Baby's Rash Became a Mass of Humor

Parents Decided He Could Not Be Cured. "Cuticura" Soon Made His Skin Perfectly Clear.

A Toronto man, Mr. Robert Mann, of 7889 Queen St. East, says: "Our boy was born in Toronto on Oct. 12, 1908, and when three months old a slight rash appeared on his cheeks. What appeared to be a water blister broke out on his face, head and shoulders were a mass of scabs and you could not see a particle of clear skin. We did not know what to do for him and tried about every advertised remedy, but none of them only added to his suffering and in particular the Remedies almost put the life out of him. The family doctor prescribed for him. This did not help him and he was taken to a hospital. He was treated for a week and he got worse, if anything. We then called in another doctor and inside of a week the boy was, to all appearances, cured and the doctor said his work was done. But the very next day the rash broke out again. We decided that it could not be cured and must run its course and so we just kept his arms bandaged to his sides to prevent him from scratching his face. The Cuticura Remedies were recommended. We tried them in May, 1909, and soon the cure was complete. Cuticura made his skin perfectly clear and he is healthy and happy now. He is now 18 months old and has never had any more trouble since using Cuticura."

For more information on Cuticura Soap and Ointment have afforded the most successful treatment for skin and scalp troubles of infants, children and adults. It is often sufficient. Although sold by druggists and dealers throughout the world, a liberal supply of each, with 32-p. book on the skin will be sent free, on application to the manufacturers, Cuticura, Columbus, Peter, Drug Co., U.S.A.

HUMBER STABLES NOT SUFFICIENT. Farmers and Market Gardeners Cannot Find Enough Room to Rest Their Horses.

That the stable accommodation at the Humber Bay hotels is quite inadequate to meet the demands was well manifested yesterday. There were about 75 farmers and market gardeners desiring to rest their horses, but the lack of facilities forced them to continue the journey homeward with tired animals.

Since the hotel Nourse Hotel was destroyed by fire no steps have been taken to establish stables at Newton's Hotel. While about 40 other gardeners were getting dinner inside, the horses had to stand on the highway. Some of the farmers could not go right thru, but have difficulty in distributing the produce in the city, with the result that they have to stop at the Humber for luncheon.

SALE POSTPONED. Mr. F. Armstrong's auction sale of fresh cows and young cattle, advertised to take place on Friday, Aug. 16, 1912, at the Franklin House, Markham, has been postponed until further notice. D. Beidman, auctioneer.

Woodbridge Methodists. The combined classes of the Woodbridge Methodist Sunday School assembled at the home of Mr. and Mrs. J. Peacock on Thursday, Aug. 8, and a very enjoyable evening was spent. The spacious lawn afforded great scope for the old-fashioned schoolyard juvenile games and all wandered homeward with the result that they have to stop at the Humber for luncheon.

The Daily Hint From Paris

AN ENGLISH HAT.

From England comes the fashion of wearing the broad grouting hats with flowers and the lighter millinery materials. This hat, recently imported, is typical of the class. A leghorn shape is used to start with and around the brim are three graduated circles of chiffon, cleverly cut to give a slight ruffled effect. These are bound with white satin and slightly wired at the edge. A huge white satin bow and pink roses complete the trimming.

FRUIT MARKET PRICES SLUMP

Large Quantities Were Shipped in After Rain and Demand Not as Brisk as Usual.

Vegetables and fruit took a big fall in price yesterday at the Toronto fruit market. The reason of the almost unprecedented slump was the large quantity of domestic produce shipped into Toronto during the morning. For several days last week there was very little fruit picked on account of the heavy rain, and the farmers are making up for those bad days by large shipments.

Nearly all the smaller vegetables were affected, cucumbers going down to 12c the basket and corn to 10c the dozen ears. Canadian peaches varied a great deal in quality and could be bought at any price between 30c and 50c a bushel.

American potatoes remain firm at \$2.75 the barrel. There are no Canadian potatoes on the market. Raspberries are still coming in, but the season is almost over.

Yesterday's prices were: Raspberries, 11c to 12c a box; blueberries, \$1.50 a basket; red currants, 3c to 5c a box; black currants, \$1.50 to \$1.75 a basket; plums, 30c to 35c the quart basket; peaches, 20c to 30c; apples, 20c to 30c; cumberb, 15c to 25c; tomatoes, 25c to 40c; peppers, 10c to 20c; beans, 30c to 40c; peas, 50c; marrow, 25c; egg plants, 75c; cherries, 25c to 30c; celery, \$1.25 to \$1.50; plums, \$1.25 to \$1.75; pears, \$2.50 to \$2.75 the case.

FILLING MIXTURE

Soak newspapers in a paste of half a pound of flour, half a pound of alum and three quarts of water, mixed together and boiled. This mixture, which should be as thick as putty, may be forced into cracks of floors, wainscoting, etc., with a putty knife. It hardens like papier mache, says The Minneapolis Tribune, neatly and permanently filling any cracks to which it may be applied.

Kaiser's Sister Is Robbed of Jewels On London Visit

LONDON, Aug. 12.—(Can. Press.)—Princess Frederic Charles of Hesse, the youngest daughter of the German emperor, was robbed of costly jewelry while starting from the Victoria Station for Germany last Saturday. The princess was surrounded by members of the British royal family and a number of foreign diplomats, who had accompanied her to the railroad station to say farewell, and the police authorities took strict precautions to keep outsiders at a distance, but as soon as the train had started the bags containing the valuables were missed. The police endeavored to keep the theft secret and it became known only to-day when descriptions of the property, which is priceless, were given out by Scotland Yard.

CREAM CHEESE MADE AT HOME

Two ways, neither of which is difficult. Most people imagine that it is impossible to make cream cheese in an ordinary household without an elaborate supply of expensive utensils. But it is really quite an easy matter to make it at home. In fact, it is an occupation thru which a girl may make a fair sum of money.

The purchase of a few yards of thick butter muslin, at about 7 cents per yard, and some sheets of grease-proof paper constitute the only outlay required when starting on the work.

A pint of cream will make either two or three cheeses weighing about three ounces each, according to the recipe used.

Cream cheese can be made with or without the addition of rennet, the former system producing the highest quality of cheese. The cream when it comes from the dairy must be turned into a basin and allowed to stand for a few hours so that it may thicken naturally. It is, therefore, advisable to give orders at the shop, that it must not be previously thickened by any artificial process.

When it is thick, put the cream into a piece of butter muslin (half a yard is enough for half a pint of cream) which has been previously scalded and is still damp, then tie it up after the corners together with a piece of string. Hang this up in a cool, draughty place to drain.

Twelve hours during the day the muslin should be unfasted and the cream which has hardened on the outside well mixed with the softer part in the middle. It is also a good plan to turn the cream into a fresh muslin now and again.

When this process has gone on for two or three days the cheese will be ready for use. It can be kept for 10 days or so if preferred, just according to individual taste.

If rennet is used, more cheese is made from the same quantity of cream. To half a pint of cream allow 17 drops of a quarter of a teaspoonful of rennet and stir it thoroughly for five minutes. Cover the basin over, leaving it for 12 hours or more so that the cream may coagulate. The mixture is then ready to be put into the muslin, when it should be hung up to drain for about two days.

When the cheese is in a moderately firm condition turn it into a basin, and work in a little salt, which will improve the flavor and help to keep it fresh. This hint applies to cheese made with or without rennet. The cheese is now quite finished, and can be moulded into any shape desired.
