## Women Lead Desperate Strikers of The Ruhr In Violence GREAT BATTLE OF STAMPS

### AWARD OF BOARD IS REJECTED

Trouble Breaks Out at Mines in Several Parts of Germany.  
WIVES LEAD RIOTS  
Drive Strike Breakers From Pits With Heated Rakes—Storm City Hall.

BY CARL D. GROAT  
(United Press Staff Cor.)  
Berlin, May 19.—Desperation has seized the striking miners of the Ruhr. Their women folk are showing the way to violence. The strikers refused flatly to accept an arbitration award which lengthens their hours. The mine owners, meeting at Essen, accepted the arbitration. The government, according to custom, has no choice but to declare the award binding.  
Tremendous bitterness, suffering and hunger among the strikers and their families make it seem doubtful, however, that the government's declaration will have any effect.

Women Storm City Hall  
Wives of the miners took the initiative in sabotage. At Gelsenkirch angry women stormed the city hall, demanding issuance of rations. Rioting, led by miners' wives, broke out at Rotthausen and police with drawn batons had to intervene.  
In the mines of Hattingen, women rolled up their sleeves, seized rakes and picks and hauled fires from the pump furnaces so that the mines are in great danger of being flooded. They brandished heated rakes in the face of men strike breakers, driving the latter from the mines.

### HARRY THAW WILL NOW BE FREED

Last Barrier Removed When Evelyn Nesbit Gives up Fight.  
Philadelphia, May 19.—William A. Gray, counsel for Evelyn Nesbit, divorced wife of Harry K. Thaw, today announced that he would withdraw the motion for a new trial, stating that "a working girl could not fight the Thaw millions."  
The motion and its outcome was the only remaining barrier to Thaw's complete freedom. He is now in Pittsburg, visiting his mother.

Pope Pius Honors Columbus Knights  
New York, May 19.—Pope Pius has ded the 1524 medal commemorating the outstanding event of this year as Pontificate to the Knights of Columbus in recognition of their welfare work.  
This was announced last night by William P. Larkin, supreme director of the order, at a dinner to several hundred new members. Cardinal Hayes brought from Rome two copies of the medal for presentation to Supreme Knight James A. Flaherty.

He Gives Canada Very Black Eye  
London, May 19.—(British United Press, by Harry N. Moore).—"It is not only criminal but it is an act of cruelty to encourage people to seek work in Canada," is the statement of Tom Richardson, former member of the British Commons for Workington, who recently returned to his homeland after a three-year residence in the Dominion. Mr. Richardson, speaking at the National Council of the Independent Labor Party, pictured conditions in Canada as worse than they are in Britain. He claims that cities are filled with unemployed, and that the immigrants taking up land at least seventy-five per cent. fail.

### Parents Track Abductor 2 Years

Newcastle-on-Tyne, May 19.—A baby girl who was abducted two Newcastle, has been found by her parents after a search of nearly two years ago from a lodging-house in parents. The baby, Irene by name, is the daughter of Mr. and Mrs. McAvoy, hawkers. She was only 10 months old when she was abducted. Suspecting that the child had been carried off by a woman hawker, the father and mother set out on foot to track her. In town after town, both in England and Scotland, they found that the woman they were seeking had left a little before they arrived, and it was not until they reached Johnstone, Renfrewshire, that they came face to face with the woman and the child.  
At first the woman refused to hand over the baby to her parents, but was compelled to do so after a visit to the police station.

### COMMUNISTS GOT A FREE PASSAGE

While German Monarchists Held Their Deutscher Tag Celebration Yesterday.  
(United Press.)  
Berlin, May 19.—Something new in the way of combating anti-monarchist demonstrations by Communists was tried out with success by the safety cial trains were run between this city and Paretzenwald, and as fast as groups of Reds showed up at the latter town and attempted to break up "Deutscher Tag" celebrations, they were loaded aboard the trains and sent back to Berlin.  
Uplands and Fascists succeeded in celebrating their Deutscher Tag in the great hall at Paretzenwald, while the police repulsed successive waves of attacking Communists. Three policemen were knifed during a day and night of fighting, while perhaps a score of Communists were wounded.

### MANY MORE "MACS" COME TO CANADA

There Are 175 in Party of Hebrideans That Sailed on Saturday.  
London, May 19.—(Canadian Press Cable).—The liner Canada called at Stornoway, Hebrides, on Saturday and embarked passengers, from Canada, including 175 organizers by the Ontario Government and destined for farm work and domestic service. The others included seven families, comprising 34 persons. No fewer than 175 of the emigrants bore surnames commencing with "Mac." Twenty-nine famous Highland clans are represented among the emigrants.  
Enthusiastic scenes marked the departure. Hundreds of people massed at the dock and cheered as the Canada pulled away. The send-off was also enlivened by some 30 steam drifters and other craft in the harbor, that blew sirens.

### Wire Briefs

Washington, May 19.—Cyrus R. Woods, Ambassador to Japan, has asked to be relieved of his duty there. It is not known when he will retire or whether his resignation has been acted upon.  
Ogdensburg, N. Y., May 19.—Eleven pleasure yachts were destroyed and coal valued at a hundred thousand was ignited when fire swept an entire city block adjacent to the St. Lawrence River today.  
Pretoria, South Africa, May 19.—(Canadian Press Cable).—Nine Europeans who were condemned in connection with the attempted Rand revolution of two years ago were released from prison yesterday.  
Halifax, N. S., May 19.—The French line steamer, La Bourdonnais bound from Bordeaux, docked here this morning after having landed 25 cabin and five third class passengers sailed for New York.  
Toronto, N. S., May 19.—The Ocean Limited, bound from Halifax to Montreal, was delayed five hours yesterday morning near Wellington station, about 20 miles from Halifax, when forward trucks left the tracks.  
Paris, May 19.—Grindell H. Matthews, British scientist, discoverer of the "diabolic ray," a heat ray said to be capable of eliminating the National Council of the Independent Labor Party, pictured conditions in Canada as worse than they are in Britain. He claims that cities are filled with unemployed, and that the immigrants taking up land at least seventy-five per cent. fail.

### DOISY NOW AT CANTON IN AIRSHIP

French Flyer Has Continued Success in Flight to Japan.  
CROSS THE PACIFIC  
U. S. Airmen Advance—Australian Flight Round Continent Ends.  
(United Press.)  
Paris, May 19.—Captain Pelletier Doisy, French flyer, has arrived at Canton, China, on his flight to Japan from Indo-China, which he reached last week.  
U. S. Men Progress.  
London, May 19.—(United Press).—The round-the-world flyers from the U. S. hopped off today from the Paramshiru Island for Yetoforo Island, several hundred miles southward towards Japan proper, according to Central News despatches.  
The airmen took the air at 7.30 a. m., at which time weather conditions were reported favorable. Climatic conditions will be dangerous to the U. S. world flight after Tuesday, according to Japanese weather reports.  
Yetoforo Island, Kuriles, May 19.—(Canadian Press).—The three U. S. lander here this afternoon at 2.50 o'clock, having made the 500 miles flight from Paramshiru Island in a little more than seven hours.  
Australian Flight Completed.  
Melbourne, May 19.—(Canadian Press).—Aviators McLeay and Goble today completed their 8,500-mile flight around Australia, accomplishing the feat in 93 flying hours.  
Escorted by a fleet of welcoming airplanes they alighted on the summit of St. Kilda to the accompaniment of cheers from enormous crowds lining the shore. The voyagers were officially greeted by federal and state ministers and army and navy representatives and later were guests at a civic reception.  
The flight was undertaken to survey the coast for defence purposes, to seek possible aviation bases, and to collect information concerning the effect of tropical conditions on airplanes.

### BERESFORD IS TO GO TO OLYMPICS

Belyea Sends Word—St. John Man Likely in France Now.  
Jack Beresford, English winner of the Diamond Sculls in 1921, has been picked to represent England in the Olympic events, according to Hilton Belyea, Canada's representative, in a letter received by Mrs. Belyea this morning. G. H. L. Gollan, Hilton says, is rowing in the Diamond along with several others.  
Hilton writes that he planned to leave England for France on May 15 on a training course on the Seine, just east of Paris. His new shell has been delivered by Sims, but he had been unable to test its qualities thoroughly at time of writing. Before leaving England he was invited to go on a motor trip of the country but regretfully declined as he would interfere with his training plans.  
In a letter to Harry Belyea, Hilton writes he is rowing daily quite hard and getting in fine trim. In France he was going to try out a new pair of oars with 6 1/2 inch blades.

### TELLS OF ST. JOHN BOY IN AUSTRALIA

Trade Commissioner Says Harley Nobles is Doing Well There.  
D. H. Ross, Dominion trade commissioner in Australia, who is here interviewing exporters who do business with the island continent and discuss the means of increasing the trade, said today that Canadian goods were meeting with favor in Australia and some people here were making good out there.  
Among the men from Canada he mentioned Harley Nobles, son of D. L. Nobles of this city, who has settled in Sydney and is succeeding in the commission business. The many friends of Mr. Nobles will be glad to hear that he is doing well in the land of his adoption.  
This morning Mr. Ross visited the Simms plant, Fairville, and later will call on the Canada Brush Co., Canada Nail and Wire Co., Maritime Nail Co., T. McAvity & Sons, W. S. Clawson & Co. and Emerson & Fisher.

### HUNT ELUSIVE ARCTIC CURRENT

Coastguardmen Puzzled Over Change in Conditions on Grand Banks.  
Washington, May 19.—U. S. coast-guardmen off the coast of Labrador have started on a hunt for an elusive Arctic current whose capers, scientists venture the opinion, may change the weather of Europe and North America. An official report for last month from Lieut. Edward R. Smith, of the coast-guard cutters operating on the international ice patrol out of Halifax, declared the temperature of the sea covering the Grand Banks seven degrees and ice floes had reached the vanishing point. They declare the winter in that region has been the mildest within the recent memory of man.  
Lieut. Smith and his mates think all this is because the Labrador current has disappeared, changed its course, dwindled or shortened its route. The coastguardmen are going to take soundings to find out.

### DENIES URGING PEOPLE TO FIGHT

Kemp of South Africa Discusses Nationalists and the Question of Secession.  
Johannesburg, South Africa.—(Canadian Press Cable).—Denying a report that he had advocated recourse to arms in order to secure secession from the British Empire in the event of peaceful means failing, General Kemp, member of the last Union House of Assembly, on Saturday declared that "Nationalists leave the question of secession to the unfettered decision of South Africans. They will not force the issue, no matter how long it takes to bring about a solution."  
Previously appealing for national unity and peace, General Kemp said it would be foolish to attempt to secure independence by force nowadays. The Nationalists, he added, do not desire war. If they got into power they would try to improve conditions and would not touch the question of secession.

### Infant Marriage Still Permitted

Calcutta, May 19.—Some striking facts bearing on the matrimonial conditions in India are contained in the latest census report, which shows that marriage is almost universal, especially in the case of females.  
Infant marriage below the age of five still obtains in many parts of the country, and scarcely a woman can be seen who has reached her youth without finding a husband. If she is not physically or mentally defective.  
Of every thousand women of 10 to 40 years of age only 62 are unmarried. The average age at which a girl is married in Bengal is 12.03 years; when in India it is between 24 and 27. England it is between 24 and 27.  
The marriageable age of a girl has been fixed in Baroda State at 12, but it is reduced to nine in special cases, and even to six in the case of one community. In Mysore the age-limit is eight, but there is no provision that a man of 50 cannot marry a girl under 14.

### CANADIAN PICTURES CAUSE ROW

Those at Wembley Described as Travesty on Canadian Art.  
THE EXPLANATION  
Royal Canadian Academy, Not Permitted to Select, Refused to Exhibit.  
(By Harry N. Moore.)  
London, May 19.—(British United Press).—The trouble over the exhibit of Canadian pictures at Wembley, which has been smouldering underground for some weeks and which has caused considerable bitterness owing to the charge of representative Canadians that the pictures are a travesty of the best of Canadian art, is brought into prominence this morning with the publication by the Daily News, of a letter from G. Horne Russell, president of the Royal Canadian Academy, in which he says that the pictures, which is printed without comment.  
Officials in charge of the great empire fair say that they deeply regret they say that the quarrel is a purely domestic one for the Dominion, and that they were bound to accept the pictures which were sent over to them and over the selection of which they had no control. Any effort on their part, they say, to have dictated to the Canadian Government the proper method of selecting the pictures would naturally have been regarded as impertinent.  
The explanation.  
The letter is as follows:  
"In view of the restricted and unrepresentative nature of the Canadian art exhibit at the British Empire Exhibition, it is necessary to appoint a committee of the trustees of the work of a very great number of Canada's best known painters should be given. When the exhibition was organized, it appears that those responsible thought it wise to entrust the selection of Canada's contribution of pictures to a body of laymen, with the result that the Canadian Government has been asked to entrust the trustees of the Canadian National Gallery.  
"Those gentlemen subsequently issued a circular to all Dominion artists, inviting them to send in all contributions to the National Gallery, Ottawa, by a given date, and those which met with the approval of a committee of the trustees, assisted by some artists of their own choosing, would be forwarded to London for exhibition.  
"The Royal Canadian Academy of Arts, becoming aware of this circular, at once entered a protest. It had always been the privilege of the latter body to organize and select the works for all Canadian foreign exhibitions, and they claimed the right to select the jury to which their pictures were to be submitted. This was promptly refused, and the executive of the academy advised their members that many of their pictures were exhibiting under the circumstances. A vote subsequently taken at the general meeting of the academy endorsed the attitude of their executive almost unanimously.  
"The question is, of course, one of principle, as to whether laymen or professional artists are the best judges. This question each can judge for himself, but the difference of opinion explains why, as I have already said, the works of so many of Canada's most prominent artists are absent.  
"In France it is usual for the exhibitors to nominate their own jury, and ministers or officials who may be added to such jury have no vote, and I understand that this is also the method adopted by the principal British and other continental exhibitions.  
"It seems unfortunate that the exhibition should be deprived of the works of many of the Dominion's best painters and sculptors. No provision was made for architectural exhibits.  
"Yours truly,  
"G. HORNE RUSSELL,  
"President, Royal Canadian Academy of Arts."

### TO BROADCAST SONG OF NIGHTINGALE

Will Lure Songster to Valley in the Surrey Hills to Make Test.  
London, May 19.—Hundreds of thousands of radio fans are anxiously awaiting the result of an effort to broadcast the song of a nightingale tonight.  
Elaborate arrangements have been made to lure a nightingale into a lonely valley in the Surrey hills from which its song will be broadcast with the aid of a microphone.  
It is hoped that a full moon and a few soft notes on a cello with encouragement the feathered songster to perform.

### Boy Was Near To Burial Alive

Constantinople, May 19.—A boy aged 10, nephew of the ex-Minister of Justice, Hassan Fehmi Pasha, was certified dead. The body was being washed next morning when the boy stirred and opened his eyes. A doctor was summoned and the boy was restored to health.

### Dinner in London; To Bed in Paris

London, May 19.—Night flight to Paris by after dinner express airplane traveling at 100 miles an hour is to be attempted in the near future by the new Imperial Airways Limited, to enable business men to dine in London after a day's work and get to Paris at bedtime.  
Plans are also being made for a service of big planes equipped with comfortable sleeping berths for flights during the night from London to distant European capitals.

### Ruffians Attack Home of Weston, Noted Pedestrian and Beat and Shoot Him

Kingston, N. Y., May 19.—In the wilds of the Plutarch Mountains a gang of men attacked the home of Edward Payson Weston, 88-year-old world-famous pedestrian, who resides on a farm in that section of Ulster County.  
Armed with sticks and rocks and at least one gun, the gang stormed the house. The old man made what resistance he could unarmed and finally barricaded himself in one room in the upper part of the house. The gang continued to throw large rocks and clubs at the windows until not a pane of glass or a window sash remained in the house. They then beat down the door with a sledge hammer. They finally entered and forced their way into the room upstairs, in which Weston made a desperate stand for a man of his years. But he was cornered and severely beaten, and during the attack was shot in the leg.  
Mr. Weston, with his housekeeper and his adopted son, resides on a farm which they purchased when he retired. The boy's family was wiped out at the time of the influenza epidemic. Neither the boy nor the housekeeper was harmed.  
In the district is located a wild, wooded country. There are scattered farms and homes, but many persons of questionable character reside in the region. It is said that some of them lived by selling wood, which they cut on other people's land. Several of the abandoned farms have recently been purchased by city people and others and the local lawless residents resent the fact that they can no longer steal the wood of the abandoned farms, as they used to do.

### PROBE N. S. TRAGEDY Has Been 57 Years a Coroner

Inquest Into Death of Negro at Yarmouth After Drunken Brawl.  
Yarmouth, N. S., May 19.—A coroner's inquest into the death of John Sloan, colored, who disappeared after a drunken brawl in Cribbs' stables here on November 11, is being held. The body was found floating in the harbor on last Friday. Medical statements at the inquest were that the man had been breathing when he entered the water.  
Philadelphia, May 19.—Walter Hoover of Duluth, probably will not enter the contest for the Philadelphia Challenge Cup emblematic of the world's singles sculling championship, but will devote all his time to preparation for the Olympic tryouts here on June 13 and 14. The Challenge Cup regatta will be held on next Saturday over a mile and a quarter course on the Schuylkill river. Hoover has been here for several weeks practicing for the event, but was forced to stop his workouts last week because he was not feeling well. He plans to start practice for the Olympic tryouts in a day or two.  
Indications today were that W. E. Garrett Gilmore and Paul Costello, both of this city, would be the only contestants in the Challenge Cup race.

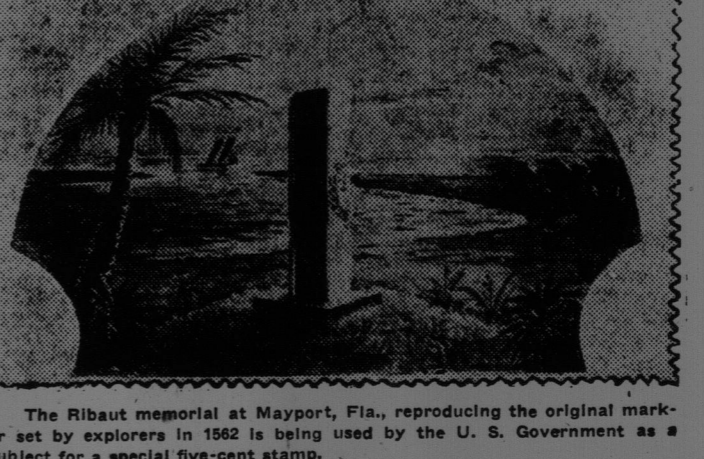

### TROUBLE FOLLOWS VICTORY BY U. S.

French Crowd Does Not Like Defeat at Rugby in Olympic Contest.  
(United Press.)  
Paris, May 19.—Following official expressions of regret for the conduct of the crowd after the American rugby team had defeated the French team 17 to 3, in the Olympic championship yesterday, it is probable that the unpleasant experience of the Americans may be officially forgotten.  
Most of the Paris papers today deplored incidents that occurred during the match and after it when the American flag was hissed and jered as it was pulled to the top of the staff. The strains of The Star Spangled Banner were almost drowned out by jeers and two U. S. students were knocked out by cane wielders in the stands.

### DAMAGE IS MILLION AND HALF

Part of Federal Shipyards Plant at Kearney, N. J., Destroyed.  
ALL WAS IN DANGER  
Explosion is Followed by Fire—500 to 1,000 Men Lose Work.  
(Canadian Press.)  
Kearney, N. J., May 19.—The molding and plate shop of the Federal Shipyards is a complete ruin today as the result of a tremendous explosion of unknown origin which rocked this section last night, doing damage to property estimated at \$1,600,000. The blast, which was heard more than five miles away, was followed immediately by fire, which destroyed the building and large quantities of expensive machinery and equipment, and for a time threatened to wipe out the entire plant. The fire was confined to the building where the explosion occurred.  
The blaze originated in a two-story building more than a quarter of a mile long and 300 feet wide, where the keel of one new vessel had just been laid and where other ships were being repaired. Between 500 and 1,000 men are temporarily thrown out of work.

### BRINGS WIFE AND 13 CHILDREN HERE

Robert Blyth Arrives From Glasgow With Family to go on Farm.  
Quebec, May 19.—Mr. and Mrs. Robert Blyth, aged 44, accompanied by their 13 children whose ages range from 24 to three years, were among the third class passengers who disembarked yesterday afternoon from the Canadian Pacific steamer Marburn from Glasgow.  
Mr. Blyth, with several of his sons, one of whom was killed, saw service at the front during the world war. In their native village of Barnbaroch the family were farwelled and addresses and a purse of £20 presented.  
Mr. Blyth said he had every hope that in following his old occupation of farming here he would experience no difficulty in providing the 45 meals a day required by his healthy family. They are taking advantage of the Ontario Government's settlement scheme and were informed that a fine farm at Brighton, Ontario, awaited them.

### ONE BULLET KILLED YOUTH AND GIRL

Mystery Still Surrounds Tragedy in Mountain Region of Pennsylvania.  
Harrisburg, Pa., May 19.—Upon two slender clues, a battered leaden bullet and a worn pocket notebook, officials today pinned hopes of solving the mystery surrounding this killing of Harry Ganster, a Marysville High School student, and Leah Ellenberger, a Hollidaysburg teacher, found shot to death at Lamb's Gap near here early on Saturday morning from the body of the girl was that which killed both her and her companion as they were preparing to return home after picking wild flowers on Blue Mountain. It was of old style, made for an old type of rifle. The notebook found in the boy's pocket contained a strange collection of boyish impressions. In it he had noted methodically many happenings and secrets of his life, addresses, and a map of the mountain region in which he was killed. From these the police sought some inkling of his experience that might lead them to the slayer.  
Yesterday the state police investigated theories of jealousy and moonshiners' revenge, but neither developed any material facts.

MANY CHANGES IN C.N.R. TRAIN CREWS

Cutting of Local Runs at Moncton Causes Some What of Upheaval.

Yesterday there went into effect on the C. N. Railway a rule that in future none of the train crews running out of St. John shall go past Moncton.

With the change of time at midnight on Saturday all the C. N. R. trainmen automatically lost their jobs; these jobs were pooled and the selection yesterday was made on the basis of seniority.

Under the present arrangement, with none of the runs extending beyond Moncton, the crews will make a complete journey to Moncton and return every day.

Time Changes.

One feature of the loss of jobs at 12 o'clock midnight on Saturday applied to train No. 9 from Halifax to St. John.

The changes in the time of train departures which went into effect yesterday were: The morning train leaves at 7:05 instead of 7:10 N. to Halifax.

Trains arriving will be: The Halifax at 6:40; Sussex, 7:45; the suburban at 1:40 p. m.; the Maritime express at 1:50 p. m.; Halifax at 2:50 p. m.; suburban, 7:35, and No. 43 at 9 p. m., all Atlantic time.

"Bumps" For Jobs.

The outgoing Halifax express at night will make all the suburban stops to Hampton, thus eliminating the suburban. This train will then run as an express to Oxford Junction, N. S., and from Oxford Junction to Truro will take the place of a local milk train, making all stops and picking up all the milk en route.

HUBBY'S PICTURE.

(Passing Show.) The latest fad is to have a tiny picture of your husband on your finger nail. The more usual place for him, of course, is under your thumb.

DOES HE WANT MORE?

(Toronto Star.) Sir Robert Borden may be appointed to preside over the job of defining the Irish boundary. But hasn't Sir Robert had trouble enough in his time, without that?

NOT YET.

(Victoria Colonist.) The British Postmaster-General says it is estimated that the increase in the number of letters and postcards which would result from the introduction of penny postage would total about 900,000,000 a year.

ANOTHER QUESTION OF HATS.

(Vancouver Sun.) At last the momentous question of feminine headgear seems to have been solved by lady members of the British Parliament. After weeks of discussion, all eight lady members have finally decided to appear hatless.

THE LITTLE VILLAGE ON THE THAMES.

(London Daily Express.) Sir Ian Hamilton's ecology of London and its assertion that the great city "catches hold of you as an octopus grasps a periwinkle" conveys nothing new to the true Londoner, he says.

ST. JOHN AND HALIFAX.

(Presbyterian Witness.) The Progressives in the Dominion Parliament made a very sensible use of the Easter recess by paying a visit to the Maritime Provinces.

TONSorial FASHIONS.

(Toronto Globe.) Bobbed hair seems to be becoming as much the vogue as the short skirt, and may soon cease to provide material for the humorist or the moralist.

WATCHMAN, WHAT OF THE MORNING?

(Toronto Mail and Empire) (An episode of Life.) Morning. Watchman, what of the morning? "Dense are the shadows on vale and hill, I see no stars and the air is chill; No sounds I hear save the lulling lull And the Shepherd's ceaseless warning."

IN LIGHTER VEIN

Fortunate. A young lawyer was due to go into court with his first case. For some days he had been nervous about it, and so he sat down to dinner that night after the trial, his air was far from being triumphant.

Hobbs—"I hope you're not one of those who borrow trouble?" Dobbs—"No, I borrow money to get out of trouble."

Her Idea of Punishment.

Margaret, aged five, had eaten one of the two boxes of strawberries her mother had purchased, expecting company. Her mother said: "What would you do if you had a little girl and she did a thing like that?"

Lochinvar In The Commons

(Hansard, May 13.) GOING TO CONVENTION.

Rev. W. J. Johnson, of the Coburg street Christian church, and Mrs. Johnston, and Mr. and Mrs. J. S. Flagler leave today en route to Toronto to attend the All-Canada convention of the Christian Church there.

Who are they?

Who are they? Is it my right hon. friend the leader of the opposition (Mr. Meighen) or the late Minister of Finance (Sir Henry Drayton)? My advice to them is that Lochinvar is not through with his adventures; he may not go on the rampage, but he may go looking for a charmer.

#### GEM FORTUNE

Ever wonder what \$2,000,000 worth of jewels look like? Then study this picture. The young lady, who is merely a model, is wearing the celebrated Mauboussin collection, being displayed at the French Exposition now appearing in the United States. The pearls above are valued at \$300,000; to say nothing of the bracelets on her wrists, the diamond ear-loops, the pearl tassel and rings and other "glittering trinkets."

#### WEDDINGS

##### Trafon-Spear.

A quiet wedding took place yesterday afternoon, May 18, at the Parsonage of the Queen's Square Methodist church, when Miss Julia Irene Spear, of Danforth, Me., formerly of Spear-Hills, Carleton county, N. B., was united in marriage to Clarence Edgar Trafon, also of Danforth and formerly of Lyndfield, Charlotte county. The ceremony was performed by Rev. Neil MacLaughlan in the presence of a few friends. The bridal pair left on the C. P. E. train to visit in Detroit and a few nearby places before returning to their home in Danforth.

#### DEATHS

##### Miss Julia Carlson.

Elsie Carlson, 14-year-old daughter of Mr. and Mrs. John Carlson, 329 Germania street, died yesterday after an illness of several months. Besides her parents, she is survived by two brothers, Charles and John. The funeral will take place on Tuesday afternoon from the rooms of N. W. Brennan and Sons, 715 Main street.

#### FUNERALS

The largely attended funeral of T. Carleton Olive was held from his late residence, 139 Watson street, West St. John, Sunday afternoon. Rev. J. H. A. Holmes, of St. Jude's church, conducted the funeral service. Interment was in the Good Shepherd cemetery, Manawagonish road.

#### URGES RELIGIOUS TRAINING.

Rev. H. H. Ferguson has accepted the appointment as supply minister for the Edith Avenue church congregation, East St. John, during the summer. Yesterday morning in the Waterloo Street church Mr. Ferguson laid for the theme of his address "The Lost Book" and he spoke of the finding of the Book of the Law written by Moses in the ruins of the Temple. The incident he described as symbolic of the neglect of the Bible in homes and churches today and he made a strong plea for its reinstatement. In the evening Mr. Ferguson's subject was "The Boy in the Cloud." He emphasized the responsibility of parents to give their children Christian training and not rely upon the Sunday school alone. The Sunday school was a great institution, he said, but could not take the place of the home.

#### COMMISSIONED OUTDOORS.

A new departure was made yesterday when Major Burrows, divisional commander of the Salvation Army, commissioned the bandmen of No. 3 corps at an open air meeting in Rockwood Park. In other years the annual service of commissioning the bandmen has been carried out in the various citadels. A large congregation was present at the open air meeting. Major and Mrs. Burrows, assisted by Lieut. Coley, had charge of all the services for No. 3 corps yesterday, and they were exceptionally well attended. The band of No. 1 corps conducted its usual service in King Square and attracted a large number.

MITCHELL LETTER IS MADE PUBLIC

Member for St. Antoine, Montreal, Gives Reasons For Leaving House.

Montreal, May 18.—Interviewed here today on the subject of his letter of resignation to Premier King last week, Walter Mitchell, Liberal M. P. for the St. Antoine Division of Montreal, consented to have his letter made public and pointed out that the Premier had manifestly been misled by the use of the word "private" in the despatch from New York covering the first interview with Mr. Mitchell after his resignation.

Mother Nurse Baby

Need never wear a hat if she takes Lactagol, the normal stimulating the breast glands, ensures plentiful supply of nourishing milk and so enables every mother to nurse her baby at the breast without fatigue or strain.

Lactagol may with great advantage be taken some months prior to the birth. It strengthens Mother, enables her better to withstand the strain of confinement, and also improves the milk and some formation of Baby.

Social Notes Of Interest

Mrs. C. Bruce Pitblado, Jr., of Montreal, arrived in the city on Saturday and will be the guest of her mother, Mrs. Robert Wisely for several weeks. She will attend the wedding of her brother, Mr. William Burton Wisely, of Minto, to Miss Ruby Welton, of Newcastle Bridge, on June 11.

William C. Brown, of this city, the wedding to place in June.

Mrs. Frederick E. Kee, of Crown street, spent last week in Fredericton. She attended the graduation exercises at U. N. B. Her daughter, Miss Lela Kee, a student at the university, returned with her mother on Saturday.

Mrs. T. H. Sommerville was one of those returning to the city on Saturday from Fredericton, bringing with her her daughter, Miss Annie Bernice Sommerville, who has finished successfully her freshman year at the University of New Brunswick.

Mrs. Charles Stinson, 3 First street, was a hostess Friday afternoon for her son, Charles Edward, who celebrated his fifth birthday with suitable festivities. The guest of honor received many gifts, and among them was a present of money. Mrs. J. Cheeseman and Mrs. Oliver Stinson, the little boy's grandmother, assisted the hostess in serving. The guests were Audrey Moore, Isabel Brown, Julia P. Powers, Betty Powers, Violet Millidge, John Moore, Frank Dymanski, James Donagan, Charles Junior Lynch and Billy Carr.

Mr. and Mrs. R. Kettle Jones, Jr., arrived home yesterday on the C. P. R. from Montreal, after a pleasant honeymoon trip to New York, Atlantic City and Montreal, where they visited Mrs. Jones' aunt, Mrs. Bright Cudlip and Mr. Cudlip.

BLIND LOVE

Sightless Girl Heard the Playing of Blind Musician and That Was the Beginning Of Life-Time Romance

(By Alexander Herman.) New York, May 19.—Love is blind, so blindness is love. And Frances and Charles Lyons, newswriters, can prove it. For while there may be a flaw in the logic of this, there is none in their happiness. The Lyons have been married for 14 years. All that time they have lived together, worked together—yet neither has ever seen the other. For both are blind. Yet their love is steeped in a romance of moonlight, soft lights and color. It began when Frances heard Charles play "Moonlight May Darling" at a dance. "And it will never end," they chorus, "until we both pass away." "For love among the blind is greater than among their more fortunate friends. The sightless cannot have the same intensity of feeling that the sightless must have." Blind since childhood, each had been trained at the Institute for the Blind. But they didn't meet until the night of the dance many years later. "Charles," his wife confided, "was playing the piano. I was dancing. Then he struck the refrain from a popular hit of the day. I stopped dancing. There was something in the playing that just got me. "Later we met. Though we were blind, it was a case of love at first sight." Lyons' regular job was playing the piano in a movie house. "Someone would read the captions to me, as the film was being shown first," she said, "and then I would time my music accordingly. They say I never missed fire, for I just learned to sense when to make the music soft, when to make it loud." He was smiling approvingly. "And I would go to the picture show—just to hear him play," she chimed in. "After a courtship of several years, they were married. "And then," Mrs. Lyons went on,

Mr. and Mrs. Charles Lyons at their newsstand. Inset shows their wedding picture.

"I decided to help Charles. It wasn't fair to make him do all the supporting." So she hit on the idea of opening a newsstand. "We could be together all the time," she said simply. And together they have been ever since. Each day at ten they walk down to the car line, and board a Thirty-fourth street car. "It's a green car," they say, "but we know it by the sound of its gong." Then they open their stand, a block from the Pennsylvania Railroad Station, and tend it all day.

"Most people are nice to us," Mrs. Lyons says. "Although occasionally, some try to put one over. I got a lead quarter yesterday." The string beans are valuable for their mineral salts and bulk. And as for repeating flavors, which is never done in the best menus, navy bean soup and canned string beans haven't a taste in common. This menu is a follow-up of the preceding menu planner for the person independent of the city markets. Any of the tender edible weeds can be substituted for the shredded cabbage. Some sort of uncooked green, like lettuce and cabbage, should be used every day. Some vitamins are lost by drying and canning, so try to include something fresh in your diet.

In New York

New York.—There is a touch of the old world in the open market on Ninth avenues each Saturday night. All the delicacies for Sunday dinner are on sale from wagons and pushcarts, lighted with the old-fashioned oil torches. Foreigners make up the bulk of the purchasers. Sunday is their gala day—and Saturday night they buy viands for the feast to follow on the morrow. Women, with gaily colored shawl pinned beneath their chins, go from wagon to wagon, striking up bargains, choosing the best of foods for Sunday dinner. The development of the telephone has not reached these people yet. They do not phone an order to the grocer and have it delivered a short time later by a uniformed chauffeur. They go to market, with their baskets hanging from their arms. Hawkers, dark-eyed and shrugging, bark the superiority of their wares and barter vigorously for the surging trade. Most everything necessary for the table may be purchased from them, and the customers and peddlers sink away

into the night. All that is left is the debris. With automobiles and buses giving electric lines the most potent competition, the zenith of conceit is this sign on a street car barn, "Automobiles stored here." A very wealthy man passing through one of the largest department stores in New York took a fancy to a coy little sales girl. Digressively he approached her and suggested a dinner and theatre party for that very night. She blushed and demurely confessed that she did not possess gowns and other ornaments appropriate for such a fairy-like event. With the usual big-heartedness of his ilk, he told her to purchase the necessary garments, charge them to him and be at a certain place at an appointed time that evening. She purchased the clothes, duly charged them to him—but completely forgot the location of their proposed trysting place. Still the novelists shout—"It's the woman who pays." —STEPHEN HANNAGAN.

Summer Evening Gowns

(By Hedda Hoyt, Fashion Editor of the United Press.) New York, N. Y., May 19.—At present every woman is turning her thoughts toward the Summer evening gown. There are three silhouettes which will be popular this season for evening wear. Firstly, there is the slender, tubular frock which is even used in sheer chiffons as well as in heavier materials. These slender chiffon frocks are usually made over slips of chiffon of a contrasting or deeper shade and they are often bordered about the hem with wide bands of marabou, ostrich, or with flowers. The bodice of these

frocks is usually untrimmed, with simple rounding neckline and sleeveless. Frocks of crepe de chene beaded in self colored beads also use the straight, tubular silhouette this season. The second silhouette is the billowy one with the skirt trimmed with row after row of flounces or layer after layer of tulle. Soft, pastel shades are invariably used for such frocks, and yellow, rose, amethyst and pink are favorite colors. These gowns are particularly attractive for dancing and their people, youthful lines make them becoming to almost everyone. In the case where narrow lace ruffles form the skirt, one might use rows of lace of different colors. One very lovely model which uses tan georgette cut row upon row of yellow, green and brown lace placed upon the skirt. Another white frock adorns its skirt with alternating layers of narrow black and white silk lace and the effect is very lovely. Soft Clinging Gown

Little Bits That Tell of Fashions

By HEDDA HOYT. (Fashion Editor of the United Press.) New York, N. Y., May 17.—They are wearing: Bands of contrasting colors about the skirt bottoms. Both cloth and silk frocks and suits are trimmed in Roman-striped border effects. A white sports frock uses bands of red, black and yellow about the hem. No other trimming is used on the frock. While almost everybody is wearing the printed scarf, the latter dressed women prefer the scarf for morning wear only, as the fur neckpiece seems more appropriate for afternoon and dressy wear. Black and white scarf effects are chosen by many well dressed women in preference to scarfs of riotous colors. Long black coats trimmed in white fur are seen in numbers. Hats carrying out the black and white idea are worn with them. Spanish shawls are appearing at the dinner dances and doubtless these will become very popular as the season progresses. Simple straight-lined coats of black or brown satin are among the smartest wraps worn on the Avenue. Many of these are not fur trimmed, as they follow mannish lines, being worn with colorful scarfs. Yellow will probably be the most popular color of the season, as all Fifth Avenue windows are displaying this color in every shade from pale buttercup to brilliant orange. Large envelope-shaped handbags suspended on long strap handles are carried over the shoulder, the bag being worn on the hip. These come in red and black leather and in moire silk. Yellow sports suits cut on mannish lines are being worn by some of the younger misses. The tendency towards colorful suits asserts itself this season in variance with the mode for dark tailored garments. So far, one sees little of the flowered street hat. Pelts and straws are worn by almost everyone and these are small and very simply trimmed. Cloche shapes predominate. Yellow toned gloves of unglazed kid or of chamois are being worn where one's hosiery takes on the new yellowish tone. Sheer, chiffon stockings of light colors remain the vogue in New York, dark brown and black hosiery being placed in the discard. Colorful blouses are invariably worn with the suit unless the boyish vest effect is used.

## Scrawled Message In Bottle Tells Fate of Fifty-Two Airmen

### DIXMUDE WAS ADRIFT IN TEMPEST

Letter From French Airship is Found on the Coast of Corsica.

IT IS FAREWELL

"Adieu and Vive la France," Closing Words—Gasoline Gave Out.

A Jaccio, Corsica, May 19.—"Gasoline given out. We are adrift. Wind like a tempest. Dixmude's crew. Adieu and Vive la France."

The scrawled message found in a bottle washed up on the Corsican coast at Propriano is believed to be the last message from the ill-fated airship Dixmude lost in the Mediterranean last December.

The French super airship Dixmude at the time of her destruction was attempting a distance and endurance record. She disappeared in a series of storms with fifty-two men aboard. Extensive search for her was made by French warships and airplanes.

The findings on December 28 of the body of the commander of the Dixmude, Lt. Du Plessis de Grenadon, off the coast of Southern Sicily, led the ministry to declare formally that the Dixmude had met with disaster. Later charred parts of the airship were picked up and a board of inquiry reported that the Dixmude had been struck by lightning.

Another report.

London, May 19.—A French balloon with two occupants, which ascended at Paris on Saturday evening had a bad experience in unfavorable winds.

It drifted over the English Channel throughout the night, was caught in a windstorm on Sunday afternoon over the Isle of Wight and got out of control, flying very low over the Hampshire coast.

One of the balloonists, M. Botard, jumped or fell into the sea over Milford. He dived himself of his clothes in the water and swam ashore, a distance of about half a mile. He was much exhausted and was taken to a hospital.

The balloon reascended and drifted another 25 miles inland, landing at Broughton, Hampshire. The other occupant was not injured.

### CONTRIBUTE MORE THAN HALF OF TOTAL VALUE OF YEAR'S PRODUCTION

Revenue of Fisheries, Fresh and Canned, in Province Decreases Three Per Cent in 1923.

Ottawa, May 18.—The following preliminary statement of the Fisheries of New Brunswick was yesterday issued by the Dominion Bureau of Statistics in co-operation with the Department of Marine and Fisheries.

The value of the fisheries production of New Brunswick in 1923, comprising fish marketed for consumption, fresh and canned, cured or otherwise prepared, amounted to \$4,547,498, a decrease from the previous year of \$138,162, or three per cent.

The lobster and sardine fisheries together contributed over half of the total value of production in 1923, the value of the lobsters canned and marketed in shell amounting to \$1,339,155 and the value of the sardines canned and marketed fresh and salted to \$1,016,655.

Compared with the previous year, lobsters show an increase of six per cent, both in catch and in marketed value; sardines show a decrease in catch of 45 per cent, and an increase in marketed value of 44 per cent.

Of the other chief commercial fishes, the quantities caught and landed in 1923 were as follows: cod, 286,751 cwt., a decrease of eight per cent; herring, 251,100 cwt., a decrease of 31 per cent; mackerel, 13,455 cwt., a decrease of 43 per cent; smelts, 43,210 cwt., a decrease of 31 per cent; Salmon, 20,327 cwt., an increase of 21 per cent; and clams, 22,645, an increase of six per cent.

### CAPITAL EQUIPMENT AND EMPLOYES.

Primary operations.—The amount of capital represented in the vessels, boats, nets, traps, piers and wharves, etc., employed in the primary operations of catching and landing the fish in 1923 was \$3,400,169, compared with \$3,316,479 in 1922.

The number of men employed was 9,228, compared with 9,394 in 1922.

Fish Canning and Curing Establishments.—The number of establishments in operation in 1923 was 228, comprising 167 lobster canneries, five clam canneries, one sardine cannery and 55 fish curing establishments. Compared with the previous year, the number of lobster canneries decreased by six, and of fish curing establishments by three, a total decrease of nine in the number of establishments.

The capital investment of the establishments in 1923 represented a total value of \$1,290,216, a decrease from the preceding year of \$7,313. The number of persons employed in the establishments was 2,325, compared with 2,736 in 1922.

Total value of fisheries production of New Brunswick, by counties, 1922 and 1923:

### PROBE SHOOTING IN NOVA SCOTIA

Halifax, May 18.—Dr. McMillan, coroner of Sheet Harbor, has gone to Sober Island, a small island off the coast of Halifax county to hold an inquest into the fatal shooting of

### TO AUSTRALIA IN AN OPEN BOAT

Young English Engineer and Wife are Planning Adventurous Voyage.

London, May 19.—From Mounts Bay, Cornwall, to Australia in an open boat, with his wife as sole companion—a voyage of 16,000 miles — is a trip about to be undertaken by W. Thomas, a young engineer of St. Just, Cornwall.

Mr. Thomas says that he bought the boat some years ago at the Scilly Isles. She is built of steel, is 25 feet long, 8 feet beam and 4 1/2 tons displacement, and draws about 3 feet of water.

She was formerly a ship's lifeboat, and belonged to a French bark which was torpedoed about 40 miles off the Scilly Isles during the war, when 24 of her crew drifted in her for two days before being rescued.

"When I purchased her she was simply an open lifeboat," he said, "but by working at her a little at a time I have now made her into a half-decked cabin cruiser. Everything in her, with the exception of the engine, which is a 17-horsepower Darracq, I have made myself."

Although not a sailor, Thomas was born with the sound of the Atlantic breakers in his ears, and the sea has an irresistible call for him. Sailing has been his hobby, and he and his wife, who he already made several long trips in the Honoluli, as he has named his boat.

On one occasion they remained at sea for five weeks, and it was this, perhaps, which put into his mind the idea of the voyage to Australia.

Mr. Thomas proposes to follow a novel course. From Penzance he will cross the straits to Tunis, Alexandria, and the Suez. Arriving at Aden he will coast along Arabia to Karachi.

His idea is to hug the coast as far as possible, and stop at all convenient places. His longest run from land to land he estimates at 800 miles.

During the voyage Mrs. Thomas will steer by day and he by night.

### CHATHAM BOY SAVED BY PALS

Louis Smith Has Narrow Escape From Drowning—Str. Alexander Leaves.

Chatham, May 19.—Louis Smith, son of Norman Smith, had a narrow escape from drowning when he fell overboard from the boat in charge of the Ferry wharf while playing Saturday. Quick action by Lester Daigle and Edgar Hachey saved him. The lad was taken to a hospital. He suffered no ill effects.

The steamship Alexander, sold to parties in Ontario, sailed Saturday for her new port. The boat, in charge of Capt. Angus McEachern, and Jos. Jimmo, Miramichi pilot. She is carrying a crew of five. The Alexander was on the Miramichi River for 22 years and was originally owned by the Miramichi Steam Navigation Company. It was transferred to the Miramichi River service and operation of the latter company in 1912.

Elmer A. Belding, formerly of St. John, who went to Florida last October as treasurer of the Deep Lake Development Co., in Collier County and was later made treasurer of the Florida Railroad and Navigation Company, has again been promoted and will at the end of June enter the financial department of the New York offices of Barron G. Collier. Mr. Collier has very extensive interests in Florida. Collier County is named after him, and there is a Barron River.

At a place called Everglades, on this river, a great development is in progress. Associated with Mr. Collier in it are Cornelius Vanderbilt, Jr., and Coleman Du Pont. Their interests involve development of a virgin territory transportation, and the making of a great Florida resort of the future. Mr. Collier controls most of the street car advertising in the United States and Mexico and has offices in a large number of cities. He is the proprietor of Ridgeway tea, owns Luna Park at Coney Island, is a director in many industrial and financial enterprises, and is also deputy police commissioner of St. John's.

### LONG LIVED COUPLE

London May 19.—John Taylor of Farnborough, Kent, has just celebrated his 100th birthday. His wife will be 100 next November.

### SWEDISH AIRMEN SET UP RECORD

Show Remarkably Small Margin of Danger in Their Occupation.

Stockholm, May 19.—Swedish airmen, anxious to prove to the public that there is a remarkably small margin of danger in their occupation, have just figured out that the airmen of Sweden have actually flown a distance equal to encircling the globe 1 1/2 times for every fatality.

This record safety surpasses that of the United States, according to Col. E. C. Erikson of the Swedish Army, who says deaths in airplane accidents in that country are more than three as frequent for the same unit flown. Stated in terms of time, the Swedes fly 8,800 hours without a fatal accident, as against the Americans 1,170 hours.

Commercial flying in Sweden has been given a new impetus by the decision of the Postal Department to support and utilize the new air service between Malmo and Hamburg. The flying time to London will now be only six hours.

### RAILWAY LINES TO BE ELECTRIFIED

Japan Substituting Electricity for Steam on Its Railways.

Tokyo, May 19.—(A. P. by mail).—The ambitious plans of the Imperial Government Railways of Japan for the substitution of electricity for steam power on all the Government railways of the country will begin to be put into effect this year. Appointment of an electrical bureau within the railway department marks an actual beginning of the programme.

The railways department will begin electrifying the Tokaido Outer from Tokyo as far as Kozu, 50 miles to the southwest, and also the branch line to Yokosuka, the naval base on Tokyo Bay. American equipment will be largely used in the electrification scheme.

### WEATHER MAN USES STANDARD TIME

"The best of all possible ways to lengthen your days is to take a piece of the night," is an adage more or less familiar and for the inauguration of daylight saving it was an axiom that everyone was obliged to follow in St. John Saturday night, when daylight saving time was coming in.

D. L. Hutchinson, of the Meteorological Observatory, yesterday recalled the order had been issued at Ottawa in 1918 requiring all the time balls of the meteorological department to be set by daylight saving time. The order had been in force for very short while when the admiralty interfered and the time balls were placed back on their regular schedule, to which they have adhered ever since. The time balls at Halifax and St. John have not adopted daylight time nor has the Meteorological Bureau. Mr. Hutchinson is of the opinion that daylight saving time would not be considered legal in court proceedings.

### COWBOYS GO TO EMPIRE'S EXPO.

Winnipeg, May 18.—Swinging aboard the transpacific Canadian Pacific train amid whoops and yells, fourteen of Western Canada's finest cowboys left Winnipeg station this morning bound for the British Empire Exhibition at Wembley, London, to represent the cow-punchers from all parts of the world.

A constable who found the body in the river said Miss Smith was wearing a man's hat and boots. She was wearing odd stockings. Only 15 cents were found in the pocket, and under her skirt was a bag pinned to her clothing and containing pins that she had no doubt picked up.

### BRITAIN AND STATES CAN HEAL EUROPE

Philadelphia, Pa., May 19.—(United Press)—Great Britain and the United States can heal the life of Europe by the use of common sense, humor and fair play, Sir Esme Howard, British Ambassador to the United States, declared here last night before the English Speaking Union and the Transatlantic Society of America. The diplomat warned, however, against the acquisition of a feeling of superiority on the part of the English-speaking races.

### MILL WORK CURTAILED

St. Stephen, May 18.—Employee of the cotton mill at Milltown have notified that, commencing this week, the mill will operate only Mondays, Tuesdays and Wednesdays for an indefinite period. The action came after a long struggle by the management to maintain constant operation, but existing conditions in the cotton trade made this impossible.

### LECTURES IN CHURCH

McAdam, May 18.—Mrs. Ayscough, of St. Andrews, lectured in the Union church, Wednesday evening on "Childhood Civilization," the lecture being illustrated with slides of Chinese landscapes, customs, architecture and art. Mrs. Ayscough resided for years in Shanghai.

### A. R. MCMASTER HAS A CHANGE OF HEART

Away From Liberal Rank for Year, Brome Member to Return.

Ottawa, May 18.—Announcement by A. R. McMaster, Liberal member for Brome, Que., that he intends to return early next month to the Liberal fold, has caused considerable stir in political circles here. It will be recalled that last year, because of the failure of the government to make any substantial reduction in the customs tariff, Mr. McMaster left the Liberal benches and took a seat opposite and beyond that of the two Labor members, William Irvine and J. S. Woodworth, and declared himself an Independent.

His reason for recrossing the floor, as contained in a statement issued this evening, is that he is heartily in accord with this year's fiscal proposals, which show a substantial downward tendency in revision and also points out that the action of Sir Lomer Gouin in "breaking his pain" and thus adding a vote in opposition to the budget, together with the expressions of feeling from manufacturers, indicate that a clearly defined tariff issue has been established and he proposes to go with those who favor greater fiscal freedom. In Favor of Budget.

It is known that Mr. McMaster immediately after the presentation of this year's budget, expressed himself as strongly in support of it and that he would probably be compelled out of consistency to rejoin the Government ranks. He did not deem the time to be opportune, however, until the tariff resolutions themselves were submitted to the House, and that time is likely to be Tuesday or Wednesday of this week.

Again, Mr. McMaster does not feel free to take this action until he has had an opportunity of consulting with George W. Kyle, the chief Liberal whip, who has been out of town during the week-end. A letter has, however, been written to Mr. Kyle by Mr. McMaster announcing his intention. It is known that Mr. McMaster during this week-end conferred with two or three members of the cabinet, including Hon. Ernest Lapointe.

### HER HOME WAS ONE OF ODDS AND ENDS

Alice Smith, Hermit, Owned Seven Houses—Drowned in Thames.

London, May 19.—The owner of seven houses, and a woman of considerable savings, Miss Alice Smith, aged 68, lived alone like a hermit in her house in Wandsworth, a suburb of London. A passion for collecting cigarette ends, pins, old boots, and anything else she found in her rambles about the streets, was mentioned in the inquest. Miss Smith had been found drowned in the Thames after handing \$4,000 in war loan and her keys to her niece.

She lived in her own house and owned six others, but had no idea that she was wearing odd stockings in her home in three weeks' time.

In the house were 26 sacks of rubbish of every description. The place was so filled with litter that the door would not open properly.

A constable who found the body in the river said Miss Smith was wearing a man's hat and boots. She was wearing odd stockings. Only 15 cents were found in the pocket, and under her skirt was a bag pinned to her clothing and containing pins that she had no doubt picked up.

### CAR HITS TWO; DRIVES ON.

William Love, 261 Rotherham avenue, Mrs. Flood, an employee of the General Public Hospital, were injured last night when they were struck by an automobile which was speeding in the Loch Lomond road without lights showing. The accident happened near Kane's Corner, about 10.30. Both pedestrians were thrown to the side of the road, and automobiles which came along soon after they were struck conveyed them to the hospital. It was found that Mr. Love was cut about the face, but his injuries were not serious, and one of Mrs. Flood's hands was hurt.

The car which struck them did not stop, and the police are working on the case to see if they can locate the driver.

### YOUTH RIDES LAND OF MAN-EATER

Slays Tiger That Had Killed Fifty People in India.

London, May 19.—People of Lohabhat and Kumnon, in the northwest provinces of India, near Allahabad, have just been rid of a man-eating tiger which, in 18 months, carried off 50 victims, most of them women and children.

The main road has of late been the scene of so many of these tragedies that people used to only in companies of 40 or 50.

Bruce Abbott, a youth under 20, had just been killed, but the tiger left her body, and Mr. Abbott waited alone for many hours beside it, with rifle ready, knowing that the beast would return to its prey.

The tiger returned at dusk, and Mr. Abbott fired and wounded it, but it got away, leaving tracks of blood. To follow a wounded tiger on foot is a most dangerous proceeding, but the young fellow followed the trail for three days, never getting near enough for a shot.

On the third day he came up with the tiger, only to find it with another woman in its jaws. He fired, and the man-eater dropped its victim, who, however, died in a few hours.

Mr. Abbott maneuvered to get a good shot, and more than once had narrow escapes, but finally a bullet from his rifle pierced the brain of the brute, and it fell dead.

### SCORES SUCCESS IN LECTURE ON POET

Mrs. A. C. D. Wilson eclipsed her previous dramatic honors and achieved a splendid triumph in her lecture before the St. John North Sub-division of the Catholic Women's League on the life and works of Edgar Allan Poe. Mrs. Wilson narrated the life story of the poet graphically in an impressive manner, and recited several of his poems with exceptional dramatic ability. The whole programme was given without notes of any kind.

Among the selections which Mrs. Wilson gave were "The Raven," "Hypocrite Day," "Alone," "Annabelle Lee," "Ave Maria," "The Bells," and short selections from the Tannhauser poems. Miss Sarah Lynch, the president, was in the chair and the hearty vote of thanks extended to Mrs. Wilson was moved by Joseph Kennedy and seconded by Miss Genevieve Dever. During the evening Mrs. Edward Cronin sang "The Rosary," and William Grannan sang "Face to Face." Both vocal selections were very greatly enjoyed.

### HALIFAX MAN IS HURT IN AUTO

Somershet, Pa., May 18.—D. F. Hogan, Halifax, N. S., his wife and seven children were injured Saturday when their automobile went over an embankment near here. The family was on a trans-continental motor tour.

One child is in the hospital in a critical condition. (Continued on page 15.)

Health Restored by The Fruit Treatment

Fourteen years ago, Mr. James S. Delgaty of Gilbert Plains, Man., was a nervous wreck. His system was shattered by Nervous Prostration, and he was reduced in weight from 170 to 115 pounds.

He wrote on May 15th, 1917, "Every medicine I tried proved useless until a friend induced me to take 'Fruit-a-Lives.' I began to mend at once. After using this fruit medicine for three months, I was back to normal. I have never had such good health as I have enjoyed the past six years. We are never without a box of 'Fruit-a-Lives' in the house."

TRADE MAN FROM ANTIPODES HERE

D. H. Ross to Meet Shippers in Hope of Increasing Exports.

To gather general information on business conditions in Canada and just now about the Maritime Provinces in particular, to meet the exporters who are now doing business with Australia, and to tell them how they can get more business is the purpose of the visit of D. H. Ross, Canadian Trades Commissioner to Australia, who with Mrs. Ross arrived here Saturday afternoon.

Depends on Weather, He Says. Conditions in Australia, he said, depended solely on the season. If the season was right, then business and chances for business were good; if on the other hand climatic conditions were not favorable then business suffered a slump.

to different parts of the world. New Zealand did the greater part of the mutton exporting, although it had been successfully attempted in Australia. This latter country, Mr. Ross said, was more attentive to the raising of sheep for their wool, rather than for the meat, and this process had a lowering effect on the quality of the mutton.

Speaking of the harbor system in Australia, he said that the piers were all Government-owned. They rented a pier to a steamship line and included a shed and everything necessary for the handling of freight. If a ship of another line entered the port a berth was assigned it for which it paid rental while in port. The system was working successfully, he said.

At present electrical energy was being generated with success from brown coal in Australia, Mr. Ross said, adding that there was under construction, some 73 miles from Melbourne, a generating plant which would use brown coal to generate current that would supply the City of Melbourne with light and power. There was only one plant on the continent where electricity was generated by water.

DAIL MEMBER TO QUIT GOVERNMENT

John Milroy Says He Will Join the New Nationalist Party.

Belfast, May 18—"I purpose to leave the Government party and associate myself with the new Nationalist party formed in the Dail Eireann," declared John Milroy, member of the Dail, to his constituents at Cavan today.

Milroy took an active part in the treaty negotiations particularly with reference to the boundary question between Ulster and the Free State. "I stand," said Mr. Milroy in his address today, "where Arthur Griffith stood for the principles and policies he advocated."

"Accordingly I find it impossible to identify myself with what appears the attitude of the Government on national matters incompatible with that of Griffith. If bloodshed was averted during the recent trouble in the army not an iota of thanks was due to the executive council." On the boundary question Mr. Milroy said:

"We are not deluded by the language of Colonial Secretary Thomas when he speaks about Irishmen settling the matter themselves. If there is any difficulty to solve it is deliberate creation of the British Government and we hold it to the undertakings given under Article XII. of the Anglo-Irish treaty."

RETURNED SINGER HEARD.

The music at St. David's church last evening was exceptionally fine, with the assistance of Mrs. Louis Lelaucheur to augment its beauty of harmony and splendid quality of tonal expression. Bayard Currie presided at the organ and played with exceptional sweetness

of tone in the hymns and accompaniment of the solo of Mrs. Lelaucheur, "My Redeemer and My Lord," an Easter selection by Dudley Buck. Mrs. Lelaucheur's naturally beautiful contralto voice has been greatly enriched by the training of the last six months. She sang with clear enunciation, fine expression and depth of tone. To be dramatic in church music, without

seeming to be so, was what was quietly accomplished by Mrs. Lelaucheur in her fine rendition of the song. The choral benediction, the Nunc Dimittis, was sung with particularly good melody and sustained soft tones. The large congregation was much impressed with the music and with the sermon preached by Rev. Hugh Miller, the pastor.

Miss Mowat's Craft Exhibit  
at Empire Exhibition  
Subject of Booklet.

A very interesting article concerning the artistic work of Miss Helen G. Mowat, who is a cousin of Mrs. John McMillan, is contained in a booklet just issued by the C. P. R. This refers to some of Miss Mowat's work which is shown in the C. P. R. building at the British Empire Exhibition in London. The article is as follows:

STATION S-P-H-I-N-X CAN'T BROADCAST

One of the triumphs of the ancients meets a triumph of the moderns and the result is a picture of interesting contrasts. However, the sphinx appears unimpressed. The moderns seem to have a little the best of it for their square box with its metal horn can talk, whereas the sphinx has never revealed its secret. Could one of the sphinx-builders return, he doubtless would sign up the radio programme for the nearest oracle.

A novel and unique feature of Canadian artistic endeavor and industrial art, which will be found included in the Canadian Pacific Railway building at the British Empire Exhibition, will be the New Brunswick Cottage Craft exhibit installed by Miss Helen G. Mowat, who has been the instigator and promoter of this work. Whilst it does not represent any broad phase of present Canadian activity, it is of considerable interest as the only Canadian art industry originating in, and being entirely circumvented by the farm, combining in the most admirable manner modern industry, native tradition, and artistic expression.

**In the Financial World**

**REACTIONARY TONE MARKED OPENING**

**Selling Pressure Against Steel Shares Renewed in Wall Street.**

New York, May 19.—Renewal of selling pressure against the steel shares imparted a reactionary tone to opening prices in today's stock market. United States Steel dropped one point to 46 and most of the independents yielded fractionally. Willys Overland Pfd also yielded a point, while Baldwin, American Can, Marine Pfd and Comstock registered small reactions. The last named touching a new 1924 low at 8 7/8.

Montreal Market.  
Montreal, May 19.—Trading on the Montreal Stock Exchange this morning opened with a great burst of activity. The price tendency was steady to a shade stronger. British Empire Steel second and Brazilian were the most active issues. The former came out with a weak and gain of 1/4 to 1 1/4. Detroit Railway suffered a recession of one point to 43.

**Morning Stock Letter**

New York, May 19.—The immediate future of the market depends to a great extent upon the Senate vote on the bonus bill, which will probably come up today. The outcome is still in doubt, although some of the Washington dispatches this morning indicate that the administration is slightly more hopeful of the veto being sustained. No one can forestall the outcome now. However, in case the veto is sustained, the market should rally. In case it is not sustained there should be a reaction. In the latter event, however, we believe it will only be a reaction and that stocks will be a buy. The market has been holding well around recent lows, which have been reached several times in the last week. Evidently there is considerable support around points of resistance and with the short interest still too large for comfort, a considerable rally can come after a reaction. Some of the rally market leaders, the oil and a few specialties like Colorado Fuel and Philadelphia and Reading Coal can be bought on any dip.

LIVINGSTON & CO.

**Current Events**

New York, May 19.—C. P. R., 2nd week May, decrease \$33,000. From January 1 increase \$318,000.

Republic Steel suspends number four stack in Easton, and Shondash furnace number 2, reducing active blast furnaces to 17 out of 46 in N. W. Valley. 72 blast mills scheduled this week, against 58 last week.

Mexico City's address President Vasconcelos of Baldwin Locomotive Co. ordered contracts with Mexican National lines for 50 locomotives, one gas engine, totalling \$2,000,000.

New York gold exports last week were 1,245,886 pounds, of which \$76,224 went to United States.

**British Report**

**On N. B. Lumber**

Farnworth and Jardine's Wood Circular, under date of Liverpool, May 1, states:  
New Brunswick and Nova Scotia spruce and pine deals, etc.—Shipments by liners to the Mersey (including the Manchester Canal) came to 2,200 standard. Deliveries only slightly exceeded this quantity, with the result that stocks show no material change, amounting to 8,120 standards, practically on all-fours with the corresponding period of 1923. At shippers' level is inclined to grass. Shipments by the liners from Halifax and St. John met with fair reception, with values easier during the latter part of the month. Pine deals.—There was a small import demand for this material. Birch.—Logs: The import amounted to 20,000 cubic feet, mostly to Liverpool. The demand kept fairly good, and although stocks are increased they are quite moderate. Planks, etc.—The import was considerable, viz. 110,000 cubic feet. Deliveries of stocks are up to 142,000 cubic feet. Values were a shade easier.

**Reported Chicago Syndicate Negotiating for Aroostook Falls Hydro.**

The Aroostook Falls hydro development, one of the largest present power plants in New Brunswick, is involved in a million dollar transaction under

which it is expected that the North American Light & Power Company, which is composed of a Chicago syndicate, will take over control within the next thirty days, says the Fredericton Gleener.  
Shareholders in the Maine & New Brunswick Electrical Power Company, Limited, which is incorporated in this province, have been advised that an option for sixty days has been given the Chicago financiers and if the deal goes through there will be a \$200,000 incision splitting by the shareholders of that company and the Gould Electric Company, a Maine corporation, which distributes electric power from Aroostook Falls through northern Maine and New Brunswick.  
The Maine & New Brunswick Electrical Power Company, Limited, and the Gould Electric Company each have an authorized capitalization of \$400,000 and an option for sixty days on the two companies has been given to the Chicago syndicate, whose experts are now investigating. Par value of shares in the Maine & New Brunswick Electrical Power Company is \$100 and shareholders are being offered \$125 for their holdings. Hon. A. H. Gould of Presque Isle, Me., is the controlling shareholder of both companies and there is not as much stock held in New Brunswick in the Aroostook Falls enterprise as formerly; it has been paying the maximum legal dividend of 8 per cent. per annum.

FROM AN APRIL SONG  
(London Observer)  
I will go down by the shattered coping to hear the cuckoo call,  
My heart is choked with the city dust, my eyes are blind with the glare,  
I will go down to the woods to feel the dew in the April air.  
My soul has no room for the tumult and pulsing roar of the town,  
It is content with the damp earth, and the color of sky and dawn;  
The green of the moss and the rushes, the yellow of bank and leaf—  
I will go down to the April woods; and peace shall go down with me.  
Jumping from the frying pan into the fire isn't so bad if a man keeps on jumping.

**Tramps in Vault; Sleep in Coffins**

Gersdorf, Silesia, May 19.—Two vagabonds chose a gruesome rendezvous in a cemetery near this city. The sexton noticed tracks in the snow leading to a family vault. He found the vault door open and in the dim light could see two bewildered men lying in coffins from which the lids had been removed.  
The men were snoring and covered with blankets, so the sexton said. But after he had asked guards to help him arrest the men it was found they had gone. The skeletons in the coffins which were the remains of persons who had been dead more than thirty years, were broken into bits and the coffins were filled with leaves and grass.  
COME AWAY.  
Come, choose your road and away, my lad.  
Come, choose your road and away! We'll out of the town by the road's bright crown,  
As it dips to the sapphire day! All roads may meet at the world's end, But, hey for the heart of the May! Come, choose your road and away, dear lad.  
Come, choose your road and away.  
—Alfred Noyes.  
Almost any man could be happy with one dollar a day if none of his acquaintances earned more than fifty cents.  
If you want a man to believe you, tell him what he thinks.

**THE COMPANY:** Atlantic Coast Collieres, Limited, has been incorporated under the laws of the Province of Nova Scotia for the purpose of acquiring and developing coal areas in the Province of Nova Scotia and will immediately develop the areas located at Mabou, on the West coast of Cape Breton Island, Canada.

**PURPOSE OF ISSUE:** These bonds will be sold to provide funds towards the acquisition of the Mabou and other property, to pay for the development and construction work thereon, and to supply working capital.

**SECURITY:** These bonds will be secured by a direct first mortgage and charge on all of the Company's real and immovable property including land (freehold) mining leases, plant, buildings and mining and railway equipment of a permanent nature used in connection therewith and by a floating charge on all other assets at present owned or to be hereafter acquired by Atlantic Coast Collieres, Limited. The coal areas at Mabou as shown by our engineers' reports contain, in their opinion, approximately 150,000,000 tons of mineable coal.

**SINKING FUND:** The Deed of Trust securing this issue provides that beginning January, 1929, an Annual Sinking Fund of 15 cents per ton on all coal (other than slack) mined and sold by the Company during the preceding Calendar year shall be paid to the Trustee. This Sinking Fund may be used to purchase bonds of this issue in the open market, or if bonds are not available to call same at 105 and interest.

**ENGINEERS' REPORTS:** The coal areas and properties to be operated by Atlantic Coast Collieres, Limited, have, after careful and thorough investigation, been favorably reported on by A. J. Tonge, Consulting Mining Engineer, Bolton, England, and J. J. O'Neill, M.Sc., Ph.D., Professor of Geology, McGill University, Montreal, Canada.

**START RAFTING ON NASHWAAK**

There are About 30,000,000 Feet of Logs to Come Down.

Nashwaak Pulp & Paper Company Limited will start rafting operations at the mouth of the Nashwaak river today or tomorrow, the first logs of the upwards of twenty millions now held at the jam piers having been taken through the sorting booms on Saturday.

In all almost thirty million feet of logs are coming down the Nashwaak this year, one of the largest quantities in years.

Rafting might have been started by the Nashwaak Company on Saturday had it not been for the rise of water on that river the last two days. The St. John river at Fredericton remains about 17 feet above low water summer level.

Such a policy pays "four ways."

1. Death
2. Accident
3. Total Disability
4. Old Age.

Thus, with a \$10,000 policy under this "four way" North American Life plan your beneficiaries receive in the event of your death from natural causes—\$10,000.

If your death is accidental, your heirs receive—\$20,000.

In case you are totally disabled through sickness or accident, you enjoy a monthly income of \$100.

And at the same time your policy represents a saving for old age when lessened earning power will reduce your income.

SPORT NEWS GLEANED FROM WORLD'S CENTRES

CAPT. CORNELIUS SAYS P. E. I. BOY HAS MAKINGS OF WINNER FOR OLYMPIC HURDLES DISTANCE AT 400 METRES

Bill MacDonald, Maritime Broad Jump Champion, Greatly Impresses Olympic Coach, Who Will Make Arrangements to Transfer Island Athlete to Upper Canada for Training—Olympic Aspirants Go Through Paces on Saturday—'Len' MacDonald Arrives From Sydney.

A twenty-year old bank clerk from Charlottetown, P. E. I., stepped off the start at Montreal on Saturday and headed the way to the Rothersey College grounds where Maritime Olympic track aspirants are tuning up for their tests at Moncton on July 27.

'What's your specialty?' inquired the Captain in his direct fashion. 'I'm a broad jumper,' replied the leader. 'Show me,' says the Captain, 'The young fellow over to the pit and her warming up, the new arrival ran down the track and pulled off a great jump of 20 feet and over.'

'Did you ever try the hurdles,' asked the Head Coach. MacDonald replied he had finished third in the 120 yard hurdles event at Halifax in the Dominion meet last fall. 'Well, my boy, it is my opinion you'll be a better hurdler than a jumper and from now on, you'll be a hurdler. Not the average 100 metres, but the 400 metres,' declared Captain Cornelius.

This, in brief, is how Phil MacDonald had more than 100 feet of the experienced mentor of Hamilton's best known athletes. To The Times-Star, Captain Cornelius expressed the opinion that in MacDonald he has the potential winner of the 400 metres hurdles at the Olympics and so anxious to be thoroughly test his own judgment and give MacDonald the test that he left for Montreal yesterday afternoon with the firm intention of having the Charlottetown boy transferred to an Ontario training camp where the can coach him better. He has secured the consent of President A. W. Covey to this procedure and let it be known no surprise if word comes from MacDonald to report to Montreal soon. In the meantime, he will concentrate on the hurdles at Rothersey.

Well-Built Youth MacDonald is a well-built, strapping man of the Maritimes. He stands 6 feet 11 1/2 inches and is modelled proportionately. He is a son of Mr. and Mrs. L. MacDonald and since his graduation from High School he has been on the branch at Charlottetown of the Royal Bank of Canada.

'This is as big a surprise to me as to others,' he remarked when asked about the strong impression he has made on the Olympic coach. 'I'm naturally glad to hear about it and I certainly do my best to live up to Captain Cornelius' expectations. I have always liked the hurdles event but seemed to meet with more success in the hop, step and jump, the running broad jump.'

'Captain Cornelius made no attempt Saturday to conceal his satisfaction over uncovering a real find. 'This trip down here would be well worth it just to discover this boy as well as see some other promising material. It might be asked why I am counting on MacDonald for the 400 metres rather than the shorter one. It is because I believe he possesses the stamina for the heart-breaking grind over the 400 metres. Let me tell you there are few men in the world today who can run a fast 400 metre hurdles in addition to fast running. The athlete must combine jumping power of a high degree. MacDonald is a fine jumper. He can do 22 feet now. He could take on several feet with proper coaching and if he did he would be getting close to a world mark. I have watched him at the hurdles, however, and am greatly impressed with his ability.'

Runs 440 For First Time After the track meet between the Trojans and Rothersey was concluded, Captain Cornelius sent the Olympic boys through their paces. He took MacDonald first and told him to run a 440 yards. This was the first time in his athletic career MacDonald ever ran a 440. Without any previous experience and judgment in this distance,

FINLAND IS STRONG FOR OLYMPIC GAME

Looked Upon as Chief Opponent to the United States Team.

New York, May 18 (A.P.)—America, whose athletes have met and turned back rivals for her track and field supremacy since the Olympic games were revived in 1896, faces in Finland this year the most potent rival in the history of international competition.

In the judgment of many observers, the United States has not developed her athletic prowess to marked extent over the last few years, whereas Finland has come forward by leaps and bounds. The little Scandinavian nation, with but two score athletes carrying her colors, demonstrated her strength four years ago in the Olympics at Antwerp by capturing nine first places, as many as this country gathered, although losing on total points. This year at Paris the Finns have mustered an array of stars much stronger than their squad of 1920, with most of the veterans of that year still available, and confidently expect to give Uncle Sam's performers a keen battle.

Chief Rival. Finland, review of the records of previous Olympiads discloses, has displaced Sweden and Great Britain as America's chief rival in track and field sports, though this season there are also signs of a British come-back. From 1896 to 1898, the United States swept overwhelming victories in the international meets, but since then the margin of triumph has been narrowing rapidly. Great Britain formed the steepest opposition in 1908, Sweden jumped into second place in 1912, while Finland, just beginning to come into prominence in 1912, gave Uncle Sam's stars a strenuous fight four years ago at Antwerp.

America's unbroken records of track and field triumphs have been scored at Athens in 1896 and 1906, Paris in 1900 and St. Louis in 1904, in addition to those at London, Stockholm and Antwerp.

At Athens in 1896 American athletes won eight out of fourteen events contested, with Great Britain, Greece and Denmark dividing the remaining six. The triumph at Paris in 1900 was even more marked. Out of 22 events, the United States won 17 first places. At St. Louis in 1904, due largely to the inability of foreign nations to send strong representative teams, the Americans swept all opposition before them, winning 23 of 26 events contested, with Canada carrying off two and Greece one.

Some Records. The 1906 meet at Athens saw more nations competing and interest of high tide. The point score was as follows: United States 21, Sweden 11, Great Britain 9, Greece 4, Hungary 4, Australia 2, Canada 2, Germany 2, Belgium 1, Finland 1 and France 1.

The 1908 Olympiad in London embraced 109 competitions divided into two classes, summer sports and winter sports. Twenty-two nations represented by 2,666 athletes, took part. In the track and field games in this meet the United States emerged with 19 winners, Great Britain 13, Sweden 2, Canada 1 and South Africa 1.

At Stockholm in 1912 the United States won 14 first places and scored 80 points. Sweden was second with five first places and 30 points. Finland was close behind with six first places and 29 points. Great Britain was fourth with two first places and 15 points, with Canada fifth.

Competition at Antwerp was especially keen. The United States shared first place victories with Finland, each nation scoring nine first places, but America far outdistanced her rival in the matter of seconds and thirds and won by a wide margin.

TROJANS CONQUER ROTHERSEY COLLEGE IN FIRST DUAL TRACK MEET SATURDAY

Annex 47 Points While Best Collegians Can do is 33 Points.

Minus the services of 'Beef' Malcolm, Frank Campbell and Drew Mulcahy, Olympic candidates, the Trojan A. C. track and field team defeated Rothersey Collegiate by 47 points to 33 at the first meet of the season at Rothersey Saturday afternoon with Captain J. R. Cornelius, head coach of the Canadian Olympic team, acting as starter. A. Monteth was the individual performer for the day, scoring 15 points. He was closely followed by Gordon Wilson with 16.23 points.

The only thrill of the contest was hounded up in the mile event. On the second lap, Fanjoy, Trojans, opened up a wide gap for a lead and entered the final lap about 30 yards ahead of Armstrong, Rothersey, a Cape Breton youngster. With a loping stride reminiscent of Tom Longboat, the college boy started a drive to overtake the leader. Coming into the home stretch he still was 10 yards behind, but by a great effort managed to reach Fanjoy and pass him to the tape a scant yard amid the frantic cheering of the collegians.

The performance of Macaulay, son of Dr. J. P. Macaulay, Grand Manan in the hammer throw was outstanding. This youngster heaved the shot 112 feet 5/8 inches on his first try. The best Daltell, also of Grand Manan, could do was 107 feet 7 inches. Macaulay at present holds the inter-school record for this event and it is kept on improving at this contest should be threatening the Maritime man in a few years. Another Grand Manan boy, Joe Robinson, surprised the crowd by taking second place in the hurdles event, beating Monteth, an experienced performer. Gordon Wilson won this event handsly.

McMurray, Trojans, won the shot put with a heave of 35 feet 10 inches while Macaulay was close behind 35 feet 8 1/2 inches. Wilson broad jump with 19 feet. Monteth was second with 12 feet 2 inches.

The sprinting of young McCurdy for Rothersey was good. He came second in the 440, fighting a bitter duel with Allan MacGowan right up to the tape after MacGowan had led most of the way.

Another Jimmy Wilde 'I started boxing when I was eleven,' he says, 'and one day I want to be another Jimmy Wilde. I shall probably never weigh more than 126 lbs, when stripped. Unfortunately I must wait another three years before I can enter for the amateur boxing championships.'

The following is a summary of the events: 100 yards dash—(1) Monteth, (T); (2) McCurdy, (R). Time 10.4-5. 220 yards dash—(1) McCurdy, (R); (2) Richards, (R). Time 28.1-5. 440 yards dash—(1) Monteth, (T); McCurdy, (R). Time 57.8-5. One mile run—Armsstrong, (R); Fanjoy, (T). Time 5 mlas, 15.5 sec. Hammer throw—(1) MacAulay, (R); (2) Daltell, (R). Distance 112 feet, 5 1/2 inches. Shot put—(1) MacMurray, (T); (2) MacAulay, (R). Distance, 35 feet, 10 inches. High jump—Wilson, Fanjoy and Long all Trojans, tied at 4 feet, 11 inches. Pole vault—Monteth and Wilson, Trojans, tied at 8 ft. 6 in. Monteth gave an exhibition to 9 ft. 6 in. Broad Jump—Wilson, (T); Monteth, (T). Distance 19 feet. 120-yard hurdles—Wilson, (T); Robinson, (R). Time 23.1-2 seconds. Points—Trojans 47; Rothersey, 38.

Individual aggregate of points: Trojans. Monteth..... 17 MacAulay..... 16.2-3 Fanjoy..... 5-2-3 MacMurray..... 5 Long..... 2-2-3 Total..... 47 Rothersey. McMurdy..... 11 MacAulay..... 8 Armstrong..... 3 Daltell..... 3 Robinson..... 3 Total..... 38 First place, 5; second place, 3. The officials were: Starter, Captain J. R. Cornelius; referee, A. W. Covey; timer, W. R. Cornell.

WOULD LIKE TO BE LIKE WILDE

Thirteen Year Old Boy is Diminutive Terror of Ring.

London, May 17.—Master Jimmy Peters, aged thirteen, weight when stripped 78 pounds, is the pride of Battersea. He has just won his twenty-fourth boxing trophy. He looks barely nine years old, and with his fair hair and engaging blue eyes is a most deceptive young person. One would never imagine that he was the same child as the diminutive terror of the ring who fiercely plies up the points against inde pants heavier and inches taller.

Master Peters record includes: Runner-up in the 5th championship of the London Schools Boxing Association. Champion of Great Britain at 75 lbs. Another Jimmy Wilde 'I started boxing when I was eleven,' he says, 'and one day I want to be another Jimmy Wilde. I shall probably never weigh more than 126 lbs, when stripped. Unfortunately I must wait another three years before I can enter for the amateur boxing championships.'

### GIBBONS MAY BOX IN LONDON

#### English Boxing Fans Are Eager to See Him in Action.

By HENRY L. FARRELL.  
New York, May 18.—(United Press)

English boxing fans, according to Harry Laven, London newspaperman, are quite worked up with the hope of seeing one of the leading American heavyweights in action this summer.

Laven, in this country as the representative of Major Wilson, the promoter of the British ring, is pouring words into the ears of American managers that they are missing the opportunity of the year if they do not take their boys to England.

London is now acting as the host to thousands of visitors to the Empire Exhibition and the promoters of the big carnival are keen for American attractions. Features that Tex Austin and his famous troupe of bronk riders, bull-doggers and calf-ropers are to be imported in June, to show the British a real rodeo.

Jack Dempsey, of course, is first in demand, according to Laven. In addition to the novelty of seeing a world's heavyweight champion do his stuff on the screen, the British have a great personal interest in the champion, he said. Dempsey made a tremendous hit when he was in England two years ago and the admiration which was once bestowed on Carpentier was transferred to the champion.

Realizing the many reasons that Dempsey might have for not wanting to risk his title in England, the British promoters have abandoned any hope of being able to offer a purse of sufficient size to tempt Dempsey to take a chance on his \$5,000,000 title.

Major Wilson is prepared to make an offer to Tom Gibbons to meet Jack Bloomfield, generally recognized among his countrymen as the British champion. The major believes that a Gibbons-Bloomfield match would be almost as attractive a match as one in which Dempsey might appear, as there would be more of a contest factor in the match.

Because he went fifteen rounds with Dempsey without being knocked off his feet or seriously hurt, the British promoters feel that Gibbons is the best attraction in the world next to Dempsey. He figures also that as Bloomfield and Gibbons are the same weight, it would be a real contest.

Bloomfield is the national pugilist idol in England now and we are told that he has improved as a fighter tremendously since he was in this country four years ago trying to get matches in the middleweight class.

Major Wilson figures that they could draw more than 100,000 spectators in the Wembley stadium to see Gibbons and Bloomfield fight and that they would find plenty of customers for ringside seats at \$100 each. He suggested that Gibbons could make more money in that one fight in London than he could make in three bouts in this country.

It is probable that Gibbons, however, will not consider any offer to go to England until he has become convinced that he can't do any business in this country.

Eddie Kane, manager of Gibbons, with some business sagacity, recalls that there is an income tax in England and one in the United States and that when John Bull and Uncle Sam finished pulling out their end of the purse that there wouldn't be the mint left by any means.

Dempsey, of course, will figure the same way. The champion has had so many experiences with the tax collectors that he has come to the conclusion that if he fights more than once a year he will be fighting almost entirely for the government. Professional boxers have the reputation of having a great distaste for fighting in any way for the government.

American managers, with any kind of a title at stake, would hesitate about their business assets to the judgment of British judges or referees, who have some very strict ways of awarding points and who have not the same theory of American officials who believe that the champion is allowed to make the rules to suit his own purposes.

Dempsey, it is a cliché, never will risk his title to the judgment of a foreign referee, or even a strange American official. Dempsey would not last three rounds in the ring with a competent British referee, if he pulled off the stunts he did on Tom Gibbons at Shelby last summer. He would be out of the ring titleless if he gave a courageous referee an exhibition of rule violation that he gave in his fight against Firpo.

The champion's friends argue that he was out of his head when he fouled Firpo three or four times, but there is no exception granted in the rules for a fighter who is out of his head and a fighter who is in possession of all his mental faculties.

If Gibbons should win from Carpentier in a round or two, he might decide to take an offer from the British promoter, because he would be forced to retire if he decided that his only field was the United States. After beating Carpentier, Gibbons would have no "big shot" left but Dempsey, and it seems almost certain from what happened during the winter that Dempsey wants no more of Tom Gibbons.

**Aim of Life.**

On the side of human life the proper aim is not just to make a living, but to serve our fellowmen and thereby live. True education is one in the ideal service which in reality has as its basis truthfulness. All of this Sir Robert went on to say has it flower and consummation in religion, the Christian religion, which is differentiated from other religions by its very idea of service and truthfulness. In closing Sir Robert said that only by working truth into our will and thereby carrying it into our lives will we achieve our purpose.

**RECITAL ON SATURDAY.**

Music lovers were given a rare treat here Saturday evening when the Newcombe Hood recital was given in Pansett Hall. Mr. Newcombe's rich toned baritone voice, his fine physique and warmth of tone made the rendering of his part of the program irresistible. Miss Hood, violinist, with her fine technique and interpretation was equally delightful.

Following was the program:

Violin, Suite (from the water music) Handel  
Leoncavallo  
Rigaudon, Hornpipe, Passacaglia  
Songs (a) Scene Alzani, Aria Eritu che Macchi (from Un Ballo in Maschera) Verdi

**IN JAPAN APRIL 25.**  
Letters from Mrs. E. Atherton Smith on her world cruise were received in St. John on Saturday, and had been written on April 25, from Kobe, Japan. Mrs. Smith wrote that she and Mr. Smith were both well and enthusiastic over the world cruise. They had greatly enjoyed visiting China where the weather was much like the late spring in Canada, and quite a pleasant change from the heat of the tropics to which they had been subjected for the few weeks preceding.

**EXPECTS LIBERAL MEETING.**  
When asked last night about a meeting of the provincial Liberal executive, W. E. Scully, M. L. A., said that he expected that one would be held some time in the not distant future.

### NEWS NOTES GATHERED FROM WORLD OF STAGE AND SCREEN

#### SCREEN STARS TO GO TO MOSCOW

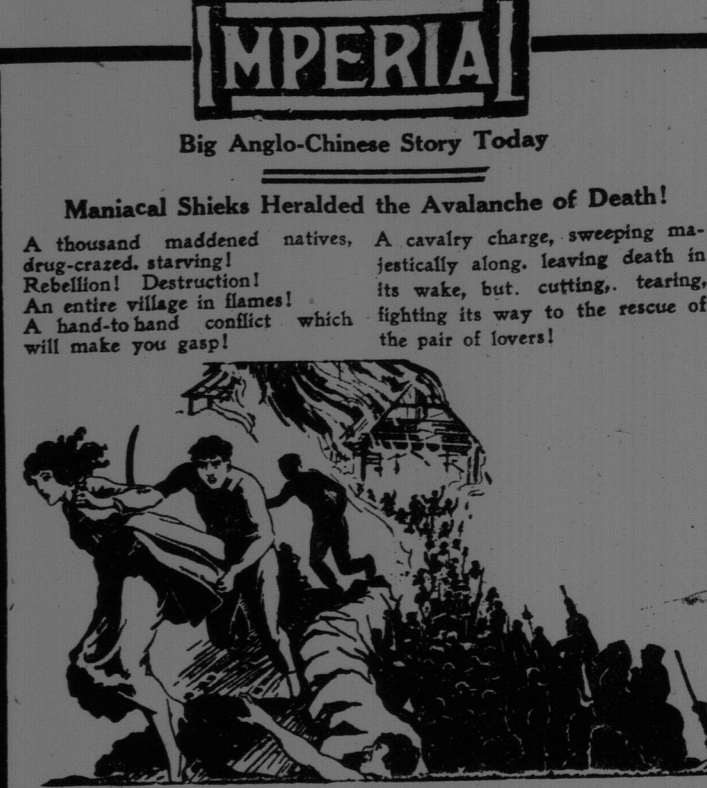

London, May 18.—Mary Pickford and Douglas Fairbanks, her husband, are going to Moscow in July, and Charlie Chaplin is going later to the Soviet capital, according to a despatch to the Daily Express from Moscow, attributing the information to M. Kossmann, one of the directors of the Soviet Government's cinema trust.

Kossmann will meet them at Stockholm a fortnight hence, he adds, and try to persuade them to take part in the great new Russian film drama now being prepared. He says he expects also to meet Charlie Chaplin and make a similar arrangement with him.

#### ROTHESAY BOYS PRESENT PLAY

The boys of the Rothestay Collegiate School gave a successful presentation of the three-act comedy "The New Boy" in the school gymnasium Saturday evening in aid of the chapel furnishings fund. Male and female roles alike were cleverly handled and the boys scored a notable triumph. The gymnasium was crowded and the audience was delighted. It is estimated that about \$100 was raised. The performance was directed and staged by G. F. Edforth, one of the masters. The cast of characters was as follows: Archibald Rennick, N. Skinner; Dr. Kandy, A. Rowley; Felix Rouch, R. MacLean; Theo. DeBriac, C. Donville; Major Bullock, G. Hamilton; Mr. Stubber, F. Gordon; Mrs. Rennick, R. Oliver; Nancy Roach, W. Y. Foster; Susan, the servant, G. Purdy. Between the acts very excellent instrumental music was provided by the school orchestra.

**PEAKS ON RESURRECTION.**  
At Centenary church yesterday Rev. R. G. Fulton, pastor, preached two powerful sermons, the one in the morning being on "The Retention of Joy" taken from the words "Let not your heart be troubled." In the evening his discourse was the fourth in the series of experiences from Easter to Pentecost, the subject being "The Power of the Resurrection," as depicted in the story of the disciples who returned with great joy after seeing the Saviour ascend into heaven. Robert E. Irving sang "Cast Thy Burden on the Lord," and the choir sang appropriate anthems.

## BODDY IS FOUND 55 FEET UNDER WATER

### Is Recovered by Joseph Tebo After Some Hours of Grappling.

The body of John Beckwith, the unfortunate young man who lost his life by drowning in Lily Lake last evening, was recovered shortly before noon today by Joseph Tebo, proprietor of the pavilion. It was in 55 feet of water. Through the long hours of the night Mr. Tebo, his son Thomas, and others kept grappling, but at 4 o'clock this morning the fog became so thick that they had to give up and wait until it was light. Eight boats went out this morning grappling and after some hours Mr. Tebo decided that the iron he was using were not effective so he went ashore and secured some coil hooks and made an iron himself. When he had it completed he returned to work and in a few minutes secured the body. Gerald Stanton was in the boat with him when he recovered the body. Word was sent to the city authorities and the patrol wagon went to the scene and conveyed the remains of the unfortunate young man to Brennan's Undertaking Parlor in West St. John. The body was accompanied by a brother and friends.

Mr. Tebo, speaking about the accident this afternoon, said it was the first there since he has been in charge of the lake. He said that Mr. Beckwith was familiar with the boat and frequently had it out sailing. He said that he himself was always around when the boats were out and he was rushing to the assistance of the young men when Mr. Beckwith tried to secure his hat, and sank. He explained that the reason he never allowed canoes on the lake was because he always feared they might be an accident.

## WILL ATTEND BIG CLEVELAND MEET

### Several from N. B. Will Go to Brotherhood of Engineers' Convention.

New Brunswick will have two representatives at the annual convention of the Brotherhood of Locomotive Engineers, which will meet early in June at Cleveland. They will be Edward Coyne of Brownville Junction, who represents the Woodstock No. 341, Fairville 479 and Brownville No. 460 and George W. Anderson of Moncton who represents Division 162, Moncton. The Ladies' Auxiliaries of the province will be represented by Miss Sinclair of Moncton.

Adoption of a financial programme for the ensuing three years is the major problem to be considered at the fourth triennial convention of the Brotherhood of Locomotive Engineers, which will convene in Cleveland on June 2 and continue for a period of from three to four weeks. With the brotherhood already interested in several financial ventures and controlling a capital of more than \$100,000,000, further financial activities are contemplated.

Retiring executives are expected to be re-elected. Present Warren S. Stone, whose term expires this year, has held the office continuously since April 11, 1903, and has in every case been elected by acclamation and by water years unopposed. Brotherhood officials expect the same course to be followed this year. Assistant Chiefs Al Johnson, Superior, Wis.; H. P. Danbury of Erie, Cleveland, and L. G. Griffing, New York, also are seeking re-election, as is C. E. Richards, Cleveland, secretary of insurance.

Approximately 420 delegates from every state in the United States and every province in Canada will attend. The delegates represent 903 divisions of the international order.

Other matters include the reviewing or enactment of legislation governing the brotherhood. Delegates are empowered to make such changes in existing laws as are necessary and establish new rules of expansion. Politics may not be discussed.

Pensions for members and widows are being given preliminary attention. It is pointed out that all widows of members are not entitled to pension, the fund being available only for widows of members of the widow's pension association. The association at present is a voluntary organization.

The Grand International Association of the brotherhood will convene on May 26 and remain in session for about ten days. Mrs. Mary E. Cassell, Lakewood, O., is president.

## DETERMINE ON MARKERS FOR HISTORIC SITES

The work of placing tablets on the sites of old Fort Charney and old Fort Le Tour will be undertaken immediately under the supervision of J. Byrne, civil engineer in the service of the Historic Sites and Monuments Commission of Ottawa. Police Magistrate Henderson said that Commissioner Frink, Engineer Byrne and himself had visited the sites selected last Saturday and that the work will now be undertaken immediately.

A boulder type marker will be placed in Tilly Square, Market Place, West St. John, and will carry the inscription that "Near here was Fort Charney, later Fort Frederic." The tablet for Fort La Tour, he said, would in all probability be placed near the corner of Portland and High streets, as the original site will, it is expected, be taken up with the establishment of the coke industry. An effort is being made to secure large enough boulders at Bay Shore.

### AUTOS COLLIDE.

Two automobiles, one driven by Arthur Robinson and the other by J. H. Moore, were in collision in Water street last Saturday night. The first mentioned had a fender badly damaged and the latter an axle bent.

## LOCAL NEWS

### BURIED TODAY.

The funeral of Mrs. E. J. Hilyard was held this afternoon from St. Luke's church. Service was conducted by Rev. P. McKinnon, who was assisted by Rev. C. P. Heaven. Interment was in Fernhill.

### DID NOT MEET.

The weekly meeting of the Methodist ministers was not held this morning owing to the absence from the city of several who are attending the closing exercises at Sackville.

### AUTO WAS AFIRE.

An automobile owned by William Donahue caught fire in front of his garage this morning and an alarm was rung in room Box 12. When the apparatus arrived the blaze was quickly extinguished by means of a hand chemical. The damage was not considered serious. The fire started as a result of back-firing.

### CITY WORK.

Good progress with the work of replacing the old main in De La Rue street, from Sydney to Pitt, with a new 8 inch main was reported this morning by Commissioner Wigmore. He said that the old main was badly corroded and in some places nearly filled with dirt and rust. About 100 feet of the new pipe will be laid today.

### CHAUDIERE IN PORT.

The R. M. S. P. liner Chaudiere arrived in port this morning at 6.30 o'clock after an uneventful run from British West Indies and Bermuda. There were 191 passengers on board. There were nine Chinese returning to their native land. The Chaudiere also brought 700 tons of raw sugar for the local refinery.

### GOES IN FOR REPAIRS.

The coastwise steamer Grand Manan will be taken off to the shops between this port and Grand Manan after her arrival here today and will be placed in the marine slipway at East St. John for annual overhauling and repairs. The Wednesday trip back to Grand Manan and other trips on the schedule until the Grand Manan is ready for service again will be made by the steamer Latour.

### MEET AGAIN.

After several weeks' consideration of proposals regarding bonus for the postal clerks of Canada, the members of the Federal Government and the audit committee, together with representatives of the Civil Service Commission and the Postal Clerks' Association met on Tuesday afternoon at Ottawa, according to advice received here from the capital. Definite word as to the outcome of what is expected to be the final conference is expected here late tomorrow afternoon.

### THIEVES AT WORK.

The clothing and furniture store of Jacobson Bros., 40 Dock street, was broken into some time between Saturday night and this morning and three suits of clothes stolen. The thief or thieves forced an entrance by means of a kick-saw, removing a section of the lock of the front door. The back entrance was then forced and it is thought that the goods were taken from the store. The matter is now in the hands of the local detective department.

### ENTERTAINED SOLDIERS.

The soldier patients at the D. S. C. R. Hospital, Lancaster, were greatly delighted yesterday afternoon with a vocal and instrumental programme by the Misses Jessie and Anna McKay and Miss Vera Campbell. The young ladies for more than an hour entertained the men who were unable to get out of doors. The soldiers expressed their appreciation of the treat. Miss Campbell is a pianist of note, well known in the theatrical world and is home recovering after a recent severe attack of illness.

### FISHERMEN DO WELL.

Local anglers are securing some fairly heavy catches. A party from the post office returned on Saturday after a week's fishing in East Long Lake. They caught about 125 fish. Included in the party were Charles Scott, W. J. Murphy, H. P. Roberts, George Chambers, E. Kierstead. Another party from military headquarters including Captain W. V. R. Winters, Captain H. A. Campbell and Captain Kennedy were in back of Hampton near Salt Springs Settlement. They report a fairly good catch. While there, they witness the freak of nature in the possession of the postmaster there, Mr. Campbell. This freak is a three-legged chicken—now four days old and growing. The third limb is the one mysteriously back of one of the regular legs.

### STUDENTS ARE HOME.

Several of the St. John students who have been at St. Francis Xavier University, returned home on Saturday to spend the summer vacation with relatives and friends. Among these were Arthur Chaisson, the boys reported, and "Tack" Dalton, William Murphy and Ray McMurray, of Fairville. Cyril Driscoll remained in Antigonish for a few days in connection with work on the "Nexus," the university year book, in connection with which "Billy" Maynes is also now back at college. Arthur Chaisson, the boys reported, had gone to Cape Breton where he had accepted a position for the summer. Miss Marion O'Leary, a student at Mount St. Bernard Ladies' College, Antigonish, also returned home on Saturday. Miss Mary Chaisson, Mrs. J. L. Driscoll and Miss Louise Driscoll, who attended the closing exercises at St. F. X., were passengers into the city on Saturday.

## IS GIVING UP MILITARY POST

### Captain Winters Retiring Because of Father's Illness in Bermuda.

Captain W. V. R. Winters is retiring as officer in charge of supplies and transport for Military District No. 7, to take effect May 31, it was announced at headquarters here this morning. Captain Winters is taking this step owing to the severe illness of his father, Col. W. R. Winters, O. B. E. of Bermuda; and in order to look after his father's business interests there. He expects to return to Bermuda soon but will return as soon as possible and take up residence in Hamilton for a short period.

Captain Winters came to the district in August, 1919, immediately after receiving his discharge from service during the war and since October, 1919, has filled the position for which he now is retiring. His many friends in St. John and points in the province will regret his departure. He served overseas with the Army Service Corps, as a section at G. H. Q., and in the Forestry Corps.

He was born in Bermuda, being a son of Col. W. R. Winters, whose conspicuous services during the war in Bermuda as chief censor won him the coveted O. B. E. honor.

"Very satisfactory" was the comment made this morning by Lt. Col. H. C. Sparling, D. S. O. regarding the showing made at inspection last Wednesday by the U. N. B. contingent of the C. O. T. C. "The corps carried out their annual musketry drill at the range and on the whole the scores made were very good" said Col. Sparling.

Col. Sparling announced this morning that organization detail in connection with the No. 1 General Hospital, which will be established at the Army hospital site in the district, is proceeding rapidly. He said that Lt. Col. S. S. Skinner would be officer commanding the hospital.

## SOME PHASES OF TIME QUESTION

The annual spring chaos, resulting from the change of clocks in St. John to daylight saving time, was in evidence today at the Union depot, where the traveler is faced with the problem of differentiating among three different and distinct hours by which to guide his traveling steps. The C. P. R. is operating on Eastern standard; the N. E. R. on Atlantic standard; one hour ahead of the C. P. R., and the city is under Daylight Saving, still another hour in advance.

Passengers arriving today on C. P. R. trains which reached the station at 11.05 and 11.35, came up town to find that it was after 1 o'clock. Fly the traveler passing through from points west of here to the places along the C. N. R. and having to stop over in the city. He arrives on Eastern standard, puts his watch ahead two hours to conform to local time, and has to turn it back an hour to figure out his time of departure.

The police at the station have hit on a new plan of conveying the information to those passing through. Instead of going through the lengthy explanation of the difference in the three times, they merely ask to see the traveler's watch. It matters not whether the time-piece is running on Eastern, Atlantic or Daylight Saving time.

"Your train leaves at 10-and-so/ o'clock by YORK watch," they are informed, and the visitor need not worry how many systems are in operation. All he has to do is obey the injunction of the railway policeman, who has taken on all the worry of figuring out the differences, and has translated the result to the traveler in the terms of his own chronometer.

## IS REMAIND ON THREE CHARGES

Dow Parks was the only one appearing before Magistrate Henderson in the police court this morning. He had three charges against him. One for drunkenness, another for hitting his wife over the head with a kettle and the third for biting his son on the arm and inflicting a serious wound. Magistrate Henderson said the charges were of a serious nature and he would be remanded to jail until the case could be thoroughly looked into.

## As Hiram Sees It

"Hiram," said the Times reporter to Mr. Hiram Hornbeam, "where were you on Saturday?"

"I was back to the lake—lookin' over the old boat an' fixin' up the shack," said Hiram.

"I was fingerin' you'd be comin' out bimby to git a trout or two—'an' some other fet when 'ud be the best time to cast a line."

"Hiram," said the reporter, "do you remember the first time I went out with you and two others to that lake?"

"I do so," said Hiram.

"I shall never forget it," said the reporter. "The doctor had sent me out of town to rest. I was on a diet. You jolted me over miles of road—made me walk more miles—fed me on strong black coffee and canned beans warmed up in an old frying pan—and that time you puttin' the griddle on again fer more pancakes. All you needed was fresh air an' lots o' joltin'—an' that's what lots o' folk's that's gruntin' around all the time are lookin' for."

"Is the fryin' pan there yet?" queried the reporter.

"It's there—'an' waitin'," said Hiram.

## Appreciation--

It is our pleasure to announce to our customers and friends that our Big Pre-Season Sale which closed on Saturday, was, to say the least, a huge success. Bargains were offered that caused people to assemble here en masse. Former prices were utterly disregarded—and the public responded and bought so generously that we are very glad to thank them all for their kind co-operation.

This week will see numerous odd lines and "left overs" from the past week, priced lower than ever before.
