Daily Mail readers, who may have happened to see that delectable sheet The Evening Herald of yesterday, will note that it refers editorially to the fact that the attendance at the Assembly those days is "falling off" due to course to "the dreary drip of dilatory declamation" practised by the Coakerites.

Now, the business men, clerks, mechanics and laboring men, who throng the corridors leading to the House of Assembly yesterday afternoon turn with the latest evidence of the truthfulness of the utterances of Morris's Prescott Street organ.

The reason why Morris's journalistic trumpet blower who furnishes those reports wants to draw off the people of St. John's from attending the debates is quite obvious; for the one time battling Sir Edward Morris who had become accustomed to win in every round is no longer a champion. His wings have already been badly clipped and by Coaker and the Unionists.

The man-in-the-street will tell you that Government members freely admit the imminence of a political crisis. That there are difficulties ahead and in sight, which might threaten even the existence of the Government is undoubted; and The Herald is not helping the Premier any by further insulting Coaker and the back row members.

Office opened at Long Harbor, in the district of Placentia and St. Mary's. This, the members told the House, is a good place in the spring of the year for herring; Mr. Walsh, the junior member for the district, made his maiden speech.

Political Expert. An air of expectancy pervaded the House as it was expected the honorable member would explain how he won his election by a clean fight for Sir Edward Morris and a progressive policy. Mr. Walsh, though young and inexperienced in political warfare is considered by his colleagues an expert on clean politics.

Mr. Currie in presenting a petition from a section of Burin district for a road to a cabbage garden made a vigorous assault on the King's English. Mr. Abbott (Bonavista) supported by Mr. Winsor pressed the claim of 75 Bonavista constituents for a garden road. In the spring-time so much water lodges that these people have to wait until the end of June to get to the land.

The Colonial Secretary tabled several reports. The Minister of Public Works replied that returns for expenditure on a public road at Western Head had not yet reached his office. Mr. Woodford also handed in answers to questions relating to public expenditures at the Fever Hospital; also at Harbor Grace, Holyrood, Twillingate, Blaketown; of payments to Capt. Dan Green and others; also returns from several patriots, who had dug Government wells during the past year, at prices varying from \$50.00 upwards.

Another bunch of arbitration awards, those made from 1909 to 1913 was also produced; there are more to follow.

The report of the Chief Woods Ranger, Mr. Thomas Howe, was also tabled. The voting on the estimates was shifted to the Postal Department estimates yesterday; this enabled the Committee make some slight progress. At this point a number of citizens who had expected a skirmish retired to make room for an eager watching crowd that had had to stand outside.

Non-delivery of Mail. Mr. Jennings complained of the non delivery of his mail at his city address. He had notified the Post Office officials two weeks ago, but up to this (Continued on page 4)

Preliminary Skirmishing Over Home Rule Problem In Imperial Parliament.

REDMOND IS SCEPTICAL AS TO CHANCES OF WAR OVER HOME RULE ACT.

Says Nationalists are Anxious To Placate The People Of Ulster.

HE RESENTS THREATS But Hopes For a Peaceable Settlement of the Whole Question.

London, Feb. 11.—Sir Edward Carson, in the Commons, said that never before, in a speech from the Throne, had a statement of such gravity been made in reference to the domestic relations of our fellow citizens in Ireland.

The words put in the King's mouth were a condemnation of the Home Rule Bill, and a confession that it had utterly failed to furnish a solution of the Irish question. It was small wonder in view of this confession that the Government spurned the idea of leaving the decision to the voice of the people.

He declared that if Ulster was to be drawn within the grip of a Dublin parliament, he would, regardless of all consequences, stand with the people of Ulster in the policy of resistance. Redmond, he said, never tried to win Ulster, he wanted only her taxes.

WIRELESS TELEPHONES.

London, Feb. 11.—The results of Marconi's wireless telephone experiments are sufficiently encouraging, says the Times, to warrant the belief that commercial installation will be available immediately. The first will be on board ships and Marconi hopes they may be working within the next month or two.

World Give No Pledge. He declined to pledge himself as to what he would do as a result of a general election. After such an election the whole question would have to be considered in the light of the country's mandate.

John Redmond followed with a warm repudiation of Carson's charge that he wanted Ulster's taxes. Redmond declared the plea for the amicable settlement of the Home Rule question found a ready response on the part of Irish Nationalists, but said, the proposals must be consistent with the main principles of the Bill.

He accepted the new situation arising from Asquith's promise to initiate a suggestion for settlement, although the Government had gone further than necessary. He, however, would do nothing to make the situation more difficult or dangerous.

Does Not Expect Civil War. Candidly, Redmond continued, the Irish Nationalists did not share in the tragic view as to the possibilities of civil war. He thought the Commons should resent such threats as an affront.

The exclusion of the province of Ulster, he declared, could be no solution to the Irish question.

Redmond concluded by saying he was deeply anxious to remove all fears, and would meet proposals of the broadest kind, in the most friendly spirit, in the earnest hope that the inspirations in the Royal speech be realised, and a peaceful settlement reached of the great problem on which the well-being of Ireland and the unity and strength of the Empire depended.

KING'S SPEECH CONCILIATORY AND OPTIMISTIC.

Brilliant Scene At The Opening of Imperial Houses of Parliament.

ELECTION NOT LIKELY Asquith Refuses To Divulge Government's Plans Regarding Home Rule.

London, Feb. 11.—King George, with customary State ceremonial yesterday opened a momentous and historic session of Parliament, which according to all reasonable probability will see the victorious conclusion of the thirty years' struggle of the Liberal party to give self-government to Ireland.

The Home Rule Bill, which is now to be presented to the Commons for the third time, will, if carried, receive the Royal assent, with or without the consent of the House of Lords. Whether the Bill will pass as it now stands, or whether it will be amended to meet the susceptibilities of Ulster, will depend upon the nature of the concessions, which the Prime Minister announced he would make on behalf of the Government at the proper time.

Desires Settlement. The King's speech, in a grand passage, expressed the earnest desire of His Majesty to attain a settlement by consent.

This desire was fervently echoed by the Premier in the Commons, and by Viscount Morley in the Lords, in their opening speeches.

The scene in the Lords was brilliant in the extreme, and in the Commons the decorous appearance of the assembly gave no indications of the passions surging in opposing sides, or that the session so quietly commenced, might lead to events little short of civil war.

CRESCENTS SCORED OFF THE FEILDIAN'S BY NARROW MARGIN.

PENALTIES.

Table with 2 columns: Feildians and Crescents. Rows include penalty counts for First Half and Second Half.

Fast Game.

The fastest and most exciting hockey match for the season was handed out to spectators at the Prince's Rink last night. The Feildians and Crescents were the competitors, the latter winning by the narrow margin of 5 to 4.

Nearly two thousand spectators were present and not only had the pleasure of witnessing a hard fought game, but of seeing a goalkeeper being sent to the "roost," the first time in the history of hockey in Newfoundland—Thomas of the Crescents has that distinction.

Both Worked Hard. Both sides worked hard but the Feildians undoubtedly lost by the backs leaving the goal open too often. The forwards were somewhat weak owing to Pinent not being fit, and the backs were more often offensive than defensive with the result that the Crescent forwards often had an open goal, and but for the clever tactics of Hunt they would have piled up a larger score.

Invasion by Crescents. Play started at 7.40 with the Crescents going into Feildian territory but only for a moment when winter took it to Thomas but missed. Shortly after he made another pretty run but was blocked by Herder ere he could shoot.

Friendly Call. On restarting Churchill and Hutchings by playing together called on Hunt but the latter was equal to the occasion. Parnell was docked two minutes and Pinent was also given a rest. Winter was in scoring trim and with another pretty shot scored the second for the Feildians.

Bubbling over with their success the Feildians increased their pace, the backs being in the forward line as often almost as the forwards and the Crescents taking advantage of this landed three goals in four minutes. Hutchings scored all. The first two were easy, but the third was justly deserved.

On Dock Again. Pinent was docked again, this time for four minutes, but from the reporter's box it looked as if his opponent should have been penalized. Joy also decorated the plank.

Rendell whose long reach was of great advantage in running along the rink passed all his opponents and equalized matters, after 18 minutes play.

**CRESCENTS SCORED
OFF FEILDANS BY
NARROW MARGIN.**

Pinsent was sent to the box once more, his penalties now amounting to eight minutes out of eighteen, which weakened his team considerably.

Scored No. 4.

The fourth Crescent goal was scored by Churchill and in a mix up about 12 yards from the goal, the rubber hopped past Hunt.

During the balance of this half L. Stick shot a couple of beauties which failed to find the net, and just before half time sounded Joy was put off for four minutes.

Second Half.

Early in the second half, Winter committed a misdemeanor and was sent to the stand for four minutes. Then the unusual happened. Strong was following up the puck which went to Herder behind the goal, and as he drew close to Thomas the latter's stick went uncomfortably near Strong's skates. Thomas says he meant no harm, but the Referee docked him for it.

Shortly after Strong was given a rest for two minutes.

After fourteen minutes play, L. Stick scored the fifth for his team, after a neat display of stick-handling.

Pinsent Had to Leave.

Play was interrupted for some time as Pinsent was obliged to discontinue and Trebble who replaced him had to get ready. Many spectators object to the long delay. The Crescents, they say, should have dropped a man to even matters.

Upon resuming Joy was penalized for 2 minutes and later 5 minutes.

The fourth Feildian goal was scored by Winter off a pass from Parnell.

Play then became very fast and Herder was penalized for 2 minutes. Although the Feildians tried hard to equalize they failed, and when the final gong sounded the score was: Crescents 5, Feildians 4.

Notes On the Game.

The ice was splendid.

Hunt's goalkeeping was the feature of the contest.

Both forwards worked perfectly. Winter is the cream centre, but last night Hutchings was equally as good; it was his "star" game.

THE CITY FOURTEEN

The fourteen citizens from which the seven to compete with the Progressives of Halifax will be chosen, were selected last night as follows:

**ANGUS REID
AWAY AHEAD
AS ATHLETE.**

Has Made an International Record for Himself on the Continent in Skating and Hockey Circles.

Papers received by last English mail contain flattering references to Mr. Angus Reid, son of H. D. Reid, Esq., vice-president of the R. N. Co., whose exhibitions of ice skating have been next to marvellous and electrified spectators. He has also played an exceptionally brilliant class of hockey on the Continent this year. He visited Wigen, one of Switzerland's popular resorts for the holidays, and while there competed in a series of races. There were competitors from many places, but Angus proved himself the fastest of the lot and won a beautiful silver cup besides other trophies.

Helped Defeat Oxford

He also had a hockey practice while at the Swiss resort, and the Oxford hockey team visiting the town was asked to play for Wigen. He did so, and was largely responsible for defeating the Oxford seven. Wigen won the first match by 7 goals to 4, and the second by 5 goals to 4.

Some of the Swiss papers gave the young man great praise for his skating and stick-handling, which was about the finest ever seen there.

He was the hero of the hour, especially after playing such a prominent part in the defeat of the University hockeyists.

Like Father—Like Son

Angus Reid's father was a good hockeyist when the game was first introduced here and played with the Victorias in league matches.

His uncle, Mr. R. G. Reid, was also in the game. He was a member of one of Montreal's crack teams and fifteen years ago was considered the best hockeyist in St. John's.

Angus is at present attending Harrow, and will enter Oxford in October next.

At Harrow he has also made a name for himself, not only in athletics but in the class room.

His friends in St. John's will read of his success with pleasure, and on behalf of many admirers here The Daily Mail extends congratulations to the young man.

**ST. JOHN'S CURLERS
DO WELL AT HALIFAX.**

Have Come Out Ahead in Some of the Chief Events. They Are Being Well Received and Are Having a Right Royal Time.

The curlers are having a great time at Halifax and judging from the messages received to date they are giving a good account of themselves.

Mr. Anderson, manager of the Bank of Nova Scotia, who returned from Halifax by the Stephano, informs The Mail that he spent last Saturday with the boys.

The weather was then somewhat mild, but there is a bowling alley at the rink and they spent a most enjoyable day there.

The Halifax curlers were paying very attention to the visitors from St. John's and were sparing no pains to make their visit enjoyable.

count of ourselves against so many crack shots.

To the Curling Club: (Yesterday)—Duder won from Pugsley, 18 to 13; Montgomerie and Jackson lost after a great fight. All the teams playing to-night. We are keeping up our end of the plank; tell the boys.—(Salter)

A similar message was received by Mr. R. C. Smith of the Anglo.

More Successes

(Yesterday)—To D. P. Duff from A. H. Salter—Montgomerie played and won four games, defeated Grant, the favorite, last night. Ties last head and won play off, and to-day defeated. Three teams playing three games to-morrow again.

(Yesterday)—To R. C. Smith, from W. Duder:—This morning's results: Dunlop trophy second round, Montgomerie lost to Ford, 10 to 9; overtime play.

Fraser trophy first round, Jackson won from Moffatt 13 to 4, and will wire further results, to-night. We are all well. Salter wishes to be remembered to all the boys. Congratulations to the Whites. Thank President Carter for his kind wishes.

**BELL I. HOCKEYISTS
PLAY HERE ON FRIDAY.**

Will Try Conclusions With a City Team.—Deague Game Postponed.

President Higgins of the hockey league had a wire from Bell Island yesterday, asking that arrangements be made for a hockey match between a team from the Island and St. John's, to-morrow evening.

The notice is short but they wrote previously and the letter was delayed, and as they cannot come any other time their wishes are being agreed to. St. Bon's vs. Victorias is postponed.

The city line up will likely be N. Hunt, Herder, Parsons, Higgins, Winter, L. Stick and Pinsent.

**INDOOR SPORTS AT
C. C. C. ARMOURY**

The C.C.C. armory was largely attended again last evening with an enthusiastic crowd to watch the indoor sports.

In the basket ball competition between teams captained by P. Murphy and E. Gladney, the former won after a play-off by 13 points to 10. In the second game after a clever exhibition J. Murphy's team defeated that captained by C. Jardine. E. Gladney's side won from T. Cahill's in the hand-ball contest. Owing to drill only one hockey game will be played to-night, the contestants are:

Buy "THE COAKER" Kerosene Motor Engine!

"THE COAKER ENGINE."

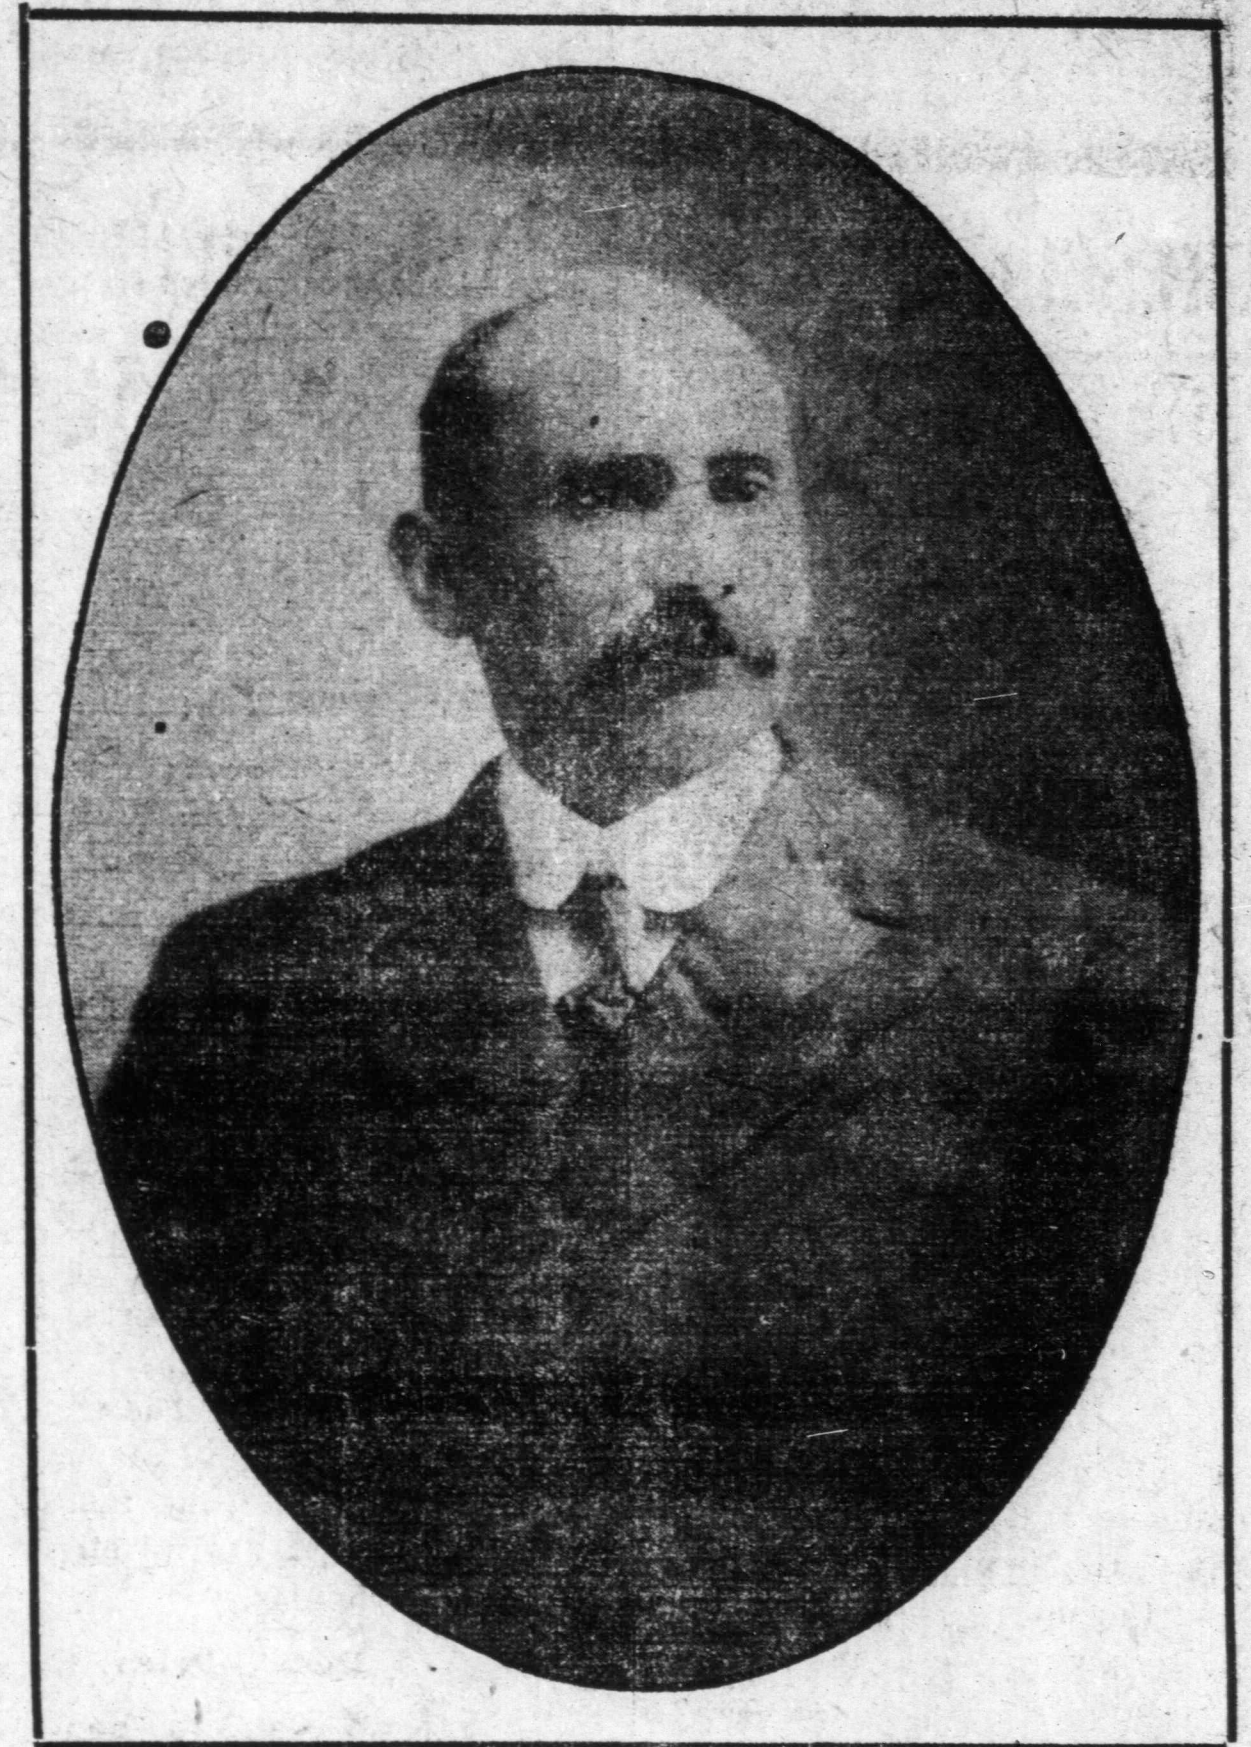

A Motor Engine made for The Union Trading Co.

by one of the Largest Motor Engine Manufacturers

in America is now available to the Fishermen.

"THE COAKER" is a 6 H.P. 4 Cycle Engine, and can be operated on half the oil consumed by a 6 H.P. 2 Cycle Engine. This Engine's power is equal to the power of some 9 H.P. 2 Cycle Engines. It is made for Fishermen's use and expressly for Trap Skiffs and the large size fishing bullys. It is sold to Union's members at wholesale prices. All commission and middlemen's profits being cut out. We have contracted for the manufacture of 1000 of these engines. The engines will be carried in stock by us here and can be delivered by April 1st. We will carry parts and fittings in stock. We will arrange reasonable terms of payment to meet the requirements of men unable to purchase for cash. WE GUARANTEE THE ENGINE. An expert has been engaged to attend to the installation of our Engines. Write for particulars and terms. See Circular Letter sent to all Councils concerning this engine. We confidently recommend the engine as being of the very best make and material, of being exactly what is needed for the Fishermen's use and GUARANTEED TO GIVE SATISFACTION. It is above all durable, simple and capable of doing heavy work; it is not a toy engine. The spark plug is attached to the side and not the top. The engine starts on gasolene.

This engine is sold \$75. cheaper by us than by the regular agents selling a similar engine. No agents will be employed to sell these engines. We will do our work through the Councils of the F.P.U., therefore one dollar on every three will be saved by buying these engines from the Trading Company. We are prepared to dispose of 2000 of these engines during the year 1914. The Union would have done better and arranged longer terms of payment had the Liberal-Union Party been returned to power, as we believe public monies should be available to aid Fishermen to carry on their work and assist every industrious man to become independent. The Southern Districts being coddled by the catch-cries of Grab-allism have debarred the Fishermen from receiving loans from public funds in order to secure those desired improvements, but the Trading Company will endeavor to do what is possible to aid Union members, and inspite of Grab-allism thousands will possess motor boats in two years who are to-day without them. Important Announcement For Union Fishermen!

We have entered into an agreement with

THE FRASER MACHINE & MOTOR COMPANY, OF NEW GLASGOW,

For the manufacture of a large number of two cycle engines, which we will sell to F. P. U. Members at prices that will stagger the sales of all other first-class engines. We have used the FRASER engine for two years and found it satisfactory as a two cycle engine, and the engines to be built by FRASER for us will be supplied with the latest improvements in engines. No carburetor will be used with our engines. An adapter and igniter has been invented that does away with the carburetor, and our engines will all receive the fuel from the top of the cylinder, instead of from the bottom. Only one tank will therefore be necessary. No gasolene tank will be required. The engine will start on gasolene, supplied through a starter, and as soon as started will use kerosene oil. A Circular Letter describing the engines and giving prices and terms has been mailed to every Council and Union Store. Those engines can be had on terms allowing two years for payment. Altogether we have contracted for the delivery of 3500 engines, including "The Coaker," "The F. P. U.," "The U. T. C." and "The Advocate," for 1914 and 1915, and during the last two weeks we have received 100 orders and 250 enquiries. Consequently we are safe in asserting that the F.P.U. will handle 75 per cent. of the Motor Engine business transacted in the Colony. Union Members buying from the Trading Company save the following amounts: On "The Coaker" \$75.00, on "The Advocate" \$65.00, on "The U. T. C." \$55.00, on "The F. P. U." \$50.00. Not only are those amounts saved but any poor member is enabled to purchase for two years payment, while Agents of other engines require full payment within six months after delivery of engines.

We Also Sell "The Coaker" 4 Cycle 6 h.p. Engine on Easy Terms

Asquith Refuses to Divulge Govern-
ment's Plans Regarding
Home Rule

(Continued from page 1)

Despite the conciliatory tone of both Asquith and Lord Morley, small hope was left in the lobbies of parliament last night that any settlement of the Home Rule question would be reached by consent.

No General Election

The attitude of the Ministers clearly shows that the Government will neither consent to an appeal to the country nor to accept a solution based on the exclusion of Ulster from the Operation Bill. Austin Chamberlain just as clearly indicated that the Opposition will accept nothing less than the exclusion of Ulster unless the Government agrees to appeal to the country. He declared in his speech in the Commons that the exclusion of Ulster was the only possible basis for settlement by agreement and that it would be useless for the Government to offer less.

Civil war is certain if Ulster be not excluded, but it is evident, however, that the crisis which has been threatening so long has been postponed for several weeks.

Government Plans Secret

Asquith declines to divulge the proposed concessions at the present stage on the ground that the Opposition would only use the knowledge as a lever to secure still greater concessions.

Apparently the Government's proposal will be something of the nature of Sir Horace Plunkett's plan, but will not be announced until the Bill is again submitted to the Commons, several weeks hence.

Carson, the Ulster Unionist leader referring in the lobby to the Premier's speech said "It carries us no further, and is simply marking time. There is nothing in it that should induce the Ulster Covenanters to relax their preparations for resisting Home Rule."

Other Unionist members of Parliament expressed strong disapproval of Plunkett's suggestion that Ulster should consent to come under the Bill with the option of passing out after a certain number of years.

Long's Motion Defeated.

He Moved An Amendment
Calling For A General
Election.

London, Feb. 12.—Home Rule was again the subject of interest in the Commons yesterday. Carson, Lloyd George, Sir John Simon, J. E. Redmond and Bonar Law were the speakers.

At the conclusion of the debate the amendment to the reply, proposed by Walter Long, Unionist, that it should be disastrous for the House to proceed further with Government for Ireland Bill, until the measure had been submitted to the judgment of the country, was defeated by a vote of 333 to 255.

The announcement was received with loud opposition cheers and shouts of "resign."

Was Conciliatory

After the vote on the amendment to the Speech from the Throne Redmond spoke in a conciliatory tone and appeared anxious to meet the question from a broad viewpoint, with an earnest desire for a peaceful settlement. Law predicted civil war the moment Home Rule was passed, but urged that the danger of civil war could be averted by leaving Ulster out of the Home Rule Bill, or by submitting the Bill to the judgment of the people.

Lord Charles Beresford, addressing the Ulster Association in London last night said that if the Imperial forces were ordered to fire on Ulstermen, they must obey, but declined to believe that the Government will go to extremes to force Home Rule on Ireland.

If the Government does it will be the first step towards the demoralization of the army and navy, and will lead to the breakup of the Empire.

Reduced Majority

Unionists are making capital out of the reduction of the Government's majority from ninety-eight, by which Home Rule carried last session to seventy-eight last night, but the reduction is explained not by crossing or defections from the Government side, but by reason of numerous absentees through illness. Another is the abstention of the O'Briens, who are resolved to take no part in the proceedings of Parliament until Wm. O'Brien, who recently resigned his seat, has been re-elected.

The Morning Post, the Unionist organ concedes that but for these unpreventable causes the Government majority would have been 94.

Liberal morning papers admit that Carson's speech yesterday was the most powerful and effective he has ever delivered, but declared it was not persuasive.

to that moved by Walter Long in the Commons. Lord Morley, replying, followed the same lines as the Premier.

Walter Long moved an amendment calling for the submission of the Home Rule question to the electorate before proceeding further and emphasized the determined nature of the opposition, which is being offered to the Bill, declaring that the Unionists of Ireland would only be overthrown by force.

A division on Long's amendment will be taken to-night.

Sir Edward Carson spoke early and Bonar Law will conclude the debate.

U. S. Wanted Ambassador in Mexico
Free of Local Entanglements.

New York, Feb. 11.—It is now admitted in official circles in London that Sir Lionel Carden will not return to Mexico as British minister, after he comes to London to report to the Foreign Office.

Reports from Mexico City concerning Sir Lionel's interests in Mexican lands, which he shares with Lord Cowdray, have re-awakened keen interest in diplomatic circles here, and Lord Cowdray's frank admission of the truth of these reports has provided a fresh sensation.

It is now known that the States hinted to the British Foreign Office that in the present tense situation in Mexico, it might be advisable for the Great Powers to have as diplomatic representatives there only those who have no private financial interests to guard.

Sydney Buxton Succeeds Him as
Governor-General.—Other Cabinet
Changes.

London, Feb. 11.—The Secretary of State for the Colonies has formally notified the Commons that Viscount Gladstone will cease to be Governor-General of South Africa, in June. The appointment of Buxton, as Governor-General, was officially announced to-day, which means several changes in the Cabinet.

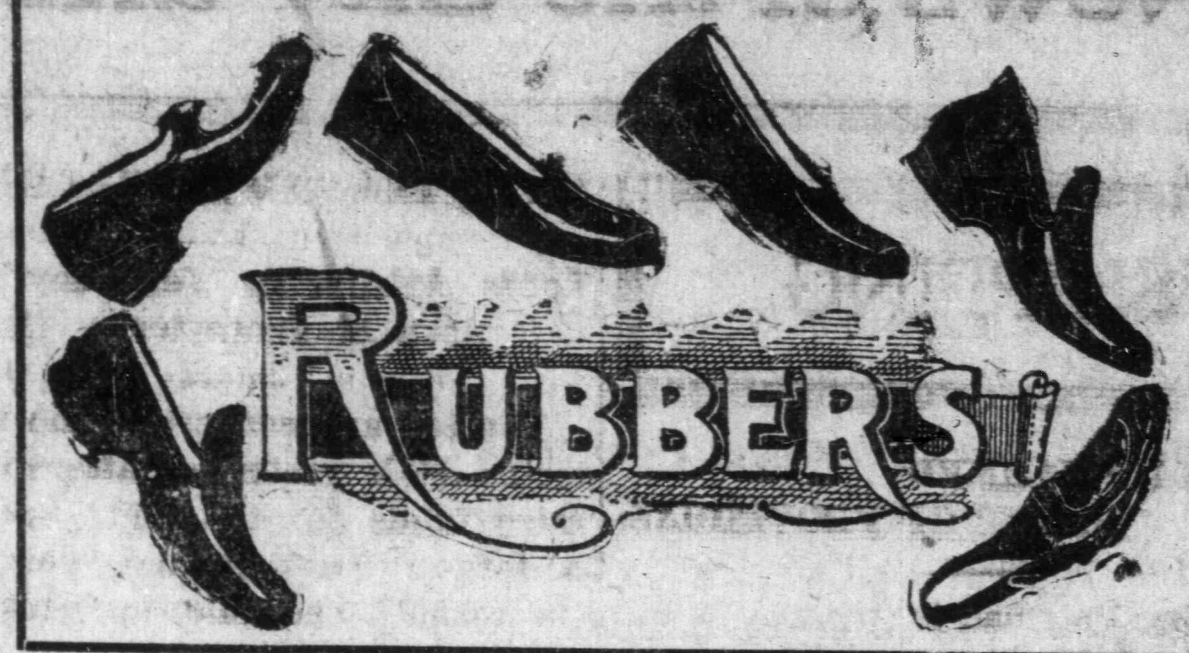

London, Feb. 11.—It is understood that as a result of the resignation of Viscount Gladstone as Governor-General of South Africa, which has been presented to the House in a few months, the following changes will be made:—John Burns becomes President of the Board of Trade, to replace Sydney Buxton, who is to succeed Gladstone in South Africa; Herbert Samuel becomes President of the Local Government Board; C. E. Hobhouse, Postmaster General; C. F. G. Masterman, Chancellor of the Duchy of Lancaster.

YOUTH'S REMARKABLE CAREER OF CRIME.

Confessed to 30 Burglaries, 40
Bomb Outrages, 30 Thefts, and
an Assault.

New York, Jan. 29.—Angelo Sylvestro, at whose trial on a charge of being a member of a gang of black-mailers that used bombs to enforce demands for money three youths have confessed to their parts in scores of crimes under the sign of the black hand, will testify in his own defence when the State finishes its case against him late to-day.

Anthony Sadaitys, a youth of 19, the latest sensation of the trial, yesterday told of his employment by a gang of black-mailers during which he planted about 40 bombs, receiving from \$1 to \$30 for each job. This story rivals that of Alfred Lehman, and Rocco Pucelli, who preceded him on the stand. He was born in the Williamsburg section of Brooklyn he said, had never attended school, and committed his first serious offence, burglary, in 1909. Since that time he confessed to 30 burglaries, 40 bomb outrages, 30 horse and wagon thefts, and one murderous assault. His connection with the black-mailers began, he said, in November, 1912, when he met Pucelli and several leaders of the gang and became a "mechanic" or bomb-planter. One of his principal jobs was to get dynamite, which he said he stole out of a tunnel in Jersey City, and from construction work in Sullivan County, N.Y.

WANTS THE LIGHTS

(Editor The Daily Mail.)
Dear Sir,—I have noticed very many requests in your sporting page from both players and spectators of hockey asking that the big lights be lit in the Prince's Rink during the progress of the games.

So far Mr. Donnelly, the Manager, has not deigned to reply. Rumor has it now that "Five Spot," the accident insurance man, has a private deal to keep the rink in semi-darkness, so as to forcibly impress upon the players the necessity of taking out accident insurance.

And verily, this is not to be wondered at, and if a cheaper rate could be got for spectators about the fence I am sure many would avail of "Five Spot's" protection.

—HOCKEY FAN.

ONE-SIDED

(Editor The Daily Mail)
Dear Sir,—Isn't it peculiar to have the management of the Prince's Rink making a request through the daily papers for spectators at hockey matches not to smoke, when at the same time they themselves refuse the request of both players and spectators to light the big lights?

They are having record houses this season, and there certainly seems to be every reason why they should be lit, if for no other than the protection of the players themselves.

WAITED TEN YEARS AND THEN LOST HIM

So Now a Widow Sues the False One for Breach of Promise—And Resulting Damages.

Toronto, Feb. 8.—Ten years of waiting for a man's wife to die so that she might marry him is the story contained in the statement of claim of Mrs. Emily Bousha, filed at Osgoode Hall by Henderson and Ross. She sues George Carter, of this city, for \$5,000 damages for breach of promise of marriage.

Mrs. Bousha, who is a widow, alleges that in 1903 Mr. Carter telegraphed to her to come to Toronto, promising to marry her after getting a divorce from his wife. She left her home in Travis, Wisconsin, and came to Toronto, but says that after her arrival Carter found that he was unable to get a divorce. He then, she says, promised that after his wife's death he would marry her, so she stayed on in Toronto, supporting herself, and neglecting other chances of providing a home for herself.

The statement of claim alleges that Mrs. Carter died on July 28th, 1913, but that Mr. Carter put off marrying her from time to time till August, when he refused to marry her.

HOW TO COLLECT DEBTS.

A young Japanese clerk applied for a situation in a London merchant's office. He was told he might come on trial, and if in the course of a week he could do anything to justify it, he would receive a permanent appointment. As a test he was told to write polite but firm letters to twenty of the most notoriously long-winded customers on the firm's books. That was on Monday. On the Wednesday morning there were twenty replies, one from each customer, enclosing twenty checks and twenty apologies for the delay. The Japanese was called into the principles' office and interrogated. He replied that he had written politely and firmly as instructed. The letter book was produced and this was the form of letter he had adopted.

"Dear Sir—It is with regret that we find you have not paid your honorable account. We have carefully regarded the case, and are pained to inform you that, unless you send us a remittance by Wednesday morning, we shall have to take a course of action that will cause you the utmost astonishment."

It was only the horrible uncertainty of what might be the consequence of non-payment that produced these twenty remittances.

IF I WERE PREMIER.

I would certainly cause an investigation to the death of the mining inspector which took place at Bell Island. Why is this death trap allowed to exist? Why is not the Government engineer, T. A. Hall, sent to the plant to report on this awful tragedy so truthfully and graphically described in the columns of *The Daily Mail*?

Then again, why is it there has not been an investigation on "oath" re the shortage of water on the night that the Cochrane Street Church was razed to the ground chiefly owing to the non supply of water? It is truthfully alleged that during the progress of the fire on that memorable night there was no head or force obtainable on Cochrane St. from the hydrants in the vicinity. At the same time the pressure as registered per gauge at the West End Fire Hall was over 27 lbs. (a full head).

If this report is correct certainly some one blundered, as was fully proven just 48 hours afterwards when a fire started in College Square (East End) and the gauge or register in the West End Hall was unable to show even one pound pressure. "Why is this thus?"

I may be pardoned if I were to respectfully suggest to Premier Morris and His Honor Mayor Ellis to cause an inquiry to be held in this important matter by first visiting the West End Fire Station and note the very high pressure registered on that occasion.

Sir Edward will then be in a position to know who was to blame and then it would be up to His Worship the Mayor to penalize the many Toronto expert plumbers, turnkeys, etc., of the water department, last but not least our City Engineer who will no doubt show reasons for this willful blunder.
