Hundred and Fifty Thousand Canadians Are Now in Trenches.

NEW YORK, Feb. 13. - Edmund Bristol, member of the Canadian Parliament for Centre Toronto since 1908, returned Saturday on the White Star liner Adriatic, very optimistic as to the final victory for the allies, and predicted the end of the war in July. Mr. Bristol said there were 1,350,000 British troops in France and 150,000 Canadians. In addition, there are in England 3,000,000 men under arms, besides another million recruits drilling.

"When I visited the Canadian forces in the trenches in western France," Mr. Bristol said, "I found the officers and men were in excellent health and spirits, and confident of going thru the German lines when the combined concentrated drive was made in the spring. Brig.-Gen. Watson told that they had smashed the enemy twice, but did not make a big gap. This time it is to be done on a big scale. The general also told me that French's last words to him before he went back to England were:

up, general, you'll be sailing for home at the end of July.'

Germans Disheartened. "Gen. Watson said that the prison-ers who were being brought in now appeared to have lost heart and seem . ec glad to be captured. When a trench was rushed by the Canadians the Ger-mans surrendered at once without a struggle if they could manage to do so unseen by the officers in the rear, who would order them shot down for

The new military hospital erected adjacent to the quarters of the Canadian Mounted Rifles is now practically completed. The building will afford accommodation for 150 patients, and the expense, which is being borne by the government, is estimated at \$12,500.

Mayor Walters, T. J. Stewart, M.P., and ex-Ald. Willoughby Ellis, as the hydro commission, went over applications for salary increases on Saturday in the presence of the general manager, E. A. Sifton, engineer.

Tho the recruiting depots were open all day, in charge of Lieut. Peebles and his staff, not a single individual strayed in to don'the khaki. The 173rd Highland Battalion only added 15 men to their strength on Saturday.

Last week the different units recruiting here obtained a total of 250 men, tho a great many more were signed. A call was received on Sunday by Col. Hatch for 45 men for the Mechanical Transport division of the Army Service Corps. The 47th Battary wants 47 more men; the 120th Battalion needs about 250 men to complete the unit; the 173rd Highland Battalion neers 870 men, and the 205th (Tiger) Battalion needs 1150 men.

by the Russians after a lively encounter with the Germans, Saturday's official communique asserts. Large tombs were thrown by the enemy into Russian trenches adjacent to the Dwin River in the Riga sector, and rear Dvinsk fighting continued for a mine crater for a whole day, and it ended to the advantage of the Russians. An intense bombing duel was fought near Lake Stenton.

Tried to Retake Heights.

South of the Pripet, the Germans directed a sweeping fire against a height which the Russians had captur-ed near Tohemerine, while they made desperate efforts to dislodge the Russians from a height which they had captured in the Tsebroff region in Galic.a. At the cost of enormous loss-es they succeeded in the attempt, but they were driven from it again by a terrific attack delivered by one of the crack Russian regiments.
Prisoners taken in this engage-

ment, the Russians report, say that the Russian artillery inflicted enormous losses on the enemy. Three desperate attacks were again made on the Tsebroff height under cover of darkness, but they were all repulsed with heavy losses to the enemy. The Russian war office reported Sunday that a German attempt to surround Garbounokva, on the road to Dvinsk, was defeated by Russian cross fire. An intense artillery duel prevailed in the Olai and Bersemund sian artillery caused an explosion within the German lines near Vever, south of Ikskull. The Germans tried to approach the Russian trenches west of Lievenhof, but the Russian troops pushed them back. Firing has been intense near Illoukst on the Dvinsk sector, where the Germans used hand grenades which emitted asphyxiating gas.

Considerable frouble around Hamilton was caused by the cold weather experienced last night. Trolley and power wires were broken in several places with the result that street railway traffic and street and house lights were out of commission for some time.

Woodworking Will Also Be Taught Others Before Being Discharged.

ian Associated Press Cable. LONDON. Feb. 13.—Major Astor, owner of the estate of Cliveden where the Canadian Red Cross Hospital is situated, is erecting workshops where permanently disabled patients may learn woodworking prior to being discharged to civil life. Cigaret making will also shortly be a form of industry for Cliveden. Men who have lost an arm are able to do this work with try for Cliveden. Men who have lost an arm are able to do this work with the aid of machinery. This new enterprise will start in a few weeks and it is almost expected to pay its own expenses from the start. Wages will be paid the workers, but the money so earned will be withheld till the men are discharged from the army, thus providing them with a small capital to enter civil life.

This new addition to the hospital has been undertaken under the auspices of the Lord Roberts memorial been to the cause of the entente during the war.

#### Start Cabbage in March

Sowings of the first and second early varieties should be made the first week in March. Sow thinly in shallow drills three inches apart, covering not more than a quarter to half an inch. When the seedlings have their first pair of true leaves transplant into rich light soil in a cold frame or a reserve portion of the hotbed. To make good stocky plants they should be set three inches apart each way. The first sowings should be ready for planting out about the middle of April.

Dependable varieties are Extra Early Express and Early Jersey Wakefield, which are decidedly the best first early sorts. In addition to these Copenhagen Market may, be grown, as it is easily the finest early round-headed variety, very solid and weighty, and ready for use as Jersey Wakefield is finishing. To follow these Allhead Early and Succession are excellent.

For the first time at Sunday recruitings meetings in Shea's Hippopresent in France and Flanders fight-ing to maintain justice, liberty and to come forward on the platform and sign up for service. The campaign was inaugurated in this theatre when Lieut. Lou Marsh of the 180th Sportsmen's Battalion made his appeal for men. Altho three hundred men have already passed the doctors' examination and have been sworn in, the first call was made yesterday by officers of this battalion for recruits. After outlining the organization of the battalicn, Lieut, Marsh asked the recruits to come before the footlights. Only one man braved the glaring lights, but at the conclusion of the meeting thirteen others gave their names to the sergeants at the rear of

are worn on the sleeve. In conse-quence a regulation has been issued by the militia department that inas-much as the Canadian expeditionary forces on leaving Canada, pass under the control of the imperial authori-ties, badges of rank in the case of of-ficers of the C. E. F. should be worn on the sleeve, and this change must be made before going overseas. To accord with this Ottawa regula-

tion, recruiting officers will be called upon to observe special caution with respect to factory workers. "Upon the application for enlistment of any man who is a qualified machanic or machinist, his enlistment is not to be completed, but full particulars as to such man should be for-warded to the A. A. G. division or district. The commanding officer will then be informed with as little delay as possible as to whether the man's services are required in connection with the manufacture of munitions.

"No men, who are at present engaged in the manufacture of munitions should be allowed to enlist. It should be pointed out to them that they are serving their country as well by carrying on their present employment and helping towards the successful issue of the war in another way."

Valuable to Officers.

Captain E. Trump of the Tor-onto divisional headquarters staff has by authority of Brigadier-General Logie, prepared a compre-hensive book of 104 folio printed pages of instruction governing the organiza-tion and administration of C. E. F. units. Copies of the volume, which will be of great value especially to senior officers, will be sent to command-ing officers in the Toronto division in about ten days. The publication is in charge of Colonel S. C. Newburn, A.A.G. The preface, by Colonel New-burn, says that the general officer commanding the 2nd division hopes that officers will add any new instructions from the divisional office, and thus keep the book up to date. One of the instructions issued is as

The commanding officer is responsible under his commission to the King for the maintenance of discipline, efficiency and a proper system in the unit under his command. He should possess a thoro practical knowledge of military law and of all rules and military regulations, and should exact from officers and men implicit obedience to regulations. He is not only to enforce by command, but to encour-

age by example, the energetic discharge of all duties.

That every possible way to gather men together and voice to them the necessity of joining the colors, is being exercised by officers of different overseas battalions now being recruited, was made clear yesterday afternoon, when for the first time in its history, a recruiting meeting was held in the assembly hall of the Labor Temple. The meeting was under the auspices of the 109th Regiment Overas Battalion and was staged in an effort to convince the socialists that they should be on the firing line. M. Wayman and E. J. **Elections Out** of the Question

Life of Dominion Parliament

Extended

Disfranchising the Soldiers

A Soldier's Viewpoint

It is impossible to believe that the temperance leaders actually contemplate the bringing on of an election at the present juncture. It is almost inconceivable; so inconceivable, in fact, that one cannot imagine the happening of such an event in this crisis of our Empire's life. Can you imagne the bringing on at the present time of an election contest upon a side issue in France or Italy or Britain?

And yet this is just what the Citizens' Committee of One Hundred actually propose to do in the Province of Ontario: to divide the country into two hostile camps, to stir up party feeling, take up valuable time and spend valuable money, to clog the wheels of business when every nerve is strained to help save the Empire and every ounce of energy is needed to achieve this one object, and when the Dominion Parliament has unanimously resolved to ask the Imp rial Parliament for an extension of its life to avoid in election under present contions.

But this is not all. The whole matter has been decided—decided only a few months agoand decided not by a small, but by an overwhelming majority.

Nor is this all. The election, if held, will not indicate the real feelings of the people. The fundamental principle of all representative government is that all the people should be represented; and the unfairness of "gerrymandering," "colonization," and other devious methods is everywhere recognized. And yet here is a case where tens of thousands of good, honest electors will, from the very necessity of the case, be deprived of their votes. Why? Because they are now servin; with the colors: 120,000 of them abroad, and more than as many men at home liable to be called abroad at any mcment, not to mention those who have given up their lives for the Flag.

Of these, tens of thousands voted at the last election, and the great majority, as everyone knows, voted against the policy proposed by the Citizens' Committee. This is not denied; nor is it denied that the great majority of these soldiers to-day would again take exactly the same stand. As a soldier, writing to an Ontario 1 aper recently, said: "Why don't the Committee of One Hundred wait until the boys get back from the war? Why should the Committee try to interfere with their personal liberty when the boys are not here to stand up for their rights?'

That is the point; and, even were it certain that they would all vote for Prohibition, and had no recent election taken place, the Personal Liberty League would, in the interest of plain, everyday justice, take the same position that it has taken to-day.

Why, then, it may be asked, is there such a hurry? Why this indecent haste? Surely it cannot be—we should be loth to believe it—that the Citizens' Committee think there is an opportunity now to carry their point, which they failed to do at the last election, and which they now could not carry if Canada's defenders were able to exercise their rights of free men and cast their ballot.

THE PERSONAL LIBERTY LEAGUE OF ONTARIO believes in Temperance in all things, and in its promotion, we favor the license system under proper regulation and control, but we are opposed to prohibition or any legislation which encroaches upon or curtails the purely personal liberties of our people.

Application for membership cards should be sent to The Personal Liberty League of Ontario, Head Office, 15 Wilton Avenue, Toronto. No fees are required for membership in the League.

Tonight the much-heralded historical drama, "The Dynasts," from the pen of the celebrated English writer, Thomas Hardy, will be presented at the Alexandra Theatre, and continued thruout the remainder of the week, with the customary matinees on Wednesday and Saturday. It is perhaps the biggest theatrical adventure ever attempted by Torontonans, the cast being composed of two hundred people; the production presented in three parts and twenty-four scenes, spoken and acted, which portrays many of the great events that swayed England and the world over a hundred years ago. Napoleon, Nelson and Wellington stalk thru its period, and there is reflected also the humor and hope, and the fears of a great era, when England fought as today she fights, for all that we deem most precious. Its clever cast, among whom are Farnum Bartor, Ruthven McDonald, and many o hers whose histrionic merits are well-known is bound to attract widesuread. Barton, Ruthven McDonald, and many o hers whose histrionic merits are well-known, is bound to attract widespread attention. Of special interest will be the ball-room scene, in which many gorgeously gowned women appear, and which will be enacted by prominent luminaries of society, among whom are: Mrs. Timothy Eaton, Miss Hendrie, Miss Dorothy Walker, Miss Mackenzie, and Miss Ethel Mackenzie, Mrs. Cawthra Mulock, Mrs. Hal Osler and many others. The Duke and Duchess of Connaught will attend the Thursday evening performance.

A portion of the proceeds will be devoted to assisting the Overseas Battalions now recruiting in Toronto.

As a timely picture, dealing with the incidents of this war, "Wake Up!" stands without a peer. It is unlike the average picture produced commercially, and with the sole idea of being a moneymaking scheme for the producer. "Wake Up" was produced in England and with the was produced in England and with the able assistance of the war office and the Boy Scouts' Association. The thousands of men used in the battle scenes were without an exception British soldiers and sailors either in active service or honorably discharged. Pictures taken by the war authorities were used to supplement the battle scenes, and thrutout the production the idea of pariotism stands before gain. "Wake Up!" was filmed with the one purpose, that of showing Englishmen the necessities of the present time and that purpose has been shown.

A special musical score for "Wake Up!" has been arranged by Mr. Frank T. Jennings, leader of the Grand Opera House Orchestra, and all in all the big pariotic week at the Grand should be a huge success.

Capt. Bird then read a resolution, moved by Capt. Dingman and seconded by Leut. F. McEachren of Toronto, that he government should immediately enforce the Canadian Militia Act, and also that a law should be passed prohibiting young men of mili ary age from going to the States. He explained that there were more single fare railway ickets sold during the last three months than during any other like period of time during the past ten years.

Major Boehm of the 169th made his usual sirring appeal for recruits. He said: "If any one here is fit to join the ranks and does not he is selling his country to the Huns. There are 50,000 young mon in Toronto at the present time who are eligible to don the khaki. Our young Canadians have not come forward yet as they should. When he called for recruits no one responded. Some one in the audience shouted out that there were no bronco's in the theatre, as they had all endisted. To that remark Major Boehm said: "These same men whom a great many people called bronco's two years ago are now at the front fighting to protect the wives of these same men who called them broncos and I am sure they won't sneer at them now."

cial Constable Thomas Delaney Provincial Constable Thomas Delaney, Niagara Falis, Ont., was arrested Saturday by Sergt. of Detectives Mackie and Detective Cronin on a charge of fabricating evidence. Other charges will also be laid against him later.

Delaney is alleged to have aided to enter Canada, Isaac Cohen, Joseph Troppe and Jake Gould, convicted of stealing unout diamonds to the value of \$2800 on Dec. 20, from Bernard Allen, diamond icaler, Continental Life Building. At the lime of the arrest, the diamonds were not to be found, but the three men were reld in jail from week to week pending their recovery.

held in jail from week to week pending their recovery.

Arrangements are said to have been made between the three men and Delancy to get over the border by means of a code message sent from New York in which Delancy was asked if he would like a blouse to give his wife. Immediately after the robbery the diamonds were handed to Delancy to hold, but he, fearing implication, parceled the gems and handed them over to a friend at Fort Eric, saying that he would call later and get them. According to the police, Delancy's friend was entirely in refuse them contents of the parcel, and, therefore, innocent of complicity in the crime. The police have the diamonds now in their possession.

LONDON, Feb. 14, 3.40 a.m.—The Times' Bucharest correspondent in a series of delayed despatches dated from Jan. 26 to Feb. 1, tells of purchases of wheat by the belligerent powers in Roumania. It appears from these despatches that Germany in a formal note to Roumania demanded the same rights for the purchase of celerals as accorded Great Britain, and proposed to purchase at the same price charged the British all the remaining stocks of Roumanian wheat and 100,000 wagon loads of maise. Roumania conceded equality of privileges and, according to the newspaper, the Germans purchased by secret contract 400,000 tons of wheat for the express purpose of preventing the realization of its sale to the British Government.

#### Cheaper Power in Sight

In announcing the decision of the government that the extra power re quired by the Hydro-Electric Commission will be supplied and that legislation will be submitted at the approaching session of the local house authorizing its supply, a decidedly forward step has been taken. The pro-vince and the Dominion has lost an immense amount of property by the handing over of franchises to private parties for little or no return. We do not so particularly refer to the companies generating power at Niagara now, as they were entitled to some consideration as pioneers, but when they have been considered, as they have been in the most liberal fastion, it does not justify them in making further claims.

Besides these there have been some exceedingly raw deals put thru, by which the people of Canada have lost materially in resources and in cash. The notorious Chats Falls deal, whereby a valuable water power was made over to a private party for no consideration whatever, for \$1400 cannot be regarded as a consideration in the circumstances. The main point of the circumstances is that the present owner wants three millions for what and he had no more right to Chats Falls

than the next man. It possibly amounts to this, that the people of Canada had to pay three millions to learn that their government did not know enough to pound sand when it came to dealing with water powers, and subsequent governments have a memorandum stuck up in their desks calling attention to the letermination of the people not to have such things done again.

Some such declaration has been ex-# tracted from the authorities in connection with the valuable water rights at Chippewa Creek, where there is potentially 600,000 horse power. It is this power that the Ontario Government has agreed to develop for the Hydro-Electric Commission. The corporations have immediately opened up He is a tougher customer in some rea campaign against the Hydro-Electric Commission, local and general, in order to try to convince the rople that cause his opponents were unprepared it is not fit to carry on the business and unaware of his true character which has cut 75 per cent. off the and because the people of Germany price of electric light. An Important Hydro Radial Route Speaking at Berlin, Sir Adam Beck touched upon the possibility of taking over the Galt branch of the Grand Trunk and electrifying it. The branch has not paid its way, and it would not be profitable to run a «line parallel with it. It is a case where terms ought to be easy of arrangement between the parties, if they are agreed upon the main point of buying and elling or leasing. Sir Adam regarded the line as the possible nucleus of a route to Hamilton and Niagara Falls, serving on its way Galt, Doon, Blair,

Preston, Hespeler, Elmira and Berlin. rie feeling in favor of this development is very favorable, and the prospect of having a direct lake access for the towns on the line is one that not only arouses enthusiasm among the

people, but justifies the expectations of business among those who regard the more practical side of the propo-

Another phase of the question was dealt with by Reeve Hallman, who thought that progress should now be made with the plans and preparations, so that when the war was ended there should be no delay about going on with the work. There are many who believe that not only the plans and preparations but much of the work could itself be proceeded with, even furing the war. It is possible to get all the money required without embarrassing the government, and even without bringing in the government directly at all, by the simple device of permitting the Hydro-Electric Commission to do its own financing, of course, under government supervision.

With the money available, and not interfering with other necessary work, nor in any way hindering the war operation, it does not seem that anything could be gained by postponing

#### Defeat Would Cost More Than

Insurance Insurance of our soldier growing danger to the city, is the subject of an article in The Financial Post. It is estimated that the city is now liable for the sum of \$20,000,000.

"If Germany wins, nothing else on God's earth matters," is what Mr. Sexton remarked at the Bristol conference and The Financial Post might practice concentrated meditation upon this

The city has had to assume the insurance risk because the companies declined it. They had taken on as much as they felt justified in carrying and they drew the line at \$10,000,000 If Germany wins Toronto would not be asked for ten or twenty millions as a war indemnity. Nor would there be any insurance permitted for the relatives of men who had fought the kaiser.

The Huns would be emerging from the rocks and caves and holes in the earth, if German rule, were declared here, and there would be loyal Germans springing up, doubtless, as they do after every victory, where Germans were never suspected. But that is no reason why good British citizens should be faint-hearted about the issues of the war, or hesitate about assuming responsibilities which, heaven only knows, are trifling compared with what we should have to assume if Germany gained the victory.

We have been trying very hard for eighteen months or so to convince the people of Ontario that we are at war with Germany. The war is a bitter and desperate conflict, and in the na ture of things must be as final and complete in its settlement as the war he gave the people of Canada \$1400, with Napoleon. There are many parallels which might be extended between the Napoleonic wars and the Little Craft is Still Referred to as present one, but one point is sufficient, and if it be kept in mind it may allay many fears, and remove many difficul-

Defeat of Turks of Ctesiphon and Subsequent Retreat Fine Achievement.

LONDON. Feb. 13.—(Correspondence).—The remarkable stand which has been made by Major-General Charles V. F. Townshend and his comparatively small body of British troops at Kut-el-Amara, Mesopotamia, where for nearly two months they have been besieged by a large army of Turks, has raised Gen. Townshend to a high place in the esteem of the British public. This far-away war theatre has been watched with the deepest interest by those at home since the British repulsed the Turks at Ctesiphon and began their retreat to Kut, and the exploits of Gen. Townshend have occupied much space in the newspapers, some military critics halling him as one of the most brilliant soldiers the empire has produced.

Has Adequate Supplies.

During the long slege Gen, Townshend has beaten off all attacks of the Ottoman troops and kept his little force intact. Every despatch which has come thru from the commander has been read with deeper interest. has been read with deepest interest by the public, which has feared that the relieving army, which is said to have been held up by natural obstacles would reach Kut-el-Amara too late. Gen. Townshend's recent report that he had sufficient sup-plies for his soldiers greatly relieved the minds of the British people, who now are anxiously awaiting the out-

When the full story is told of the battle of Ctestphon, the retreat to Kut and the siege, it is expected to make as thrilling a chapter as any in the history of the world wat, and the name of Gen. Townshend will occupy an important place in that story. The conflict at Ctestphon was desugrate work and the general himself and the seneral himself and projects to police the Island of Cortu. The conflict at Ctesiphon was desperate work, and the general himself fought as flercely as any of his solliers, who that day put to flight a body of Ottoman troops said to have been six times their number. There were critical moments, and it was at these times that Gen. Townshend showed himself to be a cool and resourceful officer and an able tactician. Four times he rallied his men and led them in the charge.

Military critics declare that the victory at Ctesiphon was a magnificent one, but that the retreat to Kut will equal if not surpass it as a successful military achievement, under disadvantages of an extraordinary kind. It is stated that not only did Gen. Townshers

Georeg H. Allen Says Interference With Recruiting League Spells Trouble.

AT LA PLAZA THEATRE

Future of Humanity Wrapped in Folds of British and American Flags.

"The Lord's Day Alliance will find they are playing with fire if they interfere with the Citizens' Recruiting League," and "it is just as sacred a work winning this war as it is going to church," were statements made by George H. Allen, chairman of the recruiting meeting held last night in the La Plaza Theatre, in the course of a stirring appeal for recruits, and the appeause which greeted the remarks

was dearening. Mr. Alien was explaining that there had been a misunderstanding between the neurs of the meetings, when he made the quoted remarks. He emphati-cally stated that he was entirely in sympachy with the work which is being accomplished by the Lords Day Amance, but pointed out that the Ger mans worked every day to perfect their army and that they did not stop from making accopiane raigs on Sunday. In this connection he stated that General Booth of the Sa vation Army was the greatest general that ever lived, and even his recruiting, despite great ob-stacles, was done on Sunday with the ant of brass wands.

"If we lose this war it will be thru the people who cannot understand—the narrow-minded people." he declared. "It might also result thru too much policies."

Hint to Trustees: "I'm not speaking against the Lord's Day Alliance," maintained Mr. Allen. "Here is a hint for some of the trustees of our beautiful churches." He then pointed out that while the He then pointed out that while the speakers and people in civilian ciotnes enjoyed nice homes and comfortable beds, the solders were sleeping in far less congenial quarters. He was of the opinion that churches might double up, two congregations worshipping in one and allowing the other to be used for the soldiers.

Major Bullock prefaced his appeal by asking the women not to make too much of the soldiers. "Too much pie, too much coffee, too much cocoa and all this does our soldiers no good," he said. "We don't want it. I know the boys don't like me saying that but it is my honest conviction." He then pointed out the hardships which the men would have to endure when they reached France, and when they left here they should be fit for any-thing. He then referred to the work which is being done by the churches for recruiting, and while he said it

Artillery Fire of French Checks Aim to Emulate Lincoln High-Several Moves of Germans to Advance.

(Continued From Page 1.)

Frise was checked and a German seaplane was set on fire by French batteries and brought down in flames east of Givenchy. German organiza-tions in front of Fontenoy were bombarded. Quiet on British Front.

The British official statement of Sunday night is as follows:

"Last night we sprang a mine west of Hulluch. Our troops occupied the near rim and suffered no casualties.
"There was considerable artillery fire on both sides during the day. The enemy artillery was active about Authuile, the Hohenzollern redoubt. Cuinchy and Armentieres. Our trenches north of Hooge were bombarded.
"There was considerable aerial ac

tivity on both sides about Ypres."

Broke Into Trenches. The British official statement of Saturday night reported that early Saturday morning the Germans broke into the British trenches near Pilkem, but they were driven out by bombing par-ties In the afternoon of the same day two small infantry attacks were made by the enemy about the Pilkem road, and these were repulsed. Mining ac-tivity prevailed about Hulluch and north of the Ypres-Comines Canal, where the British miners engaged in an underground fight with the enemy, oriving his miners back and explod-ing their charge successfully. Sir Douglas Haig corrects a Ger-man report of an air raid behind the

man report of an air raid behind the British lines as described in a wireless despatch. He says that 11 German machines appeared. One dropped three bombs about six miles behind the Brit-

Artillery duels prevailed in the sector of Raillon and the forest of Parroy in Lorraine. French artillery dispersed German infantry attacks at a point north of Vic-sur-Aisne.

Repulsed at Canal. The Germans were erpulsed in several attempts to cross the Yser Canal at Het-Sas and the Steenstraete height by the combined fire of French artillery and machine guns Saturday. After a bombardment of several hours they were able to penetrate a small salient of the French line between the roads from Navarin and Sainte Souptet, but their counter-attacks against the French, who were established in the 300 yards of trenches previously captured, were repulsed, and the French continued their progress to the east of the new lines held to the north of the Mesnil knoll by hand grenade attacks. A French mine was exploded and shattered mine works of the ene-my near Four de Paris in the Argonne. An infantry attack of the Germans was unable to get near the French first line at a point east of St. Die.

German Claims. The German official communique of Sunday reported the breaking out of heavy fighting in Champagne and claimed the storming of French po-sitions extending over 700 yards south of St. Marie-a-Py, with four officers and 202 men taken prisoner. Two violent attacks of the French on German positions northwest of Massiges were checked, Berlin claims. Heavy hand grenade fighting is reported around the trenches which the French captured at the St. Mesnil knoll.

Bad weather, the Germans say, im-

peded hostilities on the front between the La Bassee Canal and Arras and also south of the Somme. In the re-gion, northeast and west of Vimy, the Germans say that they captured up to Feb. 9, 9 officers, 682 men, 35 ma-

way Being Constructed Thru United States.

MONTREAL, Feb. 13 .- With the pening of the third Canadian and International Good Roads Congress less than a month away, preparations are shaping up rapidly for the big gathering at Sohmer Park, Montreal, from March 6 to 10 inclusive. Five hundred agriculturists from Quebec Province alone will be in attendance, while the other rural delegates present are expected to far exceed those at either of the previous congresses, as the forthcoming gathering will have a much wider appeal than its predecessors. A score of papers or lectures in English and French will be found on the program, and every minute of the con gress will be taken up with proceed ings of educative value to the mani-fold and wide interests concerned in the betterment of Canada's roads and

Coast to Coast Highway. In view of the fact that the slogan of the congress is "Good roads are a rational asset and form part of the defence work of the nation," there is something particularly timely in a statement made by Maj.-Gen. John E O'Ryan of the National Guard of New York State, regarding coast to coast highways. While he referred particu-larly to the Linciln highway, his words are quite as applicable to the Dominion as to the republic, and they might well be pondered by intending delegates to the congress at Montreal, and

by all who have at heart the welfare of Canada. Major-Gen. O'Ryan | writes: "The Major-Gen. O'Ryan writes: "The value of a coast to coast highway, such as the Lincoln highway, is self-evident from the military point of view. Motor transportation has been developed so rapidly during the past few years, and there are now in use in all the states of the Union we love a will the states of the Union so large a num per of commercial trucks, that they constitute an important factor in any problem involving the transportation of men and supplies within the continental limits of the United States in time of war. It may be safely assumed that this wonderful development in mechanical transport has not reached its limit, and that the factor of motor transportation will each year have an increased value."

Character of Route.
"The efficiency, however, of moto transportation is largely dependent upon the character of the route over which the vehicles operate. It is the experience of every motorist touring in this country, that the good roads over which rapid progress may be separated from other roads of like character by miles of wretched country roads, and that the good time made in traveling on the former is frequently neutralized by accident and delay superinduced by the latter. I is this "crazy quilt" pattern of road-making which lessens the value of good road work in the United States so far as military uses are concern-

Aim of Lincoln Highway. "The Lincoln Highway project when completed, will avoid this objection thruout the entire length of the immense travel zone which it will tra verse. Few civilians realize how inadequate the great railroad systems of this country would prove for immediate concentration of large millitary forces with all their mules, guns, wagons, camp equipage impediments and supplies.

"The availability of a highway such

as that proposed would permit its use by fleets of motor trucks carrying supplies, the effect of which would be to relieve to that material extent the pressure on the railroads, and permit he transportation of a greater number of troops in a given time.

"Certainly the project would appeal to military officers whose studies force upon their attention the value of time in a defensive concentration."

## ARGONAUTS SCORED FIVE IN LAST HALF OF THIRD

Winless Wonders Were Great Until They Cracked-Mc-Camus in Line Up.

On their play Saturday night against T.R. and A.A. Argonauts did not instil any great confidence in their supporters that they can defeat Riversides at the week-end and tie up the group. They beat the tailenders all right, and beat mem by a score of 8 to 3, which is as big a margin as Riversides ran up inst them; but for two and a half

against them; but for two and a half periods the windess wonders made it a non and tuck struggle, then cracked and let Argos run in fave.

In the first two sessions T.R. and A.A. played the best game they have put up so har, and argos probably the worst. Then, as they have done in almost every game this season the blue shirts suddenly woke up and played their opponents off their feet. After having been checked back to the T.R. and A.A. goal for 40 minutes they all at once demonstrated their ability to break away from it; and after having failed to do any more than hold the opposing forwards in their attack they switched right around and bottled them up at every assault.

Jack McCamus was a welcome addition at right wing; the ex-St. Michael man wasn't in good condition, but he showed an improvement over Burritt. Leflamme and Knight were invincible at times, but the latter didn't get away with as many rushes as he did early in the season. Stewart in goal evidently did not play over his head against Riversides for he proved himself to be as good a goader as any with the exception of his predecessor, Vic Gilbert. Farr at centre was perhaps the real star for Argos. Smith was fine pick of the losers.

## THE BUSINESS MEN WON THE AMERICAN LEAGUE AFTER EXTRA INNINGS

in League Game and Beat Imperial Life.

Simpsons won the first game on Saturday night in the Indoor Baseball League from the Red Sox, by 10-6. This was an interesting contest, the game zeing in doubt until the last man was out.

Batteries—Simpsons, Howell and Patterson; Red Sox, Macdonald and Smith. The second game, between Business Men and Imperial Life, was the best seen at Central for years. An extra innings had to be played before the Business Men were returned the winners by \$-6. Business Men got the jump in the first innings by putting across six runs, but the Imperials came back strong in their half with four. Both twirlers were at the top of their form in the second, each striking out three men. Imperial tied the score in the third by scoring twice on heady baserunning. The score was 6-all at full time, and it was agreed to play an extra innings to break the tie. The first two men up for Business Men were easy outs, but Ardagh and Crowe raised the hopes of their supporters by getting on, and ending up the innings by two hair-raising steals home. Imperials could do nothing in their half, three men going out, one-two-three. Joe Beyers, the Business Men's shortstop, pulled the star play of the evening by nailing a hard drive from the rafters. Both Pitchers Peacock and Dr. Wood twirled great ball, each having nine strike-outs to his credit, while they received superb support from their catchers, Ardagh and Mimms. The umpires, Ike Owens and Pat Downing, handled a difficult game in fine style. The score:

CHICAGO, Feb. 12.—Jess Willard resumed training today. With the exception of slight hoarseness, the champion showed no signs of his recent near attack of grip. Walter Monahan, former groom of Jack Johnson, was on hand to take chage of Willard's training, and stepped two rounds with the big fellow. Jess was heated at the end, but ready for more, when Monahan made the big Kansan quit for the day.

Willard hasn't made up his mind when he will leave for New York. He is strong for home cooking, and, as he has just made arrangements to establish his family here permanently, he dreads the idea of restaurant food.

BASEBALL UMPS AT ST. THOMAS. ST. THOMAS, Feb. 12.—Hank O'Day and W. J. Byron, two celebrated National League umpires, arrived in St. Thomas leat night, en route from the baseball meeting in New York. The two umpires spent the day with Bob Emsile, the dean of National League arbiters. In the morning they visited the 91th Battalion barracks, and in the afternoon engaged in a curing contest with local men, among them being D. Fraser, R. Coffey, E. P. Cash, and A. B. McCoig, M.P., of Chattam.

"You should certainly be proud of the battalion of men stationed here. Never in my life have I seen a finer battalion." "Remember," said Mr. Byron, "all baseball umpires consider Bom Emslie a king among us, and St. Thomas should be proud of him."

Fleet-Footed Runners Steal Home Baseball Magnates Selling Clubs and Players and Preparing Trips to the Training Camps.

NEW YORK, Feb. 13.—The American League meeting here next Friday promises nothing of a startiling nature. Ban Johnson hopes before that time to straighten out the American League situation in Cleveland. The Somers interests raised the price of their holding to \$560,000 (a raise of \$90,000) immediately after the declaration of baseball peace, demanding most of the purchase price in cash. Meanwhile the chaotic condition in Cleveland barred that club from all opportunity of getting Federal League players who could have strengthened the club and the allurement of investment. Outside the Cleveland tangle there is little to occupy the American League magnates. They should finish their business in a day. The schedule is ready for public announcement. Some disposition is likely to be made of Home Hun Baker during the meeting. Both Connie Mack and Baker are said to be somewhat on the anxious seat of late. Comiskey recently was quoted from Chicago as having said that he had no great desire for the Trappe, Md., farmer. If the Old Roman was sincere in such a declaration New York should have little difficulty in buying J. Franklin at a fair price. Connie Mack put a valuation of \$69,000 on his slugger only because of the apparent rivalry be ween Chicago and New York for this particular star.

George Sisler, the University of Michigan all-round star of the St. Louis Browns, who plays first base as cleverly as he pitches, and covers the outfield best of all, will confine his baseball efforts to pitching this season. So he was informed by Fielder Jones. So George sat right down and wrote a little note demanding his instantaneous release to some other team.

In the forty years of the National League there have been forty no-hit games pitched. The first no-hit game was in the first year of the National League, when Bradley of St. Louis shut out Hartford. Richmond, pitching for the Worcester Club in the National League, pitched three no-hit games in 1879 and 1880. Galvin, Corcoran, Radbourne, Ward, Clarkson, Rusie, Stivetts, Philippi, Hahn, Mathewson, Lush, Maddox and Ames are among those credited with letting down their opponents without a safe hit.

The Brooklyn Club has decided to send Coombs, Cheney, Marquard, Pfeffer, Rucker, Smith, Miller and M. Wheat to Hot Springs, Ark., to arrive there Feb. 25, for a two weeks' course at the baths. The players will leave Hot Springs for Daytona, Florida, about March 8.

Officials of the Pittsburg Baseball Club have announced that the Pirates will again do their spring training at Hot Springs, Ark. The team will arrive there March 17, and will remain until April 3. Preliminary work will be done at Preliminary work will be done. son Springs, Ky., where the players

Billy Murray tells this one on Harry McCormick: Harry was playing contrefield for our citub when we had Charley Armbruster in left and Jack Walters in right. One day everything went bad, and the boys were muffing, everything At last McCormick and Walters had a collision. "When they re urned to the bench," said Murray, I said: "Harry why don't you and Jack yell T've got it." when you go to make a catch. "What's the use?" said McCormick. "We both muff them, don't we?"

## EAGLE AND BRINGHURST CAPTURE THE HANDICAPS

Fast Time Made in Feature Races Before Big Crowd at New Orleans.

NEW ORLEANS, La., Feb. 12.—With two \$600 handicaps on the card, today's racing program drew the largest Saturdey crowd of the season, thus far, to the Bair Grounds, and the racing was high class. Weather and track conditions were of the best order for the sport, and in one of the handicaps the track record was lowered and in the other it was almost equaled.

Eagle, Emil Herz's 4-year-old Yankee seiding, set a new mark for a mile and seventy yards when he negotiated the distance in 1.42 1-5 in the old Cutter Handicap. The best previous time was 1.43. Greenwood set a terrific pace in the race, the first six furlongs being run in 1.12 3-5 and the first mile was reeled off in 138 3-5.

Bringhurst won his third race of the meeting when he scored by a narrow margin over Hester Prynne in the Tokay Tea Handicap. While at the barrier for this race Skeer Face unseated Jockey Brazel and hurdled the fence near the three-quarter pole. He was caught, however, and finished third, being beaten less than a length by the winner.

After Jawbone won the third race he was 61d up from \$40 to \$705 by J. Sexton, but Trainer E. T. Colton retained him. The Bryson's performance in this race and not look good to the stewards and they called on Jockey I. Moattee for an explanation. They also interviewed Owner REST RACE—Three-year-olds and up.

## For Shire in England

Another remarkable auction sale of draught horses, indicative of a bright future for this branch of horse-breeding, is reported from England. Thir y-seven Shires, composing the entire stud of the late Leopold Salomans of Dorking, brought late Leopold Salomans of Dorking, brought \$61,925, an average of \$1673.

The nine staillons made an average of \$4030, and one of them. Norbury Menestrel, went to \$15,750, while another. King of Tandridge, by Locking Forest King, went to \$10,000. Norbury Menestrel is the sire of many winners at the London Shire Horse Show, and the high price for which he was sold is attributed largely to their success in the show ring. It was said that he had earned about \$6000 a year in the stud. said that he had earned about \$6000 a year in the stud.

At the recent sale of the late Lord Rothschild's Tring Park stud, when nearly fifty Shires made an average of about \$2500 each, it was noticeable that the show ring winners, the sires and dams of winners and the offspring of winners, were the ones that brought the highest

HOT SPRINGS, Ark. Feb. 12.—Two hundred business and professional man, who have, as members of the Business Men's League, come to the front as sponsors for the big race meeting to be staged here, beginning March 11, went on record this week to co-operate with Circuit Judge Scott Wood to eliminate from Hot Springs the bootleggers who are alleged to be doing a lucrative business, and to immediately close up establishments that are said to be operating in violation of the liquor law. Briefly, the stand taken by the league is that it does not intend to let anything jeopardize the meeting, and by co-operating with Circuit Judge Wood the success of the sport is certain.

worked out a while ander the skies of Georgia.

Twenty-nine of the players will make an early sart, reporting on Washington's birthday for their first Macon workout. These include seventeen pitchers, of whom eight are left-handers, four catchers, four infielders and one outfielder. In addition, Manager Donovan, Duke Farrell, Joe Kelly and Germany Schaefer will go south on the 22nd of this month. Only a few of the early birds, such as Pitcher Keating, who needs a long slege of training; Cy Jieh, and Nick Cullon, the ex-Fed s'ar, and Catchers Alexander, Nunamaker and Schwert are veterans. The rest are rookies.

The list of those who will report on the anniversary of the birth of the father of his country is as follows:

Pitchers—Ray Keating, Cy Pieh, Nick Cullon, left-hander; George Morridge, left-hander, from Des Moines; Dan Tingle, right-hander, from Indianapolis; Cliff Markle, right-hander, from Maco; Allen Russell, right-hander, from Richmond; Dazzy Vance, right-hander, from Rockmond; Dazzy Vance, right-hander, of the Texas League; William Piercy, righthander, from Wernon; om Blodget, left-hander, from Omaha; Ford Meadows, left-hander, from Chattanooga; Loban Shocker, right-hander, from Ottawa, in the Canadian League; Gilman Gay and George Finn, two left-handed semi-professionals.

Catchers—Leslie Nunamaker and Plus Schwert of last year's team; Welter Alexander, purchased late in the season from Kansas City, and Albert Walters, from Waco.

Infileders—Joe Gedeon, bought from the Feds, with Salt Lake City last season; Hal Cable, James McGovern and Howard Elliot.

Outfile'der—Dom Brown of Topeka.

These players will be joined on March 1 by Pitchers Ray Caldwell, Ray Fisher and Bob Shawkey; Infileders Wallie Pipo, Charles Mullen, Lutte Boone, Royer Peckinpaugh, Fritz Maisel and Paddy Buman, and Outfielders Hughle High, Luther Cook. Frank Gilhooley, Lee Magee, Tim Hendryx, Charley Miller, Gene Layden and Birdie Cree.

BIG FOUR LEAGUE.

The second series of the Big Four has developed into a tight race. One game separates the leaders from the tailenders. Two new records were hung up during last week. Sam Sohliman made a new high single of 256, and Athenaeums a new individual record of 1027.

Lady Paget, Wife of Former Minister at Belgrade, Now Prisoner of Bulgars.

DECORATED BY THE KING

Her Work for Red Cross Is Honored With the Highest Serbian Orders.

PARIS, February 12.—The more one reads of the work of Lady Paget, wife of Sir Ralph Paget, former Minister at Belgrade, the more one admires the heroism, energy and indefatigable efforts of the lady whom the Serbians worship as a saint, and whom King Pater, has described with the highest

Peter has decorated with the highest Serbian order. Now a prisoner in the hands of the Bulgars at Uskub, Lady Paget's life, since she married Sir Ralph eight years ago, has been one of devotion to the little nation now fighting the Central Powers for its existence.

Organized Hospitals.
When the earlier Balkan war broke out, she organized a hospital and set out on her mission of comfort and succor, and when the conflict began she went to Serbia with a Red Cross party and worked day and night with the wounded. She overtaxed her strength, was struck down with ty-phus, and was obliged to come home to recover. As soon as she was well

United States Health Officials Say Cold Will Spread Epidemic

WASHINGTON, Jan. 18.—The United States Public Health service sent a voley of groom to a rong-surrering nation today, and it incidentally knocked galiy-west a moss-grown tradition.

The clear, cold weather which ordinarily was supposed to be an initialible remedy for grip, will increase, instead of diminish, the present widespread epidemic, according to Dr. W. C. Rucker, Assistant

Surgeon-General.

"This weather is the worst thing imaginable with things as they now are," said Dr. Rucker. "People will huddle indoors, sneezing together, and the result doors, sneezing together, and the result will be that the epidemic will increase.

Our reports show that the epidemic already is increasing, and is now spreading to the smaller communities, while before it was largely confined to congested OPPOSITION TO MAKING

# OF NEUTRALITY LAW

C. A. Braun, Chicago Teuton, Taken Into Custody by Federal Authorities.

CHICAGO, Feb. 12.—Charges of violat ing the neutrality laws and impersoning the neutrality laws and impersonating a federal officer were placed against C. A. Braun, when he was arrested here today by representatives of the Federal Bureau of Investigation. The government officials would not reveal the alleged acts upon which the first charge was based.

It was announced merely that Braun had caused internal dissensions in the local branches of the Teutonic Sons of America and that he had been investigating neutrality and Mann Act cases under the guise of a representative of Hinton G. Clabaugh, chief of the Chicago office of the Bureau of Investigation. Braun deried the charges and would not discuss them.

## SCOTIA AND DETROIT HIGHER AT MONTREAL

Power Stocks Were Also Strong -War Bonds in Good Demand.

MONTREAL. Feb. 13.—On the local stock exchange yesterday the tone of the market was strong and the new Canadian war loan bonds were bought heavily. Transactions of the bonds amounted to \$169,000 par value. The price held firm at 97%.

Stocks were moderately active, more active than might have been expected to view of New York being closed. The

in view of New York being closed. The local market gave a free display of its bull-sh tendencies. Smelters stock was strong, rising 4½ points to a new high record level of 158½ and finishing at the best.
The most active stocks were Scotia

and Detroit. with transactions in each footing up about 500 shares. Both displayed a good tone. Scotia rallied 1½ to 99, and closed at the highest; Detroit scored a net gain of ½ to 84½, finishing at the best price of the day, and within ½ point of the highest for the movement.

Business elsewhere was in light volume but of ferrings were small and a time, but offerings were small and a little buying was effective in advancing prices, in some cases quite sharply.

The power stocks were firm to strong, Montreal holding at 226 ½ and Cedars at 72 ½, while Shawinigan advanced 1 to 124. To:al business 2538 shares; \$177,300

He points out that the supplies are naturally curtailed by the unsettlement in Mexico, but adds that the demand also is not as large as it might be, and with any purchasing by India higher prices would be inevitable. As it is, he says, practically all the silver taken out of the market at present is for coinage purposes and, in his opinion, under the circumstances, a steady prarket with only small fluctuations on rarket with only small fluctuations either way is likely, until there is a decided change one way or the other.

## RELATIONS OF ALLIES **CLOSER IN FUTURI**

Dinner Given in French Embassy.

PARIS, Feb. 12 .- A Havas despatch, dated Feb. 11, says that at the official dinner given in the French embassy. the addresses delivered by French Fremier Briand and Italian Premier Salandra, dealt chiefly with the closer future relations of the allies in the conduct of the war.

"It is in this union," said M. Briand,
"which is each day becoming closer, both in our military enterprises and in all the phases of our economic struggle against our enemies, that a

sure guarantee of victory lies."
In reply, Signor Salandra express the assurance that the exchanges of views which they had had with the French visitors, would bring about that unity which was indispensable to the action of the governments of the allies

#### THIRTY THOUSAND MEN MARCHING ON DURAZZO

This is Reported to Be Entire Strength of Austria's Attacking Army.

PARIS, Feb. 12.—A despatch from Rome says that, according to the Du-razzo correspondent of The Idea Na-zionale, the strength of the Austrian force now marching on Durazzo is estimated at 30,000 men. The rest of the invading army, the correspondent says, is engaged in guarding the country behind the advancing troops. He adds that the disarmament of Montenegro is not yet completed and parts of the little kindgom have not been occupied as a result of the vigorous resistance of the followers of General Martinovitch.

Will H. Orpet Admits Being With Girl Whose Body Was Found in Woods.

CHICAGO. Feb. 12.—Will H. Orpet, a student at University of Wisconsin, was formally charged today with the murder of Miss Marion Frances Lambert of Lake Forest, whose body was found in the snow Thursday morning in the woods near her home.

Chemical analysis showed death due to poison. Footprints in the snow showed that a man had walked beside the school girl thru the woods. Crpert, a former admirer, admitted that he had been with her in the woods and had then told her he intended to marry another. He declared he was innocent of her death.

One of the unceasing demands from the front is for Sox! Sox! Sox! No other one thing that we can send to the men there contributes so much to their comfort and well-being. Tomorrow is The Toronto World's "Sox Day." The Sox The World collects will be sent direct to the trenches through the Red Cross. So send them a pair, or a dozen pairs, or a hundred pairs!-But send SOME Sox anyway. Read this list of prices, see our Yonge Street window, and leave your order. We will send the Sox you buy direct to The
