

KING GEORGE OF GREECE MURDERED YESTERDAY

MR. CARVELL APPEARS IN RIDICULOUS LIGHT IS SHOT THROUGH HEART IN STREET OF SALONIKI CROWN LUMBER LANDS BILL PASSES HOUSE

Carleton County Member Attacks St. John Ambulance Association.

CHEAP GALLERY PLAY IN VERY POOR TASTE

"Dark Lantern" Brigader Intimates Government Desires to Curry Favor at Rideau Hall by Grant of \$2,500 to Worthy Association.

Special to The Standard. Ottawa, March 18.—It remained for F. B. Carvell, representing Carleton County, N. B., and known in the days of the Liberal rule as a leading member of the "dark lantern brigade," to make himself rather more than ordinarily ridiculous today when he vigorously opposed a grant to the Canadian branch of the St. John Ambulance Association, in the course of his remarks, intimated that the grant was given because the name of the Duke of Connaught appeared as patron of the association and several officials of Government House were on the disbursement.

Mr. Carvell's attitude was particularly in bad taste and that this was recognized even by the members on the opposition side of the house was shown by the fact that for the most part his remarks were received with stony silence.

The grant of \$2,500 was passed, but in the discussion considerable animosity was shown by the opposition against the association.

Mr. Lemieux raised the question whether the institution could be classed as a charity and if so as falling under provincial jurisdiction.

Mr. Borden said it was similar to the society for the prevention of tuberculosis. It did work in all the provinces and for general departments. Incidentally he remarked that the amount would save the militia equipment about \$20,000 a year in its medical service.

Mr. Carvell dilated the principle of the grant. The society was not half as much good work as the Salvation Army. He intimated that it was getting its grant because the Duke of Connaught was patron and the Duke of Government House officials were on the board.

Col. Hughes said that the society was not a charitable undertaking. It was akin to the Red Cross Society, which, however, gave no training as the St. John Ambulance Association did.

Mr. Carvell insisted that it was because of the names at the head that the association got its grant.

"Yes, too tony," said Mr. Carvell. Mr. Borden pointed out that most of the expenses were met by private subscription. The grant was to coordinate the various activities. As for the constitutional point it was a matter of the public health of the country.

There are a great many respectable people about Ottawa," said Mr. Murphy, "who have little else to do than to promote well dressed raids on the government."

He wanted to have the matter committed to a department of public health.

Mr. Borden said that it was desirable to have private beneficence interested in the work.

Mr. Emmerson wanted to know if any request had been made for aid to the Boy Scouts.

Col. Hughes said that the Boy Scout organization was not under the control of the government, as the cadet movement was. The grant was then passed.

IS RESISTING ALL EFFORTS TO FEED HER

Sylvia Pankhurst Confined in Holloway Prison Tells of Hunger Strike — Using Stomach Tube.

London, March 18.—The militant suffragette union today issued the contents of a letter received by Mrs. Emmeline Pankhurst from her daughter, Sylvia, now in Holloway Prison. It was in the following terms: "Dear Mother— "I am fighting, fighting, fighting. I have four, five or six wardresses every day, as well as two doctors. I am fed through the stomach pump twice a day. They pry open my mouth with a steel gag, pressing in where there is a gap in my teeth. I resist all the time. My gums are always bleeding. "I am afraid they may be saying that we do not resist, yet my shoulders are bruised by the struggling while they hold the tube in my throat. I used to feel that and that I should go mad at first, and be pretty near to it as I think I feared, but I have got over that and my digestion is the thing most likely to suffer now. (Sgd.) 'SYLVIA.'"

SCUTARI IS IN FLAMES

Montenegrins Straining Every Effort to Capture Fortress — End Expected in Few Days—Return Fire Faint.

London, March 18.—A Podgoritz dispatch says that every effort is being made for the capture of Scutari before peace is concluded. Serbian reinforcements are arriving and the garrison is believed to be short of ammunition, as their return fire during the cannonading has been weak.

A Vienna despatch to the Exchange Telegraph Company says that the bombardment of Scutari is proceeding, and that the Austrian Consulate has been partly destroyed, as well as an Italian convent, in which one nun was killed. The Catholic population has taken shelter in the cathedral and the town is burning.

This morning's newspapers caused great excitement in Austrian official circles. According to a Cologne despatch the Montenegrins have sent an officer under a white flag to inform the Turkish commander of Scutari that the foreign consuls and their nationals may leave the town.

PATIENTS ARE IMPROVING

Marked Change for Better of Tuberculosis Sufferers Who Were Treated by Dr. Friedmann—Will continue Work.

New York, N. Y., March 18.—Marked improvement in the cases of the patients whom he inoculated with his anti-tuberculosis serum in a physician's office here about ten days ago, was noted by Dr. F. F. Friedmann, when he examined the patients this afternoon.

According to Dr. Friedmann and his assistants tonight sixteen of the seven patients inoculated appeared for the examination. The tuberculosis joints treated were examined and the results were compared with those made before the treatment and tests were applied in the other cases.

Dr. Friedmann announced that he would treat patients tomorrow at Mount Sinai Hospital, and Thursday at the Hospital for Infirmities and Joint Diseases.

Grecian Sovereign Dead at Hand of Assassin

WORLD STARTLED BY NEWS OF TRAGEDY

Queen Mother Alexandra, of Great Britain, Sister of Ill Fated Monarch—Murderer Proves Demented Greek — Is Arrested.

Saloniki, March 18.—King George of Greece was assassinated while walking in the streets of Saloniki this afternoon. The assassin was a Greek of low mental type, who gave his name as Aliko Schines. He shot the king through the heart.

The king was accompanied only by an aide de camp, Lieut. Col. Frantzoulis. The assassin came suddenly at him and fired one shot from a seven-chamber revolver.

The king fell into the arms of his aide when shot. Two soldiers ran up to him and tried to hold the work up or delay it.

"There has been an impression that we want this charter to use as a club with which to bring the St. John Railway Company to terms; that is not true. While we would of course like to purchase the street railway now in existence, we are in the business to build our lines independently of them. We will not injure the St. John Street Railway, on the contrary, we will benefit them. After we have laid several miles into the city the St. John Railway Company will get the message and they will get it without building new roads.

"St. John needs street railway lines to its suburbs, and that is what we are prepared to give and at once. Making the suburbs easier of access will do more to develop the city than any other step which could be taken. It will also do much to help in the solution of the housing problem.

Greek and Bulgarian contingents at Saloniki gave grounds for the fears that the assassination of King George might have resulted in a clash between the allies. A message received at midnight dispelled such apprehensions, but the assassin was a demented Greek referred to him as demented.

Queen Mother is Sister.

The British Foreign Office, Marlborough House, where the Queen Mother Alexandra, sister of the dead king, is residing and the Greek legation were besieged by reporters, but no one at these places had any information, except the newspaper butlers, until nearly ten o'clock.

The King and Queen of England are stopping at Windsor Castle, and the first official confirmation of the death of King George was given by the British legation in a despatch from Prince Nicolas at Saloniki, and was transmitted to Windsor and to Marlborough House, and then given to the public.

The king, who was shot, had been shot, and had died in half an hour. Another telegram, reporting the death of the king, was received in London, and the Greek administrator at Saloniki.

Great Sympathy.

The greatest sympathy is felt for Queen Mother Alexandra. King George of Greece was her favorite brother. She only recently suffered another, although less tragic blow, in the death of her brother, King Frederick of Denmark. The Princess Victoria broke the news to her, and because of the uncertainty she was able to hope that the report was not true. But it was soon confirmed by an official despatch.

Queen Alexandra is said to be prostrated, and King George and Queen Mary will come from Windsor tomorrow morning to give her what consolation they can. Even if the King of Greece's close relationship with the British Royal Family did not exist, the circumstances of the death would debar the court for a time from social functions.

It is said that court mourning will be announced for three months, and that all official engagements, except the most necessary, will be cancelled. King George had a particular fondness for a good dinner and a game of cards and was known to all the foremost restaurateurs in the continental capitals and watering places.

A meeting of Moslems and Turkish sympathizers here tonight, the announcement of the assassination was greeted with cries of "Allah," although there were good Muslims. The audience rose as a token of respect for the king's memory.

The Earl of Selborne presiding at the meeting of the Royal Colonial Institute, announced the death of the king, and said that all would wish to express their sympathy for the Queen Mother Alexandra in her bitter loss.

WHAT URBAN RAILWAY COMPANY HOPES TO DO

J. R. Graham, American Capitalist, Interested in Providing Street Car Service to Suburbs of St. John, Tells of Developments if Charter is Secured.

H. W. Cushman, J. R. Graham, J. M. Robinson, H. P. Robinson, D. King Hazen and P. W. Thompson went to Fredericton last evening to appear before the corporations committee of the legislature this morning in support of the bill to permit the St. John Suburban Railway Company to build street car lines in the counties of St. John and Kings.

"The situation is just this," said Mr. Graham in discussing the matter before a Standard reporter yesterday. "If we get the charter we want we will commence the construction of the railway at once, and will have at least \$50,000 worth of lines laid this season. Give us the charter and our engineers will be on the ground as soon as we can get them here and can be sure you will not hold the work up or delay it."

"We would of course like to purchase the existing railway. If we had it in conjunction with a charter to build suburban lines it would require at least \$10,000,000 to effectually develop the street railway and lighting propositions. In Portland a city of practically the same size the development of these utilities has meant \$20,000,000.

A Business Proposition.

"Our proposition is purely a business one and we are in a position to carry it through. It simply means that we will definitely put the proposition to your legislature. We will build street car lines to Rothesay, Westfield, Millville and other points around the city. We will start as soon as we get the charter, but we do not want any conditional bill that will give us authority to go ahead some time in the future, provided the St. John Railway Company does not extend its lines first."

"We want to start now and we are prepared to make good at once. If we get the charter there will be something doing in short order, if we don't the situation will remain just as it has been in the past."

"It is the people of St. John who will benefit by the extension of the car lines if they are extended; it is the same people who will suffer from the present situation. If the plan we have in mind does not go through, there is no question as to the benefit and development which will follow in the suburbs. These lines can and will be built now if we get permission to go ahead. If we don't there is nothing more to be said."

Mr. Graham said the Millville line would possibly be undertaken first, provided of course the company secures the charter.

King up to a late hour tonight, but two members of the peace delegation remaining in London and many other Greeks called to express their sympathy.

The lord mayor of London sent a message to the Greek minister saying: "The citizens of London sympathize with the Greek Royal family and the Greek nation in their bereavement and express their horror at the crime."

The lord mayor also telegraphed condolences to the King and the Queen Mother Alexandra, while the lord mayor of Windsor called at the castle to offer condolences.

London, March 18.—It is expected that the body of the murdered king will be taken to Athens aboard a warship for burial. He went to Saloniki immediately after the occupation and remained there in the capacity of commander in chief.

King George of Greece was a frequent visitor to London, his last visit being on the occasion of King Edward's funeral.

He remained as a guest at Buckingham Palace for several days and with his brother, King Frederick of Denmark, walked the streets of London entirely unattended and unrecognized. Several times they joined the crowds that gathered in front of the palace to cheer the new British king, their identity wholly unsuspected by the working men with whom they rubbed elbows.

Popular in London.

During a former visit to the city, the London corporation entertained him at Guildhall, and presented him with an address of welcome.

Of all the crowned heads of Europe King George of Greece and his Danish brother, King Frederick, who was overtaken by a fatal illness while strolling in the streets of Hamburg, were among the most unostentatious. He had many friends among the diplomats of the various nations, and some of his warmest friendships were with unlit persons.

OPPOSITION REALIZE THE GAME IS UP

Date for Final Passage of Naval Aid Bill May Be Fixed Today—Supply Considered Yesterday.

Ottawa, March 18.—While the house was passing supply today there was an appearance of "things doing" outside of the chamber. The opposition is at the parting of the ways on the naval issue. Sir Wilfrid Laurier has been holding a series of conferences with small groups of his followers all day. The result has not been made known, but there is a strong feeling wavering and that a date for the final passage of the Naval Aid Bill may be fixed tomorrow. In that event it is probable that the government will give notice of the closure resolution for the present.

The government intends to have the naval aid bill, enacted into law and there is not going to be any compromise. The absolute faculty of attempting to force a dissolution is now recognized by opposition members.

That being so, there is nothing to be gained by continued obstruction. It is probable that wiser counsels will prevail in the Liberal party and opposition to the naval bill from now on will be of a somewhat formal kind. That this is likely is borne out by the demeanor of two of the leading obstructionists in the house tonight, Messrs. Pugsley and Lemieux. They were ready to snap at their own shadows.

Tomorrow the banking and commerce committee will go back to the ground after an interruption of two weeks and a half.

Today was largely spent in supply. Consideration of a vote of \$1,000, the amount required to pay allowances and expenses of the commission appointed for the purpose of reporting on the pilotage system below Quebec, led to criticisms of the government by the opposition in regard to dismissals.

Mr. Hazen, minister of marine and fisheries, in answer to comments by Mr. Pugsley, admitted that he found it necessary to have an advisory committee for patronage, but he said the appointments made were always subject to approval by his own department and nominations were not necessarily accepted.

He stated in answer to a question from Mr. Pugsley that one of the members of that committee was also a member of a company which was carrying on dredging operations. He made it clear that the person in question had become a member of the committee after the inspectors had been appointed.

This discussion led to a sudden and extraordinary outburst on the part of Mr. Pugsley and Mr. Lemieux. The chairman, Mr. Middlebro, suggested that discussion of dredging in St. John was hardly in order on a vote about pilotage in the St. Lawrence, and Mr. Pugsley suddenly lost his temper, declared that he would appeal from the ruling and shouted that free speech was denied.

Mr. Lemieux followed by a tirade against temporary chairmen of committees. Why, he shouted, at the top of his voice, was Mr. Blonnie, the deputy chairman, not in his place. The country paid him to be there. Instead he was in his room making up affidavits on behalf of Mr. Cotter. Here Mr. Lemieux became so loud that it was difficult to hear exactly what he was saying.

A few quiet remarks by Mr. Hazen brought the little tempest to a sudden end. Mr. Pugsley saying that the opposition was touchy over the rulings of temporary chairmen.

Later a second little outburst came. Mr. White happened to remark that Mr. Pugsley had been very cross on Saturday night. Mr. Pugsley, with a good deal of vehemence, said that he had not been cross, but angry. He had been convinced that Mr. Robitoux had deliberately ignored Dr. Neely.

On the orders of the day Mr. Emmerson moved the adjournment to discuss the rules of the House, with regard to the right of the speaker to take the chair during a disturbance in committee of the whole.

Mr. Speaker said that this was not of sufficiently urgent importance to justify a motion of adjournment. Notice of such a motion should be given and Mr. Emmerson thus was out of order.

Mr. Emmerson then brought the subject up as a matter of privilege. The speaker held that this was an evasion of the ruling he had just given.

Mr. Emmerson said his only object was to ascertain the rights of a member. He was called to order and Mr.

Premier Flemming Congratulated for Able Legislation

GOVERNMENT WILL ASSIST PROJECTED PAPER PLANT IN BATHURST — Land Transferred to Established Military Training Grounds.

Special to The Standard. Fredericton, March 18.—The legislature this afternoon passed Premier Fleming's bill respecting the crown timber lands of the province. There was an interesting discussion on the bill, the Premier coming in for much congratulation on the eminent way in which the views of the large operator, the small operator and the interests of the Province of New Brunswick generally had been met. Great development in the manufacture of pulp and paper in the province is expected from the passage of the bill and the Premier this afternoon gave the assurance to his supporters from Gloucester county that the government would do everything possible to bring about the establishment of the projected paper plant at Bathurst.

Important legislation was introduced in the house, bills being presented in regard to the transfer of crown lands near McGivney to the department of militia and defense for the establishment of a military training ground for the militia of the Maritime Provinces.

Hon. Mr. McLeod introduced a bill to provide for the purchase of Esopus, which has been acquired by the government for the department of agriculture, and also to make provision for the payment of \$35,000, the estimated cost for the annex and improvements at the provincial normal school building in this city.

U.N.D. DEBATERS ARE DEFEATED

St. Francis Xavier Accorded Unanimous Decision by Three Judges — Hundreds Hear Clever Addresses.

Special to The Standard. Antigonish, March 18.—St. Francis Xavier won the intercollegiate debate held here this evening over the U. N. B. an unanimous decision of three judges being accorded them. The subject for debate was as follows: "Resolved, that for the cities of Canada, a commission form of municipal government based on the Des Moines system is preferable to a mayor and council system."

The Celtic Hall, where the debate was held, was crowded when the chairman, Hon. E. L. Gerrier, took his seat and announced the subject for debate, the respective speakers on either side and the judges of debate.

The judges were Mr. Justice White, of Sussex, N. B.; Judge Patterson, New Glasgow, N. S.; and C. E. Tanner, M. L. A., Pictou, N. S. The representatives of the University of New Brunswick were A. N. Carter, Mr. E. C. Rice and R. H. Murray. The St. F. X. representatives were W. F. Chisholm, leader; J. D. Keane and A. L. MacDonald, the St. F. X. team supported the affirmative of the resolution, while U. N. B. argued for the negative.

Borden suggested that he follow the proper course.

After some further discussion the matter dropped.

In the course of the evening Mr. White gave some information with regard to the expenditure for 1912-13. The supplementary estimates, he said, would bring total appropriations for the year up to about \$174,000,000. About 10 per cent of the appropriations would not be spent, and the total spending for the year would prove to be \$153,000,000 or \$154,000,000.

Mr. Cochrane said that the surplus on the I. C. R. this year will be about a million dollars.

ST. JOHN PRESBYTERY OPEN THE PICTURE HOUSE

Proposal to Run Theatre in Connection with Mission at Courtenay Bay Ratified - Presbyterian Ministers had Busy Session all day Yesterday.

The afternoon session of the quarterly meeting of the Presbytery of St. John opened at 2 o'clock, the moderator, Rev. James Ross, presiding. The most striking business to come before the meeting was the agreement to open a moving picture theatre at Courtenay Bay in connection with the Presbyterian mission now in course of construction.

Home Missions.

The home mission reports were then taken up. The cost of supply at Norton came up, the bill for the past month amounting to \$28.75. This brought on considerable discussion, it being shown that students coming from Halifax were forced to spend much money in travelling expenses, considering the bill was very high.

Rev. J. H. A. Anderson moved that a limit of \$5.75 a Sunday be placed on the assistance given by the Presbytery to students. The bill was ordered paid with Rev. Mr. Anderson's amendment to take effect in the future.

It was then announced that a call had been issued by the Norton church to Rev. George Irvine, a student. The Presbytery granted Rev. Mr. Irvine permission to accept.

Rev. Gordon Dickie then gave particulars as to the cost of construction of the mission at Courtenay Bay. It was shown that the lots had cost \$500.40 and had been paid for from the Wiley fund. The building would be finished on April 15th at a cost of \$2,800.

Rev. Mr. Knight, the stranger secretary, then made his report. In view of the fact that the expenses attached to the running of the mission would be large, he advocated the opening of a moving picture theatre in connection with the mission. Mr. Knight pointed out that films touching on almost any subject could be secured, and that two shows a week with an admittance fee of ten cents would amply defray expenses.

In support of his argument, the speaker added that the large American cities the immigrants had been allowed to establish little Italy, Germany, etc., because the authorities had not told them of the wonderful opportunities of the country. He said educational films could be secured, showing the greatness of Canada, and by seeing them the foreigners would make vast strides towards becoming good Canadian citizens.

He also understood that a moving picture house in the city was contemplating the opening of a house at Courtenay Bay, and it behooved the church to enter the territory first.

The idea of being the sole proprietors of a moving picture theatre and the good it would do the foreign element, evidently made a hit with the Presbytery, as the motion picture was passed practically without argument.

The cost of installing and operating a machine was then given. Mr. Knight made an appeal to the ministers to secure all the books possible for the library, and to assist in every manner the work of keeping the men away from the city bars. He observed that if some of the workmen carried some of the loads they brought to the camp, in two trips they might feel better. The appeal was heartily endorsed.

The report of the Sunday services at Courtenay Bay was read and adopted. Rev. Mr. Dickie proposed a new scheme for supplying vacant pulpits. He proposed that instead of being under the control of the vacant

PREMIER FLEMING'S CROWN LAND BILL PASSED THE LEGISLATURE YESTERDAY

Continued from page one. The House met at three o'clock. Hon. Mr. Grimmer introduced a bill to amend the Schools Act of 1902. He explained that the bill provided that the St. John Board of School Trustees can increase their bond issue from \$125,000 to \$150,000.

Hon. Mr. Fleming introduced a bill to authorize the grant of certain lands for military purposes. He explained that the bill provided for the establishment of a military training ground. The matter was not entirely settled yet but it would be wise to make provision for the transfer, as it would likely be completed within a short time.

Should a sale take place provision is made that the amount received should be deposited in the crown land sinking fund. It was proposed to dispose of land between Fredericton and Chatham on an interlocking near the Maritime Provinces would meet annually for drill. There would be a great deal of expenditure in the preparation of the grounds, but a greater amount annually in connection with the annual drill of the militia of the Maritime Provinces. The site proposed was a very central one, and was considered highly suitable for military purposes, not being heavily timbered.

Hon. Mr. Fleming introduced a bill to amend the act amending the general mining act, with respect to the construction of railways within the province, and prior to 1875 the government had given assistance to the construction of these railways which meet the development of the different portions of New Brunswick and the province should contribute to that policy, but if these railways, the construction of which was brought about by the assistance of the government, were in a condition today that they were able to pay taxes it was certainly apparent that the time had arrived when the government should exercise its right.

Ontario received a revenue reaching nearly \$1,000,000 from direct taxes contributed by two railways in the province which over \$100,000 each as taxation. He was not saying that it was the province's duty to introduce anything of this kind in New Brunswick but he thought it desirable that the disability to tax railways should be removed so that, if it was decided to take such steps in the future, the authority of the legislature would be given.

Mr. Black said that he hoped the government would put taxation on the railways into effect as it appeared to him that the railways were not paying their fair share of the taxation of the province.

Mr. Stewart (Northumberland) asked if it would be proper that taxation should be by statute of this legislature instead of by order of the lieutenant governor in council.

Hon. Mr. Fleming said he had no objection to adding an amendment to the rules and regulations as to the manner of imposing the taxation and for enforcing payment of the same should be subject to the approval of the legislative assembly.

The bill was agreed to with amendments. The Crown Timber Lands. The committee then went into consideration of the bill respecting Crown timber lands of the province. Continued on page five.

IN THE COURTS CHANCERY DIVISION. At the March sitting of the Supreme Court, Chancery Division, held yesterday morning, Mr. Justice McLeod presided.

Children Cry for Fletcher's CASTORIA. The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of Dr. J. C. Fletcher, and has been made under his personal supervision since its infancy.

What is CASTORIA? Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic, all Ruching, Eructations, Diarrhoea, Indigestion, and all Stomach and Bowel troubles. It regulates the Stomach and Bowels, assimilates the Food, giving healthy and natural sleep. The Children's Panacea - The Mother's Friend.

GENUINE CASTORIA ALWAYS Bears the Signature of Dr. J. C. Fletcher. The Kind You Have Always Bought In Use For Over 30 Years.

ROYAL Baking Powder Absolutely Pure

Royal Baking Powder is indispensable to finest cookery and to the comfort and convenience of modern housekeeping. Royal Baking Powder makes hot breads, cakes and pastry wholesome. Perfectly leavens without fermentation.

Full instructions in the "Royal Baker and Pastry Cook" book for making all kinds of bread, biscuit and cake with Royal Baking Powder. Gratis to any address.

ROYAL BAKING POWDER CO., NEW YORK

A Livingstone Celebration. The schoolroom of St. Stephen's church was crowded last evening when a celebration in honor of the Livingstone centenary was held. The girls of the mission band had charge of the programme, which consisted of a number of songs, readings and dialogues by the children, and a paper on Livingstone, which was read by Mrs. Dickie.

The Board of Health. The regular meeting of the Board of Health was held yesterday afternoon. The business of the meeting was mostly routine; the reports of the inspectors were heard. A resolution of regret at the death of the late James Ready was passed by the board.

Easter Plants

The greatest variety of Easter plants ever shown in St. John has just been opened up. All lovers of plant life should see the great display. Blooms never before seen here are among the attractions.

Prices are right and there is sure to be a quick sale, so come early for your selection.

Incorporation of Cedar Hill Cemetery Recommended—Street Railway Bills Considered.

Fredericton, Mar. 18.—The committee on corporations met this morning and took into consideration the bill to incorporate the Cedar Hill Cemetery Co. in the parish of Lancaster.

MANY VESSELS LOST.

Hamburg, Germany, March 18.—From sixty to eighty vessels, mainly small craft, were sunk off here during the night in a southwesterly hurricane. The death of twelve men of their crews has already been reported but it is thought that the total will be much greater.

STELLA MARIS ASHORE.

Pogo, Nfld, March 15.—Light south-east wind with snow, ice off Stella Maria ran ashore 8 p. m. Saturday back of Rags's Island, mistook light in house at Eastern Point for Rags's light which was not lit; floated off again Sunday morning, not leaky, and proceeded to Change Islands.

SCHOONERS RETURN.

The schooners Helen Montague and the Henry H. Chamberlain, which sailed yesterday returned to port about six o'clock this evening owing to the heavy weather outside.

OBITUARY.

Isaac Smith. Waterbury, Q. C., March 17.—After a brief illness Isaac Smith, of this place, passed away last night, in the 75th year of his age, leaving one son and one daughter to mourn, Isaac H. Smith and Mrs. Ferris, both of this place.

He was the last of a family of seven, four sons and three daughters, of George and Madeline Smith, of this place, who were married in 1840. He was a member of the St. John's Anglican Church. His wife predeceased him five weeks ago.

Miss Elizabeth Bourke. The death of an elderly resident of Carleton, Miss Elizabeth Bourke, occurred late Monday at the home of H. G. Smith, City Line. She was about 70 years of age and had been ill for about six months, following an operation for tumor. She is survived by two sisters, Mrs. Charles Emmerson and Mrs. Henry Stevens of this city and one brother, Edward Bourke, of Savannah. The funeral will be held this morning at 8.30 o'clock.

DEATH OF ST. JOSEPH'S STUDENT.

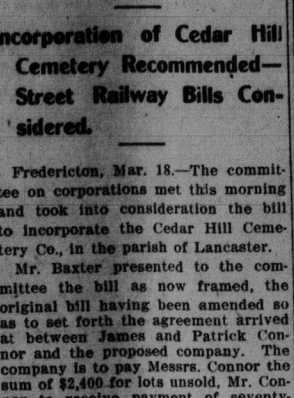

St. Joseph's College, March 17.—Yesterday a cloud of gloom settled upon the university, consequent upon the death of Edgar Bourke, a student whose sterling character made him dear to his brother students and deeply beloved by them. This loss from among them was sincerely sensed and revealed in manifold ways: no word was spoken but they showed the depth of their sorrow. He is the son of Anthony Bourke, of Shediac, who recently lost his wife as a result of the same disease. A short time ago the boy left to visit his mother when dying. He returned to the college, and unfortunately the same ailment carried him off. Everything possible was done for his relief, but all to no avail.

PAROLED FROM PRISON.

Waupun, Wis., March 18.—Edward Eckart, of Pennsylvania, was today paroled from Wisconsin penitentiary after 27 years of actual time served behind the bars. He was convicted of murder 21 years ago.

Neurasthenia

THIS is the fancy name which scientists give to the disease commonly known as nervous prostration or nervous exhaustion. It is an ailment peculiar to this age and this continent.

The placid, contented life of our ancestors has been left behind, and everywhere there is rush and strain, whether on business or pleasure bent. Sometimes it is the cares and worries of business, but oftener the strain of attending the round of society and amusement, which brings on collapse of the nervous system. It may be the lady in high society who is the victim of it, or it may be the girl in the factory.

You lose interest in life, feel tired and languid, find your daily duties a burden, cannot get proper rest and sleep, have headaches and indigestion, are nervous and irritable over little things, some of the vital organs fail in their functions, and you become down-hearted and discouraged.

Any treatment to afford you more than mere temporary relief must increase the nerve force in the human system. The food you eat has failed to do this, so Nature must receive help from outside, just such help as is supplied

by Dr. Chase's Nerve Food, because this food cure is composed of the ingredients which go to form new, rich blood and new nerve force.

This idea of nourishing the nerves back to health and vigor is comparatively new. It has proved to be the only means of rebuilding and revitalizing wasted nerve cells.

While Dr. Chase's Nerve Food is put up in pill form, you should look upon it as a food rather than as a medicine, because of its building-up influence on the system. Natural and gentle in action and yet wonderfully potent in its reconstructive influence, this treatment is admirably suited to the needs of women who are pale, weak and run-down.

It fills the body with rich, red blood, restores the appetite and improves the digestion, thus enabling the body to get the benefit of the food you eat. It rekindles the vitality of the nervous system, and through the nerve fibres carries vigor and energy to every organ in the body. You soon feel better and look better. Hope and confidence are restored. The organs assume their natural functions and you find yourself well on the way to health and happiness.

ST. JOHN, N. B., WEDNESDAY, MARCH 19, 1913.

MR. CARVELL'S INSINUATIONS.

The extraordinary position taken up by Mr. F. B. Carvell in the House of Commons yesterday concerning a grant of \$2,500 to the Canadian Branch of the St. John Ambulance Association has shown how far the member for Carleton can travel outside the realm of good taste.

There is nothing more easy to accomplish than an attack on an outside body by a member of Parliament within the precincts of the House and guarded by the privileges of Parliament.

Canada at the present day needs to cultivate the altruistic spirit. Her people, born to a proud heritage and creators of a great country have but one danger, they may lose the vision of the thought for others.

It is significant that in the half hour debate on the subject, well-known Liberals like Dr. Michael Clarke and Hon. George Graham, testified to the splendid results achieved by the St. John Ambulance Association.

Among the advantages which this City of St. John possesses, perhaps the greatest, yet the least advertised, is the abundance of pure water. It is one of the city's greatest assets, in that the limitless supply from the Loch Lomond Lakes to the East Side affords a guarantee that no epidemic, such as typhoid fever, from impure drinking water is possible.

ONE OF OUR GREATEST ASSETS. The value of pure drinking water to a city has been emphasized by a case just decided at Rochester, in the United States. We learn from the Buffalo Express that a Rochester man has been awarded \$475 on the second trial of his action to recover damages from the plaintiff because of an attack of typhoid fever, which he claimed resulted from drinking impure water.

Government by Minority. (Toronto News.) If any angry and irresponsible opposition can force a general election at its own will we have yet to establish responsible government in the Dominion. We would have as a matter of fact, Government by groups and factions instead of Government by majority.

As Usual. (Edmonton Journal.) Hon. Sir James Stewart, when he heard Sir Richard Scott declare in the Senate that the Privy Council usually found in favor of corporations, looked up the records and found that the exact reverse is the case.

The decision in the Rochester case, it is claimed will be important if the higher courts allow the verdict to stand as a precedent.

From this danger to the public health, thanks to the foresight and enterprise of the City Fathers ten years ago, St. John is now permanently exempt. In an address before the Natural History Society last evening the City Engineer, Mr. William Murdoch, gave some instructive facts regarding the extension to Loch Lomond. It was between the years 1904 and 1907 that this long talked of enterprise was undertaken. The extension was expressed in an Act as long ago as 1855, which established the Sears Commission, to be the first work of that board, but its magnitude staggered that generation of citizens when its cost was realized.

The 38,000 inhabitants on the East Side of this city now take millions of gallons of water from Loch Lomond daily, which is distributed through upwards of seventy-two miles of pipes varying in size from thirty-six inches down to one-half inch. Another advantage which this source of supply affords is apparent from the fact that it serves 360 hydrants on the East Side for the extinguishment of fires and also twelve drinking fountains.

As to the purity of the Loch Lomond supply it has been stated by experts that water from this source compares well in purity with the water of Loch Katrine in Scotland, which bears the reputation of being the purest water in the world.

Mr. Murdoch in his address also cited an instructive comparison showing the purity of the water from the lakes at Loch Lomond. The water of the Dead Sea, which is probably the densest known, he pointed out, contains 14,488 grains of solid matter per Imperial gallon, as against 2,685 grains in the Atlantic Ocean, as against 2.8 in Loch Lomond and 0.12 in distilled water.

It is of interest to note that the purity of the water is due to some extent to its passage through the reservoir at Lake Latimer on its ten mile journey to the city. This lake, which is 200 acres in extent and 60 feet deep, possesses the peculiar property of clearing the water and adding to its translucency by retaining any sediment.

That East St. John is particularly fortunate in its source of water supply is clearly in evidence and the West Side is not far behind in its dependence on Spruce Lake. The growth of the city and the expected increase in population, which will follow the establishment of many new industries, will warrant the Board of Trade and the citizens generally, who have an interest in St. John's development, in making these facts more widely known.

THE CONSUMER PAYS.

In a report recently issued by Mr. Charles Nagel, Secretary of Commerce and Labor in the late Taft Government, it is stated that after the strike agreement of last May the hard-coal companies in the United States increased the price of anthracite to consumers \$13,450,000, although they increased the mine-workers wages only \$4,000,000 a year. They did precisely the same thing after the strike settlement in 1903, only on a larger scale.

For years the coal-railroad combination has had a virtual monopoly of the Pennsylvania supply of anthracite. The companies have maintained a common policy, in defiance of the Sherman law, in regard to freight rates and prices. They have steadily and uniformly raised their prices whenever the occasion offered, and strikes by which they professed to be hurt they have made a source of permanent profit to themselves.

Government by Minority. (Toronto News.) If any angry and irresponsible opposition can force a general election at its own will we have yet to establish responsible government in the Dominion. We would have as a matter of fact, Government by groups and factions instead of Government by majority.

As Usual. (Edmonton Journal.) Hon. Sir James Stewart, when he heard Sir Richard Scott declare in the Senate that the Privy Council usually found in favor of corporations, looked up the records and found that the exact reverse is the case.

DIARY OF EVENTS

THE PASSING DAY.

THE LIVINGSTONE CENTENARY.

Science and religion, the irreconcilable, will bury the hatchet today and join in celebrating the centenary of the birth of David Livingstone, the pioneer. The names of Livingstone and Stanley, his journalistic rescuer, will forever be coupled in the history of Africa, for to them must be ascribed much of the credit for the fact that the torch of civilization now sheds its light in nearly every part of the former "Dark Continent."

Geographical societies throughout the world, and especially in English-speaking countries, will observe the Livingstone centenary today, and many missionary societies will also honor the memory of one of the most distinguished and devoted of their workers.

In commemorating the career of Livingstone it may well be said that there is glory enough for all Scotchmen in the fact that he was born in Lanarkshire that Livingstone was born on March 19, 1813, of a family typical of all that flourish among the poor and self-respecting humbler families of the land of Burns.

It was the journalistic enterprise and humanitarian spirit of James Gordon Bennett, an American of Scotch descent, which led to Livingstone's rescue, when otherwise the flickering flame of his spirit might have been quenched in the darkness of Africa, leaving no trace.

Livingstone graduated in medicine at Glasgow in 1840, and went to Africa by the London Missionary Society. He then hoped to be appointed to a station in China, but the fates were kinder to him than he knew in the hour of his disappointment. After sixteen years of exploration he returned to England, but the spring of 1858 found him back in Africa as head of a Zambesi expedition.

Two years later, at Ilaia, on Lake Bongwool, death claimed him while he was on his knees, praying. Through the British Empire the name of David Livingstone will be held in lasting remembrance.

FIRST THINGS

DISCOVERY OF LITHOGRAPHY.

The first lithographic picture was exhibited in Munich 115 years ago today, March 19, 1798, and was the invention of Alois Senefelder, who had been working on the process for over two years. The Germans called the art "polyautography," and the name lithography was not applied until it was introduced into England in 1801. Ackermann, an Englishman, made many improvements, as did Engelmann and the inventor, Senefelder, who died in 1841.

Printing in colors was first commenced in 1855, but the first successful process for color-printing, called chromo-lithography, to be applied to pictures was the invention of George Baxter, in 1836. G. C. Leighton commenced color-printing by machinery in 1851. Five years later the Illustrated London News issued the first of its large colored prints.

THE HUMAN PROCESSION

WILLIAM JENNINGS BRYAN.

Secretary of State William Jennings Bryan, once "Crisis orator of the Platte," is getting along in years, and will be the recipient of congratulations today on the fifty-third anniversary of his birth. The eminent Nebraska head of a cabinet remarkable for the youth of its members, since he is the oldest, with one exception, of President Wilson's official family.

The patriarch of the cabinet is William Cox Redfield, who will be fifty-five next June, while Prof. Houston is the "baby," having celebrated his forty-seventh birthday last month. Mr. McReynolds, Mr. Daniels and Mr. Burleson are "going on" fifty, and Mr. Garrison and Mr. Lane will be fifty next year.

THE DUKE OF WESTMINSTER.

One of the wealthiest of Englishmen is the second Duke of Westminster, who passes his thirty-fourth milestone today. The Duke is an enthusiastic poloist, and it is said that he will spend a half-million dollars, if necessary, to get possession of the international cup now held by American poloists. He will spend some time in New York this summer.

THE POET'S CORNER

PAINTED ON A FAN.

Dear little lady, dressed in colors bright, Always pleasant, always smiling, such a happy sight! Funny little lady, painted on a fan Little, twisted, bowing lady of Japan.

My, how smooth your hair is rolled, how very smooth and neat; Peeping out beneath that skirt, such tiny little feet; Great wide sleeves and parasol, to shield you if they can— Pretty, modest, quiet little lady of Japan.

Cherry-blossoms, pink and sweet, dancing in the air; Just one tiny little spray captured in your hair. Purple pale wisteria, climbing up and down Through the graceful, flowing folds of my lady's gown.

Wouldn't an inviting cup of amber, steaming, Bring you tripping her to sup a little while with me? Tranquil, queer, elusive little lady of Japan, How I wish that you were not just painted on a fan!

—Alice Hartich, in Lippincott's.

IN SLUMBERLAND.

Where is the road to Slumberland? Just rest your cheek upon your hand, And press your pillow hard and say Good night to all the world of day; Breathe deep, and presto! you will stand Upon the shores of Slumberland.

All sounds are hushed in Slumberland— The rhyme of waves upon the sand, The chirping boughs, the droning breeze, And dreams are blossoming on the trees; They only wait your gathering hand, Wee visitor to Slumberland. And all you meet in Slumberland Obedient and expectant stand: The birds and beasts, the gnomes and elves, The sun and moon and stars themselves, All wait to heed your least command. While you are king in Slumberland, —Burgess Johnson in Harper's Bazaar.

PERCY ILLINGWORTH.

Percy Illingworth, chief whip of the Liberals in the British Parliament, is a comparatively young man, today being the forty-fourth anniversary of his birth. He is a Cambridge man, a barrister, and was formerly captain of the Westminster Dragoons. Since he entered parliament seven years ago he has risen rapidly in the esteem of his Liberal colleagues, and his elevation to the position of chief whip, who performs the non-official but highly important duties of looking after the interests of his party, and of securing the attendance of as many members as possible at important divisions, was a marked recognition of his ability.

The Best Quality at a Reasonable Price

When Were Your Eyes Examined?

Your eyes should be examined at once every two years. This does not mean that it will be necessary to change your glasses every two years, but it does mean that you should know that a change is not needed. Lack of attention often causes serious trouble, even so far as the foregoing of proper sight. There is no excuse for not having your eyes examined when your optical department is at your service. Come in and we will tell you whether your glasses need to be changed or whether you need glasses at all.

L. L. Sharpe & Son,

JEWELERS AND OPTICIANS, 21 King Street, St. John, N. B.

45 YEARS OLD AND THE LAST YEAR THE BEST OF THE 45.

THE WORLD'S MAY QUEEN.

"When Spring comes back to England And crowns her brows with May, Round the merry moonlit world She goes the greenwood way; She throws a rose to Italy, In flowers by to France; But round her regal nortie-ring The seas of England dance.

"When Spring comes back to England, And dons her robes of green, There's many a nation gaily dancing But England is the Queen; She's queen, she's queen of all the world, Beneath the laughing sky, For the nations go a-Maying When they hear the New Year cry—

"Come over the water to England, My old love, my new love, Come over the water to England In showers of glory rain; Come over the water to England, April, my true love, And tell the heart of England The Spring is here again!"

—Noyes, from the Oxford Book of Victorian Verse.

LADY GERALDINE'S COURTHSHIP.

She has halls among the woodlands, She has castles by the breakers, She has farms and she has manors, she can threaten and command, And the palpitating engines snort in steam across her acres, As they mark upon the blasted heaven the measure of the land.

There are none of England's daughters who can show a prouder presence; Upon princely suitors praying, she has looked in her disdain; She was sprung of English nobles, I was born of English peasants; What was "I" that I should love her— save for competence to pain? —Mrs. Browning.

PREMIER FLEMMING'S CROWN LAND BILL PASSED THE LEGISLATURE YESTERDAY

Continued from page two.

Hon. Mr. Fleming moved to amend the section referring to the pulp and paper licenses to provide that at least 50 per cent of the timber cut yearly on crown lands under such license shall be manufactured into pulp and paper or other products of pulp, and that the person taking out such license, shall acquire, erect or operate a paper mill or other mill which manufactures the goods in which pulp largely enters as a raw material and that the pulp and paper mill or other mill which manufactures from pulp shall be of sufficient capacity to manufacture at least 50 per cent of the lumber cut upon their license and that the operation of such mills shall be continuous from year to year.

Mr. Stewart, Gloucester, said he was interested in the establishment of a paper plant in Gloucester county. Honorable members know that to establish this industry a large amount of money must be secured from the money market, and that usually bonds are issued for forty year terms in order to be successfully taken up. Bonds of a shorter tenure are not easily sold, and do not bring the same price as those for longer terms. Honorable gentlemen also know that shorter term bonds impose heavier conditions on the company in that the sinking fund charge was higher, and he thought that all honorable members would agree with him that it was not alone important that the province should get these industries inaugurated, but that they should be kept in operation from year to year. It therefore behooves honorable members to so arrange matters that the annual fixed charges should be made as light as possible, which would be done in assisting to have the bonds extend over as long a period as possible. Under a thirty year period with a twenty year renewal it would be impossible for any company to place bonds on the market for a forty year period. He suggested that should it be impossible to establish an industry under provisions of this bill the lieutenant governor-in-council should be empowered to rearrange the time, but not to exceed on the whole a period of fifty years with one extension. He moved an amendment to give the lieutenant governor-in-council the power he suggested, and he asked for favorable consideration of the members to his proposal.

Mr. Hachey acquiesced in the remarks of his colleague from Gloucester. Assurance had been given that if the establishment of the projected plant at Bathurst materialized \$1,000,000 would be expended in dredging Bathurst harbor, while the Caracraft and the Gulf Shore Railway would be taken over and operated as a part of the Intercolonial system. The Northern New Brunswick and Sea-

board Railway also intended to extend their line to the town of Bathurst.

Hon. Mr. Fleming said that he understood the amendment to mean that if a thirty year period with a twenty year extension is not sufficiently satisfactory tenure the period might be rearranged so that the license might be issued for forty years with an extension of ten years. In connection with the amendment he entirely appreciated the spirit of his honorable friends in endeavoring to perfect the bill, and to make it as likely as possible to secure this great industry for Gloucester county. If he thought that the incorporation of the amendment was necessary for the establishment of the enterprise he would be disposed to accept it, but at the moment he was a little in doubt as to its advisability. Under the provisions of the bill, as it now stood, licenses were issued for thirty years and a twenty year extension was provided, which meant a tenure of at least fifty years, and he could not see that forty years' period with a ten year extension would make conditions much stronger on behalf of the company, but the objection to the amendment was that if the honorable members accepted it they would be confronted with the same requests from every one interested in the establishment of such an enterprise in New Brunswick for a forty year period with a ten year extension. If that were done it meant that honorable members would be asking the lieutenant governor-in-council to say what public domain of province would be available for a period of forty years. It required great deal of thought and consideration on his part to arrange to give a thirty year period with a twenty year extension, as the lieutenant governor-in-council was called on to fix the price that timber lands would be worth for thirty years. They had agreed to the thirty year period and twenty year extension, feeling that it would result in great advancement in the manufacture of pulp and paper and the lumbering industry of New Brunswick, and that it would serve to employ thousands of additional men. It seemed to him that the government would be going as far as it should in granting the thirty year period with the ten year extension, but he desired to tell his honorable friends from Gloucester that the government was equally as anxious as they were to secure this industry. Let the government and honorable members see for the next few months if they could not bring about the assurance of the establishment of this industry under the present provisions of the bill. If that were found impossible, he thought that some legislation would readily be introduced to further as-

sure the company in a reasonable manner to secure the establishment of this grand industry. He would suggest the advisability of withdrawing the amendment, and would assure them that the government would make every effort to bring about the consummation of this project.

Mr. Stewart, Gloucester, said that in the assurance of the Premier he had pleasure in withdrawing the amendment.

Hon. Mr. Fleming moved an amendment providing that at any time during the currency of a license of one kind the holder could have it changed to the other kind of license.

Mr. Stewart (Northumberland) did not altogether meet the views of the small operators, moved, seconded by Mr. Swin, that the lieutenant governor-in-council be empowered to issue licenses with the exception of the Miramichi Pulp Co. 25 per cent of their area and divide them among small operators, and also if it was found that the report upon Crown lands was received that the large limit holders still held more territory than was needed to supply their demands, that an additional 25 per cent should be taken out and divided in the same way as specified in the original section of the bill.

The bill, he said, had many excellent features. The time had come when it was no longer safe to put up Crown timber lands at auction, as had been done, as the prospects were that the province would lose a large part of its industrial life by parties coming in and tying up lands for investment purposes. He wished to give the government full credit for daring to introduce a measure such as that which had been submitted to the House. He believed that small operators were more benefit to the country than a big concern with perhaps twice as much capital.

The reason that young men were found in the west, who had gone from this country and had made a success of business there was that these young men had been driven away from their natural inheritance share of the timber lands of the province to the west where they would have a better opportunity to succeed.

Mr. Swin said he was sure that the premier and government must have spent much time in moulding a bill which met all the requirements as well as this one. He had nothing to say against the big men, but he would like to draw attention to the fact that according to the figures taken from the last county valuation in Northumberland there were seven miles owned by large limit holders with a valuation of \$388,000, and holding a total area of 3,300 miles or an average of 529 miles each, while there were twenty miles owned by so-called small operators with a total valuation of

\$255,500 holding a total area of 265 miles, or an average of 14 miles each.

He argued that the small operators handled their business better than did the big operators and, therefore, were not tied up with the banks to the same extent. It was only fair to the small operators that there should be a more equitable distribution of the land. In conclusion, he argued that the amendment which had been moved by his honorable friend and which he seconded should pass in order that greater opportunities for immigrants who were being brought into the country and also for the young people of the province might be offered.

Hon. Mr. Fleming said if it was possible to accept the amendment so that the small operators the protection they asked without imperilling the whole measure he would be only too ready to accept the whole amendment as suggested. He called attention to the case of the Bathurst Lumber Co. which held 900 square miles of crown timber lands, and not only owned it, but also needed 1,700 square miles on the other side of Bay Chaleur in the Province of Quebec. If the amendment was accepted there would be nothing else left to do but arbitrarily take away twenty-five per cent of the holdings of the Bathurst Lumber Company regardless of the consequences, and the fact that the Bathurst Lumber Co. needed all this territory to provide material for the industry which they were building up. There were other instances of the same nature. This great question must either be dealt with the way it is or let go for five years until the time when leases would expire. Tremendous pressure would be brought to bear on the lumber business if it had to continue under such conditions. It was either a case of acceptance of the proposals as laid down in this bill or letting the matter go on for five years and then putting up the lands for sale and he would ask if seventy-five per cent of the small operators would not be wiped out when the big man with capital stepped in and took a hand at the sale if it was allowed to go on. This bill made provision to absolutely safeguard for the small operators who they now have and made it possible for them to add to their holdings.

Replies to Criticism.

He had read in a newspaper from the North Shore something that was saying about there being another Northumberland deal on. He did not pay much attention very often to what he saw in the newspapers, but he wanted to say that there was going to be no Northumberland deal nor any other kind of a deal except that the people of the province will get a guarantee of safe business so far as the administration of Crown lands go. The only deal would be a square deal to both big and small

operators, and this government did not propose to give any special favor to the big operators nor to do any more for the small operators than was reasonable and in the public interest. The government had no right to change existing leases which had been bought and paid for, but between now and their expiration, in 1918, the government would have a survey, examination and classification of Crown lands made, and if it was found that there were limit holders holding more territory than they needed the government took power to take out of their leases what they did not reasonably need.

The government did not propose to put the land up for sale where the big men with capital could come in and buy it up, but they would give it to the small operators on the same conditions as it was given to the big ones so that nobody could say that they would not be dealing as well with the small as with the big.

In conclusion, he said it was necessary that the matter must be dealt with, and he would be sorry to see the small operator with his money tied up in the North, and his property gobbled up by the big man, as would undoubtedly occur if the lands were left to go up at public sale at that time. That was a condition that he would never be a party to bringing about.

Hon. Mr. Fleming suggested that the hon. members might withdraw their amendment rather than divide the House.

Mr. Stewart (Northumberland) said that if the amendment would defeat the object of the bill he was prepared to withdraw it, but he could not see that such would be the case.

After further discussion the amendment was defeated.

Mr. Stewart (Northumberland) said that there were a great many people operating on Crown timber lands who were not mill owners. There were a great many that he would be glad to get out of lumber which they disposed of to the mill operators and this created quite a large industry on the North Shore. He moved to amend the bill to provide that any areas or land taken from existing licenses may be leased not only to mill owners who may require the same for the operation of their mills, but also to other lumber operators.

The amendment was defeated.

Hon. Mr. Fleming moved that a section be added to the bill to provide

that Cap. 31 sixth, Edward VII, should be repealed.

Mr. Stewart (Northumberland) asked if that was the section providing that leases shall be put up at auction.

Hon. Mr. Fleming said it was proposed to repeal the public domain act, which had been passed in 1906, but had never been acted upon.

Mr. Stewart (Northumberland) asked if that if the law at the present time was not that licenses should be put up at auction.

Hon. Mr. Fleming said that his hon. friend's point was well taken. He moved to amend the bill to provide that any acts or parts of acts, inconsistent with this bill would be repealed.

The bill was agreed to as amended. The House adjourned at 7 o'clock.

Neuralgia's Burning Pain Checked—Then Cured

Stronger Proof of Cure Could Scarcely be Found Than This.

WORST CASES CURED AT HOME.

"To be really cured of Neuralgia is a marvel to me," writes Davidson E. Plummer, from Kingston. "During the six weeks Neuralgia held me in its grip I suffered agony. When I had used almost every remedy, hope fairly died within me. Twice every day the attacks would recur. Had the pain been persistent I could not have borne it. I was away out in Alberta when the attack came, and was probably not robust enough for the conditions of life in that new country. I just had to suffer, as nothing seemed to subside that awful burning pain. But relief was coming all the same, coming thousands of miles, for some new people came in from the Maritime Provinces and they brought with them a number of the Catarhozone Company's medicine, among which was a dozen bottles of Nerviline. Hearing of my sad plight, they sent me two bottles. At first the effect of Nerviline seemed to fluctuate. Hope would rise, then followed despair, but within twenty-four hours Nerviline's victory was assured. The first bottle cured, and I am still well. The second bottle I have also used for colds, earache, toothache, sick headache and other internal disorders. I will never be without Nerviline again."

No home is either safe or complete without Nerviline. Family size bottles, 60c; trial size, 25c, at all storekeepers and druggists, or The Catarhozone Co., Buffalo, N. Y.

FINANCIAL AND COMMERCIAL NEWS AND COMMENT

CLOSING LETTER ON MONTREAL EXCHANGE

(F. B. McCURDY & CO.) Montreal, March 18.—The local market throughout the day showed an inclination to sell off rather sharply. The liquidation was in larger volume than the market seemed disposed to take care of in anticipation of the Easter holidays and, considering the amount of stocks sold, the declines were severe. Among the most active issues in the early trading were Dominion Steel Corporation, Montreal Power, Dominion Textile.

CLOSING STOCK LETTER FROM RANDOLPH

(F. B. McCURDY & CO.) New York, N. Y., March 18.—The market opened dull and heavy and continued so during the greater part of the day with weakness confined to specialties in the early dealings. New Haven opened at a new low record for the year and declines were soon repeated in such stocks as Goodrich, Beet Sugar, Woolworth, Corn Products, Preferred and Central Leather Preferred. During the greater part of the day the stand issues moved within narrow limits and without disposing any tendency either to advance or to retreat, but in the last three-quarters of an hour some selling pressure cropped up all along the line and under this pressure stocks sold off sharply. Union Pacific being the worst sufferer, but the action on the whole was very uniform, and other standard issues such as Reading, Steel, Copper suffered almost equally with Union Pacific. The liquidation of the day was made just before the close and the only activity of note occurred in the last half hour.

DEVELOPMENTS AFFECTING MARKET

(F. B. McCURDY & CO.) New York, March 18.—Adrianople offers to surrender on condition that the honors of war be allotted to the Turkish soldiers which the Bulgarians refuse. President Wilson issues a formal call for an extra session of congress to open April 7th. The tariff law is not to be revised by schedules but by one bill of sixteen sections. McReynolds says he has not considered the re-opening of the Tobacco case and that the Union Pacific merger dissolution plan will be his first important task. Trainmen's officials ask the railroad managers to fix a date for the beginning of negotiations for more pay. The subway contracts are reported ready to be passed today. A cable to the Financial American quotes an authoritative statement from Berlin to the effect that the German situation has been greatly misrepresented by French newspapers and that military expenditures are necessary and approved by the people. Information channels are conservative.

Marlin, Tex., March 18.—The New York Giants Regulars and Colts returned to Marlin at 5 o'clock this morning in jubilant spirits over their victories in Austin and San Antonio. The practice game this afternoon turned out to be an amusing slugging bee, the regulars winning 14 to 12.

GASPEREAU NEWS.

Gaspereau, Mar. 17.—The recent heavy rain has taken the snow off so that the lumbermen who did not have all their logs hauled out to the streams had to abandon the work. Mrs. Horatio Deminas, formerly of Westfield, has returned to her home after receiving news of the serious illness of her mother, Mrs. Fred Porter.

Was Afraid GOLD WOULD DEVELOP INTO Bronchitis.

Bronchitis begins with a tightness across the chest, difficulty of breathing, and a wheezing sound comes from the lungs. There is also a raising of phlegm from the lungs, especially in the morning. This is at first white, but later becomes of a greenish or yellowish color, and is occasionally streaked with blood.

On the first sign of a cold or cough take Dr. Wood's Norway Pine Syrup and prevent it turning to bronchitis, for once bronchitis gets installed into the system it is only a short step to Consumption.

It is with great success I have used Dr. Wood's Norway Pine Syrup. My little girl had a awful cold which seemed to go to her throat and chest, and while she was sleeping one could distinctly hear her wheezing. I was afraid it would develop into Bronchitis, so as soon as my husband came home I sent him right away to get a bottle of Dr. Wood's Norway Pine Syrup. As soon as she awoke I gave her a dose and continued to give it until she became quite better. We only used half a bottle. I will never be without it as I consider it invaluable.

GIVE THE NEEDY A BOOST-- TELLS HOW TO REACH HEAVEN

FITZSIMMONS JR., AND HIS FAMOUS DADDY.

New York, N. Y., March 18.—Bob Fitzsimmons—no longer the hairy conqueror of the prize ring, but a kindly frock-coated gentleman with a message—talked the other night to the motemen and conductors of the Paterson car lines. Five hundred or more carmen hung on his words, which would have sounded like platitudes if they had not come from a man whose most striking characteristic is that he lives his own doctrine.

It was long ago, anyway, as time is counted in the fighter's world, that Bob's fists were supreme. He says he had enough of that. The advice it might have been uttered by any professional guide to human beings—from Aesop, the old fable spinner, to a modern minister of the Gospel, "Avoid the easily acquired vices." Do not smoke cigarettes. Do not drink. Do not gamble. Do not associate with men who have won success without labor.

These are the doctrines which the aging warrior has ground out of his own success. They are identical with the maxims of the Y. M. C. A. gymnasium, with the advice of prosperous bankers to their clerks, with the confidential talks of most fathers to their sons. The former middle and heavy-weight champion of the world, as his title the glass of milk which is his customary toast, carries the evidence of his life programme in the glance of his clear eye, in the color of his firm cheeks. He lives his philosophy better even than he talks it.

On the car which carries Fitzsimmons daily to his home in Nutley, N. J., the prize-fighter fell into talk a few days ago with the conductor. Fitz began life in England as a blacksmith. The carman, it appeared, had worked in the machine shops. Both of them knew the trick of twisting white-hot metal into shape. More than that, they proved to brother Cornishmen. Years before in the little village at the southern tip of England where conqueror and car conductor both saw the light Stan Hunt had heard—only heard—of Fitz's mother. But the mention of her name was enough to the pugilist's heart has not ceased to ache, he says, since she died.

In a moment Hunt had been invited to visit the old Kingsland mansion in Nutley, where Fitzsimmons lives with his friend, Dan McGillicuddy. The conductor faltered, then said timidly: "I was going to ask you Thursday night to see a little play I wrote—a Cornish play. At the Railway Employers' Clubroom in Paterson. All the boys from the bars will be there. Would you—could you make it?" "Would it?" cried Fitz. "I'd go farther than Paterson to see a Cornish play. I'll be there in my evening clothes. I'll make you a little speech. Want me to?"

What He Said. This is what he said to the trolley men.

Ladies and Gentlemen: The life of the most fortunate men is seldom without a touch of the burden of poverty. Some are born poor, some die poor, some are made poor by un-

SPORTOGRAPHY BY "GRAVY"

Senior Joe Rivers is 21 Years Old Today—Engle, of Red Sox, is 29.

Senor Don Lito Jose Ybarra, better known under his ring alias of Joe Rivers, will arrive at manhood's estate, having been born in Los Angeles on March 19, 1892. Senior Rivers is now a happy benedict, having recently married the daughter of an Angel City contractor. His next important hour will probably be with Leach Cross, the Jewish dentist, whom he defeated in New York some time ago. Joe is by all odds the best Spanish-American scrapper in ring history, but there have been very few, the generality of Latin-American never having taken kindly to

GIANTS WON THE LEAGUE

The Y. M. C. A. Bowling League schedule was finished last evening when the Bulgarians defeated the Beavers by a score of 1,241 to 1,190. The Giants, of which team George Gumbin is captain, won the league by splendid consistent rollins. The Woodcocks being a good second. The prizes for the league consist of a splendid silver cup presented by Messrs. P. A. Drakeman and L. P. D. Tilley, M. P. P., and smaller silver cups, ten in all, to be presented to winners and for high averages, etc. Each team rolled fifteen matches and the total pinfall counted, the winning team being awarded one point. The following is the league standing:

Table showing league standing with columns for team names (Giants, Woodcocks, Midgets, Beavers, Bulgarians, Red Sox) and scores.

THIS DATE IN RING ANNALS

- March 19, 1892—Joe Rivers (Jose Ribera), Spanish-American lightweight, born at Los Angeles. 1906—Langford defeated Black Fitzsimmons in 11 rounds at Webster, Mass. 1907—Buck Pitottd held Ad Wolgast in 10 draws in 15 rounds at St. Joseph. 1909—Billy Papke had the best of Jim Flynn in 10 rounds at Los Angeles. 1910—Billy Papke knocked out Willie Lewis in 3rd round at Paris. 1911—Hugh Mehegan knocked out Young Kelly in 10th round at Brisbane, Australia. 1912—Luther McCarty knocked out Jack Harper in 1st round at Springfield, Mo. 1912—Fred Yelle defeated Louis de Pontbise, French, in 12 rounds at Boston. 1912—Young Shugrue knocked out Harry Phillips in 3rd round at Perth Amboy, N. J.

SHERIDAN TO REMAIN AN AMATEUR

Sportsman has always had great admiration for Martin Sheridan, a wonderful athlete and a sportsman, and a story that George Underwood (Springer) tells states the money offered for the ex-all-round champion. Underwood, to please a promoter, who saw something big in an all-round professional competition between Sheridan and Jim Thorpe, sounded the bell on the subject and here was his reply: "It looks as if the card would be a great drawing card, and it ought to pull a big gate. The money offered would come in handy to me. However, I am afraid that I will have to turn it down. In the first place I have been an amateur for so long and value my amateur standing too much to turn pro at this late date.

"In the second place it would take several months for me to get in condition for an all-round contest. I would not compete unless I was in condition to give the public a run for their money. I am in a position now where it would be impossible for me to get the time to train for an all-round contest. I have neither the time nor the inclination to again train for so grueling a match."

can's first professional bout was with Max Weber at Los Angeles, early in 1908, and he won by a knockout. He first tasted defeat in October, 1911. Max Weber was knocked out by Johnny Kilbane in 1909. Last year he was defeated by Ad Wolgast and Joe Mandot, but whipped Mandot in a return engagement. Joe says Mandot is the best man he has ever mixed with, but he also has great respect for the prowess of Knockout Brown, and considers Danny Webster a hard man to beat. Rivers declares that he whipped Wolgast last July. Joe's father was long a professional sprinter, and his elder brother was something of a boxer. He is five feet four, with the chest, shoulders, arms and neck of a middleweight, but from the waist down he is built like a featherweight. He has a reach of sixty-nine inches.

Clyde Engle, utility infielder of the Boston World's Champions, will celebrate his twenty-ninth birthday today. Engle is a native of Dayton, O., and first played professional ball with Augusta, Ga., of the South Atlantic League, in 1904. He went to Newark, N. J., in 1906, to the New York Americans in 1909, and joined the Red Sox the following year. Waiters were recently asked upon Engle by the Boston team. Clyde is assured of a permanent niche in the baseball hall of fame as the man who hit the fly that Snodgrass muffed.

B. S. C. TROPHY. The semi-annual tournament for the Brunswick-Balke Colander trophy will be rolled on Black's alleys on the 26th and 27th. Halifax, Fredericton and Y. M. C. A. have already entered and Calais, Moncton and Sussex are expected.

HENDRIX IS STAR PITCHER OF PIRATES

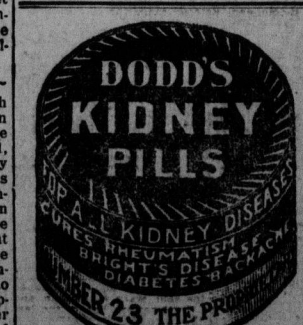

CLAUDE HENDRIX

Claude Hendrix, the star pitcher of the Pirates and the leading pitcher of the National League, does not think the terms offered by the Pittsburgh club are all that he is entitled to for the coming season. It is supposed that he received about \$3,000 last year, and thinks twice that sum would be about right for this year. Hendrix narrowly escaped serious injury a short time ago, when his auto turned turtle near "Dial's" Kar, his home. He was alone in the machine, and as it turned over he was thrown to the side of the road and out of the way of the falling car.

COSTLY AS SNODGRASS' BAD ERROR

Christy Mathewson, the Giants' wonderful pitcher, made some interesting comments in the Boston Sun after his defeat at the hands of Snodgrass in the last game of the World's Championship series in October. The great pitcher evidently thinks that other errors of omission were quite as important factors in the loss of that game to the Giants as the miff of the Cleveland selder. Here is what Mathewson had to say: "To my mind, there were two other plays which were as responsible for the Giants' defeat as the error made by Snodgrass. Both the others were errors of omission, however, and were not so conspicuous in the newspaper accounts of the game. One of these other plays was the failure of either Snodgrass or Fletcher to approach intimately a fly dropped into the outfield by Jake Stahl in the seventh inning when the Red Sox tied the score, and the other was the dereliction displayed by Merkle and Meyers in the instance of a little easy pop foul which fell down the first base line in the 10th inning. This was the product of Speaker's bat, and if it had been caught, the game would very likely have been saved to the Giants. As it was, he followed with a hit."

DRUNKENNESS CAN BE CURED. ALCAURA WILL DO IT

Alcaura the widely known treatment for Alcoholism can now be obtained at our store. It is guaranteed to cure or benefit, or money refunded. Remedy that has been tried by thousands and found to do just as it claims. Drunkenness is a disease. Those who are afflicted with the craving for liquor have to be helped to throw it off. Alcaura No. 1 can be given secretly in Coffee or food. Alcaura No. 2 is the voluntary treatment. Help your loved ones to restore themselves to lives of sobriety and usefulness and to regain the respect of the community in which you live. Only \$1.50 per box. Ask for Free Booklet. E. Clinton Brown, Drugist, St. John, N. B.

WON GAME IN LAST SIX MINUTES

Fredericton, March 18.—At the Arctic Rink tonight Marysville won from Fredericton in what promised to be the final hockey game of the season by a score of 9 to 6. Mike Murphy scored five of Fredericton's six goals, and the locals were leading by 6 to 2 six and a half minutes before time was up; then Marysville sent in seven goals in rapid succession and won the game. Scoring summary: First Period—1—Fredericton, Galoway, 17 minutes. 2—Marysville, F. Wade, 1 minute. Second Period—3—Marysville, S. Hovey, 4 minutes. 4—Fredericton, Murphy, 5 minutes. 5—Fredericton, Murphy, 1 minute. Third Period—6—Fredericton, Murphy, 3 minutes. 7—Fredericton, Murphy, 2 minutes. 8—Fredericton, McLean, 5 minutes. 9—Marysville, C. Hovey, 30 seconds. 10—Marysville, F. Wade, 30 seconds. 11—Marysville, C. Hovey, 3 minutes. 12—Marysville, C. Hovey, 30 seconds. 13—Marysville, Walker, 15 seconds. 14—Marysville, I. Wade, 30 seconds.

PHILLIES DEFEAT BALTIMORE.

Fayetteville, N. C., March 18.—The Philadelphia Nationals and Baltimore Internationals played their opening pre-season game here today. Philadelphia winning 15 to 12. Doolin's men defeated the Baltimore pitchers, Roth, Danforth and Smith for 17 hits. Baltimore made five hits. O. Llewellyn Seaton and Marshall.

SYRUP OF FIGS IS BEST FOR A CHILD

Every mother immediately realized after giving her child delicious Syrup of Figs that this is the ideal laxative, and physic for the children. Nothing else regulates the little ones' stomachs, liver and bowels so gently, so promptly, besides their hearty love its delicious fig taste. If your child isn't feeling well; resting nicely; eating regularly and acting naturally it is a sure sign that its little insides need a gentle thorough cleansing at once. When cross, irritable, feverish, stomach sour, breath bad or your little one has stomach-ache, diarrhoea, sore throat, full of cold, tongue coated; give a teaspoonful of Syrup of Figs and in a few hours all the foul, constipated, clogged up waste, undigested food and sour bile will gently move on and out of its little bowels without nausea, griping or weakness and you will surely have a well, happy and smiling child again shortly. With Syrup of Figs you are not drugging your children, being composed entirely of luscious figs, senna and aromatic, it cannot be harmful. Mothers should always keep Syrup of Figs handy. It is the only stomach, liver and bowel cleanser and regulator needed—a little given today will save a sick child tomorrow. Full directions for children of all ages and grown-ups plainly printed on the package. Ask your druggist for the full name, "Syrup of Figs and Elixir of Senna," prepared by the California Fig Syrup Co. This is the delicious, lasting, genuine old reliable. Refuse anything else offered.

SHORT COURSE IN FRUIT GROWING

R. P. Gorham, Assistant Horticulturist, Conducts Course of Practical Information for Fruit Growers of Charlotte Co.

A short course in fruit growing was held in the Ledge Hall, Dufferin, Charlotte county, on the 18th and 19th inst. It was conducted by R. P. Gorham, assistant horticulturist for the province, assisted by S. L. Peters, Dominion inspector for the province, and D. B. Fiewelling, of the horticultural staff.

The chief feature of Friday morning's session was the judging contest. A class of apples was shown, and those present were asked to award prizes for 1st, 2nd and 3rd places. After the essential points had been explained, the winners in this contest were Robert Donald, 1st; Paul Vroom, 2nd and Miss Elizabeth Donald, 3rd.

NEW MEMBERS ELECTED TO THE BOARD OF TRADE AT YESTERDAY'S MEETING

Two Hundred and Fifty Secured in Membership Contest were Elected Members of the Board Yesterday.

A meeting of the Board of Trade was called for yesterday afternoon and passed upon the names of about 250 new members who joined the board during the recent membership campaign.

OLDST RESIDENT OF KEENE CO. CELEBRATES 104TH ANNIVERSARY

Although He has Attained Great Age, Peter Campbell, of Ford's Mills, Can Read Without Spectacles.

Keene, N. B., March 17.—The funeral of Stephen Alexander took place Friday afternoon and was largely attended. Services at the house and grave were conducted by Rev. A. D. Archibald, and interment made in the Presbyterian cemetery.

Save Your Health

Most sicknesses that impair health have their start in quite ordinary ailments of the organs of digestion or elimination. Stomach, liver, kidneys, and bowels are quickly benefited by the action of BEECHAM'S PILLS

MAIL CONTRACT

SEALED TENDERS addressed to the Postmaster General will be received at Ottawa until noon, on Friday, the 25th April, 1913, for the conveyance of His Majesty's Mails on a proposed contract for four years, six times per week each way over Rural Mail Route No. 1 from Cambridge New Brunswick, from the Postmaster General's pleasure.

ROYAL HOTEL

ROYAL HOTEL, KING STREET, ST. JOHN'S, N. B. This Hotel is under new management and has been thoroughly renovated and newly furnished with Baths, Carpets, Linen, Silver, etc.

WAS WEAK AND RUN DOWN, NOT ABLE TO DO HER WORK

Many women get run down, and are unable to look after their household duties, owing to their nervous system becoming unstrung. Day in and day out they have to go through the same routine of work, sweeping, dusting, cooking, etc., and their work gets on their nerves, and they become run down.

Clear Your Skin

Unpleasant eruptions, pimples, face blotches are often cleared in a single night by the mild, antiseptic wash, the D.D.D. Prescription for Eczema. This soothing remedy drives out impurities and heals the itching skin as nothing else can.

SURE WAY TO REMOVE FRECKLES AND ERUPTIONS

Some women have skin of such texture they occasionally are annoyed by the unsightly appearance of freckles, slight eruptions or the lines. March winds usually play havoc with skins of that kind. In such cases if you will procure an ounce of common vasoline, add wax at any drugstore, apply this before retiring like cold cream, you can easily overcome the trouble.

EQUITY SALE

Pursuant to a decree of the Supreme Court in a suit between Margaret Robertson and James Gordon Forbes, Administrator of the estate of the late James Gordon Forbes, deceased, the following property is for sale:

PROVINCIAL

Moncton, March 18.—A sad case was reported to the police this morning when a woman residing on lower Lutz street, came to the station and said her husband had deserted her some time ago. Her two small children have since died.

Maritime—Fresh southwest... Toronto, March 18.—Milder weather has prevailed today from the lake region to the Maritime Provinces...

AROUND THE CITY

Another Land Company. The Canadian Consolidated Land Company is to open an office here. The company has acquired considerable blocks of land on the West Side of the harbor and intends to offer this for sale in lots in the real estate market.

St. John Girl Honored. Miss Margaret Gleeson, graduate of Fortham Hospital, New York, is visiting her parents on Main street, Fairville. After a short stay in the city she will leave for Baltimore where she has accepted a position as head nurse in the Johns Hopkins Hospital.

A Slight Fire. Shortly before ten o'clock last evening the Carleton fire department responded to an alarm from box 115. A fire had started in a shed in the rear of a house on King street extension, owned by John Gosline, but the blaze was extinguished before much damage was done.

An Interesting Lecture. Rev. J. B. Cropper, returned missionary from Demerara, returned a public meeting in St. Andrew's church this evening at eight o'clock. Dr. Cropper has had an experience of 18 years in this interesting country which was known as "the white man's grave."

The Kiddie Enjoyed It. A little girl, the daughter of Mrs. Edwin Thomas, was found on Brussels street last evening by Officer O'Leary, who took her to central station for protection. The little girl was made comfortable by the officers at central, and when she was called for by her mother about nine o'clock she was enjoying cake that one of the kind hearted policemen had given her from his lunch box.

Confirmation Last Night. There was a large congregation present at St. John's (Stone) church last evening for the confirmation of confirmation administered by His Lordship the Bishop of Fredericton to fourteen candidates. The Bishop addressed the candidates prior to the laying on of hands as to the nature of the rite, and during the offertory C. A. Munro sang the solo, "One Sweetly Solemn Thought."

His Rib Was Not Broken. Dominick McHugh was arrested in the North End Monday for being intoxicated, and was later allowed out on deposit for his appearance in court. He appeared in court yesterday morning and claimed that he thought one of his ribs had been broken during the time that he was under the influence. The Magistrate sent him into jail and Dr. D. E. Berryman examined the prisoner and found that he had a sore side but was not injured very badly.

Mrs. Elizabeth Elliott. The death took place yesterday at her late home, 44 Winter street, of Mrs. Elizabeth J. Elliott, aged 72 years. She was the wife of the late Edward Elliott and leaves two daughters and two sons. The daughters are Mrs. Fred E. Sturtevant, of New York, and Mrs. Charles W. Henderson, of Vancouver. B. C. The sons are Edward, of San Francisco, and Samuel S., of St. John. The deceased had been ill about a month of gastritis. The funeral will be held on Thursday afternoon.

Sailors Good Entertainers. There was a large audience at the Esplanade Institute rooms last night when entertainers from the steamships Letitia and the Empress of Britania gave an excellent performance. C. Olden, who is a composer and humorist, and Charles Neary, were especially pleasing in their acts, while the Highland dancing by Mr. Nicholson was exceptionally good. Others participating were F. Brooks, J. Seaton, R. Patterson, J. Duckers, Master Warner, while Jack Walker rendered some of his latest song hits in good style. Every performer was accorded Ed Clegg acted efficiently as accompanist on the piano. The entertainment was one of the best given in the Institute this season.

"Favolita" Program at Nickel. The Nickel is having three star attractions today in the film line—a Vitagraph with Marie Costello and Clara Kimball Young, a Lubin with Arthur Johnston and Lettie Briscoe and an Edison with Mabelle Trussell and Robert Neill. Read the big advt. and see the whole story. The Favolita is a riot every show—"best ever heard here." is the general verdict.

FUNERALS. The funeral of George H. Hughson was held from his father's residence, 69 Harrison street, yesterday afternoon at half-past two. Rev. R. P. McElin officiated and interment was in Cedar Hill cemetery.

The pathbearers were Woodford Scott, Walter Dunlop, Fred Stevens, Guy Nichols, Otto Mowry and Willie Grant, officers of St. Luke's Cadet Corps, of which he was a member.

CIVIL ENGINEER MURDOCH TELLS OF WATER SUPPLY

Explains Different Systems, in Lecture before Natural History Society, Last Evening—Shows Spruce Lake Water is of High Grade.

Under the auspices of the Natural History Society last evening an interesting and instructive lecture on "The Water Supply of a City," was given by Wm. Murdoch, city engineer. Dr. G. U. Hay presided. Unfortunately, the attendance was small, and those who did not attend deprived themselves of a very profitable evening's entertainment.

In preface to the lecture he quoted Seaman, a French savant, who commented on the proportion of earth and water of the globe is 99,998 earth and 0.002 water parts. The water of the Dead Sea, Mr. Murdoch said, is probably the densest known, containing 14,488 grains of solid matter per imperial gallon. The purity of the water of the Atlantic can be easily seen. It is considered that it contains only 2,688 grains per imperial gallon. As to Loch Lomond water, when St. John draws its supply of water, this contains but 2.6 grains of solid matter, and for distilled water 0.12.

The lecturer after touching upon the sources of the larger bodies of water on the earth's surface, pointed out that although water is understood to be the antithesis of fire, it consists of two gases, which, when applied for the purpose, produce oxo-hydrogen flame. This it has been reasoned and successfully tested that steam, raised to a very high temperature and then let loose, when very hot, upon some body which tends to unite with one of its elements, its oxygen for instance, as is the case with common fuels, the hot steam immediately sets the body on fire. The heat that is produced is most intense, and there is reason to believe that all the oxygen of the steam may unite again with all the hydrogen of the steam so that the whole result of the combustion shall be merely that the fuel is transformed by the intense heat into acetylene matter. And thus a furnace may be so arranged that while its heat is employed as usual in generating steam in the boiler for a steam engine, all the smoke shall be made fit for illuminating purposes and ready for being transferred into the gas meter.

He then touched upon the various devices employed by past generations for getting water, in 1581 Morice, a Dutchman, obtained a 500 year franchise to supply London with water under pressure, and he installed a pumping plant actuated by undershot wheels, at London Bridge. Bringing his hearers back to native soil, Mr. Murdoch traced the water service of this city back to the origin in 1898, when water flowed for the first time through pipes. In 1851 the Little River dam was built. The cholera epidemic of 1854 stirred the citizens to a realization of the necessity for a plentiful supply of water, and by an act of assembly provision was made for the appointment of "The commissioners of sewerage and water supply for the city of St. John (east) and part of the parish of Portland."

Several changes in the form and personnel of commissions occurred between then and 1899 when the water and sewerage board was constituted. He then dealt with the evolution which came about during these periods and the extensions in the service when very hot, upon some body which tends to unite with one of its elements, its oxygen for instance, as is the case with common fuels, the hot steam immediately sets the body on fire. The heat that is produced is most intense, and there is reason to believe that all the oxygen of the steam may unite again with all the hydrogen of the steam so that the whole result of the combustion shall be merely that the fuel is transformed by the intense heat into acetylene matter. And thus a furnace may be so arranged that while its heat is employed as usual in generating steam in the boiler for a steam engine, all the smoke shall be made fit for illuminating purposes and ready for being transferred into the gas meter.

SUNDAY SHAVES GRAMPAN UNDER THE BAN

Members of Barbers' Union will Ask Commissioners to Put Stop to All Sunday Shaving.

The Journeymen Barbers' Union No. 622, held an open meeting in their rooms, Opera House building, last night, when several new members were admitted. After the business of the union had been transacted, the meeting was thrown open for discussion. The journeymen barbers had issued invitations to the employing barbers in the city to be present and express themselves on the questions, or to listen to the discussion. Out of the forty or more employers in the city only two or three proprietors of tonorial establishments were present. Oscar Price, who is the proprietor of a shop in the North End, was the only one who was in favor of better prices for the work done and Messrs. Morey and Warren, two other proprietors, gave their views as in sympathy with the journeymen's movement.

In addition to having a better salary for members of the union, the union intend to send a committee to wait on the commissioners to attempt to have a by-law passed and enforced preventing any barber shop being opened on Sundays for business. A member of the union stated that there were shops open on Sunday mornings doing business by the side door and it was not fair to the shops without the side door, or to the barbers who would not do a Sunday business. If a man did not feel like shaving on Saturday night he would let his whisker grow until Sunday morning when he knew a side entrance where he could get shaved for paying perhaps double the regular price.

The union also wish that the shops hours be from eight o'clock in the morning until seven in the evening. That the shops close at eleven o'clock on Saturday nights, and that they be open until eleven o'clock on the night before a holiday and that all shops be closed on a holiday. The meeting was a very enthusiastic one, and a number of addresses were given by the members.

A HANDSOME WINDOW OF MILLINERY & ACCESSORIES

The great variety of trimming accessories which the new season presents and the charm of the millinery is beautifully brought out in the present display in M. R. A.'s Annex window. This is an exceedingly difficult thing as it was necessary to arrange the great mass of colors to blend perfectly and the finished window is, without doubt, the handsomest which this firm has ever shown. The ladies should not miss the opportunity of seeing this exhibit which includes the most desirable of the season's flowers, feathers and a few cleverly designed hats.

SPRING OPENING AND EASTER EXHIBIT OF MILLINERY AT M. R. A.'S.

Few springs have ushered in such a wealth of new millinery, and the best efforts of the leading designers of Europe and America will be shown at this opening display today and Thursday in the Millinery Salon, second floor. This will be an exhibit of more than ordinary interest, and every lady in St. John should plan to attend.

UGLY STORY TOLD POLICE MAGISTRATE

History of Disorderly House one of Debauchery and Depravity—Offenders Sent to Jail.

A story of depravity and debauchery was told in the police court yesterday afternoon, when George Goodwin was charged with being the proprietor of a disorderly house at 150 Brussels street. Mrs. Celia Nairn was charged with drunkenness, and with having been in the house Saturday night last when the police took a hand in the affair.

Police Constable Ross and Officer O'Leary were the officers who made the charges, and they gave evidence, while Goodwin with a black eye and the Nairn woman with a troubled expression on her face sat on the prisoners' bench and listened.

Officer Ross testified that the house was situated in Lawson's Alley, off Brussels street, and on Saturday night last there was a disorderly party in the house. When he and Officer O'Leary got to the door, they heard a disturbance going on and some very bad language being used. Goodwin's aged mother, who was almost blind, was in the house, and during the disturbance she was struck on the head and injured.

The place was dirty, and in addition to Goodwin, his mother, Herbert Addison, James Taylor, Mrs. Murphy and Mrs. Nairn were in the house. While the officers were at the door in the alley they heard a couple coming towards the door, there was a scuffle and then one of the party fell to the floor. The door opened and Mrs. Nairn came out. She was drunk and the officers had to assist her down the stairs to save her, and then reported Goodwin for keeping the disorderly house.

Police Constable O'Leary stated that Goodwin did not work regularly, and that his mother would beg for food, while the big lazy son would remain in the house a loafer. Goodwin, when asked by the court what he had to say for himself, asked the court to have mercy on him and allow him to go home to his mother. He would try and get work. He said that Mrs. Murphy had only made a house on Brussels street on Saturday night, and brought his mother some flour. He said that Mrs. Nairn had been there for a few days looking after his mother, who was ill, and that he never saw her drinking before.

Officer Ross informed the court it was only a short time ago that he saw Goodwin and Mrs. Nairn coming out of a house on Brussels street that had been kept by Mrs. Thomas. The Thomas woman since had been sent to jail on the charge of keeping a disorderly house. Magistrate Ritchie said that the best place for the old woman would be in the Alms House, and as for the son, the best place for him was in jail. The prisoner was then remanded to jail, and His Honor gave instructions that word be sent to Secretary Wetmore to look into the matter regarding the old woman. As for Mrs. Nairn her face was a familiar one to those in the police court, and His Honor told her that it would have suited her much better if she had been out looking for work instead of getting mixed up in such a racket. She was sentenced to jail for six months, and at the expiration of that term she is fined \$50 or an additional three months in jail. It looks as if Celia will spend the nine months in jail, and that will bring her out in time for next Christmas.

POLICE HEAR OF PATHETIC CASE

With Little Child, Pond Street Woman Pleads for Release of Man in Jail on Drunkenness Charge.

A woman who claimed Pond street as the section of the city where she resides, called at the police court yesterday afternoon, accompanied by a little girl nine years of age. The woman said she was not the mother of the child, but she came to the court to say she could not get the little girl's father liberated from jail. The woman stated that the little girl was the oldest of eight children and her mother was sick at home, and unable to come to the court and plead for her husband's release. She claimed that the wife of the prisoner was a good woman and worked hard for the family when she was able to do so. While she was working the husband looked after the household duties. At the present time the poor woman was ill and the family practically in a destitute condition. Should the man be liberated from jail, where he had been sent for drunkenness he would perhaps get to work and be of some assistance to his family who were now in the greatest need of help.

Magistrate Ritchie told the woman that she should not have brought the child to the police court as he did not approve of children being brought into court unless it was necessary. He said it was a shame that the man who had a wife out working to support him and eight children should fall so low as to get drunk on money that he should have used for the maintenance of his wife and little ones. His Honor told the woman to take the little girl home and he would have inquiry made into the matter.

Among the passengers arriving in the city was Mrs. Garland of Montreal, sister of Captain Mulcahy of the journey by her eighteen months old child, who became a great favorite among the rest of the passengers, by the known name as "The Grampian Baby."

The passengers list to St. John included 212 first, 241 second and 322 third class passengers. The C. F. R. liner Monmouth, which was docked at No. 1 wharf, Sand Point, pulled out yesterday afternoon about 4:30 o'clock. The steamer carried a general cargo, taking no passengers, and sailed for London, direct.

Kid Gloves for Easter. Every lady who expects to wear a pair of new kid gloves on Easter and the opportune sale which F. A. Dykeman & Co. have on this week will give them an opportunity to buy them at a great saving and, as they stand back of every pair that they sell with a liberal guarantee, it is quite natural for the ladies to think of their stores when they want a pair of kid gloves. Even the 69 cent, two dome fastener kid gloves have this liberal guarantee and their beautiful kid gloves, which is a very fine quality of French manufacture, is said to be the best glove on the market for the money, price \$1.10. The beautiful kid gloves, which they are selling this week at 75 cents, is the regular \$1.00 quality and is particularly good fitting and a good wearing glove.

Athenia Brand Ready Mixed Paint

Emerson & Fisher, Ltd., 25 Germain Street

FORMAL OPENING OF Spring Millinery

TODAY AND THURSDAY A Peerless Exhibit of Charming Styles Offered in Extensive Array for Easter Wear

We cordially invite your inspection of this exposition of Spring Styles—distinctively clever creations representing the choicest ideas gleaned from the fashion centres of Europe and America.

Paris has decreed that small hats will be the height of fashion for the demi season but the opinion of the best milliners being that when the full season is reached the larger hats will also be brought into prominence. Just now however hats of limited size are the vogue and a great many we show have soft satin or maline crowns which cling and shape to the head. There are also an abundance of others in fine, flexible Milan, Tagal, Pedal, Pior and Belgian straws, worked into all manner of bewitching forms—each hat a perfect gem of loveliness.

Bright colors are a feature including Cerise, Labrador Blue, Copper, Violet, l'Habit Vert, Vatica, Lime, Citron, Mimosa, Coque de Roche, Saxe, etc., trimmed in original effects utilizing flowers, feathers, ribbons, braids, bandeaux, jet ornaments and other accessories, in handsome and harmonious treatment.

A wondrous collection of irresistibly beautiful headwear in great enough variety to suit every type of femininity. You may come with the certainty of gaining a wealth of style information and in all probability you will find the very hat required to complete the Easter outfit.

MISSSES' AND CHILDREN'S MILLINERY in the most effective of the new styles. MILLINERY ACCESSORIES including Paradise, Osprey, Aigrette and Ostrich in all the new shapes and mounts. Bands in Bulgar colorings; choice Flowers of all kinds, also Bandeaux, Cabachons, etc.

Opening Today and Thursday, March 19 and 20 MILLINERY SALON

Manchester Robertson Allison, Limited
