FRENCH DRIVE TWO WEDGES INTO ENEMY LINE BRITISH ENGAGE IN SEVERE FIGHTING FOR GINCHY Roumanians Check Enemy's Advance on Dobrudja Border

ENEMY MAKES FIERCE STAND ROUND GINCHY

British Make Fifty More Prisoners in Fight for Village.

TAKE ALL LEUZE WOOD
 Troops Under Sir Douglas Haig Draw Closer to Comblès.

Special Cable to The Toronto World.

LONDON, Sept. 6.—Infantry fighting between British and Germans continued round Ginchy, north of the Somme, today, with the British taking 50 more prisoners.

The British also captured the remainder of Leuze Wood in fighting during the night. They then advanced half way to Comblès.

The British corps operating on the right flank, next the French, has captured or destroyed 19 machine guns since Sunday.

British artillery caught under its fire a large party of Germans emerging on Comblès and scattered it, as well as dispersing many German working parties.

The British lines are now pushed to within striking distance of Comblès village, east of Leuze Wood.

Shelling Keeps Intense.
 "An intense volume of artillery fire is being maintained by both sides, but the Germans, owing to loss of their means and power of observation, are handicapped in their endeavors to obtain accuracy of fire.

The following is the text of the official communication issued from British headquarters tonight:

"Severe fighting continues at Ginchy. Fifty more prisoners were brought in today. Nineteen machine guns were captured or destroyed since Sunday by the corps on our right flank.

"A large party of enemy emerging on Comblès was caught by our artillery today and scattered. Numerous hostile working parties came under our shellfire and were dispersed.

"The enemy's artillery was active against portions of our front near Thiepval, north of Arras and between La Bassée Canal and Richebourg where we carried out a successful bombardment. Beat Off Foe Airmen.

"Yesterday our aeroplanes continued their usual successful co-operation. One of our patrols consisting of four machines encountered and drove off a hostile patrol of 13 machines. One of our machines is missing.

"The artillery of both sides has been active north of Pozieres and in the neighborhood of Mouquet Farm. Last night we discharged gas successfully opposite Comblès.

"During the night our troops gained possession of the whole of Leuze Wood. Fighting continues between the wood and Comblès village and around Ginchy.

"Yesterday afternoon, our heavy artillery effectively shelled the enemy's batteries in Folgyon Wood, east of 'Prye'."

FRENCH LINES ADVANCED TO CHAULNES OUTSKIRTS

Part of Village Captured in Infantry Attack After Particularly Stubborn Fighting

Special Cable to The Toronto World.
 PARIS, Sept. 6.—In heavy fighting south of the Somme today the French carried their lines as far as the outskirts of Chaulnes and they also advanced along the railway between Chaulnes and Roye. In a vigorous infantry attack, further to the north, the French carried the greater part of the Village of Belloy-en-Santerre, which formerly marked the southern limits of their advance, and, engaging in particularly stubborn fighting, they carried the northern portion of Vermandovillers as far as the road running to Estrees Village.

A violent artillery duel was fought north of the Somme. In today's fighting the French report that the number of prisoners taken seems large, but they have made no definite estimate of their total.

The French night official statement says: "North of the Somme there was a violent artillery duel but no infantry action."

Renew Offensive.
 "South of the Somme in the afternoon we successfully renewed our offensive and carried several German trenches southeast of Belloy-en-Santerre. In the course of a vigorous infantry attack against the Village of Berry-en-Santerre we carried the greater part of the village and advanced as far as the southern projection of the park. Between Vermandovillers and Chilly there was especially stubborn fighting. We carried the northern portion of Vermandovillers as far as the road running from the village to Estrees.

"Further to the south, in the region between Chaulnes and Chilly, we captured more trenches and pushed our first line as far as the outskirts of Chaulnes and along the railway between Chaulnes and Roye."

Took Many Prisoners.
 "The number of prisoners captured during the day seems large, but there is no definite information yet. On the right bank of the Meuse (Verdun sector), the cannonade was intense at the end of the day in the Vaux-Chapitre Wood sector. On the rest of the front the day was comparatively quiet."

ITALIANS RAID FOE NORTH OF AVLONA

Albanian Operation Meets With Success on Voyousa River.

GET GRIP ON EPIRUS
 Ally's Forces Occupy Northern Portion of Province.

ROME, Sept. 6.—In Albania an Italian column of infantry, cavalry and artillery has made another raid on the right bank of the Voyousa, in the region north of Avlona, and Italian troops, debouching from the Cliflick idis bridgehead, stormed and destroyed the positions of the enemy between Samar and Frankuta. Fieri headquarters of the Austrian command, was bombarded by an Italian aerial squadron.

An Exchange Telegraph despatch from Athens records the steady advance of Italian forces from Avlona, in northern Epirus. The Italians are displacing Greek officials and prohibiting the departure of prominent citizens from the regions occupied.

They have also begun to construct roads and technical works. Inhabitants of this region are preparing to send a protest to King Constantine about the Italian invasion. It is said that they will also memorialize Great Britain, France and Russia, the protecting powers of Greece.

The despatch says inhabitants of this region are preparing a protest to send to King Constantine and to Great Britain, France and Russia.

NEW YORK MAN DINED BY TOKIO MUNICIPALITY

Elbert H. Gary and Mrs. Gary Honored by Jap Capital.

TOKIO, Sept. 6.—The municipality of Tokio tonight gave a brilliant reception and dinner in honor of Elbert H. Gary of New York, and Mrs. Gary. Gjin Okuda, mayor of Tokio, presided at the dinner, which was attended by 500 notables, including members of the cabinet.

HAD LEG BROKEN.
 Anthony Wallasi, 95 Eastern avenue, sustained a broken leg while playing in a school playground adjacent to his home yesterday afternoon. He was attended by Dr. Mackenzie, 687 Pape avenue, and afterwards removed in the police ambulance to the Hospital for Sick Children.

SUSTAINED FRACTURED HIP
 Domeo Grasso, 28 Primrose avenue, while employed at the Toronto Iron Works, Cherry street, yesterday afternoon had one of his hips broken when the boom of a hoisting derrick fell upon him. He was removed to St. Michael's Hospital in the police ambulance.

SLAVS REPULSE TEUTONIC FORCE BEFORE HALICZ

Capture Strong Defensive Position, Driving Teutons Westward.

WIN IN CARPATHIANS
 Muscovites Continue Forward Drives in Face of Enemy.

Special Cable to The Toronto World.
 PETROGRAD, Sept. 6.—The Russians have broken thru another strong Austro-German defensive position covering Halicz, and they have captured 4500 men, of whom about 2000 are Germans, according to the official communication of Russian general headquarters, issued today.

The action was torred on the enemy in the region of the lower Gorodenka River, a left tributary of the Dniester, and the fight was for a strongly fortified position constructed by the enemy. The Russians finally defeated the opposing force and drove it in flight to the northwest.

In addition to the 4500 prisoners already taken, the Russians are bringing in many more. The Russians also continue their advance in the western region of the Carpathians, capturing another series of heights and repelling all counterattacks.

**TURKS DRIVEN TO FLIGHT
 BY BRITISH MOTOR CARS**
 Contingent Assists Russians in Region West of Lake Van.

Special Cable to The Toronto World.
 LONDON, Sept. 6.—British armored motor cars have been sent to the assistance of the Russians on the Caucasian front, and they are engaged in driving the Turks out of villages west of Lake Van in the region of Chukkur-Norshen.

The Russian continue to advance in the region of Ognott and they are inflicting severe punishment on the enemy. West of Ognott the Russians found bodies of their soldiers, which were terribly mutilated by the Turks.

**WESTERN LIBERAL M.L.A.
 SUMMONED BY DEATH**
 H. C. Lisle, K.C. of Lloydminster, Sask., Dies Suddenly.

LLOYDMINSTER, Sask., Sept. 6.—H. C. Lisle, K.C., member of the Saskatchewan legislature for the constituency of Lloydminster, died at the age of 67. On Monday Mr. Lisle was seized with an attack of apoplexy. He had been secretary of the party since its incorporation in 1907, and for one term was Liberal member of the constituency of Lloydminster in the legislature.

Mr. Lisle was a native of Cheshire, England, and came to Canada 24 years ago. He was a leader of the bar in Dawson City 15 years ago.

**GODMOTHER OF PATS
 TALKS WITH REMNANTS**
 Previous to attending the civic reception at the city hall yesterday afternoon the Duke of Connaught and Princess Patricia paid a visit to the Military Convalescent Home on College street and there reviewed a large number of soldiers.

There were 225 of the brave heroes and this number included nearly all the members of the P.P.C.L.I. who have returned from the front. Major Plunk, casualty officer, lined the men up on the lawn to the east of the building and the duke passed along the lines, stopping frequently to ask questions. He then addressed them briefly, telling them how great had been their service to Canada and the empire at large.

Princess Patricia then inspected the men who had fought with the regiment named after her. All these men were present at the great battles on the western front.

**FOUNDER OF BELL FARM
 AT INDIAN HEAD DIES**
 Special to The Toronto World.
 BROCKVILLE, Ont., Sept. 6.—M. J. Reid, one of the founders of the famous Bell Experimental Farm at Indian Head in the Canadian west, in the early eighties, died today at the age of 76.

Reid was a life-long resident of Brockville, and for nearly 30 years was connected with local business offices of the C. P. R. He was a veteran of the Fenian Raid, having served under Lieut.-Col. J. D. Buell. His wife and two children survive.

TORONTO'S FAREWELL TO ROYALTY

The Duke and Duchess of Connaught and the Princess Patricia, with Lady Hendrie and Major Church, on the steps of the city hall after the civic reception on Wednesday afternoon.

WIFE COMMITS SUICIDE AFTER HUSBAND'S DEATH

Mrs. E. A. Victor Drowns Herself in Credit River Following Death of Husband Who is Struck by Train.

At 8 o'clock yesterday morning, while crossing the C.P.R. tracks at Port Credit, E. A. Victor, an English author, who has been living on the banks of the Credit while writing a book on "Canada's Future," was struck by a train and instantly killed.

At 4 o'clock in the afternoon his wife, who had been prostrated all day as a result of her husband's death, took a canoe and went up the Credit River. The canoe was found, but up to an early hour this morning Mrs. Victor had not been located, and it is taken for granted that she committed suicide by drowning herself in the river, as she was an excellent swimmer.

Victor came to Canada a short time ago to write a book, entitled "Canada's Future," for the purpose of setting forth information which would be of advantage to British emigrants. On his way to the office of Macmillan Company of Canada, with some manuscript yesterday morning he went by way of the tracks for a short-cut to his station. It is thought that the dense fog which prevailed at the time prevented him from noting the approach of the train. So badly mangled was his body, that it was impossible to identify him. Scattered manuscripts along the tracks proved his identity.

Mrs. Victor was prostrated with grief when she heard of the terrible death of her husband. Yesterday afternoon she seemed to be a little better, and asked her companion, Miss Beadfort, if she would mind going out for an hour or two while she wrote letters to relatives in England, acquainting them of her husband's death.

Miss Beadfort returned to the Victor home about four o'clock. Mrs. Victor was out. On the table were two letters addressed to her own and her husband's people. Thinking that Mrs. Victor had gone for a walk, Miss Beadfort waited until nearly five o'clock, when she got uneasy and spoke of Mrs. Victor's strange absence to neighbors. A search party was immediately organized, and both banks of the river were patrolled. About a quarter of a mile from her home, the searchers found Mrs. Victor's canoe in some rushes. One paddle was missing, and the inside of the canoe was dry.

The search was conducted by Mr. Gardham and a number of men until midnight last night, without result. Matt Aykrold and Capt. Chapman of the Toronto life-saving crew will grapple the river today.

**HALIL BEY AT BERLIN
 TO DISCUSS SITUATION**
 Turkish Foreign Minister is Confering With German Statesmen.

AMSTERDAM, via London, Sept. 7. 1:50 a.m.—A despatch received here from Constantinople says that Halil Bey, the Turkish foreign minister, has gone to Berlin to confer with German statesmen.

**CAT STARTS FIRE WHICH
 DESTROYS CHICKEN FARM**
 Blaze in New Toronto Caused Eight Hundred Dollars' Damage.

A lantern upset by a cat in a hen-coop belonging to Manville Atkinson, Warden street, New Toronto, caused a fire about 11:17 last night, which burned 300 hens to death and did \$800 damage. City reels responded to a call, but lack of water handicapped their efforts.

CHILD BROKE LEG.
 Four-year-old George Busfield, 75 Florence street, broke one of his legs when he fell from a tree at the rear of 71 Florence street, yesterday afternoon. He was taken to the Hospital for Sick Children in the police ambulance.

FACES SERIOUS CHARGE.
 Charged with threatening to kill Jack Pom, laundryman, Harbord street and Spadina avenue, Jim Wong, 145 West Queen street, was arrested yesterday afternoon by Acting Detective Strohm.

FOE UNABLE TO MAKE ADVANCE INTO ROUMANIA

Dobrudja Border Successfully Defended Against Teutonic-Bulgarian Attacks.

ENEMY LOSES HEIGHTS
 Roumanians Progress Beyond Town of Borozek in Eastern Transylvania.

Special Cable to The Toronto World.
 LONDON, Sept. 6.—Teutonic-Bulgarian efforts to carry an offensive into eastern Roumania have met with a definite check. Roumanian forces being masters of the Dobrudja border east of the Danube, according to an official statement received from Bucharest. An enemy attack south of Bessarabik has been repulsed. Elsewhere on the frontier the invading forces are being successfully engaged. Bucharest's report, so far as it relates to Bessarabik, is in conflict with Vienna's report that this town, otherwise known as Dobric, has been taken by Austro-Hungarian forces.

Retiring Along Moldavia.
 Austro-Hungarian troops continue to retire along the Moldavia River, in the southeastern part of Bukovina, before the Roumanians, according to telegrams received at Geneva from Austro-Hungarian headquarters.

In Transylvania, the Roumanian gains continue, the invaders of Austrian territory having taken by assault heights west of the town of Borozek, near the extremity of eastern Transylvania. Borozek was taken by the Roumanians several days ago.

An official Bucharest report, issued on Sept. 4, but delayed in transmission, says: "Small encounters have occurred along the whole of the northern and northwestern front. We repulsed two hostile attacks in the Merisor Valley. We captured at Seps-Ostorog more than 500 wagons containing foodstuffs and forage and a completely equipped hospital."

"In the upper Maros Valley the enemy used dum dum bullets. We captured 7 officers and 620 men."

"On the southern front superior enemy forces attacked the bridgehead of Turul ten times, but each time was repulsed."

Battle at Turul.
 Mr. Vienn's claims are to be credited, possession of the bridgehead at Turul has since passed out of Roumanian hands. Petrograd today reports that Teuton-Bulgarian forces are pressing an attack in this region.

Turul is situated on the Danube, about 20 miles east of Bistritza, and it is in Bulgarian territory. The Roumanians crossed the river and occupied its southern bank, including Turul, a few days ago.

A Zurich despatch says that, according to Austrian admissions, the Roumanians, in one week of war, captured more than 1000 square miles of territory in Hungary.

The region occupied includes some of the most desirable sections of Transylvania. In it are many towns and several cities, one of which, Borozok, is a famous watering place.

**MASABA IS AGRICULTURE
 ON VICTORIA ISLAND**
 Toronto Steamer Met With Mishap After Leaving Fort William.

DULUTH, Minn., Sept. 6.—The S. S. Masaba of the Mathews Steamship Co. of Toronto went on Victoria Island, while coming light out of Fort William on Sunday. No reports have been received here as to whether or not she has been released or the exact nature of the damage. The Masaba is a new vessel of the Welland Canal size, being built in 1913 and is of steel construction, 240 feet long.

DUNLAP HATS AT DINEEN'S.
 A new shipment of Dunlap Hats has arrived. These are positively the last word in the best of American styles. The name stands for "quality" —Dunlap felt means fur felt. The Dunlap hat enjoys a well-deserved popularity in the United States, and the Dineen Company carry as complete a stock of these hats as is to be found this side of the border line Dineen's, 140 Yonge street, corner of Temperance.

WAR SUMMARY

THE DAY'S EVENTS REVIEWED

ON the western front the French right wing was deeply engaged south of the Somme yesterday and the fighting brought the allies important gains. The scene of the offensive was that new twelve and a half mile section of German defences extending from the southern border of the original French line of advance to a point below Chaulnes and into this the French drove two wedges yesterday. One was cut into the German defensive system about Belloy-en-Santerre and Vermandovillers, and the other was cut along the railway between Chaulnes and Roye, even to the outskirts of Chaulnes. The French took the greater part of Belloy-en-Santerre and the northern portion of Vermandovillers, extending to the Estrees road. This fighting brought the Gallic forces many prisoners and other spoils of war.

On the British battlefield north of the Somme and also on the remainder of the French battlefield, the infantry fighting yesterday was confined to just one point—Ginchy Village. There the British severely mauled the Germans, as evidenced by the taking of 50 more prisoners by them. In the preceding night British troops ousted the Germans from Leuze Wood and pushed onward straight for Comblès, from which their lines are now established only half a mile away. The Germans are still fighting at a disadvantage owing to the continuance of British aerial supremacy, as seen by the feat of four British machines fighting and driving off thirteen German machines. Whenever German working parties appear they get a short

 The World promises to deliver before 7 a.m. delivery in part of the City or Suburbs of Toronto and Hamilton. World subscribers are invited to advise the circulation department in case of late or irregular delivery.

THURSDAY MORNING, SEPT. 7.

The Fist or the Finger?
 Former Senator Root said that President Wilson, in dealing with Germany, first shook his fist and then his finger. Germany, having got by with the Lusitania outrage and other submarine atrocities, no one here paid much attention to the many complaints addressed to the British Government by the Wilson administration respecting the blacklisting of certain American exporters, the seizure of American mails and so forth. Therefore, almost as a bolt from the blue comes the United States Senate resolution authorizing the president to detain in American harbors all foreign vessels that discriminate against American commerce, to cut off postal connections with Britain and her allies, and empowering him to declare a policy of non-intercourse against the allied nations. That part of the resolution which requires all halfpennies and salmon sent in bond to the United States to be forwarded from an American port, indicates that Canada will not be exempted if something like an international commercial war is inaugurated between the United States and the British Empire.

It is a fair surmise that this extraordinary grant of power to the president is not being made by congress without his knowledge or assent. In terms, it is permissive, but it practically amounts to a mandate. The president will be expected to get those concessions from Great Britain for which he has been contending, or to use something like the policy of non-intercourse between the United States and the British Empire, which is to set in motion forces scarcely less terrible than war itself. Merely to suspend all postal service between Canada and the United States would entail loss, suffering, and inconvenience on both sides of the line beyond estimate, and beyond repair. It would be accompanied by the cancellation of the coasting privilege and an embargo upon exports and imports alike. Of course we would retaliate, but both sides would be fighting with naked blades.

How the United States can enter upon the proposed policy of reprisal against the allies without crippling her own resources, and practically destroying her export trade, we do not pretend to say. Despatches from Washington say that the U. S. Government has looked over the field, counted the consequences, and is prepared to strike the blow if no other diplomatic remedy prove available.

In 1888 President Cleveland seriously urged a policy of non-intercourse with Canada, in reproof for alleged outrages upon American fishermen, and in 1910 President Taft, by threatening to impose the astounding surtax of the Payne-Aldrich tariff law, apparently gave us our choice between reciprocity and commercial non-intercourse. However, nothing serious happened from an international standpoint in either case.

The present grave crisis may be averted. The shaking of the fist may only prelude the shaking of the finger. From a political standpoint Mr. Wilson has nothing to gain, for the German vote is unalterably aligned in support of Mr. Hughes. At the same time there is a possible peril which cannot be lightly brushed aside. Uncle Sam's latest move on the international checker-board may have far-reaching consequences and Canada should prepare to meet them.

Canadian Aviation.
 His excellency the governor-general is being done in Canada for aviation, and his presence at Long Branch is an evidence of his interest in this most important branch of military service. By some unaccountable stupidity the Dominion Government refused to compensate, or, even for a long time,

to recognize the possibilities of aviation in Canada. The failure has been as great a blow to Canada in one way as the enemy had crippled us in this necessary arm.

The notable results attained by Canadian aviators and their continued success in England and at the front, and the recognition by other nations among our allies of the value of aeroplanes manufactured in Canada has compelled the government, though with apparent reluctance, and most tardily, to extend some assistance to the movement to supply the imperial forces with trained Canadian aviators. The government still refused to organize a Canadian branch of the service. Private effort has done much in this direction, as it has had to do in recruiting in general, and while the people of Canada deserve all credit for what has been done, it cannot be said that the Ottawa government has any right to participate with them.

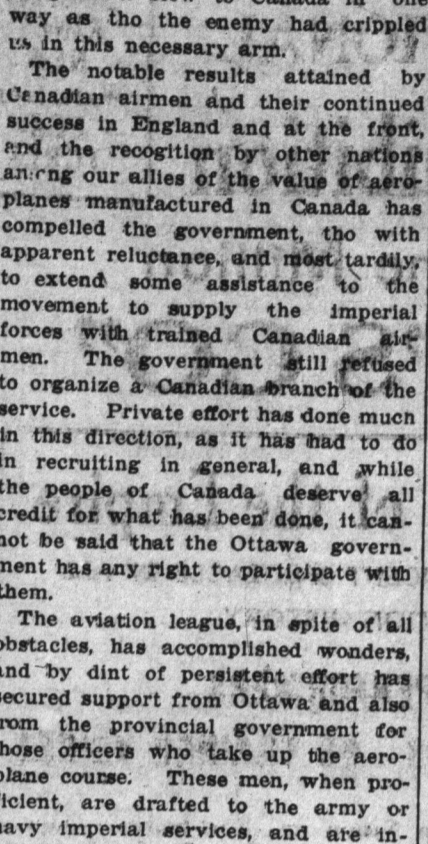

The aviation league, in spite of all obstacles, has accomplished wonders, and by dint of persistent effort has secured support from Ottawa and also from the provincial government for those officers who take up the aeroplane course. These men, when proficient, are drafted to the army or navy imperial services, and are invariably recognized as amongst the most skillful of their profession. It is the work of these men that the Duke of Connaught is to see at Long Branch today, and to encourage by his presence and hearty interest.

A Great Spectacle.
 A number of people in Toronto get in the habit of talking of the Canadian National Exhibition as "the same old show," and, falling to visit it themselves, occasionally discourage those who would, if they knew, regret exceedingly to miss such a wonderful spectacle.

This year particularly the grand stand show is something different. Some of the elements are the same, such as the drill and Swedish exercises of the 169th Battalion, but this remarkable item will always be impressive to all except those whose minds may be pricked by an inward sense of "sinking." The bands and the march of the nations, the cathedral singing and other features are of a nature that can never be forgotten.

In such a historic year as the present not to have joined with the multitudes who are visiting the fair and entering into the spirit of the grand stand spectacle is to miss an experience which it is no exaggeration to say is incidental to the greatest crisis of human affairs.

X'SKUCE ME

PROVINCIAL REPORT ASSURES CITIZENS

Nothing Alarming in the Outbreak of Infantile Paralysis.

Smallpox Disappears But Diphtheria, Measles, Whooping Cough and Typhoid Increase.

"Nothing alarming has happened so far" in regard to infantile paralysis, says the provincial board of health report for the month of August, issued yesterday. Comparative analysis shows that whereas, in New York, the percentage of fatalities in cases of this disease is 29.4, in Ontario it is less than half that, being only 11.3.

Eight cases have been reported since Sept. 1. Windsor reports one, St. Catharines three, Sarnia one, Enniskillen one, Port Arthur one. One more death is reported.

A victim of the disease applied for a motor license yesterday. He had been crippled from childhood, and was forced to crawl along on his knees, dragging his feet. He was, however, able to drive a car. He had obtained a license in Quebec, but the officials at the parliament buildings referred him to the board of examiners.

Smallpox has almost disappeared from the province, and scarlet fever shows marked decrease. On the other hand, diphtheria, whooping cough and typhoid fever show a decided increase. Following is the comparative table:

Disease	1915	1916
Smallpox	5	2
Scarlet fever	37	0
Diphtheria	128	124
Measles	243	162
Whooping cough	190	104
Typhoid	190	64
Tuberculosis	103	69
Infantile paralysis	44	5
Cerebro-spinal meningitis	20	7
Total	1015	634

In July we had 29 cases of infantile paralysis and 2 deaths reported, chiefly from the western counties of the province. For the month of August, 44 cases and 5 deaths have been reported.

CAPTURE TRENCHES IN GREAT FASHION

Realistic Attack Proved Successful at Exhibition Grounds Yesterday.

JUST LIKE IN FRANCE

Bombing Party Gives Public Working Knowledge of Engineer's Work.

Something entirely novel in the way of military spectacles was presented last night in the model trenches before a large crowd of spectators. The bombing section recently arrived from Camp Borden made an exhibition of the method of conducting a night attack in the trenches, illustrating the use of bombs, flares, etc.

The squad, under the leadership of Sergt. Reynolds of the 20th Battalion, went into the trenches at 8 o'clock. Prior to charging one of the "enemy" trenches a mine was exploded and the barbed wire entanglements were destroyed by a flash of powder, illustrating the methods of destroying entanglements at the front. Bombs were thrown and the trench destroyed, and then the way was clear for an advance. The farther trench several feet. A counter-attack on the enemy line of cyclists and men of the 16th Battalion followed, during the process of which several flares were set up, and the final attack resulted in the complete success of the bombers. This feature was presented with much realism and demonstrated in a graphic manner the methods of the men at the front. This will be presented each evening for the remainder of the week.

The company of the 169th Battalion received an inspection yesterday which was followed by a performance of their company in a short address. Two platoons formed the guard of honor to the royal party at the civic farewell reception at the city hall. The regular program of physical drill and trench warfare.

Individual bayonet fighting was presented for the first time and the exhibition proved very popular with the spectators. This will also be continued during the remaining days of the week. The usual drill was held before the grand stand in the evening.

AMHERSTBURG WILL BE DECLARED INVALID

Woman Did Not Appreciate Extent of Estate in Her Sorrow.

Justice Lennon has declared invalid a document which Henry D. Menzies sought to have admitted to probate as the last will and testament of his 34-year-old daughter, Janet Menzies, 34 at Dayton, Pa., leaving an estate of \$100,000, and three statements alleged to be hers.

It is claimed that Mrs. Menzies executed the document soon after the death of her only son, Jack Menzies, and did not appreciate circumstances of the estate during her sorrow.

AMHERSTBURG WILL BE DECLARED INVALID

Mr. George Bury, vice-president of the C.P.R., was in the city yesterday inspecting the new union station and the North Toronto terminals. He also was a visitor at the Exhibition.

WOMAN DIES IN HOSPITAL AFTER PARALYTIC STROKE

After suffering a stroke of paralysis at Church and Spadina streets Tuesday afternoon, Mrs. McKellar, 64 McGill street, died in St. Michael's Hospital early yesterday morning.

Mrs. McKellar had been shopping and was returning to her home by way of Spadina street when she suddenly collapsed on the sidewalk. She was unconscious when taken to the hospital in the police ambulance and for some time her identity was unknown. She was identified by relatives and the funeral will be held at 11 a.m. tomorrow.

REPORT DISFAVORS CITY COAL PROJECT

Investigators Claim Municipality Could Not Conduct Business.

MAYOR DISAPPROVES

Transportation Difficulties and Lack of Facilities Are Argued.

Commissioners Chisholm and Harris yesterday reported against the city going into the retail coal business. Their information, placed before the board, was to the effect that there was some justification for \$5.40 a ton for coal, but that \$8.50 a ton was unreasonably high. Mayor Church did not approve of the report and told the commissioners so, but he signed it.

According to the commissioners' figures, it would cost the city \$7.05 a ton to lay coal down at the consumer's door in Toronto. This is made up of \$2.66 a ton for the coal at the mine, \$1.29 freight charges, and \$3.10 for delivery in Toronto. This makes no allowance for overhead charges, business risk or insurance.

"The city does not want to embark in the coal business," said Controller Cameron, "but if it is found necessary to check rising prices, I would favor going into the coal business and some other business."

Controller Thompson ventured the opinion that it might be well, after the coal business, to check the rents charged by some landlords.

Controller Foster said: "I hope that remark is not personal. I am willing to have such an investigation."

The report of the commissioners set out the difficulties of transportation and lack of facilities for handling the coal, and said that if there is a coal combine it is quite ineffective, but that the city has always been able to buy in the open market at favorable rates.

CAN'T PLAY LOOSE WITH THE OLD LICENSE ACT

Will Not Lose Its Effectiveness in Its Dying Hours as Offenders Will Find.

Those who think that they can do what they like with the Ontario License Act during the last hours of its effectiveness, before Sept. 16, will be disappointed to learn that the Interpretations Act makes it perfectly clear that, as long as it can be shown that the alleged offence took place during the currency of the act under which prosecution is brought, action may proceed, even though the act may have gone out of effect between the date of the offence and the subsequent trial. Eudo Saunders, solicitor to the license board, pointed this out yesterday.

Thus it would appear that any hotel-keeper or shop licensee who endeavors to keep up his remaining stock of liquor during the last hours before Sept. 16, is liable to prosecution under the old act, unless he has due regard for the provisions of that act.

TEN IN CASUALTIES LISTED YESTERDAY

Sergt. J. R. Buick Only Man Reported Killed in Action.

SEVEN ARE WOUNDED

Pioneer Edward Hodges Dies of Bullet Wound in Shoulder.

The official casualty list issued yesterday was very light, stating that one Toronto man has been killed, and 11 and seven men wounded, and seven reported wounded in a bullet wound in his left shoulder. He was 19 years of age and had been in the trenches two years.

Pte. Charles W. Mills of the Canadian Expeditionary Force is reported to have been killed in action on August 11 and seven months received in the battle of Zillebeke. Pte. Chestnut was a graduate of the University, and came from the States to enlist.

Pte. Frank Collins, aged 18, of 344 Delaware avenue, who is confined in the Connaught Hospital with heart trouble, is reported to have taken a turn for the worse, and is in a critical condition.

Three weeks ago Pte. A. Sidney Crouch, 787 Gerrard street, returned to the trenches after being wounded, and yesterday his mother was unofficially informed that her son has been wounded the second time, and is in a French hospital. He is the only boy in the family, and went overseas with the 86th Battalion.

Acting Lance-Corporal J. W. Armstrong, a member of the 74th Battalion, is in a clearing hospital suffering from shell shock. He went into the firing line last July with a draft of the Mounted Rifles. His wife resides at 123 Glenlake avenue.

REPORT DISFAVORS CITY COAL PROJECT

Investigations Claim Municipality Could Not Conduct Business.

MAYOR DISAPPROVES

Transportation Difficulties and Lack of Facilities Are Argued.

Commissioners Chisholm and Harris yesterday reported against the city going into the retail coal business. Their information, placed before the board, was to the effect that there was some justification for \$5.40 a ton for coal, but that \$8.50 a ton was unreasonably high. Mayor Church did not approve of the report and told the commissioners so, but he signed it.

According to the commissioners' figures, it would cost the city \$7.05 a ton to lay coal down at the consumer's door in Toronto. This is made up of \$2.66 a ton for the coal at the mine, \$1.29 freight charges, and \$3.10 for delivery in Toronto. This makes no allowance for overhead charges, business risk or insurance.

"The city does not want to embark in the coal business," said Controller Cameron, "but if it is found necessary to check rising prices, I would favor going into the coal business and some other business."

Controller Thompson ventured the opinion that it might be well, after the coal business, to check the rents charged by some landlords.

Controller Foster said: "I hope that remark is not personal. I am willing to have such an investigation."

The report of the commissioners set out the difficulties of transportation and lack of facilities for handling the coal, and said that if there is a coal combine it is quite ineffective, but that the city has always been able to buy in the open market at favorable rates.

TEMPERANCE ACT REPORT IS HEARD

Executives of Dominion Alliance Discuss Legislation Effective Soon.

REPORT ON FIELD DAY

Two Hundred and Thirty Seven Meetings Held in Student Campaign.

An interesting meeting of the executive committee of the Ontario branch of the Dominion Alliance was held at 2 o'clock yesterday afternoon in the Alliance's offices, 703-5 Laidman Building, when a report was presented giving a summary of the history of the progress made since the last full meeting of the committee, which was on March 31. This report dealt with the enactment of the Ontario Temperance Act, and the proceedings that had been taken to prepare for its coming into operation.

A report upon field day work for the first half of the year was presented by Rev. J. Bailey. It told of the holding of 1883 services in churches which were opened for Alliance representatives, and of plans for further effort along this line.

A report of the organization gave lists of 27 county conventions for the organization of the electors to secure their law enforcement, and to be prepared for any emergency which may arise.

These conventions have been attended and addressed by such prominent workers as President Steele, Rev. Dr. J. G. Shearer, Rev. Dr. T. Albert Moore, Prof. E. H. Cotton, Jos. Gibson, Jos. Oliver, James Simpson, G. H. Clark, Hon. Thos. Crawford, G. A. Warburton, Wm. MacDonald, M.L.A., Irwin Hilliard, M.L.A., and others.

The report of student campaign work told of 237 meetings held in northern and northwestern Ontario by student

STEAMER WITH COAL IS AGROUND NEAR COLBORNE

Special to The Toronto World.

FORT COLBORNE, Sept. 6.—The steamer Keyhole, one of the Keyhole Transit Co. boats, is ashore at Morgan's Point, about six miles west of here, loaded with coal and bound from Ashabula to Montreal. She is out on rock bottom about 25 inches. She went on in thick weather. They are arranging to send tugs and a lighter to her assistance.

SOLDIER DROWNS.

Special to The Toronto World.

KINGSTON, Sept. 6.—Relative of the Charlton was notified of the death by drowning of Pte. David Bell, Spence, in a canal in France. Spence was the eldest son of Mr. and Mrs. David Spence of Charlton.

Baseball Leafs Miss Chance To Gain on Bisons

LOST GOOD CHANCE TO GAIN ON BISONS

Lost First Game and Second Was a Tie—Went Fourteen Innings.

The Leafs last-chance for the International League pennant went awry yesterday, when they lost the first game of the scheduled double-header with Rochester, 5 to 1, in fourteen innings.

The Leafs evened it up in the third. Hayden walked and Freeman hit, Hayden moved up to third on Truesdale's clout, and went home when Trout was being thrown out.

The Royals did their best to help us at Newark (International). McKenry was at his best today and Richmond...

SIMPLE FAREWELL TOROYAL PARTY

Reception at the City Hall Yesterday Without Formality.

IN COUNCIL CHAMBER

Duke Praised Toronto in Reply to Farewell Address of Mayor.

Toronto's farewell to Their Royal Highnesses the Duke and Duchess of Connaught and the Princess Patricia did not afford an opportunity for any grand function on the part of the city. The proceedings at the city hall yesterday were simple in the extreme and there is not a shadow of a doubt that the participants, especially the royal guests themselves, were all the more delighted at the simplicity of the ceremony. Forty-five minutes sufficed for the whole thing, but in that short time the farewell was said on behalf of Toronto by Mayor O'Connell, and the duke feelingly replied, and at the conclusion a good number of Toronto's citizens were presented.

Duke's Wish.

It was the Duke of Connaught's own wish that there should be no "fuss or extravagance." His wishes were adhered to in every detail—noting was overdone. It is true that the council chamber had been transformed into a veritable fairyland by the introduction of beautiful plants, palms and flowers and the hanging of numerous flags. It is true that city officials worried their heads off in order that the proceedings might be carried out without a hitch; but it certainly could not be said that there was any "extravagance" or "fuss," in short, Toronto said goodbye to its governor-general and his family with unfeigned regret and with best wishes for their future happiness and prosperity.

The royal party arrived promptly at 4 o'clock and after passing between a guard of honor composed of a detachment from the 169th Battalion, made their way to the mayor's office, while the big crowd outside cheered their heads off and the band played the national anthem and the British Grenadiers. The first greetings took place, but these were soon over and the procession made its way to the city hall.

Mayor's Address.

In offering you and your royal family a right royal hearty welcome to Toronto, on behalf of my colleagues and myself and citizens of Toronto, I thank you for the expressions of devotion and fealty to the crown and person of our beloved Sovereign. I also express their unfeigned regard and admiration for the high office of your royal highnesses to Canada during the past five years are about to be severed.

By the King's command your royal highnesses assumed the high office of governor-general of Canada, our people welcomed the appointment of a member of the royal house as another proof of his majesty's affection for his Canadian subjects, who have watched with interest and admiration your career of efficient service and performance of duty as a soldier from the time when, more than 40 years ago, you were in the ranks of the British army in this country to assist us to put down the Fenian raid invasion, for which you wear a Fenian veteran's medal.

Popular Governor.

Since you first visited our city, accompanying Lord Lisgar, the governor-general of Canada, until the present, you have always had a warm regard for our city and our people. I know that I can truly say that no other appointment could have been as extremely popular and acceptable, and am sure that in your judgment that our brave Dominion evidenced has not been lacking of the very great satisfaction with which your occupancy of the important office of governor-general of Canada has been regarded by the Canadian people, irrespective of class.

It is a devotion with which your royal highness has performed the onerous and responsible duties devolving upon you as the representative of his majesty the King, your earnest desire to promote the interests of Canada, and the unflinching kindness which has ever characterized your official and social relations with our people, have won all our hearts, and we trust that it may be a source of satisfaction to your royal highness to know that you have set an example of zealous performance of duty which cannot fail to have a beneficial influence throughout the land.

Loyal to Last.

The last two years of your royal highness's official career have coincided with the greatest and most destructive war in the history of the human race. In this connection we trust that we are not unduly proud of the efforts and sacrifices which the Canadian people have made in rendering their best assistance to the empire. In carrying on the war, and we trust that you will assure his majesty the King that it is our inflexible determination that nothing shall be wanting on our part to bring this great conflict to a victorious conclusion for the empire and our brave allies.

More especially do we honor you today and acknowledge our great debt of gratitude for the invaluable services you have rendered to the Canadian soldiers since the war began and your interest in everything that pertains to their well-being. Your name will be ever honored, revered and held dear by the people of Canada. You take back home with you the admiration, affection and respect of all classes of our citizens, and in no part of our common country are you more honored, admired and loved than in this loyal City of Toronto, where the call to the colors has been so splendidly responded to.

Praised Consort.

May I be permitted to make grateful acknowledgment of the great kindness and unflinching courtesy which has been extended on every occasion by your royal consort the Duchess of Connaught and her royal highness the Princess Patricia. I cannot speak too highly of all they have done, both before and since the outbreak of the war, to assist in everything that pertains to the welfare and advancement of the Canadian people. We admire the splendid aid and help they have been, and in no part of the country has their work been more appreciated than it is in Toronto by the

women's organizations of our city and our citizens generally.

In saying farewell, our prayer is that your royal highnesses may have long and happy lives under the favor of divine blessing, and that amongst the pleasant recollections of your sojourn in different parts of the British Empire there will be more cherished than those of your five years' residence with the people of Canada.

Deeply Impressed.

Responding to the duke said he was touched and impressed by the kind words, and the occasion naturally created a feeling of sorrow. He referred to his knowledge of the city and said he had watched it grow from a small town forty-six years ago into the second largest city in the Dominion. "The colossal growth of Toronto has been wonderful," he said. "There may come a time when it will be the first city in Canada. It was founded by the fine stock of the U. E. Loyalists and these rugged pioneers rather than change their allegiance traveled miles and miles thru swamps and forests in order to come here."

Speaking with reference to the city at the present time, he declared that the beautiful streets, parks and gardens were silent tributes to the work of efficient municipal administration. "The people are in a constant state of thankfulness for their wonderful generosity," he continued. "They have given much to aid the promotion of hospitals and other pieces for the benefit of their fellow-men. The young children have been looked after by means of parks and playgrounds, and these are surely of great benefit."

"This is a time of war and I naturally turn to what Toronto has done in furthering the cause of the British Empire. You have sent a large number of fine men to fight and Toronto has a right to be proud of them," he said.

Labor of Love.

Speaking on his own behalf, the governor-general observed that his work had been a labor of love and it had been a great pleasure to him to further the best interests of the community and the empire. Canada had been upset by the war, but when the soldiers returned they would be a source of strength and the country would be a better one. He thanked the citizens for their warm felicitations towards his consort and daughter-in-law, and said that they had taken just as much interest in Canada's welfare as he.

The presentations followed, but the introductory speech by the Duke of Connaught, who lost both eyes while conducting a hazardous enterprise near Ypres, afforded the duke an opportunity for a little heart to heart talk. It was a pleasing conclusion to the function. All eyes were fixed on the gallant lieutenant with the British military cross and the French Croix de Guerre pinned on his breast. With sightless eyes he listened earnestly to the duke, who congratulated him and asked him questions regarding the education he is now taking up to fit him for life's work, despite the loss of his eyes. While the scene was pathetic in the extreme, no one in the large audience could but feel proud to renew his acquaintance with one of the brave heroes of Ypres. The duke and the Princess Patricia were

Maxwell
\$850

WHETHER you choose a car for appearance, easy-riding qualities, mechanical ruggedness, operating economy, or all of these points, a Maxwell will fully satisfy you. For these are the features that have made it possible for the Maxwell to set a new standard of motor value.

PUT LITTLE VALUE ON HOTEL OPTION

Shrunk From Thirty-Seven Thousand to Ten Cents, According to Lawyer.

Prohibition, which becomes effective Sept. 16, has already made its effect felt in legal proceedings, in changing the value of an option for \$37,500 held by T. W. Holloway, into an asset for which he would not give ten cents, according to statements made by J. A. Haverston, K.C., before the masters in chambers at Osgoode Hall yesterday.

Mr. Haverston's client, Peter Small, was defendant in a suit brought by J. F. Loudon, who asked \$16,146 balance due in the purchase price of \$40,000 for the Victoria Exchange Hotel, 53 Victoria Street, it is said.

Mr. Loudon bought the hotel from P. S. Tremble; it was subject to the option held by Holloway, who is now the owner. Loudon sold to Small on an understanding that a lease was to be obtained from the option, it was contended. Mr. Small now says that the lease required was not given until last June, when the Ontario Temperance Act had "wiped" out the value of the business.

HARRIS GETS COMMAND.

KINGSTON, Sept. 6.—Capt. R. Carr Harris, a graduate of Queen's University and also of the Royal Military College, has been given command of the 2nd (Queen's) Battalion.

"MOLLY'S OWN" BECOMES ACTIVE RECRUITING UNIT

Ride Past Grand Stand at Exhibition Proves Efficiency of Their Training.

The Cyclists are still an active unit in the recruiting world. To further assist their cause, a "Molly's Own" grand stand at the Exhibition forms a good example of the efficiency of their training as a mounted unit. Records are going steadily since their introduction to the public recently by Miss Molly McIntyre, and the name of "Molly's Own" seems an extra attraction.

The troop, under canvas at the Exhibition, is a fine specimen of members of the C.E.P. units. Adjutant Lowry and Lieut. J. Forgie are officers over from Niagara with the Cyclists in Toronto.

TWO ARRESTED CHARGED WITH FURNITURE THEFT

On the authority of the chief of police of Hamilton, Detectives Young and Lougheed arrested Arseny Buzinski and Mary Demeuk of Hamilton, on a charge of theft from Mr. Demeuk, the woman's husband. The alleged theft comprises the removal of articles of furniture from Demeuk's house.

Instant Relief for **Biliousness** and other Liver Troubles

The astonishing efficacy of Dr. Cassell's Instant Relief is due to its toning effect upon the liver and bowels. It gives strength to the organs and helps them back to health and natural action. In other words it enables the system to cure itself. Don't weaken your liver with purgative pills or morning salts, don't get the salt-taking habit; let Dr. Cassell's Instant Relief bring you natural and therefore lasting cure.

Dr. OHAS. F. FORSHAW, D.Sc., F.R.M.S., a well-known British Scientist, writes: "Never take Saline or Purgatives for Constipation—force bowel action is to aggravate the trouble and create the Constipation habit. I recommend as a superior and convenient treatment Dr. Cassell's Instant Relief."

Price 50 cents. from all Druggists and Storekeepers, or direct from the Sole Agents for Canada, Harold F. Ritchie and Co., Ltd., 10, McCaul-street, Toronto.

Dr. Cassell's Instant Relief is the companion preparation to Dr. Cassell's Tablets.

ITALIAN VICE-CONSUL BIDS TORONTO FAREWELL

Gives Thanks to Citizens and Expresses Admiration for Canadians.

Dr. Domenico Marino, Italian vice-consul in Toronto, will shortly leave Canada to take charge of a new office at Bone, Algeria, an important political post on the Mediterranean.

His place will be taken temporarily by Victor Gianelli of Toronto.

Before his departure Dr. Marino wishes to express his appreciation of the many courtesies extended to him by the citizens and officials of this city and has sent the following letter to The World:

Editor World: In leaving Toronto, after a residence of 16 months, I feel that it is my duty to extend, thru you, thanks to the eminent authorities of this city, and to all that have shown to me their sympathy.

During my stay in Canada I have had the opportunity of appreciating the eminent moral qualities and the splendid productive forces of this generous nation, that is sacrificing many sons for the great cause which we are fighting for today. I shall bring from this beautiful country, destined for a great future, a most grateful remembrance.

I wish to express my most ardent wishes to the valorous sons of Canada, on (furlough until Oct. 21), but this may be extended. Altho he has now with my fellow-countrymen, the victors of the liberty and the right against tyranny and barbarism.

STEACY, AFTER LOSING EYE AT YPRES, RETURNS

Special to The Toronto World.

KINGSTON Ont., Sept. 6.—Among the Kingston convalescents who returned on the S.S. Metagama was Lieut. Walter Steacy, the 19-year-old son of Mr. and Mrs. E. T. Steacy, who lost the sight of his right eye while fighting with the Canadians at Ypres after being in the trenches about three weeks.

Lieut. Steacy is on furlough until Oct. 21, but this may be extended. Altho he has now but one eye he is most valuable to the army on account of being a trained officer.

Beauty and Backbone

The Cole Eight is one of the most beautiful cars in the country—bar none.
The body is set stylishly low; the design is the work of one of the world's master body creators; it is fashionably finished right down to its finger tips.
It is the largest Eight built—and the roomiest—but relatively the lightest.
There is enough room to permit divided front seats with a wide aisleway between.
One does not have to weigh under 100 pounds to squeeze through the aisleway.
As to performing ability nothing can touch or equal it.
This powerful giant seventy horsepower eight cylinder motor has shattered all old, and established an entirely new set of economy and efficiency records.
It has silence and strength and will outlive any other motor built.
So here is both beauty for those who desire smartness, and backbone for those who desire stamina and life.
You'll miss something if you fail to examine the Cole—the country's dominant Eight.

LONDON STOCK EXCHANGE.

LONDON, Sept. 6.—The stock market was firm today, with a steady demand for consols. Amman shares were supported owing to rumors of an amalgamation. Allied bonds hardened, except the French and the new issue next week. Expectations of a new issue next week. South American securities were in good request, and various South African shares were strong on Cape Town buying. American securities were quietly steady and featured as follows:
The revenue returns for last week

NUXATED IRON

Increases strength of delicate, nervous rundown people 200 per cent in ten days in many instances.
Old, 10c; new, 12c per bottle.
100c FORFEIT

LARGE ORE RESERVES OF N. S. STEEL COMPANY.

The Wall Street Journal is authority for the statement that the large earnings of the Nova Scotia Steel and Coal Co. will provide funds to permit working the immense ore reserves of iron, said to be the most valuable in the western hemisphere, apart from the holdings of the United States Steel Corporation.

IRON PYRITE PRODUCT OF CANADIAN MINES

Mineral's Chief Use in the Manufacture of Sulphuric Acid.

MAJOR DEPOSITS

Important Industry Not Given Prominence It Deserves.

Iron pyrite has not as yet attained the prominence which it deserves. It has, however, been mined for many years in the Province of Quebec and in Eastern Ontario since 1900. Here the total production has brought about \$2,000,000.

Large deposits of iron pyrite have been discovered at Flin Flon Lake, north of Le Pas and near the boundary line between Manitoba and Saskatchewan. Here the pyrite contains 54 per cent sulphur, 32 per cent iron and 14 per cent silica.

Pyrite alone must be of high grade in large quantities and convenient transportation before it is commercially valuable, and this is one of the most important factors in its production.

The deposits at Flin Flon Lake are the largest of any metal or ore in any part of the world. Probably the largest bodies of pyrite known in Ontario are at Verulamville Lake, near the Grand Trunk River, 180 miles west of Port Hope, Ont.

It is believed that practically all the mines in Ontario are owned or controlled by American capitalists. The deposits of pyrite in the United States are very limited, and the liquid sulphur now being obtained in Canada is as suitable for acid as that contained in ordinary pyrite.

In the great pre-cambrian areas of Canada there are vast deposits of pyrite which will eventually be used. With the advance of the petroleum industry the manufacture of pyrite mining is certain to assume large dimensions.

The Helen iron mine at Michipicoten, the largest yet opened up in Ontario, was probably originally a pyrite property. The oxidation of this class of ore is so rapid that when exposed to the air in quantity it soon turns into oxide of iron, or what is known as hematite.

Since the war began sulphuric acid has increased in value 233 per cent, and bleaching powder, which cannot be made without this acid, has appreciated 431 per cent. In refining petroleum and many other substances, in making powder and all explosives in the manufacture of fertilizers and other substances too numerous to mention, sulphuric acid is indispensable, and owing to the scarcity of pyrite in the United States sulphur mines are constantly coming into much greater demand.

The Helen iron mine at Michipicoten, the largest yet opened up in Ontario, was probably originally a pyrite property. The oxidation of this class of ore is so rapid that when exposed to the air in quantity it soon turns into oxide of iron, or what is known as hematite.

DOMINION RAND SHIPPING REGULARLY

Company's Gold Claims in Porcupine to Be Diamond Drilled.

By Special Correspondent. TIMMINS, Sept. 5.—The Dominion Rand Company are now making regular shipments of their copper property situated at this point, the latest shipment of fairly high grade going out yesterday. The manager here also states that diamond drilling will be commenced on the company's Porcupine gold claims. Tenders for this work have been asked and these will be awarded as soon as received.

CALUMET AND MONTANA LISTED ON THE MARKET

Airgold Claim in Cobalt Now Being Operated by a Strong Directorate.

Calumet and Montana Consolidated shares made their initial appearance on the Standard Mining Exchange yesterday, selling at 51 to 52 cents a share.

The company is operating the property known as the Airgold claim, in the Cobalt district, and has been doing extensive development work for the past six months. The company has a strong financial western directorate, and the shares widely distributed throughout the western part of the United States.

The president of the company is Henry Oswald, treasurer Minneapolis Mining Co., Minneapolis, Minn.; James F. Patterson of the Schunemann-Evans Co., St. Paul, is vice-president; James F. Boyle of the Crocker-Hughes Co., Toronto, is treasurer. These gentlemen, with M. L. Danforth, Neche, North Dakota; Wm. Wetohal, Nepean, Ontario; C. H. Collins of the Sloan of Mackenzie-Mann Co., Toronto, comprise the directorate.

Mr. George G. Thomas, C. and M.E., is consulting engineer, and the work is in charge of Ernest McCarthy, M.E., of Halleybury.

Large quantities of iron pyrite have been discovered at Flin Flon Lake, north of Le Pas and near the boundary line between Manitoba and Saskatchewan. Here the pyrite contains 54 per cent sulphur, 32 per cent iron and 14 per cent silica.

BIG FORCE OF MEN WORKING AT HOLLY CONCRETE FOUNDATION FOR NEW MILL

Addition Almost Completed.

By Special Correspondent. TIMMINS, Sept. 6.—Hollinger Consolidated is a mighty busy-looking property. Twelve hundred men are working, under and above ground.

The new central shaft plant, with its 1,000-ton crusher, will be completed by the first of March and then put into use. An investment of three-quarters of a million dollars will be represented by the central shaft and mill addition.

Underground, Hollinger is connecting up all the workings of the consolidated properties on the 425 foot level. The shaft will be built in the vertical from the fact that one connection to workings near the Vipond, is 2600 feet long.

NEWRAY-HANSON VEIN VIGOROUSLY WORKED

Test Shaft Down Twenty Feet—To Be Sunk Thirty Feet More.

By Special Correspondent. SCHUMACHER, Sept. 6.—Vigorous work on the Hanson vein is proceeding at the Newray. The test shaft is down 20 feet, and will be sunk 30 feet. It is inside the vein so far with no signs of the footwall showing.

The second drill hole is now 360 feet down. The cores at depth have not been assayed; the drill has run through quartz and schist in several places. The Newray is showing up stronger and bigger with each day's work. Management is gaining with their knowledge that can be successfully employed when underground development begins in late fall.

PRICE OF SILVER

In London yesterday bar silver closed 4 1/2 higher than yesterday at 27 1/2 per ounce. The New York price was 1/4 of a cent higher at 88 1/2.

NEWRAY NEXT DOOR TO BEING PRODUCER

Element of Costly Experiment Lacking Owing to Geological Knowledge.

MINING MAN'S OPINION

The following is a partial copy of a letter sent by a prominent man in Porcupine to a large shareholder in Newray. The letter speaks for itself and more than confirms all that has hitherto been stated as to the new development at the Newray:

"What first strikes an impartial visitor is the amount of equipment on the job. The mill, compressor plant, power house, head frame and camp buildings are all impressive in this way; that in them the property has a great advantage over its competitors at this stage of development. From a cursory glance at the mill and power plant one can gather that a very small amount of money, more than would be needed to put them into first-class running order. Further, you have the advantage of a well-timbered shaft down to the 400-foot level and other underground work from which to proceed. And again you have the advantage of knowing how the mine acts in every respect, and a geological knowledge that is only gained by extensive underground labor and expenditure. In other words, having the stock at a production, and this without delay or experiment.

"I could gain no personal knowledge of the vein which records show produced something over \$200,000 in gold. The diamond drill now running its second hole should acquaint the manager with the present location and value of that vein. This second hole is at 350 feet, the first ore, so core tabulations show, went 880 feet. In the core are several good showings of vein matter, and it is highly probable that the vein would probably prove valuable.

"All work is now confined to the surface, and therefore the visitor has the opportunity to see the workings of the mine, and to see the extent of the shaft, and in common with other veins unworked lately on the property—namely common with all the big mill workings of Porcupine—strikes northeast and southwest. I stepped off 400 feet of stripping and trenching on this vein and it has been exposed to the surface. A prospect shaft was down 15 feet when I called, and it was entirely in the vein, which appears to be 12 feet and upwards wide. The ore is of the best paying ore of the camp and splintered with free gold. Fifty feet of sinking should reveal it a big milling body of better than average grade.

"One hundred and fifty feet southeast of the shaft is another vein, the Hanson vein, known for some years here, and the quartz is identical with that of the vein the big shaft is on. The very latest discovery is very spectacular. It happened fortunately to be present when it was first broken into and saw a score of pea-sized nuggets taken from it and plenty of free gold in place. The vein is two to three inches wide, with very rough panning. The vein is 10 to 12 inches wide and a dandy. It is just behind the power house.

"Newray has a big thing in that from the shaft to the Hanson vein is an area which takes in within 700 feet the best of the camp. The area, from its schistose structure is admirably suited to the formation of strong veins. In most places the schist and quartz are heavily impregnated with sulphides, and in other respects this area is all that could be desired in mineralization and structure. It is a very good area, and other veins will be found in this area.

"An outstanding feature is that a crosscut 700 feet will pick up underground veins known at present and in all likelihood reveal other ore bodies and of course permit a far better estimation of their character. "Within a very short time from the commencement of underground operations the mine should be into milling ore in plenty, a good achievement it strikes me. All this is considered, Newray has all the earmarks of a strong proposition and big, sure winner."

PORC. CROWN STRIKE OF GREAT IMPORTANCE

Not a New Vein, But the Old One Struck in Different Place.

By Special Correspondent. TIMMINS, Sept. 4.—First reports, while slightly awry, did not exaggerate the importance of the strike on Porcupine Crown. It is not a new vein, but the old one struck in a new place.

Nevertheless, the strike is a good thing for the mine. On the 700-foot level the vein swelled a bit, reducing mill heads. The higher grade ore now run into will bring values back again.

The strike was made in a winze being run from the 700 to the 800-foot level, just above the 800-foot winze was continued, and in the sump, which of course was run down to the usual depth, the floor was found to be "plastered" with free gold. It was decided to continue sinking to the 900-foot level, and with forty feet more depth the vein is averaging about as rich as ever. It is about 55 feet more to the 900-foot level.

From the 800-foot level the vein has been drifting to the west, and the faces show good milling ore, and the faces show good milling ore.

MINING STOCKS MORE ACTIVE AND BUOYANT

McIntyre, Teck-Hughes and Kirkland Lake Features of Strength.

The mining market at the Standard Exchange yesterday was more active, with business well distributed throughout the list. Interest was centred chiefly in the gold stocks, however, altho the continued advance in the price of silver is causing a renewal of trading in the Cobalt stocks. The tone of the market was more buoyant than for some months. Buying orders came in good volume from both the north country and New York, which tended to swell the volume of business and to cause an upward trend to prevail.

McIntyre, Teck-Hughes and Kirkland Lake were the outstanding features of strength in the market. The continuation of inside buying in McIntyre, which has been going on for the past few weeks, was reflected in the market yesterday when the stock made a new high point for this movement, selling up to 146 for an odd lot. It was heavily dealt in around 140 to 144.

The generally satisfactory condition of Teck-Hughes, assisted by a large volume of orders, served to push the stock of this company to a new high record at 48 1/2, a gain for the day of 1/2 points. The Kirkland Lake stock, which was listed a few days ago, was advanced to 35, a ten-cent advance over the recent bid. The optimistic reports from the Kirkland Lake district on this property have created a very favorable impression locally, giving the stock an auspicious beginning.

Some Extension of the Dome and Dome Lake held firmly around 44 to 45. Jupiter sold at 39 to 38 1/2, and trading in the best bid 31 to 30, and in the afternoon, with the best bid 31 on the close. Porcupine Crown opened at 84 and reacted to 81, closing better at 82. West Dome at 59 to 58 1/2 was steady strength, holding at 65 to 66 1/2. The Davidson stock, which has just been added to the Porcupine list, was a feature, opening at 25 bid and jumping to 32 bid in the afternoon.

Beaver displayed good openings at 42 and ending some activity, opening at 42 and ending to 41. Nipissing was stronger at 77 1/2 to 77 and Le Rose for an odd lot sold at 68. McKinley held at 59 and Timiskaming gained a little ground to 68. Another issue to be listed was the Cobalt and Montana, which made its initial sale at 60 and rose a point.

STANDARD STOCK EXCHANGE

Table with columns: Name, Bid, Ask, Change. Includes stocks like Cobalt, Adanao, Bailey, Buffalo, Chambers-Ferland, etc.

STANDARD SALES

Table with columns: Name, Op, High, Low, Cl, Sales. Includes Porcupine, Davidon, Dora Ex., etc.

KIRKLAND LAKE CAMP SECOND TO PORCUPINE

Advent of Cheap Power to Remove Only Restraining Factor in Camp.

VEINS VERY NARROW

But High Values Recovered From Wall Rocks—Tough-Oakes Producing.

Kirkland Lake is the camp to watch. It is the second gold district in Northern Ontario, and the ore is a producer of almost a million dollars a year, has been severely handicapped by lack of cheap hydro-electric power.

McIntyre, Teck-Hughes and Kirkland Lake were the outstanding features of strength in the market. The continuation of inside buying in McIntyre, which has been going on for the past few weeks, was reflected in the market yesterday when the stock made a new high point for this movement, selling up to 146 for an odd lot. It was heavily dealt in around 140 to 144.

The generally satisfactory condition of Teck-Hughes, assisted by a large volume of orders, served to push the stock of this company to a new high record at 48 1/2, a gain for the day of 1/2 points. The Kirkland Lake stock, which was listed a few days ago, was advanced to 35, a ten-cent advance over the recent bid. The optimistic reports from the Kirkland Lake district on this property have created a very favorable impression locally, giving the stock an auspicious beginning.

Some Extension of the Dome and Dome Lake held firmly around 44 to 45. Jupiter sold at 39 to 38 1/2, and trading in the best bid 31 to 30, and in the afternoon, with the best bid 31 on the close. Porcupine Crown opened at 84 and reacted to 81, closing better at 82. West Dome at 59 to 58 1/2 was steady strength, holding at 65 to 66 1/2. The Davidson stock, which has just been added to the Porcupine list, was a feature, opening at 25 bid and jumping to 32 bid in the afternoon.

Beaver displayed good openings at 42 and ending some activity, opening at 42 and ending to 41. Nipissing was stronger at 77 1/2 to 77 and Le Rose for an odd lot sold at 68. McKinley held at 59 and Timiskaming gained a little ground to 68. Another issue to be listed was the Cobalt and Montana, which made its initial sale at 60 and rose a point.

PUSHING DEVELOPMENT ON SUCCESS PROPERTY

By Special Correspondent. SCHUMACHER, Sept. 6.—On the Success about 100 men are now working and the shaft down 214 feet. About 300 feet of drifting has been done, all at the 300-foot level. The vein, which is 30 inches wide where being worked, has been drifted along for 35 feet.

No word was obtainable as to the values in the vein, merely that it was "looking better all the time." Surface work is not being proceeded with. The Success is now owned by the Republic Mines Co. This is the third company that has been on the property this year.

MINING MEN

Between West Shining Tree Gold Camp and Nipigon (460 miles) several mining belts cross our steel, especially the western extension of the Porcupine Gold Belt. Dominion and Provincial geologists have been mapping out the formation ten miles on each side of the line all the way through, so that later on we can present maps to mining men showing the exact economic formation. This work, together with what we know from our land and timber cruisers who were selected from the "Cobalt, Porcupine and Sudbury" experience, makes it possible for us to save mining men weeks of useless prospecting by their men out on the ground.

Information is at your disposal, because mining development means rail haul to us; cannot guarantee you will find pay ore, but do know that we have ground well worthy of prospecting and development. C.Y.L. T. YOUNG, Manager Eastern Lands, C.N.R., Toronto.

MARK HARRIS MINES AND MINING

The news emanating from Porcupine this past fortnight has been of such a truly sensational nature that I have made up my mind to run up there again, just to satisfy myself that these reports are all true.

Strikes, finds, new ore bodies and rich veins have been so frequent of late that it takes a discovery out of the ordinary to cause even a ripple of excitement at Porcupine in these days.

No doubt the wonderful discoveries on the Newray are responsible for this state of affairs, for these new discoveries have been of such a sensational nature that the finding of a new vein on some other property is a small event in comparison.

During the past fortnight new rich veins, or large ore bodies, have been uncovered on no less than six different properties, not counting the big finds on Newray, and although in normal times these new ore bodies would mean some increment in the value of stock, the importance of the discoveries on Newray have so overshadowed these minor finds that one would never know they happened if the stock market was the sole guide.

Some securities have actually fallen a point or two after the good news was received, and this only goes to prove what I have long contended that Porcupine was indeed the premier gold camp of the world.

Had these same minor discoveries been made in far off Arizona or Alaska, they would have been heralded far and wide in the newspapers, and investors would have purchased so heavily that prices would soon be forced sky high.

As it is, they were made in Porcupine, on properties that are already in the producing class, or being aggressively developed. As I said before, rich strikes are so common in this phenomenal camp that the finding of ore bodies that take a property out of the prospect class, do not cause more than a squib or two in the daily papers.

Newray is the one exception that has attracted nation-wide attention this past month, but if ever a mine deserved such attention, Newray is the one.

When work was resumed on this property two months ago, the management "hoped" to find a vein that had been lost. This one vein had produced more than \$200,000 when it suddenly faulted and was lost.

I say they "hoped" to find this lost vein, because nothing is certain in mining until it is an accomplished fact.

Up to date they have not found that lost vein, and the funny part of it is that they do not care whether they find it or not. The reason is obvious.

They have found something far more important than that lost vein. They have already found three large veins, two of which are larger, richer and more important than the lost one.

The first one has been described by outside correspondents as the biggest new discovery of the year, and even this recommendation does not do it full justice.

The find was really a series of veins, running from ten to forty feet in width and carrying good milling values, at every point where samples were taken.

This big discovery has since been opened for several hundred feet, and in a shaft that was recently sunk, high-grade milling ore was encountered as far down as the shaft has gone.

Old timers who are familiar with every big vein in Porcupine visited the property, and after a careful examination, declared the find a continuation of the big Hollinger vein.

This one discovery was big enough and rich enough for an ordinary mine, but the old saying that it never rains unless it pours certainly held good in Newray, for on top of this big discovery along came a new find several hundred feet away and running parallel with the original.

This second discovery is almost of equal importance, as it has shown spectacular values and is proving up in much the same manner as discovery Number One.

BIG EXPORT CALL SENDS WHEAT UP

Visible Supply Figures, Larger Than Expected, Gave Bears Early Advantage.

CLOSING WAS STRONG

Europe is Offering to Pay Generous Premiums for Cash Wheat.

CHICAGO, Sept. 6.—Announcement of big export transactions aggregating 1,750,000 bushels of wheat prices decidedly upward today after the market had undergone a succession of nervous changes.

Notwithstanding that wheat closed with a burst of strength, speculators hammered the market during the greater part of the session.

The market was disturbed by conflicting reports as to the success of the new German loan.

High premiums which were being paid for cash wheat indicated that an urgent demand existed at present for shipments to Europe.

Advices from Winnipeg said that No. 1 Canadian wheat was so over the October delivery there, the largest premium so far on the crop.

Changes in the value of the dollar dependent principally on the action of wheat.

Export houses were good buyers of hogs. Offerings were light.

Provisions averaged higher with hogs. In point of activity the January options took the lead.

FRESHVEIN FOUND ON MONTYRE PROPERTIES

Rich Extension of Ore Body Formerly Developed, Has Been Located.

MILL OUTPUT LARGE

Average is Twelve Thousand Tons Monthly and Values Are High.

Special to The Toronto World. TIMMINS, Ont., Sept. 6.—Jupiter-McIntyre has struck a rich extension of the ore body formerly developed on the 400-foot level.

There is a story that a large body of ore was discovered in the last few days on the main McIntyre property.

A big property like this has wide credence up here that some good lodes have been made in the last few days on the main McIntyre property.

Hollinger Consolidated has made a good start on the opening out of underground ore bins.

To V. H. Kowkash. Some of the directors of the Hayden Mine, Ogdon Township, three miles from here, have been looking over the property and well established with progress.

Kowkash district is to get its first private car Friday, when shareholders and directors of the New Tashorn Co. come up from Baltimore and thereabouts to look over its 14 claims in Tashorn.

Six drill compressors and two stamps will be put on the Wells' claims this winter.

FREE GOLD YIELDED BY AUGURITA MINES

Three Good Veins Have Been Cut by the Diamond Drills.

Special to The Toronto World. SOUTH PORCUPINE, Sept. 6.—The Augurita Mines, which have 120 acres half a mile southeast of the Dome, have run into free gold in their No. 2 diamond drill hole.

CRAWFORD PEACHES

PRICE OF GERMAN MARK IS STILL ON THE DIP

German marks were down another cent yesterday to 94 1/2 cents for 100 marks.

ANOTHER HEAVY FRUIT MARKET

Peaches Declined Slightly in Price and Big Quantity Remained Unsold.

PLUMS WERE LIGHT

Melons Kept Stationary—Black Currants Returned Yesterday.

There was another heavy market yesterday, with peaches again heading the list in point of quantity.

Plums were again shipped in lightly, and remained about stationary in price.

Black currants came back again and were sold at \$1.50 per 11-quart basket.

Red peppers continued to bring high prices, selling at \$1.25 with some specially good ones bringing more.

Corn was shipped so lightly it did not nearly meet the demand, and therefore advanced in price, the best quality selling at 25c per bushel.

Tomatoes did not vary much from Tuesday's prices, the 11-quart selling at 25c to 30c, with an odd one bringing 40c.

White & Co. had a car of peaches from Fisher of Queenston, and a straight car of plums from Hastings of the Winona Fruit Growers.

Chas. S. Simpson had a car of oranges, selling at \$2.35 per 50-lb. sack.

Samuel Hisey had a car of New Brunswick Delaware potatoes, selling at \$3.25 per 80-lb. sack.

McWilliam & Everist had two cars of oranges, selling at \$5 to \$5.50 per case; a car of bananas, at \$1.75 to \$2.25 per bushel.

McKinnon had two cars of New Brunswick Delaware potatoes, selling at \$2.35 per 80-lb. sack.

Apples—30c to 40c per 11-quart choice, 50c to 60c per 11-quart, 11-quart, Duchesse, No. 1, \$2.25 to \$2.75 per bushel; No. 2, \$1.75 per bushel.

Bananas—\$1.75 to \$2.25 per bushel; Blueberries—\$1.50 per 11-quart; Blackberries—25c to 30c per 11-quart; A few at 60c to 75c, and 40c to 50c per 16-quart.

Grapes—California Malaga, \$1.90 to \$2 per case; Tokays, \$2.75 per case; Canadian—\$2.50 per case; Ontario—\$2.50 per case; Moore's Early, 30c to 40c per six-quart, and 45c to 50c per 11-quart.

Watermelons—30c to 40c per bushel; Cucumbers—Canadian, 15c to 20c per bushel; Ontario, 15c to 20c per bushel; Peas—\$1.75 to \$2.25 per bushel; Beans—40c to 50c per 11-quart, 135c per bushel; Canadian, 11-quart, 11-quart.

Carrots—40c to 50c per 11-quart, 135c per bushel; Celery—30c to 40c per dozen bunches; Corn—15c to 20c per bushel; Cucumbers—Canadian, 15c to 20c per bushel; Ontario, 15c to 20c per bushel; Eggplant—75c per 11-quart basket; Lettuce—Imported Boston head, \$3.25 per bushel; Ontario, 11-quart, 11-quart.

Onions—Indiana, \$3.75 per 100-lb. sack; California, 15c to 20c per bushel; Ontario, 15c to 20c per bushel; Potatoes—Ontario, \$2.35 per 80-lb. sack; New Jersey, 15c to 20c per bushel; Peppers—Sweet, green, 15c to 20c per bushel; Hot, 15c to 20c per bushel; Beans—New-laid eggs went fairly well, at 35c and 40c per dozen.

Potatoes were noted for their absence, practically none being brought in. Tomatoes sold at 20c and 25c per six-quart and 35c to 40c per 11-quart.

Beans were of better quality than they were earlier in the season, and brought 15c to 20c per bushel. Vegetable marrow varied from 15c to 25c, according to size. Green onions brought 35c and 40c per bushel.

Spinach, 15c to 20c per bushel; Cabbages, 15c to 20c per bushel; Cucumbers, two for 5c, and pickling cukes from 5c to 10c per 11-quart basket.

Plums were brought in freely, and offered at 50c to 75c per 11-quart basket, and 25c to 30c per six-quart, and 30c to 40c per 11-quart.

There were fifteen loads of hay brought from the St. Lawrence Market, which sold at \$1.50 to \$2.00 per ton.

Hay, new, per ton, \$1.50 to \$2.00; Straw, loose, per ton, \$1.00 to \$1.50; Straw, cut, per ton, \$1.00 to \$1.50.

Dairy Produce: Retail—Eggs, new-laid, \$1.00 to \$1.50 per dozen; Butter, farmers' dairy, 65c to 70c per lb.; Bulk, good, 60c to 65c per lb.; Spring chickens, 10c to 15c per lb.; Poultry, 10c to 15c per lb.

THE PARIS BOURSE. PARIS, Sept. 6.—Trading was quiet on the bourse today. Three per cent. rent, 83 francs, 90 cent; 5 per cent. rent, 84 francs, 90 cent; 10 per cent. rent, 84 francs, 90 cent.
