THE MOUNT ALLISON WESLEYAN COLLEGE was organized in July, 1862, under a charter obtained from the Legislature of New Brunswick. By virtue of this charter it possesses full University powers. An Act was subsequently passed amending the charter and changing the name of the corporation to "The University of Mount Allison College."

The College is conducted on strictly non-sectarian principles. The general denominational control under which it is placed furnishes a sufficient guarantee that sceptical license will never be allowed within its walls, but does not imply the existence of a purpose or wish to interfere with the conscientious convictions of any. The fullest recognition, however, is given to the truths and claims of the Christian religion. The Bible is publicly honored as the Word of God, and no pains are spared that the education imparted may be suitably leavened with religious principle.

Students may enter the College either as regular Undergraduates having passed the Matriculation Examination; or as Specialists, who do not look forward to a University Degree.

There are Honor Courses in Classics, Mathematics, Science, Philosophy, and in English Language and Literature.

Special Students are admitted to any class or course of Lectures for which, in the judgment of the Faculty, after due examination, they are deemed prepared; and upon leaving the College, they will be entitled to receive Certificates bearing the College Seal, and specifying the particular branches of study in which they have received instruction and passed satisfactory examinations.

Ladies wishing to pursue an undergraduate course will find at Mount Allison facilities for thorough collegiate training under the most favorable conditions as regards health, and domestic and social advantages. Board may be had at the Ladies' College on reasonable terms. In addition to the regular undergraduate work, the best instruction in Music and the Fine Arts is available.

Mount Allison was the first chartered College in Canada to admit women to all the privileges of regular collegiate courses and degrees.

MATRICULATION.

The Matriculation Examinations are held on the second and third days of the First Term of the Collegiate Year.

Certificates of Matriculation from chartered Colleges are accepted in place of the examination. Students holding provincial licenses and non-professional certificates will be exempted from examination in any subject covered thereby.

DEPARTMENT I.—ENGLISH.

Candidates in English will be expected to be acquainted with the main principles of English Grammar as taught in the Provincial High Schools. To test their power of writing their language accurately, an essay must be written on some special work which they have studied. (For 1896, Scott's *Lady of the Lake*. For 1897, Longfellow's *Evangeline*; Tennyson's *Enoch Arden*.) Other questions will be asked about the text. *Special importance is attached to the general analysis of sentences.* In addition there will be an examination on the Outlines of English and Canadian History, and General Geography, as in the books severally prescribed by the Educational Departments of New Brunswick, Nova Scotia, and P. E. Island.

DEPARTMENT II.—CLASSICS.

Latin—Cæsar, Gallic War, Book I.; Virgil, *Æneid*, Book I.; Latin Grammar, *Harkness*. Easy sentences of English to be translated into Latin. Questions in History and Geography, arising out of the Books prescribed. For 1897, the required authors will be Cæsar, Gallic War, Book IV.; Virgil, *Æneid*, Book II.

Greek—Xenophon, *Anabasis*, Book III.; Greek Grammar, *Hadley's* or *Goodwin's*. For 1897, the required Greek author will be Xenophon, *Anabasis*, Book I.

[Instead of the Classical selections prescribed, satisfactory equivalents from the same or other authors will be accepted.]

DEPARTMENT III.— MATHEMATICS.

Arithmetic—Proportion, Interest, Extraction of Square Root, Vulgar and Decimal Fractions.

Algebra—Addition, Subtraction, Multiplication, and Division of Algebraical Quantities, Simple Equations of one, two, and three unknown quantities, Easy Quadratics.

Geometry—First, Second, Third and Fourth Books of Euclid, or the subjects thereof, and the solving of easy Geometrical exercises.

NOTE.—In 1897, in addition to the above, the following will be required by all candidates.

Science—Natural Philosophy, as treated in the Provincial High School text-books, and the Tables of the Metric System.

Chemistry of Water and the Atmosphere.

NOTE.—Skill in drawing, acquired before matriculation, will be found helpful in all the science studies of the College course.

Candidates for the degree of B. A. will be allowed to take Natural Philosophy, Chemistry, Drawing and French as an equivalent for Greek, viz.:

NATURAL PHILOSOPHY.

Elementary Mechanics, Hydrostatics, Hydraulics, Pneumatics, Acoustics, and Optics.

Chemistry—Preparation, occurrence and properties, of Oxygen, Hydrogen, Nitrogen, Carbon and Sulphur, and two compounds of each.

Drawing—The elements of Free-hand Drawing.

FRENCH.

Grammar—*Fasquelle*, first 50 lessons, or *Edgren*, Part First; the *Accidence*, *Fénélon's* *Telemaque*, Books I. and II., or an equivalent. Translations of simple and easy sentences from English into French.

SENIOR MATRICULATION.

Students may enter the Sophomore Class by passing the ordinary matriculation examinations, together with examinations on the subjects of the Freshman year, or their equivalents. In Physics a laboratory examination will be given in addition to the written one.

Outline of Course Required for B. A. Degree.

Freshman Year.

1. Latin.
2. Mathematics.
3. English.
4. Science (Physics).

Sophomore Year.

1. Latin.
2. Greek or French or German.
3. Mathematics.
4. Science (Botany and Chemistry).

Junior Year.

1. Greek or French or German.
2. English.
3. Logic and Psychology.

And one of the following optional subjects :

1. Political Science.
2. Natural Science (Chemistry and Physiology).
3. Mathematical Physics (Statics and Dynamics).
4. French (for those not taking Greek).
5. German " " "
6. Hebrew.

Senior Year.

1. Ethics and Evidences of Christianity.

And three of the following optional subjects :

1. International Law.
2. Mathematical Physics (Astronomy and Optics).
3. Mineralogy and Geology.
4. French.
5. German.
6. Hebrew.
7. Mathematics (Higher Algebra and Trigonometry).
8. Contracts.

NOTES.

The equivalent for the two years of Greek is either two years of French and one of German, or two years of German and one of French.

For students taking both Latin and Greek there are thus four full studies for four years; those substituting moderns have one additional study.

Students choosing French or German or Hebrew as one of their optional subjects must continue the same language the following year.

Students taking the full Honors Course in any department may omit one of the optional subjects from either the Junior or the Senior Year.

All students on the college roll shall, during their first year, write ten essays, during their second year eight, and during their third year six. These essays will be carefully revised and returned.

During the Freshman and Sophomore Years all students are required to attend fortnightly a class in elocution.

Every Senior is required to write, and deliver during his Senior Year, three orations at dates fixed at the beginning of the session.

Students in Science of the Freshman and Sophomore Years will be required to prepare permanent note-books of all lectures and experiments. Fifty per cent. of term standing will be determined by the accuracy and neatness of these books.

All Books of Reference may be found in the Library, which is open to students during lecture hours.

Graduates in Arts of this University who during their Undergraduate Course have attended classes in Constitutional History, International Law and Contracts, and have passed their examinations as required by the Law Faculty of Dalhousie College, can graduate in the Law School of said College in two years from time of entrance, provided they take during these two years all other required studies.

COURSES OF INSTRUCTION.

I. CLASSICS.

LATIN.

FIRST YEAR—*Cicero*. De Senectute.
Ovid. Fasti, Books I. and II.
 Prose Composition, *Fletcher* and *Henderson*.
 Roman History to death of Augustus.
 Ancient Geography and Antiquities.

(Five hours a week.)

SECOND YEAR—*Horace*. Odes, Books I. and III. *Ars Poetica*.
Tacitus. Histories, Book I.
 Prose Composition, *Harkness*, II.

(Four hours a week.)

GREEK.

FIRST YEAR.—*Xenophon*. Memorabilia, Book II.
Homer. Iliad, Books I. and VI.
 Prose Composition, *Nall*.

(Four hours a week.)

SECOND YEAR—*Eschylus*. Prometheus Vinctus.
Plato. Gorgias.
 Prose Composition, *Nall*.
 Greek History to death of Alexander.
 Grecian Antiquities.

(Five hours a week.)

NOTE.—Separate papers will be given in Greek and in Roman History at the end of each term.

2. MATHEMATICS.

GEOMETRY.

FIRST YEAR—Euclid, Books IV., VI., XI., and definitions of Book V., with numerous exercises and problems on the subjects of these books.

ALGEBRA.

Surds, Quadratic Equations, Indeterminate Equations, Involution and Evolution, Proportion, Progressions, Permutations and Combinations, Binomial Theorem.

Text Books—The Cambridge Algebra (*Ball*), *Hall* and *Stevens'* Geometry.

(Five hours a week.)

PLANE TRIGONOMETRY.

SECOND YEAR—As far as *DeMoivre's* Theorem; use of Logarithms, Solution of Triangles, Measurement of Heights and Distances.

SOLID GEOMETRY.

Prism, Pyramid, Cylinder, Cone, Sphere, and Regular Solids.

ANALYTICAL GEOMETRY.

Straight Line, Circle, Parabola, Ellipse, Hyperbola. Text Books—*Hall* and *Knight's* Plane Trigonometry, *Loney's* Conic Sections, *Heath's* Geometry in Space.

(Five hours a week.)

THIRD YEAR—Mathematical Physics.

Dynamics—*Loney's* Dynamics.

Statics—*Loney's* Statics.

Hydrostatics—*Besant's* Hydrostatics.

(Three hours a week.)

FOURTH YEAR—Mathematical Physics.

Geometrical Optics—*Heath*.

Astronomy—*Young's* General Astronomy.

Spherical Trigonometry—Solution of Right-angled and Oblique Triangles, Area and Circles of the

MATHEMATICS.—*Continued.*

Spherical Triangle. *McLelland and Preston's Spherical Trigonometry.*

Pure Mathematics.

Higher Algebra—Binomial, Exponential and Logarithmic Theorems, Series, Continued Fractions, Undetermined Coefficients and Partial Fractions, Probability. *Hall and Knight's Higher Algebra.*

Higher Plane Trigonometry—*DeMoivre's* Theorem and its Applications, Trigonometric Series and Factors. *Loney's Analytical Trigonometry* (Camb. Univ. Press).

(Three hours a week.)

3. SCIENCE.

PHYSICS.

FIRST YEAR—Lectures on Mass and Molecular Mechanics, Sound, Electric and Magnetic Forces, and Heat, Light and Actinic Rays as Electro-Magnetic Vibrations. Text Book, *Gage's Introduction to Physical Science.*

Books of Reference—*Deschanel's Physics, Tyndall's Sound, Heat as a Mode of Motion, Light, Schellen's Spectrum Analysis, and Cassell's Electricity in the Service of Man.*

(Four hours a week, with laboratory work and graphic representations of results by curves and diagrams.)

BOTANY AND BIOLOGY.

SECOND YEAR—Lectures on Morphology and Classification of Plants. Laboratory Work in Microscopic and Determinative Botany. Lecture Notes to be illustrated by drawings of specimens. Text Book, *Gray's Lessons and Manual.*

Lectures on the Properties of Living Matter and the Great Problems of Biology.

Books of Reference—*Bessey's Botany and Sach's*

SCIENCE.—Continued.

Text Book of Botany, *Sedgwick & Wilson's* Biology, and *Schäfer's* Histology.

(Four hours a week during first term.)

CHEMISTRY.

Lectures on Atomic Theory, the Occurrence, Properties and Natural Classification of the Chemical Elements, with special reference to typical elements and compounds. Text Book, *Shepard's* Inorganic Chemistry, with Organic Supplement. Laboratory work each week, with careful Note-taking.

Books of Reference—*Cooke's* New Chemistry, *Mendelljef's* Principles of Chemistry, *Ramsay's* System of Inorganic Chemistry, and *Remsen's* Inorganic Chemistry.

(Four hours a week during the second term.)

CHEMISTRY.

THIRD YEAR—Lectures on the Periodic Law, the Principles of Analysis, Structural and Organic Chemistry, Laboratory Work in Qualitative Analysis after research methods, and the presentation of one thesis.

Text Book—*Prescott and Johnson's* Qualitative Chemical Analysis (Fourth Ed.).

Books of Reference—*Remsen's* Inorganic Chemistry, *Fresenius's* Qualitative Analysis.

(Three hours a week.)

PHYSIOLOGY.

Lectures on Human and Comparative Physiology, illustrated with skeleton, manikin and projection microscope.

Text Book—*Martin's* Human Body.

Books of Reference—*Wesley Mills's* Comparative Physiology, and *Schäfer's* Histology.

(Three hours a week.)

SCIENCE.—Continued.

MINERALOGY.

FOURTH YEAR—Lecture on the Physical and Chemical Characteristics of Minerals, the Study of 108 Crystal Models, and Laboratory Work in Blowpipe Analysis. Research methods followed throughout.

Book of Reference—*Williams' Crystallography*.

(Four hours a week.)

GEOLOGY.

Lectures on Geological Forces and History, with determination of hand specimens of minerals and rocks. One thesis necessitating reference to Geological Reports will be required.

Text Book—*Geikie's Class Book of Geology*.

(Three hours a week.)

4. ENGLISH.

FRESHMAN YEAR—History of the English Language. The Sounds, Alphabet, Vocabulary and Inflections of our language will be discussed carefully from the historical standpoint.

The Principles of English Composition.

Numerous written exercises will be assigned, especially during the second term. The following works will be critically studied in relation to the principles of Composition and in their connection with English Literary History:

(Four hours a week.)

5. FRENCH.

FIRST YEAR—*Jules Verne*: *Le Tour du Monde en Quatre-Vingt Jours*.

Mrs. Molesworth: *French Life in Letters*.

Sand: *La Petite Fadette*.

Eckmann-Chatrián: *Waterloo*.

Grammar, *Fasquelle*.

(Four hours a week.)

SECOND YEAR—*McMillan's Progressive French Course, Part III*.

Edgren: *French Grammar*.

McMillan's French Composition, Part I.

Racine: *Athalie*.

Hugo: *Hernani*.

Corneille: *Le Cid*.

(Three hours a week.)

6. GERMAN.

FIRST YEAR—*Hauff*: *Das Kalte Herz*.

Wichert: *Post Festum*.

Benedix: *Jugderfolge*.

Herrmann: *Der Schlüsselbund*.

Grammar—*Joyne-Meissner* (Heath & Co.)

(Three hours a week.)

SECOND YEAR—*Benedix*: *Die Hochzeitreise*.

Goethe: *Wahrheit und Dichtung, I.—III*.

Buchheim: *Deutsche Lyrik*.

Hans Arnold: *Fritz auf Ferien*.

German Prose Composition (Harris).

Outlines of German Literature (lectures.)

Conversation.

(Three hours a week.)

7. LOGIC AND PHILOSOPHY.

LOGIC.

FIRST YEAR—*Jevons'* Elementary Lessons in Logic will be placed in Students' hands as the basis of class work. But a broader view of logical doctrine will be given by means of lectures and prescribed courses of reading.

PSYCHOLOGY.

The work in this class will be conducted mainly by lectures on Mind and its Phenomena, embracing an historical sketch and critical review of Psychological Theories. Text Book in Students' hands, *Baldwin's* Psychology.

(Three hours a week.)

8. POLITICAL SCIENCE.

CONSTITUTIONAL HISTORY.

FIRST YEAR—*Creasy's* English Constitution, *Skottowe's* History of Parliament, *Dr. Bourinot's* Manual of the Constitutional History of Canada. Lectures will be given, co-ordinate with the study of the prescribed text books, upon the Origin of Government, the History of the Aryans, the Governments of Greece, Rome, the United States, etc.

POLITICAL ECONOMY.

Walker's Advanced Political Economy, *Gide's* Principles of Political Economy. These works will be supplemented by lectures on the Canadian Banking Law, Sociology, and the various modern problems of applied economics.

(Three hours a week.)

9. INTERNATIONAL LAW.

Wolsey's International Law, with collateral lectures covering the work required for the Dalhousie Law School Examination.

(Two hours a week.)

10. CONTRACTS.

Particulars respecting this subject will be announced at the beginning of the Collegiate year.

11. ETHICS AND EVIDENCES OF CHRISTIANITY.

FIRST YEAR—Ethics, *Janet*. The text book will be accompanied by lectures on the ground of Obligation; on Liberty and Conscience; and special attention will be given to the responsibilities of Wealth, and other sociological questions.

Evidences of Christianity, Hand-book by *Dr. Kennedy*. The aspects of Modern Doubt will be particularly considered, and Historical and Biographical notes and comments will enter into the work of the Class.

(Three hours a week.)

12. HEBREW.

FIRST YEAR—*Green's Grammar*.

Selections from Genesis.

SECOND YEAR—Selections from Exodus and the Psalms.

(Three hours a week.)

SCIENCE (HONORS).

Sophomore Year.

- PHYSICS—Laboratory Work in Physical Measurements, Manufacture of simple Apparatus and additional reading in Electricity and Magnetism. Text Books—*Lachute's* Physics, *Stewart* and *Gee's* Practical Physics, *Earl's* Physical Measurement.
 CHEMISTRY—Same as Pass Work. Those proceeding to Honors must not fall below second class rank.

Junior Year.

- CHEMISTRY—*Remsen's* Organic Chemistry. Simple Problems in Quantitative Analysis and Assaying. Text Books—*Rickett's* Notes on Assaying, and *Hartley's* Quantitative Analysis.

Senior Year.

- GEOLOGY—Canadian Geology. Text Book—*Dawson's* Canadian Geology.
 MINERALOGY—Determination of one hundred specimens. Text Book—*Chapman's* Blow-pipe Practice.

In all Advanced and Honor Work, students will be required to prepare at least one thesis on some line of investigation connected with their work. Scientific accuracy, originality of discussion and illustration, literary quality and mechanical execution will be taken into account in the judgment of these theses.

PHILOSOPHY AND LOGIC.

Junior Year.

Mill's Logic. *Keynes's* Logic.

Locke's Essay on the Human Understanding.

Bowne's Psychology.

Ladd's Physiological Psychology.

Senior Year.

History of Modern Philosophy. *Uberweg*.

Kant's Critique of Pure Reason. (Watson).

Mill's Examination of Hamilton.

McCosh's Fundamental Truth.

EXAMINATIONS, DEGREES, ETC.

At the close of the first term, all the classes of the Pass Course are examined by the Faculty by means of written papers. The Annual and Degree Examinations at the close of the second term are conducted in the same manner by the Faculty and duly appointed Examiners. The examinations in the Honor Courses are held at the close of the year.

Supplementary examinations will be held twice each year, at the beginning of the first term, while the Matriculation examinations are in progress, and during the second term at different dates for different subjects (see p. 2). Students desiring such examinations must give notice in writing, *and at least a fortnight in advance*, to the respective Professors of the subjects in which they wish to present themselves. A fee of \$2.00 will be charged for each such examination.

The Degree of Master of Arts may be taken in course by any Bachelor of Arts of three years' standing who shall have taken (during his Undergraduate Course or subsequently) the full honors in any department, and who shall have prepared and forwarded to the President, at least three weeks before the Annual Convocation, a satisfactory thesis on some subject connected with his courses of study.

Students' Aid Funds.

SCHOLARSHIPS, PRIZES, ETC.

THE BRECKEN STUDENTS' AID FUND.

The Income from an Investment of \$5,000, given by the Rev. Ralph Brecken, D. D., will be available hereafter for the assistance of students who may need such aid, under the following conditions and limitations:

1. The applicant must show himself worthy by maintaining a good standing in his classes and in regard to his conduct.
2. Not more than Fifty Dollars from this Fund will be assigned to any student in one year, but the same student may be a beneficiary of the Fund each year of his course.
3. The allocation of these bursaries will be decided by the Faculty, in part according to the relative need, and in part according to the ability of the applicants, as may be determined by examination.

THE BLACKBURN FUND.

By bequest of the late J. J. Blackburn, Esq., of Shubenacadie, Nova Scotia, a sum of from One Hundred to Two Hundred Dollars annually is placed at the disposal of the President of the University for the educational aid of candidates for the ministry.

THE ROBERTSON FUND.

A bequest of the late Robert Robertson, Esq., Sen., of St. John, N. B., subject to a life annuity, provides a bursary annually of Twenty-five Dollars for the aid of candidates for the ministry.

NOTE.—Applications for assistance from the Brecken, the Blackburn, and the Robertson Funds, should be made to the President of the University, not later than the first of September in each year.

THE JOST FUND.

By bequest of the late Edward Jost, Esq., of Halifax, N. S., candidates for the ministry of the Methodist Church may receive educational aid annually. The Trustees of this Fund are Messrs. H. G. Laurilliard, A. M. Bell, William Crowe, and Rev. S. F. Huestis, Halifax, to whom application should be made.

THE HARRY SHEFFIELD MATHEMATICAL SCHOLARSHIP.

This Scholarship, founded in 1894, in memory of the late Harry A. Sheffield, B. A., '89, of the annual value of about \$60.00, is awarded to that member of the senior class *in need of financial assistance* who has taken, during his undergraduate course, the highest standing in Mathematics. Winner in 1895, W. M. Black; 1896, Bessie Alexander.

PRIZES.

The Dr. J. Sinclair Tait Prize.

This Prize (value \$20.00) is awarded annually to that student who, at graduation, shall have *taken the highest marks in all the pass and honor subjects in Natural Science*. Winner in 1893, E. H. Colpitts; 1894, no award; 1895, no award.; 1896, no award.

Smith Prizes.

The sum of \$100 is to be given annually by J. Wesley Smith, Esq., of Halifax, for prizes in English Composition and Elocution. These were won in 1896 as follows:

ENGLISH COMPOSITION—Second year students, first prize, \$15, Ada Killam; second prize, \$10, Annie Sprague. First year students, first prize, \$15, Eugene Forsey; second prize, \$10, George McCord.

ELOCUTION—Second year students, first prize, \$15, Herbert Clegg; second prize, \$10, John Davis. First year students, first prize, \$15, Eugene Forsey; second prize, \$10, Fred. Barrett.

Hart Prizes.

The sum of \$100 is to be given annually by Jairus Hart, Esq., of Halifax, for prizes in five classes announced at the beginning of each session by the Faculty. In 1895-6 they were awarded as follows:

LOGIC AND PSYCHOLOGY—Alfred Rogers, Louise Webb, equal.

JUNIOR ENGLISH—Louise Webb.

SOPHOMORE MATHEMATICS—Ada Killam, Annie Sprague, equal.

FRESHMAN LATIN—Julia Colpitts.

BOTANY AND CHEMISTRY—Bessie Colwell.

The Blackadar Prize.

This prize (value \$30), the gift of H. D. Blackadar, Esq., of Halifax, is awarded to that member of the Senior Class who shall have taken during his Undergraduate Course the highest standing in the English subjects. Winner 1896, Bessie Alexander.

Prize in Systematic Theology.

A prize to the amount of Twenty-five Dollars, offered by the son of a deceased minister for proficiency in some branch of Theological Study, was allotted to the Class in Systematic Theology, and as a result of the competition was divided between R. A. Colpitts and L. R. McDonald.

Black Prizes.

The prizes of \$35 and \$15 offered by J. L. Black, Esq., of Sackville, for the best and second best essays respectively on the following subject: "A plea for a more just recognition of the value to the community and state of skilled labor and manufacturing and commercial enterprise in comparison with the so-called 'learned professions,'" were awarded to R. O. Armstrong, first, and Eugene Forsey, second.

Prize in Classics.

The members of the Class of '94 offer a prize of \$20 to be awarded to the student who makes the highest average in both Greek and Latin, during the regular two years' course in those subjects.

LIBRARY.

The Library contains about 7,000 volumes. Part of these, consisting of books of reference and such books as the professors put aside from time to time for their classes for purposes of reference, may be used only in the Library itself, but not removed; the rest may be taken out by students and read in their rooms or homes. The Library contains a good collection of modern books, and is well supplied with books useful to students in all branches of study. It is also furnished with the leading periodicals, such as *The Contemporary Review*, *The Nineteenth Century*, *The Fortnightly*, *The Forum*, *Nature*, *The Scientific American*, *The Athenæum*, *The Academy*, *Bibliotheca Sacra*, *Old Testament Student*, etc., etc.

READING ROOM.

A Reading Room, in which are to be found most of the leading Periodicals of the Dominion of Canada, as, well as some of the principal newspapers of Great Britain and the United States, is accessible to all the students upon the payment of a moderate fee. The outfit of this room, which occupies a prominent position in the new Residence, has been generously supplied by the Alumni Society.

THE EURHETORIAN SOCIETY.

This is a voluntary Literary Society, the history of which reaches back for more than twenty years. Its special objects are the acquisition of readiness and power in debate, and the cultivation of a pure literary taste. Not a few of the Alumni of the Institution who are to-day prominent in the professional and legislative circles of the several provinces of the Dominion, have been enrolled in its membership. The Society, which had entirely outgrown the well-known room provided for it in the old Lodge, has been assigned the use of the large hall in the centre of the new Residence. This fine apartment, 58 x 34 x 16 feet in size, has a hard wood floor and panelled ceiling; and the Society has been enabled, by the help of its old members, to furnish it most handsomely.

YOUNG MEN'S CHRISTIAN ASSOCIATION.

A branch of this society was organized in 1887, and has now a membership of upwards of fifty. Its object is to associate for Christian effort the young men who from year to year attend the University and Academy. A committee of this Association is appointed to meet new students at the railway station, and introduce them to college life. The Association has for its head-quarters a spacious and elegant parlor in the University Residence, the funds for furnishing which were in large part raised through the efforts of lady friends of the students.

GYMNASIUM.

A commodious Gymnasium, fitted up with modern appliances for athletic exercises and physical development, and under the direction of a competent instructor, is available at a moderate charge to all students.

THE GLEE CLUB.

One of the recognized institutions of the University is the College Glee Club, which during the past year especially has been an important element in the social life of the University, and has greatly increased the interest of public gatherings held under University auspices.

An advance payment of \$20 on account of College and Class Fees is required at the beginning of each term.

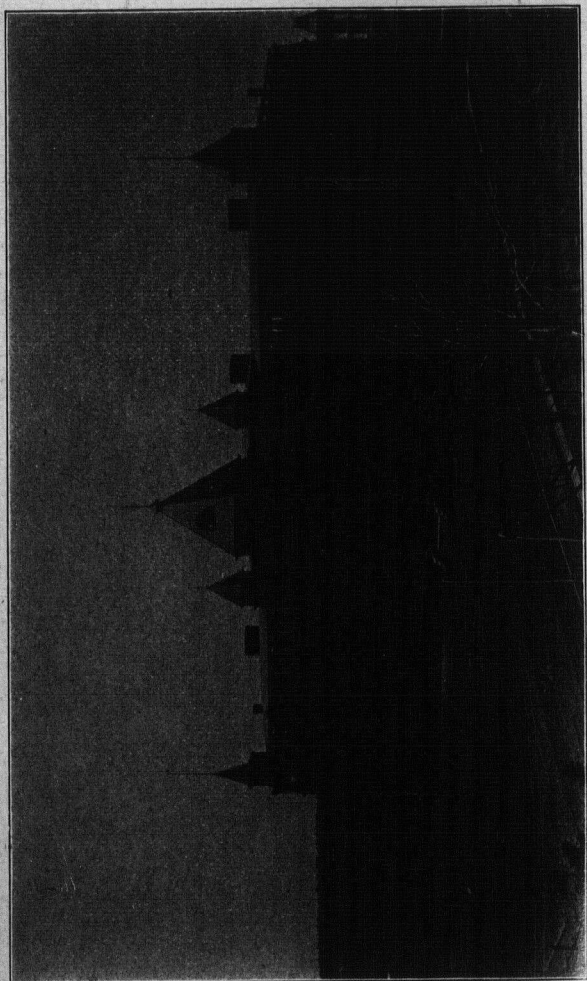

In all Science classes in which costly apparatus or materials are used, a small laboratory fee will be charged, to be paid when a student enters his name in a class. The supply of apparatus has been greatly enlarged through the munificence of Rev. Ralph Brecken, D. D., and every effort will be made to afford the students full courses of practical demonstration, and the use of as many instruments as can be entrusted to them. The list of charges will be posted on the laboratory door at the beginning of each term. Breakages and carelessness in regard to the property of the department will subject a student to extra charges, or permanent dismissal from the class.

Students who, upon examination, may be admitted to an advanced position in the Undergraduate Course, and non-residents, who may apply for examination, will be charged the usual Class Fee in each subject.

2. BOARD AND ROOM RENT IN THE UNIVERSITY RESIDENCE.

The higher charges will be exacted for all rooms except a limited number in the rear part of the building.

The Residence, a cut of which appears on the opposite page, is designed in plan and equipment to promote in the highest possible degree the comfort and convenience of its occupants. The site is one of ideal appropriateness and beauty—elevated without being unduly exposed, and combines all conditions favorable to health and agreeable living. The building is heated and ventilated by the Smead-Dowd system of uniformly warmed and constantly changed air. Drainage (which natural conditions favor) and plumbing have received special attention according to the most improved modern methods. Pure spring water has been brought to every storey, and numerous well-equipped bath-rooms are constantly available. The building throughout has been lighted by electricity. In general, a connected parlor and bed-room are allotted to each pair of students, though for such as prefer them, a small number of single and double rooms are at command. The dining-room is spacious, lofty, and particularly well lighted, with a handsome panelled ceiling. In entire keeping with the general character of the interior are fine roomy apartments designed for use as kitchens, pantries, servants' common rooms, laundry, drying room, etc., etc.

THE HARRIET A. STEWART HOSPITAL.

The handsome suite of rooms designed for use as an infirmary has been provided with a complete modern hospital outfit through the kindness of the children of the late Mrs. Harriet Augusta Stewart, of Sackville. Collectively these apartments as thus furnished are known as "The Harriet A. Stewart Hospital."

 An advance payment of \$40 on account of board is required at the beginning of each term.

 Students will be charged for any damage done to rooms or furniture during their occupancy.

A supply of the necessary Text Books, Stationery, etc., is kept on hand in the University Office, and furnished to the Students as needed by them; and the articles so supplied are charged in the Term's bill at the lowest rates.

General Governmental Regulations, Etc.

Students, both Regular and Special, are expected to conduct themselves with propriety, and to observe all the regulations of the Faculty as announced from time to time. Students whose conduct or progress in study shall continue, after suitable admonition, to be unsatisfactory, will not be allowed to remain in the Institution.

Regular and punctual attendance at their classes shall be imperative on all students.

No student shall be absent from the College after ten o'clock at night without special permission of the President.

All students are expected to attend Divine Service on Sunday, and to be punctual in attendance at daily prayers in the College Chapel.

Without necessarily involving expulsion from College, students may be debarred from the privileges of the Residence for failure to conform to the recognized standards of gentlemanly conduct.

No student shall resort to any tavern or place where intoxicating liquors are sold without special permission of the President; and no student who is known to use intoxicating drinks will be allowed to retain his connection with the College.

The use of tobacco on the College premises is not permitted.

Undergraduates are expected to provide themselves with College caps and gowns, and to wear them at Classes and Lectures, at Church, and at all public Collegiate exercises and anniversaries.

REGULATIONS AND ANNOUNCEMENTS.

Degree of B. D.

Candidates for this Degree must be graduates in Arts of at least two years' standing. They are required to give evidence of satisfactory acquaintance with the subjects assigned as preliminary studies.

They are required to pass a satisfactory examination in all the subjects of the three years' course of study, and to prepare for delivery a satisfactory thesis on some Biblical or Theological subject, which shall be forwarded to the Dean at least three weeks before the Annual Convocation.

Persons other than graduates in Arts may pass examinations in this course, and, if successful, receive certificates to that effect.

Special facilities are offered to graduates in Arts who wish to reside in the College while pursuing this course.

Communications respecting this department should be addressed to the Dean.

FEES.

[To be sent when making the application.]

For each Examination,	\$ 5 00
" Diploma on taking Degree,	10 00
" Certificate,	5 00

Candidates for the Ministry.

Candidates for the Ministry of the Methodist Church of Canada, who have been appointed to attend College, will pursue the course of study prescribed on page 192 of the Discipline of the Church.

The Educational Society of the Methodist Church makes provision for free tuition, and aids in meeting the general expenses of young men appointed by the Conference to attend College.

Preliminary Course of Study.

This Course of Study is designed to meet the wants of young men preparing to offer themselves to be received on trial for the ministry. It embraces all the subjects prescribed for the preliminary and first year's examinations of the Methodist Conference, and may extend over one, two, or three years, according to the previous attainments and circumstances of the student.

The Theological parts of this course may be pursued in connection with Matriculation in Arts.

The English and Classical parts of this Course are prepared in the Academy and College.

Students presenting themselves for admission to this Course should bring with them letters of introduction from the Superintendent Ministers of the Circuits in which they reside. If they expect to offer themselves for the ministry at the close of the year, they must be recommended from the quarterly meeting of their own circuits, and not from the Sackville quarterly meeting. Students bringing with them certificates of such recommendation will be exempted from fees for theological tuition. Licenses as exhorters or local preachers should also, in all cases, issue from the Superintendent and quarterly meeting of the Circuit in which the student resides, and where his church membership and standing should be continued.

After examination at the close of the College year, all students in the preliminary course will return home in time to be presented at their own district meetings, in case they wish to be received on trial by the Conference.

Societies.

Two Societies have been established having a relation to this department. The one is designed for the benefit of the Theological students in the College; and the other to serve as a connecting link between them and the ministers laboring in the three Conferences of the Maritime Provinces, as well as to promote among the latter a spirit of theological and ministerial culture.

Among the students it is proposed, by means of Essays, Exegetical Papers, and Oral discussions, to stimulate inquiry as to the best methods of ministerial efficiency, and so to assist in preparing each other for the great work of preaching the Gospel and feeding the flock of Christ.

The Ministers' Theological Union will meet at the close of each Collegiate year, and, in addition to the consideration of topics of interest belonging to their work, will have an annual Sermon preached and a Theological Lecture delivered. The REV. WM. DOBSON, will preach the annual Sermon, and the REV. JOSEPH SELLER, M. A., will deliver the annual Lecture in 1897.

demy, and to ensure the life-long devotion of Mount Allison's sons to their Alma Mater. All old students are cordially invited to become members. With a view of increasing the membership, the *annual fee* was reduced a few years ago to *one dollar*. The funds of the Society have been devoted in past years to paying off a subscription of \$1,000 to the Endowment of the College, to furnishing scholarships to students of the College and Academy, and to adding to the Alumni Reference Library in the College. A series of resolutions with reference to nominating candidates to represent the Alumni Society on the Board of Regents, and to enable members who cannot be present to cast a vote for the same, was adopted at the regular meeting in May, 1892. Particulars may be obtained from the Secretary.

MOUNT ALLISON
Ladies' College and Conservatory of Music.

PRINCIPAL:

THE REV. B. C. BORDEN, D. D.

The attention of the friends of female education is invited to the Mount Allison Ladies' College with a confidence proportioned to the successful history it has already achieved.

Courses of study extending from the Elementary English branches to and through the whole University Curriculum to the degree of M. A. are open to all the students of this Institution. Young ladies wishing to pursue a University Course can here do so while enjoying all the social advantages and safeguards of the Ladies' College, and at the same time obtain instruction in Music, Elocution, and the Fine Arts.

The CONSERVATORY OF MUSIC, recently opened, is under the charge of a gentleman of the very highest rank in his profession, aided by accomplished teachers. It is provided with an admirable suite of rooms adapted to the Conservatory system. Superior new Pianofortes, both for instruction and practice, are furnished. The Fine Arts Department has been reorganized and enriched by the acquisition of the celebrated Owens Art Gallery paintings, and is under the charge of Prof. John Hammond, R. A. C.

A course of instruction in SHORT-HAND and TYPE-WRITING has been established with a design to meet the needs of those who wish to fit themselves for employment in business offices.

All departments of instruction will be maintained in the very highest state of efficiency, and no pains will be spared to prove the Institution worthy of the public confidence and favor so generously and continuously expressed.

Catalogues containing full information supplied on application to the Principal. Students admitted at any time.
