# ISSUE OF PREFERENCE STOCK TO SETTLE FRISCO LOSSES

**British America and Western Assurance Companies Have Already Successfully Underwritten Whole Amount—J. J. Kenny Retires From Active Management.**

An important announcement to insurance interests was made on Saturday relative to the affairs of the British America and Western Assurance companies. As a result of the San Francisco fire losses it was found necessary to make an issue of 7 per cent preference stock, which has already been fully underwritten to a total amount of \$1,987,500.

It was also stated that J. J. Kenny, vice-president and general manager, who for over thirty-five years has been with the companies, advancing step by step through the various grades, has requested to be allowed to retire, and will be succeeded by W. B. Melkie of London, Eng., who is at present in the city.

The official statement, made by Hon. G. A. Cox, president, is as follows: "At meetings of the boards of directors of the British America Assurance Company and the Western Assurance Company, held during the week, full statements of the final position of the companies resulting from the San Francisco conflagration were submitted and approved. It has been taken longer than was first expected to have these statements prepared and verified, owing to the various legal questions involved, the lack of records and the necessity for procuring duplicate information from all the branches having the necessary figures in their books, and the generally complicated position in connection with reinsurance and salvage estimates.

"These final statements showed that the companies' losses were, in common with all other companies, greater than had been anticipated. After careful consideration of the present position and the future policy of the companies, the conclusion was reached that it would be to the advantage of all concerned to provide for the immediate payment of all remaining losses, and to strengthen the financial situation of the companies, an issue of 7 per cent preference stock should be made by each company—\$500,000 for the British America and \$1,487,500 for the Western—and that the price of subscription should be at a premium of 25 per cent.

"Within a short time the whole amount in each case was underwritten free of commission. The companies will, therefore, receive from the issue of \$1,987,500 for the British America and \$1,487,500 for the Western, making a total of \$3,475,000. The stock is to be paid for in full as soon as it can be obtained. The names of shareholders have been called to comply with the formalities required in connection with the issue, which will be completed before the end of this month. The present stockholders are entitled to subscribe to their present holdings in proportion to their present holdings.

**Manager Kenny Retires.**  
The question of the future management of the companies was also considered, as Mr. Kenny has been in the companies' service for over thirty-five years, desired to be relieved from the pressure which the recent disaster at San Francisco necessarily threw upon him. The directors were fortunate in having in their midst the services of W. B. Melkie of London, Eng., who has been the manager of the companies' British and foreign business, conducted from the London office for the last seven years, and who has established a large and profitable fire and marine business at that branch.

"Mr. Melkie was nominated by Mr. Kenny as his successor three years ago, and is one of the most capable and experienced insurance managers of the present day. He has had a long and practical experience of fire and marine insurance in Great Britain, and in many parts of the foreign field, having been resident in India for several years and travelled in most countries of the world since the death of his former and present companies.

"Mr. Melkie was appointed the general manager of the companies in place of Mr. Kenny, whose resignation was accepted, but who retains his position on the board of directors.

**Mr. Kenny's Career.**  
Mr. Kenny has for many years been regarded as an authority in Canada on the insurance matter. Before entering the company's employ in Toronto, he was connected with the Hamilton agency of the same company. He has held the position of manager. At the time of the San Francisco calamity, Mr. Kenny, in addition to his business concern, thrust upon him had also to endure for four days the agony of doubt as to the safety of his wife and daughter, who had been in the city. They escaped unhurt, but their companion was among those who met death. In addition to being vice-president and managing director of the Western and the British America companies, he is also a director of the Canada Accident Assurance Co., Central Canada Loan and Savings Co., Dominion Securities Corporation, Limited; Imperial Guarantee and Accident Insurance Co., Imperial Life Assurance Co., and the Toronto General Trusts Corporation.

Mr. Melkie, who succeeds to the general management, is a gentleman of wide experience in fire insurance, not only in England, but also in other countries in the world.

The British America Co. is one, if not the oldest, of incorporated companies, having been organized in 1851. The Western was incorporated in 1851.

The directors of the British America are: Hon. George A. Cox, president; J. J. Kenny, vice-president; Augustus Myers, Thos. Long, Dr. John Hoskin, G. C. Wood, Robert Fray, Sir Henry M. Pellatt, E. W. Cox.

The directors of the Western are: Hon. G. A. Cox, president; J. J. Kenny, vice-president; Hon. S. C. Wood, G. R. R. Cockburn, Geo. McCulloch, Hugh N. Baird, W. R. Brock, J. K. Osborne, E. R. Wood.

## INGLE SAMUEL'S DEFENCE IN MATERIAL AND MEN DEFICIENT, SAYS CRITIC

**Matter of Years to Provide a System That Will Be Effective in Time of War, Says Chief of U.S. Artillery.**

Washington, D.C., Dec. 16.—"Both the coast and the field artillery are badly deficient in both personnel and material; neither is in even approximately proper condition for instruction in time of peace, much less in condition for reasonably efficient service in war, and the time necessary to put either in the latter condition is not a matter of days or weeks, but of years."

Grigadier-General Arthur Murray, chief of artillery, thus sums up the condition of this arm of the service in his annual report, made public to-day, and says it cannot be too strongly urged that appropriate legislation be obtained to make good the deficiency and to correct the defects referred to.

The total cost of the present system of coast defence of the United States to Feb. 2 last, Gen. Murray says, was \$2,060,855, and the estimated cost to complete the defence of the United States, including estimates for ammunition and cost of sites, is \$50,879,330.

The proper defence of insular ports and the entrances to the Panama Canal, it is estimated, will cost \$19,873,893 in the case of the former and \$4,827,833 for the latter.

The value of submarine mines as an element of harbor defence, Gen. Murray says, has been determined, and he maintains the view that the system adopted by the United States army is practically perfect as a war weapon.

Pointing out that it will require 275 officers and 55,110 men to provide one relief for all the coast defences constructed and proposed for the United States at the entrance of the Isthmian Canal, and in the insular possessions, Gen. Murray remarks that under the present system it would be impracticable to furnish this number. Therefore, he says, attention must be directed to some plan that will supply the need of war of the deficiency from the organized militia. He thinks that most of the non-expert troops in the service can be supplied, as well as a number of second-class expert artillerymen drawn from those forces in the States where special training and its equipment in coast artillery duties.

After Winipeg's big vote there seems no doubt government's policy will be endorsed by big majority.

Unanimously say it is in interests of City of London.

London, Dec. 16.—The Retail Owners' Association has passed the following resolution unanimously: "Resolved, that after hearing the views of the members of the hydro-electric commission, Hon. Adam Beck and the engineers of the government, it will be in the interests of the ratepayers of this city to vote for the bylaw to give London electric power to the City of London on the lines proposed by the government."

**WHY CIGARS FALL OFF.**  
The Sensitive Tobacco Plant Must Be Kept Properly.

From your favorite box you may select a cigar and find that the flavor has gone from it. Cigars are sensitive. They must be kept properly. A gentleman who buys cigars in the box to keep at either his home or his office should have a "humidor" cabinet which will preserve the cigars in the best condition. The cigars in the box should have many types and styles of numbers, and they are more reasonably priced because of their disappearance not getting into his new store in the Traders' Bank Building. One reason why one rarely gets a good cigar in a small tobacco shop is easily made plain to the man who observes how the dealer keeps them.

**BOXES OF TEN CIGARS.**  
Specially Choice Cigars Put Up in Little Boxes for Mailing.

Just a year ago G. W. Muller placed an order for 100 boxes of choice cigars to be put up in little boxes of ten cigars arrived at 9 King Street West some weeks ago, and they were of fine quality. For \$25 a gentleman may send 25 boxes of these little cigars to 25 of his friends or his customers. They make a charming gift wherever sent. Mr. Muller says that the attention he pays to securing the finest tobacco leaf for his Christmas patrons brings him orders from all parts of Canada throughout the year. "We take charge of the wrapping and addressing, and the boxes can be sent by mail," said G. W. Muller.

## Public Schools Closed No Coal to Warm Pupils

Half the Northwestern States Will Be Freezing in a Week if Famalia Is Not Relieved—Deplorable Condition in Many Places Thru Coal Shortage.

Washington, Dec. 15.—Senator McCumber to-day received this telegram from J. E. Whittemore, dated at Galesburg, North Dakota: "The United States army could not be better employed than in compelling and assisting these railroads to drop everything and haul us coal. Half the Northwestern States will be freezing in a week, and the whole of it in two weeks."

Mr. McCumber announced his intention of forwarding the telegram to the president as a commander-in-chief of the army.

Senator Hansbrough of North Dakota censured the members of the committee to-day. He declared the situation resulting from shortage of coal in the Northwest to be deplorable, and that the public schools in some localities were closing on account of lack of fuel to keep the children warm. It is said at the commissioner's office that for a number of years past, at this season and earlier in the year, the need is most imperative. The Great Northern Road ordered yesterday acceptance of carload shipments for west of Grand Forks limited to coal. "Towns suffering most now have received relief."

**BURN BUILDINGS.**  
Mangum, Okla., Dec. 16.—A coal famine is now prevailing in this part of Oklahoma. There is no timber for fuel, and many farmers are burning fences and outbuildings. The water is cold. Coal in transit is consigned by the railroads, and apparently there is no relief in sight. Fifty farmers went to the Rock Island station to-day and took charge of the only car of coal. Unless relief comes shortly, all public works will be closed, and many families will suffer.

**WILL MOVE ONLY COAL.**  
Minneapolis, Dec. 15.—The railroads are trying to meet the distressing need of the North Dakotans, who are without fuel in zero weather, and will try to get coal to the sections where the need is most imperative. The Great Northern Road ordered yesterday acceptance of carload shipments for west of Grand Forks limited to coal. "Towns suffering most now have received relief."

**CANT MOVE TRAINS.**  
Grand Forks, N. D., Dec. 15.—It is said that between Grand Forks and Minot, on the Great Northern Road, there are eleven freight trains, which cannot be moved on account of the heavy snow or the shortage of coal.

They must have suppressed news of vital importance, because they know they could not meet the arguments and face the crisis which a speech like Fielding's necessarily brought on, said the tariff reform committee.

**Police Disperse Crowds and Many Demonstrators Are Injured—Disturbances Looked for in Paris Were Not Realized.**

Paris, Dec. 16.—The serious disturbances that it was believed would ensue on this, the first Sunday under the law separating church and state, were not realized. The services in this city in particular passed off most calmly. There was a notable increase in the sizes of the congregations. In a few cases rowdies entered churches wearing their hats, but were promptly arrested.

In the provinces there was great excitement in many places. Large processions, chanting psalms, accompanied the clergy to and from the churches. Counter demonstrations took place in several cities, notably Perpignan and Amiens, where Catholics and Free Thinkers came into collision, but the police dispersed the crowds. Several demonstrators were injured.

Bishop De Brly, while receiving the official notice to leave the bishopric of Meaux this morning, suffered a violent nervous shock and fell unconscious. Later he recovered.

**CLERGYMAN SUMMONED.**

WHAT TO DO WITH THE CONVICTS WHEN "PRISON LABOR" ENDS

Will They Become Farmers, Road Builders or Miners at Cobalt?

The statement that the provincial government will cancel the prison labor contracts has given rise to some lively guessing as to what is to be done with the prisoners to keep them in employment. It is well known that they must be kept occupied to preserve their sanity. Almost every suggested occupation would bring them into competition with, and as a result arouse such violent hostility from, the united intelligence of organized labor, that legislators are losing weight and sleep over the distracting problem.

Farming has been suggested by some, who reflect that the farmer is unorganized, and is therefore unable to resist competition, but this idea has not been seriously entertained in connection with the prison, the plan has been adopted for inmates of the asylums, and the removal of the local asylum was determined upon, as announced last session. More may be heard of this very soon.

But farming is quite another question when prisoners have to be dealt with. No doubt it would be congenial, and an inmate of the Strachan-avenue institution suggested sheep-farming, but other considerations have to be weighed.

The English method of utilizing this class of labor on the construction of roads and fortifications has often been considered, but political considerations have been held to be in the way. By this method the inmate of the institution suggested sheep-farming, but other considerations have to be weighed.

It is scarcely possible that union labor would object to this plan, and the work, while profitable and honorable, might also have a salutary deterrent effect.

Contrary to expectations the garment workers' strike at the Lowndes Clothing Manufacturing Company will not be settled Monday. An interview had been arranged for Saturday morning between Manager Mason and S. L. Landers, agent for the strikers; but when the time of the meeting arrived, Mr. Mason refused to be seen. In a previous interview Mr. Mason agreed to allow the men to return to work, but on the "open shop" basis. The men would not hear to this arrangement.

A decision was arrived at in a meeting held Saturday afternoon, that having been opposed in every effort to no prospects of peace, the strikers shall assume a more aggressive attitude. A number of effective tactics were proposed, and it is expected some extreme measures will be employed this week.

WOMAN SWALLOWS ACID. Attempts to End Her Life After Husband Leaves for Work. Galt, Dec. 15.—(Special.)—Because of domestic troubles, Mrs. Cottrell, who lives on Dickson-street, opposite Market-square, took a quantity of carbolic acid a few minutes after 7 o'clock to-day, with the purpose of ending her life. Her husband had a few minutes before left for his work. A physician was summoned. When he arrived the woman was unconscious, and her children standing around wringing their hands. By the immediate use of the stomach pump, and emetics, the woman was revived, but she is by no means out of danger. Her mouth is terribly burned by the acid. The Cottrells only moved into town a few weeks ago.

MANY CHILDREN IN CONGESTED DISTRICTS VICTIMS OF CONSUMPTION. S. Goodfriend, a specialist from New York, declares that ten per cent of the children in the congested districts of Cleveland are victims of tuberculosis. The same deplorable conditions have been found to exist in other cities, and the eradication of the white plague among the children has been started in earnest. Sanitary conditions are being improved, roof treatment, affording fresh air, is given, and nourishing food is being supplied. Children with weak lungs are susceptible to colds, which cause the lungs to become sore. The tubercular germ settles in the sore places and sets up what is called a "mixed infection," the starting point of consumption. Parents are warned against giving children cough or cold remedies containing opiates, as narcotics only stultify the lungs and render them more susceptible to the deadly tubercular germ. The following simple formula, the ingredients of which can be obtained from any good prescription druggist at small cost, will break up a cold in twenty-four hours, and cure any cough that is curable; Virgin Oil of Pine (Pure), 1-2 ounce; Glycerine, 2 ounces; good Whisky, a half pint. Use in teaspoonful doses every four hours. An eminent authority on lung trouble says if this simple and effective formula was known and generally used, throat, lung and bronchial affections would seldom reach an acute stage. Care should be used in selecting pure ingredients, and to avoid substitution, it is best that they be purchased separately and mixed in your own home. The Virgin Oil of Pine (Pure) should be purchased in the original half-ounce vial, put up expressly for druggists to dispense. Each vial is securely sealed in a round wooden case, with engraved wrapper, with the name "Virgin Oil of Pine (Pure)" plainly printed thereon. There are many cheap imitations of Virgin Oil of Pine (Pure), which are put up under various names, such as Concentrated Oil of Pine, Pine Balsam, etc. Never accept these as a substitute for the Pure Virgin Oil of Pine, as they will invariably produce nausea and never effect the desired result.

HAMILTON HAPPENINGS. COMPARISON WITH OLD ATHENS. PASTOR ROASTS HAMILTON. Robert Livesy Found Dead on Radial Tracks—Strike Riot Cases in Court.

Hamilton, Dec. 16.—(Special.)—At this morning's service in the James-street Baptist Church, Rev. J. C. Syme, the pastor, said that the condition of affairs existed in Hamilton similar to that at St. Paul found when he visited Athens. There was shame on the streets and gambling in the home, and it was known to be going on, many did not want to see it.

Many prominent citizens met at the Trades Bank Saturday and presented a handsome silver tea set to Stuart Strachy, who has been appointed assistant general manager of the bank. John Milne made the presentation.

Death on. Robert Livesy, a scale maker employed by the Gurney Scale Co., was found lying dead on the radial tracks, near Oggs' Crossing. There was a bruise on one side of the head to indicate the cause of his death, and this gave rise to sensational rumors. The police think, however, that he was struck by a radial car. Coroner Balfe J. P. inquest on the body.

The local detectives have not been put on the case, because it happened in the country, but they say that the occurrence that excites suspicion of murder. The body was found lying on the tracks, and yet was not buried, as it would have certainly been had it been run over by a car. The only mark on the body was a bruise on the head. The county police are investigating.

Eddie Brand, 6 Morden-street, was arrested Saturday night on Merrick-street on the charge of being drunk and disorderly. He is also charged with assaulting F. C. Campbell, who arrested him. John McKinnon, Lucknow, was taken to the cells on the charge of interfering when Campbell was making the arrest.

Yacht Club Officers. The annual meeting of the Lake Ontario Yacht Club was held at the Royal Hotel yesterday afternoon. The universal rule was adopted. The following were elected officers for 1907: President, T. A. E. Wood, Toronto; vice-president, commodore of Kingston Yacht Club; secretary, Mr. Goodhead, Toronto; council, T. B. Pritchard, Rochester; G. R. Judd, Hamilton; J. S. MacCormury, Toronto; J. Mott, Oswego; Commodore, Commodore Kingston Yacht Club.

Saturday afternoon John Oliver was arrested on the charge of interfering with Thomas Ramsay, the market square hardware merchant, testified that Col. Denison struck Oliver over the head with a whip, but the colonel swore that he did not. The jury returned a verdict of guilty with reference to the charge of interfering with Ramsay, and they disagreed on Judson Ryerson's case. They were sent back and returned in 45 minutes with a verdict of guilty in Judson Ryerson's case. Judge Snider referred to the riots as a blemish on the good name of the city.

WOMAN'S WORLD.

HOME. Alice E. Allen in Good Housekeeping. Sometimes, in dreams, I see a room lit with the light of the Christmas tree. The air is sweet with flowers in bloom. And you are there.

A FALSE IMPRESSION. It is rather difficult sometimes to remove a false impression, but Mr. Chas. Cummings of the Slater Shoe Store has undertaken this task.

CHRISTMAS UNSENTIMENTALITY. "We are developing a horrible frankness about our Christmas presents."

THE OTHER DAY MY BIG BROTHER ASKED ME IF I'D LIKE A NEW COAT FOR CHRISTMAS. I looked at him and said, "I'd rather have the money to pay for my last one."

"Bessie" asked me the other day if I would like a pair of long gloves. I tried to look pleased, but I finally burst forth: "For heaven's sake don't give me gloves."

"Next she said: 'I think I'll give you the material for a blouse.'"

"I hesitated and then I said: 'I haven't time for it.'"

"I looked sadly at her. How could I not think separate blouses and skirts are in good taste? I'm trying to give them up."

"Bessie looked at me in what I presume was natural indignation, and then she stalked out, turning at the doorway to deliver her verdict upon me: 'When you decide what you do want, will you let me know?'"

"Now, of course, she will give me something for which I have absolutely no use, but at least she won't give me a long pair of gloves, a pin, or the material for a blouse."

"A silver hair brush and comb in a case. A comfortable easy chair or a revolving bookcase. A set of old silver or enamel buttons, suitable for a coat or blouse."

"A set of wicker by some favorite author or a new standard novel. A standing wicker basket, with a satin-lined tray underneath, and a set of towels or shell brushes with the initials in gold upon the backs."

"A set of gold boudoir pins, with the monogram of the recipient upon them. A silver-mounted picture, with the initials engraved on the right-hand corner."

Wisdom's Whispers. Take a man at his word and you are apt to make him question his shrewdness. Women dislike to do things in a half-way manner—with them it is all or none.

To the mind of most men the ideal wife is the one who knows how little she really knows. A woman is supremely happy when she is permitted to hold the post of a critic.

A man thinks he knows what love means until he has had an acute attack of it. Women's idea of happiness is based upon something intangible and beyond explanation. The man of middle life without a wife

Do These Suggest It? A hand-painted fan. A pair of long gloves. A berthe or collar of real lace. A silver-mounted picture set. A book plate expressly designed. A dainty blouse of a set of furs. A silver hair brush and comb in a case.

Wisdom's Whispers. Take a man at his word and you are apt to make him question his shrewdness. Women dislike to do things in a half-way manner—with them it is all or none.

To the mind of most men the ideal wife is the one who knows how little she really knows. A woman is supremely happy when she is permitted to hold the post of a critic.

A man thinks he knows what love means until he has had an acute attack of it. Women's idea of happiness is based upon something intangible and beyond explanation.

TEN BULLETS, TWO BOMBS, BUT DUBASSOFF IS UNHURT

Attempt of Terrorists to Murder Ex-Governor of Moscow Miraculously Fails.

St. Petersburg, Dec. 15.—To-day while Admiral Dubassoff, ex-governor of Moscow, was walking along a rather solitary path of the Tauride garden, a young man, dressed as a workman, approached and fired seven shots from a revolver, but missed.

The terrorist then turned and ran, with the admiral in pursuit.

As he ran he threw a bomb at the admiral, which exploded in the air.

A second terrorist appeared then and threw a bomb at the admiral, which exploded in the air.

The second terrorist then fired three shots at the admiral and missed him.

Dubassoff then threw himself upon the terrorist, disarmed him and held the man until he was arrested.

Apostolic Succession

NOT DIVINE INSTITUTION. Anglican Orders Not Authorized by Sacred Word, Declares Montreal Clergyman.

Montreal, Dec. 16.—(Special.)—"That man has read more than his prayer books said," is the comment of a good lady while discussing Rev. Dr. Symonds' remarkable sermon in Christ's Church Cathedral. The doctor's utterances are in fact, the talk of the city, and the Anglican orders, which are apostolic succession.

The reverend gentleman went on to say that episcopacy was not a divine institution, and that the Anglican orders of the Christian ministry were not authorized by the Sacred Word. Nowhere in the Scriptures, he said, could one find a reference to "three distinct orders" of the Christian ministry, such as were found in the Church of England to-day. These were an after development in the church; they were not found in the Church of England to-day. These were an after development in the church; they were not found in the Church of England to-day.

The New Testament distinctly mentioned the fact that Christ sent forth apostles, prophets, evangelists, pastors and doctors to do His work, but no where was there a reference to His having ordained bishops, priests and deacons. These orders were never instituted by Christ, nor had they Scriptural warrant. The terms sent forth in the New Testament, were alternative names by which the ministers of the Apostolic Church were known. They did not then possess the individuality that the church at present attached to them. They were not of two different grades in the ministry.

It was safe to say, therefore, that episcopacy, as professed in the Anglican Church, was not a divine institution. It was not a divine institution.

That the church of England, in these days when the churches were evidencing a desire to come together, for the purpose of union with its acceptance that did not provide for the retention of "historic episcopacy" was a mistake.

The doctrine of "apostolic succession" could not be proved from the New Testament. The success that had attended non-episcopally-ordained clergymen in their work was a convincing argument that the grace of God was not limited in its operation to men who had had the hands of a bishop laid upon their heads, and who thereby had received episcopal ordination.

Guilty of Assault. Jury Took Complaint's Version of Story Against Frank Whitman.

Frank Whitman was tried Saturday in the sessions on the charge of committing an aggravated assault on Mrs. Garvie, a woman about 60 years of age. Both families lived in flats in the same house, 294 East King-street.

Mrs. Garvie swore that Whitman came to her door and asked for her son, Tom. She told him Tom would be home at 6 o'clock. Whitman then struck her on the back of the head and knocked her down. When she got up, he struck her again, nearly tearing her out, and knocking her down against a rocking chair. Her story was corroborated by the servant, who saw her being taken to hospital.

Whitman's story is that when he took her to the hospital, he found Mrs. Garvie lying drunk at the bottom of the stairs, and a broken whiskey bottle by her side. He helped her up to her room, and she turned on him in a drunken frenzy, pulled his hair, and fell against a chair. The jury brought a verdict of guilty, with a strong recommendation for mercy. Judge Winchester deferred sentence.

The accused was defended by J. W. Curry, K. C., and Mr. Drayton prosecuted.

VANKEE CREWS BARRED FROM RACING AT HENLEY

English Regatta Stewards Demand Special Agreement—Canadian Crews Not Affected.

London, Dec. 15.—As a result of discussions during the enquiry held by the National Association of Amateur Oarsmen of America, that expenses of the crew of the Vesper Boat Club of Philadelphia, which rowed at Henley in 1905, had been paid in part by a public subscription, which disqualified them under the laws of the Amateur Rowing Association of England, and because the oarsmen of the National Association of Amateur Oarsmen had certified as to the crew's status as amateurs without that enquiry which they had had the Henley committee to believe had been made, the association of the Henley regatta passed a resolution to-day under which all American crews and scullers are debarred in future from competing at the Henley regatta unless the American rowing union, the committee in agreement with the Henley committee, already exists with the French, Dutch, Belgian, and Canadian associations.

The question was brought up by Fletcher, the Oxford coach, as an outcome of the trouble in the Vesper Boat Club of Philadelphia last June, and after a lengthy discussion the general rules of the regatta were ordered to be altered in accordance with a resolution, which was unanimously approved, as follows: "No entries shall be accepted of any crew or sculler out of the United Kingdom belonging to a club not affiliated to an association having an agreement with the committee in charge of the management of the Henley regatta."

Only two countries of any prominence in the rowing world are affected by this resolution, namely, the United States and Australia. Fletcher gave notice of this motion on June 22, when the stewards had decided to debar the Vesper crew from future participation in the Henley regatta, and it has since been discussed since that time. As has been mentioned, the committee on the other side of the Atlantic, consisting of Fletcher and scullers from America, had entered a protest against the decision of the committee in charge of the management of the Henley regatta.

The step, however, was considered far too drastic a course by the rank and file of oarsmen, and they did not believe that all American crews should suffer for the sins of the Vesper, and the failure of the officers of the National Association of Amateur Oarsmen to make full enquiries before certifying to the qualifications of this crew. It was, therefore, decided to debar the crews of any country not having an association in agreement with the Henley committee.

It is believed that this resolution, as passed, will induce the National Association of Amateur Oarsmen to make such arrangements with the Henley committee as will enable in the future the entry of crews whose amateur status is unquestionable.

To-day's meeting of the regatta stewards was held under the presidency of J. W. Rhodes behind closed doors. Among other things, the National Association of Amateur Oarsmen, Lord Dunsborough, Sir Robert Fernon-Hodge, W. P. D. Smith, M.P., J. C. Leiman and Coach Fletcher.

The passing of even this moderate resolution has caused surprise here, as it was thought that the regatta stewards would have been satisfied with the decision which has taken place during the last year, that their wishes would be met by the American rowing associations.

The Vespers' Crime. New York, Dec. 15.—At the midwinter meeting of the executive committee of the National Association of Amateur Oarsmen, held at the New York Athletic Clubhouse on March 17, charges against the treasurer and members of the Vesper crew were presented. After a hearing that lasted more than eight hours, the treasurer of the Vesper crew, Lord Dunsborough, was censured for his methods in handling the funds provided for the crew's Henley expenses, the manager of the crew was suspended for one year for injudicious expenditure of money committed to his care, and the members of the crew were suspended for one year for accepting money.

DR. CRICHTON WINS APPEAL THE WRONG PROFESSIONAL ON YOUR SUIT OR OVERCOAT

Divisional Court Justices Hold That Council Did Not Convict on the Charge Preferred.

Judgment in the appeal of Dr. Crichton of Carleton from the ruling of the Medical Council, striking his name from the rolls for "disgraceful and infamous conduct," in a professional promise not to advertise, is a grievous one, as given out by the division court on Saturday.

The court allows the appeal, without costs, and declares that his name should be restored to the register, but without prejudice to the question as to whether, on a subsequent enquiry, there may not be proper ground found for erasing his name. The case was argued before Chancellor Boyd and Justice Egan and was heard by the division court on Saturday.

In summing up the case, the chancellor goes on to say that the Medical Council does not appear to have been advised to discipline and exclude delinquents as has been given by the legislature to the Law Society.

To the chancellor is entrusted power to enquire into the conduct of lawyers, who are charged with professional misconduct, and who may become a member of the Law Society, says the chancellor. "So, to a more limited extent, medicine has been admitted to practice on certain explicit conditions and has given an undertaking to observe them."

After referring to previous decisions, the chancellor says that such an element is wanting in the case at hand. "At all events, no definite delinquency is charged in respect for no code of medical ethics was in force here till about 1878. Before that time the matter of confining medical ethics or etiquette to the honor and good sense of the individual, the council feels that there may not have been a due enquiry in the Crichton case, and the appeal is allowed, and in consequence the name of Dr. Crichton should be restored to the register. But this judgment is to be without prejudice to the question whether, in a subsequent enquiry, there may not appear to be proper grounds for erasing his name."

"As to costs, I cannot say that this proceeding has been frivolous or vexatious. The conduct of the appellant has been such as to provoke complaint and invite investigation. He has defended against the provisions of the Ontario code of ethics, which declares it to be derogatory to the dignity and prestige of the profession to resort to the practice of secrecy, which, on the other hand, and publicity, on the other, which the not in force when he was registered, but which he has since adopted as a standard of conduct, which he has disregarded, to set up a trade standard for himself, so that, legally, he is not to be held responsible for the result, he may be right legally, he is wrong professionally. Having regard to this and other considerations, I do not think that the committee who are discharging a quasi-public duty, should be called upon to pay the costs of the investigation."

Not Convicted on Charge. Justice Mabey says in his summing up: "This man was entitled to the individual judgment of each member of the council, and from the report of what took place at the meeting. It is a complaint was made through trial that Dr. Crichton refused to make the formula of the medical works that were charged with that and was not convicted of it."

"I do not deal with what was said upon the argument about the beneficial uses of this medicine, and the component parts in the class of troubles set forth in the circular, nor do I think it needful to make reference to the medical works that were referred to, as in the view I take of the case it is not necessary to do so. The charge was not that he was convicted of fraud or something; he is not charged with. The evidence has been given, and the committee has not been charged with those safeguards that should be carefully observed in a case brought with serious consequences as this present one."

"I would allow the appeal and order that the name of Dr. Crichton be restored to the register, but without prejudice to the question whether, on a subsequent enquiry, there may not appear to be proper grounds for erasing his name."

VANZANT INQUIRY OPENS SERIOUS CHARGES MADE

Assisting to Dispose of Stolen Goods, One of the Allegations to be Aired.

The enquiry into the charges against Garry Vanzant, governor of Toronto jail, was opened before Commissioner Joseph C. Judd at the York Municipal Buildings Saturday morning, and adjourned until Tuesday morning at 10.30. The specific charges laid by W. C. Brown, 18 First-avenue, engineer at the jail, have not been fully announced by James Baird, but will be handed to T. M. Higgins, appearing for Mr. Vanzant, on Monday at noon.

It is understood that the evidence may disclose that Governor Vanzant assisted persons to dispose of stolen property and that he was in a compromising attitude with lady friends of inmates of the jail who had been visiting his office.

It is further stated that allegations were referred to Dr. Bruce Smith a year or so ago.

The 20 or 40 charges made against the governor. The following were given out by Crown Counsel Baird: 1. The said Vanzant does not maintain the necessary discipline in and about the jail, and is incapable of unwilling and does not attempt to maintain such discipline as is necessary. 2. The said Garry Vanzant has been guilty of unbecoming and improper conduct.

3. The said Garry Vanzant has been guilty of favoritism. 4. The scope of the commission includes enquiry and report upon all such matters and things as are charged against the Governor of Toronto jail, and further to enquire into and report upon the discipline, management and structural character of Toronto jail. When the commission opened Mr. Higgins asked for the list of charges, but Mr. Baird said that he would refer to some of the officials of the jail under oath before all the charges could be laid.

"Are the charges of a political nature?" asked Mr. Higgins. Mr. Baird replied in the negative. Commissioner Judd ordered that Mr. Higgins be given a list of the charges by Monday at noon and that the subpoena be prepared so that the evidence might proceed on Tuesday and Wednesday.

"The whole thing is a trumped up game of the governor Vanzant. 'Somebody has a job. There are about fifty applicants already.' 'Have you any idea what the charges are?' 'Not in the least. I have not the slightest idea.' 'Are the charges whether Engineer Brown had laid the charges voluntarily, his counsel, Mr. Baird, replied Mr. Brown took action because he thought it was his duty as a public-spirited citizen to do so in this matter.' 'I am a good Conservative,' was Mr. Brown's comment. He will be the first witness. James Baird will act as assistant counsel for the government. Between 50 and 60 witnesses will be examined."

Home, Dec. 15.—Thousands of demonstrators friendly to the French government and anti-Vatican tendencies, gathered to-night in the piazza adjoining the Palazzo, the seat of the French consulate, to protest against the action towards the church of the Italian government.

The whole garrison of Rome was played to see the organizers and to protect the Vatican. A few of them were surrounded by cavalry and the bridges leading to the Vatican were guarded by troops. All the streets leading to the Palazzo Farnese are protected by soldiers with bayonets fixed to their rifles.

The demonstrators, led by a Roman radical, and representing the majority of the chamber of deputies, including a fine force of volunteers, gathered in front of the Palazzo Farnese and formed into a mock procession, intoning the Marseillaise, and other cries of "Long live France," and "Long live liberty."

Deputy Costa finally managed to harangue the people, but the police intervened. The demonstration occurred near the monument to Giordano Bruno, a philosopher, who was burned alive, a victim of religious intolerance.

Concrete Dam, Built to Keep Out Old Ocean, Will Be Broken Down. Glace Bay, N.S., Dec. 15.—(Special.)—Some 250,000 tons of concrete are being used in the construction of a concrete dam, built to keep out the old ocean, will be broken down. The dam is still pouring in huge volumes from the mouth of the Hub colliery shaft, part of which has been sealed up. The Dominion Coal Co. have a force of men working night and day at the base of the shaft, just below the concrete towers and about a quarter of a mile from the pit mouth. The coal crops here and year ago old rooms were worked near the shore, but were afterwards closed up. About 300 yards in from the shore a concrete dam was placed to prevent water getting in during unusually high tides.

The old passage is also closed up for some distance in an effort to prevent the water from getting in. When this is done the dam will be broken down and the rising tides will flow in from the ocean into the old rooms and where the fire is burning, is sixty feet below the sea level. Hence in a short time after the dam is broken down, the water will flow in and flood nearly the entire mine.

It is hoped by the colliery working men that flooding of the colliery will prevent a week or even less will be sufficient to flood the colliery. The scene around the shaft is one of desolation, costly machinery warped and twisted, and nothing of the wood left standing.

C.P.R. HEADS FOR CHICAGO. Making Arrangements to Enter Sarnia and Connect With P.M. Sarnia, Dec. 15.—That the Canadian Pacific Railway Company is serious in its intention to extending its line to Sarnia is no longer questioned by those well informed in railroad circles. The past week the city and county engineering staff visited here looking over several entrances to the city and giving special attention to the mode of reaching the water front. Options have been obtained on some very desirable property, with a view to their acquisition. The real object of coming here is thought to be to reach Port Huron and effect traffic arrangements with the Pere Marquette system. For the purpose of getting a direct line into Chicago, and for connections to the north, by getting an independent line into Chicago it could become a keen competitor for the American-Canadian traffic, and be on a more even footing with the Grand Trunk. The Pere Marquette being in the hands of a receiver, the ultimate result of the plan might be the acquiring of this system by the C. P. R.

A Diamond Spray

Floral Diamond effects will be much in vogue during 1907. The ultra-fashionable seem to especially favor these new creations of gem-craft. At \$325.00 an "all diamond" one is shown that is decidedly chaste. Other designs less costly yet withal handsome.

Pearl Gifts

Are oft-times the most wished for of all, and when so, to be worthily appreciated, the jewel quality should be strictly high-grade. A choice inexpensive remembrance is seen in a Necktie-heart, paved with pearls, and costing only \$5.50. From this amount up to \$500 our Pearl designs contain much wealth of beauty and price-benefits.

Grand-Parents

Must not be forgotten. Gold headed canes, umbrellas, reading-glasses, and many jewelry suggestions which a visit to our store will reveal are here for your sanction. Our Optical Department is particularly well stocked with gifts for the elderly.

WARMS POLICE OF ROBBERY IS CAUGHT LOOTING STORE

Officer Kills Thief Who Resists and Arrests His Unwilling Accomplice. Pittsburg, Pa., Dec. 15.—In a fight with burglars last night in the notion store of Mrs. Mary Neeson at New Kensington, Pa., 30 miles east of here, Officer James J. Lemon shot and fatally wounded Elmer Kuhn, and arrested Albert Romig, young men well known in Kensington.

There are peculiar circumstances connected with the robbery. Early Saturday evening Romig notified the police and Mrs. Neeson that the store would be made to rob the store. Lemon was detailed on the case, and secured himself in the store. Romig pointed a revolver at Mrs. Neeson, while Kuhn held up the young lady clerk. Lemon commanded both men to surrender. Kuhn tried to strike him with a blackjack, and Lemon fired three bullets into Kuhn. Romig did not resist arrest.

Romig says he notified the police because Kuhn threatened to kill him unless he assisted in the robbery. The Pittsburg authorities were notified, and will investigate, as the New Kensington police believe the men were implicated in the murder of Henry Smith, who was recently killed here by burglars.

LOWER THAN BELL. London, Dec. 15.—The Independent Telephone Company made a new offer to No. 1 committee for the city franchise this morning. The rates are clearly lower than the Bell Company, and it is the opinion of a majority of the committee that the council will grant it a competitive franchise.

reverse, with manifest advantage to themselves, the situation in the United States, as described by Mr. Root. As he said, "The people will have the control they need, either from the states or the national government, and if the states fail to furnish it in due measure, sooner or later constructions of the constitution will be found to vest the power where it will be exercised in the national government."

But now that the Dominion Government has fallen so signally to perform the duty to the people which the federal government of the United States is willing and ready to do in that country, it lies with each of the Canadian provinces to protect the rights and interests of its citizens to the utmost measure of its ability.

The success which has attended the departure and the public apathy clearly extended to the point of satisfying him that the citizens are prepared to support more radical measures for the establishment of public ownership, and for the efficient control of all public utility companies and corporations.

While nearly every railway in Canada is represented in these two associations they are really controlled by the Grand Trunk and Canadian Pacific Railways, and when these two companies hold up their hands, the other lines (including our own Intercolonial) jump to do their bidding.

THE RAILWAYS AND THE BOARD OF RAILWAY COMMISSIONERS FOR CANADA.

Article Thirteenth. There are two organizations in connection with railway interests in Canada which for cool colossal nerve surpass anything ever before attempted in the way of successful railway financing, viz. The Eastern Canadian Passenger Agents' Association, and the Canadian Eastern Passenger Agents' Association.

The Eastern Canadian Passenger Agents' Association was formed for the purpose of stifling competition and devising ways and means for increasing the revenues derived from passenger traffic, and as a first step in that direction it was decided to make the organization self-supporting. This has been successfully accomplished and the maintenance of this association does not cost the railways one cent, the additional revenue they have been able to extort from the public being quite sufficient to pay all expenses.

Mark Twain tells a story about an incorporated company of mean men, but the actual facts in connection with the petty actions of the members of the Eastern Canadian Passenger Agents' Association, and the Canadian Eastern Passenger Agents' Association, are of the same calibre. It has no legal existence, does not perform any service for the people, and yet it is sustained by the extra tolls exacted from the public in the shape of railway charges and does not cost the railways one cent, in fact the revenue from this source would be cut down to an infinitesimal sum if it were not for this independent combination which is answerable to no one in particular for its actions, consequently its officials have no hesitation in taking every dollar they can get from the public.

Francisco Calamity. These, as has been pointed out in other cases, were greater than anticipated, and after careful consideration the directors have decided to clear all outstanding claims and restore the financial strength of the companies by making an extra dividend of preference stock to the extent of \$500,000 for the British America, and \$1,000,000 for the Western, at the rate of 10 per cent.

WHAT NEW ONTARIO ASKS FROM BOTH GOVERNMENTS

Twenty Municipalities Get Together and Settle Upon Improvements Necessary.

Sault Ste. Marie, Ont., Dec. 15.—(Special.)—Twenty municipalities of the Algoma district met here on the 6th inst. and formed an advisory union, with a mayor of the Soo as president, with a view to concerted action to urge the Ontario government to construct a trunk road from Sault Ste. Marie to the Soo to repair unsafe bridges, to have Gardiner River Indian reservation opened immediately, as it impedes the progress of the district; to have an industrial zone provided for the care of unemployed in the district; to have a better train, telephone, telegraph and mail services; to have the Dominion government to keep open winter communication with St. Joe Island, and to obtain other powers to develop the district. Over three thousand dollars have been collected from timber dues, and less than three thousand spent on roads. All the inhabitants unananimously supported the movement.

The action above noted is another symptom of the unrest felt in the north country and the very general dissatisfaction with the relations which that part of the province bears to the older portions. In no other degree the sentiment entertained is akin to that of the overseas colonists who were driven by the neglect and indifference of the home authorities into revolution. Nothing so extreme as that, of course, is thought of in New Ontario, and yet the wild talk has been issued from few hot-heads. The majority of the people are from old Ontario and trust their friends, but they realize that the best of folk have occasionally to be waked up. The Algoma agitation is part of the awakening process.

At the same time much more has been done for the new country than readily appears. It is a territory vast in extent, and it is being converted into the organized condition of the rest of the province in a year or two.

Up to Ottawa Government. At the same time Dominion government is responsible for the greater part of the things mentioned in the Soo despatch. The opening of the Indian lands in the Ottawa affair; so also are train, telephone, and mail services, and the question of keeping winter communication with the Soo.

Francisco Calamity. These, as has been pointed out in other cases, were greater than anticipated, and after careful consideration the directors have decided to clear all outstanding claims and restore the financial strength of the companies by making an extra dividend of preference stock to the extent of \$500,000 for the British America, and \$1,000,000 for the Western, at the rate of 10 per cent.

OBITUARY. Mrs. Margaret Doyle. Death claimed one of Toronto's oldest residents in the person of Mrs. Margaret Doyle, of the late Michael Doyle, on Sunday morning, at her late residence, 111 Duke-street, She Ireland, in March, 1820, coming to Toronto, Canada, in 1826, with her father, John Flannigan. She was married to Michael Doyle in 1850, who carried on a wholesale fish business in the city since that time until his death eight years ago.

Sarnia Turns Out En Masse to Welcome Crew Whose Escape Was Miraculous. Sarnia, Dec. 15.—Pandemonium broke loose when the steamer Huroic arrived last night with survivors of the wrecked steamer Monarch on board. It appeared as if the entire town came down to the wharves to welcome the shipwrecked crew. A brass band accompanied to the din of the steam whistles. Every man was a hero, but it remained for one woman, Mrs. Rachel McCormick, one of the crew, to carry off the real honors. She was being held down a rope 100 feet in length and 40 feet above the rocks in order to save herself.

ONE LIVES TO INDIANS GOLDSPIE SAILORS TALK

Say Steamer Was Badly Equipped and Navigated - Investigation Demanded.

Sault Ste. Marie, Ont., Dec. 16.—(Special.)—The sailors of the wrecked steamer Golspie, whose limbs were amputated last Friday at the General Hospital, are making fair progress, except McDonald, whose condition is critical.

The men, when interviewed, to-day, averred that the ship would never have been lost had it been properly equipped and navigated.

The Son of England Society are taking up the case of the unfortunate victims, collecting what facts they can, which they intend passing to the government at the same time demanding that an investigation be held into the causes of the loss of the boat and the subsequent sufferings of the men, so that the blame may be located, and, if necessary, the guilty parties punished.

SHOVEL GRAIN TO SAVE SHIP WAHCONDAN ALMOST TURNS OVER

Crew Have Strenuous Fight For Life on Lake Superior Due to Shifting Cargo - Manisticque and Ireland Buffeted in Storm.

Port Arthur, Dec. 15.—(Special.)—The steamer Wahcondah, which left here on Thursday for the east came back to-night, her cargo having shifted. She was listing badly Friday night when she struck a heavy sea, and the cargo of grain commenced to shift. In a few minutes she was leaning over, and there was much danger of capsizing.

When the boat arrived at this port she was covered with ice and the pilot-house was broken in and the gunwales swept away. The steamer Newpawaw was with her at the time, but Capt. Zealand stated that during the night his boat struck her.

PAIRED COMPANY IN STORM. Duluth, Dec. 15.—The steamer Manisticque is safe in Port Arthur, Ont. She arrived this evening after a terrific struggle with the waves, which were running high yesterday and last night. This morning she got under the shelter of Isle Royale and lay to until the wind abated.

The steamer Ireland, which was in tow, broke adrift off Sand Island, but in view of the fact that the steam pumps of the Manisticque were leaking badly, it was impossible for the Manisticque to pick her up.

STRAITHONA DAMAGED. Port Colborne, Dec. 15.—The steamer Straithona, bound from Port William to Thorold with a cargo of wheat for the Healey, Shaw Milling Company, struck a buoy in the channel outside the breakerway Thursday evening, which damaged the ship and caused leaking in two compartments.

TRAGEDIES OF THE SEA. St. John's, Nfld., Dec. 15.—The British steamer Birkham, Hamburg, Nov. 18, for New York, put in here last night short of coal. She had a terrible trip, encountering gales the whole way.

WHY HEARTS ARE BROKEN YOUNG MEN OUTSPOKEN

But Criticize Her as They Will, With All Her Faults They Love Her Still.

"So few young women nowadays know anything about cooking or kitchen knowledge that baking and breadmaking in the home is almost a lost art."

"Young women have a great desire to be seen and admired no matter what or whose cost, but preferably at the expense of anyone but themselves."

"Many are dowdy and disheveled in their home unless expecting visitors."

"Most young women are looking for the man who has the most money and is willing to spend it on them, natural preference being set aside as of secondary moment."

"Very few young ladies of the present day are sincere or unselfish. With their own eyes they glare at smiles and adornments, providing they wish to use them as a means to gaining consideration as of first importance."

"Those who profess to be church members and many who are semi-religious are inclined to be narrow-minded—will turn down a young man to the race, but invariably never investigate to ascertain the truth of the rumor, not, if true, use their religious influence to persuade and lead him to the proper path."

"Very many young women of this generation are unkind to their parents, regard their younger brothers and sisters as so many nuisances, but with those of the young man they desire to please are the same of sisterly graces and affection."

"Nearly all prefer the man of the 'sporty type' who knows society from his risk and swagger standpoint, but for the thoughtful, earnest and intelligent man they have no use, he is too slow, and his guinea pains them."

These are a few of the criticisms from young men concerning the young women of to-day, which Rev. Dr. Van Horn read to his congregation in the Church of Christ, Cecil-street, last night. A week ago the young women had had some caustic remarks to make about the young men, but it seems as tho the score was more evened up. Of the letters read, which were solicited by the pastor from representative adherents of the church, each in his own way, was slightly different from the other and would perhaps contain a mention of another, the general conclusion was that the average young woman of to-day is far from the young woman to be desired.

The ideal woman, from the letters read, pointed to one who need not be beautiful to be the most desired. Who has womanly graces, which include a love of home, husband and children;

Who has a desire to make the most and do the best with the income at command;

Who has a high and exalted sense of duty she bears to her own family, her own people and her own religion;

Who has a forbearance with others, and

Who has an absence of that inordinate and all-consuming love for dress and display that is the bane and ruin of so many of her sisters and so many homes.

Summing up the pastor said that what the young man of to-day wished for most in the young woman he would marry was more reality and less what his mother and grandmother presented; one who valued a pure heart more than a big diamond.

The pastor appealed to the young women present to try to get rid of the old and to endeavor to live more according to the ideal set out in the letters he had just read, to strive and realize in their own lives and actions that higher, grander and broader life described by the Psalmist when to all womankind for all the centuries he enjoins, "Cleanse thou me or my secret faults."

THE FUTURE OF PALESTINE. Prof. McCurdy Sees Bright Prospects if Turkish Rule is Shaken.

Under the auspices of the Judean Club, at the Holy Blossom Synagogue, last night, Prof. McCurdy gave an interesting lecture on "Palestine and Its People."

He sketched the early history and development of the civilization in the east, and spoke of the code of laws before the time of Moses. The influence of the physical structure of the country made a characteristic race.

The rugged life of shepherds and vine growers gave the race tremendous reserve power and endurance, and accounted in a great measure for their persistence in history.

The speaker discussed the present development of the country, and a scheme was on foot to build another railway across the country in the old caravan route, which would connect the interior of Palestine with the sea, and tend toward building up a large port.

Agribultural machinery was being introduced, and the inhabitants were adopting western ideas to a great extent.

In closing, Prof. McCurdy expressed the thought that Palestine, on account of its natural position as the point of transshipment for the products of Central Asia to the western market, would play an important part in the future, if there was any possibility of its being re-established as a nation.

SUBURBAN COUNCILS HOLD THEIR STATUTORY MEETINGS

Final Stocktaking for the Year—Local Option Campaign at Junction.

Toronto Junction, Dec. 16.—The statutory meeting of the council was held on Saturday morning and Town Treasurer J. T. Jackson presented his report. There is a balance in the current account of \$16,086.61, while last year it was a little over \$4000. The total receipts were \$125,825.51. Taxes brought \$93,735.02; sewer, \$381; water, \$16,908.08; streets, \$1691.99; sidewalks, \$1087.40. The expenditure amounted to \$45,608.42. Weston-road bridge cost \$294.03; board of health, \$4096.40; waterworks maintenance, \$13,199.69; fire department, \$4657.09; \$3824.25; sewer construction, \$2456.56; streets, \$8330.42; sidewalks, 6423.88.

Councillor Baird wanted annexation brought to the fore again, and have the citizens vote on a bylaw in January, as to whether they were in favor of annexation or not. After this vote was taken he proposed that the council should discuss terms with the city council, and if anything at all reasonable could be arranged, the people would be again asked to vote on a bylaw which would contain the clauses of the terms by which the city would take the Junction within its fold. Members of the council poked fun at Councillor Baird for making such a proposition, and even the mayor, who is strongly in favor of annexation, voted against his measure.

The death occurred Saturday morning of Margaret, wife of Charles H. Hatt, 225 Quebec-avenue, after a week's illness. She leaves a husband and three children. The funeral will take place on Monday afternoon, to Prospect Cemetery.

The Citizens' League fired one more gun in the local option campaign this afternoon, when a meeting, chiefly for the working men of the town, was held in St. James' Hall. There was a very large attendance. From 3.45 until 4.15 the local option choir, led by W. Hatt, rendered a number of selections. The chair was taken by Charles Boon, one of the prominent members of the league and chairman of the ward 5. He made a few remarks and then called upon James Simpson of Toronto. The latter's remarks were well received and he seemed to strike a sympathetic chord with many of his hearers. He spoke of the success of local option and asked, in the interest of the great

majority of the working classes, for a continuance of the measure.

The friends of local option will meet again in St. James' Hall on Monday night, to pick out candidates for the municipal elections.

There are 70 cars of stock in the Union Yards.

The liquor case of W. Robinson of the Outlook Hotel, which had been adjourned from time to time since Oct. 17, was again adjourned on Saturday till next Saturday afternoon at 2 o'clock. The crown attorney could not be present, and the chief witness, Mr. Ayrest, provincial license inspector, and his assistant, Hanson, were also away.

Rev. Prof. Kilpatrick of Knox College occupied the pulpit at the Eglinton Presbyterian Church yesterday morning. In the course of his discourse, he mentioned the depravity of the human race, and said, "It is sickening to read of the knavish tricks, as exposed by appointed commissioners and courts. If the people were filled with the Holy Spirit, as the twelve apostles were on the first Pentecost, there would not be so much social dreariness in high society."

The following have been appointed poll clerks for the municipal election, No. 1, at the town hall, J. M. Letesche; No. 2, at the Erskine-avenue School-house, W. R. Tomlinson, and No. 3, at the Daville-avenue Schoolhouse, Joseph Stringer.

D. Carpenter of Sherwood-avenue has suffered another stroke of apoplexy.

Charles Murphy of Yonge-street and Glenwood-avenue will be a candidate for councillor.

Mr. Hinchcliff has secured the contract of painting the new schoolroom, which is to be opened at the Eglinton School after the Christmas holidays. His tender is for \$90.

Altho a former council meeting it was decided to place a light on the corner of Roper-avenue and Yonge-street, at last Saturday night's meeting Councillor Anderson objected, and the matter was again referred back to the water, fire and light committee. A qualified inspector, J. M. Letesche, local board of health, complimented the town on its general sanitary conditions. Mr. Cordingley, chairman of the local board of health, urged the installation of a septic tank system. He also recommended that the sanitary bylaws be made more stringent, especially in regard to the keeping of pigs. Chief of Police Morris asked for a revolver. Councillor Anderson objected, and the matter was referred to the fire arm in such a peaceful community. However, he got the weapon.

The treasurer submitted his annual financial statement, showing a surplus of \$24,422.11, of which considerable is local improvement. Receipts were \$41,694.72, and the credit balance in the general account on the 15th inst. was \$24,422.11. An account of \$6 for White, the special local option constable, was objected to by Councillor Anderson, who held that the original motion only provided for the payment of services by fees for fines, following prosecution. The bill was referred to the finance committee.

About twenty applications were received by the secretary of the school board for the two vacancies in the Eglinton School, and the board of trustees, at their meeting on Saturday night, selected Miss Ethel M. Bell for Toronto for the primary work, and the board decided to advertise again for the teacher required for the senior work. Trustee Logie was empowered to purchase a desk and the necessary utensils for the new room to be opened in the Eglinton School after the Christmas holidays.

At the Sunday school of the Eglinton Methodist Church, yesterday, 27 signed the temperance pledge. Two who signed the pledge are the children of a local hotelkeeper.

**East Toronto.**  
East Toronto Dec. 16.—At the public meeting, called by Mayor Richardson for Wednesday evening, to discuss railway matters, the G.T.R. may submit a plan for a special morning and evening suburban service.

The new building just completed for the Toronto Type Engraving Company, at Isabella-street and Lansdowne-avenue, is the largest in town, being 168 x 85 feet. The whole structure is built largely of concrete, with 500 barrels of cement being used.

The statutory meeting of the town council was held on Saturday night, and was presided over by Mayor Richardson. The receipts for the year total some \$120,000, with equal expenditure. There are \$12,000 of unissued debentures, which improves the financial condition of the town to that extent. A communication was received from the officers of the Masonic Hall and the high and public school boards, relative to the installation of electric light. The mayor and solicitor were instructed to come to some amicable agreement with Mrs. Gibson, who, thru counsel, preferred a request for compensation for injuries from falling on the sidewalk.

The East Toronto negotiable debentures lost on Friday last, and which have so far not been recovered, were high school bonds and represented some \$500, most of them reported.

The election of officers of The Beaches Lodge, A. F. & A. M., on Friday night, resulted: L.P.M., John McP. Ross; W.M., M. J. McCune; S.W., R. J. Winsor; J.W., W. E. Orr; S.D., C. T. Lyon; J.D., W. McEachern. L.M., W. Nugent. The remaining officers will be elected at the first meeting of the lodge in January.

Mayor Richardson on Saturday definitely announced his intention to contest the mayoralty.

A largely attended meeting of the concrete sidewalk and electric light committee was held on Saturday night. The letter received from Bishop Sweetman during the week, in answer to that sent by the committee, was fully discussed. Except the building lot recently acquired for the erection of a new church. In the main, however, the bishop's letter was discussed upon as evincing a spirit of conciliation, and thru the intervention of a disinterested clerical gentleman it is thought the matter will soon be adjusted.

### Seasonable AND Reasonable

Fur-lined Overcoats, Ulsters and Heavy Cloth Overcoats are very seasonable, and our prices are reasonable. Your coming in here to see what we can show you is not to oblige us, but yourself, for you need just the kind of coats we are selling; see if you don't.

Our Fur-lined Coats have a feature distinct from others. That is, the exquisite fit that exists between shell and lining. We make ours ourselves, and we understand the art of doing it, and that's why we get the right. Lined with genuine muskrat, made in full, roomy style. Prices \$37.50 up to \$175.

Heavy Cloth Overcoats, for severe weather, warm and cosy. We have a fine assortment of these and also of Ulsters. The ulsters are of genuine Irish frieze, and are not only look good, but they are warm and keep out the cold. Prices are from \$20 to \$30.

Fur Caps are almost a necessity for those who are out of doors most of the time. We have them in wedge shape, made from Persian Lamb, at \$6.50 to \$15. Seal Caps from \$20 to \$35. Otter Caps \$15 to \$45.

Fur Gauntlets are more popular than ever for driving, motoring and also for walking. Persian Lamb Gauntlets are \$12 to \$22 per pair. Otter Gauntlets are \$18 to \$45 per pair.

It doesn't really make much difference what you want in furs or men's clothing, we can suit you in quality and style and in price, too.

**Norway.**  
A deputation composed of James Brown, D. Leslie, S. Wilson, J. W. Jackson, A. Barnes, F. Hogarth, Mr. others waited on fifteen or twenty Friday night and strongly urged him to allow his name to be placed in nomination for second deputy-revee for York Township. The deputation pointed out that the southeastern part of the township, one of the most densely populated and rapidly growing portions, was practically unrepresented. Mr. Maclean was the unanimous support of the ratepayers, and finally yielded to the wishes of the deputation. J. W. Jackson, who has for some time acted as president of the Norway Ratepayers' Association, has also been requested to allow his name to stand for the council, and may consent.

Districts Nos. 1 and 2, Norway, Conservatives will hold their annual meeting in Norway school, for the election of officers, on Friday evening, Dec. 21. W. F. Maclean, M.P.; Alex McCowan, M.L.A.; J. W. Moyes and others will be present.

James Brown, the indefatigable secretary-treasurer of school section No. 29, is again a candidate for the position. Norway residents have arranged for a public meeting to discuss township matters in Reid-avenue Presbyterian Church on Saturday evening, Dec. 22. The members of the township council and all prospective candidates are invited.

Government Not Prepared to Amend Main Provisions of Round Table Held to Adjust Disputes

London, Dec. 17.—A motion bill, amended in various particulars, reached the House of Commons, and the House of Lords, on Monday. The bill, which was introduced by Lord Crewe, Lord Chancellor, announced that the Government was not prepared to accept the principles of the bill in certain modifications, and points might be made in order to enable the bill to pass.

Lord Crewe added to a most substantial amendment. In view of the fact that the House of Lords had not yet given its assent to the bill, the Government was not prepared to accept the principles of the bill in certain modifications, and points might be made in order to enable the bill to pass.
