THE MEN WITH THE HUNGHES AND THE KING'S PLATE.

First of all, let The World say that Mr. E. Gegg did not write the hunch letter of Saturday, which got in over his name. It was written by Mr. with his dear old friend. But he did it to show how near that men, who, like himself and Mr. Gegg, believe in hunches, can sometimes hit the mark. As for Mr. Maclean's own hunch of Friday, it came out exactly right; but LONDON, May 20.—(N. Y. Tribune enough of the Delphic in his deliver ance to make the reading wide.

Earlier than usual the drowning season was ushered in yesterday, when a man and a boy in the east and west ends of the city paid the price of recklessness within a few hours of each other. In the morning a party of young menfrom the Parkdale Cahoe Club paddled up the Humber River in their canoes to the old mill, which they reached shortly after 12 o'clock. They decided to bathe, despite the coldness of the May waters. Percy L. Rouse and his boating partner, a young mannamed Walm, dived in about 100 yards below the mill, and stayed in for some time, the chilly waters apparently not hamed walm, dived in account hamed walm, and stayed in for some time, the chilly waters apparently not diminishing their ardor. Of a sudden, however, Rouse threw up his hands and went under. Walm immediately went over to help him, but could not find his friend for nearly five minutes. With the assistance of others, he then are gged him to shore, and administered first aid. The artificial respiration was kept up for nearly an hour and a half, but as there was no sign of life, the young man's heart evidently having been too weak to respond, the work was given up.

Young Rouse had only joined the cances club a few weeks ago, but was an ardent boatman and a good swimmer. An inquest will probably be held.

Carried by Current.

After Sunday school was out, a party of five boys from east end churches hurried up the Don to a point near Taylor's paper mills, about three miles north of Genrard-street. Young Alexander Bagleson of 163 Shipper-avenue, aged 9, couldn't swim, but he went in with the others. Hardly had he been in the water a minute when the current carried him over his depth and he floundered about helplessly. His companions followed him along the shore, but were afrail to venture out after him. When the lad sank they told some farmers until the riverside and the body was recovered further cn. ROMAN CHURCH GREAT POLITICAL MACHINE

Newspaper Propaganda is Abuse and Vituperation in Extreme, Says Archdeacon Cody.

A forceful and elequent sermon, free from satire, but effulgent with dogmatic truth, was preached by the Venerable Archdeacon Cody before a rowded congregation at St. Paul's Church yesterday morning. In spite of the excessive heat the church was seated to its utmost capacity. The archdeacon took no text, but took as the theme of his discourse the Ne Temere decree and its relation to

the marriage law.
Prior to the sermon Archdeacon ody read a decree issued, written Bishop of the Church of England in Canada. This decree was read in

propaganda, abusive and vituperative in the extreme. There is a new aggressive policy on behalf of the whole Roman communion: Rome has lost much of her power in Latin Christen-

Archdeacon Cody further stated that the Ne Temere decree, from the Latin meaning 'lest rashly,' advanced in the but had not been enforced on the English people; it was only to take effect in the parishes where published and it was not published in Great Britain and Germany until three years ago. The decree enjoined all betrothals to be put in writing, signed by the contracting parties in the presence of a priest and two witnesses. It also enforced the law in the case of mixed marriages, namely, that any one baptized in the Roman Catholic Church, even the they had test that community and had joined another nurch, must be married by a Catholle priest. According to the decree anyone haptized in the Catholic Church, joining the Anglican com-munion, and wishing to be married n the Church of England, must be living in sin, their children illegiti-

mate and to be refused a burial, or

Great Political Machine.

"The Church of Rome has become a great political organization, it has corganized in Europe a political centre; it has also organized a incorpant of the contractive in the sanctity of marriage in Canada, it will be because of the way the Roman Cathother propaganda abusive and vitue rative lic church has buried insults on all that spirit." (II. Corinthians iii, 17). because of the way the Roman Catho-lic church has hurled insults on all the Protestants of our land."

Priest Used Influence . Archdeacon Cody mentioned a case a physical condition, as a man, we enwhere a brother clergyman had told tirely misunderstood the scriptures—He dom and is now determined to win him that in the parish he had charge Who was rich, as the Logos in glory, back British Christendom, and there of, a man of the Roman Catholic faith preserved His identity when He was back British Christendom, and there is a new aggressiveness in Canada, England and the United States."

Archdeacen Cody quoted from a book by Cardinal Manning, who said that it was fer the Roman Catholic Church it was fer the Roman Catholic Church casion the priest, pointing to a horse, rich again—now that He has been recommendation of the priest, pointing to a horse, rich again—now that He has been recommendation of the Roman Catholic Church casion the priest, pointing to a horse, rich again—now that He has been recommendations and rich again and rich again.

before marriage sign a decument being would be to suppose Him out of whereby their children will have no all harmony with heavenly, spiritual ight to follow the creed of their parents? Right and wrong is above af-fection, and it is outrageous that the interference of a priest should be permitted between man and wife, to lay bear the sacred secrets of the heart. Cannot Tolerate "Peculiarities."

We appreciate all that is good in the Roman Catholic Church, all that Roman Catholicism has in communion ourselves, but we cannot tolerate these peculiarities which are not even Christian in their origin. Archdeacon Cody concluded by inpressing upon his congregation the necessity of tolerance by the very fundamental principles they possessed, and that eternal visilance was al-ways the price of Mberty. It was necessary to teach and educate, and if any one knew, read and opeyed the New Testament Scriptures all shackles mental and moral, would fall away. "Be not entangled with the yoke o "Try and win our brethren triumph of a great Conqueror: Sin had bondage," said the preacher in by more charity, more of truth; and more of Christian love."

Pastor Russell's Sermon

BALTIMORE, Md., May 21.—Pastor Russell of the Brooklyn Tabernacle preached here twice to-day to large and attentive audiences. We report one of his discourses from the text.
"When He ascended up on high He led multitude of captives" (Ephesiana In this week occurs the anniversary

of Jesus' ascension. In one sense of the word of our Lord ascended (that is from human nature and the tomb, to the divine nature and immortality) at the time of His resurrection from the dead. He tarried, however, for forty days, with the apostles for their establishment and instruction—He on the spirit plane, invisible to them, except when He manifested Himself by appearing miraculously in various forms to convince them that He was no longer deceased, and also that He was no longer confined to human conditions from human nature and the tomb, to er deceased, and also that He was no longer confined to human conditions—that His resurrection had made Him again a spirit being on the higher plane, where He was before He took human nature for the suffering of death, for the redemption of humanity. Not alone by His words, but also by His conduct the suffering to the suffering every Anglican church in the Dominion yesterday, and it dealt with the relation of the Anglican community to the Ne Temere law.

The archdeacon showed that within the last fibity years there had almost grown up in the world a new Romanism; that now, as never before, the Church of Rome was a central control of the Dominion the legislation should be spiritual things. They could, therefore, receive instructions only along natural lines.

Romanism; that now, as never before, the Church of Rome was a centralized institution; the old liberal Catholic was almost a thing of the past and ultramontanism was the dominant feature. Some writers even said that the Pope himself was a sort of third incarnation, in other words, Christ under the veil of the flesh.

"There has been a renewal of old cults," said the preacher, "and the introduction of new cults, the invocation of the Virgin Mary, the endargement of Sunday saints as St. Another of Padua, pilgremages, etc., to the said that the Church of their the veil of the flesh.

"There has been a renewal of old cults," said the preacher, "and the introduction of new cults, the invocation of the Virgin Mary, the endargement of Sunday saints as St. Another of Padua, pilgremages, etc., to the control of the control, even if they be not of that faith at the time of their world, and that it was also necessary that He ascend up on high and re-entralized institution.

"We want to live peaceably with Roman Catholics; we want this land to be united, and yet here is launched against us a challenge, a most grossly insulting decree touching our church, our clergy and our children."

There has been a renewal of old cults," said the preacher, "and the introduction of new cults, the invocation of the Virgin Mary, the endargement of the church, even if they be not of that faith at the time of their world, and that it was also necessary that He ascend up on high and re-entralized institution.

conditions and surroundings. Moreover, are we not told that the Church of Christ will be changed from the human to the spirit condition in the resurrection, and that this change will make the "elect of God" like their Redeemer, so that they may see Him as He is, not as He was—that they may see Him in glory, honor and immor-tality, exaltation, and not as the humiliated One Who was made flesh that He might sacrifice His flesh on man's behalf? Here in a cool, shady room is had been gained in a legal manner— a row of cots, where anyone can leave thru one man's disobedience (Romens v. 12). The Logos divested Himself of His glory on the spirit rlane v. 12). The Logos divested Himself of His glory on the spirit rlane, was made flesh, fulfilled the demands of the law, proved Himself competent to pay the sinners' ransom-price, and gave Himself a ransom for all, "to be testified in due time" (I. Timothy 11, 6). Thus the great Conqueror is seen re-turning to the heavenly state, acclaimed by the heavenly host; and fol-lowing Him far down the centuries, the prophetic view saw, first the church, the "Royal Priesthood," "His "His brethren," "His bride." delivered from the power of sin and death, thru the merit of His blood. And these were but the first corps of a following host -"a kind of first-fruits to God of His creatures." rescued from sin and from death (James i. 18: Revelation xiv. 4). Later on, stretching down for a thou-sand years beyond the church's deliverance, the prophetic pen foretells countless hosts of every nation, people, kindred and tongue, to be delivered from the power of sin and death thru the merit of Him Who died. "the Just for the unjust." Now the Savior of the church. His bride, He will shortly be the Savior of the world, its great King. great Teacher, great Priest, great Mediator. During the thousand years of His reign Satan will be bound, ignorance and superstition shall become scattered before the light of the new dispensation, mankind shall be uplifted to human perfection and blessed with an earthly Eden—all that was lost by Adam and redeemed for man thru the death of Jesus. Then will come the glorious consum

mation, when all who will have refused divine grace shall have been destroyed in the second death-then shall heard every creature in heaven and on earth and under the earth saying, "Glory to God in the highest."

St. Bass Wins King's Plate--New Record for Race

Note and Comment

That Harry Giddings has a powerful and fast race horse must now be adultted by all. St. Bass has the speed and can go the route as his appearance would indicate, and members of the guild will tell you that he is the best looking 3-year-old at the track. His time, 2084-5, is faster than the previous best for the plate, the 2.10 2-5 being made two years ago by Shiminese.

S.agram's Jane Shore equalled the re ecra of Heather Bloom, made in 32 and 33, also finishing third two years in succession. On two former occasions in recent years one horse imissed second twice in successive years, La Blanche in

Show Up Well In Vancouver Game

VANCOUVER, B.C., May 20.—By a score of 13 to 3, just one goal better than New Westminster put up a week ago, the Vancouver lacrosse team Saturday defeated the North Vancouver twelve in a test game here before a crowd of 3000. The showing of the eastern men was the feature of Vancouvers play. Fitzgerald and Ions particularly making a hit with the fans. Phelan did not perform up to expectations, while Carter stood a lot of abuse from the North Vancouver defence, and was not given much chance to show what he really could do. Lalonde was not in his customary brilliant form, and did not score a goal, something unusual for him, but he greatly assisted in a number of tallies. All the fans are eagerly awaiting the first game of the league season between Vancouver and New Westminster at New Westminster on Victoria Day. VANCOUVER, B.C., May 20 .- By a

Well Played Game Before a Large Crowd- Kocher Featured With the Bat-Other Games.

The Leafs on Saturday won the fourth and final game of the series from the Skeeters by 3 to 1.

The contest was a pitchers' battle between the Leafs' old favorite, Jim McGinley, and Bartley, recently secured by Jersey City from Boston, and the nonors went to McGinley on account of his steadiness, keeping the hits well of his steadiness, keeping the hits well scattered, and only walking two men. Both teams pulled off fast double plays and the fielding generally was excellent. Dolan performed well at third base for the Skeeters, as also did Abstein at first. Jake Gettman and Deininger are a pair of classy-fielders. The Leafs' fielding continues good and while Jimmy Mullen is credited with an error for juggling a hard-hit ball which allowed a runner to reach first, he by quick thinking snapped the ball to third, Bradley getting agrunner there who had overrun the bag.

Kocher's batting was the feature of the game, the young catcher making three out of four times up, one a two-bagger. He also caught in excellent style. On his fourth time to bat he bit thru Fullerton, whose error allowed the runner to reach first. hit thru Fullerton, whose error allowed the runner to reach first.

Jensey City secured their one run in the third innings. Tonneman drew a base on balls. Bartley singled over second, placing Tonneman on third Deininger hit to Mullen, who started a fast double to Vaughn, to Jordan getting Bartley at second and Deininger at first. Tonneman, however, scored out the play.

getting Bartley at second and Deininger at first. Tonneman, however, scored out the play.

Abstein started with a double in the sixth, but the next three were infield outs. In the seventh McGinley struck out Fullerton and Tonneman, and Bartley went out, pitcher to first. In the ninth, with one out, Dolan doubled, but Tonneman and Bartley, flew out to O'Hara and Shaw respectively, thus cutting off any batting rally by the visitors in the ninth innings.

The Leafs started early to gather their runs. In the second, with one out, Kocher hit down first base line and by good base running and a slids stretched his hit into a double. Mullen walked. Vaughn hit one over chortstop, which Fullerton, by jumping in the air, knocked down, and the bases, were full. McGinley was walked, forcing in a run. Delahanty fouled to Abstein. O'Hara hit one that Abstein was lucky to stop, Mullen scoring. Shaw forced O'Hara at second.

Their other run came in the fifth, when Shaw, the first batter, singled over second, advancing on Jordan's well-placed sacrifice. Bradley fouled to Dolan, but Kocher singled to right and Shaw scored. Mullen was out, Breen to Abstein.

"The Light Beer in the Light Bottle" Is Far Better Than The Government Regulation Requires

The Canadian Government regulation, regarding the brewing of lager, is probably the most exacting in the world. It calls for a brew of Hops, Malt and Water only. The American

Government places no such restrictions on her brewers. O'Keefe's "Pilsener" not only complies with the Canadian Government regulations—but is brewed of the very finest Hops and Malt, and pure filtered Water.

THADE ADJUSTED TO BRITISH MARKETS

"Why Throw Everything Into Confusion ?" Asks Hon, James Duff, at Anti-Reciprocity Meeting.

COLLINGWOOD, May 21.-(Special.) -A meeting to discuss the question of reciprocity was held here last even-ing in the opera house. Owing to the abnormally hot weather the attendance was not so good as at previous meetings in the vicinity, but what the meeting lacked in numbers, it made up in enthusiasm and attention. The audience was composed principally of farmers from the neighborhood. Alex. Ferguson, M.L.A., said that

when reciprocity was first suggested he thought it might be a good thing for the farmers. After giving the ques-toon some study he was of the opin-ion that it would do more to destroy the prosperity of the Canadian farmers than anything that could happen to them. American public men were all telling their farmers that eciprocity would benefit them, and give them access to the Canadian markets, where, owing to the season being earlier in the States, they would get on the market first. If reciprocity was going to make the American farmer rich, was certainly going to make the Can-adlan farmer so much poorer. The Canadian farmer would have twelve competitors, where before he had only one. The price of hogs and other farm products had already fallen, as buyers would only buy from hand to mouth in Canada, as they feared reciprocity. Hon. Jas. Duff, minister of agriculture, who is leaving in a few days to Europe, was very warmly applauded as he was introduced by the chairman as "the people's Jimmy." He said that when the subject of reciprocity was first suggested he studied the addresses delivered by the experts of his department, for a number of years past, uch as Prof. James, Prof. Creelman and others, and he came to the con-

ant, a restaurant keeper of Toronto, remunerative and steady than the one for selling clgars, and the other for American markets. Our products were now adapted and adjusted to that market. We were exceedingly tions there were such that the farmers were anxious to get into the better Canadian market. Eggs there were now selling at 9 cents per dozen. The American Government in their blue book on reciprocity, showed that for years the Canadian farmers had been screams and laughter all over the park case stated by G. T. Denison, P.M. for nobody seemed to mind the darkness, but rather seemed sorry when the of the criminal code. The defendant, a setting better prices for their principal products than the Americans. country," said Mr. Duff, "is destined urday afternoon in the person of Geo. to be greater and richer than any other portion of the empire. It would be national suicide to give up our sure future for the insecure promise partner of H. G. Buckland, tinancial

States had closed their markets to our

Major Currie, M.P., dwelt with the question from the standpoint of the working man, who, he said, had everythong to lose and nothing to gain from reciprocity. Anything that jured the prosperity of the farmer injured the working man. The more prosperous the farmer, the more goods he bought. The more goods he bought the more work there was for the working man in the factory. The more work, the better the wages, and the more money and chances each artisan had of succeeding. When the farmers were prosperous the villages, towns and cities were prosperous, Canadian workingmen realized that the measure of their prosperity was contained in national prosperity, and employment just as much as in high wages. The one was the complement of the other. workingmen were unanimous against the reciprocity deal, because they were keen students of affairs. Laurier tried to hoodwink the farmers. Neither he nor his followers appealed to the workingmen to put this treaty thru, because they knew it was no use. He would find that the farmers venient hours of 4.32 p.m. and 6.10 were just as intelligent as the workp.m. each day. Further particulars 8 ingmen in the cities. They had phones in their houses, and read the daily papers, and were better posted than any other section of the community, population, would exceed the United States. It would be a crime for Canadians to sacrifice that future. "Better," he said, "be wrong even for the moment, on this reciprocity question, and maintain our national dom and fiscal autonomy, than grow

Father Morriscy's "No. 11" Cures Stomach Troubles.

When your stomach is working right you never know it is there. But when it feels as heavy as leadwhen you have Heartburn, Belching of Wind, Sourness, a gnawing hunger, with distress after eating-when you feel irritable and depressed - then you may know that the digestive

fluids in the stomach are not sufficient to digest what you eat. Father Morriscy's "No. 11" Tablets supply these fluids in concentrated form. Each tablet, dissolved in the stomach, will digest 134 pounds of food, which is more than an average meal.

Read what Father Morriscy's treatment did for Mr. Gosline, of Salmon Lake. He writes Nov. 30, 1908: "I was troubled with indigestion, so severe that I really thought had cancer of the stomach. Clothed in a wealth of exquisite loveliness, Woodbine Park never looked better on the opening flay of the spring meeting of the Ontario Jockey Club than on Saturday afternoon. The course, beautifully situated as it is. was garladed with nature's best ornaments-a mantle of green, a clear blue sky, trees with tender delicate leaf and limpid water in the background. The hand of man had nourished and sarnished the place and Dame Fashion

larged facilities for the fall.

Apart from the social significance always attendant upon the first day. interest eventually centred around the race for His Majesty's guineas, and the victory of the Gidings stable was r undoubtedly popular.

It is very durable also, especially in the better and more woven closely grades. We carry a good stock of these mattings. both plain and stencilled in artistic designs. They are quite moderate in price, selling at from 25c to 60e per yard.

Scotch Wool Rugs

Nothing has yet been produced in low-priced Rugs to compare with these for beauty of design and color. We sell very many for use in bedrooms, but they are eminently suitable also for almost any room where refinement and simplicity are desired. Their durability and the cool soft pastel colors in which many are produced mark them as particularly desirable for use in summer homes. We have these Rugs in great variety of size and price.

Williams' famous High Rollers, a "classy" aggregation of fun, music, song, laughter and pretty girls, whose many charms it would be difficult to many charms it would be difficult to duplicate even in more pretentious productions. The curtain raiser is a merry farce, entitled "A Glorious Night." It deals with the tribulations that befall a party of "Slummers," who are looking for excitement. This all portion of the bill will be followed by an olio of novelties of a high-grade character, contributed by Walter Johnson and Mae Alberta, in "A Bit of Everything"; Misses Alberta and Burns, in songs and classic dances; Granville and Mack, a team of jolly fun makers, and Mile. Cinemai's company of artist models, in a series of porcelain art poses, representing masterpieces of ancient and modern As a fitting finish there will be pre-

sented "Heinie's Hotel," a clever oneact farce, written by Hrary L. Cooper, Mr. Cooper plays the principal comedy role. All members of the company and there are fifty of them, are kept busy, and the chorus are well to the front with a number of songs of the catchy order.

Launch Lines Going On Porcupine Lake

Public Will Be Afforded Ample Transportation in the Mining Camp.

PORCUPINE CITY, May 18 .- (From Our Man Up North.)-That the public when visiting the mining camp this summer, will be well served in the transportation line is evidenced by the fact that two well known Porcupine residents have established boat lines on Porcupine Lake; Robbie Morrison, with the Pathfinder, a deep sea boat, and "Butch" Burns, with his Alice, a craft of high traveling power.

Conditions in the camp are such that it becomes necessary in order to keep out of the muck and water to use ferry boats in crossing from Golden City to Porcupine City, and also from the north end of the lake to the south The Alice and the Pathfinder are on the lake regularly and not much time is consumed in making the long trips. The safest and only way to travel in the Porcupine camp is by Chas. Fox.

We believe that this company has a great future. They are paying dividends at the rate of 5 per cent quarterly and we believe that this rate will be maintained. We understand that the ore reserves amount to about the par value of the stock. We think the stock will sell at much higher prices. We have prepared a circular giving full information on the subject, and we will be glad to send same on application. Will also mail free our circular letter on the dividend paying Mines of Cobalt, yielding from 16 per cent. to 25 per

property which should not be overlooked at present time is SWASTIKA. This is not a prospect. Competent engineers concede it to be a proven gold mine. Operations commenced three years ago, and SWASTIKA has now, after a hard fight, definitely in sight more ore than any gold mine in Northern Ontario, the Dome and Hollinger excepted. It is now selling away below its value, and those who get in now, and get in quick, will realize handsome profits inside of a few months. It may be bought cheaper, but I doubt it. I look to see SWASTIKA sell at or near PAR inside of four months. Orders should be sent in promptly.

REA CONSOLIDATED GOLD MINES, LIMITED S ONE PER GREAT NORTHERN S ONE PER

We recommended the purchase of Great Northern four months ago. Since then the stock has advanced from 12c to 20c. Promising properties and good management should send Great Northern to One Dollar. Take on all stock you Notwithstanding the present heavy selling of Rea, we advise its purchase at present figures. The selling is conducted with a brass band accompaniment and an air of mystery, which leads us to believe that the sellers are more anxious to depress the price than lose stock.

Porcupine Niagara To Be a Listed N.Y. Curb Issue

Preparations are being made at this date to register the stock of the Niagara Porcupine Mining Company (Porcupine Niagara on the New York Curb Market A large number of our client have requested us to do this, as they will feel greater confidence in making commitments in a company that has submitted to the listing requirements of the Curb Association. The stock should appear as an actual trader in less than two weeks from this date. This will mean the closing of subscription books at that time. With this greater participation on the part of those clients who prefer registered curb issues higher prices should result.

LONDON. May 20.—The consensus of opinion here on Thursday, after your omarket's three-day rise, was that Wall Street was overdoing its response to the sant-trust decision. The subsequent reaction, however, modifies this opinion, which is now generally favorable to the American situation.

Concerning the decision itself, final conclusions here are reserved until the text of the opinion arrives. But meantime mest people agree with The Economist's riew of to-day in construing it as meaning that the modern tendency of business, towards centralization and unified control of large industries, is not to be actively opposed by law so long as methods employed are not unreasonable or unfair.

No Mail or Telephone Orders Filled

X DAYS this week you'll notice many men standing about in various attitudes of disappointment, because they have failed to get something for nothing!

The getting of something for nothing is so rare an occurrence in this life that most sensible men don't consider it in solving life's problems. You wouldn't expect to find games of chance run in a clothing store, would you? And yet there are clothing stores where you take a chance and others where you haven't a chance---but that's another store--y.

A men's store with a reputation such as ours builds its business on the principle of a fair exchange. And speaking of exchanges, have you exchanged your heavy suit for one of Summer weight, or even flannels? If not, here's your chance.

Men's Suits

150 Men's Suits, the very best ready-to-wear garments. Broken lines and odd sizes of our regular stock, and a few straight lines that were late in delivery. Materials are west of England worsteds and English and Scotch tweeds. Latest two and three-button single-breasted sack models tailored in the very best manner. Sizes 34 to 44. Regular \$15.00, \$16.50, \$18.00 and \$20.00. Tuesday at \$12.95.

Automobile Water-Men's proof Coats

English Paramatta Waterproof Coats, fawn shade, single texture, material particularly suitable for warm weather and thoroughly rainproof. Singlebreasted style with Raglan shoulders, slash pockets and wind straps on sleeves. Sizes 36 to 46, \$10.50.

In the Men's Furnishing Department

Negligee Shirts, reduced to one-half and in some cases less than half their regular values. Regular \$1.25, \$1.50, \$2.00 and \$2.50. Tuesday 98c.

375 Silk Shirts, Pongee and pure white Japanese, made with reversible collars, sizes 14 to 18. Regular \$3.50. Tuesday \$2.98.

Outing Shirts, almost as fine as silk; they are made of tan swasette. Sizes 14 to 18. Regular \$1.50, for Tuesday \$1.25.

White Flannels

Men's Tennis, Cricket or Outing Coats, white English flannel coats, thoroughly shrunk, singlebreasted sack style, with patch pockets, nicely tailored and perfect fitting. Sizes 35 to 44, \$4.50.
