TWENTIETH YEAR

DEADLY BOUT AT MANILA

Officers and Men Killed in a Sunday Fight in the Philippines.

COL. STETSEBERG SHOT

While Gallantly Leading His Troops in a Charge Upon the Enemy's Trenches.

LIEUT. SISSON ALSO SHOT DOWN.

The Filipinos Were Well Entrenched and Made a Stubborn Fight Before Retreating.

Manila, April 23.—(Special.)—In an encounter with the Filipinos to-day, near Quezong, about four miles northeast of Malolos, seven Americans were killed and 44 wounded. The following were killed: Col. John M. Stetsberg of the First Nebraska Regiment, formerly of the Sixth Cavalry.

Lieut. Sisson of the same regiment. Two privates of the Nebraska Regiment. Three privates of the Fourth Cavalry. Most of the wounded belonged to the First Nebraska Regiment.

A DISASTROUS FIGHT.

Insurgents Occupied a Horseshoe Trench and Surprised the Advancing Americans.

The engagement developed into a disastrous, though successful, fight. The insurgents had a horseshoe trench, about a mile long, encircling a rice field, on the edge of a wood. Capt. Bell, with 40 cavalrymen, encountered a strong outpost. One of his men was killed and five were wounded by a volley. The Americans retired, carrying their wounded under fire and with great difficulty, being closely pursued, the fog enabling the enemy to creep up to them. Two men, who were carrying a comrade, were shot in the arms, but they continued with their burden. Capt. Bell sent for reinforcements, so to speak, the bodies of the killed cavalrymen and the situation of the Nebraska Regiment, under Major Matford, arrived and advanced until checked by volleys from the enemy's trenches. The Americans lay about 800 yards from the trenches, behind rice furrows, under fire for two hours.

Several men were struck, one dying from the effects of the heat, as they lay there waiting for artillery to come up. Stetsberg led a charge. Finally the Second Battalion arrived, and then Col. Stetsberg, who had spent the night with his family at Manila, came up on the field. He immediately recognized him and raised a cheer. Col. Stetsberg, deciding to charge as the cheapest way out of the difficulty, led the attack at the head of his regiment. He fell with a bullet in his breast, dying instantly, about 100 yards from the trenches.

Lieut. Sisson fell with a bullet in his heart, the bullet striking him near the picture of a girl suspended by a ribbon from his neck. In the meantime the artillery had arrived and shelled the trenches.

The Filipinos stood until the Nebraska troops were right on the trenches, and then they bolted to the second trench. The Nebraska Regiment lost a mile of trench. The Nebraska Regiment lost a mile of trench. The Nebraska Regiment lost a mile of trench.

He was a Brave Fighter. Col. Stetsberg had won a reputation as the bravest of the bravest in the army. He led his regiment, and had achieved remarkable popularity with his men since the war began. He was a volunteer, who was not used to the rigid discipline of the regular troops, though he was a regular soldier.

The Official Report. General Otis Tells of the Fight and the Casualties—Deadly—Bought Victory. Washington, April 23.—The following message regarding the fight at Quezong was received at the War Department to-day: Manila, April 23.—Adjutant-General, Washington: A reconnaissance on Quezong, a place six miles northwest of Malolos, made by Major Bell and a troop of cavalry this morning, resulted in contact and battle, in which four battalions of infantry and four pieces of artillery became engaged. The enemy were driven from strong entrenchments at Quezong with considerable loss. Our casualties quite severe. Col. Stetsberg and Lieut. Sisson, 1st Nebraska, killed; several other enlisted men; considerable number wounded; not yet reported. (Signed) Otis.

The Losses. The following despatch was received late this evening: Manila, April 23.—Adjutant-General, Washington: The following were killed to-day: First Nebraska—Two officers and two enlisted men killed; two officers and twenty-six enlisted men wounded. MAY BE A FIGHT TO-DAY.

The Vancouver Police Have Got Orders to Keep the "Chicago Yankees" and Their Workmen off Dead Man's Island This Morning.

Vancouver, B.C., April 23.—(Special.)—The attempt of the City of Vancouver to prevent the desecration of beautiful Stanley Park by Chicago Yankees building a sawmill on the Dead Man's Island part of the park, has reached a crisis. The city's protest against the Federal Government giving the Yankees the ridiculously cheap lease of the island reserve led to the city was answered by the Government sending a letter to the City Council by Theodore Lodge, the very man who represents the Yankees, and which states that the island was not handed to the city by order-in-Council as part of Stanley Park, therefore did not belong to the city, and the Government could do what they liked with it. In answer to this, Mayor Gordon said to the Yankees: "Do not dare trespass on the island, which is city property."

BURNED IN AT THE STAKE. WILL MR. POUPORE BOLT?

Georgia Mob Took Summary Vengeance on a Negro Without Waiting for Trial.

Governor Pleaded for Order and Promised Speedy Retribution, But the Frenzied Mob Would Not Obey Him.

Newton, Ga., April 23.—Sam Hose, who murdered Alfred Cranford and assaulted his wife, was burned at the stake to-day in the presence of 2000 people. Hose had been taken from jail by a mob, and a procession was quickly formed, the dooned negro marching at its head through several streets of the town. Soon the public square was reached. Here former Governor Atkinson of Georgia, who lives in New York, came hurriedly upon the scene, and standing up in a buggy, impromptu the crowd to let the law take its course. Governor Atkinson pleaded: "My fellow-citizens and friends, I beseech you to let this affair go further. You are hurrying this negro on to death without an identification. Mrs. Cranford, whom he is said to have assaulted, is sick in bed and unable to be here to say whether this is her assailant. The negro is returned to jail. The law will take its course, and I promise you it will do so quickly and effectively. Do not be in the hands of the State with a crime such as you are about to perform. They Would Not Wait. Judge Freeman also spoke in a similar strain, and prayed the mob to return the prisoner to the custody of the sheriff and go home. The assembly heard the words of the speakers with indifference. The instant their voices had died away, shouts of "On to the stake!" "Burn him!" "Think of his crime!" "Burn him!" were heard. The mob was urged on by the shouting negroes. Cranford's mother and sister are residents of Newton. The mob was headed by a man who is supposed to be a member of the Ku Klux Klan. The mob was marching in the gate and had not been seen. The mob was marching in the gate and had not been seen.

BRITAIN'S NEW HAND TICKLESH PROBLEM

The Outlanders in the Transvaal and Their Recent Petition to the Queen

HAVE SET PEOPLE THINKING

Hostilities in South Africa May Result if the Petition is Acted Upon.

CECIL RHODES IS VERY ANGRY

Because of His Failure to Secure Even a Declaration of Policy From the Government.

New York, April 23.—Henry Norman cables the following to The Times from London regarding South African affairs: "The Government has now a new and a ticklish problem to solve. The petition signed by 21,000 outlanders in the Transvaal, praying Queen Victoria, as sovereign, to interfere for redress in their grievances, has been forwarded by the British agent there to the High Commissioner at Cape Town, Sir Alfred Milner, and by him it was accepted and sent to the Colonial Office, containing a declaration of the Transvaal as a British colony, and all South African circles and students of imperial politics are keenly awaiting the outcome. Sir Alfred Milner is one of the ablest, most cautious, and yet most courageous, servants of the crown, and he would certainly not have accepted this momentous petition without first sympathizing with its own kindred. It should be pigeon-holed at the Colonial Office in the hope that it will be acted upon, hostilities in South Africa may both larger in the public eye than peace at the moment.

Rhodes Very Angry. "Meanwhile, Rhodes is very angry at his failure to get not only the guarantee but the declaration of policy from the Government. He has secured guarantees amounting to £10,000,000 for the construction of his African railway from the Rhodesian mining and other companies, but while he has been cooling his heels outside the Colonial Office, the Cape and Natal have returned to the Cape and won the elections. As it is the Afrikaner Bond, or Dutch party, that is in power, and as it is sympathetic with King's Imperial Administration, he has been left in a very awkward position. Moreover, there is a slight strain between Rhodes and the Transvaal capitalists. The latter are not unambiguously in favor of the fact that Rhodes and his party present Rhodes as the principal British interest in South Africa, and outside the Cape and Natal, the Transvaal and the Rhodesian mining and other companies are now held in France and Germany, and if the British Government should remain inactive the British, French and Germans will combine in the Transvaal to make the Rhodesian railway a failure. Rhodes is in the bucket compared with the Transvaal mines, and the seriousness of the situation lies in the enormous quantities of the best Transvaal investments are now held in France and Germany, and if the British Government should remain inactive the British, French and Germans will combine in the Transvaal to make the Rhodesian railway a failure. Enthusiasm at Annual Meeting and Great Interest Evidenced in the Cup Races.

COMMODORE PLUMMER INSTALLED

Several Minor Amendments Discussed and Only Two of Them Carry.

The annual meeting of the Royal Canadian Yacht Club was held in the town club house on Saturday.

The meeting was one of the most enthusiastic in the history of this famous club, and great interest was evinced over the international races in August.

The club is in a flourishing condition, having a total of 450 members.

The treasurer's report showed a good surplus, which was transferred to the capital account.

Assets: Properties, \$24,000; furniture, \$1,200; launch, \$5,000; steward's department, \$320.00; cash, \$150.75; total, \$31,080.68.

Liabilities: Toronto Yacht Club stock, \$20; mortgages payable, \$18,500; sundry creditors, \$127.58; subscriptions, \$800; paid in advance, \$208; profit and loss, \$15,063.10; total, \$31,080.68.

The meeting was called to order shortly after 8 p.m., when the report, a copy of which was sent to all members, was read.

A number of amendments were brought up, some of which caused lengthy discussions.

The principal amendment was one relating to the carrying of the club's flag.

The entrance fee for the ensuing season, the gentlemen who are interested in the syndicate for the building of the boats to defend the Canada Cup will be made known.

An amendment, that in future will save time at the meetings, was introduced by Mr. J. H. Plummer.

It being that all proposed amendments hereafter should be dealt with by the Executive Committee.

An amendment that seemed good, and caused a great deal of discussion, was that members, after having been active for over 25 years, should be referred to their annual subscription. This was referred to the new Executive.

The election of officers resulted in the most important places being filled by acclamation. In retiring from the chief position, Mr. Jarvis thanked the club for the honor.

Mr. Jarvis thanked the club for the honor they had conferred on him. The new Commodore, J. H. Plummer, took the chair, and was received with applause.

The office of secretary will be held by Mr. Ricardo-Seaver, his beating Mr. Jarvis by a large majority.

Mr. Ricardo-Seaver, being a most popular one. Mr. Plummer stated that he would leave at an early date for Dawson City, but said he had arranged to be back by July, and in time for the big races.

The following are the year's officers: Commodore, J. H. Plummer; vice-commodore, G. H. Gooderham; rear-commodore, C. A. Brown; hon. secretary, Mr. Ricardo-Seaver; Executive Committee, E. R. Clark, J. E. Robertson, Amelius Jarvis, G. Temple, McArthur, A. G. Fenelon, F. O. Cayley, W. G. Gooderham, F. Gray, George R. Hargratt, F. J. Campbell.

GLORY FOR VARSITY B.C.

Scored 27 Runs and Whitewashed the University of Rochester Aggregation.

GLASSFORD IN GREAT FORM.

Toronto Students Flied Perfectly and Hit the Ball All Over the Lot.

The University of Toronto Baseball Club covered itself with all sorts of glory Saturday afternoon on the Bloor-street Athletic Grounds.

They scored a clean sheet over the University of Rochester, and tallied 27 runs themselves. Varsity presented a remodelled team, with Coach Strouger playing third base.

All the changes were good, and as a result the team put up a perfect fielding game, without a battery error.

Glassford struck out, allowing only five hits (one a three-bagger), while Parry prevented even the semblance of a stolen base.

Both pitchers had perfect control. The visitors from Rochester were a likely-looking lot, and it is odds-on that they could never play a worse game.

They all showed that they knew the business, but were evidently affected by the surroundings. Everyone of them, outside the battery, made a mistake.

The local students, with their heavy hitting, were enabled to pile up a big score. Greer, Strouger and Meredith did the most effective work, everyone stole bases.

Greer and Webster accepted line catches each to start the inning. The day was beautifully fine overhead, and there was a splendid attendance, including a score of ladies.

The Granite Open on the Season on a Splendid Lawn on Church-street.

The Granite bowlers began operations Saturday afternoon on the Church-street lawn that is already in excellent condition.

The day was so warm and bright that the three trials that had been prepared for the occasion were completely filled.

Several interesting and well-contested games were played, in the course of which the stalwarts of the club showed that their hands had not forgotten their cunning, and that they were prepared to give a good account of themselves this summer.

There was also a gratifying attendance of new members, several of whom give promise of becoming proficient players.

Altogether, it was a most encouraging opening of the bowling season.

The annual general meeting of the Granite Bowling Club will be held at the club house on Thursday next at 8 p.m.

For the reception of the secretary's report for 1898-9 and for the election of officers and stewards. At this meeting there will also be the presentation of the Granite Curling Club's medals for 1898-9.

ATTORNEY GENERAL'S OFFICE.

Even the Government Papers Are Urging the Premier to Take Strong Action.

THE PROVINCIAL PRESS GROWLING.

China is Defaulting in Interest Payments and Britain's Rights Are Menaced.

New York, April 23.—Henry Norman cables to the Times to-day: 'I have spoken of the rising tide of Conservatism in the Chinese press. On Tuesday and Friday the Times called upon Lord Salisbury to take strong action. The Fall Mail Gazette and St. James's Gazette have followed suit, while a growth is rising from the Tory provincial press. The Chinese have defaulted in three monthly instalments of interest upon a \$2,300,000 loan recently raised here, with knowledge of their Ministry of Finance. On Feb. 15, March 15, April 15, and the railway administration has not paid into the bank the railway rates, as it was bound by contract to do. In the matter of territorial concessions beyond Hongkong, China was similar to the Chinese Empire, in uniform having to be driven by shell and bayonet from the surrounding hills before possession could be taken.

Chaos Reigns in China. A Hong Kong telegram in to-day's Morning Post, from its correspondent, who has just returned from an extensive journey, declares that chaos reigns in all parts of the Chinese Empire, as this correspondent adds: "The general result of my observations is to deepen my conviction that China is breaking up as the Government's policy is to keep the country in a state of anarchy."

The Morning Post, the most pronounced Tory journal in England, commenting on the telegram says: "If the simile of a corpse about which birds of prey are gathering may be repeated, then Great Britain may be compared to the eagle, which has fancied itself a dove in betraying its mortal distress by spasmodic utterances, and adds that the problem is whether Great Britain intends to come out with some approach to a policy, or to remain as a theoretical possessor, or to shorn of those rights and of the field which has hitherto been to some extent open to British enterprise."

It is superfluous to repeat the obvious fact, "Where British trade goes, American trade follows." The American trade tops the market also. Meanwhile, in view of the Government's indignant denial that Lord Charles Beresford had an official mission, it is amusing to note that the Duke of Devonshire, with his usual clumsy honesty, let the cat out of the bag on Wednesday at the Chamber of Commerce banquet, when he said that he had no doubt that if there were any news from a Minister of the Crown something about the Government's policy for China, he might tell that the Government was willing to hear what should be the result of the report of the distinguished officer whom they sent out.

BICYCLIST HURT BY A BUGGY.

Miss King Thrown to the Pavement Afternoon.—She is Delirious.

While Miss Mary King of 943 Manning-avenue was wheeling on West Adelaide-street Saturday afternoon she was thrown to the pavement by a carriage colliding with her bicycle. The driver of the carriage narrowly escaped going over her body as she fell directly in front of the horse.

The driver of the carriage, Robert Ferguson of Louis-street, Toronto Junction, and the driver of the buggy, who was carrying with him, picked Miss King up and carried her into a near-by house. The ambulance arrived about 10 o'clock and took her to hospital, where she remained in an unconscious condition until 2 o'clock yesterday morning. Her injuries consist of several scalp wounds in the back of the head and a bruise on her arm. She is still in a comatose state, and the doctors are doubtful of her recovery.

Ferguson and Wells, the two men who were in the carriage, called at Police Headquarters and stated that they would be glad to settle for all the expenses which Miss King's treatment. They claim that she was wheeled into the carriage, while Ferguson says that Patterson was speeding with his motor car, and recklessly ran the unfortunate woman down.

Make Ship Owners Responsible. Saturday Review: When is responsible for the loss of a ship? The question asked at Lloyd's, the answer is "The owner." There may be no instructions to keep time at all, but the captain knows very well that if he loses time by consulting caution, even reasonable caution, he will be promoted. Promotion will not come his way, though he may be fortunate enough to keep the company's mind—and not the captain's—concerned. The speed which he wants to make is not dangerous. The shipowners are responsible to the tonnage, but he is not responsible to the tonnage. He is responsible to the tonnage. He is responsible to the tonnage. He is responsible to the tonnage.

A Montreal Lady Tells How Dodd's Kidney Pills Cured Her.

She Had Stone in the Bladder—No Other Medicine Did Her Any Good—Five Boxes of Dodd's Kidney Pills Cured Her.

Montreal, Que., April 21.—The ladies of Montreal have no rivals so far as beauty, intelligence and industry are concerned. They are quick to see and take advantage of a good article, when they have proved its merits they give their friends and neighbors the benefit of their experience.

Since the introduction of Dodd's Kidney Pills to the people of Quebec Province, the ladies of Montreal have been warned/advocates of this grand medicine. They have found from their own actual experience that Dodd's Kidney Pills are the best and best remedy known for female weakness, neuralgia, headache, vertigo, headache, bearing-down pains, palpitation of the heart, and all other female complaints. For this reason, Dodd's Kidney Pills have found favor in their eyes, and are used in a great majority of their homes.

One lady writes: "I have been suffering from a stone in the bladder for a long time. All the medicines I took failed to remove it. I was told that I would never get rid of the trouble. I suffered terribly and my pain grew greater each day."

"I was advised to give Dodd's Kidney Pills a trial, and did so, though I didn't expect they would help me. However, I was agreeably disappointed. Five boxes I took, and the stone was removed. I feel better than I have for years."

Ex-Ald. Charles Small was a little bit better last evening. Express will reduce the rates on fruit and fish to Northwest points, commencing the first of May. The reduction to some places will be 50c per 100 lbs.

Besides Praising the Work Done by the Army in Africa for Humanity's Good.

London, April 23.—Cecil Rhodes appeared yesterday in a new role—sermonizing at the Mansion House to the Salvation Army. It was a semi-religious function, the social work of the Salvation Army. Lord Aberdeen, Lord Loch, Lord Monkswell and Lord Justice Hillyer were present, and the Mayor presiding.

Mr. Rhodes was not down on the list of speakers, but he suddenly called upon to address the meeting. He good-humoredly complied, and took of his overcoat, squared his broad shoulders and stepped briskly to the front of the platform.

He praised the operations of the Salvationists in South Africa. The Cape Cabinet, after enquiring into the work done by the Salvation Army, had given homes to waifs and strays, had picked up the fallen and had given them a new life. He said: "The practical form which the Salvation Army has taken is similar to the work done by a vote in aid, which has been continued since. There are 15 other colonies all told," continued Rhodes, "where grants in aid have been made to the army, not on a sentimental basis, but as a practical return for the work the army does. In my own church there are many disputes, but let us not get into these details and recognize that we all are human beings, be it as an officer of the Salvation Army or as a minister of the Gospel. He was engaged in working for the elevation of humanity."

Mr. Rhodes donated a thousand dollars to the army.

Protection Against Robbers. Mounted Police Will Convey Miners Who Are Bringing Gold Out to Dawson City.

Victoria, B.C., April 22.—J. H. Strickland, brother of Captain Strickland of the Mounted Police, is in Victoria on his way from Dawson to the East. Mr. Strickland says that "Soapy" Smith's gang, who were out of the country many months ago, have been infesting Dawson, but not attempting any open demonstration. Shortly before he left Dawson the gang dispersed from the city and there was a suspicion that they had gone out to waylay solitary miners coming in with gold. The Mounted Police, therefore, issued a proclamation, stating that they would accompany the miners, and would take miners' gold, giving receipts therefor, and bring it in to the city. He also warned them against attempting to bring their dust without the protection of convoys.

The Sunday Newspapers. Archbishop of Canterbury Calls a Conference at Lambeth Palace to See What Can Be Done.

London, April 23.—The Archbishop of Canterbury has taken a decisive attitude regarding to seven-day journalism. He has issued a circular to the Bishops, asking them to meet in conference at Lambeth Palace, May 10, to consider what steps may be taken to check the growth of the pernicious system of breaking the Sabbath by the publication of newspapers which are the labor of men seven days in the week. His Grace will propose drawing up a message to the Bishops, and will visit all the churches throughout the country on a given date, condemning the system of breaking the Sabbath, which are becoming popular in England.

Deceased had been ill with typhoid and brain fever for only three weeks, and was not expected. She was 23 years of age and the only daughter of John A. Mills, the well-known collector for Ward 5. Her funeral will take place at the Necropolis to-morrow afternoon.

A Spiritualistic Murderer. Got a Disciple to Keep His Money in a Belt, Then Killed and Robbed Him.

Detroit, April 23.—Edward Ascher, alias Robert Lang, was in last night guilty of murdering Valmore C. Nichols in August last. It was Ascher's second trial. On the first he was acquitted. Ascher was a spiritualist and had been giving Nichols, who lived in Ypsilanti, sittings. On Aug. 10, Nichols disappeared and six days later his body was found in the river. Ascher had on different occasions advised Nichols to buy a belt containing a gold belt. When Nichols' body was found the gold was on it, but there was no money in it.

Uncle Sam's Boom Time. Exports of 1898 the Largest Ever Recorded and the Imports Greatly Decreased.

Washington, April 23.—The fiscal year of 1898 was the banner year of the foreign trade of the United States, the exports being the largest ever recorded, and the imports exceptionally small. The total value of domestic exports reached an enormous sum of \$1,210,291,913, exceeding the record, and beating the figures of the preceding year by \$178,284,219. On the other hand, the imports during 1898 were the smallest since 1885, their value being \$416,048,654, a decline of \$148,850,198 from the figures of 1897.

WOMEN DOCTORS

Woman's Word

A question of interest that will shortly come in definite shape before the public will have reference to a woman's hospital in Toronto. That there is need for such a hospital, its advocates are quite prepared to demonstrate; they expect opposition, for every new movement meets with more or less, but they look for an unprejudiced and perhaps sympathetic consideration of their reasons for thinking that such an institution would be a valuable as well as an necessary addition to the present number of hospitals in the city.

A reason urged for a woman's hospital in Toronto is that many respectable poor women cannot be persuaded to undergo operation because of the presence of the male students in the operating room and at the bedside clinics. If there was a woman's hospital, where only women students were admitted, these women would be able to undergo operations without any hesitation whatever.

Having considered the pros and cons of the arguments in favor of, we come to other aspects of the question. It is probably apparent to most people that the idea of a woman's hospital is not a new one. It has been suggested in various forms for many years.

Now if women are capable of passing the same difficult examinations as men, and are permitted to enter the governing body to enter the profession and to practice, it is surely not fair that they should be excluded from practice in the city hospitals. Nothing so prejudicial to the mind of the public as that of a doctor as the idea that he or she is not a member of the profession.

ENGLISHMEN GO TO CHURCH

St. George's Society and Sons of England March to St. James' Cathedral.

PATRIOTIC AND LOYAL SERMON.

Delivered by Rev. Canon Sweeney—Large Representation of Both Bodies Present.

The Englishmen in the city yesterday celebrated the anniversary of the death of their patron saint, St. George, by marching to church where they listened to an eloquent address by Rev. Dean Sweeney. The weather was all that could be desired, and formed a bright inducement to members to turn out.

Parade Begins. About 3.30 o'clock the parade moved off, headed by the members of the Sons of England, 115 strong, and followed by St. George's Society, 135 strong. The route was by way of Elm-street to Yonge-street, and thence to the Cathedral.

Those Who Walked. In the ranks of St. George's Society were the following: By Roddicks, Messrs. Secretary R. W. Barker, P. M. Bell-Smith, Corp. John Nunn, John Taylor, Major R. E. Ross, Messrs. A. G. Wood, R. J. Scott, P. F. Ridgely, J. W. Stockwell, John Hewlett, A. T. Green, J. W. Mason, A. G. Watson.

Cathedral Gained. At the Cathedral seats on either side of the centre aisle were taken by the Englishmen. The service commenced with an organ prelude followed by six psalms, the first of which the first lines are: Forward! be our watchword, steps and shadows of the past.

Not a look behind. The service was in English and was conducted by Bishop Sweetman, Provost Walter Bell, William Abbott, and Rev. G. S. Wells.

There were, he said, in the text quoted, three dominant ideas which stood out just as the sun, moon and stars. They were nationality, fellowship and philanthropy. He then delivered a sermon on the subject of the text.

Under leadership of the learned divine said that the society had sustained in the resignation of the venerable secretary, Mr. Peil, who had been earnest, zealous and devoted to the society for many years.

THE SAXTON MURDER TRIAL

It is Probable That the Jury Will Get the Case on Wednesday.

Canton, April 23.—The third week of the trial of Mrs. Annie George for the murder of George E. Saxton, the brother of Mrs. McKinley, was held today. The arguments will occupy Monday and Tuesday, and the case will probably go to the jury Wednesday.

MISSOURI RIVER TOO HIGH

Everybody is Fighting the Flood, as the Payne Level is Broken.

St. Joseph, Mo., April 23.—The Missouri River flood resulted in a similar situation in the States south of St. Joseph, and the bottoms are flooded for miles below. There would have been loss of life had not a large force of workmen who had been trying to strengthen the levee for several days warned the farmers of the impending danger.

AN OCEAN TRAGEDY

An Open Boat Drifts Ashore at Corinto With Nine Emaciated Bodies in It.

San Francisco, April 23.—The steamer City of Para, from Central American ports, brings details of an ocean tragedy. While the vessel was at Corinto an open boat containing the remains of nine men, who perished months ago, drifted ashore there.

SUNNY WITH DEAF AND DUMB

Sketch of the Morning Meeting of the Toronto Deaf and Dumb Association.

SOLENN AND IMPRESSIVE SCENE.

One of Three Meetings Held Each Lord's Day in This City—World Man's Experience.

I worshipped yesterday with the deaf and dumb, and thought of the prophetic words of Isaiah: "In that day shall the deaf hear the words of the book," the tongue of the dumb shall sing." Of course these passages are poetical and of spiritual import; those with whom I met around the table in an upper room on the morning of St. George's Day were physically afflicted and apparently in the case of each had the ancient prophecy come true.

A Select Gathering. There were 15 of us—include myself, there would have been "as one of them" for that holy hour. Five sisters were on one side of the table, eight brethren and two boys on the other. Ages ranged from 10 to 14 and intelligence held her throne irrespective of age and physical drawbacks.

Teaching the Lesson. The teacher was in order, and all wanted something explained. Rapid was the finger telepathy, prompt the instructive answer, receptive the mind, and thankful the acknowledgment. Then the teacher turned the tables, and the questions were asked them something easy, then by degrees tested them more, and it must be confessed that some of them were as sharp as the answers some smiled and neighbor promptly prompted each. But, O, the glow of the spirit, the joy and the spiritual comprehension—the flushed cheeks, the sparkling eyes, the contact of palms, the fervor of the utterance, the gladness of the suppressed sigh and almost articulate motion of the lip—

Another teacher now took charge, and questions were in order. Every one all wanted something explained. Rapid was the finger telepathy, prompt the instructive answer, receptive the mind, and thankful the acknowledgment. Then the teacher turned the tables, and the questions were asked them something easy, then by degrees tested them more, and it must be confessed that some of them were as sharp as the answers some smiled and neighbor promptly prompted each.

DEAF CAN BE MADE TO HEAR.

Practical Result of the Invention Called the Akoulation—100 Successful Tests.

Mobile, Ala., April 23.—The akoulation, an instrument by means of which the deaf are made to hear, is the name given to a recent invention of Reese Hutchison, a young resident of this city. It has been put to test in public with remarkably successful results. The instrument is very simple and consists of an audiphone and transmitter. At the test they were run by a battery of ten cells. The instrument is made of metal, and consists of two audiphones, bound together by a spring, one fitting over each ear. In the center of the instrument is a telephone exchange. The transmitter is something like the transmitter of an ordinary telephone, and is nearly so large and cumbersome, and shaped somewhat like a small egg cup.

HUMAN LIVES often depend on physicians' prescriptions; hence, a doctor cannot write a prescription without a sense of personal responsibility for his patient's welfare.

The number of prominent and successful physicians who daily prescribe

Should you want to subscribe for stock in THE STANDARD LOAN COMPANY?

In asking the public to subscribe for stock in THE STANDARD LOAN COMPANY the Directors feel assured that there is ample room for a new Loan Company, and that the conditions are now particularly favorable for the launching of such an enterprise.

Canada is rapidly gaining in population, and its healthy condition and present steady advancement, together with the increasing confidence which Canadians have in their own development, have given an impetus that is signally felt.

Property is steadily increasing in value, while there is no sign of a tendency to inflation, and in manufacturing industries, there is no symptom of that over-production which endangers the prosperity of a country. To avoid unnecessary expense in connection with organization, THE STANDARD LOAN COMPANY has arranged that the Trusts and Guarantee Company, Limited, of Toronto, shall act as Trustees of the funds derived from sales of stock, and perform such duties as are incidental to the management of a new company in its preliminary stages.

The terms of the arrangement are such as to reduce the expenses of management to a minimum, while the stock of the Company is being placed.

THE STANDARD LOAN COMPANY will be essentially a Canadian Company, developing Canadian enterprise and finding safe investments for Canadian Capital.

Subscription books will open at the offices of the undersigned on MONDAY MORNING, the 1st DAY OF MAY, at 10 o'clock, the Directors reserving the right to allot such subscription and for such amount as they approve, and to close the subscription books without notice.

2,500 Shares of \$100 Each at 105—\$262,500.

Fifteen per cent, inclusive of premium, payable on allotment, balance as may be called by Directors. Subscribers preferring to hold securities free from all liability for calls may pay for their shares in full upon allotment.

Forms and applications for stock may be had at the office of THE TRUSTS & GUARANTEE CO., Limited, 14 King St. West, Toronto.
