WINNIPEG STRIKERS PRESENT ENLIGHTENED ASPECT THRU BROTHERHOOD MEDIATION

WINNIPEG STRIKERS PRESENT ENLIGHTENED ASPECT THRU BROTHERHOOD MEDIATION

WINNIPEG STRIKERS PRESENT ENLIGHTENED ASPECT THRU BROTHERHOOD MEDIATION

Winnipeg, June 3.—While oil of industrial unrest in the turbulent city of Winnipeg has been continuing, the workers have taken place which may have an important bearing upon the Winnipeg situation.

The local police problem was apparently disposed of. The policemen promised to remain on duty and cooperate in maintaining law and order. Word was received from Toronto that settlement of the strike there was imminent; parading by strikers and strike sympathizers ended abruptly when more than one thousand returned soldiers decided not to participate in an officially sanctioned parade of returned soldiers who have not approved of methods of the strike.

A committee tentatively was arranged for tomorrow, and the executives of the railway brotherhoods, acting as strike mediators obtained proposals of settlement from both the metal trades council and Winnipeg industrial employers.

While the negotiations conducted by the brotherhood mediators have been secret, it was understood tonight that the principle of collective bargaining was outlined in both settlement proposals.

Compromise Plan Contingent.

It is expected that the mediators' next move will be to submit a compromise plan based upon the method of collective bargaining used by the brotherhoods and the railroads. As the brotherhood collective bargaining system is less drastic than that originally demanded by the metal strikers, but broader than the plan first offered by the industrial employers, it was thought in some quarters that the mediators might find a common ground for agreement.

In substance, the metal workers' council insisted that settlement of all disputes between any of the seven trades in the council must be approved by the council. The employers offered to meet only representatives of the craft or crafts involved in a controversy, with the understanding that the agreement should be binding on the brotherhood locals as permitted to conclude with representatives of their employers and if an agreement is reached it becomes binding on the union. However, if delegations fail to agree, the controversy is sent on to the international brotherhood for adjustment.

Situation Was Tense.

At 10 o'clock this morning crowds gathered in the downtown district, expecting a fourth demonstration by strikers. Reports that the strikers would act if the demonstrators again became reckless added to the tension of the situation. Several hundred would-be marchers gathered in Market Square, but after speakers addressed them they decided to hold a mass meeting at Victoria Park. This was held without incident.

R. E. Bray, a returned soldier who has been leader of the returned soldier group affiliated with the strikers, went to parliament with several other men. Bray, for the third time, asked Premier Norris to resign or immediately initiate a movement for legislative solution against the strike. Norris again refused to do anything until the sympathetic strike was called off.

Distribution of newspapers was curtailed today. Newsboys joined the strike.

Council of Four Considering Two Changes in German Peace Terms.

GIVE GERMANY COAL

Would Guarantee Her Supply From Mines of Silesia.

Paris, June 3.—Two changes in the German peace terms, one territorial and the other financial, are being considered by the council of four, it became known today.

The financial question is the possibility of the acceptance of the German proposal to pay an indemnity of one hundred billion marks, which would involve dissolution of the allied financial commission to which the Germans strongly object. It is understood that this proposal has strong support in certain quarters.

The second proposal is for a plebiscite in Silesia and a guarantee to Germany of coal supply from the Silesian mines.

Experts of Great Britain, France, the United States and Italy are expected to meet as soon as possible to exchange views regarding the answer to the German counter-proposals.

Great Britain favors a number of concessions, while France remains firm in her stand to make no concessions. The Italian delegation held a meeting today to discuss the German counter-proposals. French experts also were in session.

The commissions on various subjects, such as reparations and economic, probably will meet within this city six hours to render reports to their respective delegations.

It is believed that as a result of the steps taken today the reply to the German proposals will be ready within 48 hours.

It is understood that the Americans are not averse to minor concessions but not to the extent favored by the British.

STRIKERS WILL ASK PREMIER HEARST FOR LEGISLATION

STRIKERS WILL ASK PREMIER HEARST FOR LEGISLATION

Demand Legislation for Forty-Four Hour Week and Collective Bargaining, or Will Ask Trades and Labor Council to Call General Strike.

The intention of the metal trades council as presented in last night's report of the press committee at the close of the convention of unions held at the Labor Temple is to request the Trades and Labor Council at Thursday night's session to take a referendum strike vote of its affiliated unions. In the meantime a great mass meeting of sympathizers with the metal trades is to be held this afternoon at Queen's Park to request Premier Hearst to have legislation effected immediately to enact a 44-hour week and the principle of collective bargaining. The strike referendum vote will be taken immediately following Thursday night's session of the Trades and Labor Council if the metal trades champions can influence the council to have this vote taken. Then, failing action by the provincial legislature another general strike would be called provided the referendum vote sanctions such action.

The press committee stated last night that the metal trades were fighting for a 44-hour week for male and female employees in Ontario. The committee stated further that if the strike vote carried the trades council of Toronto would call a convention of all the affiliated local two representatives from each local, with full power to interview Premier Hearst and call a general strike if he refused to accept a place on the convention committee further said that John Doggett, in explanation of his resignation, stated that he had resigned only because he had too much outside work to accept a place on the convention and had not resigned on a matter of policy.

Gunn's Opinion.

James T. Gunn stated that in his estimation the metal trades were making a farce of the trades union movement in Toronto. It was a foolish move, he said, to carry out a losing general strike, meet defeat, and again attempt to throw the whole movement into disorder. The provincial legislature, he said, would not meet for months and no immediate legislation could be prepared to enact a 44-hour week.

The carpenters meet at 11 o'clock this morning to discuss the metal trades' grievances with the Builders' Exchange.

President R. C. Brown of the Metal Trades Council yesterday issued a statement to the press calling off the general strike and thanking the various unions for their hearty support. The statement, summarized, is as follows:

"The Metal Trades Council is strengthening the ranks of the metal trades by taking into the unions the men belonging to the iron trades who have come out in sympathy. A new turn to the strike situation in Toronto has taken place within the last 24 hours. Several of the organizations in the city whose agreements with their employers have some time to run, have stated to the metal trades that the treasurer of the unions are at the disposal of the metal trades. There are quite a number of officials belonging to various unions in the city whose members they feel cannot join a sympathetic strike at this moment, who believe that they can find the necessary money to finance the metal trades to victory in a test of endurance. The unions affiliated with the metal trades compose the strongest combination of the iron trades industry which has been organized in Toronto.

Seven Thousand Out.

"There are 7000 skilled workmen and their helpers on strike in the metal trades. They are in a position to stay out for a long time until the employers come to reason.

"The council in no way desire to see the splendid spirit of the movement in any way jeopardized, and desires to state to all that they are quite prepared to fight the battle to a victorious conclusion with the combination of the metal trades. We advise all those who are out in sympathy to return to work, and let the metal trades continue the fight with all the power of the international movement behind them. Further, any assistance that the metal trades can lend to all who have helped them will be given with the greatest of pleasure. The spirit of the workers in the metal trades is splendid, and they assure you they will win the struggle. The fight of the metal trades for shorter hours and collective bargaining will mean much to the movement in Toronto, and as many organizations have offered their funds to help the fight, we might say that the metal trades are in splendid shape, and offers made will aid in the future in the test of endurance between the employers and the members of the metal trades.

"R. C. Brown"

Hardly Any Change.

It was stated by various leaders at the Labor Temple yesterday that the fact that the Big Fifteen had called off the general strike would not materially change the situation, and would scarcely affect the carpenters, the garment workers, the machinists at the Massey-Harris works, nor the majority of others on strike, many of these bodies having fights of their own with the employers. It is understood, however, that the carpenters may reach an agreement with the Builders' Exchange shortly, the only point at issue between the two parties being the question of the desired 40-hour week. If a settlement is reached with the carpenters, the labor situation will be fairly quiet for the remainder of the month, when notable additions may be made to the ranks of the metal trades strikers.

Various returned soldiers' organizations have decided to take a neutral attitude with respect to the strike, and the Toronto Sappers' Association has decided to take all necessary steps to meet disturbances, but to refrain from any interference with the aims of the strikers.

Federation Not Represented.

It is understood that the Canadian Federation of Labor was not represented at last night's convention of locals, and that for this reason 4000 union men, many of whom were behind the movement for the 44-hour week, were unrepresented. This federation is

FATAL AFTERMATH OF POISON GAS

Many Animals in Alsea Die From Eating Grasses Grown on Contaminated Soil

Mulhouse, Alasca, June 3.—The mystery surrounding the deaths of numerous horses and other animals in the Lutterbach region recently has been solved. Specialists who made a careful investigation have determined that the animals were poisoned by grass grown in a region where poison gas had been extensively employed during the war. Although the gas settling on the plants rendered them poisonous, the vitality of the plants themselves was not affected.

Inspector Makes a Haul Worth \$5000 Consigned as Glass.

Whiskey leaking from broken bottles in one of the C. N. freight sheds, foot of Cherry street, yesterday afternoon, formed a clue which led Provincial License Inspector Montgomery to a shipment of bottles of whiskey, two large barrels valued at \$5000. The liquor had been shipped over the Canadian Northern from Montreal as glass, and was consigned to Middleton and Company, Toronto. The labels, prominently placed on the 34 cases warning the freight handlers to "Handle with care," did not prove a successful caution. When the provincial men arrived the imported Scotch whiskey was found to be leaking. Vice Admiral Montgomery, Burnett and Courian, the government officers, opened the other 92 cases and found each of them to contain one dozen imperial quart bottles of whiskey. Two large barrels were also found. The barrels were resealed to "Middleton & Co." were also in the consignment, and upon breaking in the lid, it was found to contain "London" gin.

The entire shipment was taken possession of, and was removed to the government vendor's building on Front street, where it will be resold on prescriptions.

Handley - Page Apparatus Picked Up Messages From 4000 Miles Away.

St. John's, Nfld., June 3.—Wireless messages sent by German and Italian land stations nearly 4000 miles away were picked up today by the Handley-Page biplane which is being assembled at Harbor Grace for a transatlantic flight in competition with the London Daily Mail's \$50,000 prize.

Reports of the test made today of the plane's wireless receiving apparatus were brought here tonight by many citizens of St. John's who, with the airman camped here, celebrated King George's birthday by going to Harbor Grace to inspect the Handley-Page. They said the German and Italian messages could be heard only faintly, but that signals from the station at Clifden, Ireland, were picked up easily. It is expected fully satisfactory results will be obtained from the air.

Trial flights may be made before the end of this week by both the Handley-Page and the Vickers-Vimy bomber, which is being groomed here for its overseas journey. Vice Admiral Mark Kerr pilot of the Handley-Page, told his visitors today he expected to fly this week to St. John's, spending about five hours in the air.

Work on Captain Jack Alcock's Vimy bomber is being hastened, but rain has prevented final touches being given the engine. It is expected, however, the motors will have been tuned up by Thursday.

Frederick P. Raynham, "skipper" of the Martinie plane which is being put in shape for the Mail's prize flight, said tonight he hoped to be able to announce tomorrow selection of his navigator.

HOOPER PLACES MINIMUM AMOUNT REQUIRED AT SEVEN HUNDRED MILLION BUSHELS.

Paris, June 3.—A preliminary survey of the import necessities of Europe, except Russia, shows that the area will need 700,000,000 bushels of wheat and rye, at a minimum, or 850,000,000 bushels as a possible maximum. Herbert C. Hoover, the head of the allied relief organization, said in a statement issued today. The export surplus of wheat and rye from the larger exporting countries indicates that the needs of Europe can be met, he says.

"The present stocks and crop conditions in the larger exporting countries would indicate that there should be in the coming harvest year an export surplus of wheat and rye of from 870,000,000 bushels to 900,000,000 bushels, but of this other countries that Europe require about 100,000,000 bushels, leaving the supply of from 770,000,000 bushels to 800,000,000 available for Europe.

OMSK ANTI-BOLSHEVICK GOVERNMENT WILL ESTABLISH THEM IN ALL INDUSTRIES.

Omsk, June 3.—The minister of labor in the Omsk government, a social democrat, and a member of the constituent assembly, Leonid Shumilovskiy, has made the following statement to representatives of the press:

"The policy of the ministry of labor is to combine the protection of labor with the interests of the state. The interests of the working men can be safely guaranteed only if the living conditions of the working class can be improved only on condition that the industries in the country continue to exist and develop.

We have decided on an eight-hour working day in all industries. The state is interested in establishing working conditions under which the generations should grow up strong physically, morally and intellectually. We have introduced sickness and unemployment insurance. Employment bureaus, with the help of the government, will be established everywhere on the territory cleared of the Bolsheviki.

"Specially appointed labor inspectors have organized chambers consisting of employers and employees to pass upon all questions arising from employment of labor. The ministry of labor greets the tendency of the workmen to organize themselves into unions, considering it in the interest of the state that the working men should form themselves into an organized, disciplined body."

STRONG PROTEST AGAINST ATTITUDE IN PROCLAMATION OF A RHENISH REPUBLIC.

Berlin, June 3.—The German armistice commission has handed Marshal Foch a note for the allied powers, protesting against French support of the proclamation of a Rhenish republic as high treason against the empire, and complaining that the Rhenish threats are aimed at Wiesbaden. The note concludes:

"This action on the part of the French occupation authorities is in sharp contradiction to the armistice conditions and obligations legally undertaken. The German government makes the sharpest protest against this behaviour."

In response to Dr. Dorten's notification of the proclamation of a republic, the German ambassador, Philipp Scheidemann, has ordered the prosecution of Dorten and other members of his government for high treason, and declared "all the official acts of the new government void."

Paris, June 3.—In reply to an inquiry from the peace conference, Gen. Pilsudski, commander of the Polish forces, has sent a telegram to the conference, denying that he has broken the armistice with the Ukraine, and asserting that his troops only undertook counter-offensive measures against Ukrainian attacks.

The despatch adds that the Poles and Rumanians have effected a junction and perfected a joint front.

Calls Conference of Government, Railway Board and T. S. R.

Mayor Church is fully awake to the necessity of staving off trouble on the street railway before it is too late. Consequently he is going to have a conference with the Ontario government, the Ontario railway board, and the Street Railway Company today.

"I am anxious to forestall any trouble," he said. "The street railway strike in Buffalo lasted 28 days, and we don't want any tie-up like that here. Strong measures will have to be taken immediately to cope with the situation."

So far as the city is concerned, there will be no increase in fares of the Toronto Railway Company, and the city will not take over the road until 1921. They should adjust their own dispute with their employees by conciliation and arbitration."

TWELVE PROMINENT MEN OF DAWSON DIE OF POISONING AT PUBLIC DINNER

Dawson, June 3.—The last few days witnessed the blackest period in the history of Dawson, with the exception of the Princess Sophia disaster, which claimed many Dawson lives. As the result of death occurring from ptomaine poisoning following the dinner at the Yukon Gold Company's plant, No. A 54, below Sunker Creek, May 24, at which 36 prominent men of the north sat down in a veritable lottery of death, twelve drew fatal tickets, as follows:

George Munden, 43, of Montreal, known here as Thomas Munday.

Antoine Zandavich, better known as Smith, native of Dalmatia.

Otto Northing, 40, native of Sweden, leaving widow and five children, Dawson.

Finley McDonald, 63, New Glasgow, N.S.

Angus Chisholm, 62, of Antigonish, N.S., leaving widow and two small children in Vancouver.

Albert Gaudreux, 49, single, St. Thomas, Que.

William Cyrus Lawson, 33, Fort

Scott, Kansas, former prominent dredge man of Oroville, Cal., assistant superintendent of the Yukon Gold Company, Dawson, leaves widow and Dawson and son in American Aviation Corps, France.

Adrian Barrett, 40, Bartholomew, Que., leaves widow and three children, Dawson.

Alphonse Rioux, 44, Montreal, leaves widow and five children.

John Grant, 53, native of Antigonish, N.S., 23 years prominent in silver mining at Aspen Col., where he was also sheriff, leaves widow and eight children in Dawson.

John Thompson, 49, native of Ireland, Dawson.

Wm. McNeill, Antigonish, N.S. Four other men in hospital are expected to recover.

The entire camp supplies and utensils of this camp have been destroyed. The poisoning is said to be of a rare type of germ known as botulin. Samples of blood have been submitted to eminent bacteriologists of America for analysis.

said to be a seceding movement from the international. It was stated authoritatively yesterday that the grand executive of the Canadian Federation do not attempt to limit the power of strike sanction. According to information received, locals of this Federation are not only autonomous but also retain 90 per cent. of the membership and other fees.

Negotiations in Progress

The prospects of a settlement of the dispute between the bootmakers and shipbuilders at the Polson yards are better than they were, and negotiations are in progress to this end.

The joint industrial journal of the building trades convened yesterday afternoon in the office of E. N. Compston, fair wage officer, 67 Church st. No official word of the result of the meeting was handed out, but unofficial sources reported possibilities of an amicable settlement of matters in dispute in the building trades.

There is as yet no change in the labor situation with respect to the boot and shoe workers.

Pickets Recruiting

Andrew Lyons and G. Morr for the local district of the Brotherhood of Carpenters stated yesterday that pickets were bringing in new additions to the strikers' roll every few hours, and had added 14 shops during the day. They refused to confirm or deny the rumor that a settlement with the building trades was likely to be effected before this evening.

The moulders in extra secret session discussed details of the strike. Officials of the union claim that it is strong for the fray.

Champions of the 44-hour week strongly deprecated the attack made in yesterday's issue of an evening paper against the Amalgamated Union of Garment Workers. In answer to the statements made by that paper they stated (1) That the union which is almost entirely non-international organizer himself, and would be unable to organize seceding unions, and (2) That it was the Civic Employees Union and not the Amalgamated which decided to await action by the other public utilities.

**GERMAN OFFICIAL
TOLD TO GET OUT**

Warned French Commander at Wiesbaden He Was Abetting High Treason.

Wiesbaden, Germany, June 3.—Dr. Dorden, a former state attorney, and head of the provisional government of the Rhenish republic, yesterday forwarded two telegrams to the allied peace delegations at Paris. In one he announced that the delegates of the Rhenish republic had assembled at Wiesbaden and proclaimed the Rhenish republic, adding:

"They do not propose to shirk the obligations connected with the work of restoration in Belgium and northern France. They implore the protection of the French authorities against their opponents and beg the privilege of coming to Paris for negotiations."

The second telegram was in accordance with the following: "Everything is quiet in Mayence. The majority of the population is with us."

Colonel Pinot, the French commander at Wiesbaden, yesterday received a delegation representing the opponents of the Rhenish republic. The delegates, who represented all parties except the clerical, presented a memorial requesting the French commander not to permit himself to take one-sided information on the subject.

Turned Official Out

The commander in chief of the purpose of the petition and was told that the entire population was opposed to the formation of a republic and desired that the French authorities in the form themselves with respect to the state of public opinion either thru meetings or conferences with representatives of the various parties. Colonel Pinot, it is said, replied that it was too late for such a procedure.

A German official, who was a member of the delegation, asked Col. Pinot whether he was aware that he was aiding and abetting high treason against the German government. Col. Pinot is said to have replied that the cities which refused to conform with the new order would be cut off from food supplies. The French commander is alleged to have turned the German official out, telling him to go home and await his passports, as he was to be expelled from the city.

**PETROGRAD ADVANCE
SCARES BOLSHEVIKI**

Omsk, May 27.—A Bolshevist radio despatch from Moscow, dated May 24, gives the text of a proclamation of the executive committee of the Bolshevist party as follows:

"The Petrograd front until recently was for us a matter of secondary importance. During the last days the situation has changed entirely. The enemies of Bolshevism have decided to take Petrograd, and the Finnish and Estonian white guards, as well as troops of Gen. Udenich, Col. Belokhovich and Gen. Rodzianko, are moving against the city.

"This unexpected attack has brought about great demoralization in our ranks. Every minute counts. All of our main trusts to defend the red Petrograd."

Petrograd Taken?

Copenhagen, June 3.—Estonian and Finnish forces have taken Petrograd according to an unconfirmed telegram from Yardo received by The National Tidende.

The shipping office of Louis Gurofsky, 113 West Queen street, was entered and money and cheques to the value of \$1,366.08, stolen. Cheques drawn on the department of militia and defence, several banks and persons to the value of \$1,000, remaining amount being in American scrip.

**STILL ON SEARCH
FOR AVIATOR JAMES**

Poor Visibility Interferes With Hunt for Missing Ace.

New York, June 3.—The possibility that Capt. Mansel R. James, Canadian ace, who has been missing since last Thursday, when he attempted to fly from Lee, Mass., to Montreal, may have been forced to descend on Mount Riga, near Millerton, N.Y., was indicated in reports received here today by officials of the Aero Club of America from army fliers who left Hazhurst field this morning to make an aerial search for the missing aviator.

Mount Riga is virtually inaccessible. Yesterday P. G. Grant of Port Washington, N.Y., who was spending the week-end in Toronto, informed Aero Club officials he had heard an airplane motor Sunday, presumably grounded in woods nearby.

Poor visibility rendered the search apparently confirmed by Lieutenants John W. Frost and Ralph Starkweather, who piloted one of the three search planes from Millerton. They telephoned from Hartford that they had been in communication with H. R. Grant, assistant night agent at Millerton, who said that he had heard an airplane motor on two occasions last Sunday.

A telegram from Lieut. Frost received by the Aero Club tonight stated that he had scanned the country in the vicinity of Winchester Centre during the day, but without result.

Poor visibility resulting from low clouds hampered the work, and compelled the aviators to return to Hartford for the night. Lieut. Frost said they would fly in the morning to Millerton and would search Mount Riga and the woods near West Cornwall.

**ONTARIO COUNCIL
KNIGHTS OF COLUMBUS**

Convention Opens in Kingston—Delegates Are Welcomed by Mayor.

Special to The Toronto World.

Kingston, Ont., June 3.—Mayor Harry Newman formally welcomed the members of the Ontario state council of the Knights of Columbus at the opening of their convention at the club house of the local council this afternoon. In his address the mayor made reference to the historical associations surrounding the city and paid tribute to the work of the Knights of Columbus and the Catholic Army Hut Association during the war and thru the present period of reconstruction and demobilization.

State Deputy J. L. Murray said that in their duties to the empire the Knights of Columbus would always be found steady and true. The delegates assembled at the club house at 9:30 this morning and marched to St. Mary's Cathedral, where solemn high mass was celebrated by His Grace Archbishop Spratt. An impressive sermon was preached by the Father Meehan of Morrisburg. The opening session was mostly taken up with committee reports. Comptroller Clarence T. Smith of the Catholic Army Hut Association gave a short resume of the work of the association, both in Canada and overseas. The auditors verified the balance of the treasurer, showing a balance of \$136.21 in current account May 15. State Deputy J. L. Murray was instructed to send a telegram to the King, conveying birthday congratulations. There are 89 delegates and members of the expedition in attendance. The association now has 39 subordinate councils throughout Ontario.

Montreal Meeting Favors a Reconstruction of Entire Industrial System—Stock Watering

Montreal, June 3.—After a stormy morning session spent in discussion of the report of the Methodist church toward the conflict between labor and capital, the Montreal district conference in the Dominion of Methodists conference in Hamilton last October, which calls for the substitution of co-operation for competition in economic life and urges a reconstruction of the entire industrial system.

Rev. J. Howard Philip declared that the church gospel was not an opiate today only to render everyone satisfied with present conditions. "God help right to preach against such economic wrongs as exist today," he declared.

The Rev. T. Rourke thought that the crying evils of the moment which had led to the present unrest.

Outbreak of Chickenpox on the Ship Delays Docking at Quebec—Names of Toronto Officers Coming.

According to a telegram received last night by the soldiers' aid committee, the following officers and cadets for Toronto have arrived in Canada in the steamer Megantic: Capt. R. T. Beuhner, Lieut. D. I. Love, Lieut. K. Baillie, Lieut. E. V. Miller and Second Lieut. W. H. T. Brouse.

The liner which was due to reach Quebec at one o'clock yesterday was held up at Quebec Isle, due to an outbreak of chickenpox on board.

**POLES ARE RESISTING
GERMAN ADVANCE**

Paris, June 3.—Premier Paderewski Poland, today received a telegram saying that the Germans crossed the Polish boundary from Lyck to Bygod at three o'clock last Saturday afternoon. The message added that the Poles were resisting the Germans successfully. It indicated that the number of Germans who crossed into Poland was comparatively small.

HAMILTON NEWS

Hamilton, June 3.—Lieut. Col. A. B. Carvill, D.S.O. of Revelstoke, B.C., will bring home the 54th Battalion, which will demobilize here on June 10. A civic reception will be extended to the men, and among those who have been invited to be present are Premier Borden, Premier Measles, Gen. Bull and Major-Gen. Newburn.

In preparation for the opening of the annual convention here tomorrow, the grand officers committee of the Christian Order of Chosen Friends held an executive gathering this afternoon and evening.

The stockholders of the Toronto, Hamilton and Buffalo Railway Co. held their annual meeting here today and elected the following directors: Henry B. LeMay, Detroit; John N. Beckley, Rochester; Lord Shaughnessy, Montreal; William K. Vanderbill, Jr., New York; Dyer W. Saunders, Toronto; William F. Terrance, Toronto; William L. Scott, Toronto; Edward W. Beatty, Montreal; Albert H. Harris, New York; Grant Hall, Montreal; and Edward H. Smith, New York.

If Manager Bill Cristall is not hidden out of the Michigan-Ontario League after his corner-ot exhibition of this afternoon, President Jackson might just as well lock up his ball park. Hamilton won 15 to 1, but 200 fans had been chased home before the game was over. Reportedly, a complaint of indecent conduct by his first baseman, Friedman, had resulted in that player's suspension. He played today's game under protest.

With about 70 delegates present the thirty-second annual meeting in congregational Union of Canada opened in the First Congregational Church tonight. Rev. W. D. DeLoach, pastor of the First Congregational Church, preached the initial sermon, while Rev. Alfred J. Baird, pastor of the church, conducted the communion service.

As the result of falling off a street car tonight, Malory, 1 High Park avenue, was taken to hospital in an unconscious condition and suffering from several wounds. That unless residents of those districts where the lights are being broken furnish information regarding the identity of the driver, the car should be turned off, was asserted by Controller Halcrow at the meeting of the works committee tonight.

**LABOR CONFUSED
BY TORONTO ORDER**

Hamilton Men Say Calling Off Sympathetic Strike is Illogical.

Hamilton, June 3.—Labor men here are at sea in regard to the action of President R. C. Brown, of the Metal Trades Council, advising the Toronto unions who went out on strike in sympathy with the metal workers, to return to their work.

"It is only a few days ago that representatives of the Toronto Metal Trades went to Hamilton urging a similar sympathetic strike here. They called us 'dead heads' and declared that we were 'hiding behind the skirts of the Toronto strikers, and now they are advising the other unions to go back to work," said a prominent local labor man.

The objection by the trades and metal council has practically killed any chance of Hamilton having to go thru an extensive labor trouble. The only reason the A. S. of E. went on strike as being in favor of intelligent mass action was to support the Toronto metal workers, and now that the latter have decided to make a sympathetic strike, there is absolutely no excuse for a walkout.

BLACKSMITHS NOT GOING

There are no developments in regard to the blacksmiths throwing down their tools, it is understood that the bosses have not agreed to shorter hours, and that the union is being the local union was ordered not to go out by the international union, and it is thought that in the face of this condition they will endeavor to make a quiet settlement.

For the purpose of strengthening the local union a reduction of \$7.00 in membership fees is being referred to waiters who have served overseas. The present schedule for waiters is \$8.00 per week and \$40 per month, but a new schedule has been submitted, calling for a 59-hour week and \$50 per month.

**STATUS OF TROOPS
AT KINNEL TRIAL**

Official Statement to the G.W.V.A. Says No Canadians Face Murder Charge.

Ottawa, June 2.—A statement has been issued by the overseas military forces, of Canada, authorities, regarding the status of offending Canadian soldiers in the Kinmel Park riot trial, now being conducted. The statement was issued in response to enquiries made by the Great War Veterans' Association secretary, Mr. C. G. MacNeil. The following is the text of the statement: With reference to your letter of May 21, to General Ashton, which has been referred by General Newburn to Sir Edward Kemp, I am glad to be able to inform you, the rumors which reached you were entirely without foundation. To be absolutely sure we cabled to England, and have now received a reply as follows:

1. No Canadian soldier has been charged with murder or manslaughter, as a result of the disturbances at Kinmel Park camp, Rhyl on the 4th-5th March.
2. All charges against Canadian soldiers arising out of the disturbance are being dealt with by military authorities and none by the British civil courts.
3. Every opportunity has been given to the accused persons to secure material witnesses, whether in England or Canada.
4. All the accused persons have the option of being represented by a lawyer especially detailed for that duty or of choosing any other officer or civilian lawyer for their defence.
5. The officers specially detailed for defence are Major E. C. Weyman, and Captain George Black, barristers of extensive experience in court martial work.

**ASQUITH PUNCTURES
FRENCH'S CRITICISM**

Says That His Intended Movements Would Have Left French Army in Lurch.

London, June 3.—Herbert H. Asquith, British premier, at the outbreak of the war, replying in a speech today to criticism made by Viscount French, the first commander of the British forces in France, in his book concerning the government in the early days of the war, said that prior to the visit to France of Earl Kitchener he intended movements of Lord French had by him immediately with consternation. The movement of the former premier said, would have had in the judgment of the cabinet, the effect of leaving the French army in the lurch in the moment of supreme need. This contention, Mr. Asquith declared, was shared by the French government.

In reply to the charge of Lord French that he was not supported by the government in the supply of munitions, the former premier read a letter he received from Lord French at the time of the formation of the coalition government. In the letter Lord French said:

"I am sure that in the whole history of the war no general in the field has ever been helped in a difficult task by the head of his government as I have been supported and strengthened by your unfailing sympathy and encouragement."

Mr. Asquith read a passage from a report made to him by Lord French after the formation of the coalition government in 1915, in which Kitchener said: "I talked today with General French, who authorized me to tell you that the present supply of ammunition will be as much as his troops will be able to use over the next forward movements."

**NEW C.P.R. TRAIN
REACHES WINNIPEG**

Latest Across-Canada Express Clipping Full Day Off Time to Pacific.

Winnipeg, June 3.—The new Canadian Pacific Railway transcontinental train, the Trans-Canada Limited, passed through Winnipeg at 9 o'clock this morning en route to Vancouver. The new service, including a daily train each way, will cut 24 hours off the regular running time from Montreal to Vancouver. The train, which arrived in Winnipeg this morning, left Montreal at 3 o'clock Sunday afternoon, and clipped a full half-day from the regular run. George Ham and F. W. Fox, on the train, the latter was in Vancouver Thursday morning at 10 o'clock. The cutting off of 24 hours was accomplished in the lowest possible number of stops and running at faster speed.

Nearly six million dollars worth of equipment is being used in the new service; added to this is the new service for the train crews and the army of locomotive men. The new service on the train used in the new service on the 3000-mile run.

The Vancouver train, which left Vancouver at the same time the west-bound train left Montreal, arrived in Winnipeg this afternoon. It will reach Montreal at noon Thursday. The connections at Sudbury for Toronto are perfect, and half a day is saved in reaching the Queen City.

**PRESIDENT-ELECT
OF BRAZIL WELCOMED**

Received in London by Prince of Wales, and Cheered by a Large Crowd.

London, June 3.—Dr. Epitacio Pessoa, the president-elect of Brazil, arrived in London today from Paris. He was welcomed at the station by the Prince of Wales and a large crowd of King. A large crowd which had gathered at the Victoria Station cheered the Brazilian statesman as he alighted with his wife and daughter.

Andrew Bonar Law and Earl Curzon welcomed the visitor on behalf of the government. Other present were the Earl of Derby, British ambassador to Paris, Admiral Wemyss, first sea lord, and General Sir Henry Wilson. A guard of honor was drawn up on the platform, while a band played the Brazilian national anthem.

**OTHER WESTERN CITIES
AFFECTED BY STRIKES**

Work Stops at Port Arthur Coal Docks, and Vancouver Has a Partially Effective General Sympathetic Strike.

Port Arthur, June 3.—Every coal dock at the head of the lakes controlled by railways is idle today, the men having gone on strike at 7 o'clock this morning. This is not due to a sympathetic strike, but to grievances of the men employed on the docks. A year ago an agreement was signed at 48c an hour, this wage to be readjusted this year in accordance with the increase in the cost of living, which is calculated at 13 per cent. Vancouver, B.C., June 3.—A general strike of organized labor in Vancouver, in sympathy with the Winnipeg strike, effective at 12 a.m. today, was upheld constituted authority, and continued the uninterrupted operation of public utilities in the event of a general strike being called here.

Vancouver, B.C., June 3.—A general strike of organized labor in Vancouver, in sympathy with the Winnipeg strike, effective at 12 a.m. today, was called at a mass meeting last night. Exemptions from the strike were made in the cases of firemen and police, bakers and bakery salesmen, milk wagon drivers, theatre employees, hospital employees, laundries, hotels and restaurants, ten civic employees to act as grave diggers, six caretakers for the city waterworks, ice wagons for hospital, hotel and restaurant delivery only.

A general walk-out did not follow the strike call. At noon it was reported the only workers on strike were the seamen on British Columbia coast-wise vessels, the workers in five shipyards, the longshoremen and the men employed in the Northern Iron Works.

Street car employees, who were in session this afternoon, had not yet decided on a strike order for them tonight when it was expected they would run their cars into the barns and tie up traffic. They have decided to hold a mass meeting tomorrow afternoon to discuss the strike order.

**POLES ACCUSED
BY LITHUANIANS**

Ask That, if Charges Are Verified, They Be Asked to Leave Occupied Parts.

Paris, June 3.—In a memorandum addressed to the peace conference the Lithuanian delegation has requested the supreme council to appoint an impartial commission of inquiry to investigate alleged pogroms by Poles in parts of Lithuania occupied by Polish forces and other brutal and illegal acts alleged to have been committed by the Polish army of occupation.

If the charges are verified the supreme council is requested to order the Polish troops withdrawn from the occupied parts of Lithuania. If the withdrawal were ordered, it was set forth, the Lithuanian government would undertake to defend Lithuania against the Bolsheviki if the Lithuanians were furnished with war supplies.

"According to official information," the memorandum states, "Polish armies in occupied parts of Lithuania have created conditions of wholesale requisitioning, arrested employees of the Lithuanian government, imposed the use of the Polish language, and finally against the Jewish population, whose dead and injured already count up to an imposing number."

The memorandum declares that the Polish government and its troops in the "invasion" of Lithuanian territory, were and are far more interested in paying the way for the incorporation of purely Lithuanian territory (Bolsheviki) than in fighting the Bolsheviki. It says the presence of the Polish army is merely an encouragement to the Polish land holders against the poor masses.

**BOLSHEVIK PLOT
UNEARTHED IN FINLAND**

London, June 2.—A Russian Bolsheviki plot on a wide scale has been discovered in Finland, according to an exchange telegraph despatch from Copenhagen. Many arrests have been made in connection with the discovery. Several million marks had been smuggled into Finland preparatory to a contemplated revolution, the telegraph states, and a Bolsheviki report of more than three million marks of given out among the unemployed, had been the coup d'etat that was planned was postponed "owing to developments in Russia."

THE T. EATON CO LIMITED

BISHOP BIDS ALL SHUN BOLSHEVISM

Anglican Synod Opens With Charge to the Clergy. TEACH THE CHILDREN Great Emphasis Laid on Importance of Religious Education.

Canadian beware of Bolshevism. was the keynote in Bishop Sweny's annual charge to the members of the synod of the Anglican diocese of Toronto, which assembled at St. Nicholas' parish hall yesterday.

After expressing gratification at the close of the war, the bishop in his charge said: "While we are in the dark clouds of a new day, still also, dark clouds hover over the unhappy continent of Europe. The beast of war with his blood just still unquelled, still prowls thru hapless Russia."

It is the manifest duty of every intelligent, enlightened and Christian man to use his utmost strength, his courage of body and of soul to resist and control himself so that he may be the more fit to restrain and control himself and understand the social march of disorder and anarchy which has already reached our shores and paralyzed some of our largest centres of industrial population.

In emphasizing the importance of social reform, regret was expressed, that in certain directions evils had passed the stage where prevention could be applied instead of a cure being called for. As a preventive measure for the future, the supreme importance of religious education was referred to in the bishop's charge, which proceeded: "The trail bark of child life should not be allowed out on the wide sea of life, without religious knowledge as a chart and compass."

At the conclusion of the reading of the bishop's charge, the synod by a standing vote passed the following resolution of birthday greetings to the King, and authorized its despatch by wire to His Excellency the Governor-General.

Robinson's Circus Arrives in City Big Show in Toronto for Two Days at Dufferin Park.

The first of the tree trains bearing the wonders of John Robinson's circus reached Toronto before the sun peeped out this morning, and speedy preparations were made for the four performances that will be given under the huge tents at Dufferin Park today and tomorrow.

Promptly at 10.30 o'clock this morning the street parade, said to be a pageant of a thousand wonders, will leave the grounds. The principal business streets will be traversed.

Doors to the big show will be opened early for menagerie inspection. "Congo," a baby hippopotamus, is one of the features of this menagerie. During today and tomorrow a downtown ticket sale will be conducted at Moore's, 23 West King street, where seats can be secured at exactly the same prices charged at the grounds.

THE TORONTO WORLD MASSEY-HARRIS CO. ISSUES ultimatum TO ITS EMPLOYEES

Fires New Employees and Gives Old Ones Due Warning. SYMPATHIZERS ONLY Firm's Action Does Not Include Their Metal Trade Men.

There must have been many causes which prompted the committee of fifteen to cut off the general labor strike yesterday morning, but probably a letter issued by Massey-Harris Company to all their men on strike may have had a deciding influence. The letter was sent by special delivery mail on Monday afternoon, and all the men returned to work at 7 o'clock, yesterday morning.

Have No Excuse. "We are advised that you left our employ as a striker in connection with the revolutionary movement on foot in Toronto, which has been started under the guise of a sympathetic strike and with the alleged excuse of a dispute between the company and the Council and the metal trades employees."

"We may say that we have had a group of men on strike from our factory since May 1st, in connection with the metal trades dispute. These men are out on an ordinary strike—are being treated accordingly. You, however, have not acted in this way. The minister of labor, himself a labor man, says regarding sympathetic strikes, that they are being defeated and that the general sympathy labor organizations have, by their voice and actions, largely contributed to the outcome, because they believe a general sympathy strike is wrong, vicious and demoralizing."

"We thoroughly agree with the minister of labor's views in this matter. Further, an acknowledgment is given to the fact that, within a little more than a year, we have granted a 50-hour week instead of a 53, established first and accorded by the company for the character obtainable, a cafeteria equipment at a large cost for the comfort of the men, have contributed a sum sufficient to double the stock benefits, have set aside a fund for the retirement of old employees and the nucleus of a pension fund, have set aside \$500,000 of treasury stock of the company for sale, at par, on easy terms, to employees, and have established industrial councils in the works, where men can have their grievances aired, discussed and adjusted, we believe we are justified in having little patience with the agitators who have not only left their work, but have endeavored by their method of so doing, to cause others to follow their example."

"In the case of all who have been in our employ only for a short time we are enclosing their pay to date, and dismissing them from the company's service. In your case, because you have been an employee of the company for a considerable period, we are giving you an opportunity of reconsidering your action. If you are in your place on Wednesday morning, prepared to take your work, you will be allowed to do so. If, however, you do not come, we will assume that you do not care to work for us any longer, and will immediately send you your pay."

"Doubtless you will be advised by the agitators whom you have followed in the past, that you are being deceived, and we are saying it is a bluff and that you can ignore it. If you desire to work for us in the future, you will be exactly at our service."

Got the Sack. The same letter was taken to all men on strike, who were amply proved by the firm since the ultimatum was signed, but the last two paragraphs were omitted and the following words substituted—there can be little argument as to the meaning: "In your case you have been with us but a comparatively short time. We are enclosing your pay to date, and dismissing them from the company's service. In your case, because you have been in our employ only for a short time, we are enclosing their pay to date, and dismissing them from the company's service."

Every Man Shall Be Judged by His Work

Let Us Therefore Cast Off The Works of Darkness, For The Works of Darkness Are Unfruitful. Render to Every Man According to His Works, A Good Workman is Worthy of His Meat.

St. John, 14:12—Jesus said, he that believeth on Me the works that I do, he also shall do, and greater than these shall he do. Yes, the Good Deeds of Man Are Works of God. As for Me, I Shall Work, So Come, See and Believe.

Prof. Mulveney in His Laboratory.

Free to the inspection of the public at 211 Ossington Avenue, Prof. R. L. Mulveney has on exhibition thousands of specimens of parasites expelled from suffering humanity. Hundreds of tape worms may be seen, representing hundreds of lives which have been saved by the use of his wonderful remedy.

How People Feel When They Have Tape Worm. Tape worm is bred from a parasite. This parasite is a creature male and female in one. It is a pear shape, having two, four and six suckers. It lays the eggs, which are only connected together with slime. They develop and form a body, which is the worm. Each point is an individual, having a sucker or mouth.

Prof. Mulveney has just furnished his place of business. Beautiful wall cases of highly polished quarter-cut oak which contain those wonderful sights. His place of business is a credit to him. It is a sight that you must see before you can understand or realize. The wonderful work Professor Mulveney's remedy is doing for the people cannot be expressed in words, you must see to understand, the word wonderful hardly expresses its meaning.

SCHOOL BUILDING INQUIRY RESUMED

Shirley Denison Denounces Payment of Annuity to Supt. Bishop. MISMANAGEMENT Bishop Surprised at Charge of Serious Incompetency.

The action of the finance committee of the board of education in handing out annuities to retiring officials at their Monday night's meeting, was reviewed at the resumption of the probe into the school building department at Osogood Hall yesterday.

Shirley Denison, K.C., stated that it was entirely improper that a committee of trustees should at the present time, with the investigation impending, grant an annuity to Supt. Bishop "for faithful services."

Must Take Definite Stand. "The trustees must take a definite stand and let me know if they are going to go on committing themselves to appointments and matters which may appear in an entirely different light when my report has been made," said Justice Lennox.

Gavin Browne sr., Miss M. Allan Browne, Mrs. James Browne and Chas. R. Browne of Beverley street are at "The Kahler," Rochester, Minn.

CAUGHT FIRE FROM CANDLE.

When his clothing caught fire from a lighted candle with which he was playing in the cellar of his home at 81 Brunswick avenue, at 5 o'clock yesterday afternoon, Mike Garfinkel, aged 9 years, was badly burned about the arms and shoulders. When the boy's parents found him in the cellar his clothing was a mass of flames. The flames were extinguished, but not before the police ambulance removed him to the Hospital for Sick Children. His condition is serious.

LOCAL TENOR IN RECITAL

Albert Downing, the Toronto tenor, presented a recital of oratorio, ballads and folk songs on Saturday evening at Foresters' Hall to a very good audience. Downing sang a program of seventeen numbers, including encores, in a very artistic and praiseworthy manner, all his selections being very favorably received. The assisting artist was Jessie McAlpine, artist pupil of W. O. Forsyth, who played her nuptials with great brilliancy. Alma Ferguson acted as accompanist and contributed greatly to the success of the recital.

APPEALED PHONE RATES

The city yesterday entered its appeal to the governor-general-in-council against the order of the Dominion railway commission, allowing an increase of 10 per cent in the telephone rates.

BAND CONCERTS

The following band concerts have been arranged for this week: Wednesday, June 4, Queen's Park, Q. O. R. Band; Thursday, June 5, Ramsden Park, Mississauga Horse Band; Friday, June 6, Riverdale Park, 110th Battalion Band.

DOLL HURT CHILD

Katherine Reason, aged 5 years, of 111 Booth avenue, had her cheek cut below the right eye yesterday afternoon when the wire of a doll's arm with which she was playing broke and flew up striking her. She was removed to the Hospital for Sick Children for dressing of the injury.

MONARCHY CEASE TO EXIST

No Longer the Fatal Dualism of Any Army or Institution.

KRENER MAKES PLEA

That Austria as at Present Constituted Never Declared War.

Germany, June 3.—Upon receiving the treaty from the Austrian delegation, outlined the history of the establishment of the German-Austrian republic. From the Hapsburg empire. He spoke as follows: "For a long time the people of Germany have been waiting in distress for the present day to come, which shall relieve the tension caused by the uncertainty as to their future state. We were waiting for the hour of decision, because it was to render peace at last to our hard tried country and to offer us an opportunity to decide before the illustrious tribunal of the world's highest authority, what our country is and what the conditions are under which we may hope to organize the responsibilities for the existence of an independent commonwealth. The Danube monarchy against which the allied and associated powers have waged war and with which they have concluded an armistice have ceased to exist. Nov. 12, 1918, may be considered the day of its death. From that day on there was no monarch any more nor a big power over which he could hold his sway. There was no Austria, nor a Hungarian government, nor any other recognized institution vested with public power.

Eight Nationalities Left. "There remained only eight nationalities deprived of any public organization, and over night they created their own parliaments, their own government and their own armies. In short, their own independent states. In the same way as the other nationalities our republic, too, has sprung into life. Consequently she was no more than the former considered the successor of the late monarchy. From this very point arises the fundamental contradiction under which we are laboring the most and which is waiting to be cleared before this high assembly.

On the one hand no one could, from the judicious statement recently proclaimed by the chairman of this conference, reason that a modification of the political form of government or a change of its leading persons would suffice to release a nation from assumed obligations. This entails the conclusion that all the territories of the ancient monarchy and their people could be made responsible for the consequences of the war, which was based upon them all by the former governments. This is weighing upon us as upon all the other nationalities established on the territory of the ancient Austro-Hungarian monarchy, a portion of the dreadful inheritance left by the fallen empire, the inheritance of war, the inheritance of extension and the inheritance of the heavy economic obligations. But the new republic has freed itself from all these imperialistic obligations which have become so fatal to the existence of the ancient monarchy. She has rid herself once and for all of the reactionary traditions which had turned the former monarchy into a prison for its people. She is also the unfortunate victim of the horrible crime of 1914—a crime committed by the former government, however, and not by the people.

Never Declared War. "On the other hand, all the succeeding states have in the light of international law come into existence after the cessation of hostilities only. The Austro-Hungarian republic in its present shape has never declared war, never carried on a war and in relation with the western powers, never held the position of a warring power from an international point of view. All there could be no doubt as to the fact that our republic never was at war with the new national states. On the contrary, in Vienna various commissions appointed by the succeeding states have met to settle the estate left by the late empire, and to divide its mutual agreement among themselves all the rights and assets of this estate. Between them and us it is not a question of making peace, but of liquidating the former partnership and settling the future relations under the intervention and guarantee of the powers, for which we pray. Nevertheless, these succeeding states, meeting face to face in Paris, are playing quite a different role in regard to the obligations assumed in the past. We expect to eliminate this contradiction at the peace conference. I reserve to myself the opportunity of drawing like conclusions from this contradiction later on.

Trust to Entente. "We are before you as one of the parts of the vanquished and fallen empire. We assume our portion of the liabilities growing out of these war relations to the allied powers and we are well aware of the fact that our fate is resting in your hands. "We hope and believe that the conscience of the world shall not deny to our people, nor curtail, the inalienable right of self-determination, which the allied powers have always produced and to be the very aim of their war waged against the Hapsburg and the Hohenzollern monarchies, the right which our people, confiding in the principles recognized by the allied powers have adopted as the fundamental basis for their new constitution.

"We trust that the world's common sense will not have in view, nor will permit the economic ruin, the destruction of the economic unit of the monarchy, the separation of our national resources from all its national resources, to privation, which are by far exceeding the sufferings endured in war time. It was only due to the generous relief action organized by Mr. Hoover, on results surpassed by the allied powers that we have been saved from downright starvation, but in all these times of distress our people have, in a manner worthy of admiration, shown discipline, patient endurance, and good sentiment.

No Bloody Revolution. "Our new republic did not stain her

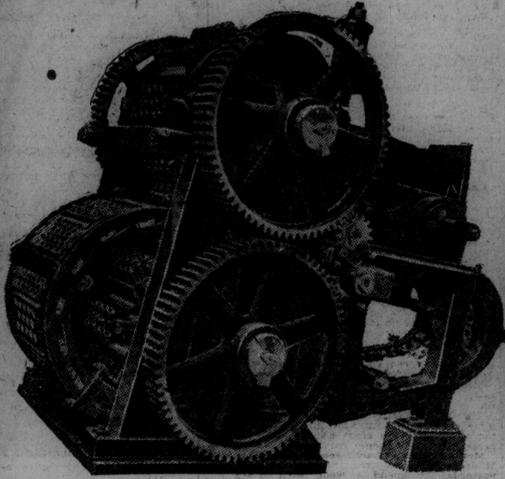

You Would Like Riches, Comfort and Happiness, Wouldn't You?

The acquirement of these blessings makes better and nobler citizenship and would remove forever the causes that produce strife, many form of sickness and disease, insanity, crime and war.

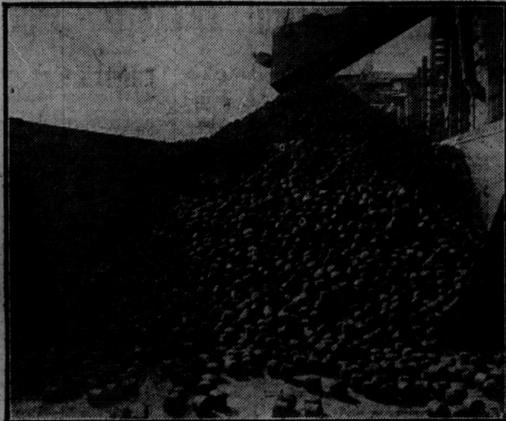

And these Blessings are possible to you even though your savings are small. Do not conclude that because you have not a big fund you cannot enjoy wealth—most of the self-made wealthy men of the day—and of the past—one time had no more ready cash than the average man and woman of today—but they made use of the opportunities, and continued in that direction until their ambitions were realized. There is no pleasure in hoarding a few dollars for a so-called "rainy day"—a few dollars hoarded will never get you anywhere. A hundred dollars or a few hundred wisely invested will start you on the highway to success, and insure you returns not only in the "rainy day" period of life, but while approaching that period.

During past two months OAKOAL Stock has been offered to the public. In this short space of time 187 people replied to our offering—and up to the time of writing 87 of these people took advantage of OAKOAL's opportunity. Such a record has seldom, if ever, been equalled by any stock offering, and when you appreciate that among these 87 people number Bank Managers, Wholesale Men, Retail Merchants, Professional Men, Scientific Engineers, Specialists and Teachers, as well as men and women in all walks of life—some of whom spent days in satisfying themselves of the proposition before turning in their names and cash—you can rest absolutely assured that the OAKOAL method, process, product and corporation is all its Directors claim for it, and that the future holds in store for its Shareholders the most wonderful possibilities.

And how can it be otherwise!

Rutledge Briquetting Press, on which Briquettes are made.

Loading briquettes in open cars. The breakage or degradation in handling briquettes by mechanical means is negligible.

The briquettes are taken direct from the press by a malleable-iron cooling belt, which delivers them to the top of the shipping bin and retail pocket.

Ontario cannot do without fuel. Ontario is dependent on United States mines for its supply of coal. Ontario must pay the U. S. mine owners' price. We must pay the Exporter his profit, then the Railway Company its freight rate, then the importer his profit, then the dealer his—while within our own cities is annually wasted the material that will insure a local output of over 2500 tons of OAKOAL daily—that will be sold direct from manufacturer to consumer, at a cost that will save Ontario, on present spread in prices, over \$3,000,000 annually.

The OAKOAL output in Ontario will approximate \$6,000,000 per year under present population.

Supposing the profits were only 5 per cent., there would be nearly \$300,000 for dividends, but no business is operated on a 5 per cent. profit basis.

Profits seldom go below 15 per cent., while some go as high as 50 to 200 per cent. (and you pay), but fixing OAKOAL profits on the basis of 15 per cent., which is a just profit—OAKOAL dividends, on a fair capitalization, would be approximately \$900,000.

"Figures won't lie," says some one—but "Liars will figure"—yes, and there are more liars figuring in many of the big industries in the compilation of reports to beat the Government in tax returns, and in deceiving the small Shareholders, than there are in the promotion of Companies for legitimate enterprise, but the OAKOAL people are not in either category or class. Our statements are conservative.

It has been said by some Brokers and others who are not in on "the OAKOAL Knowledge," that the OAKOAL proposition is a good stock selling game, and some have even gone out of their way to advise against investing in it. We can under-

stand a man of business intelligence advising against a proposition he knows, but when a man undertakes to advise against a proposition he does not know, or will not do a client the justice to thoroughly investigate—that man is not fooling anyone but himself and his client.

When the man who sets his judgment up against the practical knowledge of experts who have studied this business, and against Government officials, who had no interest in OAKOAL and whose duty it is to serve the public—that man shows a weakness.

Government officials and the people who endorsed OAKOAL had no interests to serve in acclaiming the value of the OAKOAL method and product.

The method and process is patented and owned by this Company, the product manufactured by this Company, merited the endorsement, being put through various tests; therefore, in offering OAKOAL to the public as an investment, we do so knowing that no investigation, however severe, can discount the value of our proposition.

In converting the city garbage and wastes into fuel we conserve and we solve the sanitary problem of disposal. This conservation saves the citizens the cost of incineration where incinerators are operated, and the dangers of Infectious and Contagious Diseases, where the dumps are still employed.

OAKOAL, the product of the process, as analyzed by Toronto University, warranted Dr. A. B. McCallum, Chairman of Canada's Research Bureau, to say that "it is an approximate substitute for Anthracite Coal," and the use of OAKOAL in hundreds of homes in Toronto this winter warranted statements such as:—

"I have seen it burn 24 hours at a time, without touching it."
"Lights as easily as charcoal, gives as great heat, but of course lasts longer."
"Burns well in range, but in the furnace burns better and is more satisfactory than coal."

The Government Fuel Testing Station of Ottawa shows OAKOAL to contain 63 to 67 per cent. of Fixed Carbon and 11970 B.T.U.'s.

Our new product on the new presses is superior to the improved product from our first output and that tested by the University and the Government. We have a special report showing proof of all these statements, and some interesting literature, which is yours for the request. Fill out the coupon below and you will receive these by return mail.

CON AGAIN RISES ON BRISK BIDDING

Unfavorable Weather Conditions and Reports of Reduced Acreage Help Bulls.

Chicago, June 3.—Enhancement of values in the corn market was further progressed today owing largely to unabated competition between industrial and shippers. The close was nervous at 11-1/2 to 20 cent higher, with July 17 1/2 to 17 1/8 and September 16 1/4 to 16 1/8.

Now, outstanding the arrivals of corn here were again liberal, the demand was so active that the offerings did not prove at all burdensome.

Over an increase of 5,000 bushels in the available supply total failed to have any bearish consequence, and the fact was pointed out that the total was about 10,000,000 bushels less than was the case a year ago.

Weather conditions tended likewise to give strength to the market. Besides, there were bullish reports current that planted a new crop was smaller than the corresponding time in 1918, and that the present status of the crop was below normal.

Numerous automatic orders to buy were uncovered during the day's advance. Frost predictions and export demand put some independent firmness into the market.

Provisions weakened by a break in the hog market. Lard nevertheless held relatively steady owing to a depression in warehouse stocks here and to buying supposed to be for export.

ON CHICAGO MARKET. Hughes, Harcourt & Company, 307 Royal Bank building, received the following were the close of the Chicago market yesterday:

"Another day of strength in corn, a continuation of the premiums for cash over July, made the short sellers uneasy, and in addition to this a bill was introduced imposing an import tax of 15 cents a bushel, which would effectively shut out importations of Argentine corn. It takes only a small amount of buying to start an upturn and here there is a large extent buying for lower prices, but so far there has been nothing in the news or market activity to give the sellers any comfort."

"Cash, 47 1/2 per cent. There was some commission house buying, the demand being supplied by liberal bids by local traders. A very significant feature in that one-half of the visible supply is located at Buffalo and other eastern points, and from the west information obtainable these are not likely to be exported, and it is probable that a considerable portion of oats at other points is also owned by exporters."
