MCGILL ARRESTED AS EMBEZZLER

EVIDENCE OF TRANSFER CLERK AND MR. AMES, AND BOOK ENTRIES "BAD DEBTS," PERSONAL LOSSES

Sensational Climax to First Day's Enquiry Into Ontario Bank Wreck — Hundreds of Thousands of Dollars Declared to Have Been Lost by Manager's Speculations Written Off in the Bank Accounts as Losses Incurred by the Institution.

TRANSFER CLERK FOR YEARS OBEYED ORDERS TO DECEIVE
How Ex-Manager Juggled Accounts to Prevent Operations Becoming Known — Bank Speculated for Long Time in Its Own Shares and Made Fake Transfers to Conceal Its Ownership of Shares.

The re-arrest of Charles McGill, erstwhile manager of the Ontario Bank, on the charge of embezzlement, was the sensational denouement of the continuation yesterday before Magistrate Denison of the preliminary proceedings in the process of commitment for trial. Over Mr. McGill's head is now hanging a charge, recognized by the court as much more serious than that of falsifying returns to the government in contravention of the banking law. The ex-manager is now amenable to the criminal code, and the stubborn refusal of Magistrate Denison to allow the position of Mr. McGill, the attorney-general was less obdurate to the urgings of E. F. B. Johnston, K.C., counsel for the accused, Hon. Mr. Doy agreeing last night to allow the prisoner his freedom on an additional surety of \$25,000. Bonds could not be found on short notice, and the banker spent the night in the jail over the Don. It is confidently stated, however, that the required bond, which is equal to the one previously furnished by Mr. McGill, was manifestly deliberate juggling with accounts to preserve the credit of the bank in the eyes of the world. The official blue document reads as follows:

"That Charles McGill, between the years 1900 and 1906, at the City of Toronto, in the County of York, did, contrary to law, steal the sum of \$186,281 in money, the property of the Ontario Bank."

It was the story revealed in the inspection of the bank's reserve account that James Bicknell laid the basis for the charge, and it was at the outset of the examination of Transfer Clerk Richard Chenoweth that the mine was sprung and the hint given of the climax that was to come three hours later in the playing of the ex-manager in custody.

Star Witnesses.

There were but two witnesses during the afternoon, Mr. Chenoweth and A. E. Ames, of A. E. Ames & Co., the well-known brokerage firm. The former was on the stand for almost three hours, and bore the brunt of a searching enquiry with a self-possession that was shaken only once or twice under the battering-ram tactics of Mr. Johnston, who forced the plain admission, that was hardly necessary in the volume of facts that he spoke for witnesses, that he had altered accounts and figures with the intent of concealing the true position of the bank. It was admitted by Mr. Chenoweth that he had given an admirable witness from the standpoint of readiness to impart information, and that in handling figures under question, that the changes were made entirely under instructions from the general manager.

Mr. Ames' evidence, summed up, was that he was unaware that his account had been written off in the bank's books, and that the bank had suffered loss through his firm, and that McGill had speculated extensively in highly fluctuating securities, but so far as the broker was aware, on his own personal account.

It was after 8 o'clock and while Mr. Ames was still on the stand, that the magistrate called upon Mr. McGill to stand up. The ex-manager rose steadily from his seat at the desk and was advised that a more serious charge had been laid against him. He exhibited no emotion during the reading of the information, and to the usual question replied, "Not guilty?" in a low but firm voice.

"Others" Equally Guilty.

The court informed Mr. Johnston that he could not accept for his client, Mr. McGill, the ruling in a few words, and the magistrate went on to say that there was a great difference between the two charges. The first was merely a misdemeanor, the present charge was a crime more serious one. It named a crime under the act constituted it a crime, and the act constituted it a crime. Mr. Johnston mildly dissented, and the magistrate referred to the "wholesale appropriation" of other men? demanded Mr. Johnston, hotly. They are manifestly in the same box as he.

Then lay an information against them," retorted the magistrate sharply,

ONE DAY'S REVELATIONS.

Walter Chenoweth, the chief witness, has for six years been transfer clerk at the Ontario Bank, and, acting under instructions from McGill, he had been systematically juggling the figures to create deception as to the true state of the bank. He knew things were wrong, but told no one.

The August report was signed by Vice-President Donald McKay, Manager Charles McGill and Walter Chenoweth, pro-chief accountant. McGill signed it in blank, expecting to be away.

The government was deceived by false transfers to "current losses" in Canada.

The amounts charged up as "bad debts," making losses in the reserve account, really represented losses in stocks. They were: A. E. Ames & Co., a total of \$136,049.31; Gordon Donnell & Co., \$16,000; McIntyre & Marshall, \$30,000; W. H. Goadby & Co., \$15,000 and \$10,000; Consolidated Lake Superior Company, \$19,321.18; Tyler, Morgan & Co., \$229,000; Marshall, Spader & Co., \$285,139.91, and Charles Head & Co., \$75,824.47.

The Ontario Bank was regularly purchasing and selling its own stock and covering up the transactions by making transfers of shares before annual meetings to accounts of certain shareholders.

A. E. Ames declared that the stock dealing were apparently personal with McGill. The Ontario Bank had never lost anything through his firm. The stocks dealt in were of a highly speculative kind. McGill had three accounts, one in his own name, one as in trust, and the third a "special" one.

The Ames Company are debtors to the bank to the extent of about \$100,000, giving collateral security therefor.

E. F. B. Johnston, K.C., counsel for McGill, declared his client was no more guilty than others, against whom information should also be laid.

Midnight Returns Indicate Election of Thompson for Mayor of Detroit in Opposition to Mayor Codd Who Proposed Connection to Detroit Railway.

Detroit, Mich., Nov. 6.—(Special.)—Returns received up to midnight indicate the certain defeat of the franchise. Complete figures from the various precincts are as yet unobtainable, but the figures at hand show that the franchise is defeated by a vote of about 201.

The returns are necessarily slow, as there are about 30 offices being voted. The Detroit News claims the defeat of Codd by Thompson, the three-cent fare candidate.

last. The central counting board is still engaged in counting the 2 o'clock vote, but this vote is generally a sure indication of the result of the entire election. It is upon the 2 o'clock vote that the result on the franchise question is estimated.

The franchise was slashed in Republican precincts, even upon the same ballot upon which Mayor Codd, who proposed the franchise, was voted for.

The Detroit News claims the defeat of Codd by Thompson, the three-cent fare candidate.

NO SETTLEMENT IN SIGHT

DOMINION STEEL CO. MAY LIQUIDATE.

Business People of Sydney Are Becoming Alarmed Over Prospects of Tie Up of Big Plant for a Long Period.

Sydney, N. S., Nov. 6.—(Special.)—The situation at the works of the Dominion Iron and Steel Company remains practically unchanged, in so far as the trouble with the Dominion Coal Company is concerned.

It was thought at noon to-day that a settlement was in sight, but it seems now to be as far off as ever. General Manager Jones and President Ross were in conference thru an intermediary, but the latest report is that they failed to come to any understanding.

The Steel Company are said to be making arrangements for supplies of coal from Nova Scotia Coal and Steel Company, Sydney Mines, Acadia and Intercolonial Coal companies in Pictou. Such arrangements, however, can only be of a temporary character, as it will be almost impossible to operate a plant of this extent with coal necessitating a long haul by rail or water, in bringing it to the plant, apart altogether from the great expense it would incur to the company.

Gowrie and Blockhouse collieries, of Port Morien, have also offered to deliver a quantity of coal, which will probably be accepted.

There are indications, however, which give rise to the fear that an immediate settlement, despite all these arrangements, is yet remote. In fact, that the dispute will end in an action against the coal people for breach of contract is being practically taken for granted. The matter is now said to be in the hands of the solicitor for the Steel Company. It may be that this is the only way in which the looked-for solution can be attained.

There is a report current to-night that the Steel Company are going into liquidation, so as to get rid of their heavy over-capitalization, but there is nothing to substantiate this report. The coke ovens plant is closed down, as are also the blast furnaces; the rail mill makes only a few rods, the rod mill is being kept going. Every department will have to be closed unless a supply of coal is had within a day or two. Only the rolling mill and the hearth furnaces are in operation, but these may be shut off at any time. The business people are becoming somewhat alarmed over the situation and, combined with exceedingly disagreeable weather, the feeling abroad is anything but optimistic. There are hopes entertained, however, of a speedy adjustment of the unfortunate situation.

The Sydney Cement Company had to close down at noon to-day, owing to their inability to supply slag from the Dominion Steel Company. About fifty men are thrown out of work.

THREE HORSES BURNED.

Dangerous Fire at Toronto Junction—Mat Beatty's Loss \$1200.

Toronto Junction, Nov. 6.—At 10.25 to-night, a fire alarm was sent in from Keele and Dundas-streets, and the department was on the spot within 3 minutes. But even then flames were in full possession of the stable and sheds of Matt Beatty, in rear of 92 Dundas-street, and the firemen turned their efforts to preventing the spread to the Wrought Iron Range Company. The spot is the most congested in the town, and had it been a winter night, a conflagration might have ensued. The firemen worked well, however.

The loss to Mr. Beatty is \$1200, with \$400 insurance.

Three horses were burned and one of them, Gerlie P., a prize winner at fair fairs, was to have changed hands to-day for \$250. A ton of hay and five sets of harness also went up.

HUGHES BY FIFTY THOUSAND PLURALITY

HEARST VOTE IN NEW YORK CITY FALLS OFF

REPUBLICAN SLUMP IN UP STATE POLLS

CHARLES E. HUGHES, GOVERNOR-ELECT OF NEW YORK STATE.

GRATIFIED, NOT ELATED.

Mr. Hughes: "I am very much gratified if I am elected, as now seems to be the case, but I am not accustomed to speaking in detail upon matters about which there may be any uncertainty.

"I understand, however, that my election is pretty well assured, but whatever my plurality may be my feeling is not one of elation, but of responsibility. That is all I care to say at present."

Lewis Stuyvesant Chanler, candidate for lieutenant-governor on the Independence League and Democrat tickets, said: "I should be very sorry indeed to be elected if Mr. Hearst should be defeated."

Charles E. Murphy, leader of Tammany, said: "It is now clear to everyone that at Buffalo this organization (Tammany Hall) did nothing more than recognize and obey the demands of the people."

This was Mr. Murphy's only comment on the election.

REPS. CONTROL CONGRESS

ELECT 155 TO 118 FOR DEMOCRATS

FEW SURPRISES IN VOTE

Governor Guild Carries Massachusetts by Big Majority, While the Republican Vote Outside of New York State Holds Its Own All Along—the Lie—Still the Solid South

Up to 11.45 p. m. the available returns indicate the election for the United States Congress of:

Republicans.....	155
Democrats.....	118

No returns had been received from 113 districts.

The Democrats so far have gained two in Illinois, two in Missouri, three in Pennsylvania, one in Ohio, one in New York, one in New Jersey and one in North Carolina. The Republicans gain one in Kentucky.

Elections were held yesterday in 42 states, and, generally speaking, there were no great surprises.

Thruout the south, the Democratic state and congressional tickets have been elected by the usual majorities.

In the west and east the states that were aligned two years ago in the Democratic or Republican columns show no material change. The Republicans retain control of congress by a good majority.

Perhaps the widest general interest centred in the remarkable fight for governor in New York State between Charles E. Hughes, the Republican candidate, who has had the support of President Roosevelt, and William Randolph Hearst, the regular Democratic and Independence League candidate.

The latest returns available show that Mr. Hughes, while losing nearly all the principal cities of the state, was successful by about 50,000 plurality.

The rural districts brought about the Republican victory.

In New York City the Tammany-Independence League judiciary ticket was successful, with possibly one exception, over the candidates named by the non-partisan judiciary nominators.

MORAN SWAMPED.

Massachusetts has re-elected Curtis Guild, Jr., Republican, governor, over District Attorney Moran of Boston, who was the candidate of the Democratic party, the Independence League and the Prohibitionists.

In Chicago it is estimated that the Independence League ticket polled 40,000, but there was a Republican plurality for the state officers.

Pennsylvania has elected Stuart, Republican, governor, over fusion opposition, by the usual Republican plurality.

In Rhode Island James H. Higgins, Democrat, is elected governor. Minnesota elected a Democratic governor.

Michigan, Iowa, New Hampshire, North Dakota, Connecticut, Indiana and Wisconsin have rolled up big-Republican pluralities, also there

Voters Everywhere Cut Head of Ticket—Late Returns Indicate Election of Chanler as Lieut. Governor With Remainder of Democratic Ticket.

TAMMANY JUDGES SWAMP

TICKET OF INDEPENDENTS

New York, Nov. 7.—According to returns received up to an early hour this morning Chas. E. Hughes, the Republican candidate for governor of New York, has been elected by 50,000 or more plurality.

Outside of Greater New York, with 150 election districts missing, Mr. Hughes had a plurality of about 124,000. In Greater New York, with 63 election districts missing, Wm. R. Hearst, the Democratic and Independence League candidate, had a plurality of 75,039. Mr. Hearst carried all the boroughs of the greater city.

No definite figures are available as to the results with regard to the subordinate state officers, and both Democrats and Republicans are claiming victories.

The indications are that the state legislature will show but little change in its political makeup.

The Tammany judiciary ticket in New York County, with the exception of Otto Rosalaky, Republican, for general sessions judge, has been elected. State Chairman Max F. Thomsen of the Independence League claims that Mr. Hearst has been elected. He sent out late last night telegrams to all Independence League members to be on guard to see that the full vote was counted.

HUGHES BY 50,000

New York, Nov. 6.—According to incomplete returns from all over the state received up to 10.30 p.m., Chas. E. Hughes, the Republican candidate, has been elected governor of New York State over William R. Hearst, the nominee of the Democratic party and the Independence League, by approximately a plurality of 50,000 or more.

Two years ago Gov. Higgins was elected on the Republican ticket by 89,560.

There was some doubt expressed to-night as to the fate of the Democratic and Independence League tickets outside of Mr. Hearst, several of the New York newspapers, who have been supporting Mr. Hughes, declaring that there was a chance that the subordinate officers of the Democrat and Independence League combination had been elected.

The latest figures seem to indicate that Hughes' plurality above the Bronx will exceed 115,000. To offset this Mr. Hearst's plurality in Greater New York will probably be from 75,000 to 80,000.

In Brooklyn, where Senator Patrick H. McCarron made a bitter fight against Hearst, the latter carried the borough by a small plurality, probably 4000. At one time it seemed that Hughes before the late returns were all strongly in favor of the Democratic candidate.

Mr. Hearst has been given a majority of nearly 70,000 in Manhattan and the Bronx. Queen's County, which includes Long Island City, has gone for Hearst by from 6000 to 8000, and Richmond (Staten Island) has also given for the Democratic candidate a plurality.

STRONG IN CITIES.

As generally was expected, Mr. Hearst

WOMAN'S WORLD.

Autumn Song.
Chill grow the lengthened eves,
More shrill the cricket's mirth;

High on the open hill
The last pale aster burn;

Then in the backing bear,
Forgetting the sere garth,

The Toronto Presbyterian Society of the Woman's Home Missionary Society held its first annual meeting in St. Andrew's Church, King-street, yesterday.

The retiring president, Mrs. S. R. Hart, in her address, gave a short and comprehensive resume of the presbytery's work in the Northwest.

The election of officers resulted: Mrs. J. D. Walker, president; first vice, Mrs. Frizzell; second vice, Mrs. J. Nell;

DEFECTS DIDN'T MATTER BOOKS THAT WERE ACCEPTED

No Government Inspection of Text Books for Several Years—Morang's Dealings With Ross.

Before the textbook commission yesterday, George N. Morang, told of his dealings with the Ross government in regard to the publishing of his primer. He had discovered that the Canada Publishing Co. were getting some of their books printed in New York, contrary to their agreement, and that, although he had made affidavit to this effect, the government took no action whatever.

George N. Morang was recalled when the commission opened. James A. Macdonald examined the witness as to his applications to the minister of education, and also to Premier Ross in person, for a contract to publish the primer.

On the ruling of the chairman, witness produced one of these letters. A further letter from witness to the government, showing the decline of witness himself to any confidential dealing.

Mr. Ross wrote me on 16th January, 1901, saying he had seen my primer, and thought it an excellent work, which should be used in the schools, but that this could not be done without the consent of the other contractors.

On the 8th March, 1901, he wrote that he had written to my agent, Mr. Thompson of the Copp-Clark Co., in regard to the readers.

Mr. Morang then explained in detail that he had written to the government, protesting that the Canada Publishing Co. were violating their agreement in regard to the printing of the primer.

The government knew this primer authorized by them was printed in the States.

TO SUCCEED AS MINISTER ACT AS A MAN AMONG MEN

Rev. Dr. Hossack Addresses Knox College Students on an Interesting Theme.

"The Minister as a Man Among Men" was the subject of an address by Rev. Dr. C. Hossack before the Theological and Literary Society of Knox College last evening, in which he gave some useful advice to his hearers.

"Men will not respect you in our day on account of your office," he told them, "and it is a handicap to have a congregation look upon you as a 'professional' preacher."

"Avoid in entering the pulpit the air which seems to say, 'I am a very holy person, and avoid the solemn stately entrance which seems to call upon men to see how intensely he is minister of the gospel. And do not know when you go into the pulpit. If you have personal prayer, do it at home and in private."

"Young men desire in the minister a man of character, of refinement, sincerity and moral worth. Men will no longer tolerate pulpit platitudes. Titles, words and theological phrases will not impress men now, for this is a democratic age."

"Too much authority should also be avoided. Don't try to captivate every thing. At the same time do not assume an air of patronizing men."

"You cannot," said Dr. Hossack, "apply the gospel unless you know the ethics of Jesus; you do not understand their conditions unless you think you cannot render any practical aid, and that is what they want. Teach men how to live. They are more interested in earth than in heaven. Do not say 'be good.' Show them how to be good. You cannot apply the ethics of Jesus to the area of public and private life unless you are a man among men. A church is not a field in which to work, but a force with which to work. The work of the pulpit is not merely preparation for the future; it is participation in the present."

Referring to politics and the church, Dr. Hossack said that the church should be in politics but politics should not enter the church. The preacher should be in the best sense of the term be independent of the church and state, and be wholly separated. As moral considerations must enter into the business of the state, it is more than a secular institution unless you are a man among men. A church is not a field in which to work, but a force with which to work. The work of the pulpit is not merely preparation for the future; it is participation in the present."

PUBLIC SCHOOL CHAMPIONSHIP

Wellesley Association Football Team Wins From Givens 5-1-0.

The Wellesley School Association football team (winner of eastern series) defeated Givens (winner of the western series) for the major league senior championship last night on the Pines grounds by a score of 5-1-0.

KEENE WINS THREE RACES

Keene Wins Three Races at Pimlico

New York, Nov. 6.—James R. Keene's Pimlico, the 2-year-old son of Ben Brush—Pink Domino, at 8 to 1, won the Election Day Handicap at Aqueduct today in the presence of 20,000 persons. Mr. Keene also won the Babylon Handicap with Zambesi by a head. Expansionist won the Bushwick Steeplechase. Veil scored the third victory of the day for the Keene stable. Summary:

Chippewa Won at Pimlico.

Baltimore, Nov. 6.—Poor riding characterized today's racing at Pimlico in the steeplechase. Harry Rowser Jr. (Hondaba) buried under the public's money by their apparently intentionally bungling work. He also over the track and won the race, but was disqualified. Lotin Ester should have won the sixth race easily, but was out, owing to the incompetent work of Koerner. Summary:

Yama Christy Second to Expansionist in Steeplechase—Results at Pimlico and Latonia.

Latonia, Nov. 6.—First race, selling, 6 1/2 furlongs—Edna Jackson, 100 (Miller), 11; Teacres, 100 (Sewell), 6 to 1; 2. Asilun, 100 (Pohanka), 2 to 1; Time 1:30.45. Second race, selling, 6 furlongs—Firebrand, Woodway, Yada and Transmute also ran.

Meadowbrook Wins Handicap.

Cincinnati, Nov. 6.—Meadowbrook, under a good ride by Mountain, captured the free Handicap from a good field at Latonia today. Meadowbrook, owned by J. W. Rogers, trained by J. W. Rogers, S. Murren, C. Delaney.

The Strathcona Club.

The Strathcona held their weekly peddle party Monday evening. C. Holzway and James North, the successful players, were the order of the day. There was an increased attendance on account of the boys who have been training in the city and returned from having their final workout.

Financial Hockey League.

A well-attended gathering last evening in the offices of the company, the King and Toronto streets, the Canadian National Railway Hockey Club of the Financial League held their annual meeting and election of officers, as follows: President, R. W. A. Ryan, Jr.

House Nine Hockey Club.

An important meeting of the House Nine will be held on Wednesday evening at the club rooms at 8 1/2 street, as much business of interest has to be transacted in regard to the hockey team to represent the club for the coming season. An interesting feature has been arranged in the matter of an address on "Athletes & Hockey" by Jim Dillon, who on Saturday last won the gold medal for the individual championship at the John Northway field day games, and who has represented the club in nearly all their entries in big league events.

Ball Player O'Hagan Sold.

Harry O'Hagan, the first baseman of the Newark Eastern League team for three seasons, has been sold to the Danvers club of the New England League. The player was with the Waterbury team in the Connecticut League all last season, he will sell the property of the Newark club. A deal for his release has been effected. It was an outright sale for a cash consideration. O'Hagan will captain the Danvers team and possibly manage it, as George Teahan, the owner, is tied up with several other clubs, among them Louisville, Manchester, and Birmingham. O'Hagan's value as a ball player more than makes up for the fact that he is a fairly good batter, an excellent fielder and used to be a very dirty player.

HAPPENINGS AT VARSITY.

Mallock Cup Referees—Hockey Club Meets To-Day.

At a meeting of the Varsity football Executive yesterday afternoon, the matter of the McGill-Varsity game was brought up. Nothing definite, however, is being done at the C. I. F. H., who will meet Friday, probably in Kingston.

The Mulock Cup series was then arranged for the following schedule as at present, but this will have to be rearranged, as Deane, who was billed to meet Senoia tomorrow, has decided not to enter a team:

B—Nov. 19, Junior Arts v. Senior School, 112 Feather.

INDIAN BEST ATHLETE AT WYOLIFFE COLLEGE

First Annual Field Day Held Yesterday on Varsity Athletic Grounds.

Wyoliffe College held their first annual field day sports yesterday afternoon on Varsity Athletic Field. Although the competitors had only been training a short period, they gave a good account in close decisions and the small crowd of admirers present had an exciting afternoon.

A. Abenabew, a first-year man, and incidentally of the same blood as Loughnan, the Hamilton runner, was the best all-round athlete, with a total of 26 points.

100 yards—First heat—W. Ellis 1, E. Up 2. Second heat—A. Powell 1, A. Abenabew 2. Third heat—Lothhouse 1, J. A. Shirley 2. Final—Lothhouse 1, W. Ellis 2.

200 yards—First heat—W. Ellis 1, J. H. Kerr 2. Second heat—A. Abenabew 1, W. Ellis 2. Final—W. Ellis 1, J. H. Kerr 2.

FALLEN LEAVES

UNCLE SAM: "Gee, Whiz! It was fierce while it lasted."

the mining boom, which has had so remarkable a history, is not at an end, and on this account the earlier government disclosures its intentions the better.

The government, however, ought to do more than restrict itself to the imposition of a royalty—it should compel the ores to be treated on the ground or in some other part of the province. Indeed, one of its first concerns should be the erection of a government smelter, where the ore can be treated, assayed and valued by official experts.

From the report of the Victorian Railway commissioners for the financial year, ending June 30, 1906, of which a correspondent has courteously sent us a copy, it is clear that since the advent of the present chairman and his colleagues a wonderful advance has been made.

But for the claims already passed into private hands another mode of dealing is necessary, and their case can best be met by the imposition of a royalty on output. This would really be in the nature of a tax, which the provincial government is quite entitled to levy in view of its preservation of law and order, and its provision of railway and other facilities.

Some idea of the achievement of the commissioners is afforded by a comparison between the position of the railways at the close of the year 1902-3

and that they now occupy. At that date there was a deficiency paid out of the consolidated revenue of the state of \$1,778,787, while the year ending June 30 last yielded a surplus to the same fund of \$388,960. This, however, does not represent all that has been done. To use the words of The Melbourne Argus: "In the meantime 1902-1903 (about \$3,000,000) has been devoted to meeting the extraordinary liabilities, which the commissioners took over on assuming office, consisting of belated repairs, deficiency in rolling stock, deficiency in the value of stores and loan funds advanced for work which should have been paid for out of revenue. That is to say, the financial leeway which had to be made up amounted to \$736,761, and it has been reduced to \$192,762." As indicating how much management had to do with this result, The Argus calls attention to the fact that whilst the revenue increased between 1902-3 and 1905-6, by \$3,607,506, the expenses of earning that additional amount have only been \$794,166. This represents a great deal more than the normal decrease in the percentage of expenses due to increased revenue, and in addition the commissioners mention that the actual increase of \$3,607,506 in the working expenses over those of the previous year was mainly due to a larger outlay on renewals of way and works and repairs and renewal of rolling-stock. "Further," adds The Argus, "there have been considerable reductions in goods rates, amounting to 8 per cent. in one class, 9 per cent. in another, and 18 per cent. in a third, and an improved train service has been afforded on a number of lines."

The conservative policy of the commissioners is made manifest by their remarks upon the future management of the railways, now that they have been placed on a profit-earning basis. "They strongly recommend that the surplus revenue should be devoted, in the first place, to clearing off a balance of \$360,000, temporarily charged to capital, but properly payable out of revenue. Secondly, towards additions and improvements to lines and rolling stock. Thirdly, for the building up of a reserve fund from which the deficiencies in unfavorable seasons may be made up. Commenting on this, The Melbourne Argus says that "generally it may be affirmed that the community does not desire to see the railways worked for the mere sake of making a profit. They were made to develop the country as their first great purpose, and, incidentally, of course, to pay their way. Were it not that our seasons are changeable and exact estimates cannot be made, surpluses would not be expected and would indeed be regarded as an indication that the people were either being charged too much or not getting all the facilities that might be given them. The commissioners are in full sympathy with the well-known policy of the country in this respect, for they remark: "The appropriation of the surplus revenue for these purposes will make it practicable to gradually

reduce the railway charges as may from time to time appear to be advisable for the development of the production and trade of the state. The desire of all parties is that the railways shall give the highest possible service at the least practicable cost without becoming a charge on the general revenue." How different their language is from that common in countries where the transportation franchises are in private hands. In Victoria the railways are intended to benefit the people all the time, and in days to come the community will find plenty of reason to approve the policy which has made them state-owned and controlled.

W. E. MACLEAN. Toronto News: We now have a discussion as to whether Mr. Maclean is fit to lead a party. At least it will be admitted that it would take a nimble party to keep pace with the member for South York. He contributes mightily to the interest of politics and keeps the old parties moving when they are not dodging. He manages also to do some good work for the country, and probably is responsible for a good deal of legislation for which he gets no credit. We doubt, however, if there is a crying need for a new party, and it is seldom, indeed, that a third party gets beyond the time of teaching. But there is no doubt that with something more of steadiness and moderation, Mr. Maclean would be a formidable figure in the public life of the country, and whether he leads a party or stands alone he has to be reckoned with in any sane estimate of the political situation.

RELIGIOUS IN FRANCE. "Reader" is informed that the last religious census of France gave approximately 36,000,000 Catholics and 600,000 Protestants; 50,000 Jews and 85,000 unclassified.

FOOTBALL PLAYER ASSAULTED William Johnson, Attacked by Thugs and May Die. Ottawa, Nov. 6.—(Special.)—William Johnson, the well-known wing player of Saint Patrick's football team, is at Saint Luke's Hospital seriously and probably fatally injured. He was assaulted in Rochesterville last night by two of three thugs. Johnson was found on the street and taken to the hospital at midnight. The base of the skull is fractured. According to hospital officials he has not the slightest recollection of what occurred or who assaulted him.

AT OSGOOD HALL

ANNOUNCEMENTS. Master's Chambers. Cartwright, master, at 11 a.m. Single Court.

Cases set down for argument before the Hon. Chief Justice Falconbridge at 10 a.m.: McPhee v. Leitch, re MacNab, Foy & Daly, re Solicitor, re LeHay and Lakefield, Hudsonstone v. Lawrence, Walden v. C.P.R., Jones v. C. P. R., Trusts and Guarantees v. Hare. Divisional Court.

Peremptory list for 11 a.m.: Bradley v. Brantford, Moore v. Mather, Ben-ner v. Dickenson, Allan v. McLean, Fortuna, Potter v. Orilla Export Co. A Conveyance at Issue.

Alexander Schuel and Henry Hamilton are parties to an issue tried before Chief Justice Falconbridge in July last. The issue was as to whether a certain conveyance of lot 4, on the south side of Park-street, in the Town of Amherstburg, made by Hamilton to one Goodchild, on Feb. 10, 1902, and duly registered, is void, as being made to defraud the creditors of Hamilton, and that the interests of the defendants in the lands be sold to satisfy the amount due covered in a county court action. The learned chief justice gave judgment for the defendants without costs. Now Schuel is appealing the case to the divisional court. Judgment was reserved.

Money for Maintenance. Isabella Galloway of Uxbridge died in 1904, leaving certain property to her daughter, Elizabeth Wilfrid Galloway, now 14 years of age. Application has been made to the court to have her allowed a sum for maintenance and education. Chief Justice Falconbridge granted the request.

A Suit Over Logs. A. D. Schaeffer is the owner of a certain lot in the Township of Millia, District of Manitowish. He claims that R. J. Armstrong, a merchant of Gore Bay, unlawfully took a quantity of logs and pulpwood that had been cut on the premises by one McMillan. Armstrong claims that he bought them from McMillan, and that Schaeffer was not the owner of them. The case was tried before Judge McCallum on Aug. 2, and it was decided that Schaeffer was the owner of the pulpwood, and Armstrong was directed to give up the logs and pulpwood to Schaeffer, and costs on the county court scale. Schaeffer is not satisfied, and now appeals to the divisional court. Judgment was reserved.

Lost the Horses and the Appeal. Farquhar McRae, a farmer of Stormont, who has two horses killed on the C.P.R. tracks last October. He claimed that the horses got off the highway on to the tracks thru the cattle-guards being defective, and sued the company for \$200, the value of the horses. The company claimed that McRae was negligent in allowing them to run at large. At the trial in the county court, the plaintiff \$255 and costs on the county court scale. Schaeffer is not satisfied, and now appeals to the divisional court. Judgment was reserved.

Agreement Confirmed. Maria Gertrude Schuler of the Town of Walkerton died on Oct. 12, 1904, having made a will appointing Rev. Father John Kelly and Vincent Mesmer of Walkerton as executors. Before Chief Justice Falconbridge, in chambers, the executorship was contested by one Francis X. Schuler as a creditor of the estate of the deceased, and for an order was made for a compromise. Schuler's claim against the estate. The settlement was confirmed.

Agreement Will Go. W. J. Wallace, formerly of Toronto, now a barrister residing in Cherry Creek, Nevada, drew up an agreement concerning certain property on Mutual-street and in Dundas-street, Toronto, which was in question in the action of A. M. Bowman against the executors of Isaac Silver, deceased. A commission is being sent to which all evidence and agreement is to be taken. Before the master-in-chambers yesterday, application was made on behalf of Yapp to strike out certain paragraphs of the statement of defence to the counter-claim, it being alleged that they tend to embarrass him, and to delay a fair trial of the action. The master reserved judgment.

Sister Wants the Money. When Alexander J. McEachren lived in the Village of Glenora, County Victoria, he took out a certificate of insurance upon his life in the Sons of Scotland Benevolent Association, payable upon his death to John McEachren, his father. Afterwards he revoked the direction for payment in favor of his father, and directed the payment of the policy to his sister, Margaret Jupp, a resident of New York City. The insured died in March last, and now both the father and sister claim the insurance moneys. Upon application to the master-in-chambers, an order has been granted, allowing the association to pay the money into court, less the costs incurred.

His Losses Appeared. The appeal of the City of Toronto. And his example is contagious. All day to-day there has been a lonely Hamilton and Dundas. No one sides on this car, but a few Italians imported from Montreal. They loiter in the seats and smoke cigars incessantly. But to return to Monday night. About eight o'clock James-street naturally gathered about the corner of King-street. Badges were distributed, and wherever they were distributed, the crowd assembled. They were mainly small boys attracted by curiosity. The policeman who struck Denny Bennett, the Chicago Marathon runner, over his head with a baton, was excited by some jest that came from the crowd and with which Bennett, who happened to pass at the time, had no more to do than had President Roosevelt. That the crowd was young, sober, harmless and submissive is abundantly shown by the fact that no one struck or hurt the policeman. They howled a little, perhaps, but no one directly defied his authority.

Rattle Hymn. Later in the evening a gang of boys paraded the streets singing the battle hymn of the Hamilton strike. It is really quite good, and they sing it with considerable spirit. The words are not striking and the air is not new. But try it! It clings to the

memory, and you find yourself humming it constantly: "We walk because we walk, we walk because we walk, we walk because we walk, we walk because we walk, we walk because we walk, we walk because we walk."

It goes to the air of Auld Lang Syne, but the words are more up-to-date. "Shouldn't old acquaintances be forgot?" "We walk, because we walk, we walk."

No one has yet discovered the poet laureate, but the colored elevator boy at the Royal Hotel can sing it beautifully. It sounds quite pathetic, especially if you have an assignment of two or three miles to cover, and you are out of breath. R. L. Reeves, secretary of the International Association, and editor of the magazine of the order, is a pleasant fellow to meet, sensible, fair-minded and easily popular, reminding one faintly of Hon. Mr. Emmerson. The local leaders are superior men; calm, judicious and extremely patient. They are naturally much encouraged by the unanimous support of the people, but it has not gone to their heads. The strikers will do no violence.

DOMESTIC BADLY BURNED. Margaret Kerr, a domestic, working at 64 Kendal-avenue, while cooking supper last night, was badly burned. The flame from the gas stove caught her sleeve. She was taken to the Western Hospital.

THE O'MEARA AGAIN. John O'Meara of London celebrated something last night, and with a friend, Taylor, spent the night at No. 1 police station for unwise libations. The London conspiracy cases referred some before the magistrate to-day.

from the master-in-chambers' judgment in the action of Davies against the Sovereign Bank has been dismissed, and the city must pay the costs. The master-in-chambers dismissed the city's motion to compel Davies to elect whether he would proceed in the action against them or against Eckardt. Chief Justice Falconbridge heard the appeal.

Some years ago the Baden Mfg. Co. was wound up. Hood & Snow declined to be assessed as contributors to the estate, and the case has been fought thru to the supreme court, where they won out. The legal costs against the defunct company total \$1721.06. The assets were \$184.09, and \$600 in the bank. This leaves \$63.03 to the lawyer, J. R. Eden, for his own costs, his expenses as liquidator and for the creditors. Justice Mabee says the liquidator was justified in pursuing the case thru the courts, eight of the 11 judges before whom it came sustaining him. Therefore the liquidator is entitled to compensation, and will get the \$600-dollar bill.

BATTLE HYMN OF STRIKERS "We Walk" is the refrain of the Hamilton populace and their sympathy is with the Men Who Are Fighting the Catearot Power Company.

Hamilton, Nov. 6.—(Staff Special.)—On Monday night from six to eight o'clock the main street seemed like a banquet hall deserted. The absence of the street cars seemed to beget an absence of people, and in the cigar stores, the hotel lobbies and other places where men most do congregate, there was an air of waiting, a feeling akin to anxiety.

The Catearot Power Company has for so long had Hamilton chloroformed that the ordinary man could hardly believe that at last it had met with resistance. There was missing that hearty outspoken sympathy that usually accompanies a popular strike and the strike is popular. No one has attempted to defend the company's position. The company itself makes no effort to appeal to public opinion. The principal officers have disappeared, and their representative, C. K. Green, gives out one interview after another, more or less contradictory, and some of them incoherent.

Mr. Green's great stunt seems to be his cigar. In every interview the cigar is prominent. "Mr. Green was looking cheerful as he puffed his big cigar. "Mr. Green had little to say, but he was smoking vigorously. "As the reporter approached him, Manager Green was lighting a fresh cigar."

There is nothing remains but to interview the Infectious. And his example is contagious. All day to-day there has been a lonely Hamilton and Dundas. No one sides on this car, but a few Italians imported from Montreal. They loiter in the seats and smoke cigars incessantly. But to return to Monday night. About eight o'clock James-street naturally gathered about the corner of King-street. Badges were distributed, and wherever they were distributed, the crowd assembled. They were mainly small boys attracted by curiosity. The policeman who struck Denny Bennett, the Chicago Marathon runner, over his head with a baton, was excited by some jest that came from the crowd and with which Bennett, who happened to pass at the time, had no more to do than had President Roosevelt. That the crowd was young, sober, harmless and submissive is abundantly shown by the fact that no one struck or hurt the policeman. They howled a little, perhaps, but no one directly defied his authority.

Rattle Hymn. Later in the evening a gang of boys paraded the streets singing the battle hymn of the Hamilton strike. It is really quite good, and they sing it with considerable spirit. The words are not striking and the air is not new. But try it! It clings to the

memory, and you find yourself humming it constantly: "We walk because we walk, we walk because we walk, we walk because we walk, we walk because we walk, we walk because we walk, we walk because we walk."

It goes to the air of Auld Lang Syne, but the words are more up-to-date. "Shouldn't old acquaintances be forgot?" "We walk, because we walk, we walk because we walk, we walk because we walk, we walk because we walk, we walk because we walk."

No one has yet discovered the poet laureate, but the colored elevator boy at the Royal Hotel can sing it beautifully. It sounds quite pathetic, especially if you have an assignment of two or three miles to cover, and you are out of breath. R. L. Reeves, secretary of the International Association, and editor of the magazine of the order, is a pleasant fellow to meet, sensible, fair-minded and easily popular, reminding one faintly of Hon. Mr. Emmerson. The local leaders are superior men; calm, judicious and extremely patient. They are naturally much encouraged by the unanimous support of the people, but it has not gone to their heads. The strikers will do no violence.

DOMESTIC BADLY BURNED. Margaret Kerr, a domestic, working at 64 Kendal-avenue, while cooking supper last night, was badly burned. The flame from the gas stove caught her sleeve. She was taken to the Western Hospital.

ONTARIO BANK INQUIRY

Continued From Page 2.

debts over total credits in the monthly returns was added to current loans.

The losing accounts with brokers were closed out by McGill's orders last September up to the total of the profit and loss reserve.

"Give me the details of the entries of Sept. 10, 1906," asked the magistrate.

"The total of the account written off 'reserve for loss' account was \$316,355.31. There was a credit balance of \$38,000 and a reserve account of \$23,000, Laidlaw & Co. closed out."

"They were credited as if they owed it."

"Yes. 'Sollicitor in trust for \$4000,' he could not explain. It was closed out and a credit placed for it. A stock profit of \$128,000 was included. That was before his time, he said.

Did Make a Profit Once. "It really appears as if they had made \$128,000 in stocks at one time," said Mr. Corley.

Mr. Johnston said the \$316,000 was the aggregate of losses in all the accounts.

"There was only \$316,000 against which losses could be charged," said Mr. Bicknell.

The witness said that in the government statement of July, 1906, the amount of railway and other debentures and stocks was placed at \$1,657,265.50, signed by Donald McKay, McGill and the witness.

Mr. Johnston said the \$316,000 was the aggregate of losses in all the accounts.

"Under Mr. McGill's instructions," said the witness.

Written Off Ames' Account. Mr. Chenoweth was confronted at the outset of the afternoon session with an array of figures, showing amounts charged up as losses in reserve accounts.

The firm of A. E. Ames & Co. had \$136,049.91 written off as the a bad debt, the separate amounts being \$125,000, \$709.91 and \$400.00.

Other amounts were recorded as losses, as follows: J. Gordon Donnell & Co., \$16,000; McIntyre & Marshall, \$30,000; W. H. Goodby & Co., \$15,000; Consolidated Lake Superior Company, \$19,321.13; Tyler, Morgan & Co., \$23,000; Marshall, Spader & Co., \$28,129.91, and Charles Head & Co., \$15,324.00.

Mr. Corley asked what amount was still owing by Marshall & Spader to the Ontario Bank, and Mr. Chenoweth said it was \$56,430.77, a cheque for \$100,000 having been received from the firm on Sept. 20 last.

According to the books, however, \$66,430.77 was shown as being owing to the bank.

Mr. Chenoweth said that the account of Charles Head & Co. was taken up, and the witness stated that since 1904 there had been a balance of \$153,884.33 due from the firm to the bank.

The various amounts appeared as debts due the bank?

Mr. Chenoweth said there were two other accounts besides those cited in court, and admitted to the examiner that the amounts had been carried forward from the time the witness joined the bank, from month to month, as amounts owing to the bank.

Where Did the Money Go? Mr. Corley asked if the accounts had been wiped out thru insolvency on the part of those to whom the advances were made, and Mr. Chenoweth said he didn't know.

He was asked whether the firms involved were not considered bankrupt from the time the witness joined the bank, from month to month, as amounts owing to the bank.

The court: Was there ever any inquiry charged up to these people? "Not to my knowledge."

Mr. Corley asked if the accounts had been wiped out thru insolvency on the part of those to whom the advances were made, and Mr. Chenoweth said he didn't know.

He was asked whether the firms involved were not considered bankrupt from the time the witness joined the bank, from month to month, as amounts owing to the bank.

The court: It looks like charging it up against these people, and then giving it to them. Where did it go? "If the money was not given to somebody it must have gone somewhere."

Mr. Chenoweth said that he had merely acted under the instructions for copying who had told him to mark off the accounts.

Mr. Corley commented that, up till July last, they had appeared in the monthly reports to the government as assets of the bank, under the heading of 'current loans in Canada,' and Magistrate Denison said that this was merely a subterfuge for copying who had told him to mark off the accounts.

A Case of Embezzlement. Mr. Johnston: "They were all stock transactions. The money was lost in stock speculation. The magistrate returned that that made no difference. It was still a case of embezzlement."

Mr. Johnston submitted the bank's monthly report for July 31, 1906, signed by McGill and Donald McKay, and asked Chenoweth if the amounts re-

ferred to did not appear there as current loans. This was admitted.

Mr. Corley pointed to an item of \$485,000 for securities in connection with an account held by Laidlaw, Thalmann & Co., and another of \$778,901.18 for other securities.

A total of \$1,263,901.18 charged up, witness declared himself unable to understand the entries having been made before his time. The amount appeared in the monthly report as current loans in Canada. He agreed that the books showed them to be otherwise.

Chenoweth was questioned about the various debts shown in the preliminary statement book, they were made up according to returns submitted once a month. The residue debts amounted to July 31, 1906, to \$7,601.31. Of that amount, \$50,000 was deducted and added to current loans.

"That means that \$50,000, shown as current loans, wouldn't be an overdue debt, would it?"

"I couldn't say."

Mr. Corley asked if this method had not been continued from month to month.

"It was."

"Without any regard to whether the debt was overdue or not?"

"Yes."

Chenoweth said he had deducted the \$50,000 on previous instructions from McGill. Like amounts had been transferred in May and June, \$45,000 in April and \$55,000 in March.

"Thus keeping up the average of \$50,000," the crown.

Real Estate Account. The matter of the bank's real estate account was next taken up, and it was elicited that \$18,400.43 had been deducted from current loans and added to real estate. This was done by order of the general manager, and was done for a number of months, or from the time took charge of the books to Nov. 30, 1904.

It transpired also that, while the value of the bank premises, as shown in the government returns for last July, was \$125,000, according to the head office reports, the value was \$133,322.88.

"What effect did that have?"

"It was deducted from the bank premises and added to the loans."

"How did you come to do that?"

"My instructions were from Mr. McGill."

"How did the expenditure of funds appear in the books?"

"They went in as current loans in Canada."

"That was done with the distinct knowledge that it was wrong?"

"Yes."

Know It Was Wrong. The court: "You knew that Mr. McGill was fixing up accounts so that they were false?"

"Yes."

Told to "Follow System." Chenoweth said the amount legitimately to be charged against the reserve was about \$811,000. The government didn't ask for the reserve account. The only charge ever made from his preliminary trial balance in the government report was when the "bad debts," amounting to about \$180,000, were written off. In taking charge of the books, he was told by McGill to "follow the system as it had always been done."

McGill told him on Dec. 31, 1904, to reduce the amount charged to bank premises from \$30,000 to \$25,000.

The government report of May, 1904, was produced, and Chenoweth explained that, thru a clerical error, he had not entered \$788,428 under "railway debentures and other securities." The mistake had been rectified. Any changes made affecting appropriations would be at McGill's instance, but the witness couldn't recall a specific case.

As a reduction of \$2,217,000 from the account for railway bonds, it was thru various items of credit account. One was the Peterboro branch reserve account. Other items, totaling \$294,824.77, would be properly chargeable against any loss in sundries. Legitimately, about \$600,000 might have been taken out, which would leave about \$1,600,000 for the railway bonds.

The head office ledger was exhibited, showing that before Dec. 31, 1904, two sales of real estate—\$4300 and \$2400—were produced, and Chenoweth explained that, thru a clerical error, he had not entered \$788,428 under "railway debentures and other securities." certain one way or another. Mr. Johnston asked if all the transactions were not carried forward thru the Fourth National Bank on vouchers furnished by the Ontario Bank, and to this the witness assented. Witness didn't know whether the deals brought out represented every day transactions or not.

An entry was shown him relating to Japanese bonds. Chenoweth said payments on the bonds were made to H. H. & Co. There was a profit on "series 1" of the bonds of \$7824.56. Payments were made to Ames & Co., and Marshall, Spader & Co., also to buy stocks in New York. The profits went to the bank.

Mr. Johnston pointed out a total of \$222,000 charged to railway and other bonds. This amount, the witness said, was arrived at from a number of ledger entries, including \$28,000 in U. S. railway bonds. The account showed purchases of bonds since 1898.

Any Dealings on Margins? Asked how many stocks were held, Chenoweth instanced that between 1898 and 1901, the holdings amounted to \$338,000, and the purchases \$254,000. This did not imply that the stocks were bought on margin, as some might have been held for a long time previously.

Chenoweth said that he was asked how long it had taken to achieve this result. The reply was "a number of years."

Entries in the books showed substantial losses on such apparently good securities as government bonds, consols and City of Toronto bonds.

On the reserve accounts, being referred to, the witness said they were kept for all the branches and were designed to meet losses.

All this talk of transfers to reserve accounts is utter nonsense. It would be good banking?"

"Yes."

Legitimately, about \$600,000 might have been taken out, which would leave about \$1,600,000 for the railway bonds.

The head office ledger was exhibited, showing that before Dec. 31, 1904, two sales of real estate—\$4300 and \$2400—were produced, and Chenoweth explained that, thru a clerical error, he had not entered \$788,428 under "railway debentures and other securities." The mistake had been rectified. Any changes made affecting appropriations would be at McGill's instance, but the witness couldn't recall a specific case.

As a reduction of \$2,217,000 from the account for railway bonds, it was thru various items of credit account. One was the Peterboro branch reserve account. Other items, totaling \$294,824.77, would be properly chargeable against any loss in sundries. COBALT---\$20,000,000 on a Few Deals Have Already Been Made by Canadians---COBALT

TORONTO MARKET ALONE IN COBALT DEALINGS

But Prices Maintain a Strict Buoyancy and Some Stocks Sell Higher.

World Office, Tuesday Evening, Nov. 6. All the American curb markets were closed today, and the Cobalt stocks were left exclusively to Toronto operators. Prices did not suffer on this account, and firmness was the feature, with scarcely an exception. Detailed news from the various mines is not profligate, but the demand for the various stocks is sufficient to keep up a distinct buoyancy, irrespective of the wire from Foster to-day speaks very favorably of the work at this property, and the stock had a strong undertone throughout the entire day, and closed at the top price. Silver Queen advanced slightly above Monday's price, and only lost a very small part of the recent big advance on further profit-taking. Trethewey, Buffalo and Red Rock were conspicuous sports of strength, but the big bulk of buying went to the two former, as on previous days. University was practically on the market to-day, as nothing was offered at less than \$25 a share. Silver Leaf and Beaver were a little more acquired after, but these were not on the active list. The market at the close was regarded as exhibiting wonderful vitality under the circumstances, and a more active business is looked for with the reopening of outside markets.

Trethewey Litigation Ended. William C. Fox's suit against W. G. Trethewey and the Trethewey Silver Cobalt Mine, has upon consent, been dismissed without costs. A similar order was consented to in the suit of Clarence James McCull against the same defendants.

Cobalt Values Surprised. The New York Commercial says: As a result of the advance secured last week by some of the lower-priced Cobalt stocks on the local curb, some startling results are shown. For instance, based on an average valuation, McKinley-Darragh-Savage, at \$4 a share, is selling at almost four times more than the average valuation of Nipissing, at \$1 a share.

Will Become a Shipper. Some of the new proprietors of the Green-Mechan mine, north of Cobalt, state that they would ship two carloads of ore within the next couple of weeks, and they thought each car would yield as high as \$20,000. This property was sold a few weeks ago for \$250,000, rich vein having been struck immediately before the option expired. So far no machinery has been installed at the mine, with the exception of a horse-power. The property is in Buckle Township.

O'Keefe Claim Bought. H. C. Barber, broker, East Adelaide-street, reports that the O'Keefe property to a syndicate organized in Toronto. This claim is located just west of the Silver Queen and Hudson Bay properties. The new company will be organized at once. The purchase price of the property is not stated.

Another Big Amalgamation. The control of the Watts Mine has gone to a New York syndicate, new owners of the King Cobalt. The two properties will be amalgamated under the name of "King Edward Cobalt." Among the prominent financiers in this company will be included S. Newhouse of New York, president of the Newhouse mines, the Boston Consolidated and the Newhouse tunnel. Messrs. McCull, W. H. Brewster, and the Guggenheims have also an interest in the amalgamated properties. The capitalization of the King Edward will be 600,000, in \$5 shares. The stock of the company has all been underwritten, and present holders of Watts shares can receive cash for their holdings or an exchange in the new company's stock.

Good News From Foster. The tenacity with which Foster holds its advance is surprising, great to holders of the shares. Since Monday's big advance at New York it has scarcely wavered one inch in the Toronto market, and it is an and-out trade by four brokers themselves. The stock was very strong at the close to-day, and closing offering below \$25. It was rumored on the street to-day that supposed holders had given out after that a reaction would occur after the shares were split, and some who took the advice are wondering when it is coming. The standard kind of active operation is going on at the property, there being now no less than five shafts in active operation. "Lucky" Scott, in a wire received at Toronto Tuesday, says: "Striking a very rich ore in shafts 2 and 3. One shaft now two more cars soon as roads get in better shape. Ore showing much better in the bottom of new shaft."

Some Cobalt Fortunes for Canadians. The first owners of Nipissing (they were Canadians) sold out for \$200,000. Canadians have made \$2,000,000 out of this mine. The Kesters took out of Foster \$700,000. Trethewey took out of Trethewey (at least) 700,000. The University got over 1,000,000. The Diamonds and McArthur, La. Rose, etc., are worth, out of Cobalt, 10,000,000. The Jacobs would not sell for 2,000,000. The Lawson is held in Canada, and is worth 2,000,000. Canadians made in Foster 1,000,000. The Temiskaming and Hudson Bay holders have already made over \$1,000,000, and still hold a very valuable and large claim. This little list totals over \$20,000,000, and if many of the other smaller deals were included in the computation the total would run into many more millions.

Name Should Be Castoria. Trethewey was made the subject of a joke among the curb brokers yesterday. The underwriting of this stock has proved an almost unparalled success, and the syndicate handling the flotation is besieged with requests for all sorts of which they have been compelled to turn down. "It reminds me," remarked one of the fortune brokers, "of the patent medicine advertisement children cry for it," and it is suggested that the mine should be renamed "Castoria."

Work at the Nipissing. During the month of October the Nipissing people shipped 20 carloads of bonanza ore, running from 1600 to 1700 pounds each, and showing values between \$30 and \$6000 a barrel. This was in addition to a large shipment of No. 1 ore, which averages around \$200 a ton, and which is being taken out in steadily increasing quantities from the older workings on the property. On Nipissing ledge 27, at the 35-foot level, the vein broadens out to a width of nine inches, and shows very much richer values in free silver than the case at the surface. The arrival of cold weather has, of course, stopped hydraulic operations for the season, but the plant in three months of operation demonstrated its usefulness by uncovering six or eight very promising veins, several of which have already been opened up. The operating force, which now consists of 200 men, is steadily being increased, and the case at the winter should continue to be considerably in excess of \$500,000 net a month. Cobalters at New York. New York Post: What caused the con-

tinued expansion in mining speculation? It was unquestionably the further sensational rise in Nipissing and other Cobalt mining stocks. That very great wealth has developed in that region is perfectly clear from the results; from the output and the richness of much of the ore. They are not so simple "prospects," as in the case of many propositions which have been introduced to the Broad-street curb during the last few years. It was the simplicity of many of these latter claims that set New York against mining stocks for so long a time. The appearance of enterprises which have genuine merit and the identification with them of financial interests of the first rank, were responsible for the change in sentiment toward this sort of investment of money. Brokers on the curb complained that their customers wanted nothing but mining shares, and they had to humor them or do nothing. Many stock exchange members also declared that their exchange business was falling off, and they had to join the Broad-street "crowd" if they wanted to keep up with the times. It was a novel sight to see such a large number of exchange members, of their clerks, trading in unlisted shares.

Another Cobalt Suit. Frederick W. Birkenhead has issued a writ at Osgoode Hall against Melvin G. Hunt and John D. McMurchy of Halleybury for an account of their dealings with the west quarter of the north half of lot No. 14, concession 1, in the Township of Buckle, Nipissing district. The claim is known as the Green-Mechan property. The plaintiff asks for a declaration of his interest in the property and the profits derived from it.

Canadian Cobalt Field. In connection with the discussion of Cobalt affairs, it is pointed out that within the last three years the power of Cobalt has risen from the wilderness and become a "vigorous and wealthy mining community."

The La Rose Mining Company, according to the government report of the district, realized over \$300,000 from their sale of ore last year. Current official estimates place its profits for next year at from \$3,000,000 to \$4,000,000, with \$400,000,000 of silver ore in sight. We are informed that English investors within the next few days will have an opportunity of purchasing shares in another company, which claims to be introduced by a very powerful group of London financiers to occupy a site better situated than the La Rose Mine, with a very small capitalization. It is urged that "what makes the importance of the discovery even more notable is that fact that during the last year the price of silver has risen over 100 per cent. The richness of the whole Cobalt field, and the activity and completeness with which the work is being carried out, are alleged to have their official confirmation in cablegrams received by Lord Strathcona, high commissioner for Canada, stating that 25 carloads of silver ore, worth, on an average, \$50,000 per car, had been despatched from the Cobalt field during the present month. In addition, it is stated, enough ore is "stocked out" to ensure within 30 days an increase of the output to 50 cars a month.—London Financial News.

Pioneers in Trader's Bank Premises. The first offices to be opened up in the new Trader's Bank building will be occupied by the Glavin Silver Mining Company, where the headquarters of the company will be located. This company is now offering a small block of stock at \$1 a share, as will be seen by the advertisement on this page.

Too Quick to Sell. H. G. Davidson, of H. G. Davidson & Co., tells the story of a client of theirs who held 4000 shares of Silver Queen and called them up Monday morning and asked them for a bid. They got the bid of \$20, and he said "sell." Inside of an hour Silver Queen was 2.50. One can easily imagine his sorrow at selling so early, but he said "Mr. Davidson got me into Silver Queen and I've made a good thing out of it and have left the profits with him to turn over again."

TRANSPORTATION TOPICS.

What Railway Men and Navigators Are Doing. The members of the Eastern Passenger Agents' Association yesterday devoted five hours to a discussion on a uniform excursion rate. At 8 o'clock all left for Mobile, Alabama, to attend a two weeks' convention of passenger agents there. C. E. Horning of the Grand Trunk and C. B. Foster of the C.P.R. are among the party.

New Tank at Junction. A new water-tank, capable of holding 40,000 gallons of water, is to be erected by the C.P.R. at Toronto Junction.

J. S. Nolan, chief C.P.R. telegraph operator at the Union Station, has resigned, and will leave shortly for the States to take up a similar post with an American railroad. He has been connected with the C.P.R. for fifteen years and is well-known around the Union Depot. Mr. W. J. Blaney will be promoted to the vacancy.

The accounting department of the T. & N. O. Railway, in charge of Mr. McGee, will shortly be moved from Toronto to North Bay.

Conductors Get Chance to Defend. Up till noon yesterday fourteen Grand Trunk conductors running into Toronto have been dismissed. Conductor Hollinger, one of the discharged men, is to be reinstated. Superintendent Browne is giving each man every opportunity to defend himself. Five called on him yesterday, three in the morning and two in the afternoon. Those who have yet to make their peace with the company are: Main line west—Conductors Klopff, McBrice and Higgins. Main line east—Conductors McMahon and McNeish. Northern division—Conductors Rogers, Thompson, Williams, Flanders and Oak Hamilton branch—Conductors Stoddard and Wilson.

Harbor Commissioners. The harbor commissioners met yesterday and discussed the question of leasing the water lots to the west of Queen's Wharf. Two applications were considered, but it was decided to call for more offers until December 1. The attention of the public works department will be called to the necessity of using the dredge in the eastern gap. At the present time vessels of 12 feet 2 inches cannot enter the bay, whereas the depth at the gap should be 14 feet. The four boats of the Niagara Navigation Company are being prepared for their long rest during the winter. It is probable that the Hamilton Steamboat Company's new boat will not be ready for service until the middle of next season.

ADRIOT ON LAKE MICHIGAN WHEN GASOLINE RAN OUT. Chicago, Nov. 6.—After drifting about Lake Michigan since Saturday afternoon in a gasoline launch without gasoline, Louis Wright and William Thornton of Michigan City were to-day picked up by the steamer Glenn and brought here. Their gasoline became exhausted when they were twenty miles out from Michigan City.

NEARLY ASPHYXIATED. William Scott, aged 52, an employe of the John Inglis Company, was found unconscious in his room at 40 Beaconsfield-avenue yesterday morning, with the room filled with gas. A stovepipe hole in the room, which allowed the gas out of the room, probably saved Scott's life.

Young People's Rally. The young people's rally, to be held in College-street Presbyterian Church, corner College and Bathurst-streets, to-morrow evening, promises to be of unusual interest. Rev. A. Logan George will take up "What Would it Mean if Our Presbyterian Young People Were More in Earnest in Their Relations to Christ and the Church?" and Rev. Robert Heribson, M.A., "How Can They Be Made More in Earnest?" The Alexander Choir of 400 voices will render several selections.

'Just Like Count Boni. Paris, Nov. 6.—Sensational developments are anticipated at the hearing of the Castellane divorce suit to-morrow. Convinced that all hope of a reconciliation has gone forever, it apparently is the intention of the court's attorneys to open a vicious attack on the count's witnesses. LOCAL FRUIT MARKET. Trading in the wholesale market yesterday was only moderately good, comparatively heavy receipts of Canadian fruit still coming forward.

The deliveries of Canadian stock which continue to come forward are in a measure displacing the regular course of trade, and being out of season, are hard to sell at anything like decent prices.

Grapes, while not good, sell as low as 15c and 20c a basket, which, deducting the cost of shipment, freight and commission, leaves little in the way of net receipts.

GOOD MAN GONE. Lindsay, Nov. 6. (Special.)--The funeral will take place to-morrow of Patrick J. Hurley, one of the most prominent and popular Lindsay business men. He was 30 years in business, was president of the St. Vincent de Paul's Society, treasurer of the C. M. B. A., member of the Knights of Columbus and ex-alderman. Plans on public buildings are at half-mast. Mr. Hurley was noted for his kindness and charity to the needy.

Sacred Harmonic Society. The Sacred Harmonic Society held a successful rehearsal at the Conservatory of Music. The members present gave an excellent account of the choral numbers of Gounod's "Messe Solenne" and the conductor, Dr. J. Perse Smith, expressed himself as highly gratified. Rehearsals will continue each Wednesday evening hereafter. Ladies and gentlemen desirous of co-operating will be able to do so by communicating with the honorary secretary, E. Johnson, 42 Robert-street, or the conductor, Dr. J. Perse Smith, 1018 Bathurst-street.

Ambulance Hit by Car. New York, Nov. 6.--While a Lebanon Hospital ambulance containing a colored man and woman who had been shot by another negro, was speeding to the hospital, it was struck by a street car and overturned.

William Vanz, who already was in a serious condition from his wound, received serious accidental injuries and died on the way to the hospital. The other patient, Mrs. Louise Page, also was badly hurt, and Dr. Ketchum, the ambulance surgeon, was rendered unconscious.

Last train from New York is via Grand Trunk and Lehigh Valley, leaving Toronto 6.10 p.m., daily, with a through sleeper for New York. Cafe parlor car to Buffalo, serving meals a la carte. Secure tickets and make reservations at City Office, northwest corner King and Yonge-streets.

ALLIANCE DIDN'T PERSECUTE But Will Watch Firm Closely If It Moves to Montreal.

It has been stated that the Pratt & Latchworth Malleable Iron Co. headquarters Buffalo, Canadian branch Brantford, have decided to move their Canadian plant to Montreal, because they have recently been prosecuted at the instance of the local Lord's Day Alliance for operating on Sunday.

In regard to this, Rev. J. G. Shearer of the Alliance says the company has not been prosecuted here for the instance of the Alliance, and owes it to the kindly intervention of the Alliance that such prosecution was not taken by the crown authorities.

The company admitted that they were interviewed by a committee of the Alliance and requested to discontinue flagrant violation, on a large scale, of the act.

The company were told that the Alliance and the Canadian public did not object to the doing on Sunday of work that was really necessary, such as the maintaining of fires in the company's annealing ovens, and that the Lord's Day Act makes exception of such works of necessity.

The company contended that, beyond these limits of necessity, work was done in their establishment on Sunday on quite a large scale, including a great variety of ordinary sorts of labor. They laid the blame for a good deal of the doing of this Sunday work on the employees, who, they alleged, preferred even to rest on Saturday and to work on Sunday.

"It," says Mr. Shearer, "this industry is unaware that after the 1st of March, the Lord's Day Act will apply uniformly thruout Canada, it is well that they should be informed that they will be required to observe this worthy Canadian law in Montreal as closely as they are required to do in Brantford. Our organization has a vigorous branch in that city, and should they move all or part of their plant, as threatened, we shall see that our friends there are informed of the record of this company, and they may reckon upon it that they will be under the watchful eye of our fellow-workers in the Quebec metropolis."

IN FRENCH PARLIAMENT. Paris, Nov. 6.--The debate in the chamber of deputies on the church and state separation bill was continued to-day.

War Minister Piquart, who mounted the tribune for the first time, to answer an interpellation regarding the bill reducing the term of service in the army to two years, was greeted with a burst of applause from the left party.

The extreme left demanded that the final transfer of the church property take place Dec. 31, 1906, instead of Dec. 31, 1907.

Statement From Foster Directors. The Foster Cobalt Mining Company desire the following published: The directors do not sympathize with stock-jobbing operations, which have for their object the immediate increase in the price of the stock, and the statements which have appeared from time to time have emanated from it. It prefers that the shareholders of the mine and the public should have accurate information as to the position of the mine, and will endeavor to supply it. Every expedition as being used in installing a suitable plant for the working of the mine, most of it having already arrived at Cobalt. At the present time, the value of the mine is engaged in drifting at a depth of seventy-five feet on the veins, and the results are satisfactory. Stopping is going forward in the main drift, and a shaft is being rapidly sunk for the purpose of providing what is regarded as the main vein on the property. The directors have not yet received the smelter returns with respect to the first car of ore shipped. This ore was not mined under the present management, but was taken over as it stood in the ore-house, and its value could not be ascertained. It was badly graded and sorted, and was not by any means the best ore that the mine produces.

Club Man Sentenced. Augustus, Ga. Nov. 6.--Thomas W. Alexander, formerly a wealthy cotton factor and prominent club man, to-day pleaded guilty to an indictment charging embezzlement and was sentenced to six years imprisonment.

The Gilpin Cobalt & Silver Mining Company

Capitalization \$500,000. - Shares \$1. - In Treasury \$190,000.

This Company owns 120 acres in the best section of the mineralized area.

A small block of the stock will be put on the market for the first time on Wednesday, Nov. 7, at \$1 a share.

The formation of this property with the existence of pay ore, as it is identical with the Cobalt district, having diabase, slate and conglomerate. The territory is crossed by a great network of fissure veins, many of which show calcite and cobalt bloom in abundance.

The rich paying mines the calcite and cobalt are present in almost every instance, in a great many cases the calcite being replaced by native silver. Over 17 of these veins cross the property which the company is diligently prospecting, with every prospect of opening a pay mine.

With the present development work a short time should see this Company among the foremost of the New Ontario mining propositions.

The shares will have a wide market, as arrangements have been made to call the stock on the New York and Boston curb within ten days.

Send all subscriptions to the Company's only office, Rooms 701, 702, 703, New Traders Bank Bldg., YONGE ST., TORONTO.

The Company reserves the right to allot all or only part of the applications for stock.

FARMERS MAKE APPLICATION TO SHARE NIAGARA'S POWER

South Dumfries First in Line—Eight Other Municipalities File Requests—Electrical Energy as Applied to Rural Needs. Recent applications for electric power made to the hydro-electric power commission include Milton, 600 horsepower; Ingersoll, 1500; Acton, 800; North Dumfries, 5000; Simcoe, 500; Elmira, 600; Dundas, 3000.

Statements on both sides of this question have been made which do not fully convey the facts. It is not surprising that the power commission has declared that electric power cannot be distributed with advantage among farmers. It is also an erroneous view that farmers may have power laid on anywhere. What Farmers Are Doing. In a recent issue of the Electrical World there has been described the system of the Aurora, Elgin and Chicago Electric Railway, which supplies the farms thru which the line passes with economically raised power, generated moreover by steam. The district is one in which dairy farming is the staple industry, and is noted for feed-cultivation and grinding machinery, and 15 horse-power motors have been installed.

LAND DAMAGES \$100,000.

Citizens Can Vote on the Yonge Street Bridge Proposal. There was not much doing around the municipal part of the city hall yesterday.

Commissioner Forman reported the land damages in connection with the construction of Yonge-street bridge would amount to \$100,000. The board of control decided to submit a bylaw for that amount to the people.

Controlled Ward advocated the erection of an abattoir in the annex to the cattle market, to prevent cattle and sheep driven thru the streets injuring lawns and boulevards. The property commissioner will report.

Chas. Unwin, the city surveyor, has recommended the widening of Sunnyside street from King-street to Eastern Avenue to a width of 62 feet 3 inches.

The question of appointing William Ward of Island fame as a life-saver, and to fulfill other duties, will be reported by the board of control tomorrow.

Controlled Jones does not want any sign or billboard erected until Controller Harris has passed on it. The city solicitor will report.

The board of control made a grant of \$750 to the Ontario Horticultural Society for the month of October, with the city's percentage, as follows:

Table with 2 columns: Date, Amount. Rows for Oct 1906, 1904, 1903, 1902, 1901.

Dr. S. G. Thompson thinks water much higher. His bill was \$89, where \$8 would be about right. The city treasurer will look for the leak.

The city treasurer reported the gross savings at the Toronto Railway Company for the month of October, with the city's percentage, as follows:

October, 1906 \$271,104.82; 1904, 235,037.63; 1903, 206,792.62; 1902, 196,240.88; 1901, 152,453.37. G. Gibbard will run for alderman in ward four.

STOKERS ATTACK OFFICERS.

Meeting Continues at Portsmouth Naval Barracks. Portsmouth, Eng., Nov. 6.—The rioting in the naval barracks was resumed at midnight and continued until past 2 o'clock this morning.

A gang of several hundred stokers attacked the officers' quarters, assaulting officers, smashing windows and other damage to property. Several policemen who attempted to enforce order were seriously injured.

Armed sailors and marines had to be called out. They overpowered the rioters and made many arrests.

TRAMPED BOULEVARD.

Alfred Puddy was fined \$5 by Magistrate Kingford for allowing two boys and a dog to drive 100 sheep along Shaw-street. The sheep trampled the boulevard.

68 LOADS AT CITY MARKET AND EXPORTERS ARE OFFERED

Trade in That Line is Dead—Light Receipts Improve Trade. Receipts of live stock at the city market since Friday last were 68 car loads, composed of 806 cattle, 408 hogs, 3007 sheep and about 100 calves.

Besides the above there were 658 lambs, or five car loads, that came in and went out via C.P.R. to Buffalo, not being sold in this market, also 388 hogs, or four car loads, that were sent to a local packing-house. The quality of fat cattle generally was no improvement over what has been on the market for some time. A few good ones which sold fairly, and many cows of inferior that were slow of sale, at about the same quotations as last week.

On account of the receipts, trade was reported as being fair. One dealer stated that he bought a load of the best cattle in lots and that they did not average \$4 per cwt.

Exporters. The export trade is dead, none being offered. Butchers. The prime picked lots sold at \$4.25 to \$4.40; butchers' stock at \$3.75 to \$4.00; medium, \$3.30 to \$3.70; good cows, \$3.10 to \$3.50; common cows, \$2.25 to \$2.35; canners, \$1 to \$2.00.

Feeders and Stockers. Trade was easy for feeders and stockers at unchanged quotations as follows: Choice, well-bred stock, 1000 lbs., at \$3.00 to \$4 per cwt. for cattle weighing 1100 to 1200 lbs.; best steers, 1000 to 1100 lbs., \$3.00 to \$3.25; best steers, 900 to 1000 lbs., \$2.25 to \$3.00; best steers, 800 to 900 lbs., \$2 to \$2.25; medium quality, \$2.40 to \$2.75; common stockers, \$2 to \$2.15 per cwt.

Milk Cows. The trade in milk cows and springs was brisk at strong prices. The quality was generally good, many choice cows being offered. Prices ranged from \$30 to \$14 each.

Veal Calves. About 100 calves sold at \$3 to \$6 per cwt. Sheep and Lambs. There were too many for the demand, and prices were low. The export sheep were firmer at \$4.50 to \$5 per cwt. for ewes. Lambs, \$3.25 to \$3 per cwt. for 100 lbs. and over. \$2.50 to \$3.50; best steers, 900 to 1000 lbs., \$2.40 to \$2.75; common stockers, \$2 to \$2.15 per cwt.

Hogs. Receipts light. Mr. Harris reports prices unchanged at \$5.75 for select and \$5.50 per cwt. for lights and fats.

Regis. and Sales. Maybe, Wilson & Hall sold: 20 butchers, 1000 lbs. each, at \$4.25 per cwt.; 6 butchers, 1000 lbs. each, at \$4.12 1/2; 5 butchers, 1000 lbs. each, at \$4; 4 butchers, 1000 lbs. each, at \$3.85; 24 feeders, 1000 lbs. each, at \$3.55; 24 feeders, 1000 lbs. each, at \$3.25; 20 feeders, 1000 lbs. each, at \$2.85; 20 cows, 1200 lbs. each, at \$2.40; 20 cows, 1200 lbs. each, at \$2.20; 20 cows, 1200 lbs. each, at \$2.15; 20 cows, 1200 lbs. each, at \$2.10; 20 cows, 1200 lbs. each, at \$2.05; 20 cows, 1200 lbs. each, at \$2.00; 20 cows, 1200 lbs. each, at \$1.95; 20 cows, 1200 lbs. each, at \$1.90; 20 cows, 1200 lbs. each, at \$1.85; 20 cows, 1200 lbs. each, at \$1.80; 20 cows, 1200 lbs. each, at \$1.75; 20 cows, 1200 lbs. each, at \$1.70; 20 cows, 1200 lbs. each, at \$1.65; 20 cows, 1200 lbs. each, at \$1.60; 20 cows, 1200 lbs. each, at \$1.55; 20 cows, 1200 lbs. each, at \$1.50; 20 cows, 1200 lbs. each, at \$1.45; 20 cows, 1200 lbs. each, at \$1.40; 20 cows, 1200 lbs. each, at \$1.35; 20 cows, 1200 lbs. each, at \$1.30; 20 cows, 1200 lbs. each, at \$1.25; 20 cows, 1200 lbs. each, at \$1.20; 20 cows, 1200 lbs. each, at \$1.15; 20 cows, 1200 lbs. each, at \$1.10; 20 cows, 1200 lbs. each, at \$1.05; 20 cows, 1200 lbs. each, at \$1.00; 20 cows, 1200 lbs. each, at \$0.95; 20 cows, 1200 lbs. each, at \$0.90; 20 cows, 1200 lbs. each, at \$0.85; 20 cows, 1200 lbs. each, at \$0.80; 20 cows, 1200 lbs. each, at \$0.75; 20 cows, 1200 lbs. each, at \$0.70; 20 cows, 1200 lbs. each, at \$0.65; 20 cows, 1200 lbs. each, at \$0.60; 20 cows, 1200 lbs. each, at \$0.55; 20 cows, 1200 lbs. each, at \$0.50; 20 cows, 1200 lbs. each, at \$0.45; 20 cows, 1200 lbs. each, at \$0.40; 20 cows, 1200 lbs. each, at \$0.35; 20 cows, 1200 lbs. each, at \$0.30; 20 cows, 1200 lbs. each, at \$0.25; 20 cows, 1200 lbs. each, at \$0.20; 20 cows, 1200 lbs. each, at \$0.15; 20 cows, 1200 lbs. each, at \$0.10; 20 cows, 1200 lbs. each, at \$0.05; 20 cows, 1200 lbs. each, at \$0.00.

Atkinson, Tapscott, bought 1 load of short-horn, 1000 lbs. each, at \$3.00; 2 loads butchers, 1000 lbs. each, at \$2.80; 2 loads butchers, 1000 lbs. each, at \$2.60; 2 loads butchers, 1000 lbs. each, at \$2.40; 2 loads butchers, 1000 lbs. each, at \$2.20; 2 loads butchers, 1000 lbs. each, at \$2.00; 2 loads butchers, 1000 lbs. each, at \$1.80; 2 loads butchers, 1000 lbs. each, at \$1.60; 2 loads butchers, 1000 lbs. each, at \$1.40; 2 loads butchers, 1000 lbs. each, at \$1.20; 2 loads butchers, 1000 lbs. each, at \$1.00; 2 loads butchers, 1000 lbs. each, at \$0.80; 2 loads butchers, 1000 lbs. each, at \$0.60; 2 loads butchers, 1000 lbs. each, at \$0.40; 2 loads butchers, 1000 lbs. each, at \$0.20; 2 loads butchers, 1000 lbs. each, at \$0.00.

William McClelland bought 97 lambs, the best on the market, from Wesley Duff, at 60¢ per cwt. Peter McQuig reported these same lambs as having been sold to Wesley Duff at \$4.25 per cwt. and \$3.75 per cwt.

James Ryan bought 11 cows at \$30 to \$22 each. George Rountree bought 50 cattle for the Harris Abattoir Co.; best butchers at \$3.75 to \$4.25; medium at \$2.20 to \$3.75; good cows, \$3 to \$3.50 per cwt.; common cows, \$2.25 to \$2.85 and canners at \$1 to \$2 per cwt.

H. H. Wicks bought 200 sheep and lambs at \$5.50 to \$7.75 for lambs and export sheep at \$4.75 to \$5 per cwt. H. Wicks bought 200 sheep at \$5.00 per cwt. and a choice sheep at \$5 per cwt. William McClelland bought the best load of sheep at \$3.25 to \$4.25 per cwt., or less than \$4 per cwt. average price.

Market Notes. John Beers of the Bull's Head Hotel, who is away on his annual hunt, shipped home two very fine deer as trophies of the hunt this week.

John Lombard was on the market with three car loads of lambs, and they were good ones.

C. Calder of Windsor was on the market with a car load of 24 spotted hogs, which were shipped out to be finished.

In our report of the Junction market we omitted that James A. Fallis brought eight of the best cows seen on that or any market for some time.

South Brant Election Case. Mr. Robert Henry, ex-M.P. for South Brant, and his friends deserve much credit for the way they have followed up the O'Meara case. O'Meara was charged with impersonating a Brantford voter. Wallace, a Brantford detective, and Mr. Henry arrested him on election day. The police magistrate of Brantford saw fit to allow the prisoner to clear out without a trial, which may yet have to be explained.

Robbers Compel Farmers to Furnish Fresh Horses. Ottawa, Ill., Nov. 6.—Two robbers, who secured \$7000 from the Farmers' and Miners' Bank at Ladd, made their escape last night after an exciting chase of over 40 miles, and after numerous fights with farmers who attempted to intercept them.

After robbing the Ladd Bank the robbers drove to Peru, and at the point a revolver compelled a liverman to furnish the robbers with a buggy and fresh horses. They passed thru La Salle and then the pursuit began.

The robbers drove thru four county townships, police armed with rifles in close pursuit. Farmers were compelled to furnish the robbers with fresh horses.

In Wallace Township there was a lively exchange of shots, but the robbers took to the corn fields, secured a revolver, compelled a liverman to furnish the robbers with a buggy and fresh horses, and they abandoned horses, buggy and overcoats and caught a train, presumably for Chicago.

TORONTO HORSE MARKET GENERAL SALES VERY GOOD

Monday's sale at the Canadian Horse Exchange was without doubt a most successful one from every standpoint. The sale price for a good horse that suited them. Any dealer will tell you that a good horse will sell at this market. Horses are dear, we will admit, but we cannot overlook the fact that the quality makes the price. A Sinclair of Parry Sound showed excellent judgment in purchasing a splendid pair of driving horses, weighing 1500 lbs. each, J. J. Walsh, city, secured a capital carriage horse, bay gelding, 15.3 hands, sound, kind in harness, a grand combination of style, speed, activity and lively manners. The Toronto fire department secured an exceptionally fine black gelding that looked as if he would lose to a sprint, and a fine. A partial list of the other buyers shows R. W. McCullough, A. Dwight, W. E. McCall, Wm. Leeson, the Wm. D. Conroy, a splendid, active and excellent wagon horse, W. Tomlinson, J. W. Neil, Mr. Armstrong, H. McKay, J. Dawson, Keisler, Ont.

At tomorrow's (Thursday) sale the exchange will offer several carloads of general purpose, draught, delivery, riding and driving horses, and on Monday next the Toronto market will hold their annual fall sale of heavy draught horses. Parties wishing horses for lumbering and other heavy work should not miss being present, as many really choice lots will be on offer.

Horse stealing and wholesale horse dealing in New York is surely some what of a novelty. The happening was at the palatial new establishment of Plas Doerr & Carroll, taking advantage of an unusually busy time—there were 6000 horses in Monday's sale—the sharpers bought some of the poorest second-hand animals offered, erased the numbers on their deposit slips and substituted the numbers corresponding to those on some of the best horses in the sale. These forged receipts were then used in the customary way, and fifty-seven valuable horses passed into the possession of the operators on the payment of small balances for each. It was not until the buyers of the stolen horses appeared that the swindle was discovered. The number of horses spirited away is the largest ever known to have been stolen in New York. It is needless to say that in future all receipts for catalogues for the big sale of Doerr & Carroll will be made out in indelible ink.

Sweet Marie, 2.00 the champion trotter of 1904, is to be sold at auction in November at the Pais-Tipton Company's sale in Madison Square Garden. She is a smooth red mare, and is not to be considered as a horse to be purchased for the speedway.—New York Herald.

Messrs. Innes & Latimer of Woodstock, Ont., who recently had a successful sale of imported Clydesdales, the highest price being \$605, which Mr. Shafter of Maplewood paid for the two-year-old Charley, who was the next highest, \$600, paid by J. Lindsay of Brookdale, for Farm Lass, propose to bring out another shipment shortly, as well as several Hackneys.

Messrs. Burns & Sheppard of the Repository, an extra number of catalogues for their big sale of imported Clydesdale mares and fillies and Hackneys to be held tomorrow, these are an exceptionally high-class lot, especially selected from this market by Dugald Ross of Streetsville. All are fully registered, and the Clydesdales, forty in number, come from the best stock in Scotland and the Hackneys are also, judging from the lines on which they are bred, of exceptional merit. Mr. Ross says that he does not hesitate to express the opinion that a more choice lot of Clydes never entered a sales ring in Canada. They were selected especially for this size, quality and fitness for this country. That they are of the best breeding in Scotland is proven by the fact that they were got by such noted stallions as Baron's Prince Everlasting, Royal Favorite, Up-to-Time, Mains of Aries, Drumfrouther, Prince Shapely, Prince Crest, Majestic and others of Scotland's greatest sires. The mares have been bred to such horses as Everlasting, Prince of Blacorn, Baron Hood, Roselle, Benedict, Monarch, Marquis and others—all premium horses. It is hardly necessary to say that this is the last opportunity before the New Year that will be offered to purchase imported pedigree Clydes. Mr. Ross says that it was no easy matter to get together such a collection from the best farms, for not alone are prices running high, but the demand this year for exportation has been phenomenal. As for the Hackneys, of which there are five, they are of the grandest quality. Luck they were got, the seller wanting to buy them back on the instant at from 10 to 15 per cent. advance on the purchasing price.

E. J. Rochoon of Winnipeg, Man., who owns a half interest in the great pacing mare, The Hero, 2.00 1/4, bred in Kentucky, the four-year-old pacing stallion, Will Mayburn, own brother to Phalla, 2.06 1/4, by Allowood, 2.09 1/2. This colt paces for the first time in 2.07 1/4, with the last half in 1.03. He has phenomenal speed and has been turned over to Charley Dean, the trainer of The Hero, to be raced along with her next season.

The Chicago Live Stock Journal states that importers have bought large importations this year of all the draught and coach breeds, and that the prices for good market geldings are so high, and horses in such great demand that the imported stallions are being fast sold and the importers are hurrying back to Europe for more stallions and mares, in increase breeding and raising the horses up to the market demands.

Reports from East Buffalo say that the market continues dragging, and receipts last week of around 800, of which 300 remained over. Prices are only fair, with a tendency, if anything, to drop.

The show horses of Messrs. Crow & Co. of the Toronto market, for not alone are prices high, but the demand this year for exportation has been phenomenal. As for the Hackneys, of which there are five, they are of the grandest quality. Luck they were got, the seller wanting to buy them back on the instant at from 10 to 15 per cent. advance on the purchasing price.

Messrs. Burns & Sheppard quote the following as the prevailing prices: Single roadsters, 15 to 16 hands, \$125 to \$165; single coats and carriage horses, 15 to 16 1/2 hands, \$135 to \$180; match pairs and carriage horses, 15 to 16 1/2 hands, \$300 to \$450; delivery horses, 1100 to 1200 pounds, \$150 to \$185; general purpose and express horses 1200 to 1350
