Use Canadian Origin To Preserve U. S. Falls

By Diverting Bed of River

Scheme Proposed to Congress Committee by Delegation Opposing the Burton Bill, Which Places Sentimental Value on Niagara's Cataract Above That of Commerce.

Washington, April 16.—How Niagara Falls may still retain its beauty and grandeur and at the same time be harnessed to sufficient electric generators to revolutionize the industrial output of Northwestern New York, was explained to the house committee on rivers and harbors to-day by a delegation representing the Niagara County Irrigation and Water Supply Company.

To accomplish the suggestions made several changes would be necessary in the pending Burton bill, which the committee is considering. This bill provides that no additional water shall be taken from the river for power or other purposes and no additional power shall be allowed to come in from the Canadian side. The company represented has a state charter, authorizing it to take an unlimited quantity of water from the river, for the development of power. This charter has just been approved by the state courts, and the company has already expended something like half a million dollars in the erection of its plant and the construction of a canal. The plan is to complete and the passage of the Burton bill would cut the company off from any use of the river.

A sentimental purpose. It was pointed out to the committee by Attorney J. H. Henson that federal jurisdiction over navigable streams was given by the constitution only for the purpose of preserving the navigability. The Burton bill had for its object the avowed sentimental purpose of preserving Niagara Falls, and in his opinion would not be upheld by the courts.

H. L. Cooper, in charge of the engineering features of the new plant, presented a plan which he said could be easily accomplished and which would not only preserve, but increase the amount of water going over the American side of the falls and would also permit the use of such water as his company would need in carrying out its plans. This plan was to lower the bed of the river for a short distance above the falls. This would draw the water from the Canadian side. He explained there could be no objection to this, as the original treaty, now in force, provides for an equal division of the water, and it was well known that the present Canadian side obtained greatly over half the flow.

The possibilities. Engineer M. A. Viel also connected with the company, explained that while his company had a right to unlimited use of the water, he contemplated using but 17,000 cubic feet per second. His 450,000 horse power could be developed. Industries which would depend on this power, he said, would employ 228,000 men and give this section of the state an added population of 1,140,000 people and yield an annual product of \$14,000,000. The income from the farms of the state, he said, was but 40 per cent. of this amount. Another reason also was advanced why the contemplated plan should be allowed completion: to develop the power the company will have to construct a canal, which for half its distance would be in the Canadian side. This canal would save the government \$2,000,000 in the construction of this canal. The development of this power would save the coal supply of the country to the extent of three million tons a year.

Canada's future depends. Reference was made to the plans of Canada with reference to the use of the waters of Niagara River. Lord Kelvin was quoted as saying that the future development of the Dominion depended largely on the power to be developed from this waterway.

BUFFALO AGAINST IT.
Buffalo, April 16.—(Special.)—Mayor Adams, in an interview to-day, declared himself as antagonistic to the proposed plan. He said that the bill prohibits the importation of power from the Canadian side.

A Pure Food Drink.
There is no reason why any person should refrain from drinking Tona-Cola. It not only quenches the thirst, and tones up the nerves, but it has no injurious drugs in its make-up. It is a fact that many proprietary drinks are filled with drugs that should not be present in them. Tona-Cola is more harmless than tea or coffee. It is pure and wholesome. MINER'S INSULT TO DEPUTY LEADS UP TO RIOT WITH 3 KILLED

Troops Are Called to Johnstown, Pa., to Prevent More Bloodshed After an Exciting Affray.

Johnstown, Pa., April 16.—In a riot at the Windber mines, near here, to-night three foreigners were shot dead by deputies, a boy was fatally wounded, and Eugene Delaney, a mining engineer, was taken to the hospital seriously injured.

The riot was the result of an attempt on the part of striking miners to rescue some of their comrades who had been placed under arrest. A state of terror prevails. Sheriff Begley has been summoned and an appeal has been made to Gov. Pennypacker for troops.

Shortly before midnight the town quieted down and the crowds began to disappear from the streets. The state constabulary was summoned from Greensburg, but a freight wreck delayed the train, and it is expected that the constabulary will not reach Windber before early morning. Trouble is anticipated, however, when the constabulary arrives at the mines, as the foreign element are very antagonistic to state officers.

The bodies were lying in the street to-night where they fell, the strikers refusing to allow the undertakers to remove them.

The foreign element celebrated Easter Monday in the mining section, and much liquor has been used. The streets were thronged all day with boisterous crowds.

How It Began.
The trouble started at 5 o'clock when Deputy Sheriff McMullen went to the mass meeting held by the striking miners in a wood at the edge of the town. Many of the miners had been drinking, and the sight of the deputy made them furious. A crowd of about 200, surrounded by maddened miners, who threatened to kill him. McMullen fled for his life, finding refuge in the house of Councilman Chas. Davis. Practically every man who had gone to the mass meeting joined in the chase, and soon after the latter had entered the Davis house it was surrounded by a mob of 2000 shouting, cursing miners, who challenged McMullen to come out. The mob attacked the house, and literally wrecked it. The deputy was roughly handled, but again managed to escape. The members of the Davis family fled to neighbors. Other deputies guarding coal property had been arrested. The trouble and twenty of the rioters were landed in the lock-up at Windber.

Fire Department to Protect Jail.
Strikers, with Sills at their head, prepared to storm the jail. Deputy sheriffs with fixed bayonets and rifles, and the fire department were called out. The foreigners refused to listen to efforts to throw away their guns and directed the prisoners, closed on the jail. When it became certain that the little band of deputies and firemen could not stand before the mob, they opened fire. Those of the foreigners who were closest to the jail had already begun using revolvers in the attempt to disarm the deputies. The deputies fired only one volley and the foreigners broke and leaving three dead in front of the jail.

At the mass meeting this afternoon the men had decided to return to work on the operators' terms, while others had decided to remain on strike. An intoxicated striker made an insulting remark to the deputy and when the latter warned the miner to keep quiet the trouble began.

FOUR WENCHES ARRESTED LAW TO BE CARRIED OUT
Springfield, Mo., April 16.—Four men are now under arrest here and charged with being leaders in the mob that broke into the county jail Saturday night and lynched three negroes.

Charles Canaff and Oney Calvey were the first men arrested. Canaff has been a poolroom proprietor, but is at present unemployed at the St. Louis and San Francisco. Calvey is a saddler, and a merchant, and Otto Hall, a police court character, are in jail.

Queer prevailed here to-day and the presence of troops has had the effect of bringing the people to a full realization of the situation. Before midnight last night a decided reaction had set in and people began to condemn the mob. To-day this feeling gained strength, especially when it became known that the mob had broken into the jail and lynched three negroes.

Judge Lincoln of the criminal court to-day ordered a special grand jury to be convened to investigate the case.

A negro named Burns was shot and instantly killed to-night by a white man, who was escorting a woman to her home, when he was held up by two negroes.

The white man drew a pistol and fired at the negroes. The negroes fled, as he supposed, and he ran after them, not knowing he had hit one, and stumbled over the dead body of the man he had shot. The other escaped.

'L'Opinion' Reads Le Soleil a Lesson on Its Continued Harangues Against Orange Lodge.

Culmination of Lively Vestry Meeting, Where Two Factions Struggled for Supremacy.

While Husband Was Preparing to Take Her to Doctor, Secured Old Gun and Ended Life.

Montreal, April 16.—(Special.)—Mr. Arthur Beauchemin's paper, L'Opinion, reads a good lesson to Le Soleil, Sir Wilfrid Laurier's Quebec mouthpiece. It says: "Le Soleil, continuing the work of L'Electeur, has always been governed by the principle of combating the certain people is always before their eyes? Why force the electors to make comparisons between Catholicism and ultra-Protestantism? What good, Messrs. Elliott and Canute, will be gained? Is it patriotic or even reasonable to thus create race prejudices? There are Orangemen and Free Masons in both political circles, there are always will be in spite of all. Le Soleil may say to the contrary, is the work of a good citizen to keep Orangeism constantly before a Catholic community? All our efforts should tend, on the contrary, to make us forget the differences of race and religion. We live in a mixed country, there is a good understanding in above all necessary. Our duty to-day is to lead an active life employed in the development of our country rather than to create prejudices in the minds of our people. Let us, in a word, be broad enough to discuss political questions on their merits, and not from the point of view of popular prejudices."

St. Catharines, April 16.—(Special.)—The vestry meetings of the Anglican churches of this city were held to-night. In St. Thomas' and St. George's everything went off smoothly, but in St. Barnabas', where of late there have been some very exciting incidents in connection with the relations of the pastor and the church wardens concerning the ladies of the choir, there were some extraordinary doings. The meeting had just started when the spirit of the factions there was much to amuse the many persons on the outside of the Sunday school building, where the meeting was held. Messrs. Elliott and Canute, the wardens, attempted to move a resolution of censure on the rector, but it was declared out of order, as the wardens had not yet been elected. The rector then appointed A. L. Jackson as his warden, and Charles Moors was elected by the people. The rector occupied the chair, and arrayed on his side were E. A. Lancaster, M.P. for Lincoln, and several other gentlemen. Against him were the churchwardens and many others, and the meeting was a very lively one. There was plenty of loud talk and stamping of feet, and when Messrs. Elliott and Canute again pressed their motion, calling for the censure of the rector, the latter's supporters moved an adjournment. The rector took advantage of the motion and left the room, followed by his handful of supporters. He entered the church, removed his robes and departed for his home. The second faction, much larger in numbers, remained and held a congregational meeting. William Canute acted as chairman, and the lengthy resolution of censure on the rector was then presented and carried. The idea of appointing a committee to interview the bishop was not put into action. The congregational meeting adjourned, subject to the call of the chairman.

ANGLICANS' SPLENDID YEAR LEADS CONGREGATIONS TO PLAN ADDITIONS

Several Vestry Meetings Decide to Undertake Extension of Church or Sunday School Work—Encouraging Reports.

His Lordship Bishop Arthur Sweatman of the Diocese of Toronto is not strong. In the church circles there is anxiety regarding his condition, coupled with the love which his consideration to the community over which he presides and his kindly way in setting the layman relate ideas of the clerical curriculum has incited.

This sentiment was expressed last night by one of the wardens of Little Trinity Church, and it is felt throughout the diocese. Warden Stag of Little Trinity says: "Bishop Arthur Toronto; 'He is getting weaker, a very feeble man. He is in very weak health and likely we shall not have another opportunity at our annual meeting to express our appreciation of his many gifts of thought and his willingness to see eye to eye with us on those matters upon which, unfortunately, it became our duty to seek his imprimatur as our right; and his willingness and candid appreciation of our representatives and his ultimate coincidences with our views are matters for our most sincere congratulations, combined loyalty with the wish that his lordship may regain his health speedily.'"

The reports presented to the vestry meetings of the city and suburban Anglican churches last night, with but one or two exceptions, were remarkable for the growth in membership and increase in financial support noted. Projects for increasing the accommodation of church or Sunday School was brought forward in several meetings. At St. Augustine's an enlargement to cost \$1000 is proposed and the rector, Rev. F. G. Plummer, who has the honor of Mr. McCausland, formerly of St. Thomas' Church, as a curate. The church of the Epiphany will also consider the purchase of a new site, St. Simon's raised \$10,000 on Easter Sunday towards a new Sunday school building and the rector, Mr. Mary's, Dovercourt, have established a mission just north of the city limits, which will in time develop into a new parish. St. Clement's, on Brookline-avenue, will build a temporary addition. St. Matthew's have under consideration disposing of the present Sunday school, which is an obstacle from the church, and the erection of a new building. A curate may also be appointed. St. Barnabas' (Chester) will have a new rector. (Chester) will have a new rector.

STOPPED RUNAWAY
And Was Driven in the Carriage to the Emergency Hospital.

A horse and carriage containing Mrs. John Firstbrook and two children figured in a runaway on East King-street yesterday afternoon. The occupants of the carriage escaped unhurt, but a coal driver, who stopped the horses, had his wrist sprained. The handsome pair, driven by Mrs. Firstbrook, grew restless at the noise of the traffic near the corner of King and Frederick-streets, and she, in control of the reins for a few moments. This enabled them to get their heads over the railing of the carriage, but a policeman jumped for their heads, but fell short.

Thomas Sullivan, a coal driver, living at 44 Duane-street, had a little more time at his disposal in the office and he succeeded in catching the trailing lines. In a minute he had thrown the weight on the horses' heads, but their impetus was so great that he was pulled off his feet and dragged for some distance. He, however, pluckily held on to the horses and brought them to a standstill.

Finding that his arm was severely injured Mrs. Firstbrook drove him to the carriage to the Emergency Hospital, where it was fixed up and he was sent to his home. His arm was sprained.

HAMILTON BRICKLAYERS GO BACK TO WORK TO-DAY

Pending Final Settlement—Anglican Vestry Meetings—Continuing of the Prince.

"Hamilton, April 16.—(Special).—The striking bricklayers and masons will resume work in the morning at 4:50 a.m., pending a final settlement.

Word was received this evening that Alex Cameron, son of R. Cameron, editor of The Spectator, had a hand cut off in a saw mill at Guelph.

All the Anglican churches held their vestry meetings this evening, and prosperity was general. At the Church of St. Thomas, there was a somewhat heated discussion over a proposal to place the choir in surplice.

Rev. Canon Blain did not attend the meeting of the vestry of Christ Church Cathedral this evening. The warden announced that he had resigned about three weeks ago and that his resignation had been accepted by the bishop.

The receipts at the Church of the Ascension amounted to \$7671. Adam Brown and Alfred Povis retired, and W. Gates Jr. and Thos. Hobson were elected wardens in their places.

Wm. Preston, a colored bell-boy at the Royal Hotel was to-day found guilty of stealing \$3.

After the proceedings at the city hall his royal highness drove to the residence of Sir Wilfrid and Lady Laurier, with whom he dined. The other guests present were Lady Sybil Grey, Lord Redesdale, Admiral Seymour, General Kelly-Kenny, Col. Davidson, Capt. L. Borden and Mrs. Willard, wife of the Lieutenant-Governor of Virginia, who is on a visit to Lady Laurier.

At 8 o'clock his royal highness opened the "Old English Fair," a bazaar whose proceeds are to be contributed to the Japanese famine fund.

At 5:30 o'clock the Ottawa South African Veterans' Association, headed by the president, Major Charles F. Winter, waited upon General Kelly-Kenny at the city hall, which was given a cordial reception. It was General Kelly-Kenny's persistence and energy in his pursuit of General Cronje with the sixtieth division which enabled general French to head off the Boer force at Paardeberg Drift, thus causing the battle at which the first contingent distinguished itself.

General Kelly-Kenny expressed pleasure at meeting the veterans, and said that the British army staff greatly appreciated the services of the colonials. While he admired the adventurous spirits who explored and opened up Canada for population he admired more the military spirit which protected and stood as a guarantee of the perpetuity of the British empire.

When a blind man is seen in the street, led by a pale, emaciated child, you do not have to be furnished with a written guarantee that there is suffering and misery in that home. Look the case up. Pay a month's rent, or buy a week's groceries. You will find it much better fun than playing "bridge whist" or putting a "dime" on a horse! I've tried both kinds of fun, and I assure you that the pleasure of giving even a few hours' happiness to a desolate heart is a thousand-fold greater than winning at cards or at the race track.

On Saturday the United Tailoring store at 472 West Queen-street did a business equal to that of the first two weeks combined. "There was an avalanche of customers to see our \$15 tailored suits," said Manager Graham.

During the hearing of a case at the Tenth Court, a tailor said that he has had several periods of unemployment, and so has first-hand knowledge of this great problem.

One of the Socialists candidates in the Walthamstow District Council election advanced a plea for the electors' support that "he has had several periods of unemployment, and so has first-hand knowledge of this great problem."

POSTMASTERS ORGANIZE.

Toronto, London and Kingston Inspectors Get Together

The postmasters of the Toronto, London and Kingston inspectors met yesterday and organized a provincial association with the following officers: Honorary president, Thos. Farron, Brussels. President, G. H. Burger, Welland. First vice-president, James Scott, Clinton. Second vice-president, W. S. Newmark, Castleton. Secretary-treasurer, H. E. Proctor, Aurora. Executive committee, Messrs. Paxton, Ottawa; Gibson, Fordwich; Hamilton; Timmerman, Odessa; Broughton, Bradford; Taylor, Grand Valley. Auditors, Messrs. Hooden, Whitby; Vance, Millbrook. A delegation met the postmaster-general at Ottawa last week and presented a memorial setting aside the needs of the officials in the various rural centres of the Dominion. A mass meeting of the Dominion postal employees was held at Montreal yesterday, when it was decided to send a delegation to interview Premier Laurier with a view to securing higher wages. Delegates were present from Toronto, London, Hamilton, Ottawa and Winnipeg.

WOMAN STRANGLER.

Shocking Murder for Revenge Reported From Quebec.

Montreal, April 16.—A despatch from St. Cesaire says: About 6 o'clock Saturday morning passers-by on Notre Dame-street, of this city, discovered the body of a woman near the convent. The body bore very evident traces of violence, and was recognized as that of Clara Ducharme, the wife of Leopold Ducharme, a bridgekeeper living about a mile from the village. Yesterday a man suspected of the crime was arrested. His name is Rodrigue Desaulles, a hunter and trapper. The motive for the horrible crime is supposed to have been vengeance. He had lived with the Goudreau family till last Thursday, when, as a result of an altercation with the husband and wife, he was ordered to leave. The woman was strangled to death.

Light and Airy.

Tourist cars on the Union Pacific are clean and light and airy. Overcrowding in them is a condition that is absolutely avoided. The seats are upholstered in rattan, and at night the berths hung with heavy curtains. Bevel plate glass windows ornament the sides of the cars; the wide vestibule, enclosed and traveling is made altogether comfortable. If you cross the continent in one of the tourist sleepers of the Union Pacific you will enjoy your trip and save considerable money. Inquire of J. G. Goodsell, T.P.A., 14 James Building, Toronto, Canada; F. E. Choate, G.A., 11 Fort-street, Detroit, Mich.

May Be Sold.

The sale of government house to the G.T.R. is again talked of as being nearly completed. It is said the only \$20,000 difference in terms offered and wanted remains.

Aid for Cough Medicine.

Watertown, N.Y., April 16.—John Walsh, roadmaster on the Rutland Railroad, arose early this morning and took a spoonful of carbolic acid, which in the dark he mistook for cough medicine, and died in ten minutes.

A Trite Saying.

It is a trite saying that no man is stronger than his stomach. Dr. Pierce's Golden Medical Discovery strengthens the stomach—puts it in shape to make pure, rich blood—helps the liver and kidneys to expel the poisons from the body and thus cures both liver and kidney troubles. If you take this natural blood purifier and tonic, you will assist your system in manufacturing each day a pint of rich, red blood, thus raising to the brain and nerves. The weak, nervous, run-down, debilitated condition which so many people suffer from, is usually the effect of poisons in the blood; it is often indicated by pimples or boils appearing on the skin, the face becomes thin and the feelings "blue." Dr. Pierce's "Discovery" cures all blood humors as well as being a tonic that makes one vigorous, strong and forestal. It is the only medicine put up for sale through druggists for like purposes that contains neither alcohol nor harmful habit-forming drugs, and the only one, every ingredient of which has the professional endorsement of the leading medical books of extracts from standard medical works and will be sent to any address free, on receipt of request therefor by letter or postal card, addressed to Dr. R. C. Pierce, Buffalo, N. Y. It tells just what Dr. Pierce's medicines are made of. The "Words of Praise" for the several ingredients of which Dr. Pierce's medicines are composed, by leaders in all the several schools of medical practice, and recommending them for the cure of the diseases for which the Golden Medical Discovery is advised, should have far more weight with the sick and afflicted than any amount of the so-called "testimonials" so conspicuously flaunted before the public by those who are afraid to let the ingredients of their medicines be known. Bear in mind that the "Golden Medical Discovery" has this badge of honesty on every bottle wrapper, in a full list of its ingredients. Dr. Pierce's Pleasant Pellets cure constipation, invigorate the liver and regulate stomach and bowels. Dr. Pierce's great thousand-page illustrated Common Sense Medical Adviser will be sent free, paper-bound, for 31 one-cent stamps, or cloth-bound for 50 stamps. Address Dr. Pierce as above.

LIBERALS TO REORGANIZE BEFORE NEXT ELECTION

Rank and File Not Satisfied With Showing of Present Leaders in Legislature.

"You can put it down as straight that before the next provincial election the Liberal party in Ontario will undergo reconstruction from top to bottom, and that the regenerated party will go to the people with a program that will be a vote-getter."

So spoke a Liberal prominent in the ranks a few days since, and from recent events it does not appear that he is very far astray. Certain it is that the opposition under the dual leadership of G. W. Ross and Richard Harcourt has not been a striking success this session, and there are signs that the small remnant of the party in the house are anxious to strike out fresh, forgetting the past, and even sealing their wounds. But what chance is there to forget the past with Ross and Harcourt in the leading role of party directors? Ross tried it. Early in the year it was announced with some enthusiasm that the opposition would not be quiet in the session of 1905. It was known that Mr. Graham would lead the opposition, the small in numbers, would be exceedingly lively and belligerent. And the premier himself, in the end, and his band would lead the government "a merry dance." Interesting things were expected. But the program? It is common knowledge that the end of the opposition opened his mouth he planted his foot right in it. Every projectile thrown was a boomerang which returned to the end of the mowed down a reputation or two. This has been the case for two months, and the critics of the government have met with such little success that the term is likely to come with a lively and belligerent band in a meekly quiescent Liberal. Liberals Sick of It. The people who are talking about the miserable failure of the opposition to make a dint in the government armor are not all the same. There are Liberals who would be pleased to note the revival of Liberalism in Ontario, and that the new blood must be introduced if the party is to get safely started on the road to success will depend on what impression may be made three years hence, or whenever Premier Whitney chooses to test the feeling of the electorate. It is regarded as necessary, if the past is to be sealed, to retire the men whose acts brought the party into disrepute. Not One of the Four. Therefore, it is argued, not one of the four members of the last Ross government, not one of the four who are considered when the legislature chooses new leaders. Ross and Harcourt are so tarred with the sins of the old government that they are impossible. Key, and there are many who are not disposed to blame them for the condition of the party who assumed office in 1904, and that new blood must be introduced if the party is to get safely started on the road to success will depend on what impression may be made three years hence, or whenever Premier Whitney chooses to test the feeling of the electorate. FROM PRISCO TO NEW YORK HUMAN VOICE MAY TRAVEL. San Francisco, April 16.—The Examiner to-day says: David C. St. Charles, an engineer of this city, has invented a repeater which will make it possible to telephone from here to New York. What the so-called "repeater" has in view is the telegraph. St. Charles' invention, it is now claimed, has done for the telephone. The combining of the echo in nature with the sounding of a violin furnished the clue to the discovery, according to a statement of St. Charles.

NEGRO'S FIND OF BURIED GOLD LEADS TO DEATH BY BULLET. Louisville, Ky., April 16.—Luther Taylor, marshal of Campbellville, Taylor county, Ky., is fatally wounded; William Andrew Davis, colored, is dead, and a brother of Davis is dangerously shot, the result of an effort to recover \$1500 in gold which was buried by the negro while excavating for a building. Davis, after finding the money fled to the home of his mother.

FIVE YEARS IN ASYLUM NOW PACES MURDER TRIAL. Ogdensburg, N.Y., April 16.—Arthur Chapron, who for five years has been an inmate of the Mattawan Asylum for Insane Criminals, was declared sane to-day and will, as a result, be tried for the murder of John Leahy. It was charged that while these two men were sleeping together in an hotel in Ogdensburg, Leahy was shot. He surrendered himself to the police.

ROOSTER ATTACKS BOY.

Youngster's Face Badly Cut Up by a Game Fowl. Brantford, April 16.—The cocking mains recently held in this vicinity seem to be having a bad effect. The game "roosters" are getting up on themselves, and starting in to use their spurs on everything in sight. Even the young lads are being attacked on the part of the feathered gladiators. Yesterday morning the little three-year-old son of John R. Benson was coming home along Grand View-street. A game rooster kept by a man living in that locality came out and attacked the lad. So fierce was the attack made by the bird that the boy became frightened and tumbled into the ditch. The "game" proceeded to "peck" the lad around the eyes and mouth, and his face, as a result, is badly cut up. If it hadn't happened that Albert Lacey, who, chanced to be on the spot, came to the rescue and drove the bird off, the young lad would have had both eyes destroyed. The family are very indignant about the matter and have complained to the county police about it. An investigation will probably be held.

PROBABLY DROWNED. Young Man, Resident of Alexandria Bay, Makes Fatal Excursion. Brockville, April 16.—(Special.)—Fears are felt for the safety of Wm. Stevens, a popular young resident of Alexandria Bay. He left home in a rowboat with a camping outfit to spend a few days down the River St. Lawrence. Before daylight next morning cries for help were heard along the shore, and subsequently his boat was found drifted ashore. With the boat a pair of boots and a market basket were found, and in the bottom of the boat was a man's hat held fast by a coating of ice. The hat has been identified as Stevens', and it is thought the boat is also his. No trace of him has been found, and the river is being dragged for the body.

SUSPEND THE PREFERENCE TILL EMBARGO IS LIFTED. Montreal, April 16.—"If one were czar of Canada, it would be his master stroke of policy to suspend the preference to Great Britain until the prohibition against Canadian cattle is repealed." So says Sir William Van Forne of the C.P.R., referring to the regulation decreed by the slaughter of Canadian cattle shipped to British ports.

FARMERS EAGER FOR IT. Chatham, April 16.—The up-to-date farmers in Harwich are interesting themselves in the extension of the Chatham, Wallaceburg & Lake Erie Railway, and they are already at work trying to induce the company to run their line to the lake through Harwich. Judge Houston says that nearly all the farmers are willing to give a right of way, and petitions to this effect have been largely signed. A deputation of farmers waited on the Blenheim Council in an effort to induce them to do something towards helping this scheme along.

EMPLOYEES IN DANGER. Brockville, April 16.—(Special.)—A number of employees of the Prescott Schlessinger, son of Henry Schlessinger, 169 William-street, was impressively carried out in the McCaul-street Synagogue yesterday. It was his 13th birthday, which according to Jewish law is the time for accepting male children into the faith. Rev. F. A. Schoor officiated as leading cantor.

To Prevent Cruelty. A communication was read in the Toronto General Ministerial Association yesterday from the Montreal Association, soliciting co-operation in a movement to suppress Belgian cruelties in the Congo Free State, thru Belgian intervention. The matter was put in the hands of a committee, which will report in two weeks.

THOUSANDS OF CANADIAN WOMEN USE DIAMOND DYES AT THIS SEASON OF THE YEAR. (Canadian Associated Press Cable.) London, April 16.—The newspapers announce that General Booth has expressed his intention to visit Japan, returning to England via Canada.

All Going on New York Excursion. Friday, April 27 via Lehigh Valley Railroad. Tickets good 10 days, and on the Erie Railroad, through Suspension Bridge. Tickets good on all express trains, except "Black Diamond." This is the last \$9.00 excursion this season. Just the time to visit New York. Call at L.V.R. Passenger Office for further particulars. 10 King St. East. Phone Main 1588.

"Old Reliable" Gives \$500. Brantford, April 16.—(Special.)—A cheque has been received from Lord Strathcona for the Bell Memorial fund. The cheque is for \$500, and is certainly a most generous one. Other contributions have been received, but they have been on a somewhat smaller scale.

Will Enter Rifle Team. Brockville, April 16.—(Special.)—The Prescott Rifle Association, at its annual meeting, selected a team of ten men, with A. S. Hunter as captain, should be entered in the third series of the Canadian Military Rifle League.

Shot a Lynx. Brockville, April 16.—(Special.)—A farmer named John Trethewey, driving along the Front River-road near here, discovered a big lynx in a tree at the roadside and shot the animal with a shotgun.

Will Sue the Tenor. The Sherlock Vocal Society will sue Daniel Reddick, of Pittsburgh, for \$100 for breach of contract. The society failed to show up for the "Samson" oratorio performance in Massey Hall on Jan. 25.

CASTRO'S RETIREMENT.

BERNARD LEAVES FOR CHICAGO; HE GOES INTO RETIREMENT.

New York, April 16.—The Tribune says: Bernard Leavitt, who has been in the city for some time, has just left for Chicago on a morning train. He is going to take up his abode in the city of the Big Lake, where he has a large estate. He is going to devote his time to his private affairs and to his family. He is a well-known figure in the city and has been in the city for some time. He is a well-known figure in the city and has been in the city for some time.

GRAVEYARD GRAFT.

Buffalo, April 16.—Fred O. Murray, recently appointed collector of the Port of Buffalo, and former treasurer of Erie County, was today indicted by the grand jury on a charge of stealing from the County of Erie sums aggregating \$38,870, and receiving stolen property in a like amount. Several other secret indictments were handed in by the grand jury, which has been investigating alleged grafting in connection with the purchase by the county of the North-street cemetery as a site for the 8th Regiment armory. Postmaster Fred Greiner this afternoon appeared before Justice Kenrick and entered a plea of not guilty to charges of bribery to influence a vote. The charges arose from the purchase of the cemetery as a site for the armory. The contract for the removal of the bodies was secured by R. J. Conover. He was to receive \$15 for each body raised and reinterred in another cemetery. Conover has been convicted on a charge of grand larceny. In his trial evidence was given showing that the bones found in private graves were divided into several parcels which were buried as separate bodies. The country, it is alleged, was robbed of \$100,000. Since his conviction Conover has appeared before the grand jury and, it is reported, laid before it evidence which has involved several members of the board of supervisors and some prominent political leaders.

WAITING FOR MR. CLARK.

Civil investigators want to hear what he has to say.

The civic enquiry will probably be resumed this week, although on the point Judge Winchester yesterday declined to give a positive assurance. "We are anxious to have Mr. Clark back," he remarked. Asked whether any proceedings had yet been taken to compel the latter's return, the judge said there had not, "but," he added, "he can't stay away forever." "What remains to be done" was a question to which Judge Winchester replied that there were some witnesses yet to be examined, but would give no more definite information. In the meantime no action is being taken with regard to the request made by Architect E. J. Lennox for an investigation into the civic contracts let at the time the furnishing of the new city hall took place. Mayor Coatsworth says that nothing is being done, and it is understood that Mr. Lennox is satisfied with the thorough way in which the enquiry has been probing the contracts and that he will not, at least until the investigation is over, press the matter.

TOO MUCH OF IT.

"We will fight this case; there is too much of this kind of work going on, promising a man immunity to get all the hats and the things that are sold," says T. C. Robinette, K.C., counsel for Chris Holland.

This morning he will plead not guilty, and for a remand until Friday and elect to be tried by jury.

VESEVIVUS QUIET.

Naples, April 16.—The condition of Mount Vesuvius is unchanged to-day. The volcano is still surrounded by a cloud of smoke, but ashes have almost ceased to fall.

PROTEST AGAINST LICENSE.

The chairman of the license commission for Toronto was furnished yesterday by A. R. Hassard with petitions signed by several hundred voters, protesting against the issue of a license to the hotel at Bloor and Dufferin streets. An effort is being made to have that entire district declared a residential district and cut out of all license in the locality. Mr. Hassard, as counsel for the opponents of the license, will present their case to the license commission on Thursday at 2.30 o'clock.

DR. HAMILTON IS CORRECT.

PROVED FLIES ARE CAUSED BY CONTAMINATION AND STRONG CATHARTICS.

Knowing the frequency with which people suffer from this ailment, Dr. Hamilton made an exhaustive study into the cause of flies.

He found that the lower part of the bowels is like a network of blood vessels, and if subjected to persistent pressure a section will bulge out and form what is commonly known as piles.

The only effective mode of curing this trouble is the proper use of Dr. Hamilton's Pills, which can be taken before retiring. Next day will bring wonderful relief.

Suffered up to about the limit of human endurance with piles," writes Miss Luaders from Cornwall, Ont. "I was employed in a factory here, but for a while had to give up work till I got better. This trouble can be cured. I read in the Montreal Herald about Dr. Hamilton's Pills, and after using them for two weeks was cured. I can recommend these pills very highly; there are none better. They at once relieve and prevent a constipated condition of the bowels, and from my experience can be depended upon as a perfect safeguard against piles. Dr. Hamilton's Pills of Mandrake and Butternut, I am sure, would be a benefit to every girl or woman."

CASTRO'S RETIREMENT.

Wilmington, Delaware, April 16.—Passengers arriving here to-day from Venezuela said that the action of Gen. Castro in retiring from the presidency in favor of Vice-President Gomez is not clearly understood in Venezuela, but the general opinion seems to be that his retirement is only temporary. Gen. Castro has gone one way, as a private citizen, unattended and paying the regular fare on the railroad; his wife has gone another way, and the former president's sister arrived here to-day.

IF IT WASN'T FOR CARNEGIE LIBRARIES WOULD BE SCARCE

Municipalities Do Not Seem to Realize Importance of Aiding in the Work.

Several matters of interest were discussed at the sixth annual meeting yesterday of the Ontario Library Association, held both afternoon and evening. Canadian Institute on College-street, under the chairmanship of the president, W. J. Robertson, B.A., LL.B., of the public library, St. Catharines. There was a goodly gathering of members, including several ladies.

Secretary E. A. Hardy reported some considerable progress and activity in library circles, immediately following the meeting last Easter the executive committee had waited on the minister of education and placed before him requests for the appointment of a provincial library commission, the issuing by the government of quarterly bulletins prepared by the association, and some financial aid. The minister had granted the second and third requests, and had promised consideration for the first.

New buildings had been opened at St. Thomas, Galt, Waterloo and St. Mary's. Satisfactory reports were given from Belleville by Henry Curby, and to Woodstock, Picton and Bracebridge by Andrew Carnegie, and by a friend to Burlington, Sarina and St. Thomas by Mrs. M. J. Leavitt. The meeting will be continued at 8.30 this morning and will go on till noon; the time will be occupied, amongst other things, by the reading of papers and the election of officers.

COLEMAN TP. OFFICIALS.

Government in Running Order—Water Service for Cobalt.

Latchford, April 16.—(Special)—Cobalt is to have an immediate supply of pure water and engineers and contractors who wish to tender for the work must submit their plans to the council by the 24th inst. The initial meeting of the council of Coleman was held at Cobalt on Saturday, and letters from Willis Chipman, Toronto; Leblanc, Haldimand, and A. Leoford, Quebec, were read by Mayor Finlan, offering suggestions and making enquiries as to the council's intentions regarding installation of a water service. Waiter Sadler, Mayor of the town, and Sandier, Toronto, was appointed solicitor for the township. P. J. Hart, formerly of the town of Coleman, and Adolphe Pilon of Mattawa, the man on whom rests the responsibility of making a fair and equitable assessment of the township, were appointed assessors. Mr. Hart, minister of education, and Mr. Pilon, minister of agriculture, are charged with the enforcement of sanitary regulations.

Who Can Say My Heart is Well?

When high authorities assert that just one in a hundred is absolute y. s. And the treachery of it all is when you are acquainted with a man who has health being cut down without a minute's warning, and there is nothing for it but to proclaim it heart disease. A few ailments are you nervous—have you stomach troubles, have you dizzy and fainting spells? These are sure signs of heart disorder, and just as sure as death that Dr. Agnew's Heart Cure will do the fixing, and it does its work as by magic. It's the wonder remedy—relieves in 30 minutes.

400,000 MINERS ON STRIKE.

Indianapolis, Ind., April 16.—President John Mitchell of the United Mine Workers, and Secretary-Treasurer W. B. Wilson, have arrived at national headquarters and seen satisfied with the outlook.

The international executive board will meet to-morrow, and one of the matters to come before the board will be the proposed strike of the miners. THANKSGIVING PSALM.

A Rhythmic and Grateful Chant.

A teacher in a Terre Haute public school has written a Thanksgiving psalm. "Teaching is a business which requires a great deal of brain and nerve force. Unless this force is renewed as often as it is expended the teacher is exhausted before the close of the year. Many resort to stimulating tonics for relief.

"For three years I struggled against this almost complete exhaustion, getting what relief I could from doctor's tonics. Then in the spring of 1903, I had an attack of grippe and malaria which left me too weak to continue my work. Medicine failed to give me any relief, a change of climate failed. I thought I should never be able to go back to school again.

"I ate food enough (the ordinary meals, white bread and vegetables), but was hungry after meals.

"It happened at this time to read an article giving the experience of another teacher who had been helped by Grape-Nuts food. I decided to try Grape-Nuts and cream, as an experiment. It was a delightful experience, and continues so after a year and a half of constant use.

"First, I noticed that I was not hungry after meals.

"In a few days that tired feeling left me, and I felt fresh and bright, instead of dull and sleepy.

"In the month or more that my usual strength returned, and I had gained 15 pounds in weight.

"I finished the year's work without any kind of loss—was not absent from duty even half a day.

"Am still in the best of health, with all who know me wondering at the improvement.

"I tell them all 'Try Grape-Nuts'." Name given by Postum Co., Battle Creek, Mich.

Atlanta, Ga., April 16.—The strike of the Southern Bell Telephone linemen became effective to-day. The total distance this strike covers is 18,500 miles, and this was accomplished without accident or any unnecessary delay.

Time Something Was Done.

English newspaper clippings which cited cases where well-known criminals had been given two alternatives, to go to Canada or to prison, were recently sent by Secretary Morley of the board of trade to St. Wilfrid, LaVere.

Yesterday Mr. Morley received a letter from W. D. Scott of the department of the interior stating that the matter had been placed in the hands of the High Commissioner for Canada.

Monteale at Hongkong.

Hongkong, April 16.—The Canadian Pacific steamship Monteale arrived here at 8.30 yesterday morning on the around-the-world trip. She left St. John, N.B., on Jan. 28, and now calls at Hongkong. The total distance she traveled was nearly 18,500 miles, and this was accomplished without accident or any unnecessary delay.

FARMERS COMPETE KEENLY TO CUT EACH OTHER OUT

A MINING COMMISSION FOR SETTLING DISPUTES

Added Feature of Government Program—Will Travel About as Cases Demand.

In Bargaining With Immigrants—Some Underhand Methods Are Used.

Long before 7 o'clock in the morning 100 farmers, by actual count, were yesterday standing on the bridge waiting for the immigration office to open. Up to 5 o'clock the office was full of men looking for help, there being more farmers than immigrants. There was a great deal of experienced help to be had, but some of those who had never seen a farm were offered from \$120 to \$150 for the season. The officials are complaining of the extra trouble they are put to because of the competition among the farmers. An instance of this occurred yesterday when a farmer had hired a young Scotchman for \$125 for the season, and after the agent had given him his ticket and had his baggage checked another farmer loaded the young Scotchman with a lot of hot air about his employer being a hard man to work for. The lad got frightened and hired with his jollier for \$10 less for the season. The young fellow's ticket and checks had to be changed.

Many similar cases of annoyance occur, caused by the disposition of some farmers to work underhand. About two hundred immigrants came in Sunday night, and about five hundred distress and suffering. They were most English with a sprinkling of Scotch.

Some Salvation Army immigrants are expected to-day or to-morrow.

SUBJECTS FOR CONFERENCE

Some of the Topics Chamber of Commerce Will Discuss.

The Canadian Manufacturers' Association yesterday received notification from the secretary of the sixth congress of chambers of commerce of the empire to the effect that the congress will be held in London during the second week of July, when the Earl of Elgin will act as honorary president.

Accompanying the notification is a program of the resolutions to be put by the various chambers represented.

Montreal will ask that the British government explain the reason for the cattle embargo, and that the islands of St. Pierre and Miquelon be purchased from France.

The Newfoundland board of trade thinks that this portion of the empire should be received into confederation. The Toronto board of trade and the Canadian Manufacturers' Association will ask that the government establish an imperial advisory council with a department of intelligence for the civil affairs of the empire, which would lead to more uniformity in connection with the laws relating to patents, currency, weights and measures, trademarks, insurance, copyright, etc.

BOTH FOOD AND MEDICINE.

We like best to call Scott's Emulsion a food-medicine. It is a term that aptly describes the character and action of our Emulsion. More than a medicine—more than a food, yet combining the vital principles of both. It is for this reason that Scott's Emulsion has a distinct and special value in all wasting diseases. There is nothing better to remedy the troubles of imperfect growth and delicate health in children. The action of Scott's Emulsion is just as effective in treating weakness and wasting in adults.

Mr. Fitzgerald and Mr. Blackadar will probably have to be recalled from time to time when the evidence, which they have given, is being offset by the companies in Montreal and Toronto.

The companies will find it hard to become accustomed to the idea that they really need to be under effective government control. IS KITCHENER DANGEROUS? Although Canadians do not receive any appreciable proportion of the revenue derived from India, we have an interest in that empire within an empire which makes every readjustment of political power there of direct importance to us.

From time to time different elements in the body politic of India are declared by observers on the spot to be dangerous. Yesterday it was the native who wanted to play the game of equality with the white.

Lord Kitchener was sent to India as the only possible mender of a military situation which was becoming intolerable. He went to reorganize an army of high control of which was said to be distinguished by every attribute of inefficiency which had been disclosed in South Africa.

But Lord Kitchener and Lord Curzon fell out and appealed to England. Mr. Brodrick, personally the inferior of both, was secretary of state for India in London, and decided for the soldier.

CORNER OF KING AND YONGE STREETS, TORONTO.

Of the Thousands Who Pass This Busy Corner One in Every Four Has Piles

This alarming statement may seem exaggerated but it is founded on the actual experience of hospital surgeons and practising physicians. When you think of the uneasiness, the discomfort and the downright agony which result from itching, bleeding and protruding piles it is little wonder that there is such enthusiasm among persons who have been cured by Dr. Chase's Ointment.

Piles or Hemorrhoids and How to Cure Them

Piles Make Life Wretched for Many Who Could as Well Be Cured if They Only Knew of Dr. Chase's Ointment.

Words fail to describe the suffering caused by piles.

It may be truthfully stated that piles produce more excruciating pain, misery and wretchedness of feeling than any known disease. Life becomes a perfect burden during the attacks of itching, burning and stinging pains.

Besides being little understood, there is unfortunately a delicacy about mentioning this disease, and many a poor woman has pined away her life when few, if any, of her friends knew what was the cause of her affliction.

It is a great mistake to imagine that the effects of piles are local, for, as a matter of fact, they sap the vitality of mind and body and slowly but surely lead to the ruination of the health. This is true of itching and protruding as well as of bleeding piles, which, because of the loss of blood, are more rapid in their disastrous effects.

Dr. Chase's Ointment brings almost instant relief from the itching, burning, stinging sensations of piles, and is a positive and thorough cure for every form of this wretched, torturing and oftentimes stubborn disease. This has been proven in so many thousands of cases that there is no longer any room for doubt that Dr. Chase's Ointment is the most satisfactory treatment for piles that was ever discovered.

Frequently when doctors have failed to cure piles and even when the surgeon's knife, with all the accompanying risk, expense and suffering, has proven futile, Dr. Chase's Ointment has proven a successful treatment and effected thorough cure.

Piles are small tumors which form in and about the orifice of the rectum and are described as itching, bleeding or protruding, according as to which symptom is most prominent. Dr. Chase's Ointment is eminently successful in curing every form of piles, and full instructions as to the method of treatment are contained on the circular which goes with each box.

The Proof We Offer

The names of many prominent people might be mentioned in connection with Dr. Chase's Ointment. As a matter of fact there is no preparation obtainable which is so satisfactory as a treatment for piles and when this is found out the good news is passed along from friend to friend.

Especially persons who travel much and are compelled to sleep in strange beds and expose themselves to all sorts of weather are bound to suffer more or less from piles.

Few men are better known throughout the country than Inspector Jos. E. Rogers and Detective Wm. Greer, whose letters of recommendation for Dr. Chase's Ointment we have on file. We might also mention Mr. S. J. Sharpe, the well-known ticket agent at 80 Yonge street, and in order that the whole country may be represented we publish the following letters:—

Bleeding Piles

"I am taking the liberty of informing you that for two years I suffered from bleeding piles, and lost each day about half a cup of blood. Last summer I went to the Ottawa General Hospital to be operated on, and was under the influence of chloroform for one hour. For about two months I was better, but my old trouble returned, and again I lost much blood. One of my doctors told me I would have to undergo another operation, but I would not consent.

"My father, proprietor of the Richelieu Hotel, Ottawa, advised me to use Dr. Chase's Ointment, and two boxes cured me. I did not lose any blood after beginning this treatment, and I have every reason to believe that the cure is a permanent one. I gratefully recommend Dr. Chase's Ointment as the best treatment in the world for bleeding piles."—Mr. Arthur Lepine, school teacher, Granite Hill, Muskoka, Ont.

Escaped an Operation

"Dr. Chase's Ointment is a wonderful preparation. I had itching piles for five or six years and though I tried two doctors' prescriptions and used many other preparations could not obtain much benefit. The doctor told me there was no cure for me and that I would have to undergo an operation.

"I bought a box of Dr. Chase's Ointment and was completely cured in one week. As this was six months ago and there has been no return of the old trouble, I believe that the cure is a permanent one."—Mr. J. Mawer, Roden, Man.

Protruding Piles

"I was so bad with protruding piles that I was confined to my bed, unable to move without the greatest pain and obliged to lie on my face. As the trouble affected my whole system I was soon brought to realize the seriousness of my condition and thought no person ever suffered as I did.

"The doctor pronounced my ailment protruding piles and gave me an ointment which did me no good, not even affording temporary relief. I then went to a specialist who gave me a different kind of ointment, but it did me no more good than so much snow.

"A friend advised the use of Dr. Chase's Ointment and the first application brought relief. By the use of one box I was completely cured and have not had a trace of the old trouble since. I was exposed to all sorts of bad weather last fall and spent the winter in the woods as foreman for the Victoria Gypsum Co., and have had no indication of piles."—Mr. John W. McLeod, carpenter, Tarbctvale, N.S.

Itching Piles 15 Years

"I am glad to say that I have been cured by Dr. Chase's Ointment of a case of itching piles from which I suffered for fifteen years. At times I was almost out of my mind and did not know what to do with myself, the suffering was so intense. I obtained relief from the very first application of Dr. Chase's Ointment and am now entirely cured."—Mr. Joseph Richard, Otter Lake, Quebec.

Eczema, Salt Rheum and Itching Skin Diseases

The Dreadful Itching is Relieved and the Sores Healed and Cured by the Use of Dr. Chase's Ointment.

The most constant, annoying and troublesome symptom of eczema is the itching and burning which varies from that which is simply annoying to that which is positively unendurable.

Another feature of eczema is its tendency to become chronic and spread to other parts of body. In order to entirely overcome these symptoms and to heal up the sores a hard fight is usually necessary, and because Dr. Chase's Ointment has proven so successful in the cure of this disease it has become famous the world over.

Wherever there is itching skin or a sore that refuses to heal you can use Dr. Chase's Ointment with positive assurance that the results will prove entirely satisfactory.

It is not at all unusual for children to suffer from eczema, especially during the teething period, and this variety of eczema yields readily to the influence of Dr. Chase's Ointment, so long as it is not allowed to become chronic.

Mothers find Dr. Chase's Ointment of inestimable value in the nursery, not only for eczema, but also for chafing and the various skin irritations common to childhood. It will not injure the most delicate skin and is far more healthy and sanitary than pore-clogging powders.

There are score of ways in which Dr. Chase's Ointment is useful in every home. Among the troubles for which it is most commonly used we might mention: Eczema, Salt Rheum, Baby Eczema, Scald Head, Chafing, Skin Irritation, Sore Feet and Toes, Chilblains, Poisoned Skin, Ivy Poison, Barber's Itch, Prairie Itch, Hives and Insect Bites, Scalds and Burns, Pimples and Blackheads, Sore and Inflamed Eyelids, Chapped Hands and Face, Old Sores and Bed Sores, Rough, Red Skin, and for every form of skin irritation and skin eruption.

TWO STEEL STEAMERS

SINK FROM COLLISION

Bad Accident in the Soo Passage

Splendid Craft With Valuable Cargoes Lost.

Detroit, Mich., April 16.—The most disastrous collision in years in the Soo passage occurred this morning when the steel steamers Saxonia and Eugene Zimmerman came together at the foot of the dyke. The Zimmerman sank at the once in twenty feet of water on the Canadian side of the river. The crew were safe. The Saxonia continued on down the river as far as Little Mud Lake, where she filled and sank on the west side of the river. The channel is not blocked by the accident. The Saxonia was bound down from Duluth with a valuable cargo of flax seed and the Zimmerman was taking a load of coal to Lake Superior. Both steamers are among the highest class of lake craft and the loss to insurance companies taking risks on hulls and cargoes will be heavy. The Zimmerman was on her first trip, having left the Toledo shipyard but a few weeks ago.

SANDBARS IN CHANNELS.

Caused by Winter's Storms—Water Level Higher Than Last Year.

According to Capt. Wigle of the steamer Lakeside, "the bottom is coming up out of the lake" in the eastern channel. He registered a complaint yesterday that there was only about 9 feet of water in the gap. This does not mean, however, that the water is lower. Capt. Hall, deputy harbor master, attributes the shallow water there as an effect of the big storms during the winter, which have caused sand bars to form both at the eastern and western channels. The water level is higher than last year, being now 15 inches above the zero mark, as compared with 10½ inches this time last year. A special despatch from Brockville says: "The low level of water in the St. Lawrence this spring is the cause of considerable discussion just now. Before the water was freed from its frozen imprisoned state it was thought the level would be fully as high as last year. It is now fully a foot lower, with chances that it will go still lower as the season advances. Old-timers attribute this condition to the absence of snow the past winter and the usual spring rains."

"BLUE BELL" IS LAUNCHED.

Pride of Toronto's Ferry Fleet Will Be in Commission May 24.

Without a hitch, the new ferry-boat glided off her stays in the Poison Shipyard into the water yesterday at noon, and 27 minutes afterward the huge 15-ton boiler was placed in position. It was one of the most successful launchings that have taken place in Toronto in years. It was witnessed by 2,000 people. The neighboring wharves and the Poison wharf were well crowded.

The ceremony of naming the steamer Bluebell was performed by little Ruth Smith, daughter of R. A. Smith, who stood on a decorated platform, holding the bottle of wine, which was hung from the boat by colored ribbons. On the platform with her were Mrs. Smith, Miss Margaret Thompson, Mrs. Harry Wright, Mrs. L. Solman, Miss Chisholm, Mrs. E. Durman, Mrs. Fred Perry, Miss Perry, Mrs. Walter Garwood, Mrs. R. J. Garwood (Buffalo), Mrs. Frank Polson, Miss Cadowie (Brantford), H. C. Hammond, R. A. Smith, Lawrence Solman, Walter Garwood, Frank Polson, master of ceremonies. From the boat was suspended a large blue bell of flowers.

Amongst others present were: Mayor Coatsworth, Controllers Hubbard, Jones and Shaw, Ald. Adams, Church, Fleming, Oliver; the harbor board, represented by J. T. Matthews and J. G. Hagarty; City Clerk Littlejohn, Norman Macrae, Commissioner Harris, T. James Somers, J. J. McCauley, president of Toronto Baseball Club; Thomas Sanderson, William Lott (Lecest Hill), Thomas McQueen, John Redway (designer of the Bluebell); H. C. Calderwood, inspector for the Ferry Company.

The Bluebell, when completed, will have cost \$95,000, and will carry 1200 passengers. She is 150 feet long and 45 feet wide. She will be equipped with a fine, with low shafts, the first of its kind built in Canada. The steam engine was built in Glasgow and cost \$200,000.

Both ends of the boat can be controlled from either end. Capt. Williams will be in command with J. W. Ashton as engineer and William Gillan, mate. The Bluebell will be ready for business on May 24.

Launching at Meaford.

Meaford, April 16.—The new freight and passenger steamer built here by the Meaford Shipyard, was successfully launched this afternoon in the presence of about 400 people. The customary bottle of champagne was broken by Miss Hattie Perkins. The boat will be called the City of Meaford. Her dimensions are 117 feet over all, 24 feet beam and 8 feet 6 inches amidships. She will be ready for sailing in about two weeks.

DRESS REFORM IN 1832.

The following is from The Ladies' Magazine of 1832. A coterie of ladies at Amsterdam edit a periodical paper called The Euphrosyne. It was this paper which first proposed the creation of a national costume for the female legs of the Dutch sovereign; and its estimate for the gentlemen and the encouragement of national industry. If American editors would but engage in this cause with the zeal of the worthy mineers, we should confidently expect to see the adoption of a national costume. Now we can only hope.

However, we will propose a few rules in our editorial or exposing magazine, which is often the cause of nervousness and sleeplessness. Mrs. Ennis Chambers, Mansey Station, Ontario, writes: "I was troubled with dizziness, weak spells and fluttering of the heart. I was so bad at times I could not lie down in bed at nights but would have to sit up. I doctored for a whole year and got no relief. I took three boxes of Milburn's Heart and Nerve Pills and was completely cured. I have not been troubled since. I cannot recommend them too highly."

WEARY DAYS AND SLEEPLESS NIGHTS

Many men and women sleepless night after night upon sleepless beds, until their heads ache and their nerves are so exhausted that they are unable to rest. This is often the cause of nervousness and sleeplessness. Mrs. Ennis Chambers, Mansey Station, Ontario, writes: "I was troubled with dizziness, weak spells and fluttering of the heart. I was so bad at times I could not lie down in bed at nights but would have to sit up. I doctored for a whole year and got no relief. I took three boxes of Milburn's Heart and Nerve Pills and was completely cured. I have not been troubled since. I cannot recommend them too highly."

They can be set right by the use of MILBURN'S HEART AND NERVE PILLS

They soon induce healthful, refreshing sleep, not by deadening the nerves, but by restoring them to healthy action and removing all symptoms of heart trouble, which is often the cause of nervousness and sleeplessness. Mrs. Ennis Chambers, Mansey Station, Ontario, writes: "I was troubled with dizziness, weak spells and fluttering of the heart. I was so bad at times I could not lie down in bed at nights but would have to sit up. I doctored for a whole year and got no relief. YORK COUNTY AND SUBURBS

Toronto Junction, April 16.—The G.T.R. have discontinued track-laying on St. Clair-avenue. They had a ballast train and lifting gang working to-day packing and lining that already laid. Mayor Smith, several of the councillors and C. F. Wright, chairman of the school board, will wait on the railway commission in the city hall to-morrow morning with a view of coming to a different understanding.

Traffic has been suspended on Weston-road in consequence of Commissioner Moon's starting this morning to fill up both ends of the bridge over the C. P. R. track. It will take three weeks to complete.

Judge Morgan held court of revision in the town hall this morning. There were but very few reductions made. The Niagara Power Co.'s assessment was reduced from \$6500 to \$5000 on the lately acquired Gilbert property; P. M. Grant, corner of Elizabeth and Annette-streets, from \$1570 to \$800; Arch Campbell's income assessment was reduced to \$2500 on account of his seasonal allowance.

About 3 p.m. as James White, who resides at Bloor and Jane-streets, stepped off one of the city cars, it was noted that he was bleeding freely from a cut on the knee. He claimed that he received it while at work in a downtown shop. The cut was so severe that he was taken to Dr. Hopkin, who put three stitches in it and had him sent home in William Spear's private ambulance.

Owing to the absence of the rector of St. John's Church, the people's warden, J. G. Wright took the chair at the vestry meeting to-night. There was no business done. The meeting was adjourned to meet on the Monday evening next, the 23rd inst.

Bracondale.
Rev. Mr. Dick, the new pastor of the Church of Christ, preached his first sermon here last Sunday.

By actual count, fifteen rigs were stuck fast on Christie-street during the past week.

The latest invention of the township council to repair sidewalks is to fill in the holes with sod or mud and tramp it solid.

A public meeting will be held at Wychood public hall on Friday evening to discuss the advisability of annexing Wychood and Bracondale to the city.

H. G. Edwards, a former resident of Bracondale, but now of Buffalo, is visiting friends.

Real estate seems to be on the boom here. It is reported that the corner lot on St. Clair-avenue opposite the Presbyterian Church was sold for \$35,000.

There is talk of holding an indignation meeting to discuss the road question.

The people around Wychood would like to get acquainted with the sanitary inspector.

Large congregations were present at the different services at Zion Methodist Church last Sunday.

A local manufacturer, who bought a large lot on Christie-street to build a factory, asked the township council to give him an entrance to his land. It was promised to have him accommodated within a week. "It is now two months since," he said, "and there is no sign yet of the work being done, and thus I am kept back with the starting to build."

The quickest work that ever was done around here was last Saturday. The engine at John E. Edwards' factory broke down last Saturday. It would have taken ten days to repair the machine and consequently the employees would have had a long holiday. Instead of keeping shut down the members of the firm journeyed toward the factory with a new engine. Had the machine installed at once and the factory was in full swing again yesterday morning.

The western suburbs are going in with the eastern in expressing indignation at the way the city people behave on a holiday when they come out for an outing. On Good Friday they came out in droves, armed with all kinds of firearms, and the 15-year-old son of Mr. Chappel of Fairbank was shot in the face. The victim did not know who shot him. The wound is not serious, but that is due more to good luck than good sense. It is also said that some of those with firearms made the statement that some policeman of the city told them that if they go out into the country they can shoot as much as they please.

D. Wheeler of Christie-street, who only arrived in this country from England last summer, is a great lover of the collie dog, and recently imported one from the kennel of W. C. H. Wheeler, Birmingham, England. Mr. Wheeler exhibited Edgobaston Dandy at the dog show last week and carried off everything in sight, viz., "The Challenge Shield," a shaving set and a bygone medal.

Swansen.
At St. Olave's Church (Anglican) on Sunday, Rev. W. TenEyck of Trinity College administered the communion at the morning service, the responses being choral. The sermon was impressively delivered. The anthems and hymns were well rendered by the choir. Miss Scroggs presided at the new altar. During the offertory Miss Helene Scroggs, soloist, sang "Happy Bells of Easter Day." Typical Easter lilies gave a mediaeval effect to the chancel and altar.

At the 3 o'clock service Mr. TenEyck gave a special address to the young folks of the Bible class and Sunday school. Harry Carr, basso, sang "The Palms" (Faure) with pleasing effect.

On Thursday evening, April 13, at 8 o'clock, Canon Dixon will exhibit his War, with graphic sketches of the principal events.

County Constables Burns and Simpson yesterday arrested Geo. Woods, six miles from this place. He was tried at Orillia for breaking jail while awaiting trial for theft.

North Toronto.
Mr. Archer of East Eglington-avenue has pitched his tent to live in till his house is built.

Mr. Pengle, contractor, started the cellar excavation yesterday for Mr. Hill's house on St. Clair-avenue.

Miss Annie Stewart, the daughter of Rev. Mr. Stewart of North Bay,

is visiting Mrs. S. B. Lawrence, Roehampton-avenue.

For the past ten days a wagon has been sticking fast in the mud on Eglington-avenue east, and it will stick there till the road dries up, at which time it can be dug out.

Silas James, provincial land surveyor, is staking out building lots on Beresford and Earl-streets.

Mrs. Ross was arrested last Saturday evening for vagrancy. She will be tried by Police Magistrate Ellis this afternoon.

Albert Coulter of Bedford Park was taken ill with typhoid fever, and was taken to the hospital yesterday evening. In the Ellis private ambulance.

The first of home-grown garden vegetables, and grown outdoors, was reported by John Atkinson of Bedford Park, who has rhubarb for table use already.

The present town council passed a bylaw some time ago forbidding riding bicycles on the sidewalks, excepting medical men on a hurry call. Constable says that the bylaw is inoperative on account of this provision.

Yonge-street is receiving some macadam, but to put it in good condition would mean quite a big contract, and the expenditure of a large sum of money.

Cornets, bugles, drums, tin horns, tea-kettles and other instruments of noise are employed every evening to serenade ex-Councillor E. Armstrong of Roehampton-avenue. The boys would like to get a piece of the wedding cake.

Sunday night, while Mr. and Mrs. Thomas Hodgins, Metropolitan motor man, were walking north at Davisville, they were run into by Councillor D. Bond, who had a hurry call and used the sidewalk with his bicycle. Mr. Hodgins says "if he hadn't had a good grip on his wife the doctor would have sent her flying into the ditch. As it is my wife's skirt is torn."

Miss L. V. Lewis has resigned her position. Miss Lewis has been on the teaching staff of the Davisville school for many years.

Constable W. R. Tomlinson arrested Archie Dancy yesterday afternoon on a charge of stealing maple trees from Frank Lawrence's farm. He will be tried by Magistrate Ellis this afternoon.

Campbell Tibb of Kunkleton, Pa., gave his father, J. C. Tibb, a rather agreeable surprise last Sunday, a sudden appearing at home. The young gentlemen was 21 years of age on Sunday, and desired to spend the event at home. Last night a tea party was given in his honor, at which a number of his old friends were present. Mr. Tibb is in the railroad and brick business at Kunkleton, for a large New York firm.

Young presiding. R. W. Westbrook wrote complaining of over assessment. The C.P.R. asked for permission, which was granted, to build a siding where the railway crosses the concession road between concessions 4 and 5. The statement of the Dominion Bank shows the general account at the end of March as being \$370,233, clergy reserve \$330,333, interest account \$127,233, legislative grant \$31,700, tax sale account \$15,97.

Traffic Manager Wilson, Toronto and York Radial Co., wrote disclaiming on behalf of the company all liability for the accident to James Butler by the rank of Shakespearean exponent, driving of a car. Butler was thrown from his buggy. He brings claim for \$27, which both railway and township repudiate. Jas. Reid, who alleges injury to his horse thru defective planking on a bridge, brought claim for \$30. On motion of Messrs. Annis and Paterson he was offered \$15, which was accepted.

PUBLIC AMUSEMENTS.

"King Lear"—Princess.
Robert Mantell opened his series of eight performances of the classic drama at the Princess last night. King Lear, the most difficult to stage and interpret of Shakespeare's great tragedies. In it the dramatist deals with the elements of the human mind, and it exhibits more than any other his wonderful and intuitive knowledge of the human mind in its decay and when destroyed by the hardest blows of fortune. The keynote of the terrible tragedy of ingratitude is contained in the pregnant words of Gloucester in his exclamations: "As flies to wanton boys, are we to the Gods. They kill us for their sport."

This modern necessities the play has to be severely cut and in so doing it loses the continuity of power, which is its distinguishing characteristic. Therefore, depends on the personality of the actor, and to succeed as Mr. Mantell did, in overcoming both the natural and artificial difficulties of the tragedy, places him in the front rank of Shakespearean exponents.

More than Hamlet, Lear is the supreme test of the interpretative art, and Mr. Mantell stood the ordeal unusually well. He was the dominating force of the evening, and to succeed as Mr. Mantell did, in overcoming both the natural and artificial difficulties of the tragedy, places him in the front rank of Shakespearean exponents.

Restraint was the dominating note of his interpretation, but it was the restraint which intensifies the power of the appeal made to the sensibilities of the audience, and to succeed as Mr. Mantell did, in overcoming both the natural and artificial difficulties of the tragedy, places him in the front rank of Shakespearean exponents.

This quality was specially displayed in the presentation of the tempest scene when the insane king, the half-starved fool and Edgar, who is simulating madness, meet amid the raging of the pitiless storm. The effect was without doubt a powerful one, but it was exceeded in pathos by the later re-awakening of the light of reason, where the tension became almost too extreme. This latter scene gained much from the exquisite acting of Miss Marie-Booth Russell, who, as Cordelia, shared the honors with Mr. Mantell. Both were ably supported by the remainder of the company. Altogether Mr. Mantell's King Lear should not be missed by Shakespearean students, and it was gratifying that an exceptional large house awaited its first offering, and accorded him so unstinted a recognition. The tragedy will be repeated on Friday night. This evening Macbeth, the victim of that vaulting ambition which overleaps itself, will be given.

The repertoire of Mr. Mantell's plays for the week at the Princess has been changed by the substitution of "King Lear" for "Richard III." at the Wednesday matinee. "King Lear" will also be given on Friday evening.

"Checkers"—Grand.
For those with the sporting instinct and with a fondness for "the track," it was the real life to watch the betting-ring at Washington Park as it was shown on the stage at the Grand yesterday afternoon and evening. Also, it was a most difficult matter to refrain from joining in the excitement as good old Remorse pounded in ahead of the race and won for Checkers all that he needed to make his earthly living—a wife and a fortune. The racing comedy-drama is splendidly presented. There is only one change from last year's cast, and Hans Roberts, who has succeeded to the leading role, gives a thoroughly credible and sympathetic performance. Katharine Mulkins, as Pert, her heroine, is as sweet—the word is proper in her case—as ever. Dave Ibrahim Jr. is the same self-confident Push Miller, and so it is that the various characters, which were made famous and popular a year ago. The race scene is, if anything, better put on than it was then. Yesterday afternoon and evening the holiday crowds enjoyed the performances.

Festival of the Lilies—Massey Hall.
There is no more anticipated feature of the city's Easter week observance than the festival of the lilies, and the large audience in Massey Hall last evening bore ample testimony to the fact. The grouping on the platform of the children's chorus, with the scarlet uniform of the Royal Grenadiers' Band and the green foliage of the decorations made the scene picturesque indeed. There were sixteen program numbers, in all, including band selections, a series of choruses, including "The glory song," viffo solos excellently given by Master Campbell Weeks, vocal solos by Miss Maud Tilt and Master Jack Gooch, recitations by Miss Kate Innes and a series of graceful exercises under the caption "Whispers of the Lilies" and "Peasant Pastimes" by pupils of Miss Somers. Mr. Cringan as usual conducted the chorus.

Expelled for Wearing a Ring.
Miss Peggy Williams, a pupil at the Holyhead County England School, has been expelled from the school because she insisted on wearing a ring. The headmaster made a rule that the girls were not to wear rings, but it was ignored by Miss Williams, who said that her father, the Rev. John Williams, had offered no objection. After some correspondence, the father withdrew the girl from the school, but the headmaster, taking no notice of this, expelled her. He has been imprudently for the governors for his action.

popularity was attested by the incessant applause from the large holiday houses at both performances. Her "Suvannee River" was particularly well received. "Looney Dreamland" brings out much music and mirth. A condensed version of "Pinafore" was presented in a laughable manner. The vaudeville features of the show are all good. John Tucker makes a hit with his songs. Waits and Phillips sing and dance entertainingly. The Kratons do some novel and ingenious manipulations of hoops, and the Prampins contribute a clever musical turn.

Vaudeville—Sheela's.
The feature of Sheela's this week is the Killies' Band of Belleville, the one that has toured the world. They were given a great reception and when they played "God Save the King" the audience rose en masse. Several selections were played and the Johnstone troupe introduced the bagpipes, sword dancing and Irish jigs. Waits and Phillips sing and dance entertainingly. The Kratons do some novel and ingenious manipulations of hoops, and the Prampins contribute a clever musical turn.

May Howard's Co.—Star.
The May Howard Extravaganza Company, an old favorite of the Star Theatre patrons, is again at the burlesque house. May Howard, accompanied by a large company of first-class vaudeville artists, delighted a large audience at Monday's performance. Two little skits, "Mile Pitt" and "The Rounders" together with several good specialty stunts complete a good program.

The "Bedford" Suit Case

OUR special hobby in Suit Cases is the Bedford Case. To begin with it is our own case. It is made for us from our own specifications, and we like it—the salespeople like it. They know what it is and how good it is.

Then we have taken so much pains to keep it up to the standard, adding to its quality as opportunity arose. It is no wonder people recommend the Bedford to their friends and the sale of it increases so constantly. No value in suit cases sold elsewhere comes near it. That's a positive fact! We contract for so many and sell them so quick that the price is lower than the quality of the case by one-third.

The "Bedford" Suit Case, made from olive, brown and russet grain leather on English steel frame, two brass locks and bolts combined, easy leather handle, grain leather straps and full cloth lining with pocket, size 24 inch, worth \$5.50, special Bedford price. **3.95**
