## RUSSIANS TURN GERMAN LEFT FLANK; CONTINUE PURSUIT ACROSS THE VISTULA; DEFEAT THE AUSTRIANS AND INVADE TURKEY

### Attempt to Destroy Railway Subway at High Park Revealed by Automobile Headlights—Five Foreigners Were Fired on But Escaped

#### OUR GOVERNMENT MUST ACT!

We Canadians have got to come to life in the defence and welfare of Canada and ourselves.

We must not only do our share in fighting the battles of the empire, but we must, every man of us, understand that we must also take care of our own country.

The triumph of Germany would mean the end of Canada. There are thousands and thousands of Germans in the States who would aid this country if they had the assistance of a German fleet on our Atlantic coast. There are many of the Germans in the States drilling and planning to come, in any case, if they can get a chance.

We must be prepared. What should we do?

First, find out, or rather the government should find out, what arms and ammunition we have, and if we have not enough start in to get more. Let the nation build and own a rifle and ammunition factory here in Ontario. That may take some time.

But there is another thing we must do forthwith. Stamp out any sign of sedition within our border! Suppress any pro-German papers published in Canada and stop the circulation in Canada of pro-German papers published in the United States. To merely warn them is to confess weakness!

We believe the German Government has bought several very prominent publications in the States and is now carrying on in these organs an avowed and powerful campaign for the German cause, to promote and encourage sedition within the British Empire, to promote panic, wherever they can, under the British flag.

We say to the government at Ottawa that they do not need to be specially scrupulous in this matter; but they must be active; suppress the papers at home, bar out foreign papers suspected, and give them a chance to clear themselves if they wish to. We are at war and must use war methods.

The United States is a free country and its newspapers may be free to publish what they choose to.

But Canada is a free country and she is especially free to say what she will and what shall not come in; and what shall circulate in this country and what shall not, especially when the Empire and our own country are threatened with the greatest peril.

#### OFFICER FIRED ON 5 FOREIGNERS WHO WERE SEEN TAMPERING WITH TRACKS ON HIGH PARK SUBWAY

Warned about nine o'clock last night that five men were acting suspiciously on top of the Grand Trunk subway at the second entrance to High Park from the Lake Shore road, Mounted Officer Hanson succeeded in stopping what he believed to have been an attempt by foreigners to blow up the subway and wreck a number of trains.

Hanson's informant was a motorist, who, by the headlights of his machine, when he was coming thru the park, saw three men lying on the tracks apparently busy, and two others were walking around them as if on watch. The motorist, whose name the police would not divulge, hunted the locality till he found Hanson. The officer hurriedly started his horse and hurried to the scene. When he had come quite close to the men they commenced to run. When the men refused to stop in answer to Hanson's command, he fired two shots over their heads, but they kept on their way. He then emptied his revolver at them but it is thought without success.

As soon as possible he communicated with No. six police station, from where a posse was sent out to search for the men. High Park and the country for miles around was scoured for hours without finding any of the men.

Just what damage was done to the railway tracks the police would not say, but it is understood that they had been tampered with.

#### "Let Us Do or Des!"

A typical patriotic meeting was held in Massey Hall on Tuesday evening. There was a splendid program, representative speakers, fine music, a brilliant illustrated lecture, and an enthusiastic audience. Nothing could be more successful from the point of view of the promoters of the meeting and for the purpose intended. Without finding any fault with the meeting as such, however, it may do no harm to point out one or two things which are apt to be overlooked in our enthusiasm for ourselves and our own cause.

For one thing, we have been giving the Kaiser fits on account of his familiarity with the Supreme Being, yet we are just as confident as the Kaiser in matters of this kind. Premier Hearst expressed the general view and was tremendously applauded when he announced that "the fact will go forward, for the hand that holds it aloft is the unseen hand of Omnipotence."

We hope so, just as the Kaiser does, but why denounce the Kaiser and err on the same path? God helps those who help themselves, and we ought to be more concerned with developing the self-help department than in making assertions about what will happen before we have done anything to bring it about.

A good many of the audience, and probably the majority, sang as an assertive brag "Britannia Rules the Waves." The poet did not so write. His words were a plea, a petition, an invocation, "Rule, Britannia! Britannia, Rule the Waves!" And we sincerely hope she may. But we need heavy cruiser fleets to assist her.

The account of the British navy with which Mr. Ames gratified the audience could not have been better from the patriotic point of view, but it might be equally useful sometimes to give us lectures about the German navy and its power and speed and broadside batteries. We are too apt to sit down with the sense of false security which comes about what we call the "rule of the sea" in the international sweepstakes.

We all stood up for the Belgian national anthem, and for the Russian national anthem, and twice for the French anthem, "La Marseillaise," and for "Rule, Britannia," but we did not stand up for "O Canada!" in which the rich contralto choir sang so gloriously, and we did not stand up for the Irish air, nor to the Scots song of battle, the words of which were perhaps the most stirring and most potent of any that were sung, and most nearly in harmony with the life and death struggle for liberty in which the empire is engaged.

Robert Burns had a profound sense of the necessity for personal action in things national, the individual patriotism which does not get rid of its responsibilities in the feeling that the government, or some government overseas, will take care of our troubles. Careful observers in Britain say that the people are not thoroughly aroused yet. With the same degree of observation it would not be difficult to find a large amount of slumberous ease in Canada, even among the rulers of the land.

It is not yet time to think that things are going so well, and that we may slacken up in military preparation. Until the Kaiser slacks up there should be no slacking anywhere else. And the Kaiser is busier than ever he was.

#### The U. S. Elections

The returns from the congressional elections in the United States are still incomplete, but it seems to be generally conceded that the Democrats will control both the senate and the house of representatives. They virtually held their own in the senate, but their huge majority in the present house is reduced to a narrow margin. Mr. Wilson and his party have not been routed, but the Republicans have recaptured a great many districts wrested from them in 1910 and 1912. The president has been endorsed, but was not been acclaimed by the people.

It is not unusual for the party in power to lose a good many seats at the congressional elections. This

happened under McKinley and Roosevelt without diminishing the prestige of the Republican party. No doubt the Democrats would have been stronger had Mr. Wilson been in the field as a candidate, and it is altogether likely that his presence upon the stump would have been of greater advantage in many congressional districts. He is none the less to be commended for pursuing a course at once dignified and patriotic.

The tariff issue will, of course, be credited with the result, and it is to be regretted that a financial depression, occasioned by other causes, should have followed the enactment of the Underwood law. Hard times always hurt the government of the day. Then again the creed issue prominent in the New York and Ohio campaigns embarrassed the Democrats. But the outstanding fact is that the Republican party has "come back." The "elephant" has swallowed the "bull moose." The members of the "bull moose" party have, with few exceptions, surrendered without even the honors of war, and they will fight hereafter within the party lines, abiding by the decision of the majority of the party, as expressed in popular primaries. Even Theodore Roosevelt will have to conform, and it would not be surprising to see him and Mr. Taft sitting side by side as delegates from New York and Connecticut, respectively, in the next Republican national convention.

However, the important fact is that Mr. Wilson will have a big majority in congress until March 4, and a majority that should be sufficient probably for all purposes during the balance of his term.

**The Real Trouble.**

The people of the United States are not the first and they will not be the last to discover that a sudden demand by all one's creditors for immediate settlement may throw the most prosperous man or business into bankruptcy. No one pretends to say that the wealth of the United States is not many times five hundred million dollars, but it is almost impossible for that country at this time to pay that amount in gold. Sir George Paish is therefore exerting himself to get as much gold as possible for his British clients and to facilitate the payment of the rest of the debt "in trade." Such payment should not be difficult if we are able to rely upon The New York Sun's estimate of five billion dollars export trade for the fiscal year ending June 30, 1915. That journal declares that Britain, Russia, France and Germany are buying supplies in the United States in enormous quantities; only cotton is neglected and sooner or later the British manufacturer may be trusted to start his mills going again without waiting for a further drop in the price of raw material.

It is a fair surmise that another five hundred million dollars will be due next year and probably our neighbors will have to go on borrowing and getting deeper into debt. They are now a debtor nation altho the balance of trade for the past six years in their favor aggregated \$2,375,125,579. What is the trouble? Our good neighbor The Globe says it is absenteeism. It compares the American to the Irish peasant sending all he can produce to England, where it is spent by the landlord in London, and no doubt there are many wealthy Americans living abroad and some large fortunes have been dedicated to the purchase of titles and coronets.

But this scarcely explains the grave situation which confronts the United States and threatens something like general ruin to the insurance companies, the banks, the universities and the millions of people, directly or indirectly interested in railway securities and other corporate issues. All countries complain of absentee landlords, but if wealthy Americans settle in Europe, wealthy Europeans settle in southern California. Big sums have been paid for dukies, but on the other hand a lot of British and foreign money has gone into salted mines and defunct railways. We venture to think that as much money is drained to Europe by comparatively poor people for educational and vocational purposes as there is by the titled expatriates. The cancer in the body politic of the United States is a growth far deeper and more malignant in every way.

Yet The Globe has nothing to say about over-capitalization. It does not seem to grip the appalling situation which will be presented when American railway securities of the par value of five billion dollars are dumped on

the market. It is the burden of watered stock that has broken the back of the American producer and drained the resources of the Mississippi valley, because after all it was the stock watering which led the railroads into Wall street, where they were robbed without mercy by the investors and fresheners of the Pierpont Morgan type. There may be and probably will be a flurry of good times in the United States if the war lasts long enough, but all the time the country will be getting deeper into debt.

We fear The Globe does not agree with us in thinking that over-capitalization is an evil. It doubtless agrees with Sir Alan Ayleworth that it is nobody's business how much stock is issued by a corporation. Our views to the contrary are well known and we need not labor the point beyond saying that absentee landlordism by no means accounts for the richest country in the world after 50 years of almost unbroken peace, being heavily and almost hopelessly in debt.

**Leave It to the Commissioner**

Back into the hands of Commissioner Harris, which he never should have left, goes the question of the floor street viaduct. A steady pressure has been put on the city council for some weeks for the purpose of having a change made in the decision taken, or practically taken, two years ago, when the bylaw was submitted to the ratepayers, to vote for a viaduct to be constructed of steel.

Any variation from that decision might not only jeopardize the safety of the structure, if we are to accept the responsible opinion of the city engineers, but might lead to injunctions from citizens who could see no sense in taking the risk of throwing away two millions of money.

Admitted that there are large interests working to get the contract, these interests are not confined to one form of material. The steel trust may be interested, but not more than the cement men. The steel plants really give the cement men a fair division of the work, as the foundations and piers will consume a large amount of concrete.

The present delay has led to the waste of two or more valuable weeks, when the cry from the unemployed is insistent and piercing. There should be no more interference with Commissioner Harris, who has had the best contract on the continent on this important project. The aldermen who fail to see this will fall in some other directions when the voters get after them.

**THE AMERICAN REVIEW OF REVIEWS.**

Editor World: After reading your excellent article in this morning's paper entitled "More Pro-German Organs in the States," I bought a copy of this month's issue of the American Review of Reviews and quite endorse all that you say.

There is not one word on behalf of Great Britain or her allies, nothing but glorification of Germany and her wonderful soldiers and resources, with page after page of reproductions of foolish and derogatory cartoons in order to influence American readers. The article is a masterpiece of propaganda.

There is no doubt that the publication should be prohibited in Canada, and that you will not let the matter drop. It should be placed before the government at Ottawa for this purpose.

**WHO IS LYING?**

When the stories told by M. Cohen and Maurice Edelman concerning who destroyed property belonging to the latter were found to be very conflicting, Magistrate Denton said "Some one will be indicted for perjury." Edelman in the police court charged that Cohen broke a window grating and a fence. The case was remanded for a week for investigation.

### HIS GUNPOWDER PLOT

The tariff issue will, of course, be credited with the result, and it is to be regretted that a financial depression, occasioned by other causes, should have followed the enactment of the Underwood law. Hard times always hurt the government of the day. Then again the creed issue prominent in the New York and Ohio campaigns embarrassed the Democrats. ### OVERCROWDED CARS

Ontario Railway Board Hears Last Duel Between Opposing Counsel.

With a last duel between opposing counsel, the argument on the overcrowded Toronto street cars drew to a close last evening before the Ontario Railway Board, and in a few days the order will be issued deciding whether or not the condition of city traffic warrants a large company expenditure. The decision will be interesting, for it will show whether the board will follow the advice of their own traffic expert, C. R. Barnes, who some months ago submitted a lengthy report advising a huge company expenditure and considerable re-routing of lines.

The whole of the morning hearing was given over to G. R. Geary, corporation counsel, and the burden of his claim was that the company, after having made such a good thing out of the public for years, was now striving to avoid duty under the plea of hard times. Their accounts showed, however, that they could afford to make the proposed extensions. There was shown there a profit and loss account of \$400,000 and a reserve of \$3,000,000. The bonus to shareholders was more than 7 per cent.

In the afternoon Mr. Oster held the reins and began by referring to inaccurate summaries by the expert and the city. He claimed that the city's arguments were unreasonable. The whole question was one of diminution in traffic. He stated evidence of Mr. Barnes to mean that he would not have made the report under present conditions.

Mr. Oster emphasized the antagonism between city and company, and stated that the railway board was not intended to help popular clamor.

**CAPTAIN OF KARLUK IS NOW AT OTTAWA**

Bartlett Will Present Report on Stefansson's Ill-Fated Expedition.

Canadian Press Despatch. OTTAWA, Nov. 4.—Capt. Bob Bartlett, skipper of the Karluk, the ill-fated ship on which the main party of the Stefansson Arctic expedition left Victoria, B.C., in June 1913, arrived in Ottawa today to submit his report to the naval department, on the circumstances that led up to the sinking of the vessel and the subsequent death of eight of the party. With Capt. Bartlett is William L. McKinley of Glasgow, Scotland, meteorologist and magnetician, the only survivor of the six scientists who were aboard the Karluk. "No more Arctic expeditions for me," said Capt. Bartlett to the Canadian Press, when asked if he was prepared to go on another trip north. "I am on my way to Florida, where it is warm."

**GUELPH DEPUTATION INTERVIEWED CABINET**

No More Friction Likely at O.A.C. Over Military Preparation.

An afterglow of the excitement caused in Guelph over the return of Prof. Zavits in discouraging military activities, resolved into a small deputation to the provincial government yesterday. A group of men came bearing a resolution from the South Wellington Conservative Association, urging the government to take some reorganization measures in the Agricultural College. The mission, however, was acknowledged useless, for the visit was arranged before they knew of the arrangements made by Hon. Mr. Duff.

Affairs were settled in amicable fashion after the visitors were closeted with the ministers for an hour and the military preparation of the college will continue without trouble. H. C. Schofield, M.L.A., introduced the delegation, which comprised J. J. Drew, J. T. Hannigan, H. Gunner and Capt. Pritchard.

**POISONED BY GAS.**

William T. Oke, age 33 years, was found dead in his bed at 100 St. Street early yesterday morning. The gas jet in his room turned on at 11 o'clock and it is thought that after turning it off he accidentally turned it on again as the valve was very loose. His body was removed to the morgue, where an inquest will be held.

Stale and Cracked Eggs a Menace to the Public Health

Strange though it may be, history records that more men have died through pestilence and disease than through actual warfare.

Public health and pure food laws have done much to improve the public health by making it impossible for dealers to sell food that is not fit for consumption.

NO-EG is pure and made from the egg product, containing nothing but the food elements we eat every day.

NO-EG comes fresh every time it is required. NO-EG cannot get stale. It is a wholesome food product, scientifically prepared.

NO-EG is economical and gives the housewife an equal to 40 eggs for 25c, or an average of 6 1/2c a dozen.

We want the public to know the intrinsic value of NO-EG quickly, and to encourage the public to go to their grocers and demand NO-EG.

# Rugby The Program For Saturday

## TORONTO TEAMS ARE READY FOR FRAY

Varsity and Argos Will Have Strong Teams for Saturday — Gossip.

The Rugby games on Saturday are: McGill at Varsity, Interprovincial, Argonauts at Montreal, Hamilton R.C. at Ontario Union, T. R. and A. A. at Hamilton R.C., Junior, Palmer Beach at Broadview, Capitals at Parkdale, Little Big Four, U. C. C. at St. Andrews, Ripley at T. C. S., Varsity League.

High Parks and Bus Bailie has been selected by President Phillips to handle the Argos-Ottawa game Saturday.

The Little Big Four teams wind up their season on Saturday unless the St. Andrew's team can be persuaded to keep in training to meet Varsity or Argonauts for the city championship.

Harbord Collegiate defeated University School first team by 14 to 7 at Willowdale Park yesterday, a fine kicking for the winners featured.

The Varsity athletic directorate has considered the protest submitted to them by the Victoria Mulock Cup team, concerning the game with Junior made on Oct. 30, and have come to the decision to award the trophy to the team which defeated the official who refereed the game.

Kew Beach and Balm Beach have agreed on Cummings and Marden as officials for their Junior O.R.F.U. game on Saturday at Scarborough Beach.

The high school final between Technical and Parkdale will be played at Varsity Stadium on Monday at 3 p.m.

Three important games take place on Saturday afternoon in the local Junior O.R.F.U. series, and as each is a bye, they count for two times.

All Balm Beach players in the O. R. U. Junior City and Senior City games are requested to be out to practice to-night.

The Balm Beach O.R.F.U. team would like to arrange an exhibition game with some outside Junior O.R.F.U. team on Saturday, Nov. 14.

Senior and Junior Medals play the Mulock Cup finals at the Varsity Stadium.

## Peterkin Breaks Leg At Varsity Practice

Peterkin, the Varsity wing man, had his leg broken when he was brought down by a hard tackle at the strenuous practice at the Stadium last night.

Harry Griffiths journeyed over from Ridley for the first time this year to coach the Varsity squad for their important game Saturday.

Argonauts, barring accidents between now and Saturday, will put their strongest line-up on the field at Ottawa.

Joe Wright will accompany the Argonauts to Ottawa. Twenty players will be taking to the capital, the squad leaving Friday night.

The City Rugby League standings are: SENIOR SERIES.—District No. 1. Won. Lost. Riverdale 5 0. Balm Beach 4 1. Broadview Y. 3 2. Don Rowing Club 0 5.

Hamilton Spectator: Ross Craig, greatest of all line plungers, will don his Rugby togs and get into action for the Hamilton Rowing Club against T.R. and A.A. on Saturday.

Danny McCarthy, the oldest footballer in captivity, may be forced to witness the game with Toronto from the sidelines.

The selection of officials for the T.R. and A.A. Rowing Club game has been in the hands of President Hugh Gall.

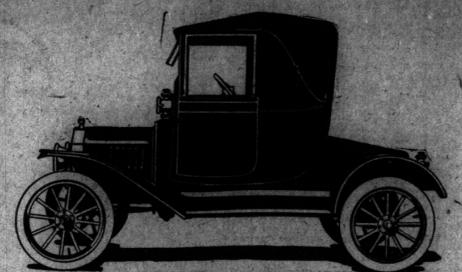

Report has it that Art Wilson, the Tiger line plunger, is to retire from the game for this season.

The movement which has been begun by the Royal Canadian Institute by the issue of an important pamphlet to the public calling for the establishment of a bureau of scientific and industrial research is to be made a prominent feature at the inaugural meeting of the University of Toronto.

Chief Justice Meredith yesterday granted a mandamus directing City Architect Pearce to issue a building permit to W. B. Charlton.

Mr. Charlton owns a 25 foot lot on the corner of Dufferin street and Temple avenue, and the city bylaws stipulate that no building may be erected on Dufferin street beyond the 25 foot building line.

The following cases will be before the appellate division of the superior court of appeals at Osgoode Hall today: Faulkner v. Holt, Kilduff v. National Railway Association, McGillivray v. Toole, Soper v. Windsor Steers v. Dow, Leitch v. S. W. & A. Railway, Grainger v. Canadian Home Circles.

## SPEED AND TRICKS N'GILL'S STANDBY

### Shag Drilling the Squad in Some New Turns, Also Booting.

MONTREAL, Nov. 4.—That McGill will depend upon speed and trick plays to defeat Varsity on Saturday was evidenced when a number of new formations were introduced by Coach Shaughnessy.

There was a stiff line-up against the second team. All the men on the senior squad were out during the afternoon, and as a result a very much needed workout was put in.

The white ball was in evidence again last evening, and will have to be used regularly from now on, as it gets dark early these evenings.

Should the executive succeed in inducing the Montreal team to make the journey to Montreal this week the game will be played on the 22nd inst.

The annual meeting of the hockey section of the Anglican Athletic Association will be held at the Carleton Club, 20 College street, on Monday evening, Nov. 9.

## Hand Made Shoe Packs

(As Illustrated)

### The Kind the Hunters and Trappers Favor

Climbing rocks, rushing through streams and timberland certainly plays havoc with footwear. It was for just such service that these were made.

Note the double leather front, fitted with heavy eyelets and strong lace which is so designed as to relieve all strain on the front seams when laced.

The leather in these is of good wearing thickness, heavily oiled, and turns the wet.

Up the back there's a double-stitched, two-ply strap, which reinforces the back greatly.

Bottoms are of double thickness, with soles and heels, which give a strong foothold.

These are made in four styles, and at the following prices:

"Skowhegan," 10-inch Shoe-pack, with draw string, in plain style, of heavy leather; sizes 6 to 12; pair ..... 4.00

"Skowhegan," 10-inch Shoe-pack, with draw string and tap sole and heel; sizes 6 to 12; pair ..... 4.75

OTTAWA TACKLING ON MORE WEIGHT

Promise to Give Argonauts a Real Tussle — Calling Out the Reserves.

OTTAWA, Nov. 4.—The Ottawa meet the Argonauts at Lansdowne Park next Saturday in the last foot race of the season in the Interprovincial Union.

It will also be Ottawa's final hope for a victory as they count on receiving a drubbing at the hands of the Hamilton Tigers when they go to Hamilton on the 14th.

The Ottawa men are confident that the Ottawa defence of the Argonauts gave them the best of the Ottawa match at Toronto last year and if it is all possible to trounce the Argonauts this week the trick will be turned.

It is probable that Coach Gerard will take on more weight to face the Argonauts Saturday's game. In the match at Toronto the Argonauts in the Argonaut line simply shot first the Ottawa defence at will. Whether it was outside interference or not, Foster, Burkart, Heuther and others just bowled the Ottawa defence and they were helpless. After a time the men on the Ottawa line weakened under the onslaught and grew hopeless or resigned to the terrific rushes of the Argonauts.

**ALIENS NOT ALLOWED ON COURSES.**  
An indication of the manner in which the war spirit is affecting the average Englishman may be gleaned from the kind of resolution that has been passed at more than one loyal British golf club. The resolution adopted by the Burhill Golf Club, one of the London courses, voices the prevailing ideas about as delicately and politely, but at the same time as firmly and unmistakably, as they could be expressed. It reads as follows: "That members of German and Austrian birth and parents, whether naturalized or not, are requested, for their own comfort and that of the members, to abstain from using the club and links during the continuance of the war."

**AMERICAN LEAGUE WILL VOTE ON WAR QUESTION.**

CHICAGO, Nov. 4.—Club-owners of the American League, at a special meeting tomorrow, probably will cast their vote for war or peace in the baseball world. Negotiations between organized ball and the Federal League recently have been carried on to an extent, it has been admitted, which required only sanction of any address.  
Discussion of peace, however, is only one of the things on the table, it is said. The possible transfer of the ownership of the American League Club to New York is likely to come up, according to a report circulated here.

# Record-Breaking Wheat Sales Make Strong Market

## STANDARD EXCHANGE WITHOUT EFFECT

Wall Street Interest Centres Upon Elections—War Risks High.

## EMERGENCY MEASURE

Exchange Firm—More German Cotton Bills—Railway Returns Low.

## Canadian Press Despatch.

NEW YORK, Nov. 4.—Wall street temporarily abandoned its interest in international affairs today to give some consideration to the outcome of the elections. With the stock market still under closure, there was no way of measuring the significance of the overturn in terms of security values, but conservative opinion inclined to the belief that under normal conditions the market would have responded with a vigorous upturn of prices.

On the other hand, it was regarded as a debatable question whether these political conditions would not have been largely neutralized by the latest victories of the German navy. These were accompanied by another sharp rise in transatlantic rates, which war risk on ships plying between North and South American ports were virtually prohibitive, according to reports.

## An Emergency Measure.

Expiration of the British war-act was without appreciable effect either in London or here, although the London Stock Exchange has formulated, with government aid, an elaborate plan to be employed when market operations are resumed. The plan applies mainly to the carrying of margin accounts and is plainly an emergency measure. The statement of the Imperial Bank of Germany, which showed an increase of \$150,000,000 in gold reserve in the three months of the war, reflected the large payments made in connection with the war loan.

## Foreign Exchange Firm.

A minimum of operations, cables being closed at 4:15 and night drafts at 4:30. More German cotton bills were in the market at rates unchanged from the early week. There was a rebid of German bills, however, but these, if consummated, probably will be in the nature of private transactions for the benefit of upbuilding of credits by that country.

## Railway returns for September of last year.

Private study for classes for ladies in classes 4.39 and 4.47.

## Grain Growers Had A Profitable Year

Company Made Twenty Per Cent—Annual Meeting Held.

Canadian Press Despatch. WINNIPEG, Nov. 4.—A net profit of \$1,200,000 on the operations of the Grain Growers' Grain Company, which amounted to twenty per cent, was announced at the annual meeting today. The company's revenue for the year was \$1,200,000 and the balance placed in the reserve fund was \$1,200,000.

## Will Carry On Extensive Work

Important Claims in Sesekinika District to Be Explored.

SESEKINIK, Ont., Nov. 4.—A diamond drilling outfit is being taken from here about eight miles west of the Bederman claims, where extensive exploration work will be carried on this winter. Buffalo interests are understood to be behind the proposition and they are anxious to control the claims. The engineer in charge states that the discovery vein is fifty feet between walls and a high grade of quartz has been found.

## Petition to Wind Up Trust Corporation

LONDON, Nov. 4.—In the chancery division, John Marshall the stock exchange of the Dominion of Canada Trust Corporation, Limited. His counsel said the petitioner was supported by holders of 10,444 shares and stockholders who desire for a compulsory winding up of the company. The petition was filed on April 1910, with a nominal capital of \$1,000,000, in 400,000 ordinary shares of \$1 each, and 100,000 deferred shares at the rate of \$1 each. The petitioners stated that the company was obviously unable to pay its debts here, and would be unable to do so in the future. The petitioners stated that the company was a trust corporation and that the petitioners were the trustees of the company.

## Sound Basis to Follow Depression

MONTREAL, Nov. 4.—Satisfaction was expressed at the annual meeting of the bank that followed. William Macpherson, in summing up his address, stated that, in his opinion, the world was going back to a sounder basis, and that the depression would be a blessing.

## East Buffalo Yards Were Closed Yesterday

Canadian Press Despatch. BUFFALO, Nov. 4.—A quarantine was placed on cattle at the East Buffalo win J. Huson, state commissioner of agriculture. The step was taken solely as a precautionary measure, and was not due to the discovery of disease, the existence of which locally was denied.

## MADE-IN-CANADA

Bank clearings yesterday in Toronto amounted to \$4,042,721.

The list of subscriptions for the Russian internal war loan of \$20,000,000 will be opened today. The bonds will bear interest at 5 per cent, and will be issued at 94.

The annual meeting of the Sherrin-Williams Company of Canada will be held in Montreal on Monday, Nov. 16.

NEW YORK.—There was withdrawn from the New York treasury yesterday \$250,000 gold for shipment to Canada. Altogether there has been shipped to the United States to Canada about \$7,740,000 gold since Aug. 1.

## HOLLINGER MINE HAS GOOD REPORT

Profits for Four Weeks Are High—Work Continues Satisfactory.

In the report of the Hollinger Gold Mines, Limited, for the period of four weeks ending Oct. 7, the gross profits amounted to \$447,785.25. With the statement which is being mailed to shareholders is the dividend cheque No. 27. The profits from Jan. 1 until Oct. 7 amount to \$1,815,970.70. Dividends 17 to 25 total \$800,000. The total assets are \$4,226,161.61. The expenditures for the plant during the four weeks referred to amount to \$15,865.00.

Working cost came to an aggregate of \$73,862.25, or an average of \$4.408 per ton of ore milled. The total amount of ore hoisted was 18,231 tons. The average value was \$12.54. The mining costs, including exploration, development and production, came to \$37,785.65, or \$2.081 per ton of ore milled.

The mill ran 89 per cent of the possible running time, treating 18,132 tons, all of which was Hollinger ore. The milling costs were \$1.234. In conclusion the report states that the work in the mine continues to yield satisfactory results. No. 10 vein has been cut on the 200 foot level. Working costs are somewhat higher than last month, due to the smaller tonnage treated. This in turn was due to the loss time thru a temporary shutdown in power supply and other causes.

## EXPORT HOUSES BOUGHT HEAVILY

Strong Market in Wheat—Record-Breaking Sales—Big Receipts.

Canadian Press Despatch. CHICAGO, Nov. 4.—Record-breaking sales to export houses brought about a strong market in wheat after a temporary slack at the start. The close decline to a rise of 2 1/2¢. Advance. Corn finished to 1 1/4¢ up and oats with a gain of 5-8¢ to 3-4¢. In provisions the outcome varied from a decline to a rise of 2 1/2¢.

It was estimated that foreigners today bought fully 3,000,000 bushels of wheat. The difficulty appeared to be not so much in the purchase of wheat as in the export of it. There were plenty of predictions that contracts would prove hard to fill, especially so in regard to nearby shipments. According to generally accepted figures more than 50,000,000 bushels have been purchased to clear from the United States by Jan. 1. Nevertheless export houses have been continually on the alert today for spot wheat or December delivery, and appeared to give little heed to any question of price.

Increase in Visible. Big receipts and an increase in visible supply caused the brief setback that took place early in wheat. The trans-Atlantic crop summary was also favorable. The effect, however, was quickly worn away by the news of Argentina helping almost immediately to turn the market up.

Corn and oats as well as wheat were governed chiefly by the export demand. Europeans bought 350,000 bushels of corn here, and it was said that more than 1,000,000 bushels had been similarly disposed of within the last week, cleaning up the Chicago stock, and considerable new corn now in transit. Exporters today took 1,000,000 to 1,500,000 bushels of oats. Venturers were shown to be comparatively meagre, and there was a huge falling off reported in the world's available supply of lard.

The total assets are \$4,226,161.61. The expenditures for the plant during the four weeks referred to amount to \$15,865.00.

Working cost came to an aggregate of \$73,862.25, or an average of \$4.408 per ton of ore milled. The total amount of ore hoisted was 18,231 tons. The average value was \$12.54. The mining costs, including exploration, development and production, came to \$37,785.65, or \$2.081 per ton of ore milled.

The mill ran 89 per cent of the possible running time, treating 18,132 tons, all of which was Hollinger ore. The milling costs were \$1.234. In conclusion the report states that the work in the mine continues to yield satisfactory results. No. 10 vein has been cut on the 200 foot level. Working costs are somewhat higher than last month, due to the smaller tonnage treated. This in turn was due to the loss time thru a temporary shutdown in power supply and other causes.
