from all state entanglements, and the proposed bill will probably be amended to clear away any ambiguities. The procedure at the Assembly will be that the Assembly's committee on church union will ask it to endorse the proposed legislation in its amended form and send,

MRS. ANDERSON TELLS WOMEN

How Backache and Periodic Pains Yield to Lydia E. Pinkham's Vegetable Compound

Leslie, Sask.—"For about a year I was troubled with a distressing down-bearing pain before and during the periods, and from terrible headaches and backache. I hated to go to a doctor, and as I knew several women who had taken Lydia E. Pinkham's Vegetable Compound with good results, I finally bought some and took four bottles of it. I certainly do recommend it to every woman with troubles like mine. I feel fine now and hope to be able to keep your medicine on hand at all times, as no woman ought to be without it in the house."—Mrs. OSCAR A. ANDERSON, Box 15, Leslie, Sask.

Mrs. Kelsey Adds Her Testimony Copenhagen, N. Y.—"I read your advertisement in the papers and my husband induced me to take Lydia E. Pinkham's Vegetable Compound to get relief from pains and weakness. I was so weak that I could not walk at times. Now I can do my housework and help my husband out doors, too. I am willing for you to publish this letter if you think it will help others."—Mrs. HENRY KELSEY, R.F.D., Copenhagen, N. Y.

Sick and ailing women everywhere in the Dominion should try Lydia E. Pinkham's Vegetable Compound before they give up hope of recovery.

it to the Federal and Provincial Governments for enactment. Unless there is a sudden reaction, there is stated to be every prospect of the Assembly taking the final step into the union. If this is done, the union controversy, it is held, will at once cease and a process of legal adjustment and amalgamation will be instituted. The Assembly will appoint its 150 representatives to the General Council of the United Church which will meet in Toronto a few days after the passing of the Act of Incorporation. The General Assembly, Methodist General Conference and Congregational Union will all be simultaneously convened in one city, meeting in their respective churches, for the purpose of finally ratifying the union. Representatives of each church will then assemble in a large central hall, where the United Church of Canada will be publicly consummated.

Quebec Swallowing Itself

In a circular letter sent out in Ontario by a liquor organization flatterer itself by the name, "Moderation League," it is shamelessly stated: "It is a fact that under their system of Government control the Province (Quebec) last year derived a revenue of over four million dollars besides paying in excise duties, some five million dollars to the Dominion Government."

Even on the surface this financial argument proves too much. The great question to be asked is:

Be Safe!

Don't wait for someone to be in pain to get Kendall's Spavin Treatment in the house.

For all external hurts and pains—Kendall's Spavin Treatment makes good.

KNOWSTON, Sask., December 28, 1922. "Please send me one copy of your TREATISE ON THE HORSE. What is the price Quebec is paying for its big provincial and federal income of which it is making so much. There must be a prodigious amount of drinking to provide these great profits for distillers, brewers and a revenue of over \$4,000,000, for the provincial treasury and upwards of \$2,000,000 for the Dominion purse. How much better for the people if all this money were in their pockets, as it is not only the money that is being extracted. With liquor drinking goes money-earning power, the lack of which produces pauperism and crime with all the attendant cost and horrors of big charitable and penal institutions.

And the end is not yet, but, like the horizon, ever retreats. According to an announcement to the Toronto Globe last summer, by the Hon. Jacob Nicol, Provincial Treasurer, "Revenues will increase year after year."

Nothing is truer than this statement. Having once created this Government-gain-Frankensteiner monster, there may be no getting away from its hounding steps. Its subsidizing of roads, schools and charitable institutions is simply a dose of narcotics to dull the conscience of the people to the evils of alcoholics, and to blindfold their eyes to the fact that, in reality, their pockets are being robbed.
