First Clinic To Be First Paying Subscribers HeldTues., Feb. 13 Only, Assured Year Books

This coming Tuesday evening, Feb. 13th, as well as the following Tuesday, Feb. 20th, the Dalhousie Blood Committee has arranged special clinics at the Health Center for the students of the University. These clinics are the post-Christmas portion of the campaign carried on the campus annually for blood donations. Representatives of the various faculties are at the present time canvassing students and the Committee is making plans for at least one hundred and sixty donors.

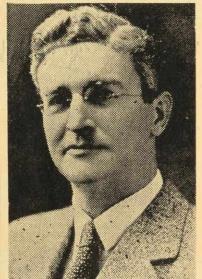

Larry Sutherland, chairman of the committee, reports that the attendance at the clinics held last Fall was not quite up to standard. Donations from only one hundred and eleven students were accepted as compared to one hundred and fortyfive of the previous year.

Clinics hours have been changed from 5.30 to 8..00 p.m. to 5.00 to 7.30 p.m. for the convenience of both the donors and the staff of the Health Center.

The committee is also sponsoring a dance in the Gymnasium tonight, the proceeds of which will be advanced to the Red Cross. Although no Red Cross dance was held last year, they have otherwise been an annual event at Dalhousie since the beginning of the war. Approximately \$350 was realized each time, and a similar amount is expected this

As an added attraction to the dance several prizes will be distributed throughout the evening. Halifax merchants are being canvassed for such appropriate gifts as a ton of coal, a bag of flour and a case of sardines. Some are to be auctioned off from the stage, the proceeds going to the Red Cross, while others will be awarded to those holding tickets with lucky numbers.

Dr. Stanley Urges Support To Clinic

"The Editor of the GAZETTE suggests that I add my word to the appeal that students help to swell the "Blood-Bank" for aid to those in the fighting services. A great number of students have already contributed their blood, knowing that this is a small inconvenience, and conscious of their great debt to those whose ranks they cannot join.

"Years ago I saw a notice, posted by the students themselves, about this matter, which was humourously headed: "We want your gore!" But I know from all my experience with them that the students of Dalhousie, iest though they may, are very much in earnest to do and to give everything they can to wage this war for freedom and for right."

WilsonPessimistic

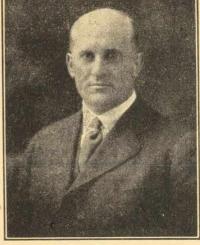

"NO LASTING PEACE IN OUR TIME":-

On Wednesday night, speaking before the largest crowd which has ever attended a Round Table meeting, Dr. G. E. Wilson, head of the Department of History at Dalhousie University, said that there was little hope, and certainly no evidence for supposing that the peace which will be established after this war will be any more secure or more lasting than the peace established after the World War of 1914-18. It may differ in its details, he admitted, but the same general principles will be followed, that is, the winners will increase their own material wealth and influence at the expense of the losers, and so lay the seeds for future great conflicts.

'Have-nots' Fighting the 'Haves'

world struggle grew out of the ment. History has long recorded Peace of Versailles in 1919 and the the strivings of the 'have-nots' to great depression of the early gain possession of the rights and thirties, Dr. Wilson maintained that

Addresses Round Table

Happenings at Law School

the greatest problems of our modern Pointing out that the present civilization are war and unemployproperty of the 'haves,' both among social classes and among national states. Since the world can be made no larger, there will always be continual struggles for what limited wealth someone already possesses. The possessors shall find themselves forced to fight the nonpossessors.

> In support of his argument Dr. Wilson called attention to the Atlantic Charter. It was very much talked about two or three years ago, he said, and reminded us all of the famous 'Fourteen Points'; yet we hear nothing about it now.

Modern "Spiritual Bankruptcy"

As another indication of the instability of the present situation the speaker discussed the "spiritual bankruptcy" of modern times. "We have had no purpose in life," he said. "I regret to see that the war has (Continued on Page Two)

Shirreff Hall Open

The first Open House of the year, sponsored by Delta Gamma, was held at Shirreff Hall last Saturday night. At approximately 8:30 p.m. the doors of the Hall were stormed by those lucky males who, feeling quite proud of their complete success in the social world, had been invited hither.

The evening passed quickly with dancing in the reception room, where a P. A. system had been set up, and the girls were complimented on their exceleint choice of records.

Lunch was served at around 11 o'clock, the cokes having failed to arrive, special permission was granted to serve "Milk-Cocktails" parts milk carefully mixed with 1

Following lunch one of our next

ters college from Grade 12. Official notice of the call-up regulations has not been given by Otta-This regulation was brought into operation because of the need for

fighting men and because the number of Engineers in the country is now enough to meet the wartime demand. The regulation has been on the books since the first of the war because of the need for graduate engineers.

Many of the better members of the Dalhousie class will be affected by the call-up and at least one member has already applied for enlistment.

Since the need for re-inforcements in the infantry is more pressing than in any other branch, graduates going into the army this summer will enter that branch of the service.

door neighbors, a little man dressed in navy blue, became spotlight pianist and a singsong ensued. It was noted that one of the most spirited participants of the sing-song was none other than Mademoiselle Lafeuille, who oppeared to be having a wonderful time.

And so the evening quickly passed, with people dashing in and out for brief intervals, (presumably down to part milk), and doughnuts (recipe | the boot's for SOFT drinks) an enable social evening having been at by all.

DR. WILSON'S PESSIMISM

Dr. Wilson's address last Wednesday night was a pleasant and profitable departure from Round Table routine. At previous meetings this year discussion had been mainly concerned with the whys and wherefores of Canadian politics and the merits and demerits of personalities in the political set-up. Representatives of the various parties took to the hustings on different occasions to spread their gospels of hope. Each speaker, of course, evangelized on his party's altruism and its determination to pave the way for a social and economic utopia. Quite naturally, these meetings were cloaked in an atmosphere of consoling (if not justified) optimism.

Pessimism was the key-note of Wednesday's get-together. However, Dr. Wilson provided Round Table members with considerable food for thought. For while he is a pessimist, Dr. Wilson is primarily a realist, having formed his views by a realistic application of present-day problems to the issues which have marked the long evolution of human society. Yes, Professor Wilson is pessimistic, but far from stoical in his philosophy.

We must start by accepting harsh reality with the realization that our society, as it now stands, augurs anything but optimism for the future; that wars have always been waged selfishly and objectively; that peace treaties have always been drafted for the greatest material advantage of the strongest powers, and, too, that "peace in our time" is not assured by the broad generalities of an Atlantic Charter. It is ridiculous to assume that this cycle of social behaviour can be changed for the good without a miraculous regeneration of human nature

However, Dr. Wilson believes we should always be outwardly striving for "the better life", even though its fulfillment may appear the vaguest of illusions. He urges us to unhitch our wagons from the "spiritual bankruptcy" of materialism, and to follow the basic principles of morality—without which the foundations of society are doomed to destruction.

No, we should not be disillusioned by wild optimism nor should we be carried away by a false sense of security. Through our small spheres of activity at university, can we not attempt to develop sound values of right and wrong and to consider their relationship to the general scheme of things? By fostering Round Table discussions and debates and by interesting ourselves in the great, unsolved problems of history, we Dalhousians will acquire a clearer understanding of the difficulties besetting present-day society; we will at least be able to meet them half way in the world of tomorrow.

Ignorance and apathy are satellites of materialism. Intelligence, far-sightedness and sound common sense have been pushed aside by the brute force of material self-interest.

Here again lies another challenge for the universities and for higher educatin.

("Inside" News from the Political Front) A CANADIAN UNIVERSITY PRESS FEATURE

By NEIL MacDONALD PRE-ELECTION GLIMPSES

OTTAWA.—There is general regret around the capital about the turn of events have taken in the last hours before the Grey North by-election. It is not good for Canada's name that so many charges have had to be flung across the Grey North hustings, especially when these charges involve Canada's army and the extent of her participation in the war.

The person who would dare to predict the outcome of the by-election would be brave indeed. So much dust has been raised, that it is almost impossible to make out the principal figures in the picture.

The usual prophets of Ottawa are saying that anything may happen on Monday-and this writer is not fool enough to risk any kind of prediction whatever.

* * * (Drewplessis Machine)

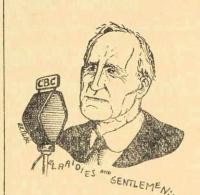

Premier Maurice Duplessis of Quebec has served notice on Prime Minister King that he is not prepared to accept the system of Family Allowances as planned by the Dominion Government. Probably for different reasons, he feels with Premier Drew of Ontario that the measure as it stands is an infringement of provincial rights in the natter of social services.

The opposition which the Department of Health and Welare is meeting from certain provincial governments is nothing, however, compared to the problems it is discovering in setting up its "typical" proincial headquarters in Charlottetown. Here, officials have already discovered, many children's births have never been registered, and there is the fuss and confusion of bility for the money at this late date. Since the Allowances go on a slidng scale, according to age, the date of birth is important, and is diffi-

DR. H. L. STEWART, Dal's widely-known Professor of Philosophy was born at Cairncastle, county Antrim, Ireland. He was educated at the Belfast Royal Academy, Denson College, Oxford, and the Royal University of Ireland.

After reaping high honours at university he lectured at the University of Belfast for four years; then came to Canada early in 1914. He immediately joined the Dalhousie University staff and has been here ever since. He has been the President of many local organizations here in Halifax, and he is also a trying to prove the children's eligi- Fellow of the Royal Society of

> Dr. Stewart has published many books, articles and reviews. He is one of the foremost radio commentators in the Dominion, having started 13 or 14 years ago over CHNS and later with the Canadian Radio Commission. At present he is editor of the Dalhousie Review. His

The Art of Studying

Do not let anyone tell you that the fine art of studying is acquired with ease as soon as you first come to college. It isn't. The primary aim in the acquirement of this technique is, of course, to make it as painless as possible. In this end your studying must be brief. If you live in residence this matter is quickly and completely settled for you. Your friends "drop in" to see what you are doing, and, lo-and-behold, midnight arrives and finds you still in deep conversation. Then, naturally, it is too late to study, so you can go to bed with a clear conscience. Nobody wants a foggy head for that nine o'clock class anyway. Now if you live out of residence the matter is a little more complicated. But do not despair. A radio is a wonderful help to "studying." You will probably be told by someone in your family that you simply cannot study and listen to the radio at the same time, with the result that you listen to the radio. Don't mind these remarks. Quote some famous authority to support you. Here is where English Two will help you. Wasn't it Rabelais who always worked best if there were flowers to see and music to hear in his room? Of course you aren't a Rabelais, we hope, but the idea is still good. Going downstairs for that sandwich and cup of coffee at 10:30 is another good idea. Or maybe you spend your evenings (only one or two, of course) in the Library. As soon as you arrive home, set sail at once for the kitchen and satisfy that "inner man" with these few suggestions. We leave you pleaasant "studying"!

DR. WILSON-

(Continued from page one)

given many of us such a purpose, but that, of course, can not last." Not since the thirteenth century have the people of the western world all enjoyed one common explanation of their existence. Today we can see no further than material goals; "and," he added, "a civilization based on a material worship

beamed happily as he trudged along | Sinatra off the air. None noticed to merge his diabolical cleverness her. with that of the Tower of Babble group. "Tonight," he quoth, "I shall VanGusket, perennial threat to the question my equal-I shall swap adverbs and split infinitives with the one and only Stewpot We will gambol mentally along over the paths the Greeks trod, and shall converse with the philosophers of old on matters too deep for ordinary mortals."

Rufus Rayne thought all this and much more, too, as he picked his way along the Senescent walk to the Arts building, stopping now and then to pick up stray bits of corn (some of it from this article) along the way. At length, fat and rosy, he entered the Arts building, just behind the object of his thinking, Professor Stewpot.

Dr. Blurbie was having a hard time of it. Not only was his scheduled group conspicuous by its absence, but Dimedaughter, the dauntless explorer, had approached him, and, after a few minutes' palaxer,

"Oh, this is where I speak," said Stewpot. "Dr. Stewpot, I presume," said the unquenchable Dimedaughter, who carried his manners like an elephant its memory.

Don Harrimus had detached himself from a limpet who was attending the lectures to be given that night, and came forward to repair the damage. But nothing remained of Stewpot. Unwept, unhonored, and badly treated, he had dug himself a hole in his goloshes, and had slunk away. After him came the faint words, "I will not address a class so small." Whereupon the campus wit, mistaking Blurbie's meaning of "small", said, "No lectures in Stuffosophy? That explains it."

Stilta Gamma, the girls' gassiety, was holding one of its regular meetings, and after making Rufus Rayne an honorary member, because of his shape, and renaming him "Rufa" to keep sobriety, propriety and piety, went heck out for husbands.

"We will hold open shack at Marmalade Hovel," said one. "The goons will flock to it like geese after feed. We should be able to snare dozens of them that way."

A chorus of yells went up, and Miss MacSharp, the jovial python guarding the gates of the sacred

FARMERS' MILK

ALWAYS PURE

ALWAYS RICH ALWAYS WHOLESOME

My heavens, what is happening between Connie and Fred Martin. First she escorts him to the Open House at Shirreff Hall and then it seems that he is returning the compliment by taking her to the Blood Donor Dance. Knowsey wonders if any plans have been made for the Sadie Hawkins dance yet; that remains to be seen. Hard Rock Harrigan must be quite the man, when there is only one girl taking law and you can capture her heart; you're doing all right. At least these two have been seen walking to the Hall together almost every night. We could be wrong, but what about the Law Common Room? Of course one doesn't need to speak of the "flaming" romance between Graham Batt and Joan Vaughan; well at least we are happy to see that Graham can pick them so well.

Speaking of the hockey team we wonder why the boys are could it, Art? Who is it that the younger brother was seen with at the Boilermakers' Ball? It must pay to have a light foot. One of the star basketball players was in a great hurry to leave after the game last Tuesday night. Who lives close to the Stad. gym? It surely could not be that Amy inhabits that region. Gif. sure "tore" up there

Lomas just can't seem to make up his mind. We wonder if it is still Nancy, or has Liz made another conquest. Comments after the Shirreff Hall Open House:

Al Myrden: "A hell of a party, no necking."

Bill Kelly: "No comment." Alec Farquhar: "Mmmm." Pete Flynn: "Have a chocolate." Nancy Cal: "Take two, they're

The Night Before Munro Day 'Twas the night before Munro Day In Roy's cafe,

And the wolves were prowling In their own little way.

The joint was quite crowded And smoke filled the air, In hopes that Seagram's V. O. would be there.

Down the chimney came Boudreau, Gave a fine little bow, Yelling, "Daughter, dear daughter, Come home to me now."

Which Is Apropos Of Little Except **Idle Moments**

The New Yorker, sophisticated magazine for the intellectual uppercrust, has devoted its recent "Profiles" write-up to news commentator Gabriel Heatter, lover of dogs and himself as a participant in discussions about international affairs. In fact, Heatter is regarded as one of those with a possessive attitude towards global goings-on, and at the time of the fall of France spent the first minute of his broadcast bitterly weeping over the treachery of those who stabbed this Ally in the

Being apropos of very little, we hasten to dash along to the main theme of this article, namely, 'Where would Heatter fit in Russia?" Where, as a matter of fact would much of the flotsam and jetsam of our unordered day (North American continent department) fit in Russia's order, in a regime where a governmental tape measures the ability of its citizens?

In the first place, it would take a numourist on the bureau of culture and news commentators to give Heatter even the lowest rating by which he could spout his stuff over the air. If the official were some one zealously devoted to governmental regulations (euphemistically labelled red-tape) he might dismiss Heatter at once because of the latter's inability to say three or four sentences without bringing in a Power's model to shrill about hair-

As for Frank Sinatra, who stands at the head of a children's crusade of bobby-sockers, he might rate a chance. We can almost imagine Frankie bearing his larnyx (or pharnyx) deep down on the "Volga Boat Song," interspersing his vocantics with asides like "This song does things to me," and "Heaven has helped the poor working man." guess Frank would pass.

Some of the other artists might stand a poor chance. Ted Lewis, who has earned all sorts of money by standing in front of a microphone and waving a baton at a band while yelling (not singing) the words; Betty Grable, who has stood on a shapely pair of legs; some of the minor order of the Republican party (artistic GOPportunists), etc., would certainly be relegated to the to crocodiles.

The rivalry between Proc and Mike for Louise's favor continues with unabated ferocity. The latest round was Mike's, (witness last week's Open House) but with Proc holding a date for the Prom three weeks in advance the count is even, 2-2. Final figures will not be obtainable until we know the results of the most decisive battle, the Sadie Hawkins Dance.

Glancing around: At last Errol has found a release for his pent-up artistic talents; he is currently turning out replacements for the pin-ups which pass in the night. We wonder if he is drawing from memory or, like the rest of us, just dreaming . . . The way Steve has been snapping and growling this week has set the boys thinking he might be in the doghouse. Gosh, it isn't safe now even to spit on his plates . . . Freshmen take notepractise your lettering diligently and some day a kind M. D. may let you, like our genial Harry, do up a dozen medical charts in your spare

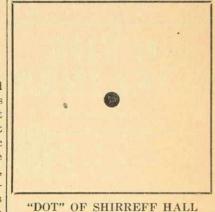

Our friend Sawyer searches for trouble in a big way, and there is no surer way to find it than by tootng a bugle during C.O.T.C. parades. If he persists, we suggest he take on an apprentice so that there will be someone to blow "The Last Post" over his dead body.

It is a pity that Clark doesn't take time out before games to inform his opponents (especially bodychecker de luxe Morgan) that despite their many accomplishments, Newfoundlanders cannot fly. Of course, the reason Morgan has stood up before all comers so well is that he himself was continually being stood up before the Boilermakers'

DAL HOOP SQUAD TO MEET DEBERT 7:30 TONIGHT

ONTHE SIDELINES

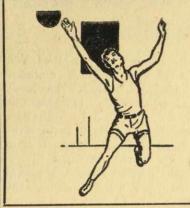

by FARQUHAR and DUNLOP

All roads lead to Mt. Allison this week-end when the two girls' Basketball teams, the Boys' varsity basketball squad and the varsity hockey sextet journey there to encounter like teams of that institution. The trip ought to prove to be the biggest single undertaking in many a year in the field of athletics, and all are confident that every team will return to the campus with a decisive win. Last year, the two girls' basketball teams and the varsity squad travelled to the New Brunswick border and only the girls managed to carry off the honors. With the new vim and vigour shown by the hoop squad, it looks as if they will take on all comers.

Today is also a big day for our teams. The hockey squad face strong opposition from N. S. Technical College and 6:30 to-night, and the basketball team is to meet Debert Air Force in a return-fixture. On the recent trip to Debert Camp the Tigers lost out to the Airmen, but the coach and the players are confident of a victory tonight. This game should be a fine tune-up for the game against Mt. A. which is reputed to have an exceptionally strong team this season.

The swimming team has returned from U.N.S. where it competed again against the Brunswickan natatory representatives. Only five men were sent from Dal including Vic Clarke, Hal Feanny, Tom Foster, Dale Yeadon and King Churchill. The swimmers gave a good account of themselves, although they didn't come off with all the honours. Ral Feanny, Vic Clarke, and King Churchill, won three events and the medley team won in that class.

The hockey team lost a heartbreaker Wednesday night to Saint Mary's by a score of 3-2. The team seemed to be full of fight but we noticed one fault or what we consider a fault. It seemed to us that bad, as the puck would remain the Centrals for one year anyway.

Tigers Drop Close Tilt

To Stadacona Stars

On Tuesday evening at the new Stadacona gym, the Dal Tiger Basketball squad met defeat at the hands of a bigger, more experienced Stadacona team by a score of 29-20. In the game Dal showed a new fighting spirit and played much better ball against the league-leading, undefeated Stadacona team, in this encounter than in a previous one in which they found themselves at the wrong end of a 60-26 score. Blair Dunlop led the Tiger scoring force with nine points while Carl Giffin was a tower of strength on the defensive. Woodhouse, six-foot-four centre for the sailors, was a standout and time and again scored from off-the-basket rebounds. Dal controlled the ball equally as much as their opponents, but failed to make a number of their shots. Spectators marvelled at the speed of the Tigers

Bill Mingo was riding the bench in the absence of Coach B. Ralston and carried out his duties effectively. In the game, Tuesday evening the players showed more enthusiasm and tried their utmost to strike the win column once more. On Friday evening of this week the basketball team faces string opposition from the representatives of Debert Air

loose in front of the goalie for a few seconds on almost every play. Giffen played a spectacular game in our defence concentrated a little too nets and we were surprised at his much on the man and not quite coolness as the opposing forwards enough on the puck. Sometimes one rushed in. The criticism is not defenceman would class over in meant to be malicious but the hocfront of the other, thus leaving one key team is a team which should side unguarded from a quick pass. sweep the leauge and we would like Also the clearing at times was very to see them do it and forget about

ICE SQUAD WINS AND LOSES

SPORTS

Dalhousie and Tech in Three-all Tie

In a fast hard-fought game, Dal and Tech split points leaving Dal leading the league with Tech and St. Mary's tied for second place. The Dal Tigers played much harder and better in this game than they had in their last set-up and only exceptional goal-tending by Ross prevented them from ringing up extra

Throughout the game Dal had an edge over Tech in territorial play, Ross being the chief stumbling block. The outstanding player on the ice, however, was Tracy of Tech, who scored twice and led many dangerous attacks, only to be thwarted by our own Giffin's fine goal-tending on all but two rushes. Bob MacDonald spark-plugged the Dal team, playing a rugged game on defence and scoring the best goal of the game, racing through the Tech team to blast a shot into the top left-hand corner of the net in the and their ability to break fast up third period. Thirty seconds later, Potechin placed a pass on LeBlanc's stick and he scored giving Dal a 3-1 lead. Five minutes later, Tech scored two fast ones, Tracy on a screened shot, followed by Gummer 15 seconds later.

Graves was another standout for Dal with Gummer playing headsup hockey for Tech.

Bengals Fall to St. Mary's Sextet 3-2

A hard-fighting St. Mary's crew fought back into a first-place tie with Dal and Tech as a result of a win over Dal on Wednesday. Each team has four points with two games left having won one, lost one and tied two games each.

The play was fairly even throughout the game but the difference in the two teams was in goal. Giffin had his first bad game since playing with Dal, letting in two soft ones although he made several nice stops. As well, the Junior Central line failed to click on their plays, being held scoreless.

Currie, newly-elected Dal captain, played a good game, scoring both Dal goals. Hyland bagged two nice goals with Godwin scoring the winner for St. Mary's.

Hyland scored the nicest goal of the game on a three-way passing attack early in the second period, completely outplaying the Dal. de-

The defence pair of Wade and MacDonald gave Dal its strongest defensive playing in the league this year and MacDonald again sparkplugged the attack, making many dangerous rushes and setting up Currie's second goal.

In the third period Dal tried hard but couldn't dent the twines as St. Mary's put up strong resistance.

1st Period

1. St. Mary's - Hyland (McCullough) 11:00. 2. Dal.—Currie (Simon) 11:15.

Penalty: O'Neill.

2nd Period

3. St. Mary's - Hyland (McCullough, Moore) 2:00. 4. Dal.—Currie (MacDonald) 2:15.

18:45 5. St. Mary's-Godwin, 11:00.

Meds Overpower Weakened Freshmen

The highly toted Meds overwhelmed a weakened squad of Frosh hoopsters on Wednesday afternoon by the score of 39-24. The five-man Frosh team held the Meds to a onepoint lead at the end of the half, with the score 15-14, but in the last frame they withered under pressure. Stevenson and Sears were the pick of the winners, while Kenty starred for the Frosh.

Meds: MacLennan, 1; Roy, Mac-Kenzie, 2; Drysdale, 3; Cox, 2; Deacon, 8; Stevenson, 11; Sears, 12. Frosh: Kenty, 7; Burgess, Lamont, 4; Creighton, 9; Kerr, 4.

Freshmen Whip Arts and Science in Match

Arts & Science fell before a crushing defeat at the hands of the Frosh yesterday. The game was one-sided throughout and provided little interest to the spectators. The score at half time was 15-7 for the Frosh and the final frame ended

Frosh: Giffen, 6; Potechin, 4; Blakeney, 3; Creighton, 18; Lamont, 4; MacKay, 1; Cook, Kerr, Lightfoot, 4; Kenty, 5.

Arts and Science: MacLaren, 3; Caule, Best, MacKenzie, 4; Mac-Donald, Boudreau, 2; David, 4; Wilson, Pearson.

Draughtsmen Lose To Frosh 25-19

In a fast interfaculty basketball tilt last week, the Frosh turned the tables over the Engineers and defeated the favoured Draughtsmen 25-19. The game was rough and the play ragged. Lew Bell, tall centre, and Allan Kenty, fleet forward, combined to score half of the Frosh points. Gus Oakley, former varsity player, led the Engineer's attack with nine points. This win gives the Frosh undisputed lead in the league standing having two wins and no losses. The Engineers follow with one win and one loss.

Frosh: Bell, 6; Giffin, 4; Creighton, 1; Lightfoot, Cook, Kenty, 6; Lamont, Faulkner, Roome, McKay, Blakeney 3; Tulk, Potechin, 1.

Eng.: Oakley, 9; Clarke, 2; Chapman, 6; Waterfield, Yeadon, Bloomer, Barnett, 2; Smith.

AMETHYST FOR **FEBRUARY**

The glorious purple of a fine amethyst finds a welcome from those born in February.

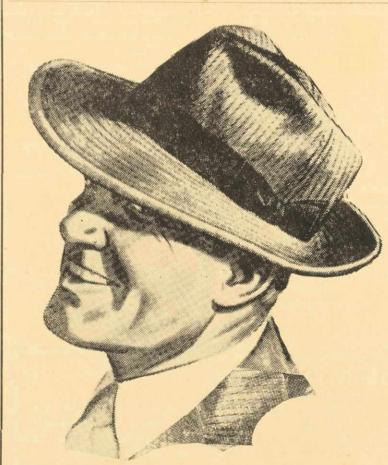

Fortunately, fine specimens from South America are available now.
