

PROSPECTS ARE SPLENDID FOR MUNICIPAL TRADING

Commission Considers Proposition One of First Magnitude—Cites Examples of Govt. Development.

(Extract from the report of the Municipalities Power Commission) Municipal administration is a branch of civil government, and the proposed undertaking may be regarded as a development of municipal trading.

If we put as little in our \$15 Suits as other makers do the result would be the same; but we don't; we put more into them—more work in the inside, and it's the work inside that makes a garment retain its shape and new appearance.

WHAT RUSSIA PROPOSES FOR HAGUE CONFERENCE

Asks That All Political Questions Be Excluded—Naval Warfare Regulations.

Washington, April 3.—The Russian ambassador, Baron Rosen, called on Secretary of State Root today and stated to him that, in agreement with the government of the Netherlands, the Russian empire proposes that the second conference at The Hague assemble in the first part of July.

He handed to Secretary Root a resume of what the Russian government proposes to submit to the conference, and all political questions shall be excluded from the conference and makes the following provisions:

Amelioration of provisions of the convention concerning the settlement of international controversies as far as the dispute committees are concerned. And wars among nations, opening of hostilities, rights of neutrals on land, declaration of 1892—renewal of one of them.

Compilation of a convention regarding the laws and usages of naval warfare relating to the special operation of naval warfare, such as bombardment, capture, change of location of torpedoes; private property of belligerents to leave neutral or hostile ports after the beginning of hostilities; rights of neutrals at sea; contraband of war; questions of contraband of war; neutral vessels must be uncontrolled by any prizes.

Into this convention would be inserted provisions concerning land warfare which would apply to naval warfare; supplements to the convention for adaptation to naval fights of the principles of the Geneva convention held in 1864.

KINGSTON CONSERVATIVES ELECT THEIR OFFICERS Association held its annual meeting to-night and elected the following officers: President, H. Richardson; first vice-president, Dr. Ross; second vice-president, J. A. Minnes; third vice-president, T. Rigney; fourth vice-president, John Scally; secretaries, E. Angrove and F. Webster; treasurer, G. Sears.

They Know a Good Thing. Windsor, April 3.—During the first three months of this year Hiram Walker and Sons, Walkerville, exported to the United States the greatest amount of whisky ever reported to the United States consulate here. Its value was four hundred and eighty-eight thousand five hundred and forty dollars, over fifty thousand greater than the next highest three months' export value.

HORSES TRAINING FOR RACES GOOD FRIDAY

Track is in Good Shape at Dufferin Park and Races Are Well Filled.

John Weather and a good track made the trainers get busy at Dufferin Park yesterday and some nice work was done by the horses.

Charley Dennis was working Gipsy Girl and she never was better. She worked the last eighth at a two-minute clip and seemed to like it.

James McDowell worked William O. four six miles, brushing him thru the stretch each mile, and the roan horse looks fit.

William Bailey gave Little Sandy some fast work to a cart and the little horse seemed to have all his speed with him.

John Gillespie had to Johnny Riley for slow work. This little stallion never looked better than he does at the moment.

John McMillan worked No Trouble along with Angus Kerr's Brian Born a couple of beats, but the stallion had a little too much for the work.

Hugh Scott and William Jenkins worked their two colts both good trotters, together they will be ready for the colts race later on.

James O'Halloran had Altoona down to the race for the first time, and he was in good and Jimmie looks to be in the money on Good Friday.

August Belmont's Nancy Ran Away With the Two-Year-Old Race

—Elliott in Front.

Washington, April 3.—An excellent crowd attended the races at Benning today. Four favorites rewarded their backers.

Belmont's Nancy ran away with the second race, the Nancy was better than 1 to 5 in the speculation.

Prince of Eisen easily won the steeplechase, although he was badly interfered with at one of the jumps by a Copper and pulled up lame.

Second race, 2-year-olds, 4 1/2 furlongs—Nancy, 102 (C. Morris), 1 to 1; Isadore Kirsch, 102 (Freeman), 60 to 1; Moccasin Hill and Prosperity also ran.

Third race, selling, for 4-year-olds and up, 6 1/2 furlongs—Parkville, 105 (Digging), 5 to 1; Royal Wagon, 106 (Toubie), 6 to 1; Bluecoat, 104 (Robbins), 12 to 1; A. Time 1:03.15. Sterling, Prosperity and Opal also ran.

Fourth race, steeplechase, for maiden 4-year-olds, about 2 miles—Prince of Eisen, 104 (C. Morris), 1 to 1; Isadore Kirsch, 102 (Freeman), 60 to 1; Moccasin Hill and Prosperity also ran.

Charles Dennis was working Gipsy Girl and she never was better. She worked the last eighth at a two-minute clip and seemed to like it.

Fifteenth race, 2-year-olds and up, 1 1/2 miles—Bobbie Ken 118, Belleclair 110, Eltona, Marcellus, Sailor Boy 104, Northville 95, Phoebus 90.

Sixteenth race, 2-year-olds and up, 1 1/2 miles—Zany 110, Salt and Pepper, Paxon, Kuro, Thorium, Tarlac 100, Indra, Eltona, Marcellus.

Seventeenth race, 2-year-olds and up, 1 1/2 miles—Bobbie Ken 118, Belleclair 110, Eltona, Marcellus, Sailor Boy 104, Northville 95, Phoebus 90.

Eighteenth race, 2-year-olds and up, 1 1/2 miles—Zany 110, Salt and Pepper, Paxon, Kuro, Thorium, Tarlac 100, Indra, Eltona, Marcellus.

Past President Nelson Gives Notice of Three Amendments—O'Connor Proposes Several.

Last night Past President Nelson sent in notice of three amendments to Secretary Hall.

Proposes that clubs that have not played at least one association match in the previous season shall not be entitled to representation at the annual meeting. This is intended to restrict the practice of carrying inactive clubs on the membership roll just for voting purposes.

Another proposal is that the senior clubs shall have the right to take part in any of the association legislation, except what refers directly to that series. That is, that the professional club managers the affairs of an amateur body, and that senior representatives shall not be eligible for officers of an amateur association.

A third would put the appointment of referees in the hands of the club instead of the president, as now. This is the case in all other governing bodies of this kind.

The last amendment was suggested by Secretary H. Hall. He received several amendments yesterday from Tom O'Connor (of the Lacrosse Club).

No. O'Connor's amendment is that "No person except club delegates and the referee shall be entitled to vote at an annual meeting." That would exclude all others, past or present, from the voting power.

No. O'Connor next seeks to amend the regulation which prohibits more than one vote for any one club or town or village on the same day by voting "en bloc" on public holidays in Ontario.

O'Connor also makes the latest date for the releasing of players the 5th of July, and also wants to have a rule in force that no player shall be allowed to play for a second team until he has been released by the first team.

Yesterday was the last day for receiving amendments and Friday will be the last day for receiving nominations.

Young Toronto Lacrosse Club. The Young Toronto Lacrosse Club met last night at 8.30 at Campbell's Chop House, King-street, to organize for the coming season. All members and those intending to join are requested to be present at a meeting of importance will be brought up.

The club will have nearly all of last year's number and the members have expressed their willingness to turn out with them. They intend entering a team in the Junior C.L.A. and also expect to give a good account of themselves.

Windsor Will Play Intermediate. Windsor, April 3.—An enthusiastic meeting of the Windsor Lacrosse Club was held last night at the Windsor Y.M.C.A. and the city will be able to put up a strong team. Application will be made to the C.L.A. for the Intermediate series with Chatham, Blenheim, Wallaceburg, etc.

Philadelphia Nationals. Philadelphia, April 3.—Philadelphia Nationals of the American Association will play the Toronto Nationals on Saturday night at the West End Y.M.C.A. Any new clubs wishing to join will please send delegates.

Baseball Club Will Celebrate. The officers and members of the Parkdale Amateur Athletic Association will dine at Harry Webb's on Thursday evening, April 5, when the championship cup and medals will be presented to the winners.

The "Love" Cup—the emblem of the city junior championship—will also be presented to the winning team. This dinner will be given at the plans of the association.

The dinner will be rather an innovation, departing from the old 8 o'clock ending, and 10 o'clock ending, it is hoped to be a success and members will be invited to attend.

The annual meeting of the association takes place on Tuesday evening, April 17, at McMurtry Hall, Parkdale. It is expected that during the dinner an interesting development will be expected, as to the club's future policy.

Varsity Fencing Elect Officers. The Varsity Fencing Club held its annual meeting last night and elected the following officers: Hon. Prof. Robert Youman, B.A., president; A. B. Beverly; vice-president; J. Kilgus; curator; M. Nicholls.

Old Sport Campna Dead. Chicago, April 3.—Napoleo Campna, known thru the country as "Old Sport" Campna, died today of heart disease, and was buried here yesterday. He was 75 years of age.

Football Notes. The Ontario Football Club will hold a meeting in their club room at 8 o'clock on Friday night, and it is important that all players and those wishing to join should attend. The meeting will be held on Saturday at Belwoods Park, when a good crowd of intermediates and juniors are expected to be out.

Oshawa wants to know if the Anglo-Canadian Football Club have any fixtures for Easter. The club will oblige Oshawa by answering this.

The members of the football club of the West End Y.M.C.A. have arranged a friendly match between the club and the club of the Old Orchard Road Y.M.C.A. on Saturday night.

The Thistle Football Club will hold a meeting tonight at the Pines athletic ground at 8 o'clock. All members are requested to be there.

St. Barnabas Football Club held a meeting last night at Mr. Runley's residence, Pape-avenue, to organize for the coming season. The following officers were elected: President, Charles Runley; vice-president, William Benson; captain, Kenneth Bray.

Clothes That Will Stand Inspection.

Everybody likes to be seen in clothes that others admire. There's genuine satisfaction and comfort in realizing that you are well dressed. It gives you a feeling of equality with men in the highest positions.

The clothes we make will stand critical inspection from any point of view. They are suited to the individual. They fit well, look well, and last twice as long as ready-mades, which are no cheaper.

—AT— The White Elephant Billiard Academy. Corner King and Bay. Admission 25c. Game called at 8.30.

BOUTS CONDUCTED PROPERLY

Coroner's Jury Find Wier Died of Apoplexy From Excitement. Coroner J. Milton Cotton re-convened the jury in the city hall last night for the coroner's inquest.

The evidence of the coroner and those connected with the tournament all went to show that the fatal bout was unusually mild, a burlesque, some say, being stopped by the referee because the man in the junior C.L.A. was so far outclassed.

The doctor's testimony was to the effect that Wier was organically healthy, and that no prior medical examination would have shown him out of the run of things.

Dr. John Cavan and Superintendent gave the result of the post-mortem as death by apoplexy, the cause being a rupture of the small blood vessels in the brain during the fight, causing hemorrhage.

There were no serious wounds, and the evidence showed that the fight was a burlesque, some say, being stopped by the referee because the man in the junior C.L.A. was so far outclassed.

Dr. Cavan said who summing up, in a straightforward manner, Percy Wier, a stranger of Shenstone, followed, and corroborated Lauder's testimony, and gave a straight answer to the question as to whether or not the fight was a burlesque.

The doctor, in addressing the jury, pointed out that the evidence showed that the bout was conducted in a thoroughly proper manner, and that the man in the junior C.L.A. was so far outclassed.

An amusing difference of recollection was that between Inspector Stephen on one side and ex-Detective Wier on the other. Green on the other. The former remembered correctly that Wier was not knocked down, but the latter testified that he was.

Philadelphia Nationals. Philadelphia, April 3.—Philadelphia Nationals of the American Association will play the Toronto Nationals on Saturday night at the West End Y.M.C.A. Any new clubs wishing to join will please send delegates.

Baseball Club Will Celebrate. The officers and members of the Parkdale Amateur Athletic Association will dine at Harry Webb's on Thursday evening, April 5, when the championship cup and medals will be presented to the winners.

The "Love" Cup—the emblem of the city junior championship—will also be presented to the winning team. This dinner will be given at the plans of the association.

The dinner will be rather an innovation, departing from the old 8 o'clock ending, and 10 o'clock ending, it is hoped to be a success and members will be invited to attend.

The annual meeting of the association takes place on Tuesday evening, April 17, at McMurtry Hall, Parkdale. It is expected that during the dinner an interesting development will be expected, as to the club's future policy.

Varsity Fencing Elect Officers. The Varsity Fencing Club held its annual meeting last night and elected the following officers: Hon. Prof. Robert Youman, B.A., president; A. B. Beverly; vice-president; J. Kilgus; curator; M. Nicholls.

Old Sport Campna Dead. Chicago, April 3.—Napoleo Campna, known thru the country as "Old Sport" Campna, died today of heart disease, and was buried here yesterday. He was 75 years of age.

Football Notes. The Ontario Football Club will hold a meeting in their club room at 8 o'clock on Friday night, and it is important that all players and those wishing to join should attend. The meeting will be held on Saturday at Belwoods Park, when a good crowd of intermediates and juniors are expected to be out.

Oshawa wants to know if the Anglo-Canadian Football Club have any fixtures for Easter. The club will oblige Oshawa by answering this.

The members of the football club of the West End Y.M.C.A. have arranged a friendly match between the club and the club of the Old Orchard Road Y.M.C.A. on Saturday night.

The Thistle Football Club will hold a meeting tonight at the Pines athletic ground at 8 o'clock. All members are requested to be there.

St. Barnabas Football Club held a meeting last night at Mr. Runley's residence, Pape-avenue, to organize for the coming season. The following officers were elected: President, Charles Runley; vice-president, William Benson; captain, Kenneth Bray.

GOVERNMENT MADE MISTAKE IN RETAINING INSPECTORS

Hon. Mr. Hanna's Confession During a Spicy Discussion of the License Situation.

There was a lively discussion in the legislature yesterday on Mr. Hanna's liquor license bill and the dismissal of Inspector Hastings and his two colleagues was again attacked and defended.

Mr. Mackay thought that in towns of 1000 or over such hotels might be licensed, and Mr. Freston proposed bonding by municipalities. Col. Atkinson believed that liquor license commissioners might be given power to arrange for such further licensing.

Mr. Hanna explained that the government had made one mistake in not dismissing the license inspectors when the government entered office. There had been a constant repetition of charges against these men.

Mr. Sutherland charged that under the late regime Conservatives were refused hotel licenses in South Oxford. The strongest Liberals in his riding approved the present administration as non-partisan.

Mr. Crawford spoke of the dismissal of Hastings. The law was used for the benefit of the Liberal party and it was known that these men were able to approach the men engaged in the liquor traffic and secure from them such amounts as they cared for for the election funds.

Mr. Ross claimed that the law was well-enforced by the old inspectors. The proof was that they were allowed to remain in office for eight months. Mr. Hanna: No, it was because we made a mistake.

Mr. Whitney: Hear, hear. Mr. Ross referred to North Essex. He understood that one of the new inspectors was also a schoolmaster.

Mr. Jesso spoke of his own district. The late inspector was engaged in the manufacture of cigars, and forced all the hotels to buy his goods. He was also an insurance agent and nearly all the hotel-keepers insured their places with him.

Mr. Ross pressed to know the reason why the Toronto inspectors had been dismissed and asked if there were not now three inspectors in North Essex, where there were formerly but two, one of the present number being a schoolmaster.

Some Pointed Words. Mr. Hanna returned significantly that the answer to the first question was that the government had made a mistake.

Easter Novelties

In attractiveness and variety, Diamond Hall's showing of Easter Novelties this year eclipses the displays of all previous seasons.

Whether your purchase be a Book Mark at 25c, an Easter Belt Pin at \$3.00, or something at much higher price, you will have the satisfaction of knowing that the gift you send will be one of "quality first."

Ryrie Bros Limited 134-136 YONGE ST

YORK COUNTY AND SUBURBS

Toronto Junction, April 3.—About a year ago the police department was by a majority vote of the council handed over to a commission. Now, the board is done away with and the council will again look after affairs.

The Royce-avenue Presbyterians intend building a new church to cost \$5000. Wm. Scott, who is about to leave for Cobalt, was banqueted by the Anglican young people in St. John's Church to-night.

A special meeting of the town council will be held on Thursday afternoon, when the fire limit bylaw will be dealt with. WESTON. Weston, April 3.—The village council last night endorsed the petition that the Ontario government take charge of Niagara Falls power. It was decided to purchase a share of one-fourth of the municipality so as to guard against famine.

CHESTER. To-night in Danforth Hall a sacred cantata will be presented under the direction of Mrs. H. L. Menaugh, organist.

Prayer Books

Prayer Books as Easter Gifts seem ideally appropriate. Our Stationery Department will be glad to serve you in this connection.

One in white calf (size 3x4 1/2) and containing also Hymns Ancient and Modern, with sterling silver sides in lily relief design, sells for \$5.00.

There is a dainty book also at \$1.25. Ryrie Bros Limited 134-136 YONGE ST

list of St. Barnabas' Church, in thirty-three numbers, descriptive of the wild, adventurous journey of the bondsmen, hopes and years, murmurings, punishments and triumphant return to Canaan of the Children of Israel, will be presented.

Samuel James Keys, the seven-year-old son of Richard Keys, died suddenly last Sunday afternoon in a field near his home on Greenwood-avenue, just north of Danforth-road. The child had taken his supper earlier than usual and was out in the field playing with his sisters about five o'clock, when he suddenly dropped to the ground and died immediately.

Don Mills Methodist Church was the scene of a happy event, yesterday, when Margaret Cook White, daughter of William White, was united in marriage to Ross Carleton McQuillan. The ceremony was performed by Rev. Dr. Booth, assisted by Rev. Mr. Edwards. The bride, who looked charming, was unattended, entering the church leaning on the arm of her father. The wedding presents were numerous and testified to the esteem in which the young couple are held.

FOUND DEAD IN CHAIR. Guelph, April 3.—(Special).—Charles Bennett, fireman at the Wellington Hotel, died suddenly to-day. He went to his room and was found sitting in his chair, life quite extinct. Bennett was 75 years of age. He came here from Toronto, and it is understood he has a son there.

Loosens the Cough And Cures Croup

Anyone who has tested Dr. Chase's Syrup of Linseed and Turpentine as a cure for croup will not hesitate to pronounce it an unqualified success. It is wonderfully prompt in loosening the cough, clearing the air passages of the head, and soothing the excited nerves.

People who realize the suddenness with which croup comes on, and the danger which accompanies it, usually keep some of Dr. Chase's Syrup of Linseed and Turpentine in the house for use in case of emergency. For bronchitis, whooping cough, asthma and every form of throat and bronchial trouble, this great remedy is a quick and certain cure.

PROVINCE TO BUILD ROADS SETTLEMENT IS SPARSE

Hon. Dr. Reaume Introduces Bill to Aid in Construction of Highways.

Outside of the big items of business good progress was made with the order paper in the legislature yesterday. Four new bills were presented and a number were put thru the committee stage and second readings.

Hon. Dr. Reaume introduced a bill respecting colonization roads. It provides that no grants shall be made out of the funds of the province for the purpose of constructing or improving any roads except under this act and by the act for the improvement of public highways. The council of any township which contains not more than 500 persons for every 500 acres, may designate highways to be improved under the act, to be approved by the minister of public works.

Mr. Lennox is not disposed to rest content with the throwing out of his auto bill last week, and yesterday introduced an amending bill, the clause dealing with revenue being struck out, but the bill being otherwise unchanged.

Major Craig of the public schools proposes to bar from the public schools in cities, towns and villages all children whose teeth do not pass inspection by a properly qualified dental surgeon, until the defects have been remedied. He introduced a bill yesterday to amend the Public Schools Act by providing for a dental inspection twice a year. If the teeth of any child are found to be affected with any contagious disease that child is not permitted to attend school until the disease has been treated.

Hon. Mr. Cochrane's Volunteer Veterans' Land Grants Act was also given a second reading. The minister explained that there had been 13,000 grants to veterans and there had been but 4900 locations, leaving a balance of 8500. An amendment to allow the townships to be filled up. Another clause made it clear that when a veteran sold his claim it was only scrip and did not carry the minerals.

Major Craig gave some rather heated criticism of Mr. Monteth's agricultural societies bill, in committee. He claimed that many of the societies failed altogether to be educative, and that much money was being frittered away. "There should be some scheme by which a lot of the societies could be wiped out of existence," he declared.

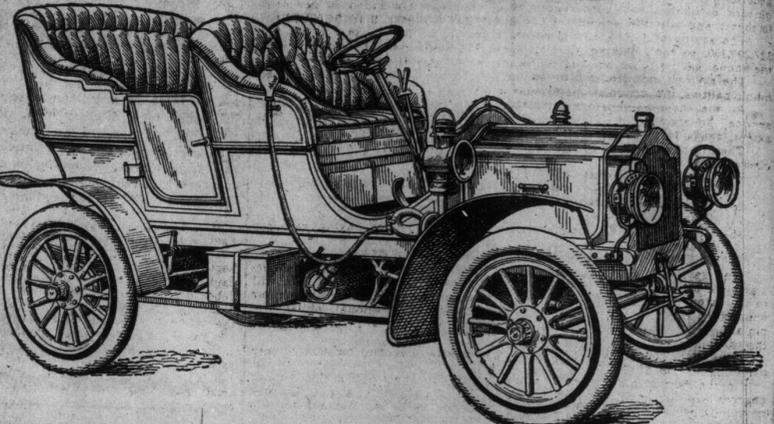

Mr. Jamieson will move for a return on what terms the assets of The Equitable Life Company were taken over by the Colonial Investment and Loan Co., and what percentage was held in stock of Colonial Company to holders of stock of Equitable. Names and addresses of directors and officials of Imperial Trust Company.

FOR TARIFF COMMITTEE. Congressman Wants Evidence Collected as to Trade Conditions.

Washington, April 3.—Congressman Davidson of Wisconsin introduced a resolution in the house to-day "crystallizing the views of Republican revisionists on tariff. It asked that the committee on ways or means, or sub-committee, be instructed to sit during recesses of the house to consider whether the conditions have changed that the public interest demands a readjustment of the present rates of duty.

North Toronto. Mayor Fisher presided at the regular meeting of the council last night. The report of Engineer Gibson was distinctly unfavorable to the establishment of a septic tank system. Council decided to submit the matter to an expert. Councillors Douglas and Bond supported him. It was decided to accept the contract for boiler work at Eglington-avenue, and to work to the Martin Pump Company. Petitioners for the new water tower, west side at Eglington-avenue, were approved. Mayor Fisher will represent the town at the municipal power convention on Wednesday.

RUSSELL

Not the Dearest, - Not the Cheapest, But the Best Value in the Show. Engine in front, of Ample Power. All Machinery Accessible. Beautiful Lines. Handsome Finish.

Canada Cycle & Motor Company, Limited

Toronto Junction. Local representatives Dominion Automobile Company.

ALIEN LAW ULTRA VIRES.

Argument Begun in What May Prove an Interesting Case.

"The Dominion Alien Labor Act is ultra vires," said J. M. Godfrey in single court yesterday, while arguing a case in behalf of the Union Life Assurance Company. The company advertised for an expert actuary in Boston and Mr. Sookes accepted. Upon arriving here he was found unwell. H. P. Evans, manager, was fined \$50 and a complaint of Sookes.

Justice Mabee granted a writ of certiorari, and the case will be heard by the divisional court.

Go to the Central.

Guelph, April 3.—(Special).—In the case of Rex v. Greisch and Fischer, a plea of indecent assault was taken, and Greisch sentenced to one year in the Central Prison and Fischer to six months. The assault was committed above Clifford last fall. Two girls had come down to attend the fall fair. The girls were known to the defendant, who drove them home. It was then an assault was committed.

Valunteer Land Grants.

Hon. Mr. Cochrane's Volunteer Veterans' Land Grants Act was also given a second reading. The minister explained that there had been 13,000 grants to veterans and there had been but 4900 locations, leaving a balance of 8500. An amendment to allow the townships to be filled up. Another clause made it clear that when a veteran sold his claim it was only scrip and did not carry the minerals.

Said Money Was Wasted.

Major Craig gave some rather heated criticism of Mr. Monteth's agricultural societies bill, in committee. He claimed that many of the societies failed altogether to be educative, and that much money was being frittered away. "There should be some scheme by which a lot of the societies could be wiped out of existence," he declared.

Assets of Equitable Loan.

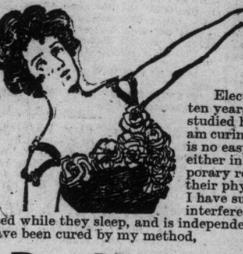

Mr. Jamieson will move for a return on what terms the assets of The Equitable Life Company were taken over by the Colonial Investment and Loan Co., and what percentage was held in stock of Colonial Company to holders of stock of Equitable. Names and addresses of directors and officials of Imperial Trust Company.

COMPANY IS ACCUSED GOVERNMENT TO ENQUIRE

Paris, April 3.—In the chamber of deputies to-day, M. Basy, president of the Miners' Federation, who is deputy for the department of the Pa de Calais, in which the Courrières mine disaster occurred, declared that the fire which caused the explosion, and which resulted in the loss of over 1300 lives, originated in a heap of rubbish which had accumulated owing to the company's negligence. He asserted that there were miners still alive in the mine, and accused the companies of creating barricades which prevented the work of salvage.

The minister of public works announced that the government would rigorously investigate the disaster.

MEN! WOMEN! I Can Make You Strong.

Every woman admires a strong man. Every man admires a strong woman. Health, strength and happiness! They are the joys of living. If you are a weak man or a weak woman I can give them to you.

Electricity is the remedy of to-day. It has been a grand remedy for the past ten years. I have studied this subject more carefully than any physician ever studied his text books, and I can show results through the use of my method. I am a curing man every day who were never able to get benefit through drugs. It is no easy matter to change the habits of people who have always sought health either in drugs or travelling about the country. They always get a certain temporary relief through one of these methods, and as they act under the advice of their physician, it is the next thing to misery. I have succeeded, however, in convincing many of them that my plan need not interfere with their using a course of treatment, because my appliance can be used while they sleep, and is independent of any other form of treatment that may be used—and these people have been cured by my method.

Dr. McLaughlin's Electric Belt

Cures Nervous Debility, Varicocoe, Rheumatism, Lame Back, Lumbago, Sciatica, any case of Kidney Disease (that has not gone as far as Bright's disease), Indigestion, Constipation, Female Weakness and every indication that you are breaking down physically.

I believe in finding the cause of all such troubles and removing it. If it is in the various organs I restore the power there. If it is in the nervous system, I build up the nervous force, and after I have removed the cause Nature does the rest.

Kidney and Bladder Trouble Cured. Dear Sir:—On June 24, 1903, I was discharged from Netley Hospital, Southampton, Eng., as unfit for further service in the Army, as I was suffering from kidney and bladder trouble contracted in South Africa. After I left the hospital I got on my feet, but after six weeks use of it was able to go around and am now able to work. I attribute the cure to the use of your Belt, as when I left the hospital I never expected to be able to work again. Yours truly, WILLIAM F. BROADSTOCK, Clarkson, Ont.

Cured of Sour Stomach, Backache and Pain in Chest. DR. McLAUGHLIN: Dear Sir:—I now write with pleasure to you, having used your Belt for some time. I may tell you I have not had a sour stomach, neither backache nor pain in my chest since I have used your Belt, therefore I cannot recommend it too highly. I am well pleased with it and will recommend it to my friends for you. Yours respectfully, JOHN NEWCOMBE, Goddesh, Ont.

There can be no pain and no weakness if every organ of the body and every nerve has all the strength it needs. Plenty of vitality creates perfect harmony of all vital forces and the joy of good health is supreme. If you have been paying money to doctors without benefit, and you don't care to risk another cent until you are cured, then take my Belt, wear it.

90 Days on Trial

If it cures you, pay me. If it does not, then send back my old Belt, and we'll call it square. I don't want a cent in advance. I only ask that you secure me for my money when you are cured.

The failure of medicine, of quacks, and even of other so-called electric belts, is no argument against Dr. McLaughlin's Electric Belt. No other treatment, no other belt, is in the same class with it. Everything else may fail, but Dr. McLaughlin's Belt will cure. It HAS cured thousands who tried other remedies without success.

READ MY FREE BOOK.

I have a book which every man should read (one for women, also). It tells facts that are of interest to every man who wants to remain young in vitality at any age. Send for this book to-day, if you can't call. I mail it, sealed, free. If you call I will give you a free test.

CONSULTATION FREE.

Office Hours:—9 a. m. to 6 p. m. Wednesday and Saturday to 8.30 p. m.

CUT THIS OUT AND SEND IT TO-DAY.

Dr. M. Q. McLaughlin 112 Yonge Street, Toronto, Can. Please send me your book for men (or women), sealed, free.

NAME: ADDRESS:

MUNICIPALIZE NIAGARA---NOW

(Continued From Page 1.)

These changes will involve a certain loss of capital, which will vary according to local circumstances. This has been considered. The engineers' estimates were conservative, the commissioners added 50 per cent. to them; and still the amount of capital involved is less than \$4,000,000.

Private householders will clearly and directly reap the benefits of any reduction in the burden of existing rates. In the case of all corporations having gain for their object the reduced charges will appear in increased profits for the shareholders, and in the case of unincorporated business firms the same effect will be produced for the proprietors.

Under the laws of competition and industrial development any permanent lowering of the cost of production and distribution tends also to reduced prices of commodities. This process, however, merely transfers a part of the benefit to society at large.

The municipalities represented by your commissioners are pre-eminently manufacturing and industrial communities. From the great economic leverage that Niagara power—unloaded by corporation tribute—will give, an incalculable stimulus to the productive and competitive efficiency and enterprise of their manufacturers will be derived.

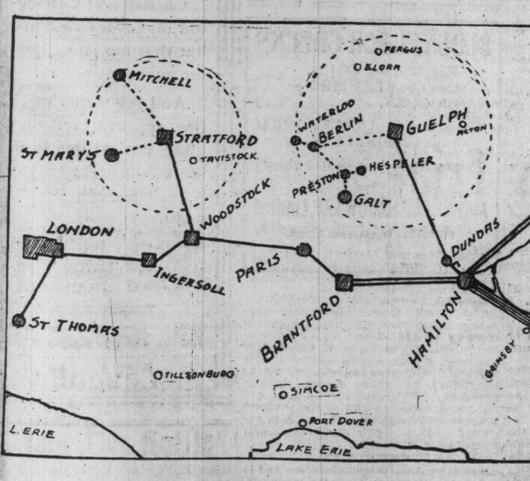

Table with 3 columns: Municipality, 30,000 h.p., 60,000 h.p., 100,000 h.p. Rows include Toronto, London, Brantford, Guelph, Stratford, Woodstock, Ingersoll.

Table with 3 columns: Municipality, 30,000 h.p., 60,000 h.p., 100,000 h.p. Rows include Toronto, London, Brantford, Guelph, Stratford, Woodstock, Ingersoll.

Table with 3 columns: Municipality, 30,000 h.p., 60,000 h.p., 100,000 h.p. Rows include Toronto, London, Brantford, Guelph, Stratford, Woodstock, Ingersoll.

ESTIMATES ARE QUITE RELIABLE. The consulting engineers have made what they consider ample allowance for all contingencies, in respect of both capital and operating costs.

CONMEE ACT MUST BE REPEALED. Section 52 of the Municipal Power Works Act expressly states that "Nothing in this act shall be deemed to authorize the commissioners to supply power, heat or light in contravention of the provisions contained in sections 566 to 568, inclusive of the Municipal Act."

Course of Transmission Lines as Suggested by the Municipal Power Commission.

Your commissioners applied to the municipalities they represent for copies of all existing contracts with electric light companies for the purpose of ascertaining the municipal corporation rights and obligations thereunder.

The Brantford Electric and Operating Company, Limited, freely gave access to its premises, but the Toronto Electric Light Company and the London Electric Company refused access to their plants.

Section 52 of the Municipal Power Works Act and sections 566 to 568 of the Municipal Act (this latter being popularly known as the Conmee Act), will, as they stand at present, interfere with the carrying out of the new undertaking hereby reported on.

Section 24 to 42, inclusive, of the Municipal Power Works Act deal with the manner of financing the undertaking. The principal directions, apart from those relating to form of procedure, are as follows:

Section 24—The municipal corporations concerned are authorized to issue debentures to the estimated amount of the cost of the undertaking, less the capital cost, and deliver the same to a trustee appointed under the act.

Section 25—The construction commissioners are authorized to issue bonds, secured upon the total assets of the municipalities, to the amount of the proceeds of the municipal debentures aforementioned, which are to be held by the trustee in trust for the municipal corporations, subject to the express trusts governing the collection and disposition of interest, sinking fund and other matters, as are set forth in the act.

Section 26—In the event of the capital cost of the completed works exceeding in amount the proceeds of the bonds issued in connection therewith, the commissioners are authorized, with the approval of the Chief Justice of Ontario for the time being, to issue "special bonds," secured by a first lien on the whole property of the undertaking, and carrying "a preference over the other bonds," to meet the amount of such deficit.

Section 27—The construction commissioners are authorized to issue bonds, secured upon the total assets of the municipalities, to the amount of the proceeds of the municipal debentures aforementioned, which are to be held by the trustee in trust for the municipal corporations, subject to the express trusts governing the collection and disposition of interest, sinking fund and other matters, as are set forth in the act.

Section 28—The construction commissioners are authorized to issue bonds, secured upon the total assets of the municipalities, to the amount of the proceeds of the municipal debentures aforementioned, which are to be held by the trustee in trust for the municipal corporations, subject to the express trusts governing the collection and disposition of interest, sinking fund and other matters, as are set forth in the act.

Section 29—The construction commissioners are authorized to issue bonds, secured upon the total assets of the municipalities, to the amount of the proceeds of the municipal debentures aforementioned, which are to be held by the trustee in trust for the municipal corporations, subject to the express trusts governing the collection and disposition of interest, sinking fund and other matters, as are set forth in the act.

Section 30—The construction commissioners are authorized to issue bonds, secured upon the total assets of the municipalities, to the amount of the proceeds of the municipal debentures aforementioned, which are to be held by the trustee in trust for the municipal corporations, subject to the express trusts governing the collection and disposition of interest, sinking fund and other matters, as are set forth in the act.

Section 31—The construction commissioners are authorized to issue bonds, secured upon the total assets of the municipalities, to the amount of the proceeds of the municipal debentures aforementioned, which are to be held by the trustee in trust for the municipal corporations, subject to the express trusts governing the collection and disposition of interest, sinking fund and other matters, as are set forth in the act.

Section 32—The construction commissioners are authorized to issue bonds, secured upon the total assets of the municipalities, to the amount of the proceeds of the municipal debentures aforementioned, which are to be held by the trustee in trust for the municipal corporations, subject to the express trusts governing the collection and disposition of interest, sinking fund and other matters, as are set forth in the act.

Section 33—The construction commissioners are authorized to issue bonds, secured upon the total assets of the municipalities, to the amount of the proceeds of the municipal debentures aforementioned, which are to be held by the trustee in trust for the municipal corporations, subject to the express trusts governing the collection and disposition of interest, sinking fund and other matters, as are set forth in the act.

Section 34—The construction commissioners are authorized to issue bonds, secured upon the total assets of the municipalities, to the amount of the proceeds of the municipal debentures aforementioned, which are to be held by the trustee in trust for the municipal corporations, subject to the express trusts governing the collection and disposition of interest, sinking fund and other matters, as are set forth in the act.

Section 35—The construction commissioners are authorized to issue bonds, secured upon the total assets of the municipalities, to the amount of the proceeds of the municipal debentures aforementioned, which are to be held by the trustee in trust for the municipal corporations, subject to the express trusts governing the collection and disposition of interest, sinking fund and other matters, as are set forth in the act.

THE... DOMINION AUTOMOBILE COMPANY LIMITED. Agents in Canada for the World's Best Automobiles. Clement-Bayards, Fiats, Fords, Packards, Peerless, Russells, Stanleys (steamers), Stenley-Duryea, Thomas, Waverly (electrics), Wintons.

STATESMANSHIP FOR NIAGARA.

A welcome quality runs thru the report of the Municipal Power Commission. It is the quality of statesmanship.

The report is a great assemblage of facts, over the presentation of which there is just sufficient imaginative glow to breed the enthusiasm for a great and predominant public object, which will be necessary to transmit statistics, arguments and intentions into everyday achievement.

The commission's deliverance, the material parts of which are published this morning, is especially welcome by the World, not so much because it is the most remarkable justification of the principle of public ownership of public utilities, for which the World has been glad to contend these many years; but because at last that question is brought within the pale of practical business by business men, who had no prepossessions in favor of the doctrine.

The issues at stake are too big and too practical to be made in the slightest degree the subject of discussion as to the abstract propriety or otherwise of public ownership and of municipal trading. Still, the commissioners deal with that aspect of the case in masterly fashion, which will carry conviction to the minds of thousands of business men who have not yet given the subject careful consideration. It is of remarkable significance that the facts about Niagara power which confronted the commissioners convinced them that public exploitation of a bountiful gift of nature is the only means by which the people of this province can get a square deal with their own property.

The commissioners present a tremendous business proposition to the government and to the province. They are prepared for the criticisms of interest and of ignorance. They have considered beforehand the objections likely to be raised. The terms in which they state their willingness to abide by the judgments they have formed, have a ring of dogged confidence about them which is too often absent from the reports of commissioners.

No great business man ever started a big enterprise who did not see difficulties and disadvantages in the way. No public ownership project could be set going in any country into which no element of risk entered. He who would achieve much has to strike a potential balance between gain and loss, and then having made up his mind as to what he would gain induce the future to bring forth, he goes in with a large courage and a cheerful mind to secure those things which his reason and instinct and experience tell him are to be obtained if he pursues his object with diligence and capacity. The municipal commissioners are in exactly that position.

Around the commission's report the battle of public ownership in practice may be fought once and for all in Canada. Upon the success with which the men who have hazarded their reputations upon the municipal utilization of Niagara power lead the movement, which they have brought to such a critical stage, the whole future of Ontario may depend.

WILL SAVE MILLIONS.

What the province lacks in coal Niagara must supply. The commissioners by Conservative methods of calculation are satisfied that nearly two million dollars, after all fixed and established charges have been met, will speedily be saved the province by the municipalization of Niagara power.

This savings represents a capital value of over thirty-seven million dollars, or thirty-three million dollars, after the outlays incurred by manufacturers and others in the substitution of motors for steam mechanism, and other old-fashioned appliances, have been provided for. It is calculated that Toronto alone should really save two million dollars a year.

The commissioners make it clear that only by public ownership will the people of Ontario obtain cheap power. Their facts and conclusions are open to attack, and they themselves will

not be slow in defending the position they have taken up after two years' hard investigating labor.

The work these friends of the public have already accomplished is worthy of high recognition. Their ability is reflected in the scope and language of the report. The value of their service is enhanced by the fact that they have given it without fee or reward, having in view only the interests of the premier province of the Dominion.

No more encouraging manifestation of public spirit has been seen in our time than that supplied by the commissioners. They are not content with arriving at conclusions upon data supplied to them and nonchalantly leaving the public to take whatever course it pleases upon the question at issue. They understand that, however much horse sense the average man may display in arriving at a conclusion upon a problem presented to him in concrete shape, no man can fully grasp the significance of the facts about Niagara power, who has had no opportunity of becoming seized of and saturated by them—a process involving time as well as aptitude in sorting out dissimilar and sometimes conflicting facts.

The Hon. Adam Beck has become a veritable missionary of public ownership of Niagara power. His colleagues are getting out on the same business. They have bound their public fortunes to their faith in their report. This paper, at least, so far as its opportunities permit, will not be slow to follow their lead along the tortuous road to full and often disappointing realization of public rights.

There is a remarkable community of interest between the municipalities within reach of Niagara power. There is every sign of unity and effective cooperation, with the object of showing Mr. Whitney and his government how best to serve the province. The legislation which is to pervade parliament buildings next Wednesday promises to be a very big affair.

Not so long ago if The World had prophesied that in the interests of public ownership railways would be asked to allow excursion rates for municipal deputations to the provincial premier, somebody would have been inviting us to obtain a certificate of sanity. But that is precisely what is going to happen in the present case. It is a real pleasure to congratulate some of the smaller cities on showing Toronto the way to act in this momentous business. Thru their councils, boards of trade and other bodies, they have been creating a healthy and powerful sentiment which has, so to say, overflowed to Toronto.

The Toronto board of trade, instead of being the first, was almost the last to invite Mr. Beck to discuss the problem before it. But, having come into the enterprise, the board has shown excellent spirit, and what seems like a new grasp of the purpose for which it exists.

Other commissioners will address the board of trade at a luncheon on Friday, and again at a meeting which will be open to everybody, in Association Hall, next Tuesday evening. If the general public crowd the board of trade members out of their own meeting, it will be a veritable intimation to the board that it might have got to business sooner.

WILL CANADA GET CHEAP TELEPHONES?

From recent developments in the telephone situation in Great Britain it is now evident that the new government is not inclined to depart from the policy outlined by the late postmaster-general. But for the uncertainty which has hitherto attended the outlook it is certain that many municipalities would have established local services in competition with that of the National Telephone Company. A few, including Glasgow and Hull, actually did so, but for the reason stated their action was not generally followed. A few months ago the late postmaster-general formally intimated that the license of the National Telephone Company would not be renewed after its expiry on Dec. 31, 1911, and an agreement was subsequently entered into by which the company undertook to maintain its systems in good working order during the term of the license still to run. The government on the other hand agreed to take over the plant, etc., at a valuation.

The Unionist postmaster-general openly declared his preference for the nationalization of the whole telephone systems, but declined to fetter in any way the ultimate decision of the government which might be in office when a final decision had to be made. Some protest was made by those who favored government ownership and operation of trunk and rural lines, and local ownership and control of municipal systems, and it was thought the Liberal postmaster-general might prove more sympathetic towards this policy. But when the corporation of Hull approached him with an offer to transfer the municipal system on repayment of the capital expended, it was met by a refusal and a recommendation to enter into an arrangement with the National Company by which the duplication of plant would be prevented. In an interview the postmaster-general, at which the whole question was fully discussed, the latter finally stated that "his own opinion was thoroughly in favor of the present policy of the postoffice, namely, that the whole telephone business of the country should be nationalized, and that whilst he could not speak with any certainty as to the future he had no

reason to think that there would be any departure from that policy." An extension of the city license was also refused, and in these circumstances the Hull city council has now concluded an arrangement by which the municipal system will be transferred to the National Company in repayment of its capital outlay.

It may thus be taken as all but certain that on Jan. 1, 1912, the telephones of the United Kingdom, like the telegraphs, will be owned and worked as a branch of the postoffice department. In other words the British government is practically committed to the policy Sir William Mulock favored for Canada, which has been repudiated by the Dominion government, which prefers to believe with Mr. Fitzpatrick that the useless and exploded combination of private ownership and operation with government control is the "ideal" telephone system for this country. What nationalization is expected to do for the motherland can be gathered from Mr. Henniker Heaton's scheme of a 25-cent house to house telephone, which is not the dream of a Utopian visionary, but the conviction of a sound reformer and business man. It is the conviction also of the government of the commonwealth of Australia, who are no less convinced that every man in that country can have a telephone in his house at a cost of a quarter a week. Speaking recently to a press representative Mr. Heaton expressed himself enthusiastically regarding his project. "But," he added, "we cannot hope to make the change until the postoffice obtains complete control of the telephone work of the nation. What we want is telephoning by registration and signal."

Since the Dominion government has rejected the policy of nationalization favored by Sir William Mulock and has delivered itself over to the corporation influences with which it is so closely allied it is all the more necessary for the municipalities of Canada to support in the most strenuous and forceful manner possible the measures of the Manitoba legislature dealing with the telephone systems of that province. A petition has already been forwarded to the government by the Union of Canadian Municipalities expressing their unanimous sentiment that "each municipality should have the control of its streets, public places and the occupation of streets and asking that the principles of the recommendations made by the select committee of the Manitoba legislature may be conceded. These recommendations asked that doubts should be set at rest as to the authority and power of the legislature and municipal authorities of Manitoba to expropriate their telephone systems, and also that the capital of the Bell Telephone Company be not increased unless the company is willing to submit to municipal regulation and provincial control. In this connection it is significant that among the resolutions adopted at the recent Manitoba Liberal convention was one to the effect "that the public should control all public utilities such as waterworks, lighting and telephone systems, and that in granting franchises and charters for such the right of their ultimate ownership by the people should be provided for." If the supporters of public ownership and control are vigorous and insistent at this important stage of the country's development, the people of Canada will yet secure the great and valuable benefits attending the supply of cheap telephones.

PREMIER WHITNEY'S MINERAL POLICY.

Premier Whitney's announcement of the government policy regarding the ore deposits in the district adjoining the Cobalt region known as the Gillies' timber limit is of supreme importance, and it is to be fervently hoped, means the beginning of the end of gratuitous concessions of the mineral wealth of the province. The government deserves congratulation for its new departure, which is entirely in the interests of Ontario and the upbuilding of its industries. Mr. Whitney will find that the more thoroughly he trusts the people, the more they will support him and his policy. By this one act he has done more for the province than his predecessors would have done had Mr. Ross continued to hold office for as long a term as was accorded his party.

Were it not matter of history, it would have been difficult to believe, in face of the economic history of the United States, it needed the advent of a new government to secure for the citizen generally a share in the natural wealth which was their own property. Instead of promoting honest prospecting by generous and prudent regulation, the policy pursued by the party which assumed the name of Liberal encouraged the artificial and predatory profits of unscrupulous financiers, whose devices were a source of untold loss to the citizens. Even when enterprises were found to be justified they were saddled with watered stock to an extent which deprived them, save in exceptional cases, of any real value to the community.

That over-capitalization due to stock manipulation has proved a serious industrial handicap and deleterious to the highest degree to the public interest is undoubted. A striking exhibition of its economic and political dangers has been afforded by the record of the Transvaal gold mines. A few unscrupulous speculators have amassed enormous wealth, yet the mines, with all their ore wealth, require the cheapest import-

ed labor to return a profit to the present shareholders. The same process is under way in Cobalt. It is, indeed, becoming every day more clearly evident that strict regulation of private companies handling public resources and franchises is imperatively necessary to secure for the people the proper share of the advantages to which they have right. Mr. Whitney has already done good work, and if he steadily pursues the path he is blazing, his administration will prove a red letter one in the annals of the province.

Altho the liquor bill was under discussion last night in the legislature it was an unusually dry session.

Public ownership is gaining new friends every day. What a popular proposal is the one to develop the mines of the Gillies timber limit for the benefit of the people!

Mr. Whitney has somewhat effectively spoiled the story that the grafters of the government were preparing to seize the minerals of the Gillies timber limit as soon as it was thrown open to prospectors.

NEWSBOY'S REQUEST.

Editor World: Now that the police department are pushing into force the bylaw governing the sale of newspapers and small articles by newsboys and others, I think it would be in the interest of these boys if the department, instead of issuing a certificate, gave them a small metallic badge, which could be worn on the coat. The boys experience considerable difficulty in keeping the certificate, and by constantly carrying it in the pocket, as they are required to show it on demand by the police, it soon becomes worn-out, and if lost the boy is required to pay \$25 for the issue of a new one, which is a considerable tax on these little merchants. By all means issue a metallic badge instead of a certificate.

THE LONE HUNSMAN.

Montreal Gazette: The indications are that in the early future, if not this year, the telephone companies and express companies will be put under control of the railway commission in so far as their rates and general operation are concerned. The government's program in regard to the telephone system is outlined by Mr. Emmerson, in introducing a bill to amend the Railway Act, which will give the railway commission practically the entire control over telephone lines and charges as well as over the railways and their rates, and installations of all telephone lines in some cases into large use. Local organizations have lines that run in all directions, and that serve rural public places with fair efficiency. There is reason to expect also that there will be still local lines and telegraphically high capacity, but that they will be owned, will be compelled to connect with them on reasonable terms. Practically all the telephone lines in the principal company in Canada owing the main trunk lines is understood to be ready to co-operate with any smaller concern that could efficiently serve its locality. Those who like to welcome the new arrangement, the express companies are not dealt with in the government bill. They are the one by Mr. W. P. Mackenzie, of South York, Ont. The first was not drafted by the present care and has been of the opposition generally and a promise of consideration from the government benches. Most of the credit for forcing both the telephone and express rates issues belongs by right to Mr. Maclean. It was the late Ontario member of South York who started the game and raised the halloo, and those others who held off at the start may be in at the killing, he can feel that his persistence made the chase a success.

OSGOODE HALL.

Judgments handed out yesterday, April 3:

Weekly court—Re Reid and Randall, Mabee & Co.

Announcements for To-Day. Master's Chambers—Cartwright, master, at 11 a.m.

Weekly court—List of cases set down for argument before the Hon. Mr. Justice Mabee at 11 a.m.—Evans v. Jaffray, Evans v. Jaffray, Re Rutan and Daniels, Re Canada Northern Railway and Ontario, Provincial v. Niagara Falls, Re Temple estate.

Toronto non-jury sittings—Peremptory list for hearing before the Hon. the Chancellor at 10.30 a.m.—Playfair v. Turner (to be concluded), Sparrow v. Sheridan, Woods v. Pader, Kleith v. Deane, Wood & Apron Co., Smees v. Gurney Foundry Company.

City Dairy Company, Limited. The annual meeting of the shareholders of the City Dairy Company, Limited, was held recently at the company's offices, Spadina-crescent, the president S. J. Moore, in the chair. The report presented by the directors was a very gratifying one, there having been an increase in the total sales of over 12 per cent, an increase of over 19 per cent in the net profits and an increase in the net profits of upwards of 60 per cent, as compared with the figures for the previous year. Seventy per cent of the increase in sales occurred during the last six months of the year. A reserve account has been established, and the sum of \$7500 transferred to its credit out of the profits, and after providing for dividends, the respectable balance of \$25,378.65 has been carried forward to the credit of profit and loss account.

Twenty-seven dairy instructors for Eastern Ontario are being taken on a special course under Chief Instructor Fubow, the staff for the western section of the course are Mr. Bar and Prof. Guelph, has appointed Joseph B. Cather to take charge of the exchange office, and collect from conductors, café car porters and other employees will be turned in to him.

Having trouble with the salt? Gets damp and hardens? Then you are not using WINDSOR TABLE SALT. It never cakes.

DEPUTATION 2000 STRONG TO BOOM POWER QUESTION

Mammoth Attendance Predicted—Toronto Board of Trade to Hold Public Meeting.

The cheap power deputation, which will wait upon the government in Queen's Park upon Mayor Coatsworth's invitation next Wednesday, may number as many as 2000 delegates from cities and towns in Western Ontario. His worship did not expect it would be so large, but Mayor Goldie of Ayr informed him of the great interest being taken everywhere in the western portion of the province, and he is sanguine of a 2000 deputation to talk with the premier about the report of the power commission. Mayor Coatsworth has received already a number of letters signifying the attendance of delegates. Press reports also denote immense interest. The delegates are asked to meet at the city hall at 11 a.m. to appoint speakers and then parade to the brown stone pile in the park at noon.

Board of Trade Energetic. Arrangements were made by the board of trade at a council meeting yesterday afternoon to have a large number of members form a deputation to wait upon the legislature Wednesday, April 11, in regard to saving Niagara power for the public. The board is so interested in the movement that it will hold a luncheon at McConeky's Friday next at 1 o'clock, when P. W. Ellis, one of the municipal commissioners, and other speakers will give facts on the subject. A meeting will be held next Tuesday night at Association Hall, at which the public will be invited. W. P. Cockshutt and others will speak on this occasion, and the plan of campaign to be pursued will be mapped out. The railroads will make a cheap rate for all constituents thruout the province who represent municipalities in joining the deputation which will wait upon the legislature. It is expected that hundreds of delegates will attend.

A special despatch from Ingersoll to the regular meeting of the board of trade tonight after a general discussion of the Niagara power question a resolution was unanimously passed expressing hearty approval of the board of trade in regard to the commission, more especially in regard to transmitting electrical power from Niagara Falls thru Western Ontario to a minimum cost, and saying: "We would like to see the government take into consideration the practicability of establishing a uniform rate for the municipalities." President Sutherland said he thought that the municipalities near the source of the power supply should not be given an advantage over those at a distance by being given a lower rate, when it was known that co-operation of all that the low rate promised was possible. A strong deputation will be sent from here will go to Toronto on April 11 to interview the government regarding the question. The board decided to run an excursion to Toronto for an inspection of the industrial development in those cities.

HISTORY OF THE COMMISSION.

The municipal power commission was formally constituted in January, 1904, by independent action of the municipalities.

About four years ago the movement for securing a cheaper power became decidedly strong, and representations were made to the Ontario legislature in 1903 with the result that an act was passed providing for the construction of municipal power works and the transmission, distribution and supply of electrical and other power and energy.

After the passage of the act the agitation continued. There was a clause empowering the appointment of commissioners to the scheme. It provided that the council of any municipal corporation, or the council of any two or more municipal corporations, or any terms and conditions as may be mutually agreed upon between them, may, in order to determine the feasibility and desirability of securing such municipal power, heat and light works, appoint a commission, consisting of one electrical engineer eminent in his profession, and of good repute, and not less than two nor more than four other persons, who shall be business or professional men of good repute.

There was not much time wasted after the passing of the act, which was followed by meetings in several portions of Western Ontario. These gatherings took final expression in an agreement between Toronto, Stratford, Brantford, Woodstock, Ingersoll, Guelph and London in January, 1904, when the representatives of these places selected E. W. Snider, Waterloo; Adam Beck, London; P. W. Ellis, Toronto; W. F. Cockshutt, Brantford, and R. A. Feston, Windsor, D.C., a Canadian at the top of his profession as an electrical engineer, as their commissioners, and the act of 1903 to make investigation on behalf of the various places and report. Mr. Snider was chosen as chairman.

One Year Elapsed. The first year went by without any work. There were some little legal difficulties to be overcome. But early in 1905 business was actively approached. Messrs. Ross and Holgate, Montreal, were appointed engineers, and charged with the duty of estimating the cost of installing power and establishing a plant, and of making a census to decide what quantities of power could be used by each of the seven municipalities.

The commission met in the offices of John Mackenzie & Co., accountants, 7 East King-street, Toronto, J. G. Haight, Waterloo, was the chosen secretary, and amount of work was gone over during the numerous sessions, of which the report is a mass of figures, dealing chiefly with the financial side of the question as it affects those cities which have contributed to the cost of its preparation. Estimates are given upon the post-bill that eleven municipalities other than those mentioned may, also join in the municipal power scheme.

T. EATON CO. LIMITED

Horse Show Harness

Every horseman who intends showing his horses at the show should order the harness now.

In all the years of growing harness business enjoyed by this store, we were never so supremely qualified to supply show harness as we are now.

Coach, Coupe, Surrey and Carriage Harness, in fact anything in the harness line that you want will be made up the way you want it and you'll be glad to pay the figures we ask.

We're giving you a price hint or two below, and in doing so ask you to keep close to your memory the fact that quality is our strongest point.

Brass coach harness, made up of strictly No. 1 English stock, hand creased loops, large coach blinds, Braddon bit complete with Buxton curb, heavy Kay collars, price.... 220.00

Large assortment of English russet goods including bridles, martingales, halters and all kind of bits. These goods we can guarantee to be first class in every respect.

Genuine rubber carriage harness, made up similar to the brass and silver. This harness makes a beautiful turnout, the mountings and trimmings are the very best, price 125.00

Also a genuine rubber carriage harness for 27.00 and 30.00. This harness is made plainer, with not so much work on it.

Brass coupe harness, made up of heavy English stock, hand creased box loops, trimmings are solid English brass and silver, made up very stylish breast collar, price... 35.00

A very stylish runabout harness with solid nickel mountings, well padded saddle, leather lined, with a good strong breast collar, price... 35.00

See Queen Street window for harness display, which should bring you to the department (basement), where a big gathering of harness is displayed.

\$100.00 Reward

SO many complaints have been received from all parts of Canada from people who have been deceived in the purchase of shoes represented to be SLATER SHOES that we have decided to offer \$100.00 reward to any person who will produce evidence which will result in the conviction of any dealer selling shoes and representing them to be "Slater Shoes," "Slater Boots," "Slater Goods," "The Slater Shoe," or any other form of words calculated to deceive the public and lead them to believe that the dealer is handling Slater's Shoes.

It is our intention to actively prosecute imitators and infringers.

Such action is taken for the mutual protection of the public and of our Company. We are asking for the co-operation of the public. Our Inspector will be in this city shortly to investigate any information supplied.

Every shoe made by the Slater Shoe Company can be known as genuine only when the name and price is stamped on the sole. This is your Seal of Certainty in collecting evidence. This stamp is further emphasized for your protection by the trademark on the lining of the shoe.

All communications will be treated as confidential.

(Signed) **CHARLES E. SLATER,**
President of the Slater Shoe Company
MONTREAL.

HUDSON GIRLS LOAN MONEY WITH PHILLIPS AS BORROWER

Crown Attorney Curry Gets More Result From Probing Into Young Ladies' Financing.

The Hudson girls figured prominently in the Phillips investigation yesterday. Miss Lillian Hudson informed the court that she was worth \$10,000, mostly in Toronto Life stock. Her sister Georgia was worth about the same. Books supporting to be collection books of the Lisat Piano Company and the York Loan were produced. Crown Attorney Curry asked Miss Lillian if a book he held up was the original. Witness replied it was copied later. The original book were the original books, paper binder and eventually burnt. It was because they were stolen and hid that she made new ones.

"That would not buy them," said the crown attorney. "Did you do it on my account?"

"No."

"An account of the former investigation?"

"No."

The other three collection books were shown to witness.

"Are these copied too?"

"Yes."

Witness added that the originals were destroyed. These had been written up by Miss Alexander, who was now with The National Monthly. Nobody had directed witness to write these new books and burn the old.

Regarding the amount of work she did for the Lisat Piano Company, witness explained that she had to take the collections from the York County Loan which came in after hours.

"Where did they come in then?"

"To Mr. Phillips' house."

"So far as that was concerned there was no division of the York County and Lisat Piano Company business?"

"And you got how much a week for work for the Lisat Piano Company?"

"Ten dollars a week."

"Was that a fair wage? Was any bargain made?"

"Yes, in January, 1903."

"Who made it?"

"Mr. Burt and myself," replied witness. "Who, continued she, that she had had to keep Burt posted on the piano dealings. Between August, 1905, and the present she had worked for the Lisat Piano Company."

Hard to Get the Facts.

"It seems to me that you have been engaged in writing up these books, that did you get the \$300 you received as salary?"

"I deposited it in my bank, at Spadina-avenue branch."

"Have you very much in that book now?"

"Not very much, only \$22."

So very indefinite were the answers given to the questions that Crown Attorney Curry sternly remonstrated.

"When I get you down to black and white, you hedge," he remarked. "How were you paid after drawing that \$300 cheque?"

"Mr. Burt paid me."

"Did it come from the piano company's collectors?"

Witness replied that Mr. Burt signed for her salary and she signed for the vouchers being this in June, 1905. She supposed that the piano company's bank account was changed from the Bank of Montreal to the Dominion Bank by Burt's order.

"You want us to believe that Burt was the ruling power and not Phillips," said the crown attorney, with sarcasm.

Witness replied that she did not remember what she did with the \$300 put in Toronto Life.

"Memory bad?" asked Mr. Curry.

"Yes."

"But it wasn't bad when it came to posting up Burt?"

Loaned Phillips \$1500.

Witness informed the court that she had loaned Phillips \$1500 at one time. She had a lot of money when she first started the employ of Phillips, she could not say how much she had been left, some \$500 or \$600 by her mother. She could not remember where it had been banked. Some of it had been invested in the York County Loan when she started with the company fourteen years ago. She had sold out some years afterwards by Burt's order.

"But there was no Toronto Life," said the crown attorney.

Then came the disclosure that witness was worth about \$10,000 in stock, which was worth about \$1600 from her mother in 1902, about three months before her death. Witness advised that she had \$7000 worth of stock in the Toronto Life. It would surprise her if Crown Attorney Curry told her she had only \$3750 worth.

Probes Another.

Lillian did not appear for long in the witness box in the afternoon. After answering several questions put by Crown Attorney Curry, she withdrew and complained that she was tired and was allowed to go. She was asked concerning the stock various persons held in the Toronto Life. Witness said Mrs. McCann had put \$15,000 in \$16,000 in the Toronto Life. Witness had induced her to invest her money.

"The Toronto Life," said Crown Attorney Curry, "made a valuable property out of the moneys of the York Loan, money that should absolutely belong to the York Loan shareholders. Can you give me a list of York Loan agents?"

"I have not got any now."

"Where is your list?"

"I have none."

"The agents of the York Loan were the agents of the Toronto Life?"

"Some of them," replied witness, who withdrew.

added that she had nothing to do with Toronto Life. Her sister had something to do with the Toronto Life.

"Yes," said Mr. Curry, "she will tell me that you know something of it. It is backwards and forwards just like a game of hide-and-seek."

A question about evidence from the crown attorney the remark that Mr. Phillips had seemed to be pretty hard up borrowing money from the Hudson girls.

"You and he were pretty good friends?" said the crown attorney.

"Fair to middling," replied the witness.

"You knew a good deal of his private business?"

"I do not know of anybody's private business," replied witness. Continuing she said she had \$7000 or \$8000 invested in the stock of the Toronto Life.

"You want us to believe that that is your own money?"

Witness said that it was what she had worked for and saved.

"Where was the place where this money has been kept, where it could get any trace of where it came from?"

"No."

Witness was being questioned as to whether she had any cheques that she had given to the York Loan or to the Toronto Life, when she complained that she was feeling tired and that she left the box at 4.30.

Witness was asked concerning certain transactions in regard to the York Loan. Witness did not know that she remembered distinctly.

"Your memory is very bad. It seems to me that when we come to the most important of the facts, you forget. How did you get your money when you went to the York Loan?"

"How long ago was that?" was the question which, under other circumstances, might have appeared somewhat unimportant.

"1903," said the witness briefly.

Then the crown attorney vigorously questioned the girl concerning the sources of her supplies of money. She said that money was left her by her mother.

"How much?" asked the crown attorney.

"\$3400 or \$3500 in the Postoffice Savings Bank."

"Your sister tells me a very different story in connection with that."

"Your sister only got \$3200 or \$3300 from your mother's estate?"

"Yes."

"But she says she only got \$1600."

"That is what she got in cash."

"You say you are right and that what she says is wrong?"

"I say there was \$3200 and that each got half."

The witness answered with evident reluctance. She refused to state to whom she made loans. It was a private matter.

Question of Veracity.

"Is it?" asked the crown attorney easily.

"Well, we are just going to test that. I don't believe the money is yours at all."

"Then, if you say from now that I am not telling the truth, any further evidence I can give will be of no avail."

"I will tell you candidly I do not believe the evidence you have given in court here," said Mr. Curry.

"I am perfectly willing to go on, but Mr. Curry should not accuse me of not telling the truth."

"Well, we want to get the truth," said Magistrate Denison.

"Whom did you loan to?"

"To Burt and McCann."

"Is that all?"

"Yes."

"How much are you worth?"

"\$5000 or \$10,000." Witness went on to say that she had different amounts invested in Toronto Life. She had more than a hundred dollars. At last she declared that she had \$2000 paid on stock. Others had held stock for her. What amount had \$625 paid on it. Miss Daw had 75 shares of hers, Miss Lee \$300 of hers in shares, and Miss Daw 75 shares.

Witness admitted that she had no place to show where this money came from. She had loaned to Mr. Phillips, but refused to say, as the others, declaring that it was a personal matter with her own relatives.

"I am not telling the truth," said the witness, who was very hazy concerning the business transacted at all the places visited.

"With formal evidence by the Misses Hall, the proceedings closed for the day."

BUD WEISER

is fermented in Glass-Enamelled Vats. After the process of fermentation it is lagged (aged) from four to five months in Glass-Lined Steel Tanks, from which it is drawn into bottles. Thus it is

In Glass from Kettle to Lip

The result is an exquisite taste and flavor, distinctively its own, which accounts for the sale of

137,722,150 Bottles of Budweiser in 1905

exceeding that of all other bottled beers.

PUBLIC AMUSEMENTS.

By a number of prominent Americans who have seen Miss Ellis Jeffreys, the distinguished actress, who will open a week's engagement at the Princess Theatre on Monday night, she has been called "Albion's fairest daughter," and not without reason, for the title is equally applicable to her art and her personality. "The Fascinating Mr. Vanderveld," Alfred Sutro's newest work, gives Miss Jeffreys exceptional opportunities for the display of her undoubted talents. Miss Jeffreys in a story represents the famous Gibson type of beauty, for her height is well above the feminine average, and she carries herself with regal poise. She is regarded as the most successful actress in this type of character. The advance sale for the engagement will open at the Princess Theatre to-morrow.

The matinee performance of "Woodland" at the Princess Theatre this afternoon will be patronized by many little folks as the big Savage production makes a special appeal to children. The entire novelty of the character is one that will appeal to all who take an interest in clever character work. Last evening Mr. Shea was called before the curtain, so enthusiastic did the audience become. At the matinee to-day Mr. Shea will present "Cardinal Richelieu," and at the evening performance "Napoleon" his new play.

Hap Ward, formerly of Ward & Vokes, comes to the Grand next week when "The Grafters" will be presented to Toronto theatregoers for the first time. Aside from the jangle of musical comedy, theatregoers are promised a story of genuine worth in "The Grafters" and a company of legitimate players for the telling of the story. There are many individual specialty offerings by such people as Lucy Daly, William Maxwell, Winnifred Spaulding and Hap Ward.

Lottie Williams has always been exceedingly popular with the audiences at the Majestic Theatre, and when she visits this city she is made welcome and feels delightfully at home. When she returns next week it will be the first presentation in this city of her new play entitled "My Tomboy Girl." Miss Williams is said to be a vision of loveliness in the character of Capt. Charlie. During the engagement a matinee will be given every day.

Sam Devere, the well-known minstrel and comedian, is at the head of the best organization he has ever presented, and they will be here next week at the Star Theatre. From the first part, "At the Health Resort," to the closing burlesque, "The Minnie," both by Andy Lewis, there is an atmosphere of originality. The specialties sandwiched between are thoroughly unique and captivating.

JAMES MASON, General Manager

CHINESE ARE GIVING RUSSIA SOME TROUBLE

St. Petersburg, April 3.—At the foreign office it was said that negotiations between Russia and China over Manchurian affairs are not progressing satisfactorily, and that relations between the two countries have been somewhat strained.

The Chinese are displaying a great deal of steadfastness and not only refuse to recognize the private concessions in Manchuria held by the Russians, but are constantly pressing the question of the evacuation of Manchuria by the Russian troops.

DULL DAY AT CITY HALL EXCEPT FOR SCHOOL MARMAS

Some Interesting Matters to Come up at Four Meetings to Be Held To-day.

It was quiet all day yesterday until 4 o'clock at the city hall, and then the school teachers began to come in for their salary cheques. Their chatter, with the tramp of many neatly clad feet, echoed thru the corridors, while the elevator man was traveling in very fine company, and lots of it at once, for an hour or so. It was an opportunity to get a line on popular spring wearables, and also to wonder why the cheques cannot be sent to the 600-school marmas and thus obviate the necessity of the girls coming to the hall once a month, sometimes when the weather is not so kind as it was yesterday.

Four Meetings To-day.

In civic circle things were unusually dull. The controllers did not do any of their usual work. The committee of the legislature, Controller Shaw and Park Commissioner Chambers visited the proposed park site east of Roxboro-street during the afternoon. The parks and exhibition committee will meet to-day and talk it over. The committee will also receive a largely signed petition protesting against the

proposal to establish on the hill of Riverdale Park a branch of the restaurant on the flats.

The Polo Club has written, asking for permission to play on the flats on certain afternoons. It is said that this will not interfere with the baseball games.

Park Commissioner Chambers will again protest against the vandalism of telephone lines in mutilating trees, the residents don't want it, but there seems to be no help for them.

The local board of health will meet this afternoon and receive the monthly report of the medical health officer. During March there were fifty-two cases of diphtheria, twenty-six of scarlet fever, ten of typhoid fever, and four cases of smallpox. This is considered most satisfactory, as it is the least number of contagious diseases in Toronto for many years.

The board of control will meet this morning.

HART'S RIVER MEN PROTEST

Against Attitude of Government Towards Disabled Veterans.

Some South African veterans from various parts of the country, who came to join comrades for a reunion in Toronto, have entered a protest against the attitude of the Dominion government regarding soldiers who were permanently injured, as expressed in the recent discussion of the Milloy case in the house.

At the annual meeting of the Hart's River Association, held in the Sergeants Mess of the Governor-General's Body Guard, yesterday morning, the following eminently practical resolution was unanimously passed: "Moved by Sergt. Wilkinson, seconded by Sergt. James, that we, the members of Hart's River Association, desire to place ourselves on record as feeling deep regret at the attitude of the Ottawa government towards South African veterans, who have suffered permanent disability during the late Boer war. And we feel that it is not in accordance with their present policy to grant pensions to our disabled and aged suffering comrades, that it would only just, when vacancies in the public service occur, to give positions to those who have so nobly sacrificed their prospects in life for Canada and the empire."

Sergt-Major Hodgins, Sergt. Moon, and W. Morrison were appointed a committee to examine into the cases of wounded comrades, and report their finding to the association.

Happy at Last

Mr. Husband no longer gets intoxicated—Samarita Tasteless Remedy Cured Him.

This lady says: "For the first time since I have been married, I can be happy and content—my husband is cured of his bad habit of drinking. Some months ago you sent me a free sample of your remedy, and I tried it, and without my husband's knowledge I gave it to him in his beer. He got a full treatment and was cured. It is truly wonderful, and I can only thank you for the blessed cure. It has brought to my home."

How to Fool a Lazy Liver with Artificial Exercise

EVERY serious Sickness has a small beginning.

And, in nine cases out of ten that small beginning is made in the Bowels.

Indigestion is the beginning of most diseases.

It paves the way for all others.

Lack of exercise, hasty eating, improper food, are its first causes.

Laziness, and postponement, permits it to grow into Chronic Constipation, which means life-long discomfort.

It isn't necessary to be sick-a-bed, you know, in order to be mighty uncomfortable.

Even slight indigestion affects the nerves, dulls the mind, and obscures the merry sunshine of life.

And, indigestion once started, grows fast, corrodes temperament, and discounts happiness, good cheer, capacity.

It does that long before it puts you on the Sick list.

Every thinking Doctor knows why.

Professor Frank knew it.

That's why he framed up for students his famous formula for Happiness, viz.: "Trust in God, and keep your Bowels open."

The Bowels need adjustment from time to time, just like a clock, or a watch.

No "Good time" is humanly possible without it.

And, the time to adjust the watch is not when it has run down, nor when the main spring is broken, but at the very minute adjustment is discovered necessary.

The time to adjust the Bowels is not merely when your Head Aches, when your Liver is Sick, your Stomach in Revolt, and Nature's Process retarded for 24 hours or longer.

The proper time to adjust them is the very minute you suspect they need adjustment.

Cascarets are the only Bowel and Liver medicine that do not need to be used in larger doses every month you use them.

The time to use a Cascaret is when you first suspect you need one.

They only way to have them ready to use precisely when you need them is to carry them constantly in your pocket, as you do a Watch or a Lead pencil.

The ten cent box of Cascarets is made thin, flat, round-edged, and small, for this precise purpose.

Be very careful to get the genuine, made only by the Sterling Remedy Company and never sold in bulk. Every tablet stamped "CCC."

A sample and the famous booklet, "Course of Constipation." Free for the asking. Address Sterling Remedy Company, Chicago or New York.

Doan's Kidney Pills

TERRIBLE PAINS ACROSS BACK

SUFFERED EIGHT MONTHS WITH KIDNEY TROUBLE. WOULD HAVE TO STAY IN BED FOR THREE DAYS AT A TIME

Doan's Kidney Pills CURED HIM

Mr. Thomas Fitzgerald, Hazelton, Ont., writes us as follows: "I was a great sufferer from kidney trouble for eight months. I had terrible pains across the small of my back. I would have to stay in bed for three days at a time and could do no work. I tried several remedies but of no avail, and also plasters but they were of no use."

One day a neighbor of mine advised me to try Doan's Kidney Pills. I was so much discouraged I told him I was tired of trying remedies, but he urged me to try one box so I purchased one, and before I was through using it, I found a change for the better so I got five boxes more, and I have had no trouble with my kidneys since. I would not be without Doan's Pills in my house."

It is really not difficult to cure kidney trouble in the first stages. All you have to do is to give Doan's Kidney Pills a trial. They are a never-failing cure for all forms of kidney trouble. They quickly relieve the congested, overworked kidneys, and gradually bring them back to health.

Doan's Kidney Pills 50 cents per box or three boxes for \$1.25, all dealers or The Doan Kidney Pill Co., Toronto, Ont.

Jewel Thief Sentenced.

Buffalo, April 3.—(Special.)—William Clark of Toronto was to-day sentenced to three years in penitentiary for a jewel robbery.

Fourteen Shingle Mills Close.

Seattle, April 3.—Fourteen out of 17 shingle mills of Ballard, the greatest shingle manufacturing city in the world, are idle, the few remaining plants running being expected to close to-day, as a result of a general strike against the mills in this city. The issues are a slight increase in wages and the open shop principle. The close of the Ballard mills will decrease the general output by nearly 3,000,000 shingles per day.

SIR HENRY'S PROMOTION DISTURBS MILITARY MEN

Prospects of Dividing Queen's Own Into Two Battalions With Commanding Officers Isn't Liked.

The proposition to divide the Queen's Own Rifles into a regiment of two battalions, giving to Lieut.-Col. Sir H. M. Pellatt the rank of colonel, and causing the creation of two lieutenant-colonels to command the two battalions, looks nice enough to the civilian, but is being viewed in a far different manner by some military men, at least. There is, in fact, in some quarters, a decided objection to the promotion of Sir Henry, not because his services to the regiment, and indirectly to his country, are not recognized as giving him claim to some distinction, but because, as one reflects on the promotion of Sir Henry, it would have no precedent in the annals of the British army, let alone in the records of the Canadian militia.

In the army there are full colonels and honorary colonels over territorial regiments, which have more than one battalion, but the positions are only honorary. Promotion in the army is not generally considered that even the splendidly rapid increase in numbers like that which has marked the Queen's Own during Lieut.-Col. Pellatt's tenure, is yet sufficient reason for a promotion which will place Sir Henry above all the other lieutenant-colonels in the Canadian militia, and next in command to Gen. Otter.

EVIDENCE SHOWS CRIME.

New York Grand Jury Told to Probe Insurance Matters.

New York, April 3.—(Special.)—The grand jury, in the court of general sessions, instructed the jury to take up insurance matters, although District Attorney Jerome has asked for a special grand jury in May for that purpose. The recorder said that there was reasonable ground for the belief that there is available evidence showing that crime had been committed in the insurance matter. He instructed the grand jury that it had unlimited powers to act in the matter as it saw fit. Recorder Goff instructed the grand jury that it is their duty to call the district attorney before them to produce any evidence he may have or may have knowledge of concerning insurance matters should they decide to take up the matter.

Engineers' Drills Have Begun.

EXPEDITION PREPARING TO CAPTURE VENEZUELA

New York, London and Paris Capital Financing Army to Overthrow President Castro.

New York, April 3.—One of the largest merchants in New York said last night that arrangements are being perfected here and in Paris and London for a revolution in Venezuela which will annihilate Castro and open up that country to American capital and enterprise.

A number of rich New York merchants are said to be interested in the movement, which the promoters declare will involve the employment of 15,000 soldiers and the expenditure of \$5,000,000 in the campaign. President Castro, 600 in the campaign. President Castro, 600 in the campaign. President Castro, 600 in the campaign.

44,000 ON STRIKE.

Violent Disturbances in French Coal Fields Are Increasing.

Lens, France, April 3.—The strikers in the mining districts now number 44,000.

IDENTIFIES THE PICTURES QUARTET PLEAD NOT GUILTY

Robert Bennett, James Hunter and John Crosby were in the police court yesterday charged with entering the premises of the Toronto Carpet Co. using offensive weapons and robbing William Wright of \$4 and a number of keys. All pleaded to be tried summarily, and pleaded not guilty.

NOT GUILTY.

Philadelphia, April 3.—Walter Wood, a member of the firm of E. D. Wood & Co., iron manufacturers of this city, was found not guilty in the United States court here today of accepting a rebate on a shipment to Winnipeg. The amount of the alleged rebate was \$120.50. The Great Northern Railway and the Mutual Transic Company are under indictment, charged with giving the rebate.

THE FATAL AUTO.

Philadelphia, April 3.—While riding in automobile thru Haverford, a suburb, E. O. Gowing, a member of the firm of Adams Bros. & Co., was killed and his wife fatally injured. Gowing failed to observe a rope stretched across the road, and the glass shield of the automobile from its fastenings, starting Gowing, who, in manipulating the steering gear, caused the machine to reverse into a telegraph pole, crushing its occupants.

EXILED.

St. Petersburg, April 3.—M. Annesky, a well-known writer, and M. Orlekh, president of the railroad congress, which ordered the railroad strike of last fall, have been exiled to Archangel by administrative order.

Ministers to Take Part.

An international deputation of clergymen, composed of Rev. Canon Welch, Rev. Dr. Sowerby, Rev. A. W. Hill, Rev. J. J. Mills, Rev. J. W. Peakey and Dr. Turnbull, has been appointed by the General Ministerial Association Monday to interview Premier Whitney regarding the proposed License Act.

To Look After Children.

A Children's Aid Society has been organized in North Bay for the District of Nipissing, the following being elected as its first officers: President, William McKenzie; secretary-treasurer, G. A. McLaughlin; committee, Rev. Father O'Brien, Rev. J. W. Stewart, Rev. G. L. Johnston, Rev. E. M. Cariker, D. J. McKeown, Thomas Wallace, Dr. Wicklett, Mrs. Charles Wetmore, Mrs. E. Browning, Mrs. John Ferguson, Mrs. Dettor, Mrs. Udy and Mrs. Lousbury.

An Enjoyable Way to Cure "Grippe"

When you feel that "Grippe" feeling coming on, send your way to Cook's Turkish and Russian Baths. Make known your trouble on entering the Bath. You will then be given in charge of an experienced attendant, who will give you treatment suitable for your trouble; it will be one of the most delightful experiences you ever had.

COOK'S TURKISH & RUSSIAN BATHS, 202 and 204 King Street West.

FEWER TRAINS TO SAVE COAL

Perce Marquette System is Adopting That Recourse.

St. Thomas, April 1.—(Special.)—Judge Harmon, receiver of the Perce Marquette Railway, has issued the following circular:

The change of time in effect April 1, discontinuing some of our passenger trains, is a temporary measure, made necessary on account of the coal strike. To continue our regular operation the supply of coal on hand would last only about 40 days. It is, therefore, necessary in the judgment of the officers of the company, to reduce the service in order to give our patrons some service in the event of a prolonged strike.

Ottawa Coal Prices Up.

Ottawa coal dealers are not taking any chances on the possibility of a coal strike, and have decided to increase prices from \$7.25 to \$8 per ton. The reason assigned is to protect greedy people and from the chance of a coal strike at a time.

OBITUARY.

Mrs. Sarah F. Fraser, at 69 Spencer-avenue, of Sarah Francis, widow of the late Alexander Fraser, died at her residence at 69 Spencer-avenue, Toronto since 1887, and was an active member of the Duncannon, and was a member of the boards of the W.P.M.S., the Castle Island, Ireland, the Town of Mrs. Fraser was born in 1836. She came to Canada at the age of 12 years and was for many years a resident of the city of Toronto. She was the wife of Arthur Fraser, who died in 1887. She was the mother of Mrs. Fraser, who died in 1887. She was the mother of Mrs. Fraser, who died in 1887.

THROW-DOWN FOR HEARST.

Albany, N.Y., April 3.—The assembly today practically killed the Murphy bill, which would permit Wm. Randolph Hearst to secure a recount of the vote cast for mayor at the last election, when George B. McClellan was elected on the face of the returns.

ACCIDENT TO SUBMARINE.

Libau, Courland, April 3.—During the trial of a submarine boat here today, a torpedo boat, when several naval officers were witnessing the experiment, struck a reef and sank. Those aboard were rescued.

Honor to Royal Astronomical Society.

In the Athenaeum (London, Eng.) Notes, it is stated that the corresponding societies' committee of the British Association for the Advancement of Science, at the meeting in Cape Town, selected for special notice 22 contributions to the year-end report of 1905, during the year 1905-1906. Among the number of papers selected is one by J. R. Collins, secretary of the Royal Astronomical Society, on "Man's Place in the Universe." The members of the society are greatly pleased to have their secretary thus honored.

Ask for Protection of the Public Against Substitution.

The Slater Shoe Company claim that many forms of substitution are practiced in some towns and cities by shoe dealers who cannot get the Slater Shoe Store in each city. The Slater Shoe Store is easily recognized by the Slater trademark. The Slater Shoe Company in this issue offers a reward for the detection of any dealer who knowingly substitutes in his store the Slater trademark. The law on this point is very explicit. The violation of the Slater trademark is a criminal offense and will be followed by the Slater Shoe Company in some of our cities. We cannot afford to have our patrons cheated by clumsy counterfeiters," said Mr. Slater.

Garment Workers' Convention.

The International Garment Workers' Union will hold its convention in Toronto on Aug. 27 of this year, when over 200 delegates will be present. The annual delegating concert of the local union will be held in the Labor Temple on April 24.

Goody to Ex-Mayor.

Warton, April 3.—Ex-Mayor Samuel A. Warton, for the past eleven years one of the town's prominent business men, was tendered a complimentary banquet on the occasion of his departure for Hamilton. He was presented on behalf of the citizens with a gold locket. The members of the I.O.O.F. Lodge gave him a past grand master's jewel.

Earthquake in Oregon.

Ashland, Ore., April 3.—Shortly after 9 o'clock last night a distinct earthquake was felt here. The vibrations lasted nearly two seconds.

DR. WOOD'S KIDNEY PILLS

Price 25c Relieves the head, throat, and lungs almost immediately.

1 WILL REFUND YOUR MONEY IF IT FAILS. MUNYON, Philadelphia

WATER TANK FALLS THROUGH ROOF GIRL KILLED, OTHERS HURT

Bad Accident in Montreal Warehouse—Second of Its Kind in a Week.

Montreal, April 3.—A 12,000 gallon water-tank on the building of Bolvin, Wilson & Co., wholesale liquor dealers, St. Paul-street, crashed thru the roof this morning and killed a girl named Ross, an employe of the firm mentioned, and injured several other employes.

DEFENCES UNDERMANNED.

United States Would Be in Bad Shape to Resist Attack.

Washington, April 3.—Some surprising facts regarding the inadequacy of the coast artillery force was brought out in the recent examination of Secretary of War Taft by the senate committee on military affairs.

LOW WATER CAUSED LOSS OF LUMBER NOT DELIVERED

The low water of last season is advanced by the Turner Lumber Co. in the non-jury assesses before Chancellor of the Exchequer, to the non-delivery of lumber to Norman E. Playfair, a Midland lumberman. The defendant company entered into an agreement to keep the Playfair mills in low water until November. They failed to keep up with the mill capacity of 80,000 feet a day, and Playfair claims it caused him to operate his mills at a loss. He is suing for \$10,000 damages.

WROTE CHEQUES AT \$500 A DAY

When Her Money Was Gone, Swindler Deserted Her.

Chicago, April 3.—The Chronicle today says: Stripped of her entire \$65,000 of \$200 bills, she declares, by her husband, Dr. Frank E. De La Creole, who has fled, leaving her in abject poverty, Mrs. Frank E. De La Creole (No. 2) of 2355 Indiana-avenue, yesterday said she was married to Dr. De La Creole, who is accused of being the accomplice of the man for whom the police of every city in the United States are looking. Other women, the police say, were swindled by the man.

RAILWAY CHANGES HANDS.

The Central Has Purchased the I. B. & O. for Extension.

Montreal, April 3.—(Special.)—The Central Railway of Canada, formerly the Ottawa River Railway Company, having secured strong financial backing in England, have purchased the Ironclad, Bancroft & Ottawa Railway, planned to run from Kinmount to Ottawa, 150 miles, fifty of which are on the Ottawa river. This part of the new company's main line from Ottawa westward and will be started at once. The distance from Montreal to Hawkesbury has already been located and will be continued to Ottawa.

Sprinkler System Worked Overtime

The operation of the sprinkler system of 24 West Front-street, when it was not necessary, is the basis upon which a suit is pending in the courts. About a month ago the system operated in the middle of the night, and the contents of the tank were emptied over the stock. Boulter and Davies sue to recover \$4986, and D. D. Hawthorne wants \$5000 from the Dominion Casualty and Boiler Insurance Co.

Guard Was Awake.

Soumy, Poland, April 3.—An attempt made last night to blow up the Mutual Credit Bank here with an infernal machine was frustrated just in time by a guard who extinguished the fuse.

Earl Is in Washington.

New York, April 3.—Earl Grey, governor-general of Canada, left New York for Washington on the 2nd, and will remain at the capital several days.

Holland Coming Back.

Christopher Holland was arrested at Bristol, Feb. 2, on a charge of stealing \$13,000. He will sail from Liverpool on the steamer "Victorian," April 5, in custody of Detective Mackie.

SPECIAL ADVERTISING SECTION HORSE STOCK EDITION

RURAL TELEPHONES.

No modern invention has so thoroughly revolutionized rural communities as the telephone. Farmers have attested their appreciation of its importance by installing it in their homes. Telephone lines now everywhere span the space between the country and cities, and communication is readily obtained from the farm to the marts of the world. The telephone has eliminated the necessity of trips to the city to transact business or obtain the daily market fluctuations.

The telephone relieves the monotony of rural life and keeps the young people at home evenings. One rings up his neighbor and learns the news of the day and avoids the trouble of a personal trip to town to get posted on current events. The most remarkable progress in telephony has been achieved in the rural districts, where its general utility is even more important than in cities.

The telephone filled a rural world as fully as the self-blinder or the steam thrasher. The wide-awake farmer saw its utility and was quick to take advantage of this cheap system of communication. Rural telephone organizations among farmers have given general satisfaction, as the farmer gets his telephone installed at first cost, and the expense of operation is not burdensome. The party line system is used on nearly all rural routes, and frequently fifty instruments are operated on one line. The central office is located in the home of one of the subscribers, who is allowed reasonable compensation for operating the switchboard.

Stock companies or town organizations frequently own the rural telephone systems and operate them at reasonable prices. The progress of a rural community is frequently measured by telephones.

There is no question but what a telephone adds material value to the farms in the circuit of the system. With telephone connections the farm is no longer isolated from the commercial world. The telephone places the farmer in position to take quick action on a change in the market. The telephone adds new interests to the rural home, makes the farmer more intelligent and the community more sociable. It is a safeguard against burglars and traps and is of inestimable importance in the bringing into closer communication the social and business affairs of the world. The telephone is of great importance. The installation of the telephone has placed the farm on a business basis and has been one of the principal factors in the current prosperity of agriculture.

INTENSIVE AGRICULTURE.

The great hindrance to modern husbandry is the ambition for extensive rather than intensive agriculture. The average farmer is spreading his resources over too wide an area to achieve the best results. Consolidation and concentration of effort characterize nearly all industries except agriculture, in which the majority of farmers endeavor to compute their wealth by acres and not on the general results of revenue per acre. It is admitted that, owing to a lack of concentration, not more than 25 per cent. of products are producing annually which the land is capable of yielding. This entails an annual loss to the agricultural possibilities of the country that would aggregate billions of dollars.

Progressive agriculture implies the greatest possible production from a given area of land. Concentration implies in its broadest sense the greatest possibilities in all branches of husbandry. Intensive farming is equally applicable to live stock industry as to land cultivation. Concentration implies that a farmer can make more profit from one head of live stock of the right kind than from two inferior animals.

The intelligent farmer knows that it does not pay to cultivate poor or exhausted land. Profitable agriculture implies a fertile soil to produce bountiful crops. If the farmer's land is exhausted he must treat it as a physician would an invalid, and nourish it to convalescence and vigor. Live stock, clover and crop rotation will soon bring exhausted land back to average productivity. Deep plowing and an occasional subsoil plowing will bring new mineral elements into utility for crops. Deep cultivation allows the soil to hold larger quantities of water to feed growing plants. The extermination of weeds is accomplished by frequent and thorough cultivation, which reduces the surface to a fine mulch that will prevent the evaporation of moisture and stimulate plant growth. Intensive farming on small holdings near large cities now produces profitable results. The Rev. Mr. Detrich, on a fifteen-acre farm, near Philadelphia, in six years paid off a loan of \$7200, besides supporting his family, from the sales of his products. Many other illustrations are on record to show that what farmers most need is intensive agriculture and not more land.

MAY GO STILL HIGHER.

Hog prices absolutely evince no signs of a decline. Market quotations are firm at 37 per cent. at Toronto, while a rate closely equal to that figure is ruling at the collecting points throughout the province. The fact that quotations

at outside packing houses are so near a parity with Toronto prices accounts for the falling off in the recent weekly receipts at the city markets. The demand for carcasses in excess of the supply and any further strain will have a tendency to advance prices even further. Those who are closely watching the situation are of the opinion that the extreme limit has not yet been reached and that another \$1 per cwt. will be tacked on before the summer is over. Even had the embargo on the American hog not gone into effect little relief would now have been available from that quarter. Butcher hogs at Chicago are very firm, recent prices having touched \$6.00 per cwt. British bacon prices are getting more in accord with those of the Canadian raw material and no injurious trade effects are likely to result from the benefit now accruing to the Canadian farmer.

TORONTO MARKET REVIEW STATE OF CATTLE TRADE.

Hogs Show a Very Firm Front—Export Cattle Are Not of Good Type.

Prices for fat cattle are remaining fairly steady in the city and Junction markets. All well finished shipping and butchers' cattle find a ready sale at good prices considering the state of the British markets. About one year ago the cattle market took a sudden rise. The reason for that rise was due to the fact that the supply of winter stall-fed stock had become almost exhausted on the one hand, while the demand on the other hand was remarkably strong. This combination had the effect of sending prices upwards from 75 cents to \$1.00 per cwt. on the Toronto markets inside of three weeks. That there will be no such improvement in the trade this year is certain, and dealers or farmers having cattle to sell should feel reasonably satisfied if they can find the market steady. The present outlook is not favorable for a rise in prices of shipping cattle, because the demand is not up to last year's standard. Receipts of cattle that are well-finished are not heavy and the blame for the slowness of trade cannot be accounted for on that ground. The opinion seems to prevail that good choice steers will sell well and possibly slightly higher than last week, but there is little chance for the half-finished cattle such as are being rushed on the market just now to advance a feeling about the shipping cattle, which are out of all proportion with those paid on the city and Junction markets.

The bulk of shipping cattle are selling from \$5 to \$5.12 1/2 per cwt. Butchers' cattle range from \$4 to \$5 per cwt. for good cattle to prime cattle.

The demand from the country for feeders and stockers has been very uncertain. One week it is good and the next it is poor. On this account dealers scarcely know what to do. Neither the demand nor the prices are as strong as they were a fortnight ago. There is a feeling abroad that shipping cattle are not going much, if any higher, and farmers do not want a repetition of last year's experience, when many of them paid prices that after feeding their summer's grass, they could not realize.

The continued marketing of calves during the past year is likely to have an effect on the stocker trade in that the supply will not be as large as it hitherto has been during the spring months. One factor that has and will contribute materially to a scarcity of stock cattle is the high price of veal. When a farmer is able to dispose of a veal calf from 150 to 200 lbs. at 7 cents per lb. he has nothing to induce him to carry that calf until it is a year old at an added cost of several dollars and then sell it as a feeder for less money than he could have obtained for it as a calf.

This condition of the veal market has doubtless deprived the feeder of a lot of raw material that would otherwise have been available. During the past year an incredible number of calves in Ontario have gone to the butcher. Some of them doubtless represent the dairy industry of the province, but the run has carried a goodly share of beef calves that would have been candidates for the feed stalls of Ontario farmers. Prices are not any stronger than they were a week ago, but should the demand increase so also would prices.

Sheep and Lambs.

Receipts of sheep and lambs have been light and prices are higher than at any time this season. There is a brisk demand for export sheep as well as yearling lambs. Export ewes have sold at \$5.75 per cwt. and yearling lambs of prime quality, as high as \$7.75 per cwt. Sheep and lambs are likely to rule high in price for some time to come.

Hogs.

Hogs are evidently scarce in the country, or there would surely have been light and prices when the farmer can get 37 per cent at his nearest railway station. Prices have advanced another 25 cents per cwt. and Mr. Harris has sold at \$5.75 per cwt. and \$6.75 for lights and fats. Prices at Montreal are nearly at the \$8 mark and in fact we may say they are \$8, as one of the largest dealers got a lot that he would not ship a car of hogs under that price.

Feeding Young Turkeys.

For food the first few days give hard boiled eggs chopped fine, bread softened in milk, cornmeal wet up in milk, etc., three or four times a day. They must not be allowed to go hungry or be allowed to eat food that has soured. Give milk to drink. If confined on floor by reason of cold weather or storms give green food chopped fine and mixed with their rations, and hay seed to scratch in. As feathers begin to take place of the down they may be allowed to range somewhat.—W. T. Eastwood.

TORONTO HORSE MARKET QUALITY IN HIGH DEMAND

Good Carriage and Saddle Horses Scarce and Wanted—Work Horses in Abundance.

The coming horse show has necessarily created an enquiry for the better class of horses. Dealers in carriage horses, as well as in saddle horses, say that business was never better. In fact, they have all they can do, and it is simply a case of meeting the demand. It happens, however, that on foreign account there is an equal enquiry, and it is largely in the better types a matter of the best price offered. A prominent city firm had an order to supply five extra carriage horses for New York. They got them, but in the meantime several local buyers came along, and they felt compelled to let them go. The situation is that automobile and everything else that is going, there never was so good a demand for the pleasure horse as there is to-day. And the shows are doing it all. The leading dealers affirm that they are full up, and heavy horses the market is almost equally active, owing to the great amount of construction work that is going forward. Generally contractors are anxious to maintain a line, and they steadfastly refuse to go beyond a certain point, with the result that fancy heavy horses are hard to sell at remunerative figures, but good, active workers are closely enquired after. In delivery and express horses the demand is also good, a manifest disposition existing among merchants to buy a good showing in their rigs. Driving horses are a speculative quantity. During the winter, owing to the absence of snow, the enquiry has been for heavy horses, but otherwise would have been. In points prices are decidedly soaring upward, they sharing in the advancing market for show purposes.

At the regular Tuesday sale in the Repository there was a large attendance from first to last. Prices for the ordinary kind were good, but there was a bit of dwelling on extra qualities. However, the recognition they received prompted bidders, with the result that in the long run they found purchasers, but at times below the prices paid the first holders. Dealers naturally complained, but it is the average that tells, and while the market buyers have been close on some lots, on the average it is safe to say none of them suffered very much. It was apparent from the commencement that the buyers were not to be taken in, and they were not. The principal purchasers were: Armstrong and Lake, St. Catharines, who took a cart-load of heavy horses; McNeil, J. & Co., Guelph, two cart-loads of the same description; and J. H. Smith, Calgary, an exceptionally good cart-load of blocks. The principal buyers were: H. Hill, Orangeville; S. H. Mitchell, Brampton; R. S. Starr, Port William, N.S.; T. Garridge, Toronto Junction; C. A. Leitch, Guelph; J. G. MacNeil, L'Amour, and R. Jaffray, Nobleton. Prices quoted by Messrs. Burns & Sheppard are as follows, and they fairly illustrate the market conditions at the sale: Single roadsters, 15 to 16 hands, \$125 to \$160; single cobs and cart-rippers, 15 to 16 hands, \$125 to \$150; matches, 15 to 16 hands, \$125 to 16.1 hands, \$300 to \$550; delivery horses, 1100 to 1200 lbs., \$160 to \$175; general purpose and express horses, 1200 lbs. to 1350 lbs., \$175 to \$225; serviceable second-hand workers, \$80 to \$90; serviceable second-hand drivers, \$60 to \$80.

Notwithstanding the great difficulty experienced by many in securing desirable animals, the Canadian Horse Exchange has succeeded in getting together for his great combination sale tomorrow a collection of horses which for manners, breeding, conformation and soundness, as a lot, could hardly be excelled in Canada. Pains have not been spared to select the best of the country, and the Exchange will hold a public exhibition of the horses to be sold at tomorrow's sale.

Monday's sale of this week at the Exchange was most satisfactory. In fact, the demand for choice chunks of the blocky sort was much greater than the supply, and shippers complain that this class of stuff is hard to pick up in the country, as the Manitobans and Northwest buyers prefer the blocky kind for their work on the prairie; and Ontario has been well gone over for this class. The buyers at this sale were varied in their selections, almost every class of horse offered finding a quick and ready sale. The bidding was snappy from the opening to the close. Amongst the purchasers were Mr. Brady, city; J. Adam, city; George Franks, R. Hefferman, Arthur, Ont.; George Cull, St. Thomas; A. McNeill, Hamilton; S. Price & Sons, city; C. Mason, city; H. K. Richards, Durham; Thomas Johnston, city; Robert Seattle, city; James Craig, Toronto Junction; William Fletcher, city; F. Harvey, East Toronto; C. Banman, Hamilton; James Story, city; J. Swan, William Spofford, J. Brennan and several others. At Monday's sale of next week the Canadian Horse Exchange will offer an exceptionally choice lot of fresh young horses, right from the country, consigned by well-known and experienced buyers.

In England the same trouble is experienced in getting the small breeder to exhibit at the shows as here. A correspondent who took in the recent polo show in London says that although it was a rattling good one, the quality of the animals was not what it should be. He said that the prize-winners should come from so few studs. Talking to an influential promoter about this, that gentleman said: "It would certainly have been pleasing to have had more breeders as exhibitors, and it might be advisable to adopt a rule that no exhibitor should be allowed to win with the same animal in the same year." In passing it might be said that this rule has been proposed for adoption in the saddle and carriage classes here and annually receives consideration. It is usually objected for some minor amendment which is considered a move in the right direction. The authority here referred to continued: "It has been suggested that it would perhaps increase the interest in the society's show if only one animal from the same owner were permitted to be shown in the various classes. A correspondent remarks that in the class for 14 hands 3 inches he noticed some that he thought were of the Hackney type. To his own satisfaction, he says it to encourage the breeding of nice blood hacks which a man could ride and gallop to the meet with the ease of a Hackney. He suggested that in this class at any time should be barred, but that they should be allowed to come in and compete for the medal."

Probably the most attractive pair of

carriage horses, seen in the park these days is a pair of chestnuts, owned by J. A. McKean, that he purchased recently, and that will be considered the approaching horse show. They are each 15 3/4, 5 and 6 years old, and as fine pairs of steppers as can be seen anywhere. They were purchased of a Yonge-street firm, who also report the sale to a Montreal gentleman of the prize-winning mare Sweetbrier. Sweetbrier was a winner in New York and was awarded championships at Syracuse, Galt and Brantford.

The owners of Present King II, the winner of the championship and Shire Horse Society's gold medal at the Peterborough, England, Spring Show, have recently refused 1600 guineas (\$2000) for him. This is nearly twenty times the price paid for him last autumn.

Anybody who reads the English papers must be convinced that while the prices received for the imported and registered shires at the Morris & Wellington sales repository last week were not phenomenal, they were fairly entitled to be considered good. The vendors, however, were not altogether satisfied, rather they supposed they were not phenomenal, they were fairly entitled to be considered good. The vendors, however, were not altogether satisfied, rather they supposed they were not phenomenal, they were fairly entitled to be considered good.

Knapsack Spramator
destroys all insects or fungus on potatoes, berry bushes, trees, etc.
Copper tank \$15, green tank \$12.
Agents wanted.
Ask for 26-page treatise K. SPRAMATOR CO., BUFFALO, N. Y. LONDON, ENGL.

Chicago advises that the general movement of all classes of commercial horses last week was on a more satisfactory basis from the closing of the week's market. Receipts commenced to show some decline from the heavy runs that featured the trade the early part of the month, indicating that the country supply is not excessive in any industrial class. Heavy stall-fed draughters displayed increased strength and larger eastern orders and sold at the highest level of the season. One stall-fed coadjutor of Iowa draughters established a new record of \$215 for the highest average for a cart lot of draught offerings, the previous record, made in 1905, being \$200.25. If industrial conditions were normal the outlook for the balance of the spring for draughters would be unusually promising, but the coal miners' strike is expected to dull the future demand and force a decline on current values of \$10 to \$15. Top southerners were active at \$75 to \$115, with a few extra choice lots moving at \$120 to \$135. Inferior classes were dull and unevenly priced, with some animals not so positive evidence that she is a good one.

Butter will never grade finely in coming if the fat globules have previously been injured by overheating of cream or too much violence in churning. Mix the different skimmings together thoroughly and keep well stirred; this will be done well and quickly done pouring from one pail to another.

Unclean, decayed or improper food of any kind by means of cold water, milk and health of the cow. So impure, stagnant or unclean water will injure both the cow and the quality of the milk.

Feed saved by giving the cows less than they can profitably use is the most expensive in the bin. Considered especially for dairy purposes are better for dairy use than any other kinds of cows.

Because a cow is registered as a pure bred animal is no positive evidence that she is a good one. If the butter comes a little soft it can be hardened while yet in the granular state by means of cold water. Brine has a better tendency to harden the grains of butter and more perfectly liberate the buttermilk.

Considering the cost of raw material, there is almost no legitimate industry that pays better than the dairy, at least on the farm. A source of income which brings in a little ready money every day or every week is of great benefit to the farmer. This dairymaking will do.

Of average milk, one hundred pounds will make four to four and one-half pounds of butter. But of some milk the same quantity will produce seven pounds. The difference in profit is apparent.

HIGH STEPPING HARNESS STALLION.
... ROUTE ...
Monday—Leave his own stable and proceed to Arch Patterson's, Elmhurst, for month show at Appleton's Hotel, West Hill, for night.

Tuesday—Kennedy's Hotel, Woburn, for noon; Mitchell's O'Sullivan Hotel, York Townline, for night.

Wednesday—Wm. Doherty's, Scarborough, for noon; Frank's House, Markham, for night.

Thursday—Mr. Wideman's, Markham, for noon; Mr. Rodgers, Queen's Hotel, Unionville, for night.

Friday—The Hotel, Yonge-st., for noon; Mr. Robinson's, Oculot's Hotel, Eglington, for night.

This route will be continued during the season, health and weather permitting. Terms to insure, \$15, payable Feb. 1, 1906.

PATERSON BROS. Owners, East Toronto. WILL MCCARTY, Manager. 3

Of trotting bred saddle horses that resulted in phenomenal prices. W. G. Rockefeller paid \$1400, the top price for Four Cylinder, a handsome chestnut colt, 15 1/2 1/2, that trotted in 2:25 last season at Lexington. Twenty-three went under the hammer for a total of \$18,000, or an average of \$658; H. Weatherbee, a name that is familiar at Toronto shows, paid \$800 for Par Value, a chestnut mare, 16 hands.

The United States bureau of statistics of the department of agriculture gives the number and value of horses Jan. 1, 1906, at 18,718,578 horses, average value \$29.74. Illinois leads with 1,247,475 horses, Iowa comes next with 1,247,475. Texas has 1,200,540, and Kansas is the only other million horse state. A large number of horses were in the United States 18,000,000 horses, against 17,000,000 January 1905, 16,000,000 January 1904, and 15,000,000 January 1903. The country's total is increasing at the rate of a million horses a year. The market demand is so urgent that prices are higher than ever before known in America. South Carolina and Georgia have the highest average valuation, \$115; Massachusetts and New Jersey, \$112; Connecticut, \$111; Kentucky, \$109; New York and Pennsylvania, \$102; Ohio, \$101. Ontario has about 650,000, the official valuation of which is, as near as possible, \$100 per head.

East Buffalo advises that it is found prices there respond very much to those at Toronto. Last week 970 western horses came in and nearly all found a market, fresh young blocks bringing \$120 to \$170. Inferiors were weak, but brisk walkers found a ready sale. A large number of buyers were in attendance and bidding was quick, at on the whole a slight advance compared with the previous week. Whether or not the coal strike will counteract the effect of the early arrival of spring-like weather, it is impossible at present to say.

Chicago advises that the general movement of all classes of commercial horses last week was on a more satisfactory basis from the closing of the week's market. Receipts commenced to show some decline from the heavy runs that featured the trade the early part of the month, indicating that the country supply is not excessive in any industrial class. PRESBYTERY AMENDS BILL.

Lengthy Discussion Settled and Much Business Transacted.

Lengthy discussion of the bill to be presented to the legislature for the sale of Knox Church property west of that said to the Robert Simpson Company took up much time of the Presbytery yesterday.

The committee on church extension recommended a new mission for Reid-avenue and Gerrard-street.

Application will be made to take the following students on trial for license: W. H. Black, R. B. Cochran, L. H. Currie, L. C. Fraser, W. D. Lee, H. R. McCracken, Jno. McKenzie, W. Y. McLean, W. A. MacIsaac, D. H. Marshall, W. Nichol, F. A. Robinson, S. H. Larkissian, A. Thomas, J. R. Van Wijk and W. L. Williamson.

It was decided to make application to receive Rev. R. E. Welsh, M. A., of the English Presbyterian Church in Ireland, and Rev. J. A. Munster, of the Presbyterian Church in the United States, into the Toronto Presbytery.

Rev. G. McKay, who during the past year has been assistant to Rev. Wallace of Bloor-street church; was ordained. He goes to a home mission field in northern British Columbia.

Rev. J. C. Lemon of Laskan, accepted a call to Sydneyham.

Additional appointments were: Henry Walsh, Hamilton Cassels, and G. E. Delahy.

ICE BREAKER A SURPRISE.

The "Whalen" Plunges Thru 32 Inches of Ice Easily.

Port Arthur, April 3.—(Special).—The icebreaker Whalen has loosened ice barriers in Port Arthur harbor, and for the first time in the history of the ports at the Canadian head of the lakes, the boat has operated round the harbor at this early date.

HAMILTON GETS WORST OF IT FROM RAILWAY COMMISSION

Decision as to T. & N. Co. Right of Way is Regarded as Most Unfair.

Hamilton, April 3.—(Special).—In the inquest on the death of Wm. Whitney, killed at the Federal Life Building, the jury brought in a verdict to the effect that the accident would not have happened if the sling on the girder had been properly adjusted.

It is rumored that Rev. F. E. Howitt, rector of St. George's Church, may succeed Rev. Canon Bland as rector of Christ Church Cathedral.

The local bricklayers and masons who are on strike for 50c an hour say they will conduct the struggle without the aid or interference of the International Union.

J. G. Gavier of the Columbia Yacht Club has bought the 35-foot motor yacht, Naniwa, which competed in the Canada Cup trial races.

Destroys the Beach. In spite of the fact that there was plenty of room on the G.T.R. right of way across the summer resort, the minister of railways has granted the Toronto & Niagara Electric Railway a 90-foot strip east of the G.T.R. lands.

The order, locating the railway on the filtering basin lands, was obtained in secret by the company from the railway commission. Although the statutes provide that the owner of property must be given ten days' notice, the city received notice and only discovered to-day that the order had been granted March 5.

The city has another kick against the commission, which has declined to give a decision in the north end switch matters for over four years. The streets and roadways in the district have been left in an almost impassable condition.

B. Leslie Rieger, a Hamilton man, dropped dead in St. Louis.

For the first time in many years, Bishop Dunlop officiated in St. Peter's Church last evening, where, assisted by the rector, Rev. Father Grogan, he held a confirmation service.

The firemen are circulating a petition among the ratepayers, asking the council to grant them an increase of pay.

The Toronto Daily and Sunday World delivered to any address in Hamilton, day, 5c per copy. Hamilton office, Royal Hotel Building, Phone 965.

Martins Cigars, 5 cents, to-day, at Billy Carroll's Opera House Cigar Store.

NAVIGATION IS OPEN.

Ferry Company Will Begin a Regular Service To-Day.

Navigation opened yesterday afternoon for the Toronto Ferry Co. when the Island Queen made the trips across the bay. She had little difficulty in breaking the ice. To-day she commences hourly trips, leaving Yonge-street at 7 a.m. and making the last return trip from the island at 5.30.

When the ice clears away at Island Park the Kathleen will be commissioned. The Adela will be running to Ward's early next week.

The lighthouses at the eastern gap at Queen's wharf were lighted last night.

Navigation between Toronto and Niagara will open on May 1 this year instead of May 15 as formerly. The Chicora will start with two trips daily, at 7.30 a.m. and 2 p.m. On May 28 the Corona will start. Full service will begin on June 11, when the Chipewa will join the fleet. The new steamer Cayuga is expected to be in readiness shortly after.

A large reception view of the launching of the Cayuga is being shown at Shea's Theatre this week.

LE SOLEIL TO THE POPE.

Respectfully Suggests That Canadian Cardinals Be Appointed.

Quebec, April 3.—(Special).—Le Soleil gives the Pope a hint to-day that old Quebec is always in the running when a Canadian cardinal is to be appointed.

"We believe," says that paper, "that his holiness, will weigh in the balance to what episcopal see, by its situation, its history and its importance, belongs an honor that will shed lustre in all the Canadian churches."

"Perhaps it is not becoming," Le Soleil adds, "for a journal to tender advice in so grave a matter without very grave reasons, but our excuse comes from the fact that our supplication is endorsed by influential and distinguished members of the old clergy."

SAMPLE NEARLY KILLED.

Kingston Woman's Experience With Alleged Headache Cure.

Kingston, April 3.—Mrs. John Wood nearly died from using sample headache cure left at the door. The doctor had hard work to restore her and overcome the poisonous draught.

SEPARATE SCHOOL BOARD.

The separate school board last night recommended the opening of an extra overcrowding in St. Michael's. The night school on Elm-street will be discontinued after the 11th inst.

The estimates for the year, amounting to \$84,267.40, were adopted. The salary of the musical instructor was increased from \$725 to \$800.

NOT KNOCKED OUT YET.

Two Year Term, Legislation Not Finally Refused.

The two-year term for municipal councils has not been completely scratched after all, since Mayor Cootsworth and members of the board of control, who waited on the municipal committee of the legislature yesterday, were informed by Mr. Hanna that it would be further discussed.

He said that the London City Council, and the Ontario Municipal Association, and the re-consideration. The clause giving a city council power to control the annexation of an outside district was also left over.

Objection was raised to passing Mr. McNaught's bill for a business tax of 50 per cent. on realty assessment from 60 per cent., as now, owing to the length of the session, and it was left over till next year.

The town of Midland was given preference by the private bill committee on all private educational and other institutions will not come up till next year.

The Town of Midland was given preference by the private bill committee on all private educational and other institutions will not come up till next year.

AGED MAN DROPS DEAD IN FIELD BODY FOUND IN FIELD

Peterboro, April 3.—(Special).—Richard Dwyer, a well known farmer of his home by his son, John Dwyer. Heart failure was the cause of death. The deceased, who was 76 years of age, had been away from his home since Thursday, but no suspicion that anything had happened to him was entertained, until Saturday afternoon.

CONGREGATIONALISTS WELL OFF.

Guelph, April 3.—(Special).—The spring meeting of the Western Association of Congregational Churches is being held here, with representatives from over thirty points in the district. Rev. P. C. L. Harris is presiding. Only five Congregational Churches in Canada are still in debt.

OUT LATE.

After an Evening Out, a "Murad" on the Way Home is Enjoyable.

After an evening out, a "Murad" on the way home is enjoyable.

"Murad" (plain tips) Turkish Cigarettes, are the latest and best achievement of Allan Ramsay, for sixteen years government expert of Turkey. During that period Mr. Ramsay's cigarettes—his alone—were the accepted brands of the dignitaries of the Turkish court.

1000 LICENSEHOLDERS TO WAIT ON GOVERNMENT

Will To-Day Present Memorial—Plea for Compensation to Be Made.

With the view of impressing upon the Ontario government the strength of the opposition that has been developed among the liquor interests by certain provisions of the new Liquor License Act, 1000 hotelkeepers and liquor dealers, from one end of the province to the other, will wait upon the Whitney cabinet this morning.

Secretary Dickie of the Licensed Victuallers' Association said last night that nearly all of the big delegation had arrived and would be prepared to assemble at Victoria Hall this morning. The visitors will leave the rendezvous at 10.40 a.m., by private cars, for the parliament buildings.

The executive of the association was last night backed up by the entire body, representing 98 licensed districts. Exception will be taken to the increase in license and transfer fees, and to the penalties fixed for violations of law, the amount being looked upon as excessive.

"We are also asking for a compensation clause," said Mr. Dickie. The executive is not suggesting what the license fee should be, but is making a general request for reduction.

J. Hartnett, proprietor of the British American Hotel at Windsor, who will introduce the delegation to the shop trade will seek to demonstrate that the government measure will entail an unreasonable amount of hardship upon these places.

It is understood that the appeal for a provision that will give compensation to hotelkeepers whom local option has deprived of a means of livelihood, will be made. A strong line of argument will be based upon comparison with conditions in Great Britain, where hotelkeepers are given a lengthy period of time to dispose of their business, and loss is otherwise provided against.

In the afternoon the delegates will hold a meeting in Victoria Hall, at which the results of the morning will be discussed.

Ministerial Objection. A deposition of clergymen will also seek audience to-day to present the following protest: "The General Ministerial Association of Toronto in session Monday of this week, declared strongly against the proposed license legislation. There was a unanimous opinion that two provisions in particular, because of their unfitness, called for the severest condemnation. These are (1) that a local option bylaw must receive the approval of at least three-fifths of the electors voting thereon, before it can become law, and (2) that it is a retrogressive measure, which is in the interests of the liquor traffic and handicap to moral reform. According to this provision, 21 barroom sympathizers will outvote 30 temperance men.

"We deplore the fact that the government should esteem necessary selfish and damaging interests as superior to the moral, humane and patriotic judgment of unselfish citizens.

"The term of operation of a local option bylaw from three to two years is unequal and wrong. A three-year term unquestionably ensures a more thorough test of the value of the law, and the law in this regard should remain as it is."

QUEBEC MEMBER SUES.

Quebec, April 3.—L. A. Gendron, M.L.A., formerly crown lands agent at Hull, is suing Dr. A. Jobin, M.L.A., for \$5000 damages because of an article in "Libre Parole," regarding his method of work while land agent, which he considers libelous. The article is said to have been written by Dr. Jobin.

41ST REGIMENT FOR QUEBEC.

Brockville, April 3.—(Special).—Brockville will have practically a new opera house if the ratepayers endorse a by-law on the 27th inst. to raise \$14,000 to reconstruct the building.

Arrangements are being made for the 41st Regiment to visit Quebec on Dominion Day.

BURNS TO DEATH IN ROOM OTHERS AWAKENED BY FIRE

Wallaceburg Man's Fate—N. Y. Policeman Saves Lives—Buffalo Times Guttered.

Wallaceburg, April 3.—At an early hour this morning fire was discovered in a house on Wallace-street occupied by Robert Maclean. Thos. Coulter, who was sleeping in one of the upper rooms, was burned to death. Coulter, who was drunk last evening, was helped to his room. The people sleeping below were awakened by fire falling from the ceiling on their bed. The fire then had gained so much headway there was no possibility of getting Coulter out.

Policeman Saves Lives. New York, April 3.—Men and women with their clothing on fire ran or were carried out of a burning tenement house in West Tenth-street to-day. One woman was fatally burned. A policeman broke down the front door and made his way to the top floor driving out the tenants on the way. On the second floor he found Mrs. Kate Vailley lying unconscious on the floor. Her clothing burned. When the policeman carried her out her uniform was on fire. He fainted from exhaustion.

Buffalo Times Burned. Buffalo, April 3.—Fire early this morning practically destroyed the Buffalo Times building at 193-195 Main-street, causing a loss estimated at \$200,000, fully covered by insurance. The building was one of the landmarks of lower Main-street, having been built in 1870.

The composing rooms and presses of the Buffalo Express were placed at the disposal of The Times, and The Times will be issued as usual.

Brass Bed Factory Burned. Utica, N. Y., April 3.—The large four-story manufacturing owned by the Foster Bros. Manufacturing Company, and devoted to the making of iron beds and spring mattresses, was destroyed by fire this morning. The loss is placed at \$350,000. This is insured for about \$240,000. The company employed in this city about 250 men, and did a business here of \$600,000 a year. There are branches of the establishment in Toronto, Montreal and Winnipeg.

11,000 brass and iron beds and several carloads of spring mattresses, some of which were on sidings near the factory and were destroyed.

Galt Hotel Escapes Destruction. Galt, April 3.—(Special).—Fire at 8.30 to-night broke out in the Albion Hotel. The kitchen was destroyed, causing a loss of \$500. But for the good work of the firemen the main building and stables would have been consumed.

MURDER WILL OUT.

Remains of Man Found Showing Proofs of Crime Committed.

Snowflake, Man, April 3.—The body of Vincent Weiler of Mount Carmel, N.D., missing since last November, was discovered last evening in a wild and secluded spot in the bush in the Pembina Valley, about four miles east of Snowflake. Weiler, when last seen, was in company of M. Doyle of North Dakota. Both men left town together, walking towards the valley. Doyle returned to town a few hours later alone, very much excited. He was arrested on suspicion, but later released on bail. Weiler was evidently murdered, as a bullet hole was found in the back of the head, and his throat was cut.

Sheep with wet feet deteriorate very rapidly, hence, from this on, care should be taken to use plenty of dry bedding in the yards.
