We have now great pleasure in informing you that we have secured the services of Miss MORRISON, of Toronto, a lady of first-class abilities, highly recommended to us, and we believe eminently qualified to give complete satisfaction in every respect. Miss Morrison has by the past ten years occupied the position of cutter and fitter in one of the leading Fashionable Dress-making Establishments in the City of Toronto. Miss Morrison is also an experienced Mantle-maker, and all orders entrusted to her will be executed in a style equal to anything that can be obtained in the largest cities. Orders for these departments will be received up to and Monday next, the 30th of May. A. O. BUCHAN, Fashionable W. End Dress, Mantle and Millinery Establishment.

SUDDEN DEATH OF AN OLD RESIDENT.—We regret to record the sudden death of Mr. William Nichols, Hotel keeper of this town, and a very old and respected resident, which took place on Sunday about noon. Mr. Nichols though frail and infirm for some time past was in the enjoyment of his usual health during the past week, and on Saturday night went to bed feeling as an ordinary old man. During the night he had a slight bilious attack, but nothing was thought of it, as he was subject to them. He did not get up on Sunday morning, but took a little breakfast, which Mr. Nichols brought to him. Some time after this while he was sitting by the fire side talking to him, she noticed him give a gasp, and manifest other symptoms which alarmed her and she called out to the other inmates of the house, who were in the garden, to come in. Before they reached the room he was dead, having died of heart disease, to which he had been more or less subject for twenty years. Dr. McGuire was at once sent for, but no efforts of any medical man were of any avail—life had fled. The deceased was a native of Norfolk, England, and came to Guelph on the 11th of June, 1852. He worked at his trade of carpenter, for some years, and in 1845 purchased and started business in the Court House Hotel, which he kept for 28 years, up to the day of his death. He was also for many years caretaker of the Court House. During that long period his house was a model of quietness and good order, and not a single complaint was ever preferred against him by either the authorities or the public. As a citizen he was quiet and unobtrusive, and was held in respect by all his friends and acquaintances.

FATAL ACCIDENT AT CORCORAN.—A sad accident occurred on Saturday evening, resulting fatally. As Mr. Peter Laing and wife were returning to their home in the township of Haldimand, passing the Grand Trunk Station their horses took fright, running away, and threw Mr. Laing out. The wheels passed over him killing him instantly. Mrs. Laing also sustained serious injury.

THIS MORNING'S DESPATCHES

The Cholera in Prussia.

Washington, 1st mo., June 30.—Proclamations—For middle States and Lower Lake region, gentle to fresh and occasionally brisk winds, mostly from Southeast and South west, generally cloudy weather and rain areas.

New York, June 30.—About two o'clock yesterday morning a body of masked men entered Salem, Indiana, and proceeded to the Jail, demanding the keys of deputy Sheriff Craycraft. The Sheriff refused, when he was seized and confined, and sledge hammers procured with which he was forced his way into the cell of Delos Heffen, who murdered Halstead a few days since. Heffen watched the progress of the mob and prepared himself as well as he could for desperate resistance with pieces of furniture. The mob knowing the desperate character of the man and that the first who entered would be killed, hesitated to attempt an entrance. They saturated balls of twine with coal oil and turpentine and threw them into the cell, lighting up and showing the whereabouts of the prisoner. Some twenty shots were fired, one of which entered his breast and another broke his arm. This incapacitated him from using his arm which held a chair he had sized to defend himself. A stone was thrown at him and struck him on the head and knocked him down and before he could recover he was seized, tied and dragged out of jail to a covered railroad bridge about two squares distant where he was hanged. Just before the rope was put around his neck Heffen asked time to pray, but the lynchers refused, saying they hadn't time. The lynchers dispersed immediately after the affair, and no clue can be obtained as to their identity.

St. Paul, June 28.—A private letter from the American boundary survey party, dated St. Joe Mountain, Dakota Territory, June 21st, says scouts of the English survey party were attacked by Indians at Turtle Mountain. Two scouts were taken prisoner, and others, thirty-three in number, driven from the mountain. The American party move forward on Monday.

Rifle Match—Toronto vs. Guelph.
On Saturday the team from the Toronto Rifle Club came up to Guelph to have a friendly match with the members of the Guelph Rifle Association. By some oversight the Secretary of the Guelph Club did not get the notice of their coming until the day previous, and consequently was unable to obtain some of the best shots of the Guelph Club from the country. They however made the best of it, and presented a bold front to their opponents. The match was fired at 200, 300, and 400 yards, five shots at each range and twelve men on each side. The match throughout was a very close one, and in some instances a ball on the mark by the score, was remarkably good. The match resulted in favour of the Toronto Club by 22 points. The Guelph men made a capital stand, and the majority of 22 points by which they lost the match is very small, considering the strength of the team from the Toronto club. The Toronto men were handsomely treated by the officers and members of the Guelph Association. The following is the score:—

ELORA LITERARY SOCIETY.—The Elora High School Literary and Scientific Society held their last meeting for the term on Friday afternoon. A number of invited guests were present and took great interest in the proceedings. The exercises of the Society composed of readings and essays by the members; and a debate on the question, "Is England likely to decline among the nations of the world?" was well argued. The chairman, Rev. James Middlemiss, gave his decision for the affirmative.

POLICE COURT.

Before T. W. Saunders, Esq., P.M.
Monday, June 30.

Eliphale Henry was charged with peddling fish through the streets, without having paid his market fees. Being ignorant of the law he was dismissed with a caution.

SELLING LIQUOR ON SATURDAY NIGHT.
The Police Magistrate gave his decision in the case of Jas. Parker and J. Fahry, charged by the Inspector with allowing liquor to be drunk on their premises after 7 o'clock on Saturday evening. The evidence given by the prosecutor was to the effect that there was a light in defendant's bar-rooms after 7 o'clock, which fact accorded to the new Act is made *prima facie* evidence of a sale or other disposal of liquor. Mr. Guthrie, on behalf of defendant, raised two objections, first that the charge was not proved, and second that the recent Act of the Ontario Legislature is unconstitutional and not binding.

With regard to this second objection the Magistrate gives it as his opinion that it is one which he does not feel called on to determine. As to the first objection, he has come to the conclusion that lights in a bar-room during prohibited hours is only *prima facie* evidence of a sale or other disposal of liquor by way of sale, and that it is not *prima facie* evidence of liquor having been drunk in the bar. Had the words "other disposal" used in the 23rd section of the Act, been intended to cover the drinking of liquor in a bar-room, then the Legislature would not in the same section, and in express words, have prohibited the drinking of liquor therein. The defendant, Parker, however, said he believed there was liquor drunk in his house on the Saturday night in question, after the hour named, which testimony, the Magistrate thinks, supports the information, and warrants him in convicting under it. If the objection made by Mr. Guthrie that defendant should not be questioned as to any time except that stated by the prosecutor is not confined to any particular moment, but that if proof be given of drinking any time on Saturday night after 7 p.m., it is sufficient to warrant a conviction.

As regards the charge against Fahry, there were people sitting in the bar, but there was no evidence of liquor having been drunk. The case against him was therefore dismissed.

Mr. Guthrie, on behalf of Mr. Parker, intends to appeal from the above decision.

Dominion Day.
To-morrow is the sixth anniversary of Confederation, and as such will be generally observed through the Dominion as a holiday. From present appearances there will not be much of a celebration in Guelph. The Mayor has issued his proclamation asking all the merchants and business men to close their places, and no doubt the request will be complied with by all.

In the way of amusements, the Guelph and Berlin Cricket Clubs play a match on the grounds of the former, play to commence at 9 a.m. The match will doubtless be an interesting one, and will attract many spectators.

In the afternoon the base ball match between the Maple Leaf Champions and the Ottawa Club comes off. Play begins at three p.m. The reputation of the Ottawa players stands high, and a keenly contested match is expected.

The annual strawberry festival in connection with Knox Church takes place in the Drill Shed during the day and evening. The ladies have provided lots of nice strawberries and cream which would tempt the palate of the greatest epicure. In the evening the Band will be present to enliven the proceedings. The Festival is sure to be well patronized.

There will be several minor base ball matches during the day, which are noted in their proper place.

In the evening the Carlotta Ward Company give an entertainment in the Town Hall. The company are highly spoken of by the Guelph public. They are a versatile performer. The Company is sure to draw a crowded house.

W. G. & B. R. Railway.
THE DURIAM EXTENSION BY-LAW.
Owen Sound, June 28.—The County Council have been in session here since Monday. The principal business was to ratify By-law No. 199, granting a bonus to the Wellington, Grey & Bruce Railway for the purpose of extension to Durham Forest post-office by the returning officer, but in some unaccountable manner were stolen. A strong feeling prevailed in the Council on both sides, and a number of outsiders appeared on the scene of action. About 10 o'clock last night it was a tie, and the Warden was called upon to give the casting vote, which he did by voting against the by-law.

THE CROPS ABOUT MOUNT FOREST.
The Examiner says:—Until Monday last this section of country had been favored with but little rain, the weather had been excessively hot, and consequently all descriptions of crops were making doubtful progress. The hay crop seemed very on failure. A fine shower fell on Monday last, which has had the effect of reviving all sorts of vegetation. Fall wheat generally looks well, we believe, and will doubtless prove a paying crop. Potatoes are suffering from the attacks of the potato bug; but what will be the effect on the yield it is not yet possible to determine. The hay crop will be considerably under the average.

Local and Other Items

NASSAWAWEYA FALL SHOW.—It has been decided to hold the fall show in this Township on the 7th October, at Easterbrook, on the Guelph road.

INVITE LEAVE.—The following are the officers of Irvine Lodge, Elora, for the ensuing year:—Br. F. Dalby, W. M., Br. J. McDonald, S. V., Br. J. H. Kenning, J. W. Bro. J. Gordon, Sec., Br. R. Dalby, Treas., Br. J. M. Fraser, S. P., Br. W. J. D., Br. F. Vickers, I. G., Br. Wm. Strahan, Tyler, Mrs. Kirkman and J. Dalby stewards.

FOUND DEAD IN BED.—A saloon keeper named D. A. Hoag was found dead in his bed in St. Catherine's, on Saturday morning. He slept under his plane of business, which was not opened on that morning, and none of his friends knowing how to account for his absence, decided to make an examination of his premises, where the body was found as above stated. He had retired on Friday evening all right apparently, and evidently died during the night of heart disease.

DAMNED ROBBERY IN TORONTO.—Another bold robbery took place in Toronto on Saturday morning. A Mr. Taylor, traveler for an agricultural manufacturing company, while walking in Queen's Park, was seized by two men, one knocking him down with his fist, while a third drew a revolver and held it to his head. His money (\$16) was abstracted from his pocket-book, which was returned to his pocket. The robbers as usual escaped.

A SPLIT AMONG THE MEMBERS.—The homoeopaths have seceded from the Medical Council. The reason assigned is want of fair play, on the part of the Council, towards them; the end is not yet. The Council have at length made a strong effort towards meeting the views of medical students in the matter of reducing fees; entailing expenses and the construction of a better penal clause, which, if carried into effect, will remove objections held by them against appearing before Council for examination.

FRUIT GROWERS ASSOCIATION.—The summer meeting of the Fruit Growers' Association of Ontario, was held in the Music Hall, Chatham, on Tuesday, 24th inst., commencing at eleven o'clock a.m. The attendance, owing to the unforeseen circumstances, was not nearly so large as the delegates expected, or as should have been. Still the meeting was a successful one, and a good deal of valuable information was obtained from and imparted to those present. The President, the Rev. Mr. Burnet, of Hamilton, occupied the chair, and the Vice-President, Mr. Rev. Mr. Allen, of Kingston, the Secretary-Treasurer.

CATERPILLARS.—The Walkerton Herald says caterpillars are very numerous in some places in that County. In the bush on the Carriak Island within that Corporation they are to be counted by the sands. The trunk of every tree almost is covered with them marching up or down, and not a few are entirely stripped of their leaves. They appear to be gregarious, moving about in bands. So the vicinity of Sheriff Sutton's bush, last Friday, that the train was actually stopped by them. It was twice back to the station yard to get a fresh start before it succeeded in getting through, the rails for a considerable distance being covered with caterpillars. This is a tall story and might pass muster on the other side of the line, still it is a fact notwithstanding.

FLAVOR OF AMERICAN CHEESE.—We observe that the principal objection to the cheese made in this country is its rank flavor. It is richer and more buttery than English made cheese, but it is "too strong." We have carefully looked at the reported transactions of our cheese makers here in order to learn what causes this rank flavor, and find it imputed to ripening the cheese "too rapidly." This may suggest some idea in regard to what we are inclined to think is the cause of the rankness. That is used in too large a quantity, or it is used in the form of butter, the terms which correspond into the objectionable flavor.

CONDENSED FRUIT.
DELEGATION EDITORS AND REPORTERS' ASSOCIATION.—The Mail says: During the past session of the Dominion Parliament at Ottawa, an association was organized to promote the general interests of the Press throughout Canada. It is styled "The Dominion Editors and Reporters' Association," and was immediately jointly members of the profession from every Province in the Dominion. Mr. E. W. White, of Montreal, was unanimously elected President, and Mr. S. Hutchinson, of Galt, Vice-President. The Council comprises representatives from Toronto, Montreal, Ottawa, Quebec, St. John, N. B., and Halifax, N. S. The society already numbers between thirty and forty members in Toronto alone.

Mr. E. W. White, the local bard, has more than a Canadian reputation. He is honored for his talented writings by the hundreds of readers of Scottish magazines, and for his early writings in the "Land received at home, and the prophet there had honor in his native country. In the last number of the Gaelic publication *Au Gardheal*, published in Glasgow, appears his portrait, which can at once be recognized as a reproduction of St. Andrew's Society Bard of Kingston. This honor is well merited from Mr. White's position, and is a graceful compliment.

It is well known that one of the best remedies for gout and rheumatism is asparagus. Besides, the plant is one of the earliest that can be raised in this climate, and it is certainly one of the greatest luxuries, selling at a very high price in the market. These being well established facts, it is impossible to assign any valid reason why asparagus should not be much more generally grown than it is. Half an acre of ground would produce, without much labor, five hundred dollars worth of the vegetable in a single season lasting for over six weeks.

A meeting of the L. O. District Lodge, Mt. Forest District, held on the 14th inst., at Clifford, it was resolved to observe the approaching anniversary of the Battle of the Boyne, by a gathering of the various lodges in the district at Mt. Forest.

Political Items.

Mr. Howley, a Reformer, has accepted the offer to stand for Montreal West as the workingmen's candidate.

Mr. Godson, of the Revenue Department, has gone to organize that service in Prince Edward Island, under Confederation.

The resignation of Col. Robertson Ross as Adjutant-General of Militia has been accepted, and is to take effect from the 15th of September.

The Governor-General is now at Minto River, where he will remain some time salmon fishing before proceeding to Charlottetown and Halifax.

The Chatham Banner dubs Rufus Stevenson "The Tilbury Fraud." Happy thought! We hope it won't make Rufus swear—swear to another affidavit, we mean.

Wednesday being the day appointed for the meeting of the Huntingdon Committee, at Montreal, much interest is felt in political circles there as to what course they will adopt under the Queen's disallowance of the Oath-Bill. The Ministerialists are jubilant and openly boast of Sir John's cunning in knocking the investigation on the head.

W. Wallace, M. P. for South Norfolk, after having drawn his thousand dollars for doing nothing in the Commons for a couple of months, has again resumed work in the House of Commons. He keeps regular office hours in the Intercolonial Railway office, as do the other clerks, and seems likely to remain until the 15th of August enables him again to develop into an M. P., and give strictly independent votes for Sir John.

Mr. Charles D. Williams, Sir Hugh Allan's railroad engineer, the "Credit Mobilier" man.

The Hon. A. Campbell's friends resigning the position of Postmaster-General in a few days. He will be appointed Minister of the Interior.

Mr. James Cowan, of Galt, has been elected chairman of the Board of Dominion Arbitrators, in the room of the late Hon. Philip VanKoughnet.

New Grand Trunk stock to the amount of \$7,500,000 has been subscribed in the London market, and the balance of \$2,500,000 is reserved, with the anticipation that it may be placed at a higher price in eighteen months.

Among the things to happen on the first of July, are the coming into force of the clauses of the Washington Treaty, hitherto in abeyance, and the formal admission of Prince Edward Island as part and parcel of the Dominion.

The stringency of money has imposed some check on importations into the United States as well as here. From January to April, the imports were \$52 millions, against \$34 millions last year. Meantime the exports have largely increased, being for the same period \$53 millions, estimated in gold and currency mixed, against \$74 millions last year, reckoned only in gold. Besides these exports, \$5 millions of live cattle were sold in the States, and by three times that amount of other securities. The effect of these movements on the American money market, has been most favorable, and they are the salutary results of the monetary stringency which is so loudly complained of.

One more.—You probably think that if you look very sharply at an old shoe when you throw it away, you will know it again if it ever comes back to you. But that doesn't at all follow. One of these days you may button your dress with an old pair of slippers, comb your hair with a comb, or grasp a cast-off gaiter while at your dinner. You don't see how this comes. Well, we'll tell you. Old shoes are made to account by manufacturers in the following manner. They are cut into very small pieces and kept for a couple of days in chloride of sulphur. The effect of this is to make the leather hard and brittle. Next the material is withdrawn from the action of the chloride of sulphur, washed with water and dried. When thoroughly dry it is ground to powder, and mixed with some substance like glue or gum, that causes it to adhere together. It is then pressed into moulds and shaped into buttons, combs, knife handles, etc. So you see how it may come to pass that you will comb your hair with a boot, and fasten your clothes with a slipper.

THE LION! THE LION!

GREAT COMMOTION IN THE DRY GOODS TRADE

and a Tremendous Rush at our Mantle and Millinery Rooms.

On all hands we hear of dull trade: "Nothing doing," says Tom, Dick, and Harry, but it is not so at THE LION. Still great bustle and activity at the leading house. The spring trade is opening beautifully, thus encouraging us to greater endeavors in the public weal; and the reason of our success is apparent. Our Goods are all direct from the manufactory, and none can do a successful business unless they buy from first hands, for which our Establishment has long been noted, and has raised the standard of our fashions (combined with the energy of the proprietors of the firm) to the present proud position, and more especially for the last two years, so that our daily sales are almost equal to the combined trade of the same character in the Town of Guelph.

OUR MILLINERY DEPARTMENT

Our Millinery is a complete success this spring, the taste inherent displayed by Miss McDonald is captivating all hearts, and places her high in the ranks of first-class Milliners. Combined with the genuine popularity of Miss Sutherland, thus making our rooms the centre of attraction.

THE Nouveau Monde is jubilant over the progress of the papal Zouave Colony of Piopolis, on the shores of Lake Michigan, founded in 1871. It says Piopolis is already a Parish; above fifty settlers have lots there, thirty with families, and all are at work with great emulation clearing and building. A saw-mill has been in operation a month; another is building; and a third on a large scale is expected to be built by an American capitalist.

The retiring editor of a Kansas paper "valedicts" himself as follows: "If I have said anything through the columns that I am sorry for I am glad of it. To my friends I thank you for your liberality, to my enemies you may go to the devil."

A young man in Utica exclaims: "I did not marry that girl on account of her father. I like that girl well enough, but she did not—Did he have anything to say to me? Why, rather. He had his right foot against me two or three times one evening, and I never went there any more."

Notice has been given of a lockout of other factories at Staleybridge, at the end of next week. Several thousand workmen will be thrown out of employ.

It is now proposed to build a double line of railway from New York to Chicago, to be devoted exclusively to freight traffic. Parties interested in its construction are anxious to get a subsidy from the United States Congress, and a bill for that purpose is being introduced into the Senate.

A new and improved Martigan has been patented by a brother for the last 20 years. It is a cap in his house, in Montreal. Two years ago an action was instituted to compel his removal to the States, but the court decided that it had no jurisdiction in the case. Martigan is well-pleased and has a bed of shavings.

THE TEMPTATION.

CHAPTER XXVI.

AMONG THE INDIANS. The anxiety and despondency of Philip and Jim were far from being lightened...

It must be confessed, however, that in their bosoms were many anxious thoughts and forebodings. The savages into whose power they had come belonged to a fierce and cruel tribe...

For fully an hour they had maintained a silence among themselves, but at length Philip addressed the trapper, who walked immediately before him. "Have you formed any notion as to what our fate is to be?" he asked.

"Well," rejoined Philip, "I must own I am not desirous enough to receive comfort from any such knowledge. What say you, Jim?"

"I don't pretend to be, Mister Red-shanks. Neither Mister Philip nor I come from England for that particular object, which we leave to those that feel inclined for it. All we wanted to do was to see Jerry Just, and then make tracks back, as you call it. But it's my humble opinion as how our chance of doing this is now a small one. These red 'gents as have us in charge ain't likely to be slipped from."
