ARMY HOLIDAY FOR EUROPE TALKED OF

Said Lloyd George Will Propose It at Genoa.

Land Force Limitation on the Same Lines Adopted at Washington for Navies—Russian Matters Still to the Fore.

(Canadian Press.) Genoa, April 12—Premier Lloyd George, of Great Britain, contemplates suggesting an agreement for limitation of land armaments in Europe for a definite period, according to an unverified report, before the adjournment of the present international economic conference. The "army holiday," it is thought will be patterned after the naval holiday arranged at the Washington conference. Disarmament continues to be the most discussed question among the delegates, although barred from formal consideration following the initial tilt between the French and Russian delegations when the Soviet foreign minister, Mr. Litvinov, endeavored to bring it before a conference.

A statement of Louis Barthou, head of the French delegation, to the Associated Press yesterday explained why France cannot discuss disarmament at Genoa. "This is a purely economic conference," said the French leader last night, again emphasizing France's position, "and we have simply got to stick to our agenda as America did at Washington. Otherwise, we will get nowhere."

Mr. Barthou emphasized that a disarmament is now under consideration by the League of Nations, which he said, it would doubtless give it proper attention.

European Finances. The conference's sub-committee on finance is to hold its first meeting today to take up the question of exchange and the vital financial matters.

The report on financial questions prepared by the committee presented by Dr. Bathenau to Premier Facta as chairman of the conference was transmitted today to Sir Robert Horne, chancellor of the British exchequer, and will be discussed at this afternoon meeting of the financial commission.

The report deals especially with a plan for the stabilization of exchange through an international loan and also outlines a proposal for universal monetary reform. The German plan considers the reconstruction of the international financial system as the principal issue of any such reform.

Genoa, April 12—King Victor Emmanuel is taking keen interest in the proceedings of the international conference here, and has ordered that a special wire be used to keep him informed hourly of the discussions occurring. He reported by wireless to the king that the conference will be able to reach conclusions of benefit to the whole world.

Russian Request. Genoa, April 12—George Chiteherin, head of the Russian delegation has asked Signor Schanzer as chairman of the sub-committee for exact interpretation of several points in the restoration of Russia handed to him yesterday. He desires specific explanation of that part of the report dealing with the guarantees to be extended to foreigners in Russia, remarking that in other European countries foreigners were treated like citizens of the countries in which they reside.

Only eleven copies of the report, which was prepared by the allied experts at their meeting in London, have been made for the members of the sub-committee examining it. The Russian experts are carefully ligating the recommendations of the London experts, but the document is so long and so much involved that the Russians may need more time to consider it. They think it will be difficult to save ready a reply in detail for the next meeting, which has been arranged for Thursday.

As the report has not received the formal approval of the powers which invoked the Genoa conference, it is held in some quarters to be merely a basis for the opening of negotiations. They declare it may be far from the minimum the allies will accept from Russia in exchange for recognition.

Article III, of the report declares that the Soviet should assume responsibility for all material damage suffered by foreigners in consequence of the acts or negligence of the Soviet or its predecessors.

The Saar Valley. Genoa, April 12—Conditions in the Saar Valley, control of which was awarded to France by the treaty of Versailles are to be called to the attention of the economic conference by a delegation composed of prominent financial and other residents of the Saar, says the newspaper Cattindio today.

French occupation, the deputation will declare, has caused a grave situation. It also will present numerous formidable accusations against the French troops.

SPANISH FORCES ARE GAINING IN MOROCCO. Madrid, April 12—Further successes by the Spanish forces in Morocco have made certain that the capture of Monte Navarro, the occupation of which will give a domination of the territory occupied by the rebellious Beni-Said tribes, according to an official statement.

Government forces have occupied Tinsaya-Sa, capturing thirteen cannon and much artillery ammunition.

Peace Conference Of Irish Factions In Dublin Tomorrow

Truce on Ulster Border Declared Between North Specials and Free State Troops, Says Belfast Despatch.

Belfast, April 12—The peace conference between leaders of the opposing parties of Southern Ireland will open in Dublin tomorrow, so it was announced here today.

TRUCE ON ULSTER BORDER. Belfast, April 12—A truce was declared yesterday between the Ulster special constables and the Free State troops which have been menacing districts along the Fermanagh border between Ulster and South Ireland, so it is announced here today.

Sir Basil Brooks, commanding the Fermanagh specials, crossed into Free State territory at Blacklion, near Belcoo, and conferred with the rival leader.

The interview was harmonious and an agreement was reached under which both sides will withdraw their forces a short distance from the border line to avoid the risk of a clash.

Each commander agreed to punish infringers of the pact.

FAIR WEATHER FOR GAMES TODAY. Weather forecasts, however, brought cheering assurances to the fans of Manhattan and Brooklyn that the elements would not mar the big day.

The National League season was to be initiated in the Quaker City where chilly winds, it was reported, will make the warming up process difficult and will serve to cool the hot enthusiasm as the new major league baseball season opens today in the western cities.

Chicago, April 12—Babe Ruth, with the gates of American League parks here last night, for thirty-eight days, has been offered \$100,000 for his playing services if he will join a local semi-professional team. That was the figure named by the manager at a meeting of his association last night. He drew a laugh.

Call for doc facts led to production of a document by the manager of the Chicago, the city hall team in the mid-west league, which he said showed he had signed Dick Kerr, former Chicago American pitcher.

Atlanta, Ga., April 12—Baseball held away in Dixie today, with the eight clubs of the Southern Association on their toes for the opening games of the 1935 season. Memphis, the 1921 pennant winners, is the victor in the opening game at Little Rock, while Atlanta will play at Chattanooga, New Orleans at Mobile, and Nashville at Birmingham.

Houston, Texas, April 12—Stanislaus Zybysko, former heavyweight wrestling champion, won in two straight falls from Yasaf Osman, Turkish wrestling champion, here last night, the first fall in an hour and eight minutes, with a headlock, and the second in seventeen minutes with a toe hold. Osman collapsed on his way to the dressing room, following severe punishment inflicted by Zybysko in the toe hold.

New York, April 12—Eight race meetings for motor speed boats are included in the summer schedule announced here by the American Power Boat Association. The season will open on June 24, in New York and New Jersey waters, and close Sept. 5, off Detroit.

Cleveland, April 12—Bryan Downey of Cleveland and Jack Malone of St. Paul, middleweights have been matched for ten rounds at Fort Sheridan, Ill., May 6, so it was announced today.

RATE WAR ON PACIFIC ENDS. Portland, Ore., April 12—A rate war in progress for the last month between trans-Pacific steamship lines was terminated at a conference of operators yesterday. Immediate readjustment of the trans-Pacific tariffs, agreement to work together in maintaining them and a re-establishment of the trans-Pacific conference, an agreement for which will be submitted as soon as possible to all lines operating in the trade, were the results of the session. The rules and regulations were those drawn up a year ago, but not adopted then.

THE ARBUCKLE CASE. San Francisco, April 12—Defense counsel will not be satisfied with dismissal of the manslaughter charge against Roscoe Arbuckle in the event that the jury for the third time is unable to agree. This was the announcement of Gavin McNab, chief defense counsel made today. Nothing short of a definite verdict would satisfy him, he said. Defense argument in the case was to be considered today. It was considered probable that the case would be in the hands of the jury by 6 o'clock this afternoon.

AT THE HOSPITAL. Cyril Creary, is doing well at the hospital and will be able to leave soon. Michael Barrett is also recovering nicely at the infirmary and will leave that institution soon. There is no change in the condition of James Gibbs, who is seriously ill at the infirmary.

As Hiram Sees It

"I had no idea till yesterday," said Mr. Hiram Hornbeam to the Times reporter, "that Noo Brunstiek Power Company was an orphaned institution."

"It is a most benevolent institution," said the reporter.

"But you see that," said Hiram. "We or to be proud of it."

"A few years ago," said the reporter, "it increased the endowment to \$5,100,000, so that it could accommodate and establish a system of widows' pensions."

"The like of it is to be found anywhere," said Hiram. "Any of the folks mean enough to insinuate it's an octopus."

"The truth is not in them," said the reporter. "They would kick at virtue itself."

"They would so," said Hiram. "But virtue is its own reward," said the reporter.

"The blessing's of the widder an' the fatherless is with a lot," said Hiram. "To say nothing about eight per cent," added the reporter.

"I wouldn't mention it," said Hiram.

MANY KILLED AT LEVEL CROSSINGS. Deaths in Canada in 1921 Numbered 248—Speeding of Automobiles.

Montreal, April 12—That one result of the building of good roads was a consequent speeding up of motor traffic which, combined with reckless driving, constituted the cause of a large proportion of the accidents at railway level crossings by motor colliding with trains and vice versa, was a statement by S. J. Greer, McLan Brook and Arnold Limited, in an address here last night.

In 1921 there had been 248 fatalities and 1,028 injuries in level crossing accidents, and of 189 highway crossing accidents, 144 were motor accidents. Four-fifths of those killed and two-thirds of those injured were in the class of automobile casualties.

PROPOSAL OF CHANGES IN THE HOUSE OF LORDS. London, April 12—An endeavor to substitute "an aristocracy of brains for an aristocracy of birth," is embodied in a bill for the reconstitution of the House of Lords, which Colonel Charles Lyell today obtained the permission of the House of Commons to present. This was his statement in making application for the privilege of presenting the measure, which provides for a reduction in the number of members of the upper house from 780 to 800, apart from princes of the blood. It also contains a bill to amend the law relating to peerages, with uninheritable titles and privileges.

Business Notes. Samuel George Davis, of Port Hastings, N. S., G. Marion Morris and Nellie F. Cooper, both of St. John, have been incorporated as The Leonard Coal Company Limited, to take over the business now carried on at St. John by George D. Sharp. The Leonard Coal Company. The capital stock is \$24,000 and the head office is at St. John.

Leo J. Doucet, Tilman D. Leblanc, A. D. Sharpe, Thaddeus J. Leeger and Alexander J. Doucet, all of Moncton, have been incorporated as Moncton Builders Limited with head office in Moncton and capital stock of \$24,000 to carry on the business of a real estate company.

William G. Daley and William E. Mully have formed a partnership as Daley & Company Limited, to carry on the business heretofore conducted at the corner of Marsh and Westmorland roads, St. John, by William G. Daley.

Robert D. White and Harley C. White of Aroostook Junction have dissolved partnership by mutual consent. Mr. White will carry on the business.

JAPS WARMLY WELCOME PRINCE

Thousands Greet Him on Arrival at Yokohama and at Tokio.

Yokohama, April 12—The Prince of Wales arrived here today for his official visit to Japan. Thousands greeted him as he landed from the British battle cruiser Renown, which brought him from London.

His reception was carried out according to the programme, to the minute detail, as is the Japanese custom. Yokohama's welcome was not noisy as the children who lined the streets are disciplined to silence, but the picture they made with their thousands of waving flags in the brilliant sunshine could scarcely be paralleled.

The Renown was escorted in from sea by the Japanese light cruiser division and the bay six battleships, including the famous Mutsu, joined the escort. As the vessels entered the harbor came a roar of guns and a shrieking stream. Every class of society was represented in the crowds on the wharves.

The prince was conveyed from Yokohama to Tokio in a special train three coaches of which were especially built for his visit.

Tokio, April 12—The Prince of Wales arrived here this afternoon and was driven in an open carriage, escorted by cavalry, to the Imperial Palace, where he was received by the emperor.

Every class of society was represented in the crowds on the wharves. The prince was conveyed from Yokohama to Tokio in a special train three coaches of which were especially built for his visit.

WRECKED THE DAY AFTER LAUNCHING

Fishing Schooner Which was Intended for the International Race.

Gloucester, Mass., April 12—The fishing schooner Henry Ford, launched at Essex yesterday, was in danger of being a wreck today. The prospective challenger for the North Atlantic fishing racing cup, after running aground on Essex bar, was wrecked by heavy seas during the night. Tugs which failed to float her yesterday were ready to try again today with several others.

FEAR NO SERIOUS RESULTS JUST NOW

Washington Official View of Coal Strike Situation.

Washington, April 12—Reports in the hands of administration leaders concerning the progress of the coal strike were said yesterday in authoritative circles to have convinced the president that no serious results may be expected at this juncture. It was said the country is heavily stocked with surplus coal.

Reports that steel plants throughout the country were about to shut down because of coal shortages were characterized in reports made to government officials as without foundation. No change in price conditions, either in the bituminous or anthracite industry, has been recorded thus far.

LOCAL NEWS

NOTICE
All McCallan ward committees are requested to meet this Wednesday evening at headquarters.

Dress up for Easter with Lesser's clothing. See adv. on page 7.

FAMOUS COLLEGE SUED BY STUDENT

Family of Margery Barker, Dismissed on Suspicion of Thefts, Bring Action—Trap Baited With Marked Bills.

(Toronto Mail and Empire.)
One of the most curious cases that has ever come before it is on its way to a high court of Pennsylvania. The court will be asked to decide whether a privately endowed college is free to dismiss students as it sees fit even if the circumstances of the dismissal are equivalent to the making of a serious charge against a pupil.

Margery Barker was a student at the college last year. One morning in January a sum of thirty dollars was stolen from the dormitory at a time when only four students were in the hall, one of them being Margery. The head proctor questioned the four girls and asked Margery if she had lost any money.

The Trap.
Six days later another girl, Louise Cadot, planted a \$5 bill on a desk in the room of another girl, Prue Smith, after which she hid in a closet in the room.

Suppose everybody would recognize the fact that there's no gain but much loss in keeping up hostilities with the stomach!

Suppose the ancient aggravation of improper food on indignant digestive organs should be settled with guarantees of sensible diet and tranquil digestion!

The saving would be beyond all possibility of counting.

Yet millions go on declaring war on the stomach and accepting war in return—loading up on starchy, heavy, unbalanced and highly-seasoned food at breakfast or lunch— and wondering why comfort, happiness and efficiency are out of reach.

Grape-Nuts makes a friend of the taste and an ally of the stomach.

There's a charm and satisfaction to this delicious food which prompts appetite to say, "There's a meal!" and digestion to answer, "Thank goodness, here's peace at last!"

Grape-Nuts is the perfected nutriment of wheat and malted barley—sweet, crisp, and wonderfully nourishing. It digests quickly, and provides the necessary elements, including the vital mineral salts, for body, nerve and brain.

Order Grape-Nuts from your grocer today, and let a delighted taste pass a treaty of peace along to an enthusiastic digestion and assimilation.

Grape-Nuts—the Body Builder
"There's a Reason"
Made by Canadian Patent Cereal Co., Ltd., Windsor, Ont.

Lifebuoy is the simple, natural way to skin-health. It makes beautiful complexions. Soft, white hands. Fresh, wholesome bodies. The health odour vanishes quickly after use.

Linoleums In Four Yard Widths
Oilcloths in One and Two Yard Width
On our floors there is a large assortment of linoleums and floor oilcloths in the latest patterns and designs to choose from.

no apparent embarrassment. Miss Cadot was in charge during the absence of President Smith. Margery was summoned for an interview.
The Explanation.
She was asked to explain her presence in Prue Smith's room. She said that she had returned to give Prue the information asked for, but seeing she was not there had decided to leave a note and had felt the pocketbook to see if it contained a pencil.

When Will There Be A Disarmament of Dining Tables?
Suppose everybody would recognize the fact that there's no gain but much loss in keeping up hostilities with the stomach!

Scientific Fur Storage
The first breath of warm weather is a danger signal to your furs. Summer dust and heat help to destroy furs.

LOTS OF WATER IN A SHIP.
Steamship of 12,000 Tons Carries 1,740 Tons of It.
The word "ship" conveys so strongly the idea of a thing, from which water must be kept out that it comes as a shock to learn that, of intent, she has a good deal of water inside her, says a correspondent of The London Daily Mail. A 12,000-ton liner carries within her hull approximately 1,740 tons of water.
"When I asked a passenger," says the writer, "just arrived from a forty-two days' voyage from Sydney to London in a liner of that size, how many tons of water were in the ship he flippantly answered, 'Not many, I should hope.'"
"But on reflection he recalled that there was always fresh water in the cabin, though only sea water in the bathroom, and any amount of fresh water to drink; that sea water was certainly not used for the tea or coffee of the cooking, on in the steam laundry; that sea water could not possibly be used for steam in the modern marine boilers because of the encrusting salt. As the ship's company numbered some 240, in addition to several hundred passengers, it is obvious that a considerable supply of fresh water was necessary and that water is as essential to a liner's progress and habitability as fuel. Steamship passengers are familiar with coal. It is so much in evidence, so often talked about, and cooling at the various ports en route is so unpleasantly obtrusive.
"But watering a ship is such a silent, simple and unobtrusive process that one never sees it done and would not notice it if one did. A liner of 12,000 tons usually has six boilers, each holding sixty tons of water, and the loss on a day's steaming is about two tons per boiler, or a total per day of from twelve to fifteen tons. This has to be made good, so a store of 300 tons of fresh water is carried for feeding the boilers.
"For drinking purposes there is a provision of 550 tons of fresh water and 250 tons of sea water is carried for ballast. Add to these figures the 300 tons of fresh water in the six boilers, as filled at the commencement of the voyage, and you get the total above mentioned. An average of fifty tons to sixty tons of fresh water per day is consumed on the voyage. Occasionally on long runs between ports condensing has to be done to supplement the supply. In that case the condensed water is mixed with the fresh water in the tanks, as the former alone is rather unpalatable owing to its superpurity. All water is stored in tanks in the double bottom of the ship. They are cleaned out at the end of each voyage and are always kept in scrupulous condition, as are the breakers of

fresh water with which each boat is provided and which are changed every passage out and home.
"The water ballast is necessarily a varying quantity, for as the vessel empties herself of fresh water, coal and stores, ballast is increased, not in any haphazard way, but under scientifically worked-out conditions to keep her in trim and to preserve stability."

CHAMBERLAIN'S
Quickly Relieves
Lame Back, Stiff Necks

Chamberlain's Liniment is wonderfully penetrating and healing. It affords quick, positive relief to aching shoulders, backs or necks and hastens complete recovery. Years of success stand behind it. Give it a trial.

INSIST ON
PURITY ICE CREAM
ITS PURITY UNEQUALLED
BECAUSE IT IS HEATHIZED
You want the purest, best, safest.
Then always order "Purity."
We all like to know that the food we eat is pure and clean. We rebel, naturally, at taking into our mouths anything that we know is not clean.
WHEN IS FOOD PURE?
Now, we ask you, how can a food product be clean that is made with ordinary air, when we know that all city air is a mass of dust and impurities, and is often laden with dangerous germ life?
PURITY HEATHIZED ICE CREAM is made by driving the air out of the freezers then filling them with a pure, clean, sterile, germless atmosphere a hundred times purer than air. Then we freeze the mix in this pure atmosphere.
Now do you see why PURITY HEATHIZED ICE CREAM is purest?
Do you see why it is safest—safest for you and for the kiddies who are the greatest ice cream consumers?
No other ice cream is made in New Brunswick by this exclusive Heath patent method. So if it isn't Purity Ice Cream it isn't Heathized. Insist on Purity.

LONGSHOREMEN
MAKE PROPOSAL

Montreal, April 12—The longshoremen's union of Montreal last night agreed to present a proposition to the shipping federation authorities in connection with the proposed reduction of ten cents an hour in wages for the coming season. The officials of the union did not make public the details of their proposition, but thought that it had a good chance of being accepted.

BETTER THAN HARD COAL

Soft coal so free from soot that it does not make whiskeys on stove covers or pipe and does not mat or clog when burning, is far better than Hard Coal for general household use. Quicker to light, takes less to make a fire, cheaper in price and small heating stoves. Such a coal is Broad Cove soft coal. The main thing is to insist on getting the genuine article. No other soft coal burns just like Broad Cove. You will know it by the above characteristics.

Earl of Gosford Dead.

The Evening Times and Star

ST. JOHN, N. B., APRIL 12, 1922.

The St. John Evening Times is printed at 27 and 29 Canterbury Street, every evening (Sunday excepted) by The St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

POWER LEGISLATION.

The legislature of New Brunswick authorized the hydro-electric development at Musquash for the benefit of the people of St. John and elsewhere.

Mr. Taylor, pleading the cause of the New Brunswick Power Company, talks about confiscation. What he proposes is that the rights of the people be confiscated for the benefit of a private corporation.

The Standard says of the bill now before the legislature for the protection of the people of St. John when they take over the distribution of the hydro-electric current from Musquash:

So far as the maritime provinces are concerned the most interesting announcement of government policy relating to the national railways was this:

This means an end of dictation from Toronto. The new board will take over control of all lines, including the Canadian Northern and Grand Trunk, and there will thus be unified control of the whole system.

There is still a matter regarding the relation of the Intercolonial to the maritime provinces which needs to be cleared up. These provinces contend that at the time of confederation their right to special rates enabling them to get into the western markets was recognized.

NUMBER OF IDLE IN OLD COUNTRY INCREASES. London, April 12.—(Canadian Press)—Unemployment returns which for many weeks have shown slow but steady decline, last week again showed an increase from 1,736,764 to 1,742,217.

THE PHILANTHROPISTS

The gentlemen who revel in high finance were heard from in Fredericton yesterday. They cannot understand why their benevolent intentions should be the subject of doubt and suspicion.

OUR HEADS ARE UP.

The Standard says of the bill now before the legislature for the protection of the people of St. John when they take over the distribution of the hydro-electric current from Musquash:

What are the facts? The legislature voted money to develop power at Musquash for the sole benefit of the people. St. John people have decided to accept that benefit. They now ask the legislature which provides the power to protect them while they are getting it distributed.

Halifax Chronicle: "Investigations in the utilization of fish waste have been carried on in Nova Scotia under the direction of the Council for Scientific and Industrial Research at Ottawa.

BURNED THE PANTS AND GAVE THE FIRE BRIGADE A RUN

Montreal, April 12.—Thirteen fire reels, a district fire chief, three police lieutenants each with three men hurried to a alarm fire at 811 St. Denis street here last night, caused by Mrs. A. Cadieux, the tenant of the house, leaving the electric iron on a pair of trousers she was pressing, thereby starting a fire.

GREEK PRINCESS ILL. London, April 12.—The condition of Princess Elizabeth, wife of Crown Prince of Greece, is causing anxiety, says a Central News despatch from Athens, dated Tuesday. Fever has developed and the patient has a temperature of between 102 and 104, with some hemorrhage.

SPRING FEVER.

I want to plant a garden now that spring is here, I want to watch the carrots and little heads appear!

LIGHTER VEIN.

Easy to Understand. "I am ashamed of my failure to keep abreast of modern science," said the learned professor of zoology to the young house wife.

A Child's Viewpoint.

Joan's canary, "Wifflie," had died, and the poor child seemed heartbroken. In order to console her, her father gave her a cigar-box in which to deposit the remains and with much ceremony he assisted in burying the box in the garden.

RUSSIANS LEAD FOREIGN RACES

Census of 1920 Gives Them 994,356 in New York—Italians Next With 802,893.

A study of the 1920 United States census figures made by Dr. Walter Laidlaw, executive secretary of the New York City 1920 census committee, shows that New York City has a foreign white population as large as the whole population of the Russian element is larger than the population of Warsaw, and that there are 100,000 more Italians here than in Naples.

The leading foreign elements in 1920, according to Dr. Laidlaw, are as follows: Russia 994,356; Italy 802,893; Ireland 637,744; Austria-Hungary 603,167; Germany 595,199.

Three men all engaged at the same employment were asked what they were doing. One said he was making \$5 a day. Another replied that he was cutting stone. The third said he was building a cathedral.

WAGES REDUCED.

A drop of ten cents an hour for longshoremen is shown in the schedule of wages which has been drawn up to become effective as soon as navigation reopens in this port.

SLEEPLESS FOR 44 YEARS.

William Warner, South Egremont Hermit, Dies at Eighty-two. Pittsfield, Mass., April 12.—William Warner, eighty-two years old, a bachelor, and a Civil War veteran, who always declared he had not slept in forty-four years, died at the home of Mr. and Mrs. Alexander Houghtaling in South Egremont.

FROM SCOTLAND TO FARM IN ONTARIO

Advance Party of Immigrants Arrives from Hebrides and Inverness—All War Veterans.

Thirteen heavily Scottish farmers and fishermen from the highlands of Invernesshire and the Hebrides, the advance party of about 150 others who are coming over to settle in Canada, left Montreal last night from Windsor Station for Chatham, Ont., and will learn the intricacies of Canadian farming on the large Ardan farms, Kent county, which are owned by the Roman Catholic Church.

The party arrived by the C. P. R. boat train yesterday afternoon, and spent most of their time seeing the sights of Montreal. On the Ardan farms, five miles from Chatham, they will be introduced into the Canadian way of farming, and some of them will be placed on neighboring farms, after which they will be helped in selecting their own land.

One of the party, six feet three inches tall, told of conditions in his part of the Hebrides to be Lochaber. The ground is used up, he said, and living is precarious. Farming is not carried out in the up-to-date manner which characterizes it in the North American continent.

Many of those that arrive later will bring their wives and families with them. They are also bound for the same destination.

BUILDING CATHEDRALS.

GREEK PRINCESS ILL.

London, April 12.—The condition of Princess Elizabeth, wife of Crown Prince of Greece, is causing anxiety, says a Central News despatch from Athens, dated Tuesday. Fever has developed and the patient has a temperature of between 102 and 104, with some hemorrhage.

An Athens despatch last Friday said Princess Elizabeth was seriously ill of typhoid fever.

New Life in the Old Home

The Clean-Up and Paint-Up season is here—now is the time to paint your buildings—to renew worn and faded surfaces on walls, doors, floors and furniture and make your home more cheerful and sanitary—to remove the signs of wear and tear and increase the value of your property.

**STABBED BY
 FATHER, DYING
 BOY DENIES**

**Fell on Knife Accidentally,
 Insists Son, But Parent
 Admits Guilt—Struck Him
 Down in Quarrel, He Says.**

Though dying of a stab wound which his father admitted inflicting in a quarrel, James Joyce, 19-year-old son of a City Island, N. Y., refreshment stand owner, steadfastly pretended in the face of persistent police questioning that the wound resulted from an accidental fall while he was carrying a bread knife and that the father, John Joyce, was blameless.

The elder Joyce has a stand at City Island avenue and East Short road, N.Y. Island, and James has been helping him run it. A telephone message was received by the police of the City Island station that "a young man has been stabbed at Joyce's stand." Dr. Levine of Fordham Hospital, who was called by the police, found James Joyce sick of the counter, bleeding from a wound in his right breast.

Dr. Levine rushed the wounded man to Fordham Hospital, where it was found that the knife had pierced his lung and that his condition was critical. Young Joyce told his questioners that he had been helping his father at the stand and had picked up a large bread knife used in making sandwiches. He was stepping to the rear part of the stand, he said, when he slipped on a puddle of water on the floor and fell on his right side toward his breast.

Detectives Reilly and Rice of the Westchester station brought the father to the hospital. When the detectives and District Attorney Edward Glennon questioned him he declared that he had stabbed his son in a quarrel. He said James was helping him open the stand yesterday and that he brought up a question of living some one to help him. He said that when he suggested the name of a man James protested, angry words followed and, according to his father, the son made a movement as if to strike him. Thompson, said the elder Joyce, he picked up the butcher knife and struck his son in the breast.

James Joyce lapsed into unconsciousness early last evening, still asserting that he had fallen on the knife and declaring that his father's version of the stabbing was untrue.

John Joyce, the father, who is 62 years old and lives at 282 Willis avenue, the

Bronx, was held a prisoner in the Bronx Park station on a charge of felonious assault.

RECENT DEATHS

Rev. Edward Henry Ball, D.C.L., Chester, N. S., April 11—Rev. Edward Henry Ball, D. C. L., aged seventy-nine, one of the oldest Anglican clergymen in the diocese of Nova Scotia, died here this morning. His ministries in various parishes of the provinces, including Mulgrave, Westville and Baddeck, covered fifty-five years.

Lyman Holden. Lyman Holden, one of the famous "Lascelles Bros," died in the Municipal Hospital, East St. John, yesterday. Holden and his partner, F. F. Proctor, who is now a millionaire theatre owner of New York, were leaders in trapeze stunts in the circus world, and travelled practically all over the world. The late performer came here when his career was cut off by an injury. For years he did odd jobs, and then his wife went back to the states and he retired to the institution, where he died yesterday, at the age of seventy-two years.

Miss Gertrude Thomson. The death of Miss Gertrude E. Thomson occurred yesterday at her home in Moncton, of heart failure. She is survived by one sister, Mrs. Elias Boward, with whom she resided.

Charles McLeod. Charles McLeod died at his home in Montreal yesterday. He was one of the oldest and best known life underwriters in the maritime provinces. He was sixty-seven years of age and was born in Prince Edward Island.

Mrs. Patrick Walsh. The death of Mrs. Patrick Walsh took place at Roxbury, Mass., on Saturday morning. She was a daughter of the late Patrick and Rosanna McGinn, well known in this city. She leaves her husband and one daughter, Laura, to mourn.

Clarence A. Harrison. In the death yesterday of Clarence Aubrey Harrison, aged eighty-eight years, Mr. and Mrs. Ralph A. Harrison, of Gondola Point, Kings county, (N. B.) lost their only son. He is survived by four sisters, Grace, Agnes, Edith and Jean. The young man's death occurred suddenly and his relatives are grief-stricken over their loss. The funeral will be held on Friday afternoon at two o'clock.

**WILD PISTOL SHOTS
 LAND 3 IN CELLS**

One Prisoner Calls Six Discharges Accidental—Others Blame Angry Husband.

Wild pistol firing for trivial reasons or no reason were reported yesterday. Manuel Compudoni, a Porto Ricot who said he was a printer, was held in bail of \$5,000 by Magistrate Corrigan for having fired six shots with an automatic pistol into the floor of his room. Compudoni said it was an accident, but was unable to account satisfactorily for so many shots.

Two men sleeping below Compudoni in his lodging house were suddenly roused shortly after midnight by the burst of firing overhead. Bullets peppered the pillow on which they were sleeping and splintered them with plaster and splinters from the ceiling, which was punctured by six holes. After great excitement in the course, Compudoni was arrested by policemen who told him that his explanation of the shooting as an accident in six acts was unique in their experience. He had no license for the pistol and was locked up under the Sullivan law.

Louis Loverty, of 838 East Eighty-first street, and Joseph Gans of 119 East 127th street, were arrested early yesterday after a round of dancing in a cafe at 119 East 127th street had been interrupted by a shower of pistol bullets. Loverty, it was said, had been mistaken for "a wife pirate."

Gans and Loverty alleged the bullets were fired at them, not by them, but they were fined \$8 each on charges of disorderly conduct. Magistrate Joseph Corrigan in Harlem Court. Loverty said that, merely intending to be polite, he asked another man's wife to dance. Her husband, Loverty declared, drew a pistol and fired repeatedly. Most of the guests disappeared and the husband went uncaught.

PARENTS GOT DAMAGES.
 Pre-natal Shock Caused Mental Delinquency in Child.
 (Special Cable to The New York Times and Montreal Gazette.)
 Paris, April 9.—A case of interest to kindly intentioned automobilists as well as students of pre-natal influence has just been decided here by the Court of Appeals.

On an evening last summer Monsieur Parizot took his friends, Monsieur and Madame Goubier, for a ride in his automobile. They swore by Parizot until his car was wrecked. Then the thoughts changed to enmity. Some time later when a child was born to the Goubiers it showed signs of mental deficiency. A suit was immediately started against Parizot but was dismissed by a lower court. When the suit was appealed experts were brought in to testify to the effect of a pre-natal shock on an infant's mentality, and the decision of the lower court was reversed. Parizot was ordered to pay 20,000 francs damages.

**WIFE KILLS HUSBAND
 IN HIS RESTAURANT**
 She Shoots Him From Behind as He Replies at Telephone in Toledo Eating Place.
 Toledo, Ohio, April 12.—John H. Tepper, aged 35, proprietor of three Toledo restaurants and one in Indianapolis, was shot and fatally wounded by his wife. The woman was in one of Tepper's eating places, which was filled with diners. She fired one shot and missed out. She was arrested shortly afterward.

Tepper and his wife had been separated for more than a year, following the filing of divorce proceedings by Mrs. Tepper, in which she mentioned another woman.

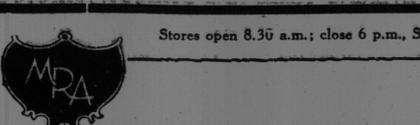

According to the police, Tepper was seated at a table with a woman companion, and Mrs. Tepper and another woman were at a nearby table. Tepper left his seat to answer the telephone, the police say, when his wife stepped behind him and fired a revolver. The bullet lodged near Tepper's heart and he died shortly after arriving at a hospital.

Tepper's companion was later arrested.

The marriage of Tepper and the woman who shot him was said by the police to have been the culmination of a romance which began when Tepper was employed as a waiter and the wife as a waitress.

Child Shoots Mother by Accident. Mrs. Marie Pellino, 44, the mother of nine children, was accidentally shot in the breast by her daughter, Nancy, 13, in the kitchen of their home at 2622 West Sixteenth street, Brooklyn. The mother was taken to Coney Island Hospital, where it is said she may die. The girl found the pistol in a chicken coop in the back yard. She showed it to her mother and, thinking it unloaded, pulled the trigger. Tony, 9, threw the pistol into Coney Island Creek near by.

Don't forget the Assumption church high tea and fair, St. Patrick's Hall, West End, Monday next.

LOCAL AUTONOMY FOR MARITIME PROVINCES

Hon. W. C. Kennedy Announces Plan by Which Intercolonial Affairs Will No Longer be Controlled From Toronto—The Government Railway Figures for Last Year.

Ottawa, April 11—The complaints of the maritime provinces on railway matters have been listened to by the government of Hon. W. L. Mackenzie King. The new railway policy as outlined by Hon. W. C. Kennedy, minister of railways, in his statement to the commons this afternoon provides for local autonomy. No more will maritime province railway matters be dictated from Toronto. Mr. Kennedy has recognized the justice of the claims set forth by the strong delegation of members of the maritime provinces sent to support this government. In his speech this afternoon, Mr. Kennedy gave a straight hint about dividing the co-ordinated system. On the advice of the new board is to depend "the division of the immense mileage into suitable operating districts or divisions with regional headquarters which it is hoped will enable local or district matters to receive the consideration of officials most capable of understanding local requirements."

NO SIDE-STEPPING.

Mr. Kennedy said he had consulted the men at present operating the roads and they agreed that the large mileage should be divided into units, each with its own local headquarters under the direction of a general manager who should have wide powers on all matters pertaining to his own particular division or district.

Part of the well-guarded secret of the government's railway policy was revealed to a waiting house of commons by Mr. Kennedy. The information came at the end of the minister's statement on railway matters.

There was no equivocation or side-stepping about Mr. Kennedy's remarks. He flung out his statements so that all may understand. "The first step in the reorganization of the railways," he said, "will be the establishment of a single representative board of directors for the unified control and co-ordinated operation of the government owned lines. Appliance from all parts of the house greeted this statement, and then as though it were not plain enough, he said a little later: "The new board will be given the direction and control of the Grand Trunk Railway properties, the Canadian Northern Railway, the Grand Trunk Pacific Railway, the Transcontinental Railway and Intercolonial, Prince Edward Island and branch lines. I have mentioned these lines specifically so that there may be no question or misunderstanding as to where any or all of them stand so far as general direction of control is concerned."

The minister regretted he was not in a position to announce the names of the new board. That is still a secret, and from what he indicated the government itself has not settled on the men. Mr. Kennedy said that in the selection of such men the government must be prudent. "We kindly realize the magnitude of our responsibility," he said. "We know what is expected of us, and when we appoint our board we wish it to fulfill on behalf of the government and the people of Canada these same high expectations." Instancing the need for prudence and folly of hasty decision, he pointed out that there will be turned over to this board properties in which the public has invested more than \$1,500,000,000.

Another important declaration of policy made by the minister of railways today was that the government will propose at an early date to ask a special committee of the house to investigate the freight rates problem. This committee will have full power to summon the heads of the railways and gather all available information. The committee will also have the power to hold public hearings on the freight rates problem. The suspension of the Crow's Nest Pass agreement ceases on July 6 next, and unless that suspension is abrogated by parliament, low rates will prevail on about fourteen commodities, among them grain and grain products, all over the west as far east as the head of the Lake.

An amazing array of railway figures was presented by Mr. Kennedy. The total deficit of all lines owned by the people of Canada for the year ended Dec. 31 last is \$72,946,238. Of this amount \$56,783,934 was incurred by the Canadian National, which includes the Grand Trunk Pacific, and \$15,762,299 was incurred by the Grand Trunk system. In the year previous the deficit of the roads named totalled \$74,029,202, the difference in favor of last year being \$1,686,069. The Canadian National, again including the G. T. P., did nearly \$11,000,000 better than the previous year and the Grand Trunk did more than \$9,000,000 worse. A reverse side may be given to this financial picture for the benefit of the friends of government ownership. There are practically only two railroads in Canada, the C. P. R. and the Government lines. Last year the government roads increased their percentage of gross earnings from 62.21 to 64.22 per cent. It is estimated that the government roads for about \$8,500,000. The government-owned lines comprise about 52 per cent of the total railway mileage of the country and the C. P. R. for gross earnings cut into the C. P. R. for gross earnings for about \$8,500,000. The government-owned lines comprise about 52 per cent of the total railway mileage of the country and the C. P. R. for gross earnings cut into the C. P. R. for gross earnings for about \$8,500,000. The operating expenses of the national system amounted last year to \$142,784,851, being a decrease of \$19,700,865. The operating expenses last year on the

SEVERAL BILLS THROUGH HOUSE
Fredericton, N. B., April 11—This was St. John Day in the local legislature when in morning and afternoon sessions, the committee on corporations was occupied with consideration of the bill relating to the city of St. John and the N. B. Power Company. Large delegations appeared for and against the bill and after both sides had stated their views, the committee went into private session in the afternoon to consider the bill. The committee sat until six o'clock without reaching any decision in the matter, although it was learned informally that the first section of the measure which gives the city the right to engage in the business of supplying all forms of electric energy, was agreed to. The committee is scheduled to meet again tomorrow morning. Members of the opposing factions met this evening but were unable to reach an amicable settlement.

BON-OPTO
Use the Want Ad. Way

Mr. Veniot wishes to amend the act in regard to school assessments. A bill to amend the same act was introduced by Hon. Mr. Robinson. The big game season this year will commence on October 1 and the amendment provides a special license fee of \$75 for those who wish to commence shooting on September 15.

Mr. Scully, speaking to the bill relating to assessment in the county of St. John, said that an agreement should have been reached between the city and county with respect to the assessment of income of residents of the county earned in the city.

Mr. Curran said that he was surprised that such an agreement had not been reached. However, he was prepared to act in the city. The St. John city assessment act already gave a fifty-fifty break in the matter of income tax.

Mr. Hayes said that the city assessment act already gave a fifty-fifty break in the matter of income tax. He could see no reason why the county should ask for this. The St. John city assessment act already gave a fifty-fifty break in the matter of income tax.

Mr. Curran said that he was surprised that such an agreement had not been reached. However, he was prepared to act in the city. The St. John city assessment act already gave a fifty-fifty break in the matter of income tax.

FESTIVAL OF THE PASSOVER BEGINS THIS EVENING
Passover, the Jewish festival of liberation, known in Hebrew as "Pesach," begins this year on this evening. Starting on this evening every Jewish household in the country eats Matzo, the unleavened bread. In some households no leaven of any character is eaten during the eight days of the festival of Passover is observed.

CONSTIPATION BAD HEADACHES FAINT, DIZZY SPELLS
Constipation is one of the commonest ailments of mankind, and one too often allowed to go unlooked after, until some serious complication sets in.

MILBURN'S LAXA-LIVER PILLS
and you will enjoy the best of health. Mrs. Frank Willsey, R. R. 3, Belmont, Ont., writes: "I have been troubled with constipation for nearly 15 years. I had had headaches, faint and dizzy spells, and would bloat terribly. I was nearly discouraged for I had tried so many things that gave me no relief. My mother got me a vial of Milburn's Laxa-Liver Pills and told me to give them a fair trial. After I had taken one vial I felt much better and continued to use. Now I have no faint and dizzy spells and am gaining nicely. I would not be without Milburn's Laxa-Liver Pills for the world."

FAREWELL GIFT FOR REV. I. BRINDLEY
Rev. Isaac Brindley, the retiring pastor of the Ludlow street Baptist church, was laid to rest at his residence on Sunday night after the evening service by a committee from the church which came to present to him a purse of money, the gift of workers in the church as a remembrance and a token of appreciation. Mr. Brindley recently resigned his pastorate on account of ill health. He was completely taken by surprise by the delegation and expressed his sincere appreciation of the thoughtfulness and kindness of his former parishioners and extended hearty good wishes to them for the future prosperity of the church.

**CZECHO-SLOVAKIA
FORGING AHEAD**

(Montreal Gazette.)
"Milestones" in world progress come close together these days. In Czecho-Slovakia things are moving ahead, judging by the fact that eight scholarships will be given every year to journalists by the Czecho-Slovakian government for the following purposes: Two scholarships for one year in France, Italy or Great Britain, the recipient receiving a monthly stipend of 2,000 francs (French)—approximately £40 per month; three

scholarships for one year in Germany, Poland, Russia, Roumania, Hungary, Austria or Jugoslavia, in Greece or Bulgaria, the recipient to receive 1,200 francs per month (approximately £24); and three scholarships for six months' stay in either of the above countries, with a monthly stipend of 1,600 francs. From another source it is noticeable that the Czecho-Slovakian budget for the current year includes army expenses amounting to 800,000,000 Czech kronen, and the war ministry is employing no fewer than 600 officials as well as some thirty-three military attaches abroad. This military expenditure—in view of latter day happenings at Washington, to be followed by, it is hoped, equally successful postwarers at Genoa—is a very serious burden and constitutes a veiled threat to the bordering powers. Perhaps there is good intention behind the plan of making Czecho-Slovakia the eco-

nomie guardian of Austria. The Czechs have a keen interest in Austria's restoration, being on better terms of friendship with her than other adjoining nations. It may be that Genoa will prove to be the place that will begin that new era of concord among the nations—a consummation fervently sought in many quarters. International friendship and good understanding are necessary. The press can wield a huge power for good in this direction, and doubtless this circumstance has become apparent to the Czecho-Slovakian government in the scholarship idea. The Great War was a trial of strength between imperialism and self-government, and the former, as represented by the two Central Powers of Europe, was defeated. Furthermore, it was the weaker partner of the two which paid the heavier penalty, Austria being literally shivered to fragments. The Dual Mon-

archy, the second largest political unit in Europe, and the third in population, has ceased to exist. Austria-Hungary was, however, such a jumble of races, religions, languages and historic aspirations that clear-cut divisions were scarce possible. None of the newly enlarged states are really homogeneous. Czecho-Slovakia has a colony of some three millions of Germanic people. Czecho-Slovakia loaned Austria some five hundred million Czechoslovakian crowns, which are worth approximately thirty billions of Austrian crowns or thereabouts—a considerable sum of money. There is talk of a British loan as well. The relations between Czecho-Slovakia and Austria are very good. Czecho-Slovakia is a peculiarly capable country for self-management, and has proved herself so, both economically and otherwise. Despite the enormous difficulties she has had to contend with, this new republic has presented a shining example of how successfully rehabilitation work may be carried on. Czecho-Slovakia is rich in forest lands, and well farmed, but despite it all she is not self-supporting. Her industries are "too large for the state." She requires oats, maize, wool, wheat and raw materials of all kinds for her textile industries, of which she possesses eighty per cent of the former Austrian Empire. In pre-war days the Czechs were protected by a tariff against Germany, and they possessed a home market in the old Dual Monarchy among some 45,000,000 people. Her market today, by a series of hostile tariffs, has been reduced to less than 14,000,000.

The net result of all this is that the demand is not sufficient to procure an output of a normal kind. A large part of the Czecho-Slovakian prosperity is in great measure due to the foresight of President Masaryk. His government has recognized that Czecho-Slovakia as an inland country depends for her prosperity upon the goodness of her neighbors. Czecho-Slovakia has made a special point of keeping high the standard of education. Whereas other countries, including Great Britain, have shown a tendency to economize in education, Czecho-Slovakia has determined to make education one of the first charges on her national resources. In eighteen months no fewer than three thousand additional schools have been built by the Czechs and this good work continues to go on. De-Austrianization has set in among the Czecho-Slovaks, who are imbued with a new spirit, a new consciousness and new methods, which are all destined in so far as practicable, to serve the cause of peace.

**POLICEMAN FELLEED
BY TEN GANGSTERS**

Had Gained Their Enmity by Protecting the Public from Their Villainies—Will Recover.

Policeman William J. Harrigan of the Butler street station, Brooklyn, N. Y., was found severely injured at Hamilton avenue and Coles street, where he had been felled by gangsters. A man accused as one of his assailants was halted by bullets fired by Policeman Schwerdtfeger in a pursuit of three blocks. The prisoner said he was Louis Carboni, of 12 Laque street. He was held at the Poplar street station, Brooklyn, on a charge of felonious assault. Schwerdtfeger said there were ten or more men attacking Harrigan when he went to his assistance. Harrigan was knocked down, his head striking a hydrant. He revived at the Long Island College Hospital. It is said he will recover.

ROBBERS INVADE CLUB.

Dozen, Masked and Armed, Get \$3,000 From New Haven Members.

New Haven, Conn., April 12.—A dozen men, armed and masked, held up the Orange Dramatic Club in West Haven and obtained between \$2,000 and \$3,000 in cash. Salvatore Santonielle of Springfield, Mass., alleged to be one of the robbers, was captured, but the others escaped.

The robbers entered the club through the front door, pushing in behind a member who had unlocked it. Some rushed upstairs, where several card games were said to have been in progress, while others remained on the first floor and compelled members to throw up their hands. No jewelry was taken. One of the club members were taken into a room on the second floor and their pockets searched at the point of a revolver. The cash was put into a leather bag held by one of the robbers.

Then part of the hold-up gang left the club, four remaining. They threatened to "come back and kill somebody" if an outcry was made in fifteen minutes. At this point two shots sounded

from the street and the quartette fled. Two club members, it was said, who were in the basement got out through a window and called Policeman Burns and several firemen from a nearby firehouse. They were fired on by a fleeing robber. Most of the robbers got away in an automobile. Burns and two firemen captured Santonielle, and a pistol which he threw away was recovered. A second automobile, with a Massachusetts marker, was found nearby and seized by the police. A bill of sale for this automobile was found in Santonielle's clothing. A taxicab driver who was in the club was hit on the head with the butt of a revolver when he remonstrated with the robbers.

MEDDLESOME MATTY.

Cambridge, Mass. April 11.—(By Canadian Press.)—When John Bradley, a laborer, inquisitively stepped beneath the city's new experimental ash hoppers he

was fascinated by the chain hanging over his head and gave it a gentle jerk. Three tons of ashes descended on Bradley, and when he was dug out an ambulance carried him to the hospital. It is said that he will recover.

**The Important Thing
about Clothes**

Style in Society Brand Clothes means more than their appearance when you first put them on, however much they may please you then. That appearance will last as long as the fabric looks well—and that's a long time. Well considered design and careful tailoring account for it.

The value is there and the price will please you. Drop in and look them over.

The label in the pocket is your guarantee.

LOCAL NEWS

THE RIVER.

The tug Kingsville left Indian town this morning for Fredericton. The regular river steamer are not expected to start on their routes before next week.

DEATH OF CHILD.

Friends of Mr. and Mrs. James E. Mountain of 259 Duke street, will be sorry to learn of the death of their young son, Elmer Colwell. The funeral will be tomorrow afternoon.

ENGINEERS' MEETING.

A special meeting of the local branch of the National Association of Marine Engineers was held last night in their rooms, with the president, Ernest T. Markey, in the chair. The meeting took the form of a smoker and a forceful address on "Economics" was given by Major Roy King.

COMMISSIONERS HOME.

Commissioner J. H. Frink returned last night from Fredericton, where he attended the discussion before the municipalities committee of the proposed bill relating to the hydro distribution in the city. Commissioner Bullock, who was also present, returned home this morning. Mayor Schofield remained in Fredericton.

ANOTHER CHEERING CASE.

While walking along Main street yesterday a citizen discovered that he had lost a \$50 bill and although he retraced his steps from Bridge street to Douglas avenue he failed to get a glimpse of his valuable greenback. An ad was inserted in the Telegraph this morning and was seen by little Willard Lingley of Metcalf street, who had found the lost bill, and he immediately returned it to the owner. The little chap was rewarded for his honesty.

THORNE LODGE SUPPER.

A very successful supper was held last night by the members of Thorne Lodge, I. O. G. T., in their hall, Thorne avenue. The arrangements were under the direction of Herbert Gardner and John Fitzgerald, assisted by lady members of the lodge. A nice amount was realized. After supper a musical programme was enjoyed including singing by the McEachern male quartette and selections by Archibald Treacrain on the accordion.

TRAFFIC CASES.

Two traffic cases were settled this morning in the police court. C. D. Jackson pleaded not guilty to exceeding the speed limit at the corner of Prince Edward and Brunswick streets on the afternoon of April 9. Policeman Dryeman and Hughes testified. A fine of \$10 was imposed. A. L. Stearn pleaded not guilty to allowing his automobile to stand for nearly an hour on the north side of King Square without head or tail lights on the night of April 18. Policeman McNeill gave evidence. The defendant said he had turned the lights on dimly when he left the car but that they might have been accidentally turned off when he got out. A fine of \$10 was allowed to stand.

SPORT IN HAMPTON.

A meeting of the Hampton A. A. C. was held last evening at the Agricultural hall in Hampton Village at which plans were discussed for improving the school athletic grounds. A. H. Chipman, C. T. Wetmore and H. Worden were in attendance, representing the citizens of Hampton, and announced that they had some money on hand to assist in the work. The Hampton Club intend to participate in all lines of sport during the summer and have some good athletes to represent them, among whom are Trimble and Scovil of the U. N. B., Cozier of Dalhousie, Chipman and McCready of Acadia, and Angevine of Mount Allison.

WINTER PORT SEASON CLOSING.

With the sailing of the S. S. Melita from St. John on Saturday for Southampton and Antwerp, the Canadian winter port season at its inner port of St. John will be almost at an end. The S. S. Corsican will leave St. John for Havre and Glasgow on April 21 and the Empress of Britain for Liverpool on April 22. The S. S. Sicilian will leave for Cuba and Jamaica, via Boston, on April 23. The Canadian Pacific passenger service of the Canadian Pacific from St. John. There are three cargo ships yet to leave St. John: The Montserrat for Cuba and Jamaica on Tuesday; the Mottifont, for Avonmouth, on Wednesday; and the Batsford, for London and Rotterdam, on April 19.

BURIED TODAY.

The funeral of James A. Murphy was held this afternoon from his late residence, 246 Sydney street, to St. John the Baptist church for service by Rev. Roy McDonald. Interment was in the new Catholic cemetery. The funeral was attended by many friends and the spiritual and floral offerings were numerous. Included in the latter was a wreath of magnolia leaves and Easter lilies from the Imperial Theatre and a wreath of pink and white roses from the Longshoremen's Union.

Service in connection with the funeral of Miss Anna Mildred Leonard was held last night at the residence of Mr. and Mrs. Fred Leonard, 6 Clarence street, and was conducted by her uncle, Rev. H. A. Cady. The body was taken this morning to Halifax, where interment took place this afternoon. Service was conducted by Rev. C. A. S. Warnford.

A FAREWELL PARTY.

Between thirty-five and forty gathered at the home of Mrs. W. Ring, Gullford street, West End, to bid farewell to Marjorie and Harold Short on their departure to their new home in England. During their stay here the little ones had become great favorites and will be greatly missed. During the evening, which was spent in music, games and singing, they were made the recipients of gold signet rings from their playmates, also a gold bracelet from a near friend, a silver mesh bag, a jack-knife and ribbons from Mrs. W. Cumber. The presentation was made by Miss Beatrice Hanson. Refreshments were served and the gathering broke up wishing Marjorie and Harold a pleasant trip across the ocean and expressing many regrets at their departure.

MANY HERE FOR DISCUSSION OF THE AFFIDAVIT

Big Athletic Meeting This Afternoon Promises a Lively Discussion.

An important meeting of the Maritime Branch of the A. A. U. of C. is being held this afternoon in the Commercial Club rooms, Prince William street. One of the big issues being decided is the affidavit, which athletes are compelled to sign before they will be given an amateur card. Indications this morning were that delegates for and against the affidavit were marshalling their forces and preparing to fight out the issue to the bitter end. There was a diversity of opinion as to the outcome, and those opposed to his action expressing equal confidence.

Other matters to be decided were a protest entered by the Sussex Hockey Club against the Abegweit Club of Charlottetown, and the election of a first vice-president of the Maritime Branch. Among those arriving in the city last night and this morning were: Dr. W. A. Colt of Wolfville, S. J. Doyle of Charlottetown, J. A. Holmes of Halifax, who with President Covey and Secretary Quigley representing the executive and registration committee; P. C. Neville of the Crescent Club, Halifax; Walter Bishop and Arthur Levi from Dartmouth; J. D. Collins from Amherst, B. Stoneman and W. R. Cann, president and secretary of the Yarmouth Club; A. C. Millie, representing the Wanderers Club; William Conway, representing St. Mary's Club of Halifax, and R. Rogers of New Glasgow. Many other representatives were in the city and attended the meeting.

There are fifty-eight clubs in the Maritime Provinces affiliated with the A. A. U. of C. and they aggregate 1,000 members. The first session will be held during which it is expected a decision either one way or another will be reached.

Halifax, N. S., April 12—Colonel Stanley Baile and L. Millie, representing the Wanderers Amateur Athletic Club of Halifax, and P. C. Neville and Gordon Quigley representing the Crescents, have left for St. John to attend the meeting of the M. P. B. of the A. A. U. of C. there today, which is expected to decide the fate of the "affidavit" scheme of President A. W. Covey. The Wanderers' Club have declared for the document, and the Crescents against. The representatives of the latter club claim to be empowered to vote for other Nova Scotia clubs which are against the affidavit proposal.

Fredericton, N. B., April 12—It was said today that any Fredericton representative who may attend will vote against the affidavit scheme. If U. N. B. has a man present he will probably favor the scheme as the collegians have already signed up. The York County Baseball League will not be represented, but is awaiting developments.

WALKOUT IN THE YORK COTTON MILL

Weavers Protest Against Reduction in Wages—About Forty Men Affected—Official's Statement.

In protest against a cut in wages, which they say will amount to between twenty-five and forty per cent. in about forty of the weavers employed in the York Cotton Mill here, operated by the Canadian Cottons Ltd., walked out this morning. So far they are the only workers in the mill affected. One of the officials of the company, in conversation with a Times reporter said that the reduction was made in accordance with the general economic reconstruction, to enable the mills to reduce the cost of their product sufficiently to sell it to the public at a reasonable price. He said, that whereas the other employees of the mill had not, during the last ten years, received increases in wages in the same proportion as had the weavers, it was the opinion of the management that when the time came to curtail expenses, the natural place to start was with those who had received the highest increases. He said that the reduction would vary according to the skill and experience of the employee. Fredericton, N. B., April 12—So far as can be learned the St. John mill is the only one of the plants of the Canadian Cottons Limited in New Brunswick affected by the reduction in wages and the only one where there is any labor difficulty. Superintendent Dolphin of the company's mill at Marysville said today that there had been no intimation of a reduction in wages there so far.

IS HELD ON A BIGAMY CHARGE

Howard J. Hanington, formerly of this city, was brought up before Magistrate Ritchie in the police court this morning to answer to a charge of bigamy. The charge was read to him, and he was remanded at the request of the prosecution until witnesses can be brought from Truro, N. S. He made no answer to the reading of the charge. Hanington was brought to the city yesterday on the Boston train in charge of immigration officers from Fall River, from which place he was deported at the request of the local police. He is thirty-two years of age and formerly resided in Truro, where, it is alleged, he married his first wife. It is alleged that he came to St. John where he was married again on June 2, 1921.

The complainant in the case is said to be sick, but will probably be brought here as soon as possible. Lindsay Sabine pleaded guilty today to a charge of assault on Wilfred Pinney, but not guilty to a charge of using abusive language. Pinney and Policeman Donahue gave evidence. The accused was remanded.

WANTS WARD LISTS. H. E. Wardroper, common clerk, said today that some of the commissioners who officiated at the polls in the elections on Monday had not returned the ward lists used in their polls. He said that as the same lists would be used in the finals on April 24 he would like to have them returned.

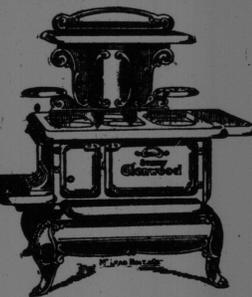

CRISP LINENS AN EVENT OF BETTER QUALITIES AND VALUES

Past events justify you in expecting to find table linens only of the highest qualities in our stock but the values offered are something entirely new, certain to be a great surprise. C. M. A. PARTY IN THIS AFTERNOON

Expected at Five O'clock on Chaleur After Trade Tour of West Indies.

The R. M. S. P. Chaleur is due in port from Bermuda and the West Indies at five o'clock this afternoon. She was held here today in order to allow the American Manufacturers' Association party, who are among the seventy cabin passengers on board, to see the island and thus arrive tonight instead of on Monday. The steamer also has a number of third class passengers, in addition to mails and general cargo. The C. M. A. party will be met by a delegation from the Board of Trade and guests will be extended to them. It was hoped to entertain the party at luncheon, but as the vessel will come in at five o'clock, and the party probably will not get away to their homes on the maritime express, leaving at 6:10 o'clock, the plan was abandoned. The C. N. R. have the sleeping car "Lombard" in readiness to receive the party, who must be separated until they reach Montreal. The party is in charge of C. K. Howard, tourist agent of C. N. R., F. W. Wilson, general passenger agent of the N. B., with headquarters at Moncton; D. LeBlanc, general baggage agent; O. Duggan, traveling passenger agent; and A. H. Lindsay, advertising agent. All functions are here today to meet the party and look after their welfare.

IN WALL STREET.

New York, April 12—(10:30)—Oil is the strongest feature at the opening of today's stock exchange in response to further advance in prices of reseed products. Barnhill "A" rose 2 1/2 cents, and Pacific, Houston and Standard of California gained large fractions. Steels, equipments and copper were better. Crucible, American Car and Lumber and Superior scoring one point each. Studenbaker and New York Air Brake were higher on short covering. To high records were made by Liberty bonds, third, and fourth 4 1/4 per cent.

VOON REPORT.

New York, April 12—(Noon)—Outside of the foreign oils, notably Pan-American, which was under persistent pressure, the market broadened and advanced during the forenoon. Dealings in the first two hours approximated 75,000 shares. Sentiment was encouraged by further relaxation of money rates, call loans easing from 4 1/2 to 4 per cent in the second hour. In addition to American Car, other equipments, specially Baldwin, American and Lima, locomotives, Pullman, and New York Air Brake, were outstanding features at one to three point gains. Electric Storage Battery rose 4 1/2 points and motor specialties, including rubbers were appreciably higher. Independent steels were represented by Crucible, Colorado Fuel, Republic, Vanadium and Nova Scotia at one to two point gains. Woolworth featured the chain store issues, rising two points on declaration of an extra two per cent dividend.

AGAINST DAYLIGHT TIME. Sherbrooke, Que., April 12—The Sherbrooke city council last night decided against the adoption of daylight saving time for this season.

Spanish Miners Strike. Madrid, April 12—The miners in the province of Biscaya have gone on strike. Biscaya is the northwestern of the Basque provinces, borders on the Bay of Biscay, rich in iron ore.

Notices of Births, Marriages and Deaths, 50 cents.

BIRTHS

TAYLOR—To Mr. and Mrs. Alice Taylor, East St. John, April 11, 1922, daughter.

DEATHS

URQUHART—At the home of his parents, 117 Lancaster street, West End, on April 11, 1922, Alfred Lloyd Urquhart, at the age of fifteen years. Funeral will be private and will be held on Thursday at 2:30 o'clock. MOUNTAIN—Suddenly at 289 Duke street on April 11, 1922, Elmer Colwell, only child of James E. and Elsie Mountain, aged 1 year and 10 months. Funeral from parents' residence, Thursday at 2:30 p.m., friends invited. CHISHAM papers please copy. HARRISON—At Gondola Point, N. B., on Tuesday, April 11, 1922, Clarence Aubrey, only son of Mr. and Mrs. Ralph A. Harrison, leaving his parents and our sisters to mourn. Funeral on Friday afternoon at 2:00 o'clock.

IN MEMORIAM

ARMSTRONG—In loving memory of Harold Ernest Armstrong, who died April 12th, 1905. FATHER, MOTHER, AND BROTHERS. KENNY—In loving memory of our dear friend, Mrs. E. Kenny, who died April 12, 1921, in Montreal. MR. AND MRS. B. A. EDWARDS.

CARD OF THANKS

Mrs. Wm. Crawford and family of Westfield Centre wish to thank their friends for their kindness and sympathy at the recent and bereavement.

GOOD THINGS COMING TO THE THEATRES OF ST. JOHN

THE JOURNEY'S END

Great Alaskan Story at the Star Theatre. One of the greatest Jane Novak pictures "The Journey's End" is the special feature being shown at the Star Theatre for the mid-week. It is a Hugo Ballan story of the great North-west. Other subjects also. Good Friday, "The Confession." One day only.

A MUSICAL TREAT, APRIL 20

Lovers of good music will be delighted to hear that this date has been set for the second annual concert of the Saint John Choral Society to be held in Centenary schoolroom. Those who heard this society at their first concert a year ago, still retain pleasant memories of that evening, and as we have been privileged to attend a recent rehearsal of the society, the public may be assured of a real musical treat on April 20. 4-18

TONIGHT AT THE GARDENS

This is "Daffodil Night" at the Gardens. These weekly Floral Dances are becoming most popular. The orchestra, at its best, will render a splendid programme.

LOCAL NEWS

AT THE RITZ. Ribbon Night, Thursday, April 13, 1922. Usual prices. 4-18

EASTER PIES AND THINGS. Dainty "Gift Pies" for your Easter dining table. Place card candy boxes for the school girl's party or bride's shower. Guest room bouquets containing sewing outfits. Hand decorated confetti or fancy work boxes. Bridge sets, ash trays, Lily of the Valley growing in pots, shade pulls and candle sticks to match your bedroom chintz. All sorts of out of the ordinary gift things in our Easter Gift Shop. London House. F. W. Daniel & Co. 4-18

THE BOXING CHAMPIONSHIPS

Arrangements have been practically completed for the first of the maritime amateur boxing championships events, to be held in the armory tonight. It is probable that there will be bouts in all classes tonight, with finals in two or three. The bouts in which finals are expected tonight are the 125 pound class and a couple of the open classes. One or two of the Boston men will participate in the first night's boxing. Some of the winners may be sent to Boston to take part in the American national amateur championships on Monday and Tuesday of next week. The coming of the Boston men should give a good idea of how the local boys would make out. James Power, referee, will be present at the weighing in tonight. There are some more entries expected tonight.

PERSONALS

J. M. Woodman, general superintendent, and N. B. Des Brisay, general passenger agent of the C. P. R., New Brunswick district, arrived today from Montreal where they were conferring with officials regarding the summer timetable and other matters of interest to this district.

Mrs. James Rafferty and daughter, Miss Hazel, left last night for their home in Milltown, Me., after spending some time with Mrs. Henry Stevens, 196 Sydney street.

Mrs. James E. Gallagher, who has been in St. John owing to the death and funeral of her sister, Mrs. Anastasia Boyle, returned on last Saturday to her home in Boston.

THE COAL INQUIRY IN WESTERN CANADA

Dunsmuir, Alta., April 12—(10:30)—A attempt by Robert Livert, international board member of the United Mine Workers of America to establish labor cost of producing a ton of coal by registering permission of the board to introduce payrolls of various mines in the valley for the year 1921, was the feature of the sitting of the board of conciliation here yesterday. Representatives of the operators said that production of the payrolls would simply mean presentation of a mass of statistics from which little or nothing could be ascertained. Glen Lecuyer, an employe of Scranton mine, testified that in 1921 he had worked between 100 and 120 days. For this he had received an average of \$7 to \$8 as a contract miner. He said that he had no other means of support other than himself. He had taken in boarders to help support his wife and five children. The sitting was continued today.

MONTREAL STOCK EXCHANGE

Montreal, April 12—(10:30)—The bullish tendency of prices during the first half hour trading this morning again featured trading on the local market, many of the leaders appearing and registering substantial advances. Brazilian, yesterday's most active issue, sold at 46 today, the highest price in its present history. Winnipeg Railway registered the greatest gain, being up 3 1/2 points to 45 1/2. Quebec Railway advanced a point to 28, while Dominion Steel, in which little interest has been shown of late, sold at 29 3/4, a gain of two points net. Consolidated Smelting, whose annual statement is being issued today, sold fractionally weaker at 22. Steel of Canada was up a quarter.

HIS LEG CUT.

Robert Garnett, an employe of the McLean-Holt Company, was slightly injured this morning, while engaged in his work, his leg coming in contact with a saw. He was taken to the General Public Hospital where his injury was dressed and he then went to his home.

280 CANADIAN TEACHERS GOING

Tour of Great Britain and Flanders Battlefields Arranged by Overseas Education League.

Montreal, April 12.—The teachers' tour to Great Britain and the battlefields of France and Flanders is to be a memorable event for some two hundred and eighty teachers throughout Canada, and the plan which is nearing completion interests by any of the previous six annual tours under the Overseas Education League. Teachers from Australia, New Zealand and Newfoundland will join with those from this dominion in the arrangements for the summer. A special feature of this year's plans is the chartering of practically the whole accommodation of the Canadian Pacific S. S. "Scotian," which carries with it all those privileges which guarantee the social and vacation pleasures of the seven-day Atlantic voyage. Another attractive item on this year's itinerary is the visit to Oxford, Stratford-on-Avon and Warwick for during that period the teachers will have the unique privilege of hospitality in the Oxford colleges by generous permission of the college authorities, through Sir Herbert Warren, president of Magdalen College, Mrs. Haldane and other Oxford friends of the league. Arrangements have been made to accommodate the gentlemen of the college in Balliol College and the ladies in Lady Margaret Hall and St. Hugh's College, where, as temporary resident students, they will dine in the college halls and be given the freedom of undergraduates. It is not easy for the stranger to Oxford life to appreciate the significance of this courtesy on the part of the college authorities, which is probably without a precedent. In addition, while at Oxford, specially arranged visits will be made to Blenheim Palace by invitation of the Duke of Marlborough, and to tea at Headington by invitation of Mrs. Morrill.

It is also confidently expected that a civic reception will be accorded to the visitors this year by the lord mayor of London in the Guildhall, with luncheon and address by the lord chancellor of England, Lord Birkenhead, who stands today as one of the foremost and one of the youngest leaders in the public life of Britain. The programme for France will include a stay in Paris, which promises the utmost interest, for the arrangements are being directed by La Bienvenue Francaise, of which Marshal Foch is president, and Prince Roland Bonaparte is vice-president. It is through their interest and influence and by the good offices of Madame Boas de Jouvanel, the secretary-general, that the hospitality of the colleges during the stay in Paris.

N. S. FINANCES.

Halifax, N. S., April 12.—In the House of Assembly, yesterday, Hon. C. Torry, finance minister of the Nova Scotia government, presented the estimates for the ensuing year. Anticipated revenues, he said, were \$4,998,077, the principal source being taxes, \$2,221,000; corporations and public utilities, \$841,350; motor vehicles, \$404,000, and highways, \$490,000. He asked for appropriations of \$4,935,128 for the various departments. He said Nova Scotia had since 1915 increased her debt less than any other province and that with the exception of Quebec she had now the lowest per capita debt of any province in the Dominion.

EXCHANGE TODAY.

New York, April 12—Sterling exchange, 27 1/2; Canadian dollars 27 1/2 per cent discount.

DEATH OF H. J. WILEY

Harry J. Wiley, formerly of Fredericton, died on Tuesday at Brockton at the age of fifty six after a long illness. He is survived by his second wife, of Brockton, one son Hervey, of Brockton, and one daughter, Mrs. M. A. McKay, of the first marriage, Isabelle of this city and J. Douglas of Bridgeport, Conn. Mrs. Wiley's mother, Mrs. John Wiley, is also one daughter, Mrs. A. McKay of Fredericton is a sister.

"AS RIVERS OF WATER IN A DRY PLACE"

Lonely, lonely lay the hill, Not a bird was there to sing, Not a bee was there to drone; The sky, unbrushed of any wing, Hung above me like a stone, And scarce my feet obeyed my will, As heavily I walked alone. Then, like a tender memory, Crept up from off the lifeless ground The low, melodious lovely sound Of water lapsing secretly, A little sunken stream I found, And all the way was sweet to me.

Oh, ancient music, earliest heard, Ere time was born or any bird, When first above the chaos wild The brooding Spirit breathed and stirred; Oh, first born music, undefiled, Clear as the laughter of a child, Freest as God's latest word! —Anna De Bary in London Mercury.

ELECTION CARD

To the Electors of the City of St. John, Ladies and Gentlemen.—I desire to express my heartfelt appreciation of your magnanimous support given me on Monday last. May I hope for the continuance of that support on Monday 24th inst? As it is impossible personally to thank you I take this means of conveying my gratitude. I cordially extend an invitation to the electorate to visit my executive room where I could personally express my appreciation of your support. ALEX. (SANDY) CORBET.

"MICKY" LALONGE.

Former Toronto International Baseball League catcher, who is rounding out a strong team to represent Brantford in the Michigan-Ontario League. Lalonge was more or less an outlaw from organized baseball for several years, but he has been restored to good standing and should do well in the role of manager.

CHICAGO GRAIN CONFERENCE.

Chicago, April 12—Opening: Wheat—May \$1.22; July, \$1.20 3/8. Corn—May, 69 3/4c; July, 68 1/2c. Oats—May, 37 1/2c; July, 40 1/2c.

HALIFAX TALKS OF EXHIBITION

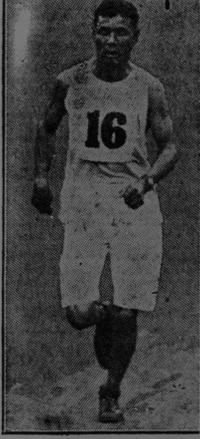

Government and City to be Asked for Financial Aid.

Halifax, N. S., April 12—Re-establishment of the provincial exhibition of Nova Scotia at Halifax was favored by the exhibition commission at a meeting here today, and they will ask the local government and Halifax city council to learn if these bodies will finance the exhibition on a fifty fifty basis as they did prior to the destruction of the exhibition plant by the explosion of 1917. If they do not wish to do this the commission will ask for legislation authorizing the commission to issue bonds, these to be guaranteed both as to principal and interest by the provincial government and the city council. Hon. E. H. Armstrong, minister of mines and public works in the Nova Scotia government, and president of the commission, said that it would likely be several years before the exhibition could be made a paying proposition. It was said at the meeting that the cost of new permanent buildings offering increased facilities over the former ones would be in the vicinity of \$450,000. The race track, it was thought, could be made ready for use at small expense.

The Gillen Board.

Ottawa, April 12—(Canadian Press)—Rumors that the Gillen conciliation board, reconstituted to investigate the disputes between the Nova Scotia miners and the British Empire Steel Corporation, had been disbanded were denied today by Hon. Jas. Murdock, minister of labor. "I know nothing about it," Mr. Murdock replied when asked regarding the rumors.

ALBERT SMOKE.

Famous Indian runner of Peterboro, Ont., who is training to compete at the Boston Marathon. The citizens of his city are generally subscribing a fund to defray his expense.

PUT UP PENT-HOUSE.

On account of the fact that the steel pent-house, ordered by the fire marshal, was being erected at the head of the elevator shaft in city hall today, the elevator was not in operation. It is expected that the work will be completed in a day or two.

CHIEF INSPECTOR DENIES CHARGE

Says Statement That He Returned Seized Liquor to St. Stephen Not in Accordance With Facts.

John B. Hawthorne, chief inspector under the prohibition act, arrived in the city yesterday from Fredericton on official business. He had just returned after a two weeks trip to New York and other United States points. Mr. Hawthorne said that his attention had been called to a statement alleged to have been made recently at a church service in McAdam by a clergyman who was prominent in prohibition circles in the province, in which it was alleged that the chief inspector had authorized the return to a St. Stephen vendor of some liquor which had been seized by the inspectors. The chief inspector said that this allegation was entirely without foundation. Not a bottle of liquor that had ever been seized at St. Stephen was returned to anybody, he said. He said the fact that the statement had been made in public caused it to become spread over considerable territory and was liable to cause injury to his reputation.

Dublin, April 12—The home minister announced last night that organized raids were now being made on republican as well as provisional government courts and the evidence indicated that the same force were acting against both courts, the object clearly being to dis-establish all law and order and create chaos and anarchy.

PASTEURIZATION OF MILK SUPPLY

(Article No. 7.)
The responsibility for a pure milk supply does not rest alone with the producer and dealer. The housewife has a very important part to play, for the purest of milk delivered to her can be, and often is, polluted by improper handling and care in the home. I am speaking now of milk which has been properly clarified, pasteurized and bottled, and delivered at the home at a temperature under fifty degrees. It is then up to the housewife, who should take it as soon as possible after it is delivered at the door, and place it in the bottom part of the refrigerator (if one is used) and should not be opened until wanted. If no refrigerator is available, the bottle should be wrapped in a wet cloth and set in cold water, in a cool place out of the sun; the evaporation of the water through the cloth will keep the milk cool. When the bottle is opened, only enough milk should be removed as is required for each meal, for warm milk should never be poured back into the cold milk in the bottle.
Milk should always be kept covered, and a most convenient cover can be had by inverting a water glass over the neck of the bottle; this will prevent any dust

Constipation
Relieved Without the Use of Laxatives

Nujol is a lubricant—not a medicine or laxative—so cannot gripe. When you are constipated, there is not enough lubricant produced by your system to keep the food waste soft. Doctors prescribe Nujol because its action is so close to this natural lubricant. Try it today.

or flies from getting in contact with the bottle opening. It is little use for the producer to exercise extreme care at his end of the line and the dealer to submit his milk to clarification and pasteurization, if the housewife allows it to sit around in the heat and exposed to dust and flies.
Keep it cold, and keep it covered. The writer once delivered to a lady a bottle of modified milk for her twin babies, and as he opened the door of her apartment saw the mother holding her finger over the mouth of the large bottle to keep two flies from entering the bottles she was filling for the babies. I immediately asked her how the milk was agreeing with the babies, and she told me that since she had been using our modified milk they had improved wonderfully. I began to think of all the care and expense we had been put to in order to be able to deliver to that home an absolutely one hundred per cent pure milk, modified by a registered chemist as prescribed by the family physician, and then to find that while the mother was cautious as to the milk she bought for her babies, she might have undone

SAVES BABE BUT LOSES CARRIAGE

Mother's Quick Act wins Life of Child as Train Wrecks Perambulator.

Oakville, Ont., April 12—Baby Dorothy Jane Caroline Strome, who will be two years old in June, was left in her perambulator for a minute by her mother while putting a letter in a mail box at the railway station here, but in that minute the baby carriage was blown under the wheels of a C.P.R. freight train which was racing towards Toronto. A sudden gust of wind had started the trouble.
The engineer of the train applied the emergency brake. People screamed and the mother stood paralyzed with fear. Then she recovered herself and made a dash to the railway track and snatched the infant from the perambulator, just before the big Mogul engine smashed into it and carried the wreckage fifty yards or more along the line.

brought her to a realization of her responsibilities.
Care is required at all times, and by all parties in the handling of milk. It is an article of food not only susceptible to bacterial infection, but chemical changes take place rapidly when exposed to heat. Milk bottles should be washed as soon as they are empty, and should not be used for any other purpose than what they were intended for. Milk bottles cost the dealer nearly double the first cost of his milk, and the high cost of milk to the consumer is due in part to the fact that the dealer does not always get his bottles back. He provides against this loss by charging an extra price for his milk. Put your bottles out each night and save extra expense.
Watch for my next article.

A Life for A Dollar

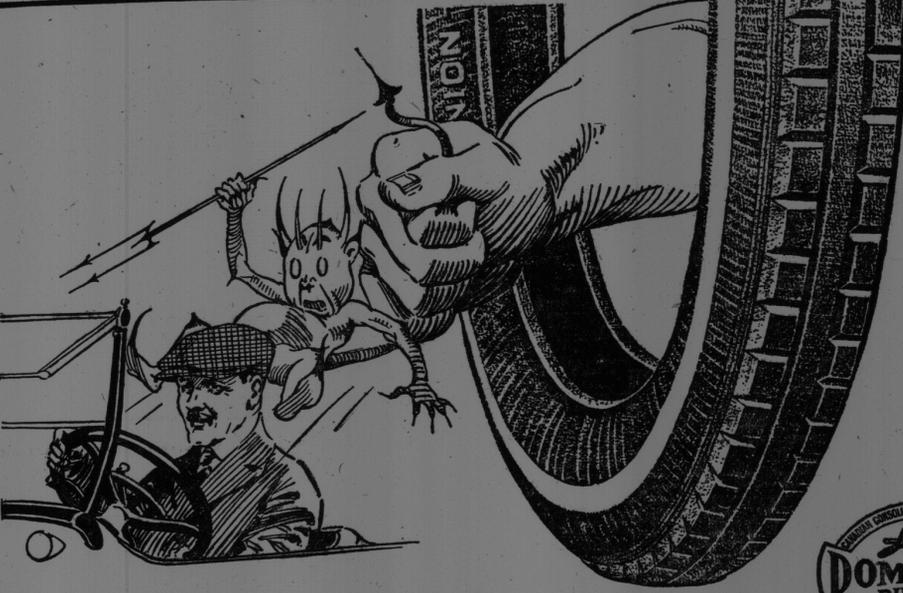

NEVER was human life so cheap as it can be bought today in the famine districts of Russia.
\$1 will save a child's life by providing food for a month.
\$10 will save ten children from starvation.
\$500 will establish a kitchen and feed 100 children until the next harvest.
Will you save a life with a dollar?
Could any other dollar you have—or ever hope to have—bring such soul-satisfying returns?
Wouldn't you sleep better—feel better—be better—if you knew that a dollar of yours saved a child's life?
—anything you do to save the children of Russia in their desperate fight against death from starvation, must be done at once. Won't you send the dollar NOW? A child's life depends on it.

Taking the Irritation out of Motoring

Most of the aggravating, irritating trials of motoring used to come from tire troubles.
Let a man be in a hurry to get somewhere—let him start off with the family for an all-day trip—let him get caught without a spare—and, "good night," it seemed to be just the time for a blow-out.
Motorists used to talk about "luck" and "lucky tires."
But when they compared notes, they found that those who used DOMINION TIRES invariably had the better mileage records and fewer tire troubles. "Luck" in tires was simply DOMINION quality.
DOMINION TIRES set the standard of service and satisfaction—and to-day, DOMINION TIRES are the tires by which all tires are judged.

Buy your tires on a business basis. Don't count your first cost only. To say that Dominion Tires give lowest cost per mile is not mere talk. It is a fact.

Motoring is ALWAYS at its best with

Dominion Tires

U.S. TARIFF BILL HIGHEST EVER

Washington, April 11—Carrying what are regarded here as the highest duties of any tariff bill in recent years and giving the president power to enforce rates even fifty per cent higher in case these duties are not sufficient, the tariff revision bill as overhauled by the senate finance committee was reported to the senate late today. Many of the duties and features of the bill have already been announced. A leading feature is the high agricultural rates, including higher rates on grains and live stock which are aimed in part at Canadian competition. High fish duties are also curbed.

The senate bill is based not on the American valuation as the house bill is, but on the foreign wholesale selling price. How long it will take to pass it is uncertain and opinion is divided whether it can be enacted before the congressional elections. A declaration by Chairman Fordney, of the ways and means committee, that he will fight for American valuation until snow flies, cools like prolonged delay, but it is a close question whether in a show-down the house would uphold Fordney in such tactics. If it becomes law the bill will hit Canada even harder than the Fordney measure, for it calls for a levy of thirty cents per bushel on wheat, as against the twenty-five cents in both the Fordney and Payne-Aldrich tariffs, the latter being the last Republican tariff.

Under the Underwood tariff wheat was free.

Wheat Flour Tax.

The new bill also raises the duty on wheat flour. It would charge 78 cents or every hundred pounds of flour brought across the border. The Fordney bill carried a duty of 50 cents per hundred pounds, the Payne-Aldrich 35 per cent ad valorem, and the Underwood 48 cents per one hundred and ninety-six pounds. The duty on oats, barley and rye would be jacked up five cents per bushel over the Fordney rate of 25 cents. The duty on the metals which Canada produces

Helps digestion —and cleans a coated tongue

Thousands of men and women have found relief from various digestive disturbances by eating Fleischmann's Yeast.

It is human nature to want to find out "why." So far as science can tell us this is the reason:

Fleischmann's Yeast is a food abundant in certain elements which are necessary to health and life itself. It promotes the flow of bile and of pancreatic juice. It has a remarkably beneficial effect on the whole digestive process. It cleans a coated tongue.

Try Fleischmann's fresh yeast in orange juice or in milk. Men like it in milk shakes and malted milk. Women like it spread on bread or crackers.

Keep your digestion in the pink of condition and your tongue clean and healthy by eating 2 or 3 cakes of Fleischmann's Yeast fresh every day before or between meals. Be sure it's Fleischmann's Yeast—the familiar tin-foil package with the yellow label. Place a standing order with your grocer today.

DISTANT PLACES WANT INFORMATION ABOUT PROVINCE

Many Requests Received by Tourist and Resources Association — Some From Florida and California.

The new booklet of the New Brunswick Tourist and Resources Association now is in the hands of the publishers, and it is expected that it will be ready for distribution very soon. It contains a fine assortment of pictures, illustrating different parts of the province. It is believed to be the best and most attractive booklet yet issued by the association. The secretary of the association, C. B. Allan, said yesterday that already he had received a large number of requests for literature on New Brunswick and the requests had come from all parts of the neighboring republic, even as far south as Florida and Texas and as far west as Oregon and California. There were a great many requests for literature from school teachers, students and librarians. Each request had been complied with and all the literature available was sent. One of the requests from Oregon came from the Oregon Agricultural College librarian, who asked for literature dealing with every phase of life and industry in New Brunswick. The pamphlets sent dealt with tourist interests, natural resources, picturesque features, geographical features, industries, commercial facts, history, and sports. The literature, the librarian said, was to be placed on one of the tables in the library for ready and handy reference.

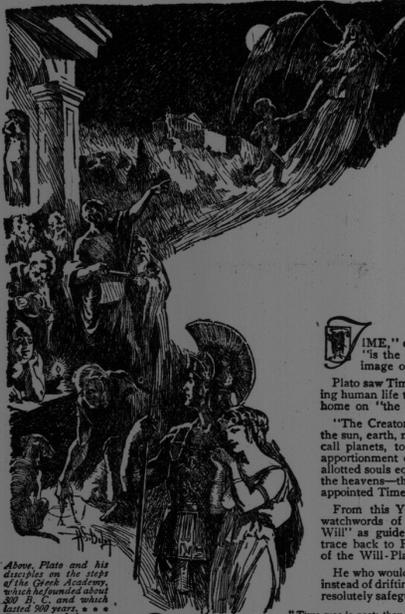

TWO W. C. T. U. MEETINGS.

The W. C. T. U. held two meetings yesterday, the regular meeting in the afternoon and a parlor meeting at the residence of Mrs. Porter, 31 Prince Edward street. Mrs. David Hipwell presided at both. In the afternoon Mrs. Hope Thompson gave an interesting report of her hospital visits and a sum of money was voted to her to carry on this important work. A general religious talk followed. At the evening meeting Mrs. Hipwell spoke helpfully of "Reverence," pointing out the difference between reverence felt for the House of God in

there is a slight decrease from the rate ruling in the Fordney tariff.

While chemical wood pulp was free in the Fordney tariff, the new bill levies five per cent. Newsprint is free, as is also mechanical wood pulp or "ground wood."

Two automobile trucks belonging to Murray & Gregory, Ltd., collided just before the noon hour yesterday at Simms' corner, at the foot of Fairville. One of the trucks was proceeding around the curve toward the city and the other was turning up to Lancaster Heights. They crashed head-on and the lighter truck was badly damaged. Both drivers escaped unhurt.

The Value of Time By Krónos

Paintures by HAROLD DELAY

"TIME," cried Plato to the men of Athens, "is the gift of the gods—the movable image of Eternity!"

Plato saw Time as the great companion, guiding human life through the fleeting years to its home on "the luminous slopes of the stars."

"The Creator," he said, "brought into being the sun, earth, moon and the five other stars we call planets, to distinguish and safeguard the apportionment of Time. To this universe He allotted souls equal in number to all the stars in the heavens—that each soul, after living out his appointed Time, might return to his own star."

From this Year of our Lord 1922, with its watchwords of "Efficiency" and "Power of Will" as guideposts to success, the historians trace back to Plato the first definite expression of the Will-Plan of life.

He who would lay hold on his life, dominating instead of drifting, must lay hold on his Time—by resolutely safeguarding the golden hours of Now.

"Time was in past; thou canst it not recall. Time is thou hast; employ thy portion small. Time future is not, and may never be— Time present is the only Time for thee!"

Over the Time of the ancients, the sun and moon kept watch. But the Twentieth Century, more richly endowed, intrusts life's chiefest possession to those marvels of accuracy which bring to us the accumulated experience of all the ages—

Elgin Watches

Above, Plato and his disciples on the steps of the Great Academy, which he founded about 387 B. C. and which lasted 300 years. A watch, one of the new Elgin series of Elgin Watches, material construction, adjustments and service fully covered by Elgin Guarantees.

her childhood days and the casual manner in which it is regarded today. Miss Marguerite Collier gave a temperance recitation entitled "The Face on the Bar-room Floor." Mrs. Seymour gave a reading entitled "A Little Pilgrim, or Jesus Paid the Fare," and Mrs. W. H. Humphrey read a paper entitled "The Heart of a Stranger." In the discussion of this paper it was suggested that all mothers should have a watch-tower or quiet place for prayer, and Mrs. H. N. Lawson related how a mother's prayers had sustained a daughter. Two needy cases were spoken of and relief measures discussed.

MORE NEWSPAPER ADVERTISING NEEDED

Montreal, April 11—Speaking before the Association of Canadian Advertisers here today, R. W. Ashcroft, assistant to President Rider of the Ames-Holden-McCreedy, Limited, put up a strong plea for newspaper advertising as a vital life-saver. He said that it was as necessary to the successful distribution of a trademarked piece of merchandise as food, raiment and shelter are to the well-being of an individual.

REV. G. W. TITUS RETURNS TO COBURG STREET CHURCH

Word was received yesterday, by a member of the Coburg street Christian

church, that Rev. G. W. Titus, a former resident of this city, had accepted a call to that church. Mr. Titus, who is at present in Montreal, was formerly pastor of the Coburg street church, where he was minister for many years. He is a well-known baseball player as well as a minister, as he played third base on the Marathon baseball team, when that team was an amateur organization. A particular part of the announcement of his return to this city came later, when a telegram was received from him last night announcing that his only son had died. His friends here will join in welcoming Mr. Titus to the city and expressing their regret at his great loss. It is expected that Mr. Titus will take over his new duties about the first of September.

ST. GEORGE'S DAY PLANS.

Arrangements for the honoring of England's patron saint on St. George's Day were completed at the regular quarterly meeting of the St. George's Society last evening, with the president, Dr. James Manning, in the chair, and with one of the largest attendances in the history of the society. The organization will attend divine service in the Mission church on that day, and the special preacher will be the society's chaplain, Rev. John Y. Young. On the following day the society will observe the occasion by a dinner at the Union Club. Several new members were elected to the society last evening. After the business session, the company listened to an entertaining programme by the concert party from the Melita. Refreshments were served towards the close.

Adila Temple, D. O. K. K., held their regular business meeting last evening in the K. of P. castle, matters of a routine nature coming before the meeting. Grand Chancellor James S. Lord, of St. Stephen, head of the New Brunswick Pythians, was an honored guest.

"PLAY BALL" IS THE CRY TODAY

Major League Teams Open the Season.

From All Over U. S., Where Games are Scheduled Come Reports of Keen Interest and a Large Demand for Tickets.

(Canadian Press) New York, April 12—Today is the day when the tired business man gets more tired about three p. m. and the mortality among office boy relatives takes an alarming jump.

The season will open in eight major league cities, but New York will be busy with its only little ceremonies at the Polo Grounds, where the Giants, wearing their world's championship laurels in a rakish manner, will battle the Brooklyn Robins in an interborough struggle.

Down in Washington, the Ruthless Yankees will open their campaign with the Senators, now converted into a dangerous pennant contender by the addition of Roger Peckinpaugh, late of the Yankees. Unless President Harding changes his mind he will throw out the first ball.

National League. Brooklyn at New York. Boston at Philadelphia. Pittsburgh at St. Louis. Chicago at Cincinnati.

American League. New York at Washington. Philadelphia at Boston. Detroit at Cleveland. St. Louis at Chicago.

The ceremonies at the Polo Grounds will be in keeping with the proud position that McGraw's men occupy in the baseball world. Mayor Hylan will throw out the first ball—and throw it high and wide, if the mayor has not improved on his control since the last world's series. At any rate, the new white sphere will be tossed in the general direction of the diamond, the hand will burst forth in the "Star Spangled Banner," the umpire will blow forth a "play ball" and the season will be on.

THE COMMERCIAL LEAGUE BANQUET

He then presented the McLellan cup to the Post Office team which had won it after a roll-off with the Sugar Refinery team. So close was the contest that the winners had smashed the single string record for the league in winning the final game and cup.

Commissioner Jones, who represented the city in the absence of the mayor, made a short and lively response to the toast to the city. He said that he was the most modest man in the council as all the sports were in Frederickton in connection with the bill before the legislature.

An amusing touch was added to the evening's entertainment by A. C. Rockwell, in replying to the toast to the league, he presented to the honorary president, D. Starkey, the bowling referee, and a member of each team in the league, comic sketches of themselves in action on the alleys. Many of these "types" of bowlers were weird exponents of art of bowling.

Since Black's alleys was the scene of the games, Harry Black's special orchestra furnished music for the occasion and played several selections. Other items on the programme were: Solo, F. Joyce; solo, Clifford Jenison; instrumental duet, Messrs. Noddin and Jamieson; solo, Ernest Tull; solo, Lester Rowley. By special request Ernest Till also rendered "Peggy O'Neill."

The presentation of the individual cups to the Post Office team, winners of the league, and to the Sugar Refinery team, as runners-up for the title, was made by Major Vassie. The members of the winning team were: Charles Brennan (Capt.), G. S. Maxwell, J. M. Clark, C. W. Scott, F. Shannon and H. B. Roberts.

The presentation of the cups for the five high averages was made by F. Barbour as follows: George Maxwell, a cigarette case; H. G. Chase, a sweater; W. H. Latham, a pair of boots; G. Lemmon, 100 lbs. of sugar; W. F. Reid, a sweater. The winner of these prizes had to take part in a certain percentage of games, which his club rolled, to be eligible for the prize.

The standing of the league for the second series, the total pinfall of each team for the season and the high average men in the league are as follows:

LOCAL NEWS

The North End fire department was called out yesterday afternoon to rescue a horse belonging to Alexander Day, which had broken through a sewer in a yard off Murray street. The hind legs of the horse and the front of the wagon were deep in the hole and the firemen had a hard job to extricate the animal. When finally rescued it was none the worse for its experience.

While the C. P. S. freighter Montezuma was on her way to this port from England she called at Havana, and while there one of her crew was drowned out of a boat. As soon as the vessel docked here a collection for the widow of the lost man was taken up. The sum of \$60 was realized. Before the steamer sailed last night this money was brought to Walter Brindle, of the Seaman's Mission, who forwarded it to the port missionary at Palmouth, England, of which town the lost seaman was a native.

The St. John's Society for the Prevention of Tuberculosis held a meeting yesterday afternoon in the dispensary at Prince William street, with A. C. Skelton presiding. Reports of the case-finding campaign were heard. Dr. H. A. Faris said the minister of health had assured him that quarters would be provided for the society's clinic and dispensary probably through the city health centre. It was the consensus of opinion that the city health centre was essential. It was arranged to have the clinic open every day when an additional nurse could be appointed. A nutritional clinic was thought to be imperative.

That the contract for construction of the new Sunday school building for the Main street Baptist church had been let and that work on the building was now going on, was the announcement made at the regular quarterly meeting of the Main street Baptist Sunday school last evening by W. J. McAlary, school superintendent. The cost is estimated near \$12,000, and it is expected that the new home will be ready for occupation by September next. Reports presented last evening were very encouraging. Preliminary to the business meeting, a tasty supper was served by Miss E. McAlary's class.

Baltimore, April 11—For the second time within four days the Oxford-Cambridge lacrosse team today met defeat at the hands of a United States combination when the team of the Mount Washington Club beat them 7 to 2.

In the inter-society pool tournament last evening in the Y. M. C. I., the Assumption team, N. Donovan and W. O'Leary, won from the K. of C. team, D. Morrison and M. Dwyer, 100 to 88. The St. Peter's team, M. Garvin and G. L. McGovern, defeated the A. O. H. No. 5 team, McKinnon and Hennessy, 100 to 76.

AQUATIC. Old Time Oarsman. (Halifax Chronicle) George Lovett, one of the most familiar figures of the North End of the city during the past half century, passed away at his residence, 24 Grey street, yesterday morning, after a brief illness.

CHAMPION WINS. Paris, April 11.—Eugene Criqui, the French featherweight champion, tonight knocked out Ben Callcott in the third round of what was to have been a twenty-round bout.

retired from active participation in the sport. His greatest feat, and those which his numerous friends and admirers were most prone to talk about were his defeat of the celebrated oarsman George Brown, and his winning of the Cogswell belt, emblematic of the harbor championship.

During this period and until the time of his death he was familiar to the public also as one of the proprietors of the North End Slip, where he passed 60 years of his life. He enjoyed great popularity and was highly esteemed in the circle in which he moved, and the news of his demise will be received with distinct shock by his many friends.

Last year Mr. and Mrs. Lovett celebrated their anniversary of sixty years of married life, and the event was the occasion of a great gathering of friends and relatives, the venerable couple being showered with good wishes and congratulations.

He is survived by his wife who is critically ill, and six sons, Louis, William, Arthur, James and Frank of this city, and George, who resides in British Columbia, and three daughters, Mrs. (Nellie) Welsh of this city; Mrs. (Annie) McCallum, Wakefield, and Mrs. (Maud) Sebastian, Boston, Mass.

BASEBALL. Convicts Lose Game. Ossining, April 12.—With the band playing and several hundred rooters cheering, the Mutual Welfare League nine, composed of Sing Sing convicts, opened its baseball season with a game with the professional Pittsfield team, champions of the Eastern League, and lost by a score of 13 to 9.

Warden Lewis E. Lawes and several other prison officials saw the opening game. The prison nine tried out three pitchers, Conklin, Morris and Sinnott. When the ninth inning opened, the score was eleven to nine in favor of the visitors, and the prisoners, shouting from the bleachers, tried to spur the home team in a couple of more runs and at least tie Pittsfield, but the visitors were too fast for them.

—needs no description. The plate speaks for itself. Like the Weston it will find favour with those more conservative in their ideas of smartness.

Creary's ST CHARLOTTE ST

washed clean and thoroughly sterilized before being used again.

There was an idea in some quarters, a feeling that the new demands of the Board of Health in the dealers for the glass bottles, sterilization, etc. would result in an increase in the cost of milk to the consumer, but there are indications that, on the contrary, there will be a drop of perhaps two cents per quart as a result of the new by-law.

"Any milk brought into the city for sale shall be brought in and delivered to a vendor only in a container sealed with two seals each bearing the initials of the producer and every such container before being returned to the producer shall be cleaned by sterilization and sealed with two seals each bearing the initials of the vendor."

It would seem possible that under the new regulations the vending of milk in the city will be limited to fewer persons than at present, because of the sterilizing and bottle requirements.

NEUTRALIZE ACIDS IN YOUR STOMACH

GET RID OF INDIGESTION

Few people realize the importance of keeping the stomach free from excessive hydrochloric acid. Yet Acid Stomach is the cause of nine-tenths of all stomach trouble.

Neutralize or sweeten the stomach acids after eating with a glass of warm or hot Magnesia water. A tablespoonful, or four tablets of pure Bisurated Magnesia to a glass of water is all that is required.

BLAMES PUBLIC FOR THEATRE PRICES

Drama League Head Says That New Yorkers Insist on Having Show Places Near Broadway.

If New Yorkers did not insist upon having their theatres around Times Square, they would not suffer so much from high ticket prices, said S. Marion Tucker, President of the New York Drama League, speaking at the Church of the Ascension Forum, Fifth Avenue and Tenth Street in New York recently.

"The money you pay at the box-office isn't for the acting or the costumes or the scenic effects," he went on. "Most of it goes to the man who owns the real estate. The overhead there—its the dearest land in the world—is simply tremendous, and that is what people who object to theatre seats at \$3.50 a piece don't realize."

"People in London went to see Abraham Lincoln by the thousands, yet was it on the Strand? No, it was played out in Hammersmith, five miles from the centre of London—as if it had been in Flatbush here. New York folks wouldn't go to Brooklyn to see the finest play in the world."

One of the written questions handed up to Mr. Tucker after his talk asked him to explain "why the movies have hurt the legitimate drama."

"I can't," he replied. "They haven't. On the contrary, they have helped it, by drawing the unintelligent element away from the theatre."
