MANUAL TRAINING.

This Branch Will be Ably Presented by T. B. Kidner, Director for N. B.

The Northumberland Teachers' Institute meets here on Thursday and Friday of this week and it is expected a large number of teachers will attend.
Arrangements have been made for the holding of a public meeting in the Opera House Thursday evening when Mr. T. B. Kidner, Director of Manual Training of New Brunswick will deliver an address on this interesting department of present day education. All citizens are invited to attend as this address will, we believe, open the agitation for the establishment of a manual training class in Newcastle.

The Transfer of the William Richards Company property on the Miramichi, which was to have been made between the 15th and 20th of last month, has not taken place as yet and so far as can be learned the deal has been tied up owing to some inquiry which has been in progress concerning the title to some of the property.

Mr. McMullin of St. John, factory inspector, was in town last week. He had been inspecting the mills and factories on the North Shore, visiting Campbellton, Dalhousie, Bathurst, Tracadie, Chatham and Newcastle. In conversation with the Advocate Mr. McMullin said he had visited all the mills and factories in this territory and he had been well received. This was a preliminary trip, principally to leave copies of the act and inspect owners what alterations would have to be made so that everything could be put in order for next seasons work.

The members of the Roman Catholic congregation of Richibucto last Sunday night, after vespers, on the eve of Father Bannan's departure for his new parish, Barnaby River presented him with an address and gold chalice. The French address was read by Mr. F. J. Robidoux, and the English address by Mr. A. E. O'Leary. Father Bannan replied at some length, both in English and French, stating that as parish priest of Richibucto he had endeavored to fulfill his duties to the best of his ability and without regard to nationality or race. Going away from Richibucto, where he had spent nearly twenty five years of his life as a priest, he would carry with him to his new field of labor the warmest and most pleasant recollections of the people of this town, and he would not forget them at Mass.—Richibucto Review.

MORE BIG GAME HUNTERS

Return From Miramichi Woods With Big Game

MANY BEARS

Season Public Works Dept. Met Average and Hunters are Delighted

(Fredericton Herald)

Two distinguished sportsmen from Pennsylvania, passed through the city yesterday en route to the Northwest Miramichi, where they will hunt big game for a few weeks under the guidance of Mr. Arthur Pingle. They were Dr. Maurier of Shomakin, and Mr. Morris Williams, president of the Pennsylvania Coal Company of Philadelphia. While here they were entertained to a drive about the city by Mr. W. T. Chestnut.

Mr. Halfonstein, Penn., passed through the city a few days ago on his way home from a hunting trip to the Bald Mountain country. He secured a caribou, with antlers carrying twenty-seven points, also a deer and three bears. He saw sixty caribou altogether and twenty three moose, but failed to find one of the latter with a head large enough to suit him.

Mr. William Allen, a Penna. farmer, shot a good sized moose in a field near his home one day this week. He had seen the animal in the field a number of times during the past month, and took out a license especially for it, feeling confident that he would get a shot at it soon.

Mr. H. F. Mason of Washington, who left here a few days ago for the Sisson branch of the Tonawanda on a hunting trip, will return by the Gibson train this evening. This morning he wired that he had been successful in securing a moose and caribou. He had Mr. Robert Barr of Macquarie for guide.

Seven American sportsmen returned to the city by the I. C. R. Express today after a two weeks' hunting trip in the Miramichi woods. The most successful of the lot was Carl Pickett of New York, who secured a moose, a caribou, two deer and a bear. He hunted on the Ungava with Dorris Manderville as a guide.

Henry Dunston, of Philadelphia, William Whitney, of New York, and F. L. Janny, from Philadelphia, each shot a moose.

Count Thebaud and party, who were hunting on Little River, were unsuccessful.

CHASED BY BULL MOOSE

Two Bold Hunters Hunted by an Infuriated Bull—They Shot at Him and Fled.

Moncton, N. B., Oct. 2.—It is reported that two young men belonging to Paines Junction had an exciting chase by a bull moose yesterday. The young men went into the woods near Paines Junction in search of partridge and unexpectedly came upon a bull and a cow moose lying down. They put a charge of shot into the bull and the latter, infuriated, chased his tormentors. The hunters ran for their life and barely had time to reach a lumber camp and climb to the roof when the moose came up. The report says the animal tramped about the shanty and kept the young men there for four hours.

After the grand jury had been discharged at the Kent Circuit Court Tuesday, the Clerk of the Court, R. Hutchinson, K. C., on behalf of the bar of Kent Co., welcomed Solicitor General Jones to the County. It being his first professional visit there. The Solicitor General responded briefly and the court adjourned sine die.

PARTRIDGE SCARCE

Two Years of Protection Did Not Protect—Rev Mr Henderson Resigns

From Our Chatham Correspondent

A sudden death in the person of Thomas Fountain age 58 took place at his home here on Sunday morning. His remains were forwarded to Halifax for interment to day.

Richard's mill is shut down for the season. Snowball's mill is shut down for a few days on account of shortage of logs.

A raft of four thousand pieces was being towed from Tatousintac, when a heavy squall caught the raft at the light, so called, and a heavy wind blowing the logs parted, saving only saving about two thousand pieces.

Our game warden here has issued over one hundred Game Licences to date, all local, and he expects to double that number before the season closes in December next.

Partridge are scarce.—It is generally supposed that hawks and owls, which are plentiful are chief depredators, a bounty on twenty five cents for each bird would soon cure this pest. Foxes in and near Partridge woods, are also the enemy of Partridge.

Mr. C. P. Johnson, the greatest nimrod of the day, with Petrie's dog, formerly got over one hundred birds of a season, he thinks after two years protection he will not get a third of his usual sport. Several moose have been killed some ten in all. Of course the heavy foliage in the forests yet is good cover for the animals the ones shot are those who are fooled with "Sullivan's Call".

The celebrated Land case which has caused such a sensation at Loggieville has had its second trial at Chatham Public Hall. The Judge in his wisdom ordered all interested to visit Loggieville and ascertain the exact trouble which they did and further postponed the trial, to be held in St. John, when all interested are to meet there. Costs in this unfortunate case are well into the thousands.

Rev. Mr. Henderson, has resigned his charge at St. Andrew's Church taking effect on January 1906.

Rev. Mr. Young, of Mill Bank, officiated last Sabbath at evening service in St. Andrew's. His effort was good, the material is there for a brilliant future.

Rev. Mr. McKay, Tatousintac was a guest at the Manse Sunday last.

F. Eddy shot a moose and caribou, the latter has a fine spread of antlers, all went to Fredericton to be mounted. Fred must be a good shot to get both animals, while his two chums one with a \$25.00 license got none.

AMERICAN CRUISER ASHORE.

Tokio, Oct. 2, 2.40 p. m. —The Japanese steamer Taiwan reports at Moji that when passing Hime Island, off the Bungo coast at 1 o'clock this morning, she found an American cruiser around there. Hime is a small island of the Goto group, about three miles due east of Nagasaki.

Dr. Drummond is an ardent sportsman and next Thursday he will go to Chatham gunning for woodcock, a species of game he freely admits calls for higher skill with the gun than he possesses. He says that at present he has no literary plans. His last book, The Voyagers, has been a great success. The flattering notices of it in the English papers have pleased the doctor immensely.—Telegraph.

His Own Voice at His Burial.
Herr Paul Turon of Teschen, in Austrian Silesia, sang a hymn at his own burial the other day. He had intoned the hymn into a phonograph shortly before his death and directed that it should be reproduced at his funeral service. This was carried out by his heirs, who under the terms of Herr Turon's will had to sacrifice \$500 of his estate to a charity if they failed to comply with his wish.

Fifteen Million Candlepower.
St. Catherine's lighthouse, Isle of Wight, has just been fitted with a flashlight which is estimated to be equal to 15,000,000 candlepower, and on nights when the atmosphere is favorable its beam probably is visible from the French coast. The new light is immensely more powerful than the old one, which was of about 3,000,000 candlepower.—London Globe.

"Run Down System"

The solid parts of our bodies are continually wasting away, and require to be repaired by medicinal substances, that restore the lost vitality. There are only two methods of building up the run down system. You can consult the physician, or commence treatment with Dr. Slocum's famous remedy, "Psychine." In all probability "Psychine" will be the best remedy, and the cheapest in the end. Stores of medicinal men advise its use in the worst cases of decline and weakness. It is an invaluable tonic, pleasant to the stomach, builds up the run down system, strengthens the nerves, sets the liver right, cures dizziness and headache, creates appetite, and is an all round family medicine, used by thousands of men, women and children in every part of the Dominion. Ask druggists about it.

While the pulp business in this province has not yet won a settled place among successful industries the manufacture of pulp and paper in Maine is constantly increasing. The state board of trade reports that extensions and additions have been made to the mills at Rumford Falls and at Livermore Falls. The St. Croix Paper Company is erecting a big pulp mill at Sprague's Falls, and the American Publisher's Company are building establishments at Bar Mills, Steep Falls and Hiram on the Saco River.

MORE APPLICANTS FOR SENATORSHIP

The political writer of the New Freeman last week in speaking about the senate vacancies has quite a little to say on this interesting situation. Hon. John Costigan, says the writer, is still in the field. In case an arrangement could be made whereby Mr. Costigan would relieve the premier from carrying out his promise, the names of several other Irish-Catholics are mentioned, among them being J. H. Barry, K. C. of Fredericton. The claims of John Morrissey M. P. of Northumberland Co. also recognized, and another favorable mentioned is Warren C. Winslow. In St. John there are Mr. Lantulum and Richard O'Brien. In French-Canadian circles, three prominent candidates are Hon. O. J. LeBlanc, Dr. E. T. Gaudet of St. Joseph and Hon. Mr. LaBilloy. A late report, this writer says, is quite interesting. Premier Tweedie is stated as the successor of the late Senator Dever. This would permit of the reconstruction of the local government with Hon. C. W. Robinson of Moncton as premier.

THE END OF AN EXPERIMENT

The recent exploit of the Doukhobors, when between thirty and forty men, women, and girls made a bonfire of their clothes and started to march in Edenic procession through the streets of Yorkton, has finally exhausted the patience of the Canadian Government, and hereafter the members of that picturesque sect will cease to be the petted wards of the nation. The Doukhobors were imported into Canada some years ago and settled on a large tract of choice land, with other tracts reserved for their future overflow. The innocent victims of Russian oppression forthwith began to display characteristics that annoyed their prosaic Saxon neighbors. They were subject to periodical fits of aversion to clothes and work, which they considered twin legacies of the fall of man. When they would burn their garments and farming tools, leave their cattle and horses to starve, and march off across the country in search of the Holy Ghost, the Canadians murmured. It was also hinted that the leaders practised polygamy. Finally it has been decided at Ottawa that the Doukhobors shall be coddled no longer. The lands reserved for them have been opened to general settlement, and further premature attempts at introducing the conditions of Paradise in latitude No. 51 are to bring the same penalties that would follow similar conduct on the part of anybody else. The men who took part in Yorkton demonstration have already gone to jail, and their leaders have been declared insane and transferred to an asylum. Henceforth the importation of freak colonies for benevolent purposes will be discouraged in Canada.—Colliers Weekly.

REFORMS ON THE I. C. R.

While Mr. Emmerson's talk with the men representing the various Brotherhoods has been productive of some good, it is safe to say that had the threatened cut of 20 per cent in the mens wages been broached, Mr. Emmerson would have found himself up against a solid opposition and a general tie up of the road would have been the result. It is not true that the rank and file of the men on the road are satisfied with the proposed changes for they are not. Here and there you run across

a violent party man who can see nothing wrong in anything that has a party tinge to it. But the majority of the men are thinking men, and they resent the imputation that they have been the main cause for the deficits on the I. C. R. A good many of the men do not hesitate to say, that there are too many officials and that if any cut should be made it should be made among this class. If the road was handed over to Mr. Pottinger and he was given a free hand the road would soon be a paying property. It would be an easy matter to make ends meet if the road was conducted as a business proposition but it is not, and it is not fair to throw the blame upon the men, when it belongs to the politicians, that the road does not pay. The item of detention was unusually large says the Minister. Of course it was, and there is some excuse for this especially during the past winter. But in this case the blame should not rest upon the train crews. There is no good reason why closer connections should not be made, and crosses more close with the long sidings now on the road it should be the despatchers duty to see that every train goes as far along on its route as it can before being held up for a cross.

There is no reason why a freight train should wait an hour before going on its way. A little brushing up in this branch of the service would result in the cutting down of the detention bill. There is a general feeling that the attempted reduction in the staff has been begun at the wrong end of the line. Why begin upon the poor section man, upon whose good work the safety of the travelling public depends. It must be because he has no political pull. And this brings us to Mr. Butler, who is coming in for the blame of the dismissals that have been made, and which eventually will result in the dismissal of Mr. Butler. It always turns out that way when any person attempts any reforms upon a government road. They don't last; they can't last. A few dismissals and then a politician with a pull gets after the reformer and he goes the way of all would be honest men. Harris Russell et al. he resigns. Yet the consultation with the men was a good move, only it came a little late. If a general conference was held with the men twice a year it would result in putting the road in better shape reducing the expenses and would in the end be the right way of freeing the road from political influences.—Lailway Record.

FOR BOTH

One disease of thinness in children is scrofula; in adults, consumption. Both have poor blood; both need more fat. These diseases thrive on leanness. Fat is the best means of overcoming them; cod liver oil makes the best and healthiest fat and

SCOTT'S EMULSION

is the easiest and most effective form of cod liver oil. Here's a natural order of things that shows why Scott's Emulsion is of so much value in all cases of scrofula and consumption. More fat, more weight, more nourishment, that's why.

A Royal Household Flour . . . Traveller

hears some funny stories about flour sales as he goes from place to place.

He hears about the flour that makes good bread, but is hard to work with, and of that which makes only a tolerable loaf but gives no trouble at all. Identically the same flour in both cases only each case represents a different point of view. He also hears of Mrs. Jones who makes all her bread and pastry from

Royal Household and cannot understand why any sensible women could be bothered with the ordinary kinds. And then he hears of Mrs. Smith who thinks Mrs. Jones' bread is nice enough but prefers her own which isn't nearly as good.

He hears of a man who sent twenty miles to get a barrel of ROYAL HOUSEHOLD because there wasn't any to be had in his own town at the moment, and he also hears of the hotel cook who tried one baking and wouldn't have any more.

Going deeper into the last story, he learns that that hotel man had the flour baked elsewhere and that it beat any bread his own cook had ever produced from any other flour; and so he goes and so his stories grow until he often asks himself.

I wonder what will be next.

A NATIVE OF NEW BRUNSWICK.

Death at Shiloh—Outbreak of Typhoid.

Durham, Maine, Sept. 24.—An outbreak of typhoid fever at Shiloh has already caused one death, and there are seven or eight new cases on the hilltop.

Miss Lottie White, aged 20, a native of New Brunswick, is the first to die from the disease. Her parents have been notified and will take care of this body. It has been reported to the Durham Board of Health that these who are ill with typhoid fever are denied medical attention, and the Board is planning to investigate the charge.

At present it is claimed the only articles of food to be had in Shiloh are sweet corn, potatoes and tomatoes. One Durham man has offered to furnish free transportation to any Shilohite to his former home, provided he makes a public statement of the true condition of affairs at the "Kingdom."

S. S. CONVENTION
AT TABUSINTAC

Interesting Session: Held at Tabusintac Last Tuesday Evening

On Tuesday evening Sept. 26th a convention of the S. S. Workers of the parish of Alnwick was held in the Presbyterian church at Tabusintac. Considerable disappointment was felt on account of the Field Secretary's absence. However, after the meeting was opened with Rev. E. S. Weeks in the chair, Rev. Mr. McKay gave a very interesting and helpful address on S. S. Work. An open conference then followed which was participated in by several of those present and at the conclusion of the meeting it was unanimously agreed to invite our Field Secretary to visit us at a later date.

On Sunday last Oct. 1st Rev. J. S. Gregg of Derby occupied the pulpit of the Methodist church and spoke with much acceptance and he also conducted the Sacramental service which was exceptionally well attended. Mr. Gregg returned home on Monday evening, but was too late for the S. S. Convention at Millerton.

"Say," roared the irate citizen as he rushed into the office of the village weekly, "where's the editor?"

"Want to see him personally?" queried the office boy.

"You bet I do," answered the i. c. "I'm going to thrash him within an inch of his life. See?"

"Oh, all right," answered the boy.

"Just have a seat, please. There are three others ahead of you."
