LORD MINTO IS DEAD—ACCIDENTS IN TORONTO—EASTERN STATES STORM-BOUND—EVIDENCE OF BENTON'S MURDER

LORD MINTO IS DEAD AT HOME IN SCOTLAND

Former Governor-General of Canada and Viceroy of India Passed Away Early Sunday Morning—Had Noted Career as Soldier and Diplomat.

LONDON, March 1.—Lord Minto, former governor-general of Canada and viceroy of India, who had been seriously ill at his country home, Minto House, Hawick, Roxburghshire, Scotland, for several weeks, passed away at 4 a.m. today. He was 69 years of age.

His Career. Gilbert John Murray Kynningmond Elliot, fourth Earl of Minto, was born in 1845, and received his schooling at Eton and Trinity College, Cambridge. While at college he was ardent in following and participating in sports, and through his entire life sport of the right sort gave him pleasure, and he gave it his support. It is said of him that he wrote his graduation examinations dressed in a riding costume, covered with his academic gown, and that as soon as his paper was completed he leaped into the saddle and arrived at a race track just in time to enter and win the university steeplechase. The Minto Lacrosse Cup, now held by New Westminster, B.C., was donated by him during his term of office in Canada.

But the Earl of Minto's mind turned toward more than sport and constant pleasure. His painstaking and unselfish public service in almost every part of the British Empire proves that. In 1870 he served from the Scots Guards, after being three years ensign there.

He followed the Carlist uprising in Spain as a war correspondent, and in 1877 served with the Turkish army, and was present at the famous crossing of the Danube. His penitence and unselfishness in the Afghan campaign, and in 1881 served as his private secretary in South Africa. In 1884 he volunteered in the Egyptian campaign. Became Governor-General. Even in Canada he had to do with fighting, for when he came as military secretary to the then governor-general, Lord Lansdowne, he was made chief of the staff under General Middleton in the Northwest Rebellion in 1885. The expedition gained during this stay in the Dominion was put to use when, in 1898, at the age of 43, he became Governor-General of Canada. He remained in such a position until 1904. His interest in and efforts to aid Canada and bring her to a high place among the nations never flagged, and his confidence in her future never wavered. Like the late Lord Strathcona, he strove constantly to bring people in other lands to a realization of Canadian possibilities. At one time he said: "I predict a great future for the western continent. It is a land of incalculable riches. Northwest Canada offers some of the greatest opportunities in the world. And this was said at a time when the Dominion's future was by no means as rosy as it is at present."

Smith of the Smiths

CANAL BOARD IS TO BE ENLARGED

Two Members Will Probably Represent Ontario on the Georgian Waterway Commission.

OTTAWA, March 1.—(Special.)—A good deal of dissatisfaction has been expressed by Ontario members over the composition of the Montreal and Georgian Bay canal commission. A few days ago it was announced that the commissioners would be Senator Evans of Winnipeg and Geo. Gobler and F. S. Melgren of Montreal. The canal will for the most part run through Ontario, and Ontario members consider that there should be at least one Ontario representative on the commission. It is probable, therefore, that the commission will be increased from three to five.

Representatives of western municipalities which are opposed to the canal on the ground that it will divert traffic from Western Ontario ports will be here early this week to lay their case before the government. Until they have heard it is unlikely that the commission will be formally appointed by the cabinet.

EASTERN STATES ARE CUT OFF BY STORM

Three People Killed in New York. Where Wires Are Down and All Trains Delayed—Conditions the Worst in Years, and Tie-Up Will Last a Week.

NEW YORK, March 1.—A northeast storm sweeping to the northwest which brought first rain, then snow, raged over New York and vicinity today, cutting the city almost completely off from telegraph and telephone communication. Reports showed its effects to be widespread. Three deaths due to the storm occurred here, two of them occurring together when a roof over a sidewalk collapsed under the weight of wet snow, crushing a man and a boy. Another man, blinded by snow, was killed by a train. Several persons were overcome by exposure and a number were injured in street accidents.

Trains for the most part left their terminals on time, but with wires down they were not running quickly. Concerning incoming trains, nothing could be learned except as they arrived late on all lines. Wet snow snapped telegraph and telephone wires, and with a gale blowing seventy-two miles an hour at times many poles toppled over. On some lines the poles fell across railroad tracks, blocking traffic.

As reports began to come in later tonight, it was learned the blockade of train traffic on some of the railroad lines were even more serious than had been thought earlier. The westbound Twentieth Century Limited for Chicago was reported halted by fallen poles across the New York Central tracks north of Ossining. Other trains on the line were stalled at various points along the Hudson River from the same cause.

Worst in Years. At local offices of telegraph companies it was said that conditions were the worst in years. The Western Union's fifty wires to Chicago and most of the 151 wires to Philadelphia were down. Communication in the evening hours was possible only as far as Syracuse to the north and Chicago to the south. The case in Boston, but in other directions the

WORST WIND STORM IN MANY YEARS CAUSED HEAVY DAMAGE IN TORONTO BY WRECKING SIGNS, WINDOWS, ROOFS

Thousands of Dollars' Damage Done, Especially in Downtown District, Where Plate Glass Windows and Expensive Signs Were Wrecked.

A gale exceeding in its velocity that which caused such great disaster on the upper lakes last November, swept Toronto and the surrounding district last night. The wind, which at 2 o'clock in the afternoon, was blowing at the rate of 41 miles per hour, had attained a velocity of 80 miles by 8 o'clock. Reports from the weather bureau stated that at 9 o'clock it had reached a velocity of between 80 and 90 miles, while at 10 o'clock, the maximum speed of practically 100 miles per hour was registered. According to the weather bureau, the gale was the worst experienced in Toronto in many years. Thousands of dollars' damage has been done.

Windows were broken, signs blown down, large pieces of tin, slate and other kinds of roofing were torn from their fastenings and hurried forcibly to the streets, menacing the lives of pedestrians at every turn. On every street in the city, especially in the business section, were to be seen signs of the havoc caused by the heavy wind. Tree branches of all sizes were scattered about the streets of the residential part of the city.

Signs Blown Down. An overturned chimney on the Brunswick Apartments crashed thru the roof of an adjoining house at 500 Brunswick avenue, narrowly missing a sleeping child in the bedroom below.

The fire department was called out to reinforce the Empress Hotel electric sign, which the wind had partially torn from its fastenings, and left dangling dangerously over the street.

A plate glass window in the Y.M.C.A. Cafeteria, on Yonge street, was smashed by the electric sign belonging to D. G. Davidson, ladies' wear merchant. The sign is a very large one, and was erected about 20 feet above the ground. At 3 o'clock it was found to have been partly torn from its fastenings, and was reinforced, but an hour later the whole structure was again swung loose and crashed thru the window. Late last night it was still swaying about in the gale. The police had instructed that the sidewalk in the immediate vicinity be boarded off as a protection to pedestrians.

Narrow Escape. A man on Yonge street had a narrow escape from serious injury at 11 o'clock last evening, when a large piece of tin, blown from the roof of the Canadian Commercial Co. building, struck the sidewalk less than two feet away from him. Pedestrians on the street were startled by the crash of a large pane of glass blown from one of the top stories of the Confederation Life building, Richmond and Yonge streets. The sheet of glass struck the sidewalk on each side of the street.

A large sign on Griffin's theatre, Yonge and Spadina streets, was blown to shreds. A steamship sign, under course of construction opposite William street, was torn from its supports, and late last evening swayed dangerously out across the sidewalk with every gust of wind. Lipton's huge electric tea sign, 50 feet long and 10 feet high, was blown loose; it will cost hundreds of dollars to repair its damage. The Dominion Bowling Company's sign was blown loose at 9 o'clock, smashing the glass and damaging the metal cornice on the building.

Plate Glass Smashed. Dozens of plate glass windows were blown in by the terrific pressure of the wind. Some of those noticed were: Wm. Davies Co., corner College and Spadina; Carrick's Cafe, Richmond and Bay streets; William Bryce's of 1100 Queen; MacDougal's, and Queen; T. Eaton Co.; C. W. Sheridan Queen and Gerrard; Summers' See's Co., 97 East King street; Pease Furnace, 113 East King; and Steffy's Tire Co., 124 East King.

In the ward shingles from old houses were blown all over the streets. A word reporter walking along Agnes street was struck by a green slat, coming across the street. The slat brought up with a crash against a brick wall on the sign was perched on top of a Jewish cobblers' sign on Teraraul street, rested a black derby hat, blown from the head of some passing pedestrian.

The gable of the Boys' School at 2806 Yonge street was blown in and the bricks crashed thru the ceiling into the bedroom below, which luckily was unoccupied at the time. When the boys were about to retire they were unable to open the door of the room owing to the bricks piled against it.

Globes Broken. The hydro-electric globes, especially on the clusters, suffered greatly in the storm, and several times during the

THEATRE PARTIES PLANNED FOR TONIGHT BY REV. JOHN COBURN AND ASSOCIATES

Rev. John Coburn and the Committee of Forty are figuring on spending a very busy evening tonight. It is their intention to visit every theatre in Toronto, and a large number of the moving picture houses, in order to see if all the shows produced for the amusement of the theatrical public are fit for others to see. It is understood that two members of the committee will be in every theatre in Toronto when the curtains go up shortly after 8 o'clock tonight.

BENTON, 'UNARMED,' WAS SHOT IN OFFICE OF GENERAL VILLA

Washington Has Received Conclusive Information That Rancher Was Not Formally Executed—Gen. Carranza Refuses to Supply Information as to Nature of Tragedy.

WASHINGTON, D. C., March 1.—William S. Benton, the British subject slain at Juarez, was unarmed and was shot to death in Villa's office, pistol bullets thru the stomach ending his life, according to conclusive information which has reached Washington officials. While no statement to this effect was forthcoming today, slackening of official interest in the proposed post mortem on Benton's body was evident the belief being that the examination would be useful only in that it might serve to supplement the evidence of timid witnesses, who possibly would withdraw otherwise their oral statements.

Benton carried no arms when he approached Villa's office in Juarez, according to information; he spent two hours waiting for his interview that ended in his death, walking back and forth in front of the office building; he was shot thru the stomach after he entered the office and received other wounds afterward, although the first was mortal.

CARRANZA WAS OBSTINATE. NOGALES, Sonora, Mex., Feb. 29.—Gen. Carranza declined today to furnish information to the state department at Washington regarding the killing at Juarez of the British subject William S. Benton. At the same time

he gave assurances to Secretary Bryan that he would investigate the disappearance near Juarez of Gustav Banach, an American citizen.

This strongly defined stand came after three days of negotiations between the American secretary of state and the constitutionalist commander-in-chief, thru Frederick Simpich, American consul at Nogales, and Ysidro Fabell, acting secretary of foreign relations in Carranza's provisional cabinet.

Broke Long Silence. Until this afternoon Gen. Carranza had remained silent, regarding his stand on the request of Secretary Bryan, made three days ago, for information on the death of Benton. Another message arrived today from Secretary Bryan in which he requested immediate information about the disappearance of Banach. Carranza's replies were made to both queries at the same time and in the form of documents translated into English.

The fact that England has recognized the Huerta central government was mentioned in the document, but occasioned much speculation among those familiar with the situation. Carranza, in his reference to the Benton case, pointedly remarked that Secretary Bryan's original message has been the first official mention of the matter brought to his attention as directing head of the revolution.

Thomas Hamilton and Undertaker Refused Information at General Hospital After Mrs. Hamilton's Death.

Taken to the Toronto General Hospital on Friday, suffering from blood poisoning, Mrs. Theresa Hamilton, wife of Thomas Hamilton of 5 Stetler street, died on Saturday morning. Her husband tried all day Saturday and yesterday to get the body, as did also T. E. Washington, undertaker, but neither could get any satisfaction from the hospital. The body was removed to the morgue, where an autopsy will be conducted this morning.

Mrs. Hamilton was a patient of Dr. Rowan, who was unable to attend her when she became seriously ill on Thursday, and Dr. East was sent in. He at once ordered her removal to the General Hospital. She became worse after her arrival there and gradually sank until she died on Saturday morning. Mr. Hamilton was notified, and was nearly prostrated last night as a result of the unsuccessful efforts of both the undertaker and himself to either get possession of his wife's body or to find what was being done with it.

Information concerning Mrs. Hamilton's case or what caused her death could be obtained from the hospital by the World yesterday. Repeated enquiries were given the same answer, that no one knew anything about her. When the police drivers arrived at the hospital to take the body to the morgue no one seemed to know that anyone had died, and it was not until the caretaker was found that the body was located. The authorities at the morgue did not know anything about the case.

It is probable that Mr. Hamilton will bring the case to the attention of the authorities.

ENTIRE FAMILY OVERCOME BY GAS FUMES

Break in Furnace Pipe Nearly Caused Fatality—Motor Car Burned—H. A. Smith Struck by Car—Pedestrian Fell Unconscious—Foreigner Charged With Wounding.

Coal gas fumes almost asphyxiated a family of six at 45 Macdonell avenue Sunday morning. A child of eight years arose at 2:30 to get a drink of water, and passing thru the dining room, the house found her mother, Mary Guise-Bagley, lying unconscious on the floor. An alarm was raised, and it was found that four persons in the house were affected by the fumes. George McFarland, a visitor, was also unconscious in his room.

The police at No. 6 were telephoned, but when the constable arrived, Dr. Hart, 179 Dowling avenue, had reassessed both the victims and attended the other inmates affected. Investigation of the furnace showed that the gas had made its escape from a break in the pipe.

Fire caused by the overheating of the radiator completely destroyed a motor car belonging to Joseph Waller, 417 Roncesvalles avenue, in his garage at 4:35 Sunday afternoon. Mr. Waller was filling the car with gasoline when a mass of flame broke out all over the car. He was barely able to escape from the garage with his life. The damage is about \$1500.

Struck by Car. While crossing Queen street, near the corner of Jameson avenue, at 8:45 last evening, H. A. Smith, 603 Markham street, was struck by a west-bound King car and knocked to the pavement. He was conveyed to the Western Hospital in Bates & Dodds' ambulance, where it was found that he had received a bad scalp wound, a cut over the right eye and severe injuries to his left leg.

Smith was holding his hat on while walking in the face of the terrific windstorm, and this prevented him seeing or feeling the car's approach.

Found Unconscious. William Carke, a middle-aged man, 60 Gwynne avenue, was found unconscious with a deep cut on the back of his head, at the corner of Gwynne avenue and Queen street at 3 o'clock Saturday afternoon. He was taken into No. 8 police station, where he received medical attention. He was able to go home later.

Charged With Wounding. Charged with wounding Mike Moyb, of 13 Drummond place, Dmytry Hysko, of 7 Drummond place, was arrested last evening on an indictment by Michael's Hospital with half a dozen wounds in his head, inflicted, it is said, by a stove lighter in the hands of Hysko.

The wounding was the culmination of a christening held at 7 Drummond place last evening, which was attended by about a score of Austrians. Moyb, at St. Michael's, stated last evening that after the dancing Hysko called him names, which he resented; Hysko then seized a stove lighter and struck him several times on the head. Several others of the inmates were arrested on charges of being disorderly.

Inquest Today. An inquest will be held in the Central Prison Monday, on the body of Lynd, a prisoner, who died in that institution on Saturday afternoon.

Swallowed Iodine. Annie Andvite, a domestic, 71 Huron street, was found unconscious on Agnes street Saturday evening, suffering from iodine poisoning. She was conveyed to the General Hospital in the police ambulance. The theory is that the girl, suffering from toothache, had swallowed some of the iodine which she used to dull the pain.

Woman Was Injured. An unknown elderly woman, who resides at 88 Bathurst street, was struck by a street car at the corner of Agnes and Teraraul streets at 5:30 Saturday afternoon, and carried into No. 2 station very badly shaken up. There, after receiving first aid attention from the ambulance drivers, she rapidly recovered and was soon able to leave for her home.

Horse Ran Away. Commencing opposite 34 Defoe street, one of the delivery horses belonging to Haines Grocery, 592 West Queen street, made a wild dash extending over half a dozen blocks Saturday evening. In its route it knocked over a cyclist, badly damaging the bicycle, and in a collision with a Campbell Dairy motor truck smashed the delivery rig and stove in the radiator of the large truck.

According to the police, the horse was first frightened by a piece of paper blowing along the roadway. Along Defoe to Shaw, the horse dashed, and from Shaw to Queen street. On Queen street it turned east, and a short distance collided with the motor truck. Before it was finally brought to a halt by Officer 222, it had knocked the road, but he arose, apparently uninjured. Beyond a slight cut on the leg, the animal was unharmed.

The "Zodiac" is a Reliable Timepiece at \$12.50

Not many men would care to carry a watch that either gained or lost, say, twenty minutes a day.

Reliability, therefore, is the chief qualification of a watch. Read what combines to make the "Zodiac" a timepiece that is true and accurate. They have nickel plates, which are more serviceable than the old style movements with brass plates. They also have 17 jewels, which reduce the friction almost to a minimum. Cut expansion compensating balance wheel constructed of two metals, which counteracts the effects of expansion and contraction caused by extreme changes in the temperature. Brequet hair spring which lessens the possibility of the coils of the spring catching in the regulating pins and causing the watch to gain time. Exposed winding wheels, much stronger than the concealed winding and not so liable to become defective from the constant strain of daily use; patent regulator, double sunk dial, with Arabic or Roman numerals and stem wind and set. Procurable in three sizes for men in standard quality gold-filled case. Each 12.50
—Main Floor, Yonge St.

Our Special Optical Service

It is of great importance that glasses chosen should be absolutely suited to the eyes, and for this reason the eyes should be properly tested. Our Optical Department is equipped with most modern scientific appliances for testing and has fully qualified opticians for examining the eyes, as well as experienced fitters for the correct fitting of the frames. Should you require both distance and near vision lenses, or near vision lenses only, we invite you to examine the new "Impercepto" Bifocals. These are the latest in two-sight glasses, allowing you to see both distant and near objects without removing or exchanging your glasses. They have the appearance of single-sight lens, the two glasses being fused together with great heat and ground so that there are no edges or the water to catch dust or dirt.

Glass Eyes

We carry in stock a large and varied assortment of Artificial Eyes. The shell at \$2.50, and the reform or fullback at \$3.50.
—Optical Dept., Third Floor, James and Albert Sts.

Adjustable Bed Lamp at \$5.00

For special selling Tuesday we have marked a line of Electric Lamps for adjusting to the bed post, at much below their usual price. These are very useful for the sick room or for anyone who desires to read in bed, as they are adjustable to any angle and prevent injuring or straining the eyes. In polished or brushed brass finish; fit any metal bed post. Complete with cord and plug, for clearance, each 5.00

Splendid Outside Brackets at \$8.00

These are in lantern effect, and suitable for doors or gateways. Frosted glass. Price, Tuesday, each \$8.00
Buffet Lamps for coal oil; resembles a brass candlestick, with pierced brass shade and lining. An excellent table decoration. Each .50
Gas Brackets, rope pattern, installed at 20c, 25c, 30c and 50c.
Paper Shades for electric lights, in various colors. Make an ideal decoration for any festival. Each 13
—Basement.

For the Men

New Dress Accessories for Spring Wear. See Them in the Yonge Street Annex.

SHIRTS

Wide stripes are largely featured for the coming season, some in fancy effects and in a varied assortment of colorings, including a new pink shade. Fine prints and cambrics are materials popular because of their good washing qualities.

"Emery" Shirts in striped and checked effect, are made in coat style and finished with attached laundered cuffs. Shown in sizes 14 to 18; at 1.25

Another "Emery" line, coat style shirts with attached laundered cuffs and neckbands. These are made in different sleeve lengths. Sizes 14 to 17 1/2, at 1.50

Higher Grade Shirts, "Quaker City" make, are mostly in stripe effects and absolutely fast in color. Coat style, with attached laundered cuffs. Sizes 14 to 18. Each 2.50
Main Floor—Yonge St. Annex.

WANT TO CLOSE A GOOD CLASS

Board of Education May Be Asked to Overrule Committee.

Miss Carruthers, who for the past several years has been in charge of the class of mental deficient in Grace street, does not think that the board of education is giving either herself or her pupils a square deal in deciding to close the class, especially when she is on leave of absence. Miss Carruthers applied for leave of absence about a year ago, and despite the fact that she gets \$100 more than other teachers for her work, no other teacher would take the class. She then found it necessary to have a rest and applied in December for three months' leave. This was granted, and she is not due to return until the first of April.

The law prohibits a teacher from being more than fifteen defective children in one class, and that was the number of pupils in charge of Miss Carruthers. Many of these scholars are long distances to attend her class, and when it became so cold

during the earlier portion of the year the attendance naturally dropped. The average was nine for this month, which is considered very good, when it is remembered that the pupils went long distances, and that some of them could not stand the cold. In addition to this, occasional teachers were put in charge of the class, and the attendance in nearly every case falls off when occasional teachers are in charge of pupils.

The inspectors in their last report stated that there were 250 mentally deficient pupils in the Toronto schools. In face of all these facts, the management committee of the board of education suggests that Miss Carruthers' class be closed.

TRIAL OF PAY FOR PRISONERS.

CALGARY, Feb. 27.—Prisoners in the provincial jail at Lethbridge are allowed 50 cents per day wages, and employed at road-making in summer and broom-making in winter. The wages are sent to the prisoner's family if he has one, otherwise are given to him at his discharge.

HOSPITAL SEWING CLUB.

The regular monthly meeting of the Westox Hospital Sewing Club will be held at the home of Mrs. McKee, 31 Bousfield avenue at 3 o'clock on Tuesday afternoon. Members are invited to take part in a discussion of the facts set forth in Dr. Hughes' address at the last meeting.

STUDENTS' COUNCIL NOMINATIONS IN

Many Offices in Regulative Body Go by Acclaim This Year.

Nominations for the students' council, the regulating force of the student body of the university, were closed on Saturday, and an unusually large number of candidates for the year 1914-15 were found to have been brought up on the nomination tickets. The elections are to be contested on Wednesday of this week, and the new members' duties will commence at the beginning of the term. T. R. Louden of the faculty of P.E.S., who for the last two years has been the president of this body, was returned for his third term by acclamation.

The nominations, as far as they have been returned, are:
University College—Fourth year, A. C. Bassano, S. H. McCallum
Medicine—Fifth and fourth years, E. W. Knox (accl.); second year, W. P. Hoar, G. B. Davitt, C. O. Sullivan, J. R. L. Edge, V. E. Henry, M. A. Cox, H. McNally, P. Sander, C. K. Price, H. Sullivan.
Science—Fourth year, W. G. French (accl.); third year, R. Ross (accl.); second year, E. Dunstan, J. R. McLean, E. H. Gilles, S. Sutherland.
Knox College—G. Easton, L. Hunter, A. Stubbald, R. Turnbull.
Presbytery—E. B. Proulx, J. M. Sloan, Wycliffe—A. C. S. Trivett (accl.).
Dobbs—F. Williamson (accl.), R. R. Lamour (accl.).
The other faculties have not yet named their candidates.

ELBERTA PEACH STOOD COLD BEST

Good Progress Being Made in Extermination of "Little Peach."

(Special To The Toronto World).
ST. CATHARINES, Mar. 1.—Fruit-growers attending the Niagara district convention here today agreed that the Elberta peaches suffered less from the recent spell of extreme cold weather than did any other variety.

The convention closed this evening and was followed by a banquet at the Welland.
Prof. Harcourt of Guelph impressed upon the growers that fertilizers do not take the place of cultivation. As a fertilizer, he recommended crushed limestone.
On the question of pruning, Prof. Farnsworth of the Ottawa agricultural college advised steady pruning for apples and pears for about four or five years then a little judicious neglect was desirable. He preferred dormant spraying.
Deputy Minister Roadhouse of the Ontario department of agriculture congratulated the growers upon the progress made towards the extermination of the insidious pest, "Little Peach." During the last season only 5,000 infested trees had been found in the district, while two years ago it had been necessary to destroy 35,000 peach trees.

WELSHMEN GATHER HONOR ST. DAVID

Patriotic Speeches Delivered at Anniversary of Patron Saint.

Welshmen congregated on Saturday evening to celebrate the anniversary of their patron saint, St. David, to whose memory March 1 has since time immemorial been held sacred. Over 130 men and women gathered together around the banquet table to renew old friendships and to pay honor to St. David. Their merry-making was of a distinctly national character, and more than anything else served to indicate that Welsh nationalism is more than ever alive in the hearts of her sons.

STUDENTS REINSTATED AT VETERINARY COLLEGE

Following the action of the three members of the senior years of the Ontario Veterinary College in giving themselves up to the authorities, acknowledging that they were the culprits in the chalk-throwing incident of Wednesday, the 130 students of the two upper years were reinstated. The trouble which occurred was of long standing arising from the fact that Dr. Saunders had taken the place of Dr. Bowler, a particular favorite of the students.

At first the three men principally concerned in the chalk-throwing incident could not be located, and until they gave themselves up, Principal Grange promised that the entire 130 members of the two years would be barred from lectures.

WILL MERT TOMORROW.
The postponed monthly meeting of the Toronto district W.C.T.U. will be held at the residence of 20 East Gerrard street at 7:30 p.m., Tuesday, March 3. The hosts of the Frances E. Willard Home will also meet there at 11 a.m.

PARKS DEPARTMENT BANQUET.
The first annual banquet of the Parks Department will be held in the W.C.T.U. building, Exhibition Park, on the evening of Thursday, March 5, at 8 o'clock.

Getting the Seed Boxes Ready.

There are many of the common annuals that may be got ready for the outdoor beds, long before the outdoor beds are ready for them...

Most annuals are all the better for being transplanted—most of them, but not all, as we shall presently see.

And since this is the fact, what an immense gain it will be to have plants ready for this transplanting time at the outdoor beds can be put ready.

Put a piece of flannel in the oven until it is quite hot, then hold it over the baby's ear, holding it with something to keep in the heat.

Change this flannel as it cools. A hot water bag covered with flannel and held against the ear is a comfort, too. If this treatment does not ease the pain get a soft, rubber ear syringe and gently wash out the ear with water as hot as the finger can bear.

Your Cold Bath a Tonic If You Breathe Deeply

By MAGGIE TEYTE

Prima Donna, Chicago-Philadelphia Opera Company.

AM constantly in receipt of letters which ask advice about various ailments, and request the recommendation of some internal remedy. I cannot give any such information. To begin with, I am not a physician.

MAGGIE TEYTE Then I am not willing to give even so-called harmless remedies for an ailment which I know nothing of. If any of my correspondents are ill, I wish, without delay, they would seek aid from the proper channels. And they have my best wishes at all times, my kindly thoughts, and the hope of a speedy delivery from all their ills.

All I can do is to help to make life a little more pleasant by giving a few hints on making the most of ourselves. I am always glad to reply to any question which I am able to answer. Any letters sent to me in care of this paper will be forwarded to me.

One of the questions asked me so many times concerns the relative value of the hot and the cold bath.

I do not consider them interchangeable. They each have a different mission. The work of the hot bath is primarily cleansing. The work of the cold bath is tonifying. The hot bath relaxes and weakens the system. The cold bath awakens it.

Not all of us can take cold baths. The sure test is, whether you have tried one, you experience the reaction and exhilaration which should result from

THAT BARBARIC IMPULSE

By Michelson

Copyright, 1914, by Newspaper Feature Service. Great Britain Rights Reserved.

IF THESE were the days of the cave man—the days when lovers went wooing with a club—how different everything would be! Sounds like a cruel affair to say that the lover of those days smote her a tidy whack over the head, then carted her off. But it was good form in the stone age, and even SHE took it for granted.

Sometimes the modern man hears the barbaric song. Something in his blood that has come down from the stone age makes him wish that the splendid simplicity of the old method were in operation today. When she teases, when modern restraints interfere, when salaries become an issue, the voice of the barbarian past sometimes shouts in his ears and he wishes he could simply gather her up and RUN OFF with her.

No, he doesn't want to use a club (except the kind you hide in with other congenial barbarians). He just wants to TAKE her, to stop having the faint heart that DIDN'T win the fair lady—to stop all indecision, brush aside all obstacles to the "happily ever after" by plain CAPTURE. Then away to Paradise over the roof of the world.

Secrets of Health and Happiness

Those Who Are Over-Fat Must Form New Habits

By Dr. LEONARD KEENE HIRSHBERG

A. B., M. A., M. D. (Johns Hopkins).

Copyright, 1914, by L. K. Hirschberg.

CAESAR said that men of the Cassius type of gauntness are restless kickers who would unthrong the roads themselves, and that the rotund, buxom fellows, "sleek-headed men and such as sleep 'o' nights," are safe, sane and satisfied.

Caesar here states a hygienic truth beyond both his rhetoric, his strategy and his philosophy. Those who lose sleep wane and become like the pale, new moon. Those who sleep "o' nights" wax oilful.

"Jack Spratt can eat no fat, his wife can eat no lean;" thus betwixt the twain they kept their checkbook clean. This old nursery rhyme brought up to the instant is as false as all true proverbs must be. When a fat person abides with a thin apartment house, the buxom one grows fatter and the lean and usually far from hungry, narrow one approaches the shadow of infinity.

Married couples should not "dwell together" in this sense. That is to say, even individual beds are but sorry aids to restore the flesh-balance. Separate sleeping rooms, wherever possible, are the saner solutions of excessive avoidpools and mere skin over bones.

Suppers after 6 o'clock. Midnight luncheons. Trolley cars. Slow walking. Late hours. Elevators. Automobiles. Matinees. Theatres. Eating to saturation. Infectious diseases and an Africa jungle of omissions and analogous commissions.

Habits Must Be Changed. The remedy rests in a recognition of these facts and then a change of habits upon the part of the gluttonous owner of a fat and far from forty equatorial line. This fleshy tumefaction and turgescence of the human girth can be reduced! It is not strictly a matter of diet, and it is absolutely never a question of dangerous drugs.

If you are oil-bound, let it be said, at the risk of hard feelings, you are physically on the down grade. No one who waxes spherical or ellipsoidal can learn, do, or feel as he or she was once able. Then the fat is in the face.

The expressions, "fair, fat and forty," "laugh and grow fat," "who is your fat friend," "nobody loves a fat man," each contain a sly dig, and but a declamated part of the truth. For to be inflated with this useless avoidpools is a vain boast of health and happiness. Shakespear, Caesar and Falstaff to the contrary notwithstanding.

Twist fat and isthmus there is this difference known, the thin seek other gods, the stout their own. Don't blame me for these words. A clown said them. Of course, they are in line with aristocratic views, hence far from the whole truth.

If the obese would be as thin as millenium trillionth of a gossamer thread they must change their habits. If you are saving your equator; if there is much drooping over your bow, and you would be an isthmus with spindle-shaped arms, your habits must be changed.

A "Bad Habit." Briefly, fat means age more than "hardened arteries" do. A woman is as old as she is fat, and a man is a decade older. To lose this is to be rejuvenated. There is a benzoin throat tablet and a peroxide or "aliphone" tablet, but to combine these a druggist must do so at your request.

T. C. R.—Do you approve of massaging eyes with a little machine. Is it harmful to massage the eyes? It is not harmful to massage the muscles and flesh around the eyes. It will do much damage to rub the eyeball, one of the most delicate structures in your anatomy.

Dr. Hirschberg will answer questions for readers of this paper on medical, hygienic and sanitarian subjects that are of general interest. He will not undertake to prescribe or offer advice for individual cases. Where the subject is not of general interest letters will be answered personally if a stamped and addressed envelope is enclosed. Address all inquiries to Dr. L. K. Hirschberg, care this office.

DR. HIRSHBERG

Peter's Adventures in Matrimony

By Leona Dalrymple

Kitchen Experiments XXXVII.

WHY don't you make some chicken soup, Mary?" I suggested one night at dinner. "I'm mighty fond of it." "I don't know how," confessed Mary.

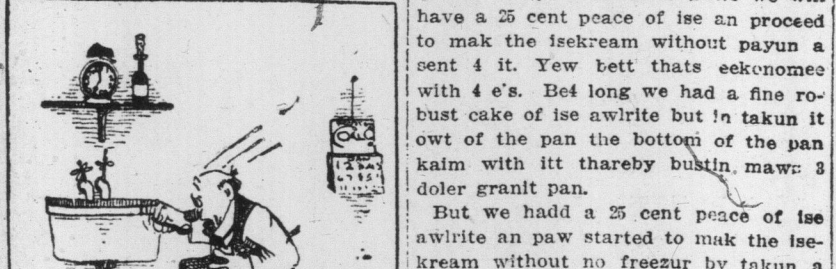

"What about a cook book?" I suggested mildly. "I've owned a cook book ever since I thought it said a half peck of gelatine to thicken a cream instead of half a package. And Peter, aren't accents stupid? Yesterday I ordered a pound of bay leaves and the grocer brought me a great big flour bag jammed full. How was I to know they weigh so little? And why didn't he tell me and just bring a few?"

"Probably," I suggested, "like the man who went on leaving milk white we were away, he had a sense of humor." "Do you suppose they buy them by the dozen leaves?" ventured Mary. "I don't smile." "Probably by the ounce," I suggested. "Why don't you call mother up and ask her how to make the soup?"

"I don't want to," admitted Mary. "It looks so stupid, and I know your mother thinks I ought to know all those things like—like old-fashioned women. I'll try it tomorrow night, Peter. I'll give you a cook book to look over, and if there's anything very wrong with the recipe, according to the way you remember it, you can tell me and we'll let it go at that."

Advice to Girls

By ANNIE LAURIE

Tango is only a romp, but girls like "Distressed," whose "Life is spoiled without it," should obey their mothers.

Dear Annie Laurie: My mother says that any one who dances the tango ought to be ashamed. She lets me waltz and two-step all right, but she's been somewhere and heard some creature talk about the tango, and so she thinks it's awfully wicked.

Nobody does anything but the tango now and I am absolutely out of it, for mamma won't let me go anywhere where they tango. Do you think I ought to stand it? Isn't there some way that I can show her how unreasonable she is, or must I just sit down and have my whole life spoiled by her prejudice?

YOUR mother thinks she knows what she's talking about, but I don't believe she does. However, that's no reason for you to leave your happy home, like the girl in the song, and it's no excuse whatsoever for you to dislike your mother or treat her with anything but love and respect.

She has just as much right to her opinion as you have to yours, and between you and me, she has a good deal more right to hers. She's older and more experienced, and, no matter what you think or don't think, experience does count. You'll find that out some day; and then who's paying your bills?

Who bought you that pretty hat you're wearing; who surprised you with a new set of bedroom furniture for your birthday? Who sets up nights thinking of some way to make you happy?

In effect that no girl could possibly waltz—and be decent.

A lot of people agreed with him, too, though they didn't write poetry about it. And, whisper, he was a good deal more right than the Tangophobes. A waltz is just twice as sensuous as any tango ever dared to be.

The tango isn't a dance at all—it's a romp—and it takes a romping hoiden who elopes with the chauffer. It's the modest little girl who can't speak above a whisper to any one but the chauffer.

You might as well call a blowy game of tennis a lure of Satan as to inveigh against the immorality of the tango. All this I believe firmly and truly, but I don't see any reason why you should commit suicide because your mother doesn't think as I do.

Your whole life won't be spoiled by the fact that you either tango or do not tango. Don't be such a crank about it. Stop talking about it and thinking about it for a while, and the first thing you know your mother will forget all about her prejudice.

It worries her to see you so perfectly carried away with the idea. Drop it, and she'll drop her opposition.

To Avoid Contagion. He—That girl with the peaches and cream complexion can't tolerate smoking. She—No. She uses smokeless powder.

Titles and Titles. "Has he a title?" "I suppose so, or she would not want a title to him."

Regulation. "What is a limited partnership?" "Oh, it must be some regulation adopted by the Mormons."

By GEORGE HENRY SMITH

Daddy's Good Night Story

JACK RABBIT was peeking out of the window one Saturday morning, when he saw the Squirrel children and Billy Possum coming lipety-clip over the snow. "Bang! Bang!" they knocked at the door.

"Come in!" said Mrs. Rabbit, and in walked the children. "We have come to hear Billy Bunny's story," said Sammy Squirrel. "Go right upstairs to the children's room," said Mrs. Squirrel. They scampered upstairs as fast as they could and into the boys' room. "We have come to hear your story," said Sammy Squirrel to Billy Bunny.

"My, but I am famous!" exclaimed Billy. "We are all writing stories ourselves," said Billy Possum. "We want to know how you do it!"

"That is a secret," said Billy Bunny. "Great writers do not tell how they write stories. I will read you what I have written if you promise not to tell any one!"

"We promise!" they all shouted at once. "Yes," said Billy Bunny, "but you must all cross your hearts." Billy Possum, Sammie and Sallie Squirrel stood up and solemnly crossed their hearts.

"You mustn't read your story before you send it to the Editor," said Jack Rabbit to Billy Bunny. "I am sorry, but I guess Jack is right. Come on down stairs and we will make fudge instead and you can read my story in 'The Woodland News,'" said Billy Bunny.

"We had rather do that than hear your story anyway," said Billy Possum. They all scampered down stairs and into the kitchen where Mrs. Rabbit let them make candy. "I'll bet those children just came over to make candy," said Mrs. Rabbit to Erer Rabbit. "They are a bright crowd," said Erer Rabbit, as he peeked in the kitchen

MONDAY MORNING, MARCH 2.

EUROPEAN INTERNATIONAL AGREEMENTS.

That the cloud of prejudice and misunderstanding which has so long darkened the relations of Britain and Germany is gradually clearing away, was shown by the intimation last month that the negotiations involving the questions raised over the Bagdad Railway and the international situation in Turkey in Asia and Persia had resulted in practical agreement. It is understood that the conventions arranged relate to the following points: 1. The British Government will not insist on the nationalization of the last section of the Bagdad Railway, which will be constructed by the German concessionaires as far as Basrah. Thence to the gulf it will be extended with regard to British interests, two British members entering the board, who will see to the enforcement of economic equality. 2. British interests will have a preponderating voice in the boards responsible for the conservation of the Rivers Euphrates, Tigris, etc. 3. While the suzerainty of Turkey is acknowledged over Koweit, the state containing the railroad terminals, its autonomy is protected and its frontiers will be fixed as required by Britain. British companies will receive the concession of river navigation and of oil well operation. Germany being given a certain right of participation.

Various smaller details remain to be finally adjusted, while Turkey will be granted right of prolongation and of increasing the customs duties and to establish state monopolies in several branches of industry. Altho the agreement may not be finally sanctioned for some time, it can be reasonably inferred that the negotiations have disclosed no serious difference among Britain, France and Germany as regards the economic future of Turkey in Asia. The chancellors have evidently come to realize that it is the general advantage to have the material resources of the district which was the cradle of civilization opened up and developed on terms of economic equality. That is a much wiser and in the end more profitable course than an attempt by diplomatic intrigue, to obtain an individual advantage at the cost of international enmity and possible war. Indeed, it appears as tho the critical situation created by the Balkan war had brought home to the great powers of Europe what a continental conflict would really involve. The immediate money stringency caused by the stoppage of credits and the economic strengthening gold reserves provided a sharp forecast of the industrial and commercial chaos that would attend a European Armageddon. Now, the nations are engaged in the slow process of restoring confidence, and it will be supported by the experience of the last eighteen months. The possibility of war is not removed, but to have learned to count its cost will make avoidance easier when trouble next arrives.

BOY SCOUT MOVEMENT.

In the annual review of the progress of the boy scout movement the chief, Sir Robert Baden Powell, records his satisfaction with the present position and outlook. The commissioners, he remarks, are socially developing better understanding of its aims and objects as well as of the methods by which these can best be carried out. This is of good omen for the future of the organization, since the result cannot but reassure the section, small but noisy, who see the spectre of "militarism," whatever that may be, in every effort to turn the restless energy and adventurous spirit of the boy into channels that will make him a better man and more valuable citizen.

General Baden Powell says that the number of scouts has gone steadily up to a greater extent than had been expected. Great Britain has now 9,000 scoutmasters and 150,000 scouts, while in the dominions there are 40,000 scouts, making a total of 200,000 British scouts. What is of even more importance than numbers is the fact that greater efficiency everywhere exists. This efficiency, due in part to the standard required by the commissioners, is more particularly due to the self-devotion and hard work of the scoutmasters. For in the training of boys in chivalry, resourcefulness, courage and obedience everything depends on the personal character, capacity and sympathy of the leader.

Reference is made in the report to the imperial scout exhibition and rally held at Birmingham, England, attended by 20,000 scouts, every part of the empire being represented. It

was, the general believes, the first occasion in history when the exhibits, displays and demonstrations were entirely provided by boys and were the result of voluntary work on their part. This, he adds, is a very impressive fact, and one which cannot fail to make many people pause and think of the possibilities which lie before the education authorities in the direction of utilizing the natural bent of the young towards their own up-bringing. Many awards of merit were granted during the year. No less than 792 gallantry awards have been issued since the commencement of the movement.

REFORMER AND INSPIRER.

Rev. R. J. Patterson—"Catch-My-Pai" Patterson—who spoke last week for the Dominion Alliance, has been described as a Presbyterian Father Mathew, and a later John B. Gough. It is perhaps more in the spirit of the former than the latter that Mr. Patterson has been so successful in his total abstinence mission. He relies less on oratory, of which he has abundance, and humor, of which he has an inexhaustible fund, than on the rare power of human influence, the strength that a man has with his friend, the innate benevolence that dwells in everything really human, the charity and love that finds more joy in rescue and redemption than in any other exercise. Mr. Patterson does not offer to do all the work himself. He interests others in a simple and effective plan for doing it. He takes no leader's pose, but sets everyone else at work with the conviction that he is helping, and has the same power to help as the person has. In the few years' activity of the "Catch-My-Pai" movement, the effectiveness of the method on the present generation has been marvelous. Mr. Patterson can rival from his experience the strange stories of regeneration told by Mr. Beagle in his striking book, "Broken Earthshakers." He has thousands of reformed, and as he says reforming drunkards at work spreading the impulse he initiated. How long it shall last, how wide it shall spread, or what lapse or reaction there may be are questions that do not detract from the facts of the results attained, scores of thousands of men restored sober to their families and such a decline in the liquor traffic in Ireland that it has affected the revenue returns. New times may need new methods, but Mr. Patterson has the distinction of having left his mark on his generation—a notable landmark of T. C. D.

CANADIAN RESOURCES AND INDUSTRIES.

With oil coming increasingly in demand as a better, and, in the long run, a cheaper fuel than coal, the imperial government has urged that no oil fields should be leased except to companies that are directly amenable to government control. It recommends as a mandatory requirement of ownership and operation that the company, or companies, engaged in the business of working oil fields within the British Empire must be owned or controlled by British citizens. This requirement is sound, and it should be imposed as a necessary condition on all companies and organizations carrying on business within the Dominion.

United States capitalists have large investments in Canada, and their settled policy is to utilize Canadian resources for the benefit of the United States. Nickel and copper mined in Canada and shipped over the border in the shape of "matte" is in a later stage exported all over the world as an "American" product. The Dominion, from its proximity to a neighboring country much further advanced in population and industrial development, is peculiarly open to this kind of exploitation. It should be the object of parliament and the legislatures to ensure that Canadian resources shall build up Canadian industries.

ONE METHOD OF APPLICATION.

The Globe adopts one method for figuring out a deficit on the civic car lines and another method of figuring out a deficit for the street railway lines if purchased. Will The Globe kindly apply its method for the civic lines to the whole system and tell us how long it would take the citizens to pay off the \$22,000,000 out of the fare boxes? The Globe says \$30,000,000, and if it insists on making it \$30,000,000 will it say how long it would take to pay off \$30,000,000 out of the fare boxes?

But let us have the period for \$22,000,000 figured as it says the civic car finances should be figured.

HOME WORK.

Editor World: In today's issue of The World there is a report of yesterday's meeting of the school management committee of the board of education. The report refers to the complaint made by Mr. Moore, that much home work had been required from his daughter, and ends by saying that a little more fact by the principal would have obliterated the whole trouble. That is incorrect. The whole trouble was caused by Miss Sloan giving an unreasonable amount of work to do at home. I knew nothing about it until Mr. Moore complained to me over the telephone that such tasks had been given on different occasions. No amount of fact on my part could have prevented that. I have not given much home work in my own class, nor have I approved of other teachers doing so. The only thing that I can be charged with is that I did not prevent the complaint from being brought before the committee.

BRITISH ARBITRATION RECORD MAGNIFICENT—JUDGE RIDDELL

Twenty-One Peaceful International Settlements Show Contrast With War of 1812—Best Way Not to Arbitrate, Says Judge, But to Reach Amicable Conclusion Thru Discussion.

"A magnificent record," was what Mr. Justice Riddell characterized the result of the twenty-one settlements of international disputes which had arisen between the United States and the British Empire since the American revolution. Justice Riddell gave an address on "The Settlement of International Disputes" before the members of the Canadian Institute in the physics building of the university on Saturday evening. The war of 1812 was spoken of as being "the most inhuman and unnecessary war in history," contrasting all the settlements with the score of disputes which were much more satisfactorily settled without a drop of blood being shed. This was the speaker's declaration of a fair decision, the settlement by arbitration was better than the best settlement by war. The ideal way, however, was not by arbitration, but by the two parties interested getting together, and by a dispassionate discussion arriving at a satisfactory conclusion without calling a third party to decide for them.

Peace Always Best.
There were several disputes which arose out of the war of independence, and they were all adjusted by arbitration. The boundary line between Canada and the United States west of Lake Superior was the subject of contention on both sides of the line some years later, and it was settled, as some people say, because Washington, the British ambassador in Washington, sent out the salmon in the Columbia River would not rise to a fly. Be it as it may, the Americans got the best of that argument, and the two parties interested were settled upon as the boundary line.

Four matters were left to arbitration by the Washington Treaty. The Alaska boundary, which was left to a committee of five, comprising representatives from England, the United States, Brazil, and Switzerland, who gave the famous Geneva award, worth slightly over fifteen million dollars to

ELECTION FIGURES HANDLED QUICKLY

Thru Genius of A. L. Whitelaw Who Organized Better Tabulation System.

TAKES NEW POSITION

Leaving Burroughs Firm, is Now Sales Manager for Ellis Company.

Mr. A. L. Whitelaw, who has for some years past been intimately known by the business men of Toronto as assistant sales manager of the Burroughs Adding Machine Company, and with whom the public generally has become acquainted to some extent during the last four years on account of his connection with the collection of election returns for the newspapers, has severed his connection with the Burroughs Company, and has accepted the position of sales manager for the Ellis Adding Typewriter Company.

In order to avoid the necessity of leaving Toronto, Mr. Whitelaw declined the position of general travelling representative, offered him by the Burroughs Company, and will remain in

A. L. WHITELAW.

his home town, where he has many friends, both in business, social and church life.

A Toronto Boy.

Mr. Whitelaw is a Toronto boy who has made phenomenal progress since securing his first position with the Burroughs Company in 1905 as a junior salesman. By 1907 his work had entitled him to a transfer to his home town of Toronto, and in a few years he became assistant sales manager.

The daily newspapers of Toronto are greatly indebted to Mr. Whitelaw's ability as a systems man in connection with the tabulation of the election returns at his municipal and parliamentary elections during the last four years, where his activity in this line has enabled the public to secure complete returns in a few hours.

Earlier than was possible previous to his association with the work.

AVIATOR BEACHEY FELL SIXTEEN HUNDRED FEET

SANTA BARBARA, Cal., March 1. While looping the loop here today Lincoln Beachey lost control of his biplane and fell 1600 feet but managed to right himself four hundred feet above the ground and escaped with slight injuries. His machine crashed into a tree but was not greatly damaged.

CAR FERRY PLAN FEASIBLE.

CHARLOTTETOWN, Feb. 28.—During the recent severe spell of cold weather when the government engineers that perform the winter service between Pictou, N.S., and Georgetown, P.E.I., were faced with heavy drift ice and prevented from making the passage, there was every indication that the operation of the car ferry between Cape Tormentine, P.E.I., and the narrow point between the capes would be a feasible one even in abnormal winter conditions. While the heavier waters of the straits were covered with huge floes that seriously menaced even navigation by ice breakers, the narrower portion between the capes only by "hull" and heavy lumber. A steamer of the car ferry type would not have experienced great difficulty in forcing a passage thru the nine miles that separate the island from the mainland. As a matter of fact it half dozen sturdy fellows made the attempt in one of the stout boats that are used for this purpose, and succeeded in forcing a passage thru the narrow channel, and as soon as navigation opens there will also be large shipments of material by water from Point du Chene. With the terminals finished and the car ferry in readiness the need for a better service over the straits will be at last in some measure met. The I.C.R. will take the branch lines over or else make such arrangements to lease that the present owners will be able to put the route in such physical condition as to render it fit for heavy traffic. With these things accomplished it is felt that Prince Edward Island will be at last in some touch with the mainland, and that winter navigation will be shorn of its terrors and inconveniences.

AT OSGOODE HALL

Osgoode Hall, Feb. 28, 1914.

Notice.

At a meeting of judges of the Supreme Court of Ontario, the tariff of solicitors costs in the surrogate court, as prepared and presented, was amended by striking out the word "and" in item 8, and added to come into force on 16th March next.

The proposed revised division court rules and forms were amended in certain respects by the court, and approved and directed to be certified as amended to the proper authorities.

The Ontario court of solicitors' fees was amended by inserting at the end thereof (page 211, line 7) the following clause: "In the Counties of Carleton, Middlesex, Wentworth and York, where a clerk may allow the increase, subject to an appeal to the judge. Upon any such appeal the exercise of discretion by the clerk shall be subject to review, and ordered the rule to come into force forthwith."

Motions set down for single court for Monday, 2nd March, at 11 a.m.:

1. St. George's Marions v. Rose.
2. Re Van Westrum and Lake Erie.
3. Re May estate.
4. Forster v. Torry.
5. Dorney v. Burney.
6. Re Gavlin and Ottawa.
7. Shipman v. Phin.
8. Chisholm v. Sutton.
9. Stone v. Clark.
10. Snider v. Snider.

Peremptory list for appellate division for Monday, 2nd March, at 11 a.m.:

1. McCallum v. Heit.
2. Flavell, Limited, v. Cohen Bros.
3. Watts v. St. Catharines.
4. Acheson v. Acheson.
5. Northern Electric Co. v. Cordova Mines.
6. Krusznicki v. C. P. Railway Co.

Master's Chambers.

Before J. A. C. Cameron, Master.

Hazen v. Green—F. H. Barlow, for plaintiff, obtained order on consent dismissing action without costs and vacating his pendens.

Smyth v. York Land Co.—Gintzler (Heyd & Co.), for defendant, obtained order on consent dismissing action without costs, and vacating his pendens.

Front v. McCallum—G. W. Adams, for plaintiff, moved for order striking out certain paragraphs of claim as embarrassing. H. E. Rose, K.C., for plaintiff. Enlarged until 2nd March.

Murray v. McCallum—G. W. Adams, for defendant, moved for order striking out certain paragraphs of claim as embarrassing. H. E. Rose, K.C., for plaintiff. Enlarged until 2nd March.

Wesley Motor Car Co. v. Jackson & Potts—H. C. Cassels, for plaintiff. Brose, third parties, moved to set aside third party notice. J. J. Maclellan for chairman and introduced several speakers, including Rev. J. W. Fedley, J. W. Bengough, W. A. Douglas and A. E. Farmer. Arthur Hemingway sang "Crossing the Bar."

FELS MEMORIAL SERVICE.

A memorial service for the late Joseph Fels, the millionaire social reformer and single taxer, was held in the Western Congregational Church yesterday afternoon. The first part of the service was conducted by the brotherhood of the church, after which Controller J. O. McCarthy acted as chairman and introduced several speakers, including Rev. J. W. Fedley, J. W. Bengough, W. A. Douglas and A. E. Farmer. Arthur Hemingway sang "Crossing the Bar."

WATERLOO COUNTY CLUB.

GALT, March 1.—(Special.)—The annual meeting of the Waterloo County Golf and Country Club was held yesterday at the club house, and striking reports were received and adopted. Dr. Vardon was elected president in succession to R. McCulloch.

METHODIST FUNDS COMING INFASTER

Thirty Thousand Dollar Increase This Year in Mission Money Returns.

LESS INTEREST PAID Than Last Year to Banks, Thru Revelations in Secular Press.

A significant increase in the total receipts of the Methodist mission board is reported. While the total was but \$77,747.73 the total received for this Methodist fiscal year is \$110,879.31.

In view of the contrasting financial conditions of the two years the prompt remittances by local treasurers this year is regarded as noteworthy. It is attributed in a measure to recent disclosures in the secular press of the enormous waste in interest paid for borrowed money, which delay on the part of local treasurers caused last year.

When Going to Montreal Travel Via the Fastest Line.

Leaving Toronto 8:00 a.m. or 10:45 p.m. daily, arriving Montreal 6:00 p.m. and 7:40 a.m. respectively, via Grand Trunk Railway System, over the "only double track route."

Other good train leaves Toronto 8:30 p.m. daily and arrives Montreal 7:01 a.m.

Day train carries parlor-library, dining car and first-class coaches. Night trains carry electric lighted Pullman sleeping cars and first-class coaches, also "Club Compartments" which is operated to Montreal and Pullman sleeper to Ottawa on 10:45 p.m. train.

Those who desire the finest in every respect and afford the latest public an excellent opportunity of reaching Montreal in a most seasonable time, either in the morning or evening.

Berth reservation and tickets at all Grand Trunk ticket offices, or write C. E. Hooping, district passenger agent, Toronto, Ont.

DEATH OF A. C. IRVING.

A. C. Irving, former reeve of Manitowaning and a well-known Manitowaning Conservative, died on Saturday night. He was sixty years of age, during thirty of which he had been a prominent merchant in his home town. He was a brother of Sheriff Irving of Sudbury and is survived by his widow.

SMITH OF SMITHS NOW IN TORONTO

President of Organized Families of America Here on Visit.

SPOKE ON OSTEOPATHY He is Regarded as Foremost Authority on the Subject.

The Smith of the Smiths otherwise known as Dr. Ralph Kendrick Smith of Boston, president of the Small Organization of America, spent the week-end in Toronto as the guest of the Toronto Association of Osteopaths...

His address was a logical and well-thought-out presentation of the osteopathic theory and practice. He declared that osteopathy is a quarrel with medicine, and that of all the schools of practice, outside of medicine and surgery, osteopathy had at the present time more students than homeopathy, eclectic, or any other.

Dr. Smith was introduced by Dr. Theodor Pateck, president of the Toronto Association of Osteopaths. He was also entertained by the American Club during the afternoon. The Toronto Association has decided that it is in order to obtain from the Ontario Government the protective legislation they have in order to keep out unscrupulous practitioners, they will publish a directory of properly qualified osteopaths for the information of the public.

HAMBURG-AMERICAN TO START WEEKLY SERVICE

OTTAWA, March 1.—(Special).—The announcement that the Hamburg-Canadian Line proposed to organize a Canadian service of its own is made by C. F. Just, Canadian trade commissioner at Hamburg, in his latest report to the department of trade and commerce. Mr. Just states that the proposal is to make the service a weekly one. The service company has definitely decided to organize an Australian service of 24,000 tons.

THE WEATHER

METEOROLOGICAL OFFICE, Toronto, March 1.—(6 p.m.)—A storm of exceptional severity, which has moved rapidly from the Gulf of Mexico, is centred to-night over Long Island, New York, and record wind velocity has been reported from Lake Ontario, and heavy gales are now settling in over the Maritime Provinces. Milder weather has set in over the western provinces, and in Alberta temperatures of 90 degrees have been recorded.

Minimum and maximum temperatures: Dawson, 9-14; Atlin, 9-16; Prince Rupert, 10-14; Victoria, 44-48; Vancouver, 41-50; Kamloops, 30-48; Edmonton, 24-50; Banff, 19-44; Prince Albert, 8 below, 22; Calgary, 23-48; Medicine Hat, 22-48; Regina, 1-31; Qu'Appelle, 2-23; Winnipeg, 15 below, 19; Port Arthur, 14 below, 12; Fort Smith, 4-14; London, 13-34; Toronto, 9-30; Ottawa, 12-34; Montreal, 31-29; Quebec, 23-31; Halifax, 22-40.

Lower Lakes and Georgian Bay—Northwesterly to westerly gales, decreasing by night; fair and cold. Ottawa Valley and Upper St. Lawrence—Northwesterly and westerly gales; decidedly cold, with snow at first, then clearing.

Lower St. Lawrence and Gulf—Easterly gales, with snow and sleet; then westerly gales and much colder. Maritime—Easterly shifting to northerly and westerly gales, with rain and snow, turning colder again during the night.

Lake Superior—Fair and cold today; rising temperature on Tuesday.

SHIPPING POOL TOO POWERFUL advertisement: United States Unable to Dissolve Gigantic Combination Without Disaster. TRUST IS BENEFICIAL.

Shippers Benefit by Agreements Made, Reports Committee of Congress. WASHINGTON, March 1.—Foreign and domestic shipping of the United States is so combined by agreements, pools and confederate arrangements that an attempt to dissolve the combinations would cripple trade.

Shippers Get Advantage. The final recommendations set forth that shipping lines in practically every trade route from or to United States ports are operated by agreement or conference to restrain competition. The report declares that the advantages accruing to both shipper and ship line thru these agreements are so great that the combinations should be allowed to continue.

Huge Consolidation. "Nearly three-fourths of the line tonnage operating in the American coastwise and great lakes trade is owned or controlled by railroads and shipping consolidations," says the report. "Even as regards bulk carriers there is a strong tendency towards the establishing of a community of interest between the owners. This is especially indicated in the great lakes, where a community of interest thru common officers, directors or large stockholders, or charter relations exists between 37 groups of bulk carriers representing three-fourths of the American bulk tonnage on the great lakes."

Prohibit Rebating. As to foreign shipping the committee recommended that all agreements and understandings between navigation companies or such companies and railroads or shippers be filed with the interstate commerce commission, that the commission be authorized to determine the reasonableness of rates and to order rates changed; that rebating be prohibited by law; that the commission be empowered to enforce fair treatment of all shippers; and that the use of cut-throat "fighting ships" and deferred rebates be prohibited.

The committee recommended that the jurisdiction of the interstate commerce commission be extended to

Senators Trim Ontarios Before Handful of Spectators

ONTARIOS LOSE TO OTTAWA, OVERTIME

Bytown Boys Succeeded in Getting Three Goals by Herbert After Hundred Shots.

Ottawa defeated Ontarios here Saturday night at the Arena in nineteen minutes overtime by the score of 3 to 2 and incidentally exposed themselves in a place secure from the attacks of their rivals, Quebec. The game was rather a surprise to the local fans, as they had hardly expected to see the green shirts stand up so well against the Bytown boys. As this was the final appearance of both teams had no bearing on the championship, the game was not particularly important.

The game was very fast, faster even than a great number of the championship affairs that have been staged here this year, and the play for the greater part was full of thrills and exciting work. Ottawa were the better team on the play, but the breaks were against them most of the time. Time after time the little Herbert all by himself, but the little fellow was equal to the occasion, and his great efforts were the only thing that saved the score from piling up lopsidedly. Ottawa were badly weakened thru the absence of Leaneur, Merrill and Shore. Benedict took Leaneur's place in goal, and was just as good as his captain. It is hard to find substitutes that will jump into the game and be as good as Merrill and Shore, but Gerard and Wilson tried hard and what they lacked in skill they made up by their energetic work.

Gerard was the hero of the night. The big fellow showed up better than he has on any of his former visits. Just as he was in the Rugby game the malady of the Ottawa team Saturday night with the Bytown boys badly crippled he took the helm again and piloted the red and white to victory. His good judgment saved many tallies, while from his end to end rushes resulted the tallies for the home team. Ronan and Durrash were his faithful partners, and they stayed with the puck all their unvarying consistency. Many a bigger man under the same conditions would have given up in despair. He came to life and gave an exhibition of just how good he could play if necessary. He checked well and checked the puck such that the ballside soon began to take notice. Rather late to start, but Fred Lake and H. McNamara with their sizing end to end rushes were always in the game and their attempts were usually spoiled by the absence of the Ottawa makes when their opponents' defence was reached.

Ottawians Show Form.
McDonald was away off form and rarely did anything in the play. Doherty fished intermittently, while the stuff that gets goals into the net, whole put up a good game, but Herbert can be given most of the credit for the prolonging of the result, which would have been far different if he had not been there. Ontario on the other hand are some of the prestige they have lost this season. Ottawa on the other hand are to be greatly praised for their efforts in trying to win even though they were up against a weaker team and the title was unobtainable.

The game opened with a rush and the puck traveled at a terrific rate up and down the ice. McNamara broke away twice, and after beating the defence failed to net the rubber. Doherty also took a hand in the rushing and his efforts came within inches of tallying. Ottawa seemed to be lying low waiting for an opening and were content chiefly with checking the stick. McNamara stopped a rush on his net and set sail for his opponents' net. After zig-zagging his way toward the goal, he drove a hard one at Benedict, who failed to handle it. It took eleven minutes to get this tally. Ontario took a brace and Lowery duplicated two minutes later, and incidentally it was his first tally here this season. With the score standing two to one against them, Ottawa started to play more work and the combination work that they had been neglecting began to show itself. Gerard went down and let go at Hebe-

HOCKEY RESULTS

Team	Score
Ottawa	3 Ontarios 2
Canadiens	5 Wanderers 2
Quebec	5 Wanderers 2
Intercollegiate Union	3
Intermediate Final	3
R.M.C.	6 Varsity 11
Aurora	2 Tourney 2
A. R. Clarke	6 Aurora 2
W. T. Vics	6 Aurora 2
Exhibition	
Ottawa College	3 Princeton 2

The puck hit his pads and Ronan slipped and scooped it into the net. The first period ended soon afterwards with the score 2 to 1 in favor of Ontarios.

Second Period Scoreless.
In the second period both teams began to play great hockey. Ottawa, with their two and three men combinations, were making things interesting for Herbert and the Ontario defence. Their shooting was good, but the great work of Sammy saved the day. In this period Herbert turned away more shots than are usually seen in a whole game. The defence tried to keep the puck in the end, but the Ottawa forwards were so good that they were able to get into the goal. In this period the Ottawa forwards were so good that they were able to get into the goal. In this period the Ottawa forwards were so good that they were able to get into the goal.

Durrash Did the Trick.
The overtime saw Ottawa outclass the locals all the way and they rained scores of hard shots on Hebeur's net. The teams turned aside. Science and team play were the order of the day. Both teams and individual rushes featured the game. The puck was baited around in the end, but the Ottawa defence was so good that they were able to keep the puck out of the goal.

Summary.
1. Ontarios..... 11.00
2. Ontarios..... 2.00
3. Ontarios..... 2.00

Oxford Runner Makes a Record.
OXFORD, England, Feb. 28.—Arnold N. S. Jackson, the famous Oxford University miler, who won the 1500-metre race in Stockholm in 1912, beating John Paul Jones, Abel Kivist and Norman Taber after, perhaps, the most sensational mile finish on record, ran another magnificent mile today in the Oxford University event, beating his erstwhile opponent, Taber, who is a Rhodes scholar at Oxford, by seven seconds. His time was minutes 23-5 seconds, which is the Oxford record.

Jackson is taking the Oxford team to America next month to compete at Philadelphia. In the team will be Oxford's four best milers, including Jackson and Taber, who will take part in the four-mile relay race. J. B. Havens, formerly of Rutgers College, and now a Rhodes scholar at Oxford, won a heat in the hundred yards today in 10-1-5 seconds. He also won a hurdles heat. The finals will be run on Monday.

CANADIENS ALSO WON IN OVERTIME

Wanderers Tied the Score on Three Occasions—Players Mixed It Up.

MONTREAL, March 1.—Battling for nearly three minutes overtime, Canadiens made it four straight, when they defeated the Wanderers in their N.H.A. fixture at the Arena on Saturday night, by 6 to 5. The water-covered surface put combination play out of the question, both teams depending altogether on the individual rushes of their forwards. On three occasions the score was tied, the winners leading at the conclusion of the opening period, while at the end of the second session the Wanderers had assumed the lead. The only goal scored in the final twenty minutes of regular time was secured by Scott, which placed the teams on equal terms.

The players mixed it up generally at times, getting beyond control of the officials shortly after the commencement of the play, and from then on almost all regulations were forgotten. Men of both teams got away with numerous offside, and used the "nut-and" and "cross-check" almost at will in the second and third periods. Ross and Scott were the only players to draw majors.

From an offside play near the Wanderers' goal in the overtime period, Berlinguette secured the puck from the face, and, taking a shot from long range, scored the winning goal, giving Canadiens a new lease of life in the championship race. Line-up:—
Canadiens (6)—Goal, Veinaz; defence, Dubau and Lavolette; centre, D. Smith; wings, Scott and Berlinguette.
Wanderers (5)—Goal, Leblanc; defence, Ross and S. Cleghorn; centre, Kendall; wings, Roberts and Hyland.

Summary.
1. Canadiens..... 27
2. Wanderers..... 8.00
3. Canadiens..... 8.25
4. Wanderers..... 8.50
5. Wanderers..... 1.50
6. Canadiens..... 1.50

10. Canadiens..... 3.40
11. Canadiens..... 2.20

NEW ORLEANS BEAT PICKED TEAM.
NEW ORLEANS, March 1.—The New Orleans Club defeated a picked-up team of Cleveland and Toledo players today, 3 to 4. The score:—
New Orleans..... 4 4
Cleveland..... 8 12

HOCKEY GOSSIP

Ontarios must shoot a little straighter on Wednesday to beat Canadiens in Montreal; otherwise Toronto will have to make themselves champions by defeating Wanderers at the Arena in the last game of the schedule. Should Canadiens win, the Canadiens will be champions, but it is hardly likely.

McGILL SWIMMERS STILL CHAMPIONS.
MONTREAL, March 1.—The McGill swimmers defeated the Toronto Varsity representatives in six out of the seven events on Saturday, and retained the intercollegiate aquatic championship which they captured at Toronto a year ago. George Hodgson turned out at the last minute to help his alma mater win the relay race, which was worth eight points to the red and white.

Herbert Returns To Toronto.
Pitcher Herbert has been released by Brooklyn to Toronto. Drummond Brown, the off with the Feds, has recommended that Coach League pitcher with a record last year of 23 games won out of 23. President McCaffery, and he'll have Kelley investigate further before giving out his name or inviting him to Marlin.

TORONTOS BEATEN WATER ON THE ICE

Numerous End-to-End Rushes and Fierce Attacks Mark Match at Quebec.

QUEBEC, March 1.—In a match that was remarkable for its numerous end-to-end rushes and fierce attacks on the respective goals, the Torontos went down to defeat last night before Quebec by a score of 6 to 3. The ice, owing to the mild weather, was in poor condition, with water over it in many places. Notwithstanding this drawback the match was extremely fast, the pace and heavy ice telling on the men.

The third period was hard contested and every man played square on him. Quebec (6)—Goal, Moran; point, Hall; cover, Mummary; centre, Smith; wings, Malone and Crawford.
Torontos (5)—Goal, Holmes; point, Cameron; cover, Marshall; centre, Foy; wings, Davidson and Walker.
Referee: H. Hulford. Judge of play: H. Westwick.

Summary.
1. Quebec..... 2.40
2. Torontos..... 4.05
3. Quebec..... 1.25
4. Quebec..... 1.10
5. Quebec..... 5.00
6. Torontos..... 5.00
7. Torontos..... 5.50

BUSY WEEK AHEAD FOR THE O. H. A.

A meeting of the sub-committee of the O.H.A. will be held in the Telegram building this morning to consider the case of Rioridan of Oshawa, who has been protested by Belleville. This week's O.H.A. games are as follows:—
Tuesday, Orillia play in Oshawa in the junior semi-final, and Oscar Bernhardt, the referee, will not be able to officiate, as he sprains his ankle on Saturday night in a hockey match at Aurora.
Orillia intermediates will play in Brantford on Tuesday night, and the return game in Orillia on Friday night.
The return game of the senior final will be played on Thursday night at the Arena, and T.R. & A.A. will attempt to pick their one-goal lead over St. Michaels.

R. M. C. HAVE FOUR GOALS ON VARSITY

R. M. C. won the first game of the Intermediate Intercollegiate on Saturday afternoon, when they defeated Varsity II by the score of 6 to 2. It was a listless affair from start to finish, and although for the greater part of the time the score was close, the play failed to entuse even the few supporters that were in attendance. The absence of their star man soon showed its effect on the losers, and Barwis and MacCauley were the strongest men on the winners with their great individual rushes and their scoring abilities. Varsity opened the scoring, only to have the Kingston boys get two before half time, making the score at that stage 2 to 1 in favor of R. M. C. The blue and white tied things up just after half time, but faded badly and the cadets swamped them with their tallies.

Summary.
1. Varsity..... 8.00
2. R.M.C..... 1.80
3. R.M.C..... 15.00
4. Varsity..... 2.00

Tesreau Signs Long Contract With Giants

Opening Season Ahead of National and American—About Bill Bradley.

MARLIN, Texas, Feb. 28.—Important developments today in the training camp of the Giants were the arrival of Christy Mathewson and Fred Snodgrass, neither of whom have signed a contract; the announcement of Arthur Shafer's permanent retirement from baseball, the coming of Harry N. Hempstead, president of the Giants, with the signing of war and the capitulation of "Big Red" Tamm to a three-year sentence to play with the Giants.

Murphy Was Merely Minority Stockholder.
NEW YORK, March 1.—Altho the deal whereby Charles Webb Murphy and the National League parted company was completed more than a week ago, mystery continues to envelop the transaction. Murphy stated that he received more than a million for his majority stock in the Chicago club and still retains his interest in the grounds on which the stands and fields of both the Chicago and Philadelphia National League clubs are built.

Toronto Hockey Teams Win at Aurora Tournay

Two good games were decided Saturday night at Aurora, tournament of the O.H.A. The first was a 6 to 2 victory over the Aurora team, and the second was a 4 to 2 victory over the Aurora team. The first game was a 6 to 2 victory over the Aurora team, and the second was a 4 to 2 victory over the Aurora team.

Rube Waddell on Booze and Cigaretts

PITTSBURGH, Feb. 28.—Using the careers of baseball heroes, past and present, to illustrate his points, Alderman Rube Waddell, once a member of the Yankee club, but now a member of the Pittsburgh club, was speaking at a club of boys advocating clean living.

NO RELIGION IN PUBLIC SCHOOLS

Bishop Scollard, in Opening Separate School at Soo, Spoke Pointedly.

TEACHERS CENSURED

Think Only of Shirking Hard Work and Drawing Their Salaries.

SAULT STE. MARIE, Ont., March 1.—(Special).—St. Mary's school in the foreign section of Sault Ste. Marie was formally opened this afternoon by Rev. Bishop Scollard of North Bay.

Preceding the opening, his lordship gave a very forceful address in the Italian Catholic Church in which he emphasized that the school was a Catholic one and that it was the duty of all Catholic parents to send their children to that school and to support it to the utmost.

Bishop Scollard's address in this connection was all the more significant because of the incident which led up to the building of the school. Owing to the fact that the children were compelled to cross three lines of railway tracks in order to attend a separate school in the Town of Steelton, and because of the alleged neglect on the part of the separate school board of Sault Ste. Marie to provide the foreign section in the west end of the Soo with proper school accommodation, about two hundred Italian families last year petitioned the city council to erect a public school in their ward, declaring they would support it. They preferred they would support it. They preferred they would support it.

On the strength of this petition a public school was erected and is now being attended by 112 Italian children immediately upon the work being started on the public school, the separate school board decided to erect a four-roomed school on the opposite side of the tracks on the same street.

Criticized Teachers. Bishop Scollard was very emphatic in his instructions that it was their duty as Catholics to take their children out of the public school and send them to the separate school. In support of his contention he stated that the separate schools throughout Ontario would compare favorably with the public schools, the difference between the public school teacher and the sisters being that the sisters had a conscience and worked every minute of their time, while the public school teachers only thought of putting in their time as easily as possible and drawing their pay.

The speaker referred to the "mistaken idea held by some Italian Catholics that it was sufficient if they sent their children to church for a couple of hours on Sunday to get religion. They thought there were too many prayers in the Catholic school. There is no God in the public school," said the bishop, "and they teach no religion."

WAS DRAGGED TO DEATH WHEN HORSES RAN AWAY

BURKS FALLS, Ont., Feb. 28.—James Totten was killed near Spruce-clade today. He was taking a load of bark to the railway station when his team took fright and ran away, upsetting the load on the unfortunate man. He was dragged some distance and his life crushed out.

LAST OF THE FAMILY.

(Special to The Toronto World) BROCKVILLE, Ont., Feb. 28.—Mrs. Eliza A. Wilkinson, widow of the late Thomas Wilkinson, died here today at the age of 82. She was the last surviving member of the family of Arthur McLean, C. E., father of Oranjeston in Canada, and sister of the late Mrs. Matthew Sweetnam of Toronto.

BRIDGE CONTRACTOR DEAD.

NEW HAMBURG, March 1.—James A. Vance, aged about fifty years, a prominent resident here, died last night. He was largely engaged in bridge contracting. He was a village councillor here and leaves a wife and large family.

HYDRO MAY BUY PLANT.

WINDSOR, March 1.—The first step in the purchase of the Walkerville Light and Power Co. by the Hydro Commission was taken when Hydro Commissioner Hatcher interviewed Mr. Murphy, manager of the Light and Power Co., for the purpose of having an inventory taken and presented to the commission for consideration.

World's Supply of Lacrosse Sticks Are Made in Canada

(Special to The Toronto World) CORNWALL, Ont., March 1.—G. Russell, manager, American consul at Cornwall, has sent a report to his government, of which the following is a summary: "The only lacrosse stick factory in the world is located at Cornwall, Ontario. The game originated in this region, and the Indians have special skill in whittling the handles of the sticks. The factory employs ten Indians besides several white men. Three-fourths of the product is consumed in Canada, the rest going to the United Kingdom, Australia and New Zealand, except one per cent., which is sent to the United States, principally to the Carlisle Indian school and Ithaca, N. Y. About \$3000 worth of hickory wood, of which the sticks are made, is annually imported from the United States, while the gut comes from England."

EUROPE'S QUOTA WILL BE LESS

Number of Immigrants for Canada This Year is Cut Down.

FINANCIAL STRINGENCY

Amount of Money Available for Passages Has Been Reduced.

Steamship officials are expressing the opinion that the immigration to Canada from Europe this season may fall below that of last. All present indications point to this. It follows as a direct result of the tight money situation.

Investigation has shown that the majority of those who come to Canada from European countries do so with funds sent them from their fellow-countrymen who have preceded them to the Dominion. The slack season has caused a marked shortage in the money available for this purpose. A consequent result will be a big cut in the numbers of those coming over.

Trust the Banks. In the case of the Jewish immigration to the Dominion the tightness of money is to have a very marked effect. It has been found that the Jewish citizen will not withdraw funds from his bank deposit, but instead has been adopting the practice of purchasing transportation to bring others out from the steamship agents. This they obtain at so much down and so much a month until the amount is paid. The agents had, of course, to pay the steamship companies outright for this transportation, but charged those who purchased it from them on the installment plan as high as ten per cent. for the privilege.

This extra charge was paid that bank account might remain intact. This season, however, the booking agents have been unable to obtain the necessary funds to carry out this system, and a dropping off in the steamship traffic of this class of immigrants is to follow.

Letters Are Pessimistic. The sending of money from the Dominion to bring others out is perhaps not done to so great an extent in the case of the British immigrant. The letters sent from Canada to the old country are, however, a big factor in the matter and so much has been written of the slack season experienced that the number of Britishers who come out this year may not show any increase over last season.

MANY CANDIDATES FOR GALT PULPIT.

GALT, March 1.—(Special).—The Central Presbyterian Church pulpit has been vacant since the resignation of Rev. Dr. Dickson, pastor for forty-eight years. Candidates for the vacancy are being heard and several gifted preachers have occupied the pulpit. Mr. Davidson, Westminster Church, Toronto; Mr. Dowling, Deseronto, and Mr. Keith, Peterboro, the last mentioned taking the service today. When the Presbytery meets here March 17 another stage will be reached towards settlement.

RESIGNS PLACE IN CORNWALL COUNCIL

Election Will Be Held Next Monday to Replace William Lalonde.

TO TRANSFER LICENSE

Stormont Commissioners Will Be Asked to Grant Request of George Prieur.

(Special to The Toronto World) CORNWALL, March 1.—Application has been made by George Prieur for permission to transfer his hotel license for the Maple Leaf Hotel, East Cornwall, to Daniel Leroux. A meeting of the board of license commissioners for the license district of Stormont will be held on a trip through the northwest and British Columbia for the benefit of Mrs. Prieur's health. They will be absent about two months and will make their home in Cornwall on their return.

Councillor Resigns. At a special meeting of the town council the clerk read a communication from Wm. Lalonde, resigning his seat as councillor for the East Ward. Dr. Munro and Councillor Arnell moved that the resignation be accepted and that an election be held to fill the vacancy on Monday, March 9. A bylaw was introduced and passed authorizing the mayor and clerk to sign a petition to the Ontario legislature for a special act to confirm the agreement entered into by the corporation with the McGill Chair, Limited.

High McDiarmid of Avonmore was in town yesterday on business in connection with the annual fair of the Roxburgh Agricultural Society for 1914. Mr. McDiarmid is one of the oldest working members of an agricultural society in the province.

A moving picture exhibit of the provincial board of health will be shown in the Music Hall, Cornwall, on Monday evening of Friday, March 6. The afternoon session is chiefly intended for school children. The district officer of health, Dr. P. J. Moloney, will be present and address the meetings. Tickets will be taken by Mayor D. J. Gillies.

Newberry-Scott Wedding. At Knox (Presbyterian) Church marriage, Cornwall, Ont., was celebrated, daughter of Mr. and Mrs. DeLorne J. Scott, of Cornwall, formerly of Toronto and ex-cyclist, and son of Mr. and Mrs. F. Newberry of St. John's, Newfoundland. The ceremony was performed by the Rev. Dr. Robert Harkness, the bride was given away by her father, looked exceedingly charming in her traveling costume, a light suit of green, white, pink furs and black velvet silk. The young couple were unattended.

The annual reunion of Covenant Chapter, No. 113, Royal Arch Masons, Cornwall, was held in the Masonic Hall here on Friday afternoon and night. There was a large attendance, companions being present from Montreal, Ottawa, Kingston, Maxville, Lancaster, Pinch, Avonmore, Summers-town, Oranjeston Centre, Wales and Moultonville. Ex. Comp. T. E. Fletcher, first Prin. Z. of Covenant Chapter, presided. A lodge of Mark Master Masons was opened and the degrees conferred on the candidates, with Wor. Bro. T. E. Fletcher acting as worshipful master. The degree of Most Ex. Master was conferred with Wor. Bro. H. Williams as worshipful master. An adjournment was then made for dinner. When the chapter resumed for the evening session, Rt. Ex. Comp. C. J. Hamilton, M.D., took charge, and the Royal Arch Degree was conferred on several candidates by the officer in charge. The reunion was one of the most successful ever held under the auspices of the chapter.

W. Gibbons is President. The annual meeting of the Cornwall Board of Trade was held last night at the council chamber in the town hall. The following officers were elected: President, W. Gibbons; vice-president, C. H. Cline; secretary, Robert Dodd;

treasurer, E. O'Callaghan; council, P. E. Campbell, W. V. Boyd, J. C. Aigue, A. E. Currie, A. McCracken, J. E. Sneltinger, J. A. Chisholm, G. R. Phillips, S. Morgan Gray, N. J. Frison, William Hodge, George A. Stiles. Mr. W. Hodge, the retiring president referred to the progress being made in the construction of their electric transmission line by the Cedars Rapids Power and Development Co., and said it was now reported that the power would be available in Cornwall by the fall of 1914, but in any event not later than the spring of 1915. Dr. Cavanagh also stated that there was good prospect of the construction of the Glangarry and Stormont Railway, which will run from Cornwall to St. Polycarpe, P.Q., to connect with the C. P. R. Being proceeded with immediately, a resolution was passed in favor of co-operating with the Associated Boards of Trade to secure the payment of cartage charges at shipping points.

RIVER IS DISCOVERED BY ROOSEVELT PARTY

RIO JANEIRO, Feb. 28.—Colonel Theodore Roosevelt and his party have arrived in the vicinity of Jose Bonifacio, after having traversed the hinterland of San Luis de Cáceres. No great difficulties were encountered and many observations of interest were made. The party discovered a river heretofore unknown.

SAVE BIG MILEAGE BY CAPREOL LINE

Wheat Will Be Taken Direct to Montreal by Canadian Northern.

TORONTO IS AVOIDED

New Line to Be Completed by Harvest Time This Fall.

Wheat will pour into Montreal over the Canadian Northern transcontinental via the Capreol-Ottawa short line this fall. Definite announcement of this has now been made by the railway company.

Had a wheat congestion occurred this season, it had been the intention of the C.N.R. to relieve it by bringing wheat this winter from Port Arthur south to Toronto, and thence via Ottawa to Montreal. The earliness of this year's crop and the increased elevator facilities at Port Arthur rendered this course unnecessary, however. Announcement is now made that instead of this it is the intention of the C.N.R. to concentrate the entire force of workers made available thru the completion of the western portions of the transcontinental on the finishing up of the short route between Capreol and Ottawa. By bringing the wheat over this line a saving of several hundred miles will be effected.

To Rush Construction. Thousands of men are to be placed on the Capreol-Ottawa line this spring, and it is estimated that three months will see the grading completed. Of the distance of 304 miles, steel has been laid for 156 miles, and it is the intention to rush matters so that the grading, laying of steel and ballasting of the whole line will see completion, and the line be ready for service early in the fall.

DEVOTION TO LAST FOR FORTY HOURS

Adoration at St. Michael's Opened with High Mass Yesterday Morning.

The devotion of the 40-hours adoration was opened at the high mass, commencing at 10:30 yesterday morning, in St. Michael's Cathedral. Rev. Dr. Grant was celebrant, with Rev. Mr. Clancy, sub-deacon. Rev. Father Bonviver of the cathedral staff was preacher. The archbishop assisted at the mass, and at the conclusion carried the blessed sacrament in procession thru the aisles of the church. The preacher at the evening service was Rev. Father Kehoe of the teaching staff of St. Augustine's Seminary. During the 40-hour devotion, which continues today and Tuesday, the preacher at the evening service this evening, commencing at 7 o'clock, will be Rev. Dr. Morrisset of St. Augustine's Seminary, and the preacher at the evening service of Tuesday will be Rev. Dr. Grant, also of St. Augustine's Seminary. The closing mass on Tuesday will be celebrated at 9 a.m.

FREE IF YOU CAN SOLVE THIS PROBLEM! FREE

As an advertisement we will give these awards absolutely and unconditionally free to the persons sending in the NEATEST correct solution of the "TWENTY-SEVEN PROBLEM." There is positively no lot or chance connected with the solution of this problem. It is a contest of skill. The NEATEST correct solution of the problem will be awarded the Piano, and the other awards will be distributed in the order of merit. Everybody who sends in a correct solution will be awarded a prize. (Copyrighted 1913—All rights reserved.)

First Award A Beautiful Doherty Upright Piano Value \$425	6	Fourth Award A Beautiful Violin, complete with case
Second Award A \$375 Upright Piano for \$125.	9	Fifth Award A Handsome Guitar, complete with case.
Third Award A \$375 Upright Piano for \$150	12	And 88 additional awards to the next 88 neatest correct solutions.

DIRECTIONS: Take the numbers from 5 to 13 inclusive, and place them in the squares so that when added together vertically, horizontally and diagonally, the total will be TWENTY-SEVEN. No number can be used twice. Use this or a separate piece of paper or other material.

The gentlemen who have consented to act as Judges are a guarantee that the awards will be distributed to those who are entitled to them. In case of a tie, the Judges being unable to decide between any two solutions, each will receive equal awards.

DON'T DELAY, SEND IN YOUR SOLUTION QUICKLY, YOU MAY GET THIS BEAUTIFUL PIANO

All answers must be in our store on or before Thursday, March 12th, 1914

UNITY, NOT UNION DISTINCTION DRAWN

Professor Cosgrave of Trinity College Spoke on Interdenominationalism.

GREATER FRIENDLINESS

Is Goal Being Striven For—The Sermon at St. Stephen's.

"The Unity of the Church" was the subject of a sermon by Professor Cosgrave of Trinity College at St. Stephen's Church yesterday morning.

In opening his sermon, the professor drew attention to the rise of internationalism, or the increase in the degree of friendliness between nations. This international spirit was, in the opinion of the speaker, necessary for the progress of civilization. He stated that in the earliest days civilization which existed between the nations of the earth. As the progress of civilization demanded internationalism, so did the welfare of religion require a degree of interdenominationalism.

Prof. Cosgrave did not advocate any form of church union, as he deemed that impracticable, but he did advocate a greater degree of church unity. He felt that it was time for all the Christian denominations to seek grounds of friendliness and to work in greater harmony with one another for the common good. Growing Better. He noted the progress made in this

THIS WEEK'S ATTRACTIONS AT THE THEATRES

EUGENE BLAIR AT THE GRAND

TOM TERRISS AT THE PRINCESS

PAT WHITE AT THE GAYETY

LOUISE MAYO AT LOEW'S

MADGE HAMILTON AT THE STAR

A. E. ANSON AT THE ALEXANDRA

Mr. Anson Coming. Of the many English actors who will visit Toronto this season, none is more worthy of consideration than Mr. E. A. Anson, who is well remembered here for his splendid work with the New Theatre Company some four years ago. Mr. Anson returns to Canada this time with his own distinguished company and is presenting a comedy-play "Nobody's Daughter," which has to its credit a run of eight months at St. Charles Wyndham's theatre, London.

"The Big Jubilee." Beginning with the usual Monday matinee, The Gaiety Theatre will have for its following attraction, one that is new to the patrons of this house. It is "The Big Jubilee" and from this newspaper criticisms of the cities that it has been seen in, a fine entertainment may be looked for.

Tom Terriss. Following the truly phenomenal week's patronage and royal welcome accorded Martin Harvey at the Princess Theatre, comes another of England's dramatic stars in the person of Tom Terriss, who places his faith in the approval of the cities that it has been seen in, a fine entertainment may be looked for.

Eugene Blair in "Madame X." One of the most notable of this season's attractions is the engagement of that well known emotional actress, Eugene Blair, who will be seen this week at the Grand in the title role of Alexandre Bisson's famous play of mother love "Madame X."

Kubelick's Return. Jan Kubelick, who is coming back to Massey Hall on March 12 to give his Toronto admirers the opportunity of hearing him in a complete recital program is just now concluding the wonderful Meba-Kubelick joint tour which has brought out some of the largest audiences ever assembled in America. The advance sale for the local appearance will open on Thursday, March 5.

Paderewski Soon. An unusual mental grip on things is not the only grip that Paderewski possesses. Years of practice at the piano have given him a grip which could easily crush any but the strongest and burliest hand. The muscles of his arms are like steel whips and the trick of tearing in two a pack of cards is one of the easiest tasks that can be given him. The great Polish virtuoso comes to Massey Hall on March 9 to play the engagement postponed thru illness from October last. The advance sale begins on Monday morning.

Monte Carlo Girls. The Star Theatre will offer as its next attraction "The Monte Carlo Girls," the newest, and according to report, the best show on the progressive circuit. The company has the advantage of a new and complete equipment, some stunning and startling costumes, pretty scenery, new entertainers and new material.

Valeska Suratt Coming to Shea's. The name Valeska Suratt is one to conjure with. There is no more dazzling personality on the American stage today than Miss Suratt, who appears at Shea's this week. Aside from her ability she dominates everything before her merely by reason of the force of her personality. She is of that type referred to as stunning, rather than as beautiful, while her array is so ultra-modern that it is not exaggerating to mention it is extreme. Miss Suratt, for many years has been conspicuous in the public eye both as a vaudeville headliner and as a star in musical comedy. Her most recent effort in the latter was with "The Kiss Waltz." Her present vaudeville offering is a fantasy by George Edgely, called "Black and Blue." It is a most magnificent, magnificently mounted extravaganza, introducing in a decidedly attractive manner the cream of artistic excellence. The special extra attraction on the bill for the week is Charles Grapevine and Company, including Krauer and Morton are blackface comedians who sing and dance and sing and dance. Their feats are unusual and daring, but the most difficult are done with the greatest ease. Wallace Gavin is a slight-of-hand man of international reputation, and he uses the best of comedy in his tricks. The cinematograph closes the bill with a new picture.

Song Recital. A song recital of exceptional artistic interest will be given in the concert hall of the Toronto Conservatory of Music on Thursday evening, March 5, by Madame Benita LeMar, the gifted soprano whose brilliant success in a song recital last season will be remembered by all who were privileged to hear her. Madame LeMar, whose achievements in England and Germany have won for her the enthusiastic praise of the leading critics in London and Berlin, will sing a delightfully contrasted program of German, Scandinavian, French and English songs, the composers represented being Schubert, Grieg, Debussy, Bishop, Dr. Arne and Paganini. Mr. Vago (Khl) the eminent Scandinavian pianist will be at the piano. Tickets are on sale at the Nordheimer Piano and Music Co., East King street.

"Peg O' My Heart" Coming Back. Toronto is to see "Peg O' My Heart" again week of March 16, with the same excellent cast as before, which includes: Elsa Ryan in the title role; Lillian Keller, Fanny Addison Pitt, Wildo Marl Moore, Henry Stanford, Lewis Broughton, Gilbert Douglas, Frank Burbeck and Roy Cochrane.

"At Bay." "At Bay," the thrilling George Scarborough romantic comedy-drama which has just finished a run of five months at New York, will come to the Royal Alexandra, for the week of March 9, with the original cast, including Guy Standing, the popular English actor, and Chrystal Herne.

from her ability she dominates everything before her merely by reason of the force of her personality. She is of that type referred to as stunning, rather than as beautiful, while her array is so ultra-modern that it is not exaggerating to mention it is extreme. Miss Suratt, for many years has been conspicuous in the public eye both as a vaudeville headliner and as a star in musical comedy. Her most recent effort in the latter was with "The Kiss Waltz." Her present vaudeville offering is a fantasy by George Edgely, called "Black and Blue." It is a most magnificent, magnificently mounted extravaganza, introducing in a decidedly attractive manner the cream of artistic excellence. The special extra attraction on the bill for the week is Charles Grapevine and Company, including Krauer and Morton are blackface comedians who sing and dance and sing and dance. Their feats are unusual and daring, but the most difficult are done with the greatest ease. Wallace Gavin is a slight-of-hand man of international reputation, and he uses the best of comedy in his tricks. The cinematograph closes the bill with a new picture.

that she offered to adopt him and pay for his musical education if his father would permit him to renounce the Jewish faith when he grew up. The boy's father declined the offer, but unluckily for her. He moved to Odessa, where he got the lad under free tuition to Prof. Fiedelman in the Imperial School of Music. Afterwards the head of the St. Petersburg Conservatory, Prof. Auer, heard the boy play at a concert and wanted him for a pupil. But the permission of the czar had to be obtained, because no Jewish boy born outside of St. Petersburg is regularly allowed to live in that city. Auer succeeded in getting the lad and started him on a career that has few parallels in musical history.

Park Theatre. At the Park Theatre for the first half of this week, a strong program of vaudeville will be presented, which is not for nothing advertised, together with four of the latest releases in photo-plays. This program should uphold the popularity of this large west end theatre.

The big amateur contest that was held at the Park Theatre last Friday night was a great success, both from the attendance standpoint, and the high class of amateur performers, some of whom are as good as seen on any stage. The first prize was won by Miss Grace Beattie, who has a wonderful voice for her size. The second prize was taken by the Long Sisters, who rendered an act that would go big with any audience. The third prize went to Miss Evelyn Rose, a very clever little lady who impersonated a newswoman. This act, in three parts, was a very clever little play.

Mr. Dan Lochrie is to be complimented on the high order of entertainments given at this popular theatre.

Winter Garden. This week's program at the new winter garden at Loew's Yonge Street Theatre, includes a number of particularly bright bits of vaudeville, headed by one of the most pretentious of vaudeville attractions, Joe Maxwell's big symbolic play "This act is presented in four scenes. This act is presented in the cast, who, in the course of the play, introduce some twenty-odd characters. The piece is elaborately costumed and splendidly set, an entire carload of scenery and "props" being used in the production.

Another feature will be a spectacular novelty, "The Bombardment of T. Pol" by the Italian Fleet, presented by Gen. Pisano & Co., renowned rifle experts. Other offerings for the week will be Three Creighton Girls, in their song and dance revue; Moore and Elliott, in "The Baby Grand"; Bobbie and Delo, presenting "A Night in Paris"; Buch Bros., acrobatic German comedians; Louise Mayo, a singing comedienne of unusual ability; Holman and Harmon, in "The Messenger

and the Lady," and Mason and Gordon, colored comedians.

Where the Trail Divides. Robert Edeson's famous western play, "Where the Trail Divides," will be the attraction at the Grand Opera House next week. The play is adapted from Will Lillibridge's fascinating western stories.

MANY HAD FREE BREAKFAST AT YONGE STREET MISSION. Five Hundred and Thirty-Two Fed at Sunday Morning Meal.

When the doors were closed at Yonge Street Mission yesterday morning after letting in the crowd of 523 men were in the hall and a goodly number outside. Coffee and sandwiches quickly dispatched, before every man was satisfied. Singing and an earnest address by Rev. J. McPherson of St. John's Presbyterian Church followed the breakfast.

During the past week over a thousand people a day have been helped at the mission. Six thousand loaves of bread, 1120 quarts of milk and hundreds of pecks of potatoes have been distributed to many needy families. In addition to this hundreds of bags of beans, oatmeal, flour and other groceries have been given out. Piles of clothing have been given away free to hundreds of shivering men, women and children. This week is but a record of every week at the Yonge Street Mission.

OTTAWA, March 1.—(Special.)—The contract for the new wharves and docks at Victoria, B.C., has been awarded to two firms, which will form a co-partnership to do this work. The firms are Grant, Smith & Co. and McDonald, Limited, and the price is \$2,244,745. A sea wall 1 sat present under construction.

The World is a newspaper for the home as well as for the business man.

Dr. Stephen Wise Will Speak on "The Jew at His Best." IS NOTED SOCIOLOGIST Leader of Civic Welfare Work in Congested Wards of New York City.

Dr. Stephen S. Wise, who is rabbi of the Free Synagogue, New York City, and one of the foremost members of the Jewish race in North America, arrives in Toronto Monday morning. He will speak in the Canadian Club at 1 o'clock at McConkey's. No charge for tickets. He will later in the day address the members of his own race.

Dr. Wise is a leader in civic welfare not only among his own people, but among the citizens generally. The social service department of the Free Synagogue, which was inaugurated last year by Dr. Wise, has done splendid work in promoting better hygiene morals and a broader social life in the crowded Jewish sections of New York. The feature of Dr. Wise's synagogue has been the series of weekly addresses from leaders in all branches of social and religious work, each address being an inspiration to the members of the synagogue.

Dr. Wise has achieved an international reputation as a lecturer on sociological topics, and his visit is regarded as an important one not only by the members of the Jewish race in Toronto, but the citizens generally.

Each Tuesday evening the graded Sunday School lessons are taught suitable songs sung and a topic discussed. This week Rev. E. Halpeny will speak on "Stories and Story Telling." All teachers are welcome. St. James' Square Presbyterian Church.

PORT COLBORNE, March 1.—Omar Graybiel, aged 49 years, son of Elsha Graybiel and Mrs. Graybiel, farmers, living in Wainfleet Township, committed suicide Saturday afternoon by shooting himself thru the head. Graybiel had been in poor health for the past few months.

GRADED TEACHERS' UNION. Each Tuesday evening the graded Sunday School lessons are taught suitable songs sung and a topic discussed. This week Rev. E. Halpeny will speak on "Stories and Story Telling." All teachers are welcome. St. James' Square Presbyterian Church.

Set a new standard in accommodation. Cabines de Luxe. Private Baths.

Next sailing from St. John MARCH 11th. For booklets and reservations write to 52 King St. E. M. 3764.

Women will find more news of interest to them in 'The World's' magazine page every morning than in any other paper.

STOCKS ADVANCED SHORTS SQUEEZED

Movement at New York Saturday Chiefly Drive at Bears.

BULLS ARE CAUTIOUS

Fear of Adverse Developments Restricts Buying—Banks' Surplus Dwindles.

NEW YORK, Feb. 28.—The level of prices was lifted another notch today. It was a slow process among the principal stocks, whose gains were limited to fractions and there was a slight reaction just before the close. Some of the specialists, however, advanced from 1 to 5 points.

The upturn was largely at the expense of the shorts. In Steel it was evident that selling had been extended. Cessation of foreign liquidation and lessening of the tension over the Mexican situation encouraged buying. But traders on the long side were cautious. Possibility of fresh trouble in Mexico over the week-end, the freight rates situation, the New York tax, the Rock Island readjustment and the business outlook looked to create an unfavorable outlook. C.P.R. and Delaware, Lackawanna and Western made January returns showing severe shrinkages in net earnings.

Rock Island Weak. Rock Island securities were again weak. The collaterals fell nearly two points, touching 43-4, as compared with the week's high price of 45-3. Both issues of the company had been sold down about a point. Express stocks developed exceptional strength.

The bank statement, save further indication that the currency was being turned toward New York was nothing. Instead of the nominal cash loss expected, the statement showed a fall in the cash item of nearly \$5,000,000. This change, coupled with a moderate increase in deposits, brought down the surplus sharply. Bonds were steady.

WALL STREET IS WATCHING MEXICO

High Tension Frightens Public From Investing—Some Unfavorable Indications.

Henry Clews says in his weekly letter: Reactionary tendencies were prolonged through another week. The Mexican situation appears to be growing more menacing. Loyalty to the government has, very properly, supported the policy of watching and holding the line. The incident has caused much uneasiness among investors. The value of the estate is about \$800,000.

Trappers and other selling furs around Fredericton, N.B., have received news from New York that C. E. Thompson & Co. report that furs obtainable in New Brunswick declined in price from 20 to 40 per cent.

IRON RALLIED IN MONTREAL MART

Element and Canners Other Stocks Which Showed Tendency to Improve.

MONTREAL, Feb. 28.—Changes on the local stock exchange for the most part today were small, but almost entirely on the side of gains. C. P. R. closed at 21 1/2, bid for the former and 1-8 bid for the latter. Power rose to 2 1/2, but fell back later to 2 1/4. On at 10 1/2 to 11 1/4 and closed 1/4 up on the day. Shawinigan rose 1 to 1 1/4 and finished with a gain of 1/2 point. It was a feature of the market, following an improved tone, and for the first time in several days, the slump appeared to be meeting the check. After opening at 8 1/2, reacting 1-8, the price moved to 9 1/2 and closed 1-8, leaving a net gain of 7-8 as the day's change.

NAMES BOARD FOR TIMISKAMING CO.

Hamilton B. Willis, in a special despatch to Timiskaming shareholders, names the following as a directorate to replace the present board, against whom he is waging a campaign: Frank L. Culver of Toronto, C. C. James, C.M.G., M.A., L.L.B., of Toronto; E. G. Finkenstein of Bay City, Mich.; and Wm. T. Mason of Montreal.

BLACK FOX RANCHES PUT OUT OF MONCTON

Fur Farming So Prevalent as to Become a Menace to Health.

NEW BRUNSWICK SETTLERS

Fourteen Hundred Newcomers Registered Last Year—Items From Maritime Provinces.

The Moncton, N.B., Board of Health has been forced owing to the increase in Black Fox ranching in the limits of that city to order ranches to be removed from its confines. The citizens have invested several hundreds of thousands of dollars in this industry.

James Gilchrist, superintendent of immigration for New Brunswick, reports that the total number of settlers placed in New Brunswick thru his office during the past year was 1,446, divided as follows: Single men, 735; married couples, 148; children, 338; domestics, 205.

One of the most daring feats of high-way robbery perpetrated in St. John in 1913 was that of the frozen corpse of a man named Robert Ross, who was found in a trunk on the trail. Mr. Ross was a resident of Hampton before going to Alaska about fifteen years ago. In Alaska he had extensive holdings in gold and coal mines about Candie.

Helen Johnson, aged fifteen, daughter of J. Johnson, foreman of the I.C.R. roundhouse, was killed while coasting near the Louis Gardens at Sydney, C.B.

The will of W. E. Matheson, late engineer of the cable steamer Minia, which has been probated, leaves to his wife Elizabeth Matheson of Grand River, Rich. Co., B., all his real and personal property. The value of the estate is about \$800,000.

L.C.R. Officer Purcell arrested two men named Walker and Sheridan on suspicion of entering an I.C.R. freight car at Windsor Junction and damaging and removing the contents. The officer brought the men to Halifax, where they were remanded. Sheridan is wanted on a charge of deserting from the R.C.M.P.

Louis H. Kaye, chief clerk in the Halifax city collector's office, is dead. He was formerly in the pottery business, and was prominent in sporting circles.

Mr. Henry Cook of Gagetown and a number of other gentlemen of the town have lately imported a herd of live cows and much other property, especially sheep, and have been endeavoring to sell them in the town. A spark might have burst either in congress or in parliament.

Another unfavorable feature was the weakness of foreign markets and the consequent falling of American securities. There was temporarily the centre of weakness, and there have been rumors of important difficulties in banking circles. That point, however, is not likely to be a large portion of the result of having up in fixed form. Later advice brought confirmation that the difficulties in banking had been tied over. London recovery and apparent improvement in the market, accompanied by excessive fluctuations since the opening of the current year.

At home the situation has also been slightly less favorable. Current earnings are anything but satisfactory. Some important systems having made poor reports, net and gross for the month of January. The returns for February are likely to prove poor because of the severity of the winter.

Several important industrial concerns have also made poor reports recently. This is especially in the eastern cities, where the volume of business is below that of a year ago. The clearing house was 8 per cent down for February 1913. Nevertheless, there is a brighter side to the situation in the United States, and the more distant outlook is distinctly encouraging.

McKINLEY AGAIN LEADS THE LIST

Nipissing, Beaver and Cobalt Lake Each Contribute Two Cars.

COBALT, Feb. 28.—McKinley again led the list of Cobalt ore shippers last week with three cars for a total of 228,260 pounds. Beaver Consolidated, Cobalt Lake and Nipissing each contributed two cars, while Casey Cobalt, Timiskaming, Dominion Reduction, Peterson Lake, Penn Canadian and City of Cobalt each sent out one car. Cobalt ore shipments for week ending Feb. 27:

Table of Cobalt ore shipments for various companies.

Random Notes on the Mining Stocks.

Big Dome was active and weaker on Saturday market on the Standard Stock Exchange and sold down to \$18.10. The trouble this company is having with its power plant is entirely responsible for the decline in the price of its stock. Evidently there is selling in anticipation of lower earnings for the month of February. The buying which is taking up the stock is of the kind that, as soon as the power difficulty is eliminated there should be a quick rally.

Porcupine Gold was stronger, going to 14. People close to the inside say that final arrangements will be completed next week with the syndicate taking over this property at a price which would not present shareholders around 22 cents a share.

Jupiter was steady around 14. There is quite an accumulation going on in this stock, and it is stated on good authority that one of the larger Colorado companies is acquiring a big holding in this Porcupine.

Swastika was active, selling up to 4. For some time the holding has been large block of Swastika on the market for sale which has kept the price of the stock down. Large Chicago interests are said to have secured the stock with the intention of going on the directorate and Saturday's buying on the market gave the impression that this syndicate was adding to its holdings. If Swastika again started work the stock should advance quickly.

Beaver sold as high as 30-2-4. Mr. Culver, the manager, has just returned from the camp, and reports everything looking fine. The new hoisting machinery is now on the ground, and is to be installed at once. When this is completed larger shipments will be made from the Beaver mines.

Nipissing was very active Saturday, opening at 6 1/2 and selling down to 6. Over 1,000 shares were traded, which is quite an active market for Nipissing. Until the declaration of the next dividend Nipissing is quite likely to be one of the big traders on the board. It has been thought some time that the bonus would be cut off, but it is now said on the best of authority that this will not be done. One opinion is as good as another, but according to one of the more conservative stockholders if the bonus is paid Nipissing should be worth considerably more money than the present market price.

Great Northern sold up to 15-1-2. The reports from Teck-Hughes continue very favorable, and Great Northern should sell considerably higher if Teck-Hughes are good.

Dome Extension rallied to 12. All arrangements for being made to start work on this property, and if the vein from the Dome mines is hit as expected, Dome Extension will take all the places as the most active stock in the Porcupine list.

A 21-2 per cent dividend has been declared upon the capital stock of the Caribou Cobalt Mines Company, payable on March 30.

Peterson Lake and other active stocks bought and sold on Commission. J. L. MITCHELL & CO. MCKINNON BUILDING TORONTO. Business Established 1895.

ON THE NEXT BOOM. As we have before stated, we think the next mining boom is going to take place in the gold stocks. New Ontario has proved itself a gold producer to the world, and London, England, is now taking a keen interest in KILBUCK LAKE, PORCUPINE was named at the start by over-capitalization and company promotion, but its close proximity to the Big Dome and the interlocking of interests will enable the company to be economically worked, and of all the Porcupines we are willing to go in on record that Dome Extension will be the one that will pay off.

FLOWERS

Flowers for Spring Hats

The *Panier Hat*, the dainty flowered gown, so suggestive of the Dolly Vardens of long ago—these must be accompanied by the use of artificial flowers as trimmings.

Artificial? Yes, though they look so natural that it's hard to realize that they come, not from the hot-house, but from the French designers' shops and work-rooms in *gay Paris*.

Here are sweet peas, rainbow winged, with tiniest tendrils, here are dainty small "pluets" of vari-colored posies, or lower's knots of little daisies and forget-me-nots, as well as the most wonderful roses and large flowers you have seen yet.

Stunning are the arrangements in mount effects achieved with flowers, but you must visit the hats and trimmings salons and see for yourself. Tuesday we offer an item which is especially priced:

40 dozen Assorted Flower Effects, priced, each 50
(Second Floor.)

Jewelry

Women's Long Black Guards, oval and round, assorted size heads, with strong black clasps. Tuesday 28
Amethyst and Amber Bead Necklets, graduated from small to large, the new length, 27 inches long. Tuesday 28

Men's Winter Underwear to Clear at 75c

Our new Spring stock is coming in fast, and we need the counter and fixture space, so all kinds of underwear are included in this sale. The regular prices ranged from \$1.00 to \$2.50. English, Scotch and Canadian natural wools, shirts and drawers. Double-breasted, double or single backs. Sizes 34 to 48. Tuesday, 8.30 a.m., per garment 75
Cannot promise to fill phone or mail orders.

The goods on sale are all from our regular stock, a few might be slightly counter soiled, but most of them are perfect and ready to wear. The materials are English, Scotch and Canadian natural wools, mostly flat knits, and several garments of American manufacture, shirts and drawers; shirts are double-breasted, lots double-breast and double back, too; drawers double or single back. It will pay you well to come at 8.30 and select underwear to finish out this season, or even to buy them for next winter. It is the best value ever offered from our underwear department; all sizes 34 to 48. Regularly \$1.00, \$1.25, \$1.50, \$2.00 and \$2.50. Tuesday 75
