City Has Not Yet Received the Hydro Power Contract.

Copies of Correspondence in the Greathed Case Received.

How the Money Has Been Spent on School Buildings.

Although the Hydro-Electric Commission, according to a statement made in Toronto yesterday, has approved of the draft of Hamilton's contract, the city is not in possession of the documents yet.

The Board of Education officials have heard that the question of enlarging the Trolley Street School was being considered about the time the annexation question came up.

The committee revising the water-works by-law had another long session yesterday afternoon, but did not decide on any further changes.

The city to-day received from the department at Ottawa copies of the correspondence in connection with the move to have Albert Greathed deported.

Chairman Allan of the Building Committee, tonight will lay before the Board of Education a detailed statement of the cost of building the addition to the Pictou and Strathcona Model Schools.

Table with financial data: Receipts—building fund—City Council debentures (net) \$92,776 38; Disbursements—Building fund—Land—Strathcona Model school 900 00; Balance 898,752 85

The city officials are not disappointed at the decision of the Railway Commission yesterday, which will require the Grand Trunk to maintain a watchman at the Wellington street crossing only between the hours of 7 o'clock in the morning and 9 o'clock at night.

The annexation meeting to-night is not a conference with the Barton Council. It is for the purpose of hearing the private interests.

Deer shooting licenses will be issued at the city clerk's office this year. They are now ready.

Alex. McMillan was granted a permit to-day for a frame house on Harvey street, between Sanford and Stinton avenues, to cost \$1,400.

The trophy emblematic of the city school championship, and the medals competed for at the school games held last week, will be presented to the winners at the Board of Education meeting to-night.

As a result of a conference between engineers from the municipalities taking Hydro power, concluded in Toronto yesterday, there is a scheme on foot to establish a clearing house, where apparatus and supplies can be obtained at reduced rates.

CRANE MUST GO.

Washington, Oct. 14.—All doubt as to what action the President would take in respect to the resignation of Chas. B. Crane, Minister designate to China, was dispelled by the receipt this morning of a despatch from the President addressed to his secretary, Mr. Carpenter, directing him to convey to Mr. Crane announcement of the fact that the resignation had been accepted.

BORN HERE.

Frederick D. Ware Died Suddenly In Chicago.

(Special Despatch to the Times.) Chicago, Oct. 14.—Frederick D. Ware, a member of the Board of Trade for twenty-five years, and a resident of Chicago for fifty-two years, died suddenly on Tuesday of heart disease at his home, 5147 Cornell avenue. He leaves a widow and one son, Harold D. Ware. He was a brother of J. Herbert Ware, of the firm of Ware & Leland, and of Henry A. and Minnie E. Ware. The deceased was born in Hamilton, Ont., sixty years ago.

DIED AT AGE OF 110 YEARS

Mrs. Catharine Bolton Was the Oldest Woman in Hamilton.

Mrs. Catharine Bolton, a very respected old lady of this city, passed away at 4 o'clock this morning, at the Aged Women's Home at the age of 110 years. She had been ill for about a week and death was caused by general decay and old age. Her mind was perfectly clear up to the last moment, and she passed away quietly and peacefully. Deceased was a resident at the home for over 33 years. She leaves one son, William, of this city, and a number of grandchildren. She had lived under the rule of five sovereigns. She came to this country when she was about 30 years old. Her husband was killed in excavating for the first railroad line running into Hamilton. The funeral will be held on Saturday afternoon at 2 o'clock.

ONE DAY SICK.

William J. Irving, First Mate on Rosedale, Died To-day.

A sudden death occurred this morning, when William J. Irving passed away at his father's residence, 88 Wellington street south, after an illness of one day. He was taken suddenly ill on the steamer Rosedale, which had just arrived here from Port William, and was immediately taken to his home, where, in spite of medical aid, he expired this morning. Deceased was the son of Capt. John A. Irving, of the Inland Navigation Company's steamer Strathcona, and was previously a mate on that steamer until he was raised to first mate on the steamer Rosedale, which position he held until the time of his death. He was 34 years of age and leaves a father and two brothers, Melvin, of the Tuckett Tobacco Agency, and Harry, first mate on the steamer Strathcona. His father and brother, who are sailing on the great lakes, are being communicated with and the interment will take place as soon as they arrive home.

CITY MISSION.

Methodist Representatives Discuss Foreign Problem.

The City Mission Board of the Methodist Church held a special meeting yesterday afternoon at 4 o'clock in Centenary Church. Rev. W. J. Smith, chairman of the district, presided. There were present Revs. Dr. Smith, Dr. Tovey, Dr. Williamson, Rev. H. G. Livingston, Rev. E. B. Lancelotti, Rev. H. B. Christie, Rev. I. Couch, Rev. A. H. Going and Rev. S. C. Applethorpe. Most of the churches were represented by the newly appointed laymen from the Quarterly Boards, Mr. Harker, the secretary, filling the position he formerly occupied in the old city mission board.

The question of opening city mission work among the Italians was the only business discussed. Mr. Ernest Taylor, who has been doing this work gratuitously as he had opportunity, explained the present conditions. A committee was appointed, consisting of Rev. H. G. Livingston, Mr. Yeates and Mr. E. Taylor, to secure options on proper rooms and find out the cost for such a mission and report one week hence to an adjourned meeting.

FOR BREACH OF PROMISE.

West Flamboro Man Being Sued by Father's Housekeeper.

Writ Issued Against the Universal Signal Company.

Boundary Line Case Against the Tungsden Lamp Company.

This morning H. D. Petrie, acting for Ada E. Smith, issued a writ against William M. Shaver for unstated damages for breach of promise. The plaintiff was employed as housekeeper at the home of the defendant's father, a well-to-do farmer, in West Flamboro. During the time she was engaged there the defendant was working for his father and boarded there. He became acquainted with the plaintiff and the two were frequently together. Plaintiff claims that defendant promised to marry her and now that there seems no likelihood of him doing so, has entered action against him. Defendant left for the Northwest Territory in one of the recent harvest excursions, but is supposed to have returned. It is thought that he is at present residing in the neighborhood of the city. If the defendant can be located in time the case will be tried in November and will be interesting.

FOR RETURN OF \$500.

Stewart McPhee, through his counsel, Chisholm, Logie & McQueen, issued a writ against the Universal Signal Company, Limited. His claim is for a return of \$500 paid for the defendant and a promissory note for a small amount given to the defendant for the purchase of 200 shares of stock in the defendant company, for which certificates were issued in the name of the plaintiff, and for the cancellation of the same, and of the subscription of the plaintiff, the same plaintiff alleges, having been obtained from him by fraud, and for the declaration that the subscription is null and produces no obligation, and for a rescission of the contract to purchase and an order striking off the plaintiff's name on the books of the Company as a shareholder.

BOUNDARY LINE CASE.

A writ has been issued by Chisholm, Logie & McQueen, acting for Miriam Martin against the Canadian Tungsden Lamp Co., Limited, to recover possession of the eastern fifteen inches of land fronting on Cannon street, owned and occupied by plaintiff on which the defendants have recently erected a wall, and for the cancellation of the same, and for the declaration that the subscription is null and produces no obligation, and for a rescission of the contract to purchase and an order striking off the plaintiff's name on the books of the Company as a shareholder.

HOME WEDDING

Marriage of Mr. Hanlan Robinson and Miss Moore.

A very pretty wedding took place this afternoon at 3.30, when Isabella Margaret, second daughter of John H. and Mrs. Moore, 6 West avenue north, was united in the holy bonds of matrimony to Mr. Hanlan Robinson, son of Mr. John Robinson, residing in the city. The bride entered the room leaning on the arm of her father and was given away by him. The ceremony was performed under a wishbone of pink and white carnations by Dr. Lyle. The bride was gowned in white duchess satin princess, with seed pearls and lace trimmings. She carried white roses and lilies of the valley. Miss May G. Moore, sister of the bride, played the wedding march. After the wedding breakfast had been served the happy young couple received the best wishes of their many friends. They leave on the evening train for Montreal and other eastern points. The bride's going away gown is of taupe, with black beaver hat to match. Among the numerous and beautiful presents were: A parlor cabinet from the staff of R. McKay & Co. and a silver tureen from the Golden Rod Club.

TO DETROIT.

Body of Late E. E. Fisher Sent There To-day.

The funeral service of the late Elstner Fisher was held at his late residence, Park street south, at 3 o'clock this afternoon, and was conducted by the Rev. W. H. Wade. Among the many visitors present to pay their last respects were John N. Beckley, President, and representatives from every department of the T. H. & B. Railway. There were also many members of the various societies with which he was identified. Two brothers and two sisters survive Mr. Fisher, instead of one of each as was reported yesterday. The brothers are: Reynolds Fisher, of Chicago, and William Wright Fisher, of Los Angeles, Cal. The sisters are Mrs. D. T. Mo Douglas and Mrs. (Dr.) S. M. Mosgrove, of Urbana, Ohio, who arrived in this city this morning. The remains will leave for Detroit to-morrow morning where the interment will take place.

PROTEST MEETINGS.

Rome, Oct. 14.—Indignation meetings are being held throughout Italy to-day in consequence of yesterday's events at Barcelona. In this city the protest against the execution of Ferrer has brought business almost to a standstill. Workmen generally have abandoned their employment. No street cars are being operated and cabs and automobiles remain at their stations with no one to take them out.

A French Patent Pipe.

The Well pipe has a chamber in the stem to intercept the nicotine and will always smoke cool, dry and clean. They are sold for 25 cents at peace's pipe store, 107 King street east.

The Man in Overalls

Don't forget to blanket your horse.

Oh! we will have fine weather yet. Has the City Engineer any ideas as to how best get the sidewalks clear of ice and snow in winter?

The boys are preparing for Halloween. So are the police.

Is there any place where girls can learn domestic science in the evening? Wise people are now buying their Christmas presents and salting them down till the holiday.

A man walked into the Times office yesterday and said to me, "That stuff you are putting in the papers about the market is all rot. There is plenty of room in the market. Why do these farmers come in the night before? To get ahead of their neighbors. What right have they to drive their wagons up in front of the merchants' doors on MacNab street on a Friday afternoon when there is plenty of room on the square? Why do they sleep in stable lofts? Because they are too mean to pay for a bed." Asked to put it in black and white, he declared that he doesn't put excursions, but is supposed to have returned. It is thought that he is at present residing in the neighborhood of the city. If the defendant can be located in time the case will be tried in November and will be interesting.

Wonder who is writing those Jas. Dunlop letters to the newspapers.

That man who has been sentenced to go without a drink for two years should think of the money he will save in that time.

But, then, were the girls off the street, the men would be harmless for evil.

I thought John Patterson's cars would be running through Dundurn Park long ere now. But if John wants a little more time before beginning active operations, bless his heart, he can have it.

The wonderful thing of this recrudescence is that the Kinrade jury has not yet broken the silence. They can't be all dead already.

Mr. Sealey is acting the part of the farmers' friend. But it is hard to place Mr. Dunlop. Is he down on the farmers?

You don't need to get nervous about the fall wheat. The cold don't hurt it.

Don't be too ready to judge. We seldom know the circumstances. We are not all born alike, nor are we all situated alike. One man may have a sunny disposition. He can't help it. Another may have the misfortune to look on the gloomy side of things. He can't help it. Sometimes he tries hard to overcome his falling. Sometimes he succeeds, but often he fails. With some life is one long struggle with adversity. Some fall because of their virtues, while others get there because of their lack of them.

The Times did not need to publish a second edition on Tuesday with the Bedford confession. It had it in its first edition. Likewise it was the first paper to bulletin the news on Monday afternoon.

The Twentieth Century Club, I see, has wakened up again. More complaints from the neighbors, I suppose.

For the moment the question of selling icecream on Sunday has settled itself. No one hungry for a plate.

THE PARIS RIOT.

Paris, Oct. 14.—The police records show that one policeman was killed and 76 persons wounded during last night's rioting. Among those arrested were five notorious anarchists. The press with the exception of the royalist and clerical element continue to-day to express indignation over the execution of Ferrer and to predict that grave events will follow in Spain.

The Socialists are planning further demonstrations throughout the country. During last night students in the Latin quarter burned King Alfonso in effigy. Count De Castellane advised Marquis Del Muni, the Spanish ambassador in France, to bring suit against the papers which have insulted King Alfonso.

CHIEF RATE CLERK.

The many friends in this city of Mr. George Mitchell, formerly of the T. H. & B. Railway office staff, will be glad to know that he has been appointed chief rate clerk, in the office of the General Freight Agent of the C. P. R. at Winnipeg. Mr. Mitchell deserves success and his new position is likely to be a stepping stone to the attainment of a fuller measure of it. Mr. and Mrs. Mitchell have secured comfortable quarters in the residential section of Winnipeg.

FOR TALMIA'S RELEASE.

An effort will be made to secure the liberty of Lorenzo Talmia, of Lynden, who was recently sentenced by the Magistrate to six months' imprisonment for aggravated assault, and T. B. McQueen is taking the necessary steps to secure his release. The claim is that the prisoner was rushed away from his home in Lynden without his family knowing it, tried and sentenced.

DISLIKE THE PUBLICITY.

C. Montrose Wright and Bride May Soon Leave Calgary.

Had Hoped to Pursue Study of Law In Quietness.

Reporters Have Trailed Family Wherever They Went.

Shirking from the glaring white searchlight of publicity, which throughout the Kinrade mystery was focused on his wife, the sister of the murdered girl, Clair Montrose Wright, former divinity student, and at present a law student in Calgary, may change his plans for the future as a result of the notoriety received through the story told in London by Edward Bedford, whose confession that he is the slayer of Ethel Kinrade, is generally discredited. So announces a despatch from the west. It says:

Miss Florence Kinrade, is thinking of leaving Calgary, owing to the notoriety they have received here through the confession of Bedford in London. Today Mr. Wright refused to permit reporters to see his wife. He said: "I have been bothered with scores of telegrams from papers and persons in all parts of Canada since Bedford made his confession, but I have answered none of them. I came here hoping to find Calgary a place in which I could live quietly, and I have been pestered to death since Bedford made his confession, and it became known that my wife and I are here. We have not discussed the confession ourselves, and you will have to be satisfied with the telegraphic despatches."

Reporters have been a constant source of annoyance to Mr. Wright and his bride ever since the murder. They haunted the vicinity of the Kinrade home on Herkimer street for days after the shooting, seeking interviews. They trailed the family when it went to Toronto to be the inquest, seeking sections. When the coroner's investigation was over and the Kinrades and Montrose Wright slipped quietly away to try and live down the notoriety of the tragedy, they were discovered almost as soon as they landed in Montreal and the presence of all eyes there. One paper, when it knew the family was there, assigned a dozen reporters to hunt them up. At Quebec, Vermont and all along the line reporters were looking for them. They got to Boston before they shook the newspaper sleuths-off, and that was the last officially known of the Kinrades until the announcement of the marriage at New York of Florence and Montrose Wright was made public some months ago.

Mr. and Mrs. Kinrade and the other members of the family returned to Hamilton a few weeks ago and speculation was rife as to where Mr. Wright and his wife were until Bedford told his story. It is doubtful if more than half a dozen people in Hamilton knew they were in Calgary.

STOOD FIRST.

Hamilton Boy Wins the Honors at Kingston Rifle Matches.

(Special Despatch to the Times.) Kingston, Ont., Oct. 14.—W. A. Newman, a Hamilton boy in attendance at Queen's University, performed a notable feat here yesterday when he won a silver trophy and a \$5 cash prize for making the highest score in the open rifle meet for this vicinity. Ninety-three marksmen, many of them old-time crack shots, competed, making Newman's feat all the more remarkable, particularly as he was classed as a green shooter. During the contest he blew wind, snow and rain across the ranges, making accurate shooting impossible. Newman scored 57 points out of a possible 75. Capt. Blair, R. M. C., was second; Cadet McVeity, third; A. Bertram, another western student, fourth, and Cadet Arnold, fifth.

H. J. HALFORD.

Hamilton Man Elected to Office in International Union.

(Special Despatch to the Times.) Milwaukee, Wis., Oct. 14.—The Journeymen Barbers' International Union, which has just closed its session here, elected H. J. Halford, of Hamilton, Ont., fourth vice-president.

Mr. Halford, who has thus been honored, is the John street barber, and is one of the best known labor men in Hamilton. He has been president of the Trades and Labor Council, an officer of the Barbers' Union, and has represented his various bodies at a number of labor conventions.

NOT WELL ENOUGH TO ATTEND

The preliminary hearing of the charge against Alex. Power was to have taken place at Dundas this morning, but the doctors who are attending Steve Nusleum refused to allow him to attend, stating that he had not recovered sufficiently to be able to stand the ordeal. The date for the hearing was not settled upon. Nusleum, it will be remembered, was struck with an axe some days ago and very seriously injured.

MAY ACT YET.

Attorney General's Department Appealed to in Fenton Case.

It is possible that the Attorney-General's Department in Toronto may be induced to take steps to bring here Frank Fenton, from Washington, D. C., to answer a charge of theft. Mayor McLaren wrote to Hon. John S. Hendrie yesterday, asking him to use his influence in the case. When spoken to this morning, his Worship contended that because the theft occurred on a race track it should not be ignored, and that didn't minimize its seriousness.

FOREIGNERS SENT BACK.

Had Tickets to Detroit, But Were Going to Toronto.

Early yesterday morning the G. T. R. station constable received a wire from Chief Immigration Officer Wilcox at Niagara Falls, to detain ten foreigners who were on a certain train booked to Detroit. It was believed they were destined for some Canadian point, and the Detroit tickets were to throw the authorities off the scent. Immediately on receipt of the telegram the G. T. R. officials phoned to the police for assistance in case of a disturbance.

Budimir Protich's services were requested, and he, in company with a posse of police, in charge of Sgt. Knox, drove to the Stuart street station to meet the train.

There were enough when the train arrived to see the ten Hungarians, and all had tickets from Buffalo to Detroit. After a deal of explanation they were persuaded to leave the train and step into the waiting police vehicle, little thinking where they would be landed. They were taken to No. 3 Police Station, and kept there till 7 o'clock last evening, when they were taken to Stuart street station and sent back to Buffalo on the 7.30 train.

Yesterday an immigration officer from the Falls called on Chief Smith and explained that the ten men were engaged to work on the Grand Trunk Pacific Railway, and were bound for Toronto, instead of Detroit, and the tickets were for that place merely to throw the authorities off the scent. The immigration authorities believe the practice of sending foreign laborers into this country a done by agents in Buffalo and Toronto.

A BAD SPOT.

Car's Trolley Equipment Fell at King and James Streets.

A serious accident was narrowly averted last night when a trolley pole of a James street car became tangled in the wires at the corner of King and James streets. The whole base of the trolley was ripped from the top of the car, and after turning a few somersaults in the air alighted within a few inches of Inspector Coffee. It caused quite a dent in the tar blocks, which started to blaze, and made quite a display. The car was taken to the sheds by a King street east car.

An incident of a similar nature occurred about a month ago, when P. C. Reynolds narrowly escaped being hurt.

WM. BIRRELL

Campaigning on Behalf of Volunteer Firemen.

(Special Despatch to the Times.) St. Catharines, Ont., Oct. 14.—Wm. Birrell, of Hamilton, was in the city last evening, seeking to revive interest in the work of the Provincial Volunteer Firemen's Association, of which he is President, with a view to obtaining the support of the local fire department, and those in surrounding places, for the legislation which will be asked for by the Association at the next session of the Legislature. Mr. Birrell will also visit Welland and Thorold and Niagara Falls before returning home.

CRANE'S RECALL.

Peking, Oct. 14.—The Japanese Legation to-day laid before the Chinese Government, and also gave to the native and foreign press, the explanation of United States Secretary of State Knox for the recall of Charles R. Crane, Minister designate to China. The incident impresses the Government as unfortunate, and has revived the feeling among the Chinese officials that the only hope of national security rests in the co-operation of the powers.

STEAMER AGROUND.

Amherstburg, Ont., Oct. 14.—The steamer Christopher, down bound, went aground near Bar Point yesterday about 5 p. m., and was released by Hackett's tug early this morning when the water came up. She sustained no damage. All delayed vessels are going through Lime Kiln Crossing, the water having risen.

FELL FOUR STOREYS.

(Special Despatch to the Times.) London, Ont., Oct. 14.—Richard McCullough, aged 16, was probably fatally injured at noon by falling four storeys down the elevator shaft at McCormick's biscuit works. He had only started to work there yesterday, and not being familiar with the shop, backed into the elevator shaft.

MUST PAY BANK.

Toronto, Ont., Oct. 14.—By a judgment of the official referee in the Ontario Bank case given this morning, the shareholders of that defunct institution must pay the Bank of Montreal's claim of \$1,481,972. In his judgment Mr. Kapelle points out that the directors by making illegal purchases of the bank's own stock had materially reduced the bank's capital.

PERJURY CASE IS DROPPED.

Mrs. Roach Stood Loyal to Her Husband.

Mrs. Pendlebury Minus Horse as Result of Trade.

A Number of City By-law Cases Up This Morning.

Adjourned indefinitely in the case in which Richard Roach, 8 1/2 John street north, was charged with perjury. That was the decision handed out this morning in police court, and it means that the case is dropped.

It will be remembered that Roach was arrested for alleged swearing falsely to his wife's age or by getting her to swear a false affidavit. Some time ago Roach decided to take unto himself a wife. Annie Markle was the consenting and happy party of the second part. The accusation against him was that she was over 18 years of age, and her parents claimed she was under. She is 19 years of age next birthday, according to her own statement.

M. J. O'Reilly, K. C., for the defence, had learned many details of the case—so had the magistrate.

Wife regrets not the step she has taken, for she is happy and is loved and loves her hubby, for he is good to her. She affirmed all the foregoing. Rev. Canon Wade was on hand and other witnesses to say many good things for Roach, if necessary, but it wasn't.

The young wife said it was parental interference that caused the trouble. After Roach was let go there was a pretty scene in the witness' room, and when it was convenient Canon Wade shook the hands of the reunited pair, and pronounced a benediction on them for their future happiness.

Fred Scott didn't steal the horse. So said the magistrate, therefore he was once more allowed at liberty. He was accused of stealing Mrs. Pendlebury's horse. She said Fred Simmons drove her express wagon and arranged the trading of her horse.

Simmons said Scott wanted to trade, and he declined. He told a long story of the deal, but it was accepted. Rev. Canon Wade was on hand and other witnesses to say many good things for Roach, if necessary, but it wasn't.

Meanwhile Mrs. Pendlebury is moping her horse, and the chances of ever getting it are gone, for it is dead. There'll likely be further developments.

John Lawlor, Barton, comes to this city frequently, and each time he comes his libations are many. He is old, small and decrepit. Yesterday he lay on the sidewalk on King street east, and inhaled several ladies. P. C. Duffy received complaints, and when he went to gather John in the latter's ire was aroused, and he endeavored to plant his knuckles on the officer's olfactory organ. It cost John \$5.

Every vestige of womanly gracefulness has long left Sarah Finn. The cause? Too devout worship of Bacchus. Sarah was in a deplorable state yesterday. Her night's incarceration cost her \$2.

W. A. Gilmour, 429 James street north, did not ill-treat his horse, according to the Magistrate's contention. The case was dismissed.

H. Rossmor, 174 York street, peddled rags without a license, which is a breach of the city by-law, and John Brick is in the employ of the city to enforce due recognition of the said by-law. It was owing to his efforts that Rossmor stood in front of the throne and paid \$5.

"Why didn't you send your boy to school, Michael Maloney?" asked His Worship. "He's had eczema all summer." Truancy Officer Hunter said the boy was never in better health, and is without spot or blemish on him.

If there are any reports made about the boy in question during the coming week, the Magistrate infers that Maloney will lose that boy a time or two. It may also be assumed that the lad is carrying a sore anatomy just now; that is, if his father carried out the threat he made in court.

William Nevills, sen., 123 Park street north, was up yesterday, pleading for one of his sons, who was up for vagrancy. This morning he was pleading for another son, who has shown vagrant tendencies by staying away from school. "Do you want to lose that boy?" asked the dispenser.

"Oh, no." The father evidently had not thought of that, and the paternal love manifested itself. The father said it was all his fault, as the mother's word counted for naught, and he (the father) had taken the boy with him to work for a week.

Katharine's Sacrifice

Barbara misread her silence; she was afraid she had, perhaps, gone a trifle too far, and all at once she determined to bring things to a climax. Rising suddenly, she went across to Lady Blanche's chair and knelt beside the elder woman with what passed muster for a pretty assumption of girlish modesty.

sleep well, my dear, and dream of the happiness in the future! Lady Blanche might have modified her cheerfulness if she had known the real truth, that Barbara Mostyn had humiliated herself so far as to offer her hand and her fortune to Ormande, Lord Otway, and had received a cold, courteous refusal, a refusal in which contempt and astonishment mingled to a large degree.

NERVY DOCTOR. In the Air Surgeon Sets Man's Broken Leg. Surgical Operation Performed at a Dizzy Height.

New York, Oct. 13.—One of the highest bone setting operations on record was performed yesterday at a dizzy altitude in the skeleton of a sky-scraper, with housemiths as assistants, and observing fowls of the air at witnesses. William J. Wade, a youth of 25, who was at the eighth floor articulating the ribs of a new building at the northeast corner of Fourth avenue and Twenty-seventh street, was stopped at his work by the swinging of a steel beam.

PERHAPS A BOMB. A Mysterious Explosion in an Ingersoll Barroom.

Ingersoll, Oct. 13.—There were no developments today that would tend to solve the mystery in connection with the explosion at the Kirwin House last evening, which carried away part of the thumb and two fingers of the left hand of James A. Buchanan and seriously injured his right eye. At first it was thought that Mr. Buchanan had been injured by a "loaded" cigar, sometimes used as a practical joke. The cigar which Mr. Buchanan was about to light when the explosion occurred was picked up intact.

USED AXE. Jury in Gouin Trial at North Bay Disagree. Spanelli to Hang Next Month For Murder of Chinese Waiter.

North Bay, Oct. 13.—The case of Saul Gouin, charged with the murder of Carrie Russell, otherwise known as Mary E. Smith, occupied the attention of the High Court all day before Judge Riddell. Twenty-two jurymen were challenged before a panel was secured. The chief witness, Ethel Crawford, told the story of how on the 12th of November, 1908, she was living in a shack near Cobalt, where the prisoner came with a friend, ostensibly to see about some work needed in repairing the house.

SIX MEN PERISH. VESSEL DASHED SHORE ON PELEE ISLAND. Fire Drove Eight to Boat—took Chance of Death by Drowning—Boat Capsized and Captain and Five Sailors Met Death.

Windsor, Ont., Oct. 13.—In the destruction of the steamer George Stone, of Cleveland, which went ashore at Point Pelee, Ont., in Lake Erie, early this morning, and the loss of six of her crew, was enacted one of the most thrilling marine tragedies in the history of Lake Erie. Believing that rescue could not possibly reach them in time, and with their ill-fated craft pounding out her heart on the jagged reef, and fire spreading over the vessel, Capt. Payne Howell and seven of his crew entered the ship's yawl and were swept out into a literal maelstrom a moment later. Before she had gone more than a hundred yards the yawl capsized, and six of the occupants were swept into eternity. The other two were picked up by the life-saving crew from Bar Point in an almost unconscious condition an hour later.

ONTARIO POLICE

Inspector Rogers Named as Officer in Charge.

Other Central Appointments Announced by Government.

Superintendent of Provincial Police-Inspector Joseph E. Rogers.

Senior Inspector of Criminal Investigation-Inspector Wm. Greer.

Inspector for the Northern Division-Chief George Goldbeck, of Cobalt.

Inspector for the Southern Division-Chief Wm. H. Mains.

Toronto, Oct. 14.-The foregoing appointments in connection with the reorganization and consolidation of the Provincial police force, upon which the Government has been engaged for some time, were officially announced yesterday.

In making the announcement, Hon. J. J. Foy, the Attorney-General, said it was the desire to install some systematic method in the administration of justice throughout the Province, operated from a central and judicial authority.

"At present," the Minister said, "the member for the riding undertakes to say when a policeman is necessary. This is neither right nor wise, and it is proposed to put the work on a business-like basis. At the present time the department is deluged with applications for policemen. The new force will do work for all the departments of Government. The members will co-operate in the enforcement of the license and game laws."

Inspector J. E. Rogers, the new head of the force, was appointed to the service of the Province by Sir Oliver Mowat, the then Attorney-General and Premier, in 1884. He was a retired captain in the 35th battalion. During his long period of service he has dealt with many big cases and is deemed an expert on extradition. Among the celebrated cases of which he had charge were the conviction of "Clutch" Donohue, international crook, at Fort Erie; the capture of the Sarnia dynamites; the Day murder at Niagara; the Smith's Falls and Melancthon fire bugs; the Brighton and Lambton conspirators, and the Tibury murder. He has also been instrumental in securing acts for licensing and controlling circuses, prohibiting gambling on fair grounds, regulating travelling shows, the enforcement of the act respecting Provincial coroners at fire inquests, the act respecting moving picture shows, and private detectives, and inaugurating the system of raising tramps throughout the Province. Mr. Rogers enters upon his new duties forthwith.

A BANDIT'S SUICIDE.

Man Robbed Bank, Then Shot Himself When Cornered.

Chicago, Oct. 13.-One bandit killed himself by shooting in order to avoid capture to-day after robbing the bank of S. D. H. Erskine & Company, in Highland Park, and another was captured after an exciting chase by scores of men, who fired revolvers at him repeatedly. Many shots were exchanged between the two bandits and the police.

The bandits drove up to the bank in an automobile. One of them remained in the car while the other entered the bank. As he stepped through the door the robber drew two revolvers, and advancing to the cashier's desk, ordered everybody in the place to hold up their hands.

Joseph Richards, the paying teller, was the first to comply with the order. J. C. Duffy, the cashier, and Miss Nellie Fitzgerald, bookkeeper, followed suit. "Now, don't any one of you move, or I'll blow your heads off," ordered the robber. "Give me all the money you have," was his order to Richards. Richards explained that most of the funds had been placed in the vault and that the door of the vault had been locked. He pushed out a sum of money that lay on his desk.

Instantly the bandit seized it and turned and backed into the street, keeping all three covered with his revolvers. He sprang into the automobile and his confederate immediately started the machine off at full speed. An alarm had been sent to the police by some customers who had witnessed the robbery.

A dozen armed citizens and policemen ran up to the bank just after the auto started away. The pursuers fired many shots at the robbers and their fire was returned. One of the men finally threw up his hands and surrendered.

His more desperate companion, however, continued his flight until he saw escape was hopeless. Then he placed a revolver to his head and shot himself, dying instantly.

FOR MISSIONS.

Appropriations Made by Methodist Board.

Ottawa, Oct. 13.-The Methodist General Mission Board concluded this afternoon the business of the annual meeting. The appropriation for the ensuing year, as finally agreed upon, total \$634,100, divided as follows: Home Missions, \$246,003; Indian Missions, \$113,904; Chinese work in British Columbia, \$3,015; Japanese work in British Columbia, \$3,769; missions in Japan

THE HAMILTON TIMES

THURSDAY, OCT. 14, 1909.

AGAINST THE GAG.

The attacks of the junior local Tory organ upon Lieutenant-Governor Gibson for his speech at the opening of the Guelph waterworks, because he very frankly and reasonably expressed his dissent from the views of those left-headed fanatics who would subvert the good of the people to universal public ownership and operation of public utilities do not meet with the approval of the Colonist, the Conservative organ of Victoria, B. C. The Colonist avows its opinion that "apart from matters of immediate public concern, there is a wide range of subjects upon which it is wholly right that lieutenant-governors should express their views, if they feel like doing so."

The complaint voiced in a letter published in another column that a man lacking the legal qualifications has been appointed engineer of the Normal School, where more than 200 young teachers are in training, is a very serious one, and one that should be looked into. We take it that the law was intended to be observed, and that it was passed in the interest of security to life and property. Surely the case of a school like this is one in which safety should be made the first desideratum. Our correspondent states that many qualified men were applicants; among them were many Tory workers. Surely, it ought to have been possible for the Tory bosses to have selected a man whose qualifications came up to the standard, which the Government insists shall be possessed by those in charge of private plants. This is a matter to which the Stationary Engineers' Society should give some attention. One thing, at least, is very clear, if there is a call at all for requiring certificates guaranteeing training and experience of their holders before they are allowed to operate a steam plant, owing to the importance of securing safety to life and property—and the Government by its legislation says there is—then the appointment of a man lacking these qualifications in the case of the Normal School is exceedingly improper. And this without reference to the wrong done to the qualified engineers.

The householder is keeping an eye on the aldermen who are dealing with the water rates. Spot the men who vote to continue the injustice. A good deal of this talk about "girls walking King and James street" is beside the mark. Every girl has a right to walk in the street undisturbed by police importunities, unless she is doing wrong. And that fact should not be lost sight of. It would be very poor policy, and against the interests of sanitation, to increase the cost of water for closets; it should be decreased. If the rates were equalized all the water charges against the householder would be reduced. He is not asking favors; only justice.

The difficulty with the Lloyd-George budget as it now stands is the fact that it is so complicated as to defy comprehension.—Mail and Empire. The Lords seem to understand it pretty well, however, hence their great eagerness to defeat a measure which puts a fair share of taxation upon the land-owning classes.

How would it do, Mr. Beck, to send the Hydromania of the Herald down to reason those selfish Welland farmers out of the notion that the Hydro-Electric Commission should pay for the right of way across their farms? He could doubtless convince them that it was very wicked to thus "place obstacles" in the way of the scheme. Fighting is still going on in the Hydro-Electric line right of way in Welland, the unreasonable owners of land contending that the Commission should buy the right to use the property before entering on it and building the line, and should consider their rights in the case. How selfish some people are! How it must pain the generous soul of Adam Beck!

In the organization of the Provincial police Inspector Joseph E. Rogers has been appointed chief officer. Mr. Rogers has had 25 years' experience in the Provincial service, and is pretty well known throughout the country. It is to be hoped that he will be able to introduce many much needed improvements in Ontario detective methods.

An interesting case has arisen out of a suit for damages for injuries sustained in a wreck on the C. P. R. by a man who was on his way west in charge of a cargo of horses. His claim for compensation for damages is resisted on the ground that he was travelling on a pass, it being the custom of the road to furnish transportation to the caretakers of these shipments. The outcome of the case will be watched with much interest.

The execution of Professor Ferrer, the Barcelona anarchist, is, of course, violently denounced in many quarters. We are not disposed, however, to accept all the statements made regarding the trial at its face value. Perhaps the fact that the anarchists resorted to threats of assassinating the King unless Ferrer was allowed to escape had much to do with preventing the exercise of the prerogative of mercy. Indeed, mercy seems to be wasted on the anarchist plotters. We shall at least do well to withhold condemnation of the forces of law and order in this case, until we find that they have made a blunder.

Alice Stone Blackwell, a United States suffragist, complains bitterly that the British authorities treat the hoodlum suffragettes as criminals and not as political prisoners. Alice's complaint stamps her as entirely unfit to shine in her country's government. The smashing of windows, and mobbing of public men are not recognized as peaceful promotion of a political cause. Does Alice think she should be privileged to run President Taft down Pennsylvania avenue from the Capitol to the White House, pelting him with bricks and brandishing a hatchet, while the United States people applauded her peaceful political tactics?

China is not so slow. She is going to order some naval equipment in the United States, and she will borrow \$20,000,000 to pay the bill. It appears to be her intention to place orders with other nations on similar conditions. This way of "raising the wind" not only overcomes a condition of chronic hardship, but it makes these nations interested in preserving the integrity of China.

But why should the Toronto Telegram seek to represent the reference of a Provincial law to the courts to determine its constitutionality, as an act of federal tyranny? Why should any Provincial Premier set himself up as being superior to the courts of justice? If the Telegram had any reputation for the exercise of common sense, such absurd squealing would be likely to destroy it.

We are very glad to note that no person except Mr. James Dunlop has raised his voice to deny the need of increased market accommodation; and even his antagonism appears to be more to the men who point out the need than to seeking a remedy. That is hopeful. When the people appreciate the situation, and feel that Hamilton is losing by its callousness toward our market patrons to whom the city owes so much, we may reasonably hope that a remedy will be found at no distant date. It is an important matter for Hamilton.

It was stated at the International Health Congress recently that the British Poor Law Commission showed that "much of the three to four million pounds a year spent on outdoor relief was a subsidy to unsanitary, disorderly, or even vicious habits of life." Repeated attacks of delirium tremens were treated, but no effort was made to enforce sobriety. The children of "soak-ers" were fed and clothed, but aside from an odd fine for drunkenness, the parent's wages were left to him to indulge his appetite for drink, the public bearing the cost of all help given the family. It appears to be a badly managed business.

Dr. Cook's reply to Peary's statement as to why he doubts that Cook was at the Pole is not a very impressive one. Its principal features are an assertion that the Eskimoes were instructed not to tell Peary the truth about his (Cook's) success—a very peculiar yarn—and this further statement: "I will not enter into an argument about the matter, but I will bring the Eskimoes to New York at my own expense, and they will prove, as did Mr. Whitney, all that I have claimed. Now, as Whitney confessedly knows no more than Cook told him, this story is pitifully weak. Meantime, Cook is raking in the money, and whether he is honest of faking becoming a rich man.

At Winnipeg yesterday Earl Grey took occasion to refer to the objections heard in some quarters to his discussing public affairs. There is, of course, a proper limit which occupants of the vice-regal chair should not exceed; but we think that it would be matter for regret if a governor, or lieutenant-governor, were to be precluded from non-contentious discussion of public matters affecting the success of the people who have chosen him for his high office. We may not always agree with Earl Grey's views, but we would not support those who would apply the gag, as long as he does not enter faction fights.

Some of our Tory contemporaries have exhibited a great desire to retire Hon. L. P. Brodeur from the Ministry of Marine and Fisheries and have diligently circulated the rumor that he would resign his portfolio to go on the Quebec Bench. Hon. Mr. Brodeur has given excellent satisfaction as Minister of Marine and Fisheries; his success in that position probably accounts for Tory eagerness to retire him. The Times has at an excellent authority that Hon. Mr. Brodeur is not contemplating retirement; there is much important work now to be undertaken by his department, and Canada will profit by his ability and experience which has already stood her in good stead.

Alice Stone Blackwell, a United States suffragist, complains bitterly that the British authorities treat the hoodlum suffragettes as criminals and not as political prisoners. Alice's complaint stamps her as entirely unfit to shine in her country's government. The smashing of windows, and mobbing of public men are not recognized as peaceful promotion of a political cause. Does Alice think she should be privileged to run President Taft down Pennsylvania avenue from the Capitol to the White House, pelting him with bricks and brandishing a hatchet, while the United States people applauded her peaceful political tactics?

China is not so slow. She is going to order some naval equipment in the United States, and she will borrow \$20,000,000 to pay the bill. It appears to be her intention to place orders with other nations on similar conditions. This way of "raising the wind" not only overcomes a condition of chronic hardship, but it makes these nations interested in preserving the integrity of China.

But why should the Toronto Telegram seek to represent the reference of a Provincial law to the courts to determine its constitutionality, as an act of federal tyranny? Why should any Provincial Premier set himself up as being superior to the courts of justice? If the Telegram had any reputation for the exercise of common sense, such absurd squealing would be likely to destroy it.

We are very glad to note that no person except Mr. James Dunlop has raised his voice to deny the need of increased market accommodation; and even his antagonism appears to be more to the men who point out the need than to seeking a remedy. That is hopeful. When the people appreciate the situation, and feel that Hamilton is losing by its callousness toward our market patrons to whom the city owes so much, we may reasonably hope that a remedy will be found at no distant date. It is an important matter for Hamilton.

It was stated at the International Health Congress recently that the British Poor Law Commission showed that "much of the three to four million pounds a year spent on outdoor relief was a subsidy to unsanitary, disorderly, or even vicious habits of life." Repeated attacks of delirium tremens were treated, but no effort was made to enforce sobriety. The children of "soak-ers" were fed and clothed, but aside from an odd fine for drunkenness, the parent's wages were left to him to indulge his appetite for drink, the public bearing the cost of all help given the family. It appears to be a badly managed business.

Dr. Cook's reply to Peary's statement as to why he doubts that Cook was at the Pole is not a very impressive one. Its principal features are an assertion that the Eskimoes were instructed not to tell Peary the truth about his (Cook's) success—a very peculiar yarn—and this further statement: "I will not enter into an argument about the matter, but I will bring the Eskimoes to New York at my own expense, and they will prove, as did Mr. Whitney, all that I have claimed. Now, as Whitney confessedly knows no more than Cook told him, this story is pitifully weak. Meantime, Cook is raking in the money, and whether he is honest of faking becoming a rich man.

At Winnipeg yesterday Earl Grey took occasion to refer to the objections heard in some quarters to his discussing public affairs. There is, of course, a proper limit which occupants of the vice-regal chair should not exceed; but we think that it would be matter for regret if a governor, or lieutenant-governor, were to be precluded from non-contentious discussion of public matters affecting the success of the people who have chosen him for his high office. THE WEAKER SEX. (Exchange.) Spinster—Nowadays men are the weak sex—they are all afraid to get married.

WHAT WE WANT. (Toronto Telegram.) Hamilton is not numbered among the Toronto suburbs that want water. It wants whiskey.

ONE OF THE SUMMER KIND. (Exchange.) He—And when do we get married? She—Oh, John, how can you take an engagement so seriously?

NOT LIKELY. (Toronto Star.) And if Edward W. Bedford is an imposter instead of a murderer, can we get the passage-money back?

WHERE'S JOHN? (Galt Reporter.) Has John Patterson, of Hamilton, taken an Airship for Somewhere? called Major, had spent almost

KNOWS HOW TO VOTE. (London Advertiser.) It is easy to laugh at Mrs. Pankhurst, but it is hard to deny that she could vote as intelligently as some specimens of the other sex.

MEAN. (Niagara Falls Record.) That it is hardly fair to say anything mean about the weather after the many fine days of fall we've had, but yesterday was—well, it was—mean!

AND DRINK ONLY TEE. (Boston Transcript.) Mrs. Meek—Sausages are so delicious. Have you ever tried that kind? Mrs. Cleek—Only once; my husband is such a golf fiend that he won't eat any kind but the links.

DRIVEN TO IT. (Louisville Courier-Journal.) "What have you there?" "A volume of Chaucer." "I didn't know you went in for that sort of thing."

TWAS EVER THUS. (Chicago News.) The nights were growing colder. "Well, an' a'right, old chap," said the Front Gate, "I'm off for my vacation." "Mine is just over," rejoined the Parlor Sofa, with a sigh, "and now I'll have to get busy again."

CANADA FOR CANADIANS. (Brantford Expositor.) "Patronize home industry" is the policy which the Laurier Government proposes to adopt in its naval construction programme. And it is manifestly a successful one.

COINING ANOTHER WORD. (St. Louis Times.) Willie—Pa, may I ask one more question? Pa—Well, what is it? Willie—If a man from Portugal is a Portuguese is his little boy a Portugaling?

OH, SHE WON'T HANG. (Toronto Telegram.) The execution of Mrs. Robinson would be a brutal outrage. The conviction of the unfortunate woman was no great triumph for Canadian justice. All the circumstances of the case are unique, and the clemency of the Crown ought to be exercised without delay.

BOYS AND THE FARM. (Winnipeg Free Press.) The farm has many compensations to offer its workers, but needs to pay more attention to the home-making department from the money-making department, and to systematize the hand-work by adding more head-work, in order to offer its sons and daughters a far more attractive career than the cities can hope to offer any but the brightest intellects among them.

THIS WOMAN Asks Wilkes-Barre Sheriff to Let Her See Him Hang Her Husband. Wilkes-Barre, Pa., Oct. 13.—Mary Nazarko, wife of Stanley Nazarko, who is to be hanged to-morrow, visited the county jail to-day in company with Michael Marrocoski, the man she is to marry after her husband is executed, and requested the sheriff that she be permitted to witness the hanging. The condemned man was willing that his wife, whom he deserted in Russia ten years ago, and the man who is to be her second husband, be present, but Sheriff Rodda said the law would not permit it.

Nazarko has left a will in which he bequeathed \$1,000 to his wife and her future husband. He is perfectly satisfied that the two should wed. Nazarko will be hanged for killing a woman with whom he lived in this country.

VALLEY CITY. Many Societies Re-organizing—Personal and Other News. Dundas, Oct. 14.—A false alarm from box 5 (the fire hall) at about 10 o'clock last night quickly brought the brigade out, but their services were not needed. Smoke escaping from the office of the Valley City Seating Co. caused the alarm. The smoke was caused by the lighting of a fire in a heater for the first time this season.

The sum of \$150 has been raised by the employees of Deolittle & Wilson for the benefit of Mrs. Albert Ayers, whose husband met with a fatal accident at the quarry on Saturday, Oct. 2.

Mrs. Wilson and G. C. Wilson, M. P. P. are in Toronto attending the marriage of her son, Dr. W. T. Wilson, superintendent of Cobourg Hospital for the insane.

Mr. Andrew Clark and Miss Clark arrived home from Glasgow, Scotland, on Tuesday, after a very pleasant time. Mr. Charles M. Foster has been laid up for the past couple of weeks, but is able to be around again.

T. J. Bell, formerly of the Dundas Standard—the predecessor of the Star—was in town yesterday, calling on former friends. He is now a member of the State Legislature of Washington and the manager of a prosperous newspaper business.

Among recent visitors in town were Mr. and Mrs. Arch. Morrison and Miss Lily Stewart, Markham; Chas. Harper, Harper's Corners; Andrew Mercer, Portland, Oregon.

Dundas was well represented, as usual, at the Rockton World's Fair yesterday.

AGAINST ZELAYA.

Thousands Flocking to the Army of the Revolution. New York, Oct. 14.—A special to the Times Democrat from Bluefields, Nicaragua, by wireless this morning says: The revolution headed by General Juan J. Estrada against President Zelaya has aroused the entire country and seems to be sweeping the republic. Thousands are reported to be flocking to the army of the revolutionists.

TOWED INTO HARBOR.

Cleveland, Ohio, Oct. 14.—After fighting desperately for over 24 hours against the gale prevailing on Lake Erie, the crew manning the pumps and signals of distress flying, the barge Chieftain, owned by James Davidson, of Bay City, Mich., was towed last night into the harbor at Fairport, Ohio, by tugs sent to her assistance. The barge, bound up with coal, parted from the steamer Shenandoah early yesterday.

When you go to light the furnace in the cellar it is hard to believe that where there is so much smoke there must be some fire.

One Price

Do you know that a business house that has but one price on its goods can sell for less and still give better value for the money than the competitor who sizes up his customer as to the amount he can pay and prices accordingly? The man with two or three prices up his sleeve has a bottom price, and his goods are made to fit the lowest price, and necessarily the goods are not worth the original asking price, and consequently his goods are inferior. Is not that so? Now, then, the man with one price is doing business with his customer in confidence; his goods must be worth the money he asks—and he cannot ask an excessive price—consequently the price quoted is his lowest the first time, and, furthermore, the one-priced man gets the business; his volume of trade is larger; he sells double and at half the expense. He also establishes a confidence in the buyer. Now, James Schutz, of Nos. 71 and 73 King street west, is a one-priced carriage man. Every rig he has in his establishment is marked in plain figures—and those figures are his lowest. This policy is entirely new in the carriage business, and isn't it welcome? Now, James has the finest line of vehicles for town, suburban and country use ever shown in this city—Stanhopes, Phaetons, Gigs, Road Wagons, Swell Horse Show Rigs; also Buggies for the farmer—good ones—and even the lower-priced ones are of the whalebone variety—and you would be surprised at the very moderate prices on the price tags—and it's because he does a one-price business.

KILLED BY THUGS.

Body of New York Man Found in Rear of Tenement-House. New York, Oct. 13.—Rayson M. Betts, auditor and accountant of a downtown real estate firm, died at Saint Vincent's Hospital to-night from injuries believed to have been inflicted by a thug. Betts, who was a widower, 61 years old, lived on Central Park West, in a fashionable part of the city, but he was found, early to-day, unconscious in the back yard of a tenement-house on Wooster street, in the downtown section. His skull was fractured and his body covered with bruises. The police believe that Betts, who was a thin, frail man, was attacked on the street or decamped into the hallway of the tenement and brutally beaten. His watch, a ring, and whatever money he might have had are missing. The police have no clue to his assailant.

WORLD'S FAIR AT ROCKTON.

One of the Best of Long Line of Good Shows.

Stock of All Sorts High Class, Especially Horses.

Excellent Racing and Sporting Events Enjoyed by All.

One of the best township fairs of the season, that of the Beverley Agricultural Society—the World's Fair—held annually at Rockton, closed yesterday, after two enjoyable and successful days.

Notwithstanding the unfavorable weather of the opening day, Tuesday, the entries in all departments arrived on time, and with one or two exceptions were as large as in previous years.

Wednesday, the second and last day of the fair, was the big day, and the village was well filled with visitors from surrounding places.

The regiments were dotted with booths of various kinds, and the constant calling of "two for five," and "every time you hit the doll you get a good cigar" men added to the excitement, and incidentally made the money pass freely.

This year's fair was remarkable for the large exhibit of horses. All the classes were well filled, and the judging was a hard job, but it was done to the satisfaction of all concerned.

The centre of attraction for farmers and stockmen were the entries of horses, and numerous prizes were carried off by C. Currie, who had an excellent showing of Tamworths.

Rockton upheld its reputation in the poultry line, the exhibits exceeding all expectations. C. A. R. Tilt had a large number of birds which were highly praised by the judges.

The entries in the vegetable exhibit were extra large this year, and included a choice lot of potatoes and numerous small vegetables.

A HORSE IN A LAUNDRY

New York.—A horse, attached to a laundry wagon, became frightened and made a wild dash up Broadway. Spying a sign with a shirt on it, the horse plunged into the laundry, and, riding itself of the wagon, landed with all four feet upon the lingerie and shirts that a dozen laundresses were sorting.

When the horse went through the door, the laundresses went out the windows amid a shower of hot irons, starch and blueing bottles. When the excitement was over, the horse was found calmly munching a bundle of laundry tickets.

It is "a horse of another color" when there is pain in the back, when the legs ache, when the stomach is upset and there is indication of kidney trouble.

"Fruit-a-tives," the famous fruit juice medicine, is giving wonderful results in all cases of weak and strained kidneys.

"Fruit-a-tives" act directly on the kidneys, relieving the inflammation, and at the same time regulating bowels, stomach and skin.

THE KILTIES.

Fine Turnout For Bad Night—The Sham Fight.

Last night was the Kilties' parade night, and despite the cold weather 366 of the Heelmen turned out. Instead of the regular outdoor parade the soldiers were drilled in the armory, and for over an hour Serjt. Major Gilmour instructed them in squad, company and regimental drill.

The parade state was as follows: Lieut. Colonel Bruce, Majors McLaren and Roberts, Capt. Bell, adjutant; Lieut. McEdward, surgeons; Capt. Somerville, quartermaster; Capt. Drummond, chaplain; A 20 B 27, C 34, D 25, G 29, H 34, Buglers 26, pipers 14, band 33, bearers 14, total 366.

FIRE SALE

Sale of Water-Soiled Shoes

The dictum has gone forth; This store must be cleaned of every pair of shoes—every single pair of shoes that stood on the shelves on the July evening of the fire.

There were shoes that did not suffer the slightest damage, but they have lost their reputation as new, fine shoes, for they were in fire company on that evening.

SO OUT THEY GO, some at HALF PRICE, and all at great reductions.

BANQUET AND ROLL CALL.

Successful Annual Event at Victoria Baptist Church. Victoria Avenue Baptist Church last night held its annual banquet and roll call in the Sunday school building.

The attendance was the largest in the history of the church, and the reports presented by the various secretaries and treasurers were most encouraging, showing progress all along the line.

The chairman then introduced the newly elected chairman of the Board of Management, Mr. W. E. Blandford, who in a few words expressed his appreciation of the honor that had been conferred upon him in electing him to such an important position.

After singing "Praise God From Whom All Blessings Flow," the meeting came to a close, all well pleased with the excellent time they had enjoyed, and the encouraging report received.

THE NORMAL SCHOOL.

Should an Unqualified Person be Engineer?

To the Editor of the Times: Dear Sir,—Some three or four weeks ago the engineer of the Normal School died. A few days after an announcement was made in the Herald that the principal of the Normal School had appointed a son of the deceased as engineer of the school.

During the past few days a meeting of a few of the faithful was held and presided over by President Milne, and during the discussion over this matter Mr. Milne said that owing to the appointment having been commented on by the Deputy Minister of Education for having the brass all shining and the dust all cleaned up, it would not be wise to interfere with this appointment.

AMUSEMENTS

DAVID COPPERFIELD. On Tuesday evening next, at the Grand, play-goers will be given an opportunity of witnessing Charles Dickens' masterpiece, "David Copperfield."

On Tuesday evening next, at the Grand, play-goers will be given an opportunity of witnessing Charles Dickens' masterpiece, "David Copperfield." Edward C. White has a carefully selected company, aided by a cast of scenery, showing Yarmouth harbor, Canterbury Cathedral, street scene in London, and the wharf landing at Gravesend.

Bernard Daly, in the Irish romance, "Sweet Innisfallen," will appear at the Grand on Thursday evening of next week. The play is produced on a more elaborate scale than Mr. Daly has yet been surrounded with, and as the scenes are laid among the hills and dales of the islands in the Lakes of Killarney, excellent opportunity is given the scenic artist. Mr. Daly has a number of songs that are sure to please all lovers of Irish ballads.

The keen interest being manifested this year by Conservatory students in the special classes in form, history, sight singing, theory and rudiments speaks much for the broadening influence of Conservatory work. Only in a large, thorough-going school can such branches, so necessary to the serious student, be given a proper performance.

Mr. W. F. M. S. has been in existence for thirty-three years, and has a membership of 29,000. The collection was \$82.76. Mrs. Russell and Mrs. Montgomery were made life members.

THE WOMAN IN THE CASE

Denies That She Had Improper Relations With Sir F. Borden.

Her Mother's Temper Drove Her From Home.

Sensational Time at Trial of Eye Opener Case.

Kentville, N. S., Oct. 13.—The Crown hurled a bombshell at the defence in the Carruthers criminal libel case today, when they produced in court Miss Hester Chalefour, the woman who it was alleged had been enticed away from her home in Ottawa by Sir Frederick Borden, Minister of Militia. She was brought here from Baltimore, and most emphatically denied that she was ever in intimate terms with Sir Frederick, or had ever received him at her apartments or elsewhere. He in no wise assisted her financially, and she denied everything that had been imputed against her. Miss Chalefour's entry into court produced quite a flurry, and her presence was unexpected by the defence, as they had no intimation of her being in town. Miss Chalefour, however, was the central figure in a sensational incident before she left the stand, and she started both the judge and jury by tearing up a photo of herself when it was handed to her for identification. She sent the fragments of cardboard flying through the court and cast a look of scorn upon Mr. Ritchie, who had been cross-examining her somewhat severely.

It was a case of daughter against mother, and the enmity shown was very great. Miss Chalefour is a daughter of Mrs. Allison, the star witness for the defence, by her first husband.

CARRUTHERS LOST HIS OFFICE.

Other interesting features of the day's evidence was the statement by Mrs. Allison that she wrote the letters that appeared in the Eye Opener, and the statement by the defendant Carruthers that he had large batches of Eye-Openers in his possession and had distributed them about at various times. He also admitted that he was not on friendly terms with Sir Frederick Borden, and that while he had held the Government office of postmaster and superintendent of the savings bank department there were financial irregularities in his office and that he lost his position.

At the opening of the question of the admissibility of the evidence was argued by Messrs. Ritchie and Roscoe, K. C.

Mr. Justice Drysdale said that he had found the rule to be the same in civil as in criminal cases. He would follow the civil procedure, and the admissions of Sir Frederick Borden would have to be proved in the regular way. That they would not be received in evidence from Mrs. Allison was the effect of his decision.

MRS. ALLISON'S STORY.

The first witness called by the defence was Mrs. Maria Allison, of Ottawa. She was examined by Mr. J. Ritchie, K. C., and said: "I have lived in Ottawa since 1866. I kept a boarding-house for seven years. Members of Parliament generally boarded with me, among whom were Senator Howland, Hon. A. R. Dickey, and Messrs. Richard, Barthier, Forbes, and Dr. Borden, M. P. Dr. Borden came there during the sessions of 1894, 1895 and 1896. With the exception of one year, I have been in the employ of the Government since 1867. My first husband's name was James Chalefour. I had two children by him, Hester, M., a daughter, and Ernest, a son. Hester was living with me. She left home on June 8, 1896, and went to Montreal. The general Dominion elections were held on June 23, 1896. Dr. Borden came back on the night of the celebration to Sir Wilfrid Laurier in Ottawa, about the 27th of June. He was in Ottawa on the night of the election. Dr. Borden went to Montreal nearly every week. A cab called at my house on the last Saturday in August, 1896. Dr. Borden was getting ready to go to Montreal. The train left at 4 p. m. He shook hands with me and got into the cab."

At attempt to introduce the conversation that took place then failed.

"I wrote the letters in the Eye Opener, and sent them."

Witness was then asked if they were true, and the court intervened with the statement that this woman could not be substituted for the jury.

"I have seen my daughter since she left home. I saw her last in Baltimore on the 14th of September last, and also saw her four times in Montreal. She returned to my house once since she left, remaining on Saturday night to Monday. About a week after I found a certain telegram. She had searched the whole house for it."

ANOTHER WOMAN IN THE CASE.

"There was another woman in Ottawa who lived near my place. She formerly lived on the same street. Hers was the name left blank in the Eye Opener letter. I have often seen Sir Frederick Borden driving with her in a cab and bringing her home late at night. Her husband kicked up an awful row in the street late the night I saw this woman going and returning. He went to this house frequently, and one time I saw him hiding in a pile of old boxes near the house. I saw him go in two or three times after her husband went out. I hired a secret service officer in Montreal. My daughter was then living at 862 Palace street; she was not working."

CROSS-EXAMINED.

Cross-examined by Mr. Roscoe: "I saw my daughter at 862 Palace street four times, the first time in February, 1898, staying two hours each time in the afternoon and the evening, and again the next day. I saw her again three weeks later. I saw her in the General Hospital a year after in 1899, in June of July."

Mrs. Allison here gave the name of a woman whom she alleged was separated from her husband.

"I am 64 years of age, my daughter 32, or 33, in 1896. I married Allison in 1871. He died in 1902 at the hospital in Ottawa. He went away in 1883. I don't know when he came back. I was not at his funeral. I was not interested. My son was in the insane hospital. He came out in 1896. He was home when my daughter went away. He never assaulted me."

Witness then acknowledged laying information against her son, for using

RANA RUSTY NAIL INTO HIS FINGER

USING Zam-Buk on a cut or scratch is insuring yourself against the danger of blood-poisoning, festering, or inflammation. As soon as you sustain an injury—a scratch from barbed wire, a cut, a burn, a bruise—put on a little Zam-Buk, and then don't worry! Zam-Buk kills the disease germs, which, entering wounds, set up festering, etc. Not only so, but Zam-Buk stimulates the cells to rapid action, and in this way builds up healthy skin very quickly; also, it eases pain and smarting. You have ease, insurance against blood-poisoning, and rapid healing—only Zam-Buk combines the three! Try it!

Mr. Alf. Hy. Orth, of Shipley (Ont.), says:—"While at work recently I had the misfortune to run a rusty wire nail under my thumb nail, to the depth of about one and a half inches. The pain was terrible, and what I feared was that the nail, being so dirty and rusty, would set up festering and blood-poisoning. I knew, from previous experience, how good Zam-Buk was, so I cleaned the wound, melted a little of the balm, and ran it into the wound. The result was wonderful. It soothed the pain, and the thumb actually did not swell. Zam-Buk kept away all inflammation. I was able to go on with my work all the time, and in a few days the thumb was as good as ever."

Zam-Buk cures cuts, burns, bruises, sprains, piles, festering sores, ulcers, scalds, blood-poisoning, eczema, varicose ulcers, pruritic skin eruptions, scabies, lice, itchy humors, and all other skin diseases. Rubbed well into the parts affected, it cures neuralgia, rheumatism, and sciatica. All Druggists and Stores sell at 50c. box, three for \$1.25, or post free from Zam-Buk Co., Toronto, for price.

indecent language to her, and for being a dangerous lunatic and annoying the household, all of which she said was true. Her daughter was away in 1879 with her aunt, Mrs. Graham, in Toronto. She never promised she would treat her better if she came home, and had never dragged her about by the hair or hit her.

AT MRS. ARCHAMBAULT'S.

At noon Mrs. Archambault, boarding house proprietress, Dorchester street, Montreal, took the stand. She kept a boarding house on St. Lawrence street thirteen years ago. Hester Chalefour had a room there. Sir Frederick had called at the house and told Mrs. Archambault he was Miss Chalefour's uncle. He had called on different occasions. One night she had heard conversation after midnight. She had requested Miss Chalefour to stop talking. Sir Frederick left next morning.

CIRCULATED THE EYE OPENER.

After lunch the first witness to the stand was defendant Carruthers. He was examined by Mr. Ritchie, and admitted that he had handed a copy of "The Eye Opener" to Mr. Pineo. There was a general election on at the time. Mr. Ritchie here made an attempt to draw certain evidence from the witness, which was objected to by Mr. Roscoe, and a lengthy argument by counsel followed. After Mr. Ritchie had finished his argument, Mr.

MINISTER OF MILITIA.

Roscoe quoted authorities to show that the private life and history of a member of Parliament cannot be inquired into, as it is not a matter of public interest. Mr. Justice Drysdale admitted the evidence. Mr. Carruthers then said at the time he believed that the letters had the ring of truth about them, and from his knowledge of Sir Frederick he thought that the stories were correct.

To Mr. Roscoe, witness said that he had not had any conversation with Sir Frederick for 13 or 14 years. He is not on good terms with the Minister. He was at one time postmaster at Kentville, but lost that position. Witness said he had not had differences with the Minister. He had trouble financially while holding the position of postmaster. There were irregularities in the Savings Bank Department, of which he had charge. The shortage, he said, had not been made good so far as he knew. None of his friends raised any money to make good the shortage in the savings bank. His friends did raise some money to assist him with the commercial bank. He said that he gave a mortgage at one time and gave instructions that the mortgage should not be recorded. He did not attribute any of his difficulties to Sir Frederick. He had not spoken to Sir Frederick in the past two years.

"How many Eye Openers did you have?" asked Mr. Roscoe.

"I cannot say how many copies I had. I was a subscriber to the paper. I had at least twenty or thirty copies. I gave them around to different people. I circulated them quite freely. So far as I know, no other person had copies of the paper."

"They didn't come through the mail. They were left at his shop. He did not know how they came there. He denied that he sent copies of The Eye Opener,

Cross-examined by Mr. Ritchie, she said that she first saw Mr. Wickwire in Baltimore about two weeks ago. He asked her to come to Kentville and give evidence. Witness said that she had no funds. Mr. Wickwire said that he would advance her money and he gave her \$75. With emphasis, witness said that she did not tell any person of the evidence she was to give. She never had any visits from Sir Frederick on any occasions.

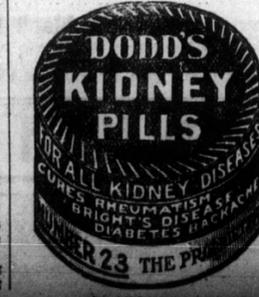

Witness identified letters written by her while in Jacksonville, Fla., to her mother. "Some of the contents of these letters," she said, "are false. I was crazy enough to write anything at that time. I had fever at the time. I lied to my mother."

Witness then struck the stand and said: "When I swore that the letters were mine I swore what was false. I did not mean it that way. I meant it as sarcasm."

"I hate to bother you so," said Mr. Ritchie, "but I have to get at these little things."

"Oh, don't you worry, sir, I will not," smilingly said the witness.

Mr. Ritchie then passed two letters to the witness, and asked if the handwriting was the same. The wit-

WHAT IS ANSWER?

"What Topic Can I Speak On?" Asks Earl Grey at Winnipeg.

Winnipeg, Man., Oct. 13.—Pointed, practical and patriotic was the speech of his Excellency the Governor-General before an enthusiastic audience at the Canadian Club today. He referred good naturedly to the criticism of the press for having at Calgary overstepped the constitutional limit by speaking on a public topic.

"What can I talk about then," he jokingly asked. "I must ask for your indulgence. I am in a somewhat embarrassing position. I have received warnings through the press that I must abstain from uttering even a whisper on any political subject, for fear that it may be misreported. Even if I do succeed in ordering my conversation aright I am warned that the ignorance of a stenographer may throw me down, and that therefore silence is golden. With these caveats ringing loudly in my ears what am I to do?"

"There is no subject affecting the well-being of Canada that is not political. If I refer to the causes of your well-being, if I urge you to have a vigilant regard to the sources of your national greatness, I shall be trespassing on forbidden grounds. Well, I must do the best I can and run my risk."

"For nearly five years I have endeavored in my public utterances to call the attention of the people to the importance of keeping before them high national and Imperial ideals. For nearly five years I have, quite conscious of my constitutional limitations, walked the tight rope of platitudinous generalities, and I am not aware of having made any serious slip."

It is probably the uncertainty of the future state that prompts women to cry at funerals and weddings.

"What inspired you to write that poem about falling dew?" asked the poet's wife. "Seeing the bills come in on the first of the month," replied the poet, sadly. "The surest way to shatter an idol is to marry it."

FRIENDLESS AND INFANTS.

Annual Meeting of the Home Held Yesterday.

Health of the Inmates Has Been Very Good

And the Past Year One of Satisfactory Progress.

At the annual meeting of the Home of the Friendless and Infants' Home yesterday a large number of the members attended and all of the reports presented showed a year of excellent work. Mrs. Evans presided and after the meeting had been opened by Archdeacon Forner called upon the secretary, Mrs. J. D. Ferguson, to read her report. She stated that the Home of the Friendless had reached its fourteenth year, and long experience and hard-earned discretion had produced the prosperous year just closed. During the year the friends of the Home had been very kind, and none more so than the medical staff, Doctors O'Reilly, Wickins, Carter, Dickson and Bauer. The general health of the Home was good, which was because of the close scrutiny by the doctors, before allowing admissions, the use of the new detention rooms and the unrelenting vigilance of the matrons. The clean milk supplied through the milk commission was of great help to the infants in the Home. During the past year 35 women, 48 boys and 39 girls, 112 in all, were cared for. Nine infants died during the year. The need of some suitable place for some of the feeble-minded inmates was felt. The treasurer's report, which was submitted by Mrs. Vallance, showed the receipts from various sources, including the balance of \$410.90, to have amounted to \$4,348.54, and the disbursements amounted to \$4,309.69, leaving a balance of \$38.85. Mr. Adam Brown, in moving that the reports be adopted, said the work of the Home was very worthy, and although there were many charitable institutions in the city, the Home of the Friendless was among the best. Mr. A. Turner seconded the adoption of the reports. Dr. O'Reilly and Dr. Wickins, members of the Medical Committee, gave short addresses, in which they explained the consistent campaign that had been carried on to keep the institution free from disease, and the results showed how successful their efforts had been. They also complimented the institution on the success in other branches during the year and expressed themselves pleased that the financial report showed a balance to start the work of the year. The officers elected were: Mrs. James Watson, Honorary President. Mrs. Robert Evans, President. Mrs. R. J. Husband, First Vice-President. Mrs. Herring, Second Vice-President. Mrs. R. A. Robertson, Third Vice-President. Mrs. Robt. Hobson, Fourth Vice-President. Mrs. W. C. Hawkins, Fifth Vice-President. Mrs. Geo. Vallance, Treasurer. Miss Hurd, Assistant Treasurer. Mrs. J. Randall, Corresponding Secretary. Mrs. J. D. Ferguson, Recording Secretary. Committee of Management—Mrs. C. S. Scott, Mrs. E. Watkins, Mrs. P. McCullough, Mrs. J. S. McCOMBES.

Celebrated Irish Evangelists Are Coming to Hamilton.

These are busy days among the workers of Barton Street Methodist Church. Preparations are being made for the special Gospel mission to be conducted by the celebrated Irish evangelists, the McCombes brothers, beginning next Sunday at 7 a. m. with a watch hour service. When the announcement was made some of the workers who were so famous workers would open a Gospel campaign in Central Methodist Church there was great delight and high expectation on the part of scores of Christian workers, who are desirous of assisting in an aggressive evangelistic campaign. Now that a change has been made and the same mission is transferred to Barton Street Church it is hoped that the same general interest and co-operation may be realized. It is believed by those who have their hands on the spiritual pulse that the city is in need of a great religious awakening. Pastor Livingston, of Barton Street Methodist Church, says that Christians ought to contest the ground in behalf of the kingdom of Christ just as a parliamentary candidate contests a riding for a seat in the House of Commons. Everybody should be personally interviewed. To this end 50 canvassers from his church have been making a parliamentary canvass of the constituency. The non-church goers have been carefully looked up and heartily invited to interest themselves in religious work. Large numbers of parents and children are going to attend no church or Sunday school. The reasons given for not attending are in some cases more interesting and suggestive and ought to be carefully considered by pastors and church workers. It is found that many people who have been formerly connected with some kind of church work, particularly in the old lands, are very slow to become identified with any church here. These ought to be made to feel that the Christian church is one under all skies, and that the brotherhood of man is not lost by crossing the seas. The pastor feels that his church is very fortunate in securing the services of the McCombe brothers, as they are looked upon as among the most successful evangelists of the day. They will be led by Mr. Chris. Pink, a splendid Gospel singer. All are invited to cooperate.

AEROPLANES SEIZED

For Alleged Infringement of the Wright Patents.

Paris, Oct. 13.—The Compagnie Generale de Navigation Aeriennne, which controls the patents of the Wright brothers so far as their exploitation in France is concerned, to-day caused a theoretical seizure to be effected of practically every biplane on exhibition at the aeronautic salon now in session here on the ground that certain details of their construction were infringements of the Wright patents. The seizure, which is known as "saisie descriptive," does not involve the physical possession of the aeroplanes in question or a restriction on their manufacture or sale, but is more in the nature of a formal notification that certain of their characteristic parts are considered patent infringements for which damages will be sought. The particular detail of construction upon which the claim of infringement is based is described as "any appliance used to vary the wind's resistance on one side or the other as modified by a vertical rudder."

A MODERN SOLOMON

How Magistrate Decided Ownership of Two Geese.

York, Pa., Oct. 13.—The ownership of two geese, the subject of a larceny suit before Alderman Jacob Stager here, was decided by the magistrate, who declared the fowls themselves had given the best evidence of which was their home. Charles Hake, of Newberry township, had missed two geese and found two like them a month later in a pen at the home of A. E. Witmer, Connewago township, a mile and a half away. A day after a writ of recovery was served the geese appeared mysteriously in Hake's yard, and he permitted them to run with his flock; soon afterward he was arrested on a warrant sworn out by Witmer, charging him with larceny. The facts that Witmer had to keep the geese in a pen to prevent them from leaving, and that if they went back to Hake they travelled a mile and a half to get there, were taken into consideration in discharging the defendant and permitting him to retain the fowls.

HOW MRS. CLARK FOUND RELIEF

AFTER YEARS OF SUFFERING DODD'S KIDNEY PILLS CURED HER.

Pleasant Point Matron Tells Her Suffering Sisters How to Be Free From the Terrible Pains That Make Life a Burden.

Pleasant Point, Ont., Oct. 13.—(Special)—That most of the ills that the suffering women of Canada have to bear are due to disordered kidneys, and that the natural cure for them is Dodd's Kidney Pills, is once more shown in the case of Mrs. Merril C. Clarke, a well known resident of this place and a prominent member of the Salvation Army. Mrs. Clarke is always ready to give her experience for the benefit of her suffering sisters. "My sickness commenced twenty years ago with the change of life," says Mrs. Clarke. "My health was in a bad state. Water would run from my head which would make me faint. When I came out of the fainting spells I took fits. I was bloated till I was clumsy. The pain I suffered was awful. It would go to my feet and then to my head. Many doctors attended me, and I tried many medicines, but nothing gave me relief till I used Dodd's Kidney Pills. The first box stopped the fits and seven boxes cured me completely."

Every suffering woman should use Dodd's Kidney Pills. They make strong, healthy kidneys, and the woman who has good kidneys is safeguarded against those terrible pains that make miserable the lives of so many women.

\$12,000 FOR HIS WIFE

Loses Her Affections and Sues a Fellow-Townsmen.

Orangeville, Oct. 13.—The case of Robert Kannawin, plaintiff, against W. J. Corbett, defendant, alleged alienation of wife's affections, was begun. Kannawin is asking \$12,000 damages. J. L. Island, K. C., and Robert McKay, K. C., are acting for plaintiff, and C. R. MacKeown, K. C., and Hartley Dewart, K. C., for Corbett. Kannawin, cross-examined by Dewart, swore he had been a carpenter, earning good wages, but is now butchering for less wage. He had never rebuked his wife for going with any one but Corbett. He had been away all of 1906-7, but learned while away that Corbett was trying to win her affections, and came home and found Corbett with her. She had been away in the fall of 1908 for days. On two occasions he had found letters under the carpet in her room. He read them and returned them. More came. Finally he collected them all and kept them. He had tried to reason with his wife, had gone to Welland with her to get a job, to be away from Orangeville, but his wife did not want to go away. Once he saw Corbett drive up to the back door and take Mrs. Kannawin for a drive. He, with Mr. Holden, had found Corbett and Mrs. Kannawin in the grand stand at Idlewild park one night last February. Witness had struck at Corbett and jumped on him, and had his wrist bitten. Mrs. Kannawin told him not to hurt "poor Billy." Witness afterwards ordered his wife from the house, but she replied that Corbett was not ready to take her, and that she would go when ready.

Witness saw his wife in Toronto last September, and went to an amusement resort with her. She wanted him to settle the suit, saying she thought Corbett would pay \$2,000.

ALL EUROPE INDIGNANT

Over the Execution of Prof. Ferrer at Barcelona.

King Alfonso's Life Threatened Because of Execution.

Ferrer Went Bravely to Death—His Daughter's Pluck.

Barcelona, Oct. 13.—Professor Francisco Ferrer, the Spanish educator and convicted revolutionist, was shot to-day at the fortress of Mont Juich, where he had been confined since his condemnation by court martial. He faced the firing squad without flinching and fell dead at the first volley. Ferrer, except for a momentary expression of emotion immediately preceding his death, retained his composure to the last. His attorney, K. M. Mallebran, who had defended the latter was led to the ditch where he was to die. To his attorney Ferrer spoke feelingly of the work for which he had sacrificed his life and of the future of his daughter, whose brave attempt to save his life touched the father more deeply than any other incident of his trial and conviction. On Ferrer's arrest, his family were left dependent upon his daughter, who at once secured employment in a biscuit factory. The daughter made a personal appeal to King Alfonso to spare her father's life. When these facts were related by Mallebran, Ferrer broke down. It was but a passing emotion, and presently the undaunted revolutionist was himself again.

Ferrer declined to receive the last sacraments and turned away from the two priests of the Order of Peace and Charity who had been sent by the prison authorities to offer him the final consolation of the Church. When the hour of his execution arrived, he walked bravely through the prison yard to the ditch in the shadow of the encircling wall. Without a quiver he faced the twelve infantrymen, who, at the word of command, fired a single shot. When the report of the volley had died away, Ferrer was dead upon the ground. Previous to the execution, precautions had been taken to forestall a possible attempt at rescue by doubling the sentinels upon the walls of the fortress. A FARCICAL TRIAL. Spanish Liberals, not including the Terrorists, but the most moderate wing, are preparing a proclamation to-day informing the country that all the evidence against Ferrer, on which the court-martial found him guilty, consisted of forgeries by the police. There was no evidence against Ferrer that would not have been acceptable in an ordinary court, the proclamation says. Socialists throughout France and a host of other friends and admirers had hoped to the last that King Alfonso would commute the death sentence, in view of the grave consequences that are likely to follow the execution. Not the least of these is the likelihood that attempts will be made on the life of the Spanish King, as revolutionists throughout all of Spain have vowed to be revenged on the King. The trial by court-martial of Ferrer is declared on all sides to have been a farcical proceeding, the condemned man having no opportunity to prove his innocence or to plead mitigating circumstances. "THE TOLSTOI OF SPAIN." London, Oct. 13.—"If Professor Ferrer, one of the noblest and most unselfish men in all Europe, and worthy to be called the Tolstoi of Spain, is murdered after a mock trial, the civilized world will suffer an unspeakable humiliation." This editorial expression in to-day's London News indicates the intense interest that Britain feels in the fate of Ferrer. The Government makes no attempt to conceal its fear that the execution of Ferrer will precipitate a Spanish revolution, and dark hints are heard that the trouble will not be confined to Spain alone. The outcry that went up all over Europe against the execution of Ferrer was not confined to the Radicals. It came from high circles as well as from the masses, and was voiced by Conservatives in official positions, as well as by the mobs of revolutionary tendencies. British sympathies were almost

wholly with Ferrer, and his execution is generally considered not only a crime, but a grave political blunder.

Yesterday a mob of twenty thousand persons shouted: "Down with Spain," "Death to the Pope," and "Death to Merry del Val." They were Ferrer sympathizers.

INDIGNATION IN FRANCE. Paris, Oct. 13.—The news of the execution of Ferrer at Barcelona created a tremendous sensation when printed here to-day. The newspapers issued extra editions with glaring headlines, some of them expressing the belief that King Alfonso had compromised his future by failing to intervene. Interviews printed show that many persons prominent in the scientific and political world are both indignant and pained at the day's events in Spain. A member of the institute said that he was stupefied at the execution, which he characterized as an act of political cannibalism.

WILL UNCHAIN A TEMPEST. Brussels, Oct. 13.—People, a socialist organ, announced the death of Ferrer in a special edition to-day. Editorially the paper states: "The awful news will unchain a tempest. We fear that in refusing to stop the execution, Alfonso has signed his own death warrant."

FEAR OF PAPAL INTERFERENCE. Rome, Oct. 13.—It is believed here that the execution of Ferrer at Barcelona was hastened by the fear that the Pope would intervene. According to this theory, the Spanish authorities wished to prevent their sovereign being placed in a position where he might have to grant or refuse a papal request for pardon.

The execution of Francisco Ferrer has caused a profound impression here, and to-night there was a serious demonstration of protest against the action of the Spanish Government. The police and troops succeeded in maintaining comparative order and prevented the approach of the demonstrators to the square where the Spanish Embassy stands. It is reported that a few days ago Ferrer's daughter telegraphed to the Pope from Paris, asking his intervention to save her father's life. The Pontiff was deeply moved, and exclaimed: "Poor child; if I could succeed in softening the grief of her afflicted soul it would be a great consolation for me."

DEAD ON GRAVE.

Startling Discovery in a Markham Cemetery.

Markham, Oct. 13.—The autopsy on the man found dead in St. Andrew's Presbyterian Church burial ground last Friday afternoon revealed the fact that death was due to acute pneumonia. On Friday afternoon some visitors from Toronto went to the cemetery to see the graves of some relatives. The visitors were startled to find a man lying on one of the graves apparently dead. The police were notified and a doctor called. When the latter arrived he said the man had been dead for some time. Investigation led to the identification of the man as John Watson, a man about sixty years of age, who had been employed in the woolen mills for a few days, but who left on Thursday, explaining that he was unwell. He was not seen on Friday after breakfast until the body was found as stated. Watson, who was employed in and around Malvern and Agincourt for the last twenty years or so, said he came from Aberdeen, Scotland, but beyond this he never talked much about himself or his relatives. He hardly ever wrote a letter, and was never known to receive one, but curiously enough a letter arrived to-day from Scotland for him, and this letter will be opened by the coroner at the inquest. A careful search of the effects of deceased by the authorities has failed so far to reveal anything about the man, although he often told intimate friends that he made a practice of saving \$100 per year.

SEARCH ABANDONED.

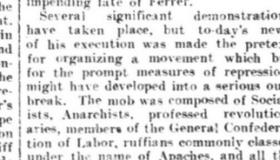

Police Give Up Chase After Wright Post Office Robbers.

Ottawa, Oct. 13.—The Dominion police and special constables, who have been searching the country north of Ottawa during the past two days for the fugitive safe-blowers who robbed the Wright post office last week, have been recalled, and for the present at least the desperadoes have made good their escape.

PLUG BLEW OUT.

Arthur Ouellette, a Bellboy, Killed in a Montreal Hotel.

Montreal, Oct. 13.—A boiler explosion occurred in the Turkish Bath Hotel this afternoon, killing a bellboy named Arthur Ouellette and seriously injuring Charles Binks, a hotel fireman. A plug in the boiler blew out with a terrific report. Curiously enough the damage to the building is almost nothing. It is practically confined to the woodwork in the boiler-room and damages by water to a number of articles which were in the cellar at the time. The fires had just been started for the winter and the firemen were cleaning the furnaces when the explosion occurred. An investigation will be held.

Boy Killed by Potato Digger.

Strathroy, Oct. 13.—Morgan, the six-year-old son of Mr. Frank Pierce, was playing around a potato digger standing in the field, with the team attached, while the men were picking up potatoes. The horses started forward, throwing the victim against the machinery, a sharp prong of which penetrated the stomach. He died an hour afterwards.

thousand soldiers and policemen had been placed on guard at the Spanish Embassy in the Boulevard de Courcelles. At the Place de l'Opera the Spanish colors were displayed during the day draped in black. Members of the Socialist organizations and the General Confederation of Labor resolved to boycott Spanish ships and merchandise at all French ports. At 9 o'clock the gathering storm was assuming an ugly aspect. The vast multitude in the Boulevard de Courcelles near the Park de Monceau was suddenly charged by the municipal guard.

TURNED BURGLAR.

Girl Wanted to Gain Possession of Black Pearl Rosary.

Trenton, N. J., Oct. 13.—Fourteen-year-old Elizabeth Seabright, who risked her life to gain possession of a black pearl rosary, was held in \$100 bail to answer to the charge of grand larceny before the Mercer County grand jury. The exploit was carried out in the true burglar style. The girl desired the rosary, which she had seen in the house next to her own. No thought of the tenth commandment entered her mind. It was easy to step from the second-story window of her bedroom to the roof common to the additions of both houses. Once on the roof, she stealthily crossed it and pried open the window of the neighbor. In that room was the coveted rosary. Its black pearls beckoned her. She went into the room occupied by an aged person and took the emblem of religion. The prayers which had been said over the beads did not stop her. She quietly made her way back to her own room, but was seen, and those eyes were the means of her undoing. The matter was reported to the police, and the girl was arrested with the rosary under her pillow.

OWNERS OF LONDON

187 Persons and Organizations Own 60 Square Miles.

London, Oct. 12.—The London County Council has spent a decade in preparing a ground plan of London, showing the owners of the land. This is nearly completed. It shows that 34,800 landlords own land covering 113 square miles, these being mostly single house owners. Sixty square miles are owned by 187 persons, organizations and corporations. One-third of this area belongs to the Crown, the ecclesiastical commissioners, the County Council and the city corporation. It is estimated that the present value of the land on which London is built is \$3,000,000,000, which will be increased to \$3,175,000,000 by 1930. It is possible for a man to be dogmatic without caring especially for dogs.

"LIZ" MARRIOTT WAS OUT AT PRACTICE.

Star Outside Wing Man Showed Class in Following Up—Sale For Saturday's Argo-Tiger Game Opened Yesterday.

"Liz" Marriott was out in his padded togs last night and worked as hard as any of the boys to get into condition for the game on Saturday with the Argonauts. Although hardly in the best of shape Liz followed up well and with a couple of weeks' practice should be able to put up as good as game as ever. He is enthusiastic and it is not likely that he will have much difficulty in making the outside wing position. The Tigers will hold their final practice this afternoon in preparation for the game on Saturday, and they should not have much trouble in trimming the Argos. Joe Wright said last night that his team would spring a surprise in the game here and intimated that several important changes had been made on the blue and white line up. No doubt the Argos will have a much stronger team as they have had a chance to find out their weak spots and a week in which to strengthen them. Pud Kent is turning out with them again. The reserved seat sale for Saturday's game opened yesterday, and as the demand for tickets has been brisk it is likely that a big crowd will be at the Cricket Grounds to see the game.

Yesterday afternoon and evening the yellow and white players were at the Cricket Grounds working out, and it is a safe bet there will be no weakening in the last ten minutes of Saturday's game.

The Ottawas are not going to take any chances of sustaining a defeat at the hands of Montreal next Saturday. This was shown very clearly yesterday, when the full senior team with the exception of Bert Stronach, who will not play in Montreal owing to the touchy condition of his knees, turned out to practice. Before much through one of the stiffest "skouts" they have had for some time. Johnstone was again at full back, where he will play on Saturday, and Stuart Christie occupied Stronach's place at left outside wing. Christie worked well with Convey.

A proposal has been made by several of the Ottawa executive for Dr. Nagle, president of the club, to play outside wing for the team. Dr. Nagle a few years ago was one of the foremost players of the time, and as he has kept up rowing with the O. R. C. he is in good condition. With him on the wing line to the right, the Ottawa team would be tremendously strong.

Yesterday practice of the Ottawas was interspersed by a vicious fight between one of the senior scrummers and an intermediate half-back. The pair got into an altercation during the heat of the workout, and the intermediate, while much smaller than the senior, is of sturdy build, and shot a haymaker over that caught the scrummer on the jaw. Before much damage was done the pair were separated only to clash again a minute later. In attempting to separate them someone held senior's arms and the half-back took advantage of the opportunity to plant him again. This was the cue to give both a free hand and for several seconds the two battered each other relentlessly. Clau-

dy and some of the club officers arrived on the scene at this stage and the battle was called off. The two were gory with blood before they were broken apart.

Pete Conway, the fast middle wing of the Ottawa College team, is at present in a very critical condition as the result of an injury received in the McGill-Ottawa game last Saturday. He was kicked in the head during a scrimmage and had to be carried off the field. For a while the injury was not thought to be serious, but after the game he became unconscious, and when his team-mates left for Ottawa his condition was so serious that it was impossible to move him. He was taken to the hospital on Sunday evening, however.

Ottawa, Oct. 14.—The Ottawa Football Club will take its longest team to Montreal for Saturday's match against the M. A. A. A. team. Coach Leach expects a very hard game. Stronach has recovered and was out at practice again yesterday. There will be one change on the line, Christie replacing Convey at outside wing.

Harvey Pulford and Billy Foran have been agreed upon as referee and umpire for the Queen's College game in the Intercollegiate. Pulford is a well known football official; but this will be the Stanley Cup trustee's first appearance on the gridiron since he played the game years ago. College have been practising hard and expect to win.

They do say that the Argo intermediates can beat the seniors, but there won't be many who will back the scullers to beat Dundas in Dundas on Saturday.

Argos are working their back field hard, catching practice being heaped on them in loads. With clean handling of the ball last Saturday the Oarsmen would have given the Montreal team a much harder battle.

Eddie Phillips, the flying wing of the all-Canadian team which toured England, will be used at outside left by the Rough Riders, Convey having failed to make good against Hamilton on Saturday.

Heuther will be on the wing line of the Argos for the game with Hamilton next Saturday.

Dr. Hendry and Harry Griffiths are the officials for the Montreal-Ottawa game next Saturday.

The officials have not yet been appointed for the Argo Hamilton game.

Coryell, the Argo captain, strained his back in last Saturday's game with Montreal.

At a meeting of the Senior City Rugby League last evening, it was decided that Dundas will play the Y. M. C. A. at a certain hour on Saturday to the big game, if arrangements can be made. The Alerts and junior Tigers will play at Britannia Park.

A meeting of the Junior City Rugby League executive will be held on Friday evening at 7.30 at 36 James street north. All teams must be weighed in before

Toronto, Oct. 14.—Officers were elected and a constitution and rules adopted at the first annual meeting of the Ontario Section of the C. A. A. U. at the King Edward Hotel last night. There were present: James G. Merrick, President of the C. A. A. U. in the chair; N. H. Crow, Secretary C. A. A. U.; Thos. Brownlee, Ontario Football Association; Dr. Barton and Mr. Hanley, "Varsity"; W. G. McClelland, "Armed Social Club"; E. H. A. Watson, "West End"; M. C. A.; Mr. Hardy, Central Y. M. C. COMMENT AND GOSSIP

Alexis Martin, formerly of this city, has been maintaining the fame of his old home as a cricket centre by his work at the coast during the past season. Playing for the Victoria Cricket Club he not only scored centuries two or three times, but headed the batting list of the club for the year.

On account of the Hamilton Jockey Club's autumn races, no runs have been held by the Hamilton Riding and Cross Country Club for the past two weeks. They will be resumed next Saturday afternoon, and the rendezvous will be at the Limestone Ridge at 2.45 o'clock.

A meeting of the Canadian Racing Association was held at Windsor yesterday. President Seagram was in the chair, and Judge Monck, of this city; Geo. M. Hendrie, of Windsor; J. H. Madigan, of Fort Erie, and Secretary W. P. Fraser attended the meeting. The rulings of the Hamilton stewards in the cases of Jockeys Walsh and Ross and Opper E. Talley were confirmed. Trainer Geo. H. Neal was fined \$50 for allowing the use of his name as the trainer of Montclair, when he was not actually in charge.

Alf. Shrubbs will arrive in Toronto to-day after a ten months' trip to the coast. He writes: "I am pleased to say that my leg is well again, but I intend to give it a month's complete rest. Then I shall be ready to start again. I expect lots of running around Toronto this fall."

"Liz" Marriott proved himself a faithful son of Swat by turning out to practice last night. Liz is in pretty good condition, and a couple of weeks' practice will put him in shape to play as good a game as ever.

There were a lot of Detroit fans looking for Wagner last night, claiming the mighty German had deceived their play-

ers. Wagner was hit in the ribs by Summers and fell to the ground screaming in what afterward proved to be mock agony. The crowd screamed its joy at finding Wagner had not been killed and the game was resumed with Wagner dropping like a broken lily at first.

With the first swing of Summers' arm, however, there shot from first a great streak of white. The throw of Schmidt was fast and true. But Wagner slid in. He stole third on the next pitch and came right on home when the throw of Schmidt, which was much late, went into the field also.

The mighty Wagner had a bad day in the field, making two errors in five chances. At the bat he made one hit in four times up, but reached first three times. Cobb made only one hit, a single, to left in the sixth.

It is now practically settled that all details for the heavyweight championship fight between Jim Jeffries and Jack Johnson will be clinched in Chicago. Johnson declared in "Frisco last night that he and his manager, George Little, would leave the coast next Sunday to fill an engagement at Kansas City the following week, and that Little would meet Jeffries and Sam Berger in Chicago to complete all details for the big fight.

That a big crowd of fight fans will witness the 20-round battle between Stanley Ketchel and Jack Johnson at Colma, Cal., next Saturday afternoon there is no longer any doubt. Jimmy Coffroth, the fight promoter of California who is staging the battle, announced in San Francisco last night that the advance sale of tickets so far amounted to \$11,000, and that as the orders were coming in fast for seats he expected the gross receipts to amount to nearly \$26,000. Both fighters are in excellent shape and will do no more boxing.

PIRATES TAKE THE FIFTH FROM DETROIT.

Summers Was Ineffective For the Tigers and Was Succeeded by Willett—Three Home Runs Were Made—Wagner Stole Second and Third.

PITTSBURG, OCT. 14.—Pittsburg took the lead in the battle for the world's baseball championship by defeating Detroit 8 to 4 in the fifth game of the series, at Forbes' Field yesterday. This gives the National League champions three victories to two for the winners of the American League pennant. The scene will shift to Detroit again to-day, where the sixth and possibly the last game of the series will be played. The commission yesterday decided that a seventh game, if it is needed, will be played in Detroit.

Gregory Herrmann flipped a coin, President B. Johnson of the American League won and chose Detroit.

Yesterday's game was played with the thermometer hovering between 35 and 40 degrees above zero. A chilly wind from the southwest swept across the field. Despite the untoward condition 21,705 persons saw the game and the receipts were \$32,173. Of this sum the National Commission receives \$3,217.30; each club owner \$14,477.85. The players no longer share in the receipts as the first four games is their limit. This makes the receipts for game games \$156,108 and the total attendance was 117,347. Each club owner has now received \$36,786.15, and the National Commission \$15,610.80.

SUMMERS IS WILD.

Davy Jones' home run gave Detroit a run in the first inning, but Pittsburg immediately tied the score, because Summers gave a base on balls with the bases full. A wild pitch by Summers allowed the second Pittsburg runner to reach first base, and another came in the third. The score remained 3 to 1 in Pittsburg's favor until the sixth, when Detroit bunched a single and a two-bagger and, aided by Wagner's costly bad throw, scored two runs. Then came Clark's home run in the seventh and gave the National Leaguers a commanding lead. Each team scored one more run in the eighth inning.

The mighty Wagner had a bad day in the field, making two errors in five chances. At the bat he made one hit in four times up, but reached first three times. Cobb made only one hit, a single, to left in the sixth. After getting three balls and two strikes, D. Jones hit ball into centre field stand for a home run. Bush walked, but Cobb fled to Leach. Crawford's home run accounted for three scores. Wagner was hit in the back, but as soon as he reached first base he forgot all about his pains and stole second, and then third, scoring on Schmidt's high throw.

Detroit scored in the eighth on Crawford's home run. Wilson opened Pittsburg's eighth with a double between D. Jones and Crawford, which the former lost in the sun. Wilson scored on Gibson's single to right. Leach's hit to left sent Miller's out, leaving the bases full. Miller's error, however, allowed Summers to score. Summers scored on a pass, and Byrne was forced across the plate. Wilson ended the inning by striking out.

HOME RUN GAVE PIRATES THREE

A home run by Manager Fred Clarke, which scored Byrne and Leach

in front of him, turned the tide of victory to Pittsburg in the seventh inning, after Detroit had tied the score at 3 to 3 by scoring two in the sixth.

Detroit had two home runs to its credit, but neither came with anyone on bases. D. Jones, the first man up in the first innings, hit the ball into the enclosure which had been built around the outfield for the overflow. Sam Crawford made the other Detroit home run in the eighth.

Crawford's home run nearly deprived Pittsburg of its services of the brilliant Tommy Leach. Leach gave chase to Crawford's long hit, and while running backwards at a good clip he struck the enclosure fence. The impact of his body smashed the boards and he shot over the low fence head first and turned a complete somersault. Presently, however, he returned to his place in the field, apparently none the worse for his spectacular mishap.

GIBSON SCORES ON WILD PITCH.

The winners added another to their total in the second. Gibson beat out a hit to Bush and Adams sacrificed, Summers to Delehanty. Delehanty made a wonderful one-handed scum of Byrne's fast boulder and threw him out to T. Jones, Gibson going to third. A wild pitch allowed Gibson to score. The Nationals added another one in the third. Clarke started by drawing a base on balls, and went to third on Wagner's neatly-placed hit to left. Miller's out, Bush to T. Jones, scored Clarke.

Detroit tied the score by landing two runs in the sixth inning. After Bush had struck out, Cobb singled to left and scored on Crawford's double to centre. Delehanty grounded to Wagner, who threw properly to Abstein, and Crawford scored while Delehanty continued to second. Moriarity fled to Clarke and Tom Jones popped an easy foul to Abstein.

Pittsburg broke the tie in the seventh. After Adams had struck out, Byrne singled to left, and went to third on Crawford's hit. Moriarity continued to second. Moriarity fled to Clarke and Tom Jones popped an easy foul to Abstein.

Pittsburg tied the score in its half of the first. Byrne hit to Bush and Leach laid a safe punt along the first base foul line. Clarke sacrificed both runners along, Stange to T. Jones. Wagner drew a pass and the bases were full. Miller struck out, but Abstein worked Summers for a pass, and Byrne was forced across the plate. Wilson ended the inning by striking out.

Boston Shut Out the New Yorkers.

Boston, Oct. 14.—The Boston American League team yesterday whitewashed the New York Nationals, the score being 2 to 0. Mathewson was on the mound and was touched up for eight hits, while a husky southpaw named Collins, who came down from the University of Vermont this spring and joined the locals, held the visitors to four safeties.

Speaker was again the star of the day. He made three of Boston's hits, scored the first run, and drove in the second and had four put outs, two of them coming in the ninth inning. His last catch was a beauty, made on the dead run, when Devlin seaked the ball in an endeavor to prevent a shutout.

HOW A FRAME-UP IS NEARLY IMPOSSIBLE.

Reasons Why the Detroit and Pittsburg Series for the World's Championship is Strickly on the Level.

You see and hear him everywhere. Who? The wisecracker, the know-it-all, the fellow who thinks he knows more than the thousands of baseball fans all over the world, who are following the Detroit-Pittsburg series with breathless interest. "Fixed!" "Framed up!" "playing as many games as possible so as to get all the money that's going." That's what he says, with a knowing wink that makes the man who believes in the honesty of baseball long to take a punch at the prober of the wise guy, whose ready cynicism makes one very doubtful as to his own code of morals.

THE FINANCIAL ARGUMENT.

The ball players on the two teams share only in the receipts of the first four games. Seventy-five per cent. of the total receipts in these four games is divided between the two teams in the proportion of 60 and 40 per cent. The receipts of the remaining games of a series, if any are necessary, are divided between the club owners and the National Commission. It is estimated that the amount to be divided between the two teams will be in the neighborhood of \$66,000.

This means that the players' winning club will receive about \$39,600, and the losers about \$26,400. Allowing 18 players to each team, the members of the winning team will each receive \$2,200 and the losers each \$1,466.

In the first place, since the players share only in the receipts of the first four games, there is no object for them to prolong the series beyond four games, and take the risk of receiving permanent injury which would deprive them of their livelihood.

Again, it is self-evident that no team would consent to allowing \$800 per man to depend on the result of one game—which would necessarily have to be the only honest game of the series.

Even supposing that one team is admittedly stronger than the other, and it agreed to drop two games, what is to hinder the other team giving them the double cross on the remaining games? Weaker teams often win in baseball, and crooks have no conscience.

Who would agree to make up to the players of the team that agreed to lose the series for the \$12,000 they agreed to lose by losing the series? But the wise guy will tell you that they agree to pool the total. What object would there be in any such agreement? The players of one team could make \$800 apiece more by winning, and they are not likely to lose sight of that fact. Another thing that would prevent anything of the pool nature is that the number of players on the two teams is not the same. Follow that out to its logical conclusion.

A GIGANTIC CONSPIRACY.

Now, just think of all the people that would have to be in the know, and who would have to keep their mouths closed tight about it, in order that the gullible thousands of ball fans would pay down their hard-earned dollars to see a series of fake ball games. Here is a little list:

The thirty-six or more players on both teams. The club owners and directors. The National Baseball Commission, whose business it is to look after the welfare of the sport, and to guard it from the least suspicion of dishonesty.

The hundreds of sporting writers from all over the country who attend the games, and upon whose articles in newspapers and attendance upon the games so largely depends. Suppose that there was one honest newspaper man, and we hope there are more than that, he would consider it his duty to expose the gigantic fraud to the public, and then it would be all off with the attendance. Then there are the thousands of fans who attend the games, who would have to be fooled. It is unthinkable that trickery could not be detected.

And perhaps the amount and direction of the betting wouldn't be an indication! Just think that out.

Speculators Fooled at Pittsburg.

Pittsburg, Oct. 14.—Overstocked with tickets, desperate and reckless in their anxiety to sell them, speculators peddled their bits of cardboard openly immediately prior to yesterday's game until 24 had been arrested by the police in the vicinity of Forbes Field. They had in their possession when arrested over 500 tickets. It is said prices tumbled rapidly until the covert sale conducted in downtown saloons and hotels during the morning was changed into an energetic solicitation of all possible buyers. It is also said as the game started tickets were offered at below cost, some grand stand seats selling as low as 75 cents. Operators are reported to have lost large sums. The men will be given a hearing to-day.

A. O. U. W. SUIT.

Charged With Publishing Matter Injurious to Order.

(Special Despatch to the Times.)

Toronto, Oct. 14.—The Grand Lodge of the Ancient Order of United Workmen began suit in the Jury Assizes before Justice Britton this morning to secure an injunction against J. C. Sheppard, of Kirkfield, Victoria County, to prevent him from publishing in newspapers throughout Canada statements derogatory to the Order. The claim is that assertions tending to injure the order were published in the Family Herald and Weekly Star, of Montreal, and in the Brantford Expositor. As a result of these, it is maintained, the Order has been injured in its credit, reputation and business.

Sheppard's defence is that being a member of the A.O.U.W. and having a benefit policy in it of \$2,000 he is greatly concerned in the benefit of the Order, and as it appeared that the membership of the Order was largely decreasing, he desired to have the matter brought to the attention of the other members.

SHOT BROTHER.

"You're a Hawk, I'm Going to Bring You Down."

Cuba, Oct. 14.—While the two sons of A. J. Counihan, of Clarksville, were playing in a barn, Irving, 12 years old, was accidentally shot by John, his younger brother, aged 11.

The father had been shooting at hawks and had let the shotgun load. While the older boy was climbing a rope, the younger shouted to his, "You're a hawk, I'm going to bring you down." The other replied, "Go ahead," and, not knowing the gun was loaded, the young lad aimed and pulled the trigger.

The charge entered the boy's arm and shoulder, tearing the muscles to shreds. Doctors Congdon and Leader, of Cuba, were summoned. The boy died a few hours later.

FIFTEEN LOST.

The Number of People Who Perished at Key West.

The Damage Done—Martial Law Still in Force.

Key West, Fla., Oct. 14.—Mrs. Pheme Thompson Pinner and her infant daughter died yesterday from injuries received during the storm.

This, with the loss of the crew of twelve of the tug Sybel, wrecked at Nahia Honda, and of Timekeeper Murphy, drowned at Marathon, brings the total death list to fifteen.

The British steamer Pleroma arrived here yesterday, bringing the crew of the schooner Florence R. Hewson, which was so badly wrecked by the storm that she was abandoned by her crew when she became waterlogged.

The schooner Hewson encountered the storm off Havana about 25 miles. Her decks were swept clean and her rigging carried away. Finally, when all hope of saving the vessel was gone, the crew embarked in small boats, managing to keep afloat until picked up by the Pleroma.

The Pleroma was anchored when she encountered the gale of Marquis. Two of her anchors were carried away, and she was otherwise damaged. Both crews escaped, but tell harrowing stories of hardships suffered.

Additional details from the Florida Keys tell of great damage to the Key West Electric Railroad. Martial law still prevails here, but it is reported that United States regulars will relieve the State militia, which has been patrolling the storm swept area.

Scores of workmen are kept working and day clearing the debris, and it is expected that by the end of the week most of the damage done to electric plant and telephone system will have been repaired. The large cigar factories too are making arrangements for temporary quarters, and hope to be in operation by the end of the week.
