TERRIBLE NIGHT FLOOD COUNTRY

Rain Storm Sweeps Down Valley Of Mississippi PEOPLE FLEE FOR LIVES

Six Inches of Rain in Four Hours and Levees Threatened—White and Black Citizens Join Conflicts in Fight Against the Rush of Water

(Canadian Press) New Orleans, May 11.—Down today brought relief and hope to thousands of people and ended a night of excitement and terror for those living in up-state towns and villages behind levees considered none too safe, because of a terrific rain storm that swept down the Mississippi river from the northern portion of Louisiana to the gulf. The deluge was accompanied by hail and lightning, and a hurricane that dashed river water over levees in cascades from a Baton Rouge south, tearing away temporary earthworks recently constructed.

From scores of towns belated telegrams tell of conditions almost bordering on panic, where hundreds of frightened people left brick dwellings and sought safety in frame and stone buildings.

Hundreds living in districts considered unsafe by the United States army officers, who had refused to heed warnings and leave their homes, changed their minds when the storm came and an exodus for the concentration camps began.

Many places reported as much as six inches of rain within about four hours, ending at ten o'clock, flooding towns and villages, causing the inhabitants to believe that the worst had happened, and that the levees had given way under the tremendous strain and the flood was on.

At dozens of points up and down the river levees were threatened, weakened, hundreds of citizens, white and black, worked alongside gangs of convicts all night long in the districts considered unsafe and along levees to keep back the torrential waters, piling down from the north. It was a fight for life and property against heavy odds at many places from Torras almost to the city.

At New Orleans the wind backed up the water until the gauge at ten o'clock registered 21.9 feet. Water was blown over the levee at many places. The Southern Pacific transfer ferry the water literally poured over the lines of sand bags placed about the ferry house by the railroad people.

Emergency gangs stopped the overflow after half an hour's work. The levees engineers last night were unable to get in communication with any of the points up the river on account of the broken wires. The city streets were turned into torrents, the water in several instances flooding business houses to the depth of four inches, filling basements and manholes.

In the residence district the water was over the sidewalks by several inches. Joseph Delle, a drug clerk, with a companion, tried to pump the Carrollton avenue drainage canal, the water in which was level with the street. He miscalculated the distance and was drowned.

Hundreds were caught in the down-pour down town, unable to get to their homes because of the crippled car service. Scores of well dressed men took off their waterlogged shoes, slung them over their shoulders, rolled up their trousers to their knees, and walked and waded bare-legged home.

The handsome summer residence of R. B. Kessen at Ononette Station was sold at auction noon today at Chubb's Corner by P. A. Lantlam, L. P. D. Tiley became the owner for \$3,000. Mr. Lantlam offered a house and lot at Hampton Station, but withdrew it at \$200.

The Finney property at Little River, including a two-story house and barn and lot 90 by 245 feet was sold by Auctioneer Potts for \$1,300. Duncan MacLachlan, former owner of Courtney Bay Heights, was the purchaser.

A 36-foot motor boat was sold by auction to D. C. Clark for \$380.

Water Extension IS LIKELY TO BE MADE A delegation including half a dozen real estate men and Mr. Palmer of Norton Griffiths & Co., appeared before the city commissioners this morning in support of their request for the extension of the city water service out the Red Head road. The matter was fully discussed and there seems to be every possibility of the project being carried out.

As one of the commissioners said, the applicants are anxious to have the extension made and the commissioners are anxious to comply with their wishes, so it is merely a matter of reaching an agreement under which the extension can be made.

W. A. HICKSON PASSES AWAY IN MONTREAL

Prominent Lumber Operator on The Miramichi Died in Mount Royal Sanitarium

Montreal, May 11.—There passed away yesterday in the Mount Royal Sanitarium, one of the best known business men of New Brunswick, William Allen Hickson, of Newcastle, N. B. Mr. Hickson was born in Bathurst, N. B., in 1841, and was of Irish descent. His grandfather, James Palmer Hickson, removed to New Brunswick from the County Down, Ireland.

He was one of the largest and best known lumber operators on the Miramichi. For years he manufactured lumber for both the European and American markets, at Newcastle, N. B., where he was a large employer of labor.

He is survived by his wife, a daughter of the late Colin MacLennan of P. E. Island, and two daughters, the Misses Florence and Hazel.

ELECTRIC POWER FOR COMMERCIAL USE SENT BY WIRELESS

Buffalo Engineer Says He Has Gained Further Mastery Over It Buffalo, N. Y., May 11.—Frank Wyatt Prentice, a Toronto electrical engineer, in an address last night before the Central Railway Club, spoke of his latest experiments which he considers demonstrate conclusively that electricity, transmitted for power or commercial purposes by wireless means, increases in velocity and power the farther it goes from the point of origin.

He suggested that for automobiles and motor trucks, receiving harps be placed on the machine and wave wires installed at intervals along the roadway, energy being drawn through the air to operate the machines. A flying machine with a small high frequency motor, could, according to Mr. Prentice, fly at a height of 3,000 feet and draw sufficient power from a wave wire along the ground.

By a similar device, it will be found possible, he believes, to operate trains at a great saving from the present cost.

MR. KESSEN'S HOUSE IS SOLD FOR \$3,000

Duncan MacLachlan, Who Sold Courtney Bay Property, Buys Another The handsome summer residence of R. B. Kessen at Ononette Station was sold at auction noon today at Chubb's Corner by P. A. Lantlam, L. MORE WHEAT IN ALBERTA

Seeding Will Be Well Finished By May 20 Calgary, May 11.—Hon. Duncan Marshall, minister of agriculture, says that 75 per cent of the seeding is finished in the southern portion of the province, and about sixty per cent in the north country.

He thinks seeding operations will be over by May 20. Recent rains have put the soil in excellent condition. The wheat is in considerable excess of former years.

KING'S SUBMARINE TRIP HAS AROUSED VARYING EMOTIONS IN PEOPLE

His Pluck Admired, But in Official Circles They Feel Uneasy

New German Ambassador Expected To Help Towards Good Relations--Unionists' Failure to Rouse Passion Over Home Rule Bill--Labor Situation Disquieting--The Threatened Strike of the Doctors

(Times Special Saturday Cable) London, May 11.—King George's daring unconventional arctic sea voyage, which is in official circles, his Wednesday submarine trip was so contrary to precedent that all public announcement concerning it was suppressed until the next day. Now the king desires an arctic flight and possibly has already made one.

Conservative people are murmuring that the monarch has no right to risk himself unnecessarily. The man in the street, however, admires the king's pluck and nothing could better increase his popularity.

NEW ERA IN RELATIONS WITH GERMANY

The appointment of Baron Marchall to succeed Wolf Metternich as German ambassador in London may constitute the beginning of a new era of Anglo-German relations. Metternich, who became ambassador in London in 1901, has done little to check the growth of ill feeling between the two countries.

Aristocratic, intensely proud, reserved and unbending, he scorned to use any popular methods to influence English opinion or ally British sympathies.

Metternich's failure to do so is a most successful exponent of the new school. Frank direct of speech and easily accessible, he recognizes that modern diplomacy through public sentiment. He cultivates the newspaper men, is very sociable, disdains nothing which can increase his influence and everyone expects that his coming will inaugurate a genuine attempt to substitute friendliness and good feeling for the present dangerous tension existing between Germany and ourselves.

UNIONISTS FAIL IN HOME RULE FIGHT

The home rule debate which was concluded on Thursday night resembled nothing so much as a sham fight. National feeling, which can be quickly aroused over the questions of taxation and insurance remains absolutely indifferent concerning home rule. Every effort of the Unionist organizers to stir national passion has conspicuously failed.

THE STRIKE OF LONDON'S TAILORS

The London tailors' strike has surprised everyone for its protractancy. Today fully 50,000 are idle. When West End tailors struck last week labor experts foretold their early defeat. Their union is small and very poor but day by day the movement spread, the strikers invaded work shops, tore up material, and compelled small masters to close their shops.

GENERAL LABOR OUTLOOK DISQUIETING

The labor situation generally is ominous. Notwithstanding denials by union officials, the railway companies expect renewal of trouble later in the year and are preparing accordingly. The South Wales miners' refusal to accept the arbitration award under the minimum wage act will probably be followed by similar refusals in other districts. A renewed national coal strike is, however, unlikely.

Nothing but the presence of an overwhelming number of foreigners in the mercantile marine prevents immediate trouble there. Only Tom Mann's personal unpopularity among the main body of organized labor prevents strenuous action in protesting against the sentence of six months' imprisonment passed upon him on Thursday for inciting soldiers to mutiny.

MOTHER ON TRIAL ON P. E. I. IN CASE OF CHILDREN'S DEATH

Charlottetown, P. E. I., May 11.—The case of Mrs. McEie, of St. Mary's Road, charged with the death of her six children, came up before the court in Georgetown yesterday. The witnesses included her brother, who told of the married life of the accused woman. He said she was a nervous woman, she was abused by her husband during their married life, and grieved greatly over the loss of her children, to whom she was greatly attached.

NEW GIANT GUN

Whisper Concerning One of Eighteen Inch Bore and Weighing Nearly 200 Tons London, May 11.—J. M. Gledhill, of Armstrong Whitworth & Co., speaking at the Iron and Steel Institute, referred to the increase in size of modern ordnance, and said there were now whippersnappers of eighteen inch bore, weighing between 150 and 200 tons.

EARL OF EUSTON DEAD

Was Pro-Grand of the English Knights Templar and Was 62 Years Old London, May 11.—After an illness of several months, the Earl of Euston, the heir of the Duke of Grafton, who is almost 62 years old, died yesterday of heart trouble. He was in his sixty-second year.

THREATENED STRIKE OF DOCTORS

Doctors everywhere have given vent to their indignation at the proposed bill of the British Medical Association, that they should strike against the insurance act and against all contract practice. The government is attempting to compromise with the Unionist organizers, who are now doing their utmost to take advantage of the situation. The doctors' strike, if begun, would be accompanied by many practical difficulties, particularly concerning treatment of hospital patients.

REDMOND MEETS WIDOW OF LORD CAVENDISH

London, May 11.—An interesting meeting occurred after the vote had been taken on the home rule bill in the House of Commons on Thursday evening. John Redmond, the Nationalist leader, went into the ladies' gallery for his wife, who had been introduced to the widow of Lord Frederick Charles Cavendish, who was assassinated in Phoenix Park, Dublin, in 1882, while occupying the office of chief secretary to the Lord Lieutenant of Ireland.

FLOODED COUNTRY IS SWEEPED BY RAIN STORM

New Orleans, La., May 11.—New Orleans last night without the severest rain storm in her history. All the lower half of Louisiana was gutted, and thousands of the people who live behind the already terribly strained levees that hold back the Mississippi floodwaters, were panic-stricken. The wind raged from twenty-seven miles an hour at New Orleans to forty miles at Baton Rouge.

HEARING IN ATHERTON CASE IN POLICE COURT

Evidence as to Former Empress Purchaser's Handling of Checks--Testimony as to the Sums Involved The preliminary hearing in the case of Frederick Atherton, a former purser on the C. P. R. liner Empress of Ireland, and now charged with misappropriation of funds, was begun before Police Magistrate Ritchie in the police court this morning. The court-room was crowded and the evidence given was closely followed by all. The prisoner was represented by G. Earle Logan, while F. R. Taylor conducted the case for the prosecution.

Mr. Taylor informed the court that it was his wish to try the prisoner on both charges at once, as the evidence that would be submitted would apply in both cases and that a lot of time would be saved by doing so. It was agreed that Mr. Henderson of the defence, who was sworn in to take the evidence, relieving Mr. Henderson of the duty of clerk.

According to the evidence given the amount of money involved in the case is more than \$14,000, although the papers state only about \$2,000. Three witnesses were called by the prosecution and there was no cross examination on the part of the defence.

The first witness called was Leonard C. Goadge, cashier in the Dominion Express Company's office here. He said he knew the defendant, and in December last knew that he was the purser on the S. S. Empress of Ireland. In his capacity of purser he also acted as agent of the express company, selling checks and money orders. Atherton had in his possession checks valued at \$28,120. The witness delivered to him on Dec. 14 six books of American Express travelers' checks, valued at \$10 each, also ninety-one books of checks valued at \$20 each, also six books of checks valued at \$10 each, ten books valued at \$50 each and forty valued at \$100 each.

CONTEST OF ASTOR WILL UNLIKELY

It Is To Be In Probate Next Week THE WIDOW'S POSITION

Winston Churchill Traveled by Auto, Train and Speedy War Craft (Canadian Press) New York, May 11.—A London cable says: Everybody is talking of Winston Churchill's sensational journey to London to vote for the home rule bill on Thursday night, and his return to Weymouth the next morning in time to join the king at the inspection of the fleet and witness the target practice.

Mr. Churchill left Weymouth with Mr. Balfour by six o'clock train, arriving at London at ten o'clock. After taking part in the home rule division, he returned by automobile to Bournemouth, where he left the car and was rowed out to the destroyer Swift, one of the fastest vessels in the world. She dashed through the early morning mists in the channel at racing speed of nearly forty knots and reached the fleet at Weymouth in ample time to join the first squadron.

The odd vote cast by Mr. Churchill meant a difference between winning and losing countless bets in political clubs and other circles that the second reading majority would not exceed 100.

An Encouraging Message

I have a message of hope and good cheer, of encouragement and inspiration to every suffering woman. I have endured the tortures due to female troubles and the consequent despondency and mental agony almost to the point of despair, and I have been restored from this state of vigorous health, and to the happy, exhilarating frame of mind which accompanies physical well-being. This change has been brought about wholly by the use of ORANGE LILY.

Dear Mrs. Currah—Your very kind letter was received yesterday. In reply to your question about my health, I am pleased to say that I am very well. As I have never given you a statement of my case you may be interested in it.

FREE TRIAL OFFER

I want every reader of this, who suffers in any way from painful monthly periods, irregularities, leucorrhoea, inflammation or congestion of the womb, pains in the back, etc., to try my treatment at once, without charge.

Love Marriages and the Other Kind

By RUTH CAMERON

THE talk ran on loveless marriages. The Enthusiastic Young Person was bitterly condemning marrying without love as a sin against one's self and society, and a sin sure to bring its punishment of unhappiness.

"Six years ago, when I was selling in France, I was entertained by one of my customers at a pension in a suburb of the city. The pension was built about a courtyard. Our apartments were on the second floor and had a little balcony upon which I used to sit at an evening watching the people in the courtyard."

"One among them in whom I took an especial interest was a pretty young girl who, instead of talking and laughing with the other young people, continually sat by herself and moped. I asked my host about her and he told me that she had fallen desperately in love with a young military officer and that her people would not hear of the match because they had already planned her betrothal to the son of some old family friend, a man some ten years older than she and of extremely good prospects."

"Of course I rallied bitterly at this example of the abominable French custom of marrying girls against their will, and being a good deal younger and even more foolish than I am now, conceived some insane idea of assisting at an elopement. Fortunately my business interests called me away before I had a chance to make any such idea of assisting at an elopement."

"Last year I was again in Paris and was again entertained by my hospitable customer. We went out on the balcony and directly beneath us I observed a plump and charming young matron making a most delightful picture as she romped and laughed with her two babies. 'My dear, seeing my interest, asked me if I recognized her. 'I said that I had never seen her before. 'Oh, but you have,' he assured me. 'That is that Mademoiselle C, about whose case you were so much wrought up when you were last here. 'So they let her marry the man of her choice after all,' I rejoiced. 'Good enough.' 'But she,' my friend corrected me, 'she married that most desirable party her wise parents had selected as the man most fitted to make her happy and to carry on their line. 'That she looks happy.' 'But she is. Most thoroughly so. She adores her children as you see, but not more so than her husband. They are a most devoted couple, an object lesson to all the married people in the pension—ah, there he comes now.' 'A prosperous and kindly looking man advanced toward the group. The ladies rushed to greet him. The wife followed with scarcely less abandon and gave, as two people who meet after a long absence. 'He has been away long?' I asked. 'That for the day,' said my friend. 'Such is the fickleness of women,' I sighed. 'The man of Many Travels ended his story without further comment. 'The Enthusiastic Young Person looked thoughtful. 'But all women are not like that,' she protested. 'Aren't there enough to shake your assurance that the marriage without love is always unhappy?' asked the Man of Many Travels. 'I wonder,' said the Enthusiastic Young Person.

"I would swell," Mrs. Gagnon continues, "I always had a bitter taste in my mouth, and especially in the morning. Twelve boxes of Dodd's Kidney Pills cured me." Mrs. Gagnon's symptoms showed beyond a doubt that her trouble was from the kidneys. Naturally she turned to the old reliable Kidney cure that had proved its worth in thousands of other cases. She took Dodd's Kidney Pills and she is well. Kidney Disease is the greatest enemy the women of today have to fight. Dodd's Kidney Pills always cure it. That's why they have earned the name "suffering woman's best friend."

Henry F. Lambert deposited five cents in a Lowell five cents savings bank forty-three years ago and forgot all about it. Last week his attention was called to his name in the advertised list of unclaimed deposits and Henry went to the bank and drew his money out. It was explained to him how much he might have had had his deposit been a dollar, so Henry immediately resolved to start another savings account. He deposited the nickel as a foundation and received a new book.

Riviere au Dore, Chicoutimi Co., Quebec, May 10 (Special)—"Yes, I am well, and I give all the credit to Dodd's Kidney Pills." Those words have been uttered again and again in almost every corner of the Province of Quebec. This time they come from Mrs. Joseph Gagnon, a well-known young married woman of this place. Daily Hints For the Cook

POTATO CONES Season mashed potato with salt and pepper and finely chopped parsley. Moisten with cream or milk, then beat light and foamy, mold in an ice cream dipper, place on buttered paper in a baking pan, brush with melted butter and brown in the oven.

STEWED FIGS Buy the dried figs which come in bulk, pick them apart carefully, wash them and soak them overnight. The next morning stew them gently without sugar, but with two slices of lemon to a medium-sized dish. Let them cook until soft and tender.

PRUNE SOUFFLE Remove the pits from a large cupful of stewed prunes and chop fine. Moisten with cream or milk, then beat light and foamy, mold in an ice cream dipper, place on buttered paper in a baking pan, brush with melted butter and brown in the oven.

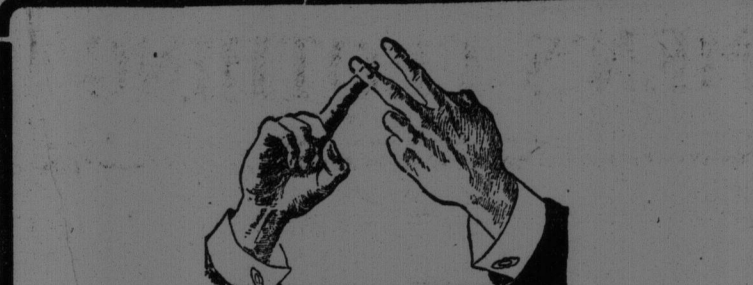

RICE PUDDING WITHOUT EGGS Soak half a cupful of rice over night in a little cold water. Put in a pudding dish with two quarts of milk, half a cupful of sugar, a saltspoonful of salt, a tablespoonful of butter. Grate nutmeg over the top. Bake in a slow oven, stirring frequently until the rice is well cooked and then let it brown. This is very delicious served with a small portion of grape jelly on each plate.

White Swan Yeast Cakes Families who once use White Swan Yeast Cakes for bread-baking will never use any other brand. It makes light, wholesome, and delicious bread. Sold by your grocer in packages of 6 cakes at 5c. Send for free sample, White Swan Spices & Cereals, Limited, Toronto Ont.

PAID \$7,000 FOR TWO FOXES (North Sydney Herald) The highest price ever paid for a pair of foxes by a Cape Breton man was \$7,000 and to J. W. Ingraham, of this town, belongs the distinction. Last year Mr. Ingraham, at great expense, built a ranch at the rear of the premises owned by John Ingraham, jr., and during the fall made a trip or two to P. E. Island, the place where the fox business is done. While on one of his visits Mr. Ingraham negotiated the purchase of a pair of black foxes, the price being in the neighborhood of \$7,000. According to the terms of the sale, it is said delivery of the valuable animals will be made in September, when Mr. Ingraham will have everything in readiness at his ranch here for the extensive raising of foxes. That there is big money in the business is being daily evidenced. Only last week a well-known raiser outside of Charlottetown sold a female black fox to a sportsman engaged in the business. The purchase price for this one animal was \$8,000, together with a litter of five. Had the brood been larger the terms of the agreement would have entailed an expenditure of \$11,000. So far as known the only other ranch of the kind in Cape Breton is the one at Waycobagog, owned by Dr. McPhail, of New York. John Ingraham leaves shortly for Tignish and other parts of P. E. Island, where he will study the business as much as possible, and may pick up one or two more foxes. Strong drink is not only the devil's way to man, but the man's way to the devil.

The Evening Times and Star

ST. JOHN, N. B., MAY 11, 1912.

The St. John Evening Times is printed at 27 and 29 Canterbury street every evening (Sunday excepted) by the St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

GOOD NEWS FROM KINGS The announcement that Dr. G. N. Pearson has consented to permit his name to go before the Liberal convention at Hampton next week will be hailed with satisfaction by Liberals throughout the province.

WHO WILL LEAD Mr. John T. Hawke of Moncton, in a recent address in this city referred to the social unrest in all countries, and asked whether the Christian church would give direction to the movement, which will affect great social changes, or whether the leadership would be left to those Socialists who are antagonistic to the Christian religion.

THE SANITARIUM The Standard this morning says: "There will be no sanitarium for consumptives built in St. John this year. Although the council some time ago adopted a motion to establish a tuberculosis sanitarium and referred the matter to a committee, the necessary legislation to proceed with the matter was not secured at the recent session of the legislature, and no provision was made in the county estimates for funds."

CARING FOR CHILDREN The city of St. John may learn something from Winnipeg in the matter of taking care of neglected children. Canada Monthly for May contains a very interesting article telling in a general way what is done in the western city to look after those children who are not cared for by their parents.

There is in the first place a Children's Aid Society, which was incorporated under the Children's Protective Act to investigate cases of neglected, abused, dependent or orphan children. The society is empowered, if circumstances warrant, to become the legal guardian of such children and find them foster homes or otherwise suitably place them.

There is also a Children's Home in Winnipeg, and on the day on which it was visited by the writer of the article in Canada Monthly there were 190 inmates. This home was opened in a small way twenty-six years ago, but now it is well equipped and the public school board provides and maintains a building in which the children of the home attend school.

There is also in Winnipeg the Knowles Home for Boys. Mr. W. A. Knowles once took a little boy off the streets to his boarding-house because there did not seem anything else to do. This led to the establishment of the home and he had in its last fall forty-nine boys, working, ward or homeless. Some gathered there because their parents were dead, or the lads were beyond control and were sent there by the judge of the juvenile court.

There is also in Winnipeg the Free Kindergarten and the Children's Hospital and Free Dispensary for poor children, for which \$10,000 was raised last fall to erect a new building. There is also a Home for the Friendless, conducted by a Christian lady, where there may be found about 100 children and fifty to sixty-five women. The Margaret Scott Nursing Mission in one year paid 5,227 visits to infants and children, and it plans to develop children's work more along preventive and educative lines.

Sandy Macdonald SUPERIOR TO OLD RESERVES SPECIAL LIQUEUR SCOTCH WHISKY 10 YEARS OLD "SANDY MACDONALD" 10 years old Scotch is actually better than the so called "Old Reserves", claiming to be 20 or 30 years and selling at a much higher price. The difference in price, as the age advances, only represents the interest on the original cost of whisky, plus an allowance for the loss by evaporation while it is in the wood. As to QUALITY, it is admitted by all connoisseurs that these older whiskies are so strong, so "woody" that the digestive powers of the average individual are not capable of assimilating it. SANDY MACDONALD has been compared with the oldest whiskies shipped from Scotland, none of which can be proven to be its superior, no matter what their price may be. It is pre-eminent as a stimulant and suited to the most delicate palates. ALEXANDER & MACDONALD DISTILLERS LEITH, SCOTLAND Write for book of prices for full range of wines and liquors. Lawrence A. Nearly 17,000 Enjoyed Hospitality of Seaman's Institute In Last Season

THE MANAGER'S REPORT

Hew Walker Gives Figures To Show the Work Done—Average Daily Attendance Was 92—Men of Sea to Number of 357 Signed Pledge

The report of Hew Walker, manager of the Seaman's Institute presented to the board of management at the recent annual meeting of the Seaman's Mission Society, shows much done during the year for the sailors at the port of St. John. It is as follows:

St. John, May 7th, 1912. To the Board of Management of the Seaman's Mission Society: Gentlemen—Another year has been added to the number in which the St. John Seaman's Mission Society has been working for the benefit of our sailor brothers. During the year a very large number of seamen (almost seventeen thousand) have taken advantage of the hospitality extended to them, and the comforts of our handsome institute.

The past season has been successful in every way, and I have received many kind words of appreciation from the men of the sea for the arrangements made for their welfare. It gives me pleasure to be able to state that I have had practically no trouble with any of the men during the bygone busy season. In course of conversation with one of the officers of an Allan Line steamer, I asked him if he thought our work was doing any good, he replied: "Why certainly our men come aboard the ship sober."

Religious Services

The Sunday evening services have been very bright and well attended, and the song service held first, has been a great help in keeping the men until the regular service begins.

The Thursday evening services have improved wonderfully and instead of nine or ten men, we have generally had between thirty or forty. There is still room for improvement though a week night service in any institution, (and attendance is compulsory) is small, even where a good company might reasonably be expected.

The Saturday night temperance meetings held under the auspices of the W. C. T. U., have been very successfully maintained by Mrs. Seymour, who has been untiring in her work for the benefit of our sailors. Large numbers have attended these meetings and greatly benefited by the stirring addresses, the bright music provided, and, of course, the cups of coffee and cakes. Many pledges have been taken.

During the season six hundred and fifty Gospel Portions have been distributed. Special mention must be made of the impressive memorial service held on April 21st in memory of those precious lives lost in the appalling Titanic disaster. Every sailor who was present (and attendance occupied the seats in the centre of the hall, the remaining space being filled to overflowing with sympathetic citizens) was touched and the choir and band of St. Mary's rendered special music. A collection was taken at the close, and the proceeds handed over to the local fund of the sufferers. The thanks of the society is due to the ministers and choirs of the various churches, who have so willingly attended our services and helped us with the good work.

Christmas Celebration

The Christmas celebration this year as usual was a time of rejoicing. The large

Suffered Greatly With Her Heart. Became So Weak At Times Could Hardly Walk.

Many people may be unaware of having anything wrong with their heart till some excitement, overwork, or confinement in an overheated or overcrowded room, or public building makes them feel faint and dizzy.

On the first sign of any weakness of the heart or nerves, flagging energy or physical breakdown, you should not wait until you case becomes desperate before you avail yourself of a perfect cure by using Milburn's Heart and Nerve Pills.

Mrs. D. McGilvery, Bathurst, N.B., writes: "Just a few lines to let you know what Milburn's Heart and Nerve Pills have done for me. I suffered greatly with my heart and became so weak at times I could hardly walk. A friend of mine advised me to try your Pills, which I did, and soon found great relief. They are the best medicine I have ever taken for heart trouble."

Price 50 cents per box, or 3 boxes for \$1.25, at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

When You Cook With ONE DOLLAR GAS

The Cheap, Sanitary Fuel That Comes to Your Home and Into Your Range, Leaving All The Dust and Dirt at The Gas House

No more time wasted in waiting for the fire to burn up. No more trouble with smoky chimneys or uncertain drafts, no red hot coals or dusty, dirty ashes to work with.

The instant the fire is lighted you have a good working flame to cook with, and, are enabled to go right ahead and prepare your meals.

With ONE DOLLAR GAS you get the best results, because the heat is uniform and its temperature easily regulated.

ONE DOLLAR GAS is the ideal Fuel for bread, cake and pastry baking and cooks meat without excessive shrinkage loss, preserving more of the nutrition, sweet juices and natural flavor than the fuels most commonly used for culinary purposes.

Cooking with ONE DOLLAR GAS, especially in summer, is real pleasure, instead of a hot, dirty, wearisome task.

The Gas Burns only while in use, thus reducing fuel bills to the minimum.

We Offer For Your Inspection An Extensive Display of Modern Gas Stoves and Ranges which embraces many styles and sizes, thus enabling us to cater to the needs of any home, boarding house, hotel or restaurant. We will be pleased to supply any stove or range either for cash or on the monthly payment plan.

Stop Taking Drugs They Are Poisonous to Your Stomach, Nerves and Vitals Ever since you can remember you have understood that the way to cure a pain outside was to take something inside. That is the foundation of our Canadian drug habit. Since childhood, you have depended on drugs to kill pain. It never occurred to you that the drug was also killing the nerves of the stomach and overtaxing the heart. That is the reason for your stomach trouble. You have ruined your stomach with the strong drugs and weakened your heart action by driving it beyond its strength with heart stimulants. You can put on extra fire and draft in the furnace and drive up an engine at top speed without hurting the engine, but you can't do that very often with your heart because it is not made of iron. You don't realize that until your heart refuses to be forced any more—that is the time when drugs, which "used to do the work right away," don't seem to have any more effect and you are forced to realize your health is gone. Every time you take a drug to force the stomach, liver, kidneys or heart you hurt them—you actually lessen their natural vitality—and taking another, because they are weakened by each dose, and anyone can see that in time, by steady dosing, you will have no natural action of any of these organs. From that time on your existence will depend upon forced stimulation and when that fails you are gone. Electricity is a relief from the old habit—the drug habit. It does by natural means what you expect drugs to do by unnatural means. It gives real strength to your body and when your body has its natural strength there can't be any trouble, can't be any pain, because there is no pain in a perfectly healthy body. The exhilarating sensation is felt without sting or burn, and I have perfected it with the regulating device that makes the current mild or strong at will. My Electric Belt does wonders in a few applications. It arouses all the dormant energies, develops muscular and nerve life, and restores the feeling of youth, courage and vigor. It makes perfect men of the weakest, puniest specimens of half-men. Dear Sir,—I have worn your Belt for thirty days, and I am feeling fine, the best I have ever felt. My stomach is very much better, and my appetite has improved wonderfully. I can now eat a good meal and be satisfied, which I could not do before. I feel like a new man entirely. FRED CUTENBUCK, Brockville, Ont. Dear Sir,—I am pleased to be able to tell you that I now feel like a new man in every way. Wishing you all the success that you deserve, in your endeavor to relieve suffering humanity, I remain, F. A. OUELLET, Springfield, N. S. KILLED WIFE TO END HER SUFFERING

Sentence of Death on Frederick Ball May Not Be Carried Out Sydney, N. S. W., May 11.—Frederick Ball was sentenced to death at the Armistice for the murder of his wife at Pallal, near Bogan, on January 16. A reprieve is possible on the ground of mental irresponsibility. Mr. and Mrs. Ball were married last August. Mrs. Ball belonged to Kingsdown, near Sevenoaks, and Ball to Hexable, near Cranley, Essex. They then came to Sydney and took service in the home of Mr. Mack at Pallal. Mrs. Ball afterwards suffered much from rheumatism. On January 16 Mr. and Mrs. Ball were left alone together in the house, and Mrs. Ball was never seen alive again. Her charred remains were afterwards discovered in the bush. It was stated at the inquest that when arrested Ball exclaimed, "I will tell the truth, I could not bear to see my wife in pain, so I shot and burnt her."

"THE CONFESSION"

A New York Dramatic Success Depicting life in a Massachusetts fishing town, portraying in a strong manner, true life, with its sorrows and sorplings, "The Confession" from the pen of James Halsey Reid, will be presented at the Opera House on next Thursday, Friday and Saturday, May 18, 17, 18. The play is one of the strongest up-to-date dramas that has been offered to the theatre-going public for a number of years, enjoying a successful run of five months at the Bijou Theatre, Broadway, New York, and playing to crowded houses in all the larger cities while en tour. A deep love story is woven into the plot. A beautiful girl, in love with a lad who gives more of his time to the ways of the world; a mother of the wayward son, patiently striving to save him; the negligence of a young boy, who has been reared up from the Bowery, New York, and given a good home; the faithful brother, the French-Canadian, who tries to drag the led down, the attorney who tries to save him from the gallows and the governor of the state, all make the great play the most powerful production that has ever been presented in this city. The story is of a wayward, but good-hearted boy, in love with a young lass, who is an orphan. They quarrel and she sends him away, returning their betrothal ring. There is another brother who has been given his first parish. The wayward son leaves on a very stormy night, going to a saloon. There he meets a brother of the girl, who upbraids him for his actions, a fight follows and the girl's brother is murdered. The boy is arrested and a few minutes later a French-Canadian confesses to the murder, saying that he had killed the man who had wronged his sister, but the girl had not wronged his sister, but she refused to go on the witness stand and tell the truth, knowing the truth of the church will not allow the young priest to betray his confession. He is later sent to jail for perjury. The confession shatters his health and he is dying of consumption. He confesses to the truth before he dies and saves an innocent man just as he is about to be executed.

HEARING IN ATHERTON CASE IN POLICE COURT

Attherton signed a receipt for the checks and the receipt was forwarded to Superintendent Vickers in Montreal. The witness identified a receipt produced as the one Attherton had given him. On the following day, Dec. 15, the witness said he gave Attherton Sixty American Express Company's travelers' checks valued at \$100 each, for which he also got a receipt. The witness said that on Dec. 14 Attherton had in his possession blank Dominion Express money orders to the face value of \$8,000, and blank foreign checks valued at \$4,650. In answer to a question, he said that Attherton would have to account to him for the checks, etc. Since Attherton's arrest, according to the witness, the company had redeemed travelers' checks, regularly issued, valued at \$8,640, foreign checks regularly issued valued at \$1,163.57. The company had also redeemed fraudulently issued checks valued at \$8,200, some of them cashed by DeWolf & Son, of Halifax, Bank of Montreal, St. John, Thomas Cook & Son, of Liverpool, and the National Provincial Bank in Liverpool. The prisoner had accounted for regularly issued checks to the value of \$3,168.75 to Mr. Haycock at the St. John office and also for some valued at \$2,112.55 paid into the Liverpool office. No amount of the fraudulently issued checks had been accounted for. The total amount of checks accounted for by the prisoner is \$8,188.30, leaving a deficit of \$5,975.27 on the regularly issued checks. Frederick C. Hoyt, an employee of J. C. Mackintosh & Co., in Halifax, said that in December he held the position of paying teller in the Bank of Montreal here. On December 15 Attherton went into the bank and got about \$2,000 worth of English gold in sovereigns and half sovereigns, for which he gave twenty \$100 American Express Company travelers' checks. The witness identified the checks. They were all signed by Attherton, and were submitted to the accountant and later forwarded to Montreal. John Backhall, superintendent of the money order department of the Dominion Express Company in Toronto said that Attherton acted as agent of the Dominion Express Company. When the Express steamer left St. John on December 15 last the prisoner had in his possession travelers' checks valued at \$3,120. Blank foreign checks which could be filled in for \$4,650 and blank money orders which could be filled in for \$8,000. The witness said that Attherton had no right to sign his name to the check which he cashed at the bank. The day before he sailed the witness had told him that he was not to sign any checks. The witness said that the company had redeemed to date checks, regularly issued, to the value of \$9,440, foreign checks, re-

DEGREE CONFERRED IN SILENCE

McGill Tribute of Sympathy With Mr. Justice Davidson in Loss of Son With Titanic Montreal, May 11.—At the annual convocation of McGill University yesterday the degree of doctor of laws was conferred on Sir Melbourn Tait, chief justice of the province, amidst rousing cheers from the students. The same degree was conferred on Mr. Justice Davidson in absentia the presentation being made in the midst of an impressive silence, in respect for the loss which the recipient had met with in the death of his son on the Titanic. Science, seven; arts, 14; law, three; dentistry and eighteen higher degrees were conferred. The medical degrees are awarded in June.

MOVING PICTURES THAT SPEAK

London, May 11.—Moving pictures that speak were exhibited last night at the Royal Institution here. Films of a cock crowing and lions roaring in a den were shown, the sound reproduced with such startling realism that the pictures appeared to create. A demonstration of the chronophone, as it is called, by means of which films and gramophone records can be presented simultaneously, with the sounds and movements in perfect union, was given two years ago, but was then not quite perfect. Since then the inventors have overcome all difficulties. The chronophone presents pictures in natural colors. MORE ELOQUENT THAN ARGUMENTS

A WORLD IMPORTANT EVOLUTION

Without doubt the most engrossing feature of modern history is the awakening of Asia—the continent of the great, almost unmetamorphic yellow races.

On this continent lives about one-half of the world's population—they are now beginning to trade with other parts of the world.

The trade between the United States and Europe made New York the second largest city in the world—but Asia contains many times the population of Europe.

A few years ago Japan was regarded as but an unimportant nation in the world—now it is among the great powers, and progressing probably faster than any country of similar population.

But Japan has only about 50,000,000 people to China's 400,000,000—and now China is waking up, the United States Steel Trust is manufacturing steel there.

When China is fully developed what gigantic effects may it not have on the world, commercially and otherwise?

When the significance of this fact alone is considered, it does not seem so very wonderful after all if the C. P. R. established at Coquitlam, the finest and largest railway terminal facilities on the American continent, and made it a city to rival Oakland, California, which bears about the same relation to San Francisco as Coquitlam will to Vancouver.

This great awakening of the Orient will, of course, mean more to the Pacific Coast of North America than to any other part of the world except Asia itself, and it will mean more to the ports of the North Pacific Coast than those farther south, because the farther north you go the nearer you are to China.

These C. P. R. officials, the heads of other roads, manufacturers and others see all this—they are not going to wait, but they are acting now.

THE CHANGE IN COQUITLAM

There is nothing in the history of real estate in North America to compare with Coquitlam in the quickness of the change wrought there by man at the dictation of Nature in the last few months.

Only a few months ago Coquitlam was but a junction point—a smiling plain, surrounded by rivers and mountains, beautiful to behold, but giving no promise of anything else.

Now everything is changed—the Canadian Pacific has commenced work, other people are building houses, stores and other buildings, Coquitlam is becoming widely known all over Canada, the United States and Great Britain, and dozens of people have made small fortunes there in many cases out of only a few dollars.

Who can tell what the next few months will bring forth. Other railways besides the C. P. R. will undoubtedly come to Coquitlam—newspapers say at least five others, some of which will have terminals there.

Numerous manufacturers and others are enquiring almost daily about sites at Coquitlam for factories, etc.

One lumber mill has been built by the Brown-McKay Lumber Company and is now ready for operation—it will employ forty men at the start.

Houses are being erected in all directions.

The reason for the quick changes in Coquitlam is because the C. P. R. and a lot of other people are realizing that at Coquitlam there must be a city—economic conditions, not only in the Vancouver Metropolitan District, but in other parts of Canada and of the world demand it—here is a strategic site, the funnel of a continent, the neck of a great bottle.

If In Doubt, Read This

"Opportunities in Western Canada," a booklet published by the Canadian Pacific Railway Company, third edition, page 146, says in part regarding Coquitlam—

"Here the company has acquired a large tract of land, on which it will establish and maintain large yards, shops and terminal facilities. We are ourselves building 25 houses in Coquitlam, Townsite now; further announcement regarding our own building activity will be made in the course of a few days."

"Nothing at Coquitlam Yet"

We have more than once heard the remark that Coquitlam hasn't even got the C. P. R. shops yet.

Some people would like to see thousands of men actually at work in the shops there before buying a lot.

They would like to see great industries operated there; while the prices of real estate remained stationary for them.

But, dear reader, prices cannot remain as they are now—if all these

things were at Coquitlam now, we would have long ago sold out all our property, which comprises the Terminal Townsite.

The other day we received a letter from a person who had bought a lot in Edmonton years ago for \$60; he didn't think Edmonton would ever amount to much, so he sold his lot—now it is worth \$60,000.

Some of the lots in the Terminal Townsite of Coquitlam will be worth about that much when some of these people decide to buy.

ACTUAL PRESENT DEVELOPMENTS

Perhaps you have read in newspapers and elsewhere about the wonderful development and future promised for Coquitlam.

But you may have your doubts as to the reality of these things.

Only the fool will jump at any proposition without first applying his common sense.

Again, only the fool will hesitate when he has made certain as night is different to day that the proposition is good.

Here are a very few of the developments taking place at Coquitlam even as this is written. Remember all these

things require the expenditure of real money. Deeds speak louder than words. Also money talks.

The C. P. R. has built bunkhouses to accommodate 1000 men, and are at present employing about five hundred workmen laying tracks and sidings; they also have at work four large locomotives and four construction trains.

M. P. Cotton & Co., who have the contract for building the streets and clearing property, have now about two hundred men at work.

The United Canadian Lumber Company, which is erecting a mill on the Pitt River waterfrontage, has now about fifteen men framing the mill.

Several hotels, restaurants, offices, etc., are being erected, and dozens of houses are being rushed to completion.

The municipality of Coquitlam is now employing about one hundred men and twenty teams on the streets; they have also a rock crusher at work.

Approximately about three hundred men are working at Coquitlam building houses and on other projects besides the C. P. R.

Several industries are ready for actual operations, and others are building. One now ready is the Brown-McKay Company's new lumber mill, employing at the start forty men.

The contractors are excavating for the new roundhouse, which will be near the corner of Flint and Dewdney Roads, close to James Park. The first unit of twelve stalls will cost about \$100,000 and eventually will have 45 stalls.

The sum and substance of these few actual developments at a place which is practically only six months old means that the men who know—the men who are putting their money into it—believe in Coquitlam; they are not waiting either, but are showing the faith that is in them with cold cash.

All these men and their money and everything else that comes to Coquitlam will work for you if you own some of it. You can own it pretty easily if you want to NOW.

The Age of Hurry.

This is the age of hurry. More and more people are flocking to the towns and cities, where offices and factories, stores and workshops make life like clockwork.

There is the hurry at breakfast, the hurry to work, the hurry to accomplish the daily stint, the hurry at lunch, the hurry home, the hurry to meet evening engagements.

There is no time for rest or sleep, no time for the nerves to renew their lost vitality, no time for the body to rebuild its wasted tissues, no time for digestion or assimilation of food—the spirit of hurry is everywhere, and few can escape its influence.

As a result of this constant strain you find yourself irritable at slightest provocation, and wonder why it is so. Did you ever realize before that you are almost always making an effort to be on time—that you are almost always in a hurry?

In the youth of our grandfathers paralysis, locomotor ataxia and nervous prostration—diseases so common to-day—were rarely heard of, because the nervous system was not always kept at highest tension, as it is to-day.

Heart disturbances are among the early indications of an overtaxed system. There are stomach troubles, brain fog, headache and neuralgia. You cannot rest or sleep, you start up suddenly at the slightest noise, your nerves are on edge, you are in constant dread of paralysis or insanity.

Oh, if you could only get away from it all to some quiet place to rest and to let nature restore your wasted system. But you cannot. Business must be attended to. You must be at your daily grind. Then what is to be done? Many have solved this problem by the use of Dr. Chase's Nerve Food, and now rejoice in health and strength.

Dr. Chase's Nerve Food

The Greatest of Nerve Restoratives

Since Dr. Chase's Nerve Food is composed of the very elements of nature which go to form new, rich blood, and create new nerve cells and muscular tissue, it only seems reasonable that this should be the treatment best suited under the conditions here described.

La Diva NON-RUSTABLE CORSET

For Short or Medium Figures

La Diva Corset No. 718 shown herewith, is a Paris design, brought over by our designer on his last trip, the only change being to adapt it to the slightly fuller and stronger forms of Canadian women.

It is ideal for the short and medium figure. This model, when combined with the straight loose fit of the tailored garment, gives the wearer the fashionable effect which is so much sought after by stylishly-dressed women.

This corset is made of French coutil, delicately trimmed with lace, ribbon and bows, and has six suspenders, hook and draw string. It is boned entirely with duplex steel and stopped with silk.

La Diva No. 718 is sold by the best retailers at \$3.00 and it will be found fully equal to any imported corset at \$4.50. Like every other La Diva, this model is fully guaranteed. Other models are sold at from \$3.00 to \$7.00.

DR. PEARSON CANDIDATE FOR KINGS COUNTY

Popular Sussex Physician Says Yes to Request—Rousing Liberal Rally in St. Martins

Sussex, N. B., May 10.—A strong delegation of Liberals from Sussex and vicinity, accompanied by A. B. Copp, M. P., leader of the opposition, waited on Dr. G. N. Pearson tonight and requested him to allow his name to be presented as a candidate for the local legislature to the Liberal convention at Hampton next Thursday.

Dr. Pearson replied favorably, and there was great satisfaction expressed by the delegation. Dr. Pearson is very popular throughout the county and there is little doubt he will be nominated and elected.

St. Martins, May 10.—One of the most enthusiastic political meetings held in these parts in a long while took place tonight in the Masonic Hall, when the Liberals of St. Martins and vicinity met to select delegates and candidates to the Liberal convention, which is to be held at St. Martins on the 14th inst.

The meeting found the party in excellent condition and in fine fighting attitude and things never looked better for the election of a full Liberal ticket. Robert W. Skillen occupied the chair and W. E. Skillen acted as secretary. Rousing speeches were delivered by James Lowell, ex-M.P., P. A. F. Beattie, M. P., and W. E. Foster, and all predicted that the party would reform itself in the elections soon to be held.

That the large audience was in full sympathy with the speakers was evidenced by the rounds of applause that greeted the many points made against the Flemming government.

The following delegates were chosen: T. H. Nugent, W. J. Walsh, John A. Howard, Fred M. Cochran, and F. J. Shank.

Those elected as substitutes were: Thomas Nugent, Captain Thomas Carson, R. W. Skillen, Benjamin Black, James J. Creamer.

HOT SHOT FOR HON. MR. LANDRY

Has One Story For the Platform, The Opposite in Reports of Department

(Richibucto Review.) We wish to call the attention of the electors of Kent county to a few of the misleading statements to be found in the minister of agriculture's speech.

In discussing the decline in the number of cheese and butter factories, he said: "This decline is due to the indiscriminate subsidizing of factories by the old government."

In the report of his own department, signed and approved by himself, we find the following: "The advent of the farm cream separator is responsible for much of the decrease in the number of factories. The hand separator makes butter making at home easier and to that coupled with the increase in value of sweet skimmed milk over whey, the falling off in cheese can largely be attributed."

Let the reader compare the two statements given above. In so doing, the question must flash across one's mind: When was Doctor Landry telling the truth? Was it when he spoke in the legislature, or was it when he signed the report which contained the last statement cited above? At one time or the other, his statements were at variance with the truth.

And still another statement made by the minister of agriculture which goes to prove beyond a doubt that he has no respect for the facts contained in his own departmental records, is to be found in the following taken from his recent speech: "The reports show that farmers keep more milk cows than formerly, hence the greater production of butter."

While the minister of agriculture states that there has been an increase in number of cows, on page 109 of the agricultural report of 1911, he writes: "There has been a shrinkage in the number of milk cows in the province." Which one of the two statements is the lie?

Would it not be well for the minister of agriculture, in future, to look more carefully into his printed report before he undertakes to make a speech.

DYSPEPSIA MISERY IS RELIEVED IN FIVE MINUTES

Diapepsin Makes Heartburn, Sour Stomach, Gas and Other Distress Vanish

You can eat anything your stomach craves without fear of indigestion or dyspepsia, or that your food will ferment or sour on your stomach, if you will take a little Diapepsin occasionally.

Your meals will taste good, and anything you eat or drink will be digested. Diapepsin turns into acid or poison or stomach gas, which causes Belching, Distress, Headaches, and other ailments. Diapepsin is a powerful stomachic and is a reliable remedy for indigestion (like a lump of lead in stomach), Bloating, Heartburn, Water Brash, Pain in Stomach and Intestines, and other symptoms.

Headaches from the stomach are absolutely unknown where this effective remedy is used. Diapepsin really does all the work of a healthy stomach. It digests your meals when your stomach can't. A single dose will digest all the food you eat and leave nothing to ferment or sour and upset the stomach.

Get a large 50-cent case of Diapepsin from your druggist and start taking now, and in a little while you will actually brag about your healthy, strong stomach, for you then can eat anything and everything you want without the slightest discomfort or misery, and every particle of impurity and gas that is in your stomach will be digested.

Should you at this moment be suffering from indigestion or any stomach disorder, you can surely get relief within five minutes.

PETTY POLITICS OF THE CONSERVATIVE PARTY

The public generally will be interested to know that the name of the dredge W. S. Fielding has been changed, the lettering painted out, and that the craft is now known as Dredge No. 1. This change for which it is presumed Hon. J. D. Hazen, minister of marine and fisheries, is responsible, has also been carried out with other vessels of the government service.

It is noticeable that the small craft employed in the harbor dredging has been christened the Hazen. In view of the changes made it will be interesting to learn if the name of such important government steamers as the Lady Laurier are also to be wiped out and something with more of a Tory tinge substituted.

Hurt Him? No! Do Him Good. Vaseline

If Baby should "Vaseline" himself all over and eat some as well, it would not hurt him.

"Vaseline" is so pure and harmless that a little of it would merely "limber up" his throat. And the "Vaseline" he smeared over himself would be the best thing possible for his skin. Just ask the doctor who brought him into the world.

Use "Vaseline" plenty of it—for the skin. Just try it on your face and hands and see how it softens and freshens them. Taken internally, it is excellent for colds and for the voice.

You should understand there is no substitute for "Vaseline." "Vaseline" is the registered trade-mark of the Chesebrough Mfg. Co. If you are offered anything else when you ask for "Vaseline" you are being deceived.

Our free booklet on the different preparations and the various uses of "Vaseline" is full of interesting information that will be of practical use to any family. Write for your copy today.

THE DRUMMOND WORKS

John J. Drummond of Montreal, his chief engineer, Mr. Parsons and J. P. Edwards, manager of the Londonderry, N. S. plant, who were in the city yesterday, left this morning for Londonderry, via Digby. Mr. Drummond said that the work at his mines in Gloucester is progressing very rapidly. Their railway line connecting with the docks has been extensively used for lumber and general business in addition to their own work.

One of the finest shipping docks in America with a capacity of 1,000 tons an hour has been erected at Bathurst. Development work at the mines has been carried on all winter and 80,000 tons are ready for shipment. A concentrating plant for standardizing the ore will commence operations next week and shipments will commence about the 20th.

Mr. Edwards said yesterday that the management had not come to any decision about a proposal to remove their plant to St. John from Londonderry.

A party of friends of Mr. and Mrs. Samuel Hovey, of 27 Peter street, called on them last evening, the occasion being the eleventh anniversary of their wedding, and presented to them a handsome buffet and rocking chair.

It is generally thought about Boston that Clarence Richardson will meet death in the electric chair for the murder of Avis Linnell. Governor Foss has been inclined to refer the commutation petition to his council, but many of them are opposed to mercy being shown. Mayor Fitzgerald has written a letter to the governor saying that the majority of Boston people demand Richardson's execution.

"Ah, kind friend," said the moralist, "it is dead, not words, that count." "Oh, I don't know," replied the woman. "Did you ever send a telegram?"

THE CREATION TO BE SUNG AT THE OPERA HOUSE MONDAY EVENING

One of the most pleasing attractions yet presented to the public by the new management of the Opera House will be given on Monday and Tuesday evenings when the St. John Choral Society will be heard in some of their excellent musical festivals. The programme for Monday evening is worthy of particular notice, as it will be a rendering of Haydn's oratorio "The Creation," which is expected to prove more pleasing than "The Messiah."

The chorus work, judging from last evening's rehearsal will be the best yet heard from this source, and, of course, the incidental work being in most capable hands will be well looked after.

MRS. MARIE SUNDELIUS
Mrs. Marie Sundelius, who will arrive from Boston today to assist the society, is as well and favorably known in the Eastern States that, upon the announcement that she would give a special concert in Lowell last week, the people were at the theatre to secure tickets before the clock chimed the hour of seven in the morning. Mrs. Sundelius will have an excellent opportunity to display her wonderful voice, and the feature of the programme will be found to be well worth the price of admission alone.

SPECIAL "HAT CAR" ON DELEGATES' TRAIN

Women Traveling to Club Convention Are Relieved of Great Worry

New York, May 10.—There is rejoicing among the 110 club women who will travel to the General Federation of Women's Clubs in St. Francis, Mo., next week. Their hats will be numerous and their luggage will be heavy. Through Miss Mary G. Hay, a member of the committee in charge of the delegation, it was announced that railroad officials had promised to put on a special vestibule baggage car for the convenience of the delegates. This will give the women the advantage of having their trunks in many times a day as they desire to change their outfits. The car will be fitted up with shelves and a latrine system to carry as many large hats as the passengers desire to take with them.

Government Vessel to Be Launched at Kingston This Afternoon

Kingston, May 10.—The launching of the government steamer Bellechasse, of the Kingston Shipbuilding Company, this afternoon will be a brilliant affair. Mrs. Eliza Grimson, who last week celebrated her 90th birthday, will christen the boat. In this connection it is interesting to recall that Mrs. Grimson was present many years ago when Sir John Macdonald opened the dry dock. That day was made still more memorable by the fact that Sir John publicly kissed Mrs. Grimson, who was his true and trusted political ally.

COAL STRIKE WAS BUT THE BEGINNING

Sir A. B. Markham, M. P., Reviews Last Fight and Says Greater Contest is Coming

Dealing with the British coal strike in the new number of the "Quarterly Review," Sir A. B. Markham, M. P., says it is idle to deny that the men have suffered defeat; but that defeat has been due mainly to mistakes and ignorance on the part of the leaders, and to a lack of subordinateness and unity of purpose on the part of the men. The ground of attack was ill-chosen; the men should have stuck to their original demand, the payment on account of abnormal prices or losses due to bad management.

BE CAREFUL OF FIRE WHEN IN THE WOODS

During the next couple of months fishermen will be in the woods in all directions and every man of them should see to it that he is not the cause of a big forest fire. Millions of dollars worth of damage has been done in the past and the province has consequently suffered a loss that will be visited upon several generations. On all sides of the average lake where good fishing is to be had are hundreds of thousands of dollars worth of lumber. This represents not only its value in lumber, but employment for thousands of hands for many years to come. A careless fisherman, who lights a fire in a dangerous location, or who does not exercise proper precaution in extinguishing it after he has cooked his meal, may unconsciously become responsible for another of the awful forest disasters that have cursed the land.

Two Men, From Widely Different Parts of Canada, Tell How They Found Health and Happiness by Taking These Wonderful Fruit Juice Tablets.

Walterton, Ont., May 9th, 1911.
"I have been Walterton in business for a good many years and many of my townpeople know that my health, for long periods, was precarious. My trouble was extreme nervousness, brought on by indigestion or Dyspepsia, from which I suffered in its most severe form. It was so bad that I could not sleep before about four in the morning. I noticed in the Toronto "World" one of your published testimonials of how some one had used "Fruit-a-tives" for similar trouble, and asked Mr. Hunter, my druggist, his opinion on the matter and he advised their use. I immediately procured several boxes and I am pleased to say that I now enjoy splendid health and could not possibly feel better. I can eat with every degree of satisfaction, and sleep without an effort, which pleasure I was denied before I was fortunate enough to use "Fruit-a-tives." I strongly advise anyone suffering from like complaints to commence using "Fruit-a-tives" immediately. Don't stop at a few doses—but continue using "Fruit-a-tives" until a cure is accomplished.

BRISTOL, N. B., July 23rd, 1911.
"I was unable to say enough in favor of "Fruit-a-tives" as they saved my life and restored me back to health when I had given up all hope and when the doctors had failed to do anything for me. I had a stroke of Paralysis in March, 1910, and this left me unable to walk or help myself, and the constipation of the bowels was terrible. Nothing did me any good and I was wretched in every way. Finally I took "Fruit-a-tives" for the constipation, and it not only cured me of that trouble but gradually this fruit medicine toned up the nerves and actually cured the paralysis. Under the use of "Fruit-a-tives," I grew stronger and stronger until all the palsy and weakness left me. I am now well again and attend to my store every day. I recently saw "Thank God" for "Fruit-a-tives."

GREAT NUMBER ATTEND

FUNERAL OF F. W. RUSSELL

Chatham, N. B., May 11—(Special.) The esteem in which F. W. Russell was held was testified by the unusually large attendance at his funeral on Friday afternoon. Service at the house began at half past two o'clock, and was conducted by Rev. J. M. MacLean, assisted by Rev. D. Henderson, of Chatham; Rev. E. McWatt, of Loggieville; Rev. Geo. Grant, of Black River, and Rev. C. Sampson, of Donalstown. The choir of Knox church, Loggieville, and of St. John's, Chatham, sang "Safe in the Arms of Jesus," "The Sweet Bye and Bye," and "By Cool Silvan's Shady Hill." Rev. J. M. MacLean gave a short address. The procession was formed for Riverside cemetery, Chatham. The casket was covered with beautiful floral offerings. The pall bearers were—Robert Loggie, Robert Dunbar, William Savoy, James Percy, Geo. Watt and S. D. Heck. The line in the long line of procession were 123 carriages containing people from nearly all parts of the county and including residents of Black River, Napan, Hardwick, Burnt Church, Bay du Vin, Chatham, Newcastle and Nelson. The services at the grave were conducted by Rev. Mr. MacLean and Rev. Mr. Mowatt.

MR. PINDER'S RAILWAY

Fredericton Mail—The Tories in the legislature nearly threw a fit when the old government guaranteed the bonds of the International Railway, a high class road running from Campbellton to St. Leonard's, the extent of 88.000 per mile. The present administration has guaranteed the bonds of Mr. Pinder's little railway to the extent of \$10,000 a mile and were compelled to confess in the legislature last session in reply to opposition questions that they had no information as to the cost per mile or character of the rails being used. As a sound business the administration the Fleming government is certainly a wonder.

CRYING NEED FOR A LOCAL SANITARIUM

An Instance Which Shows The Reason For Strong Agitation—Delegation to Municipal Council

Several citizens, including ladies, who are personally familiar with conditions, have called up the Times urging that the agitation in favor of a local sanitarium be kept up and made more general and determined until action is taken by the authorities. Here is a typical case:—A woman who lives in a wretched home is a victim of tuberculosis. She and two children sleep in one bed at night, and the husband works at night, sleeps in the same bed in the day-time. There is no home to which the woman could be taken, there is apparently no authority which could remove the children. That such conditions exist, said one lady to the Times, is a disgrace to the city. And there are other cases quite as bad. A strong delegation will visit upon the municipal council next week and plead for the removal of this disgrace.

VICTORIA SQUARE A SAD MIS-NOMER, IT NEEDS ATTENTION

Public Dump, Nothing More or Less, in the Heart of a Residential Section

In answer to queries on the subject it may be said that "Victoria Square" is in Indiantown, a large plot of ground bordered on one side by the Alexandra School building and on each of the three other sides by homes of respectable residents and taxpayers of the city, and in the way of further explanation, it might be said that the spot in question is generally the playground of scores of little children attending the school or living in the vicinity.

No, it is not exactly a breathing place recommended by physicians, neither is it a trying place on moonlight nights after a warm sun has performed its work on substances collected about, and it could hardly be called a place of beauty nor an attractive spot for a mid-day rest or an afternoon stroll which are usually features of a public square or park grounds. In short, it is nothing more or less, despite the high-sounding but empty title, "Victoria Square" than a public dumping ground.

The place has been an eyesore to the residents for many years, but each succeeding year, despite aldermanic promises, etc., has witnessed nothing in the way of removal of the objectionable features, and still a couple of interested to those who have a superabundant quantity of decayed fruit, vegetable matter, the output of back-yard disposal not such things as are generally employed in decorating the playgrounds of little children, or the beauty spots of a residential neighborhood. Oh, yes, there are signs, "No Dump," in evidence, but these only add to the satisfaction experienced by the grocer's boy in thinking he has over-reached somebody when he manages to deposit a load of stale or decayed matter in the so-called "Victoria Square."

CLOSING LECTURE OF WOMEN'S CANADIAN CLUB SERIES GIVEN

The last of the educational evenings in Centennial School assembly room under the auspices of the Women's Canadian Club was enjoyed last evening by a large audience of school pupils and many of their elders.

Mrs. G. A. Kubring, Mrs. Frink and Mrs. Hay were the committee in charge, and Mrs. Kubring presided. Mrs. E. A. Smith, president of the Women's Canadian Club, was also present. William McIntosh gave an illustrated talk on New Brunswick, with views showing the progress of the log from the forest to the steamship loading docks and other fishery operations were also shown in pictures, as well as work in quarries and other industries. The address was of much educational value, and was highly appreciated.

BRING THE BOYS FOR SPRING SUITS

We know Saturday is the weekly whole-day play-day, and we'll serve you with the greatest dispatch so that the boys may get back to play promptly. Mute but convincing evidence that our Boys' Clothing is right, is seen in the stirring activity in the throngs to be found here every day—on Saturday especially. A full corps of thoroughly experienced salespeople. We are selling a great many combination suits—a combination suit is a coat and two pairs of trousers—practically two suits, for this coat will usually outwear two pairs of trousers on an active boy.
