Guelph Evening Mercury

FRIDAY EVENING, OCT. 16, 1874.

Town and County News

We are now in the midst of Indian summer, with its beautiful, dreamy, enjoyable days.

CHEAPER THAN EVER.—Josh Billing's Allminax for 1875, for sale at Anderson's bookstores. Price five cents.

SOCIETY.—The Orange Association of Guelph are making arrangements for a soiree to be held on the evening of Guy Fawkes Day, 5th November.

Mrs. HARDY.—On Thursday evening next, 22nd inst., in the Town Hall, Mrs. Hardy, who visited this town some months ago, will deliver a temperance lecture, under the auspices of the Temperance Societies of Guelph.

INCENDIARISM.—While Mr. Chadwick, a farmer in the township of Arthur, was absent in Guelph on Saturday, 10th inst., some evil disposed individual set fire to a stack of hay on his farm which was totally consumed.

CONCERT ORGAN.—Messrs. W. Bell & Co. have just finished a very fine toned organ, to be used at the Jennie Watson and Hardy concerts through Canada.

NEW COUNTY.—A meeting was held at Palmerston on Tuesday, for the purpose of considering the desirability of forming a new county, with Palmerston as county town.

RUNAWAY.—This forenoon a team belonging to Mr. Thomas Simpson, of Winterbourne, ran away from Kennedy's produce store.

NEW YORK, Oct. 16.—A London despatch says that the compensation paid England by the Madrid Government amounts to £75,000—£40,000 of which was paid on account of the Virginia betchery.

LEPINE'S TRIAL. The Lepine trial occupies the Court exclusively and public attention largely.

THE ICELANDIC IMMIGRANTS.—The 300 Icelanders who went to Kinnmount last week have all been comfortably housed, and are employed on the Victoria Railway.

LAND SALE AT FORT GARRY.—The Hudson Bay Co's land sale at Fort Garry has been very successful.

ATTEMPT TO BURN EMIGRANT SHEDS.—An attempt was made to burn the Government emigrant sheds at Lewis, near Quebec, on Wednesday morning.

A HANDSOME PRESENT.—Herr Zoellner, of Waterloo, was a few evenings ago the recipient of a handsome purse, containing \$100, as an acknowledgement by the Waterloo Ladies' Aid Society.

MEMBER NEAR MARMORA.—A dreadful murder was committed about two miles from Marmora on Wednesday night 14th inst.

RETURNED.—Mrs. Adam Robertson returned a few days ago from her trip to Scotland. She came in the Ethiopia, of the Anchor Line, which made the passage in eight days and twelve hours.

RECEIVED.—Mrs. Adam Robertson returned a few days ago from her trip to Scotland. She came in the Ethiopia, of the Anchor Line, which made the passage in eight days and twelve hours.

BY TELEGRAPH TO THE MERCURY

Conference of Powers.

Collision in British Channel

Eleven Lives Lost. The Jews to be Righted.

A Railroad Conference. The Virginus Betchery Again

England's Claim Paid. England Vetos the Spanish Government.

London, Oct. 16.—The Standard's Paris correspondent telegraphs that he hears that Austria and Italy propose a Conference of Powers to consider the Spanish note to France in the same manner as the Luxembourg question was treated.

The British ship Kingsbridge, from this port for Sidney, came in collision in the British Channel with the ship Candahar, and was sunk. Eleven of the crew of the Kingsbridge were drowned.

Hamburg, Oct. 15.—A London despatch states that England will withdraw its diplomatic representative from Rome.

Vienna, Oct. 16.—The Italian Consul at Bucharest has refused to open negotiations for a commercial treaty, while the Jews in Romania are deprived of their rights, and the American Consul, Mr. Peixotto, has taken the same stand.

Chicago, Oct. 15.—A Railroad Conference fixed cattle rates from Chicago to New York at 55 cents per cwt., and from Chicago to Buffalo and Pittsburgh pro rata at New York rates.

New York, Oct. 16.—A London despatch says that the compensation paid England by the Madrid Government amounts to £75,000—£40,000 of which was paid on account of the Virginia betchery.

England would not recognize the present Government until all claims are admitted.

LEPINE'S TRIAL. The Lepine trial occupies the Court exclusively and public attention largely.

THE ICELANDIC IMMIGRANTS.—The 300 Icelanders who went to Kinnmount last week have all been comfortably housed, and are employed on the Victoria Railway.

LAND SALE AT FORT GARRY.—The Hudson Bay Co's land sale at Fort Garry has been very successful.

ATTEMPT TO BURN EMIGRANT SHEDS.—An attempt was made to burn the Government emigrant sheds at Lewis, near Quebec, on Wednesday morning.

A HANDSOME PRESENT.—Herr Zoellner, of Waterloo, was a few evenings ago the recipient of a handsome purse, containing \$100, as an acknowledgement by the Waterloo Ladies' Aid Society.

MEMBER NEAR MARMORA.—A dreadful murder was committed about two miles from Marmora on Wednesday night 14th inst.

RETURNED.—Mrs. Adam Robertson returned a few days ago from her trip to Scotland. She came in the Ethiopia, of the Anchor Line, which made the passage in eight days and twelve hours.

WELLINGTON FALL ASSIZES.

Court House, Guelph, Oct. 15.

HOOD VS. GOV.—continued.

(We give the evidence in this case fuller than we had room for yesterday.)

Joseph Hobson, P.L.S., testified to having taken levels of the river near Hood's property in 1862. The observations extended from Gow's dam as far up as Evan Macdonald's house.

There was a fall in the water between these points, in the direction of the dam, of about three inches. In 1868 I found no appreciable fall in the water between Mr. Hood's property at the north-east point and Gow's bridge.

Am of opinion that the back water was caused by the dam. There was a current in the water near Macdonald's house in 1862; in 1868 the water was quite dead.

T. W. Cooper, P.L.S., said:—On the 4th October, 1873, when the lower dam was being repaired and the water was out of the pond, though it was flowing over the upper dam, with a fall of about a foot, I took the rise and fall of the surface of the water at the Dundas bridge.

At the head of the first bay the water was 3 feet 6 inches below a bench mark I made; at the second bay I made a mark even with the level of the river. On going on the 22nd November, 1873, I found 2 1/2 inches of water going over the lower dam, while at the Dundas Bridge the water had risen 12 1/2 inches, and at the second bay 10 1/2 inches.

I made another observation on the 18th April, 1874, and found nine inches of water flowing over the dam. At the Dundas bridge the water was raised 13 inches, at the bench mark 14 inches, and at the iron bar 15 1/2 inches.

There was a fall in the river when in its natural state from the second bay to the dam at that time of 2ft 3in. The effect of the dam is to raise the water along Mr. Hood's land to a height of 1ft. 8in., and thus prevent the drains from the side of his lands from carrying off the water from the land, and also to overflow the land in different places.

The rise in the water back of the dam is affected by the volume of water going over the dam. On the 3rd of September, 1874, the dam was composed of masonry 3ft. 3in. high, and of timber above that 10 inches high, and plank on the edge 6 inches.

Wm. Grain, P.L.S., corroborated the evidence given by Mr. Cooper. The effect of the dam would be to saturate portions of Mr. Hood's land. The old dam, nearer the Dundas Bridge, would assist the new one in doing this.

Both dams were down would reduce the volume of water near Mr. Hood's premises by one foot eight inches.

Cross-examined by Mr. Guthrie—I did not notice any other cause such as springs, in the land, to cause this rise on Mr. Hood's land. In September I found the premises all spongy and wet.

M. C. Schofield, P.L.S., testified that he had made a survey in 1855 on the property adjoining that in question, lying along the stream a little lower down. Early in 1872 he found the majority of the lots bordering on the river flooded with water.

The water got lower when the spring freshet abated, but during the summer the land was never free from water.

Cross-examined by Mr. Kerr—I think the survey in 1855 was in August or September. The land near the river was then covered with a thick cedar swamp.

In 1872 the cedar trees had been removed. George Hood, plaintiff, sworn—Have owned the property in question about 20 years, and lived on it 18 years.

The land is not now in the same condition as it was when I got it. I cleared most of it of the cedar and elms that grew on it.

Most of the elms are now dead. The river has increased in height, and damages my property by overflowing the land in some places, and in others, drains opened by me bring water on the land from the river instead of carrying it off.

I used to cultivate land which I am not able now to cultivate. I grew barley, potatoes, and timothy hay, which I cannot grow now because the land is saturated with water.

It is fifteen years since I opened the drains. There are springs on the land. The main spring was run into a creek, as well as the other drains. I made two underdrains, and also two surface drains to empty into these, but since the second dam has been built on the river these are entirely obliterated.

The water which used to come down the creek has not a free passage now and saturates the land through. When the drains were first dug they ran the water off freely. They were about two feet deep.

The creek is now filled up. It was a spring creek. When I bought the land there were a few loose stones across the river which turned the water into a race.

The water ran through these like a race. To these stones, were added pebbles, etc., and about 1860 Mr. Gow built a permanent dam a little below the old one.

Have offered to settle this matter with Mr. Gow if he would give me \$2,000. I was always willing to refer the matter to arbitrators, provided he would draw the water off. I own about twenty acres, I paid for it from \$100 to \$120 per acre, with some lots less than \$100.

If the land were clear of the water it is worth more now than when I bought it; as it is now, there are eighteen out of twenty-one acres directly affected by water, and the most of it is not worth the taxes. I have built a house on the land at a cost

of \$3,000. I get \$150 a year rent for it and the land. The land would rent, if it were dry, for \$75 or \$80 per acre as pasture.

I can tell that my land is affected by the water from the fact that the water will rise and fall during the days when the mill is working. On Sundays the water stands at a dead level near my land.

On Oct. 3rd I tested the matter in this way:—I went to the dam and found three-quarters of an inch of water running over it; then went to the Dundas bridge and made a mark level with the water on the west pier, then at the part of my land where the main drain runs into the river, I put in a stake; at the second bay I put a stake level with the water; at Victoria bridge, about two miles farther up, I made a water mark; I then went about forty yards above this bridge and put in a stake level with the water on Saturday. On Monday between seven and eight o'clock, while the mill was running, I found the water at the crest of the dam seven inches lower than on Saturday, and the same at all the other points.

The river is a dead level from my place for three miles up. The water is very deep in some places. I have made examinations every day since the 3rd, and found that the dam regulates the water at all the other points.

Cross-examined by Mr. Kerr—Mr. Tuck, my tenant, and Mr. Cooper, went with me at these examinations. Probably half the land cost \$100 an acre, and some cost \$125. There were only two or three lots at less than \$100.

Two years ago I left the house and Mr. Amos rented it at \$200 a year. Mr. Tuck now rents it at \$150. Do not think the dam of stones injured the land. When I went on it first it was affected by the spring freshets and all rains, but it would not be covered by them.

The land along the river from the bridge up to cedar swamp. It was boggy in the spring, but during the summer it was fit for pasture. There was a spring, but I do not think it flooded the land.

There is a spring now, caused in my opinion, by the choking of the drains mentioned. The water does not flow away, but saturates the land. There is also a pond on the table land, caused I think by the choking of the underdrains.

It was about 1860 that I made the main drain, and for about three years it drained the land well. In the spring of the year the water would never remain on the land up to the month of June. I cultivated this land for about seven years, till after the drain was made in 1860.

The low land is not now worth the taxes and has not been for the last thirteen years. The land has been more or less used every year for pasture land. The land is drier now than it has been these seven years, but this is a dry season.

Before Mr. Gow built the last dam, he said he would deepen the race, but he has not made this offer since. He has always been willing to arbitrate, but I wanted him to open the flood-gates, and he declined. There are now seven or eight acres of land actually covered by water from the dam.

Mr. Cameron.—There are patches here and there covered with water which amount in all to seven or eight acres. Mr. Gow at first used the water for a tannery and would not require so much as he does now for the oatmeal and woolen mills.

George Tuck said:—Went on Mr. Hood's farm in March last. The land all along the river was wet to a distance in some places of about two hundred yards. I would give twice as much for the land if it were as dry as what I now pay. Of the \$150 I now pay for rent, the land is worth about \$40. I pastured this year seven cows and three horses. Witness corroborated Mr. Hood's evidence in regard to the state of the water.

Barney O'Neil—About fourteen years ago I dug a drain for Mr. Hood from the river towards the house, and cleaned it out twice. It was about nineteen inches deep. Have seen the drain since. It would not serve as a drain now. It is choked with water.

Mr. Guthrie—There was water in the drain when I saw it a week ago last day. The water was in it for about ten days from the river. The drain would measure about nineteen inches below the level, except at a distance from the river, when it was made deeper, in order to drain a pond on the land.

James Millar—Rented Hood's land in 1857, and stayed till 1862. The drain referred to is now choked up now, that there is in fact no drain. On the forenoon of one day last week the water reached the land four feet from the bank of the river, but in the afternoon it had receded. The land now could not be ploughed—it is too soft.

Arthur McQuillan—On October, 1873, I saw the drain on Mr. Hood's land, and the water was running at it. About two weeks ago the river was up to the top of the water in the drain. Have known the Victoria Bridge since it was built. The water there now is fifteen or twenty inches higher than it was then. I notice this by the width of the river at that point.

Mr. Kerr—Cannot say that any change has been made in the bed of the river at the bridge. First remarked the rise in the river about ten years ago.

Robert Matthews—Have known the property in question 24 years. The Dundas bridge was built in 1850. Think the water at the bridge dam made in 1851. After the dam was built, got land adjoining Mr. Hood's, on the river, about fifteen years ago. The water has raised since that time about two feet. Saw Mr. Hood's land about 14 years ago. It was dry and easy of cultivation. It is now unfit for cultivation.

Mr. Kerr—Mr. Gow's first dam was made of loose stones. The river is both wider and deeper at the Dundas bridge than it was in 1850. It was then six inches deep, but now it is three feet eight inches deep. I sold my land to Hood about eight years ago for \$1 1/2. There were about two acres in it. When I bought my land the bank at the edge of the river was three feet high; now it is about 18 inches. Hood's land was so dry when I lived there first that it was dangerous to light a match for fear of fire.

Robert Crowe—Came to Guelph in 1832. Remember the building of the Dundas Bridge. Mr. Gow's second dam raised the water about two feet. Where the second dam was built the stones of the first dam could not be seen. Had difficulty in going up the river in boats before the dam was built, but not much afterwards, used to wade across the river, where the Dundas Bridge now stands, when it was built. The water was about six inches deep.

William Lawrence—Moved hay for Mr. Hood three or four years after the

drains were cut, about 15 years ago. The hay was good about four years ago. It cut the crop. Mr. Hood gave me the whole of it for the cutting. The hay was sour. The water in the river was higher at this time than at my previous engagement. If Mr. Gow's drains were removed it would make a difference. Have cleaned out the river for six or seven years, for boating parties. There was a stone near Evan Macdonald's which we raised to about two inches above water. At Evan Macdonald's I planted some potatoes and the crop turned out splendid. Don't think the ground could be cultivated now.

Francis Marriot—Remember when Gow's first dam was built, when the Dundas Bridge was built; have crossed the river dry-shod. At Wellington street there were two culverts made after the second dam was built, to keep the back water from overflowing the street.

William Pearson, mason, said; was employed by Mr. Gow about eleven years ago to build his present dam. It was lower down than the former one. There was no provision in the arrangements for backing water. The stone work at the new dam is not quite so high as on the old one. Since I built the new dam, there is a square timber fastened on top, and planks above it.

To Mr. Kerr—I got levels for the height of the dam, and instructions to provide for the addition of timbers above the masonry.

FRIDAY, OCT. 16. The case of Hood vs. Gow, was resumed this morning.

William Hower deposed:—Came to Guelph in 1874. The Dundas bridge was built about 1851. The south arch of the bridge used to be quite dry; now it is covered with water. Have seen under the bridge when the bed of the river was quite dry. Moved in May last to near Hood's property. It is now a great deal wetter than it used to be. Years ago I have crossed the river near Hood's by stepping on the stones; could not do that now. The hay crops grow then were good; now they are very poor. Remember Hood's drains; have seen water flowing quickly through them. They are now filled up.

To Mr. Kerr—Am not a judge of land. The open drain is blocked up from one end to the other. The back water fills it up. It was more than ten years ago that I saw the crop on Hood's land. There is water now on the land.

John Goggin—Worked for Mr. Hood about six years, about fifteen years ago. Finished the drain Barney O'Neil commenced. The drains then carried the water into the river. The other day we put a spade into the ground where the ditch was and found it mostly water. Helped to sow timothy seed one year, and it grew that year, but is no use since.

To Mr. Guthrie—The drain I dug was from two to three feet deep. Part of Hood's land is higher than the river. It is soaked with water, too.

Henry J. Sanders—Have lived near the Victoria bridge since 1832. The shoal near my place used to be almost dry; now the water is knee-deep. Cannot say whether this rise was sudden or gradual. The shoal has never been dredged out to my knowledge.

To Mr. Kerr—First noticed the rise in the water about fifteen years ago.

TO BE CONTINUED.

History of Guelph.

The Presbytery of Guelph in connection with the Canada Presbyterian Church, met in Elora on Tuesday, 13th Oct. After reading the minutes and taking down the sederunt, commissions were read from the three Kirk sessions to ruling elders to represent them in the Presbytery and their names were added to the roll. The Treasurer's books were referred to a committee for audit, who, after having duly examined them, reported, stating that the ordinary fund was overdrawn, and that there was a balance in hand on the account for the erection of the new church in North Luther.

The statistical reports of congregations were examined, and the Clerk was instructed to correspond with those in arrears for stipend, urging the payment of the same, and requesting to be informed what action had been taken by the next ordinary meeting. Attention having been directed to those which had sent in incomplete returns, the Moderators of the Kirk sessions of such, whether vacant or settled, were enjoined to see to it that full reports were made next year. The Report from the Committee on Sabbath School Conference was handed in and read by Mr. Bentley, Convener, and on motion was received. The programme of meetings were adopted, and the Committee re-appointed to carry out all necessary arrangements for holding the Conference. The Conference on the state of religion was postponed till next ordinary meeting, and a committee appointed to arrange for the same by preparing subjects for discussion and engaging speakers to introduce them at the meetings. An extract minute from the records of the Presbytery of Bruce was read, to the effect that Mr. A. G. Forbes, of Berris, and Kinloss had declined the call addressed to him by the congregation of West Fushinch. The Clerk reported the returns he had received from sessions and congregations to the Assembly's Remit on Union, fifteen sessions and fourteen congregations expressing themselves in favor of the same, and two sessions and one congregation proposing modification in the Basis or Resolutions. He was thereupon instructed to forward the same and any others he may receive in time to the Clerk of the Assembly. The

 FRIDAY EVEG, OCT. 16, 1874.

Centre Riding Reform Meeting.
 A meeting of delegates and members of the Centre Riding Reform Association was held at Ferguson on Thursday afternoon, for the purpose of considering what steps it would be advisable to take for the prosecution of the protest against Dr. Orton. Mr. Alex. Dyce, President of the Association, occupied the chair. The Treasurer of the Association presented his report, which showed a considerable amount on hand. After the matter had been thoroughly discussed, arrangements were made for providing the necessary funds. The greatest unanimity prevailed, and a strong desire was expressed by all present to carry out the protest to the utmost limit with spirit.

The writ for the North Kent election has been sent to Sheriff Morris. The nomination is to take place on the 26th inst.

It is said that the Hon. Mr. Crooks will contest North Oxford in the Liberal interest, and the Hon. Oliver Mowat will oppose M. C. Cameron for East Toronto at the general elections for the Local House.

SITON and Glass, of London, whose tender was the lowest, have been awarded the contract for the construction of that portion of the Pacific Telegraph line extending from Fort Garry to Fort Pelly, a distance of 300 miles.

The nomination in Essex for the vacant seat in the Commons took place at Sandwich on Thursday. The candidates named were Mr. W. McGregor, the late member, and Mr. Jeremiah O'Connor, brother of the Hon. John O'Connor.

The Opposition, promoted by Dr. Tupper, got out a candidate against the new Minister of Militia at the Digby nomination on Thursday. Mr. W. H. Taylor, the Tory nominee, has no chance of winning the seat. He is only put up to annoy Mr. Vail.

SOUTH BRUCE.—The Reform Association of South Bruce met at Riversdale on Thursday and unanimously nominated H. R. M. Wells as their candidate at the next election for the Local Assembly. The meeting was large and enthusiastic. Mr. Wells, in a neat speech accepted the nomination.

The Cardwell controverted election case came up for trial at Toronto on Thursday before Chief Justice Hagarty, Mr. Dethune for petitioner and Mr. Cameron for himself. The questions for decision are property qualification, and whether it was demanded of petitioner at the proper time. No corrupt practices charged. The case is adjourned till Dec. 12th, at the request of respondent.

The Montreal Gazette takes a different view of Hon. Mr. Blake's recent speech from many of its contemporaries. It does not consider that he has thereby severed himself from the Liberal party, and it congratulates the country upon the fact that as these practical questions are being settled, politicians will have leisure to air their speculative theories.

MIL OUTLAWD.—The Court of Queen's Bench for Manitoba has issued a warrant of outlawry against Louis Kiel, who, while lying under indictment for the murder of Scott, has up to the present time refused to surrender himself up to the officers of justice, and has his case tried before a competent Court. This settles the case about taking his seat in the House of Commons, for by the law he is now a fugitive from justice, and is deprived of any claim to occupy such a seat.

The Roman Catholic residents of Hamilton have bought 60 acres of land near Oaklands for a new cemetery.

MANUFACTURE OF COCOA.—We will now give an account of the process adopted by Messrs. James Epps & Co., manufacturers of dietetic articles, at their works in the Easton Road, London. See article in Cassell's Household Guide.

A stable belonging to Mr. John Leach, of Gortie, was destroyed by fire some days ago.

PAYSON'S INDELIBLE INK is indelible still; it is plainly written on the minds of the public; after forty years' test it still holds its own and is the only reliable and standard marking ink in existence. It is used with a common pen for marking linen, silk and cotton, and will not wash out.

THE HUMAN EYE AND SPECTACLES.—Dr. Franks has been remarkably successful here and given the most entire satisfaction. We think his visit professionally to the villages of this County in October will be a public benefit. Such an excellent opportunity may never occur again. To our readers to have the best of Spectacles adjusted to the Eye by so scientific a man. In Guelph he received the most complimentary testimonials from our leading citizens, as to his skill in adapting spectacles to the sight, and the superiority of the spectacles themselves. Will

DEATHS.
 HAZEN—In Guelph, on the 14th inst., of the cholera group, Alfred Edward, son of John Hazen, shoemaker, aged 5 years and 8 months.

AUCTION SALE
 Valuable Household Furniture.

To be sold by Auction at the Residence
 OF
JAMES MASSIE, ESQ.,
 Green Street, Guelph.

On Wednesday, 21st October, 1874
 the whole of his valuable household furniture, comprising a handsome parlor set in walnut, chairs, centre table, sofa, easy chair, whatnot, engraving, superior piano-forte by Chickering, 7 octave; carpet, Dining Room—Extension table, sideboard, lounge, chairs, carpet, Bed Rooms—Bedsteads, washstands, marble-top toilet sets, bureaus, carpets, curtains, wardrobe, with an assortment of kitchen utensils, glassware, delph, cutlery, refrigerator, a good cow, and a double-seated buggy.

FOR SALE,
 DWELLING HOUSES
 IN
GUELPH.

The undersigned is now prepared to offer to the Public a Class of Property which for some time has been difficult to obtain. The prices in each parcel are given in plain figures and are marked down to the lowest possible price. The various properties here submitted are all in desirable situations, and the prices are very low. With regard to terms of payment the subscriber will endeavor to meet the views of purchasers.

BUSINESS CHANCES.
 NO. 1.—A dwelling, containing 5 rooms, with a workshop, situated on a good corner lot in Paisley Block, suitable for a country store or a wagon maker. Price—\$2000.

FARM PROPERTY.
 100 acres in Guelph Township, two miles from town, with excellent stone dwelling, 2 stories, excellent barn 100 feet long, sheds, stables, &c. large orchard, &c.
 200 acres, Guelph Township, 5 miles from Guelph, an excellent farm, log house, barn, and large orchard.
 200 acres, in Puslinch, excellent frame dwelling, wood shed, barn, and large orchard. 50 acres, in Pilkington, on Elora gravel road, excellent land.

Building Lots in Guelph.
 About 200 lots in various parts of the town. Lots in every Ward in town. Plenty of choice at low prices and on reasonable terms. Now is the time to buy, times are good, the town is prosperous, and prices will advance very materially.
 The subscriber has been in the Real Estate business in Guelph for many years, and has sold an immense amount of property, and his record will bear him out in saying that his transactions in the past and his representations as to the nature of property and title may be relied on.

HENRY HATCH,
 Land and Loan Agent, Guelph.
 Guelph, Oct. 14, 1874.

TO BORROWERS.
 Having invested the \$28,000 recently advertised, we again have the following sums, besides others, to lend on farm security:

\$500	\$1000
\$600	\$1000
\$600	\$1200
\$600	\$1250
\$800	\$2000
\$800	\$2500

LAMON, PETERSON & MACLEAN,
 Guelph, July 18, 1874.

NOTICE!
TENDERS WANTED.
 Tenders wanted for the clearing of from 20 to 50 acres of land, on lot 33, 11th concession, and lot 33, 12th concession, in the Township of Huron, County of Huron. The Underbrun to be cut level to the ground. The Pine, Hemlock, and all good hardwood to be cut into logs, and what is fit for Railway ties to be made into the same. Cuts, if any, to be cut into Fence Posts or Telegraph Poles, and the balance to be cut into 2 or 4 feet lengths for firewood, and split into rails.

NEW GOODS.
 The following invoice of Goods has just been received from the Celebrated Establishment of Cross & Blackwell, of London, and as it comprises goods such as are not brought to Guelph by any other house you are invited to inspect them:—
 Wax Moons for Carriage Lamps, Night-lights, 6 and 8 hours, Cadbury's Cocoa Essence, Raspberry and Strawberry Jam, Raspberry Vinegar, Calvesfoot Jelly, Lemon, Madeira, and Vanilla Jelly, China Preserved Ginger, Capt. White's West India Pickle, and Curry Paste, Mango Relish, Pickled Onions, Kippered Herrings, English Yarmouth Bloaters, Smoked Cods, Roes, Anchovy and Bloaters Paste, Strasburg Meats, Potted Ham, Chicken and Game, Harry's Sauce, Lea & Perrin's Worcestershire Sauce, English Malt Vinegar, and Anchovy Sauce.

White Clover Honey, in Comb, Cranberries from Lake Superior,
 AT JOHN A WOODS,
 Alma Block and Lower Wyndham Street, Guelph. O12 do.

HORSE SHOING.
TWO FIRST PRIZES
 For the best set of Light, and the best set of Heavy Horse Shoes, were awarded to DUNCAN MCKENZIE, Woolwich Street, Guelph.

OWNERS OF HORSES
 Who wish to have their horses' feet kept in good condition for travelling should give me a trial, as I devote my whole time and attention to this branch of business. Nothing but horse shoeing is done in my shop. This enables me from my long experience in this branch to do horse shoeing superior and quicker than can be done in shops where all kinds of jobs are done. Horse shoeing should be kept entirely by itself.
 Planning for customers for their very liberal support since commencing business I hope by strict attention to my business to have a liberal share of public patronage.
 Yrs. Respectfully,
 DUNCAN MCKENZIE,
 Woolwich St.
 Guelph, Oct. 14, 1874. d2w-stw

FOR SALE—
TYRATHLEN LOTS.

The Venerable Archdeacon Palmer has placed in my hands for sale the Lots in his new survey, immediately in rear of his residence and lying on the north side of Grange street. The situation cannot be surpassed in the town—convenient to Market, Post Office, Church and Schools, commanding a magnificent view of the town and surrounding country. The lots are of different sizes, and well suited for private dwellings, and will only be sold to those who will bargain to put up good buildings.
 Plans of the Lots can be seen at my office and particulars learned.
 Terms very liberal. Purchases made this Fall, interest on balance of purchase money will not commence until 1st April, next.
 If desired, the lots will be pointed out on the ground.
 Also, 17 other lots lying to the north of Palmer street, in Macdonald's survey, and on Queen and Arthur streets.
 An early call is solicited.
 CHARLES DAVIDSON,
 Land and General Agent, Town Hall Building, Guelph.
 Guelph, 14th Oct. 1874. d121-wy

STOVES,
STOVES AND TINWARE.
R. WEATHERDON
 Begs to inform the inhabitants of Guelph and vicinity that he has opened a store in St. George's Square, where they will find the best article at a low price, no blowing or taking off on one article and putting high prices on others; but by fair dealing and honesty, he hopes by strict attention to business to merit a share of the public patronage. He invites the public generally to give him a call. Tinsmithing, Gasfitting, and Plumbing in all its branches.
 Repairing promptly attended to.
 Guelph, Oct. 13, 74. R. WEATHERDON. d121-wy

THE FASHIONABLE WEST END
DRESS DEPARTMENT.

The demand for Fall Dress Goods has been unusually lively during the past few days at the Fashionable West End. Our Dress Department contains a full choice of every New and popular Fabric for the season, as well as many choice lines selected from the British markets exclusively for our own Trade, and not to be seen or obtained in any other Establishment in this town. All at our usual well-known reasonable prices!

Dressmaking.—Miss Morrison is prepared to execute all orders entrusted to her in the latest and most approved styles and in a superior manner.

MILLINERY - - - MILLINERY.
 The ladies of Guelph are cordially invited to call at the Fashionable West End to-day (Saturday) and examine a fine display of New Millinery.

Our Mantle Department is full of all the newest and best styles for the season and is well patronized.

Our Shawl Department is the admiration of all our customers, while our reasonable prices and beautiful styles never fail to please the most fastidious, as well as economical.
 Come direct to the Fashionable West End.

A. O. BUCHAM,
 Fashionable West End Dress, Mantle and Millinery Establishment.

Presbytery of Guelph.
Continued from first page.

Presbytery next proceeded to consider the Remit, when it was moved by Mr. Middlemiss, seconded by Mr. Smellie, that the Presbytery having fully considered the whole subject of Union with other Presbyterian Churches of the Dominion, and the Remit sent down by the General Assembly at its meeting in June last, express the hope that the result of such Union, if consummated, may be such as to disappoint the fears of many in this church in view of its consummation; and the opinion that the said Remit presents terms of Union which this church can assent to, accept in as far as the Preamble in said Remit implies the acknowledgement, which the Presbytery cannot make, that the Church of Scotland, as at present constituted, or any Church in connection with it, holds the same doctrine, government, and discipline as this Church, and in so far as the Resolution on the Mode of Worship is, in their opinion, not only unnecessary, but highly objectionable as being a virtual sanction of any irregularity that may have crept into any congregation previous to the Union. It was moved in amendment by Mr. A. D. McDonald, seconded by Mr. Beattie, that the Remit be approved of simpliciter. On being put to the vote the amendment was carried by sixteen to six. From this decision Mr. Smellie, Mr. Middlemiss and Mr. Burnet dissented. A motion to the effect that the General Assembly delay taking further action on Union till the next regular meeting was defeated by a majority of one. The Committee to whom was referred the oversight of Messrs. Lynd and McGregor who had applied to be received as Catechists, reported that the former had removed to a distant part of the country—that they had met with the latter and both examined him on doctrine and given him subjects for other exercises, and that upon a careful consideration they did not feel themselves justified in recommending him to the employment desired. The report was received, thanks given to the Committee and the conclusion to which it pointed adopted as the decision of the Presbytery. The report of the Committee on the special mission to the township of Amaranth was read. Mr. Thomson, who has been engaged under the direction of the Committee, in exploring the field, was heard. After deliberation the Committee was re-appointed with instructions to make such arrangements as they may deem necessary to carry out the objects stated in the report, one of which was that a minister may be procured for one week in each of the winter months to follow up the efforts just made for the cultivation of the district. On petition of the congregation of West Peshiech, an adjourned meeting was appointed to be held in the church there on the first Monday of November to moderate a call which they proposed to give to one to be their minister. A call was produced and read from the congregation of Thamesford in the Presbytery of London to Mr. L. Cameron, of Knox Church, Acton, with reasons of translation and answers to the same commissioners, from both congregations, and Mr. J. A. Macdonald commissioner from the Presbytery of London was heard. Mr. Cameron was next called on to express his views and feelings regarding the call, who intimated that he felt bound to accept it, but left himself at the disposal of the Court. Parties were then removed. After due consideration it was moved and resolved that the translation be allowed to proceed, and in this decision all the parties being recalled and having intimated to them, acquiesced. Messrs. Smellie and Ball, were appointed a Committee to prepare a minute on Mr. Cameron's removal to his new field of labor, and from the one he has now occupied a number of years, to report at next ordinary meeting. Mr. Ball was appointed to declare the pastoral charge of Knox Church, Acton, vacant, when required by the Clerk, and Mr. Wardrope to be Moderator of Session in the meantime, and the names were ordered to be reported for due share of supply from the Probationer's Roll. Mr. McDonald reported that he had moderated a call at Glenallan and Hollin, which had come out unanimously in favor of Mr. Thomas Thomson. The call, signed by one hundred and thirty-four members and thirty-eight adherents, and the three months' supply of free sermon promised to Winterbourne congregation some time ago, should begin in January next, appointments having been already made from the Probationer's Roll till that date. Instead of the usual arrangements for missionary sermons, the meetings, the Presbytery enjoined all ministers to preach to their own congregations on the subject of Missions and to hold meetings in them; Moderators of Sessions of vacant congregations to do the same, and that their diligence in the matter be reported at the meeting in April. Mr. Reeve's resignation of the pastoral charge of Lockwood and Eden Mills, laid on the table at last meeting, was next taken up and considered. Commissioners were heard. Mr. Reeve stated that he still adhered to his resignation on the ground of ill health. It was then agreed that it be accepted, and that his request not to be employed for the present be granted; that the Presbytery express their sympathy with him in the infirm state of his health, by which he is precluded from Ministerial or Probationer duties in the meantime, and their hope that he may, through the kindness of God, be soon restored; and also their sympathy with the congregation in being thus rendered vacant, and their prayer that they may soon procure one to take the oversight of their souls in the Lord. It was left with the Clerk to arrange for declaring the charge vacant. Mr. Little was appointed Moderator of the Kirk Session during the vacancy, and the congregation was ordered to be reported for supply to the Sub-Committee on the Distribution of Probationers. An application from Waldemar to have a portion of the supplement granted by the Home Mission Committee to Mr. D. M. Leman's present charge to enable them to discharge some arrears for salary when they were under this care was refused as beyond the power of the Presbytery. Dr. Barrie tendered his resignation of his charge in Eramosa on the ground of infirm health, to take effect from the end of the present year. On motion it was agreed that the Presbytery express their unfeigned sympathy with Dr. Barrie in his present affliction, and that Mr. Torrance be appointed to intimate to the Congregation at as early a day as he may find convenient the steps taken by their minister, and to cite them to appear for their interests at the next ordinary meeting. A reference from the Kirk Session of Palmerston was considered and disposed of. The report of the Committee on the application of certain persons belonging to the German

Ladies' Clouds, Nubias, Scarfs, beautiful and warm, at 12 1/2c each, in endless variety.

With pleasure we inform the Ladies of Guelph that we have secured the valuable services of Miss Manny as principal in our Mantle Department. The name of Miss Marney is sufficient guarantee that the orders entrusted to her care will give eminent satisfaction.

Remember the Store—THE GOLDEN LION—where the once wonderful John Hogg was, and where the now wonderful J. D. WILLIAMSON is. Although unprincipled men have been trying to impose on the people that the Lion has been moved up street, the Lion is still in the old spot, next door to Mr. John Horsman's, Lower Wyndham street. Where the Lion is, there the Bargains are.

Golden Lion, Wyndham Street, Guelph. J. D. WILLIAMSON.

THE NEW STORE

WONDERFUL ATTRACTION!

TREMENDOUS RUSH

JOHN HOGG

Has now got his New Store, New Goods, and New Prices into full order, and his old Friends and Customers are pouring in to welcome him back again to serve them.

I wish it to be distinctly understood that I have no connection with any Golden Lion, in Guelph or elsewhere, as my New Store only contains New Goods fresh from the Looms. I have no old Shop-keepers' to palm off. My prices for the Best and most Stylish, fresh and New Goods are 25 per cent under the old prices charged for Stuff in the other Stores.

"DOWN WITH HIGH PRICES."

Twenty-one years ago I commenced a War of Extermination against long prices and long profits—and I succeeded; but, alas, on my retirement from the Mercantile business four years ago, again the thirst for long prices and long profits began to show Signs of Life, and has continued up to this present time.

But, lo! what a Commotion there is now in the Camp of long prices and long profits, and well may there be that Commotion, because the WONDERFUL JOHN HOGG is up and at it again.

CLEAR THE TRACK!—Look at the immense throng about his Store. The Public appreciate an ENTERPRISING man and support him.

Call at once at the New Store, Upper Wyndham Street, Guelph. Ask for John Hogg himself, as many who would like to be John Hogg do not hesitate to deceive strangers enquiring for that Wonderful Man.

All branches of the business carried on. Tailoring done to order. The finest assortment of all kinds of Coatings, Vestings, and Trouserings in the Dominion.

Ready-made clothing in Men's, Youths, and Boys' sizes, 25 per cent under anything in Guelph.

My general Stock of Goods is stirring up the Slow Coaches and making them open their eyes, saying "Hogg is losing Money."

REFORM, not only in the high prices changed, but in the quality of Goods offered to the Public.

The Public may at all times feel safe while I am in the business. I shall keep a watchful eye not only on the character of the Goods offered but on the prices charged.

Yours Truly,
JOHN HOGG.
Alma Block, Upper Wyndham Street, Guelph.

N.B. Mr. William Knowles, long and favorably known to the Public, is again with me and will be glad to see old friends and customers.

MILLS & GOODFELLOW.
Guelph, Sept. 9, 1874.

Reformed Church in and around Preston was given and read. After lengthy and consideration it was agreed that the Committee be re-appointed with instructions to attend carefully to the field, as also that at New Hamburg, and to the work of missions among the German within the bounds, as a hopeful one, and the Clerk was directed to apply to the Home Mission Committee for a grant of not less than two hundred dollars a year in the event of an efficient missionary being procured. From the Report it appeared that \$200 might be expected from Preston and \$150 from New Hamburg. Mr. A. Schroeder, a minister of the Reformed Church of the United States, applied to be received as a Minister of the Canada Presbyterian Church, and produced a certificate of full and regular standing. The application was directed to lie on the table till Mr. Schroeder's designation, which was promised, was received. The Committee on the German Mission was re-appointed with additions, and instructed to prepare a scheme for raising funds on its behalf, and report at the adjourned meeting in West Fausch. A reference from the Kirk Session of Knox Church, Elora, for advice in a case of marriage with a deceased wife's sister, was not sustained on the ground that it was not in writing. The Clerk reported the claims against the Presbytery and each congregation for the Assembly Expense Fund. He was instructed to call the attention of every congregation that had not paid the full amount assessed last year to the deficiency. An extract minute from the Presbytery of Stratford regarding the mode in which New Hamburg was receiving supply of sermons was read, and the reply of the Clerk to the same, which was approved. The Home Mission business, and some others of a general interest having been disposed of, the next ordinary meeting was appointed to be held in Knox Church, Galt, on the second Tuesday of January, 1875, at 9 o'clock, a.m., the roll called and marked, and the sederunt closed with the benediction.

THE GREAT SUPERIORITY OF DR. WHEELER'S COMPOUND ELIXIR OF PHOSPHATE AND CALSAYA consists in its being purely physiological in its action in restoring all forms of debility by supplying the waste of tissues resulting from mental and muscular exertion, or consumption, disease, or impaired by disipation and bad habits, it is unequalled, as it immediately imparts energy to the digestive apparatus, and creates healthy blood, toning and vitalizing all the organs of the body in the same manner as our daily food. Phosphates are the chief compounds of Phosphorus assimilated by the system, and are Nature's agents for maintaining the vital powers.

The Simplest, Cheapest, and Best

Marking Apparatus in the World

For Marking COTTON, SILK,

WOOLEN, and LINEN, is

PAYSON'S INDELIBLE INK.

Used with a Common Pen with-

out a preparation.

This ink flows perfectly: will write as easily on the finest paper as on ink on paper. It does not dry up, and retains its virtues longer than any other ink known. It will not injure the finest fabric. Payson's Ink has endured the test of forty years, and is now the most popular ink in existence, and is unrivalled for uniformity of quality and durability. It will mark more neatly, quickly and indelibly than any other apparatus. It requires no preparation of the fabric.

Price, 37 cts. per bottle.

Sold by all Druggists,

Stationers, and Fancy

Goods Dealers.

A NUMBER OF VALUABLE FARMS NEAR GUELPH.

PROTECT YOUR BUILDINGS

Which may be done at one-fourth the usual Expense, by Using

Glines' Patent

SLATE ROOFING PAINT!

AGENTS WANTED IN EVERY TOWN.

A Roof may be covered with a very cheap shingle, and by application of this slate may be made to last from 20 to 25 years. Old roofs can be patched and coated, looking much better and lasting longer than new shingles without the slate, for ONE THIRD THE COST OF RE-SHINGLING. The expense of slating new shingles is only about the cost of simply laying them.

The Paint is Fire-Proof

against Sparks or Flying Embers, as may be easily tested by anyone, and appears from the fact that Insurance Companies make nearly the Same Tariff as for Slated Roofs. For Tin and Iron it has no equal, as it expands by heat, contracts by cold, and NEVER CRACKS NOR SCALES. For Fences it is particularly adapted, as it will not corrode in the most exposed places. Roofs covered with Tar Sheathing Felt can be made water-tight at a small expense. The Slate Paint is

EXTREMELY CHEAP!

Two gallons will cover 100 square feet of shingle roof, or over 400 of tin or iron. No Tar is used in this Composition, therefore, it does not effect the water from the roof, if turned off from the eavens before the first few rains. On Decayed Shingles it fills up the holes and pores, hardens them, and gives a new, substantial roof that will last for years. Curled or Warped Shingles it brings to their place and keeps them there. It fills up all holes in tin or felt roofs, and STOPS THE LEAKS. The color of the slate when first applied is dark purple, changing in about a month to a light uniform slate colour, and is, to all intents and purposes, SLATE. The Paint has a very Heavy Body, but is easily put on, and, although a slow dryer, rain will not affect it in the least one hour after applying.

ROOFS EXAMINED. ESTIMATES GIVEN.

And when required will be Thoroughly Repaired.

Orders Respectfully Solicited.
