FAMOUS GEMS OF PROSE

ELOQUENCE By Henry B. Stanton

Every enlightened age, eloquence has been a controlling element in human affairs. Eloquence is not a gift, but an art—not an inspiration, but an acquisition—not an intuition, but an attainment. Excellence in this art is attained only by unwearying practice and the careful study of the best models. The models lie all around us. The rest is within us. Demosthenes and Cicero will be household words, in all times, to the end of time. But the more one studies the masters of Grecian and Roman eloquence, the more readily will he yield to the growing opinion that England, France and America, during the last sixty or seventy years, have produced a greater number of eloquent orators than flourished in all Grecian and Roman history. As objects increase in size when seen through a mist, so men tower into giants when seen through the haze of antiquity. Without neglecting the ancient models, let us study those of our own times. From both we may catch some of that inspiration which bound the audience to the orator, and made him play upon their emotions as the master touches the keys of his familiar instrument—which subdued them to tears or convulsed them with laughter—which bore them aloft on the wing of imagination, or blanched them with horror while narrative threw the colors upon the canvas which held the judgment and the fancy captive, as reason forged the chain of argument, and poetry sounded the links with the gems of illustration—which poured over the subject a flood of rare knowledge, laden with the contributions of all sciences and all ages—which gambolled in playful humor, or opened the sparkling fountain of wit, or barbed the point of epigram, or sketched the laughing caricature, gliding from grave to gay, from lively to severe, with majesty and grace—that inspiration which, as Paul reasoned of righteousness, temperance and the judgment made Felix tremble; as Demosthenes anathematized Macedonia, made the Greeks cry out, 'Lead us against Philip;' at the thrilling tones of Henry, made America ring with the shout, 'Give us liberty, or give us death;' when the thunder of Danton shook the dome of the Convention, roused all Paris to demand the head of Louis; and lashed into fury or hushed into repose acres of wild peasantry, as the voice of O'Connell rose or fell.

SIR WILFRID LAURIER IN STIRRING SPEECH ON NAVY

Borden is Scored For His Shifts on Sea Defence Policy—Government, Says Premier, Has Carried Out Policy Which Parliament Unanimously Approved

Ottawa, Nov. 29.—The naval policy of the government as a policy Canadian, and not sectional. It may meet with defeat here and there, but this will not affect our courage. We will go on to the end, for we know we are in the right, and that the right will prevail. With these words Sir Wilfrid Laurier concluded a speech last evening in the House of Commons, in which he attacked the policy of the government embodied in the bill passed last session. Sir Wilfrid described the amendment of Mr. Borden as the last chapter in the history of lightning-like variation and political somersaulting of the Conservative party, and with mastery skill drove home the lesson that the position now taken by Mr. Borden was a challenge to the responsibility and to propitiate a certain section of his own party, who believed that the creation of a Canadian naval service was unpopular.

Mr. Northrup, Conservative, claimed the only result of the government's naval policy was that the imperial navy had two ships and 800 men less, while Canada was several millions out of pocket and had six or eight thousand men in training. If the opposition had their way the imperial navy would be two Dreadnoughts stronger. Ralph Smith, Liberal, of Nanaimo, pointed out that Premier McBride, of British Columbia, had endorsed the Canadian navy at the reception given on the arrival of the Rainbow. In 1909 the government was given a mandate for its policy by every member of the House of Commons, Liberals and Conservatives. It was absurd to contend that every time an important question arose parliament should shirk the responsibility of dealing with it, but should appeal to the people. Mr. Lewis thought that majority of Canadians were opposed to the construction of a navy, and that there were too many members of the opposition.

After a further repetition by Mr. Middlebro of the usual opposition arguments in favor of the Borden amendment, Sir Wilfrid Laurier rose shortly after 9 o'clock to review the general arguments advanced by Messrs. Borden and Monk. Sir Wilfrid complimented Mr. Monk on being at least consistent with his previous attitude in the amendment he now offered, but he added: 'What shall I say of the amendment of the leader of the opposition? The only thing I have to say is that it is the last chapter in the history of the lightning-like variations of my honorable friend on this question.' Sir Wilfrid reviewed the naval policy of the government and of the opposition from the time, when in 1909 Mr. Foster introduced his resolution in favor of some step being taken in the direction of a scheme of defence. He pointed out that on that occasion no voice of dissent was heard upon the resolution, not even the voice of Mr. Monk, who could not then bring his courage to the sticking point of opposing it. On that occasion, too, no one was more enthusiastic than the leader of the Conservative party.

Mr. Borden was not satisfied to support the motion only, he wanted immediate action. He (Sir Wilfrid) moved an amendment, one paragraph of which was to the effect that the house would cordially approve any necessary expenditure designed to promote the organization of a Canadian naval service in co-operation with the imperial navy along the lines suggested by the admiralty at the previous imperial conferences. The opposition agreed to that amendment. The only fault Mr. Borden had to find with it was that it was not sufficiently definite. He insisted that the house provide for the immediate organization of a naval service. Not an hour was to be lost, and following his suggestion the word 'Speedily' was inserted. There was then no question of consulting the people. After the meeting Mr. Borden went to England and spoke in the same strain on the motion which had been passed by the dominion parliament for the immediate organization of a Canadian naval service. On his return he spoke at Halifax on the same subject, in the same way, and depicted all the advantages which would accrue to the country at large, and to Nova Scotia, and Halifax in particular.

There was still no suggestion then that the people should be consulted, but landing in Halifax, Mr. Borden became

been attacked both in Quebec and the other provinces. They were simply a subterfuge to escape responsibility.

Sir Wilfrid said that he had been sneered at for the supreme importance he attached to the principle of autonomy, but he took the ground that the very basis on which the British Empire rests, the basis upon which it alone could be maintained, was the autonomy of all its component parts. He believed that whatever might be the opinion at a time of passion or excitement, the opposition, in their calmer moments, would agree that Canada had to protect its shores either by fortifications or by ships, and if that duty was to be undertaken, it could only be undertaken by one of two parties, either by England or Canada.

Our answer is, said Sir Wilfrid, 'that Canada must do it and that is my answer to the motions of Mr. Monk and Mr. Borden.' One Policy for All The Liberal party had always fought against the idea that Canada should be dragged on the mad career of European militarism, and Sir Wilfrid recalled the position he had taken at the imperial conferences in 1902 and 1907. He pointed out that the leader of the opposition himself had adopted the ideas which he (Sir Wilfrid) presented at these conferences.

Last year Mr. Borden, without knowing what was the condition of affairs, rushed in and asked parliament to vote \$25,000,000 to purchase Dreadnoughts, but now Mr. Borden told his followers that they should not have taken his advice last year and that he should have consulted the authorities to ascertain whether there was or was not an emergency.

Sir Wilfrid directed his attention to Mr. Monk. The latter had charged him with having misrepresented the policy of the government on the navy, and that he had concealed certain things with respect to it. Mr. Monk had stated that the government had kept hidden an order-in-council passed on Feb. 10, 1909, approving of a plan which had previously been rejected by the Canadian ministers at the conference of 1907, and which pledged Canada to participate in the military armaments of Great Britain.

Sir Wilfrid pointed out that at the conference of 1907 a resolution was passed providing for uniform military training standards for the empire and the collection and distribution of intelligence for its defence. It in no way provided for Canada's participation in the maintenance of military standards of Europe. 'Does not common sense,' said Sir Wilfrid, 'demand that if our troops are to fight for the defence of this country, our system of organization should be absolutely the same as that of the other parts of the empire. Mr. Monk had objected that the approval of the order-in-council, referred to, should have been left to parliament and had stated that the order had not been laid before the house. As a matter of fact it was moved for on Feb. 22, 1909, and was tabled on March 5, 1909.

'It was not twenty-two years that I have been the leader of the Liberal party,' concluded Sir Wilfrid. 'My endeavor has always been to keep the policy of the party upon lines which would appeal to the sense of all races and all creeds. At the present time there is in my own province a certain section of my fellow countrymen, Nationalists they are called today, who have succeeded from my party, and from myself, because I have endeavored at all times to maintain that policy which would appeal to no race or creed, as such, a policy of moderation.

'If there was one man who did more than another for Irishmen that man was Daniel O'Connell. The day came, however, when he was attacked by some young enthusiasts who thought his policy too moderate. His policy was to ask for the repeal of the union and for the re-establishment of an Irish parliament upon a moderate and peaceful complete separation from Great Britain. However, this party did not go very far. The insanity of their policy was soon found out and

FOREIGN COMPANIES, HE SAYS, CONTROL SHIPPING TO AMERICAN PORTS. New York, Nov. 30.—Testimony that steamship companies which are owned abroad absolutely control American shipping and have spent money freely to forestall against an American marine was offered yesterday before the congressional committee investigating charges that a steamship monopoly was maintained at Washington. William H. Douglas, who formerly represented a New York district in congress, made these statements. "As conditions are now," he testified, "the American merchant is handicapped. The foreign steamship owners make a rate at Hamburg, London and Paris, that controls the export shipment of an article to this country. Even if the American would charter a steamer for his own freight he would not be able to obtain additional freight to make up a cargo. The conditions govern trade between the United States and South America. Mr. Douglas said that, although foreign companies had used whatever influence they possessed in shaping legislation and had paid men to represent them in Washington, he believed that, strictly speaking, they had not violated any law.

PAROLE OFFICER HERE, SAYS THE SYSTEM IS WORKING EXCELLENTLY. W. P. Archibald, Dominion parole officer, of Ottawa, arrived in the city today. He said that since the inception of the parole act, eleven years ago, 3,079 prisoners had been released, and out of this number only thirty-four had been known to commit crime again, while about 2,000 have given their full liberty, and there are still 939 reporting. Mr. Archibald said that the plan was working admirably. "You will notice," he said, "that this is only about two per cent. in fact, not that much, of the entire number who have been paroled, who have been returned to the penitentiaries for crime. This fact reflects credit on the minister of justice, whose duty it is to consider the parole. The movement is now past the experimental stage, it is an established institution. Mr. Archibald will make a tour of inspection of neighboring cities before returning to Ottawa. METROPOLITAN CASE CLOSED (Continued from page 1.) if they continued. The witness told about being in a restaurant kept by Wheaton and Ferris girls in Brussels street. The witness said that he was going to get a room at the "Met." I said, "Goggin would not give you a room." After that I went to the hotel. My brother was in bed. Wry and the girls came to the door. My brother objected to them coming in. We all had a drink. I had only one. I knew nothing until I woke up on top of the bed dressed. Says He Was Drugged. "In your opinion were you drugged?" A. "Yes." Q. "You had been drinking that afternoon?" A. "Yes, five or six." Here Mrs. Baxter testified. Mr. Mullin "I caused my learned friend considerable amusement. He is no authority on this question." The witness then described what he saw when he came out of the room. "I saw three officers in the room." Q. "Where is your brother today now?" A. "At Magyatic Junction." Cross-examined by Mr. Baxter. Q. "Did you not invite Wry, Wheaton and Ferris to your room when you heard the police were watching your house?" A. "No." Q. "From the time Wry came into your room until you went under, did any of them say anything?" A. "No." The witness said he lost his memory owing to the effects of the drug. Q. "Don't you think that if you had been drugged it would take more than three hours to come out of it?" A. "No." Q. "Were you ever drugged?" A. "Not in that way." Q. "You were drugged?" A. "Yes." Q. "You never drank drugged liquor before?" A. "No." Q. "Then you undertake to swear that this liquor was drugged?" A. "Yes. Because my brother told me he was drugged too." Q. "Both woke at the same time?" A. "Yes." Q. "Had you told Wry the number of your room when you met him in Brussels street?" A. "No." Q. "How long have you worked at your business?" A. "This summer." Q. "Where is your place of business?" A. "Haymarket Square." Q. "The number?" A. "I don't know." Q. "Who owns the house?" A. "Mrs. Wilkins." The witness said that about three months before the raid he lived with his brother in Horsfield street. "Wasn't that house visited by the police?" A. "Yes." Q. "Was it raided?" A. "No." Q. "You rented the house to prostitutes?" A. "No." Q. "Lil Nickerson?" A. "No." Q. "The Ferris girl?" A. "No." Q. "If you have a remnant of respect for the Bible will you swear that you did not allow Ferris and Wheaton to live there?" A. "Yes." Q. "On one Sunday did not the Deputy chief and Killen raid the house and take Martha MacLeod and the Ferris girl out of the house?" A. "Yes." The rest of the evidence given was unfit for publication. The witness denied that a prominent young man jumped out of the Horsfield street house in order to escape being arrested. Mr. Baxter—is it not a fact that you were not convicted in the police court because it was the desire of friends of your people—who are respectable—to get you and your brothers out of the city?" A. "Yes." Theodora Goggin, wife of the proprietor of the Metropolitan was the next witness. She contradicted the plaintiff. This closed the plaintiff's case. The defence offered no witnesses and the case will go to the jury this afternoon. AT YESTERDAY AFTERNOON'S session Police-Magistrate Lucas gave more evidence in connection with the raid on the Metropolitan hotel. The registers of the Royal Hotel and the Metropolitan were offered in evidence. On the former appeared the names of A. M. Cross, who on the other was the name "A. M. Cross, and wife." A question was raised as to their being identical, but it was ruled out. Lucas told of the names of illegals having frequented the Metropolitan.

SIXTY YOUTHS NOW ON CRUISER NIOBE. Halifax, N. S., Nov. 30.—(Special)—Sixty youths have joined the Canadian cruiser Niobe here. Only one objection is reported. THE SAINT JOHN

(By H. L. Spencer) I come from the green pine forests, Where nature runs wild and free.

I sing by cliffs grown hoary, Where water's echoes ring repeat;

And often I pause to dally With the wheels of some busy mill;

And along by meadows cool and green, That are haunted by vagrant bees,

I pause by the bustling city, With its heavenward pointing spires,

Till at length my story ended, Far from the land of the pine—

CONFERENCE ON EDUCATION IN NEW SOUTH AFRICA

Cape Town, Nov. 30.—A conference will be soon held, consisting of the directors of education in the provinces of the union, for the purpose of discussing the question of education in South Africa, especially with regard to the use of the Dutch and English languages in the schools. It is hoped that as a result of the conference, for the summing up of the conference, which Mr. Malan, the minister of education, is responsible for, will be a decision which will result in a certain uniformity of teaching throughout the union.

Notice was given recently by the opposition in the union house of assembly of a motion declaring that the Orange Free State education acts conflicted with the principles of freedom and equality of opportunity in the South Africa constitution.

The Evening Chit-Chat

By RUTH CAMERON

SEVERAL years ago, when I, a very young newspaper woman, was precariously subsisting on the pathetically small stipend that my first paper deigned to consider me worthy, a young newspaper man on the same paper came to me, and with great embarrassment, blurted out that he was in a terrible mess financially. "And could I—the hated like thunder to ask it, but he simply didn't know where to turn, and he knew how kind-hearted I was—could I lend him five dollars for the next pay day?"

Now, for several weeks I had been saving every penny that didn't have to go towards my actual living expenses for a suit—the first thing of the sort I was to buy with my own earnings. I had the suit all picked out. It was a dark blue serge and it was to cost fifteen dollars, and I had nine dollars saved towards it. The money was in my top bureau drawer, under my handkerchiefs. Now I knew that I couldn't possibly save the other six dollars for two or three weeks and I didn't see any reason why I shouldn't let the poor man have five dollars of it, instead of keeping it in that bureau drawer. So I assured him of my great delight at being able to help a brother cub in time of trouble, and gave him the money.

He didn't pay the next pay day.

I had always thought until recently, that my experience was a unique one, and that man was set apart by his absolute lack of sense of honor from the rest of the world of men.

But, within the last year, there have come to my ears a half dozen stories of men who have borrowed from women and never paid back the loan. One young lady was visiting at the home of friends of her family. The son of the house, who entertained her most royally, professed a temporary financial embarrassment, owing to a delayed check, and borrowed seventy-five cents of her "just for the day."

He never paid it back or even spoke of the loan.

Now I am not one of those people who thinks it the unpardonable sin for a man to borrow money from a woman, and then betrays her unwillingness to refer to the subject by not paying back the loan—well, my dictionary hasn't words to fit him.

And, as for the girl who loans money to a man, I'd like to say two things to her.

First, if it is a large sum, she should take a note. That isn't a sign of suspicion, merely of common sense.

Second, if he fails to pay it back within a reasonable time, I think she should ask him for it, and if that does no good, I think it is her absolute duty, for the safety of other women, to pillory him by telling what he has done.

ST. JOHN PASTOR ONE OF DISTINGUISHED COMPANY

New York, Nov. 29.—Before one of the most distinguished gatherings of educators and church men ever held in this city for a special purpose, the new home of the Union Theological Seminary was dedicated today. Practically every institution of learning in the United States, was represented while delegations from colleges in several foreign lands, were present by special invitation.

Among those present was Rev. David Lang, pastor of St. Andrew's church here. It will mix a little self-suspicion with self-respect.

DISEASES OF THE SKIN

Often Appear With Sudden Changes of Temperature—Eczema and Salt Rheum are Cured by

DR. CHASE'S OINTMENT

Cold, damp weather brings out eczema and salt rheum. Many who are subject to these ailments do not suffer except during the changeable weather of fall and spring.

The annoying itching and the disfiguring blotches on the skin make this trouble almost unbearable to those who are not familiar with the soothing, healing influence of Dr. Chase's Ointment. Two bottles almost always cure the itching, the sores are healed up and the skin is left soft, smooth and natural.

There is always danger of eczema spreading, and becoming chronic. For this reason the use of the ointment should be regular and persistent until the cure is thorough and complete.

Mrs. J. M. Delor, of the Anti-Gonorrhoeal Society, writes: "I want to say that Dr. Chase's Ointment has proved a great blessing to me. I have salt rheum on one hand, and could not get it healed up. The itching was so distressing that I almost gave up. Dr. Chase's Ointment has cured me completely, and I gladly recommend it to every sufferer."

In every home there is a demand for Dr. Chase's Ointment. It is particularly useful where there are children. Chafing and skin irritation are relieved at once. Obstinate wounds are readily healed. Baby eczema and all forms of poisoned or irritated skin are soon cured by this soothing, healing ointment. 50 cents a box, at all dealers, or Edmondson, Bates & Co., Toronto.

Her Face and Body Were Literally Covered With "BOILS."

Burdock Blood Bitters Cured Them.

Mrs. John H. King, Johnston, N.B., writes:—"Last summer I was very much troubled with boils, and my face and body were literally covered with them. A friend advised me to take Burdock Blood Bitters. I got three bottles, and before I had taken all the first one my boils began to go away. I had just taken a few doses out of the last one when they all disappeared. My husband has also used Burdock Blood Bitters with much benefit."

Boils themselves are not a danger, but trouble, but still, at the same time, are very painful. They are caused entirely by bad blood, and to get rid of them it is necessary to purify the blood in good condition, and for this purpose Burdock Blood Bitters is the best remedy. Burdock Blood Bitters. Manufactured only by The T. Millburn Co., Limited, Toronto, Ont.

Board of Works Accepts Dictum of City Engineer About German Street Nuisance

At the monthly meeting of the board of works last evening complaints were read from Dr. T. E. Bishop and James Manning in reference to refuse matter dumped in the German street boulevard. Several of the aldermen told of having heard many objections about the material taken from the sewers, but after the engineer had stated that the material was the best obtainable for gardening and that a top dressing would be placed on it in the spring the aldermen decided to take no action.

The St. John Railway Co., was given permission to place three poles for lighting and heating wires in Alexandra street, an application from Chas. E. Colwell and Fred Lilley for a lease of a slip on the west side was refused.

Y. Coleman, E. Coleman and the aldermen decided to place a lunch wagon at the head of Rodney wharf for the winter months on payment of a rent of \$60.

The engineer submitted a statement of the expenditures in Brooks ward, amounting to \$3,328.20.

Aldermen Willett, Holder, White and the engineer and recorder were appointed to take into consideration the north side of Smythe street to the south side of Long wharf.

A number of matters were referred to the engineer to deal with and the meeting adjourned.

ONTARIO INDIANS SLAUGHTERING GAME BY WHOLESALE

North Bay, Ont., Nov. 29.—Complaints have been made by settlers in the neighborhood of Marquette, Nipissing district, that Indians have been invading the clearing, and slaughtering game in a ruthless way, digging into the houses of the beaver and capturing and killing hundreds of these busy animals. Moose and deer are also being shot in large numbers by Indians, besides partridge and other game.

Three hunters, Frank Comandoo and his two sons, the father taking the entire responsibility for taking game, were complained of. Indian Agent Cockburn asked for an adjournment of one week and will take up the matter with the Indian department. The contention will probably be raised that under the Robinson treaty Indians can hunt in any unorganized section of the province.

Having unbounded faith in the future of the city of St. John, and to meet the constantly growing demand for more space W. H. Thorne & Company, Limited, this year purchased the building situated on lots seven and nine, King street, known as the Montgomery building.

This building adjoins in the rear their Prince William street property and entrance have been cut through from each floor, giving easy access from one building to the other at each of the different levels.

This will add a floor area of 12,000 feet to their store premises and give them a floor space of about 80,000 square feet, with a frontage, in Prince William and King streets, of upwards of 140 feet. Extensive improvements have been undertaken in connection with the new premises and are now completed.

It was found necessary to remodel almost the whole of the Montgomery building. In the basement, under the old floor, lavatories have been installed for the employees' use together with a new steam heating boiler.

On the ground floor, a large expenditure has been made to make it one of the most attractive stores in the city for shoppers. Steel ceilings enameled white, hardwood floors and black walnut cases throughout have been installed. These latter include wall cases and no less than nine silent elevators in the different sections of the floor. The windows have been finished in solid mahogany and now present a very handsome appearance for the display of goods. The ground floor will be used to display the very extensive stock now carried of sterling silver, electro plated-ware, cut glass, cutlery, brass, leather and general fancy goods. Nothing like this show room for displaying goods will be found in Eastern Canada.

Upstair electric fixtures burning Tungsten lamps have also been installed and brilliantly light the rooms.

The second floor is divided in two sections, one of which is devoted to the sale of Edison phonographs and records in the company do a very large business. The Amberola machine which is the latest production of the Edison company, a piece of furniture as well as a musical instrument which would be an ornament in any house.

The other half of this flat is devoted to fire place fittings such as andirons, fenders, fire sets, coal hods, etc. The company has made a large purchase of beautiful English brass fenders which are here seen to good advantage. In this room for the present will be shown a large assortment of the latest novelties in toys. This is a new departure for W. H. Thorne & Company, Limited and from the appearance and good value of these toys it is evident that the departure will be a great success.

The three upper stories are used for stock rooms and it is their intention to fit up a workshop in one of them in charge of a competent mechanic who will be in a position to do all sorts of ordinary small repair work.

In addition to this, the company has installed throughout their premises a Lamson cable cash carrier system containing the cash in a gallery just over the ground floor at the rear of both the Prince William and King street stores. In addition to this, so that easy access to the upstairs departments may be obtained, a thorough-vator connecting with all the floors, has been installed and also a new freight elevator of the same make has been placed next to it. These elevators are enclosed in a fire proof brick shaft.

By relieving the congestion in the different departments in the old store it is hoped to make Thorne's one of the most popular and attractive stores in the city for customers, especially ladies, to visit and at this time of the year it will repay any person to look over the company's stores and stock, which includes sterling silver, cut glass, electro plated ware, cutlery, fancy brass goods of all kinds, fitted suit cases, handkerchiefs, motor car proof lunch baskets, sporting goods of all kinds, toys, fire place fittings, Edison phonographs and many other lines too numerous to mention.

These improvements now completed, make Messrs. Thorne & Company's store amongst the finest in Canada and enable them to display their silver, cutlery and fancy goods to better advantage. They only deal in high grade goods and prices will be found as low for standard goods, as those of the largest firms in Montreal or Toronto.

Commercial Man Arrested

Duncan M. Ferguson, a well known commercial man, was arrested here yesterday by Detective P. F. Killen and Deputy Chief Jenkins on a charge of arson. The arrest was made at the request of Chief of Police Carter, of Amherst, who telegraphed here asking that the man be arrested. The charge is in connection with a fire which occurred in October last in a dry goods store, owned in Amherst by Ferguson, insured for about \$9,000. The accusation arose from an investigation held in Amherst last Friday, when Mr. Ferguson's manager, Mr. Schlesinger, told of the value of the goods being inflated several thousands of dollars. Mr. Ferguson who has been living of late in St. Andrews, was in Halifax at the time of the fire.

ACADIA PRESIDENT HERE

President G. B. Cullen of Acadia University passed through the city yesterday from Boston and New York, where he had been attending the meetings of the Acadia alumni associations of those cities, both of which are in a flourishing condition. He announces a new professor to the chair of theology, Rev. Simon Sidle, a graduate of the Acadia University. The authorities of the university were working hard, he said, to secure pledges for the \$150,000 necessary to secure the \$20,000 from John D. Rockefeller. The sum of \$70,000 had already been pledged.

SPORT NEWS OF A DAY; HOME AND ABROAD

The City League. The Tigers took three points from the Pirates in the City League game on Black's alleys last night. Good scores were made by both teams, but the Tigers rolled somewhat staidly than their opponents. Bailey was high man for the "striped ones" with an average of 94%, and Tufts, for the losers, with 81%. The following are the scores:

LET YOUR STOMACH HAVE ITS OWN WAY

Do Not Try to Drive and Force it to Work When it is Not Able or You Will Suffer All the More. You cannot treat your stomach as some men treat a balky horse; force, drive or even starve it into doing work at which it rebels. The stomach is a patient and faithful servant and will stand much abuse and ill-treatment before it "balks," but when it does you had better go slow with it and not attempt to make it work. Some people have the mistaken idea that they can make their stomachs work by starving themselves. They might cure the stomach that way, but it would take so long that they would have no use for a stomach when they got through. The sensible way out of the difficulty is to let the stomach do its own work, and to employ a substitute to do its work. Stuart's Dyspepsia Tablets will do the work of your stomach for you and digest your food just as your stomach used to when it was well. You can prove this by putting your food in a glass jar with one of the tablets and sufficient water and you will see the food digested in just the same time as the digestive fluids of the stomach would do it. This will satisfy your mind. Now, to satisfy both your mind and body, take one of Stuart's Dyspepsia Tablets after each meal, eat all that you want—and you will find that your food is being digested because you will feel no discomfort or weight in your stomach; in fact, you will feel all about having a stomach that is doing its own work as well as yours.

AMUSEMENTS FOR OURSELVES AND OTHERS

THE PEARL OF SAVOY. The St. John amateurs under the direction of Theodore H. Bird will give their first performance of the Pearl of Savoy in the Opera House tonight. The advance sale of seats has been very large but there are still some good seats left. Those attending the performance are requested to be in their seats not later than 8 o'clock as the curtain will positively go up at that hour on account of the length of the performance. A special trip of the ferryboat will be made for those attending the performance from Carleton. The final rehearsal was held last night and judging from the way the performers went through their parts a first class performance is promised to all who attend.

LETTERS TO THE EDITOR

The Lords and Commons. To the Editor of the Times-Star: Sir.—The present House of Lords of England are a class of beings who consider themselves far above the ordinary people of life, in manners, culture, caste and superior existence, and consequently not to be considered on a level in any particular with the great mass of God's human creatures. They have apportioned to their own use very nearly the whole of the British Isles in a few large blocks of land, to be held forever on a hereditary plan among a few hundred autocratic owners, to be leased or used only as they desire by the peons or vassals (as in Russia) by apportioning very small lots to the hardworking and harassed farmers, who are ground down to the utmost, highest rent to a miserable and merciless hardness.

MOTHERS NEED Scott's Emulsion

Many mothers have learned how much they need Scott's Emulsion by taking it to show their children that it is a sweet medicine for their five years it has been the best known specific against fatigue and indigestion, as well as the standard remedy for warts, cough and relieving colds and affections of the throat and lungs. It will be hoped by all true humanitarians that their day of relief is at hand. J. S. CLIMO.

After La Grippe. "I had suffered several weeks with LaGrippe. Had pains in my head and eyes. It felt as though there was a heavy weight on the top of my head, until it seemed that my brain would burst. I was so nervous that I could not rest or sleep. When I dozed off I would awake with a sudden jerking of my whole body. Dr. Miles' Nervine, Heart Remedy and Liver Pills cured me. A number of friends had also benefited the same benefit."

Winter Street School Case. To the Editor:—Sir.—In Saturday night's issue of the "Times" you stated with reference to the trouble in Winter street school that my boy was behaving unbecomingly. That statement I wish to correct. My son was simply standing alone in front of Green's store waiting for me as I had told him to do. And when, pray will a boy obey if not his mother? Mr. Nelson ordered him off the street and my boy did move along but not fast enough to suit that gentleman; it was there on the public street that he first started to beat the boy as neighbors say. As for my beating him my right arm is stiff at the elbow and in my left I carried my muff. I remain, yours truly, ANNIE G. MEYERS. St. John, Nov. 29.

HAD KIDNEY TROUBLE. COULD NOT CROSS THE FLOOR PAIN WAS SO GREAT. Miss Hazel Hess, Winchester Springs, Ont., writes:—"I was troubled with my kidneys for five years. I could not cross the floor for the pain. The doctor could not do me any good and a friend advised me to use Doan's Kidney Pills. I bought six boxes and now I have been cured for over four years. I will recommend them to every sufferer."

A Richibucto School Teacher Once a Dyspeptic—Now Well, Thanks to Father Morrissey's No. 11. Richibucto, N. B., Nov. 17th 1909. Father Morrissey Med. Co., Ltd. I have been teaching school for upwards of thirty years, during the last twenty-five of which I have suffered seriously with stomach trouble, indigestion and dyspepsia. I have tried many remedies, and while I would get temporary relief from some of them, yet the old trouble would return, and with it the sufferings only known to the chronic dyspeptic. Last year I had my mind to abandon my profession, feeling that in my condition I could neither do justice to myself or to the many pupils entrusted to my charge. A friend suggested to me that I try Father Morrissey's No. 11 Stomach Tablets; I did so, and have continued to use them with the result that my stomach trouble is cured—my indigestion and dyspepsia gone and I feel as well as I ever did. I have, thanks to the Tablets, been able to continue in my profession, and feel that I am enjoying my work and an able assistance to the fifty-four pupils in my charge. (Signed) J. CHESTERMAN. Are any of the many thousands who like me, distressed, prevented from doing their best, or really enjoying life, by stomach trouble? If you are, you will do better than she did—take Father Morrissey's No. 11 Tablets. Each No. 11 Tablet, when dissolved in the stomach, will digest 1 1/2 pounds of food—a good, hearty meal—so that no matter how weak your stomach may be, No. 11 Tablets will enable you to get the nourishment out of your food and build up your strength, while the stomach, thus relieved, recovers its vigor. soc. a box at your dealer's or from the Father Morrissey Medicine Co., Ltd., Chatham, N. MORNING LOCALS. O'Neil Bros., who for thirty-five years have conducted a successful meat business in the city market, have decided to dissolve partnership. The business has been purchased outright by John O'Neil who will continue to carry on the business at the old stand in the city market. What is not known definitely, it is understood that D. J. O'Neil, the other member of the firm, in company with his sons will open up a business on their own account. A young deer captured by a resident of Prince William, was shipped to the city last night, and placed in Rockwood Park this morning. C. E. of Toronto, in the city yesterday, was greatly pleased with St. John's possibilities. The city's great need, he thought, was a dry dock, and he was surprised that up to the present none had been established here. He was delighted with the opportunities presented for Courtenay Bay development. The Board of School trustees took over the Winter street annex from the contractors yesterday. Granite Rock division, S. of T. West End, entertained members of Torvald division and Fawcett division last night. There was an interesting programme. A letter has been received from Wm. Thomson & Co. by Premier Hazen asking that the provincial government grant to a colonization company to be formed, the purchase of crown land in the vicinity of Oranosta. The company will divide this into fifty acre farms and secure settlers from England.

It matters not how the rocks and shoals of life have worn the edge of the spirit of joyousness, how dulled the enthusiasm of youth, and left the nerves less vigorous, the eye less bright, the step less springy, the mind less forceful and the general vitality less powerful than they ought to be at your age, you want to be strong. It makes you feel young, it renews your strength. Dr. McLaughlin's Electric Belt. Does this naturally? I know that the foundation of all strength is Electricity, and that Electricity alone will renew it. I have applied it for twenty-five years, and have cured thousands of weak people in that time. It is the only one that will cure Rheumatism, Weak Stomach, Nervous Debility, Indigestion, Catarrh of the Bladder, as well as Dyspepsia, Constipation, etc. It is a great relief to all who suffer from any of these ailments. Dear Sir—Received your letter of inquiry some days since, and believe beyond a doubt that my cure is permanent, as I have not felt rheumatism or catarrh of the bladder since I got your Belt, nearly three years ago, and recommend it at every opportunity, and will continue to do so, as long as I live, for I believe it has saved me a world of suffering. I am now seventy-three years of age, and hale and hearty, thanks to your Electric Belt. I remain, yours gratefully, Gardiner Wilcox, Dartmouth, N. S. CONCERT AT SEAMEN'S INSTITUTE

Both seamen and citizens contributed to the entertainment held in the Seamen's Institute last night. R. Morton Smith was in the chair. ST. JOHN MAN'S WORK GOES WEST

William Vincent of Waterloo street, whose plaster signs advertising the Dominion Exhibition were so highly prized, and which were so effective as an artistic advertisement, has just received an order for 100 of these signs for the Dominion Exposition of 1911 at Regina. The secretary of the Association saw one of these signs in Toronto last summer, and at once got into communication with Mr. Vincent. One of the St. John signs was sent to Regina, and after further correspondence, as to terms, Mr. Vincent this morning received a telegram for 100 signs. Thus the samples of this St. John man's art will be distributed all over Canada, to advertise the Dominion fair of 1911.

DIED IN REVERE, MASS

Mrs. Geo. MacInnes was for Years in Trinity Church Choir Here

The many friends of Mrs. George MacInnes, formerly Miss Edna M. Gregory, will regret exceedingly to learn of her death, which took place last evening in Revere, Mass. Up to the time of her removal from the city, Mrs. MacInnes was a prominent worker in Trinity church, having been a member of the choir there for considerable time. Of a most amiable disposition, she had hosts of friends here, who will be grieved to hear of her early death.

Besides her husband, she is survived by her father, one brother, Arnold B. Gregory, of St. John, and two sisters—Mrs. J. T. Turner, Revere, and Mrs. George E. Smith, of St. John. Notice of funeral will be given later.

ROW OVER QUARTER

One Youth Lent it to Another to go to Dance—Police Court Case Follows

A few weeks ago Louis Jones, a colored youth borrowed twenty five cents from Frederick C. Chereva, for the purpose of attending a dance which was being held last evening. Chereva claims that the young man promised to return the money the next day, but this, however, was not done. On Monday the two met in Speake's pool room in North Market street, and in an argument which arose concerning the money, blows were struck. Each asserts that the other struck first. At any rate, Jones charged Chereva this morning in the police court, with assault and presented a badly battered countenance as a strong piece of evidence.

The stories told were contradicted and Judge Ritchie dismissed the case, adding that he was very much surprised at Jones or any other young man spending from 11 a.m. until 3 p.m. in a pool room when he should be better employed.

LOST LIFE BOAT AND IRON STEPS IN THE STORM

Coal Steamer Cape Breton Had Rough Time of it on Way Here

With one of her life boats carried away and iron steps to the bridge torn from their place, the Dominion Coal Company's steamer Cape Breton, Capt. McDonald, which arrived in port yesterday met with terrific weather off the Nova Scotia coast during Saturday and Sunday.

The coal-laden steamer ran into furious weather, one of the worst storms she has met with off the coast. Giant seas continually swept over her from stem to stern the decks being submerged much of the time. On Saturday night off Canning, N. S. when the weather was about at its worst a big sea ripped from the davits the life boat on the starboard side, and carried it away. Soon after, the iron steps, to the bridge were torn from their place like sticks.

Coming up the bay it was also rough and the steamer got one of the roughest mailings she has ever experienced.

JOYOUS CABLE COMES TO HOME SADDENED BY DEATH OF MOTHER

Miss Margaret McConnell Married in Newfoundland Yesterday Not Knowing of Sudden Passing Away of Mother Here

About a month ago the Times announced the departure of Miss Margaret McConnell, daughter of Mr. and Mrs. Wm. McConnell, of Simonds street, for Newfoundland, where she would meet her intended husband, and they would be united in marriage. Since leaving St. John Miss McConnell has been visiting relatives of her fiance in different parts of Nova Scotia.

On Monday Mrs. Wm. McConnell, her mother, passed away after a few hours illness. It was known that Miss McConnell was then on the ocean en route to Newfoundland and all efforts to inform her of her mother's death would be fruitless. Yesterday afternoon a cable was received from her stating that she had arrived at her destination and was married at 2 o'clock. Today a cable will be sent to her husband, Mr. Sharp, informing him of the sad news of the death of his bride's mother and Mrs. Sharp will today learn of the sad blow that comes in the midst of her happiness. When Mrs. Sharp left the city she little thought that she would be called on to mourn the death of her beloved mother before her journey was over.

The circumstances are very sad and there will be deep sympathy for all. The funeral of Mrs. McConnell was held from her late home, Simonds street this afternoon at 2.30. Service was conducted by Rev. H. D. Mear and interment was in Fernhill. Many friends attended.

I. M. RUBINOVICH WEDS MISS MILDRED ISAACS

Pretty Ceremony This Afternoon at Home of Bride's Sister, Mrs. S. D. Lewis

A very pretty wedding took place this afternoon at the home of Mrs. S. D. Lewis, Horsfield street, when her sister, Miss Mildred Isaac, was united in marriage to I. M. Rubinovich of Montreal, by Rev. B. Amdur. The bride, who was given away by her brother, Lyle Isaac, was charmingly gowned in white princess attire, veiled with chiffon and both of her faces. Her veil was prettily draped over a coronet of orange blossoms and she carried a white satin Bible with streamers of white chiffon and lilacs of the valley.

Her sister, Mrs. S. D. Lewis, as matron of honor, was gowned in rose draped with minion with touches of gold and large black picture hat and plumes. She carried a shower bouquet of pink roses, tied with pink chiffon. I. Sydney Isaac, brother of the bride, acted as groomsmen.

The bride's mother was beautifully gowned in mauve satin draped with black minion and she carried a bouquet of violets tied with violet ribbon.

After the ceremony, a buffet luncheon was served and the happy couple left for Nova Scotia. The bride's going away gown was brown broadcloth with hat to match and long Persian lamb coat, a gift of the groom. Mr. and Mrs. Rubinovich will reside at 4890 Sherbrook street Montreal. The presents were numerous and costly, showing the esteem in which the talented young bride was held. Mrs. Rubinovich has given great delight to St. John people by her public readings and all will wish herself and husband a happy journey through life together.

BROTHER HEARD FROM

A. Kessler Writes to Adj. Carter of Salvation Army About Man Who Died in Shelter

After addressing communication to several people in the states, thought to be relatives of the deceased, Adj. Carter, of the Salvation Army, Metropole, has received a reply to one in which relationship as a brother is claimed with Charles Kessler, who died a short time ago in the local shelter. The letter is signed "A. Kessler," and the writer claims that he had not seen his brother, Charles, nor heard of him for fourteen years.

The man now dead came to the shelter for the first time about two years ago, and was well cared for by the officers in charge. He was suffering from tuberculosis and eventually became a victim to that dread disease. Before coming here he had followed the sea, but had not returned to his old home in the United States. Adj. Carter said he did not think the body would be taken to New York for reinterment.

KNIGHTS OF PYTHIAS HALL

A meeting of New Brunswick and Union Lodges, Knights of Pythias, was held last evening in their hall, Gormin street, to consider the matter of securing a new hall. The knights have been notified to vacate their present quarters, the first in the lower provinces, on May 1 next, as the owners of the building, Manchester Robertson Allison, Ltd., desire to use the space for the extension of their business. Several propositions are being considered by the lodges but no definite action was taken last evening.
