AFT BIDS GOOD BYE TO WHITE HOUSE; WILSON U. S. PRESIDENT

Washington Streets Thronged This Morning

ALL PASSES OFF WELL

Chief of Office Administered by Chief Justice White—The Suffragists Are Incensed—Taft Votes Bill Before Stepping Out

Washington, Mar. 4.—Wm. H. Taft said good-bye to the White House and Capitol and Woodrow Wilson was inaugurated as president. The oath was administered by Chief Justice White.

President Taft and Mr. Wilson were at once escorted to the president's room, where Mr. Taft took up the work of signing bills. Mr. Marshall went to the vice-president's room, accompanied by members of the committee and was met by President Tom Galligan. The two parties remained in these rooms until Congress had done the last bit of its work and

Mr. Wilson and Mr. Marshall, incoming president and vice-president, respectively, accompanied by the congressional committee left their hotel and the short drive to the White House. Oliver and Essex also accompanied them. The students of Boston and Virginia universities in a line on either side of the street followed the procession and followed it to the White House.

President Taft was waiting to welcome incoming president and vice-president to the front porch. The Princeton band of the Jungle Song and the student band of the University of Virginia played in the beginning of the drive to the White House. The band of the University of Virginia played a half hour later.

President Taft, having in mind the incoming president's desire for simplicity, led him to the east room of the White House, instead of the blue room, as the former president had done. Here Mr. Taft and Mr. Wilson, accompanied by Mr. Taft's wife and Mr. Wilson's wife, were seated. Mr. Taft occupied the right seat, with the vice-president on the left. Mr. Wilson was seated between Mr. Taft and Mr. Wilson's wife.

The cabinet was ready for the beginning of the session of inauguration of the vice-president in the senate chamber. President Wilson's cabinet is complete, and it remains only to formally send the nominations to the senate, either today, if the ceremony permit, or else tomorrow. Unless actually nominated, the list is unofficial, but the list is definitely accepted to be as follows: Secretary of state—William Jennings Bryan, of Nebraska; Secretary of the treasury—William G. McAdoo, of New York; Secretary of war—Lindley M. Garrison, New Jersey; Attorney-general—James McReynolds, of Tennessee; Postmaster general—Representative Albert Burleson, of Texas; Secretary of the navy—Joseph Daniels, of North Carolina; Secretary of the interior—Franklin K. Lane, of California; Secretary of agriculture—David F. Houston, of Missouri; Secretary of commerce—Representative William C. Redfield, of New York; Secretary of labor—Representative William B. Wilson, of Pennsylvania.

The ladies Mrs. Wilson and her daughters meanwhile entered the spaces reserved for them in the senate galleries and were the centre of all eyes. Mrs. Wilson wore a tan cloth dress with a brown ribbed silk coat and a small hat to match. Miss Margaret Wilson wore blue silk poplin, Miss Jessie Wilson lavender broadcloth, and Miss Eleanor Wilson bright blue cloth dress. Neither Mrs. Taft nor any other members of the president's family occupied the space reserved for them in the senate galleries or on the stand at the east front. Mrs. Taft and her daughter went to the home of Miss Mabel Bourdman to await the coming of Mr. Taft after the inauguration ceremonies when they all left for Augusta, Ga.

At 11:30 o'clock committees from the house and senate waited upon President Taft in the marble room and gave formal notification that congress was ready to adjourn. Suffragettes Incensed Before Woodrow Wilson has been present many hours, he will have placed in his hands by incoming suffragists, a copy of a vigorous resolution of denunciation adopted at a mass meeting last night following their parade along Pennsylvania avenue. A resolution for the investigation of the Washington police force was offered

New York, March 4.—John Brennan, a marble worker, fell from the seventeenth floor of a new building yesterday and was killed. He suffered fractures of the leg bones and a slight scalp wound, but will recover.

WEARY MEMBERS IN ALL NIGHT SESSION IN HOUSE AT OTTAWA

FREDERICTON NOW SCENE OF BATTLE

Lobbying in Connection With The Street Railways IS MUCH ACTIVITY

On Suburban Bill Real Fight Will Be in House—The St. John Police Matter—The Golf and Country Club

(Special to Times) Fredericton, N. B., March 4.—Most of the members are on hand today to resume the business of the province. Speaker Clarke has returned from his duties but there was nearly a complete absence of more importance yesterday afternoon. Premier Fernald, returning from Woodstock, was carried by a missed connection at Fredericton Junction and a special had to be sent out from Fredericton to get him here in time for the session.

The morning the corporations and standing rule committee are in session and both there and in the lobby the county members are hearing more about the street railways, their fabulous cost and the expense of running them than ever they heard before. The lobbyists in favor of the suburban Railway Co. franchise are very active but not any more energetic than owners, solicitors and officials of the St. John Railway Co. are in opposition. All kinds of arguments are being advanced.

The petition for the bill was presented yesterday and will doubtless be reported to the committee which the hearing before the corporation committee which the hearing ones assert will give it favorable consideration and then the real fight will be in the house in committee where amendments of every kind may be expected to kill or render the charter valueless.

OUT ON STRIKE Word reached the local office in King street central yesterday that a strike had been declared in the plant of the Canadian Consolidated Rubber Co. Sixty-three cutters in the rubber department had quit work because of the rigidity of the examination which they were required to pass. They went on strike on Saturday last. A. E. Maslin, local manager, is now in Montreal.

Want Torrens System and Think Government Will Meet Wishes—Other Important Requests The delegation from the Barristers' Society, who were in Fredericton yesterday to lay several matters before the provincial government, returned to the city today well pleased with the results of their mission.

The chief object was to ask the government to take steps towards the introduction of the Torrens system of land registration in this province. A committee of local barristers has given considerable attention to the matter but the difficulties experienced in endeavoring to grant this system upon that in use at present would to present complications and they decided that a more systematic effort would have to be made. The Society accordingly asks the government to appoint a commissioner to give the matter a thorough investigation and to prepare a bill to be presented to the legislature at next year's session. Consideration was promised by the government and the delegation feels assured that their request will be granted.

Another matter dealt with was the cost of advertising properties for sale on proceedings in the chancery division. At present the costs are large, in the cases of small properties sometimes almost equaling the value of the property. The government was asked to modify the requirements to lessen the cost. The delegation also protested against some of the provisions of the new city court act, among them being the clause providing for increasing the jurisdiction from \$80 to \$100. Those who composed the delegation from St. John were Judge J. R. Armstrong, president of the Society, D. Mullin, K. C.,

Sir Wilfrid Laurier Presents Amendment to Naval Bill

As Breakfast Time Came M. P's Were Stretched Over Seats Asleep or Slumbering With Heads on Desks—Liberals Declared Ready to Sit it Out Till Saturday

(Special to Times) Ottawa, Mar. 4.—Parliament was still in session at 9:40 this morning after a continuous sitting of nineteen hours and the end was not yet in sight. During the night the debate proceeded on the amendment of Sir Wilfrid Laurier and was participated in by Messrs. Lemieux, Emmerson and MacKenzie in turn. Hon. Mr. Oliver led the Liberals after Sir Wilfrid retired at four o'clock, while Hon. Mr. Hazen was in direction of the government forces.

The chamber presented a weird scene of human interest with members stretched over the seats and sleeping on desks. Indications are for a continuous sitting until Saturday night unless the government relinquishes its position. The Liberals are well organized in reply to an express confidence in the outcome.

When daylight came on the first all night session the members were better natured than was to have been expected under the circumstances. Premier Borden left for home at three o'clock, and was back in his place by ten-thirty. Sir Wilfrid Laurier went home about the same time, but was not around so early in the morning. During his absence the opposition forces were led by Hon. Frank Oliver. Throughout the long hours of the night the light was continued, the speakers including Hon. H. R. Emmerson, Hon. Rodolphe Lemieux, D. MacKenzie and Dr. Clark. Members remarked the opposition leader as he walked out of the chamber. An hour later he was back in the house and after a short speech moved the first amendment in the committee stage. It was the addition to the cases appropriating \$55,000,000 that the words "for the speedy organization of a Canadian naval service in co-operation with and in close relation to the Imperial navy."

In support of his amendment that the appropriation of \$55,000,000 be used for "The speedy organization of a Canadian naval service in co-operation with and in close relation to the Imperial navy," Sir Wilfrid Laurier said he saw in the approaching abolition of the treaty with the United States a danger to Canada on the Pacific coast, and it was there that a Canadian navy would be needed.

Mr. Borden declared that the money was not being given to Britain, but was to be expended upon the construction of ships to aid in the general defence of the empire. The vessels would remain in the ownership of Canada. Sir Wilfrid, he asserted, had completely ignored the admiralty's memorandum. Every Liberal had voted for clause 1 of his bill.

Mr. Borden deprecated the idea that Canada required a fleet on the Pacific coast. The admiralty could send one of its lesser warships to the defence of that coast if necessary, and could retain its larger ships in the decisive theatre, the North Sea.

At three o'clock, Hon. Rodolphe Lemieux, who had been speaking in an editorial from the Ottawa Citizen, headed "Fright and Finance," which he said coincided with Mr. Laurier's views as to the incentive to this frenzied preparation. He reminded the house that this was from the organ of the government in the capital of the country. He declared himself in favor of the amendment, because it upheld the Anglo-Saxon principle of self-government. He was followed by Hon. Mr. Emmerson.

"Not if I know the vitality and self-respect of the Canadian people," replied Mr. Emmerson. "But if we go to defeat we fall not with the sword in its sheath but broken at the hilt."

At one o'clock this afternoon Mr. Marcile of Bagot, had commenced a speech in French which promises to last for several hours.

At the conclusion of a long speech by Mr. Emmerson this morning, A. F. Boye shouted in defiant tones, "You are going down to defeat."

"Not if I know the vitality and self-respect of the Canadian people," replied Mr. Emmerson. "But if we go to defeat we fall not with the sword in its sheath but broken at the hilt."

At one o'clock this afternoon Mr. Marcile of Bagot, had commenced a speech in French which promises to last for several hours.

Another Step in Organization of Baseball League Reported It is reported that the conference of D. B. Donald and E. J. Leonard with St. Stephen and Calais baseball men last night in the border town was very enthusiastic, and gave promise of a lively and active interest being displayed by the sporting fraternity of the border in the formation of the N. B. and Maine League. The scheme outlined a few days ago in the Times with the line-up including Fredericton, Calais and St. Stephen as one, Bangor and St. John, it is expected will be carried through successfully, and the work of signing on players will be taken up soon. Mr. Leonard is at present in Bangor but will probably come to St. John in about ten days or a fortnight.

W. A. Ewing, K. C., J. Roy Campbell, B. R. Armstrong and S. A. M. Skinner and they were joined at Fredericton by D. King Hazen.

At present the costs are large, in the cases of small properties sometimes almost equaling the value of the property. The government was asked to modify the requirements to lessen the cost. SUFFRAGETTES ARE GIVEN STORMY RECEPTION IN WASHINGTON

Washington, March 3—Five thousand women, marching in the women's suffrage parade today, practically fought their way foot by foot up Pennsylvania avenue, through a surging mob that completely defied the Washington police, swamped the marchers and broke their procession into little companies. The women trudged steadily along under great difficulties were able to complete their march only

when troops of cavalry from Fort Meyer were rushed into Washington to take charge of Pennsylvania avenue. No indignation has ever produced such a scene which, in many instances, amounted to nothing less than riot. Later in Continental hall, the women turned what was to have been a suffrage demonstration into an indignation meeting in which the Washington police were

roundly denounced for their inactivity, and resolutions were passed calling upon President-elect Wilson and the coming congress to make an investigation and locate the responsibility for the indignities the marchers suffered. Miss Helen, the noted deaf and blind girl, was so exasperated and unnerved by the experience in attempting to reach the grandstand where she was to have been a guest of honor that she was unable to speak later at Continental hall.

Although stout wire ropes had stretched up and down the length of Pennsylvania avenue from the peace monument to the mall behind the White House, the enormous crowds that gathered early to obtain points of vantage overstepped or crawled beneath. Apparently no effort was made to drive back the trespassers in the early hours with the result that when the parade started it faced at almost every hundred yards a solid wall of humanity. On the whole, it was a hostile crowd.

I know not why it is but a great many women never think of washing their face cloths after every time of using, but content themselves with wringing them out carelessly—some women do not even think to do this—and hanging them up on a hook. If a hook or nail set is handy, perhaps they throw the wet cloth down in a heap on the washstand. Mind your work, if you wish to obtain or retain a fair skin, when soiled water and soap are allowed to remain in one's washcloth, and the decayed soap and dirt which is rubbed off on the skin, causing blackheads and pimples to put in their appearance.

MOROS BESIEGE TOWN Thirty-Two Americans Known To Be Wounded, Some Seriously

Manila, March 4—The town of Jolo has undergone an incessant attack by the Moros for the last two weeks. Details of the operations are difficult to obtain as the censorship is most rigid. All the letters sent by officers and men defending the town are subjected to the minutest scrutiny. That the fighting has been serious, however, is obvious from the fact of the arrival of a batch of thirty-two wounded Americans, seventeen of whom were suffering from serious injuries.

The Moros, it is reported, continually fling taunts at the defenders of the town, calling on them to "come out and fight in American fashion and not like pigs."

The troops are chafing greatly at their inaction and many complaints are heard among both officers and men.

Regular General Pershing, commander of the department of Mindanao, denies the report that arms are being smuggled into Jolo.

URGES PEACE PARK IN DETROIT RIVER

Suggestion For Memorial of Peace Between the Nations

Windsor, Ont., March 4—Purchase of one of the islands in the Detroit river by the governments of the United States and Canada jointly, to be converted into an international convention park with an international convention hall as its principal architectural feature will probably be suggested as a suitable memorial for the hundred years of peace between representatives of the two nations meet in New York in April.

The plan was outlined by O. E. Fleming, president of Windsor board of trade, at a meeting of the Canadian peace centenary association in Ottawa and met with such favor that it is expected it will be brought before the international body by representatives of the Canadian association.

Mr. Fleming, who is a member of the Canadian peace centenary association, urged that no plan for commemorating the anniversary would be complete without the establishment of peace memorials along the Detroit river, which for the first time was shed in the war of 1812.

In connection with his proposal for an international park, he suggested the erection on it of an international peace convention hall to serve much the same purpose for Canada and the United States as the international arbitration hall at The Hague.

Another suggestion discussed by the Canadian association, which will probably be recommended, is that at some fixed time during the celebration five minutes of absolute silence be observed in every English speaking country of the world, and that suitable religious services be conducted.

ARRESTED IN HALIFAX; IS SAID TO BELONG HERE

Warren Gaste, aged twenty-four, was arrested by Detective Harshman and Police Officer O'Halloran late on Saturday night on a charge of robbing several of the crew of the steamer Amelis in Halifax.

Leo King, punser, Basil Knight, steward and David Dixon, cook, all members of the crew were, on Friday night, the victims of robbery on board their steamer. At a late hour when all on board were asleep, someone made an entrance into the cabin, fished money from the pockets of the sleeping punser, cook and steward and made a clean getaway. The steward had \$40 in his trousers pocket and when he awoke found that \$20 had disappeared. The cook had \$80 in his clothes, all of which was gone. Other money was stolen.

It is said that Gaste belongs to St. John.

ST. STEPHEN BANK CASE

St. Stephen, N. B., March 4—The St. Stephen Bank case came up for hearing this morning before police magistrate, J. W. Richardson, on a charge against Julius Whitlock, cashier, of making false returns to the government on two separate occasions. Counsel for the shareholders is J. B. M. Baxter, St. John, and H. A. Powell, K.C., is for Mr. Whitlock.

Thos. McCullough, of St. John, was appointed stenographer.

Geoffrey G. Howthorn, accountant, who examined the books, was called. A copy of returns of the bank for 1909 was offered in evidence, but objected to by Mr. Powell. Mr. Baxter said the original returns would reach here from Ottawa by Wednesday.

Mr. Baxter elicited the statement that there were many notes and drafts placed in the bank as collateral which were practically valueless.

Stories of children are generally amusing. Here is one of a small boy's first visit to a blacksmith's. "Mamma," he said, "I saw a man making a horse." "Mamma—You must be mistaken, surely." "No, I am not, mamma." He had the horse nearly finished when I came away. He was just nailing on the feet."

It often happens that new kid gloves split the first time they are tried on. To prevent this, place them between the folds of a damp towel for about an hour before they are to be worn. The damp will stretch the kid, so that the gloves give to the required shape without splitting.

MUCH ADO ABOUT NOTHING

Men usually tremble before the mighty power that holds a tyrant's reins. Upon their day and hour, but queer is human nature and wonderful to view. For they will shake and shiver before a cipher, too.

The child will enter in them and freeze their very bones. Their very teeth will chatter and mock their bravest tones. This hapless state befall them and turn them stiff and stark when on a winter morning they see the zero mark.

KNOW HIS BUSINESS

The organist of a country church having been taken ill just before a festival at the church, asked a friend of his an accomplished musician, to play in his stead.

The friend consented, and, on the festival day, chose the "Hallelujah Chorus" playing full chords where the regular organist played only single notes. The former, of course, required far more wind.

Presently in the middle of the piece, the wind gave out. The organist waited a few moments; then, finding it did not come and find, he went round to the blower and found him just going home.

"Blowing!" said the organist. "You're finished! Do you think I've been blowing all these years and don't know how many puffs the 'Hallelujah Chorus' takes? You can't get over me."—Weekly Telegraph.

### WILSON'S INAUGURAL

"This is not a day of triumph; it is a day of dedication. Here must not be the forces of party, but the forces of humanity. Men's hearts wait upon us; men's lives hang in the balance; men's hopes all upon us to say what we will do. Who shall live up to the great trust? Who dares fail to try? I summon all honest men, all patriotic, all forward-looking men, to my side. God helping me, I will not fail them. If they will but counsel and sustain me."

In these striking sentences President Woodrow Wilson closes his inaugural address, which is remarkable for its brevity as well as its lofty tone. President Wilson does not leave anybody in doubt as to his intentions. He admits with a feeling of pride, no doubt, as an American citizen, that his country has accomplished great things, and he pays tribute to the genius of those who have made the life of the nation greater; but, he says, "the evil has come with the good and much fine gold has been corroded." Then he goes on to speak in plain words of the changes that must be made in accordance with the new vision of the people. Former generations yearned to succeed and to be great, and it made them to some extent heedless and cruel. Now has come the sober second thought, and "the determination to square every process of our national life again with the standards we so proudly set up at the beginning and have always carried in our hearts."

Coming down to definite statements, President Wilson points out the need of tariff reform, a better banking and currency system, a better industrial system, improvement of agriculture, and a policy of conservation. The American people have been great, he says, as producers, but have not paid sufficient attention to cost and economy, nor to the great task of safeguarding the health of the nation. The new president also makes it clear, however, that he proposes to advance step by step, and not in a reckless way, the purpose being to restore and not to destroy. Of course this political affiliation, but outside observers will regard it as an eminently statesman-like utterance, worthy of a man who has been chosen for the highest office in the gift of a great nation.

**THE FEEBLE MINDED**  
A delegation of two hundred persons representing all parts of the province appealed to the Ontario government last week for legislation providing for the care of the feeble-minded. There is a provincial association for the care of the feeble-minded in that province, and it is fully convinced that the legislature should take action without further delay. About 800 idiots and imbeciles are cared for in an institution at Orillia, but there are also about 5,000 feeble-minded persons abroad in the province, of whom from 1,500 to 2,000 are children of school age. It is said that the whole 5,000 are feeble-minded as to be unable to take care of themselves and to earn a living except under supervision. It is estimated that about 200 children are born of feeble-minded mothers every year in Ontario. The association asks for a more strict examination at entry ports to keep out of Canada mentally defective immigrants. It asks that the provincial government establish a bureau to keep a record of the mentally defective. It would increase municipal responsibility in the matter of the issue of marriage licenses, and would have legislation to prevent the marriage of mental defectives. The association asks the legislature to provide institutions in various parts of the province for the care of the feeble-minded, each municipality being required to pay for the maintenance and care of its wards up to the age of twenty-one years, when, if they require further care, they should become wards of the provincial government. The deputation stated that seventeen cities and towns were prepared to take care of their feeble-minded if the government provided the institutions, while three city councils had expressed their willingness to take the matter up individually. The association feels that it is not a matter for individual action, but for the inauguration of a provincial system. Thus, in Ontario, as well as in Nova Scotia, this very important matter has been brought to the attention of the government.

**RE-DISTRIBUTION**  
The Montreal Witness presents figures which it contends are ample proof that Western Canada should now have twenty-five more members than it actually has in the house of commons. Up to 1900 the west had actually a greater representation than it was entitled to. After 1900 its population grew rapidly, and between 1900 and 1911 the Liberal government increased its representation from seventeen to thirty-five members. It was given twenty-eight in 1904 and thirty-five in 1908. This number should have been further increased in 1911, but there was a change of government. The witness contends that the number should have been increased in 1911 to fifty-six, and that it ought now to be increased to sixty-four, whereas the number remains at thirty-five, and the Bodou government appears to be in no hurry to bring down a redistribution bill. Under the circumstances there can be no

### BIRTHDAYS OF NOTABILITIES

**TUESDAY, MARCH FOURTH.**  
Two prominent Canadian newspapermen observe their birthdays today, Senator William Dennis, proprietor of the Halifax Herald and Mail, was born in Cornwall, England, on March 4, 1836. He entered the employ of the paper which he now owns in 1853 and within short intermissions, which he worked on the Winnipeg Sun, has been constantly associated with it. He has always taken a keen interest in public affairs and has used his paper to raise money for several causes. He was appointed to the senate in 1912.

J. S. Bierley, president of the Montreal Herald Publishing Company, was born in London, Ont., in 1838. He started as a printer's devil in the London Free Press office and since then has had a varied experience, first as a printer and then as a journalist. He became managing editor of the Montreal Herald in 1898, the same year that he held office as president of the Canadian Press Association. He is regarded as one of the leaders of the Canadian press.

This is also the birthday of Frank Ford, for several years deputy attorney-general of Saskatchewan, now a prominent lawyer in Edmonton. He was born in Toronto forty years ago. He had his start in the office of Dalton McCarthy, to whom he was private secretary. He later served as private secretary to the late Premier A. S. Hardy and Hon. J. M. Gibson, now Sir John Gibson. He was appointed solicitor to the treasury of Ontario in 1902 and in 1905 went to Regina as deputy attorney-general.

If she caught the Chancellor of the Exchequer  
She'd pull his hair and throw him in the Thames;  
She'd put the English males in consternation.  
It's very interesting, too, to note,  
That she's set the English mails in consternation.  
Thus proving that she's qualified to vote.

When upon the Lords or Commons forth she rallies,  
Then English politics begin to hum;  
You can see the members champing down the alleys,  
For who would care to argue with a woman?  
While the danger to the cabinet increases,  
California and Torquemada gloat;  
They have nothing on the female of the species.  
When proving that she's qualified to vote.

Oh, old England's skies of politics are lit now and then by a woman's ruddy glow!  
Oh, her steam locomotive was safer out in Turkey.  
Or equally secure in Mexico!  
Oh, old England has some problems for solution.  
But most of them 'were better she forgets.  
Till she settles this new-fangled revolution.  
Of militant Apache suffragettes!—New York World.

**MORNING LOCALS**  
The members of St. Stephen's Guild heard a very instructive lecture last evening. D. R. Jack spoke on his trip through Germany, Austria and Turkey. The lecture was illustrated by limelight views and splendid scenes were shown of Dresden, Vienna and Constantinople. During the musical programme between the talks, the Austrian national anthem was sung by a quartette composed of Mr. and Mrs. Griffiths, Mrs. Macneil and Mr. McArthur, a piano solo was rendered by Miss Borden, and a vocal solo given by Mr. Knight. Against Miss Minnie Donovan, Pond street, Miss Kate Lacey, Pond street, Mrs. Finning, Brunel street and Mrs. Frances Macdonald, Brunel street yesterday were made clergies of selling cigarettes or beer on Sunday. Stanley Titus, who made the report on behalf of the Lord's Day Alliance, gave evidence. E. S. Ritchie, representing Mrs. Finning and Mrs. Macdonald, cross-questioned the witnesses. In reply to Mr. Ritchie's enquiries, he said that his reasons for going to these stores was that his conscience prompted him to do it. The matter was adjourned until the afternoon.  
The Painters and Decorators at a meeting last evening approved of securing a

### SIR ROBERT PERKS IS INTERESTED IN THIS FACTORY FOR AMHERST

Proposed Paper Bag Making—Town Men Active in Getting Industries

At a meeting of the Amherst board of trade last Friday G. K. McKee discussed the proposition of establishing a paper bag factory in Amherst. Mr. McKee had gone into the matter very carefully with the assistance of a committee appointed by the council of the board of trade. Sir Robert Perks, who is interested in the New Brunswick Pulp & Paper Company had given assurance that he would be willing to take \$3,000 stock in such an industry and the officials of the New Brunswick Pulp & Paper Company had also indicated that they would take some stock in the concern.

It was finally resolved that the board of trade endorse the report of the committee as favoring the establishment of such an industry and E. L. Miller, G. A. Lashby, Blair McLaughlin, W. A. Fillmore and G. K. McKee were appointed to correspond with an English broker relative to the raising of a certain portion of the stock.

Another committee was appointed to confer with representatives of the Peaches Mill Co. of Kentville, who desire to locate their plant in Amherst. F. R. Wolfe of Mahone's N. S., also sought to establish an industry in the town and this matter was referred to the manufacturing committee.

A joint committee of the city council and board of trade has reported in favor of erecting two school buildings, one of eight and one of five rooms, and purchasing a site for a third, as the school population of Amherst is growing rapidly.

T. Gordon Ferris of Halifax has been spending the last week in Amherst on business matters in connection with a new industry.

### Found by a Microscope

The curability of Bright's Disease is not a matter of opinion but a fact in nature. One factor in determining it is the microscope.

Casts are flecks of kidney tissue that flow from the degenerating kidneys in Bright's Disease. They can only be found by a microscope. If an agent has been evolved that counteracts Renal degeneration then the casts must gradually disappear. If you have Bright's Disease you owe it to your self and family to try Fulton's Renal Compound before giving up.

TO THE SPEAKER FOR AID

Premier Annoyed at Matter of Unfulfilled Promise—Dr. Pugsley Shows Hazen Wrong on His Figures For Cost of Dreadnought Construction

Ottawa, March 3—Premier Borden was again forced to appeal to the speaker of the house today to protect himself from a request for information. The point raised was whether the government intended to carry out the promise of Hon. Mr. Borden in 1908 regarding the nationalization of telegraphs and telephones.

"Not at all," repeated Mr. MacDonald, with emphasis. "The government shall not sit silent or dodge the question if I can help it. The present prime minister issued a series of pledges to the people of Canada at Halifax in 1908 which he promised to carry out as an act of nationalization of telegraphs and telephones."

Borden Aids Speaker's Aid. Mr. MacDonald was proceeding when Premier Borden interposed and testily appealed to Mr. Borden to stop him. "He is not in order," claimed the premier.

answered on this bill," responded Mr. MacDonald. "When will he make his announcement?"

"It is not to be made tonight," exclaimed Mr. Borden, amid a roar of Liberal laughter.

"If not tonight, then when?" persisted Mr. MacDonald, while the government benches continued their endeavor to hound him.

"You will learn later," the premier declared, again appealing for the carrying of the clause.

"This hasn't anything to do with the bill," complained Hon. Mr. Cochrane.

"It has much to do with it," replied Mr. MacDonald, who proceeded, amid the noise from the government benches and cheers by the Liberals.

"When this government finds itself embarrassed and does not want to give information which is due the people, we are told that we are not in order. Why should not the Canadian people have the fullest information. I have the right to ask one of their representatives to ask the question and to comment upon the answer."

"It is not sufficient, and it is well that the country should understand that the government not only has made no attempt to fulfill the pledge and action made, but that it has absolutely failed to give any reason or explanation for its failure."

"There was further persistent commotion and continued government cries for order. Mr. Borden supported them.

"It is best to remember, Mr. Chairman," was the Nova Scotia Scot's final warning to the Nationalist, "that because gentlemen in the back benches about it does not mean that you have to rule me out of order."

Ottawa, March 3—It was getting towards midnight when parliament finally got back tonight to the emergency and the navy, resuming the debate in committee on the second clause of the government bill providing for the grant of \$33,000,000.

The Liberals promptly renewed the request for detailed information as to the basis upon which Premier Borden's estimate of \$60,000,000 for the two fleet units built in Canada was made.

The latter read another memorandum estimating a total cost for two fleet units, when built in Canada and fully equipped as being \$66,877,356, with annual maintenance estimated at \$6,414,088.

This was based on an estimated increase of one-third more for building in Canada with forty per cent over British maintenance.

The correctness of these figures was promptly challenged. Mr. Hazen declared \$4 at the information furnished showed that the average cost per ton for a super-dreadnought built in Britain was \$433, as compared with \$550 per ton in the United States.

WHITE HOUSE NOT "DRY" UNDER NEW REGIME

The attitude of President-elect Wilson regarding liquor in the White House was explained by Dudley Field Malone, assistant corporation counsel, at a dinner of the American Wine Growers' Association at the Waldorf-Astoria recently. Mr. Malone is a warm friend of the president and accompanied him on some of his trips in the fall campaign. He declared Mr. Wilson would not have a "dry" White House.

No doubts many shorts covered yesterday, prices moved forward with more ease than they declined, perhaps because it is recognized that the very gloomy view that has been taken about matters was not warranted. The improvement in sentiment has gathered some steam and it is possible that this may develop into a powerful buying movement. On the contrary there are some who think that the demand for securities must follow the advance and hence argue the rally has about run its course.

There was a scarcity of offerings yesterday and as it continues, bullish work will probably continue. The good stocks are still cheap.

Eleven Buildings Burned

White Plains, N. Y., March 4.—Eleven buildings in the heart of the business section of this city were destroyed by fire which broke out a little before two o'clock this morning, and at three o'clock the fire was still spreading with a loss estimated at \$50,000.

The fire started in the office of the Westchester News, a large up-to-date printing plant, which was entirely destroyed. The other buildings destroyed included that of the New York Dressed Beef Company.

DON'T GROW BALD, YOUNG MAN!

Care of Your Hair While You Have Hair to Take Care of

It's a safe bet to one bet that the young man who uses PARISIAN Sage as an occasional hair dressing will never grow bald. There's a reason, of course, and it's a very good and sufficient one. Dandruff germs cause falling hair and falling hair means thinner hair and in due time baldness. PARISIAN Sage prevents baldness, by destroying the cause of baldness—the little persistent voracious dandruff germ. If you use dandruff or itching scalp, means that dandruff germs are sapping the vitality from the roots of your hair. Get rid of your hair troubles by using PARISIAN Sage. It is not a dye, mind you, neither does it contain poisonous sugar of lead or even sulphur. It is a scientific preparation that abolishes dandruff, stops falling hair and keeps hair, and makes hair grow lustrous and luxuriant. Many young women as well as men are growing bald and for the same reason. Use delightful, refreshing PARISIAN Sage; it nourishes the hair roots, if the roots are not dead, and brings to every wear a head of glorious hair—radiant and fascinating. Large bottle for 50 cents at drug stores and toilet concerns. See that you get PARISIAN Sage. All druggists guarantee it.

USE THE WANT AD. WAY

King George's Navy Plug

Measles is probably the most universal and widely distributed of the contagious diseases in the civilized world. Only a very limited number of people grow up to adult age without contracting it. One attack, no matter at how early an age, almost invariably protects from future attacks. It is said that in Canada every one is willing to defend his country.

Before it can be recognized and pronounced upon, it has already had opportunity to infect all who come into close contact with it. Indeed, this difficulty of control is so great that in many cases in England it has been removed from the list of notifiable diseases.

When measles is at all prevalent, parents and others in charge of children who have not had the disease, would do well to regard with suspicion the signs of contact with school and apart from his fellows for not less than ten days before the disease is developing or not. There is no more practical way than this of preventing the disease.

Measles, of itself, is not a very grave disease. It sometimes predisposes to severe after-effects, such as bronchitis, and almost always the most serious in the very young, that is, in children under two or three. If therefore, those under that age can be kept from the disease, considerable will be done in the way of depriving it of its harmful character.

This Fighter Wanted to Battle on Strawberries and Cream

By TOM ANDREWS

BOXERS, or, as most folks say, fighters, as a rule are very fond of sweets. There are few of them who have not a sweet tooth. Jimmy Walsh, Boston bantam weight, is a fiend for ice cream, so are Ray Bronson, Jimmy Clabby, Packey McFarland, Jack Britton and others. Eddie McGoorty likes candy. Freddy Welsh always had a liking for chocolates, while many of those whom I have met about the streets and at training camps have a liking for ice cream, strawberries, candy, and the like.

Several years ago, when I was acting as match maker for the Badger boxing club in Milwaukee, I matched a young fellow named Morris, from Green Bay, Wis., to meet a Chicago lad. It was in January. The day of the show the clerk at the Globe hotel 'phoned me and said: 'Say, there's a young fellow here named Morris of Green Bay, who says he was sent by the club. Is he all right?'

'Sure,' I responded. 'Give him his meals and room.'

A couple of hours later another 'phone call came from the hotel and the clerk called out: 'Say, that kid had breakfast on the European plan. Does that go?'

'Yes, but his one meal runs up to \$7.80,' said Mr. Clerk. 'For the love of Mike! What did he eat?' I asked. 'Nothing but a porterhouse steak and strawberries and cream,' came the answer. 'Is he all right for dinner?' continued the clerk. 'Yes, but feed him on pork and beans and nothing else. No more berries at 50 cents a plate for the B. A. C.—not even for a fighter.'

That night Morris was stopped inside of three rounds, but, strange to say, he did not lay the blame to strawberries and cream. On another occasion two preliminary boxers from Chicago were to appear at a Milwaukee show, and after weighing in they proceeded to the Davidson cafe, where, between them, they ate \$13.50 worth of steak and ice cream. Both of them made such a poor showing that night that they admitted 'overeating,' and all because it was at the expense of the club.

old trot on the former programme. The race, instead of being best two in three, will be on the three in five plan. The entries for the colt race are: Stella Jewett... J. E. Ray... J. E. Ray... Raymond & Quartermaster... George Ross... George Ross... Murray Rowan

GOLF

Local Club's Meeting. The annual meeting of the Golf Club comfortably filled the club house last evening. The business was mainly routine. The reports showed that good progress is being made in the matter of preparation for the club's removal to Riverside where it will take up its quarters two years hence. The plans include a fine new club house there. The players will use the present grounds this season and next, but during that time the new course will be brought into playing condition in readiness for the season of 1915.

Philadelphia, March 3.—A litch in the negotiations for the match between Freddie Welsh, lightweight champion of England, and 'Young Jack' O'Brien was conveyed by cable to O'Brien's brother asking him to delay 'Young Jack's' sailing for Liverpool, as Welsh has declared he will not enter the ring unless he is guaranteed the sum of \$7,300, win, lose or draw.

CRICKET

Australian Cricket Tour. The manager of the Australian cricket team has written to the American Association, where he will find Rubie Wardell and other ex-shining lights waiting his coming.

Up the Ladder

Six players who helped make Chicago famous in the National League during their time as new comers. They are Johnny Evers, still with the Cubs; Bill Dahlen, of Brooklyn; Joe Tinker, of Cincinnati; Jimmy Callahan, of the Chicago White Sox; Clark Griffith, of Washington, and Frank Chance, of the New York Yankees.

Diamond Sparkle

Boston Nationals have secured Catcher Fred Mitchell, formerly with the St. John Alerts as 'Yapp' to coach the young pitchers and catchers.

Jack Dunn is letting the fans pick his captain for Baltimore.

Chicago's 'Big Red' is letting the fans pick his captain for Baltimore. Baltimore has signed up two of its best players, Bergey and Payne. Toronto has seventeen of its contractees 'checked.' McLaughlin of last year's Woodstock team has been engaged to coach the Volkman School baseball team this spring.

A black farm is kept in England by the Duke of Devonshire. It is located in Buckinghamshire, and every living thing on it is black except the dogs, which are black cattle, black horses, black sheep, black goats, black dogs, black cats and black chickens.

OUTLOOK FOR NEW BRUNSWICK AND MAINE B.B. LEAGUE

The Frederickton Gleaner quotes Mr. Leonard as being pleased with the baseball outlook in Frederickton, and declaring that in all his experience he had never seen a better baseball city for its size than Frederickton. Mr. Leonard paid a fine tribute to Bob Ganley, who led the team to the championship in the league race last year, and who will be at the helm again this season. He said he was one of the brainiest and best players in the big leagues in the last decade.

'Fred Clarke resigned Ganley's ability to take advantage of every opportunity that offered for his team to get an advantage during a game, and so did Connie Mack when Bob got away from the Washington club,' continued Mr. Leonard, 'and we are lucky to have such a fine fellow as Ganley to take charge of your club again.'

Mr. Leonard speaks well of the outlook for a St. Stephen-Caledonia team, and in Bangor, and the Gleaner says that St. John loans up Bangor this season, and ever being the largest city in the circuit it will prove a big asset to the league. Since then, he has learned a lesson, and the securing of Mr. Leonard to take charge of the team has been a masterpiece and a real guarantee.

The Gleaner says that Frank Harrington of last year's Frederickton team, has signed with the Lynn Club of the New England League for 1913. F. J. Leonard confirmed the report and added that Joe Neptune, who was with the Herculans Club last season also is the property of the Lynn club. 'I signed him last fall when he was with the Lynn club,' said Mr. Leonard, 'and he goes back for his second trial with the club.'

As a rule a club doesn't give a player a second trial, but when Joe was with the Lynn team before, he was young and a rain guarantee, it is expected, and a lot and he has also taken on a lot of weight. The only reason Joe stayed with Lynn was that he had learned a lesson, and he was an Indian, which brought extra gate money he would bring in. He was an outfielder then. I suppose Lynn would have let him out at shortstop and second base, for they will have some vacancies. Neptune goes after balls to his right and left, also, in good shape, but he has yet to learn how to play balls that are hit straight at him—that's his weakness.'

Could Not Sleep Well For Four Years. HEART AND NERVES WERE BAD. To the thousands of people who toss on a sleepless pillow night after night, or who pace the bedroom floor with nervous unhinged, heart action wrong, and to whose eye sleep will not come, Milburn's Heart and Nerve Pills offer the blessing of sound, refreshing slumber.

They restore the equilibrium of the deranged nerve centres and correct the wrong action of the heart. Mrs. Wm. Douglas, Thessalon, Ont., writes:—'I am going to send you my testimonial for what your Milburn's Heart and Nerve Pills did for me. For four years I could not sleep well at night, as my heart and nerves were so bad. I tried all the doctors here, but none of them helped me. I read of your Heart and Nerve Pills, and tried only a few boxes, and I can certainly say they did me a great amount of good. I can now sleep as well as ever, and can advise anyone who suffers from heart trouble to try them.'

Milburn's Heart and Nerve Pills are 50 cents a box; 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

WHAT DYSPEPTICS SHOULD EAT

A Physician's Advice

'Indigestion and practically all forms of stomach trouble are, nine times out of ten, due to acidity; therefore stomach sufferers should, whenever possible, avoid eating food that is acid in its nature, or which by chemical action in the stomach develops acidity. Unfortunately, such a rule eliminates most foods which are pleasant to the taste as well as those which are rich in blood, flesh and nerve building properties. This is the reason why dyspeptics and stomach sufferers are usually so thin, emaciated and lacking in that vital energy which can only come from a well fed body. For the benefit of those sufferers who have been obliged to exclude from their diet all starchy, sweet or fatty food, and are trying to keep up a miserable existence on gluten products I would suggest that you should try a meal of any food or foods which you may like, in moderate amount, taking immediately afterwards a half teaspoonful of Bismarck's Magnesia in a little hot or cold water. This will neutralize any acid which may

If people would be happy they should never live on credit. The most economical way to live is to pay as you go. It is also the best way, because you then escape the possibility of the disgrace, slavery and dreadful misery of living in debt.

POLICE COURT.

Some Evidence in Case of Ructions on the S. S. Lansdowne—Other Matters.

The case of Noah Tulk, who was arrested yesterday afternoon charged with assaulting Chief Officer Murdoch McLean of the government steamer Lansdowne, creating a disturbance on board the steamer and violently resisting the police, was taken up in the police court this morning. Chief Officer McLean, Policeman Crawford and Deputy Chief Jenkins gave evidence and the prisoner was remanded until tomorrow morning to appear before Police-magistrate Crawford. Police-magistrate Crawford yesterday answered a call to the Lansdowne to quell a disturbance that Tulk was said to be raising on board. He was accompanied by Police-magistrate Addison and they boarded the steamer at the Ballast wharf. The sailor put up a stiff fight and it was only after Deputy Chief Jenkins arrived and handcuffed him that the police were able to take him from the boat. During the encounter Police-magistrate Crawford had his hand cut, necessitating his going to the hospital to have the wound dressed.

Stephen Jeffrey, charged with being drunk and profane, was fined \$4 or ten days for drunkenness and \$8 or thirty days for profanity.

The case of Patrick Donovan and George Jones, arrested on a charge of fighting yesterday, was also brought up this morning. A fine of \$20 was levied against Donovan and the case against the other man was dismissed.

Ernest Bushan and Walter Jones, both colored, who were arrested on a charge of assault on William London in Brunswick street last week were further remanded. One prisoner was remanded and one was fined \$8 or two months in jail on drunkenness charge.

HAD A GOOD TIME

Last evening the annual outing of the clerks of T. McAvity & Sons, Ltd. (King street store), was held. The merry party left Scribner's Corner at 7.30, and drove to the home of Chas. Mayall, Loch Lomond, where dinner was served, followed by excellent speeches by R. Evans, Chas. Dunfield, W. Winchester and others.

Notable features of the evening were a series of step dances by Messrs Swanton, McGilvery and Warren; sword dance and Highland fling by John Tris and Harry Rowe, a piano solo by W. Winchester, and songs by Mathias Hanna, Harry Marley, Fred Marshall, and Theo Kirby. All proved themselves artists of no mean ability. Kenneth C. Stevens' explanation of the Suffragist movement was very funny and showed his listeners that "Jock" had been making a very thorough study of his subject. His efforts were greeted with rounds of applause.

After toasts to "our King" proposed by W. Winchester, responded to by W. Warren, and "The Firm We Represent," proposed by R. R. Evans, replied to by Chas. Dunfield, a hearty vote of thanks was tendered Mr. and the Misses Mayall for their kindness and co-operation in the plans of the visitors. They started cityward singing "For He's a Jolly Good Fellow," an assertion which certainly no one to whom their genial hospitality is extended "can deny."

NEW OFFICE IN THE C.P.R. SERVICE ON THIS DIVISION CREATED

H. A. Chandler Appointed Divisional Surveyor—Mr. Brown Away Tonight

In accordance with a policy which has been adopted on other parts of the C. P. R., a new office, that of divisional surveyor, has been created on the Atlantic Division. The new official is H. A. Chandler, of Campbellton, whose appointment dates from March 1. His duties will include the preparation of plans and descriptions for the purchase, sale and lease of land, re-survey of the right of way, surveys of other land and all such surveys which come within the jurisdiction of the operation and maintenance department. Mr. Chandler will have his office in St. John and his work will cover the entire Atlantic division. This work has formerly been performed by surveyors not connected with the road, but it has assumed such proportions that it has been found necessary to appoint a special official to look after it. Similar appointments have been made recently in Montreal and Toronto, and at North Bay.

Walter B. Brown, who has occupied the position of trainmaster at St. John for the C. P. R., will leave this evening to assume the office of assistant superintendent of terminals. His place in St. John will be filled, for the present at least, by D. H. Ryan, who has been trainmaster at Brownville Junction. Mr. Ryan has been in St. John for the last few days becoming familiar with the duties of the office before Mr. Brown's departure. W. R. Howard, who has been chief dispatcher at Brownville, takes Mr. Ryan's place as trainmaster at that point.

THE GROCERY TRADE

A Change in Method as Affecting Small Retailers—News of Staples

Some of the smaller retail grocers about the city will be affected by certain changes proposed in regard to the matter of prices on lines of package goods. The change proposed will not affect the larger retailers as they buy in greater quantities, but for the small dealer who makes his purchase in half-cases there will be an increase in quotations from the wholesaler. It has been the custom for the owner of a smaller shop, to buy from the wholesaler a half case of some line of canned goods, or half package of some similar line of household article, and to procure the same at the same rate as the larger retailer who bought in a case of from two to ten cases.

Now, however, it has practically been decided upon by the wholesale trade to raise the price slightly to the one buying in the half lots. The change, it is said, will not make any difference in the prices paid for canned goods by consumers. In this grocery market, conditions are quiet at present. Dealers still are looking for cheaper sugar and flour. Buying is being done only in limited quantities, particularly in the former staple, as there are still indications of a drop in quotations. Reports concerning the crop being most cheerful. The four outlook is decidedly to be for slightly lower prices both in Manitoba and Ontario, patents. New crop Barbados molasses is now arriving. Stocks of old crop are rather light. Pork and pork products are advanced in price, and the market is declared very firm.

HONOR FOR A. W. COVEY

Appointed to Dominion Championships Committee of Canadian Union

Another honor in the line of legitimate sport has come to A. W. Covey of this city, who has been so well known for a number of years past in connection with amateur sports in these provinces. Mr. Covey has just been chosen as a member of the Dominion Championships Committee of the C. A. A. U. This committee for the current year is composed of A. F. C. Ross, Montreal; Rev. Robert Pearson, Toronto; M. Oppenheim, Vancouver; and A. W. Covey, St. John. Mr. Covey is at present vice-president of the maritime branch of the C. A. A. U. and also governor for New Brunswick for amateur sports.

Mr. Covey was officially connected for a number of years with the M. P. A. A. A. He has been well known in St. John and in the provinces generally as a very fast one hundred yards man on the cinder path, and has participated in sports all over the provinces. He has done much to promote clean amateur sport, and his friends will congratulate him on the recognition he has received from the highest authority on amateur sports in Canada.

AGAINST THE PAVING

German And Britain Street People Say They do Not Want it

Property owners in German and Britain streets have filed protests at City Hall against the proposals to lay permanent pavements on their sections of the city streets. As the petitions seem to bear the required number of signatures it is possible that this part of the programme will have to be dropped.

The plans of the commissioner of public works called for the paving of German street from King to Union, and Britain street from Beek's Point to Charlotte street, with granite blocks. The protest is not a specific one against the cost or the type of pavement as in the petition of the Paradise row property owners, but is in opposition to the entire scheme.

MAY MOVE THE COAL POCKET. It is probable that the close proximity of the coal pocket at West St. John to the ferry route, which has been a matter of complaint among patrons of the ferry, will cease to worry them. The lease of the wharf adjoining the ferry route where the coal pocket is located, which is held by R. P. & W. F. Starr will come to an end of its three year term this year and Commodore Schindler brought the matter before the city commissioners this morning, suggesting that the lease should not be renewed but that Dunn's wharf further up the harbor, should be offered to the coal company instead. The matter was left in his hands.
