[No. 16—1897.]

REPORT
OF THE
SECRETARY OF STATE
OF CANADA

FOR THE

YEAR ENDED 31st DECEMBER, 1896.

To his Excellency the Right Honourable Sir John Campbell Hamilton-Gordon, Earl of Aberdeen, G.C.M.G. &c., &c., &c., Governor General of Canada:—

MY LORD,—I have the honour to lay before Your Excellency a statement showing the operations of the Department of the Secretary of State for the year ending 31st December, 1896.

Accompanying this report are the following appendices—

A. Report of the Deputy Registrar General of Canada, comprising a summary of the work done in the Registry branch of my department; a list of Commissions issued to public officers; and a statement showing the companies incorporated by letters patent under "The Companies Act," with the powers, capital stock, &c., of each company during the year.

B. A list of Consular appointments in the Dominion recorded in the department during the year.

C. Schedules of returns to addresses and orders passed by the Senate and House of Commons of Canada during the session of 1896, received and prepared by the department and presented through the Secretary of State, with indexes.

D. Summary report of the work done in the Records branch of my department.

E. List of persons to whom passports have been issued during the past year.

F. Statement of election held under "The Canada Temperance Act," during the past year, giving the number of votes polled for and against the Act.

G. List of the Revising Officers holding office under the Electoral Franchise Act.

H. List of the officers, clerks and servants of the department with dates of appointment, rank and salary in each case.

The report of the Board of Civil Service Examiners for the year 1896, required by section 58 of the Civil Service Act, has been prepared and will be submitted as a separate report.

The Civil Service List of Canada, for the year 1896, showing the names, dates of appointments and promotions, ages, years in the service and salaries of all persons employed in the several departments of the service and in the two Houses of Parliament, as the same stood upon the 1st July last, has been published and distributed.

The following is a statement of fees received during the financial year ended 30th June, 1896.

The work devolving upon my department in connection with the administration of "The Companies Act," was largely in excess of that of any previous year as will be seen by a reference to the list of companies incorporated. It will be observed that the number of charters and of supplementary charters granted during the year was ninety-one, showing an aggregate capital stock of \$11,952,000, and representing well nigh every branch of industry.

In expressing my satisfaction with the manner in which the officers of my department have discharged their duties, I may refer especially to the long and faithful services, extending over a period of nearly forty years, of Mr. L. A. Catellier late Under-Secretary of State, to whom Your Excellency was pleased to grant the usual retiring allowance in the early part of the year.

I have the honour to be, My Lord,

Your Excellency's obedient servant,

R. W. SCOTT,

Secretary of State.

APPENDIX E.

SUMMARY REPORT OF THE WORK DONE IN THE RECORDS BRANCH
DURING THE YEAR 1896.

The files, registers, index, and letter books of 1893 were received from the Correspondence Branch early in the year. An inventory thereof was immediately made which shows that seventy six files entered in the registers were not amongst the papers received, of which thirty-nine were unaccounted for. This was duly communicated to the then Acting Under Secretary of State.

The convict files of 1894 were received at the same time. The deficiency in this delivery was five files unaccounted for and forty-seven files charged to the Department of Justice.

In section B of the Records Branch there were received during the year two hundred and twenty-four requisitions necessitating eleven hundred and three searches, fifty of which were unsuccessful and one thousand and fifty-three successful.

The communications and deliveries made include eight hundred and twenty-eight files and two hundred and twenty-five printed documents.

In section C, the work of indexing the papers of the first period has been continued for the greater part of the year.

Eighteen thousand seven hundred and sixty-two papers have been indexed and arranged in four thousand four hundred and forty-one new files.

Of the several other works undertaken during the year and in course of execution it is not deemed expedient to make any mention before they are completed.

A. AUDET,
Keeper of Records.

OTTAWA, January, 1897.

Department of the Secretary of State.

APPENDIX F.

CANADA TEMPERANCE ACT.

The only election under the Canada Temperance Act, during the year 1896, took place in the county of Westmoreland, N.B., upon a petition for the revocation of the Order in Council, by which the Act was brought into force in that county. The election resulted in the defeat of the petition, the votes being, for the Act, 2720. Against it, 2443.

APPENDIX No. I.

CHAPTER 17.

(Revised Statutes of Canada.)

An Act respecting the Civil Service of Canada. A.D. 1886.

(As amended by 51 V., c. 12; 52 V., c. 12; 55-56 V., c. 14; 57-58 V., c. 18, and 58-59 V., cc. 14 and 15.)

HER Majesty, by and with the advice and consent of the Senate and House of Commons of Canada, enacts as follows:—

SHORT TITLE.

1. This Act may be cited as "*The Civil Service Act.*" Short title. 48-49 V., c. 46, s. 1.

INTERPRETATION.

2. In this Act unless the context otherwise requires,—
(a.) The expression "Head of a Department" means the Minister of the Crown for the time being presiding over such department;
(b.) The expression "Deputy," "Deputy Head," or "Deputy Head of the Department," means the Deputy of the Minister of the Crown presiding over such department, and also includes the "Auditor-General," in all cases in which such meaning is not inconsistent with his powers and duties under "*The Consolidated Revenue and Audit Act.*" 48-49 V., c. 46, s. 2.

CONSTITUTION OF THE CIVIL SERVICE.

3. The Civil Service, for the purposes of this Act, includes and consists of all classes of employees, elsewhere than in the North-west Territories, in or under the several departments of the executive government of Canada and in the office of the Auditor-General, included in the schedules A and B to this Act, appointed by the Governor in Council or other competent authority before the first day of July, one thousand eight hundred and eighty-two, or thereafter appointed in the manner provided by the Civil Service Act for the time being in force, and such officers and employees in the North-west Territories holding positions, which, if held in other parts of Canada, would bring them under the provisions of this Act, as the Governor in Council brings under the provisions hereof. 48-49 V., c. 46, s. 3.

Of whom the Civil Service shall consist.

As to North-west Territories.

Two divisions.

Inside division

Outside division.

Regulations to be made by Order in Council.

Governor in Council to determine number of employees.

If the actual number exceeds that allowed.

4. The service shall be divided into two divisions :—

The first or inside departmental division shall comprise employees of those classes mentioned in schedule A, employed on the several departmental staffs at Ottawa, and in the office of the Auditor-General :

The second or outside departmental division shall comprise employees of those classes mentioned in schedule B, and who are employed otherwise than on the departmental staffs at Ottawa. 48-49 V., c. 46, s. 4.

5. The Governor in Council may, from time to time, make general rules and regulations, not inconsistent with the provisions of this Act, respecting the appointments and promotions of the officers in the Civil Service and all other matters pertaining thereto. 48-49 V., c. 46, s. 5.

6. The Governor in Council shall, from time to time, determine the number of officers, chief clerks, clerks, messengers and other employees that are required for the working of the several departments in each division of the Civil Service, but the collective amount of the salaries of each department shall, in no case, exceed that provided for by vote of Parliament for that purpose :

2. If the number of employees then attached to any department in either division thereof is greater than the number allowed to the department, as herein provided, the Governor in Council shall name the persons to fill the several offices ; and the remainder shall be supernumerary clerks, without being eligible for increase of salary, of that class respectively in which they rank, and shall so remain until promoted in the manner herein provided or until severed from the service 48-49 V., c. 46, s. 6.

7. *Repealed* by 51 V., c. 12, s. 1.

BOARD OF EXAMINERS.

Board of examiners of candidates for the service : their appointment and duties.

Salary of clerk.

And of members of board.

8. A board of examiners shall, from time to time, be appointed by the Governor in Council, who, for the purposes of this Act, shall be known and are hereinafter referred to as "The Board," consisting of three members ; and they shall examine all candidates for admission to the Civil Service, and give certificates of qualification to such persons as are found qualified, according to such regulations as are authorized by the Governor in Council for the guidance of the board : 48-49 V., c. 46, s. 8.

2. The Governor in Council may appoint a person who shall be clerk to the board, at a salary not exceeding seven hundred dollars per annum :

3. Each member of the board shall receive such salary, not exceeding four hundred dollars per annum, as is fixed by the Governor in Council. 52 V., c. 12, s. 1.

Secretary of State—Civil Service List.

4. The members of the board, while engaged in their work, shall be paid such travelling expenses as are determined by the Governor in Council: Travelling expenses.

5. Such persons as are selected by the board to assist them in the conduct of examinations shall receive such sum, not exceeding five dollars a day, as is fixed by the Governor in Council: Assistants.

6. The meetings of the board shall be held at such times, and the proceedings thereof shall be governed by such rules and regulations as the Governor in Council, from time to time, determines: Meetings.

7. The board shall be supervised by the Secretary of State. 48-49 V., c. 46, s. 8. Supervision of board.

9. The board may obtain the assistance of persons who have had experience in the education of the youth of Canada, and with such assistance shall hold, or cause to be held, periodical examinations for admission to the Civil Service, in the cities of Halifax, St. John, N.B., Charlottetown, Quebec, Montreal, Ottawa, Toronto, Hamilton, London, Winnipeg, Victoria and such other places as are determined by the Governor in Council; it shall not be necessary to hold such examinations in all the said places, but the times and places at which the examinations shall be held shall be determined, from time to time, by the Governor in Council; examinations shall, as far as possible, be in writing, and the cost thereof shall be defrayed out of moneys previously voted by Parliament for that purpose. 48-49 V., c. 46, s. 9. Who may be appointed as assistants. Places and times of examinations. Expenses, how paid.

2. Whenever the board are satisfied that any irregularity or fraudulent practice has obtained at any examination held by them or by any person deputed by them to hold the same, they may summon before them by an instrument signed by the chairman or acting chairman of the board, and may examine under oath or affirmation, any person who, in their opinion, is in a position to give evidence in relation to any such irregularity or fraudulent practice: Inquiry as to irregularities at examinations. Summoning and examining of witnesses.

(a.) If the person so summoned does not appear at the time and place appointed by such instrument, the chairman or acting chairman of the board shall be vested with all the powers conferred upon a justice of the peace by section five hundred and eighty-two of *The Criminal Code*, 1892, in case a person to whom a summons has been directed does not appear in obedience thereto: Powers to compel appearance.

(b.) Whenever any person appearing in obedience to any such instrument, or by virtue of a warrant issued under paragraph (a) of this section, refuses to be sworn, or having been sworn refuses to answer such questions as are put to him, or refuses or neglects to produce any documents which he is required to produce, without in any such case offering Powers to compel giving of sworn testimony and production of documents.

Secretary of State—Civil Service List.

NEW APPOINTMENTS.

35. Whenever it becomes necessary to make any appointment to any of the classes to which it is herein provided that first appointments shall only be made after qualifying examination, such necessity shall be reported to the Head of the department by his Deputy; and upon such report being approved by the Head of the department, and after the salary to be paid has been voted by Parliament, the Head of the department shall select and submit to the Governor in Council for probation, from the lists of qualified candidates made by the board, a person fitted for the vacant place:

Proceedings when new appointments are required.

Selection of candidates.

2. The person so selected shall not receive a permanent appointment until he has served a probationary term of at least six months:

Probation.

3. The Head of the department or the Deputy Head may, at any time during the period of probation, reject any clerk or employee appointed to his department. 48-49 V., c. 46, s. 35.

Rejection during probation.

36. No probationary clerk shall remain in any department more than one year, unless, at or before the end of that time the Deputy Head signifies to the Head of the department in writing that the clerk is considered by him competent for the duties of the department:

Report of Deputy Head as to competency.

2. If he is rejected, the Head of the Department shall report to the Governor in Council the reasons for rejecting him, and another clerk shall thereupon be selected in like manner in his stead; and the Head of the department shall decide whether the name of the person rejected shall be struck off the list as unfit for the service generally, or whether he shall be allowed another trial. 48-49 V., c. 46, s. 36.

Provision in case of rejection.

37. When the Deputy Head of a department in which a vacancy occurs reports, for reasons set forth in such report,—

As to offices requiring special qualifications.

(a.) That the qualifications requisite for such office or employment are wholly or in part professional or technical;

(b.) That the requisite qualifications are not possessed by any person then in the service of that department; and—

(c.) That it would be for the public interest that the examination herein provided for should, as regards such vacancy, be wholly or partially dispensed with;

The Governor in Council may, without reference to the age of the person, if the Head of the department concurs in such report, select and appoint such person as is deemed best fitted to fill the vacancy, subject to such examination as is suggested in the report; and such appointment shall be

2. City postmasters and Post Office inspectors; inspectors, collectors and preventive officers in the Customs Department; inspectors of weights and measures; and deputy collectors and preventive officers in the Inland Revenue Department, may be appointed without examination and without reference to the rules for promotion herein prescribed. 52 V., c. 12, s. 2; 57-58 V., c. 15, s. 6.

3. *Repealed.* 58-59 V. c. 15, s. 6.

Vacancy in Auditor-General's office.

38. If a vacancy occurs in the office of the Auditor-General, the report required as to such vacancy shall be made to the Minister of Finance and Receiver-General. 48-49 V., c. 46, s. 38.

PROMOTIONS.

Promotion to be by examination under regulations.

Subjects for examination.

39. No promotion in either division of the Civil Service shall take place without special examination, under regulations made by the Governor in Council: 48-49 V., c. 46, s. 39.

2. Except as herein otherwise provided, such examination shall be held only once a year in the month of May, and in such subjects as are determined from time to time for each department by the Governor in Council, and in such subjects as, by report of the Deputy Head of the department in which the promotion is to be made, concurred in by the Head of the department, are submitted to the board as best adapted to test the fitness of the candidates for the vacant office. 51 V., c. 12, s. 8.

In inside division.

3. When the vacancy to be filled by promotion exists in the inside division, the examination shall not be open to persons employed in the outside division who, at the date of their first appointment, were of a greater age than thirty-five years: 48-49 V., c. 46, s. 39.

Examination may be dispensed with in certain cases.

4. In the case of barristers, attorneys, military or civil engineers, officers of the artillery in the Militia Department, and architects, draughtsmen and land surveyors, when employed or when seeking promotion in the line of their profession, and in the case of special class excisemen seeking promotion in the Department of Inland Revenue, the examination may be dispensed with on a report from the Deputy Head, concurred in by the Head of the department, that such examination is not necessary. 51 V., c. 12, s. 8.

Special case of excisemen.

5. No such examination shall be required for the re-employment or promotion of excisemen who passed the departmental examinations for the special class in the excise service before the first day of July, one thousand eight hundred and eighty-two. 48-49 V., c. 46, s. 39.

Estimates to be prepared.

40. Once in each year, and not later than the fifteenth day of March, the Deputy Head of each department shall

Secretary of State—Civil Service List.

make and lay before the Board, through the Department of the Secretary of State, an estimate of the number of vacancies likely to occur therein during the ensuing year, in the first division, in the classes of—

- (a.) Chief clerks ;
- (b.) First-class clerks ;
- (c.) Second-class clerks. 51 V., c. 12, s. 9.

2. To the numbers so estimated shall be added such further number as the Deputy Head of the department deems necessary to compensate for any death, failure of health, or other contingency: Additions.

3. A similar estimate shall be made at the same time of the number of vacancies likely to occur in the second division, to which promotions can be made: In second division.

4. The numbers so estimated shall be those with reference to which the examinations for promotion shall be held, as herein provided. 48-49 V., c. 46, s. 40. Use of estimate.

41. Notice of each examination for promotion in the service shall be published in the English and French languages in the *Canada Gazette* at least one month before the examination is to be held ; and such notice shall state the number of promotions expected in each class in each division. 48-49 V., c. 46, s. 41. Notices of examinations.

42. Except as herein otherwise provided, when any vacancy occurs in one of the higher classes, in either division, the Head of the department shall select from the list of successful candidates for promotion, the person whom he considers best fitted for the office, having due reference to any special duties incident to such office, to the qualification and fitness shown by the candidates respectively, during their examination, and to the record of their previous conduct in the service. 48-49 V., c. 46, s. 42. Selection for vacancies in higher classes.
Amended by 51 V., c. 12, s. 10.

43. Every promotion so made shall be subject to a probation of not less than six months ; but at any time during the first year the Head of the department may reject the person promoted, or he may be definitely accepted at any time during the second period of six months after his promotion : Promotion subject to probation.

2. If the person so selected is rejected he shall then return to the performance of the duties in which he was previously engaged. 48-49 V., c. 46, s. 43. If rejected.

44. When any clerk who is promoted on probation is rejected, the Head of the department shall select another in his stead from the candidates whose names still remain on the lists of qualified persons, made by the board. 48-49 V., c. 46, s. 44. Further selection.

His former duties, by whom performed.

45. During the period for which a clerk is promoted on probation the duties of the office previously held by him shall if necessary, be performed by a person selected for that purpose by the Head of the department. 48-49 V., c. 46, s. 45.

Exchange of positions by out examination.

46. An exchange of positions between two officers serving in different departments, or in different divisions of the same department, and the filling of a vacancy in one department by a transfer from another division of the same department or from another department, may be authorized by the Governor in Council, to be made without examination of either officer; but such exchange or transfer shall be made without increase of salary of either of the persons exchanging or transferred; and no person shall be transferred from an outside to an inside division, whose age at the date of his first appointment exceeded thirty-five years. 48-49 V., c. 46, s. 46.

Condition.

SUPERNUMERARY AND TEMPORARY CLERKS.

Employment of assistance in cases of temporary pressure.

47. When, from a temporary pressure of work or from any other cause extra assistance is required in any branch of either the first or second division, the Governor in Council may, on the report of the Deputy Head of the department, concurred in by the Head of the department, that such extra assistance is required, authorize the employment of such number of temporary clerks, writers, messengers, porters, packers, or sorters, as are required to carry on the work of the department. 58-59 V., c. 15, s. 7.

CHAPTER 18.

(Revised Statutes.)

(As amended by 56 V., c. 12.)

An Act respecting the Superannuation of persons employed in the Civil Service of Canada. em- A. D. 1886.

HER Majesty, by and with the advice and consent of the Senate and House of Commons of Canada, enacts as follows:—

SHORT TITLE.

1. This Act may be cited as "*The Civil Service Superannuation Act.*" 46 V., c. 8, s. 18. Short title.

APPLICATION OF ACT.

2. The Civil Service, for the purposes of this Act includes and consists of— Who shall be deemed civil servants.

(a.) All officers, clerks and employees in or under the several departments of the Executive Government who are paid a yearly salary, and to whom "*The Civil Service Act*" applies; Persons under Civil Service Act

(b.) All such officers, clerks and employees of the second or outside division of the Civil Service, as the Governor in Council, from time to time, designates, and to whom "*The Civil Service Act*" does not apply, and who are paid a yearly salary and employed in an established capacity; Certain persons in the outside service.

(c.) The permanent officers and servants of the Senate and House of Commons, and the permanent officers and servants employed in the Library of Parliament, who, for the purposes of this Act, shall be deemed to be in the Civil Service, saving all rights and privileges of either House in respect to the appointment or removal of its officers and servants; Officers and servants of Senate and Commons

(d.) All persons now contributing to the superannuation fund; Present contributors to the fund.

(e.) All persons to whom this Act is by some other Act declared to apply 46 V., c. 8, s. 1. Certain others

(f.) Notwithstanding anything therein or in any other Act contained, the provisions of *The Civil Service Superannuation Act*, chapter eighteen of the Revised Statutes, shall not apply to any person who is appointed to any branch of the Civil Service of Canada after the passing of this Act, and whose age at the time of such appointment exceeds forty-five years. 56 V., c. 12, s. 2. R.S.C., c. 18, not to apply to future appointees over forty-five years of age.

SUPERANNUATION.

3. The Governor in Council may grant to any person who has served in an established capacity in the Civil Service for ten years or upwards, and who has attained the age of sixty years, or is incapacitated by bodily infirmity from properly performing his duties, a superannuation allowance calculated on his average yearly salary during the then last three years, and not exceeding the following rates, that is to say :—

Rates of allowance. (a.) If he has served for ten years, but less than eleven years, an annual allowance of ten fiftieths of such average salary, and if for eleven years and under twelve years, an annual allowance of eleven fiftieths thereof, and in like manner a further addition of one fiftieth of such average salary for each additional year of service up to thirty-five years, when an annual allowance of thirty-five fiftieths may be granted; but no addition shall be made for any service beyond thirty-five years;

Maximum rate for 35 years. (b.) If the service has not been continuous, the period or periods during which such service has been interrupted shall not be counted, and the Order in Council made in any such case shall be laid before Parliament at its then current or next ensuing session. 46 V., c. 8, s. 2.

Breaks in service not to be counted.

4. The Governor in Council may, in the case of any person who entered the Civil Service after the age of thirty years, as being possessed of some peculiar professional or other qualifications or attainments required for the office to which he was appointed, and not ordinarily to be acquired in the public service, add to the actual number of years' service of such person, such further number of years not exceeding ten, as is considered equitable, for reasons stated in the Order in Council made in the case; and such additional number of years shall be taken as part of the term of service on which the superannuation allowance of such person shall be computed; and the Order in Council in any such case shall be laid before Parliament at its then current or next ensuing session. 46 V., c. 8, s. 3.

Governor in Council may add to service of persons appointed on account of special qualifications.

5. The superannuation of every civil servant shall be preceded by an inquiry by the Treasury Board—

(a.) Whether the person it is proposed to superannuate is eligible within the meaning of this Act; and—

(b.) Whether his superannuation will result in benefit to the service, and is therefore in the public interest; or—

(c.) Whether it has become necessary in consequence of his mental or physical infirmity:

Preliminary inquiry by Treasury Board.

2. No civil servant shall be superannuated unless the Treasury Board reports that the eligible within the meaning of this Act and that such superannuation will be in the public interest. 46 V., c. 8, s. 4.

Report of Board.

Secretary of State—Civil Service List.

6.* A deduction towards making good the superannuation allowances hereinbefore mentioned, shall be made from the salary of every person in the Civil Service to whom this Act applies, at the rate of three and one-half per cent per annum on such salary, if it is six hundred dollars or upwards, and of three per cent per annum thereon, if it is less than six hundred dollars, such deduction to be carried to the credit of a fund called the Civil Service Superannuation Fund, No. 2, to which shall be added by the Government annually such a sum as may be sufficient to make the amount thereof equal to the value of the prospective annuities payable therefrom, as hereinafter mentioned, to the several contributors thereto, upon an estimate or valuation thereof based upon the H. M. Mortality Table of the Institute of Actuaries of Great Britain and a rate of interest of six per cent per annum; but such deduction shall be made only during the first thirty-five years of service. 46 V., c. 8, s. 5 and 56 V., c. 12, s. 8.

Deductions from salaries.

Special fund.

Proviso.

7. The full superannuation allowance shall only be granted to persons who have been subject to the said deduction during ten years or upwards,—the superannuation allowance of any person who has not paid it, or has paid it for a less period, being subject to a diminution of one per centum for every year less than ten during which he has not paid it; except that the superannuation allowance of any person hereafter retiring, shall not be subject to any such diminution by reason of his not having paid the abatement hereinbefore mentioned, during any year or years after his first thirty-five years of service. 46 V., c. 8, s. 6.

Ten years' contribution requisite for full allowance.

Diminution for less period of contribution.

Exception.

8. Retirement shall be compulsory on every person to whom the superannuation allowance hereinbefore mentioned is offered, and such offer shall not be considered as implying any censure upon the person to whom it is made; nor shall any person be considered as having any absolute right to such allowance, but it shall be granted only in consideration of good and faithful service during the time upon which it is calculated:

Compulsory retirement.

Allowance conditional on good service.

2. Nothing herein contained shall be understood as impairing or affecting the right of the Governor in Council to dismiss or remove any person from the Civil Service. 46 V., c. 8, s. 7.

Right of dismissal not impaired.

9. If the Head of a department reports with respect to any person employed in his department, and about to be superannuated, from any cause other than that of ill-health or age, that the service of such person has not been satisfactory

Diminution when Head of Department reports unsatisfactory service.

* The rates herein mentioned apply only to persons appointed after the 1st April 1893, when this Act, as amended, came into force. Those appointed prior to that date pay 2 per cent and 1½ per cent respectively.

tory, the Governor in Council may, as to him seems fit, grant such person a superannuation allowance less than that to which he would have otherwise been entitled. 46 V., c. 8, s. 8.

Gratuity when yearly allowance not earned.

10. If any person to whom this Act applies, is constrained, from any infirmity of mind or body, to quit the Civil Service before the period at which a superannuation allowance might be granted him, the Governor in Council may allow him a gratuity not exceeding one month's pay for each year of his service; and if any such person is so constrained to quit the service before such period, by reason of severe bodily injury, received without his own fault, in the discharge of his public duty, the Governor in Council may allow him a gratuity not exceeding three month's pay for every two years' service, or a superannuation allowance not exceeding one-fifth of his average salary during the then last three years. 46 V., c. 8, s. 9.

Gratuity in case of bodily injury on duty.

Provision for abolition of office, reduction of staff, &c.

11. If any person to whom this Act applies is removed from office in consequence of the abolition of his office for the purpose of improving the organization of the department to which he belongs, or is removed, or retired from office to promote efficiency or economy in the Civil Service, the Governor in Council may grant him such gratuity or superannuation allowance as will fairly compensate him for his loss of office, not exceeding such as he would have been entitled to if he had retired in consequence of permanent infirmity of body or mind, after adding ten years to his actual term of service. 46 V., c. 8, s. 10.

Pensioners under sixty liable to serve if required, under penalty of loss of allowance.

12. Every person who receives a superannuation allowance, and is under the age of sixty years, and is not disabled by bodily or mental infirmity, may be called upon to fill, in any part of Canada, any public office or situation for which his previous services render him eligible, and which is not lower in rank or emolument than that from which he retired; and, if he refuses or neglects so to do, he shall forfeit his said allowance. 46 V., c. 8, s. 11.

Service before Confederation to be counted.

13. Service in an established capacity in any of the departments of the Executive Government or offices of the Legislature of any of the Provinces now included in the Dominion of Canada, before such Province became a portion thereof, by any person who has thereafter entered the Civil Service, shall be reckoned in computing his period of service for the purposes of this Act. 46 V., c. 8, s. 12.

Secretary of State—Civil Service List.

14. In any case of doubt the Governor in Council may, by general or special regulations, determine to what persons the provisions of this Act do or do not apply, and the conditions on which, and the manner in which, they shall apply in any case or class of cases. 46 V., c. 8, s. 13. Discretionary power of Governor in Council.

15. The superannuation allowance to which all persons to whom this Act is applicable become entitled shall be chargeable upon and payable out of the said fund. 56 V., c. 12, s. 4. Payment of allowances.

REPORT OF SUPERANNUATIONS.

16. The Minister of Finance and Receiver General shall lay before Parliament, within fifteen days after the commencement of each session thereof, a statement of all superannuations and retiring allowances in the Civil Service within the year, giving the name and rank of each person superannuated or retired, his salary, age and length of service, the allowance granted to him on retirement, the cause of his superannuation and whether the vacancy has been subsequently filled, and if so, whether by promotion or by a new appointment, and the salary of the new appointee, and also a statement showing the condition of the said fund, at the thirtieth day of June previous. 46 V., c. 8, s. 15 and 56 V., c. 12, s. 5. Annual return to be made to Parliament.

Secretary of State—Civil Service List.

APPENDIX No. 3.

56 VICTORIA.

CHAP. 13.

An Act respecting Government Civil Service Insurance.

[Assented to 1st April, 1893.]

HER Majesty, by and with the advice and consent of the Senate and House of Commons of Canada, enacts as follows :—

1. This Act may be cited as *The Civil Service Insurance Act*. Short title.

2. In this Act, unless the context otherwise requires, the expression "Minister" means the Minister of Finance and Receiver-General. defined.

3. The Minister may contract with any person to whom *The Civil Service Superannuation Act* applies, or who may be hereafter appointed to a permanent position in any branch of the Public Service of Canada, for the payment of a certain sum of money to be made upon the death of such person. Insurance contracts authorized.

2. Any such contract is hereinafter called the "insurance contract"; the person so contracting with the Minister is hereinafter called the "insured"; and the amount so contracted to be paid is hereinafter called "insurance money." Interpretation.

4. When the insured is a married man or a widower with children, the insurance contract shall be for the benefit of his wife, or of his wife and children, or of his wife and some one or more of his children, or of his children only, or of some one or more of them; and when the insurance contract is effected for the benefit of more than one, the insured may apportion the insurance money among them as he deems proper. Apportioning of insurance in case of married man or widower with children.

Apportionment in case of unmarried man.

5. When the insured is an unmarried man, the insurance contract shall be for the benefit of his future wife, or of his future wife and children, and the insured may apportion the insurance money among them in such manner as he sees fit; but if, at the maturity of the contract, he is still unmarried, or is a widower without children, the insurance money shall fall into and become part of his estate.

Form of apportionment.

6. Any apportionment under the next two preceding sections may be made in the insurance contract, or by a declaration endorsed thereon or annexed thereto and signed by the insured.

"Children" defined.

7. When it is stated in the insurance contract, or in a declaration endorsed thereon or attached thereto, that the insurance contract is for the benefit of the wife and children generally, or of the children generally, of the insured, without specifying their names, then the word "children" shall mean all the children of the insured living at the time of his death whether by the same wife or by different wives.

Share of person dying before the insured.

8. Were an apportionment has been made as hereinbefore provided and one or more of the persons in whose favour the apportionment has been made die in the lifetime of the insured, the insured may, by an instrument in writing endorsed on or attached to the insurance contract, declare that the shares formerly apportioned to the persons so dying shall be for the benefit of the wife and children of the insured, or of one or more of them, as he sees fit; and in default of such declaration, the shares of the persons so dying shall be for the benefit of the survivor, or of the survivors of such persons in equal shares if more than one; and if all the persons so entitled die in the lifetime of the insured, the insurance money shall fall into and become part of the estate of the insured.

If there is no apportionment.

9. When no apportionment is made of the insurance money as hereinbefore provided, all persons interested shall be held to share equally therein.

Minister may decline to contract.

10. The Minister may decline to enter into an insurance contract in any case where there are, in his opinion, sufficient grounds for his declining to do so.

Tables to be prepared.

11. The Minister shall cause tables to be constructed fixing the premiums to be paid by the insured to the Minister as the consideration for such insurance contracts, and also all other tables necessary for the carrying out of the provisions of this Act.

Basis of tables.

2. All such tables shall be based on the H. M. Mortality Table of the Institute of Actuaries of Great Britain, and on

Secretary of State—Civil Service List.

a rate of interest of six per cent per annum, no allowance being made for expenses.

3. Such tables shall be framed so that the premium to obtain an insurance contract may be paid in one sum, or in annual, semi-annual, quarterly, or monthly instalments, and either during the life of the insured or during a limited period.

Premium,
how payable.

12. The minimum and maximum amounts payable at death which may be contracted for under this Act shall be one thousand dollars and two thousand dollars respectively.

Amount of
insurance li-
mited.

13. Every applicant for insurance shall furnish with his application a medical certificate in such form as is prescribed by the Minister.

Medical cer-
tificate.

14. The Governor in Council may from time to time make regulations for the following purposes under this Act :

in Council.

(a.) For regulating the mode and form of making contracts ;

(b.) For prescribing the mode of proving the age and identity and the existence or death of persons ;

(c.) For prescribing the mode of paying sums of money in connection with insurance contracts ;

(d.) For dispensing with the production of probate of a will or letters of administration, either generally or in any particular class of cases ;

(e.) For prescribing the accounts to be kept and their management ;

(f.) For determining beforehand the cases or classes of cases in which insurance contracts may be surrendered and a cash surrender value paid therefor, or a free or paid-up insurance contract issued instead thereof, and for prescribing the manner in which such cash surrender value or amount of paid-up insurance shall be determined ;

(g.) For any other purpose for which it is deemed expedient to make regulations in order to carry this Act into effect.

15. In the event of any person to whom *The Civil Service Superannuation Act** now applies taking advantage of the provisions of this Act, a deduction at the rate of three per cent per annum shall be made from the salary of such person towards making good the superannuation allowance provided for by the said Act, such deduction to be instead of the deduction now payable under section six of the said Act.

Additional
payment if
insured now
comes under
R.S.C., c. 18.

16. The provisions of this Act shall be carried out by the staff of the Finance Department, under the direction and supervision of the Superintendent of Insurance.

Superinten-
dent of insu-
rance.

* As the Act stood before amended by 56 V., chap. 12.

Annual
report

17. The said superintendent shall, within three months after the thirtieth day of June in each year, prepare for the Minister a statement showing the amount received for premiums during the twelve months ending on the said thirtieth day of June for all insurance contracts entered into previous to the said date, and the amount of all sums paid in connection therewith during the said period, the number of new contracts entered into since the previous statement and the gross amount thereof, with such further details and particulars as are deemed advisable.

To be laid
before Parlia-
ment.

2. The Minister shall lay the said statement before Parliament within thirty days after the commencement of the session thereof next after the date of the said statement.

BOARD OF CIVIL SERVICE EXAMINERS,
OTTAWA, 29th January, 1897.

SIR,—Herewith I have the honour of addressing you the Report of the Board of Civil Service Examiners for the year ended the 31st of December, 1896.

This document embraces the information usually afforded under the following heads:—

1. Statement of the Promotion and Entrance Examinations held during the year, the number of candidates present thereat, and the number who passed successfully.
2. Copies of the Question Papers submitted to the candidates at the said examinations, with one exception which is noted in the report itself.
3. Lists giving the names of the candidates who were successful in passing the Entrance Examinations.

I have the honour to be, sir,

Your obedient servant,

JNO. FRANCIS WATERS,
Secretary.

The Honourable
RICHARD WILLIAM SCOTT, Q.C., LL.D.,
Secretary of State of Canada.

Board of Civil Service Examiners.

REPORT

OF THE

BOARD OF CIVIL SERVICE EXAMINERS

FOR THE

YEAR ENDED 31ST DECEMBER, 1896.

In their report for the year 1895, the undersigned, constituting the Board of Civil Service Examiners of Canada, briefly adverted to the changes made in that year in the *personnel* of the Board itself and in its environment, and had pleasure in stating that the plan of having as Secretary to the Board an officer of the Department of the Secretary of State was found, upon a brief experience of its adoption, to work very satisfactorily. After the extended experience of another year, in which the number of candidates at the Entrance Examinations was abnormally large, they are glad to be able to confirm this expression of opinion. They are also gratified to note that the recommendation made with regard to Mr. William Foran, who very efficiently assists the Secretary of the Board in the work of his office, has been, at all events partially, acted upon.

PROMOTION EXAMINATIONS.

These examinations (which were intermitted in the year 1895, for the reasons set forth in the report for that year) were duly held in the month of May, 1896, as prescribed by "The Civil Service Act," at all the "centres" at which a number of candidates presented themselves, sufficient to justify the expense involved in the holding of a session. It is gratifying to be able to report that no irregularities or troubles in connection with these examinations have been reported to the Board. A charge was indeed preferred by one of the candidates from the office of the Privy Council, in connection with the paper on "Duties of Office" emanating from that bureau; but when the complainant was summoned to produce the witnesses who, he alleged, could corroborate the charge, he formally notified the Secretary of the Board that he desired, for reasons which need not here be given, to withdraw the complaint in question. In fairness, then, to the other persons concerned, the original charge must be considered as cancelled.

Appended to this report will be found sets of the papers given to the candidates at the Promotion Examinations, including all the papers on "Duties of Office," except that set for the candidates from the office of the Privy Council. In the case of this particular paper, an Order was made by His Excellency in Council, upon the 6th of May, in which it was laid down that "as the duties papers of the Privy

Council are necessarily of a confidential character, they be not published by the Civil Service examiners, but returned to the Clerk of the Privy Council." In connection with a certain parliamentary inquiry, these papers have since been submitted to both Houses, and so made public; copies not only of the questions, but also of the official answers to them have also been printed and published, it would seem, by private enterprise, but, in the circumstances, the undersigned had but to follow the direction of the Order above referred to.

ENTRANCE EXAMINATIONS.

The undersigned have the honour to report that, on the usual days in November, personally they held, at Ottawa, Toronto, and Montreal, the preliminary and qualifying examinations, prescribed by "The Civil Service Act," for entrance into the public service. By the medium of sub-examiners, the said examinations were held also at the following "centres," namely, Halifax, St. John, Charlottetown, Quebec, Kingston, Hamilton, London, Winnipeg, Calgary, Vancouver, and Victoria. Examinations were not held at Regina and Sault Ste. Marie, no applications having been received by the Secretary from intending candidates at either of these "centres," within the time fixed by the Regulations of the Board for registering applicants' names. There was one application from Port Arthur, made in good form and within the prescribed limit of time, but it was felt by the Board that it would not be in the public interest to make for a single candidate the expenditure necessitated by the holding of an examination at one of the "centres" designated by Order-in-Council. The candidate at Port Arthur was, therefore, instructed to present himself at the "centre" nearest to that place, namely, Winnipeg.

THE QUALIFYING EXAMINATION AND SECOND CLASS CLERKSHIPS.

Under this heading in the Report of the Board for 1895, attention was called to the doubt that existed as to whether third class clerks in the first division who had to pass the qualifying examination before appointment, are required to pass a promotion examination before being eligible for clerkships in the second class. (*Vide* Section 39, of Chapter 17, Revised Statutes of Canada.) The Board respectfully submits that it is in the interest of the Public Service that this and other anomalies in the interpretation of "The Civil Service Act" should be removed by legislation.

OPTIONS, ETC.

The number of candidates who presented themselves for the optional subject of Book-keeping by Double Entry greatly exceeded the combined number of those who took the other two optional subjects, namely, Stenography and Typewriting. The work of many of these candidates was, however, exceedingly poor, showing that they had no adequate conception of the requirements of the examination. This remark, indeed, may be applied to many of those who presented themselves for the Higher grade examination as a whole: a number of these candidates failed not in one or two, but in four or five subjects of the eight prescribed by the curriculum. On the other hand, it is gratifying to note that the work of many of the candidates in all the subjects of the Qualifying examination was of an uncommonly high order of merit.

Board of Civil Service Examiners.

RESULTS.

The results of the preliminary and qualifying examinations of last November, and of the options, will be found, with other statements, in subsequent pages.

IRREGULARITIES, FRAUDS, ETC.

While the undersigned are glad, as already mentioned, to state that no complaints or charges have been made in connection with the promotion examinations and with the entrance examinations held in the year dealt with by this report, yet an inquiry was held in December last, at the instance of the Honourable the Postmaster General, into certain charges of personation preferred against two persons, one an employee of the Government Printing Bureau and the other on the staff of the Minister's own department. The offences of personating and of having consented to the personation, respectively, were alleged to have been committed in the city of Toronto at the entrance examinations of 1892. The two persons concerned were examined by the Board with the result that the employee of the Printing Bureau was completely exonerated and necessarily, therefore, the charge connecting the other person accused with him fell to the ground. The evidence of the latter, however, was given in a very unsatisfactory way and, in a certain sense, under compulsion and so as to leave an unpleasing impression on the minds of the Examiners that the witness's connection with the qualifying examination of 1892 might not have been a perfectly honourable one. At the same time, no positive evidence of guilt was adduced. The results of the investigation were duly communicated to the Honourable the Postmaster General.

NUMBER OF CANDIDATES.

In last year's report the following statement was made:—

“In the ordinary course of things, the recent changes in the Civil Service Act are likely to diminish the number of candidates for the preliminary examination * * * * *; whether or not the abolition of third-class clerkships in the first division will affect the number of those presenting themselves for the qualifying examination, time alone can tell.”

Whether owing to circumstances outside the ordinary or not, the undersigned are not prepared to say, but time has certainly told that the number of candidates at the entrance examinations of 1896, not only for the higher grade but also for the lower, was far in excess of that of any former year since the organization of this Board. Large as the number was, it must be borne in mind that it would have been much larger were it not for the scores of applications which had to be rejected after the time limit for receiving such requests was passed. The Board respectfully submits in this regard, that it is not only desirable but necessary to rigidly enforce the rule of not receiving applications for leave to write at an examination once the time limit advertised in this connection has been overstepped, and this, in the interest of all, no matter what influence may be behind a disappointed applicant.

THE SUB-EXAMINERS.

A comparison of the list of sub-examiners below given with that printed in the Report for 1895, shows many important changes in the *personnel*.

The following gentlemen were appointed by the Honourable the Secretary of State to act as sub-examiners for this Board at the Entrance Examinations held or to have been held last November :—

M. N. Doyle, Esquire, barrister-at-law, Halifax.

The Reverend Dr. Bennet, St. John, N. B.

Ewan Stewart, Esquire, Inspector of Public Schools, Charlottetown, P.E.I.

Charles DeGuise, Esquire, barrister-at-law, Quebec.

J. B. McKay, Esquire, Principal of the Kingston Business College, Kingston, Ontario.

A. C. Stewart, Esquire, London, Ontario.

A. H. MacDougall, Esquire, barrister-at-law, Port-Arthur.

James Bassingthwaite, Esquire, Sault Ste. Marie.

The Venerable Archdeacon Fortin, Winnipeg.

J. W. Harrison, Esquire, Regina, N.W.T.

Horace Harvey, Esquire, B.A., LL.B., Calgary, N.W.T.

George F. Burpee, Esquire, M.A., Vancouver, B.C.

The Reverend Dr. Campbell, Victoria, B.C.

As already indicated examinations were not held at Port Arthur, Winnipeg, and Regina during the year dealt with by the present report, and in consequence the sub-examiners appointed to preside at the said "centres" received no emolument from their office as such.

The Board is glad to be able to certify that all the sub-examiners, including, without exception, those newly appointed, discharged their duties in a way eminently satisfactory.

FEES RECEIVED, ETC.

The fees received from the candidates at the promotion examination in May and deposited to the credit of the Receiver General amounted to \$212.

The fees received from the candidates at the entrance examinations in November and also deposited to the credit of the Receiver General were \$3,356. Candidates at the promotion examinations numbered 106. Candidates at the entrance examinations numbered 1,186.

All of which is respectfully submitted:—

APPENDIX.

Appended to this report will be found:—

1. Copy of the papers used at the promotion examination.
2. Copy of the papers used at the preliminary entrance examination, specifying also the places at which the candidates presented themselves.
3. Copies of the qualifying examination papers.
4. Copies of the option papers.
5. List of the candidates who passed successfully the preliminary, or lower grade examination.
6. List of the candidates who passed successfully the qualifying examination.
7. List of the candidates who succeeded in options, specifying the subject in which they passed.

At both the general promotion and the entrance qualifying examination the candidates who fail in one subject only, are entitled to present themselves at the next ensuing one for that particular subject, provided they have made the necessary average, and if they had been successful in their first examination in options, those they have passed are allowed them, but they are not permitted to take options again.

EMERY.

100

Emery is one of the few valuable rocks not yet produced in important quantities in America. Large amounts are yearly brought from Turkey and the Greek Islands, where it has been quarried since history began. Its wonderful properties were no secret to the ancients, who used it for cutting and polishing; but their methods of working are not certainly known. Curiously, modern methods of mining this substance have made no progress, and to this day ledges of emery have been heated by huge fires, and the hot rock cracked by douches of cold water.

During the middle ages, and for many years afterwards, the properties of emery, while not forgotten, could not be utilized. The old art of working was lost, and ingenuity was unable to give useful forms to this intractable substance. It long defied every effort. Slowly, however, emery again came into use, first as a polishing and cutting powder, and later, in the form of small grains, was attached to fabrics like a sandpaper. Means were afterwards found to cement and mould its small particles into wheels. Emery wheels soon came into use, their remarkable cutting properties proving at once the great industrial importance of the invention.

Years elapsed, however, before the emery millstone could be made; but, at length, this too was accomplished, and a practical emery stone was brought out in England. Later, Yankee ingenuity improved upon this, and produced the present successful rock emery millstone, which is built up of large blocks of emery set in strong metal.

These millstones grind so fast because the emery face is always sharp, and, as they are not damaged by heat, they can be run at high speed.

Many new uses will doubtless be found for emery; but probably it can take no more important place than that of the emery wheel and the emery millstone, the one cutting and polishing in the shops the hardest surfaces, and the other grinding the surface to any degree of fineness.

The sole reason why nations tacks themselves for the maintainence of armements is becaus they concider it necessary to there safety to do so. Their is not a power in Europe tooday that wood not gladly dissband it's armyes and dismantel it's fleets if it wer fuly purswaded that no proodenshal reeasons existed for keeping them in a condition of efshensy. This it seams to us is the broad fact to look at. war may be a scool of virtu and may hav a thousand other beutiful aspects, but it is not for the promotion of virtu, or the alimentation of poetry and romance, or for enny general filanthropic purpos that the nations of the world arm themselves to the

teeth. There veivs are of a moar practicle kine. They dred the injustis and gread of one andother; each wood feal its existense impearilled if it did not provide in ampel meshure to resist forain agression. If war is the blessing and the benefit that some pertend, the logical thing wood be to hav war for wars sake quite independently even of so flimmsey a pretext as the venezuela boundery. Then by a doo course of murder and rapin, we cood trane our youth to virtu, our army contractors to publick sperit and honisty, our newspaper riters to modusty and truthfullness, our legeshtours to a loffy patriotism and evry boddy els to a correspondingly high morel levil.

Magician's Latest Dream.

100 | Nicola Tesla has a Scheme for Telegraphy without Wires.

New York, March 25.—Nicola Tesla, the electrician and scientist, has for some time had in course of development a project for instantaneous and simultaneous communication to all parts of the earth, and perhaps to some of the nearer planets. His plan does not deal with fireworks, nor with the illumination of a large part of the earth's surface in a hope of attracting the attention of dwellers on Mars, but depends wholly upon the properties of electric waves. Mr. Tesla says:—

"I have had this scheme under consideration for five or six years, and I am becoming more nearly convinced every day that it is based upon scientific principles, and is thoroughly practicable. We know that electric disturbances on the sun are productive of similar disturbances on the earth in the form of thunder showers. Now, why is it not equally conceivable that a disturbance on the earth's surface should produce some tangible effect on other planets? The transmission of disturbances on the sun shows beyond doubt that waves of electricity are propagated through all space.

"The objection may be put forward that sufficient electricity to create disturbances cannot be made on the earth's surface, and that we should be wholly dependent upon thunder storms and other phenomena of nature for the success of our experiment. But, on the contrary, we can make all the artificial thunder and lightning we want. There is no difficulty in making electric apparatus with a spark gap of a mile, and if that did not prove effective it could be increased

A correspondent of the *Times* authorized to speak on behalf of L Hung Chang, reports His Excellency as saying:

"I am charmed with my English experiences, and I most deeply regret that circumstances should have compelled me to pay so hurried a visit, and that I should only have seen hastily and partially scenes amid which I should have liked to pass a lifetime. From your Royal Family, from your great Ministers, from Chambers of Commerce, as well as from merchants and manufacturers of leading position and importance, I have received a welcome which I did not expect and shall never forget. You pride yourselves on your hospitality, I believe, more than anything else; I must confirm you in your good opinion, for I have experienced it. When I return to China I shall not fail to say that in no country that I have visited did I experience a more hearty and, as I think, sincere greeting, than in this country of England. I have also seen much that has been useful to me, and that it behoves China to learn. When I reach Peking I will tell my august master the Emperor and the Empress-Dowager, as well as all my colleagues, how remarkable is the success with which you have worked up the raw material until you have become the workshop of the world. In supplying that workshop with the necessary raw material it will be China's policy to take forward steps as rapidly as she can, so that she may become in the Far East what England already is in the Far West—a Power combining wealth and strength in the highest degree."

Colonial foreign trade competition.

INTERESTING EXHIBITION OF SAMPLES.

It may be remembered that in the despatch forwarded by Mr. Chamberlain last November to all the Colonial Governors on the subject of trade between the United Kingdom and the Colonies, prominence was given to the request for patterns or specimens of goods of foreign origin which have displaced, or are displacing, similar British goods. The duty of housing and distributing these was undertaken by the London Chamber of Commerce, and that body is commencing to receive the collection of samples. By arrangement with the Secretary of State for the Colonies these samples are exhibited in the city as they arrive, but their ultimate circulation throughout the country is to be deferred until a majority of the replies to the despatch has been received. We are now informed that until September 5 an exhibition will take place at the offices of the London Chamber (Botolph House, Eastcheap), between the hours of 11 a.m. and 4 p.m. (1 p.m. on Saturdays), of samples received from the British West Indies, these comprising collections sent home from Trinidad, Bermuda, Bahamas, Barbadoes, and embracing articles classed under the headings of apparel and slops, cordage and twine, cotton manufactures, hardware and cutlery, hats, implements and tools of industry, leather manufactures, silk manufactures, and refined sugar. Admission to view the exhibits may be obtained on the presentation of business card.

Ask a follower of Bacon what the new philosophy, as it was called in the time of Charles the second, has effected for mankind, and his answer is ready; "It has lengthened life; it has mitigated pain; it has extinguished diseases; it has increased the fertility of the soil; it has given new securities to the mariner; it has furnished new arms to the warrior; it has spanned great rivers and estuaries with bridges of form unknown to our fathers; it has guided the thunderbolt innocently from heaven to earth; it has lighted up the night with the splendor of the day; it has extended the range of the humane vision; it has multiplied the power of the power of humane muscles; it has accelerated motion; it has facilitated intercourse, correspondence, all friendly offices, all dispatch of business; it has enabled man to descend to the depths of the sea, to soar into the air, to penetrate securely into the noxious recesses of the earth, to traverse the land in cars which whirl along with out horses and the ocean in ships which run twenty knots an hour against the wind."

AN INTERESTING EXHIBITION.

FOREIGN COMPETITION IN THE COLONIES.

The exhibition of specimens of goods of foreign origin imported into the colonies was opened on Monday in the rooms of the London Chamber of Commerce. Although the intention of the Colonial Office was that such information as might be forwarded in answer to Mr. Chamberlain's despatch of last November should be accompanied, in the case of the samples sent to England, by explicit explanations of the grounds on which British exports are being displaced by foreign goods, this request has not in all cases been complied with, although in the case of Trinidad ample details have been given, and interesting statements made in reference to the reason why Britain has been losing ground in her competition with other nations. Trinidad sends a comprehensive selection of the articles sent to that part of the West Indies from different parts of the world. It would appear from what is set forth by the authorities of that place that the importation of clothing from Germany and France is equal to 75 per cent of the whole, British made articles belonging to this category being too heavy for the climate and too costly. The trade in piece goods is said to be

NEARY WHOLLY BRITISH;

but in the case of china and earthenware, although the superiority of British products is generally admitted, the wares are described as "too good for the market." In regard to furniture, British goods are regarded as holding the palm, but are considered to be too massive and expensive, and too liable to the attacks of tropical insects to command much favour. Great Britain is popular with reference to the better class of cutlery, although Germany has a preponderance in the cheaper goods.

Constitution of Canada.

The Executive Government is vested in the Crown, and is exercised by a Governor General appointed by the Queen, assisted by a Privy Council chosen and summoned by himself. The seat of government, until the Queen shall otherwise direct, is Ottawa.

The supreme legislative power is vested in a Parliament, consisting of the Queen, a Senate, and a House of Commons. The Senate consists of 81 members nominated for life by the Governor General, and so chosen that 24 belong to Ontario, 24 to Quebec, and the remainder to the other provinces of the Dominion. The qualification for senator is the possession of property worth \$4,000, age of thirty years, and residence within the province for which he is appointed. The House of Commons consisted originally of 181 elected members, and has been raised by additions on the accession of new provinces and by the increase in population, to 216; 92 representing Ontario, 65 Quebec, 21 Nova Scotia, 16 New Brunswick, 5 Manitoba, 6 British Columbia, 6 Prince Edward Island, and 4 the Territories. The basis on which the number of members allotted to each province is regulated, is that Quebec shall always have 65, and the other provinces a proportional number according to their population at each decennial census. There is no property qualification. Each member of the Senate receives \$1,000 per annum, and each member of the Commons \$10 a day during the session, with a maximum of \$1,000 per session. A Parliament lasts five years if not sooner dissolved. Election is by ballot, with a franchise almost equal to manhood suffrage. The session usually extends from February to May.

To His Excellency the Right Honourable Sir John Campbell Hamilton-Gordon, Earl of Aberdeen ; Viscount Formartine, Baron Haddo, Methlic, Tarves and Kellie, in the Peerage of Scotland ; Viscount Gordon of Aberdeen, County of Aberdeen, in the Peerage of the United Kingdom ; Baronet of Nova Scotia, P.C., G.C.M.G., &c., &c., Governor General of Canada.

MAY IT PLEASE YOUR EXCELLENCY :

The undersigned has the honour to present to Your Excellency the Annual Report of the Department of Public Printing and Stationery for the fiscal year ended 30th June, 1896, with a partial report for services during the six months ending 31st December, 1896.

All of which is respectfully submitted.

Secretary of State.

OTTAWA, 1st June, 1897.

Public Printing and Stationery.

DEPARTMENT OF PUBLIC PRINTING AND STATIONERY,

OFFICE OF THE QUEEN'S PRINTER AND CONTROLLER OF STATIONERY,

OTTAWA, 1st June, 1897.

The Honourable

R. W. SCOTT, Q.C., LL.D.,

Secretary of State.

SIR,—I have the honour to submit herewith a report upon the Department of Public Printing and Stationery for the fiscal year ending 30th June, 1896, and, according to usage, the transactions of a portion of the service have been reported upon down to the end of the calendar year.

There was during the whole of the year just past an unusually heavy pressure of work upon the department. Two sessions of Parliament have been called in the past twelve months, and have thrown a very large mass of urgent work upon the Bureau, besides which, a large amount of extra work was rendered necessary by the fire in the West Block, for a large number of blank books and forms were destroyed, which required to be replaced with the utmost haste.

The work of the department has been incessantly increasing, and not a year has passed for five years when some new work or new duty has not been imposed upon it.

In previous reports submitted some years ago, I respectfully urged an enlargement of the building. It is now full, and more operatives cannot be put into it. In order to meet every requirement, there should be a power of temporary expansion, so that in cases of emergency extra space might be available for extra hands.

The copy for the departmental reports was sent in very late, and nothing but the late session of Parliament prevented the want of them being felt. I beg most respectfully to record my belief that whenever Parliament again meets in January, all the reports will be behind time, and the discussion of the estimates will be delayed. Many of the reports were later than ever before. The time for preparing the reports should be during the recess, but if they be deferred until Parliament meets, the current work of Parliament must necessarily take precedence of everything of a departmental nature, no matter how urgent the latter may be thought to be.

While upon this subject, I have the honour to point out that it would be of great advantage if books and pamphlets not needed for Parliament were held over to be printed during the recess. The work could be much better and more quickly done, and it would not block the Bureau at a time when the requirements of Parliament are pressing. No doubt there are occasionally urgent cases which must be met, but three-fourths of the printing is marked "rush," "immediate," "urgent," and it frequently happens that work so marked has stood in type for months without the proofs being

returned. Thus it happens that while for six months of the year the building is not large enough to contain the number of men required, there are other times when a number of men have to be laid off for want of work. It is evident that all work should be done as quickly as possible, but the habitual use of words denoting urgency, detracts from their legitimate force, and often delays other matters of real importance. Nothing is done at the Bureau for the outside world. All the work is government work, and the public service gains nothing by such exaggerations. They often, on the other hand, injure the public service by delaying work which is essentially necessary.

The statements of the Accountant give full details of the receipts and expenditures. The *Canada Gazette* shows a profit of \$559.07 on the year. The usual comparative statements are given, showing the increases and decreases in the expenditures of each department. There are also statements showing the cost of advertising and of lithographing and stamping, through the year. The report of the Superintendent of Printing gives details of the quantities of work done, and the report of the Superintendent of Stationery shows the lists of distribution of statutes and public documents.

Beyond these, nothing of special importance remains to be commented on. The regular reports are now all done, and that of this department was postponed until the last, so great has been the desire to meet the requirements of the other departments.

I have the honour to be, Sir,

Your most obedient servant,

S. E. DAWSON,

Queen's Printer and Controller of Stationery.

Public Printing and Stationery.

ACCOUNTANT'S BRANCH

OTTAWA, March, 1897.

PRINTING AND BINDING.

For the charges against the several departments, the House of Commons and Senate, for printing, binding, lithographing, stamping, &c., I have the honour to refer you to the subjoined tabular statements, A, B and C.

A comparative statement for the past five years, from 1891-92 to 1895-96, for both printing and stationery, is subjoined—tables D and E.

ADVERTISING.

The total amount certified by this department for Government advertising during the year ending 31st December, 1896, was \$30,760.76, the details of which are set forth in statement F. These accounts being paid by the several departments for which the advertising is done, the amount is not included in the statement of receipts and expenditure of this department.

The number of advertising accounts audited was 2,926; circulars issued, 2,200. There was, moreover, a considerable amount of correspondence in connection therewith.

I also subjoin a statement of the total amount of advertising accounts audited by this office for the years 1876 to 1896, both inclusive:—

Librarians' Report.

REPORT

(17)

OF THE

JOINT LIBRARIANS OF PARLIAMENT

SESSION 1897.

To the Honourable the Speaker of the Senate :

To the Honourable the Speaker of the House of Commons :

The joint Librarians of Parliament have the honour to report as follows for the period which has elapsed since the close of the session in October last.

In their last report, the Librarians were able to state the acquisition, for the Library, of the Journals of the Legislative Assembly of Nova Scotia from 1802 to 1840.

Since last session they have procured the Journals of the Legislative Council of New Brunswick, from 1786 to 1836, and of the Legislative Assembly from 1810 to 1816.

The Journals of the Legislature of British Columbia, not obtainable in print, are in process of being copied for the Library, and we have received type-written copies for the years 1856 to 1860. The series will be continued (and duly indexed) till it is completed to the point at which the admission of British Columbia to the federation of the Dominion of Canada took place.

Now that the Library Committee has finally decided, by its adoption of the Librarian's report of last year, that the estimates voted for the Library shall not be taxed for the purchase of "Exchanges," the Librarians hope to be able, from time to time, to supply or to complete collections, such as those just mentioned, hitherto wanting or imperfect.

The attention of the new members of the two Houses is directed to the following rules which have been passed, after due discussion, by the Committee and approved of by Parliament during the last few years.

1st. That bound volumes of newspapers shall not be removed from the Library room, except when in demand, during a sitting of either House, for the purpose of debate; and that the volumes, when so sent into the Chambers, shall be returned at the close of the sitting.

2nd. That the following books, viz :—1. The Debates of the Imperial Parliament ; 2. The Law Reports ; 3. The Law Reviews ; 4. The Debates of the Dominion and of the Colonies ; 5. The Parliamentary Papers of Great Britain ; 6. The Statutes of Canada and the Provinces ; 7. Works on Parliamentary Government and Practice ; 8. Statistical compilations ; 9. The Congressional papers of the United States, and similar works which are constantly in use among members, should not be permitted to be taken from the Library except for use in debate and during a sitting of either House ; and that the Librarians be instructed to procure the return of such books at the conclusion of the sitting of the House.

The strict observance of these rules will result in an increase of general convenience. The Committee of 1893 which passed the rules above quoted added the following counsel ; "Your Committee, however, consider it desirable that the attention of members should be called to these rules and that they should exercise their privileges with due regard

to the interests of the Library and with reasonable consideration for the convenience of fellow members in respect to the number of books taken out at any one time and the period for which they are retained."

The additions to the Library during the recess have had, as usual, some relation to the public questions of the day. Thus, works and pamphlets which relate to Tariff questions, the Temperance question, Trade questions, &c., will be found in their places.

The necessity of having in many cases a number of copies of many works in sudden and general demand, makes inevitable inroads on space, which is almost exhausted, and on the grant of money, which, it may be noted, has remained stationary during many years, though the increase of periodical publications, learned society transactions, statistical compilations, new editions, and books of reference, not to speak of literary production in general—has gone on with an embarrassing rapidity.

Several important works have been added to the Canadian Section since last session. Among them, the *Book of common prayer and administration of the sacraments and other rites and ceremonies of the Church, etc., translated into the Mohawk language, by Captain Joseph Brant, London, 1787.* This rare book, printed in English and Mohawk on opposite pages, is of considerable interest to Canadian bibliophiles. It is quoted in London at £18.18, but was purchased for the library at a very reasonable price.

The *Journal of Captain William Pote, jr., during his captivity in the French and Indian wars* is an important contribution to the history of the intercolonial wars. Pote was taken prisoner whilst in command of the schooner *Montague*, engaged in carrying artificers and supplies to fort Annapolis Royal (1745). The French sent him to Quebec where he remained a prisoner for two years.

During his captivity he kept a journal which after being lost one hundred and fifty years, was discovered in Genoa in 1890.

A small pamphlet of the greatest rarity was also obtained during recess. It is named: *All Canada in the hands of the English, or an authentick journal of the proceeding of the army under General Amherst, from Oswego to the reduction of Montreal, 8 September, 1760.* Boston, 1760.

Its title explains the subject of this leaflet.

During the year 1834, organisations, called *Comités constitutionnels*, were formed at Montreal and Quebec for the purpose of promoting political changes in that province. The proceedings of the said Committees were procured and placed in the Library. They will contribute valuable information to the sources of Canadian history prior to the troubles of 1837.

The list of donations will as usual be presented.

The Catalogue of accessions during the year is completed and will be distributed immediately.

All of which is respectfully submitted.

A. D. DeCELLES,

REPORT
OF THE
INSPECTOR OF PENITENTIARIES

FOR THE
FISCAL YEAR 1895-96.

To the Honourable
Sir OLIVER MOWAT, K.C.M.G.,
Minister of Justice.

SIR,—I have the honour to submit, herewith, the reports and statistics received in connection with the penitentiaries and Regina jail, for the fiscal year ended 30th June, 1896.

In order to facilitate comparison with the statistics of previous years, the summary tables refer to the penitentiaries only, the statistics of the Territorial jail being made the subject of a separate reference.

PRISON POPULATION.

The movements of the convict population are shown in the following table:—

| Penitentiary. | In custody 1st July, 1895. | Received. | | Total. | Released. | | | | | In custody 30th June, 1896. |
|--------------------------|----------------------------|------------|--------------|--------|---------------------|---------|---------|-----------|--------|-----------------------------|
| | | From Jail. | By Transfer. | | Expiry of Sentence. | Pardon. | Escape. | Transfer. | Death. | |
| Kingston | 520 | 222 | 8 | 750 | 117 | 22 | 1 | | 5 | 605 |
| St. Vincent de Paul..... | 396 | 120 | | 516 | 114 | 10 | | 8 | 1 | 383 |
| Dorchester | 167 | 80 | | 247 | 37 | 16 | | | 2 | 192 |
| Manitoba | 96 | 14 | | 110 | 28 | 2 | | | | 80 |
| British Columbia..... | 98 | 33 | | 131 | 28 | 2 | | | | 101 |
| | 1,277 | 469 | 8 | 1,754 | 324 | 52 | 1 | 8 | 8 | 1,361 |

The increase during the year is equal to six and a half per cent. The increase during the past two years has been more than ten per cent. The average daily population during the past three years has been :—

| | |
|--------------|-------|
| 1893-94..... | 1,179 |
| 1894-95..... | 1,250 |
| 1895-96..... | 1,314 |

Escapes.—But one successful escape occurred. The record of escapes during the past three years is as follows :—

| | |
|--------------|-------------------------|
| 1893-94..... | 1 (at British Columbia) |
| 1894-95..... | 2 (at Kingston) |
| 1895-96..... | 1 (at Kingston) |

Pardons.—The numbers released by pardon during the past three years have been :

| | |
|--------------|----|
| 1893-94..... | 49 |
| 1894-95..... | 73 |
| 1895-96..... | 52 |

Mortality.—The death roll is below that of preceding years, numbering but 8 in an average population of 1,314, and being less than one half of one per cent of the total number in custody during the year. Of the 8 deaths which occurred, 5 were at Kingston, 2 at Dorchester and 1 at St. Vincent de Paul. There were none at Manitoba or British Columbia. An epidemic of typhoid fever visited St. Vincent de Paul, but, notwithstanding insufficient hospital facilities, only one of the forty-four cases proved fatal.

The death rate for the past five years is shown in the following table :—

| | Average daily population. | No. of deaths. | Percentage of deaths. |
|--------------|---------------------------|----------------|-----------------------|
| 1891-92..... | 1,228 | 11 | .89 |
| 1892-93..... | 1,225 | 12 | .98 |
| 1893-94..... | 1,179 | 18 | 1.52 |
| 1894-95..... | 1,250 | 18 | 1.44 |
| 1895-96..... | 1,314 | 8 | .61 |

Of the total number of deaths during the past five years, 61 per cent occurred at Kingston, 18 per cent at Dorchester, 15 per cent at St. Vincent de Paul, 4½ per cent at British Columbia and 1½ per cent at Manitoba.

CRIMINAL STATISTICS.

The information on record regarding age, civil condition, previous habits, nationality and creed is derived from the statements of the convicts, and, therefore, not absolutely reliable, but is submitted as it has been received.

Ages :—

| | |

It is a matter for regret that so many youths are among those incarcerated. At Dorchester twenty per cent of the prison population are under twenty years of age.

Where sentenced.—The following table shows the number sentenced in each province; and the number in proportion to each ten thousand of the population, as shown by the last decennial census:—

| Political Division. | Number. | No. to each ten thousand of population. |
|-----------------------------|---------|---|
| Ontario..... | 577 | 2.7 |
| Quebec..... | 402 | 2.7 |
| Nova Scotia..... | 111 | 2.5 |

It will be observed that fifty per cent of the sentences are for terms of less than five years. Life sentences constitute four per cent.

Racial.—The racial divisions, as compared with the previous year, are as follows:—

| | 1895. | 1896. |
|------------------|-------|-------|
| White | 1,167 | 1,258 |
| Coloured | 55 | 56 |

Classification of Crimes.—An examination of the list of offences shows that about twenty per cent of the offences were against the person, seventy per cent against property and ten per cent against the public generally. About one-third of the total number is for larceny. Prisoners guilty of murder or of manslaughter constitute about five per cent.

Previous Occupation.—A striking feature of the returns, in this regard, is the undue proportion of those who have not had the advantage of a training in any trade or profession, and who consequently have been seriously handicapped in the race for existence. Common labourers constitute about four per cent of the population of the country, but embrace thirty-six per cent of our convict population. Practical farmers and skilled mechanics constitute a very small percentage.

FINANCIAL.

In making comparisons with the cost of similar institutions elsewhere, critics are frequently misled by the dissimilarity of the systems by which the institutions are maintained. I have before me the returns of prisons in various countries, states and provinces, in none of which is the aggregate expenditure shown in the tables of cost. In some cases all expenditure outside of that for ordinary maintenance is omitted. In several cases the charges for lands, buildings, walls, prison equipment, discharge expenses and industries, made under separate authority, are not shown in the per capita tables of expenditure. In others heating, lighting, and other ordinary working expenses, are omitted; or the expense of industries (including the salaries of instructors) are, in whole or in part, made a charge upon revenue, and not included as expenditure. An examination of the returns of state prisons will show that the maintenance of a large proportion of the convict population is made a direct charge upon the municipalities from which the convicts were received; thereby greatly reducing the net expenditure of the institution, though in no way lessening the actual cost to the taxpayer.

In drawing comparisons of cost with other institutions, it is necessary to take into account the different methods of treatment adopted. In many of the prisons, with which, from time to time, comparisons have been made, it will be found that expenditure has been curtailed at the expense of humanity and morality. When the civilization of Canada shall have so far retrograded as to permit a restriction of prison diet to "mush and bulls-head broth," in order to save the cost of rations; a number of

convicts to occupy the same cell in order to economize expenditure for buildings and working expenses; the adoption of the "chain gang" system, to save cost of surveillance; or allow our convicts to be "farmed out" to contractors, where they would be liable to the abuses which characterized African slavery, there will then be little difficulty in meeting the comparisons which are occasionally drawn.

The policy of permitting prison products free access to the open market can be referred to more appropriately under the heading of "prison labour," but it is a matter to be considered in connection with comparisons of cost.

The following tables include the expenditure by all departments of the government, and therefore the total cost.

Gross Expenditure.—The following represents the gross expenditure for the fiscal years mentioned, and includes expenditure for lands, buildings, walls, maintenance, industries and incidental expenses of all kinds chargeable to the penitentiaries:—

| | |
|---------------|--------------|
| 1893-94 | \$464,066 76 |
| 1894-95 | 468,750 42 |
| 1895-96 | 389,284 83 |

Net Expenditure.—The actual cash outlay in connection with the penitentiaries, is shown in the net expenditure column of the following table:—

REGINA JAIL.

The reports and statistics in connection with this institution will be found in Appendix “M.” It is the only regularly constituted jail in the Territories, and is used for three distinct purposes :

- 1st. As a place of detention for persons awaiting trial.
- 2nd. As a place of detention for lunatics awaiting transfer to the asylum.
- 3rd. As a penal institution for convicts under sentence.

Owing to the various purposes for which the jail is used, the population is fluctuating. At the date of the attached report there were 29 inmates, of whom 6 were females. The following table shows the average daily population, annual expenditure, and per capita cost during the past three years:—

| | Average Daily Population. | Expenditure. | Cost Per capita Per annum. |
|---------------|---------------------------------|--------------|----------------------------------|
| 1893-94. | .19 $\frac{3}{4}$ | \$10,835 00 | \$548 00 |
| 1894-95. | .23 $\frac{1}{4}$ | 9,548 00 | 410 00 |
| 1895-96..... | .22 $\frac{1}{2}$ | 9,055 00 | |

During the past year the title of the lot upon which the jail is situated was transferred to this department. As a result the uncertainty which formerly existed as to the extent of the jail property has been set at rest, and farming operations have been considerably extended.

The provisions of the Penitentiary Act do not apply to Regina Jail, and as a consequence, there are, at the institution, a number of convicts serving sentences of two years and upwards who are anxious to be transferred to the penitentiary in order that they may obtain the advantage of the provision for earning remission. It may be that the disadvantage in this regard has been taken into account when the sentences were imposed. If not, the grievance would seem to be well founded.

I have had no opportunity of visiting this institution, since the date of my last annual report.

PRISON LABOUR.

The insufficiency of suitable work for the convicts is a serious detriment to the proper management of the prisons, and it seems extremely desirable for financial, disciplinary and reformatory reasons that some change should be made in the existing policy in this regard.

It is somewhat of an anomaly that the prison authorities should be expected to enforce sentences of "hard labour" upon thirteen hundred convicts, and, at the same time, that they should be restricted in the means of enforcement to the routine requirements of a half dozen institutions. It is to be assumed that when a sentence of "hard labour" is pronounced it is intended that it shall be enforced; the economical and disciplinary management of the prison, as well as the physical and moral well being of the convicts, require that it be enforced; and yet, in deference to public opinion, the means available are so restricted as to render enforcement impossible.

The products of our shops being restricted to the internal requirements of the prison, their operation frequently entails financial loss. This is especially the case at the smaller institutions where the value of prison requirements, in particular lines, is not equal to the cost of maintaining the shops and providing instructors. The convicts receive benefit from the instruction given, but the institution suffers direct financial loss, and receives no value for the convict labour.

In connection with the question of convict labour I may be permitted to quote from a memorandum, with reference to the employment of convicts, which I submitted to the department a few months after assuming my present duties:

"This question is the principal difficulty in connection with the administration of the penitentiaries. At present there are about forty convicts engaged in the manufacture of binder twine, and about half that number engaged in making pails and tubs, but the only employment available for the remaining twelve hundred convicts is that connected with the requirements of the various prisons. It is submitted that the work required for the prisons could be performed by about half that number, and that there are, therefore, about six hundred men whose services are available for any new work which may be found for them.

"The policy of engaging in the manufacture of articles which compete on the open market with the products of ordinary industry would seem to be defensible only on the ground of necessity; and the question which presents itself is whether, or not, such

Department of Justice.

necessity exists. In this connection the opinion is respectfully submitted, that if the government will, but adopt the policy of patronizing its own workshops—thereby utilizing the labour of its own wards—there will no longer be any necessity for introducing, or continuing, industries, which compete with the products of ordinary industry in the open market.

“There are many articles required for the use of the various departments of the public service, which could be supplied from the penitentiaries, but which are not so supplied, because of the reluctance of departmental officials to accept prison made goods.

“Among the articles required by the government which could be supplied by the prisons, are :—

“Mail bags, of all grades and descriptions.

“Boots, caps and uniforms for the militia, military schools, letter carriers and railway mail clerks.

“Uniforms for conductors on government railways, custom officials, fisheries protection service.

“Boots, stables suits and saddles for mounted police, clothing for the Indians and industrial schools.

“Pails, brooms and tinware for the lighthouse and coast service.

“Wire fencing for government railways, and for other railways which are subsidized by the government.

“Freight cars of all descriptions for government railways.”

“Objection may be urged that prison-made goods are inferior and therefore unsuitable, but this objection can be met with the assurance that the prison authorities shall guarantee satisfaction as to quality and finish. If the system should be adopted, it must necessarily be introduced gradually. It would in some cases necessitate the employment of a different class of trade instructors, and additional appliances in the workshops ; but with proper facilities for carrying on the work there is no reason why substantial work of the kind indicated should not be done in the prisons.

“An objection that may be anticipated is that, to supply goods which replace those made in ordinary industrial establishments would be as injurious indirectly to the trade as though the products of the prisons were placed on the open market. It must, however, be admitted that a government has the moral right to supply its requirements from its own resources. Further, it would seem difficult to justify the expenditure of public funds for labour which can be supplied without such expenditure. If the head of a department were to put the work of his department to tender, and award it to the lowest outside bidder—while leaving his staff in idleness and on salary—his position would seem quite as defensible as that of a government which pays for labour which could be performed by its own wards.

“The question of prices is one which it is not necessary to consider in connection with the adoption of the policy. Whether the prices at which the work shall be procured be high or low, the profit would accrue to the government, and the expenditure would be placed beyond criticism.

“It may be also noted that the operation of the present system of procuring government supplies gives profit and employment to but a limited number of tradesmen and operatives, while the practical effect of the proposed system would, by saving expenditure, distribute the profit among all Canadian taxpayers.”

The question of prison labour was considered by the departmental committee on prisons, whose report was presented to the Imperial parliament in 1895. The recommendations of the committee may be summarized as follows :—

(a) Unproductive labour to be abolished whenever possible.

(b) Association for productive work and technical instruction to be extended gradually, and with due caution, throughout the prisons.

(c) Productive prison industries to be increased as much as possible, especially as regards gardening, farming and land reclamation.

(d) Every effort to be made to secure additional orders from government departments.

(e) Prisoners to be enabled to earn something continuously during their sentence.

Referring to recommendation "d" the directors of convict prisons, in their report for 1895-96, state:—

"Considerable success has already attended the efforts of the prison commissioners to secure additional orders from government departments. The admiralty, war office, post office, office of works, and the office of the metropolitan police have all been approached, and we feel sure that we may rely on their cordial coöperation. Many additional orders have already been booked."

In my last annual report I referred to the advantages to be derived from agricultural labour, but as this employment is available during a comparatively short portion of the year, it need not necessarily interfere with the adoption of a system of government workshops for the manufacture of goods required for the various departments of the service.

CELLULAR TREATMENT.

The prison of isolation at Kingston still continues to exercise a wholesome restraint upon the incorrigibles at that penitentiary. This prison was originally intended for the reception of incorrigibles from all our penitentiaries, but the cost of transfer has rendered this impracticable as regards the more distant institutions. It is extremely desirable that a number of isolated cells should be constructed at each of the other prisons. Their construction would involve a comparatively small outlay, but should be planned and supervised by an experienced prison architect. The experiment of cellular treatment having proved successful at Kingston its extension to the other institutions is respectfully suggested.

HABITUAL OFFENDERS.

The recidivists or "repeaters" constitute a considerable percentage of the convict population, and, as a matter of course, the prison authorities learn much regarding their history, associates, and criminal tendencies which would be of advantage to the Dominion and municipal police if a proper and regular method of communication were established.

If a bureau of crime records should be established in connection with the Dominion police, information supplied by the prison authorities could be disseminated and utilized in the interests of justice and public safety.

In this connection I may be permitted to refer to the success of the anthropometric system of identification, which has, for some years, been in use by the police of Paris, and which has more recently been introduced into England with satisfactory results.

The register of habitual criminals which was formerly kept by the directors of convict prisons, in England, has, recently, been handed over to the Metropolitan police. In addition to this, officers at each of the convict and local prisons have been instructed in the "Bertillon" system of measurement; and all prisoners coming within certain sections of the Prevention of Crimes Act are measured, and the records of their

Department of Justice.

measurement transmitted to Scotland Yard. It is respectfully suggested that the adoption of a similar system in Canada would facilitate the identification of those who have adopted crime as a means of existence.

In discussing this subject I respectfully call attention to the suggestion contained in my report for 1895, as to the advisability of legalizing the imposition of indeterminate sentences on habitual offenders. At present, notorious criminals are released with the almost certain knowledge that they intend to commit crime, and yet there is no means provided by which the public can be warned or protected.

It is respectfully suggested that the criminal laws should be amended so that the sentence imposed in the case of a third or subsequent conviction shall be indeterminate, except by the exercise of the prerogative of Executive clemency; and that in the event of discharge by such means the offender shall thereafter be required to report his location and movements to the police, under penalty of rearrest and reimprisonment. The method of police surveillance might be similar to that in force in England, Belgium and other countries with regard to prisoners on parole or probation.

PAUPERS AND LUNATICS.

In the distribution of responsibility defined in the British North America Act it does not seem to have been intended that paupers and lunatics should be maintained at the Federal expense. Neither does it seem to have been intended that a penitentiary should be utilized as a poorhouse or a mad-house.

As a matter of fact, however, a considerable number are from time to time received at the penitentiaries, who, through mental or physical weakness, are incapable of performing labour of any kind, and who consequently languish, during the whole period of their sentence, in the prison hospital or the insane ward. In such cases the purposes for which penitentiaries were established is abused, the object of a penal sentence is not realized, and the unfortunates are deprived of the care and treatment which could be supplied in institutions specially fitted and provided for such cases. This mis-direction of justice which has been the subject of repeated complaints on the part of the prison authorities in Canada, has recently been the subject of comment by the directors of convict prisons in England. In their latest report they state:—

“Many lunatics find their way into prison as the result of the operation of the existing lunacy laws, and of the difficulties thrown in the way of certifying to the existence of insanity. To certify that any person is insane is a responsibility not lightly to be undertaken, and, if possible, to be avoided altogether. The madman is consequently allowed to wander around the country until he commits some crime, perhaps an indecent assault, or arson, or “wilful” damage, or riotous conduct, or even more serious crime.”

To impose a sentence of hard labour on one who is physically or mentally incapable of compliance, is a wrong against the individual, and an imposition upon the institution which is taxed with his support.

CLASSIFICATION OF CONVICTS.

In my previous report I called attention to various grades of criminals, or the different degrees of criminality, which are represented in our penitentiaries. The three general classes, which represent about equal proportions of the inmates, are:—

1. Those, who, in their normal condition, are law-abiding and industrious, but who are suffering the penalty of some overt act committed during a temporary lapse of self-control.

2. Those who are thriftless and devoid of moral principle, and who have adopted crime as an easy means of livelihood.

3. Those who delight in crime and who spend their days and nights in planning future exploits in it.

The aggregation of these various classes in our prison workshops and convict gangs is, alike, a wrong to the less criminal convict and an injury to the State. There is, I think, little doubt that the congregate system of prison labour, without proper classification, tends to increase rather than to diminish the number of real criminals. It becomes necessary, therefore, to consider how a proper classification may be effected, and by whom it should be made. At first sight it would seem reasonable that the head of a penal institution could, from continuous observation, make the necessary distinction and division. It will, however, be found that such is not practicable. The warden's decision in such a matter must necessarily be arbitrary, and would incite discontent and difficulty among the more restricted grades. His judgment would, naturally, be guided by the conduct of his wards; and conduct, in this case, would be the most unsafe guide that could be followed. It is usually the "first offender" who feels most keenly the restraint of prison rules, and his conduct record, therefore, would compare unfavourably with that of the experienced criminal.

Proper classification, in so far as the present convict population is concerned, seems difficult; but as to the future inmates it seems desirable that such additional power should be vested in the judge, who imposes the sentence, as will enable him to indicate the grade of the offender. The question of granting such power is respectfully submitted for your consideration.

PRISON CLOTHING.

Some years ago the parti-coloured prison clothing was abolished and a less distinct and graded system adopted. Experience has shown the present system to be extremely expensive, cumbersome and unsafe. The number of separate suits which may be required involves undue expense—the arrangement and care of the large number of extra suits requires storeroom, labour and supervision that might be utilized to better advantage—and the lack of sufficiently distinctive patterns, in the first and second grades, is such as to facilitate escape.

I respectfully suggest that one sufficiently distinctive pattern be substituted, and that "fair" and "good" conduct be indicated by special stars or buttons which may be attached or detached as the conduct of the convict may warrant.

Department of Justice.

WARDENS' CONVENTIONS.

A serious drawback to the improvement of the penitentiaries is the intensely local character of their methods of business and discipline. There seems to be an impression in the respective localities that the penitentiary is not a Dominion institution, but a local appropriation for the exclusive benefit of the community; and that the patronage and general administration of the penitentiary should be in strict accordance with the desires of those who are thus able to indicate its requirements after an inspection of the exterior of its walls. The influence of this localism permeates the staff, is a serious hindrance to improvement, and prevents uniformity in methods of administration. There is not one of our penitentiaries but has points of excellence which could with advantage be introduced generally. It is difficult, however, to induce a warden to make any radical change, inasmuch as it seems to him to involve an acknowledgment of the superiority of his brother officer elsewhere.

In order to remove this difficulty, I respectfully submit for your consideration the propriety of establishing a system of wardens' conventions which might be held, annually, during the period of holidays allotted to those officers. The business of such conventions would consist of a conference with the inspector, and a mutual interchange of opinions and experience as to the methods of business, regulations, discipline, structural arrangement, convict labour, rewards and punishments, dietary, and generally all matters pertaining to more uniform, economical and efficient methods of prison administration.

The organization might, if deemed expedient, be extended so as to include provincial inspectors of prisons, and wardens of metropolitan jails; and thus constitute a Canadian Prison Congress of experienced and practical penologists.

The effect of the proposed system would tend not only to more uniform, efficient and economical methods of administration, but would incite an *esprit de corps* which is essential to success.

AID TO DISCHARGED PRISONERS.

The provisions of the Penitentiary Act, with reference to the treatment of prisoners on their discharge, is perhaps more liberal than those applicable to prisoners discharged from similar institutions in other countries; but in a large percentage of cases the liberality of the government is misplaced benevolence. In too many cases, the small grant of money which is intended to assist the discharged offender in making a fresh start in life, becomes a temptation to indulgence and excess, which tends to a fresh start in crime. Under existing conditions a warden is required to furnish a convict, on his discharge, with a new suit of clothes, a sum of money sufficient to defray his expenses to the place at which he received his sentence, and, in addition, such further sum of money, not exceeding twenty dollars, as the warden may deem proper. In the case of an "accidental" inmate, or of one who is anxious to reform, this provision is reasonable; but in the case of a professional criminal, or habitual offender, it merely affords the means by which he may add to his degradation. When the discharged prisoner steps across the prison threshold he is a free man, and there is no legal provision to ensure the subsequent oversight which I have indicated. In this matter there seems to be necessity for more close connection and coop-

eration between the prison and police authorities, and also necessity for such an extension of authority as will enable the police to prevent the misapplication of the funds supplied to discharged prisoners.

It is, no doubt, impossible to devise any system of assistance which will be free from abuse, but the experience of other countries would seem to indicate that the establishment of Prisoners' Aid Associations, in the principal centres of population in each province, and under one general management, would afford the safest and most efficient medium through which Government aid could be given.

Your obedient servant,

APPENDIX A

WARDENS' REPORTS

Department of Justice.

KINGSTON PENITENTIARY.

PORTSMOUTH, ONT., 1st July, 1896.

SIR,—I have much pleasure in submitting as directed by statute the annual report of this Penitentiary for the year ending 30th of June, 1896.

| | |
|--|-----|
| The number of convicts remaining on 30th June, 1895, was | 520 |
| Received since from jails | 222 |
| do from other penitentiaries | 8 |
| | 750 |
| Discharged by expiration of sentence | 117 |
| do pardon | 22 |
| do death | 5 |
| Escaped | 1 |
| | 145 |
| Remaining at midnight on June 30th, 1896 | 605 |
| Of this number 26 are females. | |

There have been during the year 38 recommitments, 13 of these being 3rd, 4th and 5th terms.

The male convicts are classified as follows:—

| | |
|-------------|-----|
| First grade | 392 |
| Second do | 111 |
| Third do | 49 |
| Hospital | 3 |
| Asylum ward | 24 |
| | 579 |

There was one escape during the year, particulars regarding which were reported at the time to the department.

The very short time which has elapsed since my appointment, as warden, precludes my being in a position to make a lengthy report.

I have the honour to be, sir,
Your obedient servant,

J. H. METCALFE,
Warden.

| | 133 |
| Remaining at midnight on 30th June, 1896..... | 383 |

Showing a decrease of 13 in the prison population during the year.

The number of recommitments has been the same as last year, viz., 29.

I am happy to be again able to say that there has been no escape of convicts during the past year.

It affords me great pleasure to state that, with few exceptions, the conduct of the convicts has been good. The majority of them realize the benefits of obedience, discipline and industry, and appreciate the privileges arising therefrom.

The table showing the distribution of convict labour indicates the various industries in which the prisoners are employed.

The trades are beneficial to those who are desirous of learning them, as they are thereby enabled, after their discharge, to utilize what they have been taught, in making respectable livings.

The work done here is nearly all for prison use.

Two incorrigible prisoners were, in April last, sent to Kingston penitentiary to be placed in the cells of the prison of isolation.

During the year it was also found necessary to transfer to Kingston a convict who had become hopelessly insane.

The school is efficiently carried on, and is productive of much benefit to the prisoners of whom a good number evince an interest in being taught.

The sanitary condition of the prison is very good. Although our prison was visited by an epidemic of typhoid fever, for which we were ill prepared, I am happy to state that only one case proved fatal.

Several improvements have been made to the penitentiary property by convict labour, viz. :—

Another section of 125 feet of boundary wall and a tower were built during the year. Work was also started on the front gate, which will be finished next year, should no unforeseen delays occur. When completed, this wall will in architectural appearance, length, height and solidity, surpass any prison wall to be seen in Canada.

A stone drain emptying in the creek, 150 feet long, was built, and the ravine filled with stone rubbish.

Forty convicts are at work levelling the prison yard, and fifteen thousand loads of stone rubbish carted away to the creek.

Department of Justice.

Convicts were also employed pointing, with cement, a further section of the boundary wall.

The flooring of the Roman Catholic chapel was renewed in part.

Two of the tenement houses were thoroughly repaired.

The sheds of the brick yard were also repaired.

New windows, with double-windows attached, were placed in the Protestant chapel, keepers' hall, Roman Catholic vestry and in the offices of the deputy warden and of the chief keeper.

Those intended for the school-room and front offices are now ready and will soon be placed in position.

The vegetable garden has been improved and enlarged by filling the remainder of the ground near the piggery with fourteen hundred loads of arable land, and is of great value for the prison.

Fourteen acres of barb-wire fence were put up on the farm and moreover eight acres of stone fence were built along the tramway line.

The farm was further improved by drainage and cultivation which will later on bring in good returns.

As soon as the boundary wall and gate are completed, the next building to be erected should be a substantial fire-proof stable, with coach-house, harness-room, etc., attached.

The present building is unsightly, mars the appearance of the workshops, and besides being unhealthy is also a source of constant care to avoid a conflagration which would cause serious damage to the workshops. The best and most convenient site to locate the stable would be in the corner of the yard near tower No. 3 and close by the north gate leading to the gardens, farm and quarry.

A new hospital will also have to be built, with all modern conveniences, for, as you know, our present hospital is badly located, ill ventilated and without the proper accommodation for the treatment of contagious diseases.

To be in keeping with our fine boundary wall, the antiquated stone wall facing the street will have to be pulled down, and replaced by some nice iron railing on cut-stone base. The street could be widened a few feet and a permanent stone or cement sidewalk made along the whole frontage of the prison grounds.

Should it be decided to introduce electric lighting for the penitentiary buildings and grounds, which would by far be more convenient than the present system, it will become necessary to either enlarge the present water-works building or build a new boiler-house, with coal-sheds to receive an additional boiler and the dynamos required. I would suggest that the new building be erected nearer the dyke, as this would avoid going through the warden's garden.

Last year our hay crop was good, our root crop very abundant, but owing to grass-hoppers no oats were harvested.

This year the crops look well, but there will be very little hay owing to the drought.

The revenue in cash deposited to the credit of the Receiver-General amounts to \$1,308.07, and the earnings of convicts to \$59,535.35, for the past year.

The expenditure for the year is \$88,504.16. By deducting from this the revenue deposited, and the sums paid for items which should not be charged to ordinary expenditure, the real expenditure for the maintenance of convicts would be \$80,113.06.

The average number of convicts for the year was 397.

The average cost for maintenance proper is \$201.79.

By taking into account the earnings of convicts, amounting to \$59,535.35, the expenditure would be reduced to \$20,577.71, and the yearly cost of each convict to \$51.83 or, per diem, 14½ cents.

I have much pleasure in again being able to report favourably on the conduct of the officers who, as a whole, are zealous and have been attentive to their several duties.

Since my last report some changes have taken place in our staff; first the death of our Protestant chaplain, Rev. Canon James Fulton, whose death was as sad as it was unexpected. Then the resignation of guard Boyer, by reason of age and ill health.

Rev. Canon John Rollit was appointed Protestant chaplain and Mr. V. Lortie was called to fill the vacant post of shoemaker instructor.

In closing this report I beg to offer my most sincere thanks for your kindly assistance on several occasions during the year.

I have the honour to be, sir,

Your obedient servant,

TÉL. OUIMET,

Warden.

DOUGLAS STEWART, Esq.,
Inspector of Penitentiaries,

DORCHESTER PENITENTIARY.

DORCHESTER PENITENTIARY, 1st July, 1896.

SIR,—I have the honour to submit my annual report, with the usual returns, for the fiscal year ended 30th June, 1896.

On the 30th June, 1895, there remained 167 convicts; received since, 77 males and 3 females, total 80; discharged during the year, 53, deaths, 2, total, 55, which left remaining at midnight on 30th June, 1896, 188 males and 4 females, total 192 prisoners, being an increase of 25.

The total expenditure for the year just closed was \$46,953.24, as against \$46,584.83 for the previous year, an increase of \$368.41. The statutory increases for the past year amounted to \$240. The salaries of a matron, two additional guards and one teamster aggregate \$2,000, and an increase in the cost of fuel to \$352. We have now to depend on coal altogether for fuel, our wood supply having become exhausted.

Our revenue for the year was \$4,317.70.

The per capita cost is \$259.20:

We have, during the past year, erected for the staff 6 kitchens, 3 semi-detached wood sheds and 6 cow stables, leaving double that number of these buildings yet to erect. These we expect to complete in two years.

We have cleared and have under crop this year about 22 acres of new land and the brush on 10 acres more cut down and burned, the stumps will be taken out this fall and next spring.

To have a sufficient supply of water for the use of the prison and the saw-mill, I had to cut off the supply to the officers cottages from July 9th till August 23rd, and again from February 18th till March 16th. In the dry seasons the supply is not sufficient for the consumption at the prison and at the officers' houses. There is another spring much nearer than the present one that might be utilized for the staff. It will require about 1,800 feet of 4-inch pipe to convey the water from the spring to connect with the present system near the cottages. A reservoir of about 30,000 gallons capacity ought to be built. The present supply is sufficient for all the needs of the prison at all seasons of the year. When the water is turned off to the cottages, it is hauled to them. This operation takes a yoke of oxen, an officer and three prisoners.

By an Order in Council, dated 14th August last, Dorchester Penitentiary was appointed a military prison, under the Army Act, and there were 7 military prisoners received here during the year.

The female prisoners are now being kept here, instead of being sent to Kingston Penitentiary.

Mrs. Kate Matheson was appointed matron on the 12th February and, after taking some time to consider, declined to accept the position. Mrs. Clara Bartlett was then appointed and entered upon her duties on the 19th May.

Department of Justice

There were two deaths in the prison last year, one from an injury received while working at a saw in the mill, the other from disease of the lungs. I am glad to be able to state that, with these exceptions, there has been no serious sickness in the prison during the year.

I had a small house built out on the farm, near where we are clearing up the new land, for shelter for the prisoners when it rains, and to eat their dinners in while working on that part of the farm, as too much time would be lost in coming to the prison for their dinners.

Professor Saunders, Director of the Experimental Farm, Ottawa, and Col. Blair, late Manager of the Experimental Farm at Nappan, N.S., paid us a visit on the 16th October last. They went over the farm and discussed farm matters with our farmer.

Although last summer was very dry all our crops were fairly good.

With your approval I purchased a pair of team horses.

Our chapel organ, I regret to say, often gets out of order and gives us a good deal of trouble and annoyance. I am convinced that the material used in its construction was of an inferior quality, and the workmanship has not turned out to be of that class that should be expected in an instrument made to order.

Two prisoners—John Doyle and John Reid—made their escape while working on the farm on the 31st July last, were recaptured four days later, by one of our officers, seven miles distant from the prison.

The price of pails is so very low, the pine out of which the pails are made is so scarce and faulty, and the cost of bringing it by railway so heavy that the pail industry is not very remunerative; but it gives employment to a number of prisoners that it would otherwise be difficult to find work for. I can find employment in fine weather during the summer months for a large number of prisoners, but there are always some who have long sentences that cannot be taken outside the walls without a serious risk; and taking this class of prisoners outside for the sake of giving them work adds to the cost, as additional officers must necessarily be employed; and then there is a limit to outside work, too.

The plot of ground used as a graveyard before and up to 1887 was not a desirable spot for several reasons, and some of the old residents of the village asked me not to bury any more there. After I heard what their objections were, I promised them that I would not do so, and that I would remove those that had already been buried there. I selected what I considered a more desirable spot, which has since been used as a burial place, and I had all the bodies removed from the old to the new graveyard, which was set apart on the 25th June last.

We have two or three incorrigible prisoners who ought to be kept in solitary confinement, they are hardened criminals and have been in prison most of their lives. They have a very bad influence over other prisoners, they make it a point to get the ear of the newcomers, especially the younger prisoners, giving them very bad advice and continually getting them into trouble while they themselves escape punishment. It is extraordinary the influence two or three bad prisoners have in a prison, they appear to pollute the whole atmosphere of the institution. They destroy all the reformatory influences. I would recommend that these incorrigible prisoners be sent to Kingston as fit subjects for the solitary cells there.

To have good results in a prison there should be plenty of work and, if possible, of a remunerative character as no man, be he criminal or free, has any love for that which is or has to be performed merely for using up muscular force. Every convict should do a good day's work, not two or three to do one man's work, otherwise they get into indolent habits that stick to them when they go out. When a prisoner finds that he has to work as hard in a prison as he has outside, to get a living, he will think twice before he commits a crime. I fear that the committing of a crime is thought too lightly of, and there is too much sympathy for those who do so. I believe that the chief dread a majority of those who come into a penitentiary for the first time have, is the punishment attached to such a place, but when they get there they are agreeably surprised to find the treatment is something, a majority of them never experienced before coming here. Well fed, well clothed, good bed, the building heated by steam, the same temperature all over the building, regular hours, plenty of good reading matter

and very light work to do. They no longer have that wholesome dread of a penitentiary, and when they go out they again return to their evil ways and associates with less fear of the consequences than before and in too many cases they become habitual criminals.

There is a very bad class of criminals that frequent these provinces of late years during the summer season with considerable success, called tramp burglars and safe blowers. They are old in crime, ready to commit murder if needs be, and they never expect or desire to be anything else than what they are. They no sooner get out of prison than they are to work again at their old trade. This class of criminals should be severely dealt with both in sentence and discipline as they are the cause of a great deal of anxiety and worry on the part of women and children throughout the country districts, whose husbands and fathers are often times away from their homes for weeks at a time earning an honest living for their wives and little ones.

The Honourable Sir Charles H. Tupper, then Minister of Justice, paid us a visit on the 9th August, inspected the prison shops and grounds and expressed himself pleased with his visit. He was interviewed by about 40 prisoners.

Two additional guards and one teamster were appointed in July last.

I have much pleasure in being able to report the same good feeling as formerly existed among the members of the staff.

I have the honour to be, sir,

Your obedient servant,

JOHN B. FORSTER,

Warden.

DOUGLAS STEWART, Esq.,
Inspector of Penitentiaries,
Ottawa.

MANITOBA PENITENTIARY.

STONY MOUNTAIN, 1st July, 1896.

SIR,—I have the honour to submit my annual report for the fiscal year ended 30th of June, 1896.

The movements of convicts during the year were as follows:—

| | |
|--------------------------------|-----|
| Remaining June 30th, 1895..... | 96 |
| Received since..... | 14 |
| | 110 |
| Discharged since..... | 30 |
| | 80 |
| Remaining 30th June, 1896..... | 80 |

From the accountant's statements it will be noted that the per capita cost, per diem, has been reduced by 6 cents, from \$1.26 to \$1.20. Owing to our small population our per capita keeps up, notwithstanding a reduction has been made each year since I have been in charge.

Considerable repairs and improvements have been made to the prison.

A large portion of the basement (kitchens, bakery and closets) has been laid with concrete, and the drainage and piping refitted. This work has been superintended by Mr. Shead, plumber, who has made a first-class job of it. The remaining part of the basement should be treated in the same manner, and an iron staircase, from the basement to the prison, put in instead of the old wooden one, as a protection in case of fire.

The passage way in the piggery has been laid with cement and concrete. I would recommend that the whole of it be done in the same way.

Department of Justice.

Comfortable quarters have been fitted up in the prison for the deputy warden.

A part of the roof of the prison has been relaid with tar paper and tar composition renewed. The roofs of other parts of the buildings are leaky and require overhauling.

The roof of the warden's house has been lowered by the removal of the top story. A verandah has also been added. Some alterations and repairs are required inside to make the house habitable. I may add that the warden has not had a house to live in during the four years he has held office.

The stable yard, previously surrounded by a dry stone wall (a most delapidated one), which was falling away, has been fenced with wire.

A new kitchen has been added to one of the officer's quarters.

A new boiler, smokestack and pump, have been placed in the laundry. This outlay has helped, considerably, to raise the per capita cost.

The following buildings have been painted, viz. : Granary, piggery, coal shed and stone shed.

The whole of the outside of the prison building requires painting, to preserve the wood work and add to its appearance.

Two iron gates have been made in the blacksmith's shop, one being placed at the front entrance of the prison, and the other in the attic of the hospital. Gratings have also been put over some of the fanlights in the doors.

Our reserve has been enlarged by the purchase of three quarter sections. Before this additional land can be made productive a great deal of work will be necessary to break and fence it. In that connection I would again recommend that a number of convicts be transferred from Kingston Penitentiary. We can now find profitable work for a greater number than are now at our disposal.

Our acreage under crop this year is as follows : Barley 20 acres, wheat 65, oats 50, potatoes 10, turnips 2, summer fallow 7, total 154.

We sold 91 bushels of seed grain to farmers at 60 cents a bushel, and I believe we could have disposed of much more had it been circulated, in some local paper, that we were selling. If we have a surplus next year I would suggest that some method be adopted to let the surrounding farmers know, with a view to supplying them with seed grain.

The following buildings are urgently required :

Granary. The building now used is far too small to store the quantity of grain raised. It was erected for a coal and wood shed about twelve or fifteen years ago, and lately turned into a temporary granary. At present I have to store the wheat in the stalls of the warden's stables.

Store house for flour. As we now produce our own flour, a suitable warehouse is necessary. At present I have to utilize the penal cells for that purpose, which is very inconvenient, as of course the cells may at any time be required. I have also had to store the storm windows there this year, there being no other place available.

Implement and wagon shed. This is badly needed, for these valuable articles are now exposed to all weathers, greatly to their injury.

Carpenter and blacksmith shop, with paint shop above, is also a necessity. The present shops are too small and the blacksmith's shop will be on the outside when the wall is built. There is no paint shop, which makes it inconvenient when implements and wagons require painting.

A slaughter house is also needed for the slaughtering of pigs, and as we now raise all our own pork, a smoke house is required in connection with this.

A large root house is wanted. Those now in use are situated in the farm yard, in a very low place, and are too damp. The new one should be built on the west end of the garden, on the high ground where the soil is gravelly, this being a more convenient place and ensuring the preservation of the roots.

Our telephone line between here and Winnipeg, requires partially rebuilding, probably to the extent of one-third. It is often out of order for days, owing to the fact that many of the poles, which have not been renewed for 15 or 20 years, having become rotten and fall here and there.

Our train service is very unsatisfactory ; trains come three times and sometimes only twice a week, and they leave Winnipeg too early in the day to bring out the

eastern mail of that day. In consequence of this, Ottawa mail sometimes lies two or three days at Winnipeg for the next train. In the spring, we are frequently cut off entirely from communication with Winnipeg. The trains fail to reach us, the roads are too bad to travel over, and our telephone out of working order. During the greater part of this wet summer the usual road was almost impassable.

The steam fitting of the main part of the prison has about seen its day. It was put in some 17 or 18 years ago, and the pipes have become honey-combed with rust, entailing constant work in stopping leaks, springing up in all directions. I would recommend that a new heating service be put in.

We have still four insane convicts, one of them especially, Dunsterville, gives considerable trouble by his outbreaks. It would be a relief to see them removed.

We have been supplied with half a dozen Marlin revolvers. They prove satisfactory, and I would recommend that this make be issued to all the staff, in order that only one kind of ammunition be necessary.

Referring to the inspector's last annual report. I note a paragraph regarding the separate libraries in the penitentiaries by which many of the works are duplicated in the same institution. I quite agree with the inspector's views on this point. A change could well be made in the method of arranging the library which would be beneficial in many ways.

As you are aware, all the officers' uniform, and boots, together with all the outer and under clothing and boots for the convicts, are made by the convicts themselves, as also the clothing given to the latter when leaving.

I might suggest that a considerable saving can be effected by the substitution of woven underwear for that at present issued to the convicts here.

The latter is made of Halifax home-spun, which I consider too expensive, clumsy when made up, and too coarse to wear next the skin. A suit of it costs, including 35 cents for labour, \$2.95, and I find that strong woven underwear nearly all wool, which would better answer the purpose, and relieve the tailors' shop of a lot of work, can be obtained for, from \$1 to \$1.25 per suit, if purchased direct from the manufactures.

A man at heavy work, such as stone cutting, will wear out three suits per annum, so that if the woven goods are adopted a saving of \$5.10 per annum for men so employed, will be made.

In the hot weather which obtains here in the summer, I have been compelled to use Canton flannel for underclothing, but it is not satisfactory. The flannelly substance disappears from the cotton at the first washing and leaves the latter non-absorbent, so that the wearer is exposed to chills, and it wears only a short time. It costs \$1.10 per suit and if my suggestion is adopted will not be necessary, as the woven wear, owing to its absorbent properties being equally good summer and winter.

On account of the few men we have the construction of the boundary wall proceeds but slowly; the building is often interrupted by my being obliged to take the men for other work. Still, considering the few men that have been at it, fair progress has been made; in fact good progress has been made.

The conduct and industry of the convicts has been very good. I am again pleased to report that there have been no escapes since I took charge four years ago.

Mr. Fitzsimmons, deputy warden, who was transferred here in August, 1895, has given me every support and has been of great service to me.

Other members of the staff have discharged the duties of their respective offices to my satisfaction.

I inclose the usual reports and statements.

I have the honour to be, sir,

Your obedient servant,

A. G. IRVINE,

Warden.

BRITISH COLUMBIA PENITENTIARY.

NEW WESTMINSTER, 1st July, 1896.

SIR,—I have the honour to submit herewith my first annual report of this penitentiary for the year ending 30th June, 1896.

| | |
|--|------------|
| The number of convicts remaining June 30th, 1895..... | 98 |
| Received during the year 1895-96..... | 33 |
| Total..... | <u>131</u> |
| Number of prisoners discharged during the year 1895-96 : | |
| By expiration of sentence..... | 28 |
| “ pardon..... | 2 |
| Total..... | <u>30</u> |
| Remaining at midnight June 30th, 1896..... | <u>101</u> |

Showing an increased population of three during the year. There has been one recommitted.

I am sorry to say we have lost one of the most able and efficient officers of our staff, Mr. D. C. McGillivray, who died of bronchitis, March 3rd, 1896.

I am pleased to state no deaths have occurred amongst the convicts nor any escapes.

The discipline of the institution has been well maintained, and the conduct of the convicts with very few exceptions has been very good.

The school is progressing very satisfactorily and there is an average attendance of 2·07 and the convicts seem to appreciate the efforts made to improve them, especially the Indians and Chinamen who are very quick at learning.

The work carried on here during the year has been more in the shape of repairs and improvements.

The warden's residence and all the officers' quarters have been painted and repaired, which had not been done since they were built, which is about eight or ten years ago, and were in a very bad state. Alterations have also been made in the wash house by putting in new skylights and steam heating apparatus for baths, &c., and we are now able to do all the shaving, bathing, and washing of clothes in the same building which saves a good deal of time, and the convicts while there are more under the eye of the officers than before.

The repointing of the main building mentioned in last report has been finished, and is considered a good substantial piece of work.

A new wagon road is now being made up the ravine to the back part of the penitentiary reserve, which will enable us to haul the wood and stone much more easily and a shorter distance than before.

The progress we expected to have made in brick making has not advanced as satisfactorily as I would wish, but we hope by spring to be in a position to commence making brick. Prospecting for clay and sand has been carried on, and an unlimited supply has been found on our ground, the quality of which has been declared first-class by experts.

Repairs have been made to the old water system by repairing the dam and pipe, which, with a few more improvements, such as building a large tank or reservoir, in addition to the one we are now building, for saving all the water from wash house and

other buildings, I have no doubt will give us sufficient water for all purposes, except for cooking and drinking, and will make quite a reduction in our expenditure.

A good deal of repairing has been done inside the main building, such as lathing, plastering, painting, and a new cement floor in kitchen.

The boundary fence has been repaired in a good many places by putting in new posts, which have been taken from the reserve, but it still requires a good deal more done to it.

The unsightly hole in front of the building has been filled in level with the field, also a greater part of the cribbing along the railway track in front of the reserve.

In conclusion I would say that the conduct of the officers of this institution has been highly satisfactory.

I have the honour to be, sir,

Your obedient servant,

W. MORESBY,

Warden.

SURGEONS' REPORTS

Department of Justice.

KINGSTON PENITENTIARY.

PORTSMOUTH, ONT., 1st July, 1896.

SIR,—Once more, I have the honour to present my report, this time for the year just ended.

I have great satisfaction in being able to state that the health of the population of this penitentiary, all things being considered, is very good.

The diseases requiring treatment are such as are met with in every day practice, outside, and although the number admitted into hospital exceeded that of the previous year, yet our death rate has not increased.

One cause why our number of admissions to hospital has, of late, increased is that not a few with trifling complaints, viz.: toothache, nausea, indigestion, &c., are taken in, in my absence, who might have received medicine and been sent to their cells. As in former years, all complaining of being ill have the privilege of seeing me each morning on my visit to this prison, and those who I consider require to be treated in hospital are received into it, to the others medicine is administered and they are sent to work.

In looking over the reports of the surgeons of the different penitentiaries of the Dominion, for 1894-95, I find that whereas, the total number of admissions into this hospital in that period, with a population of 530, amounted to 366; in St. Vincent de Paul, in which were confined 396 convicts, the numbers treated in hospital and cells was 847; in Dorchester, with a population of 167, no less than 265 were undergoing treatment as above; in Manitoba, in which were only 96 prisoners, 605 were reported as requiring medical aid, none of these being outside patients; and in British Columbia 55 convicts were received into the hospital there, the number confined in that prison being 98.

As I stated in my report last year, all those ailing, with the exception of outside patients, a few in the female prison, C. L. Asylum and isolated ward are treated in our hospital, the cells here being too small in which to confine sick people.

Now if one looks at the above comparisons, it is plain to be seen that with exception of British Columbia, the Kingston Penitentiary stands far in advance of all the others, in respect to the sanitary condition of its inmates.

There remained in this hospital on 30th June, 1896, 8, three of these will, in all probability, remain here, during their period of incarceration.

We have been altogether free from any epidemic, since my last report, with the exception of la grippe, and I am pleased to be enabled to state, that fewer cases of typhoid fever have occurred within the year just closed, than in the preceding one, viz.: in 1894-95, 25 cases, in 1895-96, 8.

I have been informed by Mr. Devlin, the engineer, that steps have been taken, to have the pipe through which the water is conveyed into this prison, carried out into the lake a distance of 500 feet. In my report last year, I hinted at this, but thinking it would be very expensive, and at the same time might not accomplish all it was expected to do, recommended, that the water for drinking purposes should be boiled, or if that could not be done, that a well be bored in the yard, near the present one, to the depth of from 45 to 70 feet.

Had I, as surgeon of the Kingston Penitentiary, been consulted in the above matter, I would have advised that water from the vicinity, where it is proposed said pipe shall terminate, be first analysed, by an expert, in order to ascertain if it, the water, there, is pure, as great difficulty was experienced in obtaining pure water for the inhabitants of Kingston, the supply pipe having to be extended some 2,700 feet into the lake, instead of 1,300 feet, as at first intended.

Insane Ward.

Those confined in this ward are kindly treated. Mr. Evans, the keeper who, has been in charge since the opening of the asylum, about 15 years ago, is very attentive to the inmates, and discharges his duties to my entire satisfaction. Most of those here are incurable. One unfortunate man who was sent to this prison was admitted into the ward, when first seen by me, he being insane. He is also an epileptic. I reported on his case, shortly after his admission, but as yet, steps have not been taken for his removal. His, was one of those cases, which should have been examined into, by medical men before his trial, as he, being insane, should, in my opinion, not have been tried, but sent to an insane asylum.

There were discharged from the asylum as cured, 8; improved sufficiently to resume work, 5; transferred to a provincial asylum on expiration of sentence, 2; died, 1; remaining at present date, 24. Should it be the intention of the government, still to confine the criminal lunatics in this building I would strongly urge that the old water closets at present in use, having cast iron hoppers, be replaced by porcelain trapped closets.

Female Department.

I have nothing new to report in reference to this department. The matron and deputy matron, as in former years, have discharged their duties to the sick in a most satisfactory manner

I, once more, call your attention to the two insane women confined here, and would again ask, can nothing be done to have them placed in a provincial lunatic asylum.

There have been more accidents than usual among the convicts, within the last twelve months. One man fell from the fourth range of cells, fortunately without breaking any bones or suffering severe internal injuries. Another had the index finger of his left hand caught in the machinery in the binder twine, necessitating amputation at the second joint of that finger. A third fell from a scaffold and dislocated his elbow joint, left arm. A fourth swung himself from a beam in the south wing, falling a distance of twelve feet, having hold of a rope, thinking the hook at the far end of the rope was fastened in a ring, where it generally was secured, causing fracture of the lower end of fibula. A fifth fell, while at work at the water tower, a distance of some eighteen feet, fortunately only receiving a sprained wrist and a contusion of his right thigh. A sixth had the little finger of his right hand caught in a cog-wheel in the binder twine, in consequence of which I had to amputate that finger at the second joint.

The intercepting sewer has hardly been long enough in operation to allow me to express an opinion as to its usefulness.

During the past year there have not been many of the officers confined to their homes through sickness.

The tables annexed show how many patients were treated in hospital and the nature of their diseases.

Mr. Gunn is quite efficient in the discharge of his duties as hospital overseer.

I have the honour to be, sir,

Your obedient servant,

O. S. STRANGE, M. D.

ST. VINCENT DE PAUL PENITENTIARY.

ST. VINCENT DE PAUL, 18th August, 1896.

SIR,—I have the honour to submit to you my report for the year ended 30th June last.

I am sorry to state that we have had more sickness this year than for years past.

From the 15th October, to the 26th January, we had 44 cases of typhoid and gastric fever, one patient died of typhoid fever.

I beg to call your attention to the hospital which is too small and not well ventilated. The convicts are all together and it is difficult to obtain a prompt recovery especially when there is an epidemic. During the epidemic of last autumn, I was obliged to use another room that was not ventilated. For these reasons I recommend a new hospital.

During the year we had six insane convicts who caused much trouble, as we have no place in which they could follow a course of treatment. One insane convict was transferred to the insane asylum at Kingston, and another was recommended, and the four others cause much trouble.

During the year there were many accidents but none serious.

On the 30th June, there were three patients in hospital under treatment.

The table annexed will show you the number of patients treated in hospital and cells. Mr. David O'Shea, the hospital overseer, fulfils his duties to my entire satisfaction.

I am thankful to the warden and the other officers for the aid they render me in the discharge of my duties.

I have the honour to be, sir,

Your obedient servant,

DORCHESTER PENITENTIARY.

DORCHESTER, N.B., 30th July, 1896.

SIR,—I have the honour to submit my report for the year ended June 30th, 1896.

The sanitary condition of our prison during the last year has been good. The sewers are kept in good order, are frequently flushed, and have not given us any trouble for some time. Occasionally a sewer requires to be opened, cleaned and repaired, but, owing to the elevated site of our prison, we have probably less difficulty in this respect than other buildings of this kind less favourably situated.

The ventilation of the cells is very good. It is by means of separate ducts from each cell; these unite in a large air-duct at the top of the block, and are discharged through numerous ventilators at the top of the building.

The corridors and dining hall are ventilated by means of a number of windows surrounding the cupola, which can be opened and shut at pleasure from the landing in the hall. The draught can be increased by opening one or more windows at the sides or ends of the north or east wings, a proceeding that takes place daily. In summer as many windows as are required are open all day, and at night as many as are necessary. The cells are 8 feet high, 9 feet 9 inches long and 4 feet 6 inches wide, with grated doors, giving a capacity of 351 cubic feet. The corridors are 9 feet 7 inches wide, the full height of four rows of cells and surrounding the whole block.

The cells and corridors are kept quite clean and free from any offensive smell and we have never experienced any difficulty in having the temperature to suit the season. Our steam heating apparatus continues to give every satisfaction.

The water supply continues sufficient for the wants of the prison population, but as a large quantity is required for the wants of the occupants of the 30 officers' houses, situated at some distance from the prison and at a much lower level, I consider it most important that our supply should, as soon as possible, be supplemented by having a spring in the near neighbourhood piped so as to give the inhabitants of the cottages all that might be required of that necessary essential to health, good water.

There were admitted during last year 77 males and 3 females. Lads under 16 years of age, 8; from 16 to 40, 65; from 40 to 60, 6; over 60, 1.

The general physical condition of those admitted during the year, with very few exceptions, has been good.

Since last report we have had the female prisoners remain here instead of being sent to Kingston, as formerly, and at present there are four female prisoners in charge of our matron.

Department of Justice.

The general health of the convicts has been good. We have had two deaths, one the result of an accident in the mill, the man coming in contact with a stave saw; his right thigh and right fore-arm were severely lacerated and he likewise sustained severe internal injuries, death resulting 52 hours after the accident. The other was a case of phthisis, a young man aged 23. He had been in our prison before and was—as he expressed it—glad to get back, as he had no friends outside who would take care of him. With these exceptions the year's work has been uneventful. There has not been as much general illness of a serious character, as on many former occasions during my 16 years' service, and I am happy to say that we have had no epidemic or contagious disease visit us. There were 11 cases sent to hospital. The number of days in hospital was 360. The number of applications for minor complaints was 1,237.

Annexed are the tables showing the number of cases treated in prison and those sent to hospital.

I have the honour to be, sir,
Your obedient servant,

ROBERT MITCHELL, M.D.,
Surgeon.

DOUGLAS STEWART, Esq.,
Inspector of Penitentiaries,

ROBERT MITCHELL, M.D.,

MANITOBA PENITENTIARY.

STONY MOUNTAIN, 1st July, 1896.

SIR,—I beg to submit my annual report for the year ended 30th June, 1896.

It is very gratifying that another year has gone by without having any death to record.

A few severe cases of illness amongst the convicts terminated favourably. There was an increase, this year over last, of minor complaints.

I have the four insane convicts, already reported, still in hospital. Two more cases under treatment in the prison, show positive signs of mental derangement and may at any moment arrive at that stage of the disease where they will be found to be insane.

With no facilities for proper care and attendance, these insane patients give the warden and staff much anxious work, to prevent disturbance of the discipline of the penitentiary.

The return shows a large number of "days of convicts in hospital." This is on account of the insane patients. The number of days is 2,571. The total number of prescriptions is 3,533. The annual expenditure is in keeping with these returns and about the same as last year, which is very reasonable.

The guards and families have had rather more than the usual amount of minor ailments. I have seen also a great deal of discomfort amongst the women and children,

Department of Justice.

due to the defective condition of some of the quarters. For the most part these buildings were poorly built, and being in constant use for a long time, with few repairs, they are now very much out of repair. They are very cold and draughty in winter. I do hope that wherever it is found necessary, the work of repair will be completed before the cold weather comes. This will remove a just cause of complaint. A good deal of satisfactory work has been done in repairing and replacing defective portions of the soil, heating and water pipes both in the prison and the hospital. This work was very much needed. The hospital overseer, Mr. Beaupré, continues his work to my entire satisfaction. He is very kind and faithful in the discharge of his duties. My duties have been made pleasant for me by the constant kindness and courtesy of the warden and his staff.

The usual returns are hereto appended.

I have the honour to be, sir,
Your obedient servant,

W. R. D. SUTHERLAND, M.D.,
Surgeon.

BRITISH COLUMBIA PENITENTIARY.

NEW WESTMINSTER, B.C., July 1st, 1896.

SIR,—I have the honour to submit my annual report for the year ended 30th June, 1896, together with the customary tables.

The number of patients treated in hospital is less than last year, being 25, while the number of days spent in hospital was 585, an average of 23.4 days each patient.

Fortunately no serious cases of disease have occurred, nor has any epidemic visited the prison, a fact which, in view of our present circumstances, we are duly thankful for.

No death has occurred during the year.

While the number of patients treated in hospital has decreased, a large number have been treated in their cells, the number of prescriptions made up for patients other than those in hospital being 944.

This penitentiary still suffers under the disadvantage of having no properly equipped hospital. The place used as one has many drawbacks which have been mentioned in former reports.

I beg to call your attention to the unsatisfactory arrangements existing for supplying the hospital with medicines. The system in force at present necessitates great delay in procuring articles which may be required. Thus, on May 26th last, I requisitioned for certain drugs which have not made their appearance yet. This delay militates against the proper treatment of the sick and places the surgeon in an awkward position. By great good fortune no serious accident has occurred since that date, for as this delay has kept us without an anaesthetic in the hospital for over five weeks, it is difficult to know what we should have done had an occasion arisen which called for the use of one.

The two convicts who were reported as insane last year are still in the prison, and continue as difficult as ever to deal with. These men should be removed to an asylum for the insane, as the chance of their recovery daily grows less the longer they are

Department of Justice

without proper treatment. Another man has been admitted during the year who is at least of weak intellect, and who may develop insanity at any time.

One officer died during the year. He had been ill for some time with bronchitis, and suddenly developed pneumonia which proved fatal in three days.

In conclusion, I have to thank the warden and other officers for much assistance in the discharge of my duties, and again express my satisfaction with the manner in which the hospital overseer, Mr. Carroll, attends to the work of the hospital.

I have the honour to be, sir,
Your obedient servant,

SCHOOLMASTERS' REPORTS

Department of Justice.

KINGSTON PENITENTIARY.

PORTSMOUTH, ONT., 1st July, 1896.

SIR,—I have the honour to submit my first annual report of the school in this penitentiary for the year ended 30th June, 1896.

The school was reorganized last March with a view to give more attention to the illiterate and the system recommended by yourself, of teaching in the cells at night in addition to the time allotted at noon, put in force.

Since then a marked improvement has been noted—the pupils are attentive and studious, and highly appreciate the extra time given for this purpose.

Their conduct is good and discipline strictly observed.

The total number on the school register is 59, average daily attendance 56.

Mr. Thompson, assistant, performs his duties in a most satisfactory manner.

I have the honour to be, sir,

Your obedient servant,

W. A. GUNN,

Schoolmaster.

DOUGLAS STEWART, Esq.,
Inspector of Penitentiaries,
Ottawa.

ST. VINCENT DE PAUL PENITENTIARY.

ST. VINCENT DE PAUL, 1st July, 1896.

SIR,—I have the honour to transmit to you my fourteenth annual report as schoolmaster and librarian of this institution for the year ended 30th June, 1896.

One hundred and twenty-two men have enjoyed the privilege of attending school during the past year.

The average daily attendance was 41, which shows a decrease on last year, owing to the greater demand for convicts' labour.

The school register shows to date a total of 40, distributed as follows:—

| | |
|---------------------------|----|
| French spelling | 15 |
| do 2nd reader | 5 |
| do 4th do | 9 |
| English 1st do | 5 |
| do 2nd do | 6 |

The subjects taught are: reading, writing, arithmetic and oral geography.

The school hours are, as usual, from 9 to 11 o'clock a.m., and from 2 to 4 p.m. Each pupil being allowed one hour school per day.

I am pleased to be able to state that most of the pupils who have attended school during the past year have shown by their good conduct and application to their studies an evident desire to learn.

The progress in general has been satisfactory.

We have lately received two new maps (the Dominion of Canada and the province of Quebec) which are highly appreciated by the pupils. We are in hope of being provided with the map of the world later on.

The library and book bindery departments are in their usual state of efficiency.

In concluding, I beg to express my sincere thanks to the reverend chaplains and other officers of the staff for the kindness shown me in the discharge of my duties.

I remain, sir,

Your obedient servant,

J. T. DORAIS,

Schoolmaster.

DOUGLAS STEWART, Esq.,
Inspector of Penitentiaries,

DORCHESTER PENITENTIARY.

DORCHESTER, N.B., 19th August, 1896.

SIR,—I beg leave to submit my report as schoolmaster for the year ended 30th June, 1896.

The attendance at school for the year just closed has rather more than kept pace with the increase in the prison population. The daily average was 60·75, being nearly thirty-four per cent of the total number of prisoners in custody.

I think I may say that, upon the whole, very considerable progress in their studies has been made by most of the prisoners who attend the school. Of course a number are fair scholars on admission, but the ones I feel most interested in—and to whom I pay the most particular attention—are those who were entirely illiterate at the start. These, almost invariably, show a keen desire to learn, and it is often very gratifying to see how rapidly they learn, often advancing from the first primer to the second and from thence to the first Royal Reader, in the course of a few weeks. I believe they appreciate in a much greater degree the advantages offered by the school than do those who were possessed of more or less education before entering the prison.

I have little to complain of on the score of conduct of the pupils. On one or two occasions, after repeated admonitions and warnings, I have been obliged to dismiss the offenders from the school, but with these exceptions the deportment of the prisoners, during the school hour, has been excellent.

I have the honour to be, sir,
Your obedient servant,

JOHN A. GRAY,
Schoolmaster.

DOUGLAS STEWART, Esq.,
Inspector of Penitentiaries,
Ottawa.

MANITOBA PENITENTIARY.

STONY MOUNTAIN, 18th July, 1896.

SIR,—I have the honour to submit you my fourth annual report, as schoolmaster and librarian of this institution, for the year ended the 30th June, 1896.

Thirty-seven convicts were admitted to school, during the year, and the daily average attendance was 19.

The change made in the time table, which gives thirty-five minutes daily for school, instead of twenty, as in the past, has been a great factor in the progress made by the convicts that were anxious to learn. I must add that the progress made by most of them was fair, and their deportment at school very good.

The libraries are in fair order.

The issue of books has not been as large as in the past, the reason being that more than the usual number of convicts have, instead of reading library books, studied, arithmetic, algebra, &c., in their cells.

In closing my report, I must thank the warden and the chaplains for the help given me, in the discharge of my duties.

I have the honour to be, sir,
Your obedient servant,

J. O. BEAUPRÉ,
Schoolmaster.

BRITISH COLUMBIA PENITENTIARY.

NEW WESTMINSTER, 1st July, 1896.

SIR,—I have the honour to submit my annual report of the school in this penitentiary for the fiscal year ended 30th June, 1896.

The average daily attendance 24·7.

Nationalities of those attending: white, 4; indians, 13; chinese, 5; half-breeds, 4; negroes, 3.

The deportment of the men while at school, has been good.

Many thanks are due to the warden and chaplains for their frequent visits.

APPENDIX E

CHAPLAINS' REPORTS

Department of Justice.

KINGSTON PENITENTIARY.

PORTSMOUTH, 30th June, 1896.

SIR,—I have the honour to present my report for the year just ended.

During its course the voluntary Bible class having grown too unwieldy, I found it necessary to divide it, calling one-half up on Tuesday and the other moiety on Thursday. With the Friday debating class and others occasionally called, about 100 men are brought in contact with the chaplain every week.

The hospital work has been moderate this year, my visits to patients averaging about thirty per week.

The chapel has been beautified by the addition of stained windows. Although a few grumbled that the money would be better expended in improving their diet, the larger portion of the men were pleased, and I think they feel more that they are in a place of worship than before.

The prison of isolation has now been in operation for eighteen months. When it was first talked about, Mr. Moylan, in his report for 1889, page xiii., says: "All the convicts in isolation should be frequently visited by the respective chaplains, in the event of arrangements being made to enable these reverend gentlemen to devote all their time to the discharge of these duties, which are absolutely needed to bring about the reformation of those in their spiritual charge. The amount of good which it is expected, and which it is desirable that the chaplains should do cannot be accomplished under existing arrangements, it is out of the question. Is it reasonable to suppose that the results of the chaplains' ministrations, for a couple of hours on Sunday and a half hour or so on Wednesday, can be as efficacious as if they were daily and hourly among the prisoners giving them advice, encouragement and instruction?"

Agreeing with the opening remark that frequent visits to the men in solitary confinement were desirable, I have made it my custom to see them frequently, paying on an average fifty visits a week to those therein confined. I cannot leave this paragraph without remarking that the late inspector's estimate of the chaplain's work is wholly mistaken. For the last twenty-one years the Sunday and Wednesday services, instead of being the chief of our work, have not been more than the eighth or tenth part of it, and that without counting any work done at home in the way of preparation of sermons, letter-writing or reading. The prison of isolation has, although only filled to about a third of its capacity, added about ten hours a week to my work. I think more constant work should be provided for those therein; sitting in idleness is not desirable, and although I make it my business to provide books for them, some cannot read and very few care to read more than three hours.

I cannot close my report without expressing my regret at the retirement of Dr. Lavell, to whom I am indebted for constant kindness and courtesy during many years.

I am, sir,

Yours respectfully,

C. E. CARTWRIGHT.

Protestant Chaplain.

DOUGLAS STEWART, Esq.,
Inspector of Penitentiaries,
Ottawa.

PORTSMOUTH, 30th June, 1896.

SIR,—I beg to forward you my annual report for the year ended 30th June, 1896. I regret to say that during the year that has passed the number of prisoners under my charge has increased, and that at the present time it is greater than during any of the former years of my chaplaincy. However, our handsome little chapel is sufficiently large and roomy to accommodate without inconvenience the increased numbers. I mention the fact for another purpose, namely, the expediency of providing us with

better ventilation. Last year, through the kindness of the department, the plain glass in our windows was replaced with costly stained glass. To prevent breakage this was firmly fixed in its place, and only a narrow strip in the centre allowed to open. Hence during the extremely warm weather the men complained and did not come to the services as cheerfully as heretofore. I have always tried to make the chapel and the services attractive. My object has always been to make the men forget while there all human restraint and all human suffering that their minds may be the more free to grasp those higher eternal truths proposed to them—to consider only the restraints of religion and the responsibility of every creature to live his life according to the law laid down by that great Master of all—the Creator. I hope then that when arranging for those other improvements you so kindly mentioned on your last visit, you will take this also into consideration.

The number in the confirmation class has also greatly increased and now exceeds thirty. His Grace the Archbishop intends visiting the penitentiary during the present summer to confer the sacrament of confirmation on these men.

The warden and officers are always courteous and respectful, and are always willing and anxious to assist the chaplains in their work.

I have the honour to be, sir,
Your obedient servant,

JAMES VINCENT NEVILLE,
Roman Catholic Chaplain.

DOUGLAS STEWART, Esq.,
Inspector of Penitentiaries.

ST. VINCENT DE PAUL PENITENTIARY.

ST. VINCENT DE PAUL, 30th June, 1896.

SIR,—I have the honour to present my annual report concerning the Roman Catholic Chapel, Library and School for the fiscal year which closes to-day.

I can only bestow commendation on the convicts for their conduct in the chapel, and the assiduity of the greater part of them in fulfilling their religious duties.

Except the inveterate victims of idleness, thoughtlessness, false science and the stultifying sensualism which our century of license, rather than of liberty, infiltrates from the cradle in the morals of all classes of society, our poor convicts feel the necessity of religion, practise its precepts, often take the sacraments and always in the most edifying manner.

To help them forward in the good path we have the generous coöperation of all the staff, of our organist so devoted although so little remunerated, and of the greatest part of the convicts, who are always zealous in taking a part in the singing as well as in the services, and in giving good example.

The library is well provided with books, and the convicts are more and more fond of reading.

The school is, I believe, in the best possible condition for the instruction of those who desire to and can profit by it. Our teacher conscientiously makes all his efforts to push forward his pupils and I think he obtains all the success which can be expected.

In closing the year we have 316 Roman Catholics. We had this year 87 arrivals, 94 departures, 11 pardons or commutations of sentence, 1 death and 2 transfers to Kingston for insanity or other cause.

We had the sorrow to lose in September last the Reverend Canon Fulton, the Protestant chaplain, whom the most sudden death took away from his family and who leaves everywhere so many regrets; he was the most amiable old man one could meet.

Department of Justice.

I owe particular thanks to the warden, whose excellent administration and complete self-devotion render my task so easy. His officers know so well how to second him that I must testify my gratitude to them.

Relying always, sir, upon your zeal to promote the interests—especially moral—of our prisoners, I thank you for your coöperation and subscribe myself with profound respect.

Your humble servant,

L. O. HAREL, Priest,
R. C. Chaplain.

DOUGLAS STEWART, Esq.,

School.

Of the convicts under my charge, fifteen have attended school, the majority showing by their attention and diligence a desire to profit by the privilege. The subjects taught, spelling, reading, dictation, arithmetic and writing, are such as will help the men on

their release to make a better start again in life. Ten have availed themselves of the opportunity here afforded them of getting some knowledge of the French language, while five have taken lessons in English only.

Library.

I regard the library not only as a boon but as a distinct benefit to the men, believing that it may possibly be made a potent agency in their reformation. Much, I am persuaded, may be accomplished in this direction by gradually replacing the cheap sensational novel with carefully selected works of fiction of a more wholesome and instructive nature, books of travel and adventure, biography, history, and elementary books on science.

Chapel.

The services in the chapel are marked by good responding and hearty singing, the general behaviour of the men being, with few exceptions, reverent and attentive. At present four of the men are under instruction preparatory to receiving the rite of Holy Baptism.

In conclusion, I desire to acknowledge the uniform kindness with which the warden and deputy warden have always supported me in the discharge of my duties, and also the courteous bearing towards me of the officers generally.

I have the honour to be, sir,

Your obedient servant,

JOHN ROLLIT,

Protestant Chaplain.

Number of volumes in library, 39.

The men under my charge are convinced of the justice of their sentences.

Twenty-one volumes of the "Hebrew Sabbath Visitor" have been added to the library. From this department the prisoners derive great benefit, and are apparently grateful not only for this privilege, but also for being allowed to observe the sabbath and holidays.

I beg to tender my sincere thanks to the warden and other officers for the kindness shown me in the discharge of my duties.

I have the honour to remain, sir,

Your obedient servant,

DORCHESTER PENITENTIARY.

DORCHESTER, 1st July, 1896.

SIR,—I have the honour to submit my report as Protestant Chaplain of the Dorchester Penitentiary for the year ended 30th June, 1896. On that day there were 117 convicts under my charge, as against 100 on the corresponding day of the preceding year.

Two of the number, under my care, died during the year, and their bodies were reverently interred in the prison burying ground.

Nothing has occurred during the year to disturb the normal working of my official duties; but three circumstances call for notice:—

1. The government having made the maritime penitentiary the military prison for the garrison at Halifax, their action in this particular, has added a new feature to the work.

2. By the same authority, this institution has had restored to it the female convict department. As a matter of course, this has given rise to the necessity for the religious instruction of women on week days, under the immediate eye of the matron. In this matter, the newly appointed matron—Mrs. Bartlett—has courteously facilitated this branch of my work, as also did Mrs. J. B. Forster as acting matron.

3. During the year a piece of ground which had been duly cleared, laid out, and fenced, was set apart by suitable religious service as a burial ground for the interment of the bodies of such deceased prisoners as are either without friends or without relatives able and desirous of obtaining the remains. On the day appointed, Thursday, June 25th, the warden, chaplain, surgeon and such other officers as could be spared, together with the prison choir, proceeded to the lot, and then in the manner proper to such an occasion, circumambulated the ground whilst the 39th and the 90th psalms were being said. This done suitable scripture lessons and prayers followed, appropriate hymns being also sung by the choir; the whole service being most reverent and impressive.

The duties incidental to chapel services, bible classes, and individual counsel have been discharged during the year without intermission; and we are not without evidence that all has not been in vain.

The reverent attention during divine service, and the continued interest shown in the bible class, are little short of remarkable. Having now summered and wintered the "Dorchester Penitentiary Devotional Society," it is gratifying to be able to say that, so far as we can see, there is good only resulting therefrom.

The day school continues to be a most valuable feature of our system. I have visited it from time to time, and I wish to say that, under Mr. Gray's management, it continues to do good work.

The general and the religious libraries are being gradually improved, and are in constant use. The not infrequent receipt of parcels of soiled and worn out religious denominational literature, proves that many well-meaning religiously-disposed people outside, have no idea of the decent provision that is made for the intellectual, moral and religious well-being of our convict population.

My relations with my brother Chaplain, Fr. Cormier, continue to be most cordial; and I am debtor to the warden and every member of the staff for their constant courtesies,

I have the honour to be, sir,

Your obedient servant,

J. ROY CAMPBELL,

Protestant Chaplain.

DORCHESTER, 1st August, 1896.

SIR,—I have the honour to submit to you my annual report as Roman Catholic chaplain of this penitentiary for the year ended 30th June, 1896.

At the close of the fiscal year, there appeared inscribed on my register the names of 75 convicts, as against 67 figuring thereon twelve months previously.

The behaviour of the Catholic prisoners during the celebration of Holy Mass a during any other divine service held in the chapel, has been throughout the year a source of gratification to myself, and of edification to the officers charged with their supervision. In fact the general discipline amongst convicts here is most commendable especially as it partakes of that benign and paternal character which constitutes Christian discipline. The efficiency of the choir leaves very little to be desired, and their excellent rendition of sacred music adds very much to the solemnity and impressiveness of the holy sacrifice.

The attendance at catechism class continues to be fair, and the interest taken therein by its members satisfactory.

The libraries are well patronized. Some small but very appropriate improvements have been made in the library rooms. The books received a general and good over hauling, and now present a very neat appearance. The books are distributed regularly and are generally subjected to no ill-usage or defacement. Under the management of Mr. Gray the school is doing excellent work. Eminently good results must follow the encouragement given by the government to the educational department in all our prisons.

In concluding this report, I cannot refrain from renewing with an additional sincerity, my appreciation of the uniform courtesy extended to me by the warden and entire staff.

I have the honour to be, sir,

Your obedient servant,

A. D. CORMIER,

R. C. Chaplain.

The two convicts pardoned were Blood Indians. They developed galloping consumption and received during their stay in hospital every care and attention from the kind hearted surgeon. They left in a very weak condition, one of them, "Wolf-child," dying on board the train near Moose Jaw. His remains were taken in charge by the north-west mounted police and sent on for interment at the Blood reserve.

The duties of my office have been duly performed. The general conduct of the men has been good.

The school is fairly attended and receives the utmost care and attention from Mr. Beaupré and his assistants.

Mr. Durden, as organist, does all in his power to render the musical portions of the church what they should be. He has many difficulties to contend with of one kind or another, and deserves the hearty thanks of all concerned.

The library is much sought after, but stands sadly in need of a fresh supply of books. None were added during the year. During the inspector's visit last year, it was suggested that the libraries should be amalgamated. Those books treating of religious subjects being removed to the library belonging to each chapel and issued to those desiring them. In this way more books could be obtained from the same grant, as there would not be any occasion to duplicate or triplicate (as in some cases) many of the standard authors now in use. I am in entire accord with the suggestion and trust it may be put into effect.

The chapel requires renovating very much. It has never been kalsomined since our entering the building. I am aware of the vast amount of work there is to be done in and about the prison, but I trust something may be done in this respect before long.

I accord my thanks to all officers who have so kindly aided me in the discharge of my duties.

I have the honour to be, sir,

Your obedient servant,

ARTHUR W. GOULDING,

Protestant Chaplain.

(Translation.)

STONY MOUNTAIN, 2nd July, 1896.

SIR,—I have the honour to transmit to you my annual report for the fiscal year ended 30th June last.

There are 17 convicts entrusted to my care at the present time. The number has been decreasing during last year.

Generally speaking, I can say that those who are entrusted to my care have been well-behaved during the religious services, and have given me satisfaction.

During the month of July last, I made two requisitions for books for the library and for the chapel. I have received neither.

READING.

Reading is a proper thing to bring back to order, men who have temporarily abandoned the right path. But to obtain this good result, I believe the reading only of serious and religious books can contribute. The reading must be of such a nature as to produce a deep and lasting impression upon the soul of the reader. A frivolous reading will produce nothing good and the effects thereof will not be lasting. The reading of novels is of no use, and the reading of the history of adventures where fiction, audacity, crime, are always praised, only produce deplorable effects.

It is, moreover, necessary that the reading should be the nourishment of the soul and of the heart. It is important that this nourishment should be wholesome and well calculated to give strength so as to reveal the past faults and to prepare for the future. Otherwise, the poor unfortunate convict will be no better off at the end of his term than he was at the beginning. I may add, that convicts who only read works of a frivolous character whilst they are here, have never remained very long at liberty without being recaptured, and being sent here for a second term. On the other hand, those who have fortified themselves by reading serious works during their incarceration, have never had the occasion to undergo a second term.

Hoping that you will be able to supply the books which have been asked.

I remain, sir,

Your obedient servant,

G. CLOUTIER, Priest.

Roman Catholic Chaplain.

BRITISH COLUMBIA PENITENTIARY.

NEW WESTMINSTER, B.C., 10th July, 1896.

SIR,—I have the honour to submit to you my annual report as Protestant chaplain for the year ended 30th June, 1896.

I have in my charge at the present time, one convict more than at the end of the fiscal year of 1895. At that time I had sixty-seven. Since then twenty-two convicts have been discharged and twenty-three admitted in their stead, so at the present time those to whom I minister number sixty-eight.

Of these, two are practically incapacitated from attending religious services on account of mental trouble. One would, perhaps, be better off in the asylum, but as his time expires in a few months, and he has not lately appeared to get any worse, I do not feel that he will suffer much by remaining. With these exceptions, all attend the services and are reasonably attentive and devout. I have reason to be well satisfied with the altered state of mind of some, and hope that in other cases seed is not sown in vain. Three men have been baptized during the past year, and several others are under instruction to the same end.

Special service is held weekly for the Chinese by a Chinese catechist, Mr. S. Jen-Yong, and a good work is being accomplished among them.

We still suffer inconvenience through the small size of our chapel, but are hoping to see the inconvenience removed during the year.

The convicts take great interest in the musical part of the service, and in this connection, I feel I ought to acknowledge my indebtedness for the very valuable help given to me by Guard H. McKee and Trade Instructor Disney.

The library is a valuable auxiliary to the work of the chaplain, and the books read most readily are of a solid and instructive character. The old plan of having two separate libraries, Protestant and Roman Catholic, has been abandoned during the year in favour of one general library, excluding books with any ecclesiastical bias. This plan has many advantages but seems likely to deprive the chaplains of the power of placing in the hands of the convicts books inculcating definite religious truth, inasmuch as few religious books of any value are written from a neutral standpoint.

The school, under the able oversight of Mr. Carroll, is doing a good work, particularly for the Indians and Chinese. The progress made by some of these is truly surprising. Others more advanced are enabled to continue their studies in their cells.

In conclusion, I would express my belief, a belief deepened by experience, that the penitentiary discipline and life is, in the case of most of the convicts, exerting a very beneficial influence. Great moral help is derived from the opportunities for work

Department of Justice.

and instruction which were lacking or neglected outside, in developing steadiness of character and strength of will, and in isolating men from the evil influences which threatened their lives with shipwreck.

If there exists, among a few, a feeling of injustice, or a disposition to grumble, it arises, not so much from rebellion against the prison life itself, as from a tendency to dwell upon the assumed disproportionateness or inequality of their sentences. This of course only applies to a few, and the majority are quite willing to admit the justice of their punishment and make the best of it.

I have the honour to be,
Yours obediently,

HERBERT H. GOWEN,
Protestant Chaplain.

DOUGLAS STEWART, Esq.,
Inspector of Penitentiaries,
Ottawa.

NEW WESTMINSTER, 7th July, 1896.

SIR,—I have the honour to submit my annual report for the year ended 30th June 1896.

The number of convicts under my charge has slightly increased within the past year. Their conduct in chapel has, at all times, been satisfactory. Generally speaking, they have endeavoured to make good use of the advantages afforded them for the advancement of their spiritual welfare. This observance of the rules and discipline of the prison is in itself a warrant for this assertion. I do not, however, wish to be understood as saying there is no room for improvement. If, in view of the class of persons a priest has to deal with in a penitentiary, he sees reasons to be somewhat satisfied at the good he has accomplished, he also knows there is still much to be desired, much to be done.

In the work of reforming convicts, good reading, I think, acts a very potent part. It is, no doubt, a great good to put into their hands works of useful information, of history and of travel, but I should also like to be able to furnish those convicts under my charge with reading matter, more wholesome in substance and more Catholic in tone than that to be, for the most part, found in works of fiction. The average novel is not at all calculated to elevate the mind or improve the heart, but rather to debase and corrupt them.

The efforts of a chaplain are also, I believe, powerfully seconded where discipline is strictly enforced and where the convicts are treated in a humane and considerate manner. If a convict can be made to see that the officers of the prison, though bound to be vigilant and strict, have at heart his true interests, he is likely to be more amenable to his spiritual guide than he otherwise would be. If my labours have brought forth some fruit, I consider I am largely indebted to the good will of the officers and to their efficient management of the prison.

Of the many convicts who take advantage of the benefits of the school, a good number have made pleasing progress in learning to read and write.

In concluding, I beg to tender my sincere thanks to the warden and other officers of the prison for their kindness and the assistance they render me in the discharge of my duties.

I have the honour to be, sir,
Your obedient servant,

J. I. WHELAN, O.M.I.,
Roman Catholic Chaplain.

KINGSTON.

PORTSMOUTH, 30th June, 1896.

SIR,—In submitting my annual report of the Kingston Penitentiary for the year ending 30th June, 1896, it affords me great pleasure to state that the prisoners have conducted themselves in a very satisfactory manner, with the exception of two who are perfectly insane and who give continual annoyance to all in the institution.

There are 26 female prisoners at present, 10 being received during the year and 9 discharged.

I have the honour to be, sir,
Yours respectfully,

R. A. FAHEY,
Matron.

DORCHESTER, 30th June, 1896.

SIR,—I have the honour to submit my first annual report of the female department of this institution.

Having only been appointed matron of this department on the 18th of May last, I cannot say a great deal.

When I came in charge there were three female convicts here. Another was received on the 12th of June, making now four in all.

Their conduct so far has been quite satisfactory.

Their employment is principally prison house work and the making of their own clothing.

I remain, sir,

Your obedient servant,

REGINA JAIL

Department of Justice.

REGINA JAIL.

REGINA, N.W.T., 30th November, 1896.

SIR,—I have the honour to submit my annual report with sundry returns *re* the affairs of this prison for the fiscal year ended 30th June last.

Prisoner W. S. Hall, who was employed at the stables and root-house, effected his escape in the month of January during a blizzard, but was captured in a few days.

One death occurred, namely, that of "Night Gun," an Indian who died of tuberculosis.

The general health and conduct of the prisoners has been good.

During the year the usual routine work was carried out, including trades work and farming. Owing to copious rain the result of the farming operations proved highly satisfactory.

The conduct of the staff for the most part has been satisfactory.

I have the honour to be, sir,
Your obedient servant,

A. L. LUNAN,
Jailer.

DOUGLAS STEWART, Esq.,
Inspector of Penitentiaries,
Ottawa.

REGINA, N.W.T., 30th November, 1896.

SIR,—I have the honour to report that during the fiscal year ended on 30th June last, thirteen females were in custody, seven of whom were discharged, leaving six still in custody on the 30th June.

These prisoners were fully employed, and their conduct as a rule was good. Their general health was also good.

I have the honour to be, sir,
Your obedient servant,

FLORA HOURIE,
Acting Matron.
