DETECTIVE MILLER ARRESTED CHIEF

Hamilton Man's Good Work at Little Current.

Made Three Arrests For Wholesale Robbery.

One of the Accused Already Sent Down.

The Expositor, printed at Little Current, Manitoulin, publishes a story which hows that the appointment of Detective John Miller, of this city, to the provincial staff, was a good move. For a long time Little Current has been troubled with robberies which seemed to baffle the best efforts put forth by the authorities of the town. About the beginning of December fire visited the town and caused the destruction of a lot of valuable property. Five or six business houses were burned. When the insurance adjusters come to go over the stocks they found that a lot of goods had disappeared from portions of the stores that had been saved from the flames. Further investigation revealed the fact that there had been wholesale robbery from stores that had not been burned at all. These stores had been opened at the time of the fire by their owners, and preparations had been made to remove the stocks should it become evident that the buildings were doomed to fall victims to the conflagration. But the buildings were saved, and the stocks had not to be removed. After the excitement attending the fire had subsided it was found that the stocks had been tampered with and large quantities of stuff stolen.

Realizing the uselessness of expecting the town police to solve the mystery, the provincial department was appealed to, and Detective Miller was sent up to the big island. He left here on New Year's Day, and landed at Little Current after two days trees. Day, and landed at Lattle Current after two days' travel. After making a very careful survey of the situation he decided to act. He first placed under arrest John McEachern, Chief of Police of the town. Then he set the wires to work to secure the arrest of Alexander McEachern,

the arrest of Alexander McEachern, John's brother, who drives the stage that carries the mail to Massie, before Aleck could get word of his brother's arrest. This he succeeded in doing, and two or three days later Alexander was also in the lock-up at Little Current. The third victim was Albert Bateman, a mill hand. Miller made a search of the chief's house. There he found a great supply of stuff that he had reacon to believe had been taken from one of the places that had been robe'sd. It consisted mostly of pork. There was so much of it that it required a team of horses and a large sleigh to remove it—something like a ton of it.

Bateman's house baffled the detective

sleigh to remove it—something like a ten of it.

Bateman's house baffled the detective for a time. He could find only a few things that had been through the fire and the taking of which would not constitute an especially grave offence. The house was also a low set one, built on the rock, with only about two feet of stone foundation under it and no cellar tone foundation under it and no cellar.

Sad Accidental Poisoning Belleville Man.

Belleville, Ont., Jan. 13.—(Special)—A istressing accidental death occurred here yesterday morning, when Charles Cummings, a well known cooper employed in Graham's evaporator, took a drink of carbolic acid, thinking it was a stimuof carbolic acid, thinking it was a stimu-lant, which he brought home on Satur-day night. Two bottles stood together on a shelf in a closet. Cummings arose shortly after eight in the morning, and went to the closet, which was dark, se-cured the wrong bottle, taking a big drink. He immediately noticed his mis-take, rushed to his brother's room, suf-fering terrible agony, saying that he made a terrible mistake. His brother at once ran for a physician, but when the once ran for a physician, but when the latter arrived Cummings was dead. He was an unmarried man, about 34 years of age; and highly respected.

The Assize Court resumed this morn ng, and Justice Teetzel heard the ar Hamilton, Judgment was reserved.

The action of Sutton vs. the Town of Dundas, was taken up. George T. Black-stock, K. C., for the plaintiff, S. F Stock, K. C., for the plaintiff, S. F., Washington, K. C., for the Plaintiff, S. F., Washington, K. C., for the Town of Dundas and George Lynch Staunton, K. C., for the Dundas Electric Company. The plaintiff, Mrs. Johanna Sutton is asking for \$10,000 demages for the death of her husband, Samuel Sutton, who was killed by a live wire, on Main street, Dundas, recently. Deceased was walking down Main street on the evening of the accident, and in the darkness came upon the wire, which was lying across the sidewalk, It is claimed that the fire alarm wire had fallen across the electric light wire causing a short circuit. Mr. Blackstock said that it was the intention of the plaintiff to show negligence on the part of the town in letting the wire lay on the sidewalk. He said that the town put the blame on the company, as the town claims that it has an agreement with the company, by which the latter assums all responsibility for accidents by reason of falling wires. The case was still on at press time.

Mr. Garvan occupied twenty minutes in his address, describing the killing of Stanford White as "a premeditated, desiberate and cowardly murder."

The first witness called was the man who made the diagram of the garden where the killing occurred.

The meid cover her arm.

"I will not keep you this evening," said Lady Lynne to her maid. "Fetch my writing desk, there is something in it I have forgotten."

The maid soon returned, bearing with her the desk given by Lord Lynne to his wife.

"I was passing by," said the Italian, s.auu. T pro'l pus 'lounny lo noissis du 'and thought I should like to know if your friends had arrived."

your friends had arrived."

He was introduced to Sir Allan and Evelyn, and watched, with scrutinizing "At least, my lady," she said, as her mistress waved her band in token of dismissal, "let me remove your ornaments and unfasten your hair."

Listlessly and silently Lady Lynne sat down in the easy chair drawn up to the toilet table, gazing steadfastly at the face reflected in the mirror.

One by one the skilful handmaiden removed the jewels from the thick tresses of raven hair; then she unfasten it.

of raven hair; then she unfasten it, and let it fall in all its rich luxurance and let it fall in all its rich luxurquance over her mistress' shoulders.

"No one ever had such hair as my lady," she murmured to herself, brush-ing it the while, and as proud of its glossy magnificence as though it were

her own.

Very beautiful did Inez look then,
with that wealth of hair flowing like a
veil over her white shoulders. Steadfastly and silently she gazed at the wondrous loveliness in the mirror, the dark drous loveliness in the mirror, the dark lustrous eyes with their jetty fringe, the rich red lips, the queenly brow, the exquisite cheeks. There were few such faces in the world.

"All in vain," she said, "all in vain."

"Did my lady speak!" asked Ste-phanie.

"Not one word," she said, raising her clear eyes unflinchingly to his face.
"Count." said Lord Lynne, "will you give us your opinion? Is this engraving copied from Giorgone?"

He muttered something that sounded like an exceration, and leaving Inez, went to her husband.

CHAPTER XXXI.

"How strange it seems," said Sir Allan to Agatha, "for us all to meet here in Rome! But how altered your sister looks! She must have been very ill."

"She has," replied Agatha; "but Rome swits her; she is much better and stronger now."

"Did my lady speak?" asked Stephanie.
"No," replied Lady Lynne, wearily. "Bring me the little vial—so that if I am in pain I need not call any one." Stephane obeyed, and then went out, wondering why her mistress looked so long and so calmly in the mirror.

Then Inez remembered the note that had been pressed into her hand. It was in the pocket of her dress; she rose and found it. Her hand did not tremble as she read it, although the few lines it contained were her death warrant.

"I shall call to-morrow at three," wrote Count Rinaldo: "I shall ask for

wrete Count Rinaldo; "I shall ask for a private interview with your sister, and make her an offer of marriage. If she accepts me, which she will do if you use your influence, all is well; if she refuses me I shall ask for Lord Lynne. I shall tell him all about what took

own, while her sweet eyes dropped shy ly before the ardent gaze that seemed to read her very thoughts. It all came out then—the long-treasured secret of his love; and his story was so well and so eloquently told, and hore in every word the impres of such truth and nobility, that no girl could have listened to it unmoved. "You are as far above me, agatha, as that blue sky," said Sir Allan; "but if you will try to love me, my whole life shall repay you. Do not keen me in suspense, beloved, tell me, will you try love me?"

He could hardly hear the faintly whishered answer. It was favorable to him, he knew, by the droon of the golden head and the flutter of the little white hard in his own. folly and credulity, my sip and shame, are you not afraid of will know that I am no wife for an honorable man. As small felded piece of caper in Ledv.

This was the cry of the ruined soul.

In the face of the best states has been stated as such lief state to take his leave; as he did so, he silently oleged a small fedded piece of cancer in Ledy Lynne's hand. Then Sir Allan and Eve Ivn rose to go.

"Philip." said the venue baronet, in a low vice, "count will said the venue baronet, in a low vice, "count will said the venue baronet, in a low vice, "count will said the venue baronet, in a low vice, "count will said the venue baronet, in a low vice, "count will said the venue will shan me. The crimson blood dyed her face when she remembered the dupe had been, the grief and suspense, the sortow she had felt for the man she now hated with so bitter a hatred—and that letter, which had killed her love and youth and faith at one blow. Then came the remembrance of the father who had loved her, despite his neglect—if she had but told him all, surely he might have helped her. She remembered that calm, happy life at Lynnewolde when her beauty and grace won those cold English hearts, and she had learned to love her cousin with all the deep wild force of her passionate nature. She remembered a night, even such a one as this, when the silver moonlight had rested upon the trees, happy in her passionate love.

Then came the temptation and the fall; she betrayed the gentle sister who loved her, the kinsman who trusted her—she schemed, tolled and

trusted her—she schemed, toiled, and lied to win his love—she won it, and now her sin had found her out. "It has been all wrong," she cried; "wrong from the beginning—nothing could undo it. AIRSHIPS FOR JAPAN. Rumor That Number Have Been Pur-

chased in Paris.

Paris, Jan. 12.—The rumor that Japan has acquired a number of French-built airships already, and has ordered half a dozen more for use in connection with the army and navy, had been so persistent in Paris last week that I called to day at the Japanese Embassy to inquire what was in the report. It was there said that the only preson competent to answer the question was the Furbassy's military attache, now absent from Paris. In this connection I later called upon M. Juliot, chief engineer of the great aeronautic establishment of Messrs. Lebaudy at Moisson, and asked if he had received any order from the Japanese. M. Juliot smilingly repled that he would rather not be quoten on the subject. He spoke freely, however, as to the role airships will play in any future international conflict.

"Any amateur can see," said M. Juliot, "what an important part a steerable balloon can take in military manoeu reson either land or see. It would be more successful in scouting and reconnoitering operations than any other system yet devised.

"Moreover, with the present development of knowledge in the handling of chased in Paris.

et devised.

"Moreover, with the present develop-nent of knowledge in the handling of uch craft well in advance of tecanical such craft well in advance of tecnnical improvement, they can even now be used as fearful engines of attack. For example, it would be perfectly possible now for a steerable balloon to carry a thousand pounds of explosives and drop them with great accuracy at any given point. Bridges for troops could thus be demoralized at liftle cost and little dancer."

TURKISH REVOLUTIONISTS. Are Planning to Overthrow the Sultan's

Paris. Jan. 11.-Representatives of the Paris, Jan. II.—Representatives of the different peoples who are being oppress-ed by Turkey, including the Young Turks, Armenians, Greeks, Bulgarisus, Albanians ,Kurds, Jews, and Arabs, held a secret congress in this city to-day. It was unanimously decided to organize in was unammously decided to organize in common action to overthrow the present Turkish Government and for the sub-stitution of a liberal constitutional and Parliamentary regime. The details of this revolutionary programme were not published. Armenians, Turks and Bulgarians in America were represented at the congress of delegates.

POLICE DOGS FOR PARIS.

Kennel Established as Permanent Auxiliary to City Force.

Paris, Jan. 12.—After a long series of trials, in which the dogs of many coun-tries have participated, the Paris police have decided to establish a kennel of

German sheep dogs as a permanent auxiliary to the local police force.

During the trials held this week the German dogs especially showed remark able intelligence in detecting and arrest ing imitation criminals, protecting their masters when attacked, and in finding

Prefect Lepine details the dogs to ac-empany policemen who patrol lonely company policemen and dangerous beats,

One Killed at Montreal and Two Seriously Injured.

Montreal, Jan. 12.—As the result of a small fire on Notre Dame street tonight one fireman is dead and two others
seriously injured.

Fire broke out in a small fancy goods
store through an overheated stove. The
store was on the ground flor of a ramshackle three-storey brick building, and
while fighting the flames part of the
wall fell out, crushing Napoleon Gagnon,
N. Narbonne and V. Lamouche, fremen.
Gagnon died on his way to the hospital, and the others are badly injured.
The loss by fire was trifling, and apart
from the falling wall the building was
uninjured.

LITIGATION OVER THE TIMES.

Many Shareholders Opposed to Sale of the Paper.

London, Jan, 11.—It is stated that serious litigation is threatened in connection with the sale of the London Times, to which many of those having financial interest in the paper are strongly opposed.

The sale of the Times to C. Arthur Parson and others associated with him was announced on January 6.

Vesuvius Still Active.

Naples, Jan. 12.—Mount Vesuvius continues to throw out ashes and in mandescent matter from its chief crater, the cone of which formed by the last eruptions collapsed recently, the earth's tremblings being felt for long distants. Thomas Trotter, of Joyeeville, rear Kingslon, has been bound over to keep the peace for five years for bratal treatment of his wife and her aged mother.

But the Men Who Steod in Awe of It Did Not Know That.

James B. Bradwell, who recently died in Chicago, was an ardent Abolitionist at the time of the war. His most extract and make servipion, a described in the Record-Herald, was the launching of an organization which he called the Home Defence Association, which, as a matter of fact, was composed of Mr. Bradwell and no one else.

He used the name of the association for the purpose of foreing lukewarm supporters of the Union causs into open adherence. Whenever he heard of a Copperhead to Judge Bradwell's imagin him the association was a mere figment of Judge Bradwell's imagination, which, as a matter of fact, was composed of Mr. Bradwell and no no cause into open adherence. Judge Bradwell. He begged the jurist to state what would be the nature of the penalty for result of failure to comply with the demands of the letter.

"I have no idea what this powerful association will do with you," answered Judge Bradwell with much solemnity. "They may tar and feather you; they may burn your home or destroy your business. In any event your life and liberty are in peril if you refuse to take the oath."

"But, Judge," said the frightened merchant, "it will be a serious reflection on my character were it known that I was forced to come here and take the oath. Let me see some of the other officers and persuade them to make me an exception."

"None of the officers," replied the Judge with much dignity, "except the secretary, is ever known to the world unless it becomes necessary for the association to enforce its decrees. There is no choice but for you to take the oath or suffer the consequences."

Whereupon the merchant, conyinced that he was in dire peril from this mysterious organization, held up his hand and took the oath.

and took the oath.

Retribution.

I visited a school one day where Bible instruction was part of the daily course, and in order to test the children's knowledge asked some questions. One class of lutle girls looked particularly bright and I asked the talest one: "What sin did Adsm commit?"

"He ate forbiden fruit."

"Right, What tempted Adam?"

"Eve."

"Not really Eve, but the serpent. And how was Adam punished?" "Not really Eve, but the serpent. And how was Adam punished?"
The girl hesitated and looked confused. Behind her sat a little S-year-old, who raised her hand and said "Please, pastor. I know."
"Well, tell us; how was Adam punished?"
"He had to marry Eve."—Montreal Star.

n. Mr. Whitney was asked this more whether the Government had consider the consideration of the New York. Hon. Mr. Whitney was asked this morning whether the Government had considered the powers of the New York public service commission, with a view to conferring order jurisdiction on the Ontario Railway and Municipal Board. Mr. Whitney replied, "The Government has not considered it formally. The facts celating to it are quite familiar to me,"

ing the morning developed extension of the advance, with sentiment stimulated by the extremely favorable bank state-ment. Good absorption of steel, A. R., Locomotive and Northern Pacific was in evidence. There was influential of-fering of Reading, Union Pacific, Steel, A. R. and Copper. The Eric statement for November caused unfavorable com-ment. The car equipment companies, A. R. and Copper. The Eric statement for November caused unfavorable comment. The car equipment companies, such as A. L. O., naturally feel the effect of easier money conditions, being able to collect bills long overdue. Adjustment of the southern passenger rate controversy is favorable. There is good buying reported in Union Pacific convertible bonds. Bulls say that the Aldrich bill should stimulate prices. Very large returns of funds to this centre seems in prospect. There has been an enormous disappearance of money, and the return movements has as yet barely ments has as yet barely the return mov started.—Ennis & Stoppani.

BANDIT RAISULI HAS JOINED SULTAN MULIA HAFID.

Abd-El Aziz May be Deposed---People Fear Armies of Both Sultans.

Paris, Jan. 13.-A special despatch to the Matin from Tangier says that Raisuli, the bandit, has joined Mulai Hafid and that he still persists in his refusal to give up Caid Sir Harry Maclean, except by order of the new leader.

Advices from Rabat to the Matin state that Abd-el-Aziz's court is terror-stricken by the news that Mulai Hafid has

been praclaimed Sultan.

The Matin understands that recent onferences between Premier Clemenceau and the French representatives at Berlin and Tangier make it practically certain that it will be absolutely unnecessary to modify the French policy in Morocco. More Anxiety.

More Anxiety.

Paris, Jan. 13.—Despatches received by the Government from Rabat announce that the army of General Bagdani, chief of the Sultan's army, which was camped outside the city, has been called within the walls. This is causing the Europeans great anxiety.

They fear the soldiers of Abd-el-Aziz as much as they do Mulai Hafid's.

Big Sensation. Paris, Jan. 13.—A special despatch from Tangier to the Petit Parisian states that the news from Fez has produced such a tremendous sensation among the native population that the Government officials fear that the deposition of Abd-el-Azīz may be praclaimed at Tangier

CHEQUE SWINDLER IDENTIFIED

(Continued from page 1.)

The police-claim that the story published by a city paper to the effect that Mr. Wilgress, manager of the Bank of Montreal, which was fleeced by "E. P. Rice," could not identify Evan, Wesson, etc., as Rice is wrong. They say that when the trial comes off the charge of mulcting the Bank of Montreal will be laid against him.

laid against him.

What the police want to know now is who is Wesson's confederate, as it seems almost impossible that he should have worked so successfully alone.

A circumstance of the case is that the White Lyre is published in the building that is occupied by the W. & D. Dincen Fur Company, and this would, in a measure, explain how the alleged swindler got the name and stamp of the manager of the company. of the company.

LAST IN BENNETT'S.

Labor Leader Spoke at Temperance Meeting.

The last of the temperance mass meet ings for which Bennett's Theatre is available was held last evening. John Carr presided. H. A. Martin led the congregational singing. There were vocal solos by Lavell Smith and sacred corner solos by Gilbert Hutton.

The speaker of the evening was James pron, of Toronto, vice-president of Trades and Labor Council of Can-a. He dealt with the social, the medithe Trades and Labor Council of Canada. He dealt with the social, the medical and the economic aspect of the liquor traffic, showing the vast advance which had been made in recent years in combatting it, and the beneficial results therefrom. As one identified with the labor movement, he rejoiced to be able to say that in all countries labor leaders were in favor of prohibition. In Great Britain such men as Burns and Hardie would give strong support to the Government in its proposed improved liquor legislation. In the United States labor meetings were formerly held in premises above saloons, liquor men giving such accommodation rent free to attract patronage to the bar. The labor men, seeing the disadvantage of this practice, had abandoned it, and now held their meetings in halls of their own, paying rent on a commercial basis. In Toronto, when the Labor Temple was dedicated, it was resolved that no liquor should be introduced within its walls. On a strike, or when out of work, abstainers had money saved on which to subsist, and when at work were able to press for their rights when abstainers. The two movements—the temperance reform and the effort to ameliorate the condition of the working man—must ever go hand in hand.

It was announced that no week from

ameiorate the condition of the working man—must ever go hand in hand. It was announced that one week from next Sunday evening the meetings would be resumed in Association Hall, and con-tinue till the end of February.

The Hamilton Jockey Club has The Hamilton Jockey Club has selected its dates for the spring and fall meetings. Both meetings will follow Toronto, as usual, the spring opening June 9 and continuing until the 20th, and the fall Sept. 29 to Oct. 10. The stakes for the spring meeting will close Feb. 20.

A feature of the Hamilton meeting this spring will be the races on the turf, it having been decided to give the last race each day on the grass track, as is done at Sheepshead Bay. These races will undoubtedly prove quite a novelty, as Hamilton is the only track in Canada with a turf course.

Again.

The annual general meeting of the Turbine Steamship Company was called for this morning at 9 o'clock, in this city. Very little business was done, and an adjournment was made for two weeks. In the meantime a committee will look into and report upon the route to be followed by the Turbinia next summer. It was stated after the meeting that it was quite probable that she would be back on the Hamilton and Teronto run.

THAT INSURANCE BILL

The Insurance Bill with which Parlianent will this session be called upon to leal is necessarily a very extensive and ound opportunity for a careful study f its many provisions, but if the appre nsions of Supreme Chief Ranger Ste nson, of the I. O. F., as to the tenden y'of its effect upon that society are arranted, the country is likely to hear meh about it. Mr Stevenson is a man sterling character, sound judgment nd is very highly esteemed, not only n Forestric and other fraternal circles, out by the public generally. If he has orrectly interpreted and justly nated the intent and probable effect of he sections dealing with the I. O. F., is course in sounding the alarm to the rethren is fully justified. Mr. Stevenon expresses his belief that the effect of the measure, if passed as drafted, will to seriously damage, if not to wreck or drive from Canada, this great frater al order, which has blessed by its beneicence so many thousands of homes, and ith whose prosperity the future of so nany thousands more is bound up.

This is a very serious matter. Mr. evenson may have mistaken the inent and effect of the bill-may be unduly alarmed; but the matter is too imortant to be trifled with or neglected. The T O E is one of the greatest of the raternal bodies. It has been one of the nost forward in moving toward placing raternalism on a sound basis. It has een doing this voluntarily; it moved in advance of the law, acting on business principles. Its policy has been toard solidity and permanency, and never nore so than since Mr. Stevenson has been at its head. Government can have desire to cause it injury; its aim would be, and doubtless is, to enact only such legislation as will secure its roper regulation, and we are confident hat Sir Wilfrid Laurier may be dependd upon to prevent anything like injustice ing done. There must be no bull-inthe china-shop legislation in a matter hich affects so many hundreds of thousands of families and in which every ody connected with fraternal orders is deeply interested. The matter must be carefully looked into. And if it be disvered that somebody in the prepara on of the bill has been using his official position to seek to damage or de stroy a great fraternal order, Sir Wilfrid should lose no time in seeing that he is relegated to the street side of the office

1,000 PATENTS TO EDISON

He Holds the Record Among American Inventors.

Washington.—The greatest patentee in this country—and that probably means the greatest in the world—is Thomas A. Edison. He has rolled up the enormous total of almost 1,000 patents and shows no inclination to quit.

Ask the Patent Office people who comes next to Edison and they will tell you that nobody is within hailing distance of the wizard. A good many men can count their patents by the score and as some of them are much younger than Edison, they may beat him out in time. Up to the present, however, he deserves the title of the Great American Patentee. That means a good deal, for its undoubtedly a fact that an American will take out a patent on less provocation than any other man or woman in the world.

As a consequence the Patent Office is the country of the present of the female mind to unusual activity or not,

in the world.

As a consequence the Patent Office is pling up a swollen fortune which makes it a bloated bondholder among the Government departments. It his achieved a surplus of \$6,000,000 and is growing richer every day. Yankee in genuity is gorging the Patent Office with records and piling up models by the burdest thousand.

There was Clarissa Britain, of St. Jo, Mich., who took out seven in eighteen months all by her own sweet Clarissan self. Rosanna Carpenter was also expensive the burdest thousand.

the hundred thousand.

The first patent under this Governthe hundred thousand.
The first patent under this Government was taken out by Samuel Hopkins, July 31st, 1790. It was on a process for "making pot and pearl ashes." Two other patents were taken out the same year. One was for making candles, the to 361 in 1894, and heaven knows what it is now. At any rate, the Patent Office doesn't know. If you want to go over the record of 50,000 patents granted last year nobody will say you nay. That's the only way you can find out.

But after 1894 there was a record compiled of patenta issued to women in the previous two and a half years, and that contained hints that women were continuing to branch out. During that time they patented 15 agricultural implements, 3 motors, 3 horseshoes, 22 building appurtenances, 8 fire escapes, 8 railway appliances, including one for unloading box cars; 31 forms of heating apparatus, and dozens of other articles classed un-

meal.

Apparently we as a people took kindly to the patent idea from the very start. for we jumped from three in 1790 to 33 in 1791. On March 11th Samuel Mulli-ken took out four all by himself. But on August 28th Jaines Ramsey utterly cellipsed Mulliken by taking out six.

That was the greatest day the Patent Office had known, for within its limits no less than fourteen patents, were issued to aspiring genius. Three of these were on "improvements in Captain Savary's steam engine." and one was taken ary's steam engine." and one was taken out by the famous John Fitch for "propelling boats by steam." As eight out of the fourteen patents of that day were

rves to be immortalized as a steam The next year there came a decided reaction, only eleven patents being issued in the entire twelve months, not even as many as on the one day in August of the year before. In 1796 a word which has become the commonest in the Patent Office vocabulary began to make itself conspicuous. It was fimprovement."

patents as aluminum solder and a pr cess of making anhydrous tannic acid. ment. Out of forty-four patents issued that

year the improvements numbered forty out of fifty one patents. out of fifty-one patents.

There is an astonishing frequency of French names in the early patent records. About 1802 they were especially numerous, and they were generally attached to something rather ambitious

in the way of an invention.

For instance, that year Jean Baptiste Aveilhe patented a "machine for raising water, which is described in the patent secords, with profusion of exclamation oints and parenthesis, as: (!!! a per-etual motion !!!!.) A few months lat-

records, with profusion of exclamation points and parenthesis, as: (!!! a per petual motion !!!!...) A few months latter another Frenchman, named Marentille, invented "an insubmersible boat."

Pills, pills, pills! Our patent medicine appetite is one of long standing, for all most the commonest object of the early patentee was some form of pills; antibilious pills, cream of tartar pills and so of on. One of the peculiar descriptions is of a patent issued in 1799 for an "effeciminate ropery for spinning rope yarn."

The present activity in producing military balloons had a forerunner in 1799, when a "Federal balloon" was patented. In the same year a "check to detect counterfeits" was patented. And in 1880 a description of a telegraph instrument, the first appearing in the patent records, was filed by Jonathan Grout, jum., of Massachusetts.

In the fifteen years between 1790 and 1805 only 800 patents were issued. That was a big number considering the times. The word "or 2" is used because now, a century later, we are issuing patents at the rate of 1,000 a week!

It was not until May 5, 1809, that a woman took out a patent. It is to Marry Keyes that the honor must be given. Who she was or where she lived the arcords fail to state. Her patent is described as "Straw weaving with silk or thread." For six years Mary was along in her glory, the sole woman patentee in this country. The a mother woman came forward with an idea. This time it was a corset.

In 1819 a woman patented "cream of the patent is described as corset."

and dozens of other articles classed under such heads as furniture, culinary utensils, trunks and bags, tops, washing and cleaning, games, baby carriers, art appliances, sewing, etc.

Wearing apparel called forth the largest exercise of their ingenuity, 132 patents being credited to that item alone. Culinary utensils come next with 102 patents. In fact, the patent records seem to show that the eternal feminine is as substantial a verity as ever.

It is rather surprising to find that the patents credited to foreign women are as a rule of a more scientific and unfeminine class. French women are especially noticeable in this direction, being credited in the United States office with such patents as aluminum solder and a process of making applications. Ottawa, Jan. 12.—Hon. J. D. In St. John Presbyterian Church yes-terday morning Rev. John Young preach-ed a very thoughtful and forcetul ser-mon on "The Sin of Gambling." He took as his text, Romans xiii., 13: "Let us walk honestly, as in the day." Betting is one form of gambling that is presented in these parts, and is most harmful. The man who wins a bet and the man who less that the less than the le who loses it are harmed. The law of compensation is violated by betting in any form. Another law that is violated form. He said that while gambling was as old as the race, it was now seen in more gilded forms, and forms that made it more attractive to people who disapment of the control of gilded forms, and forms that made it more attractive to people who disapproved of race track and gambling house methods. He said that he sometimes wendered that the police permitted such pernicious schemes of disposing of goods as are sometimes adopted by merchants. One of the schemes he referred to was the 'prize package' plan of selling goods. If a 85 prize is placed in every 50 packages of a staple article, he said it simply means that the purchasers of 49 packages pay 10 cents each too much for them. West End Revival.

Considering the stormy weather yesterday there was a good attendance at the morning service in Charlton Avenue Methodist Church. The evangelistic services being held there are very fruitful. In the morning Mr. McHardy preached in "True Discipleship," a subject which he handled in his usual persuasive manner. At the evening service there was a good attendance. At the after meeting a good attendance. At the after meeting quite a number went forward. A feature was the large number of testimonses given by young men and women, the soinal work. At the after prayer meetings held in the school room for young men and women, there was a good attendance there being between sixty and seventy men, and over thirty young women.

Every one will be heartily welcomed at any of the meetings which will be held during the evenings this week.

To the Editor of the Times

Sir,—In duty bound to the citizens of Hamilton. I feel offiged to write and deay statements that have been made with reference to my undertaking to raise sufficient funds to build a hospital for sick children. I refer particularly to the letter written by Manager Appleton, of the Savoy Theatre to the newspapers, and to the statements attributed to several Trustees at a recent meeting of the Board of Education. Mr. Appleton alleges that I had been made the same offer for the Savoy Theatre as I received from Bennett's, and that I had seen fit to refuse it. To the Editor of the Time

Since the organization of our club there has been a regular Canadian Club movement throughout the whole of Canada, resulting in the formation of similar clubs in almost every city and town of importance in all the various Provinces of the Dominion, from the Atlantic to the Pacific, and including our great Canadian Empire in the west. These organizations have become the meanum through which the best and most advanced thought of the country is reach my father. He'll tell you what he thims of you."

I accepted the hint, and found Mr. Stroud in his office. He lost no time in ridiculing my plan, and went so far as to say that no woman could think out such a thing, and the whole business had been inspired by the Cataract Power Company, and was nothing else than a "boost" for Bennett's. He accused me of using the Sick Children's Hospital proposition in order to make money for the Cataract people and Bennett's Theatre. He stated very emphatically that he would leave nothing undone to knock" the Sick Children's Hospital scheme; that he would let me get so far vanced thought of the country is reac ing the people, and are, in fact, in a larger measure than any other organization, the moulders of the highest healthiest political sentiment and most public spirited, progressive and pat-riotic public opinion of the country. council, but, strange to say, the aldermen who had favored it in the committee saw fit in the Council to vote for its being sent back for further consideration. My experience with the Board of Education was the same. The Internal Management Committee unanimously endorsed my application to have a certain number of trekets placed in the schools for the children. At the meeting of the Board the Trustees, with one or two exceptions, had a change of heart, and all sorts of reasons were advanged for its being refused. One Trustee went so far as to say that he did not know whether it was a benevolent scheme or a scheme to help one theatre on its war with another. It was, he said, apparently a scheme to work sympathy for one particular theatre.

These are samples of the opposition i have met with since I began what I fondly believed was a purely philanthropic effort. It certainly would appear as if William Stroud's remarks were proving something more than a threat.

I began this work with every good in the meations in the national meads been holding a series of successful uncheon addresses and public debates this season and is now actively make the holding a series of salrege oratorical contest at which all Young People's Societies of the city will be requested to compete, and also arranging for their annual banquet in February at which Dr. Falconer and representatives of the Dominion and Queber Government will be the chief speakers. Since our own club has again between the luncheons the leading men of our Province and in the intervals of our province and in the intervals of our country, province or our own city, and since from our own city this great national movement emented, the officers fele that the present the membership of our local club is altogether too small and that our all of the country of the countr ada.

our own city, and since from our ow city this great national movement en enated, the officers fele that the pre ent membership of our local club altogether too small and that or average citizen does not adequate recognize and appreciate the hon that this club has brought to oc city and that there ought to be public awakening among our fello citizens to the importance of t time, the occasion and the movement that we have set on foot throughout William Strond's remarks were proving something more than a threat.

I began this work with every good intention to my city, and I want my fellow-citizens to understand that I have only one whject in view, that is, a Sick Children's Mospital; not the Cataract Power Complany nor Bennett's Theatre. Apart from those who seem to be susceptible to influence, I have met with the strongest support and appreciation. In the eight days that I have been out canvassing for the fund I have disposed of over ten thousand tickets, and from the encouragement I have received from the public, the task of selling 50,000 tickets is not so formidable as some would think.

The money I have received has been that we have set on foot through

the country.

That the parent club of this great national movement at the pres-time should have a smaller memi-ship than its numerous off-sh-strikes one as rather a reflection the progressiveness, public spirited-ness and patriotism of our Hamilton citizens. I have thought it only nec think.

The money I have received has been deposited in the Bank of Montreal, and later in the week I shall be ready to mame the treasurer of this fund.

I regret that it should be necessary for me to enter into such explanations. My desire is that I may be able to earry out what I have undertaken, and the work in connection with that is such that in connection with that is such that in the such that it is now that it is many of you as pos-

officers have therefore resolved to call upon our citizens through the public press in this manner and to wait upon as many of you as possible to procure four membership within the next few weeks, and to ask our present members to procure an additional one or two members within that time.

Application forms will gladly be furnished by the President and Mr. J. P. Hennessey, the Secretary, or any officer or member of the club. The membership fee is small, but it is not the fee that we are soliciting so anxiously as your influence, encouragement and presence as often as possible at our public meetings.

Believing that the result herein sought will be attained by this simple appeal and thanking our members and citizens generally for the support and encouragement they have given the club thus far this season. I have the honor to remain Yours respectfully,

Mr. Collingwood's great grandfather was Admiral Collingwood, who took charge at Trafalgar when Nelson fell. His father and grandfather were wealthy diamond merchants, supplying royalty with precious gems. Mr. Collingwood himself, when a comparatively young man, possessed considerable fortune. don residence. This design consists of a semi-circular terrace of stone, relieved at the point at which it is intersected by roadways by piliars, upon which the names of the Deminions and colonies of the Empire are inscribed, according to their share of the gift. In the centre of the space thus obtained a statue of the late Queen, by Mr. T. Brock, R. A., will be erected. Another part of the memorial has been the continuation of the Mall from the Duke of York's steps to Charing Cross, immediately opposite the Canadian Government offices—which will open up a magnificent thoroughfare from the Strand direct to the palace—and the cutting of a road through the Green Park from the Mall to Discadilly. BRITAIN'S BIG RACE PROBLEM.

TRANSVAAL ANTLIMMICRATION LAW MAKES TROUBLE.

Natives of India Object to It-Bad Effect in India-Lord Elgin Endorsed It, Fearing Refusal Would Stir Up a Rebellion in Transvaal.

London, Jan. 12.-The great problem of the mixing of the Asiatic and white ces is coming to a speedier and graver me than the dispute between the

ssue than the dispute between the United States and Japan. Some reference was made in three despatches a week ago to the troubles within the British Empire threatened by the drastic anti-immigration legislation put in force by the Transvaal Government. A trisis has already developed so rapidly that the home Government finds itself confronted by the most serious imperial question it has yet encountered.

The courts of Pretoria and Johannesburg on Friday imposed sentences of two and three months' imprisonment upon several prominent natives of India, who had refused to furnish finger trints and other means of identification, as a condition of remaining in the colony. Thousands of Indians in both cites have held mass meetings and processions in protest against laws applicable only to criminals or slaves. Resolutions were adopted setting forth: "We welrome the inhuman sentences as a test of Indian suffering, but for the sake of summainty and the Empire we denlore come the inhuman sentences as a test of Indian suffering, but for the sake of humanity and the Empire we deplore them. These sentences, notwithstanding, we are resolved to continue the struggle which we have undertaken, in the name of Cod."

An Impossible Situation.

An Impossible Situation.

The Indian portion of the community only asked Gen. Smuts, Colonial Secretary of the Transvaal, to receive a deputation, but he refused. There the matter rests for the moment, but it will not rest long. The situation is an impossible one for the British Government to defend or allow to continue. The precarious condition of India, as well as the boast of equal rights within the Empire, which is one of the cardinal rights of the Liberal party, makes it impossible. Yet there seems no way out of the impasse into which the Bannerman Government walked blindly when it granted the Transvaal independent government.

illuminating. The new regulation was approved by Lord Elgin, Colonial Secretary, a few weeks ago without consultation with his colleagues of the Cabinet. He has been taken sharply to task by his associates, and his ex was, in effect: "I was threat sign the ordinance. So I had to do so. Of course, he had expected no such drastic application of the new measure and its effect locally. Still less did he anticipate the appalling danger which he created in India.

It is fair to say that the majority of

It is fair to say that the majority of the Government, as well as the whole mass of the Liberal party is strongly opposed to the action of the Transvaal. So, also, is British public opinion at large. When Parliament meets this will find violent expression and the Government must find some means to deal with the Situation. It is pointed out that the Government-should have foreseen this, as one of the probable effects of their precipitate generosity in granting self-government to the colony. The charter of the Transvaal contains a provision giving the home Government the nominal right to veto any act of the Colonial Legislature. But, in practice, the exercise of this right is almost unknown, and, as Lord Elgin indicates, its use thus early in the history of the Transvaal's independence would probably have caused a rebellion. The matter is so serious that it will not be made a party ones. macpendence would proceed a rebellion. The matter is so serious that it will not be made a party question. The Unionists will criticize the Ministry, but they will also do all in their power to mitigate the perils which have arisen.

The task of John Morley, the Secretary for Judia is a most difficult one.

tary for India, is a most difficult one. Public feeling in India is already at a dangerous tension. The treatment now accorded their compatriots in another rt of the Empire will be regarded as grossest and as a most flagrant vio-ion of the professed principles of the perial Government. The smouldering Imperial Government. The smouthering fires of popular discontent in the great dependency will assuredly break into a conflagration unless Mr. Morley can dampen the fuel which the Transvaal has supplied. No British statesman has faced a problem more critical or appailing

Amount of Rheumatism Reported Every

Thousands of men and women who-have telt tne sting and torture of this dread disease, which is no respector of age. persons, sex, color or rank, will be interested to know that white for many years rheumatism was considered an incurable disease, now it is one of the easiest afflictions of the human body to conquer. Medical science has proven it not a distinct disease in itself, but a symptom caused by inactive kidneys. Kneumatism is urre acid in the bood and other waste products of the yestem which should be filtered and strained out in the form of urine. The function of the kidneys is to sift these poisons and acids out and keep the blood crean and pure. The kidneys, however, are of sponge-like substance, the holes or pores of which will sometimes, either from overwork, cold or exposure become clogged and inactive, and failing in their function of eleminating these poisons from the blood, they remain in the veins, decompose and settling about the joints and muscles, cause the untold suffering and pain of rheumatism and backache, often producing complications of bladder and urinary disease, weakness, etc.

The following simple prescription is said to relieve the worst cases of rheumatism because of its direct action upon the blood and kidneys, relieving, too, the more severe forms of bladder and urinary frouble Fluid Extract Dandelion, one-half ounce; Compound Syrup Sarsaparilla, three ounces. Mix by snaking well in a bottle and take in tea-poonful doses after each meal and at bedtime. The ingredients can be had from any good prescription pharmacy, and are absolutely harmless and safe to use at any time.

CLAIMS STILL STAND Nova Scotia Claims on York Loan Not

Toronto, Jan. 13.—A lively discussion between Mr. C. A. Masten and Mr. W. M. Douglas, K. C., in connection with the claims of the Nova Scotia shareholders against the York Loan Company's assets was the feature of the concluding argu-ment before official referee Mr. George Kappele Saturday afternoon. Mr. Kap-pele reserved judgment and has asked counsel to obtain further authorities.

counsel to obtain further authorities.

After Mr. Masten's formal argument counsel entered on a general discussion as to the effect they would have had upon the claims of the Nova Scotia investors were the operations of the York Loan in that Province admitted to be ultra vires.

Mr. Douglas, for the general body of shareholders, holds that the transactions were not ultra vires, but that if they were so the people who bought the shares cannot recover their money unless they can trace the actual amounts paid in and show that they were applied on the debts of the company.

Mr. Masten argued that the York Loan never really "obtained" the funds from the investors in Nova Scotia, since the contract entered into between the parties was ultra vires. Counsel ex-changed words at times with greater ve-hemence than on ordinary occasions.

way through it. It is a new venture for vaudexine, and as the act demands a large number of artistes, has proved to be an expensive production. The act will introduce the lighter side of the Bowery, with plenty of tough girls, German and Irish comedians, and the scenery. The Bandit, which will share the headliner honors with the musical comedy, is something along the lines of that famous play, "size Girl From the Golden West." It deals with the exciting life of those who live in that region of the globe, and E. F. Hawley and his company are all competent performers. Not the least interesting offering will be that of the kratons, hoop rollers. What they cannot do with the hoops is not worth doing. Paul La Croix, another strong turn, is a juggler with hats, and a smart comedian. Bella Veola will give a series of dances, demonstrating the various styles favored in different countries. The Abdallah Brothers are comic acrobats the Big Giry Quartette has the reputation of being the best on the road. The management is offering Ed. Toronto Jewish Butchers Attempt to Resume Business.

Four Co-operative Shops Are to be Established.

Mass Meetings of Jewish Citizens Held in Three Synagogues.

Toronto, Jan. 13 .- Four Jewish co-op rative butcher shops are to be establish in Toronto in opposition to the so called "Jewish butchers' trust," which Rised the prices of meat to consumers ast week. This action was agreed upon esterday at mass meetings held in the niversity Avenue Synagogue and the haarey Tzedeck Synagogue, Centre ave ie, both of which were largely attendclasses of the Jewish community At the former tabernacle \$800 in shares \$5 each was raised, of which \$150 was received in cash, the remainder to be paid by to-night, while at the Centre Avenue Synagogue some \$1,500 was col-lected and turned over to a special committee equally divided between the two congregations. The shops will be located Centre avenue, Chestnut street, York street and Elizabeth street, the commit tee having announced that stores had been secured in which to start business

There was considerable excitement in the vicinity of Agnes and Teraulay streets on Saturday night, when the Jew ish butchers in the neighborhood, whose stores had been closed for several days, stores had been closed for several days, attempted to resume business. When the excitement was all over one arrest had been made. The individual was Max Larman, a young Russian Jew, of 53 Nelson street, who is charged with being disorderly in refusing to move on. He was bailed out by Mr. James Simpson, the defeated Socialist Mayoralty Candidate. The chief trouble was centred around the store of Capiin & Sons, Agnes street, who are considered the largest Jewish retail butchers in Toronto. Mr. Caplin, sen., opened his the largest Jewish retail butchers in Toronto. Mr. Caplin, sen., opened his store at 6.30, and about an hour later a thousand Jewish residents, mostly of the working classes, had gathered, much to the annoyance of customers who attempted to enter the store. Subsequently Inspector Cuddy, of the Agnes Street Police Station, with Patrol Sergt, Irwin and Policemen Miller, McKinney, Montgomery, Linton and Ward, appeared on the scene.

It was not until the police began to show their authority that the excitement abated, and then the crowd divided off in groups and marched through the streets and visited each butcher shop. Finally the majority of the mob found its way back to Caplin's shop, where hostilities were renewed. Mr. Caplin, sen, became enraged, and, rushing to the door of the shop, threatened to use the axe if the crowd insisted in interferhostines sen, became enraged, and, rushing to the door of the shop, threatened to use the axe if the crowd insisted in interfering with his customers. The police interfered, and the two women, drawing their shawls over their heads, were escorted to their homes. Subsequently Caplin's delivery wagon, filled with meat, came in view, and this was a sign for a general attack. The result was that the contents were soon strewn along the street, followed by an attempt by three young men to upturn the wagon.

SIXTEEN CHILDREN LOSE THEIR LIVES AT BARNSLEY, ENGLAND:

Panic Caused by Mad Rush for Better Seats at Entertainment in a Public Hall-Forty Other Little Ones In-

Barnsley, England, Jan. 11.-Sixteen were trampled to death and forty others, several of whom cannot live, were injured, in a mad rush for better seats at an entertainment given in the public hall here this afternoon. was a great crush to secure ad-

in the public hall here this afternoon. There was a great crush to secure admittance to the entertainment, and when the show opened every seat was taken and the gallery was literally packed with children, who filled the aisles and were dangerously massed against the lower railing. With a view to relieving this crowding in the gallery the attendants decided to transfer some of the children to the body of the house, and one of the ushers called out, "Some of you children come downstairs."

Immediately the rush started, and within a few seconds hundreds of children were being trampled under foot. Even those who had seats in the gallery, doubtless being panie-stricken by the screams and struggles of the crowds fighting to reach the staircases, joined in the stampede.

The scene was a terrible one, the cries of the injured and the moans of the dying causing the greatest excitement among those gathered in the body of the hall. Pouce and ushers rushed to the head of the staircase, which was literally strewn with dead and dying, and by the most desperate effort managed to drag scores of the struggling children to the corridors below. It was with the greatest difficulty that a panie among the children in the lower part of the house was averted, all of these eventually being taken to the streets in safety. When the reserve police arrived they found the narrow stairway practically blocked with bodies, which were crushed in some cases almost beyond recognition. Scores of children were forced by the pressure from the crowd behind them to scramble over those who had fallen, whether living or dead, and many of the injured children were forced by the pressure from the crowd behind them to scramble over those who had severe lacerations, caused by the indescribable manner in which they be describable manner in which they be described the manner in which they be described the second of the second of the described manner in which they be described exercited the second of the

The Hamilton Y. M. C. A. basketball team deeated the Toronto West. End basketball bunch here on Saturday night by a score of 69 to 20. The game, which was exciting, was witnessed by a good crowd of spectators. For the Ashley Aggregation, McKentie showed the best form. He shot four baskets from the field, besides shocting nine fouls. Miller was the fonly otner man to shoot and he got two baskets from the field. All the locals were in splendid form, and played the game all the time. Their combination work was a feature in itself, the boys working well together. Gray and Smith quided hoiors on the forward line, each getting seven baskets from the field ouring the game. Arnold, at centre, again distinguished himself, getting five baskets from the field curing was away above the average. McKeown was in the game all the time, and he put in four baskets from the field.

The first half started off with the usual rush and for ten minutes it was nip and tuck. Then the locals began to draw away and half times aw the locals with a good lead—30 to 14.

The first game on Saturday night was between the 13th and 91st sergeants, and although it only lasted for four innings, it was a hummer from start to finish. Both teams have men who have played the game for years, and the result was sharp, clean fielding, and good hitting. The 13th won out by a score of 7 to 4.

The second game; between the 13th and 91st officers was just as interesting. In the third inning the 13th officers made eight runs, and it was thought that the 91st had-no chance after that, but in the fourth inning the boys in the kilts made five themselves, and that evened things up a bit. Gas From Cinders.

Smokestack cinders from locomotives are being used for making gas at twee places in Germany by the railway administration. The plant at Koenigsberg, has three generators and three doubled acting gas engines, each 180 horse power capacity. The engines are directly connected to electric generators. The other plant has two gas generators and two single-acting gas engines, each of 90 horse power. Both plants are said to be giving satisfaction, the consumption of cinders being reported from 1.3 to 2.4 pounds per horse power, varying with the load.

time. The citizens in electing you to the honorable position have imposed upon you important duties and great responsibility. I have no hesitancy in saying that I believe that each member of the council will well and faithfully perform the duties entrusted to him to the best of his judgment and ability and in such a manner as will best promote the interests of the city of Hamilton.

Flection of Alderman

Election of Aldermen.

Election of Aldermen.

As the electors have decided to return to the ward system in the election of aldermen, it will be necessary on account of the growth of some of the wards, for the council to consider the question of a new division into wards being made of the city, with a view to approximate equalization. The council should also consider the question of reducing the number of aldermen to two for each ward. The concensus of opinion being that the affairs of the city could be better managed by a smaller board. I would also submit for your careful thought the question of extending the term of the aldermen for two years and of providing for the election by the city at large of a Board of Control.

The Municipal Plant.

The Municipal Plant.

The Municipal Plant.

The ratepayers voting on the by-law respecting a contract with the Hydro-Electric Commission for the supply of electric power and the installation of an electric plant stated with no uncertainty that they approved of the city owning its street lighting and water pumping plants. As the installation of these plants will entail an expenditure of a large amount of money, it will be necessary to give the matter the most caresary to give the matter the most care ful consideration, and the council should engage the best assistance obtainable every precaution to provide any possible mistake, either construction of the plants.

Damage by Electrolysis.

Damage by Electrolysis.

"The ratepayers have also sanctioned the introduction of electric pumps at the Beach pumping house. By the installation of these pumps a considerable saving will be effected in the cost of pumping the water. As this question will also involve the expenditure of a large sum of money, and as provision should be middle for future requirements of the city, the greatest care must be exercised in the selection of "the pumps and in the manner of their installation." Collection of Garbage

Collection of Garbage.

"I believe a better system of collecting the garbage of the city should be adopted, my opinion being that this work should be done by the Board of Works and that the city should own the horses, wagons, etc., and employ the men to perform the work. The suggestion of a central covered elevated depot where the garbage could be loaded on cars and transported to outlying districts, where it could be utilized to good advantage in filling up inlets and low lying properties, would result in doing away with long standing nuisances and be the means of reclaiming land which would become valuable to the city, and at the same time greatly lessen the cost of this department.

Guelph Junction Railway.

"I regret that the proposal to build the Hamilton & Guelph Junction Railway has for the present apparently fallen through. This railway when built will be of great advantage to Hamilton and the Council should take every effort towards its accomplishment. I suggest that the Railway Committee take the matter in hand at once and open negotiations with the Canadian Pacific Railway with a view to its consummation.

Lighting Arbitration.

"The question of what reduction the city is entitled to in the cost of street ighting in the contract with the Cataract Power Co. is now under arbitration before His Honor Judge Snider as official arbitrator, and his judgment will no doubt be handed out within the contraction.

After street railway service fails to meet the requirements of the city, and I am informed that the orders of the Railway and Municipal Board have not been ing the case it is the duty of the Council to the regulations passed by the Council during the year 1906.

The cost of conducting the Public Schools and Collegiate Institute of the city is increasing in greater ratio that meet of the cost of maintaining our schools, and as a simple method of accomplishing this as higher I would suggest that the tax matters were kept informed of the case of maintaining our schools, and as a simple method of accomplishing this as higher I would suggest that the tax matters will not be also as the substitute of the cost of maintaining our schools, and as a simple method of accomplishing this as higher I would suggest that the tax matters will not be paid for school purposes, water mains and water services under the control of one committee. "In conclusion, let me express the confidence I entertain that the affairs of the city will be conducted by you in a business-like manner and also to express the hope that the kindlest relations will exist between each member of the Council during the year 1908.

Ald. Dickson's Congratulations. As soon as the Mayor had concluded his address, Ald, Dickson arose and congratulated him on again being there to preside over the Council. A year ago, Ald, Dickson said, he had had a similar pleasure. The best evidence among 60 or 70 thousand people, he thought, that there was no man they would sooner

chair was the fact that they had elected him by acclamation for another term. There must be some reason why this confidence was placed in him, and he dist not think they had to look far for the reason. He complimented his Worship on the energy and ability he had displayed and the firm stand he had always taken against the aggression by government or corporation in civic affairs. "I think," he said, "that the people appreciate in you a champion of the city's rights." have than Mayor Stewart occupying the

people appreciate in you a champion of the city's rights."

The planks laid down by his Worship last year had been regarded by some as very advanced ideas, but they had all been carried into effect and he predicted that everyone of the plans laid down in the Mayor's inaugural address would likewise be carried into effect. Ald. Dickson spoke of the old faces that had disappeared, among them Ald. Tom Al-len, "the grandfather of the Council."

He reviewed the make-up of last year's Council, those from the good Conserva-

len, "the grandfather of the Council."

He reviewed the make-up of last year's Council, those from the good Conservative party, those from the equally as good, if not better, Liberal party, the representatives from the Trades and Labor Council, the Temperance party and the North End Improvement Society. "To-day it is much different," said Ald. Dickson, "those parties are practically wiped out. There is no representative from the Temperance people; there is no representative from the Temperance people; there is no representative from the North End Knoprovement Society. But there are twenty-one carenten who vote Conservative in Dominton and Provincial politics; ten who vote Liberal the same way, and there is one gentleman who stands pre-eminent to-day, on whom all eyes are cast. That man stands pledged to the electorate on the pledge of no politics in civic affairs, and to give every man a square deal. We stand here to-day to see it done."

There were cries of "hear, hear" from the spectators.

"We know the gentleman," continued

"We know t know the gentleman Ald. Dickson, "and we know that he will stand by his pledge when he comes to

vote."
"Ald. Frarar was deserving of credit for his independent stand and so was Mayor Stewart, if he lived up to it. We stand here to-day to see him stand by his pledge."

stand here to-day to see him stand by his pledge."

If Ald. Farrar lived up to his pledge his name would go down to posterity with credit. "If he does not, the man who will come here and deliberately come into this council with a pledge which he will not live up to, he can be branded anything that the public will brand him. I am not capable of expressing my opinion of a man of that character. But we expect that he will cand out a man whose word is as good as his bond, who will stand by his pledge."

Ald. Dickson, in closing, said it was up to Ald. Farrar. The sole object of the new council should be to unite in upbuilding Hamilton.

Before Ald. Sweeney, who had the names of the committee decided upon at the Tory caucus in his hand, was ready to make a motion, Ald. —The marriage of Miss Helen Snider, daughter of Judge and Mrs. Snider, to Mr. Ernest Appelbe, barrister, Kamloops, B. C., will take place in All Saints Church on Wednesday afternoon, Jan. 29. The Y. P. S. C. E. met at the close of the church service in Erskine Church last evening. There was a good attendance. Mr. Wm. Brown gave an address on "The Prayer Meeting and What \$t Stands For."

-Miss Dorothy F. Wade, daughter of Rev. Canon Wade, and pupil of Miss Margaret F. Langrill, Lic. Mus. Tor., has passed the senior piano examination of Toronto University, with highest standing in Hamilton.

ing in Hamilton.

—Rev. E. J. Peck, for thirty years missionary to the Eskimos in the Arctic regions, will give an address on his work and experiences in the Ascension school-room this evening at 8. It is sure to be most interesting. All are invited.

—Have you seen the colored shirts selling at fifty and seventy-five cents at waugh's, post-office opposite? new patterns. Another lot of collars just received selling two for a quarter. A bargain in cashmere half hose, two pairs twenty-five cents. Penman's natural wool underwear, one dollar.

—As recently announced araugements

to the people of that nationality in the city and diocese.

—Large crowds gathered in the Y. M. C. A, hall on Saturday to spend the evening with the Vitagraph. The programmes consisted of a series of short stories, illustrated with the machine. Among the various numbers were, "Satin in Prison," "The Haunted Hotel," "The Hero," and "An Indian Love Story," which was very powerfully portrayed. "A Jealous Wife" was the favorite on the list.

—While the storm of yesterday did not interfere with electric railway traffic like that of a month ago, it was a pretty wild one. At the Beach the water was running over the piers, and the sand strip presented a wild appearance. Few people ventured out to see ½, however, the ice in the bay was broken up every, in where. where. In the city the walking was the worst feature. In some parts of the country the wind was very texch stronger than around here, and many telegraph and telephone poles are reported down on the Brock road.

FATAL SHORT CUT

ten, Bailey, Allan, Nicholson, Farmer, Lewis, Gardner and Dickson a committee.

"It gives me much pleasure and hope for better things to make this motion," said Ald. McLaren. "Ald. Farrar was a fearless critic last year. He went to the people on his record of independence and a square deal for everybody. I believe that the people believed him and returned him on his promise. I have no evidence and until I have that evidence 1 can not believe that he is deceiving the people. I have named him as arbitrator on this committee so that he may give the people the best results placing the men in the position that will best suit the interests of the city. He has a chance that very few men have been in a position to deexectly as he promised."

Ald. McLaren quoted the pledge on Ald. Farrar selection card, "I can not believe for one," he said, "that this is a deliberate deception. I stand as Ald. Farrar does for the city's best, interests and for no political slate. I hope my confidence in human nature will not be shattered so quickly."

Ald. Sweeney defended his amendment, Ald. Sweeney defended his amendment, and hope for the company for some time. He took the accident for some time.

The fact that we are dropping the price one dollar each day in this big lot of Men's Suits and Overcoats did not prevent some men from buying on Saturday at \$16.

To-day the garments that are left over (550 Suits and Overcoats), are going at \$15 and to-morrow at \$14 and there are still some of the \$24 and \$25 Coats in the lot—some silk-lined throughout. Every garment has the original price ticket on just as marked when first placed in our stock three or four months ago.

A whole lot of men are going to wait until next Saturday when the price will be down to \$10.

Take my advice and get in ahead of them. It will be better for you and better for us —what's a few dollars on a coaworth double what you'll pay:
